Sca Air for Tuberculous Children

While never neglecting the relief of the individuals in suffering or misfortune, the association always keeps in mind the duty of using the knowledge thus gained to remove the causes of wretchedness and dependency. This is illustrated by what the association has lately done for children with tuberculosis of the bones and glands. There are four thousand five hundred such children in New York City, and sixty thousand in the United States. Not content with trying to ease the pain of these innocent victims here and there, the association has made a determined effort to find for them a permanent cure. A demonstration hospital was opened at Sea Breeze, where forty-five little patients were given the best of care, good food, and outdoor life in the sun and wind and bracing sea air. Their improvement has been so rapid that the association has been led to raise \$250,000 for a permanent seaside hospital. The city has granted a site at Rockaway Beach, and will assume the support of the work. Wide publicity has also been given to the needs of these unfortunate little cripples all over the land, and impetus added to movements to remove the conditions which produce them. The smile of little Joe has been a great inspiration in this campaign. He had to lie strapped to his frame for a whole year while the bones of his back were being healed. Now he is so lively that the only way to get his picture was to make him sit on a log and hold out his hand to catch a penny.—From "A Square Deal for New York's Other Half," by Fred D. Greene, Assistant General Agent of the New York Association for Improving the Condition of the Poor, in the Circle for July.

THE CASE AGAINST THE STANDARD OIL COMPANY.

CHICAGO, July 8.—The attorneys for the Standard Oil Company today declined to submit any further evidence in the investigation held on Saturday by Judge Landis in the United States district court. Judge Landis then announced that sentence will be passed on the Standard Oil Company of Indiana, which was convicted of using illegal railroad rates, on August 3rd.

Government Inspection of Canning Factories

The Chicago meat packers have acted with wisdom in their bestowment of a quarter of a million dollars on Chicago University to enable it to establish a thorough inspection of foods. In order to escape, so far as possible, any imputation of partiality to the donors, the university will organize an intercollegiate body of experts on which the leading universities will be represented. The packers hold that the government inspection is not always fair to them. It certainly would not mend matters between them and the public for them to obtain a different judgment from people looked upon as their own inspectors. They could not therefore have done better than appeal to a body that shall carry with it the warranty of the leading universities, the most independent and high-minded bodies in the land. We presume the function of the inspection service thus established will not end with a vindication of the Chicago meat packers, but will busy itself with the analysis of whatever foodstuffs and drinkstuffs may be presented to it, not only to determine their chemical contents and condition, but to pronounce with as high authority as modern science affords on their food values and their deleterious qualities.—Witness.

Obituary

MRS. VERNON MESSENGER.

The home of Mr. and Mrs. Thomas Bartheaux was made sad on Monday, July 1st, by the death of their youngest daughter, Mrs. Vernon Messenger, of Lunenburg, who died after three weeks of intense suffering at the age of thirty years.

Her remains were brought to her former home on Wednesday, where a large number of sorrowing friends met to pay their last tribute of respect to the departed. The many and beautiful flowers that were sent both testify to the esteem in which she was held, and to the grief of her friends. The service was conducted by Rev. C. H. Haverstock, who spoke very highly of the deceased. He was assisted by Rev. M. W. Brown, of Lunenburg. The pall bearers were: S. C. Hall, F. B. Bishop, W. M. Hatt and E. J. Schaffner. The interment took place at the Lawrencetown cemetery. Mrs. Messenger leaves a husband, two small children, an aged father and mother, three brothers and two sisters, besides a large circle of friends to mourn their sad loss.

MESSENGER-KELLEY.

A quiet but very pretty wedding took place at the home of Robert Kelley, Thorne Road, Bridgetown, on the afternoon of Wednesday, June 27th, when their daughter, Sophia J., was united in marriage to John Messenger, of Dalhousie West.

The ceremony was performed by the Rev. Mr. Beeks, only the relatives and immediate friends being present. The bride was given away by her father and was attended by Miss Adelia Messenger, sister of the groom. The bride was attired in white with veiling trimmed with all-over lace and ribbon, and carried a bouquet of apple blossoms. The bridesmaid was also dressed in white. The groom was supported by George Kelley, brother of the bride. The parlor was beautifully decorated for the occasion with potted plants and flowers and a lovely arch of evergreens and flowers, beneath which the bridal party stood, apple blossoms being a feature of the decorations.

