A Yawner

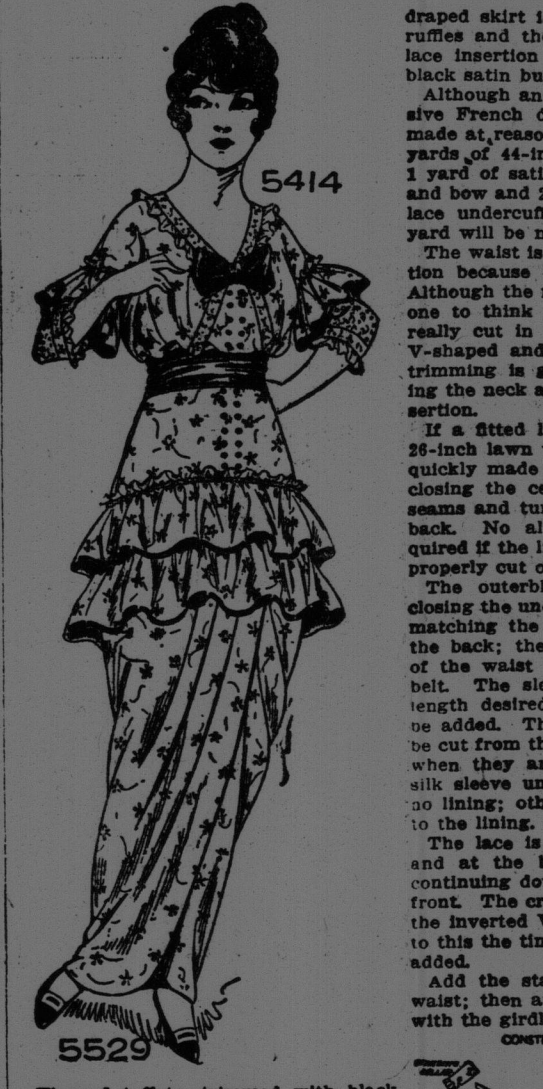

is not likely to be found doing "big things." To succeed nowadays one must be wide awake daytimes and sleep soundly at night. Tea and Coffee, on account of their drug, caffeine, keep many people awake nights and make them dozy in the daytime, when they should be keen and alert.

POSTUM

Made of whole wheat and a bit of molasses, Postum contains no caffeine, or other harmful substance, but does contain the nutritious food elements of the grain. Wholesome—Nourishing—Delicious! Postum comes in two forms: Regular Postum—well boiled, yields a delightful flavour. Instant Postum—a soluble powder. Made in the cup. No boiling required. 30c and 50c tins. The cost per cup of both kinds is about the same. "There's a Reason" for POSTUM—sold by Grocers everywhere. Canadian Postum Cereal Co., Ltd., Windsor, Ont.

To Help Nature Shed a Bad Complexion

Beauty devotees are enthusiastic over the beautifying qualities of marocized water. Nothing discovered within a few years accomplishes so much, so quickly, without harm, at such small expense, as this. The principal reason for its wonderful merit is that it works in harmony with the natural process of the skin. Instead of irritating or blotchy cuts, gently, gradually, counteracts the action of the sun's rays, and restores the complexion to its natural state. The natural process is retarded because of deficient circulation of nerve tone, marocized water comes to the rescue and hastens the skin shedding. The new complexion which appears is a natural one, youthful, healthy, exquisitely beautiful. If you've never tried marocized water, get an ounce of it at the drugstore, use at night like cold cream, washing it off in the morning. Another natural beautifying treatment—for wrinkled skin—is to bathe the face in a lotion made by dissolving an ounce of ascorbic acid in a half-pint of water. This is remarkably and instantaneously effective.

No More Ugly Hairs To Mar Your Beauty

(Toilet Tips.) Any woman can keep her skin free from bothersome hairy or fuzzy growths by the following simple and speedy method: Mix a stiff paste with a little powdered talc and some water; apply this to the objectionable hairs and let it remain about two minutes, then rub off, wash the skin and every hair will have vanished. No harm or inconvenience attends this method, but to be certain of results it is advisable to buy the talc in a small original package.

Take Over 70,000 Acres

Edmonton, Alta, June 11—George H. Draper of New York, and J. Mitchell Hoyt of Chicago, heads of a syndicate of American capitalists, have acquired 70,000 acres of virgin lands in the Vermillion valley, east of Edmonton, where a colony of experienced farmers will engage in diversified agriculture. The land cost \$1,000,000, one-fifth of which was paid in cash, the balance being spread over a period of five years.

Hints for the Cook

Rhubarb and Raisin Marmalade. Peel and cut four pounds of rhubarb in small pieces, heat very gradually to the boiling point, then add four pounds of sugar, the juice of one lemon, the grated rind and juice of four oranges and two pounds of seedless raisins. Cook slowly until thick, pour into glasses and seal when cold. Chocolate Cornstarch Mold. One pint of milk, three tablespoons cornstarch, quarter teaspoon salt, quarter cup sugar, one square chocolate, half teaspoon vanilla. Put milk and chocolate into top of double boiler to scald. Mix sugar, salt and cornstarch thoroughly, add a little cold milk and stir into the hot milk. Cook till free from any new taste, add vanilla and pop into wet molds. Serve with cream and sugar.

Scotch Shortbread

Rub four ounces of butter into six ounces of flour and add two ounces powdered sugar. Knead the mixture until it becomes a stiff paste. (When it is hard to knead I add one egg but that is not necessary.) Mold it on a board with your hands. Roll out and cut in fancy shapes. Prick with fork and bake in moderate oven 15 minutes.

A Century of Peace

London, June 10—The ball and pageant in Albert Hall tonight commemorating the centenary of Anglo-American peace provided the most brilliant spectacle seen here for a long time. Many of the notable people of the London social world were present together with a large number of American and colonial visitors.

