Commission on Phones and Telegraphs.

OTTAWA, Jan. 30.—(Special.)—To-morrow in the house of commons the question of the nationalization of telephones and telegraphs will be brought up by J. E. Armstrong, East Lambton.

It is considered likely here, in well informed circles, that the government will proceed to the appointment of a royal commission to investigate the whole matter of the nationalization of telegraphs, telephones, cables and wireless telegraphy.

Mr. Armstrong believes that the trunk lines of the telephone should be owned at least by the federal government, so that in Ontario the various rural systems would be independent of the Bell system.

CIVIL WAR IF HOME RULE IS FORCED

So Declares Henry Chaplin at Big Rally in London in Opposition to Nationalists' Demands—Parliament Would Be Failure, Says Austen Chamberlain.

LONDON, Jan. 30.—(C.A.P.)—At a large and enthusiastic meeting of anti-home rule to-night, Henry Chaplin, referring to the situation in Ulster, congratulated Sir Henry Carson, Lord Londonderry and Ulstermen for their noble stand in the cause of union. He said they've made it clear that despite the conspiracy to break up the constitution and enslave the powers of the house of lords, home rule without a direct mandate from the people never will be carried without civil war in Ireland.

"The government forgot to reckon with the courage and patriotism of Ulster," he believes the leaders of Ulster party have killed home rule before its birth and that it will be found to be stillborn. Austen Chamberlain said if the claim of Irish Nationalists for home rule was good, the claim of Ulster for a separate treatment was equally good. Account must be taken of the different kind of history between two sections of the Irish people. A home rule bill, he said, was useless. The history of the Irish parliament was an inglorious one. It gave people no peace or prosperity; in short, there was no practical grievance to which they can have made, he declared, his demand for breaking partnership in a united parliament.

LISBON STRIKE ROYALIST PLOT

Eight Thousand Troops Suppress Disorders — Bomb Outrages Continue — Many Arrests.

LISBON, Portugal, Jan. 30.—(Can. Press.)—Owing to the grave situation because of the general strike, the constitutional guarantees have been suspended and martial law has been proclaimed in the district of Lisbon. The city has been handed over to the keeping of Gen. Carvalhal, and troops surround the town. Reinforcements are constantly arriving, but because of the presence of the troops there were few disorders to-day. Liberty to work is absolutely guaranteed by the government.

There are 3500 troops under arms in Lisbon, where the strikers declare they will be able to annihilate the soldiers. Several bombs have been made and thrown with terrible effect. The government is desirous of preserving a moderate and prudent attitude and offers to concede part of the strikers' demands, which include the release of all the strikers arrested during the course of the disturbances in the Evora district, and the dismissal of the governor of Evora.

Arrests Made, Arms Seized. But the situation to-night was such that it was deemed expedient to proclaim martial law in the capital. A large number of agitators have already been arrested. The troops are under orders to make raids on all suspected places, with the result that wholesale arrests have been made and innumerable three-arms seized. The prisoners are being placed aboard warships in the harbor. Towards evening strikers assembled in various quarters and bombs were thrown at mounted Republican guards in Rocio Square, and in the suburb of Alcantara troops were obliged to charge the mobs with drawn sabres.

Royalists' Plot. The government has now ascertained that the strike was fomented by Royalists, who supplied the strikers in Evora with \$600,000. The intention of the Royalists was to send 1500 armed men across the frontier into Eastern Portugal, that region being favorable to a monarchy, and start a general rising, but the government hurried reinforcements there.

Hon. Adam Beck Elected.

Hon. Adam Beck has been elected a director of the National Capital Horse Show Association of Washington, D.C. in the membership of this association are Senators Wetmore and Watson, General Leonard Wood, William F. Bono, R. M. Thompson, Edward McLean, J. W. Henry and Major Henry T. Allen.

An invitation has also been extended to Mr. Beck to take part in the preparations for the spring horse show in Washington, which is to be held in the first or second week in May.

DETECTIVE TO TELL ALL

Franklin, Leading Witness in Bribery Charge Against Darrow, Denies Making Confession.

LOS ANGELES, Jan. 30.—(Can. Press.)—Bert H. Franklin, the McNamara detective, who is to be tried here on a charge of having bribed members of the McNamara jury, probably will prove to be an important witness in the case of Clarence Darrow, the McNamara attorney, who has just been indicted for jury bribing. When Franklin was asked to-day whether he had made a confession to the grand jury on which the Darrow indictments were based, he declined to discuss that feature of the case. Franklin, however, in reply to questions said: "If I am placed on the witness stand I shall tell the truth. I will not perjure myself for anyone."

At the same time he declared there was no understanding between himself and the district attorney's office regarding possible immunity should he become a witness for the prosecution. Regarding a confession Franklin is said to have made, he declared he was before the grand jury too short a time for this.

HYDRO-ELECTRIC OFFICES MOVE

Accommodation for Large Staff in North Wing of Parliament Buildings—New Laboratory Building.

Preparations are under way for the transfer of the hydro-electric commission's offices to the new north wing of the parliament buildings. From the cramped downtown offices of the seventh floor of the Continental Life Building, corner of Richmond and Bay-streets, the headquarters of the cheap power movement in Ontario is soon to be removed to the palatial north wing which is nearing completion in Queen's Park.

No better estimate of how the scope of the hydro-electric policy is extending could be obtained than by a glance at the floor space is needed for the general commission's offices and engineering departments. They will occupy the second and fourth floors of the new wing, the education department being slated for the first floor and the library for the third.

The purchasing department, testing department, storeshouses, workshops and laboratories will be located in a new building, which is to be erected on Oarison common. Plans for this building are already prepared, and tenders will be advertised for immediately. It will cost in the neighborhood of \$70,000, and is to be of three storeys and basement, with a garage attached. A railway siding will be built in connection with the new building for transportation conveniences.

Apart from the work of the hydro-electric commission throughout the province, this building will be of great assistance to the city's hydro-electric department, for testing can be done in the laboratories, and supplies of the kinds for the needs of the Toronto system can be accommodated there.

Woman Confesses to Murder To Save Life of Her Brother

Jas. McDermott, Hunted and Brought Back From Denver, Understood to Have Admitted Crime—Dramatic Scene in Court-room When Sister Revealed Guilt.

NEW YORK, Jan. 30.—(Can. Press.)—The woman spent an hysterical hour on the stand this afternoon, hesitating to tell more than that on the night of the murder she had a quarrel with Muldoon, and that during it she went to her brother, James P. McDermott, who was accused of Muldoon's murder. The victim of the stabbing, who was Mrs. Martin's former sweetheart, was stabbed to death in an east side saloon in March, 1911. McDermott fled to the west, and, after being captured in Denver, it was alleged that he confessed to the murder. The state was pressing the case against him when the sister unexpectedly appeared yesterday and confessed to guilty knowledge, so surprising the court that the case was halted until to-day.

PROTEST MEET'G PROGRAM IS ARRANGED

Many Prominent Speakers Will Be at Massey Hall To-night to Oppose Proposal to Close Toboggan Slides on Sundays.

Arrangements have been made for the handling of a large crowd at the mass meeting in Massey Hall to-night to protest against the passing of the bill to prohibit the use of the civic toboggan slides on Sundays. Mr. J. S. Willison will occupy the chair. Sir Edmund Oster finding it impossible to attend on account of other urgent engagements. He is strongly opposed to the passing of the bill, however, and has prepared an address to be read at the meeting. Addresses will be delivered by Messrs. M. K. Cowan, K.C., George Goodenham, M.L.A., F. W. Strachy, Toronto manager of Traders' Bank; W. F. Maclean, M.P., R. Home Smith, harbor commissioner; T. C. Robinette, K.C., J. W. Curry, ex-crown attorney; E. F. B. Johnston, K.C., and representatives of the local labor organizations.

In order to avoid confusion tickets have been issued and while they last may be obtained at the ticket office in the hall. A full regimental band of the Royal Grenadiers has been engaged for the evening. The band will play

Mr. J. S. Willison, who will be chairman of the meeting at Massey Hall to-night to protest against the prohibition of Sunday tobogganing.

When spoken to regarding the matter to-day a prominent agitator for Sunday sliding said: "I believe that many people think as I do, that whether they care for Sunday sliding or not, they don't feel it their duty, or the duty of anyone to dictate or to force others to their ways of thinking."

