WOMEN PEDLARS SELLING ADULTERATED WINE

Hamilton People Were Victimized When They Purchased Beef, Wine and Iron, Which Was Nothing But Adulterated Port Wine, Containing More Than 20 Per Cent. of Pure Spirits.

(By Staff Correspondents.) HAMILTON, Wednesday, Aug. 21.—Peddlers of cheap booze under the guise of medicine is the bold and dangerous game which four women have been playing in Hamilton within the last few days.

Failed to Recover From Injuries Received in Motor Car Accident a Week Ago.

Mrs. William Johnson, 191 Robert-st., who was injured in a motor car accident half a mile west of Whitby last Wednesday afternoon, when the machine in which she and others were riding, turned turtle, died in Grace Hospital last night.

WOMAN SURPRISED

The painful surprise and amazement which some of the purchasers of the "beef, wine and iron" exhibited when told that the stuff they had spent their good money for was nothing but cheap booze, was in some cases amusing and in others extremely pitiful.

DECLINE IN IMMIGRATION FROM THE BRITISH ISLES

OTTAWA, Aug. 20.—(Special).—A falling off in British and a somewhat remarkable increase in United States and continental immigration to Canada for the four months up till June 31, as compared with the corresponding period last year, is the outstanding feature of figures compiled to-day by immigration officials here.

MINERS SAVE LIVES OF TWO

Then is Rendered Senseless by Poisonous Fumes—Rescued.

KINGSTON, Aug. 20.—(Special).—In order to save the lives of his two companions, Daniel and Joseph MacBrien, who entered "Cayote's" after a blast of dynamite went off and had become senseless as a result of breathing poisonous fumes, C. R. Morgans, Kingston, performed a heroic act.

WILL NOT BE BURIED IN ABBEY

Where General Booth will be buried has not yet been decided. While every English member of the Salvation Army is convinced that no man was more worthy of interment in Westminster Abbey, it is not expected that that honor will be awarded to General Booth.

It is understood in Ontario Government circles that the contemplated sale of the normal school grounds is incidental to the development of a normal school department in close connection with the Toronto University.

Rosedale Badly Beaten Compelled to Follow On Germantown Too Strong

Visiting Cricketers Win by an Innings and 95 Runs—Thorne and Reid Bat Well for Losers—Green's Good Bowling.

In glorious weather Rosedale, 175 behind with 4 wickets to fall, and requiring 75 to save the follow-on, resumed their innings at 11 a.m. Bell being 11 not out and Smith not out. Clark opened the bowling with a maiden, and Green went on at the position and Bell gave a chance in the slips off Clark, and at 27 Smith skied a ball of the same bowler and was easily caught by the wicket-keeper.

Without any addition to the score Bell was beaten by a beautiful ball from Greene, the ball breaking across the wicket. Lambie joined G. Wallace, but the second ball from Greene sent him back, and the last man, Spinney, came in. Three runs were added when Greene bowled G. Wallace, the innings realising 184 runs.

Brennan and Owen Both Hurt in One Game at Pittsburg—Players Finish Game. PITTSBURG, Aug. 20.—In the fourth game here between Pittsburg and Brooklyn, Umpire Brennan and Owen were both injured in the first part of the first game, and two players were called upon to act the rest of the first game and all the second. As far as is known, the first time both umpires have been hurt in a major league game. The two teams split the double-header, Pittsburg winning the first, 3 to 2, and Brooklyn the second, 9 to 1. Umpire Brennan during the first innings of the first game, slipped near second base, injuring his knee, and was hit by a foul tip off Jack Miller's bat in the second innings of the same game. Umpire Owen was hit by a foul tip off the bat of Fred Laffer, who was behind the plate, in the second innings of the same game. Both umpires were unconscious when taken to the hospital. Physicians in the ambulance will have an X-ray to ascertain the extent of his injury. Umpire Brennan is not so seriously hurt. SEABALL GOSIP If somebody would only stop those Hussey races, we might have the sunning. Rudolph and Mason had a battle for the title of champions. Dickey had a shade-the better of it. Peaches Graham filled in nicely in the outfield after Shaw was chased. Walter Andrews and Harry Young, who competed at London in 1908, Frank Brown and George Watson, who have just returned from Stockholm, where they made a name for themselves, and Al Kruehl, the grand little Buffalo rider, who was one of the early finishers for the Vancouver team in the Lake Malair grind. Kruehl is riding in the open events, while his "big brother" Joe Schieder is drawn to meet Andrews and McMillan in a number of invitation sprints for the season. The crowd for the meet will also be entertained with fireworks from the park. Queen City Nine Shots Up. Four Parkdale rinks visited Queen City and were 9 shots down. Scores: Parkdale—Queen City—10 W. Grand Circuit Opens at Salem, N.H., in Rainy Weather — The Results.

