LIBERAL ACTIVITY MARKED

Campaign in St. John is Progressing With Swing That Means Victory

MEETINGS ARRANGED

Young Liberals Rally Tomorrow Night and a Big Carleton Meeting on Friday Evening—Tory Powder Expanded and Slump Has Set In

St. John is to have a quiet nomination day tomorrow. This, however, does not indicate any relaxation of activity on the part of the Liberal party.

The Conservatives seem to have shot their bolt. Mr. Jordan came, spoke, but did not conquer. Sir William Van Horne was even a greater trump but his palpably weak and age-grimacing denunciation of the reciprocity arrangement showed his hand to be that of the corporation—the trusts and "interests" that would have all Canada for their very own.

The laboring men in particular are "wise" as the boys say, to the deep-laid plans of the opposition party and with the immediate prospect of a greater city with plenty of remunerative work for the men of their lives, he is going to mark his ball. Pugsey and Lowell will have their last fight on Thursday night.

Tomorrow night in the Keith's Assembly suite, Nickel Theatre, the Young Liberals will have their last big rally before the fight. It will be a combination concert, smokefest, and platform meeting.

All the young Liberals in town are invited. Speeches will be made by the Minister of Public Works, James Lowell, M. P., the two candidates—and it is expected Dr. Silas Alward will address the young men as well. There will be speaking from among members of the club. Cigars and tobacco will be furnished and a concert bill provided.

City Friday night in City Hall, West Side, the Liberal party will be addressing the candidates and by Dr. Silas Alward also E. H. McAlpine and others. This is to be the biggest Liberal demonstration Carleton has ever had.

Forecast—Strong northwest winds, fine and cooler; Thursday, northwest winds, fine and cool; light local frosts; Synopsia—centre of disturbance has passed to Newfoundland and barometer is now likely to rise steadily. Light frosts have occurred in Ontario and Quebec. To banks and American ports, strong northwest winds, fine and cooler.

Local Weather Report at Noon. 13th day of September, 1911. Highest temperature during last 24 hrs, 62; lowest temperature during last 24 hrs, 42; temperature at noon, 50; humidity at noon, 57; barometer readings at noon (sea level) and 32 degrees (Fah.), 29.84 inches. Wind at noon: Direction, N.W.; velocity, 28 miles per hour. Same date last year: Highest temperature, 61; lowest, 33. Fair.

WATCH THEM AFTER SEPTEMBER 21st.

The Conservatives insult their fellow citizens by shouting that reciprocity is a question of the Union Jack or the Stars and Stripes. They are simply trying to deceive you. After reciprocity has been adopted they will be falling over each other in their eagerness to share in the benefits of the increased trade and general activity. They have wheeled into line at the crack of the party whip,—but not all of them. Very many members of the party put country before party and will vote for reciprocity.

TWO CANDIDATES ADDRESS A GREAT MEETING

Messrs. Carvell and Michaud in Stirling Addresses to Large Gathering—Get Enthusiastic Reception

(Special to Times) Andover, N. B., Sept. 6.—Frank B. Carvell and Pius Michaud addressed a large political meeting in the court house here last night. The hall was packed to the doors and many were unable to gain admittance. J. E. Porter acted as chairman and after a few introductory remarks introduced Mr. Michaud, who dealt with reciprocity and the other campaign issues in a masterly manner. His speech was interrupted by frequent bursts of applause and when he resumed his seat he was given a great ovation. He declared that Victoria county would double its majority of the last election for the Liberal candidate, and that Madawaska would give the Liberal candidate a majority of more than a thousand votes.

ERUPTION OF VOLCANO MORE DISASTROUS

Enna Belching Forth Lava From Thirty Openings—Great Loss to the Peasants

Catania, Sept. 13.—(Canadian Press)—The eruption of Mount Enna is assuming proportions of a real disaster. A great stream which crosses the railway line circles the volcano, is approaching the rail station to the north and, especially threatening the depots at Moio and Alcantara, which were abandoned today. Squads of laborers were at work today taking up the railroad tracks and removing all transportable material to places of safety, with the idea of minimizing the losses.

MAJORITY CUT DOWN TO LESS THAN 300

Portland, Maine, Sept. 13.—Revised returns on the repeal of prohibition have reduced the majority against repeal to 295. The total vote stood: For repeal, 92,516; against repeal, 92,511.

THE CHINESE NAVY

St. Petersburg, Sept. 13.—A Peking dispatch says that the ministry of marine has drawn up its programme, which will give China at the end of seven years a fleet of eight battleships, twenty cruisers, ten smaller vessels, and fifty torpedo boats, and destroyers. It also provides for four naval arsenals.

FOUR WERE KILLED

Seranton, Pa., Sept. 13.—By the breaking of a wire cable, four loaded cars ran away in the slope at the Marvin colliery here and killed four men besides injuring a fifth, who will probably die.

Re-open St. Joseph's

Barstow, Ky., Sept. 13.—Historic St. Joseph's College, once a place of refuge for the exiled king, Louis Philippe of France, was re-opened here last night with impressive ceremonies in which Most Rev. Domede Palomina, apostolic delegate, participated. Numerous other Catholic clergy as well as notable laymen also had parts in the exercises.

ECHOES OF THE GREAT CAMPAIGN

WILL BENEFIT WORKING MEN. (Sir Wilfrid Laurier.) "Show me a country which has a prosperous farming community and I will show you a successful and prosperous country. This is primarily an agreement for the benefit of the farmers, but I present it to you also as one which will benefit the working classes by increasing the demand of the farmers for manufactured products and thus increase the prosperity of the artisans."

LONGSHOREMEN LIBERALS

A general canvass of the members of the Syndicated Longshoremen of Montreal employed on the wharves embraced the information that with the exception of a small party, the organization on September 21 would to a man vote for Sir Wilfrid Laurier and the Liberal cause.

"OH, YE OF LITTLE FAITH."

(Sir Wilfrid Laurier.) "In 1904 when we appealed to you to support a policy of constructing a second transcontinental railway you were told that it would ruin the C. P. R., and that there was no need for it. Do you hear anything like that nowadays? Not a bit. Even our opponents admit that the second railway is necessary and at the last session we took steps to assist the construction of a third transcontinental railway, which will pass right through your town. (Cheers.)"

