## NEW BOOK ROOM WILL BE BEST IN WORLD

**Million Dollar Building Soon to Be Started on Beverley House Site, Which Will Be Greatest Religious Publishing House in the World—Ministers Buy Bonds.**

Toronto is to have the greatest religious publishing house in the world within two years. The Methodist Book Room board will put up a million dollar building on the site at the southeast corner of Queen and John streets.

The building committee has been authorized to raise four hundred thousand dollars for this year's operations, and four hundred thousand dollars next year. This \$800,000 and the sum obtained for the Wesley Building in Richmond street, will place over a million dollars at the disposal of the committee.

Methodist ministers throughout the Dominion have for some weeks been sending in a perfect golden shower of money for the gift-edged five per cent. Book Room Building debentures.

The plans are being prepared as rapidly as possible in accordance with a report by Rev. J. J. Reddick, who spent about a month recently visiting the great publishing houses of New York and other cities, for the best ideas exemplified in their buildings and equipment.

**Work Starts Soon.**  
Work will be commenced as early as possible this spring, so that the new Methodist connectional headquarters may be available at the earliest possible date.

Owing to the rush of orders, the present Methodist book room and printing house is not able to keep pace with the demands upon it, and the contractors for the new building in West Queen street will be required to construct to erect the structure in the shortest time consistent with the best workmanship.

**Enormous Profits.**  
It is expected that the erection of the Methodist building on the Beverley house site will revolutionize the character of the district from a business standpoint, owing to the enormous output of the publication department. Last year's business, including the recent holiday trade, was greatly in excess of any preceding year under Rev. Dr. Briggs' stewardship, and this year's profits will be enormous, amounting to a vote of thousands of dollars to the superannuation fund.

The Methodist ministry regard the new building debentures as the best investment for their savings that the market affords.

### COST OF LIVING CLIMBS.

OTTAWA, Jan. 16.—(Can. Press).—The index number of wholesale prices rose slightly in December, standing at 135.2, as compared with 134.8 in November, and 134.4 in December, 1911. Committees advanced slightly in nearly all groups, the only decline of importance being in grains and feedstuffs. In retail prices, the upward movement was not as strong as during the past few months, meats and dairy products being steadier.

## GREAT DEMONSTRATION MARKS HOME RULE BILL'S PASSING: MEASURE IS BEFORE LORDS

**Substantial Majority of 110 Given in Commons After Series of Brilliant Speeches—Redmond Recalls Historic Words of Gladstone—Law Declares Rebellion Will Be Justified.**

LONDON, Jan. 16.—(Can. Press).—After a long, stern battle the home rule bill passed the house of commons tonight by a majority of 110. It was later read for the first time in the house of lords.

There were two divisions in the lower house, Mr. Balfour's motion for its rejection was defeated, 258 to 268, while the third reading was carried by a vote of 367 to 257, one member of each side having left the house in the interval.

The result of the division was too much a foregone conclusion for a tremendous demonstration, but Irishmen inside and outside of the house did their best, and assisted by the Liberals and Laborites, gave the measure for which they had waited and worked so long a good send-off on its way to the house of lords, where its fate is not certain.

The division was preceded by another series of brilliant speeches by the political leaders, among whom were Frederick E. Smith and the Solicitor-General, Sir John A. Simon, two of the cleverest among the younger members of the veterans' John E. Redmond, Timothy Healy and Augustine Birrell, chief secretary for Ireland.

**House Was Crowded.**  
The house was crowded throughout the day. The Nationalists were only one short of their full strength, Joseph P. Nannetti being prevented from attending by a paralytic attack which he suffered today. Several of the older Nationalists, who are seldom able to attend, came over from Ireland for the division.

The Laborites and Liberals also were not far below their total membership. The galleries likewise were filled to their capacity, those occupying seats including many dignitaries of the church and the Bulgarian peace plenipotentiaries.

**Nationalists Jubilant.**  
When the figures were announced the Nationalists waved hats, handkerchiefs and papers and cheered lustily for Premier Asquith and Mr. Redmond. The latter, who is usually impassive, was carried away by the enthusiasm of his followers, and entered into the spirit of the demonstrations as enthusiastically as they.

Those who crowded the galleries roared and followed this by cheering the bill itself as a copy was handed by an official from the commons to the lords.

The upper house met especially to receive the bill and formally passed it after the Irish demonstration, but for some time a large force of police prevented any attempt at an organized demonstration, fearing a clash between the opposition factions. The Nationalists' songs and cheers brought forth counter cries from the public who gathered largely out of curiosity.

An anti-home rule demonstration was held in the streets of Belfast tonight and a copy of the bill burned amid deafening cheers. Intense excitement on Page 7, Column 1.

### A BITTER PILL

## Sixteen Were Drowned When Steamer Sank

VIGO, Spain, Jan. 16.—The British steamer Veronese, with 139 passengers on board, was wrecked at an early hour this morning off Leixoes, the outlet of Oporto. Eighty-four of the passengers were saved by life lines from the shore, but it is reported that sixteen were thrown out of the basket and perished.

The steamer Hollandia stood by the Veronese all morning, but the tremendous seas made it impossible to render any assistance. The stranded vessel could not be reached by boats, but finally the life-savers managed to get their lines aboard.

The Veronese was bound from Glasgow to Brazil and thence to New York. She is owned by the Lamport and Holt Line.

## TRINGLEADER OF DARING GANG CAUGHT IN NORTHERN WOODS AFTER CHASE ON SNOWSHOES

Jack Weston, alias Wilson, Wanted in Toronto For Burglary, Highway Robbery, Shooting With Intent and Other Offences, Captured Single-Handed by Provincial Constable.

Tracked by the city detectives to the borders of Northern Ontario, followed over miles of open country into the heart of the bush by a lone provincial constable, are the events that preceded the arrest of Jack Weston, alias John Wilson, 55 miles north of North Bay, yesterday morning.

Weston is wanted in Toronto charged with highway robbery, shooting with intent, burglary and numerous other offenses. He was taken into custody on a warrant issued by the Toronto police. This was turned over to Jos. E. Rogers of the provincial police, who was notified where his man was. The police had been warned that Weston was armed with a rifle and a revolver, also a good supply of ammunition. It was also understood that he would not be safe to use his weapons if approached by an officer.

