VETERAN GUIDE LOSES FINGER

Henry Braithwaite is Shot at His Traps.

First Gunning Accident in His 67 Years in Woods—Mr. and Mrs. A. Staples Injured—Railway Cases Settled.

(Special to Times)

Fredricton, N. B., May 27.—Henry Braithwaite, Canada's oldest active big game guide reached his home in Fredricton on Thursday night the victim of the first shooting accident in his long career as a woodsman. On last Monday he had the third finger of his left hand blown off by a shot gun in the Miramichi. A physician dressed the finger here and no complications are expected. While attending bear traps accompanied by another man named McNamara, Mr. Braithwaite was carrying a shot gun in a case. It was the property of Mr. McNamara. The old guide tripped over a log and fell. He attempted to thrust the gun away from him and in so doing lost his finger. Neither man knew that a shell had been placed in the gun. Moss and mud were used as a temporary dressing and Mr. Braithwaite walked several miles out to the railway. He is in his 67th year and has been a guide for sixty-seven.

As Hiram Sees It

"Hiram" said "The Times reporter to Mr. Hiram Hornbeam, 'with your permission I will do the talking today. When I was out to the Settlement I saw posted up a notice announcing the road-tax of each farmer, or the number of hours he would have to work on the public highway this year. The largest tax was less than five dollars, and the largest number of hours any man would have to work to pay his tax, if he preferred that method, was less than twenty-four. Why the whole settlement tax would not put a surface road as much road as I could cover in three jumps—and I am afflicted with rheumatism. And then I asked a man out there in the road in front of his house, and he asked me if I thought he was the road-taxer's hired man. He would wreck his wagon, or make the hauling harder for the farmer, but he would not pay the road-tax. Well, said Hiram, 'if you'll add that the feller that hauls heavy loads over the road when the frost is comin' out to be harnessed up to 'I'll send the motion. Yes, sir.'"

Notes From Training Quarters of Dempsey and Carpenter—Hunted Wins the Final in the British Golf Championship.

New York, May 27.—Tex Rickard will be the guest of honor at a "clean sportsmanship" dinner here on June 30. GOLF FINAL TODAY

Hoylake, Eng., May 27.—Allan Graham of the Royal Liverpool Golf Club, W. I. Hunter of Wainier and Kingsdown in the final match for the English amateur golf championship here today. The contest was for thirty-six holes, over the difficult Hoylake course, under conditions of weather which threatened to add to the uncertainties of the game. It was expected to bring out all the mastery of golf possessed by the two men. Expert opinion seemed to favor Hunter. He played masterfully against Bernard Darwin of Woking yesterday, after Darwin had eliminated Frederick D. Wright of Boston, the last United States contestant. Graham, on the other hand, did not play particularly well in defeating H. S. B. Tubbs.

GOLF EXPERTS FREELY ADMITTED THAT GRAHAM NOR HUNTER COULD BE CLASSED AS PREMIER BRITISH GOLFERS.

"It becomes more and more apparent," said one writer, "that matches over eighteen holes are likely to produce topsy-turvy results, and when one thinks of some of the great golfers knocking over during the last week, it is not surprising that the task of attempting to account for amateur performances."

A heavy rain, which began falling about midnight, delayed the start of the final match until 11 a. m.

LATER

Hoylake, May 27.—Hunter won the British amateur golf championship here today. In the 48 hole final, Hunter defeated Graham.

Where Speed Counts.

Indianapolis, Ind., May 27.—Thirteen drivers and machines were to get their last opportunity this afternoon to qualify for the ninth annual renewal of the 500 mile international automobile race, scheduled to be run at the Indianapolis motor speedway May 31. A speed of eighty miles an hour or better must be maintained for a distance of ten miles.

Some of the principal drivers, including Howard Wilcox, winner of the event in 1919; René Thomas, French driver, and Louis Chevrolet, have not yet qualified. The best time on Wednesday was made by Ralph DePalma, by driving at a rate of better than 100 miles an hour.

Dempsey and Carpenter.

Atlantic City, N. J., May 27.—Replacement of Jack Dempsey's staff of sparring partners are arriving in numbers. He boxed outdoors yesterday for the first time, going eight rounds with four of his sparring partners. Martin Burke, a lanky sandy haired heavyweight from New Orleans, whom his admirers regard as a championship contender, is now in the Dempsey camp. Captain Bob Roger, a Pittsburgh light heavyweight arrived today.

Manhattan, N. Y., May 27.—Fishermen along Manhattan Bay learning that Georges Carpentier loves the rod and reel are deluging the challenger with invitations to make use of their boats for special trips to the banks.

One old fellow, an ardent admirer of the challenger, has honored him by painting the stern of his boat in the tri-color and changing its name to "Georges Carpentier."

Carpentier so much enjoyed his four rounds of ring work yesterday that another session with sparring partners was prescribed for him today.

The challenger appeared to like the increased activity. In his workouts with Italian Joe Gans, and Joe Jeannette, he was a smiling, bantering dancing whirlwind, in, then out, trying all his ring cunning.

Walter Monahan, who helped Jess Willard prepare for the Dempsey fight, called today and offered his services as a sparring partner.

New York, May 27.—Belmont Park opened its spring race meeting today with a dozen horses entered for the Metropolitan handicap, the feature race of the day.

INQUIRY INTO THE ESCAPE OF DOOMED MAN

Woodstock, Ont., May 27.—Provincial Police Inspector Greer and other officials are investigating the conditions at Woodstock jail, from which Norman Garfield, condemned to be hanged on June 3, escaped last Wednesday evening. It is not to be general impression that Garfield was very generously treated at the jail, considering the seriousness of his position. The provincial officers are also examining Rev. Wilfrid Gaeta, who was in attendance upon Garfield when he escaped. Following the discovery near Dundas of the motor car in which the prisoner got away there are no doubts regarding the course taken by Garfield after his escape.

MONTREAL STOCK EXCHANGE

Montreal, May 27.—The local stock exchange was again very dull during the early trading this morning, only a few of the leaders appearing at all within the first half hour. WARMTH IN THE SYNOD ON THE DIVORCE QUESTION

Bishop Clark and Hon. Richard Harcourt in Spirited Discussion—Labor and the Church. Hamilton, Ont., May 27.—"As for the innocent party, often referred to in divorce proceedings, I say he or she is a very rare bird," declared Bishop Clark at the annual meeting of the Niagara Synod here when the divorce question was under discussion. Hon. Richard Harcourt and the bishop had a somewhat warm discussion over a petition circulated in the diocese against divorce. Mr. Harcourt denied that divorce was to be obtained with "facility," as stated in the petition, and said he was not of those who shared the opinion that all divorces were wrong. He said that the church would suffer, because only 1,000 of 15,000 parishioners had signed the petition, and he urged that the petition be withdrawn. Bishop Clark showed warmth at it. "The Church of England does not know divorce," he declared, "and an action as has here been suggested would be an expression of want of confidence in me." This reference was to his leadership at the divorce of yesterday in specific support of the petition. The divorce question was tabled for the time being. In a discussion on social service, Ven. Archbishop Macintosh of Guelph expressed fear that labor, with its present leaders, were going to get the upper hand the church would suffer, because many of labor's leaders, especially in England, apparently were not in sympathy with Christianity. He said that Tom Moore, president of the Trades and Labor Congress of Canada, was friendly toward the church.

