

CIVIC PLUMS SOUGHT FOR.

Wire Pulling For Positions Not Yet Created.

West End By-law Will Likely Stand Over.

Council, Not Controllers, Will Settle License Reduction.

Wires are already being pulled for the new positions which it is expected will be created next year as a result of the city's enlargement by annexing the district east of Sherman avenue and the entrance of the Board of Control into municipal affairs.

The chances are that the ratepayers will not be asked to vote money in January for a new west end sewage disposal plant. The city is trying to induce the Ontario Government to share part of the cost.

There is a mistaken impression that either the hotel men or temperance people will have the whip hand next year in the matter of license reductions.

The Board of Works Department decided to-day to stop all outdoor work on account of the cold weather.

John Patterson, promoter of the Hamilton, Guelph & Waterloo Railway, left last night for Ottawa in connection with the application his company is making for a charter giving it running rights over the Radial tracks to Toronto.

If the ratepayers vote the \$200,000 for the good roads in January, the city early next year will enlarge the asphalt plant, having received an assurance from the Grand Trunk, which owns the building at the corner of Barton street and Ferguson avenue, that it will not be required for some years.

W. Duffane, who has taken a very prominent part in connection with the North End Improvement Society, has been urged to run for controller.

When the Dominion Railway Commission meets in Toronto on Nov. 30 it will take up the complaint made by Wagstaffe Limited, of Hamilton, that the Dominion Express charges higher rates on a certain class of goods from Montreal to Hamilton than from Hamilton to Montreal.

The sureties in the Kramer-Irwin case, which has dragged along for so many years, are disputing the amount of interest the city claims on some of the payments. The matter will go before the Finance Committee to-morrow, and the aldermen hope to adjust it without further trouble.

The James street reservoir is being cleaned out to-day. This resulted in the water supply to the east end mountain top system being cut off for a short time.

The following building permits were issued to-day: Stewart & Witton, brick addition to house or main street, between Blake and Springer avenue, for J. M. Eastwood, \$1,500.

Herbert H. New, brick addition to the Isolation Hospital on the hospital grounds, \$8,000.

The Board of Education figured on a \$2,000 overdraft at the first of the year. Secretary Foster announced to-day that the deficit would not likely reach that amount.

Al. Allan was acting Mayor to-day.

WRECKED RIG.

Fire Department Wagon Struck It In Darkness.

Rats or mice gnawing at matches in a hole where there was some paper, is ascribed as the cause of a fire at Willmot's general store, corner of Barton and John streets, last evening, about eight o'clock. The damage was very small.

The rig was badly damaged, and the city will be asked to make good the loss.

The accident was unavoidable, as the rig was in a dark corner, and Driver McDougal was on it before he saw it.

MOORE-WHITE.

Marriage of Popular Half Back at Dutton To-day.

A quiet but pretty wedding took place at the home of the bride's parents in Dutton, Ontario, this afternoon, when Miss Nina White, only daughter of Albert E. and Mrs. White, and Mr. Arthur Moore, the popular half-back of the Tiger football team, second son of Mr. and Mrs. W. G. Moore, of this city, were united in the holy bonds of matrimony.

Only the immediate friends and relatives of the contracting parties were present. Miss Muriel Drake, of Dutton, was the bridesmaid, and Mr. Fred Moore, brother of the groom, was best man.

Mr. and Mrs. Moore will leave for points west this evening to spend their honeymoon. Upon returning in two weeks' time they will take up their residence at 20 Tisdale street, a handsome residence lately built by the groom.

AND HE WAS OF TORONTO.

Incident Which Shows What Policemen Must Put Up With.

P. C. Duffy didn't swear, but he came perilously near it this morning. Who wouldn't after the following incident?

The winds blew, and the more they blew the colder Constable Duffy became. O, for excitement!

No sooner had the thought occurred to him than racing down the street, simmering with excitement, careered a G. N. W. telegraph message boy. When he got to the constable, who was on duty at the corner of King and James streets, the boy's excitement quit the simmering point and metaphorically boiled over.

It's come at last through the hub of the law, and the boy's excitement was contagious.

"What is the matter, boy?" "There's a man up at the T. H. & B. station with his arm in a sling wants a policeman quickly," said the boy.

"Off careered the officer at a high speed. Arriving at the station the people there were looked over. At last the man with his arm in a sling showed up. "Do you want a policeman?" asked the officer.

"Yes; I do." "What can I do for you, then?" said Duffy.

"Well, I'm from Toronto, and I want to know where I can get a back to take me to the Terminal Station, and I don't like to ask anyone but a policeman," said the stranger.

"Is that all you want a policeman for?" "Yes."

What the constable thought is not easily expressed in words.

SUIT BEGUN.

Parents of Arthur Hurd Serve Notices of Action.

Six Persons Burned to Death.

Fatal Incendiary Fire in Brooklyn To-day—Four More Probably Fatally Injured—Some Tragic Incidents.

New York, Nov. 24.—In a Brooklyn fire, believed to be of incendiary origin, six persons were burned to death to-day. Four received probably fatal and a dozen others serious injuries.

The fire was in a four storey tenement building in Havens Place. Fanned by a strong wind, the fire, originating in the basement, swept quickly upward. Escape by the stairways being cut off most of the sixty tenants in the building rushed for the fire escapes. Several in their panic jumped from windows and were injured, one woman fatally. Nearly two score were carried out of the blazing structure by firemen on ladders.

The fire was marked by a number of tragic incidents and many thrilling rescues. Three of those burned to death were children, the others being two women and a man. One unidentified woman was found clasping the body of her dead infant in the rear of the second floor where the flames had overtaken her. Another woman, reaching the street in safety, rushed back in an attempt to save her children. Her body, with those of her children, was found in the house. Still another mother saved her child by throwing it from a window into the firemen's arms. She jumped and was fatally hurt.

Nearly all the victims were Italians.

BY RAIN AND WIND STORM.

Eastern Oregon and Eastern Washington Suffer Much.

Lowlands Flooded, Bridges Washed Away and Trains Blocked.

Passengers of Great Northern Trains In Trouble.

Portland, Oregon, Nov. 24.—The unprecedented storm that has prevailed in the Pacific Northwest for two days shows no signs of abating. In eastern Oregon and eastern Washington the rain is of secondary importance to a windstorm, which has caused considerable financial loss. So far as reported, no lives have been lost. No damage to shipping is reported, except the stranding of the schooner, Mary Winkelman, near Port Townsend. In Northwestern Washington the ranches on the lowlands are flooded and the railroads have lost a number of bridges. Train schedules are demoralized.

Along lower Puget Sound the streams are all out of their banks and flooding the lowland destroying bridges and railroad tracks.

The Great Northern Railroad, which crosses the Cascade, east of Everett, is tied up, several trains being stalled in the mountains. It is feared damage to the Gray's harbor country the greatest loss has been to logs on rafts valued at \$200,000, being swept out to sea.

Along the bank of the Columbia River landslides have put the railroads out of business temporarily.

MUCH DAMAGE. Seattle, Nov. 24.—A relief train bearing passengers of Great Northern No. 3, due in Seattle on Monday, arrived last night. The passengers told of the terrible havoc of the floods in the Cascade mountains. The passengers of three other Great Northern trains are between the Cascade tunnel and Tongue, 95 miles east of here. It is feared damage to the Great Northern is so great that it will take weeks to open the line.

NO ICE.

Cold Enough Last Night but Water Too Rough.

Ten or twelve degrees of frost during last night changed the aspect of things over head and under foot to-day. The wind shifted around to the northeast, and the lake was rolling high this morning again. During the morning another shift of water, to the north, took place and the water became choppy.

The first ice season was seen on the ponds along the Beach this morning, although the snow which fell has been washed up along the shore.

OLD LADY DEAD.

Former Hamilton Woman Dies at Delaware at Great Age.

(Special Wire to the Times.) London, Ont., Nov. 24.—Mrs. Sarah Fonger, who was born 90 years ago in Hamilton, and who was one of Delaware's oldest and most highly respected residents, died yesterday after a brief illness, at the home of her daughter, Mrs. Wm. Hedley, Delaware. Mrs. Fonger was a resident of Hamilton for 30 years, and had lived in Delaware for sixty years. Her maiden name was Roelf, and she is survived by a brother Barney Roelfson, at Alderhot, near Hamilton, and a sister, Mrs. Scott, of Ingersoll. She enjoyed excellent health until recently and had wonderful memory of early events.

ROEDENBECK & WAHL.

Warehouse, 15 Hughson street south. Also to let warehouse in rear, four stories and basement, elevator, vaults for \$25 per month. Apply Mercantile Trust Co.

SAFETY DEPOSIT BOXES.

To rent at \$2 a year and upwards, for the storing of deeds, bonds, stocks, wills, silver and other valuables. TRADERS BANK OF CANADA.

The Man in Overalls.

See our advertising man about getting your ad in the Christmas Times.

Is T. J. Stewart after both salaries?

Any more controller candidates? There is lots of room on the ballot paper.

But how is the Tory Chairman of Ward No. 5 on the naval question? Is he a Dreadnought man or a Little Canadian?

Then we had better wait until the hotel men issue the Citizens' ticket. Give all a chance.

Perhaps we are suffragette enough to venture to hope that a lady candidate for the School Board will put in an appearance.

For people who want to take the fresh air cure, a moonlight excursion these evenings would be just the thing. Of course, it might be steam heated.

Perhaps that professor meant that cigars were a drug on the market.

Of course, we still have a chance for both the hockey and curling championships. We are not yet decadent.

I think it might help things along if our Mr. Sealey would talk the matter over with President Taft.

If it comes to the worst, the Lords can come to Canada and take up farms in the Northwest.

We shall have to thank Ald. Peregrine and the Mayor if we have no overdraft this year. You remember how it was in Stewart's time.

There are many turning points in the life of the street car director at the corner of King and James.

What's become of the ratepayer who used to show at the City Hall the pollywogs he got in his drinking water?

A great deal depends on how you diet the furnace. You may easily overfeed it without getting results.

It doesn't take much to raise a church row, but it sometimes takes a lot to settle one.

There should be little difficulty now in getting a judge to decide that a brewer is a drug factory.

But then nobody charges detectives with crap shooting.

Perhaps Mr. Berks, the man who wants to build the Georgian Bay Canal, might come over and take a look at Mr. Sealey's new Welland Canal scheme.

FOR BAR ROOM REDUCTION. The organization of wards will be completed on Thursday evening, the 25th, when a meeting in Ward 1 of those interested in the reduction of bar-rooms will be held in St. Giles' Presbyterian Church, corner of Main street and Holton avenue.

The meeting will be addressed by Rev. J. B. Paulin, pastor of St. Giles'; Rev. E. J. Etherington, of St. Thomas'; Rev. E. R. Lancelley, of First Methodist; Rev. John Young, of St. John Presbyterian; W. A. Lee from School of Oratory, members of the City Council and others.

His 61st Birthday

AN EXPENSIVE LITTLE TRIP.

Roudy Conduct on Electric Car Costs William Sutton \$15.

Drink Made Archie McDonald Do Foolish Things.

Non-Support Case Against Harris Schaldrick Dismissed.

HON. W. S. FIELDING, Minister of Finance. Born in Halifax, N.S., Nov. 24, 1848.

WHERE IS JOE?

Budimir Protich In Welland Looking For Sugar.

Joe Sugar, formerly of 7 Rosedale avenue, is missing. Lately Joe has been in the limelight of publicity more than he cares about. Several citizens are said to be mourning Joe's disappearance, chief among them being Mr. C. Smith, grocer, 661 Barton street east, to whom Sugar owes a bill amounting to \$80. It is thought that Sugar is in Welland or Buffalo, and Budimir Protich went to Welland to-day in the hope of finding him.

Mr. Smith speaks well of Sugar, who was his customer for over four years and attributes his sudden disappearance to his misfortunes lately in Police Court circles.

ABOUT TAXES.

Assessment Act Committee Hear Deputations To-day.

Representatives of the C. M. A. Speak For Manufacturers.

(Special Wire to the Times.) Toronto, Nov. 24.—The representatives of the C. M. A. were the first ones heard by the committee which is revising the assessment act at the Parliament buildings this morning. The association was represented by Messrs. J. O. Thorn, chairman of the Parliamentary Committee; G. M. Murray, secretary, and R. S. Gourlay.

Mr. Thorn made a statement in which he commended the present act for its general working out. He criticized, however, the manner in which the business tax applied. Compared with the rate on the retailer and jobber, that on the manufacturer was not equitable.

The Toronto manufacturers will pay 20 mills on the dollar, a realty tax of \$300 and a business tax of \$300, or \$800 altogether. The present act discouraged the erection of substantial buildings. Manufacturers say they would be taxed on improvements, and so did not improve their premises. He would suggest that all stock holders whose holdings amounted to 10 per cent. of the stock in a company or over should be exempted.

"Well, you are no worse off than I am as a professional man. I have to pay a business tax and also an income tax," objected Hon. Mr. Mackay.

"Your report says that the rate for manufacturers was raised from 30 per cent. to 60 per cent. when machinery was exempted from school taxes," said Mr. W. H. Hoyles (North Ontario).

As I remembered it, it was raised on the advice of the assessors from Hamilton, who said that the manufacturers in that city were all doing business in one-story buildings, and that 50 per cent. was not high enough. Now you claim that the high rate is preventing improvements.

"That is another point in my argument," replied Mr. Thorn. "Why should the other manufacturers have to pay because the Hamilton man can do business in a one-story building?"

Mr. R. S. Gourlay said that Ontario had only two sources of property, agriculture, which to-day was largely a manufacturing industry itself. Anything unfair to the manufacturers would react on the rest of the community. There was only one class of manufacture which could be carried on in the one-story building.

Mr. W. C. Chisholm, K. C., who represented the Ontario Municipal Association, opposed Mr. Thorn's arguments.

ZEBUS FOR FOOD.

Paris, Nov. 24.—The colonial authorities have unscratched a serious attempt to introduce in the French market the zebus of Madagascar as a substitute for beef. The first batch of a dozen carcasses, sold in the Paris stalls, brought the prices of the highest grades of cattle. Larger shipments are now on the way here.

SONS OF TEMPERANCE.

Toronto, Ont., Nov. 24.—The 61st annual session of the Grand Division of the Sons of Temperance of Ontario opened in the Temple building this morning, with Grand Patriarch Leonard Pascoe, of Selma, in the chair. There was a record attendance.

Non-Support Case Against Harris Schaldrick Dismissed.

William Sutton, 31 Elgin street, was drunk and disorderly to a degree on the electric car coming from Brantford last night. The ride to this metropolis cost him \$15, plus his fare, for he was fined the former amount this morning.

He pleaded guilty.

Conductor Waters told the story of the exact extent of the belligerency of defendant. According to the conductor it was thusly: When the car started from Brantford last night, toward Hamilton, several young men were standing in the vestibule at the rear. Waters politely requested them to take seats in the car. All complied with the exception of Sutton, who began to unload threats of what would become of such conductors, and the whole 30 ladies and 35 men in the car. Then it was, Waters said, that Sutton proceeded to put things in shape for a pandemonium, much to the terror of the ladies. Water interfered, but he was told to go to the abode of his Satanic Majesty. Finally Sutton was imprisoned in one end of the car and on arrival at Hamilton he was taken down to apartments where it is decidedly unpleasant when nights are cold.

One blow Archie McDonald, 14 Queen street north, gave W. E. Teeter, an aged farmer, cost Archibald \$10.

Teeter said that he offered fruits of the earth for sale on the market yesterday, when a dull thud was felt on that portion of his nose that projected from the fur in which he was wrapped. After the imaginary stars had cleared and the inebriated defendant reeled before him and promised more. Mr. Teeter handed Archie a few, whereat the said Archibald offered to blow his brains out with a revolver—which he didn't have. The strangest part of it all was that McDonald was a stranger to Teeter. When the charge of assault was read out to defendant he was profuse in his apologies and said he was drunk.

