COUNTY COURT MET YESTERDAY

Judge McLatchy Compliments County for Splendid Vote to Patriotic Fund--The One Criminal Case Happily Disposed of.

The regular January Session of the Northumberland County Court opened at the Court House here yesterday.

His Honor Judge McLatchy, presiding. Before taking up the regular business, His Honor made a very appropriate reference to the great war in which the Empire was engaged, declaring that it was not a holy war, it was, at least, a just one; that it was with a feeling of pride we look up to the part which Canada is playing in the struggle, and congratulated the County of Northumberland on the noble action it had taken in voting \$30,000 to the Patriotic Fund, so that dependents of those who had gone from here to fight the Empire's battles would not be left in want. The spirit which animated such an action was a noble spirit, and time would bring its just reward.

One indictment was presented for the consideration of the grand jury, viz. The King vs. Harriman.

Harriman had been charged with unlawfully wounding one Allan Black on the 12th day of December last. The charge was investigated before Police Magistrate J. R. H. Taylor and the accused committed for trial. The grand jury returned a true bill.

R. A. Lawlor, K. C., on behalf of the defendant intimated that the defendant would plead guilty to the charge and asked His Honor to deal leniently with the prisoner. He pointed out that the crime was committed while the accused was under the influence of intoxicating liquor, that, as a soldier in His Majesty's service, he was at all times, and would continue under a certain amount of re-

straint, that he had a wife and child dependent upon him for support. He would pay the hospital and doctor's charges of the young man he had wounded and compensate him for the time he was confined. He asked that His Honor grant a suspension of sentence. The defendant pleaded guilty to the charge and His Honor, after giving him some sound advice, and pointing out that, if, within the time specified he should violate the condition of his bond, he would be sentenced to three years in the penitentiary, allowed him his liberty on the condition that he furnish bonds in the sum of two thousand dollars that he keep the peace for the space of one year.

There being nothing else before the court, adjournment was made sine die.

The Grand Jurors summoned were: John A. Fleet, Wm. Moran, C. J. Cassidy, J. K. O'Brien, Peter Archer, Edward Gallivan, Claude Brown, G. T. O'Brien, Robt. Irving, V. A. Danlennan, H. H. Carvell, F. E. Neale, Chatham; J. W. Vanderbeck, Miller-ton; M. R. Benn, Jos. McKnight, Jas. Stables, R. J. Gill, D. J. Buckley, H. R. Moody, John T. Morrissy and John C. White.

The Petit Jury, which fortunately had no work to do were: Geo. Engleish, John Edmunds, Jm. Fitzpatrick, Cyrus Williams, Wm. T. Lacy, Arthur Williams, Alex. Dick, T. M. Merritt, L. G. Babineau, Arthur Irving, W. H. Baldwin, John Irving, W. B. Tweedie, Wm. Joinson, D. Baldwin, A. P. Arsenault, P. B. Perry, W. J. Henderson, F. Phillips, Geo. M. Hayes, and Theo. Lynch.

That was the last seen of him till his body was found on the track, and it is presumed he attempted to jump off when nearing Andrew Street crossing, and was thrown back from a snowbank or had his foot caught in the ladder of the car and was drawn under the wheels of the train. The body was dreadfully mutilated.

St. John Children's Aid Society

A Creditable Institution Doing a Good Work and Deserving of Support.

The Children's Aid Society of St. John, (A. M. Belding, pres.; Rev. W. R. Robinson, sec.) is incorporated and exists to help neglected or dependent children. It has power to take charge of such children if necessary, by legal process, and place them in foster homes. Its object, however, is not to separate children from their parents, except in cases where the latter refuse to accept parental responsibility. Do you know of any case of a neglected or dependent child or children? If you will notify the Agent of the Society, the case will be investigated at once. During the past three months sixty-three cases have been dealt with by the Society. One was placed in an adopted home in the country, one was placed in the Home of the Good Shepherd, one sent to the Evangeline Home, one to Maritime Home for Girls, Truro, N. S., five paroled to the Society in care of their parents, two returned to their home in Cape Breton, N. S. Forty-eight are under the supervision of the Society and the home conditions are bettered in every particular. All of school age are now in the public schools. In every case parents have been warned by the Court to pay more attention to the welfare of their children. It is the intention of the Board to establish a permanent Detention Home under the management of the Society. This will result in a great financial saving, and give the Board a more thorough supervision of its wards. The officers, who serve without salary, will furnish any further information needed. Public assistance is solicited.

Baptist Convention Closes Sessions Encouraging Reports From the Churches of the District.

The meetings of the 16th District United Baptists here last Wednesday were very successful.