"PARTING OF THE WAYS."

(Ottawa Free Press.) A speech by President Tait that Canada was now "at the parting of the ways" has been deliberately misinterpreted and an indication that he favored annexation. The balance of that speech showed clearly that President Tait had nothing of the kind in mind. There was nothing surprising or offensive in Mr. Tait's argument that if the United States wanted to get some of our goods, they should get them from the growing Canadian side. It had better seize the present opportunity. In the same way, Mr. Tait well said the United States is at the parting of the ways. They are ready to open their markets to the Canadian farmer—if Canada refuses the offer, it may never be made again.

PRECEPT AND PRACTICE

At a meeting in Ottawa Gordon Henderson called attention to the fact that the United States wanted to get some of our goods, they should get them from the growing Canadian side. It had better seize the present opportunity. In the same way, Mr. Tait well said the United States is at the parting of the ways. They are ready to open their markets to the Canadian farmer—if Canada refuses the offer, it may never be made again.

THE MILLIONAIRES.

(Hon. Chas. Murphy.) "This is the fight of the common people against the millionaires, and we appeal to you as members of the common people to assist us in our fight for freedom and relief from the manipulation of these millionaires. Will you give us that support?"

BORDEN-BOURASSA ALLIANCE

A. F. Blean, the opposition candidate in Provencher, Man., who is a Borden man in the English sections of the constituency.

BORDEN'S POLICY WILL NOT DO

"The policy of let-well-enough-alone, might be good enough for the Indians, but it is not the creed of the Anglo-Saxon. If there is one race on earth that is not content to let well enough alone, it is the Anglo-Saxon, whether it be in the British Isles, in the United States, or in Canada. The men who to-day urge that principle are a freak of nature; they are not true to the Anglo-Saxon race and blood."—Sir Wilfrid Laurier.

THE PREDICTION OF MR. DONALD FRASER

Mr. Donald Fraser is one of the British born, to whom insidious appeals are being made in this campaign. He is also a very extensive manufacturer of lumber, with mills at three different places. He is familiar with conditions, and declares his belief that reciprocity will lead to a very rapid increase in the population of the Maritime Provinces.

Do we want that increase of population and the prosperity that goes with it? Or shall we "let well enough alone" and be content with a stationary or declining census? Vote for Pugsey, Lowell and reciprocity. Let the Maritime Provinces have their turn.

INCREASES FOR MEN OF THE I. C. R.

Chief Accountant of Railways and Canals Department, in St. John Today, Says it Totals \$30,800

G. A. Bell, chief accountant of the department of railways and canals, Ottawa, who has been investigating the conditions of I. C. R. clerks and employees, went east at noon today. He has been about six weeks assigned in this work. Mr. Bell says that he has drawn up a classification assigning definite salary to each position, with the exception of chief clerks who are on a minimum and maximum basis. His work was completed on Friday last and his report was submitted to the department.

ENGLAND IS GUARDING AGAINST CHOLERA

London, Sept. 13.—The prevalence of cholera in certain continental countries has caused increased attention to be taken by the British port authorities. Extraordinary vigilance is being exercised regarding the possible arrival of passengers from any infected area. In many towns and villages, of England, as a result of the prolonged drought, there is no water and supplies are being taken round in carts.

ARCHBISHOP OF ARMAGH IS DEAD

Dublin, Sept. 13.—(Canadian Press)—Most Rev. William Alexander, D. D., D. C. L., Dean, LL. D., Archbishop of Armagh and primate of all Ireland (Church of Ireland), since 1886, is dead. He was born in 1824. He was the author of several works on the Scriptures and of sermons, such as "What Think Ye of Christ?" He was also the author of a sacred prize poem in 1864 and an installation ode and theological essays.

BORDEN'S POLICY WILL NOT DO

"The policy of let-well-enough-alone, might be good enough for the Indians, but it is not the creed of the Anglo-Saxon. If there is one race on earth that is not content to let well enough alone, it is the Anglo-Saxon, whether it be in the British Isles, in the United States, or in Canada. The men who to-day urge that principle are a freak of nature; they are not true to the Anglo-Saxon race and blood."—Sir Wilfrid Laurier.

INSPIRING MESSAGE

The Exalted Patriot wiped his feet four times on the stars and stripes before ascending the throne at Patriots' Hall last evening. Then he read the cablegrams received from Pretoria, Calcutta, New Zealand and Australia by the Montreal Star, expressing the hope that Canada would preserve her fiscal autonomy.

THE TIMES' NEW REPORTER

"We want no way to defend the British Empire—away with the wall tax."—Bourassa. "We have had to shoot holes through the British flag."—Blondin. "That's fine," said a back-bencher, "but ought to save the Empire some. Has the Montreal Star said anything this time about Foster and Fowler? It gave them a whooping certificate of character in 1908." "I appreciate your zeal," said the Exalted Patriot, "but at your discretion." (Loud cheers and cries of "Down with Pugsley.")

C.P.R. HAS MUCH TO DO HERE

Mr. McNicoll, in Town Today, Speaks of Plans For St. John

WEST END YARDS

HOPES TO HAVE WORK BEGUN THIS FALL—CAR FERRY TO DIGBY WILL COME—POSSIBLY BIGGER STEAMER TO REPLACE THE PRINCE RUPERT

That the Canadian Pacific Railway has no fears for St. John under reciprocity is evident by a statement given out by David McNicoll, vice-president and general manager of the company who arrived here last night. He said there are in view plans of an extensive nature involving a large expenditure at this port. In spite of the fact that they have purchased property for extension of yard room, more is required and an up-to-date car ferry between St. John and Digby seems assured.

ENGLAND GO INTO STRIKE CAMPAIGN

Object to Caning and Want Extra Half Holiday—The Birch Follows Collapse in Many Places

London, Sept. 13.—(Canadian Press)—Young England appears to be in a state of unrest, following the example set in the recent strikes by the laboring classes. There have been strikes of school boys in London, Liverpool, Manchester, Hull, Sheffield, Grimsby, Llanelli, Bradford, and even in Scotland, in Leith.

