HOW TO FINANCE DREADNOUGHTS

Dr. Chisholm Tells How Would Borrow Smaller Ships to Serve as Canadian Navy.

OTTAWA, Feb. 16.—(Special.)—While the naval debate may be said to be dragging its weary way through the proceedings were somewhat enlivened this afternoon by two features. One was a speech by Dr. Chisholm (Cons., East Huron), in which his radical treatment was given the question of imperial defence. The other was a particularly apt address by F. T. Congdon (Lib., Yukon), whose utterance has been accompanied with some interest by both sides of the house, there being some doubt that he would not support the government in view of his speech last year, indicating that he was opposed to doing anything in the nature of imperial defence. However, Mr. Congdon supported the naval measure.

Dr. Chisholm proposed to show that Canada could give seven Dreadnoughts to Great Britain at a less cost than the present scheme. He favored the enlargement of drydocks, believing that the government was doing the right thing in this respect for trade and commerce. He favored drydocks at St. John and Halifax and a naval college at the latter point.

He criticized the government for doing nothing for McCurdy and Baldwin, the Canadian aviators, while they were carrying on their experiments at Petawawa. On such matters, Canada was the only laggard in this great empire of nations. Germany had brought her dirigible fleet to such perfection that a ship battle in the air was fought for three hours.

His chief point, however, was that Britain had to protect her food supply she must be able to do so with dreadnoughts. She could protect the trade route of the Atlantic from Hudson Bay with only a few Canadian ships. Canada could supply these ships, four and three more, by paying \$1,000,000 annually, the interest of a capital outlay of \$50,000,000. This capital could be furnished by Great Britain. As to smaller ships, Britain had plenty of these to spare, and they could be got for the protection of our coasts, thus saving an enormous expense to Canada. The sum of his argument was that Canada could build five more Dreadnoughts than Mr. Borden proposed and save Canada millions of dollars.

Danger From Ultra-Loyalists.
Mr. Congdon said he regretted that the tone of certain portions of the debate was not higher. This was particularly the case of F. D. Monk, who there was no man of more dignity in the house, but who had descended to a place not worthy of himself. Mr. Borden had considered that there was nothing inconsistent in Canada contributing the cost of two Dreadnoughts to Great Britain, while declaring in the same resolution that the expense of a Canadian navy should be submitted to the people.

Germany, he argued, had as good a right as Great Britain to build up a naval defence. In this country it was the duty of every loyal man not to go around howling and raising prejudice against Germany, but to endeavor honestly and sincerely to ally it. He did not think the real danger to the empire would come from traitors and disloyal men, but from ultra-loyalists who were not trying to serve their own country, but to cause hostility in other countries.

He did not think there was any reason why the Monroe doctrine should not supplement imperial defence in the defence of Canada, but a self-respecting outside people would rely entirely upon the Monroe doctrine.

NAVIES IN MIMIC WAR
This Will Be Spectacular Feature of Coming Exhibition.

There will be a distinct naval tinge to the Canadian National Exhibition of 1910. The question was practically settled at a meeting of the executive committee yesterday afternoon. Just in what manner the marine effect is to be given has to be worked out in its details, but real battleships and real sailors are hardly likely to figure. As one of the executive members said, it isn't so much a question of getting the ships through the canals as it is the necessity of asking the United States to give its consent.

What is in view is a painted fleet on a painted ocean, with a naval engagement taking the place of the scenes of military conquest customary in past years. As matters naval are being so much talked about, it is hoped to strike the taste of the public. Care will be taken to avoid the suggestion of hostilities between Britain and Germany for obvious reasons.

GERMANY WILL "RAID" CANADA

Plans Being Prepared to Wrest British Trade—Effect of Tariff Reform Defeat.

(Canadian Associated Press Cable.)
LONDON, Feb. 16.—Under the heading, "Canada Cannot Wait," The Mail devotes an editorial to the German-Canadian treaty, which, it describes as a blow to British trade. It says there is good reason to believe the Dominion Government waited to see the issue of the struggle for tariff reform in England before taking the step. The removal of the surtax will be bad news for Yorkshire and Lancashire, "but," says The Mail, "so long as the people of this country refuse to make tariff agreements with the states of the empire, they cannot complain."