The Magistrate told him that he need not think that because he was drunk it gave him any license to subject Mr. Teeter to such treatment.

Harris Schaldrick and Mrs. Schaldrick both of Hebrew birth, aired a case of non-support in court. It was brought by the latter. Mrs. Schaldrick said she asked for clothes and was promised a funeral cart. Repeatedly, the wife said, her husband has obligingly offered to bring her life to an abrupt end. There was a whole list of things not an interpreter, she told the court, through an interpreter, he told her hubby—and he a little bit of a fellow, just laughed sarcastically at her, big woman though she is. She said he refused her food, but Mr. Thomson, for the defence, denied all such charges. The case was dismissed.

Robert Walker, 119 Jackson street east, came up for sentence. Yesterday he pleaded guilty to theft. The article he stole was a gold filled bracelet from Maggie Nevills. As it was his first offence, the Magistrate decided to give the youth another chance to make good.

R. C. Patterson, 101 Ferguson avenue north, worked his horse with a sore shoulder, and admitted so to the court. He was fined \$20. Inspector Berlinghoff, of the S. P. C. A., was the complainant.

S. P. Thomson, of the Hamilton Cab & Buggy Company, Napier street, for the second time within a week was up for ill-treating a horse. It was the same horse he was charged for ill-treating a few days ago.

Thomson said since he was summoned before he had rested the horse, and started it to work yesterday, thinking the sore was healed sufficiently, and within two hours the scab on the sore was knocked off by the harness falling on it. His Worship said it looked as if Mr. Thomson had tried to exhibit contempt of the law, and many magistrates would send him to jail without the option of the fine.

Mr. Thomson emphatically denied the slightest intention of anything of that sort.

Kirwan Martin, counsel for the prosecution, asked that a small fine be imposed, so defendant paid \$5.

According to Edman Brown's sworn testimony Miami Pitt, who lived in his house at the corner of Park and King streets left it a mere skeleton, for when he went in two weeks after she left he found doors were missing, gas chandeliers were conspicuous by their absence, etc. Such apparent willful damage occasioned Brown to take out a summons for willful damage.

After the pros and cons of the case had been heard it transpired there was no evidence of willful damage against the defendant, so his Worship dismissed the case, intimating it was not one for the Police Court.

Edward Sane, 128 Cannon street west, wanted to know when a man under the influence of drink was walking along the street not molesting or annoying anyone, should be locked up. Before the answer was forthcoming P. C. T. Brown put a crimp in Edward's question, for he said that defendant was positively uproarious, and it was nothing but his (the constable's) generosity that a charge of d. and d. was not preferred. A fine of \$2 was imposed.

Makes No Difference. How small or how large your order may be we can fill it to your entire satisfaction. No one more anxious to have your trade than we are. No store more capable of attending to your needs or more capable of supplying the best the grocery world affords.

Kindly let us have a trial order. Our Christmas fruit, nuts, peels, etc., are arranged for your inspection.—Bain & Adams.

Mining Suit. Toronto, Ont., Nov. 24.—Mr. Justice Latchford this morning gave judgment in favor of the Oiseau Mining Company in the action brought by Mr. E. Kenyon Stowe for \$400,000 on allegations of fraud and conspiracy. His Lordship decided the plaintiff's allegations were not upheld by the evidence.

THURSDAY, NOV. 25, 1909

AT R. McKAY & CO'S.

A Spanish Beauty

Mignonette passed out of the gate of the hospital into the gaudy city streets. Up in the azure the spring stars shone. Many people were abroad. As she neared her destination a gentleman in a loose, light overcoat, slowly sauntered up, with a cigar in his mouth, and caught a full view of her face under the gas-light. He stopped at once.

"Mignonette! you here, and at this hour and alone? Surely I am the debtor of some fortunate accident." Mignonette glanced up, never halting for a second in her rapid walk, at the handsome face and tall, gallant figure.

"No accident in the world, Monsieur Trevannance. I merely overstayed my time in the hospital, and I don't in the least see how it can concern you, or, mimicking his courtly tone, "make you the debtor of some most happy accident!"

"By giving me the privilege of escorting you to the theatre—your present destination, of course. Do me the honor to accept my arm, mademoiselle. At this hour it is quite out of the question you should be abroad alone."

"Your solicitude, fatherly care is quite thrown away, Monsieur Trevannance. And I won't take your arm, thank you. I can get alone quite well without it."

"You will permit me, at least, to accompany you as far as the theatre door? It is my destination also."

"I beg your pardon—don't tell stories! You are going in entirely the opposite direction when I met you. And if you will excuse my saying so, monsieur—I prefer to be alone."

Cheapside

Mr. Tiffin left for her home in Middlemiss on Thursday, after a couple of weeks with her mother, Mrs. R. Jepson, who has been ill, but is better now.

Born on the 15th of November, 1909, to Mr. and Mrs. Tom Smith, a son.

Mr. and Mrs. Geo. Metcalf and children were the guests over Sunday of Mr. and Mrs. Chas. Evans.

Mrs. John Silverthorn has bought the residence of Mr. William Walker, now occupied by Mr. Henry Hurst.

Mr. Wilbert Wilson, of St. Thomas, is visiting her parents, Mr. and Mrs. Robt. Buckley.

The Epworth League, upon request of the hostess, held its weekly meeting on Thursday evening, Nov. 18th, at the home of Mrs. O. E. Shoup, a mile and a half west of Cheapside.

Mr. and Mrs. Arthur E. Riley, took place yesterday afternoon from the residence of his parents, 401 Main street west, to Hamilton Cemetery. Rev. H. Rembe officiated. The pall-bearers were two uncles, William and Charles Pasel. The floral offerings were: Wreaths, parents and aunts; sickle, Mr. and Mrs. George Frid; sprays, Mr. and Mrs. W. Pasel, Mr. and Mrs. M. St. John, Mr. J. Pasel, Mr. Robson, Mr. and Mrs. W. Day, Mrs. Modlin, Mr. and Mrs. Meikle, Greta Eleke, Mr. and Mrs. Ed. Cosgrove and Miss Edyt.

The funeral of Norman, infant son of Mr. and Mrs. Arthur E. Riley, took place yesterday afternoon from the residence of his parents, 401 Main street west, to Hamilton Cemetery. Rev. H. Rembe officiated. The pall-bearers were two uncles, William and Charles Pasel. The floral offerings were: Wreaths, parents and aunts; sickle, Mr. and Mrs. George Frid; sprays, Mr. and Mrs. W. Pasel, Mr. and Mrs. M. St. John, Mr. J. Pasel, Mr. Robson, Mr. and Mrs. W. Day, Mrs. Modlin, Mr. and Mrs. Meikle, Greta Eleke, Mr. and Mrs. Ed. Cosgrove and Miss Edyt.

Mrs. John McLean and son, John Henry McLean, left for their home in Oregon on Wednesday.

Mrs. Metcalf and children, also Mrs. Chauncey Evans spent a couple of days last week with their parents, Mr. and Mrs. James Johnson, Nanticoke.

Mrs. Will Degrow and children returned home on Tuesday last week from

Synopsis of Canadian North-west Land Regulations.

ANY person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency of the district. Entry by proxy may be made at any agency on certain conditions. By father, mother, son, daughter, brother or sister of intending homesteader.

Duties-Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 30 acres wholly owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain conditions a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$2.00 per acre. Duties-Just before six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra. A homesteader who has exhausted the homestead right and cannot obtain a pre-emption may take a purchased homestead fifty acres. Price \$2.00 per acre. Duties-Must reside six months in each of three years. Cultivate fifty acres and erect a house worth \$200.00.

W. W. CORY, Deputy of the Minister of the Interior, N. B.-Unauthorized publication of this advertisement will not be paid for.

OBITUARY. Death of J. B. Bishop of Inland Revenue Department.

At 4:30 o'clock this morning James Bartindale Bishop passed away at his residence, 208 West avenue north, where he had been confined to his bed for the last month. For some years he had been in poor health and death was not unexpected. Deceased, who lived in this city since 1887, was appointed to the civil service in the Inland Revenue Office in July, 1893, and was always known as an attentive and courteous officer. He was employed in the distillery department. Prior to his appointment he had carried on a tinmithing business here for a great many years. He was in his 70th year and was a member of St. John's Lodge, F. & M. S., and of the chapter, R. A. M., and of the Knight Templars. He was also an active worker of Christ's Church Cathedral. He leaves, besides a widow, one sister, Miss Bishop, New Westminster, and two nieces, Mrs. A. H. Lyle, city, and Mrs. R. Bannock, Beverly, Mass. The funeral will take place on Friday at 2:30 p. m., from his late residence to Hamilton Cemetery.

William Kelly, aged 77 years, passed away yesterday at the residence of his son, H. G. Kelly, 174 Bay street north. With the exception of the last two years he had lived in Brockville, Ont., all his life. He leaves two sons, H. G. and W. R., of this city. The interment will take place in Brockville to-morrow afternoon, the remains leaving here in the morning on the 7:55 Grand Trunk train.

Mrs. Charlotte Fox, wife of James Fox, died very suddenly yesterday morning at her residence, 24 Liberty street, death being due to apoplexy. She was 59 years of age and is survived by a husband and a family of five grown-up children. The funeral will take place to-morrow at 2 p. m. to Hamilton Cemetery.

The funeral of Norman, infant son of Mr. and Mrs. Arthur E. Riley, took place yesterday afternoon from the residence of his parents, 401 Main street west, to Hamilton Cemetery. Rev. H. Rembe officiated. The pall-bearers were two uncles, William and Charles Pasel. The floral offerings were: Wreaths, parents and aunts; sickle, Mr. and Mrs. George Frid; sprays, Mr. and Mrs. W. Pasel, Mr. and Mrs. M. St. John, Mr. J. Pasel, Mr. Robson, Mr. and Mrs. W. Day, Mrs. Modlin, Mr. and Mrs. Meikle, Greta Eleke, Mr. and Mrs. Ed. Cosgrove and Miss Edyt.

Mrs. John McLean and son, John Henry McLean, left for their home in Oregon on Wednesday.

Mrs. Metcalf and children, also Mrs. Chauncey Evans spent a couple of days last week with their parents, Mr. and Mrs. James Johnson, Nanticoke.

Mrs. Will Degrow and children returned home on Tuesday last week from

visiting her sister, Mrs. Almas and other relatives in Hamilton.

Miss Laura Dennis is the guest of her grandparents, Mr. and Mrs. J. Dennis.

C.P.R. APPRENTICES. The Making of a Skilled Mechanic. How Railway is Solving a Vexed Problem at Their Shops.

whole system so that he will have more conception of what and whom he is working for. This he will become a C. P. R. man in heart as well as in name. Besides this preliminary education they must show some aptitude for the work on which they are employed and their conduct, punctuality and attendance must be satisfactory, otherwise their services as apprentices will be dispensed with.

THE IDEAL SYSTEM. The ideal system of training is, says Mr. Wickes, that which allows an employee when he joins a railroad or other industrial corporation (provided he has the mental and physical qualifications) to be put through a systematic and continuous training which will enable him to qualify for minor positions. Then by further instruction he can consistently advance to the highest positions in the organization.

AMBITION ENCOURAGED. The first apprentice class was organized and held at the Angus shops, about eighteen or twenty months ago, and at the beginning of this year the scheme was adopted in the Winnipeg shops. Here the same general lines as those in the Angus shops are followed, although local conditions necessitate the modification of the details.

As the Angus shops derive a large proportion of the men from the French population, it was decided last spring to install an instructor capable of teaching English to the French apprentices. Mr. Henry Verina was given the appointment. In addition to his duties of instructing the French apprentices he also has the charge of the practical work in the car department. Each French boy who is unable to speak English receives during working hours, two hours of instruction per week in reading, writing and conversational English. These French boys are taken into the shops on an equal footing with the English apprentices, but at the end of 12 months must pass a simple examination in the English language.

From the time an apprentice enters the service of the company until he finishes his apprenticeship, a record of his careers is carefully kept on file, in the office of the supervisor of apprentices. This record is filled in

THE HAMILTON TIMES WEDNESDAY, NOV. 24, 1909.

IT FEARS THE PEOPLE.

The organ of the Hydro-Electric conspirators is, apparently, dreadfully alarmed lest the question of accepting or rejecting the power contract be left to the ratepayers, with the terms, as far as they can be known in advance, before them.

But this is very different. Our foxy contemporary knows that thoroughly, and therein is the occasion of its apprehension. It fears that if the ratepayers get a chance to give a free and full expression of their will, with the terms of the actual contract before them, it (the Herald) will not be able to "deliver the goods" to those for whom it is so diligently working.

And no wonder. It is not to be conceived that sane, intelligent men would willingly, with their eyes open, bind the city in a 30-year monopoly, in the management of which they would have no voice, agreeing to pay whatever price might be charged for power—a price unknown from year to year, but at the very least 10 per cent. higher than they are guaranteed power without any obligation or risk.

That is why the organ of the conspirators who seek to use Hamilton to further a scheme to advance Toronto and other rivals not in so favorable a position as Hamilton, feels called upon to make the fiercest appeal against letting the Hydro contract go to the people.

And, boiled down, what is its fearful protest against letting the ratepayers pass upon the actual contract, as they did on the Cataract contract, founded upon? Simply this, that its contemporaries had been contending that it was most unwise to tie the city up to a 30-year monopoly. It argues that their attention having been called to that feature of the scheme, the ratepayers should not now be allowed to pass upon the contract itself.

It does not deny that the monopoly feature is bad. Not at all. It said itself (in a rare moment of candor) "the form of the contract is not what it ought to be." And again, "We do not think it would be prudent for this city voluntarily to cut itself off from another source of supply." Now it is so eager to force this contract, which "is not what it ought to be," on the city, that it devotes columns of space to misleading its readers into the course which it declared would be imprudent.

No wonder that an organ so inconsistent and unfaithful to the interests of the people should fear the result of submitting this contract to the ratepayers. The worst thing its cause has to fear is that they shall get a chance to pronounce upon it understanding its terms.

THE LIBERAL CLUB.

The splendid meeting of the Liberal Club held last night augurs well for the success of the larger programme of that progressive institution. The enthusiasm with which the members decided to take over the management of the club rooms and equipment, and adopt the larger programme which has been outlined for some time, was most gratifying.

The coming winter is expected to see a very large increase in the membership of the club, always a pleasant place for old and young. The officers have in view a most attractive programme and one which cannot but be of benefit to the members. Every Liberal is urged to ally himself with the organization, and thus share in its benefits and increase his usefulness in advancing the cause of Liberal principles.

EDITORIAL NOTES.

There are Hydro men who have their ear to the ground and they have heard rumblings. That is why the organ has been instructed to oppose letting the people vote on the contract.

Of course Arthur street must have a sewer, even if it happens that an alderman owns a house or two on it. But how convenient it would be, if such works could be done without costing anybody anything?

"Canada, a nation within the Empire." That is the sentiment expressed by Hon. Mr. Lemieux in an interview with the London Mail. It is a good one, expressing true Canadianism. What excuse will the Tory organs furnish up for sneering at it.

Before the Buffalo Tax Commission the other day an expert valuator for the State of New York estimated the Niagara Falls Hydraulic Power & Manufacturing Co.'s canal to be worth \$4,761,000. These great power enterprises are not carried out for nothing.

The Herald says that "Alderman Sweeney supported the by-law authorizing the expenditure of \$225,000 for a civic electric plant, and that by-law called for an exclusive Hydro contract." And the Herald is on record as assuring the ratepayers that that by-law called for no such thing.

For the ten months of the present year ending with October, United States imports of foreign goods have increased by \$200,000,000 over the same period of the preceding year. According to the protection wise, Uncle Sam is rapidly growing poorer. But he doesn't seem to feel it.