After congratulations and good wishes were extended, all partook of a beautiful supper, which was daintily prepared. The presents were numerous and beautiful.

All the guests returned to their homes leaving their best wishes with the happy couple for a long and prosperous wedded life.

Mr. and Mrs. Messenger will reside in West Dalhousie.

Grand Rally of Temperance Workers at Granville Centre.

Annapolis County District Division of Temperance convened in Seymour Division Hall at Granville Centre, on Thursday, July 4th, at 2:30 p. m. This building, built and owned by the members of the Order, is the largest and finest structure of its kind in the County, and reflects a great deal of credit upon those who labored so earnestly to secure its completion.

D. W. P. Bates, G. Whittman presided over the meeting. Credentials Com. reported representatives present from the leading Divisions in the County, viz., Clarence, Olive Branch, Belleisle, Seymour, Grandworthy Patriarch, Rev. G. A. Lawson, of Halifax, who was welcomed by the meeting to this part of his jurisdiction, and invited to a seat on the platform.

The conductor also introduced the head of the Order in the province, our Grand Worthly Patriarch, Rev. G. A. Lawson, of Halifax, who was welcomed by the meeting to this part of his jurisdiction, and invited to a seat on the platform.

Brother Lawson then addressed the meeting, expressing his pleasure at having the privilege of attending this session and meeting the representative temperance workers of the District of Annapolis.

The state of the Order in the County was reviewed, showing eighteen Divisions to be in good working order.

Committees were appointed to attempt the resuscitation of Regina Division at Paradise, Roberts at Annapolis, the Division at Lower Granville and Green Leaf at Upper Granville.

Bridgetown Second in the Ward Trophy Match

The "Ward Trophy" competition which was held at the Alderbrook Range, on Friday last, brought together eight teams composed of the Cream of Nova Scotia's Rifle Shots, and resulted in one of the most interesting and keenly contested matches ever held in the province, despite the fact that a varying light and tricky fish tail wind kept the average very low. Some good individual scores were made, the highest being to the credit of Mr. S. Cole, of the 1st C. A. Team, Halifax, whose score of 96 under the existing weather conditions was a splendid record.

The only two positives of the match were put in by Mr. J. E. Bartheaux, of the 1st Truro Team, and Mr. H. I. Cole, of the Kentville Club, both being made at the 500 yard range. The Trophy was won by the 1st Truro Team, with Bridgetown only twelve points behind. The 6th and 7th teams and the 6th taking fourth place. Following are the scores of the winning team and the home team:

THE DOCTOR AWAY FROM HOME WHEN MOST NEEDED.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by W. A. WARREN, Pharm. B.

A Little Girl of Alderman J. B. Douglas, Halifax, strayed in the woods near Bedford on Monday, and for thirty hours no trace of her was found. Two hundred men went in search of her during Monday night, and on Tuesday morning the force was increased by two hundred soldiers and the Mayor and City Council. Two privates—Ward and Power—discovered the little girl sitting very demurely on a stump near Kearney's lake. She was not excited in the least. It rained in torrents during the previous night and the child's clothing was dripping wet. The announcement of her recovery was quickly made and the joy occasioned by it can better be imagined than described. The child was very hungry, but did not realize the danger she had passed through. She had lost her shoes during her wanderings. She was three years old.

Suggestions to Parents

(Hints Journal Editorial.)

A few days ago, as June was drawing to a close, might have been noticed the anxious faces of the children. The final of their hopes and aims was at hand. All the year they had worked to grade, and as the last days of the school term came to an end, a radiant expression was seen in most faces, because their hopes of promotion were realized, they had obtained it. But what meant those sad, and in some cases, almost frenzied, looks? Failure to grade.

Now this sets us thinking about the subject of Education. What is it? Drawing out the power that is latent in a person. You may pour in as much as you like, until the mind is nothing but a receptacle of facts, but that is not education. Then there is other than mere book-learning, and many a boy who cannot do much at his books, but who has a talent, and will become a happy and useful man.

Some parents and guardians make life miserable to children by forcing them to study, and to try to keep up with those of their school mates who are better endowed mentally. It is like harnessing together a cart horse and a thoroughbred, had for both.

