LOCAL LABOR BARRED

St. John Shipowners Import Men to Break the Strike.

Shipowners Are Obstinate and Will Not Agree to Submit Longshoremen's Case to Arbitration—Trouble May Yet End in a Federation of Owners, Such as Obtained in Montreal, and New Order of Unloading.

St. John, N. B., Nov. 23.—The strike at this port between the shipping firms and the longshoremen is serious. It is difficult to tell what the outcome will be. The shipping men in the combine declare they'll have no more to do with local labor, and are using every effort to get men here from Montreal to handle all their freight. Thirty-seven Italians reached here yesterday morning from Montreal, and were taken at once to Sand Point. At first some refused to go aboard the Parisian, fearing they were to be taken back to Europe, but by 5 o'clock most of them were at work. A large detachment of police were on hand to prevent trouble, but only a few local longshoremen showed up, and they looked illly on. Barricades had also been built to keep the crowds back. Three more carloads of men will arrive to-day from Montreal to work on two or three ships about five.

Tuesday Hugh Allan, with representatives of other lines, met officials and longshoremen, but refused to grant the latter's request to have the matter submitted to arbitration. Local workmen also offered to work for the wage being paid at Portland, or on guarantee of \$10 a week, but Hugh Allan refused to discuss the matter any further. He would pay the old rate of nothing, preferring to withdraw ships from this port rather than give in.

The idea of the three companies—the C. P. R., Allan and Donaldson—to work out a federation such as exists in Montreal, in all about 250 men will be brought here. The men will work in shifts of no regular hours, but as long as there is work to be done. On whatever boat or boats of the companies may be in port, all expenses will be posted, and men will be fed and housed on the ships.

As far as the Allan Line people are concerned, they say that it would be better to take men to Halifax on one steamer and bring them back on the next. However, the federation deal, the steamship people say, will go through. The Allan Line people have deposited \$375 with city officials for fifty licenses.

Work is now going on in the Donaldson liner Natalis and Furness line Florence under the summer agreement, which does not expire until the end of the month. The companies will refuse to pay the increased rate.

LONG STRIKE SETTLED.

Kingston Locomotive Works Makes Peace With Machinists.

Kingston, Nov. 23.—A. H. Champion, Toronto, second vice-president of the International Association of Machinists, visited Kingston, and had a conference with Mr. Birmingham, managing-director of the Canadian Locomotive Co., and as a result the Kingston strike is called off. The firm agrees to apply its policy of absolute non-discrimination to the members of the International Association of Machinists as well as to all others. The strike has been on since April, 1902.

The company intimates that no man whose conduct and services are satisfactory will be dismissed to make room for others. This means that those taking the place of the strikers will not be removed.

Pummelled by Strikers.

Stratford, Nov. 23.—On Saturday, Nov. 11, Stanley Teiford, a machinist, was set upon and badly handled by some of the striking machinists. Two of them, Robert Moorehead and Christopher Wilson, the former of whom was doing badly harm, and the latter of common assault. Sentence was deferred.

Drops Dead on the Street.

Brantford, Nov. 23.—John R. Stephens, a printer, dropped dead on Market street last evening from heart failure. Stephens was well known throughout Ontario, having worked in many offices. He came to Brantford only last Saturday on account of the death of his father. He was married and about 57 years of age.

Castro's Courage Ebbs.

Washington, Nov. 23.—With the French warships all Marlinique, a day's cruise from Venezuelan waters, President Castro has begun to show signs of a possible intention to modify his attitude toward the French Government.

British Diplomats Decorated.

London, Nov. 23.—The Hon. Allan Johnstone, the British Minister to Denmark, and Arthur James Herbert, the British Minister to Norway, have been promoted to the rank of Knight Commander of the Victorian Order.

Girl Burns to Death.

Montreal, Nov. 23.—Lillie White, 7 years old, residing with her parents at 316 Magdalen street, poured coal oil on her dress yesterday, and her clothes catching fire, the child burned to death.

Colonization Conference.

Montreal, Nov. 23.—A special from St. Jerome, says Hon. Dr. Roume, Ontario Minister of Public Works, addressed the convention yesterday on the question of colonization.

Ten fingers, your best friends.

STRONG ADVICE FROM FARMERS

Busy Session of the Tariff Commission at the City Council Chambers

Commissioners at Wallaceburg This Afternoon—The Sugar Growing Industry

Two sessions of the Canadian tariff commission in Chatham and Wallaceburg to-day gave opportunity to farmers and manufacturers alike to air their grievances about the present tariff rates as the latter appealed to their particular cases. The commission is composed of Hon. W. F. Fielding, minister of finance; Hon. William Patterson, minister of customs, and Hon. L. P. Brodeur, minister of inland revenue, and all three members took an active part in asking questions of the witnesses who appeared at the two sessions. The sessions were held in the council chambers, Harrison Hall, and the Wallaceburg Board of Trade had charge of arrangements there.

Kent county is interested in numerous branches of industry and most of them had ardent representatives to give testimony before the commission, and it was nearly one o'clock when the Maple City session closed, the commission leaving for Wallaceburg on the Pere Marquette special at 1:30.

Charles Stephens, of Dresden, representing the West Lambton Farmers' Association, made an eloquent address on behalf of the agriculturalists, asking for greater justice to so much self-interest. He urged freer trade and less restricted duties.

"We farmers have been watching the meetings of the Tariff Commission," he declared, "and we've said 'I'll break down listening to your intelligence don't believe it. If governments are not to look after the interests of the people, what for the name of God are they for? Just to ask for greater justice to the people's money? We hope not, and look for strong action from you gentlemen."

C. G. Hall, representing the Farmers' Association, asked greater reduction of duty on manufactured articles.

Thomas Barnes spoke along the same lines, earnestly on behalf of the farmers of Southern Kent and appealed for greater consideration to the agriculturalist.

Hon. Mr. Patterson asked Mr. Barnes whom he represented.

Mr. Barnes said 500 organized farmers.

Hon. Mr. Patterson asked if farmers did not want greater protection.

Mr. Barnes said farmers did not ask for increased duty. They asked for no favors but did desire the manufacturers to have special protective privileges.

Hon. Mr. Fielding—Yet it is a remarkable thing that the highest protection requests we have received are from farmers. We have heard requests for 40 per cent. duty from manufacturers, but the other day we had farmers asking for 300 per cent. duty. What do you think of that?

Mr. Barnes—All I can say is that they must have been farmers run wild. I believe the meanest men and the best men are found among the farmers. I am impressed with the idea that you are getting the mean kind before you.

Hon. Mr. Brodeur asked concerning the duty on tobacco.

Mr. Barnes thought all should share alike.

David Wilson, secretary of Farmers' Association, spoke along the same lines.

County Commissioner Joseph Horn asked for tariff for revenue only.

James Innes, representing the manufacturers of cooperage stock, presented a petition asking that a duty of 10 per cent. be placed on staves.

N. H. Stevens, for the Canada Flour Mills Co., appeared in the interest of the corn meal mills and asked an increase of duty on corn meal.

Hon. Mr. Fielding said the matter was one of freight rates and he believed should be handled by the railroad commission.

Caleb Wheeler desired to deal with the export of fresh fish, upon which he recommended a prohibitive duty, except on carp.

Ald. Marshall for the Defiance Iron Works asked for an increase of duty on gasoline engines.

WAS KICKED BY HORSE

Seth Crowell of Croton Receives Serious Injuries as Result of Accident

Went to Stable to Attend to his Horse When Animal Kicked Him and Tramped Upon Him

A very serious accident occurred in Dover Township this morning, as a result of which Seth Crowell, of Croton, had a very narrow escape from death. He now lies in the Public General Hospital in a critical condition.

Mr. and Mrs. Crowell were guests at the residence of Mr. and Mrs. Glover, Baldon street, about six miles from the city. They went to Dover to attend the wedding of David Clark, of Bear Creek, to Miss Burke, of Dover, which was performed at the home of the bride last evening.

This morning Mr. Crowell went out to the stable with Mr. Glover to attend to his horses. When he entered the stable the horse kicked him in the head, knocked him down and tramped upon him. The unfortunate man received some internal injuries and a severe wound in his head. He would probably have been killed but for Mr. Glover, who was in another part of the stable and went to the rescue.

The horse is not a vicious one, but was in a strange stable, which no doubt accounts for the accident. An electric car had passed the house and Mr. Crowell was removed to the Public General Hospital, where his injuries were attended to by a local surgeon.

NEW JANITOR

Albert Cable Was Appointed to Take Anthony Edwards' Position in Central School

The Central School managers met in the school last evening for the purpose of appointing a janitor to fill the vacancy caused by the resignation of Anthony Edwards. Several applications were received, and the appointment was given to Albert Cable, his duties to commence on the first day of December. His salary will be \$30 per month.

Other small matters, such as the plumbing connections with the Chatham Heating Company's pipes, and the matter of purchasing checks and stops for the doors in the school were dealt with.

There were present at the meeting Chairman Paxton and Trustees Benson, Robertson and Lenfestey.

DESERTERS

Two Soldiers One From London and the Other From Toronto Arrested in Chatham This Morning

Yesterday afternoon the police authorities received a telegram from the military headquarters at London warning them to be on the look-out for a couple of deserters. Tom Groves and James Dodson were put on the case and they located their men this morning about one o'clock at the C. P. R. station.

The deserters' names are Robert Walde, of London, and James Phillips, of the Engineers, Toronto. They were making their way to Detroit and were found sleeping in a box car. Walde is a Scotchman about three months out from the Old Country. Phillips' home is in South Africa. He served all through the South African war. They both take their arrest very coolly and joke about it this morning in the Police Court.

Phillips wrote to Walde that he would join him in London. Before they left London on their way to Detroit they got drunk and they were not sober when they arrived in Chatham. They were easily detected as they had their military coats with them.

The men will be taken back to London to-day. The smallest penalty they can be given is 14 days in the guard house. They claimed they were going west where they had received positions on a ranch.

FINE ADDRESS

Dr. Thornton attended the meeting of the Epworth League on the 8th concession, Raleigh, last evening and delivered an address on Christian Citizenship. There were a large number at the meeting; the conclusion of which a hearty vote of thanks was passed to the doctor for his excellent address.

Edwin Hea presided over the meeting. This society is in a flourishing condition under the leadership of their president, Mr. Taylor, and its meetings are always well attended.

Miss Gertrude Hollis was also present last evening and contributed a number of fine solos, which were greatly appreciated and added much to the enjoyment of the evening.

Miss Anna Carson acted as accompanist.

SMITH IN WENTWORTH

Liberals Claim an Error, But Conservatives Celebrate.

Aylesworth Gets a Majority of 500 in North York—Visited Patronage Factories on the Eve of Election and Got His Majorities in Aurora and Newmarket—Pardee Loses More Than Half Liberal Majority—Chisholm Drops Over 500 Liberal Majority in Antigonish, N. S.

Hamilton, Nov. 23.—The complete returns for Wentworth give E. D. Smith, Conservative, a majority of eight over W. O. Sealey. Even the Liberals admit that the figures that they have obtained give Smith that majority, but they claim there is a mix-up in one of the Glanford divisions. The Conservatives think that a recount will increase their candidate's majority. Smith had majorities in seven out of ten municipalities.

Smith's majorities were as follows: Balfour, 241; Dundas, 153; Barton, 55; Glanford, 11; Binkhoe, 25; East Flamborough, 42. Total, 549.

Sealey's majorities were: Ancaster, 271; Beverly, 210; West Flamborough, 60. Total, 541.

The above figures show that Binkhoe, Barton and Glanford changed Liberal majorities into Conservative majorities.

The Conservatives held a celebration in honor of their victory at Dundas. There was a procession and a mass meeting in the Drill Hall where Mr. Smith delivered an address.

Aylesworth in North York. Newmarket, Nov. 23.—Hon. A. B. Aylesworth, Postmaster-General, was elected in North York yesterday by a majority of 500 over Archie McCaul.

The victory was won after a strenuous fight, which ended with a stunning Liberal majority of 492 votes as compared with the election of Sir William Mulock two years ago. Aurora and Newmarket gave large majorities for the Postmaster-General. That in the Liberal majority of 492 votes as compared with the election of Sir William Mulock two years ago.