Additional delegates present, who had not attended on the previous evening were:

St. John—Rev. J. B. Ganong, Supt. of Home Missions. Whiteville—Miss Agatha Forsythe Lower Derby—Mr. and Mrs. Malcolm Amos. Mrs. Annie Clouston and Misses Jessie and Florence Lyon.

In the morning session, the Devotional exercises were conducted by Rev. G. A. Wasson of Grandville. Reports were received from the various churches. Since the last meeting in June, over 100 have been added to the churches by baptism, on confession of faith. The most noteworthy work has been done on the Whiteville—Little South West circuit, in which there were 82 baptisms, during the short term of less than a year. Rev. H. E. Allaby has been in charge.

Newcastle church reports progress. Financially it has become self-supporting and is placed on a sound basis. In addition, a valuable building site has been bought and nearly all paid for. There has been an increase in church membership, an increase of attendance at the divine services and a deepening of spiritual life. A new church has been started at Bathurst, self-supporting from the first. There is a large church interest in Campbellton, where Rev. Wellington A. Camp, late of St. John, has recently settled.

There is a promising field in Doaktown under Rev. J. C. Wilton, late of New Glasgow, N. S. Two valuable papers were given. First was "Is a Revival Normal to the Christian Church?" by Rev. E. A. Kinley of Bathurst. Second—"How can we have a revival?" by Rev. G. A. Wasson.

In the afternoon the following papers were read and discussed. How can we carry on a District wide revival?—by Rev. M. S. Richardson

The Revived church—by Rev. J. C. Wilson.

A very helpful conference followed on "How to realize a revival." It was conducted by Rev. J. B. Ganong Wednesday evening devotional exercises were led by the president, Rev. M. S. Richardson, assisted by Rev. Mr. Wasson.

Rev. Mr. Ganong gave an address on "Pentecost and After, and was followed by Rev. Mr. Allaby, who preached a sermon on "What Jesus Christ paid for your soul."

During the evening a fine solo was rendered by Mr. Geo. Mott of Bathurst, and an excellent duet by the Misses Lyon.

Next meeting (the annual) will be in Doaktown on June 28 next.

Much regret was felt at the illness of Rev. A. K. Dunlop of Upper Blackville, who was unable to attend.

A NOTEWORTHY SPEECH

The members of the United States Senate were treated to some remarks last week from one of their number, Senator J. S. Williams, that should be taken to heart not only by the Legislators themselves, but by the American people generally.

The indignation which the Senator expressed was amply justified. Those noisy countrymen of his who insist on war with Mexico, and the giving of grave offence to Great Britain, remain dumb as the proverbial oyster in respect of Germany's cold blooded murders upon the high seas, and persistently refuse to make any preparations for a possible war.

The chief interests in Senator Williams' speech, for Canadians, is the manner in which he referred to the relations between the Allies and the United States in the matter of the proposed absolute blockade of Germany. On this subject, his views are admirable. He urges that the rights of neutral nations invariably and inevitably suffer through the action of belligerents in war; that great powers at war are not going to accept the dictation, in vital affairs, of a legislative body backed only by a small army and navy; that a war being waged for the safety of civilization is not going to be ended by the dictum of a nation intent on bullying which has however nothing to bully with.

George Watt said less than \$25,000 was no good. If they wouldn't vote it, let them adjourn and consult their constituents. He didn't believe that one of them would live to come back if they refused to vote this money—they would die of remorse. Chatham and Newcastle would pay half of it cheerfully. Chatham people, 975 of them, had paid \$7,500, and the outside parishes of the district \$1,000.

Mr. Watt said all but \$2,000 that was granted from the Labor Day picnic. Mr. C. J. Morrissey said nothing had naturally or unreasonably, be expected to support the campaign for milk for the German babies. Strange to say, however, she does not. On the contrary, she points out, that the Huns use a by-product of milk in making some of their deadliest explosives. It is Krupp's little babies that are crying for food.

Will we ever reach the limits of German deceitfulness and guile? THE CHIEF NEED OF A FARM

Referring to the campaign for increased production along agricultural lines, the first thing to be looked after is the fertility of the soil. In fact, fertility is the first word in farming. It is the first consideration in placing a value on new lands; it is the first mentioned when old farms are sold. It is the first problem that confronts the beginner as well as the expert who takes up the cultivation of new crops on new fields.

GERMANY'S LATEST MAIL

Germany is now making a great outcry because the brutal British Government has refused to allow a huge consignment of milk from the United States, to enter that country. The German people are asking the world what it thinks of this evidence of the cruel enemy's character, and they have been shaking their heads over the perversity of human nature that can condemn German babies to hunger and thirst.

