AGRARIANS AND LIBERALS UNITE AFTER ELECTION: FORCES OF PROHIBITION WIN SLASHING VICTORY: GIANTS IN SOMNOLENT STATE LOSE BY 3-1 SCORE.

MONDAY'S PLEBESCITE GIVES AN OVERWHELMING VOTE AGAINST LIQUOR IMPORTATION

All Counties in the Province With Two Exceptions Swing Heavily to the "Yes" Column - Madawaska Strongly With the Wets-Estimated Majority of 25,000 for Prohibition-Only Third of Possible Vote Polled.

The forces of prohibition have won another smashing, crashing victory in the Province of New Brunswick. Their rictory is so decisive there is not even a chance left for the pions of the wets to have one consoling thought. Those who advocated the importation of liquors into this province at yesterday's plebiscite on the all-important quesn were snowed under. They were buried under an avalanche of votes, buried so deeply it will require months to erge and get into breathing space again.

PERSHING AFFAIR DISAPPOINTS THE BRITISH FOREIGN OFFICE

London, Oct. 10-Foreign office, it is understood is somewhat disappointed at the outcome of General Pershing's attempt to honor an unknown British col-dier as the French unknown was honored. But it still hopes to remedy the situation before the Washington peace conference. The ceremony had been regarded as a splendid possibility for emphasizing the Anglo-American friendship on the eve of disarmament conference. It is understood that the red tape, or perhaps fear of the British war office that the presenta tion of a medal would establish a precedent for each of the other Allies to follow, decided the officials of the department against the ceremony. It is also regarded as uncertain whether the British government could, under its laws, reciprocate by bestowing Victoria Cross upon an American "unknown." The V. C. is awarded only to British subjects. Furthermore, the King's regulations forbid British soldiers receiving foreign decorations in peace time.

FRANCE READY TO PRESENT PLANS FOR THE PARLEY

Briand Says Country Only Too Glad to Reduce Budget by Limiting Armaments.

FRANCE MUST HAVE GUARANTEES, HOWEVER

Will Require Assurance Against Aggression by Foes of the Future.

Foes of the Future.

Paris, Oct. 10.—Premier Briand is prepared to present a detailed outline of his idea of a plan for limitation of armaments when he arrives in Washington in November for the conference called by President Harding. Briand's plan, it is stated semi-officially, will carry general French approval and the Premier will submit it as France's suggestion for a solution of the armament problem. It was made very clear in official circles that France interprets the coming Washington Conference as designed toward bringing about a limitation of armaments, not general disarmament as this term is generally understood. Briand made this very clear in a speech outlining the Government's policy, Sunday and it has been further emphasized in semi-official state, ments during the past 24 hours.

Law And Order In North Country On High Plane

Edmonton, Oct. 14.—Lew and order in the north country is on a high plane and not in one instance has it been necessary to prosecute any person who has entered under the clearance certificate, states Major G. L. Jonnings, superintendent of the Royal Camdian Mounted Police, who recently returned here after an impection trip to all the police detechments in the far north. Major Jennings' tour occupied three months during which he travelled more than 4,000 miles and visited as far north as Herschel Island. The residents of the great stretches of territory lying between Edmonton and the Arctic have the great respect for British justice and the orderly traditions of the British race, he said, and the general condi-

debts which hitherto have only been paper entries in Great Britain's books and in connection with which there has been no sign of coming payment of interest or principal. However, while Great Britain has not paid any interest to the United States, according to the agreement she is preparing to take up this burden when it is due next year, and meanwhile she is determined to meet all her present end future macurities in the United States.

In certain circles here, it is held, they are content to wait for cancellation of these debts until the American trader and farmer feel the bite, when it is no longer possible for him to sell his produce in Europe. If Russis, or even Rumania, has a successful crop year, next summer there will be no need of Europe buying American wheat, it is declared here,

Pending this state of affairs the only reason against a cancellation of the Continental debts to Great Britain is because these debts have groved already a valuable diplomatte lever in certain cases and one which the British Foreign Office is local to shandon.

Catarrh of the nose or throat when it becomes chromic weakens the delicate lung tissues, deranges the digestive organs, and may lead to consumption. It impairs the taste, smell and hearing, and affects the voice, it is a constitutional disease and requires a constitutional remedy.

Take Hood's Sarsuparilla, which by prifying the blood removes the cause of the disease and gives permanent relief. This alterative and tonic medicate has proved entirely satisfactory to thousands of families in three generations.

If there is bitiousness or constipation, take Hood's Pilis—they are purely vegetable, gentle, thorough.

