## KAISER YIELDS WILL BRIDLE TONGUE

After Interview With Chancellor Promises in Future to Conform to Constitutional Methods of Government.

BERLIN, Nov. 17.—Forced by the angry tide of popular feeling that swept the empire from end to end, Emperor William to-day yielded to the nation, and promised henceforth to conform himself to constitutional methods of conducting the policies of Germany.

The climax to the public utterances of the emperor was reached in an interview which he gave to an Englishman and which was published in The London Daily Telegraph on Oct. 23. As the outcome of this the whole country was aroused, the Reichstag endorsed the attitude of many of its most prominent members when they denounced the sovereign, and Chancellor Von Buelow, while he attempted to smooth away the affair, undertook to communicate to his majesty a straightforward and unvarnished statement of how the German people viewed his intervention in affairs of state.

Kaiser's Promise.  
The interview between the emperor and the imperial chancellor took place at the new palace in Potsdam this morning, and at its conclusion the emperor made formal promise to his people that he would not in the future act except thru the chancellor and his associate ministers. This promise was made public in The Reichsanzeiger, the official gazette of the empire. It was in the form of a note printed on the front page, where decrees, the texts of treaties and the promulgation of new laws usually appear. It was as follows:

"During to-day's audience, granted to the imperial chancellor, his majesty, the emperor and King, listened for several hours to a report by Prince Von Buelow. The imperial chancellor described the feeling and its causes among the German people in connection with the article published in The Daily Telegraph. He also explained the position he had taken during the course of the debates and interpellations on this subject in the Reichstag. His majesty, the emperor, received the statements and explanations with great earnestness and then expressed his will as follows:

His Principal Task.  
"Headless of the agitations of public criticism which are regarded by him as incorrect, his majesty perceives that his principal imperial task is to ensure the stability of the policies of the empire, under the guardianship of constitutional responsibilities. In conformity therewith his majesty, the emperor, approves the chancellor's utterances in the Reichstag and assures Prince Von Buelow of his continued confidence."

Prince Von Buelow had determined

**BRYAN WON'T SAY NOW IF HE'LL RUN AGAIN**  
Will Not Attempt to Answer Question Until Time Comes for Him to Act

SAN ANTONIO, Mex., Nov. 17.—"My friends do not require me to prejudice the future and I shall not take the advice of my opponents on this subject. I shall continue to write and speak in defence of things which I believe to be good for the American people. I hope it may never become necessary to run for office again, but I will not attempt to decide that question until the time comes to act. I do not see any necessity to say more on the subject."

BY-ELECTION IN MANITOBA.  
Conservative Wins Seat for Legislature by 100 Majority.  
WINNIPEG, Nov. 17.—A by-election for the local legislature was held in Gilbert Plains to-day, and resulted in the return of Duncan Cameron, Conservative, by 100 majority.

LETTER TELEGRAMS.  
French Government Supplements Special Delivery System.  
PARIS, Nov. 17.—The ministry of posts and telegraphs has supplemented the existing special letter delivery system in France with what are termed "letter telegrams."

## Image Stops Hiccough Fit

After 120-Hour Attack Charles Miller's Affliction Quit at Sight of Grotesque Statue.

NEW YORK, Nov. 18.—When science had failed to cure a case of hiccoughs that had endured for 124 hours and two eminent physicians at helpless, a little image of "Billkins" was thrust before the patient's eyes, and he hasn't hiccoughed since.

## Shirtwaists Offered For Sale From Pulpit

Boston Pastor Takes Novel Means of Aiding Working Girls of Porto Rico.

BOSTON, Nov. 17.—Rev. Robert S. Johnson, pastor of the Warren-avenue Baptist Church, surprised his congregation Sunday evening by displaying a shirtwaist and other articles of woman's apparel from his pulpit and saying they were for sale. He did it to help Porto Rican working girls.

## Winsted Cat Quits 'Dry' Town

WINSTED, Conn., Nov. 17.—Fannie, a cat owned by Barrethor Bros, had a liking for lager beer. When the owners went out of business and Fannie missed her drink, for some days she went to her senses and cried for beer, but she was forthcoming she disappeared. It is suspected she has gone to the nearest license town.

## ELECTRICAL WORKERS SEGEDE FROM A.F. OF L.

Bitter Fight in Convention Over Seating of Delegates—Freight Handlers Compromise.

DENVER, Col., Nov. 17.—At to-day's session of the convention of the American Federation of Labor, the committee on adjustment reported that a compromise had been reached in the controversy between the Freight-Handlers' Union and the Brotherhood of Railway Clerks.

## WARNOCK WILL IS VALID FIRST WIFE IS CUT OFF

Mrs. Eva Warnock Entitled to \$32,000 Left Her by Ottawa Horseman.

BROOKVILLE, Nov. 17.—(Special).—The Warnock will case came to an abrupt ending to-night. At the conclusion of the evidence Chief Justice-Falconbridge declared the last will and testament of the deceased horseman, J. G. Warnock, to be valid.

FIRST SOD TURNED TO-DAY, Ceremony Marking Beginning of Power Transmission Line.

At 3 o'clock to-day the ceremony of turning the first sod in connection with the construction of the Niagara power transmission line to the city will take place.

The subscribers in Hamilton are requested to register complaints as to delivery of the paper at the Hamilton Building, Phone 955.

### TEMPERANCE PEOPLE MAP PLAN OF CAMPAIGN

Not Decided Whether to Ask for Reduction Plebiscite or Elect Favorable Council.

HAMILTON, Nov. 17.—(Special.)—The temperance federation, made up of members of temperance societies and churches, met this evening and mapped out a lively campaign for a reduction in the number of liquor licenses. Just how they will try to accomplish their end will not be decided until next Saturday night, but in the meantime arrangements will be made for meetings, commencing next Monday evening at 8 o'clock. Monday night, James-street Baptist Church, Rev. Dr. Pidgeon, Toronto, speaker; Tuesday night, St. Andrew's Presbyterian Church, Ald. D. E. H. Toronto, speaker; Wednesday, First Methodist Church, Rev. Dr. Chown, Toronto, speaker; Thursday, Brethren's Church, Rev. Dr. Stewart, Toronto, speaker; Friday, Knox Church, Rev. B. Spence, Toronto, speaker; Saturday, St. Andrew's Presbyterian Church, Rev. Dr. Stewart, Toronto, speaker; Sunday, St. Andrew's Presbyterian Church, Rev. Dr. Stewart, Toronto, speaker.

At the Hamilton Presbytery this afternoon calls were sustained from Scarborough to Rev. J. Anthony, West Hill, and from St. Giles' Church, Hamilton, to Rev. R. G. Paulin, Toronto. Mr. Paulin will be inducted on Nov. 20.

At the annual meeting of the Hamilton District Epworth League Convention this afternoon the following officers were elected: Rev. R. J. Trevelyan, hon. president; George I. Lamb, president; C. J. Nicholls, A. E. Wilcox, Mrs. G. Flinn, and Mrs. G. Jones, vice-presidents; J. H. Robinson, treasurer; Miss Lutz, secretary. The receipts for the year amounted to \$1871 and there was a deficit of \$225.

Arthur Payne, 14-year-old boy, was remanded until Wednesday in police court today on the charge of damaging the Plains-road Methodist Church. It is alleged that he poured boiler oil on the exterior of the building, smashed the organ and the lamps.

An extradition warrant was issued today for Roy Voelker, a youth who had escaped from an industrial school near Rochester. The lad had had an exciting career. In 1907 he was sent to the Mimico Industrial School, from which he escaped, afterwards falling into the hands of the police at Westchester and being sent to the Rochester Industrial School for theft. He made his escape from this institution in 1908.

Mrs. Telfer, Chicago, claims that her 15-year-old son, George, was stolen from her and brought to Hamilton. Claims Rich Estate.

William Wilson, 48, Wilson-street, and his sisters, two of whom live in Toronto, are laying claim to one of the richest estates in England. Mr. Northedge says he is a descendant of Sir Edward Northey, attorney-general in Great Britain in the reign of William III. The estate is valued at over 5,000,000.

Two Years for Scheck. Morley Scheck, the young man who robbed several houses by passing himself off as an electric wire inspector, was sentenced to two years by Judge Snider today.

# EATON'S DAILY STORE NEWS

## ARE YOU READY FOR A FUR-LINED COAT?

This Coat  
**\$65.00**

It looks as if the weather would get the best of the man who puts off his Fur Coat purchase much longer. And we'd like to ask why any man SHOULD—with price reason so good as this for now buying.

A coat that is an EXAMPLE of the right kind of tailoring—with shell of fine, black beaver cloth, smooth finished, full box cut—and lining of prime, full-furred, No. 1 Canadian Spring muskrat—and a high storm collar, notch style, of choice dark otter—this coat we offer as a special buying inducement for **\$65.00**. That price is well worth earnest consideration. We'd like to SHOW you the coat. That will give us an opportunity to PROVE to you, even better than the accompanying illustration can intimate, that it is well worth the . . . . . **\$65**

## FUR COAT FOR DRIVING AND AUTOMOBILING

This Coat  
**\$80.00**

The picture is a fair illustration of its full, generous cut, big storm collar and "solid comfort" appearance. Coat is made of raccoon—selected, dark, full-furred pelts, evenly matched, sewn together in such a way that makes ripping next to impossible. The shoulders are broad, the skirt wide, the high storm collar turns up well around the ears. Lined with Italian cloth, quilted.

Just what a coat of that kind is worth to the man on the automobile, carriage or wagon seat in stormy weather will be best appreciated by those who have felt the WANT of such protection. One fact is certain—this coat, our own make, backed by our guarantee of satisfaction, offers a fur buying proposition not to be bettered. And we've further buying reasons for the man who'll come and examine the coat. Price is **\$80**

## PERSIAN LAMB IS FAVORED For Cap--Collar and Gloves

This aristocrat of men's furs has received our particular attention this season—resulting in values out-of-the-ordinary and most gratifying assortments.

### Adjustable Coat Collar

Of Persian lamb, can be attached to any cloth coat. It will greatly enhance the appearance of a coat, and give added comfort in stormy weather; made from fine whole pelts, with satin lining; perfect fitting. Price **18.00** Others from \$10.50 up.

### Gauntlet Gloves

A serviceable and particularly dressy pair is made from prime, full-furred skins of even, glossy curl. Soft, pliable, easy fitting fingers. Fur-lined to the wrist; cuff lined with satin. The price . . . . . **20.00** Others from \$14.75 up.

### Persian Lamb Cap

Military wedge style, made from prime skins with bright, even curl, satin lined, durable and handsome; sizes 6 5-8 to 7 1-2. This is a very well-liked and useful winter cap, and is the favorite of young men especially. Price **12.00** Others from \$7.50 up.

## A VERY HANDSOME CARRIAGE ROBE

It is, perhaps, the most POPULAR Carriage Robe. The long, shaggy fur being particularly attractive and pleasing in appearance.

The Robe illustrated is of No. 1 grade, black China goat, choice selected skins, the pelts soft and pliable. It is lined with a heavy green plush and finished with double scalloped edges of felt, one green, the other red. The picture really doesn't show all the attractive features of this robe, but is more to give an idea of the nature of the fur. Here are the prices (with sizes)

MADE OF NO. 1 GRADE BLACK CHINA GOAT SKIN.

48x58	52x64	56x66
\$9.00	\$10.50	\$12.00

## SEE THIS MONTANA BUFFALO ROBE

For hard, steady wear this Robe certainly takes first honors. The fine, burly buffalo cloth of which it is made seems capable of no end of heavy service; it is the best quality and finished to a very inviting appearance. The robe is lined with Astrachan cloth; that means more service and greater warmth. Then it is interlined with rubber, which renders it windproof and waterproof. Finished with scalloped felt edges.

It is essentially a robe for service. These prices (and sizes)

52x54	62x54	72x54
\$5.75	\$6.75	\$7.75

MADE OF FINEST BURLY BUFFALO CLOTH.

## JENNIE BARR MURPHY

### HANDICAP AT OAKLAND

Booger Red, 50 to 1 Shot, is Second. Fitzherbert, Favorite, Thire.

OAKLAND, Nov. 17.—Jennie Barr McEvedy won the Clay Handicap at Emeryville from Booger Red. Fitzherbert was the favorite, but Booger Red was soon crowded out, and the responding name in the stretch, could not get up. Booger Red was broken and had no chance. Summary:
FIRST RACE—Six furlongs: Booger Red, 50 to 1; Fitzherbert, 10 to 1; Gossamer II, 10 (Archibald), 12 to 1. Time 1:17.5.
SECOND RACE—Four furlongs: Fitzherbert, 10 to 1; Mabel Fountain, 10 to 1; Sempronius, 10 (Walsh), 7 to 1. Time 1:10.
THIRD RACE—One mile: Little Minister, 109 (Kirschbaum), 3 to 1; Bockersall, 12 (Archibald), 9 to 5; Kelowna, 11 (Walsh), 20 to 1. Time 1:41.5.
FOURTH RACE—Five furlongs: Booger Red, 50 to 1; Fitzherbert, 10 to 1; Mabel Fountain, 10 to 1; Sempronius, 10 (Walsh), 7 to 1. Time 1:10.
FIFTH RACE—One mile: Ed. Hall, 109 (Keogh), 12 to 5; Phoenix, 107 (Smyth), 10 to 1; Kermit, 111 (Hayes), 13 to 1. Time 1:41.5.
SIXTH RACE—One mile and 70 yards: W. T. Overtun, 104 (Walsh), even; Woodcock, 10 (Fisher), 12 to 1; Neva Lee, 107 (C. Miller), 2 to 1. Time 1:43.4.
PALE CHANCE WINS HANDICAP. HOUSTON, Nov. 17.—70-day's results at the Houston track:
FIRST RACE—Purse, 5 furlongs: 1. Lomond, 106 (Lindsay), 3 to 1; 2. Minnette, 108 (S. Murphy), 4 to 1; 3. Flying Pearl, 98 (Louden), 12 to 1. Time 1:03.5.
SECOND RACE—Selling, 6 furlongs: 1. Ivan, 108 (Butwell), 3 to 1; 2. Quarter, 109 (Fendergast), 3 to 5; 3. Balahet, 106 (Young), 4 to 1. Time 1:17.5.
THIRD RACE—Selling, 7 furlongs: 1. Fair Chance, 110 (Fisher), 2 to 1; 2. Joe Stokes, 101 (McDowd), 4 to 1; 3. First Premium, 122 (Burns), 9 to 4. Time 1:20.
FOURTH RACE—Selling, 6 furlongs: 1. Watauga, 107 (Butwell), 3 to 1; 2. Sam Barber, 108 (Butwell), even; 3. Anna Donohue, 108 (McCullough), 5 to 1. Time 1:17.5.
FIFTH RACE—Selling, 7 furlongs: 1. Gladys Louisa, 107 (Fisher), 10 to 1; 2. Rubiola, 107 (Fendergast), 7 to 1; 3. Barton, 101 (McCullough), 10 to 1. Time 1:23.5.
SIXTH RACE—Selling, 6 furlongs: 1. Ivan, 108 (Butwell), 3 to 1; 2. Quarter, 109 (Fendergast), 3 to 5; 3. Balahet, 106 (Young), 4 to 1. Time 1:17.5.
SEVENTH RACE—Selling, 1 mile: 1. Lord Dixon, 104 (Butwell), 3 to 1; 2. Duchess of Montebello, 104 (Molesworth), 4 to 1; 3. T. J. Powell, Dick Redd, Walter McLean, Proteus and Doubt also ran.

### World's Selections

Oakland, Nov. 17.—The following are the Oakland entries for Wednesday, Nov. 18:
FIRST RACE—Silver Sue, Arnold, Rose Cherry.
SECOND RACE—Voorhees, Nagazam, Belle Kinney.
THIRD RACE—Madman, Schlegel, Rosamond.
FOURTH RACE—Dandelion, Montgomery, Dorante.
FIFTH RACE—Smiley Metzner, Merrill, Combury.
SIXTH RACE—Fireball, Right Easy, Belwater.
MOST PROBABLE WINNER. Third Race at Oakland.
Dominion Chess Championship. A tournament for the title of Dominion champion will be held during Christmas week under the auspices of the Toronto Chess Club, at whose quarters, 96 West King-street, the games will be played, the qualification being one year's residence in Canada. The entrance fee is \$5, \$5 to be returned to those playing all their games. The trophy which goes with the title was, on the last occasion, when the championship was contested in Montreal, won by Magnus Smith of Winnipeg, who has been champion for the last two years. This season's winner will not compete this year, as he has lately devoted himself to business, and now resides in the United States.
The first prize will be of the value of \$250, and the second prize will be of the value of \$100. The organizers of the tournament, it is therefore hoped as early as possible with R. G. Hunter, game, and others, will make some contribution to the tournament fund, and assist in making the contest a success.
A special committee for the general supervision of the arrangements will be elected later on. In the meantime, intending competitors are invited to communicate as early as possible with R. G. Hunter, 18 Toronto-street, Toronto, to whom entries should be sent. The chess code used at the Cambridge Springs tournament in 1904 will govern the play.
The Tremblay-Edmunds Bout. Bob Harrison, the veteran Canadian champion wrestler, has been asked to defend his title against Frank Gladstone, a local champion, at the Tremblay rink between Art Edmunds and Eugene Tremblay of Montreal, the lightweight champion of the world. The chances are that Harrison will win, as Gladstone, Allan Macdonald, at 135 lbs, will furnish the curtain-raiser. The semi-weightweight bout between Harrison and Eugene Tremblay of Montreal, the lightweight champion of the world. The chances are that Harrison will win, as Gladstone, Allan Macdonald, at 135 lbs, will furnish the curtain-raiser. The semi-weightweight bout between Harrison and Eugene Tremblay of Montreal, the lightweight champion of the world. The chances are that Harrison will win, as Gladstone, Allan Macdonald, at 135 lbs, will furnish the curtain-raiser.
The Lampton Hockey Club. The Lampton Hockey Club has held their annual meeting and elected the following officers for the coming season: W. A. Harrison, president; T. Elliott, honorary vice-president; Dr. Bull, T. Walker, M. P. Dr. Godfrey, M.L.A. F. McCutcheon, W. B. Claxton and J. Fleming, president; J. Lawrence, vice-president; W. McCutcheon, secretary; F. Mathers, captain; M. Elliott, secretary-treasurer; G. Creech, secretary.

### Wants Harmony in Soccer

Manager Allman Deplores Loss of Gate, Etc., and Has Suggestions.
Sporting Editor World: Being a regular reader and an admirer of your most excellent paper, especially the sporting page, I beg to express my sincere sympathy for the loss of the gate, and to offer a few suggestions and opinion that I have arrived at after six years of residence in Toronto.
One of the principal reasons is that the Toronto executive of this branch of sport have not filled the bill. They have not seen to it that the rank and file, on numerous occasions certain players have been reported for consistent dirty and foul play. What has been the result? The executive, have brought out the old, sad-sad, yet familiar, whitewash applied coat after coat, till one could almost imagine he saw the far famed white elephant.
Why, I ask in the name of sport, did they not strictly and fearlessly hand out the lash of justice? If they had, the result would have been a different one. I earnestly and sincerely hope they will let the chosen executives of the past, their respective duties without fear and without favour. Let them strongly support the referees.
Time and again I have seen some of our most respected referees insulted, bullied, yes, worried, till their sense of justice must have been unwillingly injured. What has Association football to gain by this? Nothing whatever. What does either side gain by it? As far as I can judge, only reduced gate moneys, loss of club membership, less everything that goes to make a sport successful; driving away old lovers of the game, men who are utterly sick and tired of continual bickering, jealousies and boastings of the respective parties concerned.
Let me here make a suggestion, which I am positive will help to minimize in the future a lot of the unnecessary and foolish ill-feeling. It is not always the players, nor the executive, who are to blame. In the majority of cases where there is a fight, referee-knocking, etc., have occurred, a close observer can easily see that the players are goaded on by partisan supporters, whose sense of justice is so warped sometimes that they fail to see both sides of the case. I would instruct a dozen or more of their true supporters to move about amongst the spectators, advising against, and if necessary, opposing, inclination to foul play, foul language, and referee-knocking.
The lowest of any tender for the estimated amount of the contract, payable to the order of the Minister of Education, must be furnished by each tenderer as a guarantee of his bona fides. Two sufficient sureties will be required for the due fulfillment of such contract, and should any tender be withdrawn before the contract is awarded, he should be liable to the full amount of the deposit. Specifications and forms of tender may be had on application to the Bureau of the respective Institutions.
Any tender not necessarily accepted.
RICHARD TEW, Assignee.
NOTICE TO CREDITORS.—In the Matter of the Estate of Adelaide Banister, Late of the City of Toronto, in the County of York, Married Woman, Deceased.
Notice is hereby given, pursuant to the Revised Statutes of Ontario, Chapter 129, that all persons having claims against the estate of the said Adelaide Banister, who died on the 11th day of October, 1908, are required, before the 11th day of December, 1908, to send by registered mail, addressed to the undersigned, sole Executor of the will of the said deceased, full particulars of the claims, and the nature of the security (if any) held by them before distribution.
And take notice that after the last-mentioned day the said Executor will proceed to distribute the assets of the estate, having regard only to the claims of which I shall then have received notice.
Dated this 11th day of November, 1908.
HEIGHINGTON & HEIGHINGTON, Home Life Building, Toronto, Solicitors for the sole Executor, Angus C. Heighington, Nov. 11, 1908, Dec. 11, 1908.