Provincial Constable Markie's capture was all the more thrilling, because he could not summon help from any police post.

**Traced to North Bay.**  
Two weeks ago the city detectives succeeded in tracing Weston as far as North Bay. They learned that he had secured a job as second camp cook in the northern woods, thru a local employment agency. Information was received from another source by which it was learned that he had gone to a camp near a place called Sanika, about 43 miles from North Bay. Again came the news that the alleged "bad man" carried two guns.

Forthwith the warrant was turned over to the provincial police.

A few days ago Markie left Parry Sound and traveled as far as possible by train. Then he had to use a horse and sleigh for many miles. Snowshoes were the next resort, and by undergoing hardships such as are only known to the police of these districts, the officer arrived at Sanika.

He was forced to go nine miles further into the bush before he arrived at the camp where Weston was employed. It was here that the two camps in different directions from Sanika.

It was early morning when the constable reached the camp. Knowing the dangerous character of the accused, Markie took no chances in making his arrest. By stepping a rifle into the snow he surprised and soon had him in custody.

Then followed the long journey back to Parry Sound. Superintendent Rogers received a telegram from Markie last night saying that he had made the capture. He was accompanied by his man to Toronto, and is proceeding here.

**Gang Rounded Up.**  
By the arrest of Weston the city detectives believe they have cleaned up a notorious gang of robbers. Already Cyril Smith is serving a three-year term in Kingston after being convicted of robbing Rosedale houses of silver plate and jewelry. John Blandford was arrested last week by Detective Archibald as a second member of the gang, and Weston is said to be the ringleader.

Among other crimes it is alleged that Blandford and Weston walked down East King street, where they placed a clerk at the point of a revolver, got the money in the till, fired a shot and decamped.

It is also said the three robbed many residences in Rosedale and the residential districts, among them the homes of Colonel Gooderham, Mr. Mulock, Mr. Massey, and Mr. Traill.

Cyril Smith was arrested while attempting to steal a watch from a second-hand store by Detectives Sockett and Twigg. The value of the property taken runs into the thousands.

The guns that Weston was said to be armed with were taken from Pike's store on East King street, where that place was robbed. All the burglaries occurred in October, and Weston has been missing since then.

He is 32 years of age, is 5 ft. 8 in. in height, aged 24, and comes from New York State.

## PUBLIC RIGHTS SUFFER THROUGH APPEALS TO PRIVY COUNCIL: SHOULD ABOLISH PROCEDURE

**South York Member's Proposal of Absolute Powers For Canadian Courts Given Support by Other Speakers—Question Brought Up by Bill Asking Authority to Purchase G. T. P. Bonds.**

OTTAWA, Jan. 16.—(Special).—The feeling that municipal and provincial rights have suffered at the hands of the privy council and that Canadian statutes should be interpreted by the courts of Canada was voiced this afternoon by W. F. Maclean of South York in the debate which arose upon the resolution offered by Finance Minister White empowering the government to purchase at par future issues of Grand Trunk Pacific bonds guaranteed by the government.

A number of members agreed with the member for South York that the present right of appeal to the privy council should be greatly curtailed, if not eliminated.

Mr. Maclean reminded the house that the privy council in a number of cases involving the construction of contracts between the municipalities and public service corporations had reversed the Canadian courts and had construed the agreements to mean something far different from the general understanding of their meaning and intention. He suggested that it would be well for municipalities hereafter to insert a clause in all agreements made with public service corporations to the effect that the courts of the province should be the final interpreters of their meaning.

**Provinces Should Take Action.**  
Provincial governments, he said, in dealing with such corporations should insist upon a similar proviso, and the Dominion Government in all contracts with corporations which parliamentaries should insist upon a proviso to the effect that the decision of the supreme court of Canada shall in any matter of controversy arising thereon. This will not only say that the right to take away, but he contended that Canadians were capable of interpreting their own statutes.

**White's Rejoinder.**  
Hon. W. T. White, in presenting the resolution for authority to purchase future bonds issued of the Grand Trunk Pacific, explained that the government was being compelled to pay nearly five million dollars in cash to the G.T.P. and might be compelled to pay eight million dollars additional. He said that the privy council, the law lords had reversed the judgment of the supreme court of Canada, and had decided that under the G.T.P. agreement the government was bound to implement by a cash payment the difference between the selling price and the par value of the bonds.

There were still to be issued bonds to the value of \$15,000,000 which would be guaranteed by the Government of Canada. These bonds, bearing three per cent interest, could not be marketed at more than seventy-five cents on the dollar. If they were sold to the public at this price the Dominion Government would have to pay \$8,000,000 to implement the difference between the selling price and par.

Saving of Two Millions.  
He thought it would be good business for the government to buy the bonds. By so doing the government would save perhaps a million, and he thought it most desirable that bonds guaranteed by the Government of Canada should not be selling on the market at seventy-five cents on the dollar.

**Several Liberal members, Hon. George Graham, Hon. William Suggs and A. K. McLean, Halifax, agreed today to support the resolution.**

Mr. Maclean (South York) asked whether the G.T.P. had applied to the government for any further financial aid, also as to whether the G.T.P. was operating any part of the National Transcontinental between Winnipeg and Moncton or intended to operate the whole eastern section when completed.

**Not Seeking Further Aid.**  
The prime minister said in reply that no application had been made for further financial aid, neither had the government and the company been able to come to terms respecting the operation of any of the completed portions of the road between Moncton and Winnipeg. As to the operation of the whole line when completed, he said that was a matter governed by a

## INTERNATIONAL ABSORBED BY HOME BANK

**Pellatt Syndicate Will Make Formal Transfer of Big Block of Shares, Following Dismissal of Charges Made Against Former General Manager of International.**

MONTEREAL, Jan. 15.—(Special).—The official announcement was made this evening that the syndicate, headed by Sir Henry Pellatt, which had accumulated 75,000 shares of the International Bank, had sold out to the Home Bank of Canada, and that G. Bird, formerly general manager of the International Bank, has been appointed supervisor of branches for the Home Bank in the Province of Quebec. The formal transfer will be made in a week or two, and the official statement is also made that the Home Bank will have at least two resident directors in this city, as that institution has been endeavoring to get foothold in the province for some time past.