During the last few days of the campaign Mr. Aylesworth visited the various factories in these two places, and it is said that the men were advised that if Aylesworth did not win the future of the industries might not be very good.

When he came up to Newmarket after the polls closed, the members of the local association gave him a rousing reception. There was a torchlight procession, led by the 48th Highlanders' Band of Toronto, and a public meeting at the Town Hall, where the mail bags were manufactured and where other Government patronage is distributed.

Aylesworth's majority, 500. Pardee in West Lambton.

Sarnia, Nov. 23.—The election to fill the vacant seat in the Commons resulted in West Lambton electing F. F. Pardee, in opposition to R. E. Lonsauer, the Conservative candidate. The Conservatives of West Lambton have every reason to feel gratified at the result of the polling. Before 8 o'clock Pardee's election was conceded. So far as heard from, Mr. Pardee's majority is given at 350, with about 25 polling subdivisions to hear from. Judging these on the same basis as the vote given in the election in 1904, these places will reduce Pardee's majority to about the 200 mark. In the last election in 1904 the Liberal majority was 447.

Chisholm in Antigonish. Halifax, N. S., Nov. 23.—The bye-election yesterday in Antigonish resulted in the election of Wm. Chisholm, Liberal, by about 250 majority over E. L. Jerrior, Conservative. The chief issue of the campaign was the salary grab, which was opposed strenuously by a Conservative candidate. The Liberals had the county full of stump speakers throughout the campaign, while Jerrior fought single-handed and succeeded in reducing the Liberal majority for Melness in November, 1904, of 505, to 250 yesterday.

Liberal Loses in a Year. The returns are not yet complete but enough is known to enable a comparison to be made with the results of a year ago. At the general elections all four constituencies returned the Liberal candidates, and with the exception of Wentworth, all gave large majorities. These majorities have been greatly reduced. The figures of a year ago, and those of yesterday are:

North York—1904—Liberal majority..... 562
1905—Liberal majority about..... 500

Wentworth—1904—Liberal majority..... 50
1905—Conservative majority..... 8

West Lambton—1904—Liberal majority..... 447
1905—Liberal majority..... 175

Antigonish—1904—Liberal majority..... 509
1905—Liberal majority..... 247

Mr. Borden on Resignation. Toronto, Nov. 23.—E. L. Borden went to Ottawa last night pleased more than disappointed with the result of the bye-elections. Before leaving he remarked on the fact that in the constituencies other than Wentworth the majorities had been so considerably reduced that it was a matter for congratulation.

Down in Antigonish the small Liberal majority was a surprise. He was elated over Mr. Smith's victory.

LUBRICATION.

If every man who "toggles year in and year out to make both ends meet in his business without advertising would take a day off to investigate the value of publicity he would return to his office next morning converted. Such a man would not need to carry his researches beyond the limits of his own family. Let him ascertain how his wife came to purchase the articles where. Let him inquire whether the foods that appear on his table are or are not advertised. Let him consider whether there is any connection between his own expenditures and publicity. Let him observe whether the members of his family and his neighbors in reading their papers look over the store news, as well as the local and telegraphic news. And then let him join the great army of money-makers who advertise regularly in the newspapers, and abandon the effort to run a complicated piece of business mechanism without the aid of lubrication.

GOOD MELODRAMA PLOT.

The hitherto unrecorded incident of the Crown going into safe-breaking is what is reported from the provincial capital. Crown Attorney Curry, by proxy, broke into two vaults in the office of Jenkins and Hardy, and, as a protection to the Crown, six detectives stood at hand while the job was put through. Truth really is stranger than fiction, and no doubt some enterprising writer of plays will use the incident as the basis of a play. The discovery of evidence of a plumbers' combine, the details of which are being vigorously unearthed, would make the basis of the first act, and the third act would tell what the courts did in the matter. The second and important act would give a good representation of the action in the office upon which the law swooped down. The imaginative mind can easily understand that the play would make a big hit on account of the "thrilling situation of the opening of the vaults."

However, whether or not the importance of the action of Crown Attorney Curry has been overstated from the viewpoint of theatrical managers there can be no doubt that the decisive, quick action of the Crown is appreciated by a great majority of the people. No better evidence of the determination to bring the combines to time could be given than the handling to date of the case against the plumbers. The law is losing its reputation for being slow, and it would seem that it is also forgetting to be a respecter of persons. No surprise is caused when detectives search a man's house for evidence of theft, and the surprise which the search of the office so suddenly entered has caused is proof that the law has not pursued the big fish as relentlessly as the small.

DON'T DOSE THE STOMACH

Hymel Cures Catarrh by Breathing Aromatic Healing Air.

You cannot afford to risk permanent loss of health by taking strong drugs into the stomach in the vain hope of curing catarrh of the nose and throat. The only true way of curing catarrhal troubles is by the use of Hymel, which is breathed through a neat pocket inhaler that comes with every outfit.

Hymel is not a secret remedy, and its formula is given to all reputable physicians. Its base is the famous eucalyptus oil. This is combined with other healing, aromatic gums and balsams, so that when using Hymel, the air you breathe is filled with germ-killing, health-giving, curative powers. It kills all catarrhal germs and restores the mucous membrane of the nose, throat and lungs to a perfectly healthy condition.

The complete Hymel outfit, consisting of a neat pocket inhaler, a medicine dropper and a bottle of Hymel, costs but \$1.00, and extra bottles can be obtained for 50 cents, making it the most economical method of curing catarrh as well as the most reliable.

BETTER THAN THAT.

Well, Pat, how do you like this country? It's a mighty fine country. Have you got a job yet? No; but I have a friend who is just about getting me a pension.

The hot-headed fellow is generally quickest to get cold feet.

ANNOUNCEMENTS.

At The Grand—
Slaves of the Mine—Nov. 25.
Mark Bros. Combined, week, commencing Nov. 27.
His Highness the Bey—Dec. 11.
(Supplied to The Planet by Press Agents).

VERY STRONG AND VERY GOOD. something very strong will be given at the Grand on Saturday night, in "Slaves of the Mine," a comedy drama by Daniel L. Hart and C. E. Callahan. Mr. Hart is a young Wilkes-Barre journalist, and the author of "The Parish Priest," the brilliant play in which Daniel Sully has been starring, and Mr. Callahan is

credited with writing "Coon Hollow" and "Fog's Ferry." "Slaves of the Mine" contains the same witty flow of language, which characterizes the other pieces, and, besides, has a bustling plot, strong climaxes, and a scenic thriller in a vivid explosion of a dump. The production, which is to be given at the Grand on Saturday next, will be staged entirely with special new scenery and presented by a company of merit, and will introduce appropriate specialties forming part of the comedy.

Prices, 25, 35 and 50 cents.

MARKS BROS. ONCE MORE. The annual visit of Marks Bros. is looked forward to by the show-loving public as confidently as that of Joe Murphy, and the opening bill at the Royal Opera House last night was greeted by a packed house. "Her Irish-Canadian Cousin" was the play presented, with Ernie Marks as Teddy O'Fallen, the cousin in question. The performance was evidently acceptable to the audience, and the company deserves patronage, when the prices charged are considered. To-night "Life in New York" will be presented, and there is every indication that the company will continue to play to good business during their engagement, which is for the balance of the week.—Galt Reformer, Nov. 14th, 05.

Marks Bros' date for Chatham is all next week. On Monday they play "In Old Kentucky," with some of the very latest Vaudeville between acts, which includes the best of moving pictures. On Wednesday and Saturday matinees will be given. Prices, 20, 15 and 25 cents. Matinee prices—children 5c, adults 10c.

JAMES HARDY CHARGED

Conspiracy Alleged Against Promoter of Combines.

First Technical Charge Is That He Conspired With Others to Restrain and Injure Trade in Enamel Ware—Various Firms May Sue Plumbers For Money Out of Which They Have Been Defrauded.

Toronto, Nov. 22.—Crown Attorney Curry continued his search in the alleged combine offices all day yesterday. A large cartload of books was taken from the office and placed in No. 1 Police Station, where they will be kept until he finishes his search and brings the matter before the magistrate. He will continue taking away such documents as he requires to help out his case. "There is six weeks' work ahead of me," said the Crown Attorney.

Another Information. In the Police Court yesterday a new information was sworn to by Detective Black. It is against James Hardy "and other persons whose names are at present unknown," and states "that they did, contrary to law, conspire, agree and arrange, the one with the other or others of them, to restrain and injure trade in enamel ware, and to unduly prevent and lessen competition in the production, manufacture, purchase, barter, sale and supply of said enamel ware and other such goods, contrary to the statute."

The proceedings in the Police Court were extremely short. D. R. Thomson, K. C., appeared for Mr. Hardy, but did not talk. In fact, no one spoke on behalf of the combines. Crown Attorney Curry, when the case was called and the new information laid yesterday was read, announced that he wanted a week for a remand.

"There is no election in this case, is there?" asked Magistrate Denison. "None without pleading," answered Mr. Curry, and the magistrate remanded the case until next Tuesday. Mr. Hardy, who had been standing at the back of the court during the earlier proceedings, pushed to the front and was informed of the remand, after which he left the court in company with his lawyer.

Plumbers' Case Goes Over. The plumbers' conspiracy case was enlarged by Magistrate Denison in the Police Court for a week, and said that he thought it likely that he would be ready to go on then.

One feature of the day was the announcement that different firms intend to sue the master plumbers for the money out of which they have been defrauded. Warwick Bros. & Rutter, one of the firms forced to build in a hurry after the big fire, may sue the firm installing their plumbing and stealing from it \$1500. Among the other firms "soaked" on their plumbing contracts were: W. R. Brock, A. Ansley, Cockburn & Rae, Gordon, Mackay & Co., R. G. Dunn, Alcock, Lyle & Westwood, Brown Bros. and A. Brax & Sons. The W. R. Brock plumbing cost in the neighborhood of \$15,000.

Homeward Sanitarium Sues. The first municipality to take action is Galt. The Galt Sanitarium Association has received instructions to proceed against the Master Plumbers to recover \$300 alleged overcharge by the Toronto association.

The Montreal Master Plumbers Association has issued a positive denial that any attempts have been made by their association to prevent honest competition. In Hamilton the association quit business two weeks ago. "We did not do things as they were done in Toronto," says one member. "It seems to have been a case of graft there. But when question came as to the legality of our operations we quietly went out of business."

TREATED AS DESERTERS.

British Sailors Wept as the Squadron Sailed Without Them.

New York, Nov. 21.—About 200 sailors from the British squadron, commanded by Prince Louis of Battenberg, were missing from their ships when the squadron made ready to sail yesterday. Several of those who had overstayed their leave were turned away when they tried to board their ships. As it was within a few hours of the fleet's sailing time when they made their belated appearance, the officers treated them as deserters. The officers said that they had lost these men, on the principle that they are worthless and their loss a good ridance. Many of the rejected sailors cried.

Commissioner Watchorn said that a fine of \$2 a head would be levied on the prince's fleet for every sailor who appeared to have been left stranded in New York, the same as imposed on captains of transatlantic steamers for every immigrant smuggled into the United States without due examination. The British ships weighed anchor shortly before noon and proceeded down the Hudson River, bound for Gibraltar. Before sailing, Prince Louis paid an official farewell visit to Admiral Evans on board the battleship Maine. As the prince and his party left the Maine to go on board the flagship Drake the American sailors cheered him.

As the squadron passed Governor's Island, the headquarters of the army of the east, a salute was fired from the island, and each cruiser as it passed replied with an equal number of its guns.

The squadron passed out by Sandy Hook before 1 p. m. In passing, the Drake signalled: "Farewell; hope to return."

All diseases peculiar to women are treated with success. This consultation by letter is absolutely free. Every letter is treated as strictly private and carefully confidential. Answers are mailed promptly giving the best of medical advice. All answers are sent in plain envelopes bearing on them no printing of any kind. Write without fear and without fee to Dr. R. V. Pierce, Buffalo, N. Y.

THAMESVILLE

Nov. 22.—The meeting held in the town hall last night in the interest of the proposed Tecumseh monument for our town park was a huge success.