WAS BIG CONTRACTOR AND ALSO INVENTOR

Boston, Sept. 13.—(Canadian Press)—John Southern died at his home in Newton last night, aged ninety-seven years. During the Civil War the machinery and work of sixteen war vessels were turned out by Southern. The excavating machinery for the Suez and French Panama canals constituted another of his contracts, and for twenty-five years all the sugar making machinery used in Cuba was turned out in his plant. He was the father of automatic sprayers and also invented machinery for making ice.

AUTO DRIVER SENT UP FOR TRIAL

Toronto, Sept. 13.—(Canadian Press)—Charged with criminal negligence, Alex. S. Tracy, Port Huron, Mich., who drove his motor car into a crowd of people at Boulevard avenue and Quebec street, on Labor Day, injuring nine men, was committed for trial.

Here's Argument That Cannot be Answered

Two good instances of what a good steady market would do is shown in the case of Mr. John McElwain of Temperance Vale and Thomas Prescott of Queensbury, York County. About ten years ago these men with their families went to Carleton, Maine, being induced to do so by reports of the big market awaiting them on that side of the line. McElwain and Prescott, after selling out had about \$2,000 each in cash. They bought farms and went into potatoes, hay and grain-growing. Their present financial standing:

McElwain owns a property valued at \$30,000 and refused \$25,000 for it last year. He has an \$800 Steinway piano, an automobile which cost \$1,700. The finest buildings in Aroostook County are his. Mr. Prescott, who went there two years later than Mr. McElwain bought a farm closer to Carleton two years ago paying \$14,600 for it. He has a piano which cost \$400, five horses worth over \$800 each, binder and an up-to-date outfit of machinery. It is said that Aroostook farms are covered with mortgages. The Mail is authorized to do so by reports of the big market awaiting them on that side of the line. McElwain this year has 63 acres of potatoes. Mr. Prescott 40 acres.

Neither are selling at the present price \$2.00 per bu., as they expect to get \$2.50 for them, the New York and Michigan crop being short.—(Fredericton Mail)

ONLY QUESTION OF WHAT MAJORITY LOGGIE WILL HAVE

W. B. Snowball, James Robinson and J. K. Loggie, of Miramichi, arrived in the city this morning and are at the Royal.

Speaking of the political outlook in Northumberland county, the ex-mayor of Chatham, Mr. Snowball, said that there was no question whatever about Mr. Loggie's election—even the most optimistic Conservative could look forward only to this.

Reciprocity was an issue which was to be strongly supported throughout the county, said Mr. Snowball. "I have been around a great deal, and I know," he added, "and it is only a question now of what Mr. Loggie's majority will be."

The movement in Northumberland which would be affected by the agreement are largely the lumbering companies and the fish concerns, which of course means a large number of people employed.

The party from the North Shore will retain tonight. Mrs. Loggie is a son of Henry Clay Beattie Jr., condemned to die for the murder of his wife.

THE TORIES ARE BEATEN

The whole aspect of the political campaign has changed within the last two weeks. When the Conservatives set out to make this a "flag election" they seem to have really believed that they could turn the minds of the people away from the real issue and win by frenzied appeals to national prejudice.

THE DO NOTHING POLICY

Let us take the statement, "let well enough alone," and consider it in relation to the city of St. John. Suppose St. John had been content with a channel entering the harbor so shallow that steamers could only go in and out at certain times of tide, and thus delay their movements.

will be his production and the greater his prosperity. The motto "let well enough alone" will never appeal to a young and vigorous nation like Canada.

KEEP TO THE FACTS

The electors of St. John and the province of New Brunswick will not permit themselves to be deceived by statements which are being made by the Conservatives with regard to the effect of the trade agreement with the United States.

WHY BORDEN'S FRIEND IS AGAINST SIR WILFRID

STIRRING RALLY IN BROOKVILLE

Mr. Bentley and Dr. Lunney Address Electors at Fine Meeting in Interests of Mr. Lowell

In line with all the other sections of the county, Brookville turned out strong for the meeting held in the school house last evening, and by their attendance and enthusiasm showed that they were strongly in favor of reciprocity and in the election of James Lowell. The meeting easily surpassed anything of its kind held in that district in years. A. F. Bentley, M. P., and Dr. T. H. Lunney were the speakers and as they discussed the great issue, confining their remarks chiefly to reciprocity as it will affect the farmers, they were cheered. A feature of the meeting was the able manner in which Mr. Bentley handled two visitors from the city who persisted in interrupting him in the course of the speech.

So effectively did he answer the many questions put to him by his interested listeners, in fact, that amid the cheers of the large audience they were forced to leave the hall much enlightened but somewhat weary.

The meeting was presided over by Coun. J. M. Donovan, who introduced Dr. Lunney as the first speaker. Dr. Lunney went into the history of the whole agreement. A. F. Bentley, the able representative for the county in the local legislature, was the other speaker. In a clear cut and concise manner he showed how reciprocity would result in a great boom for the farmers as well as the consumers. He was in the form as he appeared to the audience to continue giving their support to his former colleague, Mr. Lowell, he was cheered to the echo.

The meeting, which was in every way a big success, was brought to a close with cheers for the king, the candidates and Sir Wilfrid Laurier.

After the meeting the speakers were entertained at the home of William Ryan, Brookville.

CAMPAIGN NEWS OF NEW BRUNSWICK

A Conservative meeting in King's Hall, St. John, was held last night, presided over by H. A. Powell, L. P. D. Tilley and W. F. Hatheway. The latter devoted considerable time to the water-power franchise and made an attack on the man who attempted to get possession of the St. John river by means of concessions at Grand Falls. The meeting was characterized by lack of enthusiasm.

Rev. Mr. Brown, a Baptist clergyman of Beaver Harbour, and a life-long Conservative, has declared himself in favor of reciprocity and delivered a speech in the interests of W. F. Todd at Beaver Harbour Monday night.

Dr. McAlister and J. D. Hawke addressed a large and enthusiastic gathering of Kings County electors in Hampton last night, while Frank Freeze and George R. McLeod addressed one at Case Settlement in the interest of the Liberal candidate. At both meetings reciprocity was dealt with very fully.

