The Business Section Suffered Heavily -List of Places Burned, Losses and Insurance.

Paris, Ont., Dec. 12.-The fire which broke out about 1 o'clock this morning in Meldrum's flour mill, which is situated in the center of the business portion of the town, resulted in the destruction of about three-quarters of the dispatch has been received by the war business houses in town. River street, from William street to Scott's drug store, on the west, and from William street to Hall's drygoods store, on the east, is entirely gone, and the loss is estimated at \$300,000 to \$400,000. It is impossible at present to say to what

In First Reports of the Galveston house grounds. Calamity.

Houston, Texas, Sept. 12.-The magnitude of last Saturday's calamity grows every hour. The newspapers have been too conservative in their efforts to guard against extravagant exaggerations. Many conservative people believe that ten thousand will be reached before the mortuary list of Galveston and vicinity is closed.

Supplies are arriving, but not enough to go around.

There are more Americans in London just now than ever before. West End shopkepers declare that the American invasion lately is unprecedented.

The steam barge St. Joseph put in at 6 o'clock this morning for shelter. There is great anxiety expressed for the steamer Toronto, which left Charlotte last night. All vessels are storm-bound at Charlotte.

AT OSWEGO. Oswego, N. Y., Sept. 12.-The storm here was severe. The wind reached a velocity of 42 miles an hour. The schooner Albercore was driven ashore east of the harbor this morning. The was rescued by the life-savers. The T. R. Merritt, of Hamilton, Ont., is ashore on Nine Mile Point. Capt. W. A. Corson and crew got ashore before the life-saving crew arrived. Several handsome yachts were dashed upon the beach, causing great damage.

AT CLEVELAND. Cleveland, O., Sept. 12 .- As a result of the furious gale last night, many telegraph and telephone. lines were prostrated. The wind reached a velocity of 60 miles an hour. Up to not of Erie and Northwest, which left Buffalo last evening for this port, had not been heard from. They were due here at 6 o'clock this morning. The passenger steamer State of Ohio, due here at about the same hour from Toledo, had not arrived at noon. At 2:50 this afternoon the overdue steamer City of Erie was sighted twenty miles down the lake. As far as could be made out she was all right. A steamer believed to be the overdue Northwest was closely following the City of Erie.

PROVIDED FOR IN THE ACT. In the preparation of the voters' lists for Dominon purposes from lists prepared for provincial elections, it is quite possible that, as in the case of East York and Winnipeg, an error may occur. There is an especial liability to this in constituencies where municipal and county boundaries are not observed, and where the lists for the con-stituency are compiled by officials who do not possess the local knowledge to enable them to detect an error. Dominion election law, however, makes special provision to meet such cases, and has given power to the returning officer, where necessary, to get a correct list of the names of voters from the municipal clerk or clerk of the peace, in addition to the lists supplied from Ottawa. He can insert any names that may have been omitted from the lists as printed.

Ghouls at Galveston Mutilate the Dead.

Fingers and Ears Cut From Corpses to Secure Jewelry-Over Fifty of the Biped Hyenas Shot.

Dallas, Sept. 13 .- W. H. McGrath, manager of the Dallas Electric Company, reached here yesterday, direct from Galveston. He said: "Vandalism in Galveston has been horrible. The most rigid enforcement of martial law has not been able to suppress it entirely. Adjutant-General Scurry's men have arrested a hundred or more negroes, 43 of whom were found with effects taken from dead bodies. These were tried by court-martial. They were convicted and ordered shot. One heavy shower that fell at 1 a.m. negro had 23 fingers, with rings on them, in his pockets."

EARS CUT OFF. During the robbing of the dead, not only were fingers cut off, but ears were stripped from the head in order to secure jewels of value. A few government troops who survived have been assisting in patrolling the city. Private citizens have also endeavored to prevent the robbing of the dead, and on several occasions have killed the offenders.

OVER FIFTY SHOT. Singly and in twos and threes the offenders were thus shot down until the total of thus executed exceed fully 50. POCKETS FULL OF HUMAN FIN-

GERS. Houston, Texas, Sept. 12.-It is true that negroes were shot by order of a court-martial. Their pockets were found to be full of human fingers and jewelry, of which the dead had been stripped.

