"SCOTT," THE MISSING OUTLAW

Wanted for the Ardamont Mystery, Surrendered, But is Released.

LONDON, April 6.—The mysterious and long missing man known as "Scott," who was jointly indicted with Alfred John Monson for the killing of Lieut. Ham-brough, which crime has become known as the "Ardamont mystery," surrendered himself yesterday to the police.

"Scott" had been sought after by the police ever since the investigation into the death of Lieut. Ham-brough commenced, and a reward was offered for his capture. As "Scott" did not appear when Monson was tried at Edinburgh recently, the missing man was declared an outlaw. Upon this witness the whole solution of the mystery surrounding the death of the lieutenant seemed to hinge, and when Monson was tried for murder and the jury rendered a verdict of "not guilty," the police continued their search for "Scott."

In the murder trial the evidence of "Scott" would have proved of the greatest importance, as this man, known as a frequenter of race-courses, etc., was believed to have been present when the body of Lieut. Ham-brough was first found in the woods at Ardamont. In any case, on the day that "Scott" was released, the body was found in a lodging-house in Old Ford-road, East London, and the body was generally believed to have been that of the missing "Scott."

In any case, on the day that "Scott" was released, the body was found in a lodging-house in Old Ford-road, East London, and the body was generally believed to have been that of the missing "Scott."

In the murder trial the evidence of "Scott" would have proved of the greatest importance, as this man, known as a frequenter of race-courses, etc., was believed to have been present when the body of Lieut. Ham-brough was first found in the woods at Ardamont. In any case, on the

IT WAS A BIG LACROSSE GATHERING.

Annual Meeting of the T. L. and A. A.—The Team Committee Retained—The Officers Re-Elected.

The annual meeting of the Toronto Lacrosse and Athletic Association was held in Forum Hall, Yonge-Gerrard-streets, President Suckling was in the chair. He congratulated the members on the past successful season and on the big attendance at the meeting, which included such veterans as Messrs. C. Robinson and J. Henderson, the former having attended 27 and the latter 26 annual meetings.

Besides these were noticed the following among the '92 members present: Messrs. C. H. Nelson, John Masie, R. Love, J. M. Macdonald, George H. Higham, J. L. Nichols, G. S. Lyon, H. L. Howard, H. M. Peiman, J. W. Dryan, H. C. Schofield, J. A. Donaldson, Fred Kille, J. E. Bell, J. V. Gale, A. Allan, P. C. Knowles, W. E. Randle, T. W. Thompson, R. L. Walker, F. E. Phillips, G. E. Lillis, C. A. Moss, G. E. Goodrich, E. Badenach, Joseph Irving, Fred W. Garvin, C. W. Cross and S. H. Westman.

The financial statement was given out in neat printed form. The year's income was \$2510, made up as follows: Subscriptions \$2592, donations \$422, lockers \$42, ground rentals \$1013, programs \$100, profits on matches, etc., \$140. The expenditure was \$284 less than the income.

The assets included: Land \$31,000, improvements \$20,227, cash in bank \$156, Total \$51,384. The total liabilities are placed at \$35,107. It was decided to recommend that certain privileges be admitted to certain members for a fee of \$2.

Messrs. H. C. Schofield and Dr. Gordon supported an amendment whereby the team and two men selected by the committee 20 players would select the team. This was defeated, as also was George Irving's motion to abolish the team committee, and the 12 will be selected by the sub-committee named by the general committee.

The association decided to offer flags for competition among local Public school twelve and also the use of Rosedale. Messrs. H. C. Schofield and W. J. Logan presented a recommendation that the chief officers of the association meet a Toronto Athletic Club committee to arrange for amalgamation on certain lines. The feeling of the meeting was to remain an independent organization, and a good majority voted the motion.

The officers were elected as follows: President, W. J. Suckling, re-elected by acclamation; vice-president, W. J. Logan, re-elected by acclamation; second vice-president, W. E. Randle, re-elected by acclamation; secretary, H. C. Schofield; hon. secretary, H. Willis; acclamation; hon. treasurer, J. M. Macdonald, re-elected by acclamation; committee, G. S. Lyon, George Irving, H. M. Blackburn, Walter Dick, H. C. Schofield, G. H. Gooderham, Dr. Gordon.