Asked as to the truth of the statements in the local evening papers, that he had withdrawn his support from the committee handling the details of the meeting, Mr. Emoch Thompson corroborated the reports, but said he did not wish to have his name connected with any controversy in the matter.

Owing to an alleged joke played by someone who wrote a letter to Mr. Gagnier, signed "Evron H. Stauffer," the pastor of Bond-st. Congregational Church was announced as one of the speakers at the meeting to-night. Mr. Stauffer has taken no part in the controversy and will not be at Massey Hall.

KEEP STRING ON TARIFF BOARD

It Will Merely Gather Information for Government's Use — Opposition Not Pleas'd.

OTTAWA, Jan. 30.—(Special.)—Two important measures were under discussion in parliament to-day. Hon. W. T. White introduced his bill to provide for the establishment of a tariff commission of three members, holding office for five years. It would not have the power to negotiate or fix rates, but merely to gather information, he said.

Hon. George E. Foster's grain bill passed its second reading and made some progress in committee. By the appointment of a commission of three and giving the government power to acquire terminal elevators—it sought to cure the complaint of the middlemen "mixing" grain.

Some discussion took place on the desirability of making the commission independent of the government, the opposition speakers generally taking this view. Mr. Foster, however, was firm in his adherence to the principle that the commission should be responsible to the government, and the government should be responsible for the commission.

T. & N. O. EARNINGS

Provincial Railway Has \$593,000 After Paying All Expenses.

That the past year has been a successful one for the T. & N. O. Railway is evidenced by the announcement of the railway's earnings during the twelve months ending Oct. 31, 1911. The net earnings of the government road during this period was \$592,000, in comparison with \$420,000 during the corresponding twelve months previous. The annual receipts are now away ahead of the half million mark, the amount is not yet sufficient to pay the interest and the sinking fund. But the strides of progress are being made and when the Grand Trunk Pacific is got in operation, the business over the T. & N. O. Railway will increase greatly.

The Grand Trunk has made arrangements for running rights over the T. & N. O. from North Bay to connect with the National Transcontinental Railway at Cochrane. This will mean an added revenue of \$300,000 per annum for the government.

Foster's Little Joke.

OTTAWA, Jan. 30.—(Special.)—Hon. G. E. Foster must have hit his funny-bone on something on going into the house to-day. No other way to account for it. Speaking of his grain bill, he declared that it was not the work of the Conservative or the Liberal government. "The he was in a sense the "Foster parent" of the bill, it was largely the same as that passed by the senate last session. "I might have brought it in a little better dressed up perhaps," he added, "but it is essentially the same child." The house saw the point and applauded vigorously.

PATIENT'S BODY TO BE EXHUMED

John Sterling Fell Out of Bed at Weston Hospital and Fractured His Skull but as Case Was Not Reported to Coroner an Inquest Has Been Ordered.

Coroner Hopkins of West Toronto to-day open an inquest into the death of John Sterling, 60 years of age, a patient at the Weston Consumptive Hospital who died there at 11.30 Saturday night.

The old man, who had been in and out of the hospital for about a year, was in a ward with one other patient. This man says that Sterling was lying at the side of his bed as had been his habit, when he fell to the floor.

The other patient immediately rang the bell summoning a nurse, who was on the scene in less than two minutes after the fall. She felt his pulse, but could detect no signs of life. The doctors believe that he was dead when he fell, as he had been in a very weak state.

The body was to be buried at St. James Cemetery. The case was reported to the chief coroner yesterday afternoon by Mrs. Sterling and the police were present at the house at 250 Berkeley-st. They gave orders that the funeral was to be deferred until after the inquest.

Right Off the Battery.

Nearly everybody knows the tune of "Alma," but few in these parts have heard it "right off the battery." However, this is but one of the many catchy airs that the big musical play contains. "Alma, Where Do You Live" with delightful Vera Michelena, as the brightest star, will be in Toronto next week.

NO SENATORSHIP FOR LANCASTER

Senator Cloran's Curiosity Satisfied—No Temere Benign Influence, He Argues.

OTTAWA, Jan. 30.—(Can. Press.)—Senator Cloran based a speech and question to-day on the report that Mr. Lancaster, M. P., had been offered a senatorship to modify his position on the temere bill, and was then told by the government that no such offer had been made.

Senator Cloran asked: "Is it true, as reported in the press, that a certain Mr. Lancaster, a member of the house of commons, was offered a senatorship by a member of the government on certain conditions? Also, if it was stipulated that if the said Mr. Lancaster accepted the said offer he would allow the question of abolition of the senate to remain in abeyance for the term of his natural life, and would likewise extend the same consideration to the decrees of the council of Trent?"

Senator Cloran said it was not to the discredit of the government if it asked Mr. Lancaster to drop his objections to the senate and to the marriage decrees of the Roman Catholic Church.

The marriage decrees of the Roman Catholic Church were designed to purify social conditions. People seemed to know very little about these marriage decrees. They did not effect the civil status of anyone. They were simply binding upon the consciences of Roman Catholics, who, if they objected to the laws, could leave the church and go to others where both marriage and divorce were easier.

There was complaint because the decrees of Rome were regarded as law in the Province of Quebec. At the time those decrees of Rome were enacted there and from France they came to Canada. England gave the right to continue them in Canada. It was complained because the courts of law registered the decrees of Rome, the courts of Quebec had no other course.

Decees Carry No Authority. That might be found hard by those who took a different view, said the senator, and added that the more Rome was opposed in Quebec, the less would those who opposed her succeed. Rome issues its decrees and in Quebec they have authority. Senator Cloran said and thought that the government had done well if they had succeeded in inducing Mr. Lancaster to withdraw his opposition to the marriage decrees of the Roman Catholic Church, which church did not seek to interfere with the decrees of other churches and only asked to be let alone.

Senator Lougheed, replying for the government, said: "To the senator's first question, the answer is 'No,' and the second question is answered by the reply to the first."

FIRE INQUEST NOW BEING HELD

Proprietors of National Boys' Clothing Company Were Seen Leaving Their Premises at the Time the Alarm Was Given Altho They Both Deny Being There.

An investigation into the fire at the National Boys' Clothing Co., 18 Sheppard-street, on Jan. 23, was opened at the city hall yesterday morning by Joseph E. Rogers, chief of the provincial police, and Crown Attorney Greer. The enquiry resulted from information given Crown Attorney Corley by Detectives Taylor and Miller, who made a thoro investigation of the affair the day after the fire.

Messrs. Goldberg & Speigel, the two members of the firm, were present at the opening session, but as they had neglected to engage a legal adviser, the case was adjourned until Saturday afternoon, when J. W. Curry will represent them.

Policeman Harold E. Clark (365) noticed the reflection of the fire at 2:19 and a minute later turned in an alarm. Goldberg & Speigel claim that they were not in the premises of the Toronto Clothing Co. at 7:20, but the constable stated emphatically that he saw both of them run out of the building at the time he gave the alarm. Afterwards Goldberg was seen taking the books away, and when asked if he had not left the building at 7:30, denied it flatly.

Capt. W. Sweetman of Bay-street fire hall said his version of the fire was that it had been going for twenty or thirty minutes prior to the time the alarm was sounded, as clothing burns very slowly, and when the firemen arrived the flames were making rapid progress.

Fireman Robert Foster and Joseph Miller bore out the statement that the fire had made good headway before assistance was summoned. They were going home on a street car and noticed the flames shooting out from the roof. The loss is estimated between \$6000 and \$8000, and insurance to the extent of \$3000 in the Keystone Insurance Brokerage Co. was carried by the clothing company.

BRYAN IS SELF-EFFACING.

LINCOLN, Neb., Jan. 30.—(Can. Press.)—The following notice of withdrawal was served to-day on Secretary of State Addison Wait of this city: "Learning that it is not the desire of William J. Bryan that his name appear on the Democratic ticket as a presidential candidate, and learning that he desires to go to the Democratic national convention as a delegate at large from the State of Nebraska, I hereby withdraw the petition filed by me. (Signed) A. A. Arter."

Smart Advance in Fur Prices.

The market in furs is in a decidedly unsettled state. Persian lamb and Alaska seal skins sold in London last week represented an advance of 35 per cent, and the outlook for the big sale in March points towards further high prices. The before-stock-taking sale now going on at Dineen's should offer a splendid investment, as nearly all the garments were made from the last trapping of furs and are being sold at very low prices.

Pullian's Strike Settled.

The striking garment workers of M. Pullian and Sons have returned to work without having gained the recognition of their union. Slight concessions have been made to the men in prices paid for piece work.