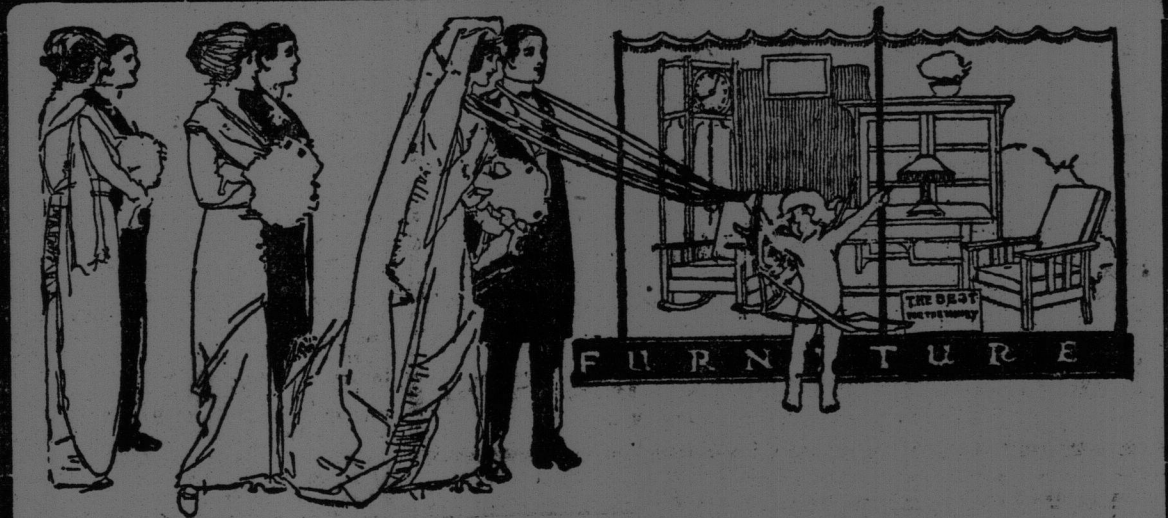

Ayer's Hair Vigor

Just a little care and small expense, that's all. Isn't a head of rich, heavy hair worth while? Ask Your Doctor.

It has Ended 60 Million Corns. This little Blue-jay is removing a million corns a month. It is doing that for hundreds of thousands who used to doctor corns in old ways. And every one of those legions of people would gladly tell you this: That Blue-jay stops pain instantly. That the corn comes out in 48 hours without any pain or soreness. That Blue-jay is applied in a jiffy. And from that instant one forgets the corn. That the corns never come back. New ones may come, but the old don't reappear. Think of that, you who are corns, you who use old-time methods. A famous chemist, in the one right way, has solved the whole corn problem. And that way—Blue-jay—is at every drug store waiting for your use. Don't you think it time you tried it—now that sixty million ended corns owe their fate to Blue-jay?

Conspicuous Nose Pores

How to reduce them

Complexions otherwise flawless are often ruined by conspicuous nose pores.

In such cases the small muscular fibres of the nose have become weakened and do not keep the pores closed as they should be. Instead these pores collect dirt, clog up, and become enlarged.

Begin tonight to use this treatment

Wring a cloth from very hot water, lather it with Woodbury's Facial Soap, then hold it to your face. When the heat has expanded the pores, rub in very gently a fresh lather of Woodbury's. Repeat this hot water and lather application several times, stopping at once if your nose feels sensitive. Then finish by rubbing the nose for a few minutes with a lump of ice.

Woodbury's Facial Soap cleanses the pores. This treatment with it strengthens the muscular fibres of the nose pores so that they can contract properly. But do not expect to change in a week a condition resulting from years of neglect. Use this treatment persistently. It will gradually reduce the enlarged pores and cause them to contract until they are inconspicuous.

Woodbury's Facial Soap is the work of a skin specialist. It costs 25c a cake. No one hesitates at the price after their first cake.

Do this today—now! Tear out the illustration of the cake below and put it in your purse as a reminder to get Woodbury's and try this treatment. Tear out the cake now. Take it to your druggist today. Begin tonight to get the benefits of this facial soap.

CO-OPERATION.

The Agricultural Gazette of Canada for May contains a good deal of valuable information on the subject of co-operation. One regrets to observe that the five provinces in New Brunswick in relation to agriculture, although members of agricultural societies co-operate to some extent.

A striking illustration of the financial benefit of co-operation in marketing fruit is given from the county of Durham, Ontario, where the average net profit to the apple grower for three years was \$1.80 per barrel under co-operation, compared with only \$1.00 to growers who were not in the co-operation.

An article on co-operation in Nova Scotia shows that out of 400,000 barrels of apples shipped from Halifax to Europe in 1913-14, 92 per cent, or 367,000, were shipped by the United Fruit Companies, which represents 87 of the 46 co-operative fruit companies in the province.

The province of Quebec has co-operative banks. The first was opened in 1900, and the report says the movement "has spread over the province and beyond its borders until there have been put into operation about 150 people's banks."

The Nova Scotia legislature, which has just been prorogued, passed 190 bills. The province certainly has no reason to complain of a dearth of legislation.

The Standard is much concerned about what the Halifax Chronicle says regarding Mr. Hasen. The people of St. John are more concerned about what Mr. Hasen says himself, but he continues to maintain a mastery silence concerning the renewal of the Gutelius agreement.

The sincere sympathy of a very wide circle of friends goes out to Col. H. H. McLean, K. C., M. P., and the members of his family in their hour of sorrow and bereavement. They have been deprived of the companionship and counsel and loving care of one whose life character had endeared her to all within the circle of her intimate acquaintance.

HAD TO STOP WORK FROM THE PAIN

Suffered Ten Years Until "Fruit-a-tives" Cured Him

St. Thomas, Ont., May 22nd, 1913. I was troubled for ten years with the most distressing Constipation and Indigestion of the worst form. No one could have been worse with these troubles than I was for this long time.

The pain from Indigestion was so severe that many times I have had to stop work and lie down until the acute spasms passed away.

I took a lot of medicine—in fact, I guess I took about everything that was advertised—and gave them all a fair test—but got no relief.

My wife also used "Fruit-a-tives" and she says she was cured in a very short time and I am now free from these diseases and enjoying perfect health.

My wife also used "Fruit-a-tives" and we both think they are the best medicine ever made.

Choice of Voices.

"It's Mr. Boreleigh. I think I'll send him word I'm out."

"Won't the still, small voice reproach you?"

"Oh, yes; but I'd rather listen to the still small voice than to Mr. Boreleigh's."

Lacking Courage.

Miss Bute—Jack Timmid has asked me if he might call tonight. I think he wants to tell me he loves me.

Her Friend—Oh, that goes without saying.

Miss Bute—Yes, and I'm afraid he will, too.

Choral Repertory.

Once in a while the choir do get back at the minister, as, for example, in a Connecticut church the other Sunday morning.