Trades are calling out for supply fingers and brains adapted to that kind of work. Many of our young people are longing to be allowed to throw aside the books and take up some beloved branch of industry. It seems a great pity not to give them freedom of choice. Work which we love we do much more efficiently than that which is drudgery to us. Don't let us spoil our good carpenters and dress makers, etc., by forcing them to pursue what is hateful to them.

Every child should be made to learn a certain amount of book lore, in order to fit them for the journey of life, but wise parents will not urge their sons and daughters beyond their mental capacity.

ENGLAND HAS NEW CRUISER.

GLASGOW, June 27.—The armored cruiser Inflexible, sister ship of the Indomitable and Invincible, of 23-knots speed was launched at Clydebank to-day. She is of 17,550 tons displacement, is 530 feet long, and cost \$8,500,000. Her main battery consists of eight 12-inch guns, and her armored belt is six inches thick.

RECORD OUTPUT FROM DOMINION CO'S COLLIERIES.

SYDNEY, June 28.—The output of coal from the Dominion Coal Company's collieries yesterday was 15,300 tons. At the present time the daily output of the company is in excess of what it was last year, notwithstanding the fact that the Hub colliery is closed down. The Hub colliery will be in readiness to produce coal early in August, and that together with the improvements elsewhere will materially increase the daily output.

NO CHANGE IN THE 'ERISCO TELEGRAPHERS' STRIKE.

SAN FRANCISCO, June 28.—The telegraphers' strike bears no change on the surface.

L. M. Miller, junior, assistant general superintendent of the Western Union, says the company has seventy operators at work. He declares everything is satisfactory as far as the strike was concerned.

PROXIMOUS GRAIN CONDITIONS REPORTED IN MANTOBA.

TORONTO, June 28.—Promising conditions in every part of the province of Manitoba are indicated in a bulletin issued by the department of agriculture at Winnipeg. A falling off is reported in the acreage of wheat, however, but this is counterbalanced by a substantial increase in the area of barley. The wheat acreage last year was 3,141,527 acres against 2,353 this year. This year there are 1,213,386 acres as compared with 1,175,961 last year.

CELEBRATES HER 84th BIRTHDAY.

With the family circle unbroken about her, Miss A. L. Wilson, on Sunday, celebrated her 84th birthday at the home of her nieces, Mrs. J. S. Hill and Mrs. A. J. Foster, at 114 Bowler street.

At the age of twenty-nine she came from Nova Scotia to this country, where she has since resided in Amherst.

A devout Christian, she has been a member of the Baptist church in Amherst for the last fifty-two years.

The day was begun on Sunday by her visiting the East Baptist church, where she enjoyed the service as much as any of those present.

Upon her arrival home she was greatly surprised to find awaiting her, her sister, Mrs. G. W. Wilson, Mr. and Mrs. William Brown, of Annapolis, and Mrs. J. M. Wilson and family, of Peabody; Mr. and Mrs. H. P. Foster and family, of Lynnfield. Miss Wilson was also greeted by her twenty-four nieces and nephews. She received many tributes of love and respect from those present, and her dear old face beamed with joy as she looked at each present that had been left.

Ice cream and cake were served. The reception closed with singing. Miss Wilson's voice, still strong and clear, sounding above the rest. She is in the best of health, and journeys about the streets as if she were many years younger.

EMPIRE LINIMENT

A gasoline tank rarely explodes. I cannot unless it contains gasoline vapor and air in explosive proportions, which their condition is almost never present. It does not explode because it contains too little air or too much gasoline. Even if a tank of gasoline were to burst from heat applied to its exterior, the confined heavy gas would not explode in contact with flame or fire, but would burn instead. True, a tank of gasoline with no vent could do considerable damage were it to burst and throw burning oil and flaming gas about, but one thousand gallons of gasoline in a vessel's hulls would not be so dangerous from explosion as a hundredth of that amount. The larger quantity would burn rapidly, while the smaller would be sufficient, if mixed with the proper amount of air, to utterly demolish almost any boat.—Scientific American.