CHIEF KILLED AND MAYOR WOUNDED

Serious Trouble in Mexican Village as Radicals Try to Take Charge. Mexico City, May 27.—Radical elements seized the municipal government of the village of Jacoma, near Zamora, state of Michoacan, yesterday and killed the chief of police and wounded the mayor and several other civilians. Radicals were holed above several buildings, but when the radicals attempted to force their way into churches, the disturbers withdrew. The people of Jacoma, hearing of the outbreak, took up arms and rushed to the aid of the authorities of Jacoma, but before fighting began, federal forces intervened. Less serious demonstrations were held in other parts of the state of Michoacan, about thirty-five miles south of Zamora. There was some fighting but there were no casualties. The outbreak of the state of Michoacan was the scene of a tragic clash between radicals and Catholics about two weeks ago.

AGAINST OUTSIDE LABOR CONTROL

Sir Wm. Price Urges Strong Stand "To Kill for All Time Such Dangerous Influences." Quebec, May 27.—(Canadian Press.)—Sir Wm. Price, president of Price Bros. & Co. in an address to shareholders at the annual general meeting of the company, yesterday, said that the present season showed a further and definite decline in demands for lumber, and that the demand for paper had also somewhat fallen off. Speaking of the wages dispute now in progress at the mills of his company, he said international agitators had forced the company to close down. He said that the company viewed with grave forebodings the ultimate result of the control of Canadian labor by foreign unions," and emphasized the necessity for a strong stand being taken now "to kill for all time such dangerous influences," irrespective of whatever financial losses might be sustained. The board and officers were re-elected.

A MEAL OF CUT WORMS.

C. A. Nash, of Toronto, records an experiment with the robin as a cutworm destroyer. One young robin, kept in confinement, ate 165 cut worms in a day. Had he been compelled to find his own food he would probably have varied it somewhat, as he would not likely find so many cutworms. What he could do when he had the opportunity was clearly demonstrated.

COMMONS HOLDS UP SENATE DIVORCE

Ottawa, May 26—A divorce bill from the Province of Quebec aroused opposition while in committee stage in the House. The bill was one granting a divorce to Alphonse Le Moynes de Marigny. Adolphe Stein (Kamouraska) said he had read the evidence submitted to the senate committee on divorce in this case, and had come to the conclusion that there was nothing to sustain the decision of the committee. He knew of no other case in which a divorce had been granted on such slim evidence. He had no interest in the case, but he believed that it was the first divorce granted in the Province of Quebec, and it was not justified. ULSTER AND CRAIG.
The claim of the Sinn Fein that it had the support of a majority of the people in Ulster is not borne out by the election returns. The Unionists have a large majority than they anticipated, and the Sinn Fein cut a very small figure. It is clear that the north will have nothing to do with the agitation for a republic. It will have a parliament of its own, and it may be hoped will set an example of wise tolerance that is sorely needed in Ireland at the present time. That it will set its face against any attempt to disrupt the union is assured. The establishment of the new system of government will present many difficulties, but in Sir James Craig the Unionists have a leader whose qualities may do much to make the way smooth. A writer in the Montreal Gazette says of him:

"In the late Mr. John Redmond's time, Sir James Craig seemed to shine very prominently in the Irish debates in the British House of Commons, and on several occasions the recipient of heavy congratulations from the late leader of the Irish Constitutional Nationalist Party upon the skill, ability and bull-dog tenacity with which he held his point of view so far as Imperial Ulster was concerned. Sir James Craig is a fearless, but a fair speaker. He is fluent and does not ask or give quarters either on platforms or in the House, and one of the greatest proofs of his amiability may be seen in the immense popularity he enjoys with his keenest political opponents. He has just completed a very distinguished parliamentary career in the British House of Commons, and has held Government office as Parliamentary Secretary to the Admiralty, during the tenure of which office he was noted for his amiability and for the ease with which he could approach on all matters concerning his department, although at no time did he allow the interests of the navy to suffer. Sir James Craig can, in a word, be called a man who commands not only the deepest respect and confidence, but also the admiration and whole-hearted appreciation of the people of Ulster. His recent conference with Mr. de Valera was undertaken in the interests of the peace, and it simply goes to show the quality of the man, that in his love for Ireland, his native land, he would go to any lengths to try to wear down the path of bloodshed, and evil political thoughts which at present keep the two big political parties in Ireland apart."

GENERAL PROTEST NEEDED.
How widely representative of the maritime provinces at large will the delegation be that will go to Ottawa next week to present the case for a square deal by the government railway? Many public bodies have passed resolutions which let it go at that? Leading manufacturers in these provinces have declared that some industries will be driven to the wall if they do not get more favorable freight rates. It has been pointed out very clearly that the increase in rates was a distinct violation of assurances given at the time of confederation. It is all very well to say these things here, but unless they are said at the government at Ottawa, they are said in vain. The delegation must be representative enough to show that we mean business, the rates may stay and the industries may go. All sections of the province should therefore be represented. In this connection we may quote two paragraphs from an article in yesterday's Standard, at the same time expressing regret that they were not written and sought to the attention of the prime minister while he was in Fredericton. The Standard says: "No ordinary man in his sane and sober senses would for a moment desire to break away from the Canadian Confederation. No man, seeing alone the commercial disadvantages under which our labor would remain in that Confederation for a moment longer than would be necessary to sever the bonds. The delegates who are to appear before the government at Ottawa with a request for the appointment of a commission of inquiry, carry with them the united support of the people of these provinces. A realization of the true situation would undoubtedly lead to such an outbreak of public opinion as would stampede Ottawa into action. But long suffering as we have been, it is our desire to secure by peaceable and reasonable methods those things which we have a right to demand. Ottawa, however, should not forget that this delegation is merely the first symptom of an industrial and commercial revolution, of a protest against things as they are, as opposed to things as they should be. It will be well for the safety of this Confederacy that those now controlling the administration give earnest attention to the matters which will be placed before them."

THE OUTLOOK.
(Montreal Herald.)
The opinion that 1921 will be a lean year seems general, but certain manufacturers and bankers will be disappointed if the following year fails to establish some new high records in production as well as in earnings. The definite upturn may not start in before fall, but everything points to prosperity in 1922. One cannot enthuse over production as it is today. The country is on a 50 p. c. trade basis, and deficits are more numerous than surpluses. The readjustment downward is not over by any means. There will be further cuts in wages and prices. But these revisions downward will be constructive rather than destructive. They will carry business and commerce nearer to the beginning point of prosperity.