Judge Mosson's ruling that a cigar is a drug may, if upheld, have peculiar results. The sale of drugs by hotels, barber shops and tobacco stores is not contemplated by the Pharmacy Act. What a solution—what a surprise to those who war on the Sunday observance laws—would be wrought were the sale of cigars to be restricted to the drug stores.

A person signing "Martin Malone" asks through the Hydromanic organ if the Mayor and those aldermen who decline to betray the city into the Hydro-Electric snare are living up to their oath. They are. They are protecting the interests of the city against those who would do it great injury. They could not live up to their obligations and take any other stand.

Ald. Wright appears to be wrong about Ald. Applegath, against whom he makes certain allegations. Ald. Applegath is in a position to know, and he says Ald. Wright's statement is incorrect. Moreover, Ald. Wright is unable or unwilling to produce any evidence to support his assertion. Ald. Wright had a tiff with Ald. Sweeney the other evening, too. What is wrong with him?

Mrs. Gilbert E. Jones in a lecture opposing female suffrage the other night asked New York women to note that in Utah woman suffrage has always gone hand in hand with polygamy. She ridiculed the plea made by the suffragists that the ballot for women would purify public life. Suffragist speakers who boasted of results in Colorado were careful to shun mention of Utah, where the women vote was more powerful.

Prof. Nearing, of the University of Pennsylvania, is not one of those who are alarmed at the declining birth rate. He attacks the Roosevelt big family theory, and advocates smaller families, better cared for and better trained. He would rather see a healthy mother with a few well-born, well-fed and well-educated children, than a broken-down woman with a swarm of weaklings, physically and mentally handicapped. And Prof. Nearing will find many who share his views.

Cough Weather

When the weather is cold and stormy, most of us are more or less subject to the unpleasant experience of colds, with the consequent wearing strain of the cough and the danger of more serious trouble apt to follow neglect.

People who practice deep breathing and who use ordinary care to avoid sudden changes of temperature, dampness and exposure, are less liable to take cold than those of less methodical habits. At the first sign of a cold steps should be taken to check it. A simple, inexpensive and effective remedy is made by mixing two ounces of Glycerine, a half-ounce of Virgin Oil of Pine and eight ounces of pure Whiskey. It is claimed by the Leach Chemical Co., of Windsor, Ont., who prepare the genuine Vir. Oil of Pine for dispensing through druggists, that a teaspoonful of this mixture four times a day will break up a cold in twenty-four hours and cure any cough that is curable.

Our Exchanges

GENTLE. (London Advertiser.) The Toronto papers declare that Mrs. Pankhurst is the mildest-mannered lady that ever tackled a policeman or 'eaved 'arf a brick.

SHUT HIS EYES. (Toronto Star.) The man who is opposed to woman suffrage, and wants to remain of that opinion, will do well to examine the usual arguments advanced on his own side.

HAD HEARD HIM. (Boston Transcript.) Judge (to boy on witness stand.) Well, my little man, do you know what an oath is?

THE RING. (Boston Transcript.) "So when Belle rejected Jack, he went immediately and proposed to Maud." "Yes; but that wasn't the best of it. What do you think? He gave Maud an order on Belle for the engagement ring."

SUNSHINE. (St. Catharines Standard.) German scientists have discovered that the rise and decline of the death rate is in general accord with the decrease or increase of the hours of sunshine.

A QUICK RETURN. (Boston Transcript.) Mrs. A. (maliciously)—You were such a charming debutante, my dear. 15 years ago.

SAVING. (Philadelphia Ledger.) "Every boy should put his pennies and nickels in a little savings bank," said the speaker at Sunday school.

ON THE WRONG TRACK. (Ottawa Free Press.) The Hamilton Spectator proceeds to condemn the Canadian Government because it has not brought down the report on the oral discussions at the defence conference. The Spectator is attacking the wrong Government. The Ministry responsible for the secrecy is that of Great Britain, not that of Canada.

POP'S EXPERIENCED VIEW. (Philadelphia Record.) Tommy—Pop—When a man is married he calls himself a bachelor, doesn't he?

MONROE DOCTRINE. (Toronto Globe.) We Canadians do not invoke the Monroe doctrine for ourselves, although we believe in it, and the time may come when Yankee and Canuck will be ranged side by side in defence of it. We share the glories of the British race, and will also manfully endure whatever vicissitudes may befall it. We have, moreover, few misgivings as to the magnitude of its duty at this moment. Growing up all about her is a group of young nations, of immense potential unexhausted wealth, attached to her by a stronger tie than human wit could devise. In them the British spirit is rekindled into a mightier flame than ever before.

Y. W. C. A. NOTES.

At the special meeting of the board, held yesterday morning, reports were read on the furnishing of the dining room and the curtains for the windows were chosen. Plans were also made for the electric lighting.

A committee was appointed to arrange for the opening and to choose the speakers for the new year. A committee was also appointed to consider the application received for the positions of housekeeper and janitor of the new building.

THREE MEN HURT. Windsor, Ont., Nov. 24.—Joseph McLaughlin, James Foster and A. Trepanier, employed by the Belle Isle Company, were injured last night when a street car on the Sandwich line crashed into one of the company's trucks. The men were severely bruised about the hips and shoulders. The vestibule of the car was smashed, but the motorman escaped injury.

A woman is through convinced that man was made of clay when he tracks mud all over her clean floors.

SEWERS IN THE ANNEX.

Tenders Slightly Lower Than the Engineer's Estimate. City Will Expropriate Site For a Pump House. New Tank to be Erected at Ferguson Avenue.

The Sewers Committee last night awarded the contracts for the building of the new sewers on Imperial and Arthur streets and the base line in the annex. The Court of Revision confirmed the assessment at \$144 a foot, but it will be a little less than that amount in view of the tenders being lower than was expected.

J. J. Armstrong got the contract for constructing part of the sewers at the following prices: On Arthur street, 40 cents a foot; on Imperial street, 35 cents a foot; on the private right of way, 40 cents. The engineer's estimates were 47 cents, 30 cents and 40 cents.

Andrew Mercer was awarded the contract for constructing that part of the sewer on the base line at 90 cents. The engineer's estimate was 92 cents. In connection with this part of the work there is something to be done. The people who live along the base line claim they own the land, securing possession when the Beach road was opened. It will be necessary to expropriate the right of way.

A site for the pump house will also be expropriated, but this will not be charged up against the property. The City Engineer has instructed to lay out a sewer scheme for the southwestern corner of the new annex. A new tank will be erected at the Ferguson avenue sewage disposal plant. T. L. Kinrade wrote asking for an exemption on sewer rates for a corner lot at Chestnut avenue and Barton streets. The City Solicitor will report on it.

Thomas Williamson's tender of \$1,325 to lay the iron pipe for the extension of the Ferguson avenue sewer through the reversion wall was accepted.

MUST GET IT.

Y. W. C. A. Building Fund Campaign Still Alike.

The Business Men's Committee of the Y. M. C. A. that is undertaking to raise the fifteen thousand dollars for the completion and equipment of the new Y. W. C. A. building, is still gathering in subscriptions. One of the captains handed in several pledge cards today. Since the special six day canvass closed a considerable amount has been added to the total, through the personal exertions of some members of the committee. In addition to this two thousand letters, with pledge cards enclosed, have been mailed to the homes of the citizens, whose names do not appear on the list of subscribers to the Y. W. C. A. building fund. A strong appeal is being made for contributions, however small, and the pledge card contains the usual easy terms of payment.

Any citizen who has not been appealed to in any way, in this matter, would be justified in interesting themselves sufficiently in this good cause to send in their pledge or contribution to the Y. W. C. A. at once. In consideration of the earnest efforts of the business men and the subscriptions of other citizens, those who have not contributed should feel it their duty as well as their privilege to have a part in the completion of this noble effort.

POOL FREIGHTS.

Pittsburg, Nov. 24.—Bituminous coal operators and miners have joined in a request to President Taft that railroads of the country be permitted to pool freights under the supervision of the Government.

SCAP BOOK POETRY

"WHOM GOD HATH JOINED." Lissome and light as a fairy queen, Warmed by the glow of gay nineteen, Down where the waves wash the sounding shore She heard the world-old tale once more— Heard the tale with a blush and a laugh, And then—she blew him away like chaff. No terrors has Time for gay nineteen, When one is fair as a fairy queen.

The years rolled on, as they always do, And the Lady came and saw and s'w, Year after year, by the sounding shore, She brought them down by the score or more; But each cold heart left its impress there In the wrinkled cheek and the silvered hair.

The net result was a shop-worn belle, But cleverly masked—in fact, to tell Where nature ended and art began Was something that passed the wit of man— Passe in the garish light of moon, But still so-so 'neath a crescent moon.

Ad he? Forgot her, of course, and went The pace that kills till his cash was spent And he'd changed the old man's hard-earned wealth For a ruddy nose and shaky health.

Bankrupt and weary he walked once Down where the waves wash the sounding shore, Where he found his long-lost love sublime. A faded wreck on the shores of Time; Faded and shrunken in face and frame, But with plump exchequer just the same.

For the worm that feeds on beauty's hue Can't always eat up the strong-box too. Thought he: "If I miss this target twice, I've no hope this side of Paradise." And the lady thought: "Dear heart alive, One cannot split hairs at forty-five." So she looked up at the moon and blinked, ed, while he looked over the waves and winked.

Which was why the parson spring his just "Whom God hath joined"—you know the rest. —D. B. Van Buren in Puck.

THE HOUSEKEEPER

AMUSING SICK CHILD. When the child is able to sit up he will be amused for hours at a time with a piece of paraffin. Warm it thoroughly, then suggest that he have a menagerie, making animals for himself by breaking off pieces of paraffin and forming dogs, deer, elephants. Another time let him make a toy tea set, moulding it over some small article of the right shape. Give him a pair of blunt scissors to snip with. I have seen one little girl get a great deal of fun by persuading the older members of the family to make animals for the menagerie, which resulted in a laughter provoking collection. This is inexpensive, clean and perfectly harmless, and will pass away many an otherwise fretful hour for the little coquette.

TREATMENT FOR BURNS.

Not every one knows what to do if he is burnt; nor is it time to learn remedies when touched by fire. Every household should have some preparation for quick relief of burns and bad cuts. While any severe burn or severe cut should mean a doctor, much can be done to alleviate pain until he comes. An emergency shelf should contain a package of absorbent cotton roll of bandages, court plaster, surgical scissors, soft pieces of old linen, antiseptic washes, witch hazel, some good soap, a bottle of carbolic acid labeled poison, a cake of antiseptic soap, a hypodermic syringe, hot water bottle, turpentine, box of mustard plasters, lime water and linseed oil.

For burns a soothing application is equal parts of linseed and lime water. Soak strips of linen in this mixture and remove when necessary. A slight burn need not be treated with anything. In case of a deep cut wash it out well with warm, soap water and then with some antiseptic solution, such as a weak solution of carbolic acid—a half teaspoonful of the acid in a tumblerful of water.

For a bad sprain put first under hot water, then under cold. Keep this up until the doctor arrives; or bandage the part in some of the clay preparations recommended to reduce swelling and pain.

If the clothes seem to have stuck to the wound, do not tear them off, but soften with warm olive oil the parts that adhere, having first cut away the clothing close to the wound with sharp scissors.

TICKET-OF-LEAVE MAN.

Windsor, Ont., Nov. 24.—George Ellis, a ticket-of-leave man from Kingston Penitentiary, is locked up at police headquarters awaiting advice from Kingston. Ellis was arrested in Detroit on Monday night by a patrolman, who recognized him. Ellis was under parole in a five-year sentence for larceny in Amherstburg. Officers had been searching for him for several months.

SLEEP KILLED

By an Itching Humor. Another Cure by Cuticura Remedies. "I broke out with a humor which spread almost all over my body. The itching would get worse on retiring, so I could not sleep. I tried several remedies but it grew worse until I got some Cuticura Soap and Cuticura Pills which began to relieve me at once. By the time I had used one vial of the Pills, the humor was entirely gone. I wish every sufferer could secure the Cuticura Remedies. Travis Bates, Haysburg, Ark., April 26, 1907."

Cuticura Remedies are sold by the Internal Treatment for Every Humor of the Skin, and Agents for Cuticura Remedies are: Dr. J. C. Allen, 111 King East, Toronto; Dr. J. C. Allen, 111 King East, Toronto; Dr. J. C. Allen, 111 King East, Toronto.

TICKET-OF-LEAVE MAN.

Windsor, Ont., Nov. 24.—George Ellis, a ticket-of-leave man from Kingston Penitentiary, is locked up at police headquarters awaiting advice from Kingston. Ellis was arrested in Detroit on Monday night by a patrolman, who recognized him. Ellis was under parole in a five-year sentence for larceny in Amherstburg. Officers had been searching for him for several months.

"When a fellow takes to drink," says the Cynical Bachelor, "it's a pretty good sign that a girl has either thrown him over, or married him."

MUSIC AND DRAMA

Central Presbyterian Church was filled last evening by lovers of classical music at the recital given by C. Percival Garratt, assisted by Miss Mabel Beddoe. This was the first opportunity that the many friends of Miss Beddoe had of hearing her in public for some time.

good humor and innocent around her. The play is clean and fresh, and morally uplifting. ELGAR CHOIR. Announcement was made in the advertising columns yesterday that the subscription lists are out for the concert to be given by the Elgar Choir on Feb. 1 and 2. They are in the hands of the members of the chorus and at the music store, and the executive committee looks for a prompt and generous filling of them. The Elgars are hard at work on the preparation of two massive programmes, and with the assistance of the Buffalo Symphony orchestra, the Toronto Symphony orchestra and several high-class artists, expect to furnish concerts that can well be regarded as a miniature festival. The executive is going to great expense and nothing but well-filled subscription lists will recoup it.

AT BENNETT'S THEATRE. The distinctive feature of the Bennett show this week is the uniform strength of the entire bill, the acts individually having merit and originality to commend them to favor, while taken as a whole they constitute as pleasing and entertaining a vaudeville entertainment as has been seen here this season. There is an exceptionally breezy little sketch by John Devin and Mae Kilwood, which affords all sorts of scope for fun making in the unfolding; remarkably clever character impersonations by Herr Saona, whose portrayals are not only realistic but artistic; a whirlwind tumbling act by the Tumbling Toms; some unusually clever card and coin manipulating by F. Nelson Downs; an unusually amusing and entertaining juggling act by Paul Le Croix; wonderful feats of strength by Hildebrand and De Long, and last but not least, a delightful musical treat by Laskey's Five Pianohounds. The programme truly describes it as a swagger musical novelty. The act exerts a universal appeal, the selections being picked to please persons of unpretentious musical tastes, but with ear keyed to the appreciation of better music than the ding-dong popular variety. Marie Fenton's singing of a new song hit, "The Soft Pedal," is a feature in itself that makes the offering well worth while.

BOYS' CLUB CONCERT. The boys' club concert in Erskine Church lecture hall on Monday night was one of the best of the annual affairs yet given by that organization. Notwithstanding the heavy down pour of rain during the day and evening, the lecture hall was filled, and the programme put on by the boys was interesting and amusing from start to finish. All the parts were well taken, and with his able assistance, put on a splendid programme. D. A. Souter manipulated the lights thrown from the gallery to the stage. Robert Symmers played the accompaniments in his usual pleasing way, and the songs rendered by the boys and the sketch entitled "Sarah's Young Man," produced laughter throughout the entire evening. The ruble hand eclipsed even the ruble hand of the grocers' picnic. The affair was a decided success.