SALEM, N.H., Aug. 20.—Rainy weather cut down the attendance at today's Grand Circuit meeting at Rockingham Park.

Branham Baughman, famous as the biggest money-winner of all pacers in 1912, took the feature. He led all the way in each of the three heats, the field trailing him.

Frank Murphy of Suffield, Conn., captured the 2:18 trot with Keynote in a handy way.

Al Dillard, who has been so successful over the half-mile track the last two years, had no trouble in taking the 2:14 pace, Edna B. getting second money just as easily.

W. Snow of Buffalo was never in danger of losing "The Tyro" race for three-year-olds trotting with Senator. Sumner.

CITY HALL MOVEMENTS

Mayor Geary has shown no inclination to force himself upon the city as corporation counsel. He resented the mention of his name as an applicant for the position in his absence, and we have no fault to find with his attitude. Mayor Geary will do good service to the city and honor to himself as an individual if he will offer up a solution of the problem of the appointment of a suitable corporation counsel.

It is scarcely to be expected that a man in the front rank of the legal profession can be obtained, but neither should it be forgotten that the corporation counsel has to meet men in the front rank when he goes up to plead in support of the city's cause. The corporation counsel must be a man of some legal experience; he must have the weight and authority which ability and repute bestow, and he must have some natural resource and real power when he is opposed to men like Messrs. J. Bicknell, G. T. Blackstock, S. H. Blake, I. F. Hellmuth, F. Hodgins, E. F. E. Johnson, G. Kappel, Z. A. Lash, C. A. Masten, W. Nesbitt, G. F. Shepley or G. H. Watson to take a dozen names that will occur to everybody.

Several names have been mentioned, but it is unfair to any man to advise his chances when there may not be the slightest intention on his part of seeking or accepting the office.

The mayor and board of control have declared that nothing in the nature of a distribution of vacant offices among themselves has been thought of, and we are glad to accept this assurance. The World will be glad to support them in any action taken with the welfare of the city as its sole object.

It is understood that Mayor Geary contemplates a political career. He has trained himself to that end, and his gifts lie in the political field. If he should elect to serve the people in other than municipal directions no doubt his aspirations will be regarded by the party to which he belongs. If he consults his own duty as Toronto he could not do better than devote the remainder of his term of office to an effort to get the city government into an efficient state, by reorganization where it is needed, by the acceleration of the many items of city business which are lying pigeon-holed, and by the appointment of a strong man as corporation counsel.

NORTH TORONTO ANNEXATION

A satisfactory conference was held yesterday between the North Toronto and the city representatives over the approaching annexation. Mayor Geary stated that a civic line was regarded as certain and the city will employ as many of the town officials as possible. The question of assessment need not disturb anyone holding improved property. The city insists on the principle of the assessment department having control, but it may be taken for granted that there will be no officious and vexatious interference with assessments that have been made on the ordinary city scale of valuation. It is only the unimproved property rated as "farm lands" and held at high values which would be affected.

All the real difficulties of the situation have now evidently been overcome, and the people of North Toronto may be assured that they will find annexation as advantageous as it is inevitable.

AN ELASTIC CURRENCY

It is rather surprising to find that Canadian papers in sympathy with the present banking and currency laws are complaining that our currency is not sufficiently elastic. All the same the new five-dollar bills have been promptly sequestered by the banks and have been put away with the "legals." Naturally the banks prefer to circulate their own notes. While a considerable quantity of gold has been recently coined, it is being held in the government vaults to redeem the bank "legals." The volume of our currency is therefore dependent upon the pleasure of the banks.

Circulation could easily be increased were the banks to increase their capitalization, but they seem indisposed to do this. If this country needs more money to carry on its business, as we believe it does, relief can come only from a government issue. At present the government issues only \$20,000,000 upon a specie reserve of 25 per cent. All the Dominion notes in excess of this sum are merely receipts for so much gold—gold certificates. In the United States, where all the currency, including the so-called na-

tional bank notes, are practically government issues, there are often "currency famines" and the bankers of that country are naturally anxious to see something like the Canadian banking system adopted, in order to make the currency more elastic. The prejudice against banks issuing currency is, however, strong in the United States, and we doubt if this can be overcome. Before the civil war many state bank notes became worthless in the hands of innocent holders for value. Even in Canada, where notes are always redeemed, we have lately been confronted with the hardship of this being done from the assets of a defunct bank which would otherwise have yielded some dividend to depositors.