BUILDING IN MONTREAL.
Permits for new buildings to the total value of \$2,000,000 have been issued from the city hall, Montreal, since the beginning of the present year, according to the records of the building department. Building activity as reflected by the amounts of permits issued has shown a consistent increase in each successive month to the highest point which was reached in the month of April with permits valued at \$1,070,860. Indications at the present time are that for May there will be a decided falling off in the amount of new construction work in the city, the figures to date being \$484,750 as compared with \$632,235 in the corresponding period last month.

THE DAWN.

A wind came up out of the sea,
And said, "O birds, make room for me."
It hailed the ships and cried, "Sell on,
Ye mariners, the night is gone."
And hurried landward far away,
Crying, "Awake, it is the day."
It said unto the forest, "Shout,
Hang all your leafy banners out."
It touched the wood-bird's folded wing,
And said, "O bird, awake and sing."
And o'er the farms, "O chancier,
Your dawn-blow; the day is near."

It whispered to the fields of corn,
"Bow down, and hail the coming morn."
It shouted through the befy-tower,
"Awake, O bell, proclaim the hour."
It crossed the churchyard with a sigh
And said, "Not yet, in quiet lie."
—Henry W. Longfellow.

Berlin, May 26.—(Associated Press.) USING JULY FLOUR SUPPLY IN RUSSIA

Helsingfors, May 4.—(Associated Press, By Mail)—Now that the markets are again open in Moscow, the population is living by speculation in food, according to a Finnish official who has just arrived from the Russian capital. Trade, however, is permitted only in provisions. The markets are crowded nevertheless, with people, former wealthy, selling dresses, clothing of all sorts and other personal belongings for food.

SAYS FREIGHTS SWITCHED HERE

Matter of Local Freighters Before Parliamentary Committee—Hanna Says C. N. R. Should Pay.

D. B. Hanna, before the parliamentary committee on national railways and shipping, yesterday afternoon said that the Canadian National Railways should be earning its operating expenses and a little more, and he insisted there was no reason for pessimism. Considerable criticism was leveled by A. B. Copp (Westmorland) and A. McGraw (New Brunswick) on the question of through local freight. Mr. Copp said that freight originating in the Brunswick was shipped via the C. N. R. to St. John, where it was taken over by the C. P. R. for shipment to the west. Hanna said that this condition existed he would see that it was rectified immediately.

CONDEMN EXPORT LIQUOR TRAFFIC

Rev. W. D. Wilson, addressing the quarterly meeting of the St. John County Women's Christian Temperance Union in session in Fairville, scathingly denounced the liquor export trade now being conducted in this province. He claimed that it had not the least right to be carried in here and that it was in defiance of the will of the people as evidenced by the referendum. He dealt with the running of contraband, which he declared was being carried on and spoke of the tragedy near Fredericton, where an innocent passenger in an automobile loaded with liquor was killed by a drunken driver. He advocated more thorough training of new liquor inspectors by men who had had experience in the enforcement of the act.

TWO JUDICIAL SENTENCES

(Montreal Herald.)
Two remarkable sentences were recorded in the courts in Montreal, on Tuesday, May 24, on Wednesday, in the former case a youth of eighteen was sentenced to five years in the penitentiary for theft; in the latter a man of forty-one received a sentence of three years for the same offence. In the case of the boy he had been before the court on one previous occasion, but this time he was charged with a conviction of a criminal record or indicated an ineradicable criminal tendency. Under the severe sentence he will herd with criminals during the most important period of his life. The province provides a far from good example of the effect of preserving the boy to society.

CONSIDER CASE OF COTTON GROWER

As Typical of That of Farmers in General—Produce Up or Wages Down?
National City Bank of New York (New Letter)

The first thing is to consider the position of the farmer, not as a matter of sympathetic interest but to see how it relates to the general situation. To be specific we might take the case of the cotton-grower, who is now getting about the same price for his cotton that he did before the war.

STATE FACTORY WAGES

Albany, N. Y., May 26.—The average weekly earnings of factory workers in New York State in April was \$26.20, a reduction of 77 cents as compared with March wages. With the exception of a small gain reported in that month, the average earnings of factory workers have declined steadily since October.

Waraw, May 5.—(Associated Press, By Mail)—The Polish government is arranging to return to Warsaw about 150,000 national keepsakes removed to Switzerland in 1919 to prevent their falling into the enemy hands. When the partition of Poland among Prussia, Russia and Austria became imminent, patriotic Poles began to transfer collections of national relics to Rapperswil, Switzerland, where they have been preserved for nearly 100 years.

RECENT WEDDINGS

At Dartmouth, N. S., on Monday a wedding of much interest took place when Miss Dorothy McLeod, daughter of Mr. and Mrs. Edward B. McLeod, as united in marriage to Edward C. McLaughlin of Parrboro. The ceremony was performed by Rev. Father Sullivan. Mr. and Mrs. McLaughlin left on a trip to St. John and other cities.

RECENT DEATHS

Edward Jewett Johnson, a retired business man, died at his home, 382 Highland street, Winchester (Mass.), on Sunday morning, from a shock. He had been falling ill for some time. Mr. Johnson was born sixty-two years ago at Presque Isle (Me.), and when a young man went to California, where he conducted an orchard farm at San Diego. He lived in Winchester about twenty-two years and was in the fire insurance business about eighteen years. He is survived by his wife, Mrs. Mary L. (Jann) Johnson; two daughters and two sons. LETTERS BEFORE LANCASTER BOARD OF MANAGEMENT

At a meeting of the board of management of Lancaster last evening a

delegation appeared and presented a petition praying for the reinstatement of Bernard Quilly as policeman in Beauséjour. After the delegation had withdrawn, Councillor O'Brien moved that Quilly be reinstated and gave reasons, as he saw them, for the reinstatement. On the vote being put, Councillors Golding and Campbell voted against it and it was declared lost. The present incumbent of the office is Clarence Power, a former liquor inspector.

A second delegation, headed by William Pink, appeared and complained that many county men were refused jobs on work being carried on by the city, and that county men had also been refused jobs at Musquash. The councillors promised to take the matter up.

The sub-contract for all the granite work required in Douglas avenue has been awarded to C. H. Dexter of Humpstead, under the Stevens Construction Company.

There is a difference and there is a reason. THE DIFFERENCE—When compared with other coals, RADIO shows a big percentage less ash; a big percentage less stone and a lot less bother in as much as it burns cleanly. THE REASON—The quality of Radio, the efficiency with which an order is handled and the prompt and courteous way in which it is delivered.