SITUATION IMPROVING. Galveston, Texas, noon, by tug to Houston, Sept. 12.-The White Cotton Screw Men's organization held a meeting Monday night and tendered their services, that of 500 able-bodied men, to the public to clear the streets of debris. Big forces were at work Monday night, and the situation is much improved so far as the passage of vessels is concerned.

UNDER MARTIAL LAW. The city was patrolled Monday night by regular soldiers and citizen soldiery. No one was allowed on the streets without a pass. Several negroes were shot for not halting when ordered. It is reported that three of the citizen soldiery were shot by negroes.

WATER AND PROVISIONS. The steamer Lawrence arrived here played because of the illness of Mr. early yesterday morning from Houston with water and provisions. A committee of 100 citizens were aboard, among them doctors and cooks. Work on the waterworks is being rushed, and it was hoped to be able to turn a supply on yesterday after-noon. The relief committee met at 9 p.m. yesterday. It is also badly in need for disinfectants. A large load of lime at this time would be a bless-

BUSH FIRES

四国行为一个中心

Several Parms Near Innerkip Swept by Flame.

Woodstock, Sept. 13. - To east and west of the town, Tuesday night, the sky was lurid with the reflections of bush fires, and anxiety ran high because of the fierce wind that swept from the west. The glare from the northeast was particularly fierce, and at times even the leaping flames could be discerned faintly outlined over the tree-tops. It was a wild night, and the

thankfulness was general that the

conflagrations were no nearer. The larger was raging through a mile and a half of timber land to the southeast of Innerkip and the great flames shot up above the highest tree-tops. It began on the Benjamin Biddis farm from some stumps that had been burning since Saturday, and the wind soon fanned it into a fire of large proportions. As the blaze gained strength it soon ran to the farm of Thomas Mil-ler, and roaring and crackling crossed to George Carter's, thence to Jas. Bartley's, and the big farm owned by S. Trachsell. The flames made travel on the fifth concession impossible, and the Carter place was cut off from all communication.

only prevented from spreading by a dwellings were consumed so far as known, but the damage done will be great. There were 250 cords of cut wood on the Bartley farm and S. Trachsell had 75 or 80 head of cattle, whose fate has not yet been learned.

The fire raged for hours and was

The timber land over which the fire swept is not of any great value, but the fire may extend to the Robinson farm, where the timber is much more valuable. Hundreds of people from the vicinity of Innerkip watched the huge conflagration for hours, and in the village itself it was possible to read by the light of the blaze 11/2 miles away.

The Two Leaders and the Shadow.

Sir Charles Tupper, Mr. Foster and Hugh John Macdonald have appeared at Montreal for the purpose of beginning the Opposition campaign in the coming contest. It is not difficult to see why Hugh John Macdonald has been importuned to enter the list as a Dominion politician, as he was importuned in the contest of 1896, going down with the crowd. He is the son of his father. His father was the leader of the Conservative party from the confederation of the British North American Provinces until his death. He was a successful leader, and Hugh for the reasonable development of the John, his son, has been invited to again take part in Dominion politics, to make the father's name a factor in the contest of today. We have no desire to say anything against Hon. Hugh John Macdonald. We hope that the people of this part of Canada will have an opportunity of hearing him, and they will be able to judge for themselves how far the welfare of this country could be intrusted to him. In our opinion he is wanting in all those qualities which Canada requires at the present time in a leading public man, and we think that the people, when facts which partisan critics seem to rethey have heard him, will not differ gard as necessary to the assault of the from the conclusions which we have reached.

Mr. Foster, the ex-Finance Minister,

professes to be spoiling for a fight. Mr. Foster says that he is most anxious that the elections should be brought on at once. He is so very eager to relieve the country from the disasters of the extravagance which to Canadians, no matter who aids to rethreaten it! Mr. Foster says that the establish it. The country does not wish Liberal party promised to reduce the to go back to the old order of things. expenditures to \$27,000,000, and that during the last year they increased it to \$53,000,000. Does Mr. Foster think rather neatly observed that under the that by statements of this kind he will | Liberal Administration they had a succeed in misleading the public? Did growing time; under Sir Charles, a Mr. Foster, while he was in power, in- | blowing time. clude the expenses on capital account in the ordinary expenses chargeable to revenue? Did Mr. Foster, in 1885, when the rebellion in the Northwest took place, charge the money expended for the suppression of that outbreak against the ordinary expenditure of the year? Will he refer us to any instance during the whole period, since 1878 down to 1896, in which the expenditure on capital account was included as a part of the year's expenditure? If Mr. Foster felt that he had a strong case, why does he not make an honest statement? If he felt that the present Government is extravagant. In the cost of the contingent sent to South Africa in the expenditure for the year 1900, and leave out the expenditure for the suppression of the Northwest Rebellion in the records for the year 1885? It is clear that Mr. Foster does not feel that an honest statement of the facts would serve his purpose, and result to the injury of the present Government, and so he makes a dishonest one-one deliberately intended to mislead.

