

VOL XXXVII

Kentville, Tues. April 16, 1918.

**After house-cleaning  
freshen up your floors with**

**Kyanize**

Don't use a floor finish which will leave unsightly worn spots after a little wear. Kyanize is made especially to stand the scuff and tread of heavy shoes, without cracking, peeling, or turning white. It is a *cooked* finish, instead of a mere mixture.

Kyanize also makes a beautiful, sanitary, most durable finish for furniture and all woodwork about the house.

**Seven artistic colors, and clear; also white enamel.**

Come in and get a small can of Kyanize and give it a trial. The makers guarantee it absolutely, and so do we.

**CHURCH ST. CORNWALLS.**

The Call for preparation for the real work of the year on the farms, has now become so insistent, that the members of the Peoples Society have decided that the time has come to close their meetings for the summer. So the executive have come to the conclusion that the best way to do so, will be to call the society and their friends together on Thursday evening the 18th inst. for a disbanding Supper and entertainment for the benefit of the Hall in which they have had so many happy evenings during the past winter, and it is hoped that everybody will make an effort to be at the Parish Hall on that evening at seven o'clock enjoy a good supper, followed by a worth while program—thirty-five cents will entitle you to all. Come yourself and bring your friends and relatives. Scribe.

**CANAAN.**

A surprise party was held at the home of Mr. Uriah Whalen on Tuesday evening last. A large number of both young and old were present and a most enjoyable time was spent in games etc., also a nice lunch was served.

**DEATH OF JUDGE BORDEN.**

Judge R. A. Borden died at Moncton, March 26th. The late Robert Allison Borden was born Feb. 9, 1846, at Avonport N. S. He was the son of the late George Newton Borden and Miriam Crane Borden, daughter of the late Col. Crasé. He was a direct descendant of Perry Borden, the founder of the Borden family in Nova Scotia. The late Judge Borden was a second cousin of the Rt. Hon. Sir Robert L. Borden, Prime Minister of Canada, and also of the late Sir Frederick Borden. His early

**THE IMPORTANCE OF THE SURFACE DRAINAGE OF FARM LANDS.**

(Experimental Farms Note). This year when above all others in the history of the Empire, good crops are desperately needed, our farmers should take every reasonable precaution to insure crop growth and on the majority of farms in Eastern Canada the timely removal of excessive water from the soil is of first importance.

Underdrainage is the ideal way in which to remove water and to deepen the area in which plant roots can gather food, but it is too slow and expensive for most farmers to undertake on an extensive scale and in some locations and on some soils it will not remove the surface water quickly enough for best results. At any rate, but little underdrainage could be accomplished now before cropping. It may be stated as a general rule that, in the Maritime Provinces at least, there should be such surface drainage provided as will remove water from melting ice and snow and from heavy rains without leaving ponds in the fields.

At the Experimental Station, Fredericton, where underdrainage has been quite extensive, it has been found absolutely essential to early spring cultivation and later to crop growth to provide surface water ways in addition to the underdrains.

Except under unusual circumstances, this drainage is not expensive. On flat ground or where there is no underdrainage on slopes and the subsoil is full of springs, the plan followed is to plough in narrow lands or not more than 33 feet, make the dead or open furrows deep and clear them out with a grader or shovel. Then a good outlet must be given at the ends of the dead furrows or they may be tapped with a cross furrow where the line of natural drainage crosses the area. At the Experimental Station a steel grader costing \$55.00 is used. This machine can be hauled with one good two horse team or, if necessary, four acres can be used. On ground free from this grader. It will also do good work in turning up roads.

Narrow lands and deep, open furrows, of course, make the field more difficult to work economically as they necessitate cultivation in one direction only and are a nuisance in working machinery, but if they will ensure a crop where otherwise one could not be obtained, this inconvenience will have to be tolerated. Thousands of acres in Eastern Canada which in ordinary seasons will not give a crop might be successfully cultivated by this means.

In all fields where water is liable to form ponds, a swale should be artificially made to carry off the surface flow. By using a plough, the graded and scraper, such swales can be quite cheaply made. If it is necessary to go a foot deep, the swale should be from fifteen to twenty feet wide, if more depth is required the swale should be correspondingly wider. By this means the water is taken off without confining it to a narrow stream, consequently, there need be no washing away of the soil and there is no obstacle to the working of ploughs or machinery in cultivating or harvesting. Sufficient surface drainage, by whatever means it can be accomplished, is an emphatic necessity.