Foresters' Hall, Chipman, was crowded last night. Hundreds, including many prominent Conservatives, listened to the great issue of reciprocity, discussed by Fred Peters and E. H. McAlister. Enthusiasm reached a high pitch and angers well for Col. McLean and the Liberal cause on the 21st. Dr. Armstrong presided. Declarations made by many Conservatives at the meeting point to a fine majority for Col. McLean.

There was a rousing meeting Monday night at Waterford when Dr. McAlister and A. E. Pearson were the speakers. The hall was crowded to the doors and many stood outside. J. Harry DeForest presided and Dr. McAlister was greeted with great enthusiasm. Among the speakers he had been able to do for Kings-Albert, Dr. McAlister referred to the taking over of the Salisbury Railway, and said that the Conservatives were doing all they could to prevent the signing of the contract.

Woodstock, N. B., Sept. 12.—(Special)—Arrangements have been made by the Liberal Association of Carleton county to hold a joint debate in the armory after the nomination proceedings in the court house on Thursday, the 15th. Up to the present time the Conservatives have given no definite answer as to whether or not their candidate will participate in the debate. In case he does each candidate will be given equal time to discuss the issues of the campaign.

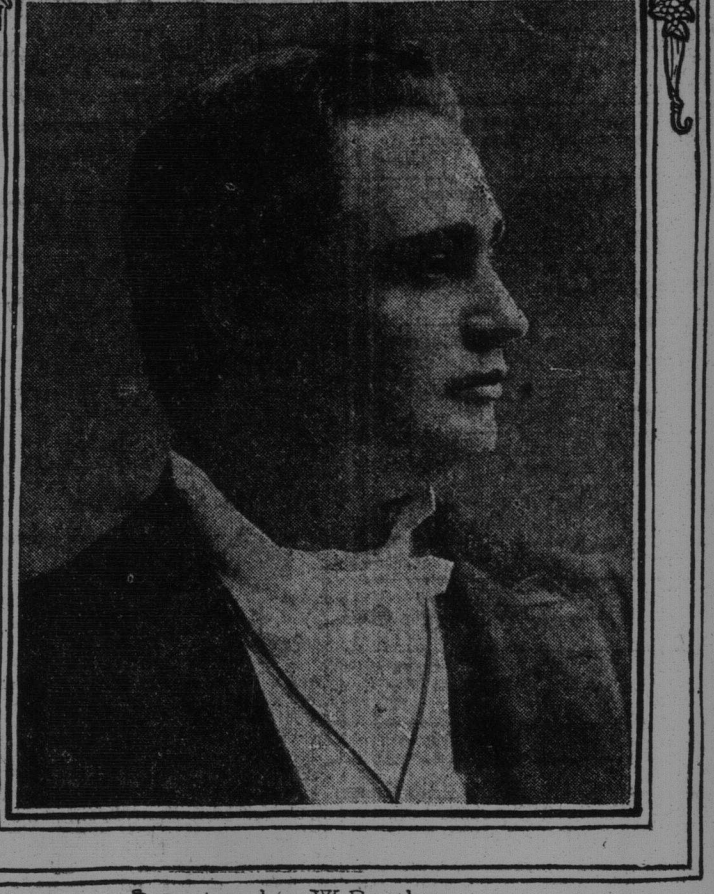

For the convenience of these Kings county electors in Kingston and Greenwich who wish to attend King's-Albert nomination day proceedings at Sussex on Thursday, Sept. 14, the S.S. Premier will leave Reed's Point, on the Kennebecasis, at 10 a. m. Returning in the evening, will leave Boobyay after the arrival of the Ocean Limited at 6.14 p. m.

MORNING LOGALS

The members of the local Y. M. C. A. announced last night that they are very grateful to the Liberal party in the city. The labor has been busy with the nomination meetings so as not to conflict with the lecture of W. J. Bryan next Tuesday evening.

Havelock Coy, barrister, of Fredericton, was in the city yesterday to hand over to David Jardine the title deed of the property of the Alexander Gibson Manufacturing Co., which was sold to Farnworth & Jardine several weeks ago. The purchase price was \$1,000,000. Mr. Coy returned to Fredericton last night.

BAILEY WOULDN'T SERVE ANOTHER TERM FOR A MILLION.

Senator Joseph W. Bailey, of Texas, has resigned from the Senate and in a statement made recently he declared—"I would not serve another term as Senator if the salary was made \$1,000,000 a year."

His term expires March 4, 1913; he is rated in the millionaire class and is building a \$40,000 residence in Washington. The Senator from Texas has been at variance with his party associates for some time; his advice and leadership were rejected; he has been forced to stand alone, virtually. Senator Bailey expects to practise law in New York city when his term expires; he will associate himself with a leading law firm there, it is reported.

"ALL BOSH," SAYS TAFT

In view of the frequent assertions of the anti-reciprocity press that President Taft is trying to trap Canada into annexation, the following extract from the President's speech before the American Newspaper Publishers' Association in New York on April 27 is of interest:

"As between Canada and the United States the trade and the mutual benefit from the trade agreement will increase. It is amusing, and I am not sure that it has not some elements of consolation in it, to find that all the buncombe and all the exaggerated talk and misrepresentation in politics and all the political ghosts are not confined to our own country, and that there has entered into the discussion in Canada, as a reason for defeating the adoption of this contract by the Canadian Parliament, a fear that we desire to annex the Dominion; and the dreams of Americans with irresponsible imaginations, who like to talk of the starry flag floating from Panama to the Pole, are exhibited by the opponents of the Canadian treaty in Canada as the declaration of a real policy by this country, and as an announcement of our purpose to push control over our neighbor of the north. I am not an anti-imperialist, but I have had considerable experience in the countries over which we have assumed temporary control. I do not know when that control will end, but I do know, that in respect to those countries we have taken over heavy duties and obligations, the weight of which ought to destroy any temptation to further the acquisition of territory. The talk of annexation is bosh. Everyone knowing anything about it realizes that it is bosh."