The executive, have brought out the old, sad-sad, yet familiar, whitewash applied coat after coat, till one could almost imagine he saw the far famed white elephant.
Why, I ask in the name of sport, did they not strictly and fearlessly hand out the lash of justice? If they had, the result would have been a different one. I earnestly and sincerely hope they will let the chosen executives of the past, their respective duties without fear and without favour. Let them strongly support the referees.
Time and again I have seen some of our most respected referees insulted, bullied, yes, worried, till their sense of justice must have been unwillingly injured. What has Association football to gain by this? Nothing whatever. What does either side gain by it? As far as I can judge, only reduced gate moneys, loss of club membership, less everything that goes to make a sport successful; driving away old lovers of the game, men who are utterly sick and tired of continual bickering, jealousies and boastings of the respective parties concerned.
Let me here make a suggestion, which I am positive will help to minimize in the future a lot of the unnecessary and foolish ill-feeling. It is not always the players, nor the executive, who are to blame. In the majority of cases where there is a fight, referee-knocking, etc., have occurred, a close observer can easily see that the players are goaded on by partisan supporters, whose sense of justice is so warped sometimes that they fail to see both sides of the case. I would instruct a dozen or more of their true supporters to move about amongst the spectators, advising against, and if necessary, opposing, inclination to foul play, foul language, and referee-knocking.
The lowest of any tender for the estimated amount of the contract, payable to the order of the Minister of Education, must be furnished by each tenderer as a guarantee of his bona fides. Two sufficient sureties will be required for the due fulfillment of such contract, and should any tender be withdrawn before the contract is awarded, he should be liable to the full amount of the deposit. Specifications and forms of tender may be had on application to the Bureau of the respective Institutions.
Any tender not necessarily accepted.
RICHARD TEW, Assignee.
NOTICE TO CREDITORS.—In the Matter of the Estate of Adelaide Banister, Late of the City of Toronto, in the County of York, Married Woman, Deceased.
Notice is hereby given, pursuant to the Revised Statutes of Ontario, Chapter 129, that all persons having claims against the estate of the said Adelaide Banister, who died on the 11th day of October, 1908, are required, before the 11th day of December, 1908, to send by registered mail, addressed to the undersigned, sole Executor of the will of the said deceased, full particulars of the claims, and the nature of the security (if any) held by them before distribution.
And take notice that after the last-mentioned day the said Executor will proceed to distribute the assets of the estate, having regard only to the claims of which I shall then have received notice.
Dated this 11th day of November, 1908.

### Wants Harmony in Soccer

Manager Allman Deplores Loss of Gate, Etc., and Has Suggestions.
Sporting Editor World: Being a regular reader and an admirer of your most excellent paper, especially the sporting page, I beg to express my sincere sympathy for the loss of the gate, and to offer a few suggestions and opinion that I have arrived at after six years of residence in Toronto.
One of the principal reasons is that the Toronto executive of this branch of sport have not filled the bill. They have not seen to it that the rank and file, on numerous occasions certain players have been reported for consistent dirty and foul play. What has been the result? The executive, have brought out the old, sad-sad, yet familiar, whitewash applied coat after coat, till one could almost imagine he saw the far famed white elephant.
Why, I ask in the name of sport, did they not strictly and fearlessly hand out the lash of justice? If they had, the result would have been a different one. I earnestly and sincerely hope they will let the chosen executives of the past, their respective duties without fear and without favour. Let them strongly support the referees.

## A Tuxedo Coat

Is quite a necessity these days, if you want to be smartly dressed. For a stag party, a theatre party etc. where no ladies accompany you. For banquets and all functions attended by males only. We are particularly proud of this garment. Nothing has been spared to make this coat a feature of our well assorted stock of men's clothes.

**GERMANY AND DIVINE RIGHT.**  
 Wonder has often been expressed why an educated people, which Germans undoubtedly are, should submit to what is really autocratic rule. The fact illustrates the essential difference between the values of the theoretical and the practical. The Germans are an introspective race and their greatest exponent, recognizing his own freedom to think his own thoughts and live his own life, cared absolutely nothing for his political environment. So things might have continued indefinitely, at least so long as the hereditary ruler acted in consonance with popular opinion, and they might even have withstood the efforts of that section of the people who had become indoctrinated with democratic ideas, and were exerting themselves for the establishment of representative government.

But by divine right is a fiction no longer acceptable. Like many other fictions, legal and ecclesiastical, it was the fruit of ingenious minds desirous of justifying a situation arising from other causes and investing it with an authority it did not possess. Once established it became a tradition whose sanctity it was sacrilege to question. And it is not a little curious that the German people, who resisted all attempts, based on argument and reason, to supplant it by a more democratic principle should, in the end be moved to do this by their revolt against its indirection, committed by a sovereign who has identified himself with the doctrine of divine right. Hence representative responsibility is immediately achieved or not recent happenings in Germany have started a movement which will profoundly modify the condition of the empire.

**PROTECT PROVINCIAL RESOURCES.**  
 Knowledge of the mineral resources of Northern Ontario increases it becomes more than ever apparent that the province, by reason of these, as well as from its geographical situation and present position cannot but continue to lead the Dominion. Then Ontario is recognized as possessing one of the world's reserves of timber, besides being naturally advantageous for the prosecution of mixed farming. Under wise and prudent guidance Ontario can be assured of a revenue from its natural resources which would easily make it a rival as a field for enterprises of all kinds and for opportunities open to all its citizens.

In view of the more than possibility that new fields of valuable mineral will be opened up almost immediately the provincial government should take the situation in hand and promulgate a complete and well considered policy dealing with the resources of the province. In two at least of the Cobalt properties a royalty of 25 per cent. is being obtained as the government's share of the output, and this has not prevented the development of the mines or their success as company propositions. Proper regulation can both secure this and protect the public from mining notations that have no solid basis. And proper regulation can obtain not only full value for mature timber, but obviate or greatly minimize the risk of fire and other damage. Let the government and the legislature set themselves resolutely to the matter of utilizing to the fullest extent the wonderful natural resources of Ontario.

**SCHOOL BOYS AND SCHOOL TEACHERS.**  
 A well-known physician has arranged the public school system of the United States as fundamentally inefficient. His objections, if well founded, will apply with equal force to our own schools.

He complains that the whole scheme of education is distinctly feminine; that the teachers are mainly young women, and that, in the higher grades, the girl pupils outnumber the boys; that the boys come from the public school with a distaste for hard work; that they are inclined to be foppish and to have a truly effeminate horror of dirty hands and greasy overalls; that they have not a manly outlook upon the work-a-day world. He submits that too many teachers come to their task fresh from the schools, and are unacquainted with the problems of life; that they can only transmit to their pupils the contents of a textbook, and that they are apt to prefer the more practical demands of everyday life.

The suggestion so commonly urged by manufacturers and other business men, that boys are kept too long in school, and that it would be better for

them to start as apprentices and to resume their studies after acquiring some practical training, is not touched upon. It is assumed generally that the school life and the school environment are distinctly unsuited to boys.

It may be said in reply that the average boy is not troubled by excess of refinement, and that a certain percentage of men will always shrink from the battle of life in spite of any refinements in our methods of education. And were it otherwise, the matter of expense cannot be lost sight of. To reach the ideal suggested, it would be necessary to have our boys taught by men who had actually buffeted with the world, and who had to their credit some record of practical achievement. But how are such men to be secured? Retired army officers are vaguely mentioned as a possible source of supply. A retired sea captain should make an excellent schoolmaster. But these veterans of land and sea are usually made inert by a comfortable pension. Ex-presidents are said to make good material, but the supply is limited. Perhaps we may yet be driven to draft upon ex-members of parliament.

**JAPAN'S FOREST POLICY.**  
 Long before the Japanese became responsive to the influence of western civilization, they were alive to the value of their forest resources and the necessity of husbanding and protecting them. For many centuries they have been harvesting their timber on a system which permitted of continuous replacement and maintained the productive value of their woodlands. Japan has valuable forests on the mountain slopes and these have been retained as government property. The sale and cutting of the timber is under strict regulation, and the latter is only allowed under official supervision. As a result a large and constant revenue is obtained, and the evils of deforestation effectively prevented. What Japan has done successfully and profitably Canada ought to do and will do if her governments are worthy of the name.

**ELECTION DAY IN P. E. I.**  
 This is election day in Prince Edward Island, and the contest is lively. Premier Haslam has issued a program upon which he bases his appeal for a renewal of the confidence of the people, and in which is comprised the demands of the Liberal Government. Probably the most important of these is for the construction of the tunnel under the Straits of Northumberland.

Two members of the government party, Hon. George E. Hughes and Dr. Warburton, were elected by acclamation on nomination day, Wednesday, for Charlottetown and Royalty. In the three counties there are fifteen electoral districts.

**THE VETERANS OF TO-DAY.**  
 Editor World: When you say "The ranks of the old soldiers are being thinned out by the grim reaper year by year" this, no doubt, is true, but I am proud to tell you that the blank files in our ranks are being filled by young soldiers, all of whom have seen good service, and take the place of old comrades who have answered their names to the "Roll Call" at "Lights Out." We have now a service roll of over 22,000 men, and the 137th regiment our banquet last evening, which was a grand muster when you consider the age of some of our comrades, and the services they have done for their King, Queen and flag.

W. Andrews Collins, Major, pres.

**THE STRAW THAT BROKE THE CAMEL'S BACK.**  
 Editor World: Errors in judgment are expected, but good reasons must be given at all times for bad judgments, and we are quite aware that, owing to such large proportions as this Toronto Street Railway now assumes, accidents sometimes cannot be avoided, but such delicate bad judgment on the part of someone last Monday night is deserving of severe censure. Are respectable citizens to be treated like cattle? I doubt not if a member of the Humane Society saw a car crowded the same as this night with human beings but what the company would be brought before the judge. The car that I was in, passengers were already standing when we came to the switch at the East King barns we were informed that we had to take the car behind. There was the usual cry of shame, this thing is occurring too often, etc. However, the grand rush came, men, women and children had to go out in the mud, only to find the car behind, equally crowded, so the crowd, anxious to get home, crowded into the already crowded car and some had to wait for the next car. How long are the people of the east end to stand the tyranny of a company which is given a franchise purely for the convenience of the

people? Arrangements are being made for the citizens of the east end to indicate their opinion, and to arrange if possible some better means of transportation to and from their homes.

## IN THE LAW COURTS

**IN THE HIGH COURT.**  
 Orono Hall, Nov. 17, 1903.  
**Announcements.**  
 Motions set down for single court on Wednesday, 18th inst. at 11 a.m.: 1 Levinsky v. Garofsky; 2 Husland v. Colvin; 3 Pelton v. Bages; 4 Rex v. Colvin; 5 Rex v. Estabrook; 6 Rex v. Knowles; 7 Greenberg v. Greenberg.

**OLLA PODRIDA.**  
**TRY SMILING.**  
 When the weather suits you not, try smiling.  
 When your coffee isn't hot, try smiling.  
 When your neighbors don't do right, try smiling.  
 When your relatives all fight, try smiling.  
 When you are in a bad way, try smiling.  
 When you are in a tight place, try smiling.  
 When you are in a bad way, try smiling.  
 When you are in a tight place, try smiling.

**Master's Chambers.**  
 Before Carwith, master:  
 Setchfield v. Paterson—E. A. Forster for plaintiff, W. A. Keans for defendant. The motion was for an order to strike out certain paragraphs of statement of defence. This is an election case. Judgment in favour of plaintiff. Costs to be paid by defendant.  
 Rex v. Lamothe; 2 Sutherland v. Lamothe; 3 McLeod v. C. N. O. Railway; 4 Rex v. Dewey and O'Neil, Limited; 5 Rex v. Dewey and O'Neil, Limited; 6 Rex v. Dewey and O'Neil, Limited; 7 Rex v. Dewey and O'Neil, Limited.

**Divisional Court.**  
 Before the Chancellor, Magee, J.; Latchford, J.  
 Rex v. Mackenzie, for the defendant, moved for an order to quash a conviction for illegal sale of liquor. Order nisi granted as asked, subject to an objection as to the regularity of the practice as to whether the proceeding should not be by notice of motion and as to whether or not the defendant should be given by the applicant as to issue.

S. Stonehouse, 24-26 Victoria Street, Toronto. One-fourth part of purchase money at time of sale and balance within fourteen days. Further particulars apply to R. S. STONEHOUSE, Marshal, 24-26 Victoria Street, Toronto. LEBES, HOBSON & STEPHENS, Solicitors, Hamilton.

**ESTATE NOTICES.**  
 In the Matter of Arthur S. Hopkins, in the City of Toronto, Accountant, deceased.

Notice is hereby given that the above-named Arthur S. Hopkins has made an assignment under R.S.O. 1297, Chap. 147, of all his estate, real and personal, to me for the general benefit of his creditors.

A meeting of creditors will be held in my office, 416 Continental Life Building, on Friday, 21st November, 1903, at 2 p.m., to receive a statement of affairs, to appoint inspectors, and fix their remuneration, and for the ordering of the affairs of the estate generally.

Creditors are requested to file their claims with me, with the proofs and particulars thereon, by the said date, and to act on or before the day of such meeting.

And notice is further given that after the 22nd day of November, 1903, I shall proceed to distribute the assets of the debtor among the parties entitled thereto, having regard only to the claims of which notice shall then have been given, and that I shall not be liable for the assets or any part thereof, so distributed, to any person or persons whose claim I shall not then have been notified of.

GEORGE W. DUNBAR, C.A., Assignee.

Boots and Shoes ..... \$25,000.00 Coat Cases and Fliers ..... 30,000.00 Shop Furniture, etc. .... 75,000.00

**Through to New York.**  
 By far the fastest service between Toronto and New York is made by the Canadian Pacific Railway, connecting with New York Central trains. Through Pullman sleeping cars leave Toronto at 5:20 p.m. daily, and 7:15 p.m. daily except Sunday, arriving in New York at 7:50 and 9:30 next morning respectively. A feature of this service, apart from the speed, is that passengers are landed in the heart of New York City at the well-known Grand Central depot.

**Traction Fight in Pittsburg.**  
 PITTSBURG, Nov. 17.—A bitter fight has arisen between Guyhr Guthrie and the Pittsburg Railway Company. The mayor has demanded that the street cars be abandoned loops in the crowded downtown district, put on more cars, give transfers of all kinds and in case they fail to improve the service, President Burt of the Street Railway Company has issued a statement, saying in effect that if the mayor's demands are enforced it will mean hardship to the traveling public, as transfers will be abolished and extra fares charged.

**FREE TO MEN UNTIL CURED.**  
 All men, with very few exceptions, were made strong, and should be so through life. Many have abused the grand privilege and through disipation have become weaklings, puny, lack confidence, can't face the slightest difficulty, have drains, losses, impotence, varicose veins, hemorrhoids, back, etc., and are mere playthings in the hands of their associates. How deplorable a state as was to be paid certain other contractors. The plaintiffs are amending their statement of claim so as to accuse Manager Leonard of the C.P.R. with misrepresentation. The Canada Landed National Investment Company, suing on behalf of the creditors of W. B. Hicks, seeks to set aside an assignment worth \$300 from Hicks to William Colquhoun of Mitchell.

Not a penny of deposit or in advance. I will take your word for it. I only charge price of belt—many cases as low as \$1. Wonderful success has brought forth many imitations of my belt, but my valuable experience to advise and guide my patients cannot be free until a cure is effected, but only at address below. I also send two best books ever written upon health and strength of men. Free, sealed, by mail.

**DON'T GO TO CHURCH.**  
Rev. Robt. Hall Says Rapid Increase in Number Who Stay at Home.

That there has been a rapid increase in the proportion of the population of Toronto who do not attend church was stated by Rev. Robert Hall, chief missionary for the Toronto City Mission, in submitting a report at the 29th annual meeting of that organization in St. James' Square Presbyterian Church last evening. He declared there was need of an aggressive continuance of the work to keep pace with the alarming growth of unchurched people in the city. There was deplorable ignorance of the Bible in many homes he had visited. He said that in 1888, when he began work the income had been \$500 a year, whilst now it was \$6000.

The annual summary showed that 13,000 persons had been spoken to during the year, and 6000 private calls had been made to homes. The prison work last year had been the cause of adding 300 persons, this year the number had been increased to 424.

Rev. Dr. Gilmour of McMaster University said the problem of reaching the masses was a great one and made an appeal for more men and "machinery" to meet the increase in population. In Ontario in the last ten years the population had increased 3.20 per cent. in Toronto 15 per cent. and in the whole Dominion 11 per cent.

Others who addressed the meeting were Principal Gandler of Knox College, Rev. G. R. Fasken, and President F. C. Steele.

**KAISER YIELDS**  
Continued From Page 1.

upon handing in his resignation if the emperor had not met the country's demands, but as such a situation did not arise, the audience ended with the emperor saying to the imperial chancellor that he reposed full confidence in his wisdom.

**Liberal Freedom.**  
It is certain now in the minds of the German people that a great step has been taken towards freer government. Interpreted by the events leading up to it, the emperor's declaration of the emperor can mean that his majesty promises to limit his freedom of speech, and to observe carefully the constitutional forms, taking no initiative without the advice and consent of the premier minister. This narrower interpretation is strictly in accordance with a wider view, as voiced by the Liberal press, is that Germany enters upon a new era of government, responsible to the people, with the crown and the nation acting together.

**Good Will Prevalent.**  
Mutual good will prevailed at the audience as the emperor displayed a marked degree of conciseness, and, unquestionably, he had been greatly moved by the occurrence of recent days.

Within half an hour after the chancellor's return to Berlin, bulletins, issued gratis by the evening newspapers, reflected a favorable issue at the meeting between the emperor and prince, were eagerly snatched by an anxious public, who, in the first moment of joyful surprise, scarcely comprehended the importance of the announcement to themselves and the empire. The whole nation had awaited with breathless suspense the result of the audience which would decide whether Prince von Buelow would quit his office and the reign of personal policy would remain, or whether the chancellor would remain and the desire of the people be fulfilled, that the nation as well as the emperor would have a word to direct the policies of the country.

With the exception of The Tagblatt, which closely confines its remarks, most of the evening papers in Berlin commented upon the audience and its result. The National Zeitung, however, proclaims the event as a new era of representative institutions in Germany. "May this fresh epoch of German imperial history, whose natal days are Nov. 10 and Nov. 11, continue to progress quietly and peacefully without violent upheavals at its birth."

The Freisinnigen Zeitung says: "Chancellor von Buelow has fulfilled one part of his task which the nation has demanded of him. Full and lasting satisfaction will reign only when the monarch and government pursue seriously the carrying out and realization of the constitutional idea. We shall be content when the next step the chancellor takes whether the occurrence which has created so much damage will, in the future, be used in a fruitful effect, and in what manner."