The Standard, referring to the possibility of further negotiations between Canada and Germany, relies on the sagacity of Canadian statesmen to see that tariff reform cannot be delayed much longer, and adds it would create an uneasy feeling in London financial circles if the Dominion were too compliant now that Germany has abandoned her rather high-handed methods. The Standard's Berlin correspondent says the new provisional agreement is likely to affect Canadian imports from Britain considerably. Germany will invade Canada, and German commercial travelers will sell goods under great until an "inroad has been made on the trade with Britain. Germany hopes in the course of time even to be able to persuade Canada to discontinue her preferential treatment with Britain.

A scheme will be developed to woo Canada by devoting German capital towards the development of mines and industries in the Dominion and by increased German emigration to Canada, where representatives of the German race already number nearly half a million.

A severe blow will likely in the near future be dealt to the British shipping trade with Canada, as large German shipping companies are maturing plans for a regular line of fast steamships to carry emigrants and goods to Canada and thus break the monopoly now held by British Canadian exports to Germany will likely also show a large increase.

Despatches say that the liveliest satisfaction is expressed in Berlin. Tageblatt, says the beginning of an extraordinary rejuvenation of mutual trade relations, deserves to be greeted most warmly.

WON'T DAM NIAGARA
Decision of Waterways Commission is Against the Proposal.

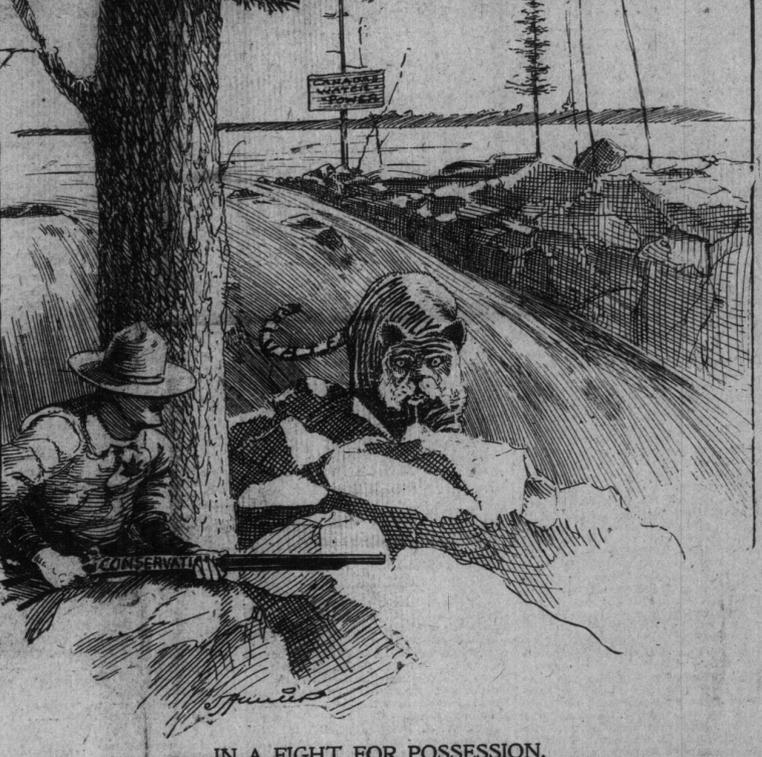

BUFFALO, Feb. 16.—The proposal to-morrow will say. The proposal to dam the Niagara River, to raise the water level of the great lakes is disapproved by the international waterways commission by the international waterways commission in its report submitted to the secretary of public works at Ottawa. The project has been under consideration for about ten years.

T. EATON CO. BANQUET
Elaborate Dinner Given Honored Guests by Department Heads.

J. C. Eaton, A. A. Gray and "Uncle John" Beatty, whose yearly arrival from Michigan is always deemed a notable event, were given a banquet by the heads of departments of the T. Eaton Co. at the King Edward last night. The dinner was elaborately served, and the decorations of striking beauty with a profusion of floral effects, while the table, with covers laid out in the form of a diamond. It was in all respects one of the most brilliant banquets of the season, with joviality and good fellowship fairly overflowing.

Among those who spoke, in addition to the guests of honor, were W. G. Dean, R. W. Eaton, R. V. Eaton, Stone, Charles Booth and W. V. Eaton. An orchestra and several well-known local entertainers added to the enjoyment of the evening.

T. ARTHUR CRAIG WINS PRIZE ESSAY CONTEST

Many Excellent Contributions Make the Work of Selection Difficult.

T. Arthur Craig, 161 Close-avenue, bookkeeper for Wicket & Craig, manufacturers of fancy leathers, is the winner of the World's prize of Ten Dollars in cash for the best essay on the advantages of the Young Men's Christian Association.