THE RAILROAD WRECKS

Railroad men have a clear-headed and capable champion in Grand Master Morrissey of the Brotherhood of Railroad Trainmen, says the St. John Times. In the discussion of the causes of railroad wrecks some writers, representing, of course, the companies operating the lines, have charged that the formation of unions among the railway men has been subversive of discipline and has been a contributing cause to the frequent and terrible disasters of recent years. To this Mr. Morrissey replies:

"There is not a railroad labor organization that can justly be charged with hampering the enforcement of safe operation by opposing discipline. It is unreasonable to believe an organization would object to the adoption of methods that would make the employment of men less hazardous, while death is constantly working over-time among them."

Mr. Morrissey places the blame in quite the opposite quarter. He says further—"There is too much business for the railroads; too much hurry in conducting trains, and too few employees to insure the proper degree of safety to employee and traveller." He points out that the state railways of Germany employ more than three times the number of men per mile that are employed on American railways. Admitting that the American railroad managers are capable men, he lays the blame on the system, under which they are compelled to produce certain financial results, or lose their position. His own view of what is needed is thus stated—"What, in my opinion, the American railway systems need to insure greater safety is more men to man and inspect the trains, to guard the switches and semaphores, and to patrol the tracks."

CANADIAN MINISTERS DINED IN PARIS.

PARIS, June 28.—The British Chamber of Commerce to-day gave a luncheon in honor of Sir Wilfrid Laurier, the Canadian premier, and his colleagues, Hon. W. S. Fielding and Hon. L. P. Brodeur.

PARIS, June 28.—Sir Wilfrid Laurier, Hon. W. S. Fielding and Hon. L. P. Brodeur, who have returned here from their trip to Italy, were entertained at luncheon by President Fallieres at the Elysee Palace yesterday. During the luncheon there was a lengthy exchange of views regarding a more advantageous commercial arrangement between Canada and France, negotiations for which can be considered as already begun. The Associated Press learns that the visit of the Canadian statesmen to Italy was unproductive of results. They have abandoned the idea also of coming to any agreement for the present with Belgium and Germany, but they still hope to accomplish as nothing here. Mr. Fielding will remain here until parliament takes recess. Premier Laurier and Minister Brodeur will leave Paris for London June 30.

ACCIDENTALLY SHOT.

Westville, July 1.—A dreadful and what is likely to prove a fatal accident occurred here this evening. A young man named Alexander Murphy was accidentally shot in the face by a gun in the hands of a man named Shabatong. The latter had the gun loaded with coarse salt and was firing at a dog when, in some manner, the charge lodged in Murphy's face, completely tearing out his right eye, shattering part of his face and skull.

Mr. J. C. McDonald was called and ordered the injured man to be taken to the Aberdeen hospital. From later reports there are slight hopes of his recovery.

CHILD CARRIED OFF BY TOY BALLOONS.

A despatch to the Record-Herald from Rockport, Texas says:

Mima, the two-year-old daughter of Mr. and Mrs. J. H. Moody, of Waco, was carried into the air yesterday by a bundle of toy balloons which an Italian pedlar on the verandah of the hotel tied around her waist, trying to please her. Before the spectators could recover from their surprise she was wafted out to sea, fifty feet in the air. A launch occupied by George Munniffe, of Denver, was in the bay and he came to the little girl's rescue. Firing at the bundle of balloons he punctured several of them and she began to settle downward, finally landing safely twelve feet from the water on the shore of St. Joseph's Island.

We are wont to associate the name slave with the emblems of a sordid calling. But it is the exception that always proves the rule. The slave in Gordon & Bennett's "A Royal Slave" which comes to the Opera House Thursday, July 11th, is a descendant of kings, his royal blood showing in his distinguished bearing and kingly grace.

The first native cultivated strawberries of the season were brought into market by Miss Lucy Chesley last Friday for C. L. Piggott and brought 20 cents a box. A number of growers had small quantities in the market on Saturday, and they were sold at 15 cents a box, but there were not nearly enough to supply the demand. The crop is from a fortnight to three or four weeks later than previous seasons. They have been known to be plentiful on July 1st at seven cents a box but usually sell at ten on that date.

The house of W. H. MacKenzie occupied by J. Thompson caught fire early Friday morning at half past two, from the kitchen fire, and considerable damage was done before the fire was discovered. Mrs. Thompson was awakened by the heavy shower which took place at that time, otherwise results might have been more serious. On going into the kitchen she found it full of smoke. Arousing Mr. Thompson they were able to subdue the flames without calling out the fire department. It was necessary to cut into the walls about the fire to a considerable extent.