### APPLES, ORANGES FIGS AND PEANES

The God-Given Cure for All Diseases of Bowels, Liver, Kidneys and Bladder.

Few people seem to realize how important—how absolutely necessary—it is to keep the Bowels, Kidneys and Bladder in proper working order. They wonder why they have Bloating Complexions—Indigestion—Headaches—Rheumatism—while all the time their systems are clogged and poisonous. This waste tissue and indigestible food which these organs should have removed.

What they need are Fruit Juices—nature's provision for keeping the eliminating machinery of the body working right. "Fruit-a-lives" are the concentrated juices of fruits which are combined in such a way that their medicinal action is greatly intensified. They stimulate and regulate the action of the Bowels, Kidneys and Bladder, clearing the system of the accumulated waste and poison, purifying the blood, and banishing those distressing troubles that are so common.

No other remedy has ever been discovered that does this so effectively as "Fruit-a-lives." 50c a box—6 boxes for \$2.50. Trial size 25c. Fruit-a-lives, Limited, Ottawa.

### Imperial Questions.

Editorial Note: The reception which you gave my letter on imperial devolution tempts me to further trespass upon your kindness. The question I should like to consider this time is one which is an inevitable corollary of that of the possibility of an imperial council. That question is: What subjects are there which can be selected as of such imperial interest and importance that they should be submitted to such a council? What matters should be treated imperially?

Before proceeding to deal with this difficult and somewhat vexatious subject it might not be amiss to consider for a moment the precise meaning of "imperial treatment." There are some who seem to have an idea that treating a subject imperially necessitates the discovery of some hard and fast rule or principle which is to be applied all over the empire. There are, indeed, certain subjects where some such principle may be applied. To name one comparatively small question is the matter of naturalization. At present a native-born subject is recognized as a British subject in one part of the empire and yet in England and himself denied the status of a British citizen. This is obviously illogical and undesirable and in this case there should surely be one law enforced over the whole empire.

In many matters, however, it is very certain that an imperial council which set to work to order the affairs of the empire upon any hard and fast plan could not possibly come to any agreement. The subject of an imperial council is generally attained only by carefully considering what are the varying conditions and needs of the various parts of the empire and then framing in accordance with the different necessities of all the imperial dominions a set of laws or regulations, which, necessarily complex, and always so delicately adjusted that no one of the British sister states can complain that her interests are being sacrificed in any important respect. Indeed, it is hardly too much to say that frequently the only benefits to be attained from the imperial treatment of a subject may be to the wider dissemination of knowledge and understanding on the various aspects of that subject; the reform of legislation dealing with it in different portions of the empire where such reform may be needed, and the co-ordination of legislation on that particular matter into one or less harmonious wholes.

But surely these benefits are very real and important ones. Take, for instance, the subject of naturalization. Attempts to deal with this problem upon some general comprehensive principle may, perhaps, yet prove possible. It may prove feasible, for instance, to come to some understanding whereby certain districts in the tropical dependencies are set aside as "reserves" for native immigrants and the white man's countries devoted exclusively to the white man. Some imperial understanding may be arrived at with Japan satisfactory alike to those who desire a valuable ally in the far east, and to those who insist upon an all white population. It would be futile and presumptuous here and now to speculate as to what the results might be were the race problem to be considered imperially. But one thing is quite certain, and that is, the consideration of the subject must prove vain which should not take into account not only the position of the Japanese as Britain's ally and the East Indian British subjects, but the perfectly justifiable feeling in Australia, British Columbia, and other "white" portions of the empire against such countries with the moral, economic and anthropological problem of a mixed white and colored population. In order to adjust matters to these two almost irreconcilable points of view it might quite conceivably prove necessary to abandon the idea of applying the same "imperial principle" to the empire as a whole, and, as an alternative, various regulations would be brought into force in various different parts of the empire. It would have one system, East Africa another, and so on. In fact in such a case the conditions actually resulting might be better than those that obtain before imperial federation, for it would be an axiom that in such matters the desires and needs of the people of the empire were being considered of paramount importance. The difference would be, not only that with the fuller and wider knowledge and co-ordinating of modern details, but that the subject among members of the council new ideas might develop themselves as all events minor details be amended and harmonized, and everything that was done would be done with the consent, co-operation and knowledge of the whole empire, and that these things would be done in understanding and to ensure at least a comprehensive if elaborate scheme, to be certain that all the wisdom and talent of the empire were being devoted to bear upon the matter in hand and that legislation were the outcome thereof instead of being, as now, a patchwork of measures which are piecemeal and often unnecessarily incompatible schemes evolved by individual effort and in their origin lacking any serious consideration as to how to attain these results it would surely be worth while to bring together councillors from over the British dominions.

The work of an imperial council would not merely be to co-ordinate but to construct. In all work, however, the principle of co-ordination is of primary importance. In all legislation, whether diverse or symmetrical, whether complex or simple, there would have to be borne in mind the fact that the individual necessities of each integral portion of the empire should be considered and then the imperial scheme evolved. It is an axiom that if the component parts are not healthy the whole can never be sound for the whole, after all, is only the sum of its parts. The secret of imperial success lies primarily with the individual strength, prosperity and happiness of the nations which compose the empire. An imperial development must be gained in conjunction with, and not at the expense of, national well-being. The imperial principle is not to be applied first to ask what is best for each portion of the empire, and then to knit up these "best" into one comprehensive whole or to evolve from that one composite scheme capable of imperial application.

In order that there may be no danger of the conditions of the empire being ignored and their wishes misunderstood, or overridden, it might be found desirable to provide some means of obtaining the views of each of the great imperial dominions upon a measure before it finally comes to the attention of the council of their representatives sitting in council. It had constructed some imperial scheme, it were to be submitted for consideration to the national parliaments of the empire—that is to say, the parliaments of Great Britain, Canada, Australia, New Zealand, and so on. The resultant measures be more truly in harmony with imperial thought, but it could not possibly come to any agreement upon any portion of the empire to which it had not obtained a fair hearing or proper treatment. As measures would probably be recommended to them by their own representatives, the national parliaments would not often desire to alter them materially, while they would be able to contribute to the usefulness of the new legislation by suggestions on minor points.

Perhaps no matters need to be attempted to dogmatize on the methods, or indeed on the constitution or scope of an imperial council. All that at present is needed is a wide and candid and broadly outlined, setting forth opinions and ideas in the hopes that they may be provocative of further thought and discussion. The more dogmatic and detailed theories are more propounded; at present the terms of the imperial adjustment are unexplored and at this period all lines of advance must be tried, all possibilities taken into account. By such means a way to the desired goal.

Premising, then, that there are many matters which will not admit of the application of the same imperial principle, but which, nevertheless, it may be advisable to consider imperially; and remembering that imperial matters are those which, in dealing with a subject, it is now time to consider what those affairs are which concern not the parish, but the empire, or the nation, but the whole empire collectively. All that can be done here is to give a rough and possibly no means complete list of subjects which seem to fulfill the prescribed conditions. It would be interesting to discuss at some length the briefest notes upon the various questions mentioned and the opportunity of doing so may offer itself at some future date. But at present only the most important points can be mentioned, which may be hoped to lead others to follow out the trains of thought which are thus started.

First, then, and perhaps most important of all subjects which demand the attention of the general staff, has the application of some imperial principle, there is the question of imperial defence. Mr. Haldane, in his reform of the general staff, has made a great advance in the direction of an imperial treatment of the whole subject. But this is not enough. Greater issues are involved or soon will be involved—the support and the control of the imperial forces not by the United Kingdom alone, but by the empire as a whole. The question of an imperial defence, we may note the questions of the identity of pattern of arms and ammunition; the question of the exchange of military units within the empire; the exchange of officers; the question of the general staff; the question of the formation of a general staff; the question of the support and the control of the imperial forces not by the United Kingdom alone, but by the empire as a whole. The question of an imperial defence, we may note the questions of the identity of pattern of arms and ammunition; the question of the exchange of military units within the empire; the exchange of officers; the question of the general staff; the question of the formation of a general staff; the question of the support and the control of the imperial forces not by the United Kingdom alone, but by the empire as a whole.

Turning to the lesser subjects which are to be considered under the head of imperial defence, we may note the questions of the identity of pattern of arms and ammunition; the question of the exchange of military units within the empire; the exchange of officers; the question of the general staff; the question of the formation of a general staff; the question of the support and the control of the imperial forces not by the United Kingdom alone, but by the empire as a whole.

On the naval side of the defence problem there are points to be considered as to imperial coaling facilities, dock and shipyard accommodation, etc. All this, of course, in addition to the general subject of the military and naval organization of the empire.

Besides the question of imperial defence, other matters which call for imperial treatment are immigration and immigration control, the question of the long-standing question of the court of appeal.

Then there is the important subject

### Imperial Questions.

Editorial Note: The reception which you gave my letter on imperial devolution tempts me to further trespass upon your kindness. The question I should like to consider this time is one which is an inevitable corollary of that of the possibility of an imperial council. That question is: What subjects are there which can be selected as of such imperial interest and importance that they should be submitted to such a council? What matters should be treated imperially?

Before proceeding to deal with this difficult and somewhat vexatious subject it might not be amiss to consider for a moment the precise meaning of "imperial treatment." There are some who seem to have an idea that treating a subject imperially necessitates the discovery of some hard and fast rule or principle which is to be applied all over the empire. There are, indeed, certain subjects where some such principle may be applied. To name one comparatively small question is the matter of naturalization. At present a native-born subject is recognized as a British subject in one part of the empire and yet in England and himself denied the status of a British citizen. This is obviously illogical and undesirable and in this case there should surely be one law enforced over the whole empire.

In many matters, however, it is very certain that an imperial council which set to work to order the affairs of the empire upon any hard and fast plan could not possibly come to any agreement. The subject of an imperial council is generally attained only by carefully considering what are the varying conditions and needs of the various parts of the empire and then framing in accordance with the different necessities of all the imperial dominions a set of laws or regulations, which, necessarily complex, and always so delicately adjusted that no one of the British sister states can complain that her interests are being sacrificed in any important respect. Indeed, it is hardly too much to say that frequently the only benefits to be attained from the imperial treatment of a subject may be to the wider dissemination of knowledge and understanding on the various aspects of that subject; the reform of legislation dealing with it in different portions of the empire where such reform may be needed, and the co-ordination of legislation on that particular matter into one or less harmonious wholes.

But surely these benefits are very real and important ones. Take, for instance, the subject of naturalization. Attempts to deal with this problem upon some general comprehensive principle may, perhaps, yet prove possible. It may prove feasible, for instance, to come to some understanding whereby certain districts in the tropical dependencies are set aside as "reserves" for native immigrants and the white man's countries devoted exclusively to the white man. Some imperial understanding may be arrived at with Japan satisfactory alike to those who desire a valuable ally in the far east, and to those who insist upon an all white population. It would be futile and presumptuous here and now to speculate as to what the results might be were the race problem to be considered imperially. But one thing is quite certain, and that is, the consideration of the subject must prove vain which should not take into account not only the position of the Japanese as Britain's ally and the East Indian British subjects, but the perfectly justifiable feeling in Australia, British Columbia, and other "white" portions of the empire against such countries with the moral, economic and anthropological problem of a mixed white and colored population. In order to adjust matters to these two almost irreconcilable points of view it might quite conceivably prove necessary to abandon the idea of applying the same "imperial principle" to the empire as a whole, and, as an alternative, various regulations would be brought into force in various different parts of the empire. It would have one system, East Africa another, and so on. In fact in such a case the conditions actually resulting might be better than those that obtain before imperial federation, for it would be an axiom that in such matters the desires and needs of the people of the empire were being considered of paramount importance. The difference would be, not only that with the fuller and wider knowledge and co-ordinating of modern details, but that the subject among members of the council new ideas might develop themselves as all events minor details be amended and harmonized, and everything that was done would be done with the consent, co-operation and knowledge of the whole empire, and that these things would be done in understanding and to ensure at least a comprehensive if elaborate scheme, to be certain that all the wisdom and talent of the empire were being devoted to bear upon the matter in hand and that legislation were the outcome thereof instead of being, as now, a patchwork of measures which are piecemeal and often unnecessarily incompatible schemes evolved by individual effort and in their origin lacking any serious consideration as to how to attain these results it would surely be worth while to bring together councillors from over the British dominions.

The work of an imperial council would not merely be to co-ordinate but to construct. In all work, however, the principle of co-ordination is of primary importance. In all legislation, whether diverse or symmetrical, whether complex or simple, there would have to be borne in mind the fact that the individual necessities of each integral portion of the empire should be considered and then the imperial scheme evolved. It is an axiom that if the component parts are not healthy the whole can never be sound for the whole, after all, is only the sum of its parts. The secret of imperial success lies primarily with the individual strength, prosperity and happiness of the nations which compose the empire. An imperial development must be gained in conjunction with, and not at the expense of, national well-being. The imperial principle is not to be applied first to ask what is best for each portion of the empire, and then to knit up these "best" into one comprehensive whole or to evolve from that one composite scheme capable of imperial application.

In order that there may be no danger of the conditions of the empire being ignored and their wishes misunderstood, or overridden, it might be found desirable to provide some means of obtaining the views of each of the great imperial dominions upon a measure before it finally comes to the attention of the council of their representatives sitting in council. It had constructed some imperial scheme, it were to be submitted for consideration to the national parliaments of the empire—that is to say, the parliaments of Great Britain, Canada, Australia, New Zealand, and so on. The resultant measures be more truly in harmony with imperial thought, but it could not possibly come to any agreement upon any portion of the empire to which it had not obtained a fair hearing or proper treatment. As measures would probably be recommended to them by their own representatives, the national parliaments would not often desire to alter them materially, while they would be able to contribute to the usefulness of the new legislation by suggestions on minor points.

Perhaps no matters need to be attempted to dogmatize on the methods, or indeed on the constitution or scope of an imperial council. All that at present is needed is a wide and candid and broadly outlined, setting forth opinions and ideas in the hopes that they may be provocative of further thought and discussion. The more dogmatic and detailed theories are more propounded; at present the terms of the imperial adjustment are unexplored and at this period all lines of advance must be tried, all possibilities taken into account. By such means a way to the desired goal.

Premising, then, that there are many matters which will not admit of the application of the same imperial principle, but which, nevertheless, it may be advisable to consider imperially; and remembering that imperial matters are those which, in dealing with a subject, it is now time to consider what those affairs are which concern not the parish, but the empire, or the nation, but the whole empire collectively. All that can be done here is to give a rough and possibly no means complete list of subjects which seem to fulfill the prescribed conditions. It would be interesting to discuss at some length the briefest notes upon the various questions mentioned and the opportunity of doing so may offer itself at some future date. But at present only the most important points can be mentioned, which may be hoped to lead others to follow out the trains of thought which are thus started.

First, then, and perhaps most important of all subjects which demand the attention of the general staff, has the application of some imperial principle, there is the question of imperial defence. Mr. Haldane, in his reform of the general staff, has made a great advance in the direction of an imperial treatment of the whole subject. But this is not enough. Greater issues are involved or soon will be involved—the support and the control of the imperial forces not by the United Kingdom alone, but by the empire as a whole. The question of an imperial defence, we may note the questions of the identity of pattern of arms and ammunition; the question of the exchange of military units within the empire; the exchange of officers; the question of the general staff; the question of the formation of a general staff; the question of the support and the control of the imperial forces not by the United Kingdom alone, but by the empire as a whole.

Turning to the lesser subjects which are to be considered under the head of imperial defence, we may note the questions of the identity of pattern of arms and ammunition; the question of the exchange of military units within the empire; the exchange of officers; the question of the general staff; the question of the formation of a general staff; the question of the support and the control of the imperial forces not by the United Kingdom alone, but by the empire as a whole.

On the naval side of the defence problem there are points to be considered as to imperial coaling facilities, dock and shipyard accommodation, etc. All this, of course, in addition to the general subject of the military and naval organization of the empire.

Besides the question of imperial defence, other matters which call for imperial treatment are immigration and immigration control, the question of the long-standing question of the court of appeal.

279 pairs Men's Box Calf, Blucher, Goodyear welt, value \$4.00, for 2.95  
A large assortment of Men's Heavy Tan Bluchers, leather lined, light and dark shades, value \$3.50 to \$6, will be sold at 2.95

# ST. LEGER SHOE CO.

232 YONGE ST.

of imperial trade. I do not propose here to enter into the much-debated question as to whether national tariffs should be considered as matter for imperial discussion. If the conditions, desires and necessities of all the individual portions of the empire were to be fully considered, and if, after each portion had decided what policy was the best for itself, it were then to be considered how an imperial scheme could be harmonized with the particular interests of each individual nation, then imperial attention might not only be considered but it would be a matter of course. There need be no talk of "bargains" or "sacrifices," both of which are unpleasant, unhealthy and undesirable. But I would point out that beyond the field of fiscal arrangements there is a vast opportunity for imperial treatment of trade. There are numerous commercial reforms which might be instituted. Commercial intelligence bureaus might be organized and commercial intelligence officials appointed throughout the empire. There is the question of the uniformity of the laws respecting trademarks and patents. There is the matter of uniformity of trade statistics and of company law. There is the question of special inter-British rail and steamship rates. All these are subjects concerning trade which it would be hard to deny should attend and would profit by imperial treatment.

Among minor matters which stand in need of imperial adjustment are the questions of reciprocity in admission of barriers and land surveys to practice, and various questions affecting the income tax.

Perhaps no matters need to be attempted to dogmatize on the methods, or indeed on the constitution or scope of an imperial council. All that at present is needed is a wide and candid and broadly outlined, setting forth opinions and ideas in the hopes that they may be provocative of further thought and discussion. The more dogmatic and detailed theories are more propounded; at present the terms of the imperial adjustment are unexplored and at this period all lines of advance must be tried, all possibilities taken into account. By such means a way to the desired goal.

Premising, then, that there are many matters which will not admit of the application of the same imperial principle, but which, nevertheless, it may be advisable to consider imperially; and remembering that imperial matters are those which, in dealing with a subject, it is now time to consider what those affairs are which concern not the parish, but the empire, or the nation, but the whole empire collectively. All that can be done here is to give a rough and possibly no means complete list of subjects which seem to fulfill the prescribed conditions. # OF INTEREST TO WOMEN

**THE PRIME OF LIFE.**  
 Just as I thought I was growing old,  
 Ready to sit in my easy chair,  
 To watch the world with a bright green  
 cold,  
 And smile at a folly I would not  
 share.

Rose came by with a smile for me—  
 And I am thinking that forty year  
 isn't the age that it seems to be.  
 When two pretty brown eyes are  
 near.

Bless me, of life it is just the prime—  
 A fact that I hope she will under-  
 stand—  
 And forty year is a perfect rhyme  
 To dark-brown eyes and a pretty  
 hand.

These gray hairs are by chance, you  
 see—  
 Boys are sometimes gray, I am told—  
 Rose came by with a smile for me,  
 Just as I thought I was growing old.  
 —Walter Learned.

**Art Exhibition.**  
 At the special meeting of the execu-  
 tive of the Women's Art Association  
 arrangements were completed for the  
 exhibition of the Scotch and the Wal-  
 ter Crane collection of paintings,  
 which is to be opened at the galleries,  
 204 Jarvis-street, on Monday, Nov. 23.  
 This is to be the most important col-  
 lection of paintings that has ever been  
 exhibited in Toronto and the exhibi-  
 tion will afford a great opportunity  
 for all students and lovers of art to  
 see and study these valuable works.  
 Advance tickets of admission are be-  
 ing issued at the rate of six for one  
 dollar, which can be procured until  
 the opening of the exhibition, after  
 which the regular price will prevail.