The Toronto Junior Lacrosse League. The prospects for lacrosse in Toronto among the junior organizations is most promising this season. More clubs are expected in the Junior League and the class of players is ahead of those who handled the lacrosse during the past seasons.

The Toronto Junior Lacrosse League are feeling a long way from trading players for senior clubs. Toronto will have no reason to go outside for players. Give the young men a chance. Last year over 200 young men were connected with clubs in the Junior League, and all the games were fought out in a pure sportsmanlike manner.

From all accounts the Torontoists will be as strong as last year, although this young club proposes entering a team for no less than three different championships. The Parkdale Club are also said to be much stronger than last year, having many of the old Athletics, and with a good practice ground, should make it interesting for some of the clubs in the Central District as well as the Junior League.

The Elms and the Oriels will fight out another season together and are expected to place in the final about the same team as last year. The Toronto Junction and Toronto Lacrosse Club Juniors will again enter the league along with Mimico Stars.

The annual meeting of the Toronto Junior Lacrosse League will take place in Beacon Hall, Yonge-street Arcade, on Friday evening, April 13, at 8 o'clock, for the election of officers.

There is nothing a merchant dislikes more than to inconvenience his customers, and nothing gives greater inconvenience than to do the dust and disorder which almost necessarily accompany rebuilding.

The extension in fact, larger than the old building, was first erected, then the main building from the first floor was partitioned off so that customers have been hardly conscious of the immense improvements going on.

Desiring, then, that the old 214 Yonge-street building in the memory of the Toronto public and that the "New Monster and Palace Shoe House" may receive a fitting inscription, the Ontario Shoe Co. have determined that from now until the building is completed to offer their enormous stock of spring shoes at a price actually below the cost of manufacture.

THE GREEN DIAMOND.

Nines Will Be Out This Afternoon—For a Junior League.

The baseball season will be opened in the city to-day, when several clubs will meet in friendly contests. As yet there is not a local league organized, but it is expected the nine will get out a championship contest before May goes round.

Besides the junior and senior leagues to be formed in conjunction with the Canadian Amateur Baseball Association in Toronto there is a probability of at least one junior independent league, as will be seen by the subscribers notice.

It is understood that A. G. Spalding & Bros. will present their pennants to any organization that comply with their rules. The league must consist of not less than four clubs, each club to play 12 or more games during the season. The notice has been sent out as follows:

The undersigned would like to hear from any club interested in the formation of a complete amateur baseball league independent of the C.A.B.A. Write or call on H. J. Logan, 28 Front-st. west.

The Star Baseball Club will hold a meeting in the club house, 107 Davenport-road, on Tuesday evening, April 10.

The Capitals of the West End would like to arrange a game with some club outside of the city for May 24. Address: D. A. Phillips, secretary, 16 Howland-avenue, Toronto.

The Petmas, formed three years ago by Colonel George Powell, have reorganized for the season under the management of Mr. Olive Pringle and will play their opening match this afternoon with the "Cats." Catcher Grim, formerly of Toronto, has signed with the Louisville club. He gets \$210 and wants \$2500. Straton will play to sign, and Alvaner Barrie, who went to Chicago to trade him for a catcher, returned yesterday intimating that his mission was successful.

The Crescents would like to arrange a match with some intermediate team outside the city for May 24, the following are preferred: Cobourg, Stouffville, Campbellford, Bowmanville or Ottawa. Address: E. Crowbridge, 115 Park-st., Toronto. The Crescent Baseball Club will meet on the Don flats to practice this afternoon. Members are requested to be on hand.

The seventh annual meeting of the National Baseball Club will be held in a few days, when it is expected the club will be put into good shape for a good season's work. Already a very strong nine has been secured and the club is open to arrange dates for the coming season with city nines. They are also anxious to arrange a match with any outside team for May 24. Address, 610 Bathurst-street.

Wanderers Begin Training at Once. On account of the Rosedale track being torn up and not to be ready till the end of the month, the Wanderers have secured the Dufferin track for the next six weeks for the exclusive bicycling privileges. The track has been under preparation some time and has been filled in places, rolled up and in excellent condition and is now quite fit.

Brooklyn Handicap Gossip. Frank Shaw bet \$1000 at 30 to 1 on Yo Lambton last week and was also played last week, and his price is now 10 to 1.