NO FURTHER BONUS OR GRATUITY TO WAR VETERANS

Committee Recommends Fifty Per Cent. Pension Bonus be Continued

(Canadian Press Despatch)
Ottawa, May 26.—The fifty per cent. bonus on pensions is to be continued for another year, if the recommendations of the special parliamentary committee on pensions, insurance and civil re-establishment are adopted by the house of commons, as it is expected they will be. The report of the committee was tabled

when the house resumed this evening. This bonus will also be applicable to pensioners residing outside of Canada. No change in the Pension Act was made to bring widowed mothers to the same scale as widows, but the committee has recommended a change regarding the earnings of children of widowed mothers. The committee decided once more against any further bonus or gratuity. It was also unable to formulate any scheme for making loans to the returned men for re-establishment purposes. In regard to housing and unemployment, the committee suggests that the government should consider extension of the federal housing project both to relieve unemployment and to enable returned soldiers to secure homes.

EXHIBITION IS ASKED OF IL FRANCESIA'S 'VIRGIN'

Being Restored to the Italian Consul General—Will be Preserved With Copy of Times.

(N. Y. Times)

The old master, "Virgin and Child," can be seen at the Italian painter's studio, which was found wrapped in a copy of The New York Times in a statement on the east side several weeks ago by Captain Piero Tozzi, now staying in the Hotel Vandervilt, was delivered yesterday to Italian Consul General Bernardi for return to the Museum of Bologna, from which it was stolen. The Consul General had been advised by the Italian Embassy that Count Formica, Italian Minister for Foreign Affairs, had asked instructions for its restoration to the National Museum in Bologna, where Captain Tozzi said that it would be hung with the copy of The Times to lend further interest to its history.

The Consul General will send the painting under guard to Washington. Main Tozzi expressed relief because no longer was responsible for the picture, which agents of the Italian government have been seeking ever since it disappeared from its original place. It finally was placed on market in New York and sold for a high price.

The picture may be entrusted to no one except the Ambassador, who plans to carry it back when he returns in July to Italy. So much interest has been aroused by the discovery of "Virgin and Child," that an effort is being made to have it exhibited in New York.

Mrs. John A. Drake, President of the Red Cross membership drive was carried out yesterday by a house to house canvass under the direction of Mrs. F. S. White, president of the local Red Cross, with Miss Maud Reticke as convener of the wards. Mrs. White said she felt confident that results would be excellent both in membership and in the amount of money received.

ANDRU TRIAL IS EXPECTED IN JULY

Paris, May 27.—It now seems fairly certain that Henri Desire Landru, who, in the last 30 months, has been awaiting trial on charges of murder growing out of the disappearance, without trace, of eleven women to whom he had promised marriage, will come before the Versailles court in July. Landru has become a great favorite with the warden owing to his unflinching humor.

PRIEST SHOTS INTRUDER.

Detroit Pastor Fires on Four Men Breaking into Rectory.

Detroit, May 27.—Andrew Kulick was shot through the lung by the Rev. John Kovalsky, pastor of St. Cyril's Catholic church, when with three other men he is alleged to have tried to break into the rectory in Hamtramck, a suburb. Father Kovalsky was released following a statement to the prosecuting attorney. He said his objection to a certain dance hall in the vicinity of his parish had led to threats against his life.

He fired at the intruders, the pastor said, only after they had thrown flower-pots through the rectory windows and shouted that they intended to kill him. At the hospital it was said Kulick might die.

WANTS EVERY BOY AND GIRL TO LIVE A YEAR ON A FARM

Boston, May 27.—Every American boy and girl should spend a year on the farm as part of their education, Professor Dallas Lore Sharp of Boston University said in an address at a joint meeting of Unitarian and Congregational ministers. Children today see too little of nature and too much of the movies, stores and clubs, he said, pointing to Lincoln as an example of what "natural" education would do for a man.

4,300,000 IDLE IN EUROPE

This Total, Exclusive of Russia and Balkans is Hoover Estimate.

Washington, May 27.—Approximately 4,300,000 workers are idle in Europe, exclusive of Russia and the Balkan States, Secretary Hoover said on the basis of estimates cabled to the Department of Commerce from its agents abroad. This represents an increase in unemployment of about one-third compared with six months ago, Mr. Hoover added, but also compared with an unemployment of from 10,000,000 to 15,000,000 just after the armistice was signed.

Mr. Hoover said the estimates covered all industries except agriculture and included the striking miners in England. Strikes, underproduction, business depression and other factors were covered in the unemployment estimates.

POLICE COURT.

In the police court, yesterday, a case in which Messrs. Kane and Farren were charged with supplying liquor unlawfully, was taken up and the two accused were acquitted. William Gantner, to whom it was alleged the liquor was sold, was fined \$100 for having it in his possession. Sergeant McLeslie, Emmett Burke, William Gantner, Inspector Barrett, George T. Kane and Matthew Morris gave evidence. J. A. Barry appeared for Kane and Farren, and William M. Ryan conducted the prosecution.

Edward Furlong, alias Ritchie, charged with stealing various articles of clothing, was brought in again yesterday afternoon. Max Lampert, who conducts a second-hand store, was the only witness examined. He said that the accused had brought a leather coat and an officer's coat, like those produced in court, to his store and he had bought them from him. He produced the book showing the signature as "A. G. Furlong, 115 Queen street. The magistrate sent the accused up for trial.

HEEDED NOT WOMAN'S PLEA; KILLED HER

Murderer was Hanged This Morning in Prison in Wethersfield, Conn.

Wethersfield, Conn., May 27.—John Kacanasaukas of Bridgeport paid the penalty for the murder of Mrs. Anna Chernock of Milford, in the state prison early today. He was hanged a little after midnight.

The murder of Mrs. Anna Chernock at her home in Milford, on Feb. 1, was described later by Coroner Mix, as the most brutal crime in the history of New Haven state.

Mrs. Chernock, 38 years of age, and the mother of six children, was beaten with an iron shoe last and a cobble stone, while she pleaded for her life. Three of her children were in the house at the time.

Kacanasaukas was arrested in his rooming house in Bridgeport the following morning. Most of \$110 stolen by the murderer was found in his room. He refused to tell the police that he had killed the woman.

SUIT OF HEIRS OF FAMOUS HYMN WRITER SETTLED

Man Who Wrote "In the Sweet Bye-and-Bye"—Fifteen Years in Court.

Boston, May 27.—Heirs of Jos. P. Webster, whose hymn "In the Sweet Bye and Bye" has been a favorite for half a century, yesterday settled a suit against the Oliver Ditson Co., music publishers of this city, which had been before the federal court here for fifteen years.

The action was brought by Joan H. Webster, widow of the author, to obtain an accounting from the local publishers, who had taken over the rights of a Chicago house with which Webster had a contract. The settlement, attorneys said, involved a payment of \$56,000.

Mrs. Webster and many of the twenty attorneys who at one time or another were connected with the case had died since the suit was instituted in 1906. Louis Webster of Elkhorn, Wis., one of the heirs, was in court when the settlement was recorded.

MORNING NEWS OVER THE WIRES

Although no official information has been received in Ottawa, it is reported in London that the Duke of Northumberland may become the next governor-general of Canada.