The offer proved highly attractive, and the number of essays forwarded. Many of these were highly creditable to the authors, and the task of adjudication was by no means easy. Quite a number, however, transgressed the limit of 100 words, and in fairness to all competitors, these, however meritorious, were discarded. Exactly the same principle of enumeration was applied in all cases, the initials "Y.M.C.A.," which naturally often occurred being treated as one word.

In fixing the hundred word limit, the World desired essays to cultivate the desirable quality of conciseness, and to confine themselves strictly to the merit of the association as such. UNSEAT BRANTFORD COUNCIL

Advantage May Be Taken of an Alleged Irregularity.

BRANTFORD, Feb. 16.—(Special.)—It was stated to-day that a move will be made to unseat the entire Brantford City Council with the view primarily of upsetting the license reduction by law recently passed by the council. The regular office of the city clerk, and it is claimed that on similar grounds the city council of St. Catharines had to seek re-election.

Rev. Dr. Frederick H. Handfield, graduate of Trinity College, Toronto, has been appointed rector of the Protestant Episcopal Church of the Atonement, Brooklyn, N. Y. Rev. Dr. Handfield is a former curate of Grace Church in this city.

CONS. WIN BY-ELECTION FIRST TIME IN 30 YEARS

Sensation in Nova Scotia Politics When Fielding's County Reverses its Allegiance in Legislature.

HALIFAX, N.S., Feb. 16.—(Special.)—For the first time in thirty years, a Conservative was elected to-day in Queen's County in the by-election to fill the vacancy in the legislature created by the translation of Hon. E. M. Farrell from the speakership of the local house to the senate at Ottawa.

W. L. Hall, a Liverpool barrister, has a majority of 200 over his Liberal opponent, A. W. Hendry, the leading business man of the county. Farrell's majority at the last general election was about 300.

This is the first by-election in which a Conservative has captured a seat in the legislature since 1873.

TWO COACHES ARE UPSET BUT PASSENGERS ESCAPE

"What Might Have Been"—Nine Received Minor Injuries.

MONTREAL, Feb. 16.—(Special.)—A serious train wreck took place near West Shefford, Que., this evening, when the Central Vermont train from Montreal to Waterloo was thrown from the track.

Two rear cars, the first-class and the smoker, jumped the track, and being detached from the tender and engine, plunged along the ties for a while and then went down a 15 feet embankment and turned over on their side.

MUST BE METAL MUZZLE LEATHER STRAP WON'T DO

Dogs Not Decorated According to Regulation Liable to Destruction.

On and after Feb. 21, all dogs not locked up or chained within the premises of the owner or other person in charge of such canines must be muzzled with a metal muzzle. Even if held on a chain the dog may not go upon the street without his muzzle.

This is the opinion of one who will have to do with the enforcement of the bylaw as amended by the police commissioners at their meeting Tuesday. Further the leather muzzle will not go.

This means a land office business for the vendors of dog muzzles, and advertisements calling upon dog owners to call early and avoid the rush have already been issued by dealers who do not fail to take advantage of any wind that blows.

Hon. A. K. McLean, who recently resigned his seat at Ottawa to become local attorney-general, directed Mr. Hendry's campaign, and the regular meeting of the legislature was deferred until next Thursday to enable Liberal speakers and workers to gather in Queen's, and help to hold the constituency. McLean predicted that Hendry would be elected by several hundred.

BOON TO GRAIN MEN

Removal of Surtax Opens Germany to Canadian Cereals.

MONTREAL, Feb. 16.—(Special.)—The steel machinery, metal and other makers, fear the effect of German competition under the tariff changes, but F. W. Thomas the managing director of the Ogilvie Flour Mills Co., Limited, says the removal of the surtax cannot be too beneficial to the agricultural interests of Canada.

30TH YEAR.

ASKED CONVICTS TO CONDEMN BETTING

But Two Would Not Sign the Statements Prepared— Norfolk Hackney Breed- er Gives Convincing Testimony.

OTTAWA, Feb. 16.—(Special.)—The hearing on the bill of H. H. Miller, N. Cr. Grey, to prohibit betting on or at the racecourse, was resumed this morning, and most of the day was taken up in listening to the testimony offered in its support.

The chairman read a number of communications he had received. The organizations interested in the question, from a practical point of view, and with knowledge of the matter, urged that nothing should be done that would be detrimental to the great horse breeding industry. They were the Hackney Horse Association, the Canadian Sire Association, the Ontario Horse Breeders' Association and the Canadian National Bureau of Breeding.