Sir Charles Tupper, if he is great on anything, is so on the question of preferential trade-at least, so he desires to have it understood. Sir Charles and his friends were in office for eighteen years. They had every opportunity for securing preferential trade, if this could have been done, but they retired from office without anything of the sort being accomplished. They have been told over and over again by statesmen of all parties in Great Britain that the thing is impossible, and while they were in power they did everything within their ability to put barriers in the way. They taxed the products of the English people highly, while all the products of Canada, whether manufactured or otherwise, were admitted into the English market free from duty, and now Sir Charles Tupper declares against the preference in favor of British goods which the Canadian Government have mother country. It has increased our operative course that the Government ed towards the Government and people of the Mother Country. Our manpfacturers and mechanics are better population at home to provide for. The policy of the present Government has given them 50,000 new settlers a year homes on the prairies, and this increased market is greater than it would be possible for them to obtain in some other direction, and are comin any other way. Will anyone say pelled to do something hastily, which that the 10,000 additional families, added to the population of the country from abroad, is not doing more for our progress of the human race, and we manufacturers of agricultural imple- believe that this terrible muddle will

en goods, than would be possible in any other way?

The old talk of the National Policy can be no longer effective. That policy is dead as Julius Caesar, and those manufacturers whose markets remained stationary for nearly twenty years, are, along with their employes, as fully alive to this fact as any other class of the population of Canada.

It is gratifying to find that the candidates being nominated to support the Government policy are good men. That is right. A good policy deserves to have the support of able men, in whom the community have confidence.

Ontario promises to do much better for the Government in the ensuing elections than it did in 1896. Why not? Ontario has prospered as she has never done before in the last four years, and the Government policy has promoted that prosperity.

Two Points to Remember.

When talking of the expenditures undertaken by the present Administration at Ottawa, two cardinal facts must be remembered.

1. The expenditure has either been for the purpose of clearing off heavy liabilities undertaken by the late Administration, or left as a legacy by it, or it has been undertaken to provide country by works that will pay good interest on the investment.

2. When the expenditures were proposed in Parliament, not one of them, outside a paltry \$32,000, was voted against by the Opposition, which, as we all know, if there had been anything wrong or extravagant, would have been only too glad to have embraced the opportunity presented to condemn the Government.

Reasonable men will note these two facts, and refuse to be led away by pre-election misrepresentation of the Administration.

It must not be forgotten that Sir Charles Tupper was hopelessly defeated in 1896, and that Hon. Hugh John Macdonald was then a member of his Government. History is about to repeat itself. Tupperism is distasteful

The European Concert. During the last week there has been

something wrong with the "concert,"

uncertainty as to the tune to be played, and whether all the performers would be willing to take a hand. The Russians proposed a new tune, which we were told the Americans were going to join in. The British did not like the tune. Others had their doubts, particularly the German band. And then before the week was over, the Ameriwhy does he find it necessary to add cans seemed to find out that the tune was rather flat, or that they had made some mistake about the music; they had got a wrong copy, or some one had misunderstood them. The fact is, you cannot have a concert without a leader and in this case those that want to lead and have the most right to lead are distrusted by their neighbors, and the danger is that the last state of China may be worse than the first, for lack of a clear, vigorous lead. The Chinaman, like the Turk, has learned the trick of playing off one power against another; and if Li Hung Chang can get the European armies out of China the old game will go on again pretty much as before. Altogether we must admit that it is one of the most difficult tasks that the European concert has ever taken in hand, and with the present feeling of mutual distrust, it is not likely that they can deal effectually with China. So far as the British people are concerned, there is a deep distrust of Russia; a feeling that though the troops may withdraw from Pekin, Russia will not give up the territory she has taken: and that she will support the present rulers in their weak condition until she is ready for another forward move. There are those both in England and America who think that it would not be a bad thing for Russia to control a large slice of territory in Northern China. conceded. Do not confuse the name with any other. There is only one genuine Heintzman & Co. piano-a piano that has been before the public for fifty-one years-more enthusiastically eulogized by great artists than any other Canadian piano—carrying off more diplomas and gold medals at the world's great expositions than any other Canadian piano—a piano that stands alone in magnificence and superiority of tone.