One factor overlooked in both countries is the dependence of borrowing or debtors nations. London may at any time call upon Canada and the United States for money, which must be repaid at the cost of their internal disarrangements. Again, money moves quickly where it can get a big price without risk. Conditions in New York in 1907 undoubtedly diverted a lot of money from the business of moving the Canadian western crop.

Banking and currency reforms will be among the many big problems to be dealt with at the next session of parliament.

GLASGOW AND THE CLYDE

In his eloquent speech at Clydebank, Glasgow, on the occasion of the launch of the steamship "Niagara," built for the Canadian-Australian service, Mr. Borden recalled the interesting circumstance that some years ago, in Nova Scotia he met a Scotsman who told him he had fogged and paddled in the rivers where great ocean liners lie to-day. Mr. Borden's informant might easily have so amused himself in his boyish days without much exceeding the allotted span, for only seventy years ago now there were only fifteen feet of water in the navigable channel at high water. Even that depth it had taken long years to obtain and the Dominion premier paid a just tribute to the foresight and courage of the men who had the ability and audacity to undertake and persistently develop a task so great as that performed by the City of Glasgow.

In the early years of the seventeenth century the harbor of Irvine, on the Ayrshire coast, was used by Glasgow merchants in their trading with foreign countries. In 1620 complaint was made that this harbor was "much decayed from quhat at was anciently, being stopp with shelves of sand which hinder the neir approach of shipping." Another port had to be found, and in 1683 the city magistrates laid out the Town of Port Glasgow, constructed a harbor and the first graving or dry dock in Scotland. But they were none the less determined to clear out the upper channel and made various attempts to do this. It was not until 1755 when the famous engineer Smeaton was employed to inspect the river and report on the project.

At that time the ford at Point-house was only fifteen inches deep at low water and three feet at high water. Smeaton proposed to make a lock and dam at Martin Ford, but this, fortunately, was not proceeded with. The real improvement commenced with the report of John Golborne of Chester, in 1788, which recommended that the hard bed of the river be removed by dredging. Parliamentary power was secured in 1770, and the work thereafter was steadily prosecuted. In 1840 the management of the river passed from the city council to the Clyde Navigation Trust, a public board, representing the city, the shipping and mercantile interests. Now the navigable channel has a depth of 35 feet at high water and further large improvements have been decided upon for which parliamentary sanction was asked this session. With such a record of enterprise carried out independently of state aid Mr. Borden was justified in expressing the assurance that every Canadian visiting the Clyde would go back inspired by an even keener determination to make the most of the vast resources at the command of the Dominion.

C. P. R. STOCK ISSUE

Editor World: As a New Yorker, here in this quaint little City of Woodstock on a brief visit, I was somewhat shocked at reading an editorial in your paper characterizing the new stock issue of the Canadian Pacific Railroad as "grat," "bonus," etc. Nothing can be further from the truth. The plain facts are as follows: The Canadian Pacific Railroad, by opening up new country, aiding and establishing new industries, is adding hundreds of millions to the wealth of Canada. To do these things naturally takes money. To get this money the railroad asks its stockholders and the public for it, giving them receipts for their money in the shape of stock. Please bear in mind, that not one dollar is "distributed" or "gratified" or "bonused," or given gratis. On the contrary, the stockholders pay more than two dollars for every dollar of stock they get. The question of freight rates, of which you speak has nothing whatever to do with this subject, except that the getting additional capital may increase the earning power of the road and thus enable it to reduce rates. George V. Maynard, Woodstock, Aug. 17, 1912.

We hope that Mr. Maynard will not take offense at our saying that he does not understand the subject upon which he speaks so dogmatically. It would be a good thing undoubtedly for the Canadian Pacific to expend \$100,000,000 in improving its system; it might be a

The Press on the Melon

So far as press comments on the proposed melon cutting by the Canadian Pacific Railway Company are concerned, all Canada, like ancient Gaul, may be divided into three parts. East of Peterboro, Ont., we have observed no opposition to the melon-cutting from any newspaper of either party; between Peterboro and Winnipeg the melon finds strong opposition, altho the majority of the newspapers, Liberal and Conservative alike, are silent; the western newspapers, including those of Winnipeg, are vigorously against the deal.

The Peterboro Review (Con.) is the only paper east of Toronto which opposes the melon. It says: "If the C. P. R. is granted permission by the federal authorities to increase its capital by fifty million dollars, then the consensus of editorial opinion without regard to party, is that the deal is a bad one. The latest move on the part of the railway corporations is a shallow trick, for it is taken for granted that the public will not share in every share allotted to them; and this thru no labor of any kind on their own part. This, of course, would be very nice—of the shareholders. Many of them would make thousands of dollars in profit from the deal, but to do more than sign their names to a few documents, to say nothing of the dividends that would come to them from time to time in the future. But what of the public? It wouldn't be quite so nice for them. The increased capital would mean an increased amount to be earned in dividends. The dividends do not come from any magic chest to which the company has fallen heir; they come thru the traffic which the railway handles, from the people of Western Canada, who come from the people who have to use the transportation facilities the company offers."