About the time the announcement was made Judge Leet dismissed the case in the police court instituted by Mr. Ducoat of Paris, charging Bird with making a false return to the government.

This morning John Knight, secretary of the Bankers' Association, and Chief Accountant Muir of the Merchants' Bank, went before Judge Leet and assured the judge that there was nothing wrong with Mr. Bird's report, and that any bank manager would have done the same thing, hence his honor's decision declining to issue a warrant.

**Justice Steps Justified.**  
Judge Leet said: "In considering the importance of this case, the public persons involved and the necessity of protecting the public interest aroused, I think it proper that I should make a statement, part of which may be regarded as a personal explanation."

"Partly because Mr. Ducoat's information was second-hand and partly because of important results that might come to pass from the institution of proceedings, especially if it was found that Mr. Ducoat's information was not correct, I suggested that before a warrant was issued, which may be regarded as a personal explanation."

"This procedure was followed and certain witnesses examined. I came to the conclusion that the facts disclosed were quite sufficient to justify my issuing of information, and I feel I should have been thoroughly justified in giving information that a warrant which may be regarded as a personal explanation should be issued."

**Conviction Out of Question.**  
"This would not have meant that a conviction would have resulted, much less a conviction, but it would not have been the easiest and simplest thing for me to have done and thus have embarrassed myself in the matter."

Judge Leet went on to explain that he had been informed that negotiations were under way for the transfer of the business of the bank to a Canadian institution, and that if it were possible he should withhold his judgment for a while.

## TORONTO WOMAN WANTS DIVORCE

**Mrs. Ruby Foy Applies to Senate Committee For Dissolution of Marriage on Usual Grounds.**

OTTAWA, Jan. 16.—(Special).—An application for dissolution of marriage was heard before the senate divorce committee today, the petitioner being Mrs. Ruby Foy, who asked that her marriage with James Cuvillier Foy, an officer in the Royal Canadian Regiment, be annulled, alleging cruelty, drunkenness, misbehavior and non-support. The marriage took place in October, 1907, at Niagara Falls; the petitioner being 20 years of age, and the respondent 21 at the time.

The marriage was stated to have been a very unhappy one, and there has been several separations and reconciliations. The respondent's conduct, it is stated, became so bad that Mrs. Foy left him on Oct. 24, 1911, and has since resided with her grandmother, Mrs. A. S. Irving, 149 St. George street, Toronto.

It is alleged that respondent had been guilty of misbehavior in August, 1912, at the Pembroke House, Pembroke, and at McLaughlin's Hotel, Toronto.

R. A. Phipps, K.C., appeared for the petitioner, and W. R. White, K.C., for respondent. Only three of the witnesses were examined and the hearing will be continued tomorrow.

## PUBLIC POWER FOR MANITOBA

**Legislature Decides Unanimously to Consider Project Along Lines of That in Ontario.**

WINNIPEG, Jan. 16.—(Can. Press).—The legislature by a unanimous vote today decided to adopt the resolution introduced by T. C. Norris, leader of the opposition, asking that the public utilities commissioner be authorized to investigate and report as to the feasibility of proceeding as soon as possible with the Hydro-Electric power within the province, with a view to securing for all sections of the province, rural as well as urban, the benefits and conveniences now enjoyed by the citizens of Winnipeg on power distributed by the Hydro-Electric Company.

## UNITED STATES GRAVE MENACE

**W. F. Gockshutt Thinks German Peril Isn't Only One—Burrham Would Abolish Titles.**

OTTAWA, Jan. 16.—(Special).—Some spirited speeches were contributed to the night debate today, which was resumed by Dr. J. W. Edwards, the Conservative member for Frontenac. Dr. Edwards is a thorough Britisher and dealt severely with what he termed the separatist policy of Sir Wilfrid and the Liberal party.

Representing, as he does, one of the most thorough agricultural districts of Canada, he spoke for the farmers of the country. He said, "I was more interested than the farmers in having effective laws given to the navy, the exports of Canada, which came from the most thorough agricultural districts of Canada."

Mr. Bobin, Liberal member for Shefford, Que., said that the navy could be maintained in Canada. As conditions now were, he said, the most effective law would be to get the training and education they could not get in Canada.

### PRESIDENT OF FRANCE TO BE CHOSEN TODAY

Fight Is Apparently Between Poincare and Pams—Joint Caucus Indecisive in Results.

PARIS, Jan. 16.—(Can. Press.)—A president of France will be chosen tomorrow by the members of the chamber of deputies and of the senate sitting together as the national assembly at Versailles. The eye of the election finds the situation as respects the candidates as involved as it was at the beginning. The joint caucus to nominate a can-

didate for the presidency ended today without giving an absolute majority to either Premier Poincare or Jules Pams, the minister of agriculture, and it is impossible to forecast to-morrow's result, although apparently the election lies between these two officials. The third ballot taken this afternoon gave Premier Poincare 399 votes, while M. Pams received 318, and five votes went to three other candidates.

It is thought, however, that the Radical left may bring forward a new candidate, or revive the candidacy of Antonin Dubost, president of the senate, or ex-Premier Felix Ribot, if M. Pams does not win on the first ballot, for which, it must be remembered, the Socialist, Edouard Vaillant, stands.

**Why Outlook is Clouded.**  
It is explained that the uncertain situation is due to the fact that a large number of M. Poincare's supporters would on no account vote for M. Pams if the premier withdrew, while none of the opponents of proportional representation who support the candidacy of M. Pams would vote for Pre-

mier Poincare, if the minister of agriculture retired. Apart from these there are more than one hundred Right and Conservative Republicans, who were not present at the caucus, most of whom it is believed will vote for M. Poincare. And there are 75 Socialists who might vote for the premier on a second ballot on account of his championship of proportional representation, of which they are zealous advocates.

A large meeting of the members of the Republican Left was held late tonight under the chairmanship of ex-Premier Combes. At the opening of the sitting the discussion was exceedingly stormy.