-An instrument in which is found the highest -development of the artistic piano.

BAKING POWDER

Report of the Inland Revenue Depart-Powders Found-Sale of Alum Powders Forbidden.

The Bulletin of the Inland Revenue Department (No. 68) contains analyses of 156 samples of baking powders bought of dealers and manufacturers in the Dominion. The alarming statement is made that 85 per cent of these are alum mixtures.

In view of this large proportion of alum powders, Chief Analyst Macfarlane recommends that legal proceedings be taken against parties selling them, on the ground that they are unhealthful articles of food. Upon this recommendation the Commissioner of Inland Revenue has given

notice that persons selling alum powders will be prosecuted. The analyses were made by the Assistant Analyst, Mr. A. McGill, who fully discusses the use of alum in baking powders, which, he is of the positive opinion, is dangerous to health. Professor Ruttan, of McGill College, Montreal, who made a series of experiments on the digestibility of bread baked with alum powders, is quoted as follows: "The unanimous verdict of my troduce into a form of food of universal ferments. They must therefore be

terested in this matter. Housekeepers should be very careful in purchasing their baking powders. The alum powders can generally be distinguished by their low price. They cost but two or three cents a pound to make, and are sold from ten to thirty cents. A pure cream of tartar powder is quite expensive to make, and is sold from forty to fifty cents.

HIGHEST QUALITY THE FIRST CONSIDERATION. In these days when many piano

manufacturers urge the low price of the wares other than their superior quality as an inducement to purchasers, it may not be amiss to suggest that in a piano quality and price are too inseparably joined to expect the one without the other. It must be borne in mind that price is not-as many are erroneously led to believe-the primary element in the selection of a plane. The plane is now conceded to be an essential feature in every modern home. It stimulates refinement of thought, educates young and old alike in the art of music, and is always a source of pleasure and entertainment in the home circle. Therefore the quality and merits of the instrument should be first considered, and price made a secondary feature; for to buy cheaply is not always to buy wisely. The D. W. BIG CHURCH

A Great Building That Has Been for 38 Years in Course of Brection.

The little city of Jasper, the capital of Dubois county, Indiana, has a lis churches could be placed insidesteeple and all. This immense strucaround a city of 15,000 or 20,000 inhabitants a wall four fet high and two feet thick, and the amount of lumber used in the roof alone would be sufficient to build many houses. Though this great edifice cost one-tenth as much as the State House, it was built by one of the Catholics of one of the smallest counties of the State of Indiana, and today it stands without a single cent of indebtedness against it.
Three years after the Civil War clos-

ed Father Fidelis Maute began the erection of St. Joseph's. On Sept. 14, 1868, Bishop St. Palais laid the corner-After the death of Father stone. Maute, the work was taken up by Father Basil Heusler, who expects to complete the structure in 1905, when 37 years of continuous work have been occupied in its erection. Except for the ornamentation, the materials used in the construction of St. Joseph's were prepared and put in place by members of the congregation, who for three dee cades have been making sacrifices of all kinds to realize the ambition of

Between the outer roof and the ceiling there is to its extra heavy and substantial case farmers had hauled stone for months ered they thought there was enough

The foundation and walls of the church went up under the direction of Father Maute, who after preaching the sermon Sunday morning, announced who had been selected to work during the coming week. By this means about one-seventh of the entire congregation labored each week. Father Maute not only assigned the men to work, but he, the busiest, directed it all. Year after year this continued until gradually the

structure took shape.