The passage of the bill was desired by the Ontario Sunday School Association, the Moral Reform Society of Midland, Ont.; the West Simcoe Women's Institute; the presbytery of Sarnia, and ex-Mayor Thomas Uehquhart of Toronto, none of whom with any practical knowledge of the question, or the extent of the interests involved.

Convict Testimony Falls Flat.
Last week Mr. James appeared to have given a census of the Central Prison inmates in Toronto, and on Friday he had a conference with half a dozen of them in the prison library. The latter went into the witness box to-day, armed with a batch of typewritten statements, professing to give the reasons why these men were in custody. Housebreaking, false pretences and various other offences brought them there, but it was hoped to show that the race-track had something to do with it all.

The bottom fell out when it was brought out that two of the statements the men had refused to sign, and that all of them were prepared and written out by Mr. Raney or his clerks. The committee refused to accept them for the present, and Mr. McCall, one of the members, said that the action of the witnesses in this matter should be reported to the proper authorities.

A Breeder's Testimony.
Mr. Raney called three witnesses, who occupied the whole of the two sessions with the exception of that given by Ansley Yeager of Simcoe, Ont., one of the big breeders and Continued on Page 5.

INCREASED COST OF LIVING

Labor Department Shows Increases of 48 and 77 Per Cent.

OTTAWA, Feb. 16.—(Special.)—The Labor Gazette for January contains the first results of the special enquiry which is being carried on by the department in reference to the cost of living.

A statement is given as to wholesale prices of animals and meats from 1890 to 1909. It shows that during 1909 wholesale prices were approximately 48 per cent. higher than during the ten years period from 1890 to 1900, and that compared with 1906 they were fully 77 per cent. higher.

OTHER NAMES COMING OUT

New York Assemblyman, Now Dead, Who Received a Bribe.

ALBANY, N. Y., Feb. 16.—The name of one of the assemblymen who Senator Conger declares shared with Aldis in the \$6000 bribe distributed by the bridge interests in 1901, was announced by Conger this afternoon.

He said that Assemblyman Jean Burnett, who is now dead, and formerly represented Ontario, had suggested an amendment to the Stevens bill, favoring the bridge companies, and that his name was written on one of the three envelopes which Moe distributed during the trial of Conger, and that he was "approached" by Louis Berell, former member of assembly from Orange County.

MONTREAL TUNNEL PROJECT.

Several trains were delayed owing to snow last night. The C. P. R. train from Bala, due at 6.10, was three hours and a half late and the train from Tecumseh was delayed two hours.

UNIVERSITY Y. M. C. A. TO ERECT NEW BUILDING

Religious Work Among Students Progressing—Campaign to Raise \$75,000 Will Start at Once.

The University College Young Men's Christian Association was originally organized on March 25, 1873. Thirteen years later the present building was formally opened and a general secretary was appointed to give two hours a day to the work.

The membership fee, which prior to this year has been one dollar, is now voluntary, and any student making application for membership and declaring himself in sympathy with the work will be considered a member.

Last year the University Y.M.C.A. contributed \$655.53 for the support and education of Chinese students in Tokio.

The present quarters of the Y.M.C.A. have long been inadequate and a new building is to be erected at a cost of \$75,000.

The officers for the present year are: President, C. M. Wright, B.A.; vice-president, F. B. Ballyn, D.L.S.

The directors are: R. A. Falconer, L.L.D.; D. Litt, John A. Paterson, K.C.; George H. Locke, M.A.; J. W. Graham, B.L.S.; R. W. Angus, B.A.; W. Socomech, D.D.S.; Elias Rogers, J. T. Fotheringham, B.A.; M.D.; A. W. Briggs, M.A.; L.L.B.; Thomas Bradshaw, W.S.

HON. COL. MATHESON RETURNS TO THE HOUSE

Progress Made in the Budget Debate, Which Will Probably Be Concluded To-day.

Tumultuous and prolonged applause arose from both sides of the house when Hon. Col. Matheson resumed his seat in the legislature for the first time after the accident to his arm.

Sam Clarke (W. Northumberland), in resuming the debate on the budget, congratulated the provincial treasurer on his convalescence.

In a week-end trip to the rural portions of his constituency he had found that the dog question was more discussed than the budget.

Dr. Willner's Recital.

Intense interest is being manifested in the announcement of the coming of Dr. Ludwig Willner, the great artist, who has created such a sensation since his arrival in America.

