

THE ACADIAN.

WOLFVILLE, N. S., SEPT. 24, 1909.

The Reviewer.

The whole world has been showing great interest over the exploits of Peary and Cook in the North. We were certainly startled when announcement of their success in at last reaching the top of the world was flashed over the wires. All readers of the news were given a new and curious feeling concerning the planet on which we live. On all sides are heard words of praise and congratulation that the goal sought for many centuries at the cost of hundreds of lives and much treasure has at last been reached by these intrepid men, and we take it for granted that they both got up to the top, and we don't care a cent how or when.

And yet, when we calmly consider the whole exploit, we are inclined to wonder at the degree of interest and importance given to this achievement. There is nothing to gain, either of truth or treasure when done.

It has all turned out to be very much as one imagined from the first. We have not even the satisfaction of buying a relic or splinter of some North Pole. The mere fact of conquest had fought for and long delayed, and of daring and valor being at last productive of the world's praise, is the only result of it all.

It is to be wondered at and much regretted that such energy and concentration could not be put to better use. If men of the stamp of Peary and Cook would only give their splendid efforts to the attainment of something really worth while, the world would be infinitely the gainer by their work. There are so many things to do that are more important, so many discoveries to make, so many daring ventures to embark upon in the name of right and justice, that it seems a sad waste of effort when we consider it from this view point. It has wisely been said that anything is a sin when something better might have been done in its stead.

We have now about reached our limit of geographical exploration. It is evident that we know all concerning the physical planet that is of real service to the development of humanity. We have already discovered and developed sufficient territory for the full exercise of the power of men. It is time therefore that we direct our energies to channels of more real service to the race. Who can deny that we have made small progress in the exploration of the larger limits of human life. Most of us are only treading on the fringe of existence while very few have penetrated to the center. The average man does not live on any higher plane than any other brute.

Man is capable of far greater powers of achievement, and should be upon the plane his maker intended him for, and yet he devotes most of his time in business operations, buying and selling, rushing, cheating everybody for himself and let the hiddermost last out, all of which simply continues man's physical existence.

When will we realize that this old planet on which we live is infinitely less important and value than the little world represented in a human life. The discovery of the North Pole is hardly worth mentioning in comparison with the discovery of the higher nature and powers of some degraded soul. Dr. Greenleaf, in his work in Labrador, is constantly making discoveries of human nature and possibility among the rough folk with whom he works that should thrill us all far more than the sensational news from Cook, Peary and Shackleton combined.

Now that we have got to the top of the world, let us set forth on a search for the top of the human world. Instead of penetrating regions that grow more cold and desolate with each new advance, let us rather make our way to the upper altitudes of human possibility, where character attains its best, and divine days will open for the Gods and the race. This is a conquest upon which every good citizen could and should at once set forth. Let us seek to discover the best in man, and having discovered it, utilize all the resources in our civic government, to make real the ideal and to develop the more splendid possibility of our life and of those about us.

The Annapolis Valley Beats the West.

MORE OPPORTUNITY FOR YOUNG MEN HERE THAN IN THE WEST, BUT THEIR THIRTY GIVE THE YOUNG MAN A BETTER CHANCE.

From the Dartmouth Patriot. The beautiful valleys of the Cornwallis and Annapolis rivers, are a sight to gladden the hearts of the people who reside in that wonderful little country.

The valley where these rivers run lies between the so called North and South Mountains, which, however, are mere hills of no moment. The valley is about eighty miles long and from four to ten miles wide. The average width cannot exceed six miles. This gives an area of 480 square miles, not much more than half the area of Kings county and not nearly one fourth the area of Halifax county.

The area of the three North West provinces is a little over 370 million acres, therefore those provinces would make more than 1500 areas the size of the Annapolis Valley.

The newspapers are publishing striking accounts of the wonderful crop values of the west. Bankers and others say the wheat crop will be worth fully one hundred million dollars. This sounds huge and attracts the greatest attention in all quarters of the world. The results are certainly spectacular and a great advertisement for Canada.

BEATS THE WEST. But the Annapolis Valley has the North West beaten to a standstill for the values it will produce this year or in fact any year.

The orchards are laden with fruit of the finest quality.