The Winnipeg Tribune (Ind. Lib.) is outspoken against the deal. The Winnipeg Telegram (Con.) is pleased to find Sir Thomas Shaughnessy blamed for the action of the government in giving publicity to the company's application. The Telegram says that the Laurier government would have kept the application a secret during the parliamentary recess. No doubt Hon. Dr. Roche is to be blamed for making the public into his confidence, and The World takes pleasure in commending the representative of Manitoba in the Dominion Government, Mr. H. J. Manning, Manitoba representative, Hon. Robert Rogers, see to it that nothing is done until after parliament has dealt with the question. "The Telegram is in a position to say, but it does not."

The Winnipeg Free Press (Lib.) speaks in no uncertain way as follows: "The objections justly urged against previous increases in the capital stock of the Canadian Pacific Railway, with attendant melon-cuttings, apply with increased force to the proposal which is now looming upon the horizon, that the federal authority shall sanction another of these enormous additions to the capitalization of the great transportation corporation that betrides this Dominion. The proposed operation of 'high finance' is simply the expedient distribution of swollen profits among the shareholders—a device which, if it were carried out, would be a plain terms of dividend payment, instead of being masked as something different, would furnish proof gross as a mountain range, palpable to the justice of the common sense of the people of this country for relief from the burden of exorbitant railway rates."

"This proposed huge increase of C. P. R. capitalization will, if it is allowed, not only provide a means for one more dividend, but will create a bulwark of increased capital, a bulwark from behind which the fight against reduction of railway rates can be carried on more powerfully than ever. It is time to call a halt to this procedure of the C. P. R. It is time to bring the C. P. R. to terms and compel that corporation to make just concessions in the way of rate reduction in respect to the demand of the public. It is time to put an end, once and for all, to the methods of corporation 'high finance' which mean robbery of the people of Canada and a daily home-work of increased capital for corporation shareholders."

WILD ANIMALS PROVE A MENACE

To Settlers in Northern Quebec —Have Thrived With Protection—Organized Efforts to Reduce Danger. QUEBEC, Aug. 20.—That wolves and bears are increasing in numbers in Northern Quebec, and notably in the National Park, where wild animals are protected by law, and that in some places they are becoming a menace to the safety of the settlers and their domestic animals, is indicated by a petition received by Dr. Deschamps, deputy minister of crown lands, from the Townships of Mesy and Caron in the Lake St. John district. The petition is signed by the mayor and residents of the townships and requests that they be allowed to kill bears and wolves in the portions of the park which border the townships in question, as the animals are making great ravages among the sheep and cattle. Not only will the petition be granted, but it is planned to organize fortnightly hunting parties to enter the section of the park mentioned.

The Calgary News-Telegram (Ind. Lib.) speaks right out in meeting and we think sizes up the situation quite pointedly. It says: "Premier Borden and his government cannot afford to allow any such proposal to be put into practice. If he does he forfeits for all time any claim he has on support from the west. Sir Wilfrid Laurier showed most unfortunate weakness when he permitted this same company to get away with a deal of a couple of years ago, and at this particular stage with an actual increase in the price of wheat, with many farmers to the outcome, the people of Western Canada are in no mood to tolerate any such move as that apparently contemplated by the C. P. R. directors."

The Montreal, Ottawa, Hamilton and London papers have not yet declared themselves editorially. In Toronto, The World has not let a day go by without expressing its disapproval of the deal, and has called, and is calling, upon the government to stay its hand until the whole matter is submitted to parliament. The Toronto Star, to the extent, at least, of one vigorous editorial, has commended the World's position declaring that parliament must be consulted. The Mail and Empire endorse the idea of a stock issue, but ignore the melon-cutting feature, which invariably attends an issue of this kind. The Globe and the Toronto Telegram and the Toronto News are under the bed. The Daily Hint From Paris

THE FLUTED DRESS

One of the novelties introduced by French dressmakers which promises to be much favored for the next season, is the use of fluting in many materials.

A dress with a skirt entirely of fluting was chosen to illustrate this, the material being a medium weight voile in navy blue and the fluting causes it to follow the lines of the figure gracefully. The waist is of dull green cloth, braided with blue, and trimmed with glass buttons. A collar and cuffs of embroidered ecru net finishes the neck and sleeves, and a girde of green satin with crocheted pendants is worn.