The hall was well filled and the speakers did well. Philip Bowyer, M. P., spoke of the great appropriateness of having the monument of the brave Indian chiefs here in Thamesville Park, as being nearest the scene of battle. Everyone was delighted to hear Mr. Bowyer once again. He was accompanied by Ben. Willson, also from Ridgeway.

Mr. Tobias spoke in a very masterly and pleasing way, remarking, as an introduction, that he hoped the time would soon come when his race should have equal rights, politically and socially, with the white man. He also said: "The earth has drunk no braver blood than that of our brave Tecumseh."

Albert Tobias also spoke with eloquence and power. He told of a gamester man once asked him all about Tecumseh. He told him, when the stranger asked him to stand for his picture, Tobias said he would willingly, if the picture were not to be put in a "Bible," he said, "my picture in shirt sleeves in the Toronto papers!"

Many citizens in town spoke well, putting forth reasons why Thamesville should secure the Tecumseh monument. A few of these were: Edgar Sherman, Dr. Stewart, G. A. Fraser, and others. D. A. Gordon, M. P., was unable to be present.

G. A. Fraser, in his usual kindly way, as he had entertained the visitors to oysters after the meeting.

Mrs. Duncan Bentley, Master LeRoy and Miss Josephine, from Detroit, are visiting at the home of Mrs. Wilbert Milton.

Will DeFenier is spending the day in Wallaceburg.

A number from our village went to Chatham yesterday for the formal opening of the new electric road to Wallaceburg.

John Davidson, from Chatham, is spending a few days in town.

A number of musical people are planning to go to Chatham, Friday, Dec. 1st, for Miss Hillman's recital.

Your Throat.

Gargles can't go back far enough, sprays don't reach deep enough; but the air you breathe touches every part. Then why not put some healing medicine in the air and let them go along together? That is what Vapo-Cresoline is for. It puts the healing medicine right on the places that most need it. You now see why it so quickly cures sore throat, bronchitis, hoarseness, whooping-cough and asthma.

Vapo-Cresoline is sold by druggists, or sent prepaid on receipt of price. A Vapo-Cresoline outfit including a bottle of Cresoline, complete \$1.00. Send for free illustrated booklet. L. J. Laroche, Mfrs. Co., Ltd., Agents, 488 St. James Street, Montreal, Can.

SUNLIGHT SOAP

is better than other Soaps but is best when used in the Sunlight way. Follow directions.

SUNLIGHT WAY OF WASHING

FIRST—Dip the article to be washed in a tub of lukewarm water, draw it out on a washboard and rub the soap lightly over it. Be particular not to miss soaping all over. THEN roll it in a tight roll, lay in the tub under the water, and go on the same way until all the pieces have the soap rubbed on, and are soaped up.

Then go away for thirty minutes to an hour and let the "Sunlight" Soap do its work. NEXT—After soaking the full time rub the clothes lightly on a washboard, and the dirt will drop out of the garment inside out to get at the seams. Do not use any more soap; don't scold or yell a single piece, and if the water gets too dirty, pour a little out and add fresh a streak to hard to wash, rub some or soap on it, and throw the piece back into the tub for a few minutes.

LASTLY COMES THE RINSING, which is to be done in lukewarm water, taking special care to get all the dirty suds away, then wring out and hang up to dry.

For Woolens and Flannels proceed as follows:—

Shake the articles free from dirt. Cut a slab of SUNLIGHT SOAP into shavings, pour into a gallon of boiling water and whisk into a lather. When just lukewarm, work articles in the lather without rubbing. Squeeze out dirty water without twisting and rinse thoroughly in two changes of lukewarm water. Squeeze out water without twisting and hang in the open air.

The most delicate colors may be safely washed in the "Sunlight" way.

\$5.00 REWARD will be paid to anyone who can prove that Sunlight Soap contains any injurious chemicals or any form of adulteration.

5c. Buy it and follow directions. 5c.

SOUTH AMERICAN JAGUARS

The Only Animals That Will Purposely Attack Alligators.

The most interesting thing about crocodiles and alligators, declares the author of "The Romance of the Animal World," is the way they get their food. This they do mostly and by preference in the water, but they have also a habit of lying in wait upon the mud of river banks until some animal approaches sufficiently near to be within their reach.

Lying sunk in the mud and of the color of mud themselves, they may well be mistaken for a log. A wild pig or some other animal fond of rooting in the mud sees the long, shapeless object, but is not disturbed by it as he roots happily among the reed beds. He looks up suddenly to find that the log has moved. One end of it, the longest, thinnest end, the tail, is gliding away in a curve; but, like an arrow loosed, it flies back and meets the body of the pig with a tremendous sideways blow, and the poor pig falls in a heap.

With a sudden swift stroke the alligator is upon him, and, seizing the body by the skin, which it holds puckered up between its front teeth, it shakes it furiously, as a terrier would a rat, and then half drags, half pushes, it before it as it crawls through the mud to the water's edge.

There is only one wild animal, says the author, that will purposely attack an alligator, and that is the jaguar of South America. The jaguar springs on the back of the alligator and with all his might tears at the roots of the reptile's tail. This possibility is with the idea of paralyzing that member, thus rendering it incapable of those mighty sweeps from side to side which are more to be feared than even the great armed jaws.

The fear of both these weapons may deter the jaguar from clawing the throat of the saurian, for were he to be shaken off in the latter struggles he would be more exposed to either than if he fell farther back.

Instances of the jaguar's success in destroying the alligator are given by various observers.

DON'TS ON NAMES.

Don't name a girl Violet when her disposition may be that of a tiger lily. Don't hamper a boy with a name that will prove a heavy handicap in life.

Don't name a baby after a hero unless the hero has been dead several years.

Don't name a girl after a flower. Think of an old woman called Pansy or Daisy!

Don't tack a fancy name on a kid. It makes him a target for his companions.

Don't name a child after a relative from whom you have "expectations." The relative may get angry.

Don't forget that the man with the common name of William is more likely to write checks than one labeled Percy.

Dog Tried, Convicted and Hanged.

William Chambers, the famous English publisher, once related an extraordinary story of a sheep thief hanged at Peebles and buried at crossroads with a stake through his body. The remarkable feature of the case was that the thief's dog was tried for aiding and abetting in the crime, convicted, hanged and buried along with its master. It was proved at the trial that the man when out with the animal used to indicate to it some particular flock of sheep he wanted. After reaching home the dog returned to the place, rounded up the sheep and by devious ways, and only after dark, drove them home. There they were kept for some days and their owners' marks destroyed or "faked." They were then graded with others legitimately purchased and driven to the English markets.

Don't Be a Chouse.

The word chouse was formerly written chaus and is of Turkish origin. A Turkish interpreter, or chaus, in London in 1609 swindled some merchants with whom he had dealings out of a large sum of money, and thenceforth a chaus became the popular name for a thief.

Ben Jonson in the "Alchemist" makes use of the word in its original form: Dapper—What do you think of me that I am a chaus?
Face—What's that?
Dapper—The Turk who was here—as one would say, do you think I am a Turk?—London Standard.

Why the Ocean Doesn't Freeze.

If the ocean did not have salt it would freeze somewhat more readily than it does now, but there would be no very marked difference. The ocean is prevented from freezing not so much by its salt as by its size and by its commotion. On account of its size, large portions of it extend into warm climates at all seasons, and by reason of its great depth it is a vast storehouse of heat. Its currents distribute much warm water among the cold.

BORDEN AT AURORA.

Leader Glad to Support So Sturdy a Conservative Candidate.

Aurora, Nov. 22.—The last act in the North York campaign, which may go down to history as one of the initial fights of the return to good government at Ottawa, with a deeper consideration of the rights of the common people against the aggressive influences of the corporations, was witnessed last night at a meeting of Archie McCallum's supporters here. Mechanics' Hall was crowded to inconvenience. The presence of R. L. Borden, M.P., drew many from different parts of the riding but the candidate's reception showed that he had aroused enthusiasm that augurs well.

Mr. McCallum announced himself as a follower of the general policy of the Conservative party and a supporter of Mr. Borden. When he had accepted the nomination he had laid down certain planks which he thought were entitled to deep consideration. For years he had been an earnest advocate of the operation of public utilities by the Government.

R. L. Borden stated his pleasure at being present to support so sturdy a candidate. Mr. McCallum was one against whom the finger of reproach could not be raised. In a constituency like North York where there were 4,000 farmers out of a total of 5,500 voters, it was not surely asking too much to expect a parliamentary representative to be chosen from among the farmers. There were enough farmers at Ottawa already. After touching upon the position of the Liberal candidate, he said nine-tenths of the Grand Trunk Pacific Railway would be paid by the people of Canada and the other tenth should have been paid and owned by the people. The operation of the Intercolonial Railway was no criterion of the non-success of the Government Ownership of Railways. This road should be extended as the Opposition had advocated.

Organizations for Farmers.

Almost every other branch of industry in the United States has its organizations, its unions or its trusts, for the purpose of advancing the interest of its members. The farmers are about the only workers in the American "bee-hive" of industry who have no large organization. Their products amount to more than any other line of industry. The crops of the farmer and planters amount in a single year to 5,000,000 of dollars. Usually the farmer is vigorous. He should have a healthy body, yet it is a noteworthy fact that many American farmers are dyspeptic, emaciated and unhealthy, with blood in bad condition, and perhaps suffering from catarrh. These are the spring causes around and the hard work of this year begins he feels tired out and suffers from spring fever. He goes wearily to the plow. The languor, heaviness and lack of energy, the variable appetite and uneasiness on the skin, the general look as big as mountains, and perhaps to all other discomforts is added some or sundry of the crops of the farmer and planters can be found in the condition of the blood. Dr. Pierce's Golden Medical Discovery cleanses the blood from the impurities which clog and corrupt it. It increases the activity of the blood-making glands, so that the supply of pure, healthy blood is increased, and the whole body built up with the good, sound flesh.

OF COURSE.

Bragg tells me he got mixed up in a scolding yesterday.
Did he get the best of it?
Of course. Otherwise he wouldn't have said anything about it.

BABY'S SNAP.

What a snap the baby has.
If it only knew!
Everybody waits on it.
And says "Peekaboo!"
Grandma, when she is around
Holds its lightest whim;
Papa is an easy mark;
It is boss o'er him.

Has a carriage of its own
When it needs the air.
Where his friends can see
From the doorway gaze.
Older ones must go outside
When it wants to sleep;
Has about a dozen guards
When it learns to creep.

Grandpa wants to dandle it
Lightly on his knee
Or to carry it about
Where his friends can see;
Uncles bring it jumping jacks
Every time they come;
If it has an ache or pain
Every one is glum.

But another baby comes
When it's three or four;
Then its nose is out of joint,
And its way is o'er;
Now when it is small and cute
And can only coo
What a snap the baby has,
If it only knew!

Opposite Stars.

While the star of empire, according to a time honored custom, continues to jog along westward for the purpose of growing up with the country, there is another star, a professor in the University of Chicago, who is taking his way eastward for the purpose of spending a year among his friends, a race of cannibals in Africa.

He doesn't expect to deliver a lecture on "How it Feels to Be Eaten by a Friend" on his return, but he does hope to run down some interesting facts about these primitive people for the benefit of those who feel they wouldn't make good pot pie even if they had the time.

It is to be hoped that the professor will be able to come back all in one piece and that he will receive much comfort as well as spiritual uplift from his association with this race of epicures.

An Enemy.

When the mosquito sings his song
And meanwhile makes a sly attempt
To have you think he means no wrong,
Do not treat him with contempt!
No, honor not his slightest whim,
But make a grease spot out of him.

For the mosquito, so they say,
Is nothing but a ray deceiver.
And he will come around some day
And load you down with yellow fever;
So, honor not his slightest whim,
But meet him with your trusty rifle.

THE SCAFFOLD FELL.

One Man Was Killed and Another Got a Dislocated Shoulder.