The minister announced, just after the choir had sung his sermon as his text, "Now when the uproar had ceased."

"But the singers hid their time patiently, and when the sermon was over, rose and rendered in most melodious fashion, another anthem beginning, "Now it is high time to awake after sleep."—Congregationalist.

The teacher was seating pupils alphabetically.

"All those whose last names begin with the letter A please come forward," said she.

When these were assigned their places, she said:

"Those with the letter B," and so on through the alphabet.

All went well until she unwittingly said:

"All the J's may come this way."

Not even the teacher could refrain from laughter when every J remained in the background.

HE KEPT COUNT.

Calculating machines are left far behind by a Frenchman who at the age of seventy-seven has just died in a Breton town.

When he was eighteen he began to keep an account of all his expenses and "entered up" every conceivable item for fifty-two years.

During these fifty-two years he bought 628,713 cigars, costing £2,035 16s. 3½d., and 48,892 were given him by friends.

Other items were:

86 pairs of trousers, £ 2 10 0

70 coats and waistcoats, 108 0 0

300 shirts and 304 collars, 68 0 0

10 umbrellas and trawlers, 98 0 0

In fifteen years he drank 88,531 pints of beer, while 40,803 glasses of liquor helped to swell his wine merchant's bill to £1,105 12s. For the honor of being served with all these refreshments he gave away £250 in tips.

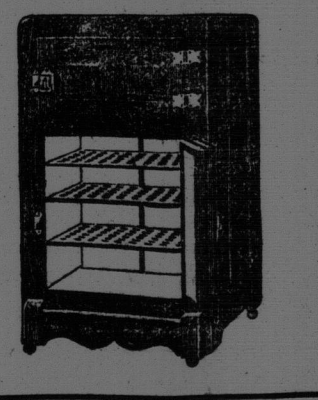

I also have lots for sale. Call me up for any information you want.

LOST IN THE CATACOMBS

Thrilling Experience of Man Underground in Paris

Paul Philippard, a male nurse at the Cochin Hospital, in Paris, who in his spare moments studies geology, has had an unusual experience, says the London Daily Telegraph.

His zeal for geological exploration led him to descend into the Paris catacombs through an opening in one of the courtyards of his hospital, but to his surprise, after an exciting adventure which lasted many hours, he came out in the courtyard of the Val de Grace Hospital, carried by a man.

He had a longing to explore the catacombs, and seeing some workmen employed in an excavation which communicated with them, he let himself down with a rope to a depth of about sixty feet.

Trusting to a lighted taper which he carried with him, he started through the underground galleries, marking the passages here and there with white chalk so as to find his way back.

He examined the vaults and the stones, and became so absorbed in his observations that he lost his way. When he wished to return he mistook the passages, and before long his taper gave out.

He rushed hither and thither in the gloomy passages trying to discover the marks, but he found that previous visitors had also marked the stones, and that confused him.

Finally his light gave out altogether, and he became desperate. He burnt his fingers with the end of the taper in trying to keep it alight, and when it went out he set fire to a newspaper which he carried with him.

He next burned the strings of his apron, and used up all his matches. Still he failed to discover the exit.

Hours then passed in vain attempts to find the light. There were hours of box, 6 for \$2.50; all dealers, or Edman, Son, Bates & Co., Limited, Toronto.

GOOD SLEEP GOOD HEALTH

Exhausted Nerves Were Fully Restored by Dr. Chase's Nerve Food.

When the nerve force expended in the day's work and in the act of living is not replenished by restful sleep at night you have cause to be alarmed, as physical bankruptcy stares you in the face.

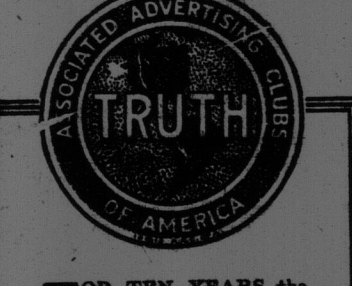

This letter directs you to the most satisfactory cure for sleeplessness.

Mr. Dennis Mackin, Maxton, Sask., writes—"I have just finished using the sixth box of Dr. Chase's Nerve Food, and I must say that when I commenced using it my nerves were so bad that I could scarcely get any sleep.

I would lie in bed nearly all night without sleep, and anyone who has this trouble knows the misery of sleepless nights.

The Nerve Food helped me from the start, and has built up my nervous system wonderfully. I now enjoy good, sound sleep, and instead of feeling tired in the morning I am strong and healthy, and well fitted for my daily work."

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.50; all dealers, or Edman, Son, Bates & Co., Limited, Toronto.

ABOLISH "KEEP OFF" THE GRASS SIGNS

(Journal of Commerce, Montreal, Ed.) Ages hence when the history of the early years of the twentieth century are written, one of the curiosities connected with the period will be our signs "Keep off the Grass." A few days ago in Toronto a man was fined \$1 for walking across the grass in one of the city streets. The man had a sick wife and child and was out of work, while his total cash amounted to the princely sum of 25c. As a result of the heinous crime of walking on the grass, he was given the option of going to jail or paying the fine of \$1 and costs. He chose the latter and we got out of work, while his wife and child will suffer still more. We would like to know what grass is so sacred that it is to be kept off for. All through our cities we find signs up, "Keep off the Grass." Little children, whose lives are not nearly as valuable as those of a few blades of grass, are forbidden to play on grass plots. They spit play in the filthy streets, where they contract diseases and are in constant danger of losing their lives by being run over by reckless drivers. Instead of finding a person for walking on the grass, we think it would be a far more sensible law to fine the authorities who put such absurd signs, or better still, find them to jail for the rest of their natural lives. The crying need in our cities is for more grass plots, more breathing spaces, and more consideration

RELIEF AT ONCE CURE CERTAIN

Conclusive Evidence That Dr. Chase's Ointment Cures Itching Piles. Mr. John G. McDonald, Pictou, N. S. writes:—"I used Dr. Chase's Ointment for itching piles, and found that the first application gave relief. After using a few boxes of the ointment I was completely cured, and can recommend it highly to all sufferers from this disease. You have my permission to use this letter for the benefit of others." Mr. James M. Douglas, Superior Junction, Ont., writes:—"For about six years I suffered from piles, and often could not work for two or three days at a time, so great was the suffering from pain and itching. Doctors treated me in vain, and I tried many treatments before I came across Dr. Chase's Ointment. Two boxes of Dr. Chase's Ointment cured me, and for several months I have had no return of this annoying ailment." There can be no doubt that Dr. Chase's Ointment is the most effective treatment obtainable for every form of piles. 60 cents a box, all dealers, or Edman, Bates & Co., Limited, Toronto.