HAMILTON HAPPENINGS

PROPOSES HOLIDAY FOR BOY SCOUTS IN CANADA

L. R. Tobey, Hamilton Churchman, Father of Idea—Revenue From Railway.

HAMILTON, Jan. 30.—(Special.)—Among the first communications which will reach Sir Baden Powell, when he lands in New York to-morrow morning, will be a special delivery letter from L. R. Tobey, prominent lay churchman, merchant, publicity man, and social worker of Hamilton, Ont.

Mr. Tobey is fathering a movement to establish a national holiday in Canada for the Boy Scouts of the country, and his letter to the head of the Boy Scouts movement explains the proposition and seeks Gen. Baden-Powell's approval of the scheme. Mr. Tobey has already brought the matter to the attention of the Dominion Government and has written Hon. Sam Hughes, minister of militia, and several representatives in parliament, asking them to take the matter up and endeavor to have a day set apart annually as a holiday for the Boy Scouts. All the replies received so far indicate that the idea will bear fruit.

Considering, Says Hughes.
 The minister of militia has promised that the subject will be seriously considered by his department. The only objection that has been made to the movement started by the Hamilton man is that it will add another to the multiplicity of holidays already existing in the Dominion. To meet this objection Mr. Tobey suggests that civic holiday be abolished. The commercial community, says Mr. Tobey, will welcome the latter move, as civic holiday is observed on so many different dates in different cities that it seriously interferes with business without bringing any compensating return in the way of rest or recreation.

Claims to Greatness.
 The Boy Scout holiday, according to Mr. Tobey, would contribute to the Scout movements in Canada and would be of immense benefit to the youth of the country, and, therefore, to the nation itself. If the Boy Scout holiday becomes a reality it will be the third event of national importance born here. The other two are the Canadian Club movement, started here several years ago, and Emeline Day, originated by Mrs. Clementina Fessenden.

Big Railway Earnings.
 That the earnings of the Hamilton Street Railway Co. continue to increase by leaps and bounds is indicated by the cheque sent to City Treasurer Leckie this morning for the city's share in the company's earnings for the last quarter of 1911. The cheque amounts to \$396,24, which sum is more than \$200 greater than the city's share for this corresponding period in 1910.

The company's earnings for the last quarter of 1911 were \$123,239.10 and for the year \$454,110.32, the latter sum being \$75,000 more than the 1910 earnings.

The city controllers say that the growth of the Street Railway Co.'s revenue has been due to improvements which were made in the service two years ago, and argue that further improvements will add still more to the company's income.

HAMILTON RADIAL CHARTER.

OTTAWA, Jan. 30.—The Hamilton, Waterloo and Goepth Railway was able to secure from the railway committee a renewal of its charter. Sam Barker, M.P., for Hamilton, explained that the reason for asking the extension of the charter was the difficulty of securing the finances, but now New York capitalists had become interested

with the members of the royal family on the death of the Duke of Fife. The duke, he said, was a man of distinguished ability and one whose career had been characterized by earnest concern for the welfare of the United Kingdom and the entire empire.

Sir Wilfrid Laurier spoke of the sorrow of all British subjects in all parts of the world. The duke had earned their gratitude by his absolute devotion to duty. The morning of the royal family would be the mourning of the whole empire.

J. A. Best (Dufferin) and **H. B. Morphy (N. Perth)**, both Conservatives, emphatically denied a report in The Toronto Globe of Monday to the effect that a meeting of the agriculture committee on Wednesday last, they had drawn the attention of the minister of agriculture to the necessity of providing for the maintenance of them had ever mentioned the minister of militia or his estimates.

Explained Tariff Commission.
 Hon. W. F. Maclean introduced a resolution dealing with the appointment of the tariff commission. It was amended, he explained, that it should be composed of three members, holding office for five years, the salary of the chairman to be \$7500 and of the two members to be \$5000 each. They should give their entire time to the work of the commission.

Hon. Rodolphe Lemieux asked if farmers would be represented on the commission.

Hon. Mr. White replied that the personnel of the commission had not been decided, but he thought it a mistake to appoint any man on account of his calling. The commission should be composed of representatives to all sections of the community.

W. F. Maclean (S. York) enquired the commission would have any independent initiative.

No Power to Initiate.
 Hon. Mr. White answered that the commission could only act on the instructions of the minister of finance. It had none of the functions pertaining to government; it could not negotiate or fix rates. It was only part of the machinery of the government for obtaining information.

F. L. Cash (MacKenzie) asked if the information gathered by the commission would be made public.

Hon. Mr. White replied that the bill provided that confidential information could not be disclosed to business competitors, except as relating to the extension of combines.

Hon. Frank Oliver thought that, as the country was saying for the information, it should have it.

W. F. Maclean (S. York) declared that in discussing the bill the house should have before them the powers pertaining to the tariff board of the United States.

'MARVELOUS' CURES OF SKIN ERUPTION
Four Children Constantly Scratching. Nearly Tore Limbs Off. Cured in a Month by Cuticura Soap and Ointment

"Two of my daughters and two of my sons were suffering from very bad heads, the doctor ordering my daughters to have all their hair cut off so as to prevent it from spreading all over their heads, and to leave the rest of the trouble in order to be able to rub some ointment on their heads, which he gave them, and told me to wash their heads in small pieces of soap."

"The eruption was in the form of large and larger and then burst and spread all over their heads, and they were constantly scratching their heads and bodies. The doctor said it was eczema, but they seemed to be getting worse. The sores formed like little boils, then filled with matter, and looked like abscesses. They were very itchy and irritated, causing them to be constantly scratching their heads and bodies. The eruption was so bad, that they were nearly tearing their limbs off. The doctor would not let them attend school for fear of infection spreading among the other children. I was told to try the Cuticura Soap and Ointment for one month, and the result is a marvelous cure. My children are now well and happy. I am glad to say that the Cuticura Soap and Ointment are sold throughout the world. A liberal sample of each, with 25¢ worth of Cuticura Soap, sent free on application to Foster P. & C. Corp., 39 Columbus Ave., Boston, U. S. A."

think the farmer could get an advance till the grain was in the cars. The bill provided for a commission of three men of ability. The government proposed to take power to export grain or issue terminal elevators, and these would be operated by the commission.

W. F. Maclean (S. York) enquired if it was proposed to take away the right of the railways to operate terminal elevators.

Hon. Mr. Foster replied that he was not prepared at present to say how far the government would go in this regard.

Hon. Frank Oliver claimed that the vastness of the expenditure on the N. T. R. of which many complained, was the interest of the west, as it was made necessary to give a grain elevator, would make possible the carriage of grain at the lowest possible rates.

As to the western farmers providing storage facilities on their farms, this was not within reason to expect, the cost of these facilities being different from those in the east.

Hon. George E. Foster intimated that two or three important amendments to the bill would be brought in. He said that of these amendments would be given.

W. F. Maclean enquired whether winter navigation of Lake Superior was possible or relief of the present congestion?

The bill passed its second reading and went to committee.

Shouldn't Tie Commissioners.
 Dr. J. M. Macdonald, in committee on the bill, objected to tying down the board of commissioners to the recommendations of the governor-in-council in regard to the government of the terminal elevators. This was not in accord with the demand of the grain growers, who desired an entirely independent body.

Arthur Meighan (Portage la Prairie) replied that it was essential that the commission be responsible to the government, and that the government be responsible for the commission.

Hon. Geo. E. Foster declared that he was the intention of the bill was to give the government, to give the commission the greatest degree of independence and freedom possible. At the same time, they had to preserve the connection of the way would be open to amendment.

That their decisions would be subject to approval would make the commissioners careful, and, in a rare instance, a grievous injustice should arise, there would be remedy.

Big Powers, Says Oliver.
 Hon. Frank Oliver declared that a board responsible for the grain trade had a responsibility beyond that of any board of railway commissioners and a quick action by authority on the ground would often be necessary to save a situation involving many thousands of dollars. They should be empowered to act independently in case of stress.

J. A. M. Aikins (Brandon) pointed out that the board was essentially a judicial body.

SOCIETY
 The Daily Hint From Paris

For the benefit of the Q. O. R. Chapter, I.O.O.F., St. Valentine's concert under the auspices of the Q. O. R. Chapter, will be held in the armory at 8 o'clock on Wednesday, Feb. 14.