Not only apples, but plums, pears, cherries and peaches are grown in ever increasing quantities. One grower alone, who was casually mentioned to the writer when on a trip through the district, will have over 1500 bushels of plums. Another grower received over \$1000 for his crop of cherries this summer. Another grower last season got over \$5000 for his crop of small fruits alone, not counting the apples, pears, etc.

A TWO MILLION CROP.

This is what the Valley is doing. This year it is estimated that the fruit crop alone will be worth fully \$2,000,000. This is outside of small fruits. When one considers the small area and what a sum of money, two millions, the result is wonderful.

What can the rest show to match this return to the farmers for their efforts? At the same rate the wheat crop of the West, area for area, would produce over two and a half billions of dollars, or two hundred and fifty times what it produces today.

The Patriot ventures the assertion that there is no area of agricultural land of the size of the Valley which produces anything like the result attained there, and still people are leaving that marvellous and delightful Valley for the West.

THE ADVANTAGES.

They don't know what they are about. There they are surrounded by all that a long settled prosperous country gives. Good schools, churches, a charming intellectual social life, a railway right at their doors, telephones, mails at least once a day and in most of places twice, easy access to the city of Halifax, although that can hardly be counted for much, two colleges in sight and in fact everything that can make life pleasant. With all these are added a fertile soil and for a large area access to the water front and inexhaustible marsh land. A natural fertilizer which can be had for the hauling.

The Domion Atlantic Railway runs the entire length and even has a branch line like a V where the Valley is widest. It supplies an excellent service and through an extensive and determined advertising campaign, has succeeded in turning a large tourist trade through that portion of the province. That trade has done more than bring people. It brought people with ideas and knowledge which have given a marked impulse to the residents.

THE OTHER SIDE.

In the West a man's neighbor may be a Russian, an Italian, a Polish Jew, a Swede or even a Chinaman. They come from every part of the earth, heathen and Christian, of all tongues and types.

The farms are large, and neighbors such as they are, are far away. The prairie is wide, flat and wind swept. It is a horror to wives, almost as bad as Siberia. Large numbers go insane. That is the country Nova Scotians go to when they can take a few acres in the Annapolis Valley, be a thousand times more comfortable, and live an intellectual life free from the terrors of late frosts in the spring and early ones in the fall, plus, a few hail storms thrown in during the summer.

Talk about making money out West. What's the matter with the Valley. The writer knows many farmers who are worth from \$10,000 to \$50,000 who began like most of boys do without a dollar. It is not an uncommon thing for a man to buy a farm for \$10,000 to \$15,000, pay a thousand or two down and be out of debt in six years.

AN ORCHARD MEANS WEALTH. Any young man who can get possession of 25 acres of land, a small thing to do, put half of it out in fruit and take care of it, is an independent as a lord in from ten to fifteen years. That orchard will be producing abundantly if cared for a hundred years after he is dead. That's a legacy to leave ones wife and children. Talk about the West. Only those who don't know are so silly.

WOLFVILLE, N. S.

The Valley is the greatest money maker for farmers known to men today. If the people there worked half as hard as the farmers of the West, the banks could not hold all their money.

And still there are ten of thousands of acres in that Valley covered with scrub or pasture or woodland practically unoccupied. Think of it! and the youth of the country wandering off. God only knows where.

What is the matter with this end of the Dominion when these things be? Some may think this a fancy picture, of course they will, for it would be really too bad for them to believe anything good can come out of Nova Scotia. That would never do.

NOVA SCOTIA ALL RIGHT.

Nova Scotia is all right, the climate is all right. It is situated where it commands the markets of four continents. It has one of the most fertile people on earth, but they have no faith in their own land and they should be ashamed to own it. They know better or should, but they have no native patriotism. Every other place is better than this and every other people better than those at home.

Once let Nova Scotians get wise to their opportunities and get after the good things as others do and then you will see Nova Scotia grow. A man was asked, 'What's the matter with Nova Scotians at home, they don't seem to have any push, but away from home they are hustlers.' 'That's just it,' said the other, 'they don't have to hustle here, they can get along alright without, but they have to do it when they get away.'

Baby's Teething Time is a Troublesome Time.

When baby is teething the whole household is upset. The tender little gums are swollen and inflamed, and the poor child often cries day and night, wearing the mother out and keeping the rest of the family on edge.

Canning Items.