**A STAGGERING DEBT.**

Amsterdam, April 4. Germany's debt after the war will be thirty times what it was at the beginning, George Bernhard, editor of the Vossische Zeitung, declared in a lecture recently in Berlin in connection with the campaign for the eighth German war loan. He said that at the end of the war Germany probably will be faced with a debt of \$37,500,000,000 as against \$1,250,000,000 before the war.

**WHY not give your kid the same training?**

"When I was growing up, and came upon many words in my reading that I did not understand, my mother, instead of giving me the dictionary which I applied to her, uniformly sent me to the dictionary to learn it, and in this way I gradually learned many things besides the meaning of the individual word in question—among other things, how to use a dictionary, and the great pleasure and advantage there might be in the use of the dictionary. Afterwards, when I went to the village school, my chief diversion, after my lessons were learned and before I was sent home, was in turning over the pages of the 'Unabridged' at home days. Now the most modern method—THE NEW INTERNATIONAL DICTIONARY—gives me a pleasure of the same sort, so far as my knowledge extends, in its at present the best of the one-volume dictionaries, and quite sufficient for all ordinary uses. Even those who possess the splendid dictionaries in several volumes will find it a great convenience to have this, which is so compact, so full, and so trustworthy as to have, in short, every thing that is wanted."—Albert R. Cook, Ph.D., LL.B., Professor of the English Language and Literature, Yale Univ., April 25, 1901.

**THE EMPIRE'S BIGGEST BARN.**  
What is termed the largest barn in the Empire is situated not far from Swift Current, Sas. This exact location is eight miles from a town called Prussia. (This was named before the war began). This barn was built by a Mr. Smith in order that he might put his cattle inside during the severe winters of the prairie provinces.

### Executors Sale

### BRITISH BEAT BACK VIOLENT ENEMY ATTACKS.

Field Marshal Haig Reports Heavy Fighting Along the Whole Northern Battlefront —The Germans Brought Up Fresh Divisions, and Delivered Determined Assaults, But Were Repulsed With Great Losses.

(British Official Statement.)  
LONDON, April 11—The official report from Field Marshal Haig's headquarters in France tonight reads:—

"The enemy pressed his attacks strongly throughout the day on the whole northern battlefront. Heavy and continuous assaults have been delivered by fresh German divisions in the region of the river Lave between Loisine fighting the Fifty first Division has beaten off incessant attacks with great loss to the enemy, and by vigorous and successful counter attacks has recaptured positions into which the enemy had forced his way.

"Heavy fighting has taken place at Estaires and between Estaires and Steenwerck. In this sector also the enemy attacks in strength and succeeded in pushing back our line to just north of these places. "North of Armentieres a determined attack developed this morning against our positions in the neighborhood of Pleegsteert Wood, and the enemy made some progress. Further north a heavy attack was launched this morning against our lines in the neighborhood of Wytschaete and Hollebeke, but was completely repulsed by the Ninth Division with great loss to the enemy.

"Fighting is continuing on the whole front between La Bassee Canal and the Ypres Comines Canal. On the remainder of the British front the day again passed comparatively quietly."

### AMERICANS REPULSE AT TACK BY GERMANS.

With the American Army in France, April 10—The Germans attempted an attack against the American positions northwest of Toul, just before sunrise this morning and were completely repulsed. Two German prisoners said the enemy planned the attack with a force of 800 men, but that it was stopped in its full strength by the effective fire of the American artillery.

### AMERICAN MARINES LANDED AT VLADIVOSTOK.

HARBIN, (Friday), April 5—(By the Associated Press)—American marines have been landed at Vladivostok, as well as British and Japanese forces, according to advices from that place. The Americans are in control of the docks, while the Japanese are guarding the railway and ammunition depots.

### HOW THE GERMANS CROSS THE OISE.

AMSTERDAM, April 11—Describing how the Germans succeeded in crossing the River Oise, south of La Pere at the beginning of the offensive on the Somme front, the war correspondent of the Cologne Gazette says:—"Four hundred heavy mine throwers were brought to one spot and joined together so that they could be fired by electricity at the same time. Immediately after the mine throwers had been discharged, bridges, which had been kept in readiness, were thrown across the Oise and troops stormed the southern suburb of Chauny, kill or taking prisoners the enemy troops there."

"Are you quite sure?" I asked the scientist.

"No," he replied. "I have only studied nine books on the subject and made seventeen experiments. I am not quite sure."

"Are you quite sure?" I asked.

"Bill Smith told me so."  
—"Efficiency Magazine."

### Synopsis of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within five miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.  
Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take expurchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months out of three years - cultivate 50 acres and erect a house worth \$300.