THOUGHTS THAT COME TO CITY MAN IDLING IN COUNTRY

What of the Little Ones in the City Who See no Green Fields or Brooks or Flowers?

I am sitting in a lawn-swing in front of a farmhouse on the hill behind Pubic Landing. The easy motion is restful. The air is fresh and delightful. Before me lies the broad river and the landscape, by far the greater portion of the latter, except for the farther side of the stream, covered with woods; hill rising behind hill, and the more and more showing a bluish tint in the slightly hazy atmosphere. The scene is one of singular beauty. A round meadow of little bloom, and where I sit I can almost reach the branches of an apple tree laden with fragrant blossoms. It is an old orchard, and the gnarled trunks and branches of the trees show the effect of the winds and storms of many years; but just now they are crowned with beauty and the odor of the blossoms fills the air. Buttery moves land about, just above the surface of the ground, and overhead swallows are circling and yonder in the distance a line a row crows the tops of the trees and is finally lost among their branches. Just before me are rows in the garden of raspberries, which a little later in the season will be red with luscious fruit. Beyond the raspberries, in a row, are long, straight rows in which potatoes are planted, and will soon be above ground, and in another field the green tips of growing oats are just becoming visible. Away to the right the hillside is covered with blossoming honeysuckle, purple in the sunshine, delightful to the eye, and a paradise for the bee. Every shade of green is found in the panorama of woods and fields. Down by the river only the spire of the little church is visible among the foliage. The cherry bloom that shows so white a week ago is gone, but in its place are the apple blossoms and the honeysuckle. My little girl tells me it is not honey-suckle, but rhododendron. Why should a little miss of but few summers shatter one of the dear illusions of a lifetime? Honeysuckle has been to me since boyhood. Honeysuckle I fear it will remain. Someone else says I should call it anemone, and another author says that what was formerly the genus anemone is now included in rhododendron. A little further inquiry and I find that the general term honeysuckle are included the false or so-called wild honeysuckles, which are in the families of American azalea of the heath family. And there you are. It is certainly honeysuckle to the bees. Why not to me? That purple hillside lured us this morning. The sun was shining from afar, longed to be in the midst of the bloom, and so we went down a steep hill across a fence and through a tangled wilderness, crossed the babbling brook by leaping from stone to stone, passed up the hill until we stood in the midst of Nature's flower garden, fragrant and more beautiful than when viewed from the distance. I came back laden with flowers plucked by the way. Last night we made a garden bed and planted flower seeds. The children did most of the work, and watched the planting of the seeds with eager interest. They will be watching eagerly for the bursting of the first buds through the soil. To them it is a joy to see the fresh country air and amid these pleasant surroundings comes some new and delightful sensation. Why should not the City's Little Ones. My thoughts go out to groups of children I have seen in Richmond street, and Clarence street, and Hanover street, and Erin street, and Brussels street, playing in the dust, with never a green leaf or a blossom, or a breath of fresh air as that which sweeps this hillside by the river. It would be worth much to them if they could share the pleasure of

such an outing for a few weeks, or even if now and then they could get away under proper supervision to places where the brooks babble over the stones and the leaves whisper in the winds and the flowers shed their perfume in the air. But is there not something that could be done near their own homes to bring something more of pleasure into their lives? I take up from my knee a copy of the American Review of Reviews. June, and my eye falls upon an illustration of some experimental gardening done by children in vacant lots in the city of Dayton. The picture shows boys and girls standing among vegetables and flowers in what had been a vacant lot covered with tin cans and all sorts of refuse. I read— "The city is preparing for cultivation a number of vacant lots which will be turned over to citizens free, with the requirement that a portion of the plot be devoted to the raising of flowers. Two allotment gardens of five and seven acres each have been started. School children are cultivating experiments in the vacant lots. The directors of said instructors, and over ten thousand plots are being planted this spring. The latest from the movement is the raising of fifteen citizens, five of whom are appointed by the city government. They are to be given vacant lots in St. John, each of which is an eye sore to the citizens. Why should they not be attracted by the children's good direction, if not of paid instructors, then of volunteer committees who have some knowledge of the art of gardening. The little child on the sand bin in the supervised playground reveals the instinct that may be directed along healthful and beneficial lines in later years, in the school garden or the garden made in the vacant lot. The work is healthful, educative, inspiring. Why is it so utterly neglected in the city of St. John? In the ravine where the brook makes a series of tiny waterfalls as it rushes toward the river, I made the children a cup of birch bark. They watched the process and learned how to make the cup, and then they drank from the clear waters with an enjoyment that would be impossible if they had merely drunk from an ordinary cup. A few minutes ago I saw a lad with a small string of trout, evidently from the same brook. In the ravine along its course may be pointed out probably a score of different kinds of trees, including pine, spruce, fir, oak, maple, beech, birch, cherry and willow, with of course the alder and the poplar. The children are so delighted with the pleasure of catching the brook, the place takes one away even from the thought of crowded houses and dusty streets, and the care of the work-day world. Everywhere outside the city are lovely places where pleasure awaits the children, and for far too small a number are the pleasures made available. My little girl ran to me in the ravine this morning with fine specimens of ladybugs, and with the joy of displaying them in her eyes. And how eagerly the children listened to the story of the great pine near the roadside, which they pass in going to the pasture where the cattle feed. There is a large hole in the trunk of this old pine, in whose lofty branches the wind moans, and which has defied the storm for perhaps a century. A colony of bees stored honey in this hole in the trunk of the old pine. It was discovered by Charles Peck, who thought that a little later he would be able to secure the treasure; but a colony of ants also had been discovered, and when he went the honey was gone and the ants were in possession. A tragedy of the distance would have been enacted in the trunk of the old pine. A week ago, on this ravine ground, a colony of ants also had been discovered, and when he went the honey was gone and the ants were in possession. A tragedy of the distance would have been enacted in the trunk of the old pine.