The dimensions of St. Joseph's are 196 by 90 feet. From the foundation to the eaves it is 67 feet, and from the floor in the interior to the ceiling it is 90 feet. The walls are 4 and 6 ed, will be 200 feet high. In it is a bell which, with its hangings, weighs eight tons. Its sonorous and grand voice can be heard, with a favorable breeze, at Celestine, ten miles east of Jasper, and at Ferdinand, twelve miles

The church, though the seating arrangements have not been completed, can stand on the lower floor of the

structure. Father Basil Heusler, now in charge MANY PLAGUE DEATHS IN INDIA. of the pastorate, is doing all he can to beautify the great structure left unfinished by old Father Maute. Besides putting in a splendid heating system, there have been added fine art windows. Over the entrance is an art window showing Christ feeding the multitude. It cost \$600. Near the altar is another of the Good Shepherd that cost \$475. On the other side is the Nativity of the Lord that cost \$450. Over the center altar is a small window, the glass in which cost \$300. The other smaller windows cost \$175 and

side windows \$300. But the windows are not the most expensive part of the ornamentation. The three altars are especially fine, being constructed entirely of Italian marble. The high altar with the two groups, each seven feet high, cost \$19,000. The side altars, one crowned with the Blessed Virgin, the other with St. Joseph, the patron saint of the church, cost \$6,000. The high altar has before it six great candlesticks, each of which cost \$50. The railing separating the sanctuary from the church auditorium is of onyx and brass that cost \$1,000. The other decorations are proportionate in expense

and beauty. When Father Maute died he had failed to make any provision for heating and lighting the vast structure. At present candles are used for illumination, but soon the building will be equipped with electricity.

The congregation of St. Joseph's includes 330 families or about 3,000 communicants. In the city of Jasper 90 per cent of the inhabitants are Catholies, and Dubois county is in the strongest Catholic district in the state. They have made many sacrifices to construct this magnificent edifice. The monastery at St. Meinrad has received Wounding Mrs. Haskett - Alleged | considerable aid from these people. The company is an exceptionally strong one. 'A Breezy Time' is a farce-comedy of a higher order of merit than the usual run of plays touring the country. There is not a dull line in the piece. The specialties introduced, and they are as plenteously interspersed as the strong cast will permit, are all new and up-to-date. Conservative Attitude Towards Labor

[Hamilton Times.]

The Spectator, knowing that the appointment of Mr. Williams as special officer to enforce the alien labor law is in the interest of the Canadian workingman, and fearing that the Government's action may receive favor at the hands of the industrial classes, has atacked the appointment for the purpose of misleading the workingmen. These tactics on the part of the Spectator are perfectly in line with the sition on the various movements by the present Government to advance the cause of labor. Three years ago the Government adopted the antisweating regulations in the manufacture of mail bags and militia clerbing. ture of mail bags and militia clothing. Thereupon Mr. Bergeron, M. P., Hon. George E. Foster, Mr. Taylor, M. P., the Tory whip, and others on the floor of the House attacked the Government for their action, hoping thereby to prevent the Government pursuing its policy of standing by the cause of labor. Their tactics, however, failed to drive the Government from its fixed course. Later on the Government introduced legislation to establish a department of labor, to organize a labor gazette promote the settlement of and to trade differences by conciliation boards. Again Tory opposition broke out in violent denunciations in Parliament. Mr. Foster denounced the proposition for the establishment of the gazette, lashing himself into a fury of rage against the proposition. Mr. Beattie, M. P. for London, objected to the conciliation act. Sir Charles Tupper raved over an hour against the whole of these propositions, and the Tory Opposition by their obstructive tactics, delayed for a long time the passage in the House of the Government's

fair wages policy. When the Government submitted a resolution asking authority from Parliament to provide that all Government contracts should contain provision requiring contractors to pay to workmen the fair current rate of wages for work performed on Government works, the Tory oppo-sition seemed to know no bounds. Hour after hour they denounced the proposition. Again Mr. Foster, Sir Charles Tupper, E. F. Clarke, M. P., Mr. Taylor, and the whole rank and file of the Opposition railed against the doctrine, and for the whole of one day up to two o'clock in the morning the Opposition protested against the Government's fair wages nolfor workingmen, and when at icy adjourned sitting of the House the Government's fair wages motion came up for consideration, Mr. Taylor declared that the Opposition would ob-struct the passage of the measure if it involved the keeping of the House in session until midnight, and until the next night. When the Opposition saw that their threats of obstruction failed to drive the Government from its determined position to stand by the cause of labor, they then began to plead wish the Government not to pass the resolution, that it was too late in the session, that the measure was too important, and it would be better to have it stand over for another year. To all these appeals the Government turned a deaf ear, for it had already begun to put the policy in practice by inserting in all Government contracts since the resolution had been brought before Parliament, conditions requiring pub-lic works to be performed by residents of Canada, requiring the contractors to pay to the workmen fair wages according to a schedule to be fixed by the Government's fair wages officer, and providing that the contractor cannot tember numbers of the Companio draw his pay from the Government un-

on Wednesday. Rev. Mr. Brown will preach in the Methodist Church, Forest, on Sunday