The Unionists are leading in the Northern Ireland elections and may get forty of the fifty-two seats. Sir James Craig, Eamonn De Valera, Joseph Devlin and Professor John McNeill have all been elected and there was a tremendous demonstration in the streets of Belfast last evening by Orange forces, Sinn Fein and Nationalists.

The Nationalists and Sinn Feiners are celebrating because, although they have not been elected, they have registered their protest against the partition of Ireland and believe their protest will have its effect on the minds of the peoples of the world.

MRS. LLOYD GEORGE, POLITICAL SPEAKER

London, May 27.—(Associated Press, By Mail)—Mrs. David Lloyd George, wife of the British premier, prides herself on the personal management of her home at No. 10 Downing street, but she can also make a political speech with telling effect. Few by-elections of recent date have failed to lure her, and her aggressive campaign activities have furnished interesting copy for the newspapers of all shades.

Not only has she campaigned in Wales, the heartland of the Lloyd Georges, but she has invaded opposition territory uninvited by the hostile gestures of strong labor sections.

Perhaps her greatest personal triumph was her tour of the Bedford district where a hard fight was waged between Coalition-Liberal and Labor candidates. She was acclaimed everywhere. The Labor party sent cars and speakers in her wake, but they had a chilly reception.

At Elbow, the birthplace of John Bunyan, Mrs. Lloyd George received a gift of a copy of "Pilgrim's Progress." School children at Willington gave her a huge lock, emblematic of Wales. The tour was completed by a visit at Willden to a father 100 years old and his son, aged 81, both staunch Liberals and now supporters of the coalition.

LOCAL INTEREST IN THE GARFIELD ESCAPE

Some local interest attaches to the escape of Norman Garfield, a condemned murderer, who got away from the county jail at Woodstock, Ont., on Wednesday evening, owing to the fact that Rev. Wilfred Gault, former pastor of a St. John church, had been acting as spiritual adviser to the condemned man and was the last man to see him while he was escaping. In a statement issued with the object of showing why he did not make a greater effort to prevent the escape, the minister said that he was not Garfield's guard and it was not his place to follow him. Garfield struck him as he passed him in the corridor, and as soon as he was able he informed the guard. In his opinion Garfield was not guilty of murder, but only of manslaughter, and he had done all in his power to obtain a reprieve for him.

WORK FOR THE BIRDS.
"The annual loss in Canada to field, orchard and garden crops, due to destructive insects, is, on a conservative estimate, upwards of \$200,000,000. To this huge devastation must be added the enormous annual destruction caused by forest insects, stored produce insects, etc. It is certain that these losses would be much greater if it were not for our insectivorous birds."—Arthur Gibson, eminent Entomologist, in Agricultural Gazette.

IN PARLIAMENT

Ottawa, May 27.—(Canadian Press)—Yesterday in the House of Commons the minister of justice asked unanimous consent to introduce a bill to validate the proclamation for the provincial liquor referendums. This was refused, Hon. Jacques Bureau objecting. First reading was given to senate bill amending the Northwest Territories Act and the Dominion Lands Act.

Sir Henry Drayton announced that he would proceed with the non-contentious clauses of the bill concerning the income tax act. He also said that he would bring down revised tariff resolutions as a result of the passage of the Young bill in the United States.

A bill amending the Oleo Act was given third reading. One to amend the Criminal Code was read a third time. Reports of the pension committee and of the civic service committee were tabled.

Third reading was given to bill amending the immigration act and to the bills based on the budget resolutions. Also a bill repealing the conservation act.

In the senate a bill creating a national research institute was further postponed. Third reading was given bills amending the opium and narcotic drug acts, statistics act, Canada evidence act, and the juvenile delinquent act.

Supplementary estimates amounting to \$1,600,000 applicable to the fiscal year which closed on March 31 last, were tabled by the minister of finance. The estimates cover expenses already incurred. Among the chief items are: For the civil service commission, \$204,000; unemployment relief in connection with soldiers' civil re-establishment, \$1,100,000; administration of business profits act and income tax act, \$600,000; deficit on Canadian Government Railways, \$2,000,000.

The Business End of a Corn is the Root

Cutting the top of a corn off with a razor or burning it off with caustic lotions, plasters, etc., doesn't do any good. It may do great harm by causing infection or even blood poisoning.

Also it hurts and the root just sprouts right up again, so your corn soon has a brand new top on it bigger than ever. The top is only dead skin anyway. The business end of a corn is the little pointed part or core that extends down into the toe. That is what hurts when it presses on sensitive nerves, and it is the part you have to get out. A good handful of Rexal's Bath Salts dissolved in a gallon or so of hot water will soften corns and callouses, like water softens soap. Just soak them in this for a while, then take hold of the corn with your fingers, and cut it will come root and all. The refined Rexal's Bath Salts costs very little, and says chemist will have it in a quarter pound is sufficient to rid the whole family of all foot troubles.

Harton, A. Dyer, and R. D. Paterson, all of whom will leave here tomorrow for New York.

MAGISTRATE CRITICIZES.

"Twenty years ago we had a mayor, aldermen, a chief of police and policemen," said Judge Ritchie, in a reminiscent mood in the police court this morning, when one lone drunk confronted him with the usual information that he had obtained his liquor from a "stranger." The magistrate helped the accused to remember in which street and in which alleyway he had procured the liquor, and then began criticism of the police for what he termed their laxity in enforcing the law, saying that not long ago he had passed a certain street in which he saw a drunken man staggering from side to side, and when he reached the case he found a policeman standing there, apparently utterly oblivious to the fact that the law he was sworn to enforce was being violated not fifty feet from him. The accused was remanded.

MUST HAVE LICENSE.

A city-by-law case, which was in the nature of a test case, was before the police court this morning, when Howard Gilbert, driver, and Walter Campbell, owner of a truck, which it was alleged had been driven without a license, appeared to answer the charge. The report was made by Robert Farris, who testified that Gilbert had driven two trucks for Mr. Campbell and only one of them was licensed. Mr. Farris said that Campbell, the owner, when reported and asked if he would take out a license, said that he would burn his truck first. Since last year the cost of the license has been changed from the capacity to the weight of trucks, with the result that the defendant would have to pay a much larger sum. The magistrate said that the defendant would have to pay either his fine of \$20 or else take out a license, and Campbell decided that he would take out a license.

Inspector Harris said that there were truck owners who had threatened to burn their cars before they would pay the license demanded, and they all gave the excuse that they would not use their cars, but he says if the cars are used he will report them.

H. McCarthy. It will be remembered that there were five lads named in this matter, as it was stated that with the horse and wagon they drove to Musquash. From this another charge is made against them, to which three of the youths have pleaded guilty, namely stealing goods from a wagon there, breaking and entering a store and stealing. Levine is also charged with stealing a bicycle from a messenger boy named Gallant.