IMPERIAL SCOTS. J. M. Hamilton, known as the Caruso of Scottish song, and the Imperial Scots Concert Company, will be the attraction at the Grand on Wednesday evening, Dec. 1st, the occasion being the annual concert of St. Andrew's Society. "BILLY" AT THE GRAND. "Billy," the farce comedy which recently closed a long run at Daly's Theatre, New York, will be seen at the Grand on Thursday and Friday of next week, with the original company and production. How a play can be built upon the mishap of a football hero's loss of four front teeth, the acquisition of a false set, and in turn acquiescently parting with the substitutes, is one of the delightful things of the present theatrical season, the result being, as Allan Dale in his criticism said, "a combination of the most ridiculous situations with a laugh in every line."

THE VETERANS Sir Wilfrid Laurier in Receipt of Reports. H. M. Army and Navy Veterans' Society held their regular monthly meeting last night. Sergeant George Traves, late H. M. 1st Gordon Highlanders, was proposed for membership, and was initiated, together with David Lamb, formerly 13th Regiment, now of the 91st Regiment. The society was pleased to hear that the report of the committee on land grants at the convention had been sent to Sir Wilfrid Laurier and had been acknowledged by him, and that the President of the British Veterans' Association would press the claims of the Veterans of 1866-70 during the incoming month.

WELLANDPORT DAIRYMEN. The Wellandport Farmers' Club will hold a dairymen's rally on November 30 at 2 p. m., and possibly another in the evening, if roads and weather permit. The speakers will be Mr. E. N. Hart, dairy instructor, Woodstock district, on the cheese side of dairying, and Mr. Foster of Mr. A. Almont, of the Hamilton Pure Milk Company, on the cream and butter side. The speakers will answer any questions on those subjects.

Y. M. C. A. SINGING CLASS. The singing class was formed last evening by the Y. M. C. A. with E. A. Reid as chairman and Messrs J. Sweeney, Secretary; Geo. W. Woolley, W. Watson, W. Hot, G. Caesar, Earl Sinclair and Arthur Gale, a committee of management. Prof. A. J. Stone was appointed musical director. The class will meet on Tuesday evening at 7.30. Membership fee will be \$1. Any young man wishing to join may do so by attending the meeting next Tuesday evening.

Delicious Biscuits, Cakes, Etc. Are easily made with Gerrie's Perfection Baking Powder. Articles raised with it are light, sweet, do not dry out, require few eggs, and therefore there is no waste. It is pure, strong, economical and commends itself to thoughtful housekeepers. At Gerrie's drug store, 32 James north.

TEAR UP RAILS. Stamford Township Council's Ultimatum to Electric Railway. Niagara Falls, Ont., Nov. 23.—Disseminated with a flourish from 20 minutes to one hour for the trip between Falls View and Montrose Station, Stamford Township Council has ordered the Niagara & St. Catharines Street Railway Co. to restore the former service or tear up their rails and ties. The railway has been served with notice to this effect, and the fight between the company and the council, who sought the hydro-electric line, is on, it is said, with interest.

THE MOST WHOLESOME OF ALL STIMULANTS!! IT'S a positive fact that whisky, if properly distilled, blended and aged, is the most wholesome of all stimulants. But whisky, to be wholesome, to have any real delicacy and refinement, must be blended from constituents well matured, properly distilled, and thoroughly sound. It is aging alone that removes the fiery, nauseous essential oils and ethers found in new whiskies, and develops that soft, delicate, refined bouquet so noticeable in Sanderson's Mountain Dew Scotch.

LAND SALE. Again this season our own make Flannelette Garments are having a tremendous sale, so much so that lines have been entirely sold out, but to-day a new lot came down from the workrooms. They are made of the best imported flannelette in white and fancy stripes in full generous sizes, with or without collars, with fancy frill; embroideries or insertion trimmed. Large range at \$1.35, \$1.45 to \$1.75. Our own make Men's Night Shirts in all styles at \$1.00, \$1.25 to \$1.65.

BURIED IN SAND. Twenty Men Shovel For Boy in Shifting Sand. Children's Frolic Turned to Tragedy After Lad's Fatal Leap. Paterson, N. J., Nov. 23.—Twenty men with shovels dug furiously for two hours this afternoon to reach the body of George Sullivan, 12 years old, who jumped off a sand bank and started an avalanche of sand pouring down on top of him. Three thousand persons surrounded the spot and the police reserves were called that the work of the rescuers might not be impeded. At dark the shovel of one of the diggers touched the boy's lifeless form. His mother, who would not believe before that her boy had been caught under the pile, shrieked and fainted. George's home was a short distance from Sandy Hill, where two other children have met the same tragic fate within the last few years. The fascination of the sand mounds as a playground is irresistible to the children who steal away to them in spite of the injunctions of their parents. George went there to-day with five other boys. At one point there had been a cave-out, and over this the hill curved in a miniature crag. The boys were jumping from the knob to the smooth heap of sand that had accumulated below. George was their leader, and they were ranged behind him when he made the fatal leap. A moment after he disappeared they felt the ground giving way beneath them, and then they were tumbled deep down the gritty slope. They clambered over each other, shouting in happy excitement, and looked for George. As they looked, another slice of the sand bill toppled and spread the spot where they thought their comrade must be. At the first call for help the persons who heard guessed the story. Men tried vainly to break through the smooth surface of the sand heap. The more they shoveled the more sand descended. The boy must have been smothered almost instantly.

Winnipeg in Darkness Owing to Breaking of Flume. Winnipeg, Nov. 23.—Winnipeg is in darkness to-night, and is liable to be for a couple more nights on account of the breaking of the flume in the power house at Lac du Bonnet, about 40 miles from the city. As a result the power house is filled with five or six feet of water. The street car service is off, and everybody is forced to walk home from their day's work. The company is trying to work a steam plant, which only supplies the business section, but so far only a dim light is visible. The residential section of the city is in complete darkness, and grocery men are doing a record business in candles. There are no street lights. The newspapers are getting out their papers with great difficulty. Many mercantile houses have had to shut down work on account of no power.

MURDER CASES. One Man Pleads Guilty to Man-slaughter. Port Arthur, Nov. 23.—The two murder charges on the Assize docket were speedily disposed of to-day. Peter Iredieski, who was accused of murdering his stepson, Rubuk, in a fight near the coal docks at Fort William last month, had the charge reduced to manslaughter, and pleaded guilty. He will be sentenced to-morrow. The trial of Harmon, accused of murdering A. Walker on the steamer Carnegie, was postponed until the next Assizes, owing to the fact that one of the material witnesses for the Crown has disappeared, and another is seriously ill in a Cleveland hospital. T. C. Robinette, K. C., appeared for the prisoner and will apply for bail.

TORONTO COUPLE. Deported from the States by Immigration Officers. Cleveland, O., Nov. 23.—Harry Goldberg and his wife, Bella Goldberg, were deported to-day to Toronto, Ont., by the United States immigration officers. The couple were taken to the Canadian city this morning by Inspector Cameron Miller. Goldberg and his wife were apprehended by the immigration officials some weeks ago on charges of being unlawfully in the United States. It is alleged that after the pair had once been deported from Buffalo, the woman being barred on moral grounds, the two again entered the United States at Detroit. They came to Cleveland to visit relatives of the woman here. Goldberg told the authorities that his wife had eloped from Toronto to Buffalo and that he had followed her. After being sent back to Detroit, the woman again left and Goldberg followed her to Cleveland.

THE MOST WHOLESOME OF ALL STIMULANTS!! IT'S a positive fact that whisky, if properly distilled, blended and aged, is the most wholesome of all stimulants. But whisky, to be wholesome, to have any real delicacy and refinement, must be blended from constituents well matured, properly distilled, and thoroughly sound. It is aging alone that removes the fiery, nauseous essential oils and ethers found in new whiskies, and develops that soft, delicate, refined bouquet so noticeable in Sanderson's Mountain Dew Scotch.

LAND SALE. Again this season our own make Flannelette Garments are having a tremendous sale, so much so that lines have been entirely sold out, but to-day a new lot came down from the workrooms. They are made of the best imported flannelette in white and fancy stripes in full generous sizes, with or without collars, with fancy frill; embroideries or insertion trimmed. Large range at \$1.35, \$1.45 to \$1.75. Our own make Men's Night Shirts in all styles at \$1.00, \$1.25 to \$1.65.

BURIED IN SAND. Twenty Men Shovel For Boy in Shifting Sand. Children's Frolic Turned to Tragedy After Lad's Fatal Leap. Paterson, N. J., Nov. 23.—Twenty men with shovels dug furiously for two hours this afternoon to reach the body of George Sullivan, 12 years old, who jumped off a sand bank and started an avalanche of sand pouring down on top of him. Three thousand persons surrounded the spot and the police reserves were called that the work of the rescuers might not be impeded. At dark the shovel of one of the diggers touched the boy's lifeless form. His mother, who would not believe before that her boy had been caught under the pile, shrieked and fainted. George's home was a short distance from Sandy Hill, where two other children have met the same tragic fate within the last few years. The fascination of the sand mounds as a playground is irresistible to the children who steal away to them in spite of the injunctions of their parents. George went there to-day with five other boys. At one point there had been a cave-out, and over this the hill curved in a miniature crag. The boys were jumping from the knob to the smooth heap of sand that had accumulated below. George was their leader, and they were ranged behind him when he made the fatal leap. A moment after he disappeared they felt the ground giving way beneath them, and then they were tumbled deep down the gritty slope. They clambered over each other, shouting in happy excitement, and looked for George. As they looked, another slice of the sand bill toppled and spread the spot where they thought their comrade must be. At the first call for help the persons who heard guessed the story. Men tried vainly to break through the smooth surface of the sand heap. The more they shoveled the more sand descended. The boy must have been smothered almost instantly.

Winnipeg in Darkness Owing to Breaking of Flume. Winnipeg, Nov. 23.—Winnipeg is in darkness to-night, and is liable to be for a couple more nights on account of the breaking of the flume in the power house at Lac du Bonnet, about 40 miles from the city. As a result the power house is filled with five or six feet of water. The street car service is off, and everybody is forced to walk home from their day's work. The company is trying to work a steam plant, which only supplies the business section, but so far only a dim light is visible. The residential section of the city is in complete darkness, and grocery men are doing a record business in candles. There are no street lights. The newspapers are getting out their papers with great difficulty. Many mercantile houses have had to shut down work on account of no power.

MURDER CASES. One Man Pleads Guilty to Man-slaughter. Port Arthur, Nov. 23.—The two murder charges on the Assize docket were speedily disposed of to-day. Peter Iredieski, who was accused of murdering his stepson, Rubuk, in a fight near the coal docks at Fort William last month, had the charge reduced to manslaughter, and pleaded guilty. He will be sentenced to-morrow. The trial of Harmon, accused of murdering A. Walker on the steamer Carnegie, was postponed until the next Assizes, owing to the fact that one of the material witnesses for the Crown has disappeared, and another is seriously ill in a Cleveland hospital. T. C. Robinette, K. C., appeared for the prisoner and will apply for bail.

STANLEY MILLS & CO., Limited

Wednesday, Nov. 24th, 1909. Did you ever think of this feature of Christmas shopping?—that the ones who start early get decidedly the best assortment to choose from. We don't care how big the store or how extensive the stocks carried there are always thousands of dainty and appropriate gift things to be picked up early in the season that cannot possibly be duplicated later on. Year after year we experience the same thing, that many customers come into the store a few days previous to Christmas to purchase gifts they have seen on display earlier in the season only to be disappointed at finding them sold. Don't leave yourself open to such a disappointment as this—buy early—take our word for it that Christmas stocks (both here and elsewhere) are right at their best to-day.

Four Specials in Coats, Skirts and Dresses

For Thursday's selling we make four special offerings in one-piece Dresses, Children's Coats, Walking Skirts and Women's Coats, at prices away below the original values. 12 only, Women's Winter Coats, chiefly large sizes, in heaver, cheviot, in shades of black and navy, made in semi-fitting styles, single and double-breasted, velvet coat collar, patch pockets, waist and sleeves lined, the regular price is \$8.50, but on Thursday it is \$5.00 This is an extra special to which extra attention should be given: Women's and Misses' Walking Skirts of fine all Wool Panama Cloth, in navy, brown, green, grey and black; made in various pleated and gored styles, trimmed with self-strappings and buttons, perfect fitting, and well tailored. \$3.49 12 only one-piece Dresses, in shades of navy, green, brown and grey, of Venetian cloth, also in black and white and shepherd's plaid, made in a neat style, with front panel, piped with satin, collar and yoke of tuck net, long sleeves, gored skirts, our regular price was \$15.00, now clear at \$10.00 Children's Coats in neat styles, made loose collar, double-breasted front, nearly all have storm collar, new sleeve with cuff, patch pockets, made in shades of navy, green, brown and red, in heaver, frieze and tweed, and in a good range of sizes, our regular price range from \$5.75 to \$7. will be cleared on Thursday at \$5.00

M'LAUGHLIN ARRAIGNED.

Prof. Ellis Found Poison in the Stomach of Mrs. McLaughlin. Doctors No Cause of Death.

Wired Death of Family Before Bodies Were Found.

Uxbridge, Nov. 23.—Archie McLaughlin, who was on Friday last arrested by Provincial Inspector Greer on a charge of murdering his wife, Mary, on the night of October 29, was this afternoon arraigned before Magistrate Hamilton for his preliminary hearing. He pleaded not guilty to the charge before his counsel, Mr. T. N. Phelan, of Toronto, could prevent his speaking. The prisoner, whose bearing was decidedly dejected, showed plainly the effects of his short imprisonment in Whitley jail and the mental strain, and in conversation with an acquaintance said to-day that he would have to stay that long in Whitley jail. Throughout the hearing he sat with head bowed down on his hand, and although the room was warm, complaining of the cold and had put on his overcoat. The preliminary hearing coming in a lull of the coroner's investigation, which continues to-morrow, it was arranged that the evidence of Prof. Ellis, of Toronto, who had made an analysis of the stomach of Mrs. McLaughlin, might be given to the Magistrate.

Prof. Ellis's Statement.

Prof. W. H. Ellis, in giving evidence at the evening session of the preliminary hearing, explained in detail his analysis of the stomach of Mrs. McLaughlin. He said that he had discovered about a grain of the poison, and that it was of crystal form, and that it appeared to him that it had been absorbed into other organs, particularly the intestines, which he had not examined. Usually, he said, the drug acts quickly, but sometimes death might not come before an hour after it had been administered. To Mr. Phelan the professor admitted that the strychnine would be expected to be the same to him had it been introduced into the stomach or had entered it in some way after that organ had been removed from the body of Mrs. McLaughlin.

The Post-Mortem Report.

When the coroner's report opened in the morning, Dr. W. C. Shier was called to complete his testimony, begun late on Monday night's session. Crown Attorney Farewell read to him the report of Prof. W. H. Ellis, of Toronto, telling of the discovery of a grain of strychnine in the stomach of Mrs. McLaughlin. Then Dr. Shier followed with his post-mortem report, in which he ascribed death as due to suffocation. To a jurymen, the doctor said that the appearance of the heart of the dead woman indicated that death had come to her with some rapidity. The deceased had, as far as he could judge by the appearance of the organs, been a woman in perfect health. He told Crown Attorney Farewell, in answer to a question, that the post-mortem appearance of Mrs. McLaughlin quite coincided with the symptoms which would necessarily exist had death been due to strychnine poisoning. The symptoms from suffocation by smoke would be almost identical with those following death from strychnine. In both cases death would be preceded by asphyxia, due to contraction of the respiratory organs, which would prevent breathing. But in death from suffocation by smoke he would have expected to find the woman in a different posture. From one-half to one grain of strychnine would kill an adult. The post-mortem kind might possibly be dropped into a teaspoonful of cough mixture and given in that way. Mrs. McLaughlin had, it is said, taken cough mixture. If a person took a dose of this poison, ranging from one-half to one grain, death might ensue in from five to thirty minutes.