Clifford is handicapped at 134 lbs., while Lamplighter's impost is 123 lbs. in the Ullman Handicap.

Sports must be regarded as a doubtful starter. His temper is so vicious that he takes two men with whips to drive him on to the track.

Only 6 to 1 is laid against Clifford in the Western books, the Westerners evidently having a high opinion of Leigh's four-year-old.

Yo Lambton, the other Western crack, is also moving nicely, notwithstanding the fact that he has been at a disadvantage so early in the year.

Clifford is doing grand work at the Memphis track, and it is not unlikely that he will be a starter in some of the races there so to get him on edge.

The New Orleans meeting ends to-day. It was the most successful one in the history of the club, owing no doubt to the winter tracks in the north being closed.

Diable, the winner of last year's Brooklyn gallop, is strong and sound at Jerome Park, and the old horse does not lack admirers of his chances of pulling this year's also.

Sie Walter, the Queen's Plate entry, is doing perhaps the best work of any of the candidates. Barring accidents he will make the others feel that they have been in a race.

Lamplighter is getting along nicely at Clifton, and the effect of the "hiring" which he received from the best talent in the country is successful that there seems no doubt but that he will be ready in time for the great race at Gravesend.

Not many changes are reported in Davis and Haskins' quotations for the Queen's Plate during the past week. Frank's odds have receded from 100 to 50, while Deest, Misfortune, Moonstone and Mediator have gone back in the betting. Dictator was backed by \$5000, and his price has gone from \$5 to \$4.

The fatal railway accident that occurred on Thursday night may be attributed to the fact that the Railway Company have not built cars suitable for the rapid transit that is characteristic of the new system. The idea of the old horse car in its electric service. A noticeable defect in the construction of the city cars is to be found in the guard that rises to the height of about two feet at the end of each platform. People are in the habit of sitting on the leading end of the car, and when the car starts round a curve suddenly there is considerable danger of being thrown overboard. Several such accidents have been reported. We believe the Thursday night accident is the first of this kind that has ended fatally. Had the cars been restituted the accident would not have happened. Such an accident is impossible on the cars of most of the suburban lines in this vicinity. The present system of coupling the motor and trailer will admit of much improvement. There is a big space between the two cars that are being constantly yawning for some heedless person to fall into. Moreover, the cars, being improperly mounted on the trucks, bob up and down. There would be a distinct improvement in electric traction if the cars, trailers and motors were mounted on six wheels instead of on four. This accident is another convincing argument in favor of vestibule cars. Kinghorn is not to cause the motorman to use more care in future passing curves, but to protect the passenger that he cannot fall off the car, no matter how careless he may be or how fast the motorman may turn a corner. Vestibule cars will fill the bill and at the same time be a lot of humanity for the men during the severe winter.

Dentistry in the Schools.

Something practical promises to come out of the agitation to secure some sort of inspection of the teeth of children attending the public schools. Representatives of various charitable institutions will wait upon the School Board and request that body to take the matter up in a practical shape. Mr. Baird, president of the board, promises to give the project his support. We understand that some of the charitable institutions in the city that take care of the young have the benefit of periodic visits of a dentist who inspects the children's teeth and does whatever is necessary to keep them in good order. When this work is attended to systematically it involves much less time and expense than when the teeth are allowed to go for years so that extensive repairs become necessary. The old proverb of a stitch in time saves nine is also applicable to the teeth. An imperfection discovered in time can be remedied in a minute, when an hour's attention would be required later on if it were neglected. Systematic inspection is the cheapest way of attending to the teeth. It is not only the cheapest but it secures attention which would not otherwise be given to children's teeth in a great many cases. A dentist in the city informs us that the teeth of the boys of a certain charitable home that he attends are 100 per cent. better than the teeth of a similar number of boys taken at random from the public schools. Our public school system should not go so far as to assume the expense of the dental work that may be deemed advisable in regard to the students' teeth, but it should appoint inspectors to the condition of the teeth of all the spectators who would make periodic reports to facilitate the work, these inspections and reports could be made very rapidly. The idea would be to send the reports to the parents, with a warning to have the suggestions made in it carried out. It should also form part of the duties of the regular teachers to educate their pupils as to the care of the teeth and cleanings generally. We trust those who have taken up this matter will not allow it to drop until something practical has been decided on.