During the course of the day the premier made several attempts to induce Leon Bourgeois to reconsider his decision, and accept the candidacy, but without avail.

### ONTARIO HYDRO NO 'HORRIBLE EXAMPLE'

Conservation Committee of New York Legislature Prepares Report Vindicating Beck Policy.

### FOR PUBLIC OWNERSHIP

Claim Made That Undertaking Has Been Decided Financial Success—Toronto's Showing Cited.

ALBANY, N.Y., Jan. 16.—Quite another story as to the success of the Ontario Hydro-Electric power system in Ontario is told in the report of the conservation committee from that state which was issued yesterday by the joint Ferris committee of the legislature.

In its report to the legislature, the conservation commission strongly urges the storage of flood waters and regulation of stream flow, and recommends the gradual development of the undeveloped water powers by the state and the transmission of electrical energy to the various municipalities.

**Hydro Makes Good.**  
The work of the Hydro-Electric Commission in the Province of Ontario is cited by Commissioners George B. VanKampen and John McCarty in the report as an illustration of the New York commission's plan.

"It shows," says the report, "that through the Hydro-Electric Commission many municipalities in Western Ontario are being furnished with electrical energy for light and power purposes, that the movement is not regarded as political, but as a great economic question. It is claimed that the project in Ontario is highly successful from a financial and engineering viewpoint; that the service is reliable and efficient; that the sale of electric current has constantly increased and prices have been continually reduced.

**Cities Make Profit.**  
"In Ottawa, where the plan has been in operation about seven years, the price for private lighting has been reduced to an average of 5.4 cents per kilowatt hour, and the price for commercial power ranges from \$9.00 to \$22.50 per horse power. As a result of these low rates, 98 per cent of the houses in Ottawa are lighted by electricity. On the same basis for lighting and with approximately 60 per cent reduction in charge for power, the municipal distribution in Toronto has earned a surplus in the quarter ending November 30, 1912."

**Some Results Explored.**  
Of this portion of the report Commissioner James W. Fleming expresses disapproval. "While this plan may have some future there, no present wisdom," he says, "I have not been furnished with evidence which convinces me that the operations of the Ontario Hydro-Electric Power Commission referred to in our report, have been a financial success. Until a detailed balance sheet of that commission has been obtained, I shall continue to withhold my approval of any plan which, without further investigation, may commit the State of New York to the expenditure of large sums of money, necessarily involving an increase in taxes and the expense of the state government."

### MOTOR CAR COMFORT IN STEVENS-DURYEA

Noise of Any Kind Has Been Almost Wholly Eliminated—Fine New York Display.

Motor car comfort is mental as well as physical, of course. Every little thing that can affect mental ease has been given attention in designing the Stevens-Duryea. For instance, noise of any kind has been almost wholly eliminated.

The characteristic sound of the fine motor car is made up of little notes, audible in themselves. By making the closest possible connection in all mechanical care every part, which comes in contact with another, by water-jacketing, is so completely that wear is reduced to a negligible point, by tightening every attachment—such as the lamps—and fitting them so that they will stay tight, by making every part that is subject to vibration—such as the window sashes or the windshield—absolutely secure, by hunting down every rattling sound, by fitting things which close study and human ingenuity could take care of; the Stevens-Duryea engineers have produced a degree of quiet which cannot be compared with any previous achievement in this direction. It goes so far beyond what has been done before.

The Stevens-Duryea display at the automobile show in Madison Square Garden in New York is one of the most interesting exhibits of motor cars that have ever been made. Probably neither this company nor any other has in a single model shown so many improvements over the best of previous fine cars. And the display is arranged in such a way that the motorist can study each thing at his leisure. The exhibit includes a seven-passenger touring car, a five-passenger touring car, a five-passenger limousine, and a polished chassis with all the mechanism exposed.

### SPECIAL NOTICE

#### Proverb Contestants

When the first instalment of correct answers to the Proverb pictures was published on Wednesday, Jan. 8, a slight typographical error occurred.

It was the use of quotation marks, which count neither for nor against contestants. Quotation marks, it should be understood by all, are not a form of punctuation, and do not enter into the construction of the Proverb answers.

No contestant need fear his answers will be penalized or marked wrong where the correct answers are included. So far several thousand sets of answers have been checked, and the average of correct answers is very low.

In comparing the correct answers, contestants should be fair when they discover that they have missed the wording of some of the extremely easy problems. Every contestant who followed the contest closely was duly informed, from time to time, through the announcements that appeared in the Daily and Sunday World, re the privilege to use five answers to each and every Proverb if they so desired.

Liberal allowance was also made in allowing contestants to incorporate the slightly different wordings of Proverbs of the same meaning upon one and the same coupon, and where the correct wording is included in contestants' sets of answers they are being given full credit.

Because contestants did not take advantage of these privileges, or because they failed to follow the instructions closely, is no fault of the Contest Department, and contestants should blame no one but themselves.

The examining and checking of the answers is progressing rapidly, and it is hoped that the World will be able to publish the list of winners very soon.

### OUTFALL SEWER LEAKS SLIGHTLY

Inspection of Pipes Leads to Discovery That Some of the Joints Are Open.

### A SERIOUS CONDITION

Wooden Washers Failed to Provide For Necessary Contraction and Many Dropped Off.

An inspection of the outfall sewer from the sewer disposal works to a point 3200 feet south of the island, by the commissioner of works, has resulted in the discovery of slightly opened joints at a negligible point. Messrs. Miller, Cumming & Robertson, for which they were paid \$64,522.87, in inspection at date of completion showed that the work was satisfactorily done.

The commissioner in his report says that while the new report indicates a rather serious condition, previous reports showed the pipe to be secure, so that in order to make sure of the condition, another inspection will be made immediately the weather permits in the spring.

"The contract for the pipe did not specify an expansion joint," says he, "and in order to provide for expansion and contraction a wooden gasket was placed between the flanges and wooden washers under the nuts. The wooden washers absolutely failed to provide for the necessary contraction and as soon as pressure came upon them they split and dropped off, with the result that a great many of the bolts are now loose in the holes."

When the pipes were completed about a year since," he continues, "the pipe lay about three feet above the level of the lake bottom. The sand and clay which lies in layers at this point has been broken up apparently by driving the piles thru it and has become a very soft mud. It is possible for a diver to walk beneath the pipe.