Word pictures have been painted of those suffering infants and those sentimental elements in the United States which have tears to shed have been invited to shed them now. The grim revelation, say the Hun baby-killers, is that human nature is much the same all the world over. Every nation at war is prepared to sacrifice little children upon the altar of military advantage.

Mrs. Emmeline Pankhurst, who has now arrived in the neighboring republic to lecture in the interests of the sufferings Serbs, might, not un-

Northumberland County Council Annual Meeting

(Continued from page 1) assure them that the brave acts of those dead heroes will ever be remembered by the people of their native land.

Coun. Parker moved that Chatham and Newcastle Patriotic Committees be heard. Carried. Mr. W. A. Park said there had been some misunderstanding in reference to debentures. It would take some time, probably till July, to get the money. The committees here didn't handle the money but sent it to Ottawa. Lists of persons who should receive allowances were sent forward, and checked by the Militia department and cheques sent here for the amount to be paid.

People get tired of raising money by subscriptions, donations, etc., as some pay nothing and others pay liberally. The proper way was to assess it on the property of the county. If we did not raise the money the allowances would come from Ottawa all the same, and Northumberland would be in the position of a poor county that didn't hold up its end. What would a bond issue amount to? It would increase taxes only six per cent. The bond issue was small. This was to assist the wives and children of men who are fighting at the front. He had every faith in their loyalty and intelligence and left it with them. If it were not voted we would be pointed at as a county accepting charity instead of keeping its end up.

Hon. John Morrissey said we wanted this money. Some men say the wives of soldiers are extravagant. Why didn't such men go themselves and fight? The fair and reasonable way was to assess the people. Let us be loyal to ourselves as men. Will the County say by its action that it will not aid in protecting the wives and the little ones of the men who are fighting to keep the Germans out? He favored issuing bonds to the amount of \$50,000 extending over forty years.

George Watt said less than \$25,000 was no good. If they wouldn't vote it, let them adjourn and consult their constituents. He didn't believe that one of them would live to come back if they refused to vote this money—they would die of remorse. Chatham and Newcastle would pay half of it cheerfully. Chatham people, 975 of them, had paid \$7,500, and the outside parishes of the district \$1,000.

Coun. Vanderbeck asked if all of the \$7,500 had been subscribed. Mr. Watt said all but \$2,000 that was granted from the Labor Day picnic. Mr. C. J. Morrissey said nothing had

Will we ever reach the limits of German deceitfulness and guile? THE CHIEF NEED OF A FARM

Referring to the campaign for increased production along agricultural lines, the first thing to be looked after is the fertility of the soil. In fact, fertility is the first word in farming. It is the first consideration in placing a value on new lands; it is the first mentioned when old farms are sold. It is the first problem that confronts the beginner as well as the expert who takes up the cultivation of new crops on new fields.

The quickest and easiest way to get fertility is, of course, to buy it. It can be had in bags in the form of commercial fertilizer or by the carload in the form of animal manure. But apart from the fact that this method of fertilization needs considerable cash capital, it does not satisfy all the needs of the land. Text books tell us that a fertile soil is a mixture of mineral and vegetable substances teeming with germ life, fermenting with innumerable minute plants and chemical changes, and we learn therefrom that a soil needs more mineral plant foods to enable it to grow the maximum crops.

It has long been known that legumes and green manures ploughed under are beneficial to soils, but it is only recently that it has been established that these green manures will build a soil up permanently and keep it up at the lowest cost. To plough in green crops is not, however, a cure all, and will not do away with the need for minerals entirely. But it provides a satisfactory means of bringing up land slowly, but surely, at a minimum cost. It is a method that our farmers should adopt on a much more extensive scale than is at present the case.

been paid by his committee as expenses. The complaint had been made that some persons got allowances they did not deserve. The committee should be given the names, so they could inquire into the facts.

Rev. S. J. Macarthur presumed that all were seized with the seriousness of the situation, as the Government had called for 250,000 more men. If he couldn't go and fight he ought to be willing to pay. Those who paid got off cheaper than those who went to the front. The man who wouldn't pay or fight was no man at all. It had been stated that, if the men were not got voluntarily, there would be conscription. The prospect was that the war would be still raging a year hence. In two months from now the call of the county for this fund would be two or three thousand dollars a month. We hadn't sacrificed. The money that had been given amounted to nothing as a sacrifice. About 60 per cent of the men who go suffer casualties. He would willingly pay his share of any sum that might be voted. If the councillors would consult the public they would be told. "Put on a tax of \$25,000 and we will pay it." We couldn't let these families go without assistance.