STATES WANT CONTROL OF THEIR WATER POWER

National Government Rights West of the Mississippi Are to Be Contested

Spokane, Wash., Sept. 13.—Manufacturers' organizations, commercial clubs, chambers of commerce and the residents of the western states will be invited by the Spokane Mining Men's Club to join in a movement to determine what rights the federal government has in the water powers of the commonwealth west of the Mississippi river. It is planned to carry the question to the highest court, if necessary, in an effort to gain for the states control of the water powers within their boundaries.

L. K. Armstrong, secretary of the club, who presented the plan at the last meeting of the organization, announces that the campaign will be launched in a short time with a view to bringing the matter to the attention of the country.

"We believe that in trying to maintain control of the water powers of the western commonwealths, the government is violating a specific provision of the constitution of the United States," he said. "Before the constitution was signed the various states zealously guarded their own right to control all waters and water powers, which were not distinctly outside of the domain of any one state, and this right, we think, the states still have."

"The water powers are an inexhaustible source of wealth to the states and communities in which they are found and should be developed for the benefits of those districts. The oil which is used largely by the railroads in the western country is a decidedly exhaustible natural resource and so also will the coal supply one day run out; but water power will last forever, and if properly developed it will supply electrical energy to operate the railroads, mills, factories and mines of the entire west."

MORNING NEWS OVER THE WIRES

At a meeting of the French cabinet yesterday afternoon it was understood that it was finally decided that France will not grant Germany's demands and will stand for commercial equality for all and a free hand politically in Morocco.

During a terrific electrical storm at Hope-well Hill, the barn of Otter Tunley was struck by lightning and with fifteen tons of hay was burned. Another barn was struck also and badly damaged. A building on the premises of C. L. Cook at Hope-well was damaged.

CITY HEALTH MATTERS

At the monthly meeting of the board of health yesterday afternoon, Thomas Gowan presided, all the members except Dr. Daniel were present. Dr. G. G. Malvin submitted a draft of by-laws in connection with the conditions at the local slaughter houses. It was decided to send typewritten copies of the report to the members of the board and also to the members of the committee appointed by the common council to deal with the question. A special meeting will be held on Sept. 29 to deal further with the matter.

It was decided to proceed against four milkmen who had not taken out licenses. A communication from the St. John Society for the Prevention of Tuberculosis, offered the services of their nurse, Miss Smith, who was appointed to succeed Miss Rogers. The offer was accepted.

CONSERVATIVES FOR RECIPROCITY

No less than five opposition candidates in Quebec have all openly declared themselves in favor of the reciprocity agreement. They are Mr. Mondou, the opposition candidate in Yamaska to succeed ex-Judge Oulmet, who after accepting the honor retired from the field; Mr. Barrette, who is opposing Mr. Eremont in Berthier county; Mr. Guilbault, the opposition standard bearer in Joliette. Mr. Tancrede Marsil, the disciple of "le malfre" in Bagot; and Mr. G. Monette in La-prairie-Napierville.

It is a significant fact that these gentlemen are all running in constituencies that stand to benefit most by the agreement and where the farmer is so evidently determined "to have his turn," that it has not been thought wise to thwart him.

GREAT ENTHUSIASM IN THE WARDS; VISITS BY CANDIDATE

Mr. Lowell and Others Make Tour of West and North End Rooms and Get a Reception Which Means Rousing Victory

Smashing majorities for Pugsley and Lowell from the North End and the West Side wards were predicted at rousing rallies visited last evening by Mr. Lowell, F. G. Knowlton, chairman of the Liberal executive, and W. G. Pugsley, son of the Minister of Public Works. When the C. P. R. threw its weight into the election of 1909 to defeat Hon. G. Blair, the West Side gave Mr. Foster a small majority, although the British Empire in opposing a resolution in the local legislature for increasing the British preference to fifty per cent. He said that the opinion of the legislature, first of all, would have no weight with the Dominion government, which is a very foolish statement, and also that if he had voted for the resolution it would have been equal to a vote of want of confidence in his party. Here you have, then, a man who puts his party before the bonds of empire, yet he asks the voters of St. John county not to vote for the disloyal anti-nationalists.

Mr. Lowell then referred to his support of the resolution insisting on St. John being made the terminus of the Valley railway and his resolution favoring the reduction of the poll tax in the city. "On this question," said Mr. Lowell, "Frank Hatheway was forced to play second fiddle to myself. He was obliged to hold his party and support the resolution to live up to his pretensions as a friend of the workingman. Now he says that because it was obliged to make my own living and have always done so, that I am not a fit person to represent the constituency. I am not ashamed of the fact that I have made my own way in the world. Mr. Lowell's reference to the part taken by Sir William Van Horne called for shouts of "He's no good" from the audience.

"Mr. Van Horne," said Mr. Lowell, "has made millions out of the hard working people of this country, and you can be sure that when he and Mr. Sifton come out in opposition to reciprocity they are looking out for their own pockets." (Applause.) Speaking of the prospects for victory, Mr. Lowell promised a record majority in the parishes. "I have lived my life among the people there and I can assure you that if we cross the borders into the city with the largest majority ever given a federal candidate. (Cheers.) They will have to beat me a good deal worse than they did Mr. Foster in the city or I will be your next member. (Cheers.)

The True Situation. W. G. Pugsley made a brief but very vigorous address, thanking the workers in the name of the minister for the earnest work they had accomplished. He predicted that the government majority would be fully as large as it was before dissolution. Speaking of Quebec, he said: "If the Conservatives are in reality a loyal party they would have a three-cornered fight in every county in Quebec against the Nationalists, who are traitors of the deepest dye, rather than allied themselves with Bourassa."

Mr. Knowlton spoke very briefly, telling his hearers that the reports from every ward were most encouraging. The meeting closed with cheers. A vigorous campaign will be carried on in the county during the remainder of the week. Tonight at Silver Falls a meeting will be held at which Mr. Lowell, Dr. T. H. Lannan, F. V. Haman, James E. Quinn and B. Jordan will speak. The latter three are residents in the vicinity who will speak of the benefits of reciprocity from a farmer's standpoint. On Saturday evening, rallies will be held in the Dipper Harbor school house, to be addressed by Mr. Lowell and Dr. Curran, and at Lorneville by Mr. Lowell, Dr. Silas Alward and Dr. W. B. Wallace. The meetings in the city include the speaker in Keith's assembly rooms tomorrow evening and the grand rally for the West Side wards in Carleton City Hall Friday night.