The acres of cultivation is subject to deduction in case of rough, shrubby or any land. Live stock may be substituted for cultivation under certain conditions.

W. W. COREY, C. M. G.,  
Deputy of the Minister of the Interior

### NOVA SCOTIA FISH LANDED AT BOSTON.

BOSTON, April 11—The first cargo of Canadian fish to be landed here free of duty under the new reciprocity agreement, recently signed by Secretary of Commerce Edfield and Chief Justice Hazen, of New Brunswick, arrived today on the Canadian schooner "Elinor S." of Yarmouth, N. S. The catch on 53,000 pounds of fresh ground fish was sold through the New English Fish Exchange.

### WAS HE REALLY STUDD!

A young foreigner was being tried in court and the questioning by the lawyers on the opposite side began.

"Now, Laszky, what do you do?"

"Ven?" asked Laszky.

"When you work, of course," said the lawyer.

"Vy, work—"

"I know," said the lawyer,

"but what at?"

"At a bench."

"Oh!" groaned the lawyer.

"Where do you work at a bench?"

"In a factory."

"What kind of a factory?"

"Brick."

"You make bricks?"

"No, de factory is made uv bricks."

"Now, Laszky, listen. What do you make in that factory?"

"Eight dollars a week."

"No, no! a lot uv money, I think."

"Now, listen! What kind of goods does the factory produce?"

"Oh," said Laszky, "good goods."

"The best."

"The best of what?"

"The best there is."

"Of what?"

"Of dose goods."

"Your honor," said the lawyer, "I give up."

**Money is a Medium**

We cannot eat, drink, or wear money—it is only good when exchanged for something else. Thus the art of saving does not consist in hoarding money but in changing it into something of service. This art attains its highest perfection when we buy music with its permanent power to console, to instruct, to inspire.

And the most successful medium for such music is the Heintzman Piano. To see it is to admire it—to hear it is to acquire an unquenchable thirst for the beautiful. Come in and examine this unusual piano.

**NATIONAL REGISTRATION IN CANADA, ALL ON ONE DAY, IN JUNE.**

OTTAWA, April 9.—Regulations for the national registration of the man and woman power of Canada have been drafted by the board which has been dealing with the matter and they are now before the cabinet for approval.

The intention is to have the registration on one day, some time in June, and it will be conducted very much like an election.

The general purpose is to find out what the men and women of the country are doing and to locate the exact sources of labor supply.

**CANNING.**

Mr. Benjamin Borden is still confined to the house.

Mr. Loran Jordan is still manufacturing wood piles with his engine.

Miss Frances Rand of Truro spent Easter with her mother, Mrs. Mary Rand.

Mr. Harry Maclatchy also spent last Sunday with his sister, Mrs. Harry Rand.

Mr. A. C. Kane has purchased a fine colt from Mr. E. B. Strong.

The snow that came on Friday, April 5th made the roads very bad in town.

Ship building is rapidly increasing under the management of Mr. Hatfield.

Mr. Tves who has 20 head of fat cattle under the care of Harold Rand for the winter intend sending them to Halifax the first of May.

Mr. J. E. Bigelow was in Margareville a week ago looking after the work in the shipyard there.

The Mission Band gave a very interesting entertainment in the Methodist Church on Wednesday last.

The Daylight Saving Measure Has Received Royal Assent.

OTTAWA, April 12.—The going into force of the daylight saving measure has been definitely fixed for two o'clock on Sunday morning, April 14th. It will remain in effect until two o'clock on the morning of Thursday, October 31st, 1918. This afternoon Sir Charles Fitzpatrick, Deputy Governor, attended in the Senate and gave the Royal assent to the Bill. Immediately an extra of the Canada Gazette was issued containing the following proclamation:

"His Excellency, the Governor-General in Council, on recommendation of the Minister of Trade and Commerce, is pleased to order and it is hereby ordered that the prescribed time during which the Daylight Saving Act, 1918, is to be in force during the present year shall be from two o'clock on the morning of Sunday, the 14th day of April, 1918, until two o'clock on the morning of Thursday, 31st day of October, 1918."

ganized for this event and Wolf-  
ville is asked to co-operate with  
Kentville.

### THE MONTH OF MARCH.

March was unusually cold  
until the 21st, with only a few  
moderate days during this pe-  
riod. The thermometer regis-  
tered below zero once during  
the month, the temperature fall-  
ing to 13 degrees below on the  
8th. The mean temperature,  
compared with the same period  
in former years was 24.44,  
28.52, 22.09, 26.81 and 30.72  
for 1913, 1917, 1916, 1915 and  
1914 respectively.