Miss Maud Baxter has returned to Newport, R. I. Misses Cora and Hulda Blenkhorn were in Halifax on Friday and Saturday. Mr. and Mrs. Frank Parker are in Toronto visiting their son, Rev. Lewis Parker. Mr. George Greenough left on Monday to spend a few weeks in Boston. Mr. Pitt Potter, who has spent the summer surveying in Western Canada, returned home last week. Mrs. Wm. Sturk left on Tuesday to visit her daughters, Mrs. James Smith, of Wharton, and Mrs. (Dr.) Stanley Spicer, of Amherst. Miss Ethel Eaton returned on Thursday from visiting relatives in Aylesford. Mr. Arthur Jodrie arrived from Mass. on Monday to visit his father, Mr. George Jodrie. Miss Barrett, of Mass., is the guest of Miss Edna Cox. Mr. Williams Northup, of Mass., a former resident of this town, is visiting his brother, Mr. Fred Northup. Mr. George Blenkhorn, of Boston, spent a few days here recently with his mother, Mrs. David Pearce. A very earnest and instructive sermon was delivered at the Methodist Sunday morning service by Rev. Dr. Wilson, of North Sydney, C. B., who, with Mrs. Wilson, spent a few days last week visiting their many friends here. Rev. Dr. Crowell is enjoying a well earned vacation visiting relatives in Pictou county. His pulpit of the lower Baptist church was occupied on Sunday morning by Rev. E. Wall, of Kingsport, who gave an interesting discourse on 'Daniel in the Lion's Den'. In the evening at the upper church Rev. F. H. Beals, of Upper Canada, who is a very pleasing speaker, preached an exceedingly practical sermon from the words, 'Thy Will be Done.'

Practical Education.

A radical change in the course of studies in the schools, designed to give the pupils a more practical education, has been adopted by the city of Cleveland, Ohio. A letter from that city says:— 'With the theory that purely academic studies in the grammar schools have outlived their usefulness in this commercial age, Superintendent of Schools, William H. Elson, will introduce this fall one of the most radical revolutions in school curriculum ever attempted. While the academic studies will not be wholly sidetracked, the whole trend of teaching will be along commercial lines, with the idea of teaching the child the things that will mean bread and butter to him. The change will take place in the fourth or fifth year of schooling. The time devoted to academic studies in the earlier years will in this year and the other three or four years be cut more than half, the time so saved being utilized in teaching the child the rudiments of trades and crafts. For the boys shops will be installed with all necessary machinery and in charge of competent instructors. They will be drilled in the intricacies of the different trades, both through books and the technical knowledge gained by working in the shops. The girls will be tutored in household duties, part of each day's work being devoted to teaching them how to sew, cook, sweep, dust and how to arrange a home in an artistic manner. This change is in line with the modern tendency in all countries. The age demands skill. The working boy or girl who is not well equipped for practical work in some special line finds the task of earning a livelihood increasingly hard, and uncertain in its results. Mere rough labor for men is more and more passing to the ignorant foreigner. The young Canadian who is not fairly educated and equipped for his life work tends more and more to become either a burden upon someone else, or a misfit in the industrial mechanism. He must learn to do something and to do it well. If he would be assured of regular employment and a life of comfort, the more practical the education for the average boy and girl who leave school at an early age, the better for their future welfare. The Cleveland experiment is based on a consciousness of this fact, and what Cleveland does this year all cities will be doing ere many years have passed.

Mr. and Mrs. Chas. B. Porter returned from their wedding trip on Wednesday, and were duly serenaded by a number of the young people on Wednesday evening. Work has been begun on the new Baptist church at Upper Canada, Messrs. A. W. Allen & Son, of Middleton, have the contract. The structure will be a fine one. Messrs. T. L. Harvey and F. B. WOLFVILLE - N. S.

Home Wedding.

An interesting home wedding occurred at the home of Mrs. George Churchill, Acadia street, last Saturday evening when Miss Mable B. Harris, of this town, was married to Mr. George A. Bennett, of Napusno, Ont. A number of the relatives and immediate friends of the couple were present to extend their good wishes and congratulations. The bride and groom were unattended save by Miss Ruby DeWolf, little niece of the hostess, who acted as flower girl. To the accompaniment of the Wedding March, played by Mrs. Ringwald, the bride entered the parlor leaning upon the arm of her father, Mr. Whitney Harris, and moved to the place awaiting her beside the groom. The ceremony was performed by the Rev. E. D. Webber. After a very pleasant social hour during which refreshments were served Mr. and Mrs. Bennett left for a short wedding trip. Upon their return therefrom they expect to take up their residence in Wolfville, where they already have a large circle of friends and will find a warm welcome awaiting them.