Rev. George F. Johnson, R. A., arrives on Friday to succeed Mr. W. H. Langille as pastor of Providence Methodist Church. "In Mexico" is only one of the numerous song hits in "A Royal Slave" which will be seen at the Opera House, Thursday, July 11th. Perhaps no better idea of the rich, pulsing nature of Mexican life could be had than by hearing those splendid melodies, characteristic of the people and the time. Sung by our vocal singers, they carry their listeners back to the days of Maximilian in the land of sunshine and of flowers.

There are 265,000 people in Canada today, who really KNOW "Fruit-a-tives" to be a splendid remedy.

Four years ago, "Fruit-a-tives" were an unsolved problem in the brain of one of Canada's leading physicians.

Today, over a quarter of a million of Canadians know them for what they are—a positive cure for Stomach, Liver, Kidney, Bowel and Skin Troubles.

"Fruit-a-tives" have cured stubborn cases of Constipation—Chronic Rheumatism—Skin Eruption—that defied ordinary remedies. The cures of Biliousness, Indigestion, Headaches, Pain in the Back, Nervousness and Irregularity of the Bowels—are numbered by the thousands. "Fruit-a-tives" move the bowels just as fruit moves them and leaves them healthy.

"Fruit-a-tives" are fruit juices and tonics in tablet form—with the increase medicinal action made possible by the chemical change which takes place when the juices are combined.

WHITE EVENING CLOTHES.

Chicago, June 25—White evening clothes have appeared in Chicago. Banker John Parson, at the June fete of the Indiana Society, which was held at Pleasant Home, Parson's mansion in Oak Park, last night, wore such a suit.

It was of pure white, faced with white satin. It was long in the tails and short in the front and gave every indication of having been made by a tailor under instructions from the wearer.

It included a wonderful waistcoat of pale cream satin, embroidered with delicate roses of near pink and light blue.

Mr. Justice Graham gave judgment in the case of the Indian Trust company vs. Union Bank of Halifax. It was in favor of the bank, and carries costs. The amount involved was about \$16,000.

GOVERNOR YARDMAN GETS RELIGION AT A REVIVAL.

JACKSON, Miss., June 27.—Governor Yardman last night professed religion in a dramatic manner at a revival union revival meeting being conducted here by Evangelist J. O. Cates. The governor has attended services regularly, and last night, after Cates had made a powerful plea to sinners warning them to prepare for the hereafter, Governor Yardman, in the presence of more than 3,000 spectators, strode to the altar. He faced the congregation and said: "I surrender all to the cause of Christ and His service. Henceforth I will live a better man."

The governor, weeping like a child, then kissed and spent several minutes in prayer. The revival has worked the people to a high pitch of enthusiasm. Cates worked himself into a frenzy several nights ago, and collapsed in the midst of a sermon in which he attempted to describe the horrors of hell. It was necessary for several of the congregation to carry the unconscious evangelist to his apartments on a litter.

Stop and Think

To get into the habit of worrying is a pretty sure way of driving the sun out of the sky. To worry when there is really something that is worth worrying about is bad enough, but to worry when worry is unnecessary is a hundred times worse. Yet, strangely enough, there are lots of people who spend their lives in worrying about a great many small and unnecessary things. The simple fact is that worrying is a habit, and people contract it just as they contract the habit of idling, of smoking or of swearing. Once they get the habit they can't seem to help themselves, and yet it makes them unhappy to give way to it.

To be happy and contented with life and to get the most out of it, one must also learn to control his temper, for the loss of temper is not only a sign of vulgarity and lack of self-control but it is an absolute waste of time. The angry words, the pugnacious tone of the voice, the shock of the nervous system that cannot be avoided when one goes "off the handle"—all except a penalty that every man must pay. They do not make him happy, and as everybody knows, anger is bad for the health. In other words, a loss of temper is just so much loss of life's good time.

It is very easy to determine this matter if one will only stop to think about it. The things that we do have a certain effect upon us. They do or they don't make us healthier; they do or they don't make us happier. If they fail to meet this requirement every moment we devote to them is just so much wasted time in life. And we can't afford to waste this time.—New York Globe.