**Work for Women.**  
 The Toronto local Council of Wom-  
 en discussed the problem of the un-  
 employed yesterday afternoon at the  
 Canadian Institute. The meeting un-  
 animously approved of the formation  
 of a central employment bureau for  
 women. Mrs. Torrington presided.  
 Mrs. Willoughby Cummings presented  
 the report of the special committee  
 on the unemployed, and moved its  
 adoption. It recommended the estab-  
 lishment of a central bureau at the  
 city hall to work in conjunction with  
 allied institutions as "clearing house"  
 where applications for women workers  
 and for work could be brought to-  
 gether. The board of control had con-  
 sidered to furnish a room at the city  
 hall, and a boy with a bicycle as a  
 messenger. The usefulness of this  
 bureau would depend largely on the  
 co-operation of representatives from  
 each of the 35 societies represented  
 in the women's council, making an  
 active effort among their own mem-  
 bers to procure work. A very suit-  
 able lady was in view for secretary,  
 who had considerable experience. It  
 was estimated that \$200 would pay  
 the secretary's salary and other ex-  
 penses for the winter.

Mrs. Forsyth Grant emphasized the  
 importance of the bureau giving spe-  
 cial attention to investigating the cases  
 of unknown applicants.  
 Mrs. Houston of the Household Econ-  
 omics' Association said that the pre-  
 vention of overlapping was impor-  
 tant.

Lady Edgar and Lady Falconbridge  
 supported the motion.  
 Miss Fitzgibbon said there were un-  
 expectedly a large number of women  
 of superior attainments as well as an  
 over-supply of women for unskilled la-  
 bor. A central bureau devoted to pro-  
 moting the demand for workers would  
 be a wise experiment. The classified  
 lists of applicants prepared by a com-  
 petent secretary would be of perma-  
 nent value.

Mrs. Arnold Forster of Bradford,  
 England, said that the best method  
 of dealing with this great social ques-  
 tion had been practically solved, so  
 far as it was possible for this to be  
 accomplished by the action of the  
 land of the Everfield system of Ger-  
 many. In Bradford during the past  
 three years the results had been mag-  
 nificent. A committee was appointed  
 which opened a bureau under a male  
 superintendent with two lady assis-  
 tants. The city map was then divided  
 by the committee among about 200  
 volunteer workers, who each had charge  
 of two moderate-sized streets, or simi-  
 lar portions of long ones. These  
 workers investigated all applications  
 for work, and co-operated in finding  
 employment.

Mrs. Willoughby Cummings' motion  
 was then adopted, and referred to a  
 representative committee to work out  
 the details.

**Mary MacLane's Ill-Luck.**  
 Miss Mary MacLane, the novelist of  
 Butte, Mont., has not mysteriously  
 disappeared, as was reported. She  
 says so herself. Two months ago she  
 left her summer home in Rockland,  
 Mass., where she has been living for  
 three years. She did not go south, as  
 usual. Instead she went right to Bos-  
 ton and is living in a quiet, unob-  
 tained in the south end. There, she says,

Just as pure and pal-  
 atable as can be, is the  
 repeated assertion of  
 those who have used

**Tomlin's  
 Bread**

Why don't you get  
 it fresh from the  
 new diamond ovens  
 every day?

## Toronto World's Beauty Patterns

### A Simple One-Piece Negligee.

No. 8284. Ladies' one-piece negligee,  
 cut in sizes 32 to 40 inches bust measure.  
 This simple negligee requires three yards  
 of 36 inch material. Originality of de-  
 sign distinguishes this charming il-  
 lustration for negligee wear. The  
 making is a very simple matter, as the  
 front, back and sleeve are cut all in  
 one piece. A Gibson pleat over the  
 shoulder, and the neck is unusually  
 becoming. China silk, lawn, challis and  
 cashmere are all appropriate for the  
 development.

A pattern of this illustration will be  
 mailed to any address on the receipt  
 of 10 cents in silver.

### Be Sure and State Size Required when Order- ing this Pattern.

**Pattern Department  
 TORONTO WORLD**  
 Send the above pattern to  
 NAME.....  
 ADDRESS.....  
 Size Wanted—(Give age of Child's  
 or Miss' Pattern).

she is mediating another assault on  
 "the literary fables of the world."  
 She adds that the "change is due to  
 financial reverses. "Once I wouldn't  
 wear anything but silk stockings," she  
 says, "but now I'm content with cot-  
 ton ones, with little for Sunday."  
 The new book will be ready in a  
 couple of months. Miss MacLane  
 doesn't know that it will be published,  
 for she says it will be worse than her  
 first.

### A Child Evangelist.

Fae, the eight-year-old daughter of  
 Judge and Mrs. William McDonald of  
 Spokane, Wash., is believed to be the  
 youngest evangelist in America. It is  
 not in the world. She is conducting re-  
 vival services at the Bible Line Mis-  
 sion, attracting large audiences every  
 evening. The child has a wide knowl-  
 edge of sacred history and biblical  
 events, and presents her ideas in a  
 forcible manner.  
 The parents say she asked when  
 less than one year old, and has al-  
 ways expressed a desire to enter  
 evangelistic work.

### Their Diamond Wedding.

At 14 Amelia-street yesterday, Mr.  
 and Mrs. James Muirhead, celebrated  
 the sixth anniversary of their wedding.  
 Both are natives of Scotland, but did  
 not meet until resident in York County,  
 Mr. Muirhead having been born near  
 Paisley in 1824, 37 years ago, coming  
 to Canada in 1824, and Lily Robertson  
 being born in the Isle of Islay, 1827,  
 coming here in 1827. He settled near  
 York Mills and their acquaintance be-  
 gan shortly after the Mackenzie out-  
 break. After residing at Steele's Corners,  
 Mr. Muirhead retired 22 years ago  
 to Toronto.  
 There are six sons, Alex., John,  
 Allan, deputy U. S. surveyor at Wash-  
 ington, Daniel, builder, and Robertson,  
 general freight foreman of the G.T.R.  
 terminals.

### May Vote in Chicago.

CHICAGO, Nov. 17.—The greatest  
 victory in the history of forty years  
 agitation for equal suffrage in Illinois  
 has been won. The charter committee,  
 by a vote of 6 to 4 have adopted a re-  
 solution declaring for a bill giving  
 women the right to vote for all munici-  
 pal officers and on all questions of  
 policy which have to do with the munici-  
 pality. The bill will be submitted to  
 the Chicago charter convention, and,  
 if approved, will go to the legislature.  
 It will be subjected to adoption by  
 popular vote before going into effect.

### To-Day's Meetings.

The Chamberlain Chapter, Daugh-  
 ters of the Empire, will hold its regu-  
 lar monthly meeting in the Canadian  
 Institute, 138 College-street, at 3  
 o'clock. A paper on Canadian achieve-  
 ments will be read by Miss Anther.

Mrs. R. Inglis will read a paper on  
 "The Founding of the Royal Academy,"  
 the Members of the Royal Academy,  
 and Miniature Painters," at to-day's  
 meeting of the Art Study Club at the  
 Women's Art Association.

In order to extend the scope of their  
 organization, the members of the Vic-  
 toria Women's Residence and Educa-  
 tional Association, announce a lun-  
 cheon and public meeting to be held at  
 1 o'clock in the Central Methodist  
 Church, Bloor-street, to which all wom-  
 en interested in the work are invit-  
 ed.

The quarterly open meeting of the  
 Deaconess Aid Society of the Metho-  
 dist Church will be held to-day, at 2.30  
 p.m., at the Deaconess Home, 257 Jar-  
 vis-street. Miss Slier, Deaconess of  
 Metropolitan Church, will give an ad-  
 dress on her work in Halifax. Miss

Strigley will address the meeting on  
 institutions, to be carried on at  
 Elm-street church.

### In Society.

Mrs. and Miss Peters, formerly of  
 Elmville, are now settled in their home,  
 75 Keele-street, West Toronto, and  
 will receive on the third Thursday in  
 each month.

Mrs. Walton-Bell, 344 Palmerston-  
 boulevard, will receive to-morrow af-  
 ternoon and afterwards on the first and  
 third Thursdays.

Mrs. R. E. Holiday has returned  
 from Montreal and will receive to-  
 morrow with Mrs. John Edmonds, 138  
 Crescent-road.

Mrs. Robert Bryce (nee Edna Baxter)  
 of Cobalt will receive with Mrs. Nell,  
 20 St. Andrew-street, on Friday after-  
 noon, Nov. 20.

Mrs. W. C. Coulton (nee Dickey) will  
 receive on the third Fridays during  
 the season at 28 Abbott-avenue.

Mrs. Otter and her daughter, Mrs.  
 Morton of Toronto, were entertained  
 at the tea hour on Monday at Ottawa  
 by Mrs. D'Arty MacMahon.

Mrs. F. W. Hudson, 71 Beatty-ave-  
 nue, will receive on Thursday, Nov. 19,  
 and on the second and third Thurs-  
 days during the season.

The bishop and Mrs. Reeve will leave  
 to-day for a week or ten days' visit to  
 different parishes in the country.

Mrs. Lorne Macdougall, Montreal,  
 is spending the winter with her daugh-  
 ter, Mrs. Walter Bell, at the Alexan-  
 dra, and will receive with her to-day.

Mrs. Albert E. Humphrey of 410 Pal-  
 merston-boulevard will receive to-  
 morrow on the third Thursday of each  
 month.

Mrs. John N. Lake will not receive  
 again till after the New Year on ac-  
 count of removal to 175 Park-road,  
 Rosedale.

Mrs. Alexander MacGregor has re-  
 moved to 23 Woodlawn-avenue, and  
 will receive on Thursdays during the  
 season.

Mrs. D. McSwenny, 193 Dunn-avenue,  
 will receive to-day, and afterwards on  
 the third Wednesday of each month.

Mrs. W. H. Smith, 243 Wellesley-st.,  
 will receive on Monday, 23rd, from  
 6, and after on the third Mondays.

Mrs. and Miss Stowe, Dovercourt-  
 road, will not receive again until after  
 the New Year, owing to illness in the  
 family.

Mrs. D. Crear Petrie, 134 Concord-  
 avenue, will receive on Thursday, the  
 19th, and afterwards on the third  
 Thursday of the month.

Mr. and Mrs. George H. Hogg have  
 returned from Port Hope, and are  
 settled in their new home, 253 Poplar-  
 Plains-road, where Mrs. Hogg will  
 receive on Friday, Nov. 20, and after-  
 wards on the first and second Thurs-  
 days of each month.

Mrs. William O'Connor (nee Kernan)  
 will receive for the first time since  
 her marriage on Thursday afternoon  
 and evening at her home, 65 Tranby-  
 avenue, and afterwards on the second  
 and fourth Fridays of the month.

Mrs. Vaux will receive at the Arling-  
 ton on the third and fourth Thursdays  
 of this month.

Mrs. Goldwin Howland, Spadina-ave-  
 nue, will not receive to-day, but on  
 Tuesday next.

Mrs. Goulding, St. George-street, will  
 not receive until January, and then on  
 the first Tuesday of each month.

Mrs. Robert Gorrie of 335 Markham-  
 street will receive on Wednesday, and  
 afterwards on the second Thursday of  
 the month.

On Saturday night at the Strolling  
 Players' Club a Spanish lecture, illus-  
 trated by views, was given by Senor  
 J. M. Blancard under the auspices of  
 the Spanish Club, of Toronto. David  
 the lecturer Senor Rafael Ramon and  
 Senor Blancos entertained the guests  
 with refreshments. Among those pre-  
 sent were: Prof. Fraser, Prof. Davidson  
 of the Toronto University, Mrs. A. J.  
 Small, Miss Reinhardt, Miss Webber,  
 Mrs. Morrison, Miss Bird, J. Enoch  
 Thompson, (Spanish consul), D. Calder  
 and many students from the univer-  
 sity.

While in St. Paul Madame Gedski,  
 who is to be heard here Dec. 8th, at  
 Massey Hall, performed a gracious act  
 which gives glimpses of the true wo-  
 man behind the artist. Chancing to  
 hear of the Sisters of St. Agathe, who,  
 under vow of perpetual poverty, de-  
 vote their lives to the interests of mis-  
 erable, she announced her intention of  
 going to sing for them. Instead of re-  
 fusing a carriage the prima donna  
 set forth on foot, taking her little  
 daughter Lotta, and her own accom-  
 panist. In glorious form, she rendered  
 the prayer, "The singers' sainted Eliz-  
 abeth, a selection of herself in com-  
 pliment to her audience, whose sympathy  
 it immediately touched. It was music  
 that the sisters said, "I have never  
 more fully than the singer herself.  
 Two other songs Gadski gave them,  
 and then a warm good-bye, the prima  
 donna to return to the west, the num-  
 ber to their duty, each happier for the  
 few moments in which their lives had  
 intermingled.

Gadski's local welcome will be a  
 warm one. Her fame as one of the  
 foremost sopranos touring America in  
 concert makes her coming an event  
 of far more than ordinary significance.  
 Her visit is under the auspices of the  
 Toronto Symphony Orchestra.

### WHISKEY CANDY STICKS.

SPokane, Wash., Nov. 17.—Whis-  
 key in tablets and in the form of stick  
 candy to be dissolved in water or  
 chewed made its appearance at North  
 Yakima, Wash. last week. Spokane, a  
 few days ago as a way to get around  
 the local option law.

### Suit Over Invention.

Judge Winchester had an interesting  
 case to decide in the county court yes-  
 terday. Edward Stratham brought action  
 against Harry Stratham to recover  
 \$250, which he said was coming to  
 him out of a partnership deal.

## HARBOR ST. EXTENSION TO GO ON—COST \$115,000

Only Two Appellants at Court of  
Revision—Tag Day for  
City's Poor.

Out of 750 property owners affected,  
 only two appeared before the court of  
 revision yesterday to protest against  
 the scheme of assessment for the ex-  
 tension of Harbor-street from Clin-  
 ton-street to Ossington-avenue, at an  
 estimated cost of \$115,000. The assess-  
 ment is now being advertised, and the  
 last chance to appeal will be at the city  
 council meeting next Monday.

The objectors yesterday were com-  
 paratively small property holders, and  
 one of them, a lady, on learning that  
 the tax upon her would be only \$5 a  
 year, withdrew her objection.

The length of the extension will be  
 2250 feet, and at no point will the width  
 be less than 66 feet, while some  
 stretches will be 77 feet or more. The  
 irregularity being due to the fact that  
 where houses are on the line of exten-  
 sion they will be taken in. The city  
 will pay 70 per cent of the property  
 holders, the remaining 30 per cent.

The city clerk yesterday received a  
 petition asking that the board of con-  
 trol consider allowing a "tag day" for  
 the benefit of the poor during Decem-  
 ber. The organization behind the move  
 is known as the Unemployed, Benefit  
 Society, and the tags will bear the in-  
 scription "U.B.S." provided, of course,  
 that the undertaking is sanctioned.

The money will be collected in boxes  
 and turned in to the mayor. The officers  
 are: President, J. H. Heathwaite;  
 vice-president, W. J. Bell; secretary,  
 T. McNicol; treasurer, R. J. Wig-  
 gins.

The controllers are dubious about  
 the venture, as they fear it would lead  
 to an influx of professional "dead  
 beats" looking for easy money.

Street Names Confused.  
 Mayor Haid of West Toronto ap-  
 peared before the city sub-committee  
 on street naming yesterday, to request  
 that action be taken to prevent the  
 confusion arising from the fact that a  
 number of streets in West Toronto  
 bear names either similar to those in  
 Toronto or closely resembling them.

Mr. Baird pointed out that recently  
 in Toronto a street named "Lonsdale"  
 was brought within the same postal  
 system as Toronto, and that much con-  
 fusion was the result. Chairman Ald.  
 Foster suggested that the matter be  
 referred to the city council, and the  
 annexation question was settled, and Mr.  
 Baird agreed.

It was recommended that the name  
 of Clinton-avenue and the constri-  
 ction thereof known as Lonsdale-  
 road be designated Lonsdale-road.  
 Jackson Walker wrote asking that  
 the name of Soraya-avenue be changed  
 to Parkdale-avenue. Mr. Walker  
 said that the cumbersome nature of the  
 name was also objectionable. The  
 committee agreed to the suggestion.

Get Common at Last.  
 Mayor Oliver has returned from Ot-  
 tawa confident that the Garrison Com-  
 mon Law will be passed. He says the  
 premier instructed the legal  
 department to make out the deed of  
 the property, and that the eastern  
 title to the property is assured.  
 The board of control yesterday rat-  
 ified the purchase of the Gooderham  
 estate property for a sewage site, at  
 \$400.

It has a frontage on the south side  
 of Queen-street of 422 feet by a depth  
 of 135 feet, and a depth of 580 feet;  
 also a frontage on the south side of  
 Eastern-avenue of 422 feet by a depth  
 of 796 feet to the north limit of Ash-  
 bridge's Bay.

A number of residents of Baris-  
 court, Brantford, and Wood-  
 ward waited on the board to urge  
 annexation. They said that they were  
 willing to come in on a fixed assess-  
 ment like Avenue-road, to date from  
 the time when that district was an-  
 nexed, which was four years ago.

The board will not vary the speci-  
 fications for Binscort-road pavement.  
 The village ward, which is assessed  
 and invited to appear again to-day.  
 The board will not vary the speci-  
 fications for Binscort-road pavement.  
 The village ward, which is assessed  
 and invited to appear again to-day.

## When "Slate" Means Slater Shoes

OBSERVE the "Sign of the Slate."  
 On a school slate the following words  
 —"The Slater Shoe."

That is a trade-mark worth several  
 hundred thousands to-day.

It is widely poached upon because it is  
 widely known as a standard of quality.

It now commands a market of a Million  
 Dollars yearly in \$4.00, \$5.00, and \$6.00  
 Shoes.

This is why there are so many substitutes  
 evasively offered as "Slater Shoes"—"Shoes  
 made by Slater"—and four other tricky ways  
 of trading on the name and merits of "The  
 Slater Shoe."

So,—to protect the Public we say again—  
 No shoe is a genuine "Slater Shoe"  
 unless it has the trade-mark picture of a Slate  
 stamped on it with the makers' price (this  
 latter to prevent overcharge).

Look for that Slate mark!

And, when you want a genuine 1909  
 "Slater Shoe" you can head off Smart Alecks  
 who would trick you into something as  
 "Slaters" which have never been within the  
 Slater Shoe Factory, if you will simply look  
 for the Slate as well as the name "Slater."

The quality of Slater Shoes is established. None but the best  
 materials and the best methods figure in their manufacture.  
 The Goodyear Welt system invariably used in making them,  
 insures the maximum amount of comfort and wear.

Sold only at:

**THE SLATER SHOE STORE.** Chas. C. Cummings, Limited, 117 Yonge St.,  
 Toronto, Ont. Sub Agents: J. H. Wood, 528 Queen St. West, Toronto, Ont.;  
 J. Jupp & Son, 810 Queen St. East, Toronto, Ont.; Thos. Powell, Toronto  
 Junction.

## IS NOT A PROHIBITION OR LOCAL OPTION BATTLE

Rev. Dr. Chown Gives Ward Four  
His Idea of License Re-  
duction Campaign.

The citizens' committee for license  
 reduction held an organization meet-  
 ing for Ward Four at Broadway Hall  
 last night. It was attended by about  
 200. The ward convener, H. McEwen,  
 presided. Also on the platform were  
 Ex-Mayor Urquhart, Controller Harrison,  
 Controller Hoeken, Ald. Hales,  
 Rev. Dr. Chown, Rev. Dr. Turnbull,  
 Rev. J. Pedley, Rev. B. H. Spence,  
 A. M. Featherston, W. Munns and W.  
 E. Raney.

A. H. Daymon was secretary.  
 Rev. Dr. Chown said this was not a  
 prohibition or local option, but a  
 license reduction movement.  
 A. M. Featherston said the organiza-  
 tion must be so complete that there  
 should be a committee of ladies and  
 40 or 50 voters in each polling sub-  
 division. So ready and anxious are  
 the workers in the churches that there  
 will be no lack of workers.

Ex-Mayor Urquhart suggested a  
 workable central committee for the  
 ward. One capable man would be re-  
 quired to give his whole time to  
 the work. The members of the com-  
 mittee should do what their qualified  
 organizer directed them to do. There  
 should be a committee of men in each  
 division.  
 On motion of W. E. Raney a Ward  
 Four committee of twelve was elected.  
 A finance committee of eight mem-  
 bers was appointed.