How Thin People Can Put on Flesh

A NEW DISCOVERY Thin men and women—that big, hearty, filling dinner you ate last night! What became of all the fat-producing nourishment it contained? It was gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of this folk the world over. Your nutritive organs, your functions of assimilation, are saddy out of gear and need reconstruction. Cut out the foolish, fancy and funny savadit diets. Omit the flesh cream ration. Cut out everything but the meals you are eating now and eat with every one of those a single Sargol tablet. In two weeks note the difference. Fit to eight good solid pounds of healthy, "stay there" fat should be the net result. Sargol charges your weak, stagnant blood with millions of fresh, new red corpuscles—gives the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too, mixes with your food and prepares it for the blood in easily assimilated form. This people gain all the way from 10 to 25 pounds a month while taking Sargol, and the new flesh stays put. Sargol tablets are a scientific combination of six of the best flesh-producing elements known in chemistry. They come 40 tablets to a package, are pleasant, harmless and inexpensive, and all druggists sell them subject to an absolute guarantee of weight increase or money back.

Frederick Thomas, Jr. left for a trip on Wednesday morning for St. John to visit his aunt, Mrs. J. B. Garlick, of Lyndhurst street, leaving a sorrowing husband, two sons, Captain C. W. of the Royal Horse Artillery, Amal, India, and Hugh H. McLean, Jr., at home, and one daughter, Miss Jennie Elise and a large circle of friends, who were called to the life beyond. Only yesterday morning she had been at the city and had been busy making the necessary preparations for the wedding of her daughter which was arranged for next Wednesday. On her return home about ten o'clock she became ill and did not rally up to the time of her death about seven o'clock last night.

Mrs. McLean was a lady of estimable qualities, esteemed and revered for her kindly disposition, and her many charitable acts. Her aim in life seemed to be to do good for others, and she was connected with several organizations whose object is to better the condition of the poor, besides being active in individual philanthropic work. She was a prominent member of St. Andrew's church, where social and charitable movements took up much of her attention. Mrs. McLean was a member of the ladies' committee of the Protestant Orphan's Home. By those who knew her, she was most highly esteemed, while by many who knew her only through her good works, she was regarded as a true friend. The funeral will be held on Saturday at three o'clock, p. m.

Great Throng Present as Bishop O'Leary of Chatham Is Consecrated

(Continued from page 1).

HIS LORDSHIP BISHOP BARRY OF CHATHAM

A cross in white is placed at the head of the bishop's seat on the throne and two large white pinnacles are placed before the bishop's, the first having three gateways and the other one. These arches have been placed at the heads of the deacons seats.

Three large arches were built, one at the foot of the drive leading up to the bishop's palace, and one in front of the main entrance of St. Thomas' College, and one in front of St. Michael's Academy, the first having three gateways and the other one. These arches have been trimmed with boughs and decorated with the papal colors in harmony with the other decorations in honor of the event.

This evening the front of the cathedral will be lighted by more than one hundred electric lamps placed in advance of the bishop's palace also will be brightly illuminated.

In the Opera House on Tuesday evening an address and a handsome gold pastoral cross and chain were presented to Bishop O'Leary by James F. Connors, on behalf of the local Knights of Columbus, C. M. B. A., and A. O. H. Bishop O'Leary replied, speaking in very feeling terms of the presentation and gift. After he had concluded his remarks Rev. A. W. Meahan, D. D., of St. Andrew's, and Rev. William Rosch addressed those present.

Several St. John people are in Chatham for the consecration, amongst them, Mr. J. McDonald, Jr., Mr. J. McDonald, Sr., George V. McInerney, E. Blake McInerney.

EMPRESS SURVIVORS HOME STILL NO WORD FROM GASPE COAST

Liverpool, June 11—Pitiful scenes were enacted here today when the steamer Alastair, having on board 128 members of the crew and forty-seven passengers, survivors of the Empress of Ireland disaster, arrived. Pathetic scenes followed reunions between members of families of survivors and during the crush of women to clasp their loved ones many fainted. The bodies of nine dead were also on the Alastair.

MISS ESTHER ANN NIXON The death of Miss Esther Ann, second daughter of Mr. and Mrs. Samuel Nixon, formerly of St. John, but now of Moncton, occurred yesterday at the residence of her parents. She was twenty-eight years of age, and had been ill only a short time. Besides her parents, she is survived by three sisters and two brothers.

Equal to a Coal Range and Far More Economical Here's an oil stove on which you can cook just as quickly as on a coal range. It's more economical. Has no wick; hence no smoke, no dirt, no dust and no ashes. The

Florence Automatic Oil Stove is always ready. Turn the lever, light the burner, and you have a concentrated heat directly under the cooking. Ask any woman who has ever used a Florence Automatic Wickless Oil Stove whether she would willingly go back to the old-fashioned ill-smelling wick oil stove, with its troublesome wick, and her reply will demonstrate to you what a marvel of convenience this oil stove really is.

THE MANUFACTURERS

Montreal, June 11—The Canadian Manufacturers' Association was given a "straight talk" by Charles A. Dunning, of the Saskatchewan Co-operative Company at yesterday afternoon's session of the association. Mr. Dunning said he came as a representative of the Saskatchewan farmers, to present their views to the eastern manufacturers. With reference to the tariff he warned them that the western farmers were strongly in favor of free trade, and that if the manufacturers were not reasonable in their tariff demands there might be trouble between western and eastern Canada.

The delegates expressed their appreciation of Mr. Dunning's outspoken words by a standing vote. Incidentally, in the course of his address Mr. Dunning depicted the loading up of the western farmers by the manufacturers with machinery and mortgages.

A demand for extension of technical education in schools was made in the report of the education committee of the association this morning. It is said by the committee that unless this sort of school is extended, Canada will fall behind in the industrial race.

The association elected president, C. J. Henderson, first vice, J. H. Sheridan; second vice, Lieut.-Col. W. M. Gartshore; treasurer, Geo. Booth; auditor, Wilton E. Eddie, Toronto.

TO RECEIVE DEGREE Dr. W. P. Bonnell will leave this evening for Boston to attend the commencement exercises of Tufts medical and dental college when his son, Percival L. Bonnell will receive his degree of D. M. D. Percy Bonnell is only twenty-one years of age, having just recently passed the eligible age for graduation and has successfully passed his final examinations, standing well in a class of about 100 students, of which he was the youngest. He has had a brilliant career as a student. He graduated from the twelfth grade in the St. John High School when only eighteen and during the three years he has been at Tufts University, he has won the admiration of his professors and was also popular with his fellow students. During his last year he has received several appointments, among them being that of visiting dentist to Deer Island Hospital. Mrs. Bonnell is at present visiting her son in Boston, and she and Doctor Bonnell will both be present at the graduation exercises on June 17. Dr. P. L. Bonnell will be associated with his father in his office at 9 Germain street.