The snowfall during the  
month was light, falling on  
eight days and amounted to 18  
inches, the heaviest being on  
the 6th and 10th when 4 and 6  
inches fell respectively. A  
windstorm accompanied the  
snowfall on the latter date and  
considerable drifting resulted.  
This was the only bad drifting  
snow-storm of the year. Sleigh-  
ing continued good until the  
27th. A remarkable feature of  
the winter has been that sleigh-  
ing continued practically unin-  
terrupted from the 2nd Decem-  
ber to the 27th March, and yet  
there has been no very heavy  
snowfalls during this period.  
The rainfall during March was  
light amounting to only .37 in-  
ches, this amount falling on the  
13th and 23rd.

The sunshine recorded a-  
mounted to 149.9 hours as com-  
pared with 166.3, 120.4, 103.1  
and 113.2 hours for the same  
period in 1917, 1916, 1915 and  
1914 respectively.

HAIG'S APPEAL TO HIS MEN

LONDON, April 12—Field Marshal Sir Douglas Haig, in a special order of the day addressed to "all ranks of the British army in France and Flanders," says: "Three weeks ago today the enemy began his terrific attacks against us on a fifty mile front. His objects are to separate us from the French, to take the Channel ports and to DESTROY THE BRITISH ARMY."

"In spite of throwing, already, one hundred and six divisions into the battle and enduring the most reckless sacrifice of human life, he has yet made little progress towards his goals."

"We owe this to the determined fighting and self-sacrifice of our troops. Words fail me to express the admiration which I feel for the splendid resistance offered by all ranks of our army under the most trying circumstances."

"Many among you now are tired. To those I would say THAT VICTORY WILL BELONG TO THE SIDE WHICH HOLDS OUT THE LONGEST. The French army moving rapidly in great force to our support. There is no other course open to us but to fight it out."

"EVERY POSITION MUST

BE HELD TO THE LAST MAN. There must be no retirement. With our backs to the wall and believing in the justice of our cause each one of us must fight to the end. The safety of our homes and the freedom of mankind depend alike upon the conduct of each one of us at THIS CRITICAL MOMENT."

TRANSPORTATION OF U. S. TROOPS IS ACCELERATED

Washington, April 8—Transportation of American troops to France already is proceeding at the accelerated rate contemplated by the speeding up measures taken after the battle of Picardy began. Acting Secretary Crowell made this statement today, but would give no details.

The speech of the British Prime Minister dealing with the fighting in Picardy, the relative strength of the opposing armies, the reasons why the Germans were able to advance, which it would be hard to find a general way, the outlook, is one of the most important public utterances since the beginning of the war. In places it is surprisingly frank. Through-shell fire and that many have out it is the answer to scores of questions which the people in

Allied countries have been asking for the last two weeks. The Prime Minister presents the gravity of the war situation frankly, but without pessimism. The speech is vibrant with high purpose and well reflects the resolution of the Empire. It is a new call to arms, a demand for still greater sacrifice, yet in its entirety the message is both steadying and encouraging.

BRUTAL TREATMENT OF CAPTIVE BRITISH

Germans Enslave and Starve Prisoners of War, Subjecting Them to Untold Cruelties

LONDON, April 12—How British prisoners of war in Germany are enslaved, starved and subjected to untold cruelties, is related in an official report of a Government committee made public today. The detention and employment to non-commissioned officers and men captured on the Western front, the report, "have brought to the attention of the public the suffering of these prisoners an amount of unjustifiable suffering for which it would be hard to find a parallel in history. The report is based on an accumulation of evidence and shows that prisoners have been employed constantly under fire and that many have been killed by British guns, and that they have been kicked and

Advertisement for 'All but Hands and Face' featuring an illustration of a man in a suit and hat. Text: 'The self-made merchant said to his son, "Of course clothes don't make the man, but they make all of him except his hands and face during business hours." You may not think your advertising a very important matter, but it is all strangers see of your business and they will judge you by it. If you use your advertising space judiciously, these strangers will come to you to deal and become acquainted with you. Advertising is the best means to enlarge your business acquaintance.'

have not been provided with adequate shelter; have often been shot and that deaths from starvation and overwork have been constant.

French prisoners have been subjected to the same treatment. Some of the prisoners received neither letters nor parcels for eight or nine months after their capture. Last November there was in the Limburg station between 18,000 and 20,000 undelivered parcels for British prisoners.