Why Should I Use Cuticura Soap?

"There is nothing the matter with my skin, and I thought Cuticura Soap was only for skin troubles." True, it is for skin troubles, but its great mission is to prevent skin troubles. For more than a generation its delicate emollient and prophylactic properties have made it the standard for this purpose, while its extreme purity and refreshing fragrance give to all the advantages of the best of toilet soaps. It is also invaluable in keeping the hands soft and white, the hair lustrous and glossy, and the scalp free from dandruff and irritation. While its first cost is a few cents more than that of ordinary toilet soaps, it is prepared with such care and of such materials, that it wears to a wafer, often outlasting several cakes of other soap, and making its use, in practice, most economical. Cuticura Soap is sold by druggists and dealers everywhere, but the truth of these claims may be demonstrated without cost by sending to "Cuticura," Dept. 734, Boston, U. S. A., for a liberal sample cake, together with a thirty-two page book on the skin and hair.

SIR WILFRID MAKES DIGNIFIED APPEAL TO QUEBEC ELECTORS

Asks for Support on no Racial Grounds --It is a Fight for the People and he Has no Doubt of Victory for Government on Sept. 21

Toronto, Sept. 12.—"I only ask from you the same rights of justice and liberty and equality which you ask for yourselves. I have seen before on that basis and I am going to win again." With this clarion cry, Sir Wilfrid Laurier closed his address at Victoriaville, Quebec, today before an audience of 7,000 people. "This," said Sir Wilfrid, "is a fight on behalf of the common people for wider markets and cheaper food. We represent the cause of the workers against the trusts, that of the farmers against the manufacturers. The voice of the people will be heard on Sept. 21, and I have no doubt of the result either in this county or in the province of Quebec or in the Dominion of Canada."

NOT SALTS, OIL OR PILLS BUT CASARETS

No Odds How Sick Your Stomach; How Hard Your Head Aches or How Bilious Your Casarets Make You Feel Great. You men and women who somehow can't get feeling right—who have an almost daily headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out. Are you keeping clean inside with Casarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important. Casarets work while you sleep; cleanse and regulate the stomach, remove the sour undigested and fermenting food and food gases; take the excess bile from the liver and carry out of the system all the decomposed waste matter and poison in the intestines and bowels. A Casaret tonight will straighten you up by morning—a 10-cent box from any drug store will keep your entire family feeling good for months. Don't forget the children. They love Casarets because they taste good—never gripes or sickness.

WHY NOT?

Mr. Borden says the time is past for Reciprocity. Why? If Reciprocity of four millions of people with sixty millions was good policy twenty years ago, why is not reciprocity of eight millions with ighty millions good policy today?

HON. MR. PUGSLEY IN FREDERICTON

Opera House Crowded at Liberal Rally—Important River Matters Presented by Minister

Fredricton, N. B., Sept. 12.—The biggest political meeting of the present campaign in York was held tonight in the Opera House. The speakers were Hon. Wm. Pugsley, minister of public works, Dr. A. B. Atherton, the reciprocity candidate in York, and Rev. J. J. McCaskill, of St. John.

Dr. Atherton Dr. Atherton was received with a great outburst of cheering when he arose. He prefaced his remarks by stating that he never had been a strong party man and in the past had never attended party conventions. However, when reciprocity was made the issue he felt it his duty to accept the nomination so heartily tendered him by the convention held in Fredericton. (Applause.)

Hon. Mr. Pugsley Hon. Wm. Pugsley opened his remarks with reference to the public works in New Brunswick in which the people of Fredericton are interested. Quoting from a Conservative paper, the minister stated he had been accused of attempting to bribe the electors of Fredericton with the promise of a new public wharf. In order that the audience might not have the impression that the wharf was to be undertaken merely because an election was on the minister stated that fifteen months ago his department had been prepared to proceed with this important work as soon as the city of Fredericton would arrange to transfer the site to the Dominion government, and until within a short time his department had heard nothing further from the city officials. The delay in the matter had not been due to the public works department.

Discussing also the important matter of river dredging, the minister said that he had great pleasure in announcing that he had made a contract with James Fleming Ltd., St. John, for the construction of a modern suction dredge which would be used to improve the river channel between St. John and Fredericton.

Further, he stated that his department intended to blow up two rocks which at present impede navigation at St. John Suspension bridge. Surveyors there have already been made. The removal of the rocks will give a depth of twenty-two feet.

Mr. Pugsley addressed a masterly effort delivered in his well known fluent manner. He dealt fully with the issues of the campaign and in addition to discussing reciprocity from the fiscal standpoint, replied to the disloyalty and annexation cries of opponents, pointing out that up to 1891 both parties had repeatedly declared for reciprocity. Sir John A. Macdonald had never been accused of being an annexationist because he wanted reciprocity.

Mr. Pugsley also talked of the navy and the Borden-Bourassa pact. In Quebec, the French Nationalists, he said, had allied themselves with the anti-reciprocity party solely for the purpose of beating Laurier, and they desired to beat Laurier because Canada had laid the foundation of a navy which in time of imperial stress would be at the service of the whole empire.

RECIPROCITY STEP IN PEACE DIRECTION

Ottawa Clergyman Declares It In Line With Hopes of the Late King Edward

Ottawa, Sept. 12.—Rev. G. Watt Smith, who occupies the pulpit of the First Congregational church here, nothing who has spoken several times in favor of reciprocity, stated at a Liberal meeting in St. George's Hall that he had been threatened with physical violence if he continued to take an active part in politics. However, he said he had come from England more than a year and a half ago, and he believed that he was qualified and he proposed to continue to speak for reciprocity. He denounced the doctrine of "let well enough alone," and compared it to the same cry of Lord Haldor against old age pensions and Lord Lansdowne against reduction of liquor licenses.

He told of mixing among the farmer's delegation which came here last winter. He compared the obstruction of reciprocity with conditions leading to the rebellion of '37. The reciprocity agreement he said, was a step in the direction of peace, which all men desired. King Edward and James Byce were peace-makers, and the reciprocity agreement with which the later had much to do implied the doctrine of friendly commercial relationships with our neighbors. The annexation cry was unworthy of serious notice.