Rev. Father Dixon said there was a pleasing unanimity among all the speakers. The amount needed was not large. In a few years our population would be quadrupled. When we consider the sacrifices that are made, by going to the front, while we stay at home, we should contribute generously. The amount to be paid by each one was trifling. It appeared to him that few persons objected to the making of the proposed contribution. Contribute generously. He would be delighted to see a contribution that would be worthy of the Council. He felt that there would be no objection to a bond issue. When

the victory had been won those who had not fought could say that they contributed to the cost of maintaining the families of those who did. If the families were not helped from the Patriotic Fund they might become burdens on the community instead of living in the fullness and plenty they deserved.

Rev. Mr. Richardson said England was spilling blood, the United States was spilling ink, and we should spill dollars.

Hon. J. P. Burchill said all the County Councils had voted sums to the Patriotic Fund, and the only question here was to approach the subject on a business basis and act accordingly. York had made an assessment of \$12,500. It would be a better way to issue bonds. The collections that had been made were unfair. All had not paid their share. Posterity would pay part of the bond issue, and we were fighting not only for ourselves but for those who are to come after us.

Coun. Watling regretted that the speakers here today had not got around to the different parishes. He felt like giving them a vote of thanks. Mr. J. E. Connors said Mr. Park had made a lucid financial statement, showing the absolute need of the grant and the easiest way of raising it. Mr. Connors read a statement showing what each parish would be taxed yearly on a \$50,000 bond issue for 40 years. The collectors would be met, if they went out again, with the questions, "Why didn't this man and that man subscribe? Why not go to them and not to me?" Ninety per cent of the people would vote for the bond issue that was asked for.

Mr. Watt said, in reply to Coun. Watling, that Chatham would have sent speakers if Mr. Watling had asked for them. Coun. Burchill said the only question was as to the best manner of levying the tax, and he moved that it be referred to the Committee of the Whole. This motion passed and the Warden left the chair.

Coun. Swinn was called to the chair, and said it was a new thing for Northumberland to be at war. There had been nothing like this war in history. Blissfield was getting nothing from the Patriotic Fund, but it was willing to pay its share towards the support of the families of the men who are fighting for Blissfield. If the fund had not been distributed equitably it was our fault in that we had not given the committee proper information. A bond issue was the business way of doing the business. The taxation would not be felt. Blissfield's share would be \$42. He had personally paid more than that. While thousands of our people are fighting and shedding their blood in the trenches in Flanders, we should

### DOAKTOWN

Jan. 24—The career of Daniel Mahoney passed to his rest on Cain's River last week, is worthy of more than a passing glance. He was born in Ireland in the teens of the last century, and moved to this country, with his parents when he was but a boy.

About the year 1850 he married Mary McGlaulin, of Cain's River, where he settled and lived until the time of his death and carried on a small lumber business and also some farming. In 1870 his wife died, leaving him with nine children, the oldest of which was about 18 years.

Of course, this was a very hard place to be left in, and most men would have given up, but he, being of an optimistic turn of mind, considered everything for the better, so he procured a housekeeper, and after a while things began to brighten up.

After a couple of years he was again doing quite a profitable lumbering business, and his oldest son struck out lumbering for himself. In the fall of 1873 he had three boys at home big enough to go to the woods, and they built a camp on the banks of Sabby's river, 4 miles from his house, where they were getting some logs, but, gentle reader, just think of it, on the 1st day of March, 1874, when this same Daniel Mahoney went to the camp, he found that it had been burnt the night before and his three sons and another man burnt up in it, leaving nothing but a few smouldering ruins. This was enough to unnerve any father, and discourage the stoutest heart. He was then left with the oldest boy, who was away from himself, and five small children at home. He appeared to make a stepping stone of every stumbling block, and again started out anew, and commenced lumbering again, and did a thriving business until about twenty years ago, when he retired to his farm where he lived with the housekeeper ever since. He is survived by three sons and two daughters, all of whom are away in the West.

### GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

### County Council

(Continued from page 4)  
not hesitate about paying a few dollars.

Coun. Burchill moved that a bond issue of \$25,000 be made extending over forty years, at 5 per cent. for the Patriotic Fund.

Coun. Baldwin seconded the resolution.

Coun. Anderson asked if anyone could say what other counties were doing.

Coun. Doyle felt that the Council was bound to do something. He did not altogether approve of a bond issue. Why not raise the money by voluntary subscription? He was opposed to conscription. If the money were not all needed for the purpose what would be done with the balance?

Mr. Park said it might be paid by instalments as required.

Coun. Doyle said \$40,000 had been paid out as expenses by one committee. If he could be guaranteed that none of this money would go to the people who handle it he would withdraw his objection.

Coun. Vanderbeck said Derby contributions to the different funds had amounted to \$2,100.