A quiet but pretty wedding took place at the home of Mr. and Mrs. Robert Spicer, Sept. 15th, when their third daughter, Sadie Agnes, was united in marriage to Mr. Dallas Churchill Conner, at 8 p. m. the bride entered the parlor leaning on the arm of her father, and took her place beside the groom, Rev. M. P. Freeman officiating. The Wedding March from Lohegrin was well rendered by Miss Stella Massey. The parlor was nicely decorated with flowers and potted plants. The bride looked very pretty dressed in a brown travelling suit and carried a large bouquet of sweet peas. After the ceremony a dainty luncheon was served, after which the bridal party took a trip to Windsor to see relatives before returning to their future home in Portland, Maine. The bride was the recipient of many useful and valuable presents.

The pulpit of the Baptist church was very acceptably filled last Sunday morning by Rev. Mr. Fowler, of Corinth, N. Y., who has been visiting relatives in Wolfville.

A Railway Magnate Dead.

Mr. Harriman is dead. He was undoubtedly a great railway man of the constructive order.

He was rich by wrecking railway systems or by depreciating them so that they could be easily acquired.

Harriman succeeded by making railways better properties. By consolidation and co-operation of vast systems of roads, by improvement in the management and in the roads themselves he made them earn more money.

His pay was made them earn more money. He was rich by wrecking railway systems or by depreciating them so that they could be easily acquired.

Became Insane from Smoking Cigarettes. STARTLING INCREASE OF THE BARKY IN CANADA. FARMERS SHOULD WAKE UP.

(From the New York World.) Marion Burkhardt shivered and covered yesterday in the Eastern District Hospital, Williamsburg. She is a fine looking girl with long black hair, blue eyes and an oval face.

The Rev. R. S. Pardington, of the South Second Street Methodist Church, saw the young woman near his church Wednesday night. She was aimlessly walking here and there talking to herself.

The clergyman pointed her out to Patrolman O'Brien, of the Bedford Avenue Station. As the policeman approached, Miss Burkhardt ran to a tree, threw her arms around it and made as if to climb it.

The physicians at the hospital vainly tried to learn her identity from Miss Burkhardt, who answered them feebly. A well dressed man, who seemed to tell his name, went to the hospital yesterday. 'She is Marion Burkhardt,' he said.

'I am a distant relation of hers. There is nothing against her character, but she is a cigarette fiend. Cigarette smoking has made her insane.'

No. (1) MADAM PRESIDENT—An investigation set on foot in Winnipeg, by the Tribune of that city, revealed that, on their own admission, nearly one-fourth of the kids attending the city schools used tobacco.

No. (2) Only last year a deputation of Physicians, Principals of Schools, Ministers and representatives from the W. C. T. U. and benevolent societies, waited on the Kingston City Council to beg that something be done to guard the school children from the cigarette. The principal of one of the public schools said that of his class of 25 boys all but ten were cigarette users.

No. (3) The 154 teachers in the London schools signed a petition to the School Board asking that the parents of the scholars should be in some way warned of the injury the cigarette was doing.

No. (4) The Toronto School Board was so impressed with the ravages of the habit amongst Toronto children that they threw open the schools to a lecturer upon the cigarette, permitting him to address the scholars during school hours.

No. (5) Mr. C. Ferrier is principal of the Victoria Industrial School (Mimico, near Toronto) to which incorrigible boys are sent, when parents or guardians can no longer control them. 'There over 14 years are not admitted, the average age is 12. The testimony of this gentleman is that fully 75 per cent. of all youths committed to his care are cigarette users.'

No. (6) Every such institution on this continent will furnish similar evidence. Not long ago the Sup't. of the Illinois State Reformatory said that of the 278 boys confined there 256 were cigarette smokers, leaving only 22 who were not addicted to the habit.

No. (7) It is true that in the States since 1899 the manufacture of the cigarette has decreased. It fell 25 millions in 1900 and 35 millions more in 1901, but in Canada there has been a steady increase every year for many years. In 1900 we consumed 116 millions in 1901, 121 millions in 1902, 124 millions, which is an increase over 1901, of 13 millions. It is not terrible.