The doctor explained that he had preserved the stomach, brain and heart of the dead woman, in case there might be need for further investigation, a jurymen asked if it were possible that any of these organs could be tampered with before reaching the analyst in Toronto. Dr. Shier replied that he had, with Dr. J. A. McClintock, conducted the post-mortem in Undertaker Low's. He had taken out the stomach, and after securely tying it, had placed it in a pasteboard box, leaving it in the room for late Saturday afternoon this Saturday afternoon. The physician, however, added that when he had taken the organ in question to his office he had made a careful examination. Nothing had been disturbed.

To Mr. Phelan the witness said that he had been practising medicine for about two years and a half, and that in that time no case of strychnine poisoning in a human being had been handled by him. He said that from his own experience he could not say that death had been due to strychnine; it might have been caused by the drug, by suffocation or smoke, or by both. He could not say positively, but he said he would not expect to find the woman lying so placidly in bed had she succumbed to suffocation by smoke.

DR. J. A. McCLINTOCK.

Dr. J. A. McClintock, associated with Dr. Shier in the making of the post-mortem, corroborated his colleague's testimony. He, too, could not speak from personal knowledge, but he agreed with Dr. Shier that the symptoms, as revealed to him, would quite agree with those of strychnine poisoning. But later on, Mr. Phelan, the witness stated that even after the post-mortem and after hearing the finding of the analyst it was impossible for him to decide whether death was due to strychnine poisoning or to suffocation by smoke.

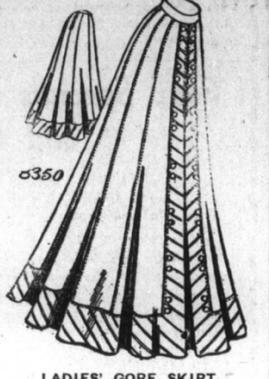

Mr. E. D. Wilcox, a G. N. W. Telegraph operator, sworn that McLaughlin had come into Mr. J. H. Chin's house about 12.45 a. m. on Saturday, the night of the fire. Messages had been sent to relatives at Sarnia and Wyoming. These, Mr. Wilcox said, had told of the death in the fire of Mrs. McLaughlin and her two little ones, and were sent on from more before the bodies were discovered at the burned dwelling.

Miss Ruth Lott, employed at Alexander & McPhail's store, told the coroner that McLaughlin had shown her a letter, a long letter, saying it had been sent to him by Miss Nix, a

young lady who assisted in the dry goods department of the store, on Thursday, which in Uxbridge is market day. She did not remember what was in the letter. She said that McLaughlin had made no special confidential of her, but had told her that he had on one occasion, in company with several young persons, spent an evening at Miss Nix's home. "McLaughlin told me," said the witness, "that on that occasion he had sent out for champagne, and they all had a good time."

Having no more witnesses to go on with, and expressing the belief that an adjournment would assist, the Crown secured an adjournment till 10 o'clock to-morrow morning.

TIMES PATTERNS.

LADIES' GORE SKIRT. No. 8350.—A new skirt model. One of the most becoming styles in skirts is that having a panel effect in front. It suggests height and slenderness of waist and with breadth at the lower edge, gives a pretty flare.

The model here shown shows the panel with inverted plait. Striped and plain woolsen was combined in this instance. The pattern is cut in sizes, 22, 24, 26, 28 and 30 inches waist measure. It requires 4 1/2 yards of double width material for the 24-inch size.

This illustration will be mailed to any address on receipt of 10 cents in silver or stamps.

Address, "Pattern Department," Times Office, Hamilton.

LORDS WARNED.

Constitution and Character of House May be Changed.

Lord Cromer and Others Will Not Vote on the Bill.

London, Nov. 23.—Interest in the budget debate in the House of Lords to-day was well sustained. Many Peers were present. The Duke of Connaught sat beside Lord Rosebery. The debate, which was not concluded until midnight, was principally remarkable as showing the likelihood of a number of Peers, following Lord Cromer in the free trade interest, declining to support Lord Lansdowne's motion, although opposing the budget on general lines. These Peers will abstain from voting. Among them is Lord Lytton, who announced his intention of taking this course because there was no prof that the country opposed the budget.

The debate generally followed party lines, being a reiteration of the arguments for and against the bill. Lord Pentland, Secretary for Scotland, gave another indication of the Government's policy. He warned the Peers that the House of Commons could not be expected to find a way out of the difficulty created by the rejection of the budget bill. This statement caused the greatest interest in the lobbies of the House of Commons, where it had been supposed that the Government might give way to the Lords in the matter of adopting temporary financial measures to meet the situation arising out of the rejection of the budget bill. Many Liberal members of Parliament had in fact expressed their determination to oppose any bill authorizing the continuance of present taxation until after the dissolution of Parliament.

First Colored Woman Dentist.

Gertrude E. Curtis, of Bradford, Pa., is the first colored woman dentist. She passed the final examination in the College of Dental Surgery in Philadelphia with high honors, and intends to begin active practice without delay. She believes dentistry is one of the best professions for women and has encouraged several colored girls to take up the study.—Philadelphia Record.

ASSESSMENT AMENDMENTS.

Complaints Made Before the Legislative Committee.

Railway Men and Retail Merchants Make a Kick.

Country Newspapers Not Money Making Concerns.

Toronto, Nov. 23.—There will be no ruthless or radical handling of the existing assessment act by the special Legislative Committee which is in session at the Parliament buildings. Action will be in the nature of revision rather than reconstruction. This line of policy was indicated by Sir James Whitney at the outset, and it was subscribed to by Hon. A. G. MacKay, the Liberal leader. Mr. Allan Studholme, the Labor man, however, wants some material alterations.

All day yesterday the committee listened to representations by various interests. No intimation was given by the members as to the lines to be adopted in dealing with the various proposals. The need for change was emphasized by many petitioners, while the assessment commissioners, Toronto and London came forward with assurance that the act in its present form was proving unusually satisfactory.

The railway employees in northern Ontario will wage warfare on the income tax. Captain H. A. C. Machin, M. P. for Kenora, will urge special reduction in their income tax in view of exceptional conditions existing. Kenora, he points out, is but four hours' run from the divisional point, Winnipeg, and scores of the railway men and their families are alleged to be crossing the Manitoba boundary to escape the annoyance of the Ontario assessment. Over five hundred are there, the Kenora man stated, interested.

Hon. W. J. Hanna was, on motion of Mr. W. W. Johnson (Hastings), and Hon. A. G. MacKay, chosen chairman, while the duties of the vice-chair devolved upon Col. Hugh Clark (Bruce). Both the chairman and Premier urged the committee to go slowly in making unnecessary changes, while the Liberal leader gave additional counsel against fundamental or radical alterations. "The committee will report with a view to preparing a bill," Sir James told Mr. Studholme. "The Legislature will act upon its report."

The Retail Merchants' Association, represented by Mr. E. M. Trowern, was first heard. The present act, he said, worked better than its predecessor, and the merchants opposed the proposal to return to the system of taxing the stock. He asked, however, that the tax on coal, wood and other kindred industries be reduced by an assessment of 25 rather than 50 per cent.

Mr. Trowern also protested on the part of the retail liquor man. "You make him pay a big license and then you tax him to the limit," he observed. "It occurs to me that he generally gets it out of the consumer," commented Sir James.

Mr. J. F. MacKay, speaking for the Canadian Press Association, urged that printing offices be placed upon an assessment for business tax of 25 per cent. of the real property rating, which is the rate of ordinary retail stores, instead of being under special obligations with clubs, liquor stores and departmental stores, which pay business tax on 50 per cent. of the real property rating.

"While the newspaper has passed the cordwood and pumpkin stage," said Mr. MacKay, "the returns are still comparatively small." He quoted from publishers in various parts of the Province to show the injustice of the existing schedule. "The very nature of your business would go to show you are in the retail trade," commented Sir James Whitney. "Is it not true," said Hon. Mr. MacKay, "that nobody now puts a dollar into a country newspaper expecting any return?"

Mr. MacKay thought it was. "It is absolutely impossible," concurred the Premier, owing to the changes in the journalistic world, for the country newspaperman to do as well as he did. "And he is perforce obliged to locate his office in a central spot," supplemented the Liberal leader.

Mr. W. J. Douglas corroborated the plea of Mr. MacKay, and Mr. A. Lewis, representing Mr. J. Ross Robertson, put in a statement showing the result of actual experience. At the afternoon sitting Mr. William A. Douglas represented what he declared to be "by far the most important matter which will come before this committee," and pleaded the case of the single tax movement. Mr. Percy F. Farmer, President of the Ontario Single Tax Association, supported him.

Mr. Paul Campbell, representing Trafalgar township, Halton, asked for some changes. Appearing for the Bell Telephone Company, Mr. E. H. Ambrose asked amendments designed to preclude different constructions by different Judges. "In Alliston," said he, "Judge Ardagh held that all occupants should be assessed for the whole frontage."

"What?" exclaimed Hon. Mr. Hanna. "I don't know how the Legislature can be expected to successfully legislate against judgments of that kind," said Hon. Mr. MacKay. "The clause is as clear as English can make it."

"I don't see how we could make legislation clearer," commented the Chairman. "If it isn't plain to the Judge now, it cannot be made plain."

RUPTURE Its Danger Its Treatment

How many are suffering from a rupture and yet fail to properly treat themselves! They, in fact, believe that a rupture is a disease with which to be free from all fear and insure health and life.

So, I cannot too strongly urge the apparatus of Mr. A. Claverie, the world-renowned specialist, who upon the numerous requests received from patients and doctors of this country, has decided to send us his son to benefit the Canadian suffering from Rupture with the marvellous advantages of his system.

Hundreds of thousands of patients who were leading a miserable life of pain and fear have recovered strength, youth, quietude by using the Claverie system.

It is thus a rare chance which all the ruptured people of this district will eagerly grasp by going and seeing Mr. Andrew Claverie when he passes through Hamilton. It will mean for them the end of their sufferings and the beginning of a new life.

DR. NAMY. Mr. Andrew Claverie will be in Hamilton on Wednesday, the 1st of December, until Saturday, the 4th of December.

He will give interviews at the Royal Hotel from 9 a. m. to 3 p. m. and from 6 to 9 p. m.

All advice given free. Absolute secrecy. Special attention for ladies.

ation of a clause bringing social clubs under the business tax. "They are luxuries," said he, "and should pay their way." He proposed to make this apply to all clubs which dispensed liquors and cigars, and paid only a nominal license therefor. The clause was asked for under a decision by which the Rideau Club, of Ottawa, escaped payment of business tax.

The committee resumes work this morning.

TOO HIGH.

Manitoba Insurance Act Presses Hard on Fraternal Societies.

Toronto, Nov. 24.—The societies which are associated in the Canadian Fraternal Association will endeavor to obtain an amendment of the insurance act passed at the last session of the Legislature of Manitoba in regard to the fees charged such societies for licenses.

The Provincial societies operating in Manitoba are charged a license fee of \$50 a year, extra Provincial Canadian societies \$100, and foreign societies \$200. It is felt that the manner in which the fees are levied presses hardly on the societies having only a small membership in Manitoba.

A meeting of the Legislation Committee of the Fraternal Association, together with the executive officers of the association, was held at the Prince George Hotel last night, and it was decided to endeavor to have the fees placed on a membership basis. Mr. Alexander Fraser, president of the association, which represented thirteen societies having a total membership of between seven and eight hundred thousand, presided.

All rubber heels are good, but Catspaw Rubber Heels are far the best. They won't slip. Look for the canvas friction plug in every heel. Any shoe dealer or repairer.

ABDUL'S MONEY.

Deposed Sultan Has \$3,000,000 in German Bank.

Berlin, Nov. 23.—The Imperial Bank of Germany holds some \$3,000,000 deposited by Abdul Hamid before he was deposed from the Sultanhip of Turkey and which, according to The Frankfurter Zeitung, the present Ottoman ruler proposes to recover through a legal action.

It is learned here that the Imperial Bank is quite willing to surrender the money if the order for the same bears the signature of the former Sultan, authenticated by the special seal adopted by him when the deposit was made. At that time Abdul Hamid entered into a strict compact with the officers of the bank, under which no withdrawals from his account was to be permitted, except upon the authority of special seal. Apparently the Turkish Government was not aware of this deposit until recently when a letter sent by the bank to Abdul and referring to the account fell into the hands of Mahmud Scheftak Pasha, Inspector-General of the First, Second and Third Army Corps.

The Inspector forwarded the letter to Abdul, along with the information that its contents had been noted. Subsequently the report was signed, an order on the bank for the money, but its signature was not accompanied with the seal, which he avowed had been lost.

MEN'S CLOTHES

Said to Have Been Found in Miss Meek's Trunk.

Further Evidence Taken at Barrie Fire Inquest.

Barrie, Nov. 23.—The Music Hall fire inquest was adjourned yesterday by Coroner Wells until 10 o'clock Friday morning. Jas Shrubsole, fireman, told of a search made after the fire was extinguished. Upstairs in the back room they found some rags still alive in a box, which they threw out the window. He thought he smelled kerosene, but considered it unlikely that the fire originated in this box. Five or six boxes of parlor matches were strewn about upstairs. Witness thought the fire began at the top of the cellar stairs.

Warren Johnson, another fireman, corroborated the evidence of Shrubsole as to the finding of rags. He smelled coal oil as soon as he entered the room.

F. T. Grafton, insurance agent, told of Guthrie taking out a blanket policy for \$600 on the contents of the house, November 1. About November 10 Guthrie applied for insurance on the show equipment. He gave him interim receipts for two policies of \$200 and \$450, respectively, but the company refused to issue them.

Miss M. Barwick told of Mrs. Guthrie applying to her company for a policy on the Music Hall contents at 11.30 a. m. Wednesday.

Chief Smith, who is also a furniture dealer, swore that the house did not contain more than \$200 or \$300 worth of furniture. Examination of the house after the fire disclosed some matches strewn about the kitchen floor near the cellar stairs. He was unable to say where the fire started.

A. W. Laidman related how Mrs. Guthrie called on him just before noon and arranged for an inventory of the property in the Music Hall. The inventory was made at 3 p. m. He put \$225 insurance on the picture machine, and she obtained an interim receipt about 6 p. m. She told him that she had not applied for or been refused before on the same risk.

S. J. Guthrie, being called, said that he knew nothing of the whereabouts of the young McDonald who is wanted to give evidence. The contents of the trunk belonging to the mysterious Miss Meeks being displayed before him, witness admitted knowing some things and not others, but on the whole would not state absolutely as to whether the bulk of the articles did or did not belong to his family. One of the articles was a testament bearing the name of S. J. Guthrie, and another book held a record of family births. He couldn't account for Miss Meeks having these things.

Clara Guthrie, recalled, denied flatly that she was in Allandale with trunks as described by Baggageman Lowe and Expressman Stone. She said she never was in Allandale in her life. She said Miss Meeks looked like her somewhat. When asked concerning the contents of the trunks, she acknowledged acquaintance with two or three articles, but others she never had seen before.

Mr. Guthrie, examined again regarding the trunks, recognized numerous articles which had been given to Miss Meeks, she said. She contradicted Stone's statement that she expressed trunks, and said Miss Meeks had done so. Asked regarding the whereabouts of Miss Meeks, she replied, "I'm not her guardian."

HANDS CUT OFF.

Ghastly Trophies Brought by Congo Soldiers.

New York, Nov. 23.—"There is no possible doubt that King Leopold is responsible for the terrible conditions in the Congo. His own commission corroborated the stories of atrocities. The Congo is now under Leopold, for, although divided up and apportioned among different companies, Leopold retains more than 60 per cent. of the stock of each. One of these is an American company."

Dr. Wm. E. Leslie made this statement to-day on returning here after spending seventeen years in the Congo as a representative of the American Baptist Missionary Society. For the last four years he had been stationed in Portuguese Congo. "When a district proves refractory," he continued, "bands of native soldiers are sent to punish it. These soldiers are cannibals, and they slay and spare no one."