"The diver finds that the pipe has considerable movement and there is a possibility that an accident might occur during the winter storms. It is not possible at this season of the year to effect repairs, but provision will be made in the estimates of 1913 for doing the work as soon as the weather will permit."

According to advice from his home in Oklahoma City, James Thorpe, Olympic champion and rated as the best all round athlete in the world, has set several rumors at rest. Thorpe said he will return to Canada next week and that he will enter all the big athletic meets.

FRIDAY MORNING, JAN. 17, 1913

WILSON'S MESSAGE TO NEW JERSEY

In his second annual message as governor of New Jersey, to the legislature of that state, President-elect Wilson places first among his recommendations a radical reform of the company law. New Jersey has for years occupied an invidious position in the United States by reason of the facilities it afforded to organize the holding companies and other organizations in which the trusts and capitalistic combinations entrenched themselves. The laws of New Jersey, the governor says, as they stand, far from checking monopoly, actually encourage it, and in this they are manifestly inconsistent with the policy of the federal government and the interests of the people.

Along with this Mr. Wilson declares it to be the duty of the executive and legislature to provide salutary checks upon unwarranted and fictitious increases of capital and the issuance of securities not based upon actual bona fide value. In this connection he also asks that the people of the state be protected against the sale of bogus securities by irresponsible persons. His proposal is on the lines of the Kansas "Blue Sky" law and includes the placing of investment companies under regulation and inspection by the state, and a prohibition of the sale of securities in New Jersey without public license issued by the controlling department.

In Kansas the banking department is charged with this duty, and since the law came into operation twenty months ago, only 97 out of 1500 applications were granted. Most of the companies desiring to sell stock in Kansas were mining, oil and gas concerns, holding options on alleged mineral lands, which at the best were doubtful, and at the worst worthless. The state bank commissioner, who originated the act, says that it has prevented not less than \$5,000,000 of Kansas money from going into promotion schemes that later became known as fakes. Mr. Doley states in his biennial report that the bankers and investment brokers of the state who deal in legitimate stocks and bonds, are behind the law, as they see its advantages and that it helps the sale of legitimate securities.

**PLAYS, GOOD AND BAD.** The Star asks what is the matter with Toronto theatrical taste. It puts the question this way: "A woman with a past, a big burlesque show, a cartoon comedy—these plays, artistic and spectacular productions, splendid acting and clean comedy."

The reason is not far to seek. The people who ought to go to the good, strong, clean, artistic and well-acted plays are prevented by the clerical influences. In a general denunciation of the theatre everything is included, and the lessons that are a thousandfold stronger and more elevating than the average pulp message never get to the ears of those who would most benefit by it. Among the class not amenable to pulp influences the greater part are weaker brethren to whom the lighter, more frivolous and merely amusing stage productions appeal. The fine plays are left to the independents and to those who admire the true, the beautiful and the good wherever found. There are always some graduating into this class from the patronage of good plays, and that is theatrical criticism of the papers. One paper abuses everything, others praise everything alike. Very few notices indicate the class of patrons to whom a play will appeal, and after that a hint of the quality is needed. Many critics are so biased they can see no merit in anything. If the curtain rises at the beginning of the play it lacks originality. If the hero marries the heroine it is an old stage device. Should there be two lovers for the same girl the critic is laments with the banality of the plot. And as to humor, no critic who ever wrote a self-respecting dramatic notice ever laughed twice at the same joke. Of course there are millions of people who still have to hear the old jokes and enjoy them, but what does the critic know about that? The press agent has a good deal to answer for in denning his own goods. All the plays that appear according to the advance notices are of one level

top-notch quality. Playgoers soon find that foolish pretension fades, and they wait till their friends tell them about what they have seen. By Thursday or Friday the report gets around what is worth while.

If the theatrical managers would insist on honest, independent criticism in the papers and if the persons would learn to discriminate between good plays and bad and welcome the cooperation of the strongest ethical and moral agent in the civilized world outside the press, not only would good plays be well supported but the whole tone of the theatre and its influence for good would be appreciably raised.

CO-OPERATION BETWEEN TOWN AND COUNTRY.

In a recent bulletin of the bureau of economic and social intelligence of the International Institute of Agriculture, interesting information is given regarding a new application of the principle of agricultural co-operation. Two years and a half ago, 142 farmers in the district of Neu-Ulm, Bavaria, registered a limited liability society for the purpose of improving the rearing of pigs. The value of the shares was 300 marks, about \$48, and no member could have more than twenty shares. In 1911 the net profits were 1810 marks, from which a dividend of 3 1/2 per cent. was paid.

More recently the work has been considerably extended, and the society in December, 1911, entered into a contract with the two cities of Ulm and Neu-Ulm, and this, says the bulletin, as an attempt at co-operation between town and country, deserves to be considered most attentively. The society and the two municipalities mutually engage, the former to deliver the latter to purchase, a certain number of pigs for slaughter—1000 for 1912—but to be increased in future years, at the rate of 126 marks per 100 kilos slaughtered, or 100 marks per 100 kilos alive, subject to reduction if for at least three months of the same year the price is below 12 marks per 100 kilos of the slaughtered animal.

The two towns have placed a piece of land within their territories, free of charge, at the disposal of the society, and engaged to pay 4 per cent. interest on the building cost up to 15,000 marks, while the Bavarian Government granted the society a credit of 25,000 marks at 3 per cent. to be repaid in 20 annual payments of equal amount. The towns further opened for the society a standing credit of 60 marks per animal, guaranteed by pledge and insurance. The pigs supplied are handed over to butchers, who engage to sell the meat at a fixed rate. The towns will thus be able to control the retail price, while the farmer will have the advantage of a certain market and a fixed tariff for their produce. Should this experiment be successful, it is expected to be followed by many other towns and societies in Germany.

BRITISH TELEPHONE SERVICE.