Mr. Charles Dana Gibson, New York, the celebrated artist and his charming wife, who is generally supposed to be the original of the "Gibson Girl," returned with their royal highnesses from New York and are spending a few days at government house, leaving about the middle of the week for their home.

The event of last week in Ottawa was the reception held by Mrs. Sproule in the Speaker's chambers of the house of commons, a most successful and brilliant affair, and the first large entertainment to be given by the wife of the Speaker since her arrival in the capital. The attractive rooms were aglow with lights and showed to their best advantage, the reception rooms being decorated with ferns and palms.

Mrs. Sproule was gowned in black satin with white and sleeves of pale blue tulle. Mrs. Walter Turner, Toronto, in a smart gown of white satin with tulle of black and white and jet fringes, and Mrs. H. W. Bowles, gowned in black satin with sequined net tulle edged with jet, assisted Mrs. Sproule in receiving the many guests.

The rooms were thronged during the afternoon, the hon. the Speaker coming in after the adjournment of the house, while the hon. J. D. Rogers, Mr. Sir Wilfrid Laurier, Hon. Robert Hazen were among the few gentlemen present. The hon. the Speaker was paying their respects. The tea room was decorated in crimson and green, the table having hoes and ends of crimson satin, on which rested bowls of red tulips and white hyacinths, while the mantelpiece was banked with smilax and fern. A group of pretty girls, including Miss Foye Hatcher, Miss Katherine Foster, Miss Lennox, Miss Soothern, Lindsay, Miss Brisson, Quebec, and Miss Nellie Bishop assisted in waiting on the guests.

No reception will be held after the opening of parliament on Feb. 7, on account of the unfinished condition of the Speaker's chambers.

Sir Alan and Lady Aylesworth are at the King Edward until April, when they move into the house on Walmers road, which they purchased from Mrs. George Hagarty.

The president and members of the Canadian Art Club have issued invitations to the private view of the fifth annual exhibition of the club, which will be held in the gallery of the art museum of Toronto, public library building, St. George and College-sts., at 8.30 p.m. on Thursday, Feb. 8.

Col. and Mrs. Crowe gave a dinner at the R. M. C. Kingston, last week.

Col. Percy Sherwood, C.M.G. Ottawa, has sailed for home by the Empress of Britain.

Miss Emily Adams is leaving shortly for Bermuda to join her parents. Miss Helen Adams has returned from Winnipeg, where she was the guest of Mr. and Mrs. Doug Latta, and Mrs. Jas. Snydam will be in Toronto after their wedding trip, and will stay with Mr. and Mrs. H. H. Snydam for a time.

Miss Grace Henning is the guest of Prof. and Mrs. P. G. C. Campbell in Kingston.

Mrs. F. J. Blackburn, Lonsdale-rd., is giving a small house dance this evening in her daughter, Miss Cecil Blackburn.

Miss Coutlee and Miss Courso have returned to Ottawa, after a visit to Mrs. Prudeaux in Kingston.

Arrangements are nearly completed for the annual ball, which will be given by the daughters of the Empire on Feb. 13, St. Valentine's Eve, in the Royal Alexander Hotel, Winnipeg.

Mrs. R. J. Christie and Mrs. A. P. Burritt are giving a dinner dance on Thursday evening, Feb. 8, at the Hunt Club.

The Annual Sale of Trousers Starts Thursday With Values Better Than Ever

Huge preparations for this interesting annual event were begun earlier than usual with a view to making this a record sale of Trousers. There are fine English worsteds and tweeds in suitable patterns and colorings. Material being shipped direct to our own workrooms, and made up in the slack periods, resulting in a mutual benefit to all.

Experts at base of supply, and backed by substantial capital, secure fabrics at prices that demand large orders and ready cash to negotiate.

The large and spacious workrooms operating with full staff and at full time, during the periods of between seasons. A benefit to employer, employee and in this case to consumer as well.

The excellence of cut, tailoring and finish demanded of all garments that pass through our workrooms.

The values are better than ever. Come Thursday and share in this mutual saving.

MANY INFANTS ARE CARED FOR

Thirty Babies Taken in Charge At the Haven in the Last Four Months.

At the meeting of the charities commission last night Miss Carson, superintendent of the Haven, stated that there was an average of 32 inmates; some are very aged.

The inmates are employed according to their mental and physical capacities in their various departments of household labor. Each department is supervised by a matron.

BURNED BY ACID AND GETS DAMAGES

Alexander McLean Awarded \$900 Against Taylor Soap Works For Permanent Injury.

Alexander McLean was awarded \$900 in the jury assize court yesterday afternoon from the John Taylor Soap Company. McLean was in the employ of the Gibson, McCormack, Irving Lumber Company and on April 25 his motor-cycle skidded on Bathurst-street near College-street, when the wheels ran over some acid, which had dripped from a bottle in one of Taylor's wagons, which had preceded him up the street.

Nothing definite, however, is known yet as to what will be done. Ten days are allowed to elapse after the fee, which must accompany the election protest, is deposited at Osage Hall. The money was paid last Monday, so there is still lots of time for the petition to be served.

ALL PROTESTS MAY BE DROPPED

Time Allowed for Filing Petitions and Answers May Cause Loss of Interest.

It may possibly develop that the election-protests in the late federal contest may simmer away and be forgotten. There are four of these protests hanging fire—two Conservative and two Liberal. It is in Norfolk and West Kent that the Conservatives are not satisfied with, while the Liberals have grievances in East Elgin and Haldimand.

ALGONQUIN PARK WOLVES WILL SOON DISAPPEAR

Only Twenty-four Were Killed by Rangers Last Year, and Soon All Be Gone.

The howling of wolves in Algonquin Park will soon cease, probably forever. T. W. Gibson, deputy minister of mines, has received a report from the park superintendent, stating that wolves are very scarce this year, only 24 having been killed by the rangers. It is believed that the large number of females killed last year accounts for the present scarcity of these rangers of the game preserves.

RUSSIA'S BIG SUGAR CROP. BRUSSELS, Jan. 30.—(Can. Press).—The international sugar conference met to-day. All the delegates except the Germans expressed themselves in favor of acceding to Russia's request to increase her export of sugar to 200,000 tons and the continuance of the present arrangement for another five years, with the additional proviso that Russia shall be permitted further to increase her export in the event of another dearth of sugar as in 1911.

SHORTER ROUTE TO PORCUPINE

Deputation Asked Government to Extend Present T. & N. O. Line to Ruel Thru New District.

Porcupine will be brought about 20 miles nearer Toronto if the request of a deputation who called on Hon. W. H. Hearst yesterday is granted. The visitors were J. G. Henry, mayor of Sudbury; James Purvis and J. F. Black, representing the board of trade, and their request was that the government extend the T. & N. O. from Porcupine to Ruel, a distance of about 75 miles, running the line thru the mining districts of Slings Tree, etc. It was also urged by the deputation that running rights be secured over the C. N. R. from Ruel to Sudbury, so that the T. & N. O. trains would thus be able to run direct to Sudbury from the gold fields. The deputation called later on Sir James Whitney and made known their request, but while the government promised to give the matter every consideration, it is doubtful if such an arrangement with the C. N. R. would be arrived at. If the journey from Porcupine to Toronto were shortened so materially by going over the C. N. R. via Sudbury, it would doubtless hurt the traffic on the T. & N. O. line to North Bay. It is far more likely that the government will aim to get thru connections from Toronto to Porcupine without any delays, and hence develop the trade of the government railways.

ENLARGE GEORGINA HOUSE

Present Quarters Inadequate for Increasing Demands for Accommodation.

At the annual meeting of the Georgina House it was decided to immediately proceed with the enlargement of the present quarters, which are found to be inadequate to meet the increasing demands for accommodation. This step is made possible by the generous legacy left by the late Mrs. E. B. Oster. During the year just closed the society received 40 resident members and 170 transient, some of them from as far distant as New Brunswick and Newfoundland. A stirring address was given by Canon Guild and listened to intently by those present, among whom were Provost Macklem, Rev. Mr. Wallace, Noel Marshall, J. A. Kammerer. The following ladies were elected to the executive, from which officers will be chosen later: Mrs. Broughall, Mrs. J. A. Kammerer, Mrs. Brock, Mrs. Charles Fleming, Miss Baldwin, Mrs. Driffield, Mrs. Geo. Burnett, Mrs. Stratford, Mrs. Du Vernet. Mrs. Broughall, acting as chairman of the meeting, received reports from the superintendent, Miss Chalmers, and other officers, all of which were considered very encouraging.