Coun. Anderson said the outside parishes had contributed liberally to Red Cross and Belgian Relief Funds.

Coun. Doyle spoke of the large amounts that had been raised in the parishes by concerts, etc., etc., for patriotic purposes, and no mention was made of his little bit.

Coun. Schofield said Blackville had sent hundreds of dollars to the men at the front.

Coun. Parks said Southesk had given about \$200, and its women had spent days and nights in working for the comfort of the soldiers. One of his blood was among the first to enlist. He would take his stand as a man and vote for a bond issue. It would be only \$67 a year on the parish of Southesk. The rich man of the parish wouldn't give a dollar to the collectors.

Coun. Chaisson wanted to know what would be done next year if the war kept going. Would another issue of bonds be asked for to be a burden on our children?

Coun. Lamont believed it to be our duty to make a sacrifice. He was ready to do his part in helping the families of soldiers. We needed some of the Scots' "Hae w' Wallace bled spirit." The Councillor recited the poem.

Coun. Anderson asked if the Legislature was going to do anything for the Fund.

Hon. Mr. Morrissy said he was sure that the Government would vote \$250,000 rather than be beaten.

Coun. O'Shaughnessy said he was willing to do his little bit by helping to collect the money. Let us vote to assess the county for a certain sum, but he was not willing to leave a debt to our grand children.

Coun. Schofield believed in an issue of 40 year bonds.

Coun. Hayes saw nothing wrong with the resolution, only that it should be \$30,000 instead of \$25,000.

Rev. Mr. McArthur read a list of the beneficiaries of the fund.

Coun. Sinclair had met with a surprise. Money had been given to the claimant without reference to the local relief committee.

Mr. C. J. Morrissy said every application for relief was signed by some member of the local relief committee.

Warden McNaughton said it was a serious question and he was glad that the Council was taking it in a serious way. We would have to get down in our pockets and get the money. He was willing to go back to his parish and say he had voted for \$30,000. The money was wanted—let us vote for it.

Coun. Lamont said the only reasonable and satisfactory way was to make a bond issue.

Coun. Baldwin was in favor of the bond issue. He had two boys at the front and wanted no patriotic fund assistance, but there were many wives of soldiers who did need it.

One of his boys had been wounded, and was working in London with Col. McCully's son. His son had written saying he would like to get a commission, but he (Coun. Baldwin) had no political pull.

Coun. Anderson said the feeling against the resolution was largely based on the giving of commissions to so many who had not shown themselves to be worthy of them.

Coun. Schofield proposed to amend by making the resolution for \$30,000.

Coun. Burchill accepted the amendment.

Coun. Ryan was surprised to find that he was getting more favorable to a bond issue. He had heard (Continued on page 8)

**THE PLIGHT OF GERMANY**  
INVISIBILITY OF AIR-SHIPS

Among the multitude of requirements of the European conflict one of the greatest has been that of invisibility of the foe. Everything must be made to be kept out of sight as far as possible. This has been the rule on land, on the water, and in the air. On the land the soldiers were hidden from their foes by the multitude of trenches or natural formations of the country. The guns, field pieces, and all large ordnance were housed in large underground chambers, or concealed by shrapnel out and skillfully arranged. In the air, the aeroplanes were hidden by being placed in large deep trenches.

The scene painters were organized in France to create suitable backgrounds where other methods could not be used. Some very funny incidents resulted from the illusions to which they resorted. In one case, it was desired to shift a considerable body of French troops from one point of the line to another along a road which was in full view of the enemy. The scene painters painted an exact copy of stretch of the road and it was stealthily erected at the roadside nearest the German lines. It completely hid the real road. As the Germans watched from a distance it was apparently a peaceful stretch of country road. But, all the time, a large body of French troops were marching freely along behind the scene to strike the Germans at an unexpected point. Watering carts were stationed at intervals to wet down the dust raised by the troops, so that the Germans would not see the rising dust clouds and suspect the ruse.

Somewhat the same tactics have been resorted to in the case of warships and other sea craft. Until this war, the fighting craft of all countries in war, were usually painted simply a dull gray which rendered them invisible at sea, it was thought, at the shortest distance. In the present war, the scene painters have painted sea waves, in effect, on the hulls of most of them. At a short distance they seem to merge right into the sea and become completely invisible.

But, how could you make an aeroplane, right over your head, invisible? That was a big problem. In the first place, the body was painted a very light bluish white that most closely

**PAPER MONEY**

The Bank of England is the only bank which always issues plainly printed white paper bank notes, whatever their value. Other countries use printed notes in colors.