To Keep Skin in Fine Condition in Summer

(From The Family Physician.) It would be much better for the skin to use a cream powder or rouge used during the hot summer months with perspiration, dust and grime, these things are and are beautiful. Ordinary mercurized wax will do more for the complexion and without giving an oily, shiny, streaked, spotted, pasty appearance. It is the ideal application for the season, as it not only keeps the pores clean, but daily removes particles of dirt and weather. By constantly keeping the complexion clear, white and satiny, it does more toward perpetuating a youthful countenance than any of the arts or artifices commonly employed. The cream of mercurized wax, obtainable at any drug store, will completely renovate the most complexioned skin. It is applied at night like cold cream and washed off in the morning. To keep the skin from sagging or wrinkling, or to overcome such condition, there's nothing better than a face bath made by dissolving 1 ounce powdered saokala in 15-pint water.

IF THIS IS YOUR BIRTHDAY You are threatened with some trouble, and it is well to look carefully on all sides. Avoid quarrels and be careful how you travel or start new enterprises. Those born to-day will be careless and unskillful and will not stick long at anything. They will have initiative ability, but are inclined to lack individuality. If this is acquired they can go ahead with success.

WOMEN WANT FREE SCHOOLS

Propaganda Begun in Quebec For State Controlled Education and Compulsory Attendance.

MONTREAL, Aug. 20.—That every child in the Province of Quebec should receive gratuitous and compulsory education in state-controlled schools is the ideal of the women's league for free and compulsory education, and in order to further that aim the league is completing arrangements for an extensive propaganda thru which it hopes to so influence public opinion that there will be a general demand for the government passing a measure for free schools, and making attendance at them compulsory on all children under the age of 14 years.

The Nursery

My baby's skin is very sensitive, and even the best soap seems to irritate it and produce chafing. What substitute can I use? No soap should be used on this baby's skin, but a bran bath should be given. Place one pint of wheat bran in a cheese cloth bag and leave it in the bath water until well soaked. Then squeeze it for several minutes until the water looks like thin gruel. What is the treatment for prickly heat? Prickly heat is caused by excessive perspiration and often the skin is irritated by flannel underclothing. Put a little or linen shirt next the skin. Sponge the entire body frequently with equal parts of vinegar and water and dust the body well with a powder of two parts starch to one part boric acid.

How long should a baby wear the flannel band? Some babies only need it about one month, also the usual time is three or four months. Replace the band with the wooden binder fastened on the shoulder. The healthy baby does not need the support of the old-fashioned high waist. A thin baby should wear the flannel band longer than four months, as it fits more snugly over the abdomen than the binder. What raw fruit should I give a five-year-old boy? I am glad you have asked this question, because so many people claim that fresh fruit is good for everybody, but I am going to give the entire nursery space up to "fruit." But now for your answer. It is said to give sweet fruit to children under six. Stewed or baked apples, prunes, pears and peaches are all good. The strained juices of sweet oranges, raspberries, peaches and grapes may be given to children with whom they agree. Often in warm weather fruit causes a looseness of the bowels, with a surplus of mucus. In such cases all fruit should be avoided.

GORGEOUS DISPLAY OF FIREWORKS. A Brilliant Exhibition of Pyrotechnics Will Make a Splendid Spectacle at Haven's Point To-Night.

To-night will be a gala one at Haven's Point, when a brilliant fireworks spectacle will be given. This will, in all probability, be one of the most gorgeous pyrotechnic displays that Toronto has seen. In addition to the usual number of what are known as set-pieces, there will be many special numbers, which will include the famous "Willow Trees," "Golden Rods," "Whispering Specters," "Flight of Picnics," one thousand feet in the air; "Niagara Falls," displayed fifteen hundred feet high; "The Blue-Eyed Suzanna," a most novel effect; "The Whistling Coons," and over one hundred comets, which will shoot thru space. A concert will be given by one of the military bands.

DEATH OF HELP IS ONLY GLOOM

In Golden Prospect of West-Government Commissioner Says That Enough Men Cannot Be Got.

WINNIPEG, Aug. 20. (Special.)—"More men are needed in the west if the crop is to be gathered before the snow flies," is the statement of Commissioner J. Bruce Walker this morning on his return from a trip as far west as Edmonton.

"We cannot get men enough to handle the crop this year, try as hard as we can. It is very interesting to read the Ontario papers on the question. The facts of the matter are that the western farmers are going to have a worse time this year in getting their crops harvested than ever before, because there is so much ground under cultivation and the wheat belt stretches in every direction. There is no reason for a man to be idle in the west if there is no work in the cities, let them go out to the farmers, who will be practically helpless without them."