Citizens should be Examined.

The Special Committee appointed to investigate the excessive rates charged by the Consumers' Gas Co. for gas for cooking and lighting purposes will meet on Tuesday next. If the committee wishes to become fully apprised of the facts it ought to invite the public to attend and give evidence. Hundreds of them called at this office some weeks ago and exhibited accounts that were twice as high as they should have been. The committee, having decided to investigate the question, it should go into it fully. The public should be invited to attend the meetings of the committee or to

DID PICKERING LOSE THE MONEY?

The Central Canada Loan Co. Evidently Do Not Credit His Story and Cause His Arrest.

Frank F. Pickering of 73 Tranby-avenue was arrested by Detective Burrows yesterday on a charge preferred by Mr. Frederick G. Cox, manager of the Central Canada Loan and Savings Company, that he "unlawfully by false pretences did obtain a cheque for \$1500 from the said Frederick G. Cox with intent to defraud."

Pickering, it seems, secured a loan of \$1400 from the company some time ago to build a house, and becoming financially involved the Loan Company took a deed of the property, retaining Pickering as superintendent. On March 24 Pickering went to the company and said the architect required \$1500 to pay out in wages, etc. The company gave him the cheque, which he cashed and paid out \$125. He claims that he put the balance in the outside pocket of his overcoat and proceeded along Adelaide-street, and when he got to the buildings discovered that the entire sum was missing.

The Loan Company thought the story fishy and the warrant was the result. Pickering retained Mr. T. C. Robinson to defend him, and last evening Mr. Robinson secured the release of his client. Pickering entering into bonds of \$3000, Messrs. James B. Fairhead and J. M. Faircloth in \$1500 each.

FINANCE AND TRADE.

The financial situation is unchanged. Money continues to accumulate at the leading centres, and call loans in consequence are easy. The rates in London are easier at 1 to 1 1/2 per cent, in New York at 1 and in Toronto 4 1/2 per cent.

The increased bank clearances at Montreal and Toronto this week are favorable features. Those at Montreal show an increase over the corresponding week of last year.

The tariff changes have caused some dissatisfaction among manufacturers, especially in iron and steel, and trade is adversely affected in consequence. Many travellers have been called in until prices are re-adjusted.

Another advance in wheat has taken place in Chicago, but the break in prices at the close yesterday caused some dissatisfaction. Fortunately a local dealer had an order to sell long May wheat at 66 1/2, which just let him out without loss. The Cincinnati Price-Current suggests the condition of white wheat in the States to be 38 per cent, as against a Government report of 77 per cent, a year ago.

Notes: Each: Each:

The flag was flying on top of Reinhardt's brewery yesterday, the occasion being a reception tendered by the proprietor to the visiting hotelkeepers. About 400 invitations were issued and nearly all those who had been invited availed themselves of the hospitality of the hotel Reinhardt. He was ably assisted in showing the visitors through the immense establishment by his son, Lester Reinhardt, Jr., and Mr. A. McEwen, the able business manager. It is unnecessary to say that no one went away thirsty or hungry, as an abundance of food was provided, and all tasted the superior quality of "Hot Brand."

Knight of St. John and Malta.

The following is the list of officers of St. John's Encampment, No. 1, installed on Wednesday evening by V. E. Sir Knight W. Bewley, G. P., assisted by District Deputy Clark: Em. Com., James E. Knox; lieutenant, Fred Nelson; capt. of guards, J. J. Carless; prelate, J. Webb; almoner, A. Lane; herald-at-arms, H. Rogers; sword bearer, William Wisdom; marshal, J. Deak; guard, R. May; warden, J. Burt; medical examiner, Dr. H. B. Nevitt; musical director, R. N. London.

The Mayor and the L. E. P. A. This resolution was passed at the meeting of the Ontario License Holders, Protective Association:

Having read the article in The Toronto World in reference to the visit of the Ontario License Holders, Protective Association to this city in connection with the refusal of Mayor Kennedy to extend the usual drink greeting to the convention we unanimously express our regret that the Chief Magistrate of this large and progressive city should have seen fit to treat the convention in the unfair, unmanly and discourteous manner he has chosen to adopt towards us—it was in marked contrast to the cordial reception tendered to us by the citizens generally, and we take this opportunity of thanking the citizens for their kindly treatment during our stay, and The World and the other newspapers for their generous recitation of the action of Mayor Kennedy, and that the secretaries be instructed to send a copy of this resolution to the various newspapers of the city.