"As proof that they have done their work and not wasted their bullets, they bring back the right hands of their victims. Sometimes they come in with huge basketsful of hands. The bodies of their victims are cooked and eaten."

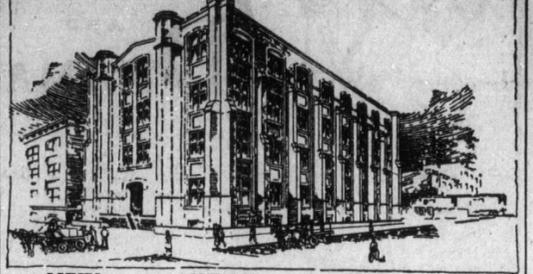

Hull, Eng., Nov. 23.—Speaking here to-night, Edmund D. Morel, of the Congo Reform Association, announced that he had reliable information that Great Britain and Germany had arrived at an understanding for co-operation in securing the rights of the natives and international commerce in the Congo.

Canada is the most progressive country in the world to-day, and the most progressive men and women in Canada are wearing Catspaw Rubber Heels. That's why they are alive in the game.

COAL OIL IN WELL. Another Outrage Reported on a Caradoc Township Farmer. Strathroy, Nov. 23.—Another outrage is reported on the farm of Mrs. Cawthron, ninth concession, Caradoc. This time a quantity of coal oil has been thrown in the well.

Within the last few weeks her barn has been burned and poison put in the well. She knows of no reason for any person's enmity. In addition, some implements, which had been saved and which were left securely locked in Clement Fisher's barn, nearby, were stolen, and nuts and bolts in his buggy loosened so that the vehicle would collapse, and it is suspected a quantity of pearls poisoned. It has been intended to have the latter analyzed at Ottawa, but the expense (\$50) was too great.

BLOOD DISEASES CURED

Drs. K. & K. Established 20 Years. NO NAMES USED WITHOUT WRITTEN CONSENT

He was surprised at how the sores healed. I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicine the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, pains of the hands, itching, itching of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish. W. H. S.

We treat NERVOUS DEBILITY, VARICOCELE, STRICTURE, VITAL WEAKNESS, BLOOD, SKIN and PRIVATE DISEASES, URINARY, BLADDER and KIDNEY complaints of Men and Women.

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest opinion Free of Charge. Charges reasonable. Books Free—"The Golden Monitor," (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. Everything confidential. Question list and cost of Home Treatment FREE.

MAY BUY ROAD.

Street Railway Company of Kingston Will No Longer Run Cars.

Kingston, Nov. 23.—After to-night Kingston will be without street cars, as the company has decided to close down the road owing to the refusal of the City Council to give a straight five-year power agreement without provisions. The company refuses to accept any provisions in the agreement, and this morning H. W. Richardson, president, issued a notice that no cars would be run after to-night, when the present agreement expires. This opens the way to the city purchasing the road at scrap-iron value, and there is a likelihood of this being done.

LIBERAL CLUB IS ON A NEW FOOTING.

Annual Meeting Held Last Night One of the Best in Club's History.

Enthusiastic Young Men Undertake a Large Task, But Prospects Are Bright.

The annual meeting of the Liberal Club last night, in their quarters, Arcade building, was one of the largest in the club's history.

The president, Mr. C. Davis, expressed himself pleased at the large and representative gathering. He said the business was of importance and needed careful attention.

He thanked them for the honor of having been elected to the presidency at two or three previous annual meetings and for the support during his term as well as for the support the executive had received from the club.

NEW SCHEME ADOPTED. He then proceeded to explain the plan as mapped out by the executive. He said in the past the club had not been troubled with the responsibility of maintaining their own quarters.

He then called for discussion and questions, if any of the members had doubt in their minds as to any of the points in connection with the scheme, and a number of questions were asked and answered.

APPROVED BY ALL. Mr. W. M. McClelland said the scheme was a good one, as it was entrusting the destiny and the management of the club to the young men.

Mr. Davis then explained that his duties were at an end, for the next matter of business was the election of officers. Mr. W. T. Evans was elected chairman and conducted the election.

THE NEW OFFICERS. The election resulted as follows: President—Mr. C. Davis. First Vice-President—Mr. John A. Soule.

Executive—Messrs. Charles G. Cooper, Jas. A. Ogilvie, Fred Lavery, Robert

FOR THE BABIES.

Appeal to Wipe Out the Debt of the Milk Commission.

Mr. Geo. Hope, president of the Victorian Order of Nurses, has issued a circular letter, in which he says: "At first the Milk Commission asked the Victorian Order of Nurses to guarantee the sum of \$700, but before the season was over the total cost amounted to about \$1,500, which includes the plant for sterilizing, wages paid to nurses for preparing the milk and the distribution of the same to the mothers."

TO DIVORCE HER SOULMATE HUSBAND

GRACE ELLSWORTH.

Chicago, Ill., Nov. 24.—Grace W. Ellsworth, the charming operatic star, is now starting in the realistic-to-her-playlet, "Parted at the Altar," staged at one of the local divorce courts.

A. M. E. CHURCH ANNUAL TEA.

Large Crowd Enjoyed a Splendid Entertainment.

The popularity of St. Paul's A. M. E. Church was never more manifest than at the annual tea meeting and concert held last evening. The committee in charge, Rev. T. H. Henderson, Mrs. Anna Taylor and Mrs. Eva McComas, ably assisted by other members of the church, had their zeal and enthusiasm crowned with splendid success.

don't change me before to-night I shall look up other belongings." "There is no difference in the beds, sir," the clerk replied, respectfully.

GOOD SHORT STORIES

CARNEGIE'S STRATEGY. (Christian Guardian.) Andrew Carnegie's philanthropy was being praised on the piazza of a hotel.

"Mr. Carnegie," said an aged clergyman, "is as profoundly religious as he is profoundly charitable. All the same—" He smiled.

"Mr. Carnegie attended, some years ago, one of my business men's week-day services. Seeing him in the congregation, and unaware that he was not used to praying extempore, I said after the first hymn:

"Let us engage, first of all," he stammered, "in a few minutes of silent prayer." "We all immediately bowed our heads and closed our eyes, and Mr. Carnegie, tiptoeing out, escaped."

The young man from the country took his green necktie and his best girl into a London restaurant, and, like some other young men, he was disposed to be facetious for fear of affecting the other eye.

"Waiter," he said, "I want you to bring me a grilled crocodile." "Yes, sir," replied the waiter, perfectly unmoved.

"And, waiter, bring it with butter." "Yes, sir," replied the waiter, perfectly unmoved. "Then he stood there like a statue for a minute."

"Well," said the young man, "aren't you going to bring it?" "Yes, sir," replied the waiter, perfectly unmoved.

"Orders is, sir, that we get pay in advance for crocodiles, sir. Crocodiles, with butter, sir, are fifteen hundred pounds and twopenny. If you take it without butter, sir, it is only fifteen hundred pounds, sir."

The waiter did not smile, but the girl did, and the young man climbed down. "In 'Human Nature Under Fire' in Success Magazine, Will Irwin tells the following story:

The fire, not the earthquake, destroyed San Francisco. Few buildings really went down, and those were old brick structures of flimsy workmanship, or wooden houses half rotted by age.

Ob, you kids! Catpaw Rubber Heels are just the thing for kid shoes or for kid's shoes. They are dressy and they wear the best. All shoe dealers.

"What is co-education, ma?" "It is education which gives girls a chance to show that they are smarter than boys."—Boston Record.

Origin of Aviation. A London bus driver has settled the origin of aviation. As he drove over Waterloo bridge a guest of wind whirped off a passenger's hat and carried it in a graceful flight over the parapet. "It's over, all right," said the bus driver, "and that's just 'ow that there aviating business was invented. A German bloke 'ad 'is 'at blown awf like that and got the idea."

International Checkers Strong Team Selected.

An Unique Amusement For the Winter Months.

One of the greatest winter pastimes in the world is a game of checkers. A team of Canadian players has been matched to play an American team for the championship. This game will be played by the correspondence method, each move being made by postcard, and each play being made by numbers. The games will commence in December, and will last until the following December, it is expected.

This international struggle will be conducted on what is known to checker experts as the two-move restriction, and each player will contest four games with each member of the opposing team. The teams selected are:

CANADIAN TEAM.

- M. D. Teetzle (captain), editor of The Canadian Checker Player, Chatham, Ont., a strong player, who made a good score in last year's American Checker Association correspondence tourney.
- P. C. McDonald, Wallaceburg, Ont., reckoned the best player in Canada with the exception of Fleming Brown, of Mealey, Man.
- J. W. Bell, Biddow, Ont., correspondence champion of America, 1907.
- G. A. Andrus, London, Ont., a strong cross-board and correspondence player.
- J. W. Jacobson, an Ontario player, originally from London, Eng. He played Alfred Jordan, England's best player, a match for the championship of the city of London, Eng., but lost to him.
- F. S. Mercer, Blairmore, Alta., an old Toronto boy, who is reckoned the best in his district. He has the largest checker library in the west, and is one of the best-informed followers of the game.
- W. T. Walton, Wallaceburg, Ont., cross-board champion of Ontario. Before coming to Canada he was a noted London, Eng. player.
- F. S. Kettleton, of Calgary, tied for fifth place in the first 1907 A. C. A. correspondence tourney.
- J. Johnson, of Sarnia, a strong correspondence player.
- J. Carrie, of Nova Scotia, one of the best players in that province.

UNITED STATES REPRESENTATIVES.

- J. F. Roberts, checker editor of The New York Tribune-Farmer.
- Herbert L. Eddy, secretary of the Providence Checker Club.
- John Dougherty, runner-up in the Kansas State tourney last year.
- George S. Jennings, who twice took third place in the Iowa State tourney. He was winner of the A. C. A. correspondence championship for 1908.
- Henry Hutzler, a veteran, who for 30 years held the championship of Ohio. He has the largest checker library in the world.
- W. J. Zahl, the second strongest player in Wisconsin.
- Bert Tapp, checker editor of The St. Paul Minn. Dispatch. He is counted as one of the best players in the State of Minnesota.
- D. D. Curtin, of Moravia, New York, has an enviable reputation in that state as a correspondence player.
- Peter Doran, Illinois, silver medalist for cross-board playing.
- C. J. Williamson, three times cross-board champion of Kansas, and especially strong on correspondence playing.

All Trotting Races Two Out of Three.

New York, Nov. 24.—Two out of three heats will hereafter constitute a victory in trotting races recognized by the American Association of Trotting Horse-Breeders, according to an announcement made at the annual meeting of the association in New York last night. In a vote taken by mail, replies were received from nearly one-half of the 830 members of the Association in Canada and the United States, and opposition to the three in five races was registered by a vote of 305 to 38.

Some of the ballots even favored a single heat. The proposal made last year for the establishment of a national stake for the trotting championship of the United States, was renewed. United States Senator Jos. W. Bailey, of Texas, president of the association, who presided, said that the national championship idea had the approval of the association, and that the plan would be taken up for action when stakes of \$20,000 were guaranteed. Senator Bailey was re-elected president, and all other officers were re-elected. Delaware was admitted to membership.

"I envy a good-natured man," said the philosopher. "So do I," answered Mr. Sirius Barker. "His good nature usually indicates that the desirable things of life are coming his way."—Washington Star.

Many a man has acquired wealth by giving away nothing but advice.

SANTAL-MIDY

These Urinary Capsules are the most effective remedy for all urinary ailments. They are easy to take and their action is rapid. They are sold in all drug stores.

JEFFRIES IS A FINE RING GENERAL.

A Past Master In Handling Opponent in the Ring—Followers Wondering What Style of Fighting Big Fellow Will Use.

Followers of the pugilistic game who are familiar with the work of Jim Jeffries in the ring, are wondering what tactics he will follow in his coming battle with Jack Johnson for the world's championship. Will he stand up and take the offensive at the outset with a determination to annihilate the colored man at once, a style that always characterized the work of John L. Sullivan, or will he go into the fight cautiously, as he did in his first engagement with Bob Fitzsimmons?

Ryan's instructions, and "Tommy" coached him all through it. No man ever put up a more perfect fight. He did not make one mistake, and won from the greatest fighter of the age with only one scratch blow to show for the eleven rounds.

These are the questions that present themselves to the minds of the students of the game. Of course, Jeffries is not foolish enough to tell anyone what he purposes to do in this regard. It is doubtful if he knows himself. He will probably form no plans at all, but merely fight according to what his opponent shows as the mill progresses. Of course, it would be natural for us to expect to see an undefeated ex-champion of the world take the initiative and carry the fighting to any opponent.

In his two fights with Jim Corbett Jeff stood up straight, paying little attention to defence. He used scarcely any guard, being the aggressor all the time. In his first bout Corbett pegged him and pegged him until his face looked like a piece of raw beef, but finally in the twenty-third round Jeff sent one over to Corbett's jaw-point, and "Pompadour Jim" went to sleep. In their second fight Jeff again stood up, but not only knocked Corbett out, but is said to have outboxed him and outfooted him in every round. This is a hard thing to believe, for Corbett was the swiftest big fellow that ever stepped into any ring when it came to footwork. Jeff may have outpunched him and smothered Corbett's blows, but I doubt very much that he outfooted him.

Jeffries may do this and then again he may not. When he first fought Fitzsimmons he showed the most perfect defence ever displayed in any ring in this or any other country, and as a result, old Bob, the crafty hero of a hundred battles, only landed about two good blows during the entire fight. Jeff remained in a crouch all the time, his immense left hand well forward and slightly bent, his jaw covered by that ponderous shoulder muscle, his chin being well down into his chest.

It has been seen that Jeffries has been capable of making good fights in different styles. He can wear out an opponent by using defensive tactics, or he can crowd matters and beat his man down before him. Now the question arises: What style will he utilize against Jack Johnson? If Jeff is in the best of condition, and as good as he used to be in every detail of the game, he will doubtless go in to make quick work of it. Then, after a few rounds, if he finds that he has not been making sufficient headway, he may change his tactics and try to wear Jack down as he did Fitzsimmons.

CANADIAN VIEW OF AMERICAN RUGBY.

Varsity Representative Says It Is Much Inferior to Game in Canada—Only 15 Kicks in One Game—Mass Play With Off-Side Interference.

A representative of the college paper, The Varsity, witnessed the Harvard-Cornell Rugby game at Cambridge, the Saturday previous to the Yale game, and gives it as his opinion that American college football is much inferior to the Canadian game. The writer's views are thus set down:

because the people did not want to enthrone, for they applauded vociferously runs of ten yards, which we would not take very seriously.

THE FOOTBALL VERY POOR.
"From a Canadian viewpoint, the class of football was poor. Only in one department could the Harvard team, who completely outclassed their opponents, compare favorably with the best teams over here. This was in line-bucking, and their exhibition of this style of play was wonderful. Of course, this is where their system of off-side interference, which is not allowed in our game, comes into use."

TACKLING POOR, TOO.
"One feature of the play at which the Canadians were surprised was the tackling. We had been led to expect flying tackles of a high order in the American game, but we were disappointed. There were no flying tackles during the afternoon, and hardly ever was a man got below the waist. Most of the tackling was around the shoulders. For close play, where the possessor of the ball is doubtful, the Americans claim to be effective as getting the man high up. However true this may be, the fine tackling so noticeable in the Canadian game was almost entirely lacking."

THE CHEERING THE FEATURE.
"So much for the game itself. But there was a feature that impressed us more than any part of the actual game. This was the Harvard singing and cheering. The Harvard yell is a great one, and when given by five thousand men, packed in one section of the stadium and under the direction of an able yell-leader, the effect was wonderful. These yell-leaders certainly work as hard as any of the men playing in the game. When the men are not yelling loudly enough to suit them, they don't mind telling them so in the very plainest of language. The Harvard rosters had a small brass band which led the singing, and the effect was a treat to us who never hear anything more than a few feeble toots from a cornet, and about a hundred men, most of whom are off the key, trying to sing a song of the words."