REAL OLD-TIME SALE AT THE REPOSITORY.

The Repository held a splendid sale yesterday. It was a real old-timer and things did hum. A great many horses and a great number of loads were sold, but it is yet apparent that Toronto is about the best place to buy in Canada, as purchases can certainly be made more cheaply here. The auction yesterday lasted from 11 a.m. to 5:30 p.m. Auctioneers Chas. A. Burns did the most of the selling. There are a great lot of horses in, and fresh loads are crowding one another to fill up the vacant stalls, and this is one of the reasons why the Repository is such a favorite mart, as the competition between sellers is very keen and low prices result.

Mutt Shouldn't Let His Personal Feelings Interfere With Business - By "Bud" Fisher

A multi-panel cartoon by Bud Fisher. Panel 1: A man in a suit says, 'AT LAST I GOT LUCKY, I'VE GOT A JOB AS NEWSPAPER PHOTOGRAPHER. I'M TO GO OUT AND PHOTOGRAPH THE DUKE OF CONNAUGHT. I'LL NOT ONLY GET TO SEE HIM BUT I MIGHT ACTUALLY SPEAK TO HIM. WON'T JEFF BE SORE?' Panel 2: A man in a uniform says, 'IT'S ALL RIGHT, OFFICER. I'M A MEMBER OF THE PRESS—SEE MY BADGE?' Panel 3: A man in a uniform says, 'OH, THAT'S DIFFERENT! GO RIGHT AHEAD. I'M NOT SUPPOSED TO LET ANYBODY NEAR THE HOUSE BUT MEMBERS OF THE PRESS.' Panel 4: A man in a uniform says, 'I'LL FOCUS ON THE DOOR AND WHEN THE DUKE COMES OUT, I'LL SNAP HIM, I HEAR HIM COMING NOW.' Panel 5: A man in a suit says, 'YOU MUST BE AN ENGLISHMAN. TIME JEFF AND TELL THAT TO THE KING.' Panel 6: A man in a suit says, 'BY THE WAY, HOW ABOUT A PHOTO?' Panel 7: A man in a suit says, 'MY WORD!' The cartoon illustrates the tension between a newspaper photographer and a police officer at a royal event.

NO AMENDMENTS THIS SESSION

Moral Reformers Will Wait Till Next Year to Ask for Changes in Criminal Code.

Premier Borden and his colleagues will not be asked this session for any of the reforms in the Criminal Code and Moral Reform decided to apply to parliament for when the council meet here in the fall. The view of the executive officers, Rev. Dr. Carman, president, and Rev. Dr. Shearer and Rev. Dr. Moore, joint secretaries, is that it would be injudicious to press for legislation at the new government before the administration has had time to get well into harness.

HEART DISEASE COURED

Kingston Girl Saved by "Fruit-a-tives"

Heart Weakness and Heart Irritation are the common outgrowth of indigestion. Gas is formed in the stomach and accumulation of gas bulges over the walls of the stomach and presses against the heart. Palpitation, pain over the heart, and sometimes a feeling of smothering and distress, all are caused by the stomach and not because of any organic heart disease.

"Fruit-a-tives" will always cure this kind of heart trouble. It is a safe, reliable, and effective remedy for all cases of heart trouble, indigestion, and gas.

YORK COUNTY COUNCIL SELECT THEIR CLERK

YORK COUNTY COUNCIL CHAMBER, Jan. 30. (Special.)—By a vote of 15 to 14, Deputy Reeve Phillips of King Township was elected clerk of county council.

Hot Fight and Position Goes to King Township—The Lemonville Scheme Discussed

The introduction of Donald Lawrie, the council's acting clerk, complicated the situation and on the first three ballots no decision was arrived at. The fourth ballot was a tie, with Phillips and Lawrie each having one vote.

At the November session, when Reeve Keith of Newmarket, and Deputy Reeve Phillips of King Township were elected, the council was divided on the question of the position of the clerk.

TEDDY WILL LIST TO CALL

Dr. Abbott, Personal Friend of Roosevelt, Says Latter Wants to Serve Country,

NEW YORK, Jan. 30.—A letter from Dr. Lawrence Abbott, the personal friend and editorial colleague of Theodore Roosevelt, made public to-day at Trenton, N.J., is regarded as practically settling the question of Col. Roosevelt's acceptance of the Republican nomination.

Even more significant than the assurance of Col. Roosevelt's willingness to be a candidate is the intimation that his acceptance will express some deep purpose now in his mind and present to the minds of many who are supporting him.

The serious condition of affairs now prevailing in the United States and the necessity of some radical constitutional changes in the near future alike have suggested that the next president should be a man who could bring about these needed reforms in a drastic manner.

In Dr. Abbott's letter, which is addressed to Ex-Governor Stokes of New Jersey, there occurs this significant passage:

"If Mr. Roosevelt is ever elected president again, it will not be because he seeks or wants the office, it will be because the country wants him in the office to perform a certain job."

The text of the letter follows: "I understand Colonel Roosevelt's position."

"Dear Governor: In answer to your letter, in which you ask me, as one of Roosevelt's associates, whether he would accept the nomination for the presidency, I can assure my views in a few words. I have no authority to speak for him and what I say is my own individual opinion. But I have had some exceptional opportunities during the last two years, not only to learn his political principles, but to see at times the intimate working of his mind, and I believe I clearly understand his attitude with regard to the use of his name as a presidential possibility."

"If Mr. Roosevelt is ever elected president again, it will not be because he seeks or wants the office, it will be because the country wants him in the office to perform a certain job. He has had all the political and official honors that any man can possibly want. He accepted a nomination for the vice-presidency in 1900 when such a nomination was thought to be equivalent to political oblivion, and although he wanted to run for governor for the State of New York, in order to complete some important work in that office."

"Should I sacrifice myself in order to strengthen Mr. McKinley's nomination and the campaign for sound money and national financial honor. He accepted the nomination on that ground although at the time both his friends and his enemies said that it would mean the end of his political career."

"It did not end his career, however, for in 1904 he was nominated practically without opposition and elected by an overwhelming majority."

"In 1908 he not only declined but put a stop to his re-nomination at a time when such a nomination was equivalent to an election."

"What possible incentive can there be to a man with his record of both European and American achievements and honors to enter the arduous, disagreeable and often disastrous contests into which the candidate who struggles for the presidency is inevitably plunged?"

Not Seeking, But—"I am convinced that he does not desire the nomination and will enter no contest to obtain it. But I am equally convinced that if his countrymen have still further need of his services as chief executive he will not decline their call than he would decline to enlist if needed in time of war. It is, however, for his party and his country, and not for himself, that he would elect him, I am sure he will accept; if they elect him, I am sure he will serve."

HEADACHES OVER THE EYES MEAN FRONTAL CATARRH

Apt To Get Into Ears, Causing Deafness, or To Reach the Lungs and End in Consumption.

You can Cure Catarrh in Any Stage by Breathing the Healing Balsamic Fumes of Catarrhose, and Here Is Proof.

Mr. Ude Berault, a young gentleman who has lived for years in Sweetsburg, Que., inherited catarrh from his mother. The disease spread through his system till he was a physical wreck.

"As a child," said Mr. Berault, "I was prone to an ulceration of the mucous lining of the throat and nasal passages."

"I grew pale and emaciated, lost all desire for food, and got into such a dreadful condition that my friends said that Catarrh was fairly eating me up."

"Every organ of my body seemed affected, and the doctor said it was the first stage of consumption. He advised Catarrhose and I inhaled it ten minutes at a time every few hours, and was rewarded in a few days by a wonderful improvement."

"Catarrhose pleased me and the doctor as well, that I used it continually, and took Ferronose Tablets after each meal, to build up my strength. In about three weeks I was quite recovered, and the doctor says 'no remedy' but Catarrhose could work such a miracle."

"Everyone in town knows I was just about dead with catarrh, and my cure is an evidence of what Catarrhose can do. It is a pleasure to recommend Catarrhose."

Two months' treatment, large size, price \$1, and guaranteed. Small size, 50c, all reliable druggists, or the Catarrhose Co., Buffalo, N. Y., and Kingston, Ont. Beware of cheap imitations and imitations for 'Catarrhose'."