Toronto, Nov. 22.—The falling of a scaffold at the new works of the Consumers' Gas Co. on Eastern avenue, near Bath avenue, caused the death yesterday afternoon of one man, the injuring of another and the narrow escape of a third. The dead man is David Finn, laborer, aged 24, of Chester. The injured is Robert French, Chester. They and another man were on the scaffold when a heavy iron sash, which was being placed in position above them, fell, striking the platform, causing it to partially upset and loosen it from its fastenings, causing it to fall. Finn fell on a pile of bricks and was instantly killed. French, who was on a pile of sand and escaped with a dislocated shoulder. The other man caught a cross beam and climbed to safety. Finn leaves a widow and a young child. An inquest will be held.

A STRONG HEART AND STEADY NERVES

Very important it is in this age of competition to have a clear cool head, a strong heart and steady nerves. Too much rush and bustle, worry and fall to the lot of the average business man—his heart and nervous system will not stand it—he gives them too much work to do. Women also are doing the same thing attending to their household duties and looking after their social obligations. The constant strain under which they have to continue day in and day out, the irregularities of habits and food, the physical breakdown or nervous prostration.

MILBURN'S HEART AND NERVE PILLS

are the remedy you require to restore your strength and health. Their extraordinary curative power manifests itself immediately they are taken. Through the medium of the nervous system they impart a strengthening and restorative influence to every organ and tissue of the body. Many have been cured, among them being Mr. Ray V. George Baird, of Blenheim, is a Chatham visitor to-day.

Miss Jean Campbell, of Blenheim, was in the city yesterday.

Mr. and Mrs. A. P. Foulton, of Wallaceburg, were visitors in the city Tuesday.

Mr. and Mrs. J. C. Shaw and Mr. and Mrs. H. E. Johnson, of Wallaceburg, were Chatham visitors Tuesday.

Thanks to a liberal and judicious use of printer's ink and an energetic committee, the A. O. F. excursion to Sarnia on civic holiday, August 14, was a success, nearly \$50 being added to the excursion fund of the Court.

The committee having the matter in hand, and to whom the Court is indebted, was composed of B. Oldershaw, chairman, John Head, John Conibear, Robert McPaul, Wm. Palmer, and A. E. Lafestey, secretary.

Considering the several counter attractions on that day, it is considered highly satisfactory to Court Hope.

J. C. Tassie, of Dresden, was in the city yesterday.

The first load of commercial baggage to go over the G. W. & L. E. electric railway left the Garner House yesterday morning about a quarter to twelve o'clock.

MEET TO-MORROW

The special committee of citizens and members of the Macaulay Club interested in the Tecumseh monument project will meet to-morrow afternoon at four o'clock in the Public Library auditorium. D. A. Gordon, M. P., and P. H. Bowyer, M. P., will be present and a large attendance is requested.

AMBITIOUS BOY

Little Nathan had been taken to his father's office, where, it appears, he was considerably impressed. Afterward at home he made known his intentions concerning the future.

"When I get to be a man," he said, "I'm going to make lots of money, like papa does."

His parents gave him to understand that they approved of his ambition, but for which Nathan indulged for some time in serious thought. At last he turned to his father, asking:

"Papa, is sitting in a chair that turns around all you have to do to make money?" — Chicago Record-Herald.

A GOOD GAME

The following game is very popular with little French children, and may help you to pass some pleasant moments, says The Pittsburgh Press:

"D," for instance. Each player with pencil and paper is told to write the name of a country, river, mountain, city, soldier, artist, writer, musician and statesman, all beginning with the letter "D."

At the end of five minutes the lists are closed. One reads the names from his list, and those having the same names on their lists scratch them off. The winner of the contest is the one having the most names not on the list of others. The fact of his names being more uncommon shows him to have the greater knowledge and memory.

This game is well worth trying, and will be enjoyed by every member of the family.

LARGE FUNERAL

The funeral of the late Harry Taylor took place this afternoon at three o'clock. A very large number of friends were gathered at the residence, Queen street, also many commercial travellers from Toronto and Windsor. Among the number were Dr. Smith, Robert Stewart, Bloom, Hickey and Halter.

The funeral services were conducted by Rev. Dr. Battisby, of St. Andrew's church, and Rev. Mr. MacGillivray. The pall-bearers were Messrs. E. R. Smith, Glenn, Phillips, Somerville, Turner and Young.

The casket was covered with flowers and wreaths, many of which were given by the travellers and other friends. Among the number was a wreath of white roses, also a wreath of chrysanthemums from Robert Stewart, and a link of white carnations from the I. O. O. F.

The Veteran Firemen and the Odd-fellows attended the funeral in a body. During the funeral the bell of the Fire Hall was tolled out of respect for the deceased ex-fremen.

INDUCTION

Rev. Mr. Cowan Successfully Proclaimed Pastor of the St. Paul's, Bethel and Ridge Pastorates

The induction of the Rev. Hugh Cowan as pastor of the congregations of St. Paul's, Bethel and the Ridge took place at St. Paul's church, Harwich, Tuesday. Ideal weather and good roads were factors in drawing an immense assembly to the services and the new pastor was very heartily welcomed to his new pastorate.

The Rev. Mr. McQuarrie, Valetta, moderator of the Chatham Presbytery, presided, and around him were twelve members of the Chatham Presbytery. Mr. McQuarrie called on the Rev. Mr. Hare, Botany, to conduct a service, after which the moderator performed the ceremony of inducting Mr. Cowan.

Dr. Battisby addressed the pastor, and with all the fervor, eloquence and solemnity of which the doctor is capable was the task done.

Dr. Munro, of Ridgeway, then addressed the congregation, plainly laying before them their duties and complimented them upon securing such a capable man as their pastor.

The choir of Bethel joined with the home choir in the song service, which was very bright and added much to the enjoyment of the induction.

St. Paul's people presented Mr. McQuarrie, the moderator, with a cane as a memento of his duties here. After the services adjourned to the banquet hall, where the ladies had provided a plentiful and excellent supper.

Never before has a more successful induction been held in this district, and the pastorate of St. Paul's, Bethel and the Ridge have every reason to feel gratified in securing Mr. Cowan as their church leader. There is a very bright future in store for the people of Harwich, and Mr. Cowan gives the impression of being a capable man to carry on the good work.

SUDDEN DEATH

A very sad death occurred in Dover last evening when Mrs. Henry Thibodeau passed suddenly away. The deceased lady has been ill for some time but it was not thought her condition was dangerous. Last evening she became worse and Mr. Thibodeau went to his point to get a girl to do housework. Fifteen minutes after Mr. Thibodeau left home his wife was dead.

Mrs. Thibodeau was 60 years of age and leaves, besides her husband, a family of three sons and two girls to mourn her loss. The family is well known throughout the county and heartfelt sympathies are extended.

NEW HEATING

The Market Committee Met Yesterday Afternoon and Awarded the Contract to Jas. Watt & Sons

The Market committee of the City Council held a meeting yesterday afternoon at five o'clock and awarded the contract for heating the market to James Watt & Sons for \$847. Mr. Ratley was instructed to prepare the contract at once.

It is expected the heating will be installed within the next two weeks. It was decided to notify the janitor of the market of his appointment and order him to report for duty the first of next month.

The Property committee is at present receiving tenders for a new smokestack for the electric light plant. The present one has been up for about ten years and is now in a decayed condition.

There were present at the meeting Chairman King, and Alds. Ainsworth and Westman and Architect Rutley.

HOCKEY

Chatham Club Has Been Re-Organized for the Coming Season—Election of Officers

A meeting was held in the Garner House last evening for the purpose of re-organizing a Chatham hockey club. There was a very good attendance and the business of the evening was very successfully accomplished.

The following officers were elected for the ensuing year:—
Patrons—H. S. Clements, M. P.; A. E. McCoig, M. P. P.; Mayor Cowan, Jas. Fleming, Dr. J. L. Bray, Chas. Heath, W. E. Risin, A. C. Wood, Ward, S. Stephenson, Wm. Stone, Dr. McLachlan, O. L. Lewis, Rev. A. H. MacGillivray, Manson Campbell, W. A. Hadley and Fred. Stone.

Hon. Pres.—Robt. Gray.
Hon. Vice-Pres.—Dr. Cornell.
Hon. Second Vice-Pres.—W. D. Sheldon.
Pres.—John McCoig.
Vice-Pres.—L. E. Tillson.
Second Vice-Pres.—J. G. Kerr.
Secy.—Treas.—O. K. Lawson.

Executive Com. Messrs. Henry O'Keefe, F. H. Erisson, W. D. Elliot, Frank Grace, Mr. Scott, W. J. Young and Sam Courtney.

The secretary was instructed to write to the new hockey league formed at Essex, Tilbury, Amherstburg and Detroit with a view to entering it.

Another meeting has been called for next Wednesday evening to receive a report from the secretary. A full attendance of all hockey enthusiasts is urgently requested.

Honiton's Curious Old Custom.
Citizens of the old Devonshire town of Honiton are immune from arrest until sunset one evening, for while the horse fair is in progress the arm of the law is powerless. This is in continuation of a quaint and picturesque ceremonial which has been handed down from the time of Henry III.

When the horse fair begins the town crier, in the gorgeous dress of a beadle of the last century, appears, carrying a pole, the end of which is a large gilt glove, decked with flowers. Having rung his hand-bell three times, the crier, in his three-cornered hat, announces, "Oyez, oyez, oyez! The fair is on, the end of the world is at hand, the glove is up; no man can be arrested until the glove is down. God save the King." Each sentence is chorused by the children standing round, and at the conclusion they scramble for nuts. The glove is taken down at sunset.

Swell Dressers.
A Government receipt has been issued permitting those teachers in the grammar schools of Mecklenburg-Schwern who rank as professors to wear on state occasions a brilliant uniform. This consists of a bright blue coat with crimson collar and cuffs, embroidered with gold. The trousers are white, with a broad gold stripe down the sides. On his head the Mecklenburg schoolmaster will wear a cocked hat, with the cockade in the colors of the grand duchy, from which a gold tassel will depend. Finally, as a finishing touch, he will carry a rapier with a gold hilt. Should the professor be of noble birth or extraction he may wear in addition a pair of heavy gold epaulettes. The Mecklenburg teachers are said to be the worst paid in Germany.

The Retort Courteous.
The friendship existing between Fr. Kelly and Rabbi Levi is proof against differences in race and religion. Each is distinguished for his learning, his eloquence, and his wit; and they delight in chaffing each other. They were seated opposite each other at a banquet where some delicious roast ham was served, and Fr. Kelly made comments upon its flavor. Presently he leaned forward and in a voice that carried far he addressed his friend:

"Rabbi Levi, when are you going to become liberal enough to eat ham?"

"At your wedding, Fr. Kelly," retorted the rabbi.

One on Thackeray.
It is related that when he first visited Ireland Thackeray took a drive on a Dublin car some distance into the country. Milestones had recently been erected along the roads, and on each was printed the number of miles, with the letters "G. P. O." distances being measured from the general postoffice. Thackeray was unaware of this, and in his thirst for information asked the carman what the letters meant. The prompt reply was, "God preserve O'Connell." Thackeray believed what he was told, but the incident only appeared in the first edition of his book.

STACKS OF AFFIDAVITS

Seized by Crown Attorney Curry
in Mr. Hardy's Office.

Supposed They Will Show That Asso-
ciations Are In Existence to Regu-
late the Sales of Many Lines of
Goods in Common Consumption—
Plumbers' Combine Trials Resume
on Monday and Tuesday Next.

Toronto, Nov. 23.—Crown Attorney
Curry has finished his work in the
office of Jenkins & Hardy. He has
taken away all the papers, documents
and books that he thinks will be of
assistance to him in his onslaught on
the many combines supposed to exist.
The police guard has been removed,
and Jenkins & Hardy and staff are
once more doing business at the old
office without being supervised by
officers of the law.

The books, etc., removed by Mr.
Curry will be carefully examined. He
has a great quantity of work in front
of him. It is not likely he will make
any headway in his onslaught on the
many combines supposed to exist. He
has thoroughly familiarized himself with
the contents of his seizure.

The attack on the plumbers and the
supply company will be continued on
Monday next in the assize court, and
on Tuesday in the assize court. In the
meantime several more informations
will be laid against these supposed to
be in the conspiracy.