"The wheat is now turned to the golden hue and the great fields for miles and miles make one of the grandest pictures the west has to offer. And the only cloud on this wonderful canvas is the dearth of dead labor."

"The way Commissioner Walker describes conditions, through the west."

Hon. Clifford Sifton is sending his string, including Confidence, Holder of World's Record.

Hon. Clifford Sifton is sending his string of Jumpers to the Canadian National Exhibition this year, among them the golden Confidence, which holds a world's record for the high jump. Montreal owners are also sending their string of Jumpers to Toronto and the net result will be some excellent performances over the sticks in front of the grand stand.

An innovation that will add interest to the horse display is that in the breeding classes. There will be a special day for each breed. One day Percherons will be judged, another Shires and so on thru will list more horses at Toronto than at any of the vaunted horse shows throughout the country.

OTTAWA, Aug. 20. (Special.)—After an almost continuous advance for the past twelve months the department of labor's index number dropped two points in July, standing at 124.8 as compared with 126.9 in June, and 126.9 in July, 1911. The chief decrease during July was in fruits and vegetables, grains and fodders, fish, animals and meats, increases being recorded in hides, leathers, boots and shoes, metals, fuel, lumber and furniture. Some two hundred and fifty articles, selected to represent Canadian production and output, are included in the compilation by which a comparison is made of wholesale prices at the present time with the average price prevailing during the decade 1899-1909.

WHEAT MARKET SHOWS STRONGER PERTONE

Continued Wet Weather in West and General Trend of New Seeds Prices Shows Higher for Day --- Corn at Sharp Advance.

CHICAGO, Aug. 20.—Wheat market closed a fairly firm tone through a listless market, closing from a shade to 1/4c higher. Corn held near last top, September leading with a final figure up 1/4c. Cattle were generally firm and closed 1/2c down to 3/4c higher, and provisions finished from 1/2c to 3/4c lower.

Alternating between strength and weakness a discernible trend in the wheat market kept within narrow limits and displayed some uncertainty. Weakness of demand and a possible investment buying were the chief factors in the market, which prices fell 1/4c to 3/4c, and were apparently favored.

Cash demand and strength of the September delivery overcame the decline pressure on the market, and helped the entire day. Cash sales were 200,000 bushels.

Export demand helped ease values and the market ruled firm from the start. Exports of 400,000 bushels were reported out of a total sale of 710,000 bushels.

Lead was freely sold with other lines the provision list falling. January options were featureless. Packers checked the decline by absorbing offerings.

Northwest Receipts. Receipts of wheat at northwest ports, with usual comparisons, follow:

Chicago To-day, ago, 200, 200; Minneapolis To-day, ago, 100, 100; Duluth To-day, ago, 100, 100.

European Markets. The Liverpool market closed today 1/4c to 1/2c lower than yesterday on wheat, and 1/4c to 1/2c higher on corn. Berlin wheat closed 1/2c lower, and corn unchanged.

Canadian Visible. The Canadian visible wheat supply this week is 6,447,000 bushels, a decrease for the week of 207,000 bushels. Data for 2 weeks show a decrease of 1,029,000 bushels.

Western Stocks. Stocks of wheat at Canadian terminal ports, with usual comparisons, follow:

Port Arthur To-day, last, wk., 108,000, 112,000; Fort William To-day, last, wk., 2,480,000, 2,477,000; Total To-day, last, wk., 2,588,000, 2,589,000.

World's Visible Supplies. Bradstreet's estimate of the world's visible wheat supplies for the week of 1,770,000 bushels, a decrease of 207,000 bushels.

European Visible. The visible supply in Europe this week is 614,600 bushels, a decrease of 23,000 bushels last week, a decrease of 23,000 bushels against the previous week. Last week there was an increase of 1,000,000 bushels, when the total amounted to 74,000,000 bushels.

Stock of wheat on Aug. 1 on the continent amounted to 1,192,000 bushels, against 1,217,000 bushels last month and 1,230,000 bushels last year.

Primaries. Wheat, W. & A. To-day, 123.00; Shipments, 123.00; Corn, 123.00; Receipts, 123.00; Shipments, 123.00.

LIVERPOOL GRAIN EXCHANGE. LIVERPOOL, Aug. 20.—Wheat—Weakness in American cables yesterday offset here by continued rain. Corn—Unchanged, with a slight covering on the open. The market held firm with offerings light, due to small arrivals and firmness of cargo offerings. The European crop prospects less favorable, and causing apprehension, regarding early supplies and quality, during the morning the market ruled dull but firm, some disposition to realize on prospects of clearing weather here and the weakness in Paris opening. Corn opened firm, 1/4c higher, and later September advanced an additional 1/4c with shorts covering on great scarcity of spot and firmness of their offers. Rate spot advanced 1/4c to 1/2c advance, thus making an advance of 1/2c for the week.