BRITISH AVIATORS BOMB LUXEMBURG

Dropped More Than a Ton of Bombs on the Railway Station There

LONDON, April 11—British aviators today dropped more than a ton of bombs on the railway station at Luxembourg. In reporting on aviation activities on the battle front Wednesday, the official statement on aerial operations says that eight enemy airplanes were accounted for and that seven British machines are missing. The statement follows:—

"The weather Wednesday was very unfavorable for flying, but as soon as it was possible to leave the ground our airplanes went out to reconnoiter the battle front. Useful information was brought back as to the position of the enemy's fire. Enemy low flying machines circled over our troops, which were attacked with bombs and machine gun fire. Enemy low flying machines were active on this front. Three were shot down in our lines by infantry, four were brought down by our airplanes and one was driven down out of control. Seven of ours are missing.

"At midday today we raided the Luxembourg station and over a ton of bombs were dropped. Several were seen on fire and around the station. All our machines returned."

\$500,000 GIFT FROM AMERICAN TO OUR RED CROSS

Washington, April—The American Red Cross today authorized a gift of half a million dollars to the Canadian Red Cross for war relief work.

The gift was made without restriction but the American Red Cross expressed the hope it would be possible to use the fund for the relief of the Canadian soldiers at the front. The letter accompanying the contribution expressed the feeling of sympathy and admiration of the American people for the part taken by the Canadian Red Cross and the Canadian people in the war.

HUNS MISTAKEN IN THEIR DEFTY

Carbondale, Ill., April 4. In an address here tonight William Howard Taft, former President, declared the United States to be fighting "The German people, led by William Hobenzollern; adding, "that Germany has mistaken the Devil for God."

MORE THAN HALF SHOT.

The old soldier was telling of his thrilling adventures on the field of battle to a party of young fellows, one of two of whom were sceptical as to his veracity.

"Then," he said, "the surgeons took me up and laid me carefully in the ammunition wagon, and"

"Look here," interrupted one of the doubtful listeners, "you don't mean the ammunition wagon. You mean the ambulance wagon."

But the old man shook his head.

"No," he insisted, "I was so full of bullets that they decided I ought to go in the ammunition wagon."

Minard's Liniment Cures Dandruff.

IN SPITE OF THE KAISER

(1) C. F. O. S. Pacific Liner which made a speed record a few weeks ago. (2) C. F. O. S. Atlantic Liner.

THE claim made by Kaiser Wilhelm and his satellites that the British merchant fleet is disappearing from the ocean seems particularly ludicrous in the case of the fleet most closely associated with Canada, namely that of the Canadian Pacific Ocean Services, which so far from diminishing has actually increased its tonnage since the beginning of the war by nearly 30%. No fewer than 15,000 men are employed with approximately 10,000 dependents, and the numbers are steadily increasing. Taking the Atlantic fleet first. At the outbreak of the war the steamships of the Allan Line and Canadian Pacific Co. (now known as the Canadian Pacific Ocean Services) numbered 25, with a gross tonnage of 312,000 tons. The value of these fleets to the British Empire in war-transport work has been incalculable, and the earliest possible advantage was taken of it by the British Government. Almost from the moment of declaration of war on the 4th August, 1914, a large proportion of the joint fleet was requisitioned, including the larger and newer vessels then in service. Two of the largest and largest of the Allan Line steamers were immediately put into commission as armed merchant cruisers. "The Empress of Russia," "Empress of Asia," "Empress of India," and "Empress of Japan" were immediately fitted out as armed cruisers. Many of the other vessels of the joint companies were engaged on the passenger service between Europe and Canada and completed in transporting supplies and communications not only across the Atlantic but also over the ocean of the world from the West to the Far East. Notwithstanding this great call on the Canadian Pacific and Allan Line resources, these companies have not only maintained their service on regular passenger and freight lines, but also maintained an uninterrupted service of mails and passenger and freight traffic between the two continents as getting being

large supplies of troops, stores, munitions of war. From the outbreak of war down to the present day the Canadian Pacific and Allan vessels engaged on troop and similar work have transported no fewer than 100,000 troops and passengers from Europe to Canada, the Mediterranean, India, China, Egypt, Gallipoli, Mesopotamia, or across Channel, or to the Pacific. Up to the same moment the company's vessels since the outbreak of war have steamed over 1,200,000 miles and have carried westward and eastward over three million tons of cargo, munitions, supplies, etc. These figures indicate no mean contribution to the "carrying on" of the war, and constitute a splendid tribute to what Canada—Britain's Nearest Dominion—has tried to do to help the Mother Country in her hour of need. Add to this the fact that these ships have been carrying in "backwards" every case large quantities of munitions made in the Canadian Pacific Angus Sloop, the value of the contribution of the companies under notice and of the great parent company, the C. P. R.—received still greater emphasis. The Canadian Pacific Fleet, although suffering but a slight diminution of tonnage by the act of the King's enemies, has been gradually increasing by purchase or building up. At the outbreak of the war the fleet of the Allan Line and Canadian Pacific numbered 49 steamers with a gross tonnage of 312,000 tons, whilst further orders have been placed for four more of still greater tonnage. Services are being steadily maintained carrying mails for the different parts of the Dominion and the outer European ports of the Allied countries. Every goods within the power of the Canadian Pacific is being used to maintain the supply of the necessities of the war, and for the people at home.