Stocking Trade Sale.

Suckling & Co.'s next trade sale will be held on Tuesday and Wednesday, April 10 and 11. Among the special lines are 200 new jackets for ladies and misses, in all the popular styles; also 250 children's. These goods will be sold in lots to suit the trade. On Wednesday they will sell boots and shoes, commencing at 2 o'clock.

On Tuesday at 10 o'clock the clothing stock of Spofford & Co. of Stouffville will be sold "en bloc," amounting to \$1000.

Murray Printing Co. Sale.

The sale of this estate will be continued this morning at Suckling's, commencing at 10 o'clock, when every line must positively be cleared. It will be greatly to the advantage of buyers to be present on time. 470 lots were sold yesterday. All the presses were sold at prices ranging from \$50 to \$1100 each.

New Books.

Marcella, by Mrs. Humphry Ward, author of Robert Elsmere, The History of David Grieve, etc. New York and London, MacMillan Co.; Toronto, the Toronto News Co., limited. Mrs. Ward is a most powerful writer of fiction, and nearer than any other novelist approaches George Eliot. Marcella reveals the fruits of deep study and sympathy, and at once takes its rank among standard works of fiction.

Ben's Bros' Auction Sale.

Messrs. Charles M. Henderson & Co. will sell on Friday next, April 13, at their rooms, No. 219 Yonge-street, the balance of Messrs. Kent Bros' stock, comprising 60 valuable watches, show cases, jewelers' tools, office desks, valuable safe, cost \$500, with a host of other valuable stock. This sale will, no doubt, attract a large audience, as the whole will be sold without the least reserve.

The Bedouins of the Desert.

The Bedouins of the Desert, a rare treat in store for them in the form of Oriental tableaux which will take place at the Association Hall on the 17th, 18th, 19th and 20th of this month, by Mrs. Mountford. In the "Bedouins of the Desert" a tent will be pitched on the platform and Mrs. Mountford will illustrate the life of the wild sons of Ishmael as she only can.

Northrop & Lyman's Vegetable Discovery has worked wonders for dyspepsia, and we don't think there is a case of dyspepsia to be found that it will not cure if the directions are followed. Dr. E. W. Williams, Druggist, Wingham, says: "The Vegetable Discovery is selling well, and I have had one bad case of dyspepsia that it has completely cured."

The Little's Drawing Room suite, Messrs. Charles M. Henderson & Co. have in their north window a very costly drawing room suite, formerly the property of Mrs. Langtry. We understand it will be sold on Saturday next.

A VIGOROUS POLICY.

One True Source of Personal Force and Courage.

Tremendous Capacity for Accomplishing Work--Vigorous Digestion and Calm Nerves Accomplish All--Paine's Celery Compound a Remedy That Does the World Good.

COUNCILLOR GEORGE F. MORSE.

The admiration accorded certain public men is due to their splendid moral courage. Great moral courage and determination are impossible without a sturdy digestion, a healthy liver and a vigorously nourished nervous system. No one can imagine a Gladstone, Salisbury, Laurier, Thompson, or any great champion of his party in parliamentary debate, with a badly nourished brain, a weak digestion and shaky nerves. Only the healthy man, whose organs are doing their duty, is firm, convincing, magnetic, courageous. A man of ideas needs sound health to carry them out, and a clear cool brain is better than a shabby one, however brilliant. The men who can work long hours under pressure win success, and fame depends often on a strong stomach, healthy nerves.

Compound is the immediate improvement of appetite and gradual gain in weight. This remarkable remedy sets to work at once to nourish nerve centres and purify the blood of harmful humors. It was the belief of Prof. Phelps of Dartmouth College, the discoverer of Celery Compound, and he so stated to his classes at Dartmouth College, that only when the system is perfectly nourished in tissue, blood and nerve centres is it possible to drive out the special disorders from important organs like the liver, stomach, heart and stomach. Paine's Celery Compound today sustains the strength of thousands of hard-worked men and women who cannot take vacations and feel the effects of the unnatural demands made upon their strength and nervous energy. Paine's Celery Compound is the greatest

"SELF-PRaise IS NO MERIT." Some persons are continually praising their own wares. I prefer to allow my patrons to speak for me. THIS IS THE KIND OF EVIDENCE THAT TELLS THE STORY. By kind permission of the writer, I offer the following letter, which is representative of many similar in my possession from various parts of our own country.