WEDGE MASS PLAYS.
"It is doubtful if a Canadian team could stop these bucks, as the American players are all heavy men, and have the wedge play down to a science. In our game a buck can be stopped by getting the first man, as he must carry the ball. But on the other side any one of six or seven men may have the ball, and the only way to stop its advance is to upset the whole formation."

SENIOR SCHEDULE.
Nov. 25—Oaks vs. Elms, 7 p. m.
Nov. 25—Maples vs. Poplars, 9 p. m.
Dec. 2—Elms vs. Poplars, 9 p. m.
Dec. 2—Maples vs. Oaks, 9 p. m.
Dec. 9—Poplars vs. Oaks, 7 p. m.
Dec. 9—Elms vs. Maples, 9 p. m.
Dec. 16—Oaks vs. Elms, 7 p. m.
Dec. 16—Maples vs. Poplars, 9 p. m.
Dec. 23—Elms vs. Poplars, 7 p. m.

Dec. 30—McKerie vs. Turnbull, 8.

Two Countries' Naval Plans.
Both Italy and Austria are reported to have decided upon the construction of new bases for their future Dreadnought fleets, Italy at Ancona, and Austria at a place yet to be selected. At present each country has a four-battleship programme projected.

WHAT WOULD WE HAVE DONE? A TRIBUTE OF TRUE SPORTSMANSHIP

Ottawa Citizen: After Saturday's big game between the Tiger and Ottawa teams, one of the Ottawa Football Club's warmest supporters sat in the rotunda of the Prince George at Toronto and after listening to the enthusiastic cheers of the Ottawa contingent and the responding shouts of the beaten, but not disgraced Tiger rooters, he broke into poetry with a view to paying a special tribute to the Tiger team and its management and supporters for the manly way in which they took their defeat. He has written a few verses, which amply express the high opinion which Ottawa sportsmen must hold of their Hamilton rivals, and which, incidentally is one of the best pieces of football poetry yet turned out this season. He wrote it especially for the Citizen, which takes great pleasure in publishing it below:

Would we have waved our flag
And grabbed them by the hands,
Or sadly queried the rag,
And quitted our bands?
Which would we?
They poured on us congrats
And acted like true sports,
'Twas they who waved their hats
Though they felt out of sorts.
Didn't they?
Their band was our escort
And played "The Heroes Come."
Say! but isn't that true sport,
—Better than sitting gum?
Isn't it?
With their blacks and yellows;
Is that what we would do
Were we beaten, fellows?
Now, would we?
Honor where honor's due,
We have a lot to spare,
So fill the glass with brew,
And with the Tigers share.
Here's to them!
F. H. H. W.
Ottawa, November, 1909.

S'pose the Tigers had won,
Doing us fairly brown;
Say! what would we have done
As they marched through the town?
What would we?

to victory over the Rough Riders at Toronto, besting them out of a championship which had been looked upon as a sure thing. Yesterday the Ottawas worked out in the Arena. Air lamps were used and the floor covered with sawdust. Winter weather prevailed, but the arena was a splendid place for just such work as Ottawas required. All the members were present but Christie, who is laid up with his injured knee, but who is likely to be in the game after all. Stronach did a little running, and the others went over their signals and practised line work, which proved such a valuable asset in the match against Tigers.

The Ottawa Club, while perfectly willing to play in Toronto and live up to the C. R. U. rulings for the Canadian championship games, feels that it is a hardship that the team should have to go to such trouble to meet a team of the calibre of the winners of the senior O. R. F. U. and on Saturday night President Nagle, of the Rough Riders, expressed his feelings in the matter in no mild manner, when Harry Griffith, Dr. Barton and the Ottawa officials held a little session at which they came to an understanding on next Saturday's game.

All the players look for a win over "Varsity," but at the same time they take cognizance of the fact that the inter-collegiate champions are dangerous, and that to be beaten out would be a humiliation after their great win over Tigers, and their celebrations in connection therewith. Eighteen players, three bands and four hundred supporters will be taken to Toronto, at a rate of \$7.70 again having been secured. Referees will be agreed upon to-day or Thursday. The excitement here is not as high as it was previous to the Tiger game, the majority seeming to take it for granted that Ottawa will down Harry Griffith's men through bettering their line to pieces and spoiling the effectiveness of their backs by good following up and deadly tackling.

Dr. Nagle could not see how the O. R. F. U. teams could compare for a moment with the Interprovincial or Inter-collegiate teams, and both he and Dr. Barton were in favor of an attempt being made to call off the game with the O. R. F. U. winners. "We don't want to play them," said the "Varsity" man. "And I am sure we don't," returned the Ottawa President.

The losing team for the last twelve years in the Yale-Harvard contests has never scored a single point.

The Yale-Harvard struggle was slow and stupid.
Ottawa wants a thousand tickets for the coming big game.
Harvard has never beaten Yale twice in succession.

Basketball at Y.M.C.A.

Senior, Intermediate and Junior Schedules Were Drawn Up.

The Boys' Club has been divided into three sections, seniors, intermediates and juniors, with their leaders, John Bainbridge, Jack Lumsden and Fred Dean.

The following Bible class basketball schedule will be run off in the next six weeks, for which a suitable trophy will be given to the winning team of each section:

ART MOORE,
Famous Tiger half-back, who is in Davey Tone's and Wally Barron's class. He's married now.

TWO DOUBTFUL PLACES ON 'VARSITY TEAM.

All Varsity Players Expect Bell and Janes in Good Shape For Ottawa Game—No Heavy Work This Week—Turned Out in Rain Monday.

The 'Varsity team had a workout in the rain on the campus Monday afternoon for the Canadian championship semi-final at Rosedale on Saturday with Ottawa.

in comparison with some of their opponents on the wing line, notably those members of the scrimmage with the Captain Kidd cast of countenance.

The Collegians are in good shape to meet the Rough Riders, and will do no strenuous work at all, but will devote their time to running, kicking, and following up and signal practice.

There will be a souvenir programme issued by the 'Varsity Club for the Ottawa game at Rosedale on Saturday. It is proposed to have the photos and Rugby histories of all the players concerned in the Canadian semi-final.

There are only two doubtful places on the team, both in the scrimmage, Jimmy Bell and Jones, who have been on the injured list, are the players in question. Jones was out at last night's practice in the heavy rain, and his sore knee did not appear to give him any trouble. Bell is a great little centre man, and it is to be hoped that he will be fit and ready for the big battle.

PREVIOUS CHAMPIONS.
The first championship match on record for Canadian honors was played in 1892, and was won by Osgoode Hall, the Toronto fourteen defeating Montreal by the score of 45 to 5.

The other champion teams and games are as follows:
1893—Queen's University, Ontario, defeated Montreal, Quebec, 29 to 11.
1894—Ottawa University, Quebec, defeated Queen's University, Ontario, 8 to 7.
1895—Toronto University, Ontario, defeated Montreal, Quebec, 20 to 5.
1896—Ottawa University, Quebec, defeated Toronto University, Ontario, 12 to 8.
1897—Ottawa University, Quebec, defeated Hamilton, Ontario, 14 to 10.
1898—Ottawa, Ontario, defeated Toronto University, Inter-Collegiate, 7 to 3; Ottawa, Ontario, defeated Ottawa College, Quebec, 11 to 1.
1899—No game.
1900—Ottawa, Ontario, defeated Brockville, Quebec, 17 to 10.
1901—Ottawa University, Quebec, defeated Argonauts, Ontario, 18 to 3.
1902—Ottawa, Ontario, defeated Ottawa College, Quebec, 5 to 0.
1903—No game.
1904—No game.
1905—Toronto University (Inter-Collegiate) defeated Ottawa, Quebec, 11 to 9.
1906—Hamilton, Ontario, defeated McGill, inter-collegiate, 29 to 6.
1907—Ottawa University, inter-collegiate, defaulted to Peterboro, Ontario; Montreal, inter-provincial, defeated Peterboro, Ontario, 77 to 6.
1908—Hamilton, inter-provincial, defeated T.A.A.C., Ontario, 31 to 8; Hamilton, inter-provincial, defeated Toronto University, inter-collegiate, 21 to 17.

There is a feeling of quiet confidence at 'Varsity that cannot be gained. The victorious Ottawa team is not feared like Hamilton, and the collegians make no bones about it either. Stronach will be on Lawson's side, but there are other good half-backs besides the Guelph boy behind the 'Varsity line, as the Rough Riders will no doubt be made aware of on Saturday.

Position	Player	Weight
Full-back	Dixon	165 lbs.
R. half-back	Gall	165 "
C. half-back	Newton	165 "
L. half-back	Lawson	180 "
Quarter-back	Foulds	150 "
Scrimmage	Richie	200 "
Scrimmage	Bell	150 "
Scrimmage	Jones	170 "
L. inside wing	Muir	180 "
L. middle wing	Hume	190 "
L. outside wing	Park	150 "
R. inside wing	Kingston	160 "
R. middle wing	Lajoie	175 "
R. outside wing	Thompson	170 "

Total weight.....2,380 lbs.
Average weight, 164 1/2.
There is a feeling of quiet confidence at 'Varsity that cannot be gained.

The students have youth and vim and snap on their side, which will more than compensate for their lack of size.

COMMENT AND GOSSIP

As close as Toronto newspaper comment puts us to it, Ottawa has to be much better than its opponents to win.

Now that we are through, So get new half backs, Get a new line.

Already arrangements are being made for presentation to the Ottawas for winning the Inter-provincial championship, but no active steps in this direction will be taken till after the Ottawa settle with the 'Varsity team.

You'll win the championship No. 2 of the Varsity collection of songs, parodies and yells collaborated for next Saturday—Tune Blue Bell.

The Ottawas are not under-estimating the 'Varsity team, but at the same time they seem to be more confident of beating 'Varsity than they would if they were going up against any of the Inter-provincial teams.

Speaking editorially the Ottawa Journal says: Men may fail continuously to grasp victory, and its fruits, without once losing their right to be known as good sportsmen; and conversely Victory may, and has, frequently perched upon the banners of those whose action show they have little appreciation of the quality that have come to be included under the comprehensive description "good sportsmen."

If this cold snap keeps up, 'Varsity and Ottawa may have to play on skates. Jack Williams would shine there, too.

Next best to the enjoying of a well-deserved victory, with modesty, is the uncomplaining and philosophic acceptance of an unexpected defeat.

Bob Fitzsimmons and Bill Lang are going to fight for the championship of Australia. Peter Maher should get busy and challenge the winner.

When, upon the conclusion of the great football match in Toronto Saturday last, the Hamilton team cheered the winning Ottawas, when they congratulated winner and the individuals of the losing team shook hands with the opponents they had been trying to defeat, and had their band play the victors off the field, then the Hamilton men gave an exhibition of which the people of that city have more right to be proud, than if their team had returned bearing with it, the championship banner.

John Dymont says Canada has too much sense to pass a drastic law against horse racing. A lot of people went broke thinking the same way about New York.

The Ottawa boys met their opponents last way, and had the result of the game been reversed, the modest victors would have shown themselves equally at home in the more difficult role of sportsmanlike losers.

Betting on football games does not have to be oral—but that's another invidious comparison.

They grow good footballers in Hamilton, and they develop, there also, what is infinitely more important, some mighty fine gentlemen.

John Dymont says Canada has too much sense to pass a drastic law against horse racing. A lot of people went broke thinking the same way about New York.

And after all, the terms "good sport" and gentleman should be synonymous and interchangeable.

"The trouble with football," says Prof. Arworthy, "is football." This is a complex proposition reduced to laconic simplicity.

It is said that the figure in Ty Cobb's contract with Detroit is larger than the modest young Georgian ever expected. Then it must be indeed fabulous.

Jim Jeffries wishes to state that neither the running down of careless pedestrians has Jack Johnson got anything on him.

It is said that the figure in Ty Cobb's contract with Detroit is larger than the modest young Georgian ever expected. Then it must be indeed fabulous.

A team of "Cs" is suggested by a New York fan, and it wouldn't make a bad team at that. The following is the line-up he suggests: Cobb, right field; Clarke, left field; Crawford, centre field; Chase, first base; Collins, second base; Charles, shortstop; Conroy, third base; Camnitz, Curtis and Covaleski, pitchers; Griger and Carrigan, catchers; Chance, manager; Criss, utility man.

Do Crabs and Lobsters Migrate? Interesting experiments with crabs and lobsters are being made in connection with the Norfolk crab fishing. Unlike most fish, crabs and lobsters apparently do not migrate, and it is now proposed to make a scientific test by catching a thousand crabs, attaching a metal label to their claws and liberating them. Their recapture is expected to furnish proof of non-migration. A hundred lobsters were labelled in this way, and the thirty-six retaken had not travelled from the place at which they were returned to the sea.—Westminster Gazette.

Ottawa, the sun is setting: Ottawa, it's time to go. You know now the harm of betting. 'Twas sinful to treat you so. Stronach and Williams are good ones. But the rest have seen their day. Varsity is not the Tigers. So Ottawa please draw away.

THE CANAL DEPUTATION.

Government Interviewed About Deepening the Welland.

Twenty-Two Foot Canal Needed to Retain Trade.

Waterway Via the Saskatchewan and Rainy Rivers.

(Special Wire to the Times).

Ottawa, Ont., Nov. 24.—The propaganda of the Great Lakes and St. Lawrence Improvement Association, for the deepening of the Welland Canal to twenty-two feet, was brought forcibly before the Government this morning by a large deputation, including representatives of many lake ports, from Fort William to Kingston.

The deputation, which was headed by Sir Wilfrid Laurier and Hon. G. G. Graham, included the Mayors of Toronto and Hamilton and of several of the smaller ports on Lake Ontario, and a considerable number of members of the association joined the constituents in the deputation.

Mr. German, M. P. for Welland, introduced the speakers. Captain H. W. Richardson, of Kingston, in opening the argument, declared that the most vital necessity of inland transportation interests was now the deepening of the link between Lakes Erie and Ontario.

Trade would always follow the cheapest route and unless Canada took steps to improve the Welland Canal route the new deepened New York State canal system would capture the grain trade from the west, with a twenty-two foot waterway through from the head of the lakes to the St. Lawrence, grain rates from the west could be reduced by three cents per bushel.

Mr. A. E. Kemp, ex-M.P., representing the Toronto Board of Trade, urged the deepening of the Welland canal in preference to waiting for the Georgian Bay Canal, which was a far more expensive way, and not so certain a proposition. It would ensure a rate of 3 1/2 cents per bushel in grain from Fort William to Montreal, as compared with six cents per bushel now.

Mr. Lawrence Henderson, of Montreal, declared that an expenditure of from twenty-two to twenty-five millions in deepening the Welland canal or in reconstructing it in whole or in part, would be a far better plan. Mayor Milne, of Sarnia, Mayor Daniels, of Prescott, and Thos. Conlon, of Thorold, supported the views of the preceding speakers.

The latter presented a memorial from the Grand Board of Trade, which went so far as to claim that a waterway for one thousand ton vessels should be opened up via the Saskatchewan and Rainy Rivers, right through to the foot of the Rocky Mountains, from Lake Superior.

The cost of this project, and of the deepening of the Welland would be less than the estimated cost of the Georgian Bay canal. F. S. Spence, of Toronto, quoted the official report of the Deputy Minister of Railways and Canals to show that the deepening of the Welland Canal was now the most urgent of water transportation needs of the country.

Mayor Francis King, of Kingston, secretary of the Lake Marine Association, declared that he had never heard a vessel owner in Canada declare in favor of the Georgian Bay Canal project, as compared with an improved Welland Canal. Mayor Campbell, of St. Catharines, and Mayor Oliver, of Toronto, also spoke briefly.