The fact that the Allan Line was one of the first to effect a direct service between Great Britain and Canada. The founder of the Allan Line was Captain Alexander Allan, who in 1822 sailed from Glasgow to Quebec in the brig "Jama" in search of cargo for his vessel. In 1823 the sailing vessel of the Allan Line was replaced by steamships in the Canadian British trade. As showing the progressive tendencies of these hard-headed and tenacious Scottish founders of the line it is worthy of note that the Allan Line has been pioneer in the adoption of steel in the construction of its vessels; (B) in the adoption of the turbine as a mode of propulsion; (C) in the adoption of twin screws on its steamers; and (D) in the use of a special kind of steel. The founder's family, now headed by Col. Sir Montague Allan, C.V.O., and his cousin, Mr. H. A. Allan, always adopted a progressive policy, with the result that steady increase in the size and speed of steamers has been witnessed whenever additions to the fleet were made, and these additions have done much to stimulate the demand for passenger and cargo accommodation on the Atlantic service to Canada. Manila in the Philippines, has also been of late brought into the service, as one of the numerous ports of call in the East, and the company is steadily but surely working up a steady and useful service on the Pacific which cannot but be of the greatest advantage to the Pacific trade in general. On the Atlantic, the C. P. R. instituted its own direct service in 1903 by the purchase of the Atlantic vessels of the Elder Dempster Steamship Line, a service which has grown to its present proportions and which now includes some of the finest passenger and cargo carrying vessels plying between Canada and the Mother Country.

### A FISHING PROCLAMATION.

An old Highland fishing proclamation was read by the Rev. Percy Cooke at a meeting of the Lums Fishery Board at Lancaster. The proclamation read as follows: "This shall be a proclamation of Her Grace the Duke of Argyll: If any man be found fishing in the loch, on the loch, around the loch, through the loch, above the loch, or under the loch, his neck shall be broken in twelve places, and if he shall hereafter offend he shall be persecuted wif far war persecution, for he shall be burned and hanged. By all the laws of the Europes of Scotland and Her Grace the Duke of Argyll."

Howard's Linctment Relieves  
Neuralgia.

### THE COST OF PORK PRODUCTION.

(Experimental Farms Note.) The unprecedented price of pork for the past several months naturally causes the consumer to question whether or not the rise is legitimately due to increased cost of production or to manipulation by the much abused middleman. The producer himself is frequently uncertain as to the actual cost of production when the various factors influencing costs have been accounted for. Indeed the charges against young pigs at maintenance of the dam is properly charged and where present feed prices apply, where no cheap by product or refuse is available, and particularly where only one litter per year sow is raised, is greater than many swine growers suppose.

The following figures are available from swine breeding operations at the Experimental Farm, Ottawa, and elsewhere on the Experimental Farms System and may throw some light on the question. To arrive at the cost of young pigs the feeding costs of not only the dam but also the grand dam are necessary. In other words a full maintenance cost of the together with her milking period charges, should be figured to arrive at the cost of the first litter. For succeeding litters a pro rata charge for each individual of the litter, should be made of feeding and breeding charges incurred while the sow was carrying and later suckling the litters up to weaning time.

Feed cost to raise a gilt to first farrowing . . . \$ 28.37  
Breeding charges, cost to feed while suckling litter . . . . . 10.00

Total cost of first litter . . . . . \$ 38.37  
Cost per pig at weaning (7 in a litter) . . . \$ 5.48

If the cost were figured on the market value of the young sow the cost of the litter per pig would be considerably higher—\$8.24.

If sold after raising one litter the sow might be expected to bring about \$35.00 or to nearly pay the total cost of her first venture.

If retained as a brood sow, bred shortly after weaning, and subsequently raising a second litter of seven pigs, the cost per pig would be in the vicinity of \$2.82.

The average cost per pig may be safely figured at \$3.00. Seven raised pigs per sow is a high average, numerous individual cases to the contrary.