The World's Leap Year Baby Mugs

As was stated in a recent issue, The Toronto World will present a beautiful silver birthday mug to every baby born in Ontario on the 29th of next February. These children will only have an anniversary once in four years, and it is fitting that their birthday should receive some special recognition. There are no conditions or entrance fees attached to the award, the only regulations to be observed are as follows:

- 1.—Only babies born in Ontario are eligible. 2.—Babies must be born between the hours of 12.00 midnight, Feb. 28, and 12.00 midnight, Feb. 29. 3.—The entry for the award must be made by filling out the coupon which will be found printed in another portion of the paper. 4.—The date and hour of each child's birth must be recouped, for in the place indicated on the coupon, by the attending physician. 5.—Entries not made on printed coupon will not be considered.

Something more about this award will appear in The World from time to time. Questions addressed to the Silver Mug Department will be answered.

man treaty by this medium His delight showed itself also in the prompt fashion in which he distributed among the French officers in charge of the work the decoration of the Sherifian order. But the sultan was not satisfied with a single station. His troops were engaged in a campaign against the mountain tribes and he promptly demanded another at Sefrou, in the Atlas. The request was granted and two days after the expedition carrying the material left Fez. The Fez post received a wireless message from Sefrou announcing an attack upon a French column. Still another extension was subsequently decided upon. Now when the troops of the sultan go upon an expedition against rebellious subjects, they take with them a complete wireless outfit carried by five donkeys, and can set it up and communicate with the capital at any time. The wireless detachment is made up of natives who have been trained by French officers.

Circus Woman Married King. Munsey's Magazine: Only two American women have been willing to submit to the humiliations and disadvantages of a morganatic marriage. One of them still survives. It is the widow of a king. Elsie Hensler was a native of Boston, and for a time connected with one of the great circuses here, more than half a century ago. Attracting the attention of King Ferdinand of Portugal, she became his morganatic consort, in 1870. The marriage took place in Germany. She still survives. She makes her home at Lisbon, and has a large fortune and extensive estates, which, much to the chagrin of her consort's royal relatives, she inherited at his death.

RAINFALL AND THE MAKING OF A DESERT.

The sixth of the land surface of the globe is desert, it is not easy to define exactly what produces the desert.

In a late paper to the Royal Geographical Society, Professor D. I. MacDougal of the Carnegie Institution, pointed out that it is impossible to say what limit of rainfall will give a desert, for latitude and altitude modify the effect of a given amount, and wind-flow and topography have an important influence.

Put in considering how Eastern America, for instance, might become a desert, chief interest centres in the lessening of the rainfall. The reduction would undoubtedly result from changes in the flow of the wind in a

year of a single wet winter season, and a dry, rainless summer. The total evaporating power of the air would be increased.

The disproportion between the annual maximum and minimum rainfall would be heightened, and the daily and the annual range of temperature would increase chiefly through a heightened maximum. Many streams would show only intermittent flow; lakes would be lowered or dried up, and their windswept bottoms would be piled with dunes.

On slopes of loose, disintegrated material, the wind would tend to carry away the finer particles, and the coarser pebbles would sink, forming a pavement to be polished by wind-borne sand. In the readjustments of man and other animals, greater tensions and fiercer competitions would be set on foot.

Stock Story. "When I was a barefoot lad," said Dustin Stax, "I had to spend a good deal of time minding the stock on father's farm. I'll never forget the day when father told me to take a rope and hold a couple of bull calves."

"What did they do?" "They scorched my hands with the rope and then turned around and stepped on me."

"Unruly disposition?" "No. Wonderful instinct. They eyed me at a glance as a small stock holder."

MEN, YOU CAN BE CURED With Dr. McLaughlin's Electric Belt

If you are losing the strength of youth and can see evidence from day to day that your physical system is going to decay, you should, in common justice to your future happiness, take steps to check this.

Don't make the mistake of thinking that this can't be done; it can be, and has been done in thousands of cases. Don't deceive yourself into believing that it is natural for any person to thus exhaust his strength.

Nature is appealing to you every moment to save yourself. The slight pains that you feel, the momentary spells of weakness, the periodical loss of memory, dullness of brain, drowsiness—all point to the necessity of curing yourself now. I have a positive cure for you in my

TORONTO HOUSES IN GREAT DEMAND

If Investing Public Wake Up to the Possibilities There Is Going to Be an Unprecedented Amount of Building in the Spring.

"If Toronto investing public wakes up to the possibilities of this city, there is going to be an unprecedented amount of building in the spring," said C. E. Barnett, the real estate man, to The World yesterday.

"The demand for houses to rent has been far beyond the supply this month and last," he continued. "Workingmen are experiencing great difficulty in securing houses at these figures and it is causing them no little worry. Of course for the past ten years renting houses have been scarce at this season

of the year, but the situation is all the time growing more acute. "If a man wants a renting house, it is up to him to wait and wait patiently. He can count himself lucky if he gets one on demand. We have also had some difficulty in finding renting houses at \$25 and more. Many people asking for houses centrally located have to go out much further than they expected. Robins and Company asked us for our list of rentals a few days ago, but we could not oblige them."

One of the big factors in the scarcity of renting houses is the fact that Toronto is growing, and growing fast. The census men say Toronto is increasing in population 30,000 a year. "If we find homes, either to rent or for sale, for the people already in the city," ask the real estate men, "where are we going to put those constantly coming in?" "Some investors refuse to invest," said Mr. Barnett, "saying that prices are too high. In a degree this is true. Some property owners are asking too much for their holdings, but the cautious investor does not have to buy from this class. For instance, take a piece of property that has changed hands four times in eight years. Each time that property was sold it meant a successful profit, each sale probably being on the ascending scale. Property of this sort has jumped beyond its normal value. But as a general rule excessive prices are neither paid nor asked."

Real estate men are reporting a good demand for vacant property, which indicates a satisfactory amount of building in the spring.

According to several real estate brokers, there are a number of investors who are seriously looking for a slump in land values in this city, in fact some even go so far as to predict that the bottom will fall out of the market. "There is no chance for a slump," said Mr. Barnett, "Toronto's growth has been steady, consistent, healthful. There has never been anything of the mushroom variety to it. The fact there is not an adequate supply of houses at the present moment is one of the strongest testimonials of the soundness of conditions. Over-production must precede a fall in values. I think that when investors who are over cautious wake up to the possibilities offered, there will be a rush for good buys. I am not saying this with a view of blowing my own horn, either. All our vacant land is practically sold, and the fellow who still has holding is lucky."

Edward A. English, of English Limited, said that more money was being put into Toronto real estate than ever before. "We are selling to businessmen to-day," he said, "whom we couldn't drag in with a locomotive two years ago. They were stock crazy, then, but now the money is going into real estate. We are receiving money from outside the town too. Conditions seem to be unusually prosperous among the working classes, as we are receiving larger and prompter payments than for years."

Mr. English said that the large number of real estate men from Saskatoon, Calgary, Edmonton and other cities who have opened offices here, was complimentary to Toronto as a financial centre. "But these men are not getting away with it," he said, "Toronto people prefer Toronto real estate."

TO QUIZ LABOR LEADERS ON DEFENCE FUND USES

Secretary Morrison of A. F. of L. Called to Indianapolis—Others May Follow.

INDIANAPOLIS, Jan. 30.—(Can. Press)—Whether any other labor leaders of national prominence are to be called in the government's investigation of the dynamite conspiracy is to be determined by the appearance of Frank Morrison, secretary of the American Federation of Labor, before the federal grand jury on Thursday.

In investigating allegations that money was used to divert or influence witnesses, the government, it is said, found in books and correspondence obtained since J. J. McNamara's arrest last April, records upon which more light is desired.

Mr. Morrison, who is to be accompanied by Henry H. Fletcher, cashier of the bank in Washington, where the American Federation of Labor funds are kept, is to be asked about the disposition of the \$25,000 raised for the defence of the McNamara brothers. Whatever financial dealings, if any, the International Association of Bridge and Structural Iron Workers had with the federation since McNamara's arrest is also to be enquired into.

Before his arrest, McNamara, as secretary-treasurer of the Iron workers, was allowed \$1000 a month for which he was not required to give any accounting, but which Orlin McManigal, the confessed dynamiter, says, was used to pay for explosives and to pay men to blow up "open shop" structures. It was while going over these accounts that the grand jury, it is said, decided to go into all the finances of the Iron workers.

Watchman to Testify. KANSAS CITY, Jan. 30.—(Can. Press)—Patrick Boyle, watchman of the Armour-Swift-Burlington Bridge, dynamited here August 23, 1910, has been subpoenaed to testify before the grand jury at Indianapolis. He started for that city to-night.