The Russian notes are printed in all the colors of the rainbow. For the one-color Russian notes, blue, yellow, or bright purple inks are most favored. The 100-franc note of France is printed in four colors—blue, black, and yellow.

German notes are mottled, while those of Austrian banks are extremely vivid in color and are printed in two languages, Slav on one side, and German on the other.

A Swedish five-crown note is a little yellow thing, while that for 800 crowns resembles a big blue poster, for Swedish notes vary in size according to their value.

Everyone has heard of the American and Canadian "greenbacks," so called from the green ink with which they are printed.

**WINTERING BEES**

How Outdoors May be Prevented From Harming Them

In many places where the winter is moderately cold bees are now being wintered outside in wintering cases constructed to hold four hives each, each pair of hives being placed back to back. There is a space of two or three inches between the sides of the case and the hives, and in the colder regions underneath also, and ten inches above the hives; all these spaces being filled with plane shavings or other insulating material. The bees are allowed to fly through small entrances made in the sides, and ventilation is provided under the roof, which consists of light boards covered with waterproof sheeting. The bees will come to no harm if the entrances get buried under soft snow. For wintering outside, it is important that the apiary be well sheltered from wind by, for instance, evergreens or a high board fence.

**Might Have Been Better Put**

At a meeting in Wales at which Mr. Lloyd George was to speak, the chairman, a Welsh deacon, got up at the commencement of the proceedings and said: "Gentlemen, I have to introduce to you tonight the Member for Carnarvon Boroughs, but I have come to reply to what the Bishop of — said about Welsh Disestablishment. In my opinion, gentlemen, the Bishop is one of the biggest liars in creation, but, thank Heaven, in Mr. Lloyd George we have a match for him to-night!"

Mr. Lloyd George laughed so much at his chairman's remarks that it was some moments before he could begin his speech.

**Farm on Small Scale**

Advice to Quebec farmers is given by Frere Chrystofele, a priest, of Levis, as follows: "I believe that if our farmers would change their ambition to cultivate on a grand scale into one to cultivate well the results would be very different from what they are. When I hear farmers speak of a good harvest with a yield of 8 or 10 minutes for one minute of oats, wheat, barley, potatoes, etc., I am far from finding them ambitious; knowing by experience that a man who has the powers they would obtain double, especially if they would adopt a good rotation."

**GREAT HALIBUT CATCH**

Prince Rupert Becomes a Great Fisherman's Haven

Over half a million pounds of fresh halibut were landed at Prince Rupert, B.C., in two days. Just as fast as the fish can be packed in ice and placed in refrigerator cars, it is sent to the Eastern markets. This made seventeen car loads of halibut. Many of the ships bring in over 100,000 pounds of halibut. There is little difficulty in disposing of even these big catches, as the markets in Chicago, New York, Montreal, Toronto and other large cities now look forward to consignments of Prince Rupert Halibut, the method of transportation in refrigerator cars guaranteeing perfect condition.

**A Hint to Farmers**

It is poor policy to stall-feed horses in the winter as though they were being fitted for the Christmas market, as the inevitable result is a condition far too soft in the spring with the likelihood of sore sholders.

**MARKET GUNNERS RUIN CANADA'S GAME SUPPLY**

All Provinces Could Prohibit All Sale of Game—When Sport Becomes a Criminal Offence

The reason why market shooting is deadly destructive to wild life is not obscure. The true sportsman hunts during a very few days only each year. The market gunners shoot early and late, six days a week, month after month. When game is abundant, the price is low, and a great quantity must be killed in order to make it pay well. When game is scarce, the market prices are high, and the shooter makes the utmost exertions to find the last of the game in order to secure the "big money." When game is protected by law, thousands of people with money desire it for their tables, just the same, and are willing to pay fabulous prices for what they want, when they want it. Many a Canadian dealer or restaurateur is quite willing to run the risks of fines, because fines don't really hurt; they are only annoying. The dealer wishes to make the big profit, and retain his patrons; and besides," he reasons, "if I don't supply them some one else will; so what is the difference?"

The Trickster's Time

When game is scarce, prices high and the consumer's money ready, there are a hundred tricks to which shooters and dealers willingly resort to ship and receive unlawful game without detection. It takes the very best kind of game warden, genuine detective, tact, to ferret out these cunning illegal practices, and catch lawbreakers "with the goods on them," so that they can be punished. Mind you, convictions can not be secured at both ends of the line save by the most extraordinary good fortune, and usually the shooter and shipper escape, when the dealer is apprehended and fined. The remedy for all this miserable game-stealing, law-breaking business is simple and easily obtained. Let every Province in Canada enact a similar law to the Bayne in the United States, absolutely prohibiting the sale of wild game, and the thing is done. But nothing short of that is really effective. It will not do at all to let Provincial laws rest with merely forbidding the sale of game "protected by the Province," for that law would be full of loopholes. What earthly objection can there be in any Province to the enactment of a law that is sweepingly effective, and which can not be evaded, save through the criminal connivance of officers of the law?

