The most sensational day in New York for a long time was Sunday, October 8, because on that day not a single person was accidentally killed. We presume there were the usual murders, however.

In Germany now a thousand marks are required for a boy's pair of shoes. Fifty marks will buy a cheap handerkerchief. A Berlin newspaper sells for six marks. The only thing that sells for a mark yet is a nail.

### A WORD WITH THE FARMER

No country can really prosper un less its farmers are prosperous, said S. Levitan, in an address to the far-mers the other day, and no farmers will be happy and successful unless the small villages and towns to which the farmers' families have access are highly prosperous. "Remember," highly prosperous. "Remember," said Mr. Levitan, "that you have an interest in building up towns and yillages. Stick to your home merchant. Patronize your village butcher.
Get friendly with your town banker—he's always glad to help and advise. Buy your furniture, your groceries, your implements in your nearest town. Don't let your village barber stown. Fyery cent you spend in ber starve. Every cent you spend in town remains in town. The value of your land, the ease with which you secure help, the happiness of your family, the likelihood of the boys staying on the farm, these all depend not on the farm so much as on the not on the farm so much as on the nearby village. By increasing the prosperity of the village you make your farm more valuable and your life more pleasant."

# THE TEN COMMANDMENTS

1. Have all flues and chimneys properly cleaned before attempting to use them.
2. Look very carefully at the chimney or flue, at the point just above the peak of the roof where the chimney goes through as the lower chimney goes through, as the lower part may have settled and the upper portion, being held up by the roof timbers, may have pulled away, leav-ing an open space or break in the chimney that will permit sparks slipping through into the attic or conceal

ed space.
3. Be sure that all flue holes that are not to be used this year have good metal stops, as innumerable fires are caused by sparks through papering over unused pipe holes in

chimneys.

4. Clean the ventillating collars around all flues, removing all lint, cobwebs and dust, leaving nothing in the ventilator, in this way permitting the air to cool the pipe where it goes

through,

5. Be careful that the supply of kindling wood is not piled up in the yard in, such a manner as to carry fire ot your house in case your neighbor's house should burn.

6. It is best to keep all lightwood.

6. It is best to keep all lightwood kindlings, and boxes in sheds, stables or basements, in orderly piles, and not to have papers or excelsior mixed

not to have papers or excessor maked with it.

7. Extra caution should be used in the handling of gasoline. In the winter months all windows and doors are closed, eliminating the possibility of the air blowing the inflammable vapours away.

8. Never use gasoline inside the house for cleaning, and when compelled to use it for any other purpose do not forget that you are hand-

pelled to use it for any other pur-pose do not forget that you are hand-ling a powerful explosive which may

endanger your life and property.

9. Remove all dry grass and leaves from your premises before some one carelessly throws away a 10. Do not dry clothing and in-flammable materials above or near

ot stoves. If you will obey the above com-mandments, you can prevent many fires and much loss of life and prop-

# WORDS OF PRAISE FOR BABY'S OWN TABLETS

No medicine receives such great praise from thankful mothers as do Baby's Own Tablets. Once a mother has used them for her little ones she will use nothing else. The Tablets are a mild but thorough laxative. They regulate the bowels and stomach; drive out constipation and indigestion; relieve colds and simple fevers; promote healthful sleep and make teething easy. Concerning them Mrs. Omer LeBleu, Maddington Falls Que., writes: "I am well satisfied with Baby's Own Tablets and will always use them for my little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

# EVERYBODY DANCE AND EXPRESS YOURSELF

(Dunnville Chronicle)

"The Dance" says the dictionary, amongst other definitions, is a "form of self-expression."

You said it, Die!

A form of self-expression.
Once upon a time you had to learn the intricacies of a step. Once there were rules to dancing. There was a time when some men and women did not dance because they couldn't learn the steps.

Everybody can dance now. There aren't any steps to learn. There are no intricacies left. All you do is get out on the floor and mooch around and express yourself.

Look at a modern roomful of dancen.

Look at a modern roomful of danc-

crowd of people doing as they please. The music is the same for them all. All beat of the music is the same for them all. All beat of the music is the same for all. But the only thing they are all doing is breathing. No two couples are performing the same steps or doing the same reperforming the same steps or doing the same steps or doing the same reperforming the same steps or doing the the same evolutions or even stepping at the same part to the beat.

There is one couple conspicuous by their grace and lightness. They are good dancers. But what is it they are dancing? The program says it is a fox trot. If that is a fox trot they are doing then everybody else on the floor isdoing a horse trot, a truck

a nice young couple indeed. But what of the others? There is couple expressing themselves as a horse step.