TRIFLING THEFT LED TO DEATH IN ASYLUM AS RAVING MANIAC

Shot at, Fear-Tortured, Cogliati Went From One Stage to Another Until Death Ended His Fearful Sufferings

Milan, Sept. 13.—Strange indeed are the links which make up the fatal chain of circumstances in the story of Giuseppe Cogliati who died recently, a raving maniac in the lunatic asylum of Mombelli. Probably the most penetrating psychologist would find it impossible, unless he were provided with the guiding thread, to establish a causal link between an inordinate taste for asparagus and death in a padded cell; but it was undoubtedly Cogliati's penchant for the succulent vegetable which in the first place induced him to steal a few heads from a neighbor's plantation, and his anxiety to conceal this comparatively trifling misdemeanor caused him to endure the untold suffering which eventually upset his mental equilibrium and drove reason from her throne in his fear-tortured brain.

The theft, which was the first act in this pathetic tragedy, was committed two years ago. Cogliati, an inhabitant of Montegrino, was enjoying a stroll in the country when he perceived a fine bed of asparagus belonging to one of his fellow citizens. His mouth began to water and which he proposed making an enjoyable feast. Suddenly a gun was fired, and the gluttonous thief was struck in the right shoulder by a number of pellets from a sporting cartridge. With a cry of terror he took to his heels, but had barely gone half a dozen steps before another discharge took him full in the back, and he stumbled to the ground.

Struggling to his feet again he perceived the owner of the asparagus bed preparing to reload his gun. The wretched man made a supreme effort to escape and managed to reach the house of a friend whom he swore to secrecy. He was unwilling to denounce the person who had wounded him as he did not want his attempted robbery to become known. For the same reason he would not consult a doctor, who would have been obliged to make a report of the matter to the local authorities. So, after his friend had done his best for him, he accompanied Cogliati to his home and left him in the care of his wife.

Cogliati bore his sufferings in silence for four or five months. His condition grew worse and worse, and at last he was taken to a hospital in Milan. Still he would say nothing about the cause of his serious condition.

His sufferings and the separation from his family, added to the constant fear of the proprietor of the asparagus, whom he supposed to be lying in wait ready to shoot at him again, finally turned his brain and at last he was sent to a lunatic asylum, when his condition degenerated from melancholia into homicidal mania, until at last death put a merciful end to his sufferings.

This occurred last month. Until a few days ago his widow jealously guarded the secret of her unfortunate husband. Then all the facts, the authorities and told them some; the matter is now the subject of a judicial inquiry.

Give the farmers, the lumbermen and fishermen their turn. Their prosperity means prosperity for the province.

PARIS POLICE CATCH SWINDLER OF WOMEN

His Specialty Was Offer of Marriage if He Saw Chance of Getting Money

Paris, Sept. 13.—The Paris police have made a smart capture of a Russian named Schilman, alias Lacour, whose specialty has been the swindling of gullible women possessed of a little money.

Lacour inserted an advertisement in a newspaper stating that he was a widower desirous of remarrying and, for this purpose, of meeting a young girl or widow with a fortune of from \$2,000 to \$3,000. It attracted the attention of a middle-aged servant, who, after many years of hard work, had saved \$3,000. An appointment was made for Strasburg with Lacour and his daughter. The Paris woman was captivated by the widower's manners, and agreed to become his wife. She made the mistake, however, of entrusting him with \$2,000 after which he disappeared.

The Paris police, at a cunning trap, inserted an advertisement in a morning newspaper to the effect that a good-looking widow with a small fortune was anxious to meet a middle-aged widower with a view to matrimony. The bait took Lacour changed his name but not his handwriting, an appointment was made between him and the "victim," and the detective took him easily.

Lacour has a string of false names, and has been several times convicted of frauds of this kind. A woman who is suspected of being his accomplice has also been arrested.

Younger Than He Looks

This man looks older than he is. Few women on earth absolutely abhor such a condition. You may be thirty in years, but if you are bald-headed or grey, single and have a few wrinkles on your forehead, you are old in the eyes of the women. Parisian Sage is the only hair restorer that will give you the appearance of youth. It is the only hair restorer that will give you the appearance of youth. It is the only hair restorer that will give you the appearance of youth.

NO DOUBT ABOUT THIS

"Even if England did decide to give us a preference and take her people's food, what would she ask in return? A preference upon her manufactures. Then indeed would you see the Tories and the manufacturers hold up their hands in holy horror."

EMIGRANTS FIND THE CONDITIONS IN AUSTRALIA NOT GOOD

Letters Home to London Tell of Poverty and Hard Living Conditions—Better off at Home, They Declare

London, Sept. 13.—Whatever the truth about the advantages and disadvantages of Australia for the British emigrant, there is no gainsaying that there are thousands of working people who have left this country only to find that the conditions of employment are much worse for them there than at home. Perhaps these failures, if they may be called so, were unvisited for their new environment but the probability seems rather to be that they were lured across the sea by the over-colored reports of emigration agents to find that Australia is no Eldorado, and that whatever be its drawbacks, Great Britain is at least as comfortable a place for the working man as the great continent of the Antipodes. From time to time newspapers opened their columns to the correspondence of those who have had practical experience of Australian life. Most of these opinions have been unfavorable but both sides of the question have been laid bare. By the latest Australian mail a great batch of letters of the subject have come to hand. Twenty of them vehemently declaim against the conditions of life one is concluded in terms of moderate commendation. The contrast in the numbers on the alternative positions is in itself suggestive. The first letter comes from J. Betchell, Broken Hill, N. S. W. His chief complaint is that it is practically impossible to obtain steady employment. There is plenty of seasonal employment with good wages but between jobs all the surplus is used up in traveling expenses and food. He continues: "People are talking about the scarcity of labor. In this town there are 700 unemployed on the books of the Mines' Society, and yet the mine owners say they are short of men. All they want is to get a surplus of men to pick and choose from. They tempt men here by offering \$2.37 a day for laboring, but they do not say anything about the cost of living here. House

rent is \$2.02; eggs 62 cents a dozen and water eighteen cents per 100 gallons."