In the vaults of Jenkins & Hardy,
the Crown Attorney found stacks of
affidavits that were made almost daily
by members of industries supposed to
be in a combine of some sort or
another. These affidavits were declared
before notaries who have offices in the
vicinity.

What Affidavits Will Show.
It is supposed that these affidavits
will show that associations are in ex-
istence to regulate the sales of the fol-
lowing goods:

What is, building paper, iron pipe,
tin and tin plates, all plumbing goods,
iron pipe, soil pipe and fittings, lead
pipe, linseed oil, turpentine, range boil-
ers, bar iron and steel, hoop steel, the
steel, sleigh shoe steel, conductor pipe,
cavestroughs, stovepipe elbows, fac-
tory milk cans, glass, enamelled ware,
matches, woodenware, wire, tacks and
brads, stovepipes, stoves, hinges,
stoves, harvest tools, hollow ware,
horsepower, shovels and spades,
spades, screws, cordage and rope,
rivets and burrs, sugar and tobacco.

In the groceries department, only su-
gar and tobacco are mentioned, though
there are a number of other articles
the prices of which are regulated. So
far as is known, the grocers' only as-
sociation is the Grocers' Guild, which
operates as a branch of the board of
trade locally. The Dominion associa-
tion, however, is in Montreal, and is
also associated with the board of
trade organizations.

PROTECTION IN PUBLICITY.

Gage T. Tarbell Submits Recommen-
dations to the Policeholders.

New York, Nov. 23.—After being on
the witness stand before the commit-
tee on insurance investigation for the
greater part of three days, Gage T.
Tarbell, second vice-president of the
Equitable, finished his testimony yes-
terday and just before adjournment
submitted a list of suggestions to
remedy existing abuses in the manage-
ment of insurance companies, and for
legislation designed to give the state
proper control over the companies,
and to insure the confidence of the
policyholders. Prominent amongst
these suggestions was absolute pub-
licity. While admitting that wrong had
been done by life insurance officials,
Tarbell said he had no apologies to
make for any of them and hoped they
would be punished.

Why Not?
At the regular meeting yesterday of
the trustees of the Mutual Life Insur-
ance Company, the offer of President
Richard A. McCurdy to have his salary
reduced from \$150,000 to \$75,000 was
accepted. It was also decided to make
reductions amounting altogether to
\$150,000, and to place all the general
agents on a salary instead of a com-
mission basis.

Wallace Has Crossed Labrador and
Will Return in the Spring.

St. John's, Nfld., Nov. 23.—Letters yes-
terday from Dillon Wallace, the Lab-
rador explorer and New York lawyer,
contained the news that he had suc-
cessfully crossed Labrador. Mr. Wall-
ace is the first white man who has ever
crossed Labrador without either guides
or Indian assistants. With him was
one companion named Easton. The
letter said that both were well, and had
plenty of provisions when they reached
the Province of Ungava on Oct. 16.

He still has before him a winter of
travel by snowshoes before he reaches
civilization. He and Mr. Easton, at the
time when the letters were written,
were planning to start westward
through Ungava for George's River
post, and thence to reach for Chino,
which is one of the most northerly
points on the mainland of North Am-
erica. Here the two will wait until
the coast waterways are frozen over,
when they intend to start toward Que-
bec on the frozen rivers, traveling with
dog sleds and snowshoes.

Mr. Wallace said that he expected to
reach Quebec in April.

BLENHHEIM

Nov. 23.—The residence of Mr. and Mrs. Geo. McDoom, Hyman St., London, Ont., was the scene of a very pretty wedding on Saturday after-
noon last at 3.30, when their daughter, Elva Alberta, a young lady well known in city musical circles as a violinist of unusual ability, was married to Joseph Oswald Laird, son of Mr. J. S. Laird, Blenheim. The ceremony was performed by Rev. J. W. Graham, of the First Methodist Church, and about fifty of the intimate friends of the bride and groom were present. The wedding party entered the drawing room to the strains of a waltz, and the bride, who was leaning on her father's arm, was beautifully gowned in a costume of cream lace over white tulle, and carried a shower bouquet of bridal roses. Miss Winifred McDoom, the bride's sister, tastefully dressed in cream silk and carrying a mauve chrysanthemum, performed the duties of bridesmaid. Little Alice Graves, dressed in white muslin, was the pretty little flower girl. She carried a basket of white roses. Mr. Leonard Jamieson, undergraduate of the London Medical College, assisted the groom. The gift of the groom to the bride was a gold watch and brooch in a glass case, gold-mounted, and to the bridesmaid a pearl and amethyst pin; the little flower girl received a bracelet. The decorations in the drawing room were white and cream, and the color scheme was white and green. Among the out of town guests were, Mr. and Mrs. Chas. Bridgman, Winnipeg; Mr. and Mrs. J. S. Laird, Mr. and Mrs. P. Gough, Mr. and Mrs. Huggart, Mr. W. Shillington, Mr. and Mrs. J. M. Denholm, Blenheim; Mr. and Mrs. Neil Haggart, Guilds; and Mr. Harold English, Chatham. Mr. and Mrs. J. O. Laird left amid best wishes on the evening of G.T. train for the west, and will spend five or six weeks' honeymoon in Missouri and Kansas. The bride's going away costume was a brown tailor-made suit, with a brown hat to match. On their return they will reside at Elmwood Farm.

On Saturday evening Dr. Hanks and companion, Mr. Austin, narrowly escaped a very serious accident. Early in the evening Mr. Geo. Knapp, of Blenheim, was taken ill and a messenger was despatched on a track bicycle for the doctor, who started out with the messenger on the return trip. Some distance from Blenheim they collided with a large hand-car with seven men on it, and as it was dark neither of the parties saw or heard each other coming. The occupants of the bicycle car being the lightest were hurled a number of feet away into the ditch, escaping with only a bad shaking up.

Invitations are out for an assembly to be given under the auspices of the Terpsichore Club, to be held in the Opera House on Dec. 7.

The anniversary services in connection with the Rondeau Methodist Church were held on Sunday last, Rev. J. W. Holmes conducted the services in the morning and Mrs. Thos. Goadsworth, Jr., in the evening. The annual entertainment was held on Monday evening. A pleasing feature of the evening was the presentation of an address accompanied by an autograph quilt with pillow-shams to match, as a token of appreciation of the interest they have always taken in Rondeau Methodist Church.

Mr. Baker, of the P. M. station, spent yesterday at Port Lambton.

Wm. Eardley London was a Blenheim visitor on Tuesday.

Mrs. Rennie and son, Charles Or-
dish, of Toledo, are visiting relatives in town and at Blenheim.

Mr. John Mackey met with a painful accident yesterday while attending to the engine of a threshing machine. Breaking his right arm at the wrist. The Mull Special Club held the second assembly of their series for the coming winter. Miss Rose Sheldon has taken a position at Mr. Geo. Donnally's store.

ALL FOR LOVE.

What a Grand Duke Gave Up to Marry His Cousin—Folly of Reason-of-State Marriages.

The story of the Grand Duke Cyril of Russia and the Princess Victoria of Saxe-Coburg-Gotha illustrates the folly of arranging marriages purely for reasons of state. These two are first cousins and were sweethearts in childhood. But the families of the two young people would not consent to their being wed, and Victoria, who is a granddaughter of the late Queen Victoria, was united in marriage to the Grand Duke Ernest of Hesse,

THE GRAND DUCHESS CYRIL.

brother of the Czarina. The Grand Duke had been in love with the Princess Eleanor of Solms-Hohensolms-Lich, and he yielded reluctantly to the views of his royal relatives, who thought that he should be matched with the Princess Victoria. So it came to pass that as an unwilling bridegroom the Grand Duke Ernest led to the altar the Princess Victoria as a rebellious bride. They quarreled, and a divorce was the outcome. And now the Grand Duke Ernest has married the Princess Eleanor, and his former wife, once the Princess Victoria, has married her sweetheart of old, the Grand Duke Cyril. But Cyril's act has brought upon him a heavy displeasure of the Czar. It was thought when he returned from Manchuria, covered with wounds after his miraculous escape from death in the blowing up of the Petropavlovsk, that he would be allowed to marry the woman of his choice without incurring disgrace. But the Emperor has shown his strong disapproval of his cousin's conduct by depriving him of his rank, annulling his commission in the army, stripping him of his uniform, orders and honors and banishing him from Russia. Cyril has accepted his exile, has bought an estate in Coburg and will there live as a country gentleman with his bride.

THE BIBLE.

Some Curious Facts and Figures of the Book of Books.

The Bible contains 3,566,480 letters, 316,697 words, 31,175 verses, 1,189 chapters and 66 books; longest chapter is the One Hundred and Nineteenth Psalm; the shortest and middle chapter is the One Hundred and Seventeenth Psalm; the middle verse is the eighth of the One Hundred and Eighteenth Psalm. The longest name is in the eighth chapter of Isaiah. The word "and" occurs 46,627 times. The thirty-second chapter of Isaiah and the nineteenth chapter of the second book of Kings are alike. The longest verse is the ninth of the eighth chapter of Esther; the shortest, the thirty-fifth of the eleventh chapter of John. The twenty-first verse of the seventh chapter of Ezra is the only one of the entire collection which contains every letter in the alphabet. The word "Lord" or its equivalent, "Jehovah," occurs 7,698 times in the Old Testament, or, to be more exact, the word "Jehovah" occurs 1,852 times, the word "Jehovah," 5,846 times. The word "God" does not occur in the book of Esther.

Country Life and Lunacy.

Those who view the increase of insanity with alarm are apt to attribute the deplorable growth of lunacy to the pressure of modern life and especially the struggle for existence in great cities. They picture the simple countryman living the "simple life" in reasonable content and keeping a sound mind in a healthy body, while the dweller in a crowded area succumbs to nervous strain. Upon this picture, the fifth-ninth report of the commissioners in lunacy, just published, turns the hard light of facts. According to this summary of the year's records of insanity, it is the countryman who goes mad. The most on the average, while so much pitied townsman, in spite of strain and competition, remains sane enough to be called upon to look after him. "There is no apparent relationship between the density of population and the ratio of insanity," the commissioners boldly declare. "Many of the sparsely populated countries give the highest proportion of insane to their respective populations."—London Telegraph.

Prof. Blackie.

Prof. Blackie used to form a very picturesque figure in the Edinburgh streets. He was a choicest old patriarch, with handsome features and hair falling in ringlets about his shoulders. No one who had seen him could possibly forget him.

One day he was accosted by his "Shine your boots, sir?"

Blackie was impressed by the flattery of the boy's face.

"I don't want a shine, my lad," said he, "but if you'll go and wash your face I'll give you sixpence."

"A right, sir, was the lad's reply. Then he went over to a neighboring fountain and made his ablutions. Returning, he held out his hands for the money.

"Well, my lad," said the professor, "you have earned your sixpence. Here it is."

"I dinna want it, auld chap," returned the boy, with a lordly air. "To can keep it and get yer hair cut."—London Tit-Bits.

LOOKS LIKE A SURPLUS COMING.

Hon. Col. Matheson Says Provincial Receipts Are Mounting Up.

Toronto, Nov. 22.—Hon. Col. Matheson, has an encouraging tale to tell regarding the revenue of the province. The ordinary revenue is in excess of last year. The financial year ends with the calendar year. Bonuses timber, which come under the head of extraordinary revenue, are less than last year because those of 1904 were swelled by the 1903 payments. Instead of the estimated \$450,000 from taxation duties there is already \$500,000 which does not include extras from the Fulford, Gooderham or other estates which may contribute before the end of the year. The share of Dominion taxes on Chinese emigrants, amounting last year to \$6,000, has not been received. Hon. Mr. Matheson is beginning to see a surplus coming.

The estate of the late Alex. Lumsden has been contributed to the province amounting to \$49,299. Returns from several old estates in dispute for some time are being made.

Kindness is a quality which belongs to the human family, but often is strangled through too much thought.