The case of the King vs. Joyce and Smith was given to the grand jury this morning also, a charge of assaulting and robbing Dr. P. X. Morris of Fairville. A true bill was returned in this as in all the other cases.

Choose your Lamp as you would a Hat

THE NEW LAMPS give considerable latitude for your preference. The types, both of lamps and shades, vary tremendously, and the colorings run the gamut of the spectrum and back again several times.

We are especially proud of our Lamps just now. Not only in point of variety is the showing interesting, but there is dignified excellence in each lamp or shade that goes to create the variety.

For the more quietly dignified surroundings we have just the lamp, topped with shades that give off a subdued, rich-toned glow, which are eminently good. And we have many new arrivals that are bright and gay, almost to the point of frivolity.

One chooses a lamp shade much as one chooses a hat. It must fill its place correctly first—and then it must be distinctive, become its surroundings and suit its owner's taste.

Our Lamps and Shades are selected individually each for its own particular appeal and charm, so we know, absolutely, that we have more of the kinds you are likely to want than any other place in town.

**F. T. BARBOUR IS
NEW PRESIDENT
OF THE Y. M. C. A.**

The first board meeting of the Y. M. C. A. directors, following the annual meeting, was held last night in the Y. M. C. A. building. George L. Warwick, the retiring president, officially welcomed the new directors, Alexander Wilson and G. W. Noble, to the board. The election of officers resulted as follows: President, F. T. Barbour; vice-president, S. E. Fisher; recording secretary, R. G. Schofield; treasurer, O. J. Fraser; chair-

man of finance committee, F. P. Elkin; vice-chairman, G. L. Warwick. After the election of officers, Mr. Warwick thanked the directors for their support in the last two years and the general secretary for the efficient way in which he had carried on his share of the work. F. T. Barbour then took the chair and, addressing the directors, asked for their loyal support and hearty cooperation.

After the general routine business was completed, G. L. Warwick presented to the retiring general secretary, S. B. Stokes, a fine silk umbrella, as a slight token of the esteem in which the board held him and the work which he had done during the last three seasons. Mr. Warwick expressed regret that Mr. Stokes had decided to give up the work of the Y. M. C. A. for the Methodist ministry, but wished him every success in his new sphere. He said that the directors would always watch with interest his future movements. Mr. Stokes, in reply, thanked the directors for their loyal support and hearty cooperation.

He asked for the continued interest of the directors as he took up his new work and particularly for their prayers for guidance. THE MARITIME DELEGATION ON FREIGHT RATES

Arrangements are being completed to run a special Pullman car from Halifax on Monday, May 30, for the convenience of the delegation from the maritime provinces which will go to Ottawa to discuss freight rates in this part of the country. The St. John delegates will connect with the car at Moncton. W. S. Fisher probably will be the representative of the St. John board of trade to go but it has not as yet been decided who will represent the city, and it was the intention to send Dr. J. B. M. Baxter, the city solicitor, but it is found that it will be impossible for him to make the trip. The mayor probably will name a delegate in the near future. The delegation will hold a conference in Ottawa on Tuesday and meet the government on the following Wednesday. The Commercial Club, at a meeting of the executive yesterday, appointed H. R. McEwen and A. P. Paterson as its delegates.

Get "Tru-Value" for your Dollar

When You Fill the Dish— Does The Box Matter?

COMMON SENSE in chocolate buying is becoming common again. The economy idea which prompted Ganong Brothers to bring out their "Tru-Value" package appeals very strongly to buyers who are trying to fight their way back to normal prices on everything. Between giving up fine chocolates entirely and merely passing up the costly frills and trimmings on lacy candy boxes, the true chocolate lover doesn't hesitate a minute. After all, good taste should be inside the box. It is really a pound of Ganong's Best you are buying, not just a box of candy! And when it comes home to you that this sensible economy makes it possible for Ganong Bros. to offer you the delights of their famous "Pireside" assortment at the low price of One Dollar the Pound, you also will insist on getting "Tru-Value" for your dollar.

BUSINESS BEFORE SYNOD COMMITTEES

The committees of the Fredericton diocesan synod continued their meetings in the Church of England Institute yesterday afternoon and evening, with His Lordship, Bishop Richardson, presiding. CARE OF MUNICIPAL PROPERTY. (Conservation).

In our town said city can not go far without observing conditions of neglect and carelessness due entirely to the lack of interest of the people themselves.

Unfortunately, the average citizen feels that once he has paid taxes he has fulfilled his duty, and the city can do the rest. He overlooks the fact that the city is but an aggregation of units, of which he is one; that any improvements or maintenance charges must be paid for by these units, and he must bear his share.

It is a well-known axiom that a careless employer is reflected in a careless employee, which largely accounts for the fact that in altogether too many cases the cost of municipal public works is largely in excess of the cost of such works when privately carried out. Many instances have been cited of losses due to either willful damage or carelessness by the people themselves.

STRIKERS LOSE PLACES. Cairo, May 27.—Twenty-five hundred strikers in railroad shops here have been summarily dismissed, and even if reinstated, will lose their seniority rights. A threatened general strike has not materialized.

In an eastern city, during the past month a sewer became blocked by the depositing of material which could not be carried away. Many cellars were flooded and a cost of \$80,000 entailed. These losses are reflected in the tax rate, and just as long as so much of the public revenue must be utilized to replace or repair the effects of a neglect or disregard of public property, just so long will the tax rate continue to increase.

COMMENT ON IRON, STEEL, METAL AND MACHINERY
In its summary of the iron, steel, metal and machinery markets for week ending May 19th, Canadian Machinery and Manufacturing News, Toronto, makes the following comment:

The matter of turning from the period of liquidation to straight business one is being completed in the iron, steel, and in some extent in the tool market. For some months the market has been engaged in reducing their stocks and for this purpose they have, in many cases, given special discounts in lines where they were heavily stocked with high-cost goods. In a number of cases quite recently dealers are not ready to take for a price in excess of the liquidation figure. They are not ready for the change and realize that they are still in possession of the market and this tendency is making it hard for business generally to get away to a fresh start, as the liquidation price is still held as a price for the market to follow.

the latter being for bridge work. The scrap metal market continues to be poor. The volume of business done is very small. One of the large dealers claims that his firm has not a single contract at the present time, nor is it anxious to make one, because it would be unable to buy at the low figures being asked.

GROCERY MARKET
The following comment on the market situation as regards food stuffs in Canadian Grocer this week: The markets for general grocery commodities are ruling fairly steady although there appears to be considerable price cutting by wholesale houses. Sugar remains at holding their list price but there is a great deal of irregularity in prices, many houses cutting prices to practically below their cost, undoubtedly in many instances this is being done in order to clear up prices advanced 3-4 cent per pound in an unsettled condition although during the past week the undertone was somewhat strengthened.