J. O. McCarthy, financial secretary,  
 stated that a finance committee was  
 required in each ward to furnish de-  
 tailed information respecting the finan-  
 cial officers of every church in the  
 ward. Offers of financial assistance  
 are already pouring in. In Ward Four  
 there are the names of between 100  
 to 1500 led or absentee voters, and  
 the committee must have the list thor-  
 oughly analyzed.

Penalties in Police Court.  
 The following penalties were dis-  
 pensed in police court yesterday: Wil-  
 liam Laidlaw, who some time ago  
 threw himself in front of a G.T.R.  
 train at the Don, was remanded for  
 deportation; John Walsh, theft of two  
 iron jacks, 6 months; Charles Cham-  
 bers, theft of wheel, 6 months;  
 Stephen Prince, convicted last week  
 of housebreaking, was given three  
 years in Kingston, he having three  
 prior convictions; Robert T. Barnes  
 was remanded a week on a charge of  
 theft.

The monthly board meeting of the  
 House of Industry was held yesterday.  
 Henry O'Hara in the chair. The au-  
 ditors' report showed 172 in-  
 mates in the home, 23 admitted, 8 left  
 and died during month. Outdoor re-  
 lief showed 37 families added to a total  
 of 440 families receiving assistance.  
 The treasurer's report indicated that  
 \$746.05 was overdrawn.

## INDUCTION OF DR. GANDIER

New Knox College Principal to Be In-  
 stalled To-morrow.

The formal induction of Rev. Dr.  
 Gandier, principal of Knox College, is  
 to be held in St. James' Church (Dr.  
 Gandier's old church) on Thursday af-  
 ternoon at 3 o'clock.  
 The following will take part in the  
 services: Rev. Dr. Gilray will preach  
 the induction sermon, Rev. Dr. Car-  
 michael will address Dr. Gandier and  
 Rev. Principal MacLaren will speak to  
 the people. The academic speaking  
 will be held in University Convocation  
 Hall the same evening at 8 o'clock.  
 Sir William Mortimer Clark will pre-  
 side and will introduce the new prin-  
 cipal, who will deliver his inaugural  
 address. Rev. Dr. Duval, moderator of  
 the General Assembly, will deliver an  
 address and honorary degrees will be  
 conferred upon distinguished members  
 of the faculties of other colleges and  
 upon members of the alumni of Knox

### STEVAN SWYRYDA ON TRIAL FOR MURDER AT ERINDALE

Foreigner is Charged With Killing Oleock Leutik—Charge to Grand Jury.

BRAMPTON, Nov. 17.—(Special.)—The fall assizes opened this afternoon. Mr. Justice Riddell presiding. His lordship, in his address to the grand jury, referred to the prevalence of perjury, saying that it was increasing, and it was his intention to do his best to put a stop to it. He did not intend to discharge the grand jury when they had reported on the bills before them, but would keep them, as it might be the case that someone during the course of the trial would say what was untrue, and it would then be his duty to direct that an information be laid and placed before them.

The grand jury brought in a true bill against Stevan Swyryda, charged with the murder of Oleock Leutik. The prisoner was placed in the dock. It took an hour and a quarter to complete the jury, the following being chosen: Frederick W. Snelk, A. Dobson, W. J. Jameson, Thomas Lintell, Benjamin Graham, James Armstrong, A. Goodfellow, G. H. Falconer, William Duffy, John Davidson, W. J. Sanderson and James Johnston.

Thru his counsel, Ellihu G. Marris, the prisoner pleaded not guilty. **Crow's Evidence Outlined.** County Crown Attorney McPadden, addressing the jury, outlined the evidence. The prisoner was living in Toronto on April 14 last, at 39 Teraville street, a boarding house. On that date the deceased was brought to this boarding house by the prisoner. He remained there two days, and on April 16 the prisoner and the deceased left the house together. Evidence would be forthcoming, showing that these two men were seen on the Toronto and York Radial Railway on the night of April 17. The prisoner returned alone to the boarding house a day later and there gave different accounts as to what had become of the deceased. First he said he had left him on a farm, and then he said he had gone to Hamilton. Nothing more was heard of the deceased until May 3, when two boys playing on the farm of Samuel Faskin, near Erindale, found the body. In a wood, partly covered with leaves.

**Struck by Blunt Instrument.** The medical examination showed that death had been caused by decapitation having been struck on the head by some blunt instrument, and a club on which were found stains, supposed to be blood, was found near the body. An empty flask was also found, and several other articles which were afterwards identified as the property of the deceased, among them a suitcase which had undoubtedly belonged to him, and the two halves of which would be produced in court.

The first witness called was Mrs. Adalya of 39 Teraville street, Toronto, where prisoner was boarding at the time of his arrest. He came to her home on March 11 last and remained until April 16. He said he had no money. She remembered the deceased coming to her house on April 14. He had been brought there by the prisoner. He had a valise with him and a bundle. He appeared to be a boy of good education, wrote very well and spoke more than one language. The prisoner told her that he had found the boy on the street, that he was crying and did not know where to go.

**Head Mincey.** At this point the prisoner stood up in the dock and became somewhat excited, leaning over the bar and listening most attentively to the witness as she gave her evidence. Mrs. Adalya described the departure of the prisoner and the deceased on April 16, adding that she had never seen him alive since that date. When the prisoner returned on Good Friday morning, she asked him what he had done with Leutik. He said he had got him a job on a farm at \$7 a month, but did not say where the farm was. At the same time the prisoner paid her some money from a pocketbook, and while he did so she saw the figure 5 on one of the bills which were in the book. She told the prisoner had a wife living in Rochester, who came to Toronto on April 15.

The witness was cross-examined but her evidence was not shaken.

### Public Amusements

"The Bohemian Girl," this week at the Royal Alexandra, is proving one of the greatest offerings this season of the Imperial Opera Company. The opera, Balfe's masterpiece, continues to draw numbers which have thrilled music-lovers of different generations, and seems to increase in attractiveness as time goes on. The cast of the Imperials is most praiseworthy. In the role of Arline, Miss Agnes Cain Brown is certainly scoring one of the biggest hits of the season, while Miss Louise LeBaron is giving an impersonation of the Gypsy Queen so thoroughly artistic it will live long in the memory of the patrons of the Royal Alexandra.

The most important theatrical offering of the season will be the production of "Divorce" at the Princess Theatre to-morrow evening. Mr. Fred C. Whitney has secured an all star cast for the presentation of the play, and the reception given the production in Detroit and other American cities indicates a highly successful run. The company includes Miss Marian Terry, Miss Ida Conquest, Eben Plympton, Vincent Serrano and John Glendinning, all artists of world wide renown and the play is by Paul Bourget with the American version by Stanislaus Stange. There will be but four performances here, including the matinee on Saturday.

"The Great Question" will be presented for the first time in this city at the Grand next week. This is a political play which upon a problem that perplexes leading states-

### Strained Back and Side

"While working in a saw mill," writes C. E. Kenney, from Ottawa, "I strained my back and side so severely I had to go to bed. Every movement caused me torture. I tried different oils and liniments, but wasn't helped until I used Nerviline. Even the first application gave considerable relief. In three days I was again at work. Other men in the mill use Nerviline with tremendous benefit too." An honest record of nearly fifty years has established the value of Poison's Nerviline.

# WILLOW RIVER TIMBER COMPANY, Limited

Incorporated Under the Companies Act of Canada

## Non-Assessable Authorized Capital, \$250,000 No Salaried Officials

### DIRECTORS

President, **J. H. SPENCE, Barrister** of Masten, Starr & Spence, Toronto  
**F. S. GREENWOOD, M. D.** St. Catharines, Ont.

Vice-President, **W. H. MERRITT, M.D.** Director Imperial Bank, Rodman Hall, St. Catharines, Ont.  
**W. J. MACDONALD, M.D.** St. Catharines, Ont.  
**JAMES M. ANDERSON** Ex-Crown Timber Agent, Sutton West, Ont.

Sec'y-Treas., **JOHN W. GORDON** Insurance Broker, St. Catharines, Ont.  
**B. BROUGHTON** Mgr. Hamilton Steam & Steel Works, Hamilton, Ont.

### This Company Holds 22 Timber Berths, Aggregating 52 sq. Miles (33,280 Acres), all Carefully Selected, Containing Over 800,000,000 Ft. of Finest Timber, Bought by This Company at the Exceptionally Low Figure of 26 Cents per Thousand Feet

All of this timber is located in the Willow River District on solid level ground, lies close beside good water for logging, and is mostly White Spruce of a superior quality. It averages 30 inches in diameter and ranges from 90 to 160 feet high. The limbs commence half way up. There is some good tall Pine and Balsam. The Grand Trunk Pacific and the Canadian Northern surveys both cross the Willow River lower down than our limits.

British Columbia White Spruce is infinitely superior to the Ontario variety, and makes the finest finished lumber for interior work. It also makes splendid lumber for general use. Ends of logs and logs too small for lumber can be utilized for pulp, as **White Spruce is universally acknowledged to be the finest material in the world for pulp for fine papermaking.**

The limits were cruised by James M. Anderson, of Sutton West, an Ex-Crown Timber Agent, and the company has on file at its office a number of letters from some of the most prominent business men in Canada in recommendation of his capability and integrity, and from settlers in the Cariboo District verifying his report of the timber.

The company has also issued in pamphlet form the report (dated Oct. 31, 1908), of Mr. H. P. BELL, M.I.C.E., member Am. Soc. C. E., at present the Superintendent Engineer on the Government Staff on the Trent Valley Canal at Campbellford, Ont., who was employed by the British Columbia Government in 1874-5-6 to make a survey of the Willow River Valley for the proposed route of the British Pacific Railway, and who cut the Government Pack-trails through the Willow River District in 1895. His report substantiates Mr. Anderson's in every detail, and in view of Mr. Bell's pre-eminence among the Civil Engineers of America, among whom there is no higher authority on the topography of the Cariboo District, his report will be universally accepted as being entirely correct. Mr. Bell was recommended to this company by Mr. Colingwood Schreiber, Consulting Engineer to the Dominion Government and Chief Engineer of the Western Division of the National Transcontinental Railway.

## GOOD TIMBER well located, is the safest and best investment in the world to-day.

## FIRE DOES NOT DESTROY MATURED TIMBER

It kills and stops the growth, but if cut down within two years after the fire, this timber will make first-class lumber. But fire does destroy the young growth of small saplings, thus depriving the coming generations of their timber supply. ANY RELIABLE LUMBER DEALER WILL VERIFY THIS STATEMENT.

The C.P.R. holds several limits in British Columbia, and after reserving the best, is selling the second-class timber at \$2.00 per 1,000 feet on-the stump. If we sell our selected timber at the same figure in three years, on a basis of \$224,000 paid-up capital, **Each \$100 Invested To-day Will Bring a Return of \$859.42**

This is not exaggerated; \$2.00 per thousand for good timber is a ridiculously low price. In Ontario Spruce is now worth from \$7 to \$9 per thousand feet on the stump and is rapidly increasing in value

## Each Share of Stock Represents 315,600 Feet of Timber

A Limited Number of Shares is Now Offered at **\$100 Per Share, With 20 Per Cent. Stock Bonus** On All Subscriptions Received Before November 23rd

TERMS—Cash: 5 per cent. discount on one-half the amount subscribed; 1 time: 25 per cent. cash, 25 per cent. on December 10, 1908, balance by May 10, 1909. Copies of Prospectus, containing Maps of the District and disposition of the berths and report of Gov. Engineer H. P. Bell supplied on application. For further information and subscription blanks, address **JOHN W. GORDON, Secretary, 17 Queen Street, St. Catharines, Ont** PHONE 49. OFFICE HOURS: 9 A.M. TO 6 P.M.; 7.30 TO 9 P.M.

men of the United States. It is said that Frederick Paulding has treated his theme in a masterly way, working it out logically to its conclusion. The play is not entirely serious. Its locale is Washington and much of the bright side of social life there is depicted. It is hardly necessary to say anything about the leading lady of the company, Jessie Bonstelle. She is well known and her ability as an actress generally recognized. Miss Bonstelle is said to have the best support that has ever appeared outside of New York.

The Star has made a ten strike with the "New Century Girls" this week, and bumper houses are the rule. "Beans" is the burlesque and it is some burlesque. There is a laugh each and every minute and the girls are a great factor in dispelling the gloom. Wednesday night is necktie night, while Thursday is devoted to the chorus girls' vaudeville. Friday night the amateurs will make merry. The list is expected. To-night is amateur night at the Star and a large list is promised to the patrons. Next week the "Frollesome Lambs" are on for the week and as it is the first visit of that organization to this city much can be expected.

Mme. Calve in concert on Tuesday evening next will be assisted by Ibrahim Van Den Berg, pianiste, and Karl Klein, violinist. Mme. Calve's numbers will be Stances de Sapho, Le Printemps, Air de Delfia, Serenade (Gounod), Visions, Chanson Espagnole, Habanera "Sarmen," Mandolinata. The sale of seats begins to-morrow (Thursday).

### ALLEGED FORGER CAUGHT.

Frederick Roberts Presents Bogus Cheque at Bank of Hamilton. Frederick Roberts, 413 1-2 Church-st., a painter, was arrested by P. C. Graham (123) yesterday charged with forgery at the Bank of Hamilton, Yonge and Gould. Roberts went to the bank and presented a cheque purporting to be made out by his former employer, James Phinmore, 10 East Gerrard-street, in favor of A. Phillips for \$43.50. This he endorsed as A. Phillips. He had cashed a genuine cheque of Phinmore a day or so before and the man at the ledger was doubtful. He compared the signature on the cheque with Phin-

more's own signature and was more doubtful. Then Roberts produced a letter which he said had been written to him by Phinmore, but which was not in his writing. The man at the ledger was not doubtful any more. He called the policeman and Roberts was arrested. **Took an Ax.** Charles White got behind in his board and room rent to Mrs. Lang at 673 Parliament-street. Last night she refused to let him have his belongings until he paid. Charles took an ax and broke things. He is charged with malicious injury to property. **A national missionary congress is to be held in Massey Hall March 31 to April 4 next.**

# Cochrane, New City of North Government to Sell Town Lots

### Junction Point of T. & N. O. and G. T. P. Railway Chosen as Site of Future Metropolis of Northern Ontario.

Within a radius of 500 miles of Toronto lie nearly all the most important cities of the American continent. New York, Chicago, Boston, Washington, Philadelphia, not to mention Montreal, Buffalo, Pittsburgh and Cincinnati, are all included in the circle of which Toronto is the centre, with a thousand miles for its diameter.

Forming almost an equilateral triangle one may take three points in this circle—New York, Chicago and Cochrane. Cochrane is the new city called into existence by the growth of the Province of Ontario northwards; the extension of the Temiskaming and Northern Ontario Railway, the extraordinary mineral development of the Cochrane districts, and the opening up of the northwardly of the marvelous clay belt of 15,000,000 acres beyond the height of land.

It has been the custom to think of this country in the north as a frozen region, just as years ago Manitoba and the Northwest generally were regarded as barren arctic regions. Every one today is aware of the generous fertility of the western soil, and the healthy conditions of life in the prairie provinces.

The prospects in the township around the new City of Cochrane are superior to anything the Northwest ever offered, and this is true whether applied to soil or climate or accessibility or business conditions or natural resources. About 14 years ago Toronto was founded with the prospect of a frontier village. The Indian trail and a natural harbor and some trees. To-day Toronto has 200,000 people and three railways. Five years ago she had only two railways. After 110 years Toronto had achieved those two highways of civilization.

Cochrane actually starts its existence with two railways, the T. & N. O. and the G. T. P., or national transcontinental railway. The meteorological records show that the weather beyond the height of land is actually milder than the south of it. In any case the climate is no more severe in Northern Ontario than in the western provinces. This is the great difference, however, in Cochrane, that it is very much further south than the chief towns and cities of the prairie provinces, and consequently much more advantageously situated as a winter resort.

Cochrane is as nearly as possible on the 46th parallel of latitude. It would be a United States town if it were far enough west. Winnipeg lies on the 49th parallel, a long way north. Regina is much further north.

Not far from North Bay, in Europe a large number of the cities lie very much further north than will be understood when it is remembered that Cochrane is about the same latitude as Paris, Berlin, Brussels, Hamburg, Cologne, Dresden, Rotterdam, Amsterdam all its north of Cochrane, and of course St. Louis, St. Paul, Chicago, and Christiania lie much further north. London and Copenhagen cannot be so well compared. For they lie 700 miles north of Cochrane, their insular situation gives them a different climate. Cochrane, however, should have a climate similar to Paris or Rome, and much superior to Winnipeg.

Cochrane township is under the jurisdiction of the T. & N. O. Railway Commission, consisting of J. E. Englehart, Denis Murphy and Frederic Dane. These gentlemen have realized the extraordinary importance of the junction point of the two railways, and in selecting a suitable site for the city which will inevitably grow up there have spared no pains to select a spot that would be worthy in every way.

lies the Abitibi River and to the west the Frederic House River, seven miles distant in each direction.

Part of the townsite lies in Lamarche and part in Glanville Township. The southern part in Lamarche is level ground. From the junction of the two townships the ground rises in a nice gradual slope towards the country to the north for about a quarter of a mile north of the lake, and then slopes gradually the other way. It slopes also to the west again in a very gradual way. The east is wooded. The country all around is of a rolling character, and very attractive. It has been examined by a lot of men competent to judge, and these authorities all voiced the opinion that it was one of the best sites in Ontario.

The land about is a good clay suitable for farming, and no doubt will attract settlers. Enquiries have come from one side of Canada to the other and the greatest interest is manifested in the northern districts, the general view being that Cochrane is the chance of a life time to get in at the beginning of a great city and grow up with it.

The T. & N. O. Railway Commission have taken the greatest possible pains to have an absolutely fair and satisfactory sale of the townsite lots. All who know Mr. Englehart need no further assurance in that respect. Messrs. Murphy and Dane are equally anxious to afford the most impartial opportunities to all who desire to throw in their lot with the new city.

As soon as the site was decided upon a policeman was placed in charge to warn off and prevent squatters. The site has been surveyed and laid out in streets and avenues. All the streets run north and south and all the avenues east and west. Avenues from First to Seventeenth have been surveyed, and of these Third, Fourth, Fifth, Sixth and Seventh are 100 feet wide each. All the other streets and avenues are 66 feet wide. The lots are about one-fifth of an acre each with a frontage of about 88 by 180 feet.

No buildings of any kind have been erected or will be until after the sale. The site is quite open, an upset price being put on each lot. Any lot desired will be set up to be bid upon, and all purchases will be made in cash.

There will be no monkey business about it, as one of the commissioners remarked. A considerable portion of the land has been laid out, and a number of the streets and avenues have been graded. Reservations have been made for municipal buildings, government buildings and schools and the station grounds. Outside these not an inch of ground is owned by any one, so that all will start alike.

It was suggested that reservations for park lots or squares should have been made. The commission considered that in the meantime the boulevard around Commando Lake would be sufficient.

The station grounds lie south of the lake, and it is probable the union station will be erected for the accommodation of the two railways.

# The Townsite of Cochrane Lots of Which Will Be Placed on Sale by Auction by the Government on Nov. 26

## SPEED ORDER CONFINED TO YONGE AND BAY STS

### Grand Trunk Ordered to Install Special Gates at Thames Street, Ingersoll.

The Dominion Railway Commission finished its November sitting in Toronto yesterday afternoon.

City Solicitor Chisholm was assured that the order for the limiting of the speed of trains on the Esplanade to four miles an hour, related only to Yonge and Bay streets.

Mr. Chisholm sought this information on the ground that the old provision in the Railway Act upon which the order was based included the crossing on Thames-street for the protection of school children and others, passing along this, the principal thoroughfare in the town.

On the petition of the Town of Ingersoll, the Grand Trunk Railway was ordered to install special gates at their crossing on Thames-street which the railway lawyers held the view that Chairman Mabee merely intended the streets crossing of the Yonge and Bay streets.