A pleasant evening was spent at the home of Rev. Mr. Baldwin on Tuesday evening by the members of the B. Y. P. U. and members of the church. Mr. Alex. Bartram was in London on Wednesday, attending the fair. Mr. Pace, of Forest, will occupy the Methodist pulpit next Sunday.

SPRINGFIELD.

Springfield, Sept. 11.—Rev. Mr. Bethune, of Aylmer and Springfield parishes, preached anniversary sermons on Sunday to large and appreciative gatherings. The church was tastefully decorated.

A harvest home was held on Monday evening by the Ladies' Aid of the Presbyterian Church, which proved to be a pleasant affair. Mr. George Stewart, principal of the public school pre-sided. Miss Tissa McCallum, elocutionist; Master George McCallum, the boy tenor, both of Galt, were much appreciated. Mrs. George Stewart acted as accompanist. The menu, which was excellent, was served in the vegetable department of the horticultural hall, where a good programme was given. Mr. Bruce Smith, of Aylmer, sang a solo which won an encore. Miss Bingham, of Aylmer, being the accompanist. Good addresses were delivered by Rev. Messrs. Orton and Bethune. Proceeds, \$76. The horticultural hall was beautifully decorated.

HARRIETSVILLE.

Harrietsville, Sept. 11 .- The houses of Messrs. J. H. O'Neil and A. E. Jackson are quarantined on account of diphtheria. Dennis Jackson, who was a sufferer from the disease, is improving. Caroline O'Neil, another victim, is almost well, while Annie, age 6 years, eldest daughter of J. H. O'Neil, is in a critical condition.

Mrs. H. Finch is improving rapidly. Drs. Doan, of this place, and Arkell, of Belmont, met for consultation at the home of W. S. York, to readjust his shoulder, which was injured about

eight weeks since. The public school has been closed

Is Serious

It Should Be Treated Without Delay by Administering Dr. Strawberry.

There is not a summer passes without thousands of people being attacked by Summer Complaint. The prostration often verging on collapse—which some-times accompanies this disease makes it one of the most serious and dangerous we have to contend with during the hot months. As there is no home in Canada this year that is likely to be exempt from this all-prevalent malady, everyone should have on hand a bottle of Dr. Fowler's Extract of Wild Strawberry, so that this disease may be promptly checked and cured before it has time to weaken and debilitate

the system and endanger life. Mr. John R. Burton, Brockville, Ont., says: "Last summer I was very sick with a severe attack of Summer Complaint, and could get nothing to help me until I started taking Dr. Fowler's Extract of Wild Strawberry. The action of this remedy was wonderful, and soon it had me perfectly well."
Remember that for fifty years Dr.
Fowler's Extract of Wild Strawberry has been the great specific for Diarr hea, Dysentery, Cramps, Colic and Summer Complaint. You may endan-ger your life if you accept a substitute.

The Icelander eats iced fish and butter just as we eat bread and butter. CHOLERA MORBUS, CRAMPS and kindred complaints annually make their appearance at the same time as the hot weather, green fruits, cucumbers, melons, etc., and many persons are debarred from eating these tempting fruits, but they need not abstain if they have Dr. J. D. Keilogg's Dysentery Cordial, and take a few drops in water. It cures the cramps and cholera in a remarkable manner, and is sure to check every disturbance of the

Railways Carry Over 12,000 People to the City.

The Success of the Western for 1900 Is Now Assured-How the Day Was Spent-The Speeding Events and

Winners.