REDISTRIBUTION BILL BEFORE PARLIAMENT

Is Likely To Pass As It Now Stands

EFFECT ON NEW BRUNSWICK

This Province and Nova Scotia to Lose Two Seats and Prince Edward Island One—Big Increases in the Western Provinces

Ottawa, June 10.—The redistribution bill introduced in the commons this afternoon by Hon. Robert Rogers, after consideration for the past three months, by the special committee will, it is expected, be passed through the house before prorogation, at the end of this week, with but comparatively little discussion.

In New Brunswick the total representation is reduced to eleven instead of thirteen members as at present. This is done by uniting the constituencies of Restigouche and Madawaska into one riding, Victoria and Carleton into one riding, while the constituencies of Kings, Albert and Queens-Sunbury are broken up. Kings and Queens are united into one riding, Sunbury is added to York, and Albert is merged with the constituency of St. John. For this latter constituency two members are to be elected.

All the other ridings remain unchanged.

In Nova Scotia the changes made in the present bill from the representation as at present are as follows: Annapolis and Digby are united into one constituency with the exception of the township of Clare, which is put into the constituency of Yarmouth.

Antigonish and Guysboro are merged in one constituency.

Richmond and South Cape Breton are united for electoral purposes and will return two members.

All the other ridings remain unaltered.

In Prince Edward Island there are to be three instead of four members elected.

The ridings will be Kings, Prince and Queens. The change is in giving Queens only one member instead of two as at present.

In Quebec the Liberals and Conservatives have agreed on the re-allocation of the constituencies.

The principal change is in giving the island and city of Montreal twelve members instead of eight.

In Ontario there is a net reduction of four seats.

Toronto and suburbs are divided into four members.

Three new members are added to the northern part of the province.

North Lanark, Brockville, West Northumberland and Stormont are wiped out entirely, while the Grey, Middlesex and Huron will each have two instead of three seats.

In Manitoba five new seats are added.

Winnipeg gets two members instead of one.

In Saskatchewan there are six new

OCTOBER MAY BE DATE OF GENERAL ELECTION

Parliament Is To Prorogue On Friday

May Grant Aid For North Shore Shipping Disaster—Fancy Prices For Political Favorites—Postal Bill Rejected

Ottawa, June 10.—The evident anxiety of the government to put the redistribution bill through this session, coupled with the fact that the party organizers throughout the dominion have been quietly told to get busy, lends color to a well defined rumor that has been going the rounds in parliamentary circles for the past few days to the effect that the government may spring a general election in October next.

Another government bill was turned down in the senate today when by a vote of 29 to 18, the senators rejected the measure to allow the treasury board to regulate the rates on newspapers and periodicals through the mails.

Through Mr. Mackenzie, of Cape Breton North, it was shown today that the official headman of the Tory party in Nova Scotia, H. P. Duchemin, had been paid for more than he was entitled to.

He had been paid to act as "investigator" at \$15 a day, but a bill rendered and accepted by the government showed that for three hours' investigation on one day with "expenses" he had been paid \$128.38.

Hon. Mr. Rogers, who was leading the house, shifted responsibility, by shifting what blame attached to the auditor general.

More light on the financial methods of the government was shed by J. H. Sinclair, with regard to the acquiring of land by the government at Canimuk, N. S. Sir Frederick Borden, who owns much property there, offered a free site for the government for a public building which it intended to erect.

But N. W. Eaton, a defeated Conservative candidate, was desirous of selling a piece of land, so his land was taken at \$2,000, the free offer of Sir Frederick Borden.

The government later needed additional ground and offered a Canimuk company \$1,100 for a piece, but this was thought to be excessive, and they could not conscientiously accept.

That the government might give a grant to those who lost in the Caracquet disaster was intimated by Hon. Mr. Turgeon today, but additional information would be necessary first.

Parliament will probably prorogue on Friday.

POSTAL TELEGRAPH EMPLOYEES TO VOTE ON STRIKE

Detroit, June 10.—Delegates attending the annual convention of the Commercial Telegraphers' Union of America, now in session in Detroit, today discussed the advisability of calling a strike in the Chicago office of the Postal Telegraph & Cable Company. It is alleged twelve operators were discharged from the Chicago office about two months ago because of their affiliation with the union.

The organization appealed to the federal department of labor, and R. B. McHenry, of Buffalo, was appointed as commissioner of conciliation. Mr. McHenry telegraphed the delegates here today he had been unable to adjust the difficulty.

A formal vote on the proposition to declare a strike will be taken tomorrow.

LLOYD GEORGE BUDGET

How One of The Millionaires Figures It

SIR WM. LEVER'S VIEWS

Some of the Sources of British Revenue—Statist Editor Says Nation Can Stand Much Heavier Burden

London, June 11.—Under the new scheme of taxation introduced by David Lloyd George, chancellor of the exchequer, in his budget for 1914-15, a man having an income from a capital of five million dollars will have to pay one-third of his income in taxes. In the first place he has to pay twenty-eight cents on every five dollars in income tax; then he has to pay a similar amount in super-tax, and when he dies he has to be paid for death and estate duties. The total is figured at just under one-third of his income.

This calculation has been made by Sir William Lever, one of the millionaires who will have to pay, but who does not object. "I like it," he said, "in my view the ideal system of taxation, both local and imperial, is through the income tax, the super-tax, death duties, land tax, site value tax, and taxation upon luxuries, such as alcohol, tobacco, etc., everything else free."

While Lloyd George has followed his predecessors in his system of taxation, except that he has increased the rate of income and super-tax and death duties, so that the wealthy have to pay the lion's share, he has gone to other countries for some of his ideas. His taxation of site values is based on the law now in vogue in British Columbia, while

Health and Beauty Answers

Vera B.: Your skin will grow soft, clear and smooth after a few applications of a plain almond jelly-cream, made at home as follows. Put 4 tablespoonfuls glycerine into 1-2 pint water and in this dissolve 1 ounce almond (which you can buy at your druggist's). Apply a thick coat of this to the skin before retiring, then wash off in the morning and use more of the jelly cream before massaging. This gradually dispels the wrinkles and lines and banishes pimples, blackheads, and the "muddy," oily look. The almond jelly cream is greaseless and will not grow hair.