Only as Food

The mental attitude of the men who shoot constitutes a deadly factor in the destruction of wild life and the extermination of species. Fully ninety-five per cent. of the sportsmen, gunners and other men and boys who kill game, all over the world and in all nations, regard game birds and animals only as things to be killed and eaten, and not as creatures worth preserving for their beauty or their interest to mankind. This is precisely the viewpoint of the cave-man and the savage.

**Another Instance -of- PROMPTNESS**

Here is another instance of satisfaction given a mail order customer of The Advocate Job Department, which is only one of many received from time to time at this office. Promptness and good work are the secrets of the success of The Advocate's Job Department; and the following letter, as a voucher, shows that even in "rush" orders careful attention is not eliminated. This letter was received from a Toronto gentleman, and was written from Windsor, Nova Scotia. We have since been advised by the writer that a large number of replies to the circular in question had been received very shortly after its circulation. Following is the letter:

Windsor, Nova Scotia,  
December 7, 1915.

Miramichi Publishing Co., Limited,  
Newcastle, N. B.

Dear Sirs:

I wish to express my appreciation of the manner in which you filled my last order for printing. As this was "rush" order, I was prepared to make allowances for imperfections in the job, but I must say that, if days instead of only a few hours had been devoted to the job, it could not have been executed in a more pleasing and satisfying style. In my opinion the circular alluded to is a well-nigh—if, indeed it is not altogether—a perfect piece of printing. Anyway it suits me perfectly. An office that can turn out such excellent printing as I consider this circular to be—should be able to please anybody.

Yours very truly,  
(Name withheld.)

The writer of the above letter, who has done considerable business in the lower provinces, has had several pieces of work done by The Advocate, and has been given entire satisfaction in all cases. It can, and will, do the same for you. You may be satisfied with the work you are receiving now, but you may be better satisfied after you have seen the class of work turned out by The Advocate. Samples of stock and prices printed will be mailed upon request. Write today.

**THE UNION ADVOCATE**

**ADVERTISING DON'T PAY**

Some merchants who do not advertise will tell you. They place their opinion above the opinion of the many thousands who do advertise because they KNOW that it pays. The trouble is those merchants do not know how to advertise RIGHT. They do not give their advt. the proper attention—they do not change often enough, and hardly know what to write when they do change them, and then blame the paper because their business does not increase. An infant will not thrive on ten bottles of poor milk in a year, nor will an advertisement increase a man's business with only ten changes in a year.

**START THE NEW YEAR RIGHT**

Look at the matter as a Business Proposition. Figure up what your business will allow you to spend, and then find out, AND MAKE CERTAIN, where you can get the best results for the amount you spend. Give your advt. the same careful attention you give to buying and there will be a pleasant surprise in store for you at the end of the year.

THE DIAMOND CIPHER BASEBALL ROMANCE By W. A. PHELON

SYNOPSIS.

CHAPTER I—Secret Service Chief Wilkins, puzzled over the theft of the Government's cipher...

CHAPTER XVIII.

Just what happened between the moment when the big negro brought out the money-belt and the moment when a full understanding of everyday affairs came back to Brockett and Solano...

nearby and the boys, blinking in the gleam, saw that they were the occupants of a dingy cell, perhaps eight feet long by five wide, and sumptuously furnished with a long wooden bench and an empty pan...

Chinaman parted two straps of the drab cloth, and showed a bunk beneath the curtains and the wall. Brockett and Solano looked up and down the room. There was no sign of their quarry.

He strove frantically to drag the giant down. Partner was giving such aid as he could to the bleeding negro. "This little brown party seems to take ye for span, an' it's meself as made a fine spook by the door. Flynn an' me was standin' in th' shadow, waitin' for ye to give the signal, when we see these two well-dressed people comin' to th' door.

She done let out one yell an' fall agin de doob.

CHAPTER XXXII. "Yes, young fellers," the sheriff continued, "you stand accused of getting some mighty valuable documents from the German gentleman. He'll be down by the next train to identify you, and, in the meanwhile, I'd just better take charge of any papers or letters you two may be carryin'.

THE YELLOW MAN LOOKED THEM OVER, AND THEY DECIDED THEY HAD TO TAKE THE PORTERS.

HE STROVE FRANTICALLY TO DRAG THE GIANT DOWN.

SOMETHING FLASHED IN THE BLUE MARK OF THE ROOM.