A Fearful Warning. Canada stands aghast to-day at the shocking crimes committed near the village of Warren, on the C. P. R., forty three miles west of North Bay. The facts revealed show the work of a drunkard made of the morals and lives of his own family, including the story of not fewer than three murders of helpless infants. At the time of writing this item, the principal criminal is being hunted through the woods by officers of the law, and his wife is under arrest. The full details are too shocking for publication, but they are a fearful warning of the degradation and wickedness that may follow the breaking down of character by continued drunkenness.

Concerning the mother of the family, who was made a partner in some of the crimes, the 'Globe' reports says: 'Facts regarding the heart-breaking life she was compelled to live, are be-

Only Medicine That Did Any Good

After Suffering Tortures For Years, This Lady Found Happy Relief in 'Fruit-A-Lives'

Frankville, Ont., June 17th, 1908. 'I have received most wonderful benefit from taking "Fruit-A-Lives." I suffered for years from headaches and pain in the back, and I consulted doctors and took every remedy obtainable without any relief. Then I began taking "Fruit-A-Lives" and this was the only medicine that ever did me any real good. I took several boxes all together, and now I am entirely well of all my dreadful headaches and backaches.'

MRS. FRANK EATON. 'I take "Fruit-A-Lives" occasionally still, but I am quite cured of a trouble that was said to be incurable. I give this testimony voluntarily, in order that others who suffer as I suffered may try this wonderful medicine and be cured.' (Signed) MRS. FRANK EATON.

'Fruit-A-Lives' are sold by all dealers at 50c a box, 6 for \$2.50 per trial box, 50c or 60c a box on receipt of price by Fruit-A-Lives Limited, Ottawa.

ing brought to light, and told from mouth to mouth, in the stores and hotels. Particularly among the women is sympathy felt. It is recalled how often she would have to sit for hours waiting in the rig outside some store in Warren, while her husband was drinking in the hotels. Occasions are also recalled when he drove home and left her in town, having forgotten her completely.'

It's a pity when sick ones drag the stomach or stimulate the Heart and Kidneys that is all wrong. A weak Stomach means weak stomach nerves, always. And this is also true of the Heart and Kidneys. The weak nerves are instead crying out for help. This explains why Dr. Shoop's Restorative is so promptly helping Stomach, Heart and Kidney ailments. The Restorative reaches out for the actual cause of these ailments—the falling 'inside nerves.' Anyway test the Restorative 45 hours. It won't cure so soon as that, but you will surely know that help is coming. Sold by A. V. Rand.

The little boy's teacher told him he must add without counting on his fingers. Then she gave him several mental sums. He solved them, but from the way he kept looking down at his hands she knew he wasn't mind- ing her, so she made him put his hands behind his back and then she gave him another sum. He answered it, too, correctly.

'Good!' she said, 'you didn't count on your fingers that time, did you? "No, on my toes," said he.'

Children Cry FOR FLETCHER'S CASTORIA. 'Your husband says he works like a dog,' said one woman.

'Yes, it's very similar,' answered the other. 'He comes in with muddy feet, makes himself comfortable by the fire, and waits to be fed.'

'You write too much,' said the critic to the author.

'But my friend,' replied the author, 'I've got to live.'

'How about your readers?' 'Ah, well, we were all born to die.'

If you sit down and wait for your ship to come in, don't be surprised if nothing but a wreck drifts in with the tide.

COULD GET NO RELIEF 'Till "Father Morriess's No. 10" Cured Bronchial Trouble.'

PATHEK MORRIESS'S No. 10. I can testify to the benefit derived from Father Morriess's No. 10 for Bronchial Trouble.

For some time I was suffering from this trouble, and could get no relief from it, until I used this medicine.

On taking Father Morriess's medicine, I very quickly began to feel better, and was completely cured.

With a grateful heart, I give this testimony, to the great value of Father Morriess's No. 10.

JOHN GRATTAN. This is simply a sample of hundreds like those who have received my Father Morriess's No. 10, and since then by the Father Morriess's No. 10, I am no longer suffering, even though my cough has defied ordinary cures, but got a bottle of "Father Morriess's No. 10" and experience yourself the relief it has brought to so many sufferers.