Another Englishman, J. R. Williams, is so tired of the conditions that he is coming home. Degradation and poverty are the keynote of his observations in Australia.

Of Sydney he writes:—"During my stay of two years in Sydney I have seen more poverty than I saw in London in thirty years. Sydney is the most sinful city in the world. In no other city will one see so many young girls parading the streets at night as can be seen in Melbourne and Sydney. The one and only thought of the Australian is pleasure. High wages are no good when everything is so very expensive with the exception of meat. I have heard women say they were better off with \$7.50 a week at home than they are now with \$14.50."

The best way to build up the Empire is to build up Canada. Larger free markets for Canadian products will bring that result.

BILL TO ABOLISH BULL FIGHTING IN PORTUGAL

Lisbon, Sept. 13.—Considerable surprise has been caused here by the announcement that a bill as to be presented in parliament for the abolition of bull-fighting. The measure will in all probability meet with keen opposition.

It is not generally known that Portuguese bull-fights are much less cruel than those practised in Spain, but the passing of such a bill might, it is hoped, in humanitarian circles, set in motion a similar movement on the other side of the frontier.

ISSUES OF THE CAMPAIGN FULLY DISCUSSED

Liberal Rally In West End

Friday Evening, Sept. 15

WHICH ONE OF THESE IS MORE ENTITLED TO YOUR VOTE?

Does the loyal enterprising citizen of St. John want the Minister of Public Works to Finish the Great Work he has commenced at this Port or does he want Opposition members sent to Ottawa? Laurier is sure of a return to power; let St. John be "in right—not in wrong."

Young Liberals Will Hold a Big Smoker And Speech-Making in Keith's Theatre, Suite on Thursday Ev'g, 14th Speeches by Candidates, Dr. Alford and others Special Entertainment Programme ONE WEEK BEFORE THE FRAY

ECHOES OF THE GREAT CAMPAIGN

(Continued from page 1) THE CASE IN A NUTSHELL. Speaking at Sudbury, Sir Wilfrid Laurier said that he had asked at the big Copper Cliff smelter in the morning and was told that every pound of its products went to the United States. "I ask you, if this product were subject to a duty of twenty-five per cent., as some agricultural products are, would Sudbury be as prosperous as it is today?" he said. "That is the whole thing before the Canadian people in a nutshell. On this they will have to pronounce two weeks from today. If to the whole question we apply the same notion as you in Sudbury I have no doubt whatever of the result. "I am proud today that it has been left to me in my old age to accomplish what all the great men of Canada wished to accomplish and failed. I claim no special merit for this, but I repeat the expression of the whole Canadian people."

SIR WILFRID TO TAFT. Sir Wilfrid Laurier a few days ago issued to a Conservative pamphlet being circulated quoting Taft's words that Canada was at the parting of the ways. "This is not true," he declared. "I am prepared to talk business with you, but we don't talk politics. If it be true that President Taft says that Canada is at the parting of the ways, I would say to President Taft that he does not know what he is talking about. I would say to him 'We are prepared to meet you on business, but if you want to talk politics keep to your side of the line and we shall keep to ours.' It has been said that this agreement will lead to annexation. President Taft has said several times that there was no such intention on the part of the framers of

the agreement with the United States, but if he had meant it I would say to him, 'Sir, make no mistake, we want to sell you our horses, and our hogs, and all our products, but if you don't want to buy them, and think that we will sell our national life, you are wrong. We want to widen our trade with the United States as much as possible, but we will not sell our birthright.'"

ONTARIO DOWN ON BOURASSA. That the alliance between Borden and Bourassa is hurting the Conservative party in Ontario, is the opinion of Senator J. P. B. Casgrain, who has returned from a trip through that province, where he has been at various meetings and sounding the political alarm. "They call it the 'Borden-Bourassa alliance' he said. 'I have heard it named in every part of the country. A good many old Conservative stalwarts are leaving the party in disgust because they cannot swallow Bourassa's statements. They feel that if Mr. Borden should win, Bourassa would dictate to Ontario and they cannot stomach that.'"

CONSERVATIVE SUPPORT. Pickering, Sept. 8.—"Ladies and gentlemen, I stand before you as a Conservative voter for reciprocity. I was just going while the last speaker was on his feet, what would have happened if Mr. Borden had crossed the floor of the House and said to Messrs. Paterson and Fielding, 'We quite agree and will support you, and how many farmers of this country would have voted against reciprocity?'"

Cries of "Not one" greeted this point of inquiry as John Vipond, of Brooklin, ex-Warden of Ontario county, announced his conversion to the Liberal policy before a crowded meeting here last night. Mr. Vipond went on to say that he had been a Conservative all his life.

TRADES AND LABOR CONGRESS OF CANADA

Calgary, Alb., Sept. 13.—(Canadian Press)—At the twenty-seventh annual convention of the Trades and Labor congress of Canada yesterday the time was taken up chiefly in the consideration of resolutions and the hearing of reports. The committee members buy and will tender their reports in the course of the convention. A resolution was moved by Delegate Frank Danforth that the congress request the insult offered to organized labor in Canada by the statement of a representative of labor appearing before the senate in which he said that the working men of Canada were "improvident." The resolution was carried unanimously. The question of immigration next came up. Delegate Trotter observed that some Winnipeg manufacturers had endeavored to get army reserve men to come to Canada to compete with working men who had no pension. The solicitor, in making his report, asserted that prosecutions were now pending against the Toronto Carpet Company for tampering with the immigration laws.

The greatest Imperialist in the Empire is Laurier.

The Conservatives have never put an Imperial measure on our statute book. Every one of them has been placed there by the Liberals and placed there by Laurier. —Hugh Guthrie. Canada's total trade with all countries last year was valued at \$759,094,389. More than half of it, or \$404,137,940 was in trade with the United States. Does that fact lessen our loyalty to the Empire? Canada's trade with the United States fifteen years ago was \$111,022,513. Last year it had increased to over \$404,000,000. Are Canadians less loyal because their trade with that country increased almost four-fold in fifteen years?