### A Comparison of Costs Then and Now.

Several years ago at the Ontario Agricultural College it was estimated that where all incidental feeding, maintenance and breeding charges were considered, young pigs could be raised to six weeks at a cost of \$1.27 each with an average litter of six and one half pigs. Meal was charged at the rate of \$20.00 per ton; skim milk, \$3.00 per ton; and roots \$2.00. Present day price would be \$50.00; \$4.00 and \$3.00 respectively at the lowest estimate and would explain the fact that the foregoing figures are so much higher than the Guelph findings which were practically similar to those shown at the Central Experimental Farm at that time.

The cost to produce pork from these young pigs against which feeding charges at the average rate of \$3.00 each must be levied at six weeks of age, will vary widely. The cost of feeding four pounds of meal per pound in the pig house would in some cases gain the pig a price of \$1.00 per pig, but the total cost from skim milk and roots would be \$1.00 per pig.

\$15.00 might be taken as a fair feeding charge.

While the average overhead charge is relatively small in the case of the farmer who keeps but a few pigs, it is capable of wide variation depending entirely upon the intelligent understanding of the owner concerning the principles of swine husbandry. A range of from 20 p. c. to 60 p. c. of the feeding charges might be allowed. In most cases the lower figure might fairly be applied.

The foregoing estimate include only feeding and breeding charges and are exclusive of labour, depreciation, and overhead charges generally. The element of risk, much in evidence in swine raising is also omitted.

Under proper management there is a fair profit in hogs. To the consumer and the prospective swine grower the foregoing figures, however, would indicate certainly that such profits are not excessive.

### PUSHED BACK SLOWLY BY CONSTANT ATTACKS OF ENEMY IN GREAT FORCE.

Field Marshal Haig's Report of The Fighting At Bailleul And North Of La Bassee.

LONDON, April 12.—Field Haig's report from headquarters in France tonight says:—

"Strong pressure has been maintained by the enemy all day south and southwest of Bailleul. Constant attacks in great force were made in this sector and are continuing.

"Our troops have been pushed back slowly in continuous

fighting to positions in the neighborhood of the Bailleul railway, where they are heavily engaged with the enemy.

"Sharp fighting occurred also on other parts of the battle front north of La Bassee Canal, and the enemy made slight progress between the Lawe and Clarence rivers.

"At other points our positions have been maintained. "On the remainder of the British front the position is unchanged.

"Over 110 German divisions so far have been engaged since the morning of March 21 and over 40 of these have been thrown into the battle two or three times."

**Military Service Act**

Important Announcement to All  
**EXEMPTED MEN**  
and to the Public Generally

IN dealing with the very large number of claims for exemption brought forward for consideration in connection with Class 1 under the Military Service Act, it has occurred, as was inevitable, that as a result of false statements and difficulties put in the way of investigation, some individuals have secured exemption whose proper place is in the Army.

It is not the intention of the Government to allow these men to evade permanently their obligation to bear their part in the military defence of the Country and of the ideals for which we are fighting. To do so would defeat the purpose of the Act, and cause grave injustice to men in the second class necessarily called out to fill their places.

**Exemptions Granted on False Grounds**

It is, therefore, proposed to scrutinize carefully all exemptions granted to date in order to separate those which have been granted on false or insufficient grounds from those that are well founded.

With this object in view the various Registrars under the Military Service Act have been instructed to issue a series of questionnaires to exempted men. These questionnaires must be filled up correctly and returned promptly under penalty of forfeiture of exemption for failure to do so.

**Exempted Men Who Have Changed Address**

It is therefore important in their own interest that all exempted men who have changed their address since their exemption was granted and who have not already notified the Registrar of such change should notify him at once. Under the Regulations it is the duty of exempted men to keep the Registrar advised of any change of address, and failure to receive the questionnaire by reason of neglect of this duty will be treated as equivalent to a return of the questionnaire as false.

#### BIBLE STUDENT'S PETITION.

ACTING upon legal advice, the Bible Students of Canada have instituted a campaign against what they regard as a serious menace to religious liberty, in that their literature has been placed under the ban of the Military Censor.

THIS movement is not undertaken on behalf of Bible Student's alone, but in the interest of all who prize the inestimable boon of religious freedom—a principle which is recognized as the bulwark of Free British Institutions.

THEY, therefore, respectfully solicit the support and co-operation of all loyal, liberty-loving Citizens to whose notice this may come, who, if not other wise called upon are asked to kindly sign the annexed petition-form and mail at once to

FRED W. YOUNG

P O Box 350, Kentville.