Bishop Warrell, of Nova Scotia, has likened the ravages of the caterpillar in public life to those of the brown-tail moth in the orchards. The simile is hard on the brown-tail moth. It only does material harm. The caterpillar demoralizes as well as steals.—Montreal Gazette.

Quebec is raging a vigorous fight against tuberculosis.

In March last a by-law was passed providing that all milk cows coming into the city be tested before being sold, and in April another providing for the testing of all cows within the city every six months, the city paying two-thirds of the loss. Since then one hundred and sixty-three tuberculosis cows that have been sent out of Quebec have been sent to Montreal, and are now in use there.

Wedding Bells at Annapolis.

Annapolis, June 26.—The marriage took place this morning at St. Luke's church, by Rev. H. How, of Miss Mary Grace Johnson Harris, youngest daughter of Mr. and Mrs. Augustus Harris, and Allan Davidson Jost, of Sydney. The bride was attended by Miss Mary Harrington as maid of honor, and Miss Carrie Harris, her sister, as bridesmaid. They wore dairy cream net and Valenciennes lace gowns over pink and blue tulle respectively, with large picture hats to match, and carried pink roses. The groom was supported by his brother, Frank H. Jost, of Montreal. Fred W. and Louis Harris, brothers of the bride, acted as ushers. The church was tastefully decorated by friends of the bride. Mr. and Mrs. Jost left by the Flying Bluebonnet for Halifax and a canoe trip through the Bras d'Or lakes, and will later take up their residence at Sydney. The bride's going away gown was navy blue chiffon with smart little hat to match. The groom's present to the bride was a gold watch and chain. To the bridesmaids, baroque pearl pins, and to the groomsmen and ushers, pearl scarf pins. Among those present at the wedding were: Mrs. Jost, Halifax, mother of the groom; Mrs. Edith Jost, Vancouver; Mrs. George C. Johnson, Wolfville; Mrs. Rupert Pratt and little daughter, Toronto; and Miss Maizie Harris, Boston.

Great American Humorist Visits England

LONDON, June 26.—Mark Twain was the guest today of the Pilgrims at luncheon. There were only two toasts, "King Edward and the President of the United States" and "Our Guest, Mark Twain."

Augustine Birrell, chief secretary for Ireland, in proposing the latter toast, said that Samuel L. Clemens was known to all good men and women in both hemispheres and to all boys and girls who are good for anything as Mark Twain. The dead authors, he said, were a mighty army. They abounded on the shelves, but Mark Twain was the finest specimen extant of the living author. They all loved him and were there to tell him so. He was not going to say what the world a thousand years hence would say of Twain, but he was speaking for the men and women of today and their children—to say what Twain had been to them.

He remembered in 1867 buying a copy of "The Jumping Frog," in the preface of which Mark Twain was described as "The Wild Humpback of the Pacific Slope" and "The Moral-ist of the Main," but the author had proved to be an influence in dissipating national prejudice, and would leave the world richer than he had found it.

Mr. Clemens, replying, said that Secretary Birrell had touched very lightly upon his position as a moralist. He was glad to be recognized as such, because he had suffered since he had been in England. When he came here, he said, he saw a placard announcing "Mark Twain Arrives" and "The Ascent Cup Is Stolen," and he had no doubt that his character had suffered thereby. He was quite sincere in his protest, as he never got the cup, because he never had a chance to get it.

In a similar bantering mood he told a story after story. Becoming serious, he pathetically referred to the loss of his daughter. Concluding, he said: "I have received since arriving hundreds and hundreds of letters from all conditions of people in England. There is compliment and praise in them, but, above all, there is the note of affection, and affection is the most precious reward a man can desire, whether for character or achievement. These letters make me feel that in England, as in America, I am not a stranger, not an alien, but at home."

He then bowed his thanks, said "I have to catch a train for Oxford" and withdrew, while the hosts cheered with an enthusiasm unusual among Englishmen.

speeches a telegram of congratulation, signed "The Undergraduates of Oxford," was read, as was another from the New York Pilgrims.