Wednesday at the Western Fair has come and gone with its immense crowds, and another Farmers' Day will go down in the history of London's great show as a precedent for more big days. It is always expected that Wednesday will be the day above all others for the largest number of thousands to attend, and the fair stands or falls upon the Farmers' Day attendance. For many years the yeomanry of Western Ontario have not failed in making their day the most successful of the week, and so far this year they have again been successful. It was away ahead of any of the previous days, both in numbers and in the spirit of enjoyment that prevailed. The directors would not give exact figures of the crowd, but Secretary Nelles said that he was confident that it would equal, if not surpass, the corresponding day of last year, when the attendance was more than 30,000. There was one thing that tended to make a smaller crowd than would otherwise have been -the railway rates were not as low as is usual, and consequently there were not so many visitors from outside places. The low-rate days are Tues-day and Thursday. The railways did not carry so large a crowd as on Wednesday of a year ago, but they expect

The bulk of the passenger business ttle & Co.'s store, East London, was is always done by the Grand Trunk, which, with its many branch lines, traverses most Western Ontario districts. It carried a crowd estimated at 8,000. Special trains were run from Windsor, Sarnia, Wingham, Brantford and Stratford, and each carried a full quota. An average of ten coaches were attached to each train. The greater crowd came from Windsor and intervening points, over 1,000 passengers being aboard the special. The regular trains, in addition, carried heavily. On the C. P. R., the M. C. R., and L. and P. S. R., probably 4,000 people were passengers, making a total of some 12,000 strangers in the city, exclusive of the large number who drove to the city. All the special trains left London on the return trip at a late

hour last evening. The people amused themselves in various ways, according to their inclinations. In the morning the main building and the various departments were well patronized, and thousands roamed about the grounds engaged in the fascinating occupation of watching others. The side-show men did an immense business, and as quickly as one crowd departed from the tents another took its place. The farmers missed the display of agricultural implements, which in other years was a most interesting department for them. There was general regret that the man-

ufacturers had not exhibited. The crowd was taken to and from the grounds with gratifying promptitude. The street car company won many encomiums for the excellent service that was given. Most of the motors had trailers, and all ran within a minute or so of each other.

The parade of the prize-winning live stock before the grand stand yesterday, was one of the features of the afternoon performance, which was of great interest to the farmers and citizens alike. Some fine animals were shown, many of them having captured prizes in all parts of the Dominion. The entire programme of special at-

tractions was repeated: The Werntz family of aerialists; the Dilworths, acrobats; Miss Gilbert, cornet soloist; the Rexos, the graceful skaters: Cadieux, the bounding wire artist; La Mondue, the clown who is skillful on a slack wire; the Gillette family Taskey troupe of periences of the War" will be told by colored people, and Gourlay and Lamoth, acrobats. Praise was heard on all sides for the splendid offerings provided, and many were of the opinion that the attractions of 1900 were the finest ever secured by the fair board. The balloonists got away safely at 5, the balloon traveling in a southeasterly direction. Mme. LaRoux landed safely in the vicinity of the Park street school but the professor stayed with the balloon for some time afterward, and was carried further south. The height reached by him was greater than on Monday.

Two ascensions were announced for the afternoon, at 2 and at 5 o'clock, but at the former hour the wind was too high, and the aeronauts would not venture skyward.

THE SPEEDING EVENTS Four horses came to the wire in the

farmer's trot. Roy H., a bay gelding, owned by Slack & Hendrie, of St. Marys, was an easy winner, finishing first in the three heats, without being driven out. Aladus, a black stal-lion, owned by John Lackie, of Thamesford, had a narrow escape from being distanced in the second heat. Wm. Tolmie's Dokie was second in each heat, pushing the winner closely in the third mile. Golden Text, s. g. (Atkinson & Wigle, Kings-ville), and Minnie S., (W. A. Smith, Woodbridge), were drawn. The farmers' running race, two in three heats, for \$100, had nine entries. The start in the first heat was exceedingly poor, the word not being given until seven of the horses were scattered past the wire. Two did not get away, their jockeys thinking that the other horses would be called back. The two horses left at the wire, however, were allowed to start in the second heat. Donnybrook, owned by John Kilbourne, of Nilestown, won first place in two heats, and got first money. He did not a place in the other heat. High Life, ch. g., owned by John Bene, of Sparta, failed to get a place in the first heat, but he led under the wire in the second, and was second in the third, entitling him to second money. Representative, b. g., owned by John Coventry, Woodstock, got third money. The time for the heats was :52, :53 and :56. The third heat was between Donnybrook and High Life. The former was in second place to the quarter-mile post, when he passed High Life and won easily, High Life stumbling and

almost falling. IN THE EVENING. The evening performance in the ring was witnessed by an immense crowd. Both the covered and open stands were densely packed, and quite a number had to stand. The full performance of special attractions was repeated, followed by a grand display of fireworks. The applause was liberal and everybody seemed well pleased with the evening's entertainment.