The questions of settling the fee the C.N.R. should pay the Grand Trunk and the conditions under which the former company should have use of the Union Depot in Toronto was adjourned till the January sitting on account of the absence of G.T.R. witnesses.

## PREACHER IS INVOLVED. Mysterious Disappearance of Young Woman Leads to Scandal.

A Boston despatch says that Rev. Payson Young of Frisco, who is now involved in the disappearance from a train of Edna Clark of Alameda, Cal., was formerly a fisherman's clerk in Boston, who disappeared in 1886, leaving a wife and three children. It adds that he was once a pastor at Jarvis, Ont., and is known as Marburg, Ont. Both these latter places are in Norfolk County, and enquiry by The World failed to find anyone who knew him at either place.

A San Francisco despatch says: "The Rev. Payson Young is said to be at the point of death as a result of the accusations and disclosures in connection with the disappearance of Edna Clark."

Even his fellow-clergymen have been denied admittance to his house, and Dr. Pomeroy, the physician who is attending him, says the slightest shock might prove fatal.

The action of the committee of five appointed by Bishop Nichols to investigate the conduct of Rev. Mr. Young resulted in a call for affidavits from persons having knowledge of facts relating to the disappearance of Edna Clark and rumors affecting the character and conduct of Rev. Payson Young.

First Aid Outfit for Guests at Hotel. NEW YORK, Nov. 17.—Smelling salts, surgeon's gauze, brandy and corollary form part of the equipment of a system of first aid at the Hudson Hotel, in the Waldorf-Astoria, establishment of which was announced last night.

## W. F. CHAPMAN PRESIDENT. Methodist Class Leaders' Annual Convention—Election of Officers.

The annual convention of the Toronto Methodist Class Leaders' Association was held at Broadway Tabernacle yesterday. A. B. Powell, retiring president, was chairman.

At the afternoon meeting Rev. Dr. Wilson opened a discussion on the usefulness of the class. W. F. Chapman spoke on the requisites of a class leader.

At night various phases of the relationship of the class to the church were discussed by Rev. T. E. Bartley, president Toronto conference; Rev. C. O. Johnston, Rev. Dr. Rankin, Rev. Dr. Booth, Rev. W. L. Armstrong, J. W. L. Forster and J. N. Lake.

These officers were elected: President, W. F. Chapman; vice-presidents, J. Harley and H. C. Fortner; secretary, W. Dewitt; treasurer, A. D. Vaughan.

RACING AUTOIST KILLED. BIRMINGHAM, Ala., Nov. 17.—While making more than 60 miles an hour in an effort to lower the 24-hour automobile record, Emil Stricker, a native of Alsace-Lorraine, was almost instantly killed, and Leon Barrows of Birmingham seriously injured. The two cars exploded while rounding a curve.

## MAINLY ABOUT PEOPLE

Samuel G. Cosgrove, governor-elect of Washington State, who has gone to California in an effort to recover his broken health, has accepted the offer of Gov. Albert E. Mead, incumbent, to carry out any plans or policies he may suggest during his absence.

The Toronto Symphony Orchestra. Saturday, Nov. 21, is the date fixed for closing subscriptions to the Toronto Symphony Orchestra concert, on Dec. 8. All who wish to have good choice of seats should forward their subscriptions at once to the general secretary, F. T. Stanford, 46 King-street west.

TELEGRAPHIC BRIEFS. The late Col. T. D. B. Evans, D.O.C. in Winnipeg district, left an estate valued at \$28,570, of which \$285 is in Ontario and the rest in Manitoba. He left no will.

At Sturport, Maine, between 800 and 900 employees of the Oxford Paper Company have struck and closed the paper mill because two union officers' lost their positions as a change in management at Chicago, an automobile driven by M. F. Wilson ran into a group of small boys playing football and killed one of the players, John Armstrong, eight years old.

It is denied at Ottawa that Hon. A. B. Aylesworth is returning to Vienna for treatment. He is now preparing the government bills for the next session of the house.

## PREACHER IS INVOLVED. Mysterious Disappearance of Young Woman Leads to Scandal.

A Boston despatch says that Rev. Payson Young of Frisco, who is now involved in the disappearance from a train of Edna Clark of Alameda, Cal., was formerly a fisherman's clerk in Boston, who disappeared in 1886, leaving a wife and three children. It adds that he was once a pastor at Jarvis, Ont., and is known as Marburg, Ont. Both these latter places are in Norfolk County, and enquiry by The World failed to find anyone who knew him at either place.

## "Don't Neglect a Cough or Cold."

It can have but one result. It leaves the throat or lungs, or both, affected.

Dr. Wood's Norway Pine Syrup is the medicine you need. It is without an equal as a remedy for Coughs, Colds, Bronchitis, Sore Throat, Pain in the Chest, Asthma, Whooping Cough, Quinsy and all affections of the Throat and Lungs.

A single dose of Dr. Wood's Norway Pine Syrup will stop cough, soothe the throat, and if the cough or cold has become settled on the lungs, the healing properties of the Norway Pine Tree will proclaim its great virtue by promptly effecting the had effects, and a permanent use of the remedy cannot fail to bring about a complete cure.

## Palpitation of the Heart.

One of the first danger signals that announce something wrong with the heart is the irregular beat or violent throb. Often there is only a fluttering sensation, or as "all gone" sinking feeling; or again, there may be a most violent beating, with flushings of the skin and visible pulsations of the arteries.

Mr. Sylvester Smith, Hampton, N.B., writes: "I was troubled with palpitation of the heart and tried doctor's medicines, but they only gave me temporary relief. I heard of your Heart and Nerve Pills and bought two boxes and before I had used them I was completely cured and would recommend them to all similarly affected."

## WEAR MY BELT TILL I CURE YOU, Then Pay Me

You can talk with the men and women who have been cured by my treatment, and that's worth considering. I might preach for years in my efforts to gather converts to my way of curing diseases, and nobody would pay any attention to my arguments, but when I tell you I have cured your neighbor, Mr. Walker, or your old friend Mr. Williams, and you can go and ask them about me, and they will tell you I have cured them, then I have given you proof, and you know that I do all I claim.

To those who still doubt there is any cure because they have been misled by false representations, and want evidence of cure in their own cases before paying, I am willing to take all the chances of curing any case of RHEUMATISM, LUMBAGO, LAME BACK, SCIATICA, VARIICOCELE, NERVOUS DEBILITY, CONSTIPATION, LOST ENERGY, resulting from excess and excesses in young and middle-aged men. Give me reasonable security and you can

PAY ME WHEN CURED. I will not promise to make a Hercules of a man who was never made better than he is; but the man who has been strong and has lost his strength I can make as good as he ever was. A man who is nervous, whose brain and body are weak, who sleeps badly, awakes more tired than when he went to bed, who is easily discouraged, inclined to brood over imaginary troubles, who has lost ambition and energy to tackle hard problems, lacks the animal electricity which the Dr. McLaughlin Electric Belt supplies.

DR. M. O. McLAUGHLIN, 112 Yonge St., Toronto, Can. Dear Sir, Please forward me one of your Belts, as advertised. NAME: ADDRESS: Office Hours—9 a.m. to 6 p.m. Wednesday and Saturday until 8 1/2 p.m. Write plainly.

# COBALT --- Famous Hargrave Mine Now Open to the Public ---COBALT

## STOCKS ADVANCED ON MERIT ARE STILL IN GOOD DEMAND

### Mining Market Resents Attempts at Manipulation--Good Stocks in Substantial Demand.

World Office, Tuesday Evening, Nov. 17.

Altho there was a big, broad market for the Cobalt stocks to-day, there was considerable realigning of profits in the market, and under this pressure prices generally advanced, but were adversely influenced and quotations closed lower than the opening figures.

The most active issues were Scotia and Beaver. Both of these stocks have been highly manipulated and are lacking any investment support in consequence. There was a further selling of both of the issues again to-day, and these specialities served to disturb the confidence in the whole market temporarily. There was some good absorption of Temiskaming, Silver Queen, Chambers-Ferland and Peterson Lake, and each of these stocks was wanted in considerable amounts at the low prices touched.

There was very little pressure of offerings of most of the stocks on the market outside of issues which are being handled merely for cash purposes. Some of the selling came from traders for the short account, who presume that they can gather small profits by further outside realigning.

Otisse retained its position as one of the firm issues of the market, all offerings of the stock being readily taken at 80. Foster was in demand, but at lower prices than those willing to be taken by present holders. Crown Reserve was somewhat of a drag, and but for Montreal orders in support of the shares the price of the stock would have gone considerably lower. Nipissing and La Rose were substantially firm at New York, and it is believed that both of these issues are preparing for a big advance.

At the close of the market sentiment was somewhat mixed, but general impressions indicated that the stocks which have advanced on merit are still being bought on these grounds, and will see much higher prices later on.

### PRODUCE DOUBLE OF CAPITAL

#### Big Finds Are Being Made at the Chambers-Ferland Mine.

COBALT, Nov. 17.—Another rich vein was struck on the Chambers-Ferland property last Friday evening, but it was kept quiet until to-day. The vein is their No. 5, caught at the 80-foot level of No. 2 shaft, and where cut is 90 feet wide. The vein is two inches in width, with silver values running 3000 ounces to the ton. The vein is widening.

An appraisal is being driven by the Right of Way Mining Co. and the Chambers-Ferland vein, Capt. W. H. Jeffrey, superintendent, says this vein will produce double the capitalization of the company. On the surface of the vein about 200 feet north of the present workings, under ground, the vein was four inches in width, and an 11-ton car of ore shipped two years ago contained 2000 ounces. A certain high grade ore will be shipped in a few days.

### MACHINERY SHIPPED.

#### Badger Equipment Show'd Be on Ground This Week.

At the office of the Badger Co. yesterday it was stated that the new machinery for the mine had left Toronto and would likely be on the claim this week. The machinery is of the most modern type and of ample proportions. Sales of the Badger stock are reported as high as 60 cents, with few lots offering at that price.

### New York Curb.

R. R. Bongard (Charles Head & Co.) reports the following transactions in Cobalt stocks on the New York Curb:

Nipissing closed at 11 1/2, high 11 3/4, low 11 1/4, 4000; Buffalo, 3 1/2 to 3 3/4, 1000; Ontario Silver, 7 1/2 to 7 3/4, 1000; Scotia, 50 to 50 1/2, high 50 3/4, 50,000; Foster, 52 to 52 1/2, 100; Green-Meehan, 30 to 30 1/2; Kerr Lake, King Edward, 1 1/4 to 1 1/2; McKimley, 305 to 108, high 109, low 107, 5000; Silver Queen, 112 to 114, high 114, low 112, 4000; La Rose, 7 1/8 to 7 3/4, high 7 3/4, low 7 1/8, 6000; Trethewey, 1 1/2 to 1 1/4.

## FAMOUS HARGRAVES NOW ON THE MARKET

### Rich Mine in Kerr Lake District Has Been Secured by Toronto Brokers.

The biggest mining deal since the La Rose and Chambers-Ferland proposition is that of the Hargrave Mining Co., details of which were completed on Monday night and announced yesterday.

Many syndicates have endeavored to get hold of this property because of its known intrinsic merits, but the owners of the property had to be made a most attractive offer before they were willing to release their grip on the mine.

The stock of the Hargrave Mining Co., the property which has been withheld from the public by the government for three years, was opened for subscription by Playfair, Marrens & Co., the well-known mining brokers, yesterday at 11.50, and by 5 p.m. the whole amount of the first allotment—250,000 shares—was twice oversubscribed. Over 100,000 shares of this went to Cobalt alone.

The Hargrave property is the richest in the district where it lies, and many investors have patiently awaited for three years to secure some stock.

In 1975 this mine, which has a shaft down 75 feet, shipped a carload of ore, and then, owing to disputes about ownership, the government ordered it to be closed down. These disputes have now been settled by the court.

The purchase of the property and the resumption of shipments as early as possible.

The Hargrave claim consists of 87 acres. This property is in the centre of the Kerr Lake and Temiskaming district. It is bounded by the Drummond on the north, Kerr Lake and west by the famous Lawson claim.

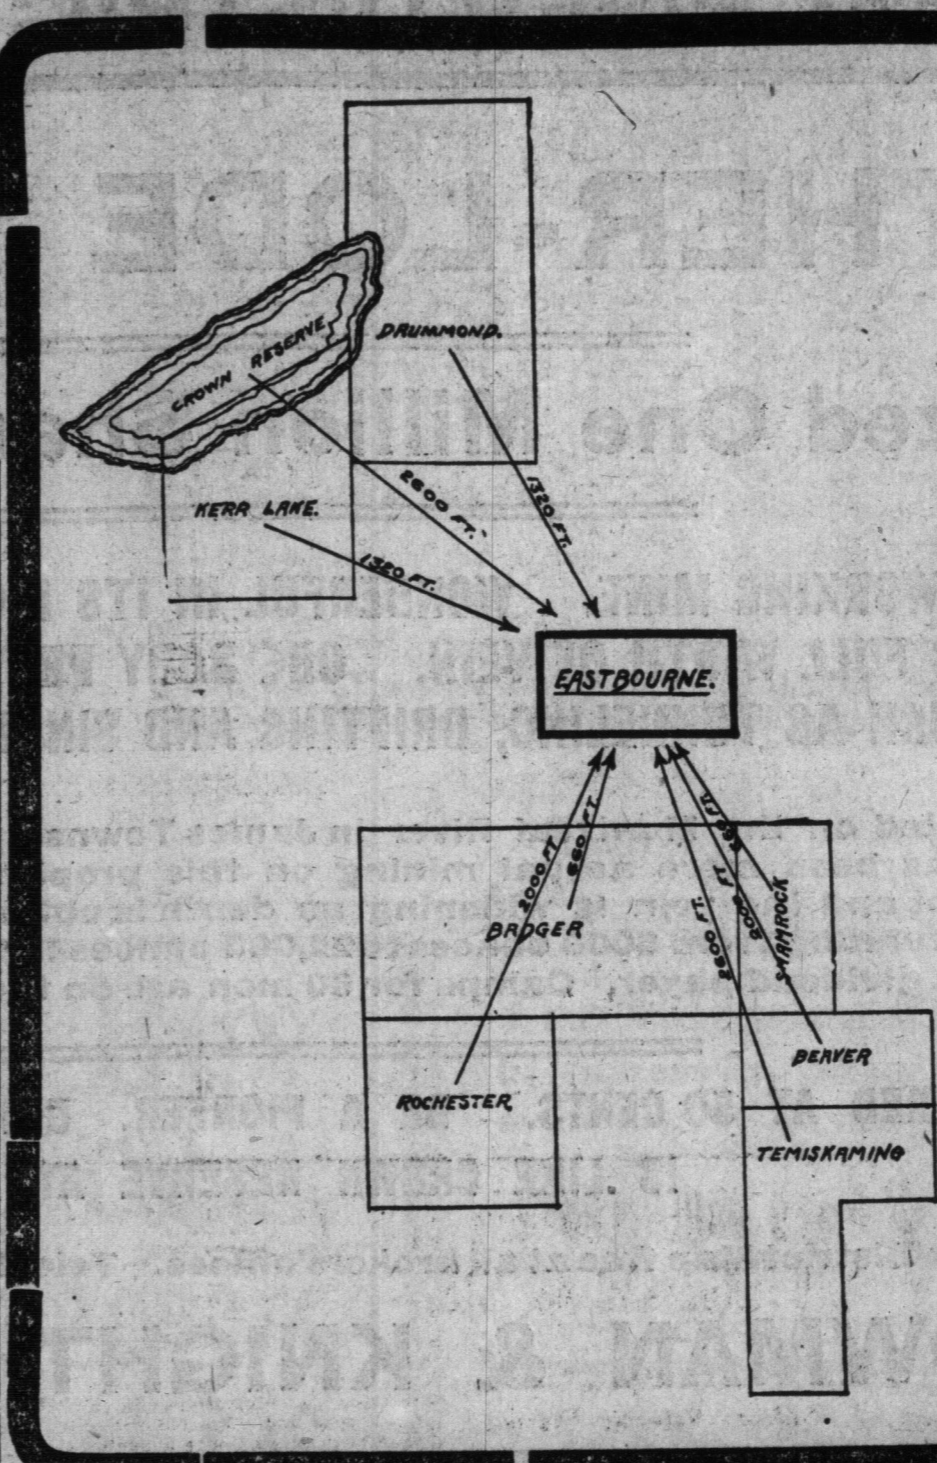

The stock will be held at once on all the leading exchanges and a general offering will be made in a few days. The offering was made at 56 and 57.

### SUBSTANTIAL PROFITS.

Uesher, Straithy & Co. in their circular say: During the last month the trading in Cobalt stocks has been on a tremendous scale. The demand for this property in this great silver camp is increasing daily, and the majority of the brokers, during the past two or three weeks, have been almost overwhelmed with buying orders from all points. Particularly heavy buying has come from Cobalt and the immediate neighborhood, which proves the fact that the residents in that neighborhood have the greatest faith in the present market. About a week ago a general sale of heavy profit-taking by parties who bought stocks at much lower prices. This setback to the market was welcomed, particularly by brokers, who have been unable to keep up with the orders received. Very heavy buying occurred after this reaction, and the result is that stocks are now in a better technical condition than they have been for months.

### REPORT IS FAVORABLE.

From private sources it was learned yesterday that a Scotch engineer, who had been engaged specially to report for the British capitalists in connection with the Chambers-Ferland mine, had reported favorably on the property. This information leaked out in Cobalt yesterday and considerable buying of Chambers-Ferland both for cash and for future delivery was made on account of the understanding, been materially modified, and the prices at which the stock was first offered had been advanced considerably. Rumors around financial circles last night suggested that an early advance in the shares of Chambers-Ferland might be expected, and it was difficult to get any firm offering of the stock after the close of the exchange.

### APPLE GROWING BOOSTED AT SPOKANE

The Importance of This Great Industry Duly Regarded at the Big National Apple Show in Dec.—Its Educative Work.

SPOKANE, Wash., Nov. 16.—What is regarded by authorities as the last word in the present-day development of the king of fruits are the thousands of exhibits gathered together from various parts of the United States, England, Canada, Wales, Scotland, Germany, France, Denmark and Japan for the National Apple Show in Spokane, Dec. 7 to 12, when the foremost experts of America, acting as judges, will award premiums amounting to \$25,000 to the growers of the best commercial apples entered in the numerous competitions, which are open to the world. Many growers in Canada are keenly interested, and will enter representative exhibits in practically all classes, from the carload contest, for which the prize is \$1500, to the trophy competitions.

The primary purposes of this exposition, the first of its kind and scope in the world, are to show the value of the apple as a food and fruit, to demonstrate its manifold uses and by-products, and stimulate an industry which means millions of dollars more annually to the growers and handlers on this continent, thus creating a greater demand by reason of the increased consumption, as well as encouraging the growing of cleaner and better fruit and more of it. When this shall have been accomplished the apple will occupy its rightful place as the foremost of the staple commodities of the world. So popular has the movement become that "Apple week in America," officially designated, has been observed in the United States and all over the country, and they will make displays in stores and windows during the week of Dec. 7, and it is believed that everyone interested in either growing or eating apples will observe the period in fitting recognition of the industry.

The exposition is designed to be one of the most important of the movements that have originated in the Northern United States in the last few years. It is vital, in fact, the most necessary conference of its kind that could have been called at this time. One of the important meetings in connection with it is the fifth annual convention of the Washington State Horticultural Association, of which H. M. Gilbert of North Yakima is president. There will be several prominent speakers at the meetings, which will occupy four days, Dec. 7 to 10.

The Country Life Commission, headed by Prof. L. H. Bailey of Ithaca, N.Y., named by President Roosevelt, will also hold a session in Spokane during the exposition. Besides this party there will be federal officials, growers, irrigationists and representatives of commission houses from all over the country.