In the centre of the table was a plaster statue of Mark Twain in a pilgrim's robe, holding a mammoth pen and leading a jumping frog by a string. The programme included a poem by Coen Seaman, editor of Punch, which follows:

Pilot of many Pilgrims since the about, "Mark Twain,"
That serves you for a deathless sign,
On Mississippi's waterway,
Rang out over the plummets' line.
Still, where the countless ripples
Laugh above the blue of halcyon seas,
Long may you keep your course unbroken,
Buoyed upon a love ten thousand fathoms deep.

The presence of Mr. Birrell and many other members of parliament was particularly complimentary, because they were obliged to absent themselves from one of the most important and interesting debates of the session.

OXFORD, England, June 25.—Mark Twain yesterday was an interested spectator at the opening of the elaborate pageant illustrative of events in the history of Oxford and the university, which occupied seven months in preparation and in the rehearsal of which some three thousand performers engaged.

The spectacle was favored by fine weather and was pronounced the most brilliant and most effective of the kind ever held.

can say reading is my favorite. I am
very interested in the Henty books,
because of the manner in which history
is mingled with fiction, so as to
make it both interesting and instructive
for boys. I especially admire the
spirit of adventure which is the charac-
teristic of all his stories. At present
I am reading a serial story entitled
Six Nighs, describing England in the
thirteenth century and the lives led by
the nobles and clergy at that time. I
will now have to close my letter for
this time, and will conclude with my
solutions of the puzzles.

I remain,

Yours truly,

EUGENE S. ROOP.

Age—11 years.

Dear Puzzle Editor—

As we were asked to write about
something that interests us in work,
play or school, I will take for my
subject tennis.

Tennis is a very interesting game
not only for those who play but for
the lookers on.

There is excellent exercise in playing
tennis as nearly all the muscles of
the body are in use.

No doubt this is one reason it is
such a popular game with both lady
and gentleman.

A tennis court is very ornamental
to a home and I am sure there is
nothing in the play line more inter-
esting than a nice tennis tournament.

Now boys and girls, hoping we may
hear from some of you through the
Puzzle Corner.

I am,

Yours truly,

"EVANGELINE."

Just Our Own

In response to the letter which follows
we gladly offer the mothers and
housekeepers a corner "for their very
own," where they may freely exchange
experiences. We shall call the corner
"Just Our Own," and the Hostess
hopes to meet many of you there
within the coming year. Anastasia
has our thanks for the suggestion.

Dear Monitor—

You have been generous enough to
give our little folks a column of the
Monitor for their very own,—could
you not spare their mothers also a
column just for their own? We
mothers often have ideas we should
like to exchange and helpful hints we
should like to pass on to beginners in
house-keeping. Sometimes we have
problems which we should like to
have help in solving.

Just to begin with may I tell you
how much our family enjoy salads
these warm days, and give you my
recipe for the dressing which is very
simple and delicious? It is as follows:

SALAD DRESSING.

Put half a cup of vinegar in a
sauce pan with half a teaspoon of
mustard, a pinch of salt, a small tea-
spoon of sugar, a piece of butter the
size of an egg, (use olive oil if you
prefer) and bring to a boil, stir in
quickly a beaten egg and boil until it
thickens. Take from the fire and add
half a cup of cream, sweet or sour. If
you have no cream it is very good
without, but you should then use an
extra egg, and a little more vinegar.

We use this dressing on chopped
chicken, veal or lamb, salmon or
other fish, or on plain lettuce, some-
times adding chopped hard boiled egg.
I hope some one will try it and tell
me how they like it in her family.

Can any one give me the recipe for
making little oatmeal crispies or
wafers?

Don't you dislike to wash greasy
pans? I do. Let me tell you of a
little trick I have. After emptying the
pan I put corn meal in the pan, then
scrape meal, grease and all into the
chicken feed kettle.

I hope I have not worn out my
welcome,

ANASTASIA.

The education of the heart can be
given a child by any mother, however
humble and poor she may be. Child-
ren are merely thoughtless, and se-
rious little animals, until their higher
natures are awakened by training.
They do not understand the meaning
of usefulness until it is taught them.
This is the work for every
parent to undertake as soon as a
child can reason or understand.

However the gentleman who was promoting the work decided that for the present he would suspend operations here. In reporting this venture we have stated facts and facts alone.
