THE TORONTO INDUSTRIAL.

Societies' Day at the Big Fair—Rain and Sunshine—Some Notable Exhibits. Toronto, Sept. 15.—The rain that fell for an hour on Saturday morning put the success of the societies' day at the fair in jeopardy. The outlook was dismal, but at noon the fog lifted and the sun shone brightly. The societies' day was a success, and the fair was a great success.

where merchants and others will be afforded every facility for inspecting them. One of the company's specialties is the manufacture of order of blank books for merchants, bankers and other business men. Letter orders receive prompt attention. Their headquarters are at 43-49 Bay Street, Toronto.

CHRISTIE'S BISCUIT DISPLAY. One of the most complete and attractive displays in the main building is that of Christie, Brown & Co., just inside the western entrance of the main building. The firm name of Christie, Brown & Co. is a household name in every part of Canada, whether crowded city or secluded hamlet. It goes stamped indelibly on that pleasant palate of all Canadians, the space of the quality of the goods is such as to make them popular wherever they become known. The firm was established in 1860, and since that time they have sent out millions of biscuits to every part of the continent. They were the first to popularize the soda biscuit, which is now a staple article of food in every family. Fifteen years ago they moved into their present spacious factory at the corner of Duke and Frederick streets, and this business has been constantly on the increase. They employ about 200 men in the factory. There is an officer staff of ten, and the director of Mr. R. Harvey, six outside travelers and two men engaged exclusively on city orders. Six wagons are engaged all the time delivering orders. The biscuits are five immense ovens used in baking the biscuits. They are the only exhibitors in their line of goods at the Toronto Industrial. They are the leading house, not in Toronto alone, but in Canada; they are the only firm of consequence in this country engaged exclusively in the manufacture of biscuits. Such a house, with such a reputation, and such a large business, is a magnificent display. They show in Toronto this year the exhibit that called forth many favorable comments at the Colonial Exhibition in London, Eng., and which received a bronze medal. It occupies a space of over 60 feet in length and reaches almost to the ceiling. There are fully 400 varieties of biscuits shown, and this will give some idea of the extent of the business. The biscuits of which are of every conceivable size, flavor and degree of sweetness, are displayed in handsome glass boxes, and are very easily seen. It would, of course, be out of the question to give a description of the varieties, but among the newest designs might be specified the ginger wafers, Oatmeal and Challenge biscuits. Constant improvements are being made, and the popular taste shows itself in any particular line the supply is always forthcoming. In the way of diplomas and medals, the firm has almost a surfeit. It is no great honor, or then now to be presented with a first prize, as this is now their right, and the natural result of their entering into competition with other houses. Between 1878 and 1902 they received four first prizes for their goods, since which time to the present seventeen first prizes, including three gold, four silver and four bronze medals, have been awarded them. Where do Christie-Brown's goods go to? Everywhere. They ship to British Columbia in special cars, and in the Northwest they have a big hold. Of course, in Ontario they occupy first place in meeting the demand for biscuits, and also over the Eastern Provinces they send large supplies. In Montreal they have a branch warehouse, with two travelers specially allotted to that section. It might be noted, too, before concluding that the firm make fruit cake of all kinds. At the Christmas season they are able to assist confectioners very materially by making for them large quantities of Christmas cake. Be sure and see Christie's biscuit display, and if you are there early you may come in for a handful of the crisp and tasty biscuits that are distributed gratuitously.

Wilson's Wild Cherry. For nearly twenty years this valuable medicine has been largely used for the cure of Coughs, Croup, Whooping Cough, Loss of Voice and Lung. Those who know its value always recommend it to their friends, knowing that it will cure them. Wilson's Wild Cherry never disappoints. The genuine is sold by all druggists in white wrappers only. To avoid catching cold, many plans have been suggested. Probably if one never went anywhere or did anything out of the usual routine of life, it would be free from many of the ailments that flesh is heir to, but this is not a satisfactory solution of the question. People must have recreation and enjoyment. Wilson's Wild Cherry is a remedy for all coughs, colds, hoarseness, pain or soreness in the chest, bronchitis, etc. It has cured many when supposed to be far advanced in consumption.

UNIVERSAL NEW

That's what we aim at, and we are going to accomplish it. Everyone using the most wonderful, effectual and tender to-be-depended-upon "Blood Remedy" ever sold to humanity.

No trouble to get testimonials of the bona fide stamp "Not Spurious." Mrs. Wm. Riddle, Hamilton road, says: "Diagnosed me of dyspepsia after other blood remedies failed."

But we say, try it for yourselves. It will only cost 25 cents a bottle to the office, 72 Dundas street, and get a sample. For sale by druggists and medicine dealers.

PRINCE GEORGE LOCKED UP.

He Started Out to Do the Town—Attacked by Six Ruffians, Three of Whom He Laid Low—Arrested by a Stupid French "Bobby."

MONTREAL, Sept. 12.—Prince George showed his British pluck on Wednesday night. After the Academy reception the Prince returned to the hotel, changed his dress suit and then started out with one of his lieutenants and a local nabob, as sailors when on shore, to "do the town." While passing the corner of St. Constant and LaGauchetiere streets, the trio were accosted by a number of ruffians who asked for money. Before they had time to comply with the request the Prince and his friends were attacked.

In a moment the Prince and his friend were engaged in a rough-and-tumble fight with six of the assailants. The Montreal nabob was soon laid low, and for a few moments things looked bad for the Prince and the officers for six to two were big odds. Then the Prince and Lieutenant got back to back, and, handling their fists with pugilistic science, astonished the roughs.

Three of these fell before the scientific hitting of royalty, while the others laid low and the attack took to flight.

Had matters ended here everything would have been lovely. But they did not. For along came two of Montreal's most stupid French "bobbies" who, seeing six men lying on the sidewalk and two others bending over them, arrested and took them all to the station in spite of the protests of the Prince, who was locked up. Finally the sergeant of police consented to telephone for Col. Hughes, the chief of police, who came to the station in great haste, recognized the prisoner and immediately released him. The Prince asked no harsh measure to be taken with the men who arrested him. Humble apologies followed, however, and a hack was called for the Prince and his friend, who, accompanied by an escort, were driven back to the hotel.