Willner stands alone and supreme as a "Fiedler-singer." Like Duse among actresses, like Paderewski among pianists. He has a fine voice, but that alone would not give him his position; many singers are better endowed. His voice becomes a perfect instrument of interpretation and his interpretative power is amazing.

To hear Willner sing songs of Schubert and Schumann and Strauss is to hear them for the first time. Their appeal is irresistible. Nor is it one mood, one shade of beauty, over which he is master; every shade and every mood of beauty are under his complete control.

Harry Lee Wins In Straight Heats At Dufferin Park

There was a fairly representative attendance of the harness racers at Dufferin track yesterday at the regular matinee given by the Dufferin Driving Club. Two races were on the card, but Class B did not fill, thus leaving the one race for the afternoon, which was won by straight heats by one of the best matinee drivers that ever raced in Toronto.

Harry Lee, who owned and driven by his own father, in his opening heat won the race in a very easy manner. He was not only the fastest but he was also the most consistent, and several good drivers were in the race. Harry Lee was not only the fastest but he was also the most consistent, and several good drivers were in the race.

The track was not as fast yesterday as last week, which accounts for the time being slower. The summary follows: Class C Harry Lee, h.c., C. Ward (owner), 1 1/2 1/2; Harry Lee, h.c., C. Ward (owner), 1 1/2 1/2; Harry Lee, h.c., C. Ward (owner), 1 1/2 1/2.

New Huntsman for Toronto Hunt. George Beardmore, M.F.H., has engaged Fred Hoxford, late one of the whips of the Middlesex Hounds (U.S.), as huntsman for the Toronto pack. The new huntsman has also had experience in the old country and comes here highly recommended for his ability to handle hounds and to lay out a chase. Mr. Beardmore has also been in active correspondence with the Ontario pack, and has resulted again in a victory for Toronto by the splendid majority of 145 points. The local club have arranged a match with the Wiltshire Garrison Revolver Club, and have several other matches in view. The score of the competition is as follows: Toronto Revolver Club, 145; Wiltshire Garrison Revolver Club, 145.

Inter-City Revolver Match. The return revolver match between Quebec Revolver and Pistol Club and the Toronto Revolver Club was shot on Saturday, teams of five men, 50 shots each, at 20 yards. D.R. CUT OFF ARM WITH SWORD

Kiel Policeman's Feat During a Serious Socialist Riot. KIEL, Feb. 16.—Further disturbances occurred at Neumanner, Schleswig-Holstein, where indignation meetings were held to protest against the action of the police in interfering with Sunday's demonstration against proposed Prussian franchise laws. A crowd gathered at the townhall and hooted and stoned the police. The latter attacked with drawn sabres, and also requisitioned a company of infantry, which with fixed bayonets cleared the square. A policeman cut off a man's arm with a sabre as his hand was raised to throw a stone.

Writ Issued

Thomas B. Stocomb of Toronto has issued a writ against the Universal Signal Co., Limited, of Toronto, W. H. Hoyle, Cannington; J. B. Tudhope, Allan and McPherson, Welland, Ontario, for \$1000, which he claims he paid for 200 shares of stock in the Universal Signal Co. He alleges that he bought the stock upon the faith of a prospectus, which, he charges, does not comply with the Ontario Companies Act, and he asks the return of the \$1000, together with interest thereon under the provisions of the Ontario Companies Act.

Politics in Quebec

MONTREAL, Feb. 16.—(Special.)—The contest now going on in the County of Gaspé is attracting a great deal of interest. Mr. Perron, the prominent Montreal lawyer, is encountering stiff opposition from Dr. Gauthier. It is believed, however, that Perron will be returned, and that after entering the Quebec cabinet without portfolio he will subsequently become attorney-general.

Harbord Graduates Re-Union

The third annual reunion and dance of the Harbord Graduates Association was held last evening in the Metropolitan assembly rooms. The patronesses were: Mrs. H. B. Spotton, Mrs. E. W. Hagarty, Mrs. J. L. Cox, Mrs. J. S. Carstairs, Miss Gertrude Lawler and Miss E. M. Balmer. The committee were Miss Alice Rothwell, Miss Margaret Rothwell, Miss Ruth McKibbin, the Misses Keith, Miss Olive Blackhall, G. E. Durand, H. Campbell, N. D. Taylor, K. W. Wright, F. C. Conroy, W. R. Purvis, W. Foulds.