TAKE MY CURE, WHEN CURED YOU PAY ME

The fear that you could not be cured may have deterred you from taking honest treatment. You may have been one of the unfortunate who have been treated in vain by inexperienced physicians, free treatments, free trials, samples, patent medicines, electric belts and other similar devices. Such treatments cannot and will never cure you, nor will these medicines cure themselves. When I offer you a cure, and an willing to risk my professional reputation in curing you, and have such faith and confidence in my continued success in treating these diseases that a dollar be paid until you are cured, a fair proposition cannot be offered to the sick and afflicted. This should be a sufficient guarantee that I mean what I say, and do exactly as I advertise. I am a positive of curing you in the shortest possible time, without injurious after-effects. My charges will be as low as possible, for conscientious advice and successful results, and my guarantee is simple and true. Not a dollar need be paid until cured. I have it a diploma and certificate from the various colleges and state boards of medical examiners, which should be sufficient guarantee of your case, which I give you free of charge. I want to hear from patients who have been cured. I get cured, as I guarantee a positive cure for all chronic, nervous, blood and skin diseases, which I treat by the use of my "Blood Purifier," blood poison, physical and nervous debility, lack of vitality, stomach troubles, etc. All medicines for patients are prepared in my own laboratory, and the requirements of each individual case. All medicines for Canadian patients sent from Windsor, Ont., duty and transportation prepaid. I will send a booklet on the subject which contains the full and complete certificates, entirely free. Address simply, Dr. S. Goldberg, 206 Woodward Ave., Suite 311, Detroit, Mich.

A VICIOUS HABIT.

Giving the Baby Sleeping Drafts "Just to Quiet Him."

Very often it happens, especially when mothers are ignorant, that they appreciate the value of sleep so highly that when baby will not go to sleep in the ordinary way they give "a dose," "a composing mixture," "a little soothing sirup," "a sleeping draft" or one of the numerous preparations sold under various names "just to quiet him."

Some mothers will even give the baby a little gin to make him sleep. The mother who acts thus makes a fatal mistake. It is scarcely possible to find words which will express strongly enough the evil of this practice. Mothers who get their children off to sleep by methods like these are committing the greatest cruelty.

They are doing what they can to injure not merely the bodily health but the brain of the child. Infants who are "sent to sleep" with soothing doses too often grow up stupid and dull. They are not sharp like other children.

There are indeed people who say that when children who are frequently doled to make them sleep grow to be men and women their moral sense is blunted, and there is the fear that they may become murderers, thieves and criminals.

Should this be true, who is to blame for the crimes which are committed? If mothers understood the price which would have to be paid in the future for the hour or two of quiet gained by the quieting dose now they would surely be willing to have their own sleep broken for the rest of their lives rather than bring such mischief on a helpless little baby.

Very frequently, however, the poor little mortal escapes all risk of this kind, for he is quieted only too effectually. "He goes to a quiet place—the grave."

SHOE SCREEN.

A Serviceable Piece of Furniture For the Bedroom.

A shoe screen will be found a very serviceable piece of furniture for the bed or dressing room, and a simple one can be made from the pattern shown in the illustration by any clever woman.

The framework of this screen is made from pine or white wood, and the sticks are an inch thick by two inches and a half in width.

Its height can be governed to suit the room in which it may be placed, but for general use it can measure five feet high, and each wing may be thirty inches wide.

The bottom cross rails for each wing are four inches above the floor, and

BEDROOM SHOE SCREEN.

fifteen inches above them another rail is placed, against which the shoe pockets are attached. The sides of the screen are separated by a strip of wood four inches wide, to which the wings are fastened by means of hinges. This piece will allow the screen to be partially closed with shoes in the pockets. The wings are to be covered with some effective material, such as china silk, cretonne or silkoline, and fastened at the edges with small tacks, over which gimp may be placed and caught down at regular distances with brass headed nails.

Pockets of denim in a color to match the drapery material are made and securely tacked in place against the middle cross rail, and on one of the wings a narrow foot shelf or ledge may be supported on brackets that are screwed fast to the side uprights of the wing.—New York Herald.

Charlotte Russe.

Charlotte Russe is one of the easiest as well as one of the best desserts in the country. It is a pity that so many women accept the poor substitute sold at the bakeries. The mixture used by bakers is, of course, not cream at all. No one knows what it is, in the majority of cases. Real Charlotte Russe filling is whipped cream, mixed with other materials as desired. For example, a very good Charlotte is made with whipped cream, powdered sugar to taste and chopped nuts. Glace fruit of every description is also used. It is very easy to make new mixtures, and when you have had two or three prime favorites of which the family never tire. The cake used may be plain sponge cake or lady fingers. Small paper molds are to be purchased, when individual Charlottes are wanted. As a rule these are better than the large molded Charlotte, as each person is given more cake.—New York Post.

Care of Our Best China.

Yes, there is science in it. Do not forget when washing gilt edged china or any delicate china with gilt designs that it must not be wiped dry. It should merely be placed on the table or in a large pan to drain until dry. Wiping such china will wear off the gold. China of this kind should never be washed in water containing borax, ammonia or soap. A piece of flannel should be placed over each of the gilt plates and saucers that are piled together in the china closet. This protects the gilt from scratches.

A Queer Recipe.

In an old black letter translation of Albertus Magnus the doctory figures in the following extraordinary recipe:

"Take an Adder's skin, and Auri pigmentum, and greese pitch of Reupitum, and the waxe of newe Bees, and the fat or grease of an Asse, and breake them all, and put them all in a dull seething pot full of water, and make it to seeth at a glowe fire, and after let it waxe cold, and make a taper, and every man that shall see light of it shall seeme headlesse."

BLOOD HUMORS

PIMPLES, BLOTCHES, ERUPTIONS, FLESHWORMS, HUMORS

Many an otherwise beautiful and attractive face is sadly marred by unsightly blotches, pimples, eruptions, fleshworms and humors, and various other blood diseases. Their presence is a source of embarrassment to those afflicted, as well as pain and regret to their friends.

Many a cheek and brow—cast in the mould of grace and beauty—have been sadly disfigured by these loathsome eruptions, and their possessor rendered unhappy for years.

Why, then, consent to rest under this cloud of embarrassment?

There is an effective remedy for all these diseases.

BURDOCK BLOOD BITTERS

This remedy will drive out all the impurities from the blood and leave the complexion healthy and clear.

Miss Annie Tobin, Madoc, Ont., writes: "I felt great pleasure in recommending your Burdock Blood Bitters to any one who may be troubled with pimples on the face. I paid out money to doctors, but could not get cured, and was almost discouraged, and despaired of ever getting rid of them. When I would give B.B.B. a trial, so got two bottles, and before I had taken them I was completely cured and have had no sign of pimples since."

Burdock Blood Bitters has been manufactured by The T. Milburn Co., Limited, for over 30 years, and has cured thousands in that time. Do not accept a substitute which unscrupulous dealers say is "just as good."

See rightness is like counter-acting nature, the more one has, the more he is ill.

Coughs, Colds, Hoarseness, and other throat ailments are quickly relieved by Oresolene tablets, ten cents per box. All druggists.

Every man has a family tree if he cares to cultivate it.

HE LOOKED IN VAIN FOR HELP

Till He Tried Dodd's Dyspepsia Tablets—Now Edward Rousseau is a New Man.

"Yes," remarks Mr. Edward Rousseau, of Bruce Mines, Ont., "I can prove that Dodd's Dyspepsia Tablets cure when other medicine fails. You remember I was a severe sufferer from dyspepsia for ten years or more. Well, I doctored and did everything I could think of for it, but I couldn't get relief till I began to use Dodd's Dyspepsia Tablets. Two boxes of them made me feel like a new man. Words cannot express the good they have done me. You don't wonder I am always ready to recommend Dodd's Dyspepsia Tablets, do you?"

If you would eat what you like and when you like, use Dodd's Dyspepsia Tablets. Carry a few in your pocket and take one after eating.

WHAT'S HAPPENING TO JONES.

Won't Give Up Office and Is Accused of Partiality.

Brockville, Nov. 22.—An investigation into charges preferred against Division Court Clerk Jones was held here yesterday by Inspector Dickey. Bailiff McPhail, the complainant, alleged that he did not receive a fair share of the executions in the face of Jones being ordered to divide the patronage equally between him and the two other bailiffs. McPhail and Jones each represented by counsel. Mayor Stewart and Police Magistrate Deacon testified to the work entrusted to him.

Jones is the clerk who refused to resign his office, taking the stand that under an old statute he cannot be dismissed without cause. His successor has been appointed and gazetted and is awaiting the delivery of the books which Jones refuses to give up.

PROVED IN MOUNT FOREST.

Every dealer in this town tried his best to relieve Mrs. J. Witham, of Asthma; but none succeeded. "For years," she states, "I was a dreadful sufferer; nothing gave relief. At times I found it necessary to have all the doors and windows open to get my breath. When in despair I heard of Catarhazone. I used it and proved beyond doubt that my case of Asthma is curable with Catarhazone. No remedy so pleasant, none so absolutely certain to thoroughly cure; try Catarhazone yourself; it's guaranteed."

NEEDS A MACDONALD.

Sir John A.'s Policy is Possibly For the Benefit of Today.

London, Nov. 22.—Dr. Rankine Dawson, prospective Conservative candidate, East Division, Edinburgh, in the course of an address to his constituents, said he remembered Canada in free trade days, when he saw the very similar state of affairs as existed in this country at the present time. He saw the remedy applied by Sir John Macdonald, whose policy of modified protection swept the country.

That policy, which Macdonald's political opponents, though holding large leases of power, had not attempted to alter, was responsible for the flourishing position of Canada at the present day. There was no reason to suppose that a similar remedy would not apply to the present.

WHEN YOU HAVE A BAD COLD

You want a remedy that will not only give quick relief but effect a permanent cure.

You want a remedy that will relieve the lungs and keep expectoration easy.

You want a remedy that will counteract any tendency toward pneumonia.

You want a remedy that is pleasant and safe to take.

Chamberlain's Cough Remedy meets all of these requirements and for the speedy and permanent cure of bad colds stands without a peer. For sale by all druggists.

Editor Burned In Effigy.

Montreal, Nov. 22.—Some days ago Le Canada intimated to the Laval students who had disturbed Evangelical Maga's meetings, that they were making fools of themselves, and last evening several hundred of the students burned Editor Langlois, M. P. P., in effigy, before his own house. Several arrests were made.

HERE, W. EDWARDS INJURED.

Herb W. Edwards, of Des Moines, Iowa, got a fall on an icy walk last winter, spraining his wrist and knees. "The next day," he says, "they were so sore and stiff I was afraid I would have to stay in bed. But I rubbed them well with Chamberlain's Pain Balm and after a few applications all soreness had disappeared. I feel that this bottle of Pain Balm saved me several days' time, to say nothing of the suffering." This liniment is for sale by all druggists.

GO TO SEE THE SULTAN

International Fleet Due at Piraeus on Thursday.

British Armored Cruiser Lancaster and Scout Ship Sentinel Have Been Despatched to That Port—Austrian, Italian and French Squadrons On the Move—Hops Entertained That Sultan Will Accede to Powers.

London, Nov. 22.—The British armored cruiser Lancaster and the scout ship Sentinel have been despatched to Piraeus.

Vienna, Nov. 22.—The first section of the Austrian squadron which will form part of the combined fleet of the powers, under Admiral Von Jellachich, are believed to be in the proposed demonstration in Turkish waters, is due to arrive at Piraeus at daybreak Thursday morning.

The Italian warships will probably arrive at Piraeus after the Austrian vessels, and the French contingent will follow.

Hopes are still entertained here that the Sultan will accede to the demands of the powers regarding Macedonian reforms, and thus obviate the necessity of a demonstration.

Will Yield to Demand of Powers.

Constantinople, Nov. 22.—The frequent and prolonged conferences of the Council of Ministers at the Yildiz Palace are believed to indicate preparations to yield in principle to the demand of the powers for the acceptance of the financial reforms decided upon for Macedonia. Probably, however, the Turkish government will make further attempts to secure modifications of the plans before finally accepting the full program.

HOLD UP PRINT SHOP.

Socialist Editors Compel Novos Vremya to Run Off Their Sheet.