HARVESTING AT INDIAN HEAD. The Count wires from Indian Head, Sask.: From Oak Lake to Kirkella wheat nearly ripe and harvest will be general later part of week from Kirkella to Riverton. Crop here is nearly ripe, some fields being harvested today. If frost holds off ten days most of the crop will be safe. In general straw not so heavy as last season, but will yield nearly as heavy as of quality.

ST. LAWRENCE MARKET. Receipts of farm produce were 30 loads of hay, one load of straw, and a few lots of potatoes.

Hay and Straw. Hay, mixed, per ton, \$12.00 to \$14.00; Straw, bundled, per ton, \$10.00 to \$12.00.

Vegetables. Apples, per bushel, \$1.00 to \$1.50; Potatoes, per bushel, \$1.00 to \$1.50.

Poultry. Turkeys, dressed, 10c to 12c; Spring chickens, 8c to 10c.

Best forequarters, cwt. 12.00; Beef, choice sides, cwt. 11.00; Pork, ham, cwt. 10.00.

FRESH MEATS. Beef, forequarters, cwt. 12.00; Beef, choice sides, cwt. 11.00; Pork, ham, cwt. 10.00.

FARM PRODUCE WHOLESALE. Hay, No. 1 car lots, \$12.00 to \$14.00; Potatoes, car lots, \$1.00 to \$1.50.

Hides and Skins. Prices revised by J. J. Carter & Co., 55 East Front St., Toronto.

LIVERPOOL COTTON. LIVERPOOL, Aug. 20.—Cotton futures closed steady, August, 6.45; September, 6.45; October, 6.45; November, 6.45; December, 6.45.

Winnipeg Grain Exchange. Wheat—Open, High, Low, Close, 92 1/2, 93, 92 1/2, 93.

Chicago Markets. J. P. Bickell & Co. report the following prices on the Chicago Board of Trade.

Wheat—Open, High, Low, Close, 92 1/2, 93, 92 1/2, 93.

GRAIN BOATS TIED UP AT FORT WILLIAM. Strike at the Port Delays Loading of Wheat for Shipments.

MONTREAL, Aug. 20.—Cables on Manitoba spring wheat were unchanged to the lower. The demand continues fairly good for both old and new crop, but the volume of business doing is small.

Local grain dealers' quotations are as follows: Oats—Canadian western oats, extra No. 1, feed, track, lake ports, 45c; Ontario, No. 1, feed, track, lake ports, 45c.

Wheat—No. 2, red, white or mixed, 80c to 90c per bushel; Ontario fall, No. 2, 45c to 47c; track, lake ports, nominal.

EXPORTERS UNABLE TO CONDUIT BUSINESS

Canadian Farmer Asks Too Much for His Wheat—Crop Conditions.

The grain situation in Canada at the moment has slumped down to the point where prices for our wheat must go lower if export business is to be done.

It is remembered that just a year ago exporters of reciprocity pointed to the fact that wheat was ruling higher in Minneapolis and Duluth than in London as an argument in favor of the pact.

Exporters stated yesterday that they were not in the market for our wheat save at a considerable reduction from what the farmers are willing to take.

Broomfield's weekly summary of foreign crop conditions is as follows: United Kingdom—This is the fifth week since the harvest began, and therefore very little wheat has been cut, and put under cover.

France—There has been further heavy rain, and the property has virtually stopped as yet. It is anticipated that the terms will be announced any day now.

At the office of the company yesterday it was learned that the Flynn syndicate had secured a lease on the property and that probably work had already commenced.

COBALT COMPANY THROWS UP SPONGE. MONTREAL, Aug. 20.—A winding-up order has been granted by Mr. Justice Beaudin to the British-American Cobalt Mines, a company having its head office in this city, and its charter under the Quebec laws.

Chicago Gossip. J. P. Bickell & Co. report Logan & Co. is a disappointment over the slow movement from new spring wheat crop.

Winnipeg Grain Market. WINNIEPEG, Aug. 20.—Trading in options was narrow, with narrow fluctuations around opening prices, which were unchanged to 1/4c higher.

COBALT STOCKS SAME OLD STORY AGAIN IN MINING MARKETS

Cobalt Are in Demand, But Porcupine Issues Are Practically Ignored — Less Cobalt Higher — Wettlaufer at New Low Record.

World Office. Tuesday Evening, Aug. 20. It was the same old story over again in the mining exchanges to-day. The market, being ruled by dullness of the most extreme nature, price changes in and out of the instances were held to narrow margin, and in fact outside of another sudden spurt in Foster, the whole lot moved in absolute apathy.