ASTOR YACHT SAFE. Message From Owner Ends a Nineteen Days' Search. New York, Nov. 24.—The Astor yacht puzzle is solved. Mail from Col. John Jacob Astor and his party reached New York to-day on the Inular Line steamship Harry Luckenbach, which sailed from San Juan, Porto Rico, on Nov. 17. On that date an officer in the Light House mark came aboard the Luckenbach with the mail just before the latter sailed for New York. This officer told Capt. James Dalton, of the Luckenbach, that the Nourmahal was to sail next for Cuban ports. According to Capt. Dalton, the Nourmahal was safely at anchor.

TEA TABLE GOSSIP.

A second-hand overcoat was stolen from in front of 159 James street north yesterday.

The first of a series of four lectures under the auspices of the Hamilton Teachers' Institute, by Prof. Earl Barnes, of Philadelphia, will be given in Centenary lecture hall to-morrow evening.

The annual exhibition of the Hamilton Camera Club will open in the museum, Library building, to-morrow evening, and will continue every evening and on Monday evening for the rest of the week, with a lantern slide exhibition on Monday evening.

Mrs. Barnes gave a delightful progressive euchre party on Tuesday evening, eight tables. The dainty prizes were won by Mrs. Morrison and Miss Douglas Irvine, Mr. Jack Mason and Mr. Lumsden. The supper table looked prettily with their many shaded lights and American Beauty roses.

THREE WILLS. Many Requests Made by the Late M. S. Quimby. The will of Rebecca E. Quimby has been entered, by W. A. H. Duff and W. G. Moore, for probate. The total amount of the estate is \$11,792.58, composed of household goods, \$200; mortgages, \$2,018.80; cash, \$353.74; cash in bank, \$1,365.08; houses, 22 Vine street, \$2,800; 17, 19, and 21 MacNab street north, \$5,100; 151, 153 and 155 Caroline street north, \$2,800. It is divided as follows: W. G. Moore gets 22 Vine street, one-third residue, \$2,000, household goods, \$60; Mrs. W. G. Moore, household goods and watch valued at \$30; Barbara A. Duff, cousin, \$2,065; Louisa Maguire, niece, \$14; Frank Bradley, nephew, \$672; Alfred Brown, nephew, \$5; Almira H. Hamilton, cousin, \$20; W. A. H. Duff, \$1; Maggie Maguire, grand-niece, \$667; Charles Bradley, nephew, \$667; Henrietta Sherman, niece, \$1,000; Rev. A. E. Mitchell, \$100. Litigation is probable.

THE WEATHER. FORECASTS—Fresh northwest to east winds, generally fair; Thursday fresh east and south winds, partly fair, higher temperature, light local showers of snow or sleet. The following is issued by the Department of Marine and Fisheries: Temperature, 8 a.m. Min. Weather.

Victoria ... 54 42 Cloudy Calgary ... 10 2 Cloudy Winnipeg ... 28 24 Cloudy Port Arthur ... 34 26 Cloudy Toronto ... 28 14 Cloudy Ottawa ... 24 66 Fair Montreal ... 28 10 Fair Quebec ... 24 16 Cloudy Father Point ... 34 12 Fair

WEATHER NOTES. Another marked depression is developing off the middle Atlantic coast promising a continuance of the stormy conditions in the Maritime provinces. The western depression remains almost stationary but it is causing strong winds and snow as far east as Lake Superior.

Washington, Nov. 24.—Western New York—Cloudy to-night, partly cloudy, Thursday. Lower Lakes—Moderate to brisk north winds, partly cloudy to-night and Thursday, warmer Thursday on western Erie.

Following is the temperature for the past 24 hours, as registered by Parke & Perke: 9 a. m. 26; 11 a. m. 30; 1 p. m. 30; lowest in 24 hours, 18; highest in 24 hours, 30.

RUNAWAY TRAIN. Plunges Over Embankment and Kills the Engineer. Pottsville, Pa., Nov. 24.—A Pittsburg and Reading coal train got beyond control of the brakes while descending the heavy Frackville grade, on the Broad Mountain, from Frackville to St. Clair, early to-day, and dashed down the mountain at a speed of more than a mile a minute with the whistle tied down to give warning along the road for five miles ahead. After running about four miles the engine jumped the rails near Broad Mountain station, and plunged over the embankment, followed by the 28 steel cars, all loaded with coal. The engine turned over and buried Engineer George A. Ammon, of Pottsville, beneath it, crushing out his life. Other members of the crew were dug out of the wreck of twisted steel and piled up coal badly hurt, but alive.

JAILED THEM. Zelaya Imprisoned U. S. Men Who Did Not Subscribe. New Orleans, La., Nov. 24.—A cable from Panama to-day says that Edgar S. Harris, of Columbus, Ohio, a commercial traveller in Central America, declares that several Americans are in jail at Managua and other places in Nicaragua. Every American in business in Nicaragua who refused to contribute to the war fund levied by Zelaya was promptly arrested and thrown into prison, Harris says. A few Americans bought their way out of jail by paying the price demanded. Harris says it is unsafe for an American to appear in the section of Nicaragua controlled by Zelaya.

MASHER FINED. \$10 and Costs For Trying to Speak to Young Lady. Toronto, Nov. 24.—In the police court to-day Richard McGregor admitted he had followed a young lady and tried to speak to her on the street. "We'll have to stop that sort of thing," said his Worship, as he imposed a fine of \$10 and costs of fifty days in jail.

GOODS WE ARE PROUD OF. We have the very finest raisins, currants, lemon, orange and citron peel, flavoring extracts, spices, etc.; Cadbury's chocolates in fancy boxes make a handsome, inexpensive gift at the same time most acceptable gift. Call and see our stock and obtain our prices before ordering elsewhere—Peebles, Hobson Co., Limited.

WIRES WORKING. New York, Nov. 24.—The cable companies reported to-day that communication with all West Indian stations has been re-established.

PROFESSOR'S LOVE STORY. Manager Hooley is showing at the Colonial to-day and to-morrow a film which has not been surpassed in this city for pathos and romance. It depicts the Professor's Love Story, which is well known by all followers of the drama and with millions of stars hold on the affections of the people since it was produced many years ago. Three other films, of an amusing character, will also be supplied, while Miss La Vere, George Drennan and Baby Gamble will introduce new songs. Leader Levy has selected an excellent programme of incidental music for the orchestra, made up of some of the more popular airs from the most popular grand and comic operas.

Be "From Missouri." Let us show you—don't be uneasy who stands the test. That falls on certain Montreal houses. Such qualities and prices are quickly appreciated. \$18 suits and overcoats \$12.99; \$15 suits and overcoats, \$9.98.—Fralick & Co., 13 and 15 James street north.

NEWSPAPER MAN DEAD. Toronto, Ont., Nov. 24.—Word reached here to-day of the death of W. J. Grigg, B. A., B. Th., a graduate of McMaster University, at Calgary, where he lived, a member of the editorial staff of the Calgary Herald.

American's Wires. The telephone and telegraph wires of the United States would encircle the earth at the equator more than 600 times.

168 BODIES DISCOVERED.

(Continued from Page 1.)

fortified themselves against hunger, thirst and the supposedly lesser danger of gas that naturally would be generated after a few days' imprisonment.

The fans fashioned by the men they asserted, were crude, but would have dispelled the gas formed in small quantities, and have given them enough fresh air to sustain them for weeks. With the reversal of the fans, they asserted, the deadly gas forming in the second gallery, and creeping out of the escape shaft, went into the lower level and the men were suffocated before they had opportunity to seek pockets or protection against it.

YOUNG MAN'S DIARY. Cherry, Ill., Nov. 23.—A diary was found to-day in the clothing of Samuel D. Howard, 21 years old, whose body was found in a pocket of the mine yesterday. The diary started on Nov. 13, the day the fire was begun, and covers a period of two days, describing something for life until blackdamp ended the weird tale, written with a pencil on loose leaves of an account book. The diary follows:

"Awoke at 10.30 o'clock yet. By Sam D. Howard. Brother Alfred is with me yet. A good many dead mules and men. I tried to save some, but came almost losing myself. If I am dead, give my diamond ring to Mamie Robinson. Henry can have the ring I have in my good pocket. The only thing I regret is that my brother Alfred, sixteen years old, could not help me. My mother out after 1 a.m. dead and gone."

"I tried my best to get him out, but could not. I saw Jim Davidson and Steve Timke lying along the road and could not stand it any longer. It is 11.05 o'clock and the air is fine, but sometimes it is so bad it almost puts a fellow's light out. It is something fierce to see men and mules lying down all over like that. To sleep from thinking I would write these few lines. There is rock falling all over. We have our buckets full of water, some air, and we drink it and bathe our heads with it. 3 o'clock and poor air and blackdamp."

"It is 4.15 o'clock. Change of place. Number of men tried to get out and could not get back. 7.50 o'clock, tired, hungry and sleepy, but could stand quite a bit of this if I could get out of this hole."

"Now 7.50 o'clock in the morning. This is Sunday. There is no air. We fanned ourselves with the lids of our buckets. Blackdamp coming both ways. 10.25 o'clock. We gave up all hope. We have done all we could. The fan had better start above soon. I think I won't have strength to write pretty soon."

"If they can't get us out we will make fans ourselves. We take turn at the fans. We have three of them going."

"Now 27 to 3 p. m. and the blackdamp is coming on us."

"Now 11 to 4 p. m. Dying for the want of air. We have six fans moving. One fan after another, fifteen feet apart. It is 25 after 10 p. m. Sunday evening. We all had to come back. We can't move front or backwards. We can stand it with our fans until Monday morning."

"At 25 after 2 a. m. Monday morning. Am still alive. We are cool, hungry, weak, sick and everything but dead."

"At 9.25 a. m. Monday morning. Still breathing. Something better turn up or we will soon be gone."

"At 16 to 1 p. m. Monday. The lives are going out. I think this is our last. We are getting weak."

The men evidently were all killed by blackdamp late Monday afternoon. Governor Deneen to-day placed Hector McAlister, a mine inspector, in charge of the exporting work. Officials of the United Mine Workers had wired the Governor asking him to appoint a practical man to take charge of the work.

Fine Leather Goods

For Ladies' Use

Our stock of Leather Goods for ladies' use is particularly exclusive. Most of the Hand Bags, Purses, and other novelties are not to be found in other stores, for they have been made up specially to our own order.

Glad at any time to show samples. People are welcome in this store to come in and look through the stock. There's no obligation to buy because you look.

ROBERT DUNCAN & COMPANY

Phones 909-910. James and Market Square.

THE WEATHER.

FORECASTS—Fresh northwest to east winds, generally fair; Thursday fresh east and south winds, partly fair, higher temperature, light local showers of snow or sleet.

The following is issued by the Department of Marine and Fisheries: Temperature, 8 a.m. Min. Weather.

Victoria ... 54 42 Cloudy Calgary ... 10 2 Cloudy Winnipeg ... 28 24 Cloudy Port Arthur ... 34 26 Cloudy Toronto ... 28 14 Cloudy Ottawa ... 24 66 Fair Montreal ... 28 10 Fair Quebec ... 24 16 Cloudy Father Point ... 34 12 Fair

WEATHER NOTES. Another marked depression is developing off the middle Atlantic coast promising a continuance of the stormy conditions in the Maritime provinces. The western depression remains almost stationary but it is causing strong winds and snow as far east as Lake Superior.

WIRES WORKING.

New York, Nov. 24.—The cable companies reported to-day that communication with all West Indian stations has been re-established.

EXECUTOR AND TRUSTEE

This Company may be appointed executor and trustee under your will, thus securing a permanency of office and absolute security, such as no private individual could give, at an expense which is no greater than occurs when private individuals are chosen in similar capacities.

Notices of Births, Marriages and Deaths which are inserted in the Daily Times also appear in the Semi-Weekly Times. 50c first insertion; 25c for each subsequent insertion.

BIRTHS.

THOMSON—On Tuesday, November 23rd, at 92 James street south, to Mr. and Mrs. James Thomson, a son.

DEATHS.

GARTLAND—At his parents' residence, 161 Catharine street north, on November 23rd, 1930, Frederick, eldest son of Mr. and Mrs. James Gartland.

Funeral Thursday at 8.30 a. m. to St. Mary's Cathedral, funeral service by Rev. J. J. O'Connell. Friends will please accept this intimation.

BANK OF HAMILTON

Dividend Notice. Notice is hereby given that a dividend on the capital stock of the bank of two and one-half per cent. (being at the rate of ten per cent. per annum) for the quarter ending 30th November, has this day been declared, and that the same will be payable at the Bank and its branches on and after 1st December next.

The transfer books will be closed from the 23rd to the 30th November, both inclusive. By order of the board, J. TURNBULL, Cash.

Toronto Capitals Defaulted to Alerts.

Last night at a meeting held in Toronto the Capitals decided to default their game to the Alerts. The Alerts and Tiger Cubs will play off for the junior championship at the Cricket Grounds next Saturday afternoon.

THE CHANCES OF LIFE.

What They Are at Various Ages and How They Decrease. After we are dead, it probably will not concern us whether we died at 20 or 50 or 90, but just now most of us are intensely interested in the matter, and being average persons in sound health, we can figure out with certainty just what our chances are of reaching any particular age.

If we are just 20 years of age, our chance of living to or beyond 30 is nearly 1 to 1; of living to be 40, 5-8 to 1; to be 50, 3 to 1; to be 60, 1-2 to 1. Of living to be 70 we have less than one chance in 2; to be 80 less than one chance in 5; to be 90, less than one chance in 100.

If we have reached 30, our chance to reach 40 are nearly 1 to 1; to be 50, nearly 4-1 to 1; to be 60, 2-1 to 1; to be 70, 4-1 to 1; to be 80, 1 chance in 100; to be 90, 1 chance in 100.

The average man of 40 has 8-5 chances to 1 of reaching his fiftieth birthday, 2-7 chances to 1 of attaining 60, five chances out of 10 of reaching 70, one chance in 5-8 of reaching 80, and one chance in 100 of becoming 90.

Having been lucky enough in all the drawings up to 50 years, the average man has a 7-8 chance to 1 of becoming 60; to become 70, the chances are 1-14 to 1 in his favor; to become 80, he has but one chance in five, and to become 90, one chance in a hundred.

If already 60 the average citizen has two chances to one of becoming 70, one chance in four of becoming 80, and one chance in 45 of reaching 90.

The man of 70 has three chances in eight of becoming 80 and one in 50 of becoming 90.—Harper's Weekly.

Ancient Mines in Asia.

Most portions of Asia Minor are believed to be rich in mineral deposits. Some few mines have been worked and proved to be highly remunerative, but most of the mineral wealth of the country remains undeveloped. According to a recent American report, the consular district of Trebizond, which embraces the northeast quarter of Asia Minor, although many outcroppings of minerals have been found, and there are many places where, at some remote period, the ancient inhabitants of this region, or the Greeks and Romans, extracted their metals by primitive methods, they rarely went far below the surface. They left around their primitive workings quantities of ore which with modern methods of extraction would be considered worth working. Copper, iron, manganese, gold, silver, mercury, zinc, antimony, arsenic, coal and petroleum are known to exist in this district, but to what extent remains to be seen.

To Russian Village.

During his visit to Raccoonville, when free from ceremonial and political functions, the Czar found much pleasure in the company of the little Prince of Piedmont and Princesses Yolanda and Mafalda, for whom he had brought a magnificent present from Livadia.

This consisted of a model village populated by dolls dressed in Russian garb. The village is a marvel of perfection. The wooden houses or huts are provided with windows and doors which can be opened and shut, there are shops completely furnished with counters and goods, a beautiful school, and a church with a clock tower. The Czar explained to the children every detail of the wonderful toy and had a tremendous amount of fun with them.—From the London Telegraph.