On the last day of December, 1911, the postmaster-general of the United Kingdom took over the whole plant of the National Telephone Company, which had been transacting, under license, the local telephone business in Great Britain. Since then, in February, 1905, the postmaster made an agreement with the company for the purchase of all its systems, at the expiry of its license. The price to be paid, in case of disagreement, had to be based on what are known in the mother country as "tramway-street railway-terms," which means that nothing is paid in respect of goodwill or profits, except in the case of the company's private wire business, transacted without license, where the value was fixed at three years' purchase of the net profits.

The whole business of the National Telephone Company was taken over by the postmaster-general as at January 1, 1912, under the agreement, which, by the way, was made by a Conservative government. Since then, the amount to be paid in respect of the transfer has been the subject of arbitration. The company claimed for about \$105,000,000, and it was generally expected would be awarded at least between \$80,000,000 and \$90,000,000. The amount fixed by the board is little over \$62,000,000, also the capital expenditure of the company was stated at over \$80,000,000 as at June, 1911. The postmaster-general in introducing the National Transfer Bill in 1911, said that the telephone business, in his view and that of the department, was in little more than its infancy, and they looked forward to much larger development under public management.

PUBLIC AND PRIVATE MANAGEMENT.

As an old Scottish proverb has it, "The proof of the pudding is the eating of it." Ontario has not the least intention of throwing down its hydro-electric policy because certain franchisees exploiting interests in New York State attempt to cast discredit on its operation. The power and light consumers of this province know exactly what it means and from what it has delivered them and they are confident that Mr. Beck will not fail to accomplish all that has been promised. Very much the same attack was made by private interests on the municipal enterprises of Great Britain. Time and again the same prophecies were made that public ownership and operation meant financial disaster. Yet the fact stands out, naked and unabashed, that British cities are piling up surpluses while allowing far more

for depreciation than in the practice with private companies engaged in similar enterprises, and have done this for many years. When the advocates of private exploitation can point to the bankruptcy of a British city undertaking, they will have more to do in explaining away the wreckage of the street railways of New York, Chicago and other United States cities.

REVIEW OF CANADIAN CONDITIONS.

Among the annual reviews of Canadian conditions made more comprehensive or of greater value than that published by The Monetary Times of Canada every department has its own activity. Each division comprising banking, bonds, editorial, industrial, insurance and investment has contributed to the review in its own way, in addition to carefully compiled statistics, and the publication is invaluable to those who are in touch with Canadian progress. This year's review reflects the greatest credit on the editor and publishers for its exhaustive and accurate treatment and patience required for its compilation.

TUBERCULAR CHILDREN.

Editor World: I desire to give information to the citizens of Toronto in regard to the proper methods of dealing with tubercular children, and with those whose physical condition is so poor that they are liable to become tubercular.

For those who are already afflicted with tuberculosis in any stage, incipient or advanced, children should be sent to the Queen Mary Hospital at Weston. This hospital is the first of its kind in the world, and complete arrangements have been made for effecting cure of the disease, but also for educating the children. For those children in the city of Toronto whose physical condition is such as to render them liable to be attacked by consumption, there is but one possible preventative system. The members of the board of education should have more than twenty physicians, and more than thirty nurses, in connection with the medical department. The nurses of the board of education come in touch with every child of sub-normal physical condition in the city. The board of education should have the office of a school for the prevention of consumption, and for the general development of those who are physically weak, by establishing a special school in Victoria Park last spring. The committee on medical inspection recommended the opening of winter classes as well, but as no money had been put in the estimates for this purpose, they were unable to open such classes in 1912 for the present season. I therefore wrote to Mr. W. J. Gage, asking if he would present to the board of education one or two pavilions in which such children might be taught and receive four or five special meals each day, and have provision made in them for the children's winter clothing. The nurses of the board of education accepted his offer. I am than pleased to hear that the building of a large and developing work in the future. No other organization but the board of education can effectively prevent the spread of tuberculosis, and there is no provision in the Sanitarium Act to authorize either the government or the city to give grants to a school for the prevention of consumption in Toronto is fully alive to the conditions existing in the city, and they have the means for dealing with the spread of consumption among children.

James L. Hughes, Public School Inspector.

VIADUCT SCHEME NOW IS FAVORED

Conference on Monday Will Lead to Good Results and Definite Conclusion, It Is Hoped.

The question as to whether the new viaduct scheme will be adopted, will be much nearer a final answer on Monday next, when the tender of the railway, the harbor commission and the board of trade, have a conference at which the merits of the different schemes will be discussed. This conference is a most important development in the new viaduct scheme is approved by the harbor commission, there is little doubt but that the city will grant its approval. The most direct connection to make for the sailing from Liverpool April 1, and will call at Gibraltar April 4, Villefranche April 5, Port Said April 12, and will proceed via Suez, Colombo, Penang, Singapore, Hongkong, Shanghai, Nagasaki, Kobe, Yokohama and arrive at Vancouver Saturday, June 1, 1913. Toronto passengers may travel via Canadian Pacific main line or Crow's Nest Pass line and connect at Vancouver with the new viaduct scheme. A similar cruise will be made by the "Empress of Asia," sailing from Liverpool May 27, 1913. Particulars from Canadian Pacific agents, or write M. G. Murphy, district passenger agent, Toronto. 45

BRITISH CAPTAIN'S THANKS.

Natal's Commander Grateful for Hospitality Shown.

WASHINGTON, Jan. 16.—(Can. Press.)—Capt. Greston, commanding the British armed vessel "Natal," which brought the body of the late Ambassador Reid from England to this country, today sent by wireless, as he was leaving America, the following farewell message, directed to Secretary Meyer: "On your hospitable country, I wish to thank you on behalf of myself and officers, for the very great kindness you have extended to us on our visit to Washington, and to assure you that our regrets on leaving are sincere and very real. We shall never forget the kindness and good-fellowship shown by the officers of your splendid navy."

The Exception.

Around my cheerless home the wind is howling and the snow is falling. The winter sky is scowling, but Jones fears not the fury of the storm; my nostrils grub like a dog's nose, which once I fondly cherished has vanished like a snowdrift in July; and at six o'clock I am in bed, and I am not alone. I have a model worker, and every week some one in my household is in bed, and I am not alone. I have a model worker, and every week some one in my household is in bed, and I am not alone.

ANNOUNCEMENTS.