The upturn in Foster was inspired by the practical certainty that the Flynn syndicate would commence development work in the next few days.

There are no funds in the treasury of the Wright Silver Co., hence that asset can hardly be figured as a factor.

WETTLAUFER DOWN TO NEW LOW RECORD. Wettlaufer dropped to a new low record for the year at 38 in the Standard.

FLYNN'S TO LEASE FOSTER PROPERTY. While the Flynn syndicate has made arrangements to reopen the Foster property at Cobalt, the deal with the latter company has virtually stopped as yet.

A SILVER MARVEL

If you could produce silver at a cost of 10c an ounce and sell it at 62c you would make money out of such an enterprise even if you did not own all of it, wouldn't you? Provided the enterprise conducted production on a big scale you would be satisfied with the ownership of a piece of it, wouldn't you? Of course. Well, do you know you can secure a partnership interest in such an enterprise? How? By becoming a stockholder.

MCKINLEY-DARRACH-SAVAGE. This company is producing silver at a cost of 10c an ounce, its output is a round three million ounces annually. It has nearly six million ounces actually blocked out reserves to say nothing of reserves in unexplored areas of the property. It has been paying dividends since 1907, its disbursements totalling \$3,500,000, or 125 per cent on the par of its capitalization. It promises to continue paying dividends for years to come. The purpose of this enterprise is your chance to secure a partnership interest in an enterprise which is producing silver at a cost of 10c an ounce and selling it for better than 60c, an operation which makes profits of 50c on every ounce.

Write for a copy of our 3000-word report on this property and its stock. This report is free for the asking. We will carry McKinley-Darrach-Savage on a main basis, and we will sell you a share and selling it for better than 60c, an operation which makes profits of 50c on every ounce.

HUDSON BAY CO. DENIES REPORT. The directors of the Timskaming and Hudson Bay Mining Company have issued a denial of the story that was given wide publicity recently in Toronto and Montreal to the effect that the company had taken an option on the Gosselin claims in West Lorrain. The officials of the company state that the T. and H. B. Company is not looking for any interests in that section. They are actively interested in Gosselin at present and any new acquisition by the company outside of the Cobalt camp will be most likely made to Gosselin.

FIND PLATINUM IN THE PORCUPINE. Reports from the Porcupine camp are to the effect that further finds of platinum are being made in McArthur Township, and great excitement is being caused thereby. Last week samples of ore brought in from McArthur camp by J. C. Carrasco of Porcupine, gave values of \$27.50 in platinum and \$3.00 in gold. The ore was taken from a vein of a hundred feet in width. The sampling was done from the surface, and is probably the richest in platinum of any ore which has ever been analyzed in the Porcupine mining division.

BIG DOME AT \$18.00. Big Dome shares sold on the curb yesterday at \$18, a quarter of a point advance for the day and \$1.50 a share up from the low record of two weeks ago. The range on the stock in the local markets is as follows:

When Rio sold up to 154 7/8 last July, the market was in a state of confusion, and the price reached 160. That would have indicated a value of par for Brazilian, which for a six percent, with its possibilities, would not have been at all out of the way.

The **SIMPSON** Company Limited

The Best Time to Buy Tents

Like many other summer goods, tents have their lowest prices in the late summer. It does not pay us to store them, hence the price, but it is excellent policy for you to buy now, as the saving is considerable, when you consider the use you can get from a good tent this year and next spring.
Thursday's special is a large tent (18 only), 10 x 12 feet, with a 3-foot wall, made from the best 3-oz. duck, every seam reinforced, complete with poles, pegs and guy ropes. Get one for the garden, for picnics or your summer holidays. Easy to put up or take down, can be packed into very small space. Regular value \$15.00. Clearing Thursday **10.95**

OUR NEW STOCK OF PANNE VELOUR has just been opened up. This fabric makes lustrous, beautiful and soft hangings. Used as a covering it has richness and durability. Shades of rose, pale green, champagne, etc., are to be found for the drawing-room, and the rich dark browns, greens, blues and crimsons for the library or living-room. 40 inches wide. Remarkable value at yard **2.75**

ST. REGIS SILK. A new manufacture, light in weight, soft in texture, and practically undecorable. The casement window takes kindly to draperies of St. Regis. All soft pastel shades, 50 inches wide. Price, yard **1.25**

SILKOLINE, 150 YARD. Silkoline, 36 inches wide, in a variety of shades and colors that surpasses any we have before shown, for inexpensive but effective window hangings. Colors and designs to be had to match any coloring in bedrooms or the more solidly furnished living rooms. Thursday, yard **.15** (Fourth Floor.)