Mrs. A. T.: You may not require glasses. Get from your druggist 1 ounce crystals and dissolve in one pint water. Then put a few drops in the offending eye several times a day until inflammation and soreness have vanished. This crystal eye-tonic is especially good for granulated eyelids, and using it strengthens the eyes and gives to them a youthful sparkle.

Adeline: The reason for that dryness of hair after you shampoo is because that kind of soap irritates the scalp's tissues and makes them over-sensitive. Canthrox will correct this, for it is a tonic as well as cleanser and is so stimulating to the blood-vessels and scalp tissues that the danger is entirely eliminated. To prepare your shampoo, dissolve a teaspoonful of canthrox in a cup of hot water, then pour it slowly on the head as you rub briskly. This dissolves every trace of dust, dandruff and excess oil, and after rinsing, the hair will dry quickly and evenly.

Lucy G.: Loss of weight is a serious matter and calls for prompt action. Get from your druggist 1 ounce kerdene and put it, together with 1-2 cupful sugar, into 1-2 pint alcohol, then add hot water

to make a full quart. Take a tablespoonful before each meal. This simple, home remedy increases your appetite and gently cleanses the system of impurities, restores a healthy condition to the vital organs. When this is done your weight will be normal and the glow of health will be upon your cheeks.

Mrs. A. R. J.: I make a good lotion that is very helpful to my skin by dissolving 4 ounces sprunax in 1-2 pint witch hazel or hot water, to which is added 2 teaspoonfuls glycerine, which will soon correct that oily, sallow "wormout" appearance of your complexion. This simple lotion is soothing & healing and imports a velvety smoothness and natural leanness to the complexion not possible with powder and rouge. You will like the sprunax lotion because it is easily applied and cannot be detected when on.

Lucille: I always use a plain quinsol hair tonic, made at home by pouring 1 ounce quinsol into 1-2 pint alcohol, then adding 1-2 pint water. Rub a little well into the scalp twice a week and you will soon rid the scalp of dandruff and restore the hair roots to health. The regular use of the quinsol tonic will restore the former gloss and even color to the hair and make it soft, long and fluffy.

Mrs. M. N. T.: Your excess weight can be easily and quickly reduced by taking this parrotis treatment, made at home, as follows: Put 4 ounces parrotis (which you can get at your drug store), in 1-2 pint hot water, and strain when cool. Take a tablespoonful before meals until weight is where you want it. No harm results from the use of the parrotis treatment, and the flesh is left solid and the skin soft and smooth.

Play P.A. right across the boards! You lay an odds-on bet that Prince Albert is the best pipe and cigarette smoke any man ever put a match to. You'll cash in before you clean out your first tidy red tin. Here's tobacco that's got real red-blooded man punch, but it can't bite your tongue and it can't parch your throat. That's thrown into the discard by a patented process owned exclusively by the manufacturers. You stick a pin here—no other tobacco can be like Prince Albert; nor has P.A. any "near" relatives! Follow the thought? Just put it right up to yourself for a test-out. Try a tin of Prince Albert and get tipped off from the home plate as to how close to case cards this talk is. You get wise to that P.A. flavor and fragrance. Because it's just one of those little things in life that smooth out ruffles and wrinkles in the day's work and send you along right cheerful like. ALL SUSPENDED
East End League Players Under the Ban
HEEDED NOT WARNING

A. W. Covey Makes Announcement of Action by Canadian Amateur Athletic Union—Fairville Practically Same

All the players of the East End League are under the ban. This was the ultimatum handed out by A. W. Covey, local representative of the Maritime Province Branch of the Canadian Amateur Athletic Union yesterday.

The Fairville League is sailing under practically the same colors. They too have failed to look after registration and sanction, their case has been reported and action will be taken to have them suspended immediately.

It is regarded as unfortunate that these two leagues which are the backbone of amateur baseball in the city, should fall into disfavor and the lovers of clean amateur sport are in hopes that the matter will be straightened out and the teams soon restored to their old basis.

Brookville Sluggers Put One Over on the Ball Tossers from Torryburn last evening to the tune of 14-5. Ewing and Whalen were on the firing line and retiring end for the victors while Gallagher and Goldsmith operated for the losers. Sutherland's three errors at second allowed Brookville a wide margin that Torryburn was unable to overcome. Sammy Shave's performance on the initial sock for Brookville was one of the features.

Royals Trim Athletics.
A large crowd of interested fans watched the game in Fairville last night, when the Royals defeated the Athletics by the score of 16 to 4. The batteries were: For the winners, Cameron and Gills; and for the losers, Thompson and Crossen.

Young Glenwoods Win.
The Young Glenwoods won from the Erin Street Stars by the score of 8 to 3, last evening, in a last six-inning contest. The batteries were: Short and Vogel, McDermott and Goss.

Through Fence to Make Put Out
New Orleans, June 10.—Lewis Cameron is dead. He was a college football player of renown but had his heart set on becoming a civil engineer.

To help him through his studies he became a Southern League—a good pitcher and a clever outfielder as well. Still in the dawn of his baseball career and—so say the managers who had known him—a sure success had kept on, Cameron gave up the diamond and embarked on his chosen profession. He had an uphill climb.

Cameron is best remembered in the south for a feat probably never equalled, probably never to be done again. He was the only man who went clear

"THE WINTERPORT BOY"
Young Gallet, a St. John boy who was one of Slack T. Covey's pupils during the last few winters, is making a name for himself in Nova Scotia, and his manager is confident that he can at

least hold his own with any boxer in Canada at 180 pounds. "If there are any that would like to try a go with him," he said last evening, "let them come along."

Gallet returned last evening from Amherst, where on last Monday he met Alex Mason, of Amherst, and boxed ten rounds to a draw. Mason has the reputation of knocking out Sullivan, the champion of the Halifax garrison, and Tingman, also of Halifax, and although Gallet weighs in at 182, fifteen pounds lighter than his opponent, the local boy was able to hold his own.