Prof. Dr. Ehrlich's 606 Cures Blood Poison—Syphilis

Every man or woman suffering from blood poison, no matter of how long standing, ought to know that this fearful disease—syphilis—can now be positively and permanently cured with the aid of the wonderful discovery made by the world-famous Professor of Medicine, Fritz Conradi, Dr. F. Ehrlich, Vienna, Austria, the effect of blood poison creeps on like a thief in the night. As many a sufferer who has had symptoms was given and sent a few years afterward to find himself stricken with the horrible after effects, such as Locomotor Ataxia, Heart Failure, Blindness, Lost Memory, etc., etc., can you take this terrible chance? No one who has ever had blood poison should get married before taking "606" for although the symptoms may have disappeared, they will surely reappear in later years, or your offspring will be affected. Tens of thousands of cases cured in Europe and America. The treatment recommended by the greatest medical authorities in the world. Articles concerning "606" appeared in the leading medical journals all over the world. They will be forwarded on request. The success of this most marvelous remedy depends almost wholly upon the manner in which it is administered. Don't allow yourself to be experimented upon. Get the real "606" and consult us.

WANTS TO TAKE OVER STREET RAILWAY CORPORATION

Corporation Counsel Will Report on Controller Church's Proposal to Apply for Necessary Legislation—Officials May Be Indicted for Christmas Eve Accident.

Controller Church's motion that the city seek legislation for power to take over the street railway franchise was taken up by the legislation committee yesterday afternoon and after a lengthy discussion the matter was left in the hands of the corporation counsel for a report.

Controller Church's motion that the city seek legislation for power to take over the street railway franchise was taken up by the legislation committee yesterday afternoon and after a lengthy discussion the matter was left in the hands of the corporation counsel for a report.

Controller Church moved at the board of control meeting yesterday morning that the corporation counsel be instructed to confer with the attorney-general and the county crown attorney, with a view to having the corporation counsel apply to the Ontario Railway Board for a sufficient period to prove that an adequate service had not been given, and after such proof the city to be given the privilege of taking over the franchise.

Controller Church made a motion that there should be an immediate reorganization of the street railway. The controllers all agreed that something should be done at once.

reduced rate. This was in vogue, he said, on several steam railways in England, and was now being introduced into the United States. The committee were amused at the motion, but it was sent to the city solicitor for a report.

Controller Church has been investigating the number of hours worked by the street railway employees, and has come to the conclusion that some of the men put in too many hours a day and that in this way public safety was endangered. He proposed to ask the council to make application to the legislature for an act empowering the Ontario Railway Board to regulate these hours.

That Knotty Feeling of the Stomach is Relieved by a Stuart's Dyspepsia Tablet.

Thousands of people have learned so well how sure and dependable Stuart's Dyspepsia Tablets are for all stomach ills—that they are never without a package at home and at the office, and upon any indication that the stomach is a little weary, they take a Stuart's Tablet after each meal for a few days until the digestive organs get right up again.

Use them freely—they are as harmless as sugar would be—and are by no means to be classed as "medicine." They have no effect whatever on the system except the benefits they bring you through the proper digestion of your food.

MUSIC TAUGHT FREE Home Instruction Special Offers to Readers of the World.

In order to advertise and introduce their home study music lessons in every locality the International Institute of Music of New York will give free to our readers a complete course of instruction for either Piano, Organ, Violin, Mandolin, Guitar, Cornet, Banjo, Cello or Sight Singing. In return they simply ask that you recommend their institute to your friends after you learn to play.

You may not know one note from another; yet, by their wonderfully simple and thorough method, you can soon learn to play. If you are an advanced player you will receive special instruction.

The lessons are sent weekly. They are so simple and easy that they are recommended to any person or little child who can read English. Photographs and drawings make every thing plain. Under the institute's free tuition offer you will be asked to pay only a very small amount (averaging 14 cents a week) to cover postage and the necessary sheet music.

No one should overlook this wonderful offer. Tell your friends about it—show this article to them. The International Institute has successfully taught others and can successfully teach you, even if you know absolutely nothing whatever about music. The lessons make everything clear.

Study in Honesty. A notable example of honesty was reported in the New York City papers recently. While one honest man was walking in Broadway a \$50 bill was blown into his face. He promptly turned the bill over to another honest man, a policeman. The policeman tried to find the owner. Here by tale of the honest man ends and that of the dishonest ones begins. It is said that

Monotonous Decline in Porcupines Continues; New Low Records

Short Interest Feeds Out Stock And Values Decline Once Again

Porcupine Stocks Get No Relief From Burdensome Liquidation—Hollinger Down to Twelve Dollars.

World Office, Tuesday Evening, January 30. Short traders were engaged in feeding out stock in the mining exchanges again to-day, and the market once again proved vulnerable to pressure of that nature, with sharp declines in values in every instance where the selling amounted to any material volume. Closing prices were generally around the low points for the day, and at a greater or less discount from the quotations on Monday.

It has been reported on the street for some days now that a coterie of traders are taking advantage of every appearance of responsible demand in the exchanges to sell stock and to buy along the same line it is understood that a decidedly large short interest has been established since the first of the month. The extremely assailable position of the market, brought about by reason of adverse developments, has put big profits in the way of the shorts. Of course, these are on paper only. Also it is to be said that there has been no let-up in liquidation of this nature up to this time.

Hollinger led the movement again to-day, and the price of this issue got down 50 points to \$12, with closing bids of \$11.50. At this figure, the shares showed a depreciation of \$2.40 below the high price of Saturday of last week. The stock came out in dribs and drabs, with no reason for the selling, served to keep values on the down-grade through.

Many New Low Records.

The lesser Porcupines showed much the same trend as the big issue and several instances of weakness were apparent. Rea dropped off 10 points to \$1.25; Jupiter was off 4 at 44; Dome Extension sank to 28, but closed better than that before. Bottle Crown Chartered, Apex and Preston dropped back to new low price records. Vipond was an especial weak spot, declining a full seven points on the liquidation of a block of 4000 shares. The stock succumbed rapidly to the selling and the price of this issue, which had advanced to 35, declined to 28, the lowest price at which the shares have ever sold.

A sharp upward movement in Nipissing was the feature of the Cobalt list. The stock advanced 40 points to \$7.40 and closed even better than that figure at 7.15 bid, with no stock offering. No reason was assigned for the big appreciation. Elsewhere prices were unchanging.

The market throat acted in an extremely apprehensive manner and proved a decided disappointment to such as looked to the Hollinger report as the reprehensible short selling continues in the market, it is impossible to say when any material change for the better can be experienced.

Rapid Progress Made At the Lucky Cross

New Machinery Installed—Assays in Shaft Run High—Down to 112 Foot Level.

The Lucky Cross Mines of Swatika have sent out a report to the effect that work at the property is progressing rapidly. At the 112 foot level the station and pump has been cut and the cross-cut is being run in four different directions from the station. A new air-receiver has lately been installed at the bottom of the test-pit, samples taken recently downwards in the shaft for 50 ft., averaged over \$50 to the ton, the assay men at work on the property.

Uranium Copper Report.

NEW YORK, Jan. 30.—(Can. Press.)—The uranium copper report, published by the U.S. Geological Survey, shows a surplus of 475,680 lbs. of uranium, valued at \$862,380. The production for the quarter ending Dec. 31, 1911, was 1,218,719 lbs. against 2,188,719 lbs. in last quarter.

CLAIMS \$300,000 FROM HYDRO

McGulgan Construction Company Wants Payment for Delay in Work.

The F. H. McGulgan Construction Company is claiming \$300,000 from the hydro-electric commission for the delay in constructing the hydro-electric transmission line from Niagara Falls to Toronto and from the falls to St. Thomas via London, by reason of the hydro falling to expropriate the right of way as early as it should have done. The claim is being heard at the city hall before an arbitration board, consisting of Mr. Justice Teetzel, Wallace Nesbitt, K.C., and Thomas G. Meredith, K.C. of London.

WOULD BLOCK POWER SCHEME

Montreal Board of Trade Opposes Sir Max's Pet Idea.

MONTREAL, Jan. 30.—(Can. Press.)—At the annual meeting of the Montreal Board of Trade to-day, the members declared themselves very strongly in favor of the retention in office of the present Montreal Harbor Commission, instead of the proposed one. A resolution of approval of the proposed exploitation of the St. Lawrence and Ottawa Rivers for power purposes, strongly opposing the endangering of these waters for navigation purposes and advocating that necessary the government should take up the whole matter in the interests of the public so as to secure better power, while at the same time preserving the interests of navigation.