St. Petersburg, Nov. 22.—The Novos Vremya was the victim of a remarkable hold-up by social revolutionaries Monday night. Three editors of the paper, the official organ of the workingmen's council, boldly entered the composing-room of the Novos Vremya, with revolvers in their hands, and compelled the compositors to set up their paper, and also compelled the pressmen to run off 50,000 copies of it.

Zemstvo For Witte.

Moscow, Nov. 22.—The sentiment of the Zemstvo Congress is veering distinctly to the side of Count Witte, and it now seems probable that a large majority of delegates will favor a resolution to come to the assistance of the Government against the forces of revolution.

ACCIDENT ON THE I. C. R.

Passenger Runs Into Freight, But No One Badly Hurt.

Quebec, Nov. 22.—Local express No. 153 on the Intercolonial, which left at 4:20 yesterday afternoon for Montreal ran into a special freight train standing at De Loebine Station.

The only person reported injured is Conductor Gauthier of the freight train, who received slight bruises.

The engine of the express train was thrown off the track and badly damaged, and two or three cars on the freight caught fire and were burned.

The accident blocked the line for two or three hours.

To Stimulate Trade With Italy.

Ottawa, Nov. 22.—Marchese Marco Doria, the especially accredited representative of the Italian Government, whose mission it is to endeavor to stimulate trade between Italy and Canada, arrived in Ottawa yesterday. Accompanied by Hon. Chas. Fitzpatrick, the marchese called upon the Prime Minister, and afterwards had an interview with Sir Richard Cartwright. He is a bright-looking young man of about 30 and speaks English fluently.

Disarmed the Italians.

Guelph, Nov. 22.—Fearing trouble with a gang of Italians on the Guelph and Godrich Railway, who threatened the grading of the line, Divisional Engineer Macklin asked for police intervention and three constables went to the camp. They disarmed the Italians, taking ten knives, five loaded revolvers and four shot guns from them and arrested several of the men.

Chamberlain Says Onward.

London, Nov. 22.—(C. A. P.)—Mr. Chamberlain addressed a mass meeting in the Colston Hall, Bristol, last night. Though making few references to Mr. Balfour's Newcastle speech, he practically ignored the Premier's advice and urged a forward policy. He warned his hearers against their policy being whittled down by a timid or half-hearted minority of their party.

Thirteen Steamers Icebound.

St. Petersburg, Nov. 22.—The weather is so exceptionally severe that thirteen steamers are icebound between St. Petersburg and Cronstadt. One of the Volodga, has seventy British subjects on board bound for London. An icebreaker has been requisitioned from Libau to free the vessels.

For Suffering Jews.

Chicago, Nov. 22.—M. E. Greenbaum, treasurer of the Jewish Relief Association committee, sent a cheque for \$20,000 to Jacob H. Schiff of New York Monday, making \$60,000 that has been forwarded from Chicago for the alleviation of the suffering of the Russian Jews.

More Donations.

Toronto Nov. 22.—Following a donation last week of \$10,000 to the funds of Knox College. Rev. Dr. Warden has contributed \$5,000 to the Presbyterian College of Montreal and \$5,000 to Queen's, Kingston.

S. A. Emigrants Coming.

London, Nov. 22.—(C. A. P.)—To-day a specially conducted party of Salvation Army emigrants leave by the Vindictia, including a number of domestic servants.

The Headless Body.

Sydney, C. B., Nov. 22.—A young man named Hubley, who disappeared from his home in New Aberdeen, C.B., about six weeks ago, is now thought to be the headless man found on the shore at Round Island recently. Hubley's father says he will be able to say whether or not the body is that of his son by examination of the dead man's clothing. The Crown Attorney is still waiting for information from the Attorney-General to exhum the body.

Archie McDonald of Dominion No. 1.

was stabbed on both arms Monday night by an Italian, the outcome of an altercation about a pipe, which McDonald borrowed from the Italian and refused to return.

WATER IN YOUR BLOOD.

Lots of people have thin, watery blood—they eat plenty but do not digest. When digestion is poor, food isn't converted into nourishment—in consequence the body rapidly loses strength. To positively renew health, nothing equals Ferrozone, which excites sharp appetite—makes the stomach digest, forms fine sustaining blood. Abundant strength is sure to follow. If you need more vitality, extra energy, better nerves, then use Ferrozone, the medical triumph of the age. Fifty cents buys a box of fifty chocolate coated Ferrozone tablets.

THE ROOT OF NEURALGIC HEADACHE.

Is an irritable condition of the nerves caused by cold. Relief comes quickly from Nerviline, the great pain reliever of to-day. "I consider Nerviline a magical remedy for neuralgia," writes Mrs. E. G. Harris, of Baltimore. "But I never worry if Nerviline is in the house. A few applications never yet failed to kill the pain. I can also recommend Nerviline for stiffness, rheumatism and muscular pains." It is nearly fifty years; try Nerviline yourself.

A Brutal Hold-Up.

Toronto, Nov. 22.—A case of hold-up was reported last night. It was of such a brutal character that the victim in the Emergency with a broken nose and jaw, Charles Hayles is the man so badly beaten. He is a C. P. R. section man and lives in Bolton. About 7 o'clock he met a stranger on the street and had a drink with him. They took a walk and wound up at the beginning of the lane in rear of Windsor street. There three other men took hold of Hayles, rushed him up the lane, and commenced to go through him. He resisted, and was knocked down, and kicked on the head and face. Although Hayles had his \$15 in his shoe the thieves got it.

HER SKIN WAS YELLOW.

"I had only to try Dr. Hamilton's Pills to appreciate their merit," writes Miss Annie S. Bryce, of Woodstock. "My system was out of order. My blood was weak and thin. I had a nasty, murky complexion. My skin was hard and dry. The first box of Dr. Hamilton's Pills made a complete change. I felt better at once. Healthy color came into my face. In about three weeks I was cured." Dr. Hamilton's Pills effect an easy cure. Try these good pills, 25c. per box, or five boxes for \$1.00; at all dealers.

SELECTIONS

SHIPPING A SEA.

The Scooping Up Is the Heart of the Giant Wave Myth.

When a steamer as large as the Campania is boarded in weather not for her to be called severe by a wave that sweeps from reasonably assumed security some passengers to death and others to injury, the episode necessitates a new examination of the question whether in any given "sea" there is sometimes one billow many times greater than any of its millions of fellows. Belief in the existence of such waves is almost universal on land and not uncommon afloat, for many ships have been swept as was the Campania, and not a few of them have been overwhelmed on days when there seemed nothing to be feared. This is adequate excuse for the existence of the "giant wave" assumption, and yet we do not find even in the experience of the colossal Cunarder proof that it is founded on fact, proof that the sizes of the waves raised by one wind differ enormously among themselves. Differ they do to some extent beyond any question, and when any sequence of waves is made up of waves larger and smaller one of them must be the biggest of all. But it will be noticed that of the Campania it is said, probably without any thought of this problem, that "suddenly the big ship lurched to port and scooped up an enormous wave." Why so enormous? Any stalwart wave on a day when, to quote again, "a heavy quartering sea was running" would be quite big enough to do all that this wave did if "scooped up" by a ship moving at the Campania's speed, especially when the motion of the ship is opposite to that of the wave itself and must be added to it in explaining the consequences. We remain convinced that on that disastrous Wednesday the Campania safely rode hundreds of waves nearly or quite as big as was the one that ravaged her stern deck and drenched deep the deck above. Not improbably bigger ones were passed without attracting any attention from her passengers. The "scooping up" is the heart of the myth, and the "giant wave" is a wave that comes just when the ship is in a position to take it aboard.

Long Joseph, Seven Feet Ten.

Frederick the Great's father, Frederick William, the creator of the Prussian army, whose special mania was the collection of giants from all parts of the earth, would have given something like a king's ransom for "Long Joseph," who has just joined the First Foot guards at Potsdam at the age of twenty, with a weight of about eighteen stone and a stature of 7 feet 10 inches, an ugly man, decidedly, to meet in a bayonet melee. Frederick William had a whole regiment of such colossal, known as the Riesengarde, among the tallest of them being one Kirkman, a Scotch-Irishman, or Ulster Irishman, whose portrait may still be seen in the palace at Charlottenburg. One of Frederick's first sovereign acts was to disband this preposterous brigade of giants, which had cost the Prussian state about as much as all the rest of its army.—London Chronicle.

Turkey's Bad Forestry.

Forestry is neglected by the Turkish government, as witness the following remarks by an explorer: "The most marked feature of all this eastern district is the entire absence of wood, not from any natural condition, as trees would evidently grow in most parts, but owing to wilful destruction and neglect to replant. Firewood now comes four and more days' journey to Erzerum and is in that city the most expensive household necessity, while across the border, on the Russian side, there are magnificent pine forests. This regrettable destruction extends all over Asiatic Turkey, square miles of forest being burned where as many square miles of clearing near some villages are desired. Around villages great walls of magnificent logs rise up, and around fields also, so that soon no forests will remain except in the most inaccessible mountains."

Why Dubois Gets a Statue.

Nice is to raise a monument to a cook—a Provencal chef, one Urbain Dubois. It is not for his soups, his entrees, his roasts or his pastry that Dubois is to be honored in stone. Provencals chiefly love his memory for his patriotism. What Dubois sacrificed on the altar of his country was what some would describe as a "mighty good berth." He was chef to the king of Prussia when that sovereign went to war with France. Immediately on the news reaching him the chef of the kitchen marked his disagreement with the chief of the state by resigning. Considering that he lost \$12,000 a year, it was a hard step to take. And that is why Dubois is to have his statue.

The Pneumatic Hub.

A good deal is being heard of the pneumatic hub, which is to replace the ordinary rubber tire, with a great saving of rubber. The claim is that by the fitting of a pneumatic cushion around the hub the same effect, as far as easy running is concerned, is obtained as in the case of the ordinary rubber tire encircling the rim.

Worked Like a Charm.

Dr. Barnardo, the London philanthropist who died recently, had a startling way of protecting the papers upon his desk from the devastatingly tidy housemaid. In a wastepaper basket under the study table he placed two snakes. This "worked like a charm," according to a personal friend of the doctor's.

MR. JAMES W. HENDRIE DEAD.

One of Hamilton's Business Men Passes Away After a Brief Illness.

Toronto, Nov. 22.—The death took place yesterday morning in Grace Hospital of Mr. James Walker Hendrie of Hamilton. Mr. Hendrie, who was at Surgeon Falls on business, took suddenly ill at that place on Thursday last, uraemic poisoning developing, which was complicated with pneumonia. He was removed to Grace Hospital, and the family physicians from Hamilton, Dr. White and Dr. Edgar, called into consultation.

Mr. Hendrie gradually sank, dying yesterday morning. Deceased was 46 years of age. He was the second son of Mr. William Hendrie of Hamilton and a brother of the Hon. John W. Hendrie, M. P. All the members of the family were present at the death.

Including his sister, Mrs. A. D. Braithwaite of New York, and Mr. George M. Hendrie of Detroit.

Mr. Hendrie started out as a railway contractor. He built the last 40 miles of the Northern Pacific into North Bay, and the old belt line around Toronto. During the past summer he acted as purser on the Northern Belle, of which he was part owner, a steamer which ran on Lake Nipissing.

HOW THE TURBIN WAS LOST.

Stopped Suddenly Near Black Ledge and Went Down.

Halifax, N. S., Nov. 22.—News received last night from Clark's Harbor says that part of the deckhouse and bridge washed ashore in that vicinity yesterday are sad reminders of the wreck of the steamer Turbin on the ledge off Mud Island Friday night. All the crew went down.

The ill-fated steamer took the deadly Blonde Rock route at low tide, near sundown, on Friday, in the teeth of a howling gale. Fishermen of Mud Island watched her making fair passage against it. When near Black Ledge she stopped suddenly and a deluge of seas pounded over her. Then she swung off for a moment, keeled over and went down.

No boat could pass through the surf, and no help could be rendered. The Turbin was valued at \$50,000, and her cargo of coal was valued at \$3,500. Capt. Knudsen was her chief officer, and chief engineer Anderson. There were ten others in the crew.

What Flour Granulation Means in Bread-Making

Flour is composed of myriads of tiny granules.