FOR SUNSHINE ACCOUNT.
(New York Evening Post.)
One morning this week a man down town, with a long-standing and widespread reputation for being both big-headed and fifty-faced, and for playing business games without ruth or quarter, frightened his secretary by smiling at her, and said:
"Miss Smith, I have been noticing a curious thing. There is a policeman who handles the traffic at the corner. He waves his hand to me every morning as I come down past him in my car."
"Yes, sir. Do you want me to arrange to have it stopped?"
"And he does it again every afternoon when I pass him going back."
"Both times he smiles. He has been doing it for a long time. Never fails to smile."

LONG BEACH GOES TO EXTERMINATOR

Gelding Makes Track Mark for Mile and Furlong, Winning Handicap—Runs Distance in 1.50.

(New York Times.)
Willie Sharpe Kilmer's Exterminator, which is undoubtedly the greatest distance performer in America, ran one of the best races of his brilliant career at Jamaica yesterday, when he captured the Long Beach Handicap and shattered the track record for a mile and a furlong. With an impost of 130 pounds, he closed with his accustomed rush in the stretch and defeated the Ranocosa Stable's Mad Hatter by three-quarters of a length. He covered the distance in 1:50 flat, clipping one and one-eighth seconds from the mark he set himself the same event a year ago. Circus, stablemate of Mad Hatter, was third, six lengths back of the winner, and E. Widener's Pilgrim trailed in last among the four starters.

It was one of the finest contests seen in New York this season. It was witnessed by a throng of about 22,000 persons. Racing Secretary Edw. Sloan announced after the last of the special trains had arrived that more people had passed through the turnstiles than ever before in the history of the course.

With midsummer weather prevailing the crowd surged through the gates for nearly two hours before racing time, and when the bugle sounded for the opening event the stands were crowded to capacity, the steps leading to the stands were packed and several thousand soldiers formed an almost solid mass of humanity on the large open space in front of the main stands.

During the running of the feature event the crowd extended along the inner rail all the way from the head of the stretch to the turn below the club stretch and had prevented him from house.

Weight Tells on Mad Hatter.

The Long Beach was the first race at a mile and a furlong to be run at Jamaica this season, and thus it offered Exterminator his first chance at a distance which suited him. It was evident that he had improved from his two earlier starts and was at his best yesterday. Mad Hatter, which had defeated the great gelding in their first meeting, was obliged to carry equal weights with the Kilmer racer, and it was clear in the final furlong that the weight told on the Hillbreth horse. Yet Mad Hatter ran what was probably the greatest race of his career. He set a terrific pace to the last turn, where Exterminator caught him, and then he fought it out with great gallantry all through the stretch.

Jockey Earl Sande, who rode Mad Hatter, went to the judges' stand after the race and lodged a claim of foul. He claimed that Exterminator had planned Mad Hatter in on the rail in the form getting through. The judges did not allow the claim and lost little time in giving official sanction to the finish. Mad Hatter was in close quarters in the stretch, but it appeared that he had room enough to get through if he had had the speed. The feat was he was a tired horse and was beaten a sixteenth from home. Exterminator was going away at the end, although Johnson had to ride him hard all the way.

GEORGE STUBBS HEADS FAIR VALE OUTING CLUB

The annual meeting of the Fair Vale Outing Club was held last evening at their club rooms at Fair Vale. The meeting was well attended and the various reports for the year showed that the club was in excellent condition. The treasurer's report showed that the club had a substantial balance of funds and no outstanding accounts. The secretary's report showed the work that the club was carrying out and that the present membership had reached more than 150, the majority of whom were active members.

PRIZES PRESENTED TO GIRL BOWLERS AT FINAL BANQUET

The Girls' Commercial Bowling League wound up a highly successful season with a banquet at Bond's restaurant last night. C. W. Boyd acting as chairman. After the toast to the King had been honored, the bowlers set to with a will at the good things, and after they had been demolished, the presentation of prizes took place. The large cups presented to the Corona team by J. J. Fraser, of the N. B. Telephone company. Mr. Stephenson, of T. McEvity & Sons, Ltd., presented the three individual cups for the highest single string, the highest three-string and the highest average for the series. These went to Miss Blakesley, of the Corona team; Miss Akerly, of McAvity's, and Miss Harrington, of the Imperial Oil, respectively. Dancing took up the remainder of the evening and the gathering broke up shortly before midnight. About fifty people were present.

BELIEVE ARENA IS PRACTICALLY SURE

That an up-to-date arena will be erected in St. John before the snow again dies now seems assured as the result of a meeting of the executive of the Commercial Club held yesterday with the president, C. H. Peters, in the chair. The cost of the land and of construction, according to plans approved yesterday by the club executive, it was said, brings the matter within the realm of possibility.

MAYOR PROMISES AID FOR SOUTH END

A meeting of the men's committee of the South End Boys Club, which was to have been held last night, did not materialize, only three members showing up. Mayor Schofield happened along and suggested an adjournment to the Club grounds, where the members are busily engaged in putting the baseball diamond in shape for the opening game, which will be played on June 8. A considerable amount of leveling remains to be done. When this was explained to the mayor, he said he had some funds available, and offered to send some men down to work all day until the job was completed. The offer was gratefully accepted, and the Mayor will notify the Club on Saturday, regarding arrangements he has made. There is some talk, also, concerning the outdoor girls basketball league, which had such a successful season last year. Four teams have signified their willingness to carry on this year and a meeting will be called soon to draw up a schedule.

BIG TROUT TAKEN IN LILY LAKE

A trout weighing three and three-quarter pounds was the reward of the patience of Joseph Tobo, who angled for the speckled beauty for several hours on Wednesday afternoon in the waters of Lily Lake immediately in front of his refreshment store at the park.

DOGS POINT TO BODY OF MAN

Discovery of Suicide in Bronx Park—Found Swinging from Branch of Tree.

(N. Y. Times.)
The body of an unidentified man was found hanging from a limb of a large cedar tree in Bronx Park, twenty-five feet from the ground, early last evening. Discovery of the suicide was made by Charles Henning of 2227 White Plains Avenue, who was taking his two dogs on a ramble through the New York Botanical Gardens.

About 1,000 feet south of Allerton avenue the two dogs began to bark and then stopped suddenly and pointed. Mr. Henning was at first puzzled to account for their behavior, but looking up in the tree saw the body of a man swinging at the end of a rope.

Mr. Henning called Policeman Owen Devrey of the Bronx Park Station, who borrowed a ladder from the park attendants and attempted to get the body down. It was finally necessary to obtain a rope of considerable length, and with the aid of this the body was lowered to the ground.

Dr. Karl Kennard of the Medical Examiner's office, who examined the body at the Forham morgue, said that death had apparently taken place at about noon. The Botanical Gardens were crowded all day yesterday, and it was conjectured that the suicide, fearing that he would be seen if he attempted to hang himself from one of the lower branches, climbed two-thirds of the way to the top of the tree to be comparatively out of sight. From the way the body was hanging it was apparent that the suicide had sat on the limb to which the

end of the rope was tied, adjusted the noose and then jumped off.