THE TWO SIR DONALDS.

An anonymous individual writes The World that Donald Mann was seen in Toronto on Monday and hence could not have given the interview credited to him in Vancouver on that day.

As Sir Donald is certainly on the Pacific slope so far as his robust, muscular body is concerned, here's something for the psychic research folks to investigate.

WOULD MARRY WHEN MARRIED.

EDMONTON, Jan. 30.—(Special.)—Edward Symons, a middle-aged man, is confined in the county jail here as a charge of polygamy. The accused at the Village of Tweed secured a marriage license, alleging he was a bachelor, whereas he has a wife and family living in this province. Symons did not, however, marry the second time before the county judge the accused pleaded guilty to polygamy, and judgment in the case was reserved until Tuesday next.

BORDEN IS WEAKENING

WAR IN N. Y. HERALD

Washington Advises Say Demand of West For Reciprocity is Having Effect.

NEW YORK, Jan. 31.—(Can. Press.)—The Herald has a despatch from its Washington bureau this morning in part, as follows:

"Surprising news that the Borden government in Canada is inclining to reciprocity with the United States has come to Washington through an unofficial, but well informed channel. The general disposition has been to regard reciprocity as dead for a few years at least, as the Borden government gained office on an anti-reciprocity platform last September.

"It is now said that the prairie provinces of Western Canada, with a vast and valuable wheat crop on their hands and with a car famine, are yearning as never before for the American market which the adoption of reciprocity would have opened. As a result the pressure on the Ottawa government in favor of better trade relations with the United States is growing.

"One phase of the information from Canada is that Mr. Borden already has indicated a willingness to enter into a trade agreement with the United States less extensive than that negotiated a year ago by the Laurier government. Whether he has done so most say, the Dominion Railway has been suggested as the subject could not be officially confirmed here to-night.

ABOLISH DEADLY CROSSING

Jury Enquiring into Vansicklen's Death, Appeals to Railway Board.

TRENTON, Jan. 30.—(Special.)—A coroner's jury, enquiring into the death of John E. Vansicklen, who was struck and killed by a G.T.R. train at a level crossing, between Trenton and Brighton, on Jan. 29 last, brought in a rider to-night to the effect that the place, known as Bush's Crossing, is highly dangerous. It was suggested that the Dominion Railway Board order the railway to abolish the crossing by building a road north of the tracks or in some other way.

PEEL COUNTY ROADS

Deputation Asked Government to Connect Lake Shore With Toronto.

A deputation representing the residents of Peel County waited on Hon. Dr. Ross yesterday in the interests of the good roads movement.

During the term of office of the Ross government a petition was set aside for establishing a system of county roads throughout the province. The County of Peel spent \$20,000, of which amount the government refunded one-third.

CREW OF TUG IN DANGER

On Mission of Rescue, Twelve Men in Dire Peril of Death.

CHICAGO, Jan. 30.—(Can. Press.)—Two lake tugs, carrying 10 men, were rescued from the ice in the St. Lawrence river to-night, but the rescuer, another tug, became caught in adjoining floes and its crew of 12 men faced the same peril from wind and starvation which confronted the rescuees.

MORE TROUBLE FOR D.U.R.

DETROIT, Jan. 30.—The Detroit City Council to-night unanimously authorized the Corporation Counsel Lawson to request the circuit court to enter a decree against the Detroit United Railway Company compelling the company to pay an annual rental of \$200 daily for the use of Fort-street on which the railway company no longer has a franchise.

Wall-Street Good to China.

NEW YORK, Jan. 30.—(Can. Press.)—A China famine relief committee to work in conjunction with the American Red Cross in aid of the 3,000,000 destitute dwellers of the stricken Anhwei and Kwangsu districts in China was organized by bankers and others in the Wall-street district this afternoon.

Jarvis ex-Pupils Dance.

Jan. 30.—A group of ex-pupils of the Jarvis held its annual dance in the Canadian Foresters' Hall on College-street last night. The patronage was excellent. Mrs. Embree, Mrs. Milner, Mrs. Keith, Mrs. Munro, Miss Johnson and about two hundred couples danced to the music of an orchestra of six pieces.

Third Announcement

In view of the fact that we have been overwhelmed with enquiries from investors and brokers for an explanation of our announcements published in The Telegram, Star and World, stating we have an investment in an industrial enterprise that should pay larger profits than mining, with many of the risks attached to mining enterprises.

We announce that we will make public the nature of this investment in the financial columns of The Telegram, Star and World next Thursday, Friday and Saturday, and guarantee it will be interesting reading for the public, and especially for our competitors.

The corporation we represent will manufacture one of the important products of the world at fifty per cent. less than it is now or ever has been produced, and by its low production cost will control the world markets of this commodity.

Again we say to the investors and brokers that this enterprise will undoubtedly control the markets of the world in its products.

Brokers wishing to fill orders for their customers after we make our offering of stock will do well to call and see us at once.

Respectfully,

TURNING SEARCHLIGHT ON PRINTING BUREAU

Chief Lithographer Before Commissioner Yesterday—Revelations of Interest Looked For.

OTTAWA, Jan. 30.—(Can. Press.)

The government printing bureau is the next department to feel the probe of the public service commissioners.

It will be remembered that there was a big scandal there in the summer of 1910, and in the general mix-up one official suicided and several were dismissed after disclosures were made.

The case of R. E. Cook, chief of the lithographing department, who has been dismissed and had demanded a re-hearing, is being taken up to-day, while Mr. Parmelee, the King's printer, will be examined to-morrow. It is anticipated that there will be interesting developments and the Timiskaming case has been suspended for the present.

SHE SAW NO HARM IN MARRYING TWICE.

Protesting to the last that she saw nothing wrong in marrying twice, she first husband was alive, as they had mutually agreed in separate and go their ways, Sarah Jane Amelia Harper was given nine months in the Mercer by Magistrate Denison yesterday. Robert Ward, who married her last July, said he did not know of her previous ceremony with Mr. Harper. The woman when arrested, declared Mr. Harper had married again.

DISORDERS IN TURKSTAN.

ST. PETERSBURG, Jan. 30.—(Can. Press.)—As a result of the disorders in Urumbai, Persian Armenia, and Kuldja in Kashgaria, the British Consul at Kashgaria has requested troops from India for the protection of British subjects.

There have been numerous skirmishes between the Kurds and Russians occupying these districts, and the whole country is in a condition of turmoil.

MAY AMEND ELECTION ACT.

There being no provincial legislation to save the expense of the unnecessary registration when two elections follow closely, an amendment to the Election Act will probably be introduced at the last provincial elections. It was found that the vote registered two months previous for the Dominion election could not be used. As a result provincial registration had to take place.

Left Property Worth \$20,000.

Property to the value of \$20,000 was left by the late John Leadley of Toronto. The property was 145, 147, 149, 151 Grange-avenue and 91 and 93 Denison-avenue. To his daughter-in-law he bequeathed \$500 and \$200 to his sister, Jane Hodgson of Scarborough, England. The balance is to be divided amongst his family.

Rushed Out and Crowded In

There are two kinds of customers now: One picks up the best bargains in THIS SEASON'S GOODS, the other gets best choice from SPRING SHIPMENTS. THIS PAGE APPEALS TO BOTH. It seems a sacrifice to mark good seasonable things below cost, but the new-comers demand admittance.

Business Suits for Present Wear

The blue pencil has been very busy in the Men's Store. First-class suits, ideal for business men, neat blue serge suits for boys, seasonable furs and underwear, all carry prices on Thursday that will afford fine buying for those in want of clothes for present wear. The call for space to accommodate the new arrivals for spring is imperative, and these go out on Thursday as tremendous bargains.

Business Suits

First-class material and cut; English tweeds, in mixtures greys and browns, and a few worsteds; single-breasted, three-button style, with collars that fit better than most of those made to measure; tailoring and linings are fine, and there is not a secondary suit in the whole lot. Regularly sold for \$10.50, \$12.00 and \$15.00. Thursday..... **7.90**

Boys' Blue Serges

Smartly cut and well tailored, blue serge two-piece suits, at a very low price. They are all double-breasted, and have bloomer pants; cut in the full American style. Sizes 25 to 30, \$4.50; sizes 31 to 34..... **5.00**