Jan. 16, 1913. Judge's chambers will be held on Friday, 17th inst., at 11 a.m.

Peremptory list for appellate division for Friday, 17th inst., at 11 a.m.: 1. McEwen v. G. P. R. Co. 2. Gibbons v. Berliner. 3. Sutton v. C. P. R. Co. 4. Bozzo v. G. P. R. Co. 5. Chapman v. MacPherson.

Master's Chambers. Before J. C. Cartwright, K.C., Master. Polson Iron Works Co. v. Main—F. McCarthy for Miller; C. A. Moss for executors of F. B. Polson; R. McKay, Order for defendant. Motion by John B. Miller, defendant, by counter-claim, to strike out his name as defendant, or to strike out the counter-claim, and motion by executors for order striking out paragraph two as embarrassing. Judgment: Paragraphs 26 and 28 cannot stand. If this involves the striking out of the name of Miller as a defendant to the counter-claim, then Mr. McCarthy's motion will succeed necessarily. The counter-claim for wrongful dismissal, as alleged in paragraphs 21 and 22, must be confined to the plaintiff claim in the same way as paragraph 27. As the motion of the executors it is entitled to prevail to this extent; the defendant must amend to show, if he can, something that will entitle him to make his claims against Polson and Miller personally a ground of liability on the part of the company to him for their alleged wrongful dismissal. If he cannot do so, his claim must be struck out. Costs of these motions to the moving parties in any event, together with all costs lost or occasioned thereby.

Bell v. Rogers—J. P. MacGregor for plaintiff. Motion by plaintiff for leave to issue writ of certiorari on a judgment recovered in 1899. Order made.

Rice Lewis Co. v. Port Arthur Wagon Co. (Gray, Montgomery & Co.) for plaintiffs. Motion by plaintiffs for leave to serve notice of motion for judgment on 20th inst. in single court. Order made.

Royal Bank of Canada v. Kennedy—G. A. Urquhart for plaintiffs; A. M. Boyd for defendant. Motion by plaintiffs for judgment under C. R. 503. Judgment granted against defendants other than Mackie for \$30,000 and interest, leave to plaintiffs to proceed on balance.

Becher v. Ryckman—J. R. Meredith for plaintiff; K. F. MacKenzie for defendant. Motion by defendant for order dismissing action. Motion by plaintiff for an order amending statement of claim after examination of deponent. Order made as in Hunter v. Boyd. Motion by plaintiff for further examination of defendant Ryckman enlarged until cause at issue next day.

Walker v. Phillips—Macaulay (McLaughlin & Co.) for defendant; no one for plaintiff. Motion by plaintiff for order dismissing action for want of prosecution. Order made dismissing action with costs, including certificate of its pendency.

Judge's Chambers. Before J. C. Cartwright, K.C. Rex v. Brouse—G. S. Henderson (Ottawa) for defendant; W. J. Code (Ottawa) for plaintiff. Motion for order quashing his conviction for an offence under the Criminal Code, for unlawfully offering, exposing or having in his possession for sale ten barrels of apples packed contrary to the provisions of sec. 211 of the Criminal Code and Sale Act. Judgment: Motion dismissed with costs.

Single Court. Before Kelly, J. Ontario Bank v. Taylor—M. L. Gordon for plaintiff; W. W. Vickers for all creditors except Mrs. Hamel, and for the liquidator; H. J. Martin for Mrs. Hamel. Motion by plaintiffs for action dismissed. Plaintiff's costs fixed at \$60, to be added to the costs of the estate.

Myerscough v. Lake Erie and Northern Railway Co.—O. H. King for plaintiff; M. L. Gordon for defendant. An appeal by defendant from the award of two arbitrators who awarded \$1300 for plaintiff as damages for lands taken by the company. By consent motion enlarged two weeks.

Re Corr Estate—G. S. Hodgson for Mary Elizabeth Donnelly, a daughter of a Felix Corr, who left his family in Ireland prior to her birth, and was not heard of again by the family, from the lands taken by the company. Interest dismissed her claim to be heir to the estate of a Felix Corr, who died in Toronto. Reserved.

Loveland v. McNairn—J. T. White for plaintiff; R. McKay, K.C., for defendant. Motion by plaintiff for rescission of the insurance money, payable by the insurance company in respect of the burnt will, and for an injunction to restrain defendant from rescinding or dealing with said money. Reserved.

Re Quay Estate—H. A. Ward (Port Hope) for Dwight Quay, J. M. Kilbourn (Owen Sound) for two of the heirs and executor, J. D. Montgomery for Dr. Fred Quay. Motion by Dwight Quay, a son of testator, for an order construing the will of William Quay under C.R. 988. Reserved.

Appellate Division. Before Meredith C. J., O. MacLaren J. A. Magee J.A., Hodgkins J.A., W. E. H. Creswell J.A. K.C. for defendant, A. J. Thomson for plaintiff. An appeal by defendant from the judgment of the trial judge, in an action for an amount of appeal resumed from yesterday and concluded. Judgment below varied by directing that \$30 be deducted from the \$64 per year and that the amount be recast on that basis, and that defendant should not be deprived of his possession, until amount of his lien is satisfied. No cost of appeal.

Rymal v. Foran—A. M. Lewis (Hamilton) for defendant. An appeal by plaintiff from the judgment of Kelly J. of 17th October, 1912. An action by plaintiff to recover \$150 as compensation on the sale by him of defendant's fruit farm, near Winona, for \$23,500. Defendant alleged that he only agreed to pay \$250 commission and be brought sum into court. At the trial judgment was given for plaintiff for the \$150, with costs on the county court scale up to time of payment into court, and with costs of action to defendant subsequent to such payment, such costs to be paid out of the \$250 in court, and balance to be paid to plaintiff's solicitors. Appeal argued and dismissed, with costs.

Coffey v. Sturgeon, Lake Development Co.—D. J. Grant for defendant; A. Moss for plaintiff. An appeal by defendant from the judgment of Middleton J., of 19th October, 1912, in an action by plaintiff to recover \$1000 for alleged wrongful dismissal as mine superintendent. At the trial judgment was awarded plaintiff for \$1000 and costs. Appeal dismissed with costs.