December 9th, 1890. DEAR SIR--My case was a severe one. Every effort of others only increased the trouble. They failed to hold me in every instance. They either did not understand my case or lacked the requisite skill. My impression is all other trusses, at least those which I tried, are designed on false principles. You divined the difficulty at once, your first effort being crowned with success. It is now about four months since you adjusted my rupture, and during all that time not the slightest appearance of trouble; previous to this I had not known one day's comfort for years. I can now safely attend to my business physically conscious of wearing it. In fact, it is so easy and comfortable I am not while wearing your grand appliance. Such a contrast to all others, which were simply tortures without any redeeming qualities. The interest you evinced, the attention you have given and your success in my case compels me to give you permission to publish these few lines as a slight acknowledgment of your skill and as an encouragement to other sufferers to consult you and be relieved. LEGISLATURE DESK RIFLING.

Mr. Hardy Says the Looks Are Old and Defective—The Seasonal Bill Appointments Again Discussed.

When the Ontario Legislature opened yesterday Mr. Harcourt made a statement with regard to the charges of desk-rifling preferred by Mr. Glendinning a few days ago. He said that the specific instance alleged, that of a batch of documents taken, and returned, addressed "Mr. Glendinning with many thanks," was due to a misapprehension on the member's part, the documents not having been taken from inside his desk, but borrowed by a reporter with his permission and subsequently returned as stated. As to other alleged cases they would be further investigated, but it must be remembered that the locks of the desks were old and defective.

Mr. Glendinning acknowledged that he had been mistaken in supposing that the papers returned to him had been taken out of his desk, but he persisted that other papers had been taken which were not returned. He did not bring the matter up in order to blame the Government or in any capricious spirit.

Mr. Wood of Hastings wished to correct a wrong impression conveyed by a report of his speech on school matters the evening previous. He did not intend to misapprehend the impression that parents were forced to send their children to separate schools against their wishes. What he intended to say was that parents were forced to send their children to poor schools on account of the existence of separate schools.

A violation of the rules. Mr. Meredith called attention to a violation of the rules, persons having been placed on the seasonal staff on a memorandum of the Provincial Treasurer. According to the rules all appointments must be made by the Speaker.

Sir Oliver Mowat said that the appointments referred to had the acquiescence of the Speaker. Mr. Meredith replied that even in that case it was none the less a violation of the rule as it was provided that the Speaker should himself make the appointments.

The House passed a number of private bills through committee, including the bill respecting the Toronto Railway Company. Hon. Mr. Gibson stated that at the meeting requested by all concerned that the provisions for taking the vote on Sunday cars form a portion of the bill, they would be made, which would be incorporated with the separate measure proposed.

The bill incorporating the Toronto Suburban Street Railway Company passed through committee. Among the measures read a third time were Mr. Tall's bill to incorporate the Ontario Burglary Insurance Company. Mr. Bronson's bill to amend the Public Health Act, and the Attorney-General's bill to amend the law relating to women under age to bar dowry, and to make further provision for the solemnization of marriages.

Mr. Meredith enquired whether any settlement had been arrived at between the Provincial and Dominion Governments respecting jurisdiction over water lots. As matters now stand the Dominion assumed jurisdiction over the Toronto harbor water lots out to the Windmill line, while the province claimed jurisdiction over water lots to the Island. It was important that the question should be settled.

Sir Oliver Mowat said that the two governments had agreed upon a case to be submitted to the Supreme Court, so that the matter did not now rest with the administration. The House adjourned at a few minutes to six.

A QUESTION OF AUTHORITY.

The Limitation of the Public Accounts Committee's Functions.

At the meeting of the Public Accounts Committee yesterday, Mr. Harcourt stated that they had no power to summon before them the Deputy Registrars of Peterborough and East Northumberland, quoting from Bourinot and May's Parliamentary Practice to show the limitation of their authority. A rather excited discussion followed, Mr. Clancy holding that the committee was acting strictly within its powers.