No letters or other papers were found. The only clue to identification was a laundry mark on his shirt, "218." The dead man was fairly well dressed in a brown and black check suit, a brown soft hat and black shoes and stockings. He had brown hair and eyes and was of dark complexion. A mirror and comb were only contents of his pockets.

USE The Want Ad Way

NEW CLUBHOUSE AT GRAND BAY NEARS COMPLETION

The new clubhouse of the Grand Bay Outing Association, work on which was commenced last fall, is now rapidly nearing completion, and the members plan to have a formal opening on June 3, with a public dance in the evening. The building is handy to the station, and overlooks the river. It is a one-story structure, with a large dining hall, a bridge room, a rest room, a large kitchen, and a veranda twelve feet wide around three sides. Two fine tennis courts have been built in front. Altogether, it should prove a successful venture, and fill a long felt want. On Monday evening, J. Firth Brittain, vice-president of the Association, presented to A. W. McInnis the retiring president, who is moving to Moncton, a walking stick, on behalf of the society. Mrs. McInnis was made the recipient of a silk umbrella.

What You Owe to Advertisers

You owe to advertisers in daily newspapers almost everything that has made living more comfortable and healthy.

Daily Newspaper Advertisers of foodstuffs gave you clean foods, just weights and fixed prices for the things you buy to eat.

Daily Newspaper Advertisers gave you better houses, modern bathrooms, hardwood floors, electric lights, gas and electric ranges.

Daily Newspaper Advertisers gave you better clothes to wear by educating the public to the value of good clothes and their economy.

Daily Newspaper Advertisers made your housework easier by giving you quick cleaning fluids, furniture polishes, floor machines, vacuum cleaners, carpet sweepers, aluminum cooking utensils, clothes dryers, sewing machines, gas and electric irons.

Daily Newspaper Advertising made it possible for you to retain the beauty nature endowed you with by suggesting emollients, toilet preparations, shaving creams, safety razors, etc.

The pioneers in all these things were the firms who made them and advertised them.

They led the way.

It is for this reason that you should always buy advertised goods.

These goods have raised your standard of comfort and living; and the manufacturers of them command admiration for their courage and foresight.

Dollar for dollar, the advertised article is always better value. The reason is that when an article is advertised, production of it is invariably greater. Therefore, the manufacturer has a larger output and a lower cost of production; hence the greater value for the money.

Further, the advertised article generally has superior merit and greater refinements about it. If it were not so, it would not be advertised.

Buy advertised goods, and buy them from the local store that advertises.

A short meeting of the New Brunswick Automobile Association was held in the Board of Trade rooms yesterday afternoon when the reports of the delegates to the recent Good Roads convention in Halifax were received.

Rev. J. A. Porter was overcome by the oppressive heat yesterday while crossing at the foot of King street and was saved from falling to the ground by the quick action of Police Constable Dykeman. Police constable Dykeman took his charge to a nearby office, where he sat up to practice the lessons in first aid recently learned. Mr. Porter was conveyed to his home and is reported to be quite recovered.

EMPEROR KARL'S CHEF IS HUNTING A JOB

Man Who Prepared Dishes for Fallen Monarch Arrives, Third Class, With His Tools in New York.

Who has a job for the personal chef of the quondam Emperor Karl of Austria-Hungary? Bearing credentials which showed that he filled this important post in the domestic establishment of the ruler, Ludwig Urban arrived yesterday with his wife and daughter on the Argentine of the Coshik Line. He had one strong purpose—to start cooking again.

Even a chef suffers when a Kaiser is overthrown, so Urban was able to travel only third class. Two suitcases and the tools of his trade constituted his baggage. He said he would make his home in Yonkers.

Urban described the former emperor as democratic and of simple tastes. The royal meals were plain, consisting usually of one meat and two vegetables. Liquors seldom were served, he said. Often the emperor would come into the kitchen, perch on a stool and watch the preparation of foods, Urban said.

He told that Karl had asked him to go with him, because he was about to be married. He showed a letter which he said Karl had sent him from his place of exile.

Gets Six Months to Three Years for Fleeting After Car Kills Man.

Frank Murray, thirty-two years old, a taxicab chauffeur of New York, was sentenced to six months to three years in the penitentiary for violating the highway law by fleeing to stop and render assistance to a victim of his auto.

Murray's car hit and killed Joseph Daly, owner of a trucking company at 746 East 18th street, on Oct. 21, 1919. Daly stopped his motor truck at First avenue and Thirty-fifth street, and poured water in the radiator. Witnesses testified that Murray had sped away from the accident without halting. Others who saw Daly knocked down took the cab's number and identified the chauffeur when he was captured.

STATE OF TRADE IN UNITED STATES

(Bradstreet's, Saturday)

General trade rules about fair, industry moves at from half to three-quarters speed and collections drag these surfaces developments apparently awaiting the clearer defining of really big forces which underlie the general commercial and financial situation. The result is something very much like a drifting market in many lines and sections of the country, with a shade more quiet than last week and even more irregularly noted than in recent months.

Trade reports and crop progress appear best in west-central regions and markets, which also note most industrial activity, while slowest is most marked in reports from the east and south. Retail trade seems better in city than in country districts, where the farmer is busiest and where reduced buying power is most complained of. Collections drag about equally wherever reported on. The tenor of crop reports as a whole is relatively better than are reports as to trade and industry. Despite cool or wet weather, crop growth is still relatively ahead of normal, and crop preparation is certainly in advance of a year ago, with labor in better supply and cheaper than for years past. Winter-wheat conditions, though spotted in some sections, are classable as good; spring wheat, though retarded by cool weather, is well advanced, while corn and cotton crop planting has been accelerated by better weather. Actual damage as yet seems confined largely to the effect of frost on fruits. Needed moisture has benefited parts of the southwest, especially Texas, where grain crop progress was recently complained of.

Marked variations are still found in different branches of identical industries and lines of distribution, and these bid fair to be maintained pending clearer views of future crops, foreign political developments, export and import trade and domestic money, credit and labor conditions, which are likely to affect the better trend of crop reports, more especially winter wheat; the gradual waning of the restrictive powers of the shipping strike; the growth of building in the face also of strikes at many large centers, and the slight increase in the central fields in buying and production of bituminous coal. On the less favorable side of the week's developments are to be seen the continued lack of buying power in the general iron and steel trades, the further sagging of export trade, with some seriously contradictory ebb and flow movements in different lines; the slackening of demand and output for automobiles in some directions while output continues close to the record in others, the continued downward drift of many food prices, with new low levels for dairy products, and, despite the Railway Labor Board's decision, the prolongation of the uncertainty as regards railroad wage costs, which has acted as a drag on this important industry for months past.

On balance, the general situation may be summed up as being still in the formative stage, with definite results not clearly perceptible, but with a good, large measure of conservative optimism expressed as to the ultimate outcome, once many of the present pressing problems find final settlement.