The "Winterport Boy" as he is known in Amherst, is matched for a ten round bout with Kid Rogers, of Bangor, in Amherst next Monday for a side-bet of \$200. Charles Hartin, of this city, is doing business for the speedy local scrapper.

through a fence and caught a ball outside a park. That record probably will stand forever. This deed took place at Birmingham before that city had its present concrete park and modern arena. The right field fence was close up and composed of ancient lumber. Cameron, playing right, when he was not pitching, started after a fly ball—an easy chance in an open field, but almost a sure home run in that ball-park. Never stopping never hearing the warning cries of the crowd and players, Cameron smashed at top speed on the right, the ball went through it like a bullet. He took a hole big enough to drive through, and passed it to either side. Unprepared, Cameron stumbled free and caught the ball as he shook loose from the debris of the wall. So much of the fence was down that the catch was clearly visible to the umpire and there was no chance to dispute the put out.

Amherst, N. S., June 10.—A gale of wind bothered the competitors in the trap shooting tournament today. J. McLaughlin, of Halifax, won the McAvity cup, breaking 29 birds.

In the freem's team shoot, the Halifax team composed of Romans, McLaughlin, Edwards, Stewart and Egan won with eighty-five birds out of 125. Copp, Allan, Magee and the two Hickmans of Port Elgin, won second prize.

This afternoon the main event of the tournament the grand Amherst handicap with a prize of \$100 for the winner, and a cup, was shot off. I. C. Moffatt, of North Sydney, won. E. B. Allen, of Port Elgin, was second, winning 81.

Players We Know
The Sydney sporting writers praise Finnermore and Hughes, two New Brunswick boys who are operating in the Cape Breton League. The Sydney Post says: "Finnermore behind the bat is the same old standby, and even a little better than ever. The way he chased the high fouis was a caution. The outfield was covered by Fraser, Ferguson and Hughes, and is well looked after. This latter gentleman is a most deceiving sort of chap. To look at him one would rather think of him as an advertisement, and a good one, for some of those potent fat producing medicines, rather than a ball player. However, he can hit like a fury, and travels the bases like Ty Cobb. In fact, he was quite a surprise. On the whole,

the Senators look like a pretty good aggregation."
Finnermore has with him on the Gloucester Bay team Mulligan, on first; Hughes in centre field; Copeland at short; and Lynch, on the third sack; all these players are known here. Mulligan started the season with the Marathons last year. His score in Monday's game looked like this:

Dervney, who graduated from the Nova Scotia League, did the pitching for New Bedford and had two of their eight hits. Duff and Jack Fryer had one each too. Joe Neptune produced two two baggers for Woonsocket and O'Brien also had two hits. New Bedford has climbed up until the team is now tied for fourth place.

BUYING a stove is not something to be decided off-hand. Cheapness is not the consideration. Quality is. If a stove is extravagant in fuel it should not have a place in your home. The Gurney-Oxford is a truly remarkable stove. The Economiser, fitted to the stovepipe, gives you complete control of the fire always. One turn of the handle dampens the fire down to a spark that consumes practically no coal at night and between meals. The fire is supported on grates that present a large surface to the air. This means perfect combustion and economy. The heat from the fire box goes through a series of divided flues, over and around the oven, and not up the chimney. Lynn after Jimmy Gray's batters had got six hits off Teed in 5 1-3 innings. Lowell scored three runs in the sixth, thus evening up the score; but Lynn in their half got another tally and counted again in the seventh. But the ninth proved fatal for Dedrick for, with Lynn leading by a 5 to 4 score, Kelly poled a ball out to the outfield and it bounded through a gate for a home run and a pass. Two singles and a double gave Lowell two more tallies, enough to win by a 7 to 5 score.

Players We Know
The Sydney sporting writers praise Finnermore and Hughes, two New Brunswick boys who are operating in the Cape Breton League. The Sydney Post says: "Finnermore behind the bat is the same old standby, and even a little better than ever. The way he chased the high fouis was a caution. The outfield was covered by Fraser, Ferguson and Hughes, and is well looked after. This latter gentleman is a most deceiving sort of chap. To look at him one would rather think of him as an advertisement, and a good one, for some of those potent fat producing medicines, rather than a ball player. However, he can hit like a fury, and travels the bases like Ty Cobb. In fact, he was quite a surprise. On the whole,

THE JUNE BRIDES

(Continued from page one.) Gardner-Gillespie. An interesting event took place at the home of Charles M. Gillespie, Penfield, N. B., on Tuesday afternoon at two o'clock when his daughter, Miss Gertrude Louise, was married to Colby H. Gardner of St. John West. The ceremony was performed by Rev. A. S. H. Archer in the presence of immediate relatives and friends. After the ceremony the bride party drove in an automobile to Utopia station and from there came by train to St. John. In the evening about forty guests assembled at the home of Mrs. R. R. Gardner, mother of the bridegroom, and tendered the happy pair a joyous reception. Many gifts were presented to them, including a chest of silver from the local staff of letter carriers of which Mr. Gardner is a popular member. Mr. and Mrs. Gardner will live in Winslow street. Allen Steeves. At the home of Mr. and Mrs. Travis Steeves, Forest Hill, on June 8, their youngest daughter Edna P., was united in marriage to Joseph B. Allen, of Seattle, Washington. The ceremony was performed by the Rev. A. E. Chapman. Mr. and Mrs. Allen left for their future home in Comox, British Columbia. King-Fox. On Tuesday afternoon a wedding took place at the residence of Mrs. Robert Fox, 42 Creighton street, Halifax, her daughter Miss Marie being united in marriage to Clifford E. King, of St. John. The bride wore most becomingly a white gown and carried a beautiful bouquet. Quite a company of young friends were present, and extended heartiest good wishes. McIntosh-Cummings. A very pretty wedding took place last evening at the residence of Wm. Cummings, 159 Pitt street, when his daughter Miss Ida Louise, was united in marriage to William R. McIntosh. The bride was attended by Miss Minnie E. Moore, while the groom was supported by his brother, Albert E. McIntosh. The happy event was witnessed by a large number of friends of the contracting parties. At the conclusion a wedding supper was served. The popularity of Mr. and Mrs. McIntosh was attested by the large number of presents received. They will reside in Lancaster.

CONCERT GREATLY ENJOYED

In the Sunday school room of St. John Baptist church, Broad street, last evening, an interesting lecture was delivered by Rev. Walter Donahue on "The Guilds of the Middle Ages." It proved most instructive and entertaining to a large audience. It was the speaker's first lecture here and proved deeply interesting. Others who took part in the programme were Miss Coleman, Mrs. W. E. Mulhally, Mrs. F. C. Colborne, Mrs. Walter Harris, Miss Stella Pyle, and Messrs. Bowes. The numbers were much admired by all present.