Mr. Caldwell moved a resolution to the effect that the order requiring the attendance of the deputy registrars be rescinded on the ground that the subject of the proposed enquiry was not within the functions of the committee.

Mr. Clancy protested against the motion as a high-handed proceeding. After some further debate of an acrimonious character the motion was carried by a vote of 7 to 2.

The enquiry into the manufacture of binder twine at the Central Prison was resumed, Inspector Nixon being again under examination.

THE NATURAL GAS FIELD.

How the Supply is Being Exhausted by the Commission.

Mr. Harcourt's select committee to inquire into the condition of the natural gas fields of the province, held a long sitting yesterday morning, at which a good deal of evidence was taken, mostly of a very involved technical character, with the object of showing that the transmission of natural gas by pipes to Buffalo from the Welland gas field exhausted the supply much sooner than if the flow were regulated by natural pressure.

DUE TO THE TARIFF.

Nails, Turpentine and Linseed Oil Drop in Price.

The reductions in the tariff have already had their effect on certain lines of business. The cut in the tariff on turpentine has caused wire nails to be reduced 1 to 50 per cent, and the cut in the tariff on linseed oil is now quoted at 48c. Toronto linseed oil is down 10c a gallon and is quoted at 55c raw and 52c boiled.

Dined the Graduating Class.

TRYING TO SQUARE HIMSELF.

Mr. Tait Seating Around Typewritten Documents.

Many members were present at last night's meeting of the Trades and Labor Council. President Walter Barnell was in the chair. There was much discussion on the question of schools, the delegates agreeing that high school fees should be lowered.

THE PASTORS STORY.

An Interesting Narrative Showing What Came to Skeptic Who Are Willing to Try.

The Rev. Mr. Greenman is one of the most popular clergymen in Worthington, Mass. To a reporter of the Northampton Gazette he recently told the following interesting story: "I was a Nova Scotian by birth, but came to this country in 1850. I had been long in the pulpits, and ministered for many years, but I was weak and worn out. In this condition I readily succumbed to the grip in February, 1880, and had a very hard time of it. After the grip left the pneumonia set in, and then, indeed, my day and night. No application, external or internal, lessened the force or gave me the slightest relief. During two years I got out of the house but little more than to walk the parsonage to the church. At times the pain was so great that I had to recourse to morphia injections for relief. It was in October that I read of a person, similarly afflicted, and of his recovery by the use of a medicine called Dr. Williams' Pink Pills for Pale People. I had no faith in being cured, but like the drowning man grasping for a straw, I sent for a dozen boxes of the pills and began taking them as directed. I did not notice any improvement for some time, then the pain left so suddenly that I hardly knew when or how. From that time on my condition improved rapidly. The rheumatic pain has left me entirely, and I can attend to my duties, which I had not done before in two years."

Bradstreet Review.

New York, April 6.—Bradstreet's review will say: Cold weather at Montreal checked sales in several lines. Navigation is not expected to open prior to April 30. There are 22 failures reported from the Dominion within the week, against 27 last week and 25 in the week a year ago.

Bank clearing for the week ended April 5, 1894, in five Canadian cities with comparison with last year's reports, except at Windsor, which was not reported last year, and Toronto, last year's figures for the week not being at hand.

I WAS IN GREAT TROUBLE.

Had Used Different Doctors' Medicine Without Any Benefit—Three Bottles of South American Nerve Cure Me of Agonizing Stomach and Bowel Trouble—Words of a Prominent Patron of Industry.

SAMUEL ELYA, MEAFORD, ONT.

To be apparently hopelessly unwell in a most despairing condition, as a man. Multitudes of people, if they knew the benefits derived from South American Nerve Cure, might become the very picture of health, instead of thus enduring suffering and sickness all their lives. This is no needless statement. Give heed here to the words of one of our own Canadian citizens, a prominent Patron of Industry who suffered intensely until cured by South American Nerve Cure. "I am very willing and pleased to give as testimonial as to the beneficial results of my using South American Nerve Cure. I started to use three bottles in April, 1888, for trouble in stomach and nervous of the bowels. I was in great trouble with pain in the bowels and in other ways in this connection. I had used different doctors' medicines, all of which failed to cure me, or to do me any notice and I purchased a bottle of South American Nerve Cure from W. W. Stephens & Co., druggists of this town. It did me so much good that I got two more bottles from them and these three bottles I honestly believe cured me. I know it was the best three dollars I ever spent, so far as results to myself are concerned. I now enjoy health as I have not for many years; my stomach is wonderfully improved and my system seems to be substantially built up. These blessings I do not hesitate to attribute to the wonderful effects of South American Nerve Cure."