Will Production Lag? Radical changes are necessary in the culture of apples on this continent. There must be betterment of the general

conditions of the commercial orchards, else the United States and Canada will be forced in a few years to import apples, instead of exporting them. Just how important this is may be gathered from the statement that if it had not been for the enormous crops in the orchards of the Pacific and northwestern states and provinces this year, an apple famine would have resulted.

Many of the middle western and eastern states reported small yields this season, due to failures in numerous instances, but generally because of lack of even ordinary attention, while, again, in others the growers did not know how to combat insects and tree diseases. It is to improve these conditions, by making investigations and suggesting remedies to bring about more satisfactory results, that the growers have been invited to come to Spokane in December.

Those familiar with the apple industry will recall that in 1896 the total product of the crop of the country was \$9,070,000 barrels, or 17,575,000 bushels. Since then hundreds of thousands of acres have been added and methods of fruit growing have improved, yet the government reports show that the aggregate crop in all the states in the Union was not more than 23,000,000 barrels, or \$2,500,000 bushels in 1908. The necessity, for greater efforts and for the eliminating of half-heartedness in this important industry must be apparent, and should appeal to every one having any connection with apple growing.

The apple-growing industry is a substantial one; in fact, few enterprises offer more or more attractive profits, or more healthful and pleasant employment. A small investment will secure a beginning, and reliable literature can be had readily from the departments of agriculture and the numerous excellent horticultural and farm journals published in America.

An Assured Market. There will always be markets for apples. There never can be an overproduction of first-class stock. It is, in fact, impossible at the present time to produce the quantity of good apples requisite to meet the demand. This is evidenced by the fact that England, Germany, France, Denmark, Australia and the orient are already drawing upon the orchards in Ontario, Nova Scotia, Washington, Idaho, Oregon and British Columbia. When this outside trade is firmly established, the demands upon the growers will be largely increased. This means more new orchards and better care of the older ones.

That the apple is the national fruit cannot be questioned, when in hotels, restaurants, resorts, trains, steamers and homes this delicious fruit is served the year around, but while there are apples everywhere, apparently, the supply is not sufficient, and as a result there must be many places where an apple is regarded as more of a luxury than the commodity it should be. No fruit is capable of being transformed into so many by-products, and the highest medical authorities declare that none is more wholesome or healthful.

Experienced and ambitious apple growers see more attractions in the National Apple Show than the magnificent premiums offered by the management. They believe it will prove their greatest success from an educational viewpoint, and without doubt the most important in all history so far as apple culture is concerned. While the growers west of the Rockies have been able to avoid many of the errors of the older districts, because of improved methods, they have yet much to learn and there seems no better way to do this than to bring the east and the west and the north and the south together.

At Wilmington, Del., George Sprague, aged 45 years, was asphyxiated, and his wife and three children overcome. The gas meter had in some manner become detached from the service pipe and the house filled with gas.

### INCREASING THE STAFF MARCELL PEOPLE BUSY

Will Sink Three or Four Prospecting Shafts at Vein Intersections to Locate Permanent Workings.

This week the Marcell Mines Company are increasing their staff, and, under the direction of J. W. Moffatt, the well-known consulting engineer, a comprehensive plan of prospecting will be undertaken.

There are 15 veins or more on the Marcell property, and it is proposed to sink three or four shafts, a prospecting distance at the likeliest intersections. The most favorable will become the shaft from which the mine will be worked.

The Marcell has been practically underwritten by Mr. Alexander Warden, 18 Toronto-street, and he has had assistance from Mr. Draper Dobie, who has had an extensive mining experience. The property was paid for outright, so that the funds will not be diverted from the actual work of development. Mr. Moffatt, it may be stated, examined 60 properties before recommending the Marcell to the property.

It is located in the southeastern portion of James Township, and is the only property in that section shown on the government maps of 1907. Ore has been bagged eight feet from the Marcell line by the Lucky Godfrey people, and that vein connects with a vein on the Marcell property. There is a 12-inch vein of calcite exposed for a considerable distance, which shows bloom and calcite, and from which a great deal is expected by the management. There is water and timber on the property for steam, mining and domestic uses.

Mr. Warden stated yesterday that the demand for the stock had been active and that nearly 25 per cent. was already gone, so their advertising campaign had commenced only last Friday.

The directors have all paid cash for their stock. They include such well-known gentlemen as H. J. Martin, bar-rister of Toronto, president; Robert A. Bradshaw & Co., wholesale merchants of Toronto, vice-presi-dent; C. B. Murray, mine operator; Geo. D. Perry, secretary; G. N. W. Telegraph Co., Toronto, and Fred H. Rose, real estate broker, Toronto. The company is capitalized at half a million dollars. The stock is selling at 35 cents a share.

### MUCH INVESTMENT BUYING

Public Absorption of Cobalts on New York Curb Noticeable.

The New York World says: The volume of business on the New York curb during the week has been less than for the fortnight immediately preceding and following the election. The range of prices, too, was somewhat irregular and many of the best issues have yielded to profit-taking and especially noticeable, the buying they scored in anticipation of a post-election boom. The price movements, however, have been entirely speculative and the commission brokers report a larger volume of investment buying than they have had for over a year. The public absorption of the Cobalts is especially noticeable, the buying coming largely from a class of investors who have heretofore been known as bond buyers and holders of high-class investment securities. As anticipated in this column a week ago, there has been a reaction in the copper market, which affected all of the copper shares, with the exception of one or two issues that have the support of Boston interests and are at the

present time being made the medium of a bull campaign in copper. The general opinion among curb experts is that some reaction was due, and that it will clear the atmosphere and form a better basis for a strong, healthy advance in the better class of mining shares, which are and have been admittedly selling proportionately lower than other securities, especially when it is considered that the mining stocks as a whole have made an enviable record in earnings.

### PROSPECTS GOOD.

Eastbourne Cobalt Mines Limited Looks Like Paying Property.

It was upon the discovery of several strong veins west on the property that the Eastbourne Cobalt Mines, Ltd., passed government inspection and fulfilled the requirements for the granting of a title by the crown. The company has just issued a pamphlet setting forth the rich prospects of the property and disclosing certain facts which should inspire immediate confidence in the most conservative of the speculating public.

The Eastbourne property is located in the heart of the Southeast Coleman district and comprises 20 acres. The reports upon it of several eminent engineers are to the effect that the geological formation is identical with that of Temiskaming, Kenora, Brown Reserve and other successful mines. The company is capitalized at \$1,000,000, shares of which are reserved in trust by the Trusts and Guarantee Co., for purely development purposes.

The company has already substantial working capital in the bank for ordinary purposes, and is realizing that in this section valuable ore is found 200 to 300 feet down, have offered 100,000 shares of stock for sale to meet any

At the present time a force of twenty men is engaged in trenching, all of whom have been provided with comfortable quarters, which alone should stand as a guarantee of faith. Many stringers have been found and traced, with results that are encouraging.

### New Mining Brokerage Firm.

J. A. McIlwain, mining broker, is moving his office from 94 Victoria-street to 211-1/2 Scott-street, Standard Stock & Mining Exchange, second floor. A partnership has been formed by Mr. McIlwain, with John Armstrong, a Pittsburg broker who has a big connection in the leading cities of the United States. A charter has been granted. The capitalization of the company will be \$50,000, the firm name being McIlwain & Armstrong, Limited. Mr. Armstrong will arrive in Toronto next week.

### Percheron Horses.

The National Live Stock records of Ottawa forward the following, requesting its insertion: "In recent issues of some of the leading agricultural papers, there appeared a letter written by Mr. F. R. Pike of Pekisko, Alta., secretary of the Canadian Percheron Horse Breeders' Association, advising Canadian owners and breeders of Percherons to record their horses in the Canadian Percheron stud book before the close of December 31, 1908. The Canadian Percheron Association will be called on by the record committee to contribute their proportionate share of the cost of conducting the National Record office, therefore it will be seen that owners and breeders applying for registration will have to pay the cost of recording ancestors in addition to the usual registration fee. The object of

### MOOSE HORN MINES (MONTREAL RIVER)

We have told you to buy VICTORIA. We now URGE you to buy MOOSE HORN. We purpose to give Victoria management (stick at it until you ship the rich ore) to Moose Horn.

With 160 acres of land (four mining claims), three-quarters of a mile from Elk City, with assays from six distinct veins, running from 250 to 13,000 ounces of silver to the ton, with transportation assured during the winter by the Government Winter Road from Charlton, which crosses the property, WITH THE T. & N. O. RAILWAY SURVEYED TO RUN WITHIN 100 FEET OF THE MAIN SHAFT, which is down 72 feet, with fine ore from 60 feet, the Moose Horn Mine compares favorably with any mine on the Montreal River, and goes far to prove our assertion that in the Montreal River Section Cobalt has no mean rival.

All that Moose Horn needs is active development. It has the rich veins, BUT EVEN A BONANZA IN THE GROUND needs money to take it out and ship.

Enough stock has been underwritten to provide ample working capital for one year. The present offering is made to put in a complete plant, including six-drill compressor, etc. This stock is going fast, both here and in New York, where it is listed on the curb.

That Moose Horn will SHIP MACHINERY IN and SHIP ORE OUT before spring is a certainty.

Capt. John Harris says, in his report on the Moose Horn: "At about twenty-five (25) feet down the shaft, the vein widens to one inch of Calcite, in some places SHOWING ALMOST SOLID SILVER. The vein holds good to the bottom of the shaft and the full length of the drift."

"I have been in the Cobalt Camp almost from its beginning, and would say that there are as good showings of silver on the Moose Horn property as in any of the Cobalt Mines at their commencement, and for the same amount of work having been done."

"I BELIEVE THE MOOSE HORN MINE CAN BE MADE A PAYING PROPERTY FROM THE START"

Send your orders to the regular brokers, who are advertising the stock, or to the undersigned. Full information will be given at ROOM K (ON THE OFFICE FLOOR), KING EDWARD HOTEL, WHERE SAMPLES OF THE VERY RICH ORE MAY BE SEEN.

COME AND SEE THEM AND BE CONVINCED BY THE EVIDENCE OF YOUR OWN EYES. PRICE 50c PER SHARE.

## M. E. & J. W. de Aguiro

Established in New York 1884.

This communication is to again call attention to Mr. Pike's letter and to state that Mr. Pike omitted to mention that all applications for the registration of pedigrees must be forwarded with fees to the Canadian National records, Ottawa.

There is another matter which must not be overlooked. While all horses on record in the Percheron stud book de France, or the Percheron stud book of America are eligible for the Canadian book, there are horses in Canadian records in other books, which may or may not be eligible. It would be well for those intending to purchase or use Percherons to demand production of certificate of registration in the Canadian Percheron stud book.

SEED FROM A FREAK EAR PRODUCES COBLES CORN. Kernels Are Large and Solid, Even Growing Among the Silk.—Exhibited at a Fair.

Bloomington Ill.: And now it is the cobless corn. A year ago H. J. Sconce and Taylor Garlough of Vermillion County, bought a quantity of seed corn in Indiana. In the shipment was a freak ear, which, instead of a cob, or husk, the grains being neatly wrapped upon the soft foundation, like peas in a pod. Mr. Sconce decided to plant all the

### OUR ADVICE TO-DAY IS TO BUY CHAMBERS-FERLAND

This stock is a speculative purchase and a sure investment. FOSTER should do better and may be bought to hold. COBALT MONARCH at 15c and GIFFORD at 26c offer big speculative chances. Write, wire or phone orders for listed or unlisted stocks.

## CHICAGO IS INTERESTED IN SILVER MINING

Reports of the Montreal River District Excites Curiosity in Western States.

The Chicago Record-Herald has the following concerning the Montreal River district:

According to recent reports from the Ontario silver mining country, it begins to look as if there is about to be established another great silver camp, rivaling even that of Cobalt, in the Temiskaming country. And here the Montreal River district already looms large for rich silver discoveries. This is the fascinating outlook that has been attracting prospectors and investors during the last year. They see a second Cobalt coming, and they are bent on getting on the ground when it comes. Day by day a sort of magic trail is being laid out, and it is being followed by a host of prospectors. The Montreal River is a long stretch, yet about sixty miles from Cobalt there are places on this river, or in its district, the names of which set men thinking of untold riches in silver and gold.

During the last few months hundreds of prospectors have gone into this new country. Undaunted by the approach of a rigorous winter, they are still crowding the little river boats, and will continue to do so as long as they can run, after which these treasure-seekers will be ready for snowshoes or on the snow or ice, all eagerly intent on getting a location, a piece of the new Cobalt.

The new Cobalt game is the swiftest game in the world to-day, for the famous silver mines of Cobalt have made good beyond peradventure. Cobalt camp is what all experts now declare the greatest silver camp in the world. Not only has it made good, but many surprising things are being discovered. The silver area steadily enlarges so as to include properties that were once considered of little value. There are now between fifty and one hundred shipping mines in a place two miles square, and never was such a thing seen before. W. E. Davis, the well-known mining geologist of Philadelphia, who has been operating in the Cobalt region, says that the silver camps there are, without doubt, the most valuable and extensive silver areas in the world. He adds: "The wealth of Cobalt is beyond calculation at the present time. The richness of the high grade ore being shipped from this camp cannot be surpassed, and before many months I can assure you that the monetary returns will prove a revelation."

**STRUCK AT DEPTH.**  
Cobalt Central Finds Good Values Over 300 Feet Deep.

NEW YORK, Nov. 17.—A telegram received at the office of the Cobalt Central Mining Company from Jacob W. Young, superintendent at the mines at Cobalt, states that the diamond drill this morning cut a new vein at a depth of 310 feet from the surface, running at right angles to the vein struck three weeks ago, on the third level of the Big Pete Mine. The new vein, it is said, averages over 300 ounces of ruby silver per ton, and shows native silver plentifully shot in the wall-rock of several feet on both sides. The new vein gives additional proof of the presence of rich silver bodies at great depths.

**Crown Reserve's Royalty.**  
A payment of \$100,000 has been made by the Crown Reserve Mining Company on account of the 10 per cent. royalty due to the Ontario Government from the proceeds of the mine. This makes \$14,257 paid to the government by the mine to date.

## The Electrical Ore Finding Co., Limited HAS PURCHASED THE MINING RIGHTS ON 40 SQUARE MILES OF TERRITORY

### MICHIGAN CAPITAL GOES INTO COBALT

Famous Silver Camp Becoming Known to the Public Far and Near.

The Detroit News-Tribune, under the caption, "Cobalt District on Firm Basis," prints the following interview with a Detroit railroad man:

"Until one has made a personal visit to the Cobalt region and the neighborhood of the Montreal River, one can be formed of the vast mineral resources of the work that is being done there," says Nathan C. Chapman, city passenger agent of the Pere Marquette. Mr. Chapman returned a few days ago from a tour of inspection of the great mining region, armed with a notebook, a pencil and a camera, and he says he regards it as the most interesting trip he ever made.

"Cobalt is no longer a boom district," he continued. "It has settled down to a permanent basis, and mining is being carried on a business basis. Cobalt and some of the other silver towns are becoming quite metropolitan. They have their stock exchanges, their mining stocks can be bought on margin, and it is hard to find a male inhabitant over 20 years of age who is not either actively engaged in mining or dabbling in the stock market. Cobalt, however, has not what many consider a drawback to a mining town, and that is the saloon. This is prohibited in a Canadian mining town by the Canadian laws.

"People in the States have an idea that Cobalt and the surrounding country is difficult of access because of the generally rough condition of the country. The very opposite to that was one of the surprises I met with. The roads in and about Cobalt are in excellent condition, corresponding, in a measure, to our best roads; in fact, the entire mining district is devoid of practically all those difficulties one would expect to meet in a new camp, in the way of travel and transportation.

"When silver veins were first discovered at Cobalt about four years ago, many prominent engineers said the country would never develop into a mining district of much account; that the discoveries were surface indications, and that they would soon pinch out. It develops, however, that those engineers were wrong, and to-day the real wealth is being found way below the surface.

"Entering the Town of Cobalt, one can see about twenty mining properties—shafts sticking up in every direction. The first impression of Cobalt is certainly a favorable and lasting one.

"When the boom was on two years ago, Cobalt marketed less than \$4,000,000 worth of silver. This year about \$16,000,000 will be the output. Two years ago, Nipissing was the only dividend payer, but to-day there are fifteen dividend-paying companies in the camp.

"There is a great deal of Detroit and Michigan capital invested in various sections of the silver and gold mining district. The new Montreal River district,

discovered in the fall of 1906, is attracting a whole lot of attention. One of the interesting features I ran across up there was that Jack Munroe, the former pugilist, went into that district when it first opened, and took with him Kid Brady, Kid McCoy, George Watts and others of the sporting fraternity. Munroe is certainly making good. He has sold some good claims, and is working others himself.

"The Montreal River district is really showing better than the Cobalt district did in the same length of time. Elk Lake City is the distributing point of the new district. It is fifty-five miles from Latchford, and is reached by four boats and three portages. Although without a railroad, Elk Lake City has two hotels, and is in a generally flourishing condition. The new big discoveries are about twenty-five miles west of Elk Lake City. It was related to me that, in three weeks in the spring of 1907 not less than 2500 ounces of silver were discovered in the new district, and to this day fifty have not been accounted for.

"To the north of the silver districts is the great gold region. The most important discoveries to date have been at Larder Lake, Night Hawk and Lake Abitibi. From all indications, the gold region is bound to become one of the leading gold mining camps on the continent.

"When we hear it said that a certain mine markets so many car loads of ore, people hardly realize what it means. I learned that the Cobalt silver ore seldom brings under \$45,000, while several mines have records of car loads that brought all the way to about \$25,000.

"Nearly all of the ore is sent to smelters in Denver and Perth Amboy. I believe the time is not far distant when the Cobalt region will be practically all of its own smelting. Things are heading that way now, as a big smelter is soon to be built, opposite Halleybury, on Lake Temiskaming, at Ville Marie, in the Province of Quebec. It is known that people are sometimes inclined to talk about the Cobalt region as being a mining district. It seems unreal. But once a person takes such a trip thru there as I did, he becomes truly convinced that all that has been said is not far from the truth of these regions of fabulous wealth."

### DEVELOPMENT NEEDED.

Mining Engineer Comments on Distribution of Silver-Bearing Veins.

J. B. Tyrrell, M.A., the well-known mining engineer, who was for many years secretary of the Crown Jewels Survey of Canada, and who is one of the best-known members of the Canadian Mining Institute, has just returned from an extended visit thru the Montreal River mining district.

Mr. Tyrrell congratulated the World on the enterprise it had shown in sending a member of the editorial staff into the new country, and said that the articles from the north had reflected faithfully the spirit of the new camp.

"The great feature that strikes anyone is the great extent over which silver-bearing veins are distributed," said Mr. Tyrrell. "There is a great deal of silver here, and at present it awaits only development."

"Not many of the properties look as if they would pay from the grass roots, and consequently most of them need money for development.

"People must not be dazzled by Cobalt experiences, which are being repeated where mines are found that will pay enormously from the first shot. It is not at all likely that development will pay for itself, as in many of the Cobalt mines, but plants will have to be put in and shafts sunk, and a good deal of money will have to be expended before returns can be looked for.

"But there is silver there," he added, "and people should not be satisfied until they get it. It is the encouragement visible to go ahead and develop what has been found."

### THE CROWN JEWEL LIMITED.

A wire received to-day by C. H. Lambert, secretary of the Crown Jewels Limited, from their mine superintendent, reports having uncovered six prominent veins. A large force of men are at work, and active development will be continued during the coming winter.

### NEW YORK METAL MARKETS.

NEW YORK, Nov. 17.—Silver—Steady. Copper—Dull. Lead—Quiet. Tin—Quiet. Strains, \$30.2½ to \$30.37½; spelter, quiet.

### FIGHT OVER WHITE PINE.

SOME MICHIGAN LUMBERMEN ANXIOUS FOR A REDUCTION IN TARIFF.

DETROIT, Nov. 17.—The white pine lumbermen of Michigan will reopen the fight for the reduction of the 23 per cent tariff on rough lumber. The white pine men will be opposed by all the other lumbering interests of the country, with the possible exception of Wisconsin and Minnesota. Michigan hardwood men will also oppose the reduction, as there are oceans of hardwood left in Michigan. The Michigan hemlock men have also enough to do for forty years, and the two will not stand for opening the gates to Canadian white pine.