FOR WOMEN

Reflections of a Bachelor Girl By HELEN ROWLAND

helor's Idea of "Freedom" is to Avoid Cetting Tied Up to Any ne Woman, by Keeping Constantly Tangled Up With Two or Three.

A bore is a man who always tells a woman the truth; a diplomat is one who tells it to her only now and then, in order to make his pleasant little fairy tales the more piquant.

Real love almost never comes to a man, until he has tried fifty-seven varieties of imitations, and concluded that there isn't any such thing. Then, Fate plays Santa Claus and gives him the surprise of his life!

Tell a man that he's handsome, and he'll imme-diately buy a bottle of hair-tonic and begin to go over his face twice a lay with the safety-razor. Yet men wonder why a woman, who is al-ways listening to things like that, spands so much time at the beauty

Mamitoba Butter On Way To British Dairymen's Show Winnipeg, Oct. 10.—An exhibit of four 56-pound boxes of Manitoba butter is now on the way to the British Dairy Farmers' Association shoow which opens in London, England, October 18. It was made by the Crescent Pure Milk Company, of Winnipeg, and the Shoal Lake Creamery Company, of Shoal Lake, Man. Both these concerns have won many-prizes at Canadian and American exhibitions. A public campaign, under the direction of the provincial dairy commissioner's department, will be launched in England, where an extensive advertising plan will be followed and posters used to advertise the fact that the butter was produced in Manitoba. "Manitoba has developed its dairy industry to the point of exporting three and four million pounds of butter annually," Hon. Geo. H. Malcolm, Minister of Agriculture, asserts, "and the province should use all legitimate means to secure publicity abroad for the excellent quality of Manitoba butter." After the exhibition the butter will be presented to the Canadian Hospital	of whose stock Union owns about two- thirds. Berlin, Oct. 10.—Combined German industrial, banking and agricultural interests, which propose giving a general mortgage on their assets to raise a foreign loan of 1,000,000,000, and ultimately 2,000,000,000, marks gold, regard this as the outside limit of their war sacrifices, a prominent German manufacturer who is a member of the Loan Board, told the New York Herald correspondent here today. He declared that 2,000,000,000 good good good good good as necessary to stabilize the German wark. "We regarded such a loan as proposed as necessary to stabilize the German mark. "We regard the outside loan method as extravagant and look on such air for the German government for one year as the outside limit of our sacrt fices," he said when asked why the loan would not be for a larger amount than was proposed by the Loan Board "The government's purchases recently of foreign securities and dollars to meet the August reperation paymen of 1,000,000,000 marks have resulted	chrough the Regina office of the association report considerable improvement in wholesale conditions. Mamitoba Butter On Way To British Dairymen's Show Winnipeg, Oct. 10.—An exhibit of four 56-pound boxes of Manitoba butter is now on the way to the British Dairy Farmers' Association show which opens in London, England, October 18. It was made by the trescent of the Shoal Lake Creamery Company, of Shoal Lake, Man. Both these concerns have won many prizes at Canadian and American exhibitions. A public campaign, under the direction of the provincial dairy commissioner's department, will be launched in England, where an extensive advertising plan will be followed and posters used to advertise the fact that the butter was produced in Manitoba. "Manitoba has developed its dairy industry to the point of exporting three and four million pounds of butter annually." Hon. Geo. H. Maicolm, Minister of Agriculture, asserts, "and the province should use all legitimate means to secure publicity abroad for the excellent quality of Manitoba butter." After the exhibition the butter will be presented to the Canadian Hospital for invalid soldiers. Sales—428,600.	of whose stock Union owns about two- thirds. This operation is entirely on current orders, nothing in either pulp or paper is being made for stock. August sales were equal to those of a normal growth and September was elightly above. Normal October sales, from present in- dications, will set a record for 1920. Company is operating at a profit Stocks of wrapping and bags have been thoroughly liquidated. On the newsprint end the St. Maurice sub- sidiary is running 100 per cent., all though the presence of a relatively small amount of foreign paper in the market has softened spot prices. Of the financial end, Union Eag and Paper is comfortable in many respects It has somewhat increased the treas sury holdings of bonds, which stood at \$1,023,000 on December 31st last. This is sufficient to cover sinking fund requirements into 1923. Whether or not, 1921 earnings cewer the Union Eag, 8 per cent. dividends, it may be regarded as safe because of a dividen- cressive of \$1,200,000, which was made at the end of last year, sufficient to cover 1921 disbursement. The problem of all paper manufac- turers, is the disposal of high prices pulpwood, which must necessarily b purchased considerably in advance or immediate needs. What is most need ed now is a volume of business which will liquidate this wood, Union Ba and Paper has been lately very suc cessful in getting this volume. Indi- ations are that by the end of this year decks will be cleared for profit able business in 1922.