TO SHIFT SIX DAYS

Says the contractor—we must get out of this store and plant ourselves temporarily in the south side of the Bell Building.

Where in the world will we put our goods? said the heads of department last night. Out of the front door said the head of the house. Let the people have them. Sell them at anything. So now the people can look for a wonderful week next week. Goods that have been cheap, wonderful cheap in the past, will be put in the shade alongside the bargains of the next six days, commencing Monday morning.

That great underwear purchase went on sale yesterday, and great was the selling. The greatest crowd and the greatest amount of business ever done since we started was done yesterday. Encouraging isn't it, to see the great sales rising higher and higher every day? The people have confidence in our statements. That's the whole reason, and they come and are never fooled. Here are a few of the things that have been stripped of former profits and marked to sell out in a day:

MONDAY.

What's left of that great purchase of ladies' Underwear goes like this Monday! Thousands of money-worth garments at less than manufacturers' prices by 25% per cent. Ladies' fine Cotton Suits, 3 pieces, trimmed with insertion embroidery and fine tucked for \$1.25, made to sell up to \$2.50. Ladies' fine Cotton Suits, deep skirt, 3-piece 70c, made to sell up to \$1.50. 175 Ladies' Gowns only left—in the newest styles—priced from \$1.25 to \$2.50, and worth \$3.50 to \$5.00, every one of them worth 25% per cent. more, and then they would only be manufactured in Cambridge. Ladies' very fine Cotton and Cambric Chemises, trimmed with embroidery and lace, 25c, 30c, 40c and up to \$1.50—all samples and at the same big discount off as of the others. Ladies' fine Cotton and Cambric Corset Covers, made with embroidery and lace, 10c, 25c, 30c, 35c up to \$1.50. Of course 25% discount—figure the retail price—actually these goods are all 50 per cent. less than their value. Ladies' fine ribbed-threads vests for 10c, retail price 15c.

Never before have we had such wonderful success as we are having in the Mantle Section. Hundreds of Capes and Jackets have been sold—but hundreds more must go out next week. No room to keep them. Down go the prices Monday.

150 Ladies and misses' fine Tweed and Serge Coats, were \$1.50, down they go Monday to \$1.10. 25 Ladies' Black Spring Coats, newest makes, were \$3.50, down they go to \$1.50 Monday.

Notwithstanding the rough-and-tumble state of the business, beautiful Hats and Bonnets are going out at enlarging prices.

300 Ladies' fancy Hat shapes, worth up to \$1.00—carved down to 10c. 25 Fine all-wool Black and cream fancy straw, half price, 50c. 250 Fine Flowers, all colors, were 50c, Monday 10c.

Come down stairs—prices all riveted like this: 1000 yards fancy check Towelling, pure linen, 5c yard, worth 8c, from 8c to 10c Monday morning only. 5000 pairs of Washable Table Linens, 40c kind for 20c Monday.

250 pairs of Ladies' fine black Cotton Hose, 12-centers, go at 7c all day Monday.

150 Ladies' fine all-wool black cashmere Hose, 35-centers, march out at 50c Monday—300 pair 100 many.

Over in that wonderful, busy, crowded department, "Dress Goods," where the daily sales climb to \$250, we will close out Monday.

500 Ladies' fine black Dress Goods, 25c, sold all time at 45c to 50c. The gentlemen will be here for the Clothing bargains Monday. Look at these: Gent's fine cambric Suits 70c, the \$1.25 kind. 500 all-wool Black and cream 35c scarfs. A lot of boys in 100 colors and black at 15c.

Today the well holes in the Bell Store are being cut. The man who was killed on Thursday night was in the Bell Building the day before. 47 great wagonloads of old brick was taken out of these stores, Monday the start of the last week. Selling in 88 and 90 Yonge-street for the present.

Monday at 8 a.m. crowds.