Houston v. Sturgeon, Lake Development Co.—D. J. Grant for defendant; C. A. Moss for plaintiff. An appeal by defendant from the judgment of Middleton J., of an action on a contract to recover \$4,488.87, balance alleged to be due on wood supplied to defendant company. At the trial judgment was awarded plaintiff for the amount claimed, with interest and costs. Appeal dismissed with costs.

Maketa v. Slater—L. F. Monahan for defendant; C. M. Garvey for plaintiff. An appeal by defendant from the judgment of Sutherland J., of 23rd October, 1912, in an action by Hilda Maketa, claiming \$2000 damages for breach of promise of marriage. At the trial judgment was awarded plaintiff for \$1200 and costs. Appeal dismissed with costs.

MONTREAL FIREMEN OVERCOME BY SMOKE

MONTREAL, Jan. 16.—Several firemen were carried out, choked into unconsciousness by smoke. District Chief Mann escaped death by inches when a great plank came crashing down upon a ladder upon which he was standing, and damage aggregating \$100,000 was caused by a fire which broke out this morning on a street. The premises are occupied by the Canadian Tungsten Lamp Company and the MacCombe & Co. Company of London, Ont. The plant and stock of both of which concerns were injured by fire, smoke and water. This was the third fire in the city within fifteen hours, most of the firemen having been on duty for 24 hours.

TODAY YOU CAN GET YOUR CYCLOPEDIAS

Present a Coupon and \$1.98 at the Office of The Toronto World and Get Your Set

Now comes the distribution day of the Toronto World's second great book bargain. Coupons will be redeemed today at this office and at the branch office in Hamilton, as shown in the coupon printed on another page of this issue.

Everybody's Cyclopaedia is a five-volume reference work containing accurate information on all subjects. It is of convenient size, easy to handle and complete.

No school boy and girl, no man and woman, can afford to miss the opportunity of getting it at this bargain price offered today and tomorrow.

For these two days the complete set of five volumes will be given to readers of The World for \$1.98 and one coupon.

The regular selling price of this five-volume set is \$12. Millions of dollars are spent in putting out expensive sets that sell on the installment plan all the way from \$50 to \$100 each.

Everybody's Cyclopaedia is a combination of all the useful information contained in the largest and best sets, but it is carefully "bottled down" to meet the needs of all who require a complete, accurate and authoritative reference work.

This offer is the result of the largest book order ever placed with a publisher, and readers are now given the benefit of it. The World guarantees to refund the amount paid by any reader who finds Everybody's Cyclopaedia is not entirely satisfactory and as represented.

The sets are too bulky to be sent by mail, but out of town readers may get them for \$1.98, the sets to be sent by express, shipping charges to be paid by the recipient.

BULGARIA IS SEEKING TO FLOAT HUGE LOAN

Visit by Minister of Finance to St. Petersburg Part of Plan to Raise Forty Million Dollars.

ST. PETERSBURG, Jan. 16.—(Can. Press.)—The Bulgarian minister of finance, M. Theodoroff, about whose mission to St. Petersburg there has been much mystery, declared today that the purpose of his trip here and to other European capitals, was to arrange for a Bulgarian loan after the war had ceased.

The sum necessary, he said, would amount to more than 200,000,000 francs (approximately \$40,000,000). The negotiations which had been arranged in Paris for the spring had, he declared, been abandoned by the French bankers, who were opposed to the war. The results in St. Petersburg, however, have been satisfactory.

M. Theodoroff, who leaves tomorrow for Paris, speaking of the dispute between Roumania and Bulgaria, was out that any accession of territory must be approved by the Bulgarian Parliament and this was utterly impossible to secure for the reasons demanded by Roumania.

The Bulgarian army, he asserted, was able to hold its present position before the lines of Tchalaija against an army three times as strong as that of the Turks. This statement is thought to be perhaps indicative of the Bulgarian intention merely to hold the Turks and allow Adrianople to fall.

MYLIUS IS DEPORTED.

WASHINGTON, D. C., Jan. 16.—Edwin F. Mylius, the journalist detained at New York, was ordered deported today by Secretary Nagel of the department of commerce on the ground that in libeling King George he had committed a crime involving moral turpitude.

STEAMSHIP RATE WAR.

Atlantic Pool is Said to Have Been Dissolved.

ANTWERP, Belgium, Jan. 16.—The Atlantic steamship pool has been practically dissolved, according to The Neptune, by the Canadian Pacific Co.'s decision to inaugurate a new system of service to Trieste and Canada, and the Hamburg-American time's announcement of a new line of steamers between Hamburg and Boston.

An immediate rate war will be begun according to the periodical.

The delegates of all the Atlantic steamship lines are to meet in Berlin on Jan. 28.

CHAUFFEUR MUST BE SOBER.

New York State Provides Penalties for Drunkenness.

ALBANY, Jan. 16.—(Can. Press.)—Gov. Sulzer tonight signed as the first law of 1913, the Fitzgerald bill, designed to make more stringent the punishment for intoxicated chauffeurs operating machines in violation of the motor vehicle law. It provides for a penalty of one year's imprisonment or a fine of \$50, or both.

"I don't think we ought to countenance drunken chauffeurs," said the governor, in approving the measure. "Sober ones have hard work detouring pedestrians."

### Report of Impending Fall of Adrianople Weakens Prices at Chicago--Corn and Oats Sagged.

CHICAGO, Jan. 16.—The grain markets today were nervous and irregular, but finished with a net decline due largely to a private cablegram stating that Adrianople's fall is imminent. Provisions advanced. Until the arrival of the Adrianople report gave impulse to sales, the wheat market was a sort of glorified scalping affair. Speculators sold on the hard spots and took small profits on the soft ones, or vice versa. The edge was off the export business and the trade was nervously waiting for information such as arrived from Constantinople.

Fluctuations in corn were a reflection of those in wheat. There was a slight advance on bulgers, while all other appearances recovered from the depression necessitated. Careful buying report traders bought freely. Wheat and like these markets, closed at the bottom. Selling was chiefly from long. Sample oats were 1/2 to 1/4 higher.

Provisions advanced 1/2 to 1/4 on a light run of hogs and small local stocks.