To make good bread these granules must be uniform in size.

In poorly milled flour some granules are large, some small.

The small ones absorb yeast, "rise" and "ripen" before the large ones—the result is bread of coarse, poor texture.

The large granules are not developed into "sponge," they bake into heavy hard particles, spoil the texture of the bread and make it harder to digest.

ROYAL HOUSEHOLD FLOUR is perfectly milled—all the flour granules are uniform in size—the sponge rises uniformly—the bread is even in texture—perfect in flavor—good-looking, appetizing bread—easily digested.

SUPPORT THE GOVERNMENT.

After Four Days' Debate Zemstvo Congress Passes Endorsement.

Moscow, Nov. 23.—At the end of four days' debate the executive committee of the Zemstvo Congress yesterday brought in the following resolution in favor of supporting the Government, the reading of which was greeted with tremendous applause:

"Considering that the Imperial manifesto satisfies all the demands voiced since the Zemstvo Congress of a year ago, and that the liberties accorded by the manifesto are indispensable to the tranquillization of the country, the congress declares itself in complete solidarity with this constitutional basis."

"The responsibility for the realization of the program rests upon the Cabinet. The congress is convinced that the Cabinet can count on the support of the great majority of the Zemstvos and municipalities so long as it follows the path for the accomplishment of the liberties promised by the manifesto, but every deviation will encounter decisive opposition."

"The congress believes that the sole means of guaranteeing the authority of the Government, the pacification of the country and the support of the people's representatives is the immediate promulgation of universal suffrage in elections to the Duma, the transformation of the first Duma into a constituent assembly for the elaboration of the constitution, the calling of a constituent assembly for the Russian Empire and the organization of territorial reform."

"But measures for the realization of the liberties granted by the manifesto are regarded as immediately imperative."

"It must devolve on the Duma to establish a fundamental basis for land reform and to decide any momentous question in the domain of labor legislation."

The resolution concludes by enumerating various measures which it says must be carried out before the Duma meets. These include investigations into the recent occurrences in various parts of the country, the trial of local officials and police who became culpably involved in the disorders, the maintenance of public security, the proclamation of full amnesty for political and religious offences up to the date of the Imperial manifesto and the abolition of capital punishment.

Mobs Want Food.
Vladimir, Nov. 23.—In the Jureff and Alexandrovsk districts of this Government peasant mobs are demanding the surrender of the stocks of provisions, and are threatening to set the torch to the whole locality, and to storm the county treasuries.

Beyond Troops' Control.
Kursk, Nov. 23.—The agrarian disorders in the district of Subzha have assumed such violence that the troops are unable to cope with them. The whole northern half of the district is in the hands of peasant riots, who are pillaging the estates and burning the harvested crops.

Zionist Movement Grows.
St. Petersburg, Nov. 23.—Despatches from southwestern Russia indicate that the Zionist movement has been given a powerful impetus by the anti-Jewish disorders. Hundreds of Jewish families are leaving, or preparing to leave, for Palestine. Three hundred sailed from Odessa on one steamer yesterday.

Finland's New Governor.
London, Nov. 23.—The St. Petersburg correspondent of The Daily Telegraph says that Emperor Nicholas has ratified the nomination of Prince Councillor Gerard as Governor-General of Finland, adding that his election will be most acceptable to the Finnish people.

PEASANTS WILL OWN LAND.
Payments Will Cease Entirely at the Beginning of 1907.

Washington, Nov. 23.—The State Department yesterday received the following cablegram from the United States charge d'affaires at St. Petersburg: "The Imperial proclamation yesterday states that during the year 1906 the payments on land granted to peasants will be diminished by one-half and will cease entirely on Jan. 1, 1907, the peasants then becoming owners of the land. For peasants who have not taken up land, the Emperor will afford increased facilities to his peasants' bank to advance them money so that they may profit by the new arrangement."

Boys' Criminal Act.
Montreal, Nov. 23.—While a Grand Trunk train Tuesday night was standing at St. Henri station for 15 minutes three boys, whose ages ranged from 14 to 17, smashed the lids of 36 axle boxes. Part of the iron was forced into the grease boxes. The boys were arrested, and were yesterday morning committed for trial, the judge remarking that they were liable to 14 years in the penitentiary under the Railway Act.

Took Carbolic and Died.
Toronto, Nov. 23.—Ill, desperate, tired of life, Mrs. Elizabeth Smith, took carbolic acid yesterday. Clapham Ford found her body in Stinson's dancing pavilion in High Park. She had been dead some hours. She was 47 years of age and the wife of Benjamin Smith, wholesale butcher. An inquest will not be held.

Tariff Decisions.
Ottawa, Nov. 23.—The Board of Customs have decided that linoleum patterns printed or stamped on paper, electric locomotives or locomotives propelled by electric power and statues and statuettes shall be dutiable at 3 per cent.

Election Date Fixed.
Regina, Sask., Nov. 23.—It was definitely announced yesterday that the Saskatchewan elections will be held on Wednesday, Dec. 13. The nominations will take place nine days before, on Monday, Dec. 4.

Laval Student Arrested.
Montreal, Nov. 23.—Raymond, the Laval student who was arrested Tuesday evening after the trouble in front of Editor Langlois' house, pleaded not guilty yesterday and was remanded.

Triplets.
Toronto, Nov. 23.—Triplets were born to Charles S. E. Champion, Adelaide W., Tuesday night. All three are good-sized, healthy-looking children, weighing about six pounds.

SENTENCED TO BE SHOT.

Three Americans Found Guilty of Misdemeanor Insurance Murders.

El Paso, Tex., Nov. 23.—In Chihuahua Tuesday evening Judge Rios sentenced C. T. Richardson, C. S. Harle and William Mason, Americans, to be shot. The men were accused of murdering two men in Chihuahua for life insurance money.

Richardson was an insurance agent, Mason, his brother-in-law, the assistant agent, and Harle was the examining physician. It was charged that they murdered a man named Devers, who they decryed from El Paso and another man named Mitchell, who is said to be a half-brother of Mason.

Richardson is from Rochester, N. Y., where he married Mason's sister. The case has been in the Mexican courts three years. Harle formerly was an El Paso physician.

Mage's Hall Condemned.

Montreal, Nov. 23.—Building inspectors have placed a ban on the habitation of the hall occupied by Evangelist Mage, riots at whose meetings precipitated troubles between Le Canada and Laval students. The building department state that the hall was condemned Oct. 30, and that the meeting held there last Sunday was in violation of the order.

Tobacco Crop in Essex.
Amherstburg, Nov. 23.—It is estimated that the crop of tobacco grown in Essex County last season was about 12,000,000 pounds. The crop averaged 1,200 pounds per acre in Essex County; the average yield in Kentucky is 300 pounds per acre.

Railway Commission Sittings.
Ottawa, Nov. 23.—The Railway Commission has decided to sit at the following places: Stratford, Dec. 4; Sarnia, Dec. 6; Chatham, Dec. 7; Windsor, Dec. 9; and Toronto, Dec. 8.

CARSCADDEN DESPERATE.

Would Rather Die Than Live to Face Trial For Arson.

Barrie, Nov. 23.—Shortly before the hour appointed for the preliminary trial of Alfred Carscadden for arson yesterday morning he was found in a dying condition in his cell, where he had been placed a few hours after the first in his restaurant.

"Carscadden has been in Barrie only a few months having previously been in business in Orillia and his home is in Oro.

He has a wife and three small children. He severed his windpipe with a piece of the toilet set, and made a most determined effort to end his life. Very little hopes are entertained for his recovery.

In his Bible on the table was found a note, in which he bade a tender farewell to his wife and three little ones, and stated that he was not responsible for his actions. Carscadden has always borne a good reputation, and it is thought that the deed was committed in a fit of mental aberration, due to the disgrace felt at his arrest, together with the intense grief at the loss of his mother, who died ten days ago.

PORTE REJECTS.

Powers Will Make the Demonstration Without Further Delay.

Constantinople, Nov. 23.—The Porte has rejected the proposals of the powers for the international control of the finances of Macedonia.

Vienna, Nov. 23.—A despatch from Constantinople says that the reply of the Porte, which was handed to Baron Von Cajo, the Austria-Hungarian ambassador last night, rejects the proposals of the powers on all points and declares that the public opinion of Turkey would not countenance their acceptance. The Porte agrees to extend to two years the terms of the civil agents of the powers in Macedonia.

No Delay.

London, Nov. 23.—The Vienna correspondent of The Times says it is reported there that the Sultan of Turkey appealed to Emperor Francis Joseph to postpone the naval demonstration on Turkish waters and that the Emperor replied that further delay was impossible.

RELIEF OR REMOVAL.

Canadian Bridge Co.'s Evidence Before the Tariff Commission.

Windsor, Nov. 23.—The Tariff Commission began its session at the City Hall here yesterday afternoon. A session sitting took place in the evening.

Keen competition and rampant dumping by American manufacturers was shown by representatives of several local firms. Testimony was offered by Kerr Bros., of Walkerville, manufacturers of engines; the Canadian Bridge Co., also of Walkerville; Hiram Walker & Sons, Limited, the distillers; the Standard Paint and Varnish Co.; and Penberthy Injector Co. of Windsor; Brown, Wigle & Co., woolen manufacturers, of Kingsville, and others.

The evidence of the Canadian Bridge Co. was, perhaps, the most radical given. Secretary Colburn of the company asserted that the present tariff agreement had become so burdensome that unless relief was speedily forthcoming, they would be forced to remove their extensive plant.

MAY BE THREE WRECKS.

With Not One Survivor Left to Tell the Tale.

Halifax, Nov. 23.—Capt. A. Allen of the steamer Kikkee, which arrived here Tuesday night, reports having seen a large two-masted steamer go to the bottom off Beaver Harbor last Thursday afternoon.

It was concluded that she had struck a shoal and the sea coming aboard the boilers had exploded and all had gone to the bottom. Upon the Kikkee resuming her voyage, Capt. Allen thought he saw the funnel of a steamer on the shore. Capt. Allen believes the unknown steamer to have been the Turbin, reported wrecked near Mud Island, as he does not think she could have arrived there so quickly.

A large schooner, bottom up, has been sighted off Ship Harbor. It is believed that not a single survivor has been saved from either of the three wrecks.

Marshall Field, Jr., Shot.

Chicago, Nov. 23.—While cleaning a gun yesterday, preparatory to going on a hunting expedition, Marshall Field, Jr., son of Marshall Field, the well-known dry goods merchant of this city, accidentally shot himself. He was taken to a hospital and will undoubtedly die.

Constable Goes to Trial.

Lucan, Nov. 23.—James Piper, the county constable charged with shooting George Hodgins, a farmer, was given a hearing before Squire McComb yesterday afternoon, and was committed for trial at London on Dec. 12, for shooting with intent to do bodily harm.

Rancher's Race With Death.

Maple Creek, Sask., Nov. 23.—John Jackson, sheep rancher, was fatally injured near here while unhitching his team, being caught under the wheels. He afterwards secured a horse and rode four miles to the nearest neighbor, dying a short time later.

Have \$1,550 In Hand.

Toronto, Nov. 23.—The Canadian Horse Breeders' Association have in hand money voted for a spring stallion show by the various horse associations to the amount of \$1,550 available for prizes. The show will be held here Feb. 7, 8 and 9, 1906.

Freight Trains Collide.

Montreal, Nov. 23.—A head-on collision occurred early yesterday morning between two heavy I. C. R. freight trains at Villiers. A west-bound engine and four cars were derailed while three cars of the eastbound train were burned.

Canada Invited to Exhibit.

Ottawa, Nov. 23.—The Department of Agriculture has accepted an official invitation to participate in the International Exhibition to be opened at Christchurch, New Zealand, in November, 1908.

'Tisn't Always the Cook, Poor

Thing! Sometimes It's The Stove

Considerate men want considerate stoves in the home. Every man who owns a poor stove isn't inconsiderate. Sometimes he is thoughtless. This "Ad" is to remind him that "JEWEL" stoves save money on time, fuel and energy. The woman who can't cook a good dinner over this stove ought to be ——— We won't say it.