Notable Exhibits.

LEONARD'S ENGINES AND BOIL-

One of the most striking exhibits which attracts the attention of the visitor to the machinery building is that of E. Leonard & Sons, the wellknown London manufacturers of engines and boilers. The firm have on exhibition some very fine examples of the advanced methods of boiler and engine construction, which have been adopted by them. The exhibit includes a 13x12 Ball engine, a 10x10 selfoiling engine, four Leonard engines, four upright boilers, locomotive boilers and the well-known "Eclipse" boilers. The whole business of Leonard & Sons is devoted to engines and boilers, and they make them of all powers, from 3 to 500 horse-power, and for all purposes, from running a mill, printing press or laundry to generating power for an electric lighting plant of street railway system. Between these extremes is a large field for engines and boilers of solid construction and good workmanship, without the extreme perfection of finish or regulation, and such a field the products of this firm are well qualified to fill. The materials used in the construction of their goods are of the best, and, with good tools and good workmen they believe that their record for reliable goods will be fully maintained. Leonard & Sons manufacture also a complete line of automatic cut-off engines of superior finish and regulation, suitable for electric or milling purposes. Except in the large class all their engines are tested by steam before shipment, and adjusted to their

proper speed. The large manufactory of E. Leonard & Sons occupies the block bounded by Colborne, York and Waterloo streets and the G. T. R. Railway. It is contiguous to the Railway. It is contiguous to the tracks of the G. T. R., the M. C. R. and L. E. and D. R. R., and within easy shipping distance of the C. P. R. They therefore enjoy excellent shipping facilities.

THE COPP BROS'. EXHIBIT. The long-established firm of Copp Bros., stove manufacturers, of Hamilton, are making a display in the stove department that is prominent for its many attractive qualities as well as the splendid features of the goods shown. It is impossible to enlarge upon the merits of the Aberdeen Ranges or heating apparatus shown there, but no article mentioning the exhibit would be at all complete did it not draw to the attention of readers the splendid qualities of the Aberdeen Ranges. Their large and increasing sales throughout the Dominion are their best possible recommendation. These ranges, the furnales and other heaters shown in this exhibit are famed for their easy management and small consumption of fuel, two qualitles that should appeal to the good judgment of all intending purchasers. The display is in charge of the local agent, Mr. J. T. Park, of 633 Dundas street, who would be pleased to explain the merits of the stoves he handles, in detail, to any who would favor him with a visit. Mr. John A. Arthur, of the head office, is also at the

which is one of the oldest established in Canada, bears an enviable reputation for reliability and square dealing to its patrons, as well as for manufacturing a piano that is unrivaled for the quality of its tone and beauty of workmanship. The people of Western Ontario who have visited the fair in other years have not had an opportunity to view and hear these matchless instruments, as the firm did not make a display; but this year the rule that has hitherto prevailed has been departed from. The change has been welcomed by thousands who have seen and heard the Nordheimer Pianos. In the northeast corner seven instruments are displayed amid surroundings so tasty as to suggest the parlors that they will soon adorn. The popular local manager, Mr. J. J. Callaghan. has arranged his exhibit in a most beautiful way. The instruments are not specially selected, but have been chosen so as to represent the various designs that are in the regular stock. Thus the visitor may know exactly what he is getting, for the pianos in the main building, exquisitely beautiful in design and magnificent in tone as they are, are simply types of those sold every day. Since the fair opened several pianos have been sold, three of them to Akma College, St. Thomas, a statement that means a great deal to the intelligent public. The Angelus is another feature worthy of notice. It is an exceedingly interesting instrument, by the aid of which even a child may produce the most difficult music.
A full stock of these celebrated pianos are to be seen at the down-town warerooms, No. 188 Dundas street, where either the manager or his efficient as-sistants will courteously supply all information concerning them