The Michigan white pine men, however, have practically nothing with which to run their mills except Canadian pine and over one hundred million feet is shipped into Bay City every year, while smaller quantities go to Saginaw, Grand Rapids and interior towns. With the tariff removed it is believed this amount would be tripled or quadrupled.

**Spiritualistic Contest.**  
NEW YORK, Nov. 17.—The Metropolitan Psychological Research Society is offering a purse of \$5000 for a contest between spiritualists to enter the lists and those who desire to enter the lists are asked to apply some slight test on their own account, such as for instance opening a book over their heads at random and having the spirits read the pages to them. For that matter, they are at perfect liberty to summon spirits to count the number of oranges dropped behind them, noiselessly, as the proposed test provides. No one will be permitted to enter the trial for the \$5000 purse unless able to demonstrate the possession of something which has at least the semblance of occult power.

## Crown Jewel Mines, Limited

A small block of Treasury Stock is for sale at 50c a share (par value \$1). Capitalization, \$350,000. A solid, safe investment which will bring you immense returns.

THERE are four properties, consisting of 150 acres in the Montreal River and Nett Lake Districts. A COMPLETE outfit of modern machinery will be installed in a few weeks. ACTIVE operations will be continued throughout the winter. CAPTAIN MATTAIR, the mining expert, is in charge of the operations.

FOR quick returns, this is the best proposition on the market. The price will advance very shortly. Send for prospectus and particulars. Place your order with your broker or direct with

## DEATH WAS NATURAL.

Legations at Peking Discount Rumors of Foul Play. PEKING, Nov. 17.—Nothing has developed in Peking to-day to substantiate the reports that the emperor of China—or the dowager empress was poisoned, or otherwise the victims of foul play. All the foreign legations here agree that the emperor met a natural death. Opinions various, however, regarding the end of the dowager empress.

## EMPEROR WAS POISONED, SAY CHINESE REFORMERS.

NEW YORK, Nov. 17.—The Chinese Reform Association branch in this city, which includes in its membership a daughter of the great reformer, Kang Yu Wei himself, gave out a copy and translation of a code despatch received from Shanghai. The translation as announced is as follows: "Yuan Shi Kai poisoned the emperor. It was declared that identical despatches had been sent to branches in all sections of the world, and that demands would be made upon Prince Chun, the new regent, to depose Yuan Shi Kai from power and to 'do away with him.'"

## BOY DIES FROM THE EFFECT OF UNKNOWN MAN'S ASSAULT.

Robbie Laut, aged 8, of 64 Gwynne-avenue, is dead as the result of an assault by an unknown man seven weeks ago. The latter in gathering dead leaves interfered with the little fellow's playhouse and when protest was made, he struck him in the stomach, causing a rupture, as well as shaking his head violently. From the latter, paralysis and blindness resulted. Robbie's playmates being unable to identify the man, no attempt has been made to find him.

## THE CANADIAN PACIFIC RAILWAY COMPANY ANNOUNCES THAT IT WILL ON NOVEMBER 24TH DISCONTINUE ACCEPTING SHIPMENTS FROM ONTARIO PORTS WHEN DESTINED FOR GEORGIAN BAY PORTS, FORT ARTHUR, FORT WILLIAM AND POINTS WEST VIA OWEN SOUND AND FORT WILLIAM.

All business received after that date will be forwarded via all rail route.

Royal Bank Branch. The Royal Bank will open a branch on Dundas-street, near Lynd-avenue, in a few days.

## Warcarets

THEY WORK WHILE YOU SLEEP

TRANSACTIONS STILL LARGE AND QUOTATIONS ARE FIRM

Wall Street Operators Try to Keep Up the Market Enthusiasm—Undertone to Local Market Firmer.

World Office. Tuesday Evening, Nov. 17. As is usual at the Toronto Stock Exchange, most of the business was done during the morning session. This was the case to-day when a larger volume of business than usual was transacted. The undertone to prices of the average was firm, and in one or two instances small advances were made on yesterday's prices. Twin City was the strongest feature of the day with an advance to 98. Considerable buying of these shares has developed as a result of the strength of the New York market, as it is assumed that the buoyancy of New York should serve to carry up the shares with the general list. American securities in the South American fractions are in plentiful supply at around current prices, and purchasing in consequence is entirely without influence on the quotations. Mackay common is being well supported by the pool, but stock is being met from old time holders and new buyers are not coming in in sufficient numbers to advance prices in any spectacular way. The absorption of the Western Bank by the Standard is regarded as a feature on the Standard shares, and 228 was paid for this stock with further offerings wanted in any quantity at 218. Other bank shares were quite firm, the offerings of these being less than the amount of purchases at going quotations. The market was not influenced by any outside news, transactions were purely those of sentiment.

Wall Street Pointers. London fortnightly copper statistics show an increase of 328 tons in the stocks and 1398 tons in amount in sight. War Secretary Wright demands free trade in sugar with the Philippines to investigate ownership of best sugar properties here. Severe decline in Japanese stock exchange on death of emperor and news of China. London more hopeful on German situation, and consols recovered part of Monday's decline. Federal Government brings seven suits against American Sugar Co. to recover \$3,824,121 for forfeitures and duties on imports of sugar since 1901. U. S. expects to show undilled tonnage of about 2,500,000 tons for December quarter. This compares favorably with any similar quarter, except 1902. Steel situation considered satisfactory, but no heavy orders so far. Attempt to form German iron merger abandoned. Thirty-nine roads for first week November show average gross decrease 3.46. Atlantic Coast Line Railroad Co. declared the usual semi-annual dividend of 2-1/2 per cent. on its common stock, payable Jan. 11.

Joseph says: Some days in the very near future transactions will run up to 2,000,000 or 3,000,000 shares at successive sessions, while prices will mount correspondingly high. Stocks will sell anywhere from ten to fifty, and more points above this level, and the Standard railroads will be the chief beneficiaries. Keep long of Pacific, Atlantic, St. Paul, American, Tel. & Tel. Bull Steel preferred. Buy R. I. and P. A. The stockholders of the Virginia Carolina Chemical Co. at a special meeting held in Jersey City, to-day ratified the proposition to issue \$15,000,000 of 5 per cent. gold bonds, of the total issue \$3,000,000 will remain in the company's treasury for three years. The remaining \$12,000,000 have been underwritten by a syndicate headed by Blair & Co. and Hallgarten & Co. The proceeds will be used to retire the existing collateral trust bonds, of which there are \$4,500,000, and for other corporate purposes. The stock market of a whole seems to us to have resolved itself into a trading position at advanced levels. It presents temporarily a more two-sided appearance. Purchases on declines like that of the last hour yesterday should continue to give moderate returns to daily operators who should guard themselves against the kind of stop order protection for the present. The trend of Northern Pacific, B.R.T., Kansas and Texas, Union and Southern Pacific, Steel, Atchafalpa, Reading, Cons. Gas and Great Northern continues up. Tariff and government attack may cause further selling of sugar. The entrance of the Looze-Harriman influence into Baltimore & Ohio may cause further buying of that stock. Smelters is well taken.—Financial Bulletin.

Washington, D.C., Nov. 17.—The comptroller of the currency has been advised of the closing of the doors of the Citizens National Bank of Monticello, Ky., on account of a shortage of over \$20,000 in the cashier's department. The bank had a capital of \$50,000 and total resources of about \$184,000. The important interests are giving the market despite the heavy profit-taking and foreign selling indicates there is no change in the bull plans, and we continue our recommendation to operate on the long side of stocks generally. As soon as the short interest in American Sugar is extended that stock will rise to new high points and unless foreign political complications develop unfavorably the

Traders buy on more activity. World Office. Tuesday Evening, Nov. 17. The much-maligned Twin City was the main feature of the local stock market to-day. Traders who would not touch this issue ten points lower were the active buyers to-day. Toronto Rails were brought more into the limelight by operations from Montreal dealers. The evidence of boosting speculative stocks to higher quotations was in stronger evidence to-day and the movement will likely grow for a short while at least. Investments are inactive, but the little buying serves to keep the prices of these firmer. HERBERT H. BALL.

WHEAT UPWARD MOVEMENT IN CHICAGO WHEAT OPTIONS

Sudden Rise of Nearly Two Cents in Wheat Futures at Chicago—Liverpool Options Lower.

World Office Tuesday Evening, Nov. 17. Liverpool wheat futures closed to-day unchanged to 1/4 cent lower than yesterday.

Chicago car wheat to-day: Wheat, 74; corn, 22 1/2; oats, 25 1/2. Bradstreet's report corn as increased 100,000 bushels, wheat 150,000, and wheat decreased 63,000.

Foreign crop summary: United Kingdom—Weather now seasonable. It is expected that increase planted to wheat will show an increase over earlier expectations.

France—Cold weather reported has been followed by rain, and it is now too wet. This is very unfavorable for wheat, and it is said that the area will be reduced.

Italy—Generally favorable. Rainfall and temperature weather conditions and outlook for the seeding is favorable.

Russia—The ports of Azoff are closed to navigation, and supplies in the southwest are smaller.

Argentina—The latest advices state that the wheat crop shows deterioration as the result of dryness. Estimates regarding the total yield of oats has been reduced to 50,000,000 bushels.

ST. LAWRENCE MARKET. Receipts of farm produce were 100 bushels of grain, 25 loads of hay, 10 loads of straw, with a few dressed hogs.

Wheat—Eight hundred bushels sold at 80c. Oats—One hundred bushels sold at 25c. Hay—Twenty-five loads sold at 43c per ton.

Cattle—A few head of cattle were sold at 12c per lb. Hogs—A few head of hogs were sold at 15c per lb.

Market was without transactions. Dec. closed 72c. Spot steady, mixed, 30c to 32c.

Chicago Cattle Market. Receipts, 1,200 head. Market was fairly steady. Steers, 12c to 14c.

Chicago Hogs Market. Receipts, 2,000 head. Market was steady. Hogs, 10c to 12c.

Chicago Sheep Market. Receipts, 500 head. Market was steady. Sheep, 8c to 10c.

Chicago Poultry Market. Receipts, 10,000 head. Market was steady. Poultry, 15c to 20c.

Chicago Grain and Produce. Prices were higher. Wheat, 74c; corn, 22 1/2c; oats, 25 1/2c.

FOR SALE

A brown filly, 2 years old; height 12.3; by V. R. Customs, a registered thoroughbred stallion, out of a thoroughbred Welsh mare.

ALICE. Good Cattle Steady, Common Lower—Sheep, Lambs, Calves, Easy—Hogs \$6.25 Cwt.

Receipts of live stock at the market were large, 115 car loads being received by the railways.

The market was overstocked with cattle, as many loads were left unsold at the market.

None were offered and none were wanted as there is little or no shipping available.

Prime picked cattle were scarce, and worth as much as export cattle, ranging from \$4.75 to \$5 per cwt.

Feeders and Stockers. H. W. Murby reports the run of stockers and feeders to be 225,000 head.

Veal Calves. Calves sold at \$3 to \$4 per cwt. Those sold at \$3 are a disgrace to any market.

Sheep and Lambs. Receipts of sheep and lambs were large and prices easy.

Hogs. Receipts were not large, only 804 head from all sources.

Representative Sales. McDonald & Halligan, 300 bushels of wheat, \$1.00 per bushel.

ILLNESS OF H. C. HAMMOND. Resolution of Sympathy From the Trustees of the Ontario College of Physicians and Surgeons.

At the meeting of the board of trustees of the Ontario College of Physicians and Surgeons, held on November 17, 1908.

EX-M.L.A. IS BURSAR. C. C. Hodgins Gets Government Appointment at Woodstock.

The Only Double Decker Route to Buffalo, New York, Montreal, Detroit and Chicago.

British Cattle Markets. LONDON, Nov. 17.—London cables for cattle are steady at 11 1/2c to 12c per lb.

114 CARS AT CITY YARDS

Day's Doings in YORK COUNTY

EAST TORONTO COUNCIL ARE UP IN ARMS

Don't Want the Morley Street Sewage Plant—Annexation in the Northeast—Suburban News.

EAST TORONTO, Nov. 17.—(Special.)—It was a vigorous protest that the town council to-night formulated against the action of the board of control in the selection of Morley-street site as the proposed location for the sewage disposal plant.

Objects to Site. Councillor Phelan made a vigorous attack on both the location and theory of septic disposal in general. "For the simple reason that the houses at the beach are not so elaborate or the owners so influential as those of Parkdale every undesirable institution is located in the east," said he.

Don't Spoil good tobacco by letting it dry out in your pockets. It keeps your tobacco in perfect condition; then it smokes cooler, lasts longer and imparts its natural rich flavor, and that saves you money.

QUEEN WEST WILSON, 98 Queen West

ning a short distance north of St. Clair-avenue, entailed. The proposed added territory will remove this.

SCARBORO JUNCTION. Much Needed Appointment is Happily Conferred.

SCARBORO JUNCTION, Nov. 17.—The appointment of George Green of this village as deputy clerk, gazetted some time ago, is an excellent one, and comes at a most opportune time.

FARMER'S BIG LOSS.

W. J. Howard of Concord, Vaughan Township, a well known horseman and former owner of a fine grey gelding, has since moving to the latter place, had a succession of losses.

COUNCIL APPOINT D. R. O'S.

At the last meeting of the Scarboro Township Council the deputy-returning officer and the members of several subdivisions in the township were appointed and are as follows:

PICKERING.

PICKERING, Nov. 17.—Several cutters were in use on Sunday. The township council will likely submit a report on the matter to the board of control.

TODMORDEN.

TODMORDEN, Nov. 17.—Municipal matters are being dealt with just now as election day is six weeks distant.

NORTH TORONTO.

Town Council Make Grant for benevolent purposes. NORTH TORONTO, Nov. 17.—At the town council meeting to-night, W. G. Pitt reported on the matter of the application and explained that a resolution of the petitioners had voted upon the Municipal Board to-day for an interpretation of the word "adjacent" in the annexation act.

WEST TORONTO.

Police Get Busy on Census Taking to Ascertain Number of Inhabitants. WEST TORONTO, Nov. 17.—On receipt of a message from the Buffalo police the local authorities to-night notified Kenneth McConnell of 111 West Dundas-street, that his brother, P. W. McConnell, druggist, of Buffalo, was dead.

WYCHWOOD.

Big Meeting in Northwest is Eminent. WYCHWOOD, Nov. 17.—(Special.)—Controller Ward presided over a big joint meeting, numbering more than 200 of the ratepayers of Wychwood, Bracondale, Dovercourt and Earlscourt districts, held in the Wychwood Schoolhouse here to-night.

ANNEXATION TOPICS.

Annexation for the Danforth-avenue section of York Township will come before the board of control this morning. It is preliminary to the preparation of a new petition for the Ontario Railway Board. It is understood that the opponents of the project represented by Frank E. Hodgins, K.C., will do their utmost to block it by pressure on the aldermen.

WESTON.

Vote on Proposed Water System in Weston, Nov. 17.—A bylaw to authorize the establishment of a municipal waterworks system for the village will be advanced as part of the meeting of next month. As the engineer's report has not yet been received, the cost of the scheme is not known.

Vote on Proposed Water System in Weston, Nov. 17.—A bylaw to authorize the establishment of a municipal waterworks system for the village will be advanced as part of the meeting of next month.

FIGHTS TO REGAIN SON GIVEN TO SPIRIT MEDIUM

Boy Taught to Believe That He Came to New Life After Change of Ownership.

MONTREAL, Nov. 17.—(Special.)—There is a very strange case now before the Montreal courts and one that is being followed not only by the public at large but by the colony of spiritualists in the city.

WYCLIFFE COLLEGE MISSIONS

Bishop Reeve and Rev. Canon Tucker to Address Students. A meeting of the Students' Mission Society of Wycliffe College was held last night.

SUBURBY LINE BLOCKED.

Landslide at Buckskin Delays C.P.R. Train. A big landslide in a cut near Buckskin, a small station on the Suburby section of the C. P. R., 1.8 miles north of Toronto, last night, delayed the company's main train, No. 88, for many hours.

BANDS GOING ON TOUR.

Governor-General's Footguards and 42nd to Go to England. OTTAWA, Nov. 17.—(Special.)—The proposal of the 42nd and Governor-General's Footguards Bands of Ottawa to make an extended tour of the British Isles during the winter of the next summer bids fair to come to a head.

DEATH SENTENCE COMMUTED

"Crooked Neck" Smith and Nicola Receive Clemency. OTTAWA, Nov. 17.—(Special.)—There will be no double hanging in Montreal on Nov. 27 as was expected. The cabinet report to the governor-general commuted the death sentences passed on "Crooked Neck" Smith and Nicola, an Italian, to imprisonment for life.

SAGANS NOT TO SEPARATE.

Former Miss Anna Gould Thinks Castellan Spread Report. PARIS, Nov. 17.—Prince and Princess Helis de Sagans (the latter was Miss Anna Gould of New York) to-day authorized the denial in most emphatic fashion of the reports recently current in Paris and America that they intended to separate.

Schooner Abandoned.

NEW YORK, Nov. 17.—The schooner John Thomas of Savannah, Ga., was abandoned at sea yesterday after the sailors had exhausted themselves by working the pumps twelve days in an effort to keep the vessel afloat.

Indignantly Deny Fraud.

NEW YORK, Nov. 17.—The American Sugar Refining Company, which is being sued by the United States government to recover \$2,600,000 in customs duties, issued a statement to-day denying "most indignantly" the charge in the government's suit of fraud on the part of the company in the weighing of sugar importations.

Manuscript Charge.

VANCOUVER, Nov. 17.—(Special.)—A charge of manslaughter was this afternoon preferred against William Elario, whose carelessness is alleged to have been the contributory cause to the fatal accident on the British Columbia Railway, near Central Park, a week ago last Saturday night.

1837 Veteran Dead.

CORNWALL, Nov. 17.—(Special.)—Oliver Groves, a veteran of 1837, died this morning, aged 82 years. He was born on the farm where he died. In 1837 he was a member of the Cornwall Horse, and distinguished himself as a deputy rider. While on duty he saved the lives of several men who were injured by a fire.

Damages for Lost Legs.

OTTAWA, Nov. 17.—The two Byrnes boys who each lost a leg in the British Columbia Railway accident on May 24 got \$5000 damages without costs. The settlement was reached out of court.

Table with columns: Street Name, Estimated Cost, Total. Includes streets like Sherwood, Woodward, Kensington, etc.

DRS. SOPER and WHITE 25 Toronto St., Toronto, Ontario

PHILADELPHIA, Nov. 17.—The captain of the British steamer Helens, which arrived at the Delaware breakwater this afternoon from Sourabaya, reports that he received the captain and crew of 16 men of the British barque Osberga. The men were landed at Osberga. The men were landed at Osberga. The men were landed at Osberga.

The Toronto police have forwarded to Belgium the local record of the Count Lautrec, arrested here for fraud some years ago, and who was mixed up in the Rice-Rutledge murder case.

"David MacLachlan, Scotchman, 39 years old, tall, fair hair and fresh complexion," is the description of a young man for whom his father, William MacLachlan of Brumpton, is looking. They came together from Scotland 13 months ago. The son got work in Owen Sound, and the father thinks that he afterwards drifted to Toronto.

And that such By-laws were registered in the Registry Office of the County of York on the 10th day of November, A.D. 1908.

By-laws: 970-Sherwood, n.s., \$2,630; 971-Sherwood, s.s., 2,472; 972-Woodward, n.s., 286; 973-Kensington, s.s., 1,089; 974-Balliol, s.s., 2,323; 975-Briar Hill, n.s., 844; 976-Briar Hill, s.s., 803; 977-Broadway, n.s., 1,440; 978-Yonge, e.g., 2,445; 979-Gordon, w.s., 468; 980-Merton, n.s., 1,137. Total \$16,940.

881-Daviesville ---DRAIN--- \$1,787 \$1,797

882-TAR AND GRAVEL SIDEWALKS--- \$1,121 \$1,121