To His Excellency the Governor General in Council:—

The petition of the undersigned loyal residents of the Dominion of Canada sheweth:

That the International Bible Students' Association is composed of law-abiding persons and devout Christians, who are seeking the Truth by honest interpretation of the Scriptures.

That the "Bible Student's Monthly," and the "Finished Mystery" are works of religious instruction used by the International Bible Students, and in no respect whatever seditious or objectionable from a national standpoint. That thru error or misrepresentation, the publication and possession of these works have been prohibited by the government of Canada.

That in the interest of religious liberty, free speech, and the best traditions of British citizenship, the said ban should be lifted.

Your petitioners therefore pray that the said ban be lifted and the free circulation of the said works again permitted in Canada.

NAME .....

#### NOTICE.

Please remember to gather any old or silver articles you have, that you will give to the Y. C. M. A. Coffee and Cocoa Fund and have ready for the Collectors who will call for it the last three days of this week, March 18th, 19th, 20th. It would be impossible to give exact time the collectors will be on the different streets so if any one is going out please leave parcel so they could get it. Remember old worn plated ware as long a bit of gold or silver is left on it is valuable. On these same days some of our Cadets will call for any old brass lead or copper you may have. All can be sold and used in this most necessary work.

Also any old rubbers that you can give us will be sold to local junk men and the proceeds given to the same fund.

Will anyone living too far out to be reached by our boys, and girls kindly bring your donations when ever you are coming to town, leave gold or silver trinkets at J. R. Webster's store. And old brass lead and copper at A. L. Pelton's garage. Don't consider this appeal unworthy of notice. A very small d thimble or maybe a silver harness buckle would give more than one dear lad a cup of hot coffee.

A few things which might help you to think what you could give:—

Old jewelry, old spoons or any table ware, silver or gold umbrella handles, silver or gold canes, buckles ornaments, umbrella handles, silver, or gold brass clocks (nearly all old clocks have brass works), brass candle sticks, buckles, old brass or copper water faucets, bits of lead pipes, tea lead, zinc, anything and everything, much or little will be thankfully received.

#### RED TRIANGLE FUND WARD MEETING.

An important meeting of the residents of Ward 4 is called for Tuesday afternoon, April 23rd at 2 o'clock in Woodville Hall to effect an organization of the Ward for the canvas of every home for the Military Y. C. A. fund of which Kings County morally is obligated to raise its proportion of the \$2,500.00 Canada has pledged.

Dr. H. T. DeWolfe, Captain Kneal, & County Organizer, Mr. George Chase, are expected to be present and address the meeting.

Ward 4 appears to be the first district in the County to call such a meeting, and shows the keen interest of the residents in the welfare of our boys at the front, and their determination to support this cause in the practical way such a service merits.

At the convocation of the Presbyterian College, Halifax, this week, Rev. R. B. Layton expects to receive the degree of B. D. A candidate in Arts, for this degree must be graduate and must make first class Honors in examination through out his whole College course, and then reach the same standard on five subjects in a special examination taken at least one year after graduation. This is to be followed by the writing of three Theses or approved subjects. Having fully qualified on all these points, Mr. Layton's name will be placed before the Senate on Wednesday with the recommendation that the degree be conferred. There has been 42 of these degrees given since the College opened in 1820, and it is the highest conferred for scholarship only.

The death occurred on Sunday morning at his home in the Gore, Hants Co. of Private Aubrey Murphy. He had been a patient at the Sanatorium for several months, and left there on April 4th for his home. There being no minister at present in charge of that congregation, the family asked Mr. Layton to take charge of the funeral on Tuesday, Mr. Layton left on Monday, and will probably not return before Friday.

#### SPECIAL NOTICE

I desire to inform my friends and Patrons that for many reasons I have been unable to decide on making arrangements for receiving New Fashion Books and would ask all who intend favoring me with their valued patronage to kindly choose their Styles from whatever Designs are available. I shall try to Adapt them as far as possible to Made to Measure Tailoring and hope to be able to give the desired satisfaction.  
Respectfully Yours,  
**H. E. BORN.**

Ladies Tailor Kentville.

#### NOTICE

Owing to the embargo on Cottonseed Meal our order of two cars have been cancelled. We have on hand now Royal Household Flour Ground Barley, Crushed Oats and Oats. We are expecting other feeds this week

Kentville Fruit Co. Limited

We are ready to give orders to farmers to supply us with large quantities of cabbage for our Sauer Kraut Factory. The price will be guaranteed, consequently you need not worry where you will sell it, or what the price will be.

Why not raise cabbage and sell them to us at a profit instead of offering turnips which we cannot sell.

Call and arrange for whatever quantity of cabbage you can supply. sw4f