Don't Miss It
The Red Cross Concert, that will be put on in the Opera House shortly after Feb. 15th, by a chorus of 60 voices under the direction of Mr. A. H. Cole, is gradually taking definite shape. 35 voices are already secured, but male voices are especially needed now to make up the 60. A fine rehearsal was held Monday evening. Several of the choruses and costumes are New York's very latest. Mr. Cole is ready to receive volunteers to fill up the ranks. The affair promises to be one of the biggest musical productions Newcastle has seen for years.

Mary Pickford Again Triumphs in Universal Photoplay "Rags"
Mary Pickford, the world's foremost moving picture star, has attained most of her past screen triumphs clad in rags. It is therefore of odd interest and particularly appropriate that the latest photoplay starring this favorite idol should be entitled "Rags". This unusual story is from the pen of Edith Barnard Delano, who requires no introduction to lovers of original fiction, and the tale has been so constructed as to provide Miss Pickford with a characterization that permits of all her amazingly versatile powers of unique character portrayal.
There are many settings in the production that deserve special commendation and the transition of "Rags" from her squalid and sordid environment is accomplished in a thoroughly convincing manner.
The subject is the attraction at the Happy Hour Thursday, where capacity audiences have evidenced in an unmistakable manner their appreciation of this stirring production.

Red Cross Concert
In Opera House

A Full House Grets An Excellent Collection of Miramichi Talent.

The Red Cross Concert held in the Opera House on Thursday evening proved a grand success, every seat in the theatre being sold and many persons being forced to stand in order to hear the talented artists.
Mrs. Gerow seemed at her best, and her rich soprano voice filled all parts of the hall. On every occasion she was forced to respond to an encore.
Mrs. Malcolm of Moncton, as an elocutionist, was all that could be desired, and her imitation of the singing of different birds brought forth rapturous applause.
Mr. Chubb McLoon, who is a favorite with local theatre goers, was in his usual good form.
Miss Marion MacArthur's soloist of the Newcastle Girl Scouts, made a decided hit, and it is hoped that all these young ladies will be heard again at another concert in the near future.
The Chatham Patriotic Orchestra is a talented body of musicians, and their selections were greatly enjoyed by the audience.

County Council
(Continued from page 5)
men say that they were delighted with the speeches yesterday, but he was not delighted with some of them, as they were insulting. He was willing to vote for the grant and face the parish.
Coun. Jimmo was in favor of the bond issue. It was only right that our children should pay a share of it. Coun. Vanderbeck wanted to know how the money was to be raised when the war was over, with all our lumber lands in the hands of trust companies.
Coun. Doyle proposed that \$2,500 of it be given to the Belgians and \$2,500 to the Serbians.
The resolution carried unanimously, and three cheers were given by the spectators for the Northumberland County Council.
The Warden resumed the chair and Coun. Swim reported the resolution to the Council. Adopted.
Coun. Burchill moved that a committee of three be appointed to prepare a bill for the Legislature and control the dispensing of the money to the Canadian Patriotic Society as needed.
Committee—Burchill, Vanderbeck, Doyle.
Coun. Doyle said his amendment appeared to have been blocked out. It was not just.
Coun. Burchill moved to reconsider the adoption of the report. Carried.
Coun. Burchill moved the adoption of the report. Carried.
Coun. Doyle moved to amend by giving \$2,500 of it to the Belgians and \$2,500 to the Serbians.
Amendment lost. Report adopted.
Coun. Vanderbeck moved to adjourn till 7 o'clock. Carried.
On reassembling, Coun. Anderson moved that Wm. Bowie be paid \$8.68 for assessing, Altwick.
On motion of Coun. Watling, officers were appointed for Glenalg.
Coun. Vanderbeck moved that Coun. Chaisson be appointed to take the mover's place on the Almshouse Visiting Committee. Carried.
On motion of Coun. Parker, Derby returns passed—Everett Allison, col. rates; parish account; Geo. Vanderbeck, parish clerk, \$13; road account, \$37.26 on hand.
Coun. Vanderbeck said resolutions had been passed every year asking that jurymen's fees be raised from \$1 to \$1.50 a day, and the Government had not granted it. Jurymen were forced to sit all day and listen to lawyers at \$1 a day. The grand jurymen should be paid.
Coun. Baldwin agreed with this. Men who came here for \$1 a day did well if they got off with \$1.50 for expense.
Coun. Swim said he had placed the resolution before the Legislature and the Attorney General said it would be taken into consideration.
Coun. Watling said the Commissioner should have been asked for this before the bond issue was agreed to.
Coun. Parker reported having visited the Hotel Dieu hospital. Everything was found to be scrupulously