They gleam and glide and float amongst the rest of the heavy-footed crowd. They dip and curve and poise. They have hold of each other gracefully. The girl's skirt scarcely moves, yet they are speeding faster than any others on the floor.

But what of the others? There is a couple who are to the total and round on their soles, covering about one square yard of floor in the whole dance. # I Want to Put Dollars In Your Pocket

There is no need to make a special trip to town for a load of chop if you have a Toronto Farm Engine and Grain Grinder

of your own. And besides, it will save you a few cents on every bag.

Coarse or fine chop—for cattle or hogs—I would recommend the Toronto Grinder for efficiency and economy on your farm.

A Toronto Farm Engine, too, is a great labor saver. Attach it to your pulper, pump, cutting box, cream separator or fanning mill.

Think of the labor saved! It pays for itself in one winter. I'll put dollars in your pocket if you'll come in and discuss Toronto Farm Equipment with me.

MITCHELL, Oct. 16.— James Jones received word to-day of the death of his son-in-law, Frank A. Mann, who died in Toronto on Sunday. Deceased was well and favorably known in Mitchell, having been manager of the Merchants Bank here for about 18 years. From here he went to Perth and after several years as manager of the bank there his health began to fail and about two years ago he retired.

The body will be brought here for burial.

burial.

The late Mr. Mann was prominent in the Masonic order, and while in town was warden in Trinity Church for some time. His widow, formerly Miss Minnie Jones, a daughter of Mr. James Jones, survives.

Before going to Mitchell Mr. Mann was manager of the Merchants Bank, Watford.

# PANGS OF NEURALGIA

This Painful Trouble is Due to Poverty of the Blood

Neuralgia is one of the most painful maladies that afflicts humanity. The trouble is usually seated in the face or head, following the course of contest will begin at 10 o'clock and plowing will finish by four o'clock, after which the judging will take place. It is expected there will be between 4000 and 5000 spectators. About \$1200 will be distributed in prizes and donations. In the evening a banquet will be provided by the Petrolea Chamber of Commerce, ized by acute pains, sometimes steady at others spasmodic and darting. But whatever course it takes the pain is agonizing and almost unbearable. Medical authorities agree that neuralgia is due to poverty of the blood—that the nerves are actually being starved. It is further agreed that if the blood is purified and enriched the trouble will disappear. It is for this treason that Dr. Williams' Pink Pills have been so successful in treating neuralgia. They enrich the blood which feeds the starved, aching nerves and thus bring relief to the sufferer, whose general health is also improved. Proof of the value of these pills in cases of this kind is given by Mrs. M. Brown, R. R. No. 1, Warsaw, Ont., who says: "I have taken Dr. Williams' Pink Pills and can recommend them as being the best medicine I know of for neuralgia. Two years ago I had an attack of this trouble in the neck and shoulder. The repeated attacks of the pain were of such frightful intensity that my life was almost unbearable. I consulted two doctors and took their medicine, but without relief. I had taken Dr. Williams' Pink Pills years ago, when they helped me wonderfully, and I decided to try them again. Before I had taken more than a half dozen boxes the pain had disappeared, and I have since enjoyed the best of health, thanks to Dr. Williams' Pink Pills." the best of health, thanks to Dr. Williams' Pink Pills."

question, "What is Canadian literature?" again when you have read Robert Stead's latest and, so far, his greatest novel, "Neighbors."

There are few Canadians who are not familiar with this author's former novels, "The Homesteader," "The Cowpuncher," and "Dennison Grant."

This new book runs true to the Stead This new book runs true to the Stead tradition of a good story, real humor, pure love and a real idea—even some real mystery, and it has more of the real atmosphere of life in it, than any other which has come to us in a long while. It is true writing, and will add fresh laurels to the fame of this already well-beloved author. "Neighbors" relates how two families of young people, brother and sister, neighbors, in a little Ontario town; neighbors, fifteen years later on adjoining homesteads in the Saskatchewan country, find life and love. Their stories run smoothly until a

When this method is used, the distant list-ener is aware of the fact by hearing. the echo of the building in which the entertainment, etc., is taking place. Also other foreign noises such as the hum of the line; clapping of hands, gratis. coughing, etc. Of course during summer weather some days the accumulation of elecetric energy called ment, etc. static, which, if it were in considerable quantity would form an electric of more or less intensity; to be heard in the receivers held to the ear prevents these natural noises to be neard distinctly and also interferes with the clearness of the other parts of the programs. This is somewhat annoying, and amusing to a person who is listening to radio for the first time but the advent of the cooler fall weather effectively puts a damper on these irregularities and enables greater ranges to be covered. It will be interesting to note that a listener atus. at a distant receiver hears a speaker before the visible audience to which he is speaking. This is due to the fact that radio wave energy travels ex-