No One to Blame

Accidental death was the verdict of the jury returning on the death of Ralph Pigglico, who was fatally injured Saturday last, while working in a cut on the Canadian Northern Railway, near Don Mills. There were seven Italians working in the cutting. The 150 pound piece of earth which struck deceased was hanging from the top of the wall of earth. The cutting down, they tried to dislodge it in the morning, but it was frozen. The action of the sun's rays is supposed to have loosened it. Dr. E. J. O'Reilly performed the autopsy. T. L. Monahan acted for the crown.

Senate Expresses Regret

Resolutions of regret at the deaths of Thomas Hodgins, L.L.D., a man of unordinary and judge in the admiralty court, and of Dr. U. Ogden, formerly dean of the faculty of medicine, were passed at the last meeting of the senate of the University of Toronto. A resolution was also passed, expressing regret at the retirement of John Campbell, D.D., from the chairmanship of the board of governors.

You'll Like This Cigarette

Most men like to feel that the cigarettes they smoke are not only good enough for their own taste—but also worthy of the appreciation of their most fastidious friends.

Tuckett's CIGARETTES

For fifty years the Tuckett cigar and tobacco brands have held their position as leaders in quality. Now that the Tuckett factories are producing cigarettes, it is not reasonable to suppose that, in these goods also, the name "Tuckett" may be accepted as the smoker's guarantee of complete satisfaction? TUCKETT'S 'CLUB' CIGARETTES—made from an exquisite blend of Virginia leaf. 15c. a package of 10. TUCKETT'S 'SPECIALS'—made from a mild Turkish leaf, rich in flavor and aroma. 15c. a package of 10. TUCKETT'S 'T & B' CIGARETTES—for the man who likes a full-flavored Virginia. 10c. a package of 10.

Chief of Police Slemin of Brantford, which has no races and no "course evils," was called to prove that detective up to six years ago, a number of undesirable people were in Toronto at race time. Charles had not a religion, and he went to Brantford, his chief objection to the whole thing was that the American bookmakers came over here and took away a lot of money. He had no objection to the Canadian bookmakers. He knew a number of them, and they were all decent and honorable men. He was confronted with the evidence of Chief Grasset and Inspector Duncan of Toronto with regard to the number of misdemeanors in Toronto during exhibition time and race time, and declared that Chief Grasset had not a practical knowledge of conditions and an up-to-date system was used.

FAKE UNIVERSITIES VS. GOOD ROADS.

The World desires to commend Sir James Whitney for the stand he took yesterday in reply to the deputation that urged the claims of the Western University for a money grant from the province. His reply, we take it, indicates a refusal.

It is a hard thing for a prime minister of this province to deny assistance to a request based largely on geographical or denominational considerations; nevertheless, if conceded, the end must be that other requests will follow. Bravery at the start will make it easier later.

All this Province of Ontario can afford to support is one university; to have that university anything like what it should be requires all the money that our people can spare for this purpose. It is far easier to bring students to the university than to take universities to the students, and much better results are obtained. For if the principle is to take the university to the student, then the absurd would be reached by putting a university wherever there is now a high school.

A great mistake was made in recognizing in any way any claim that Queen's University at Kingston had on the province, for this reason, that if the Presbyterians are to be aided by provincial grants, how can Sir James refuse later on to give substantial aid to a Catholic university at Ottawa?

Once for all let us lay this down, that Ontario has only one university, and that one must be an absolutely high-class, undenominational one, to which all the youth of the province can resort, and which can be attended by members of any creed without interference with their beliefs. And especially in this view to be observed in the light of the fact that a university of any class costs at least a million dollars a year for upkeep, and will soon cost twice that sum.

Get into your head also that the one and legitimate idea is for students to go to the university, and not the expensive and foolish idea of taking universities to the students in a dozen or more directions.

Again, how can Ontario fritter money away on unnecessary universities for a comparatively few, while good roads are needed by every man, woman and child in the land? Of all the fraud goods worked off on a struggling community is "university education" brought to the doors like bread.

Instead of voting more money the legislature would be better employed in seeing that the institution we now have in the park makes good for the money spent on it. It is costing a lot and must justify itself.

Let Ontario put any surplus money she has in good roads, and let any community, locality or denomination that desires to go into university work itself find the money.

THE KAISER, MR. TAFT AND CANADA.

The vulnerable point in the armor of most countries is that which touches their honor. Canada by her courage in the matter of the sursax has shown England how to deal with her rival Germany. In fact the daughter state has come out distinctly ahead in the struggle with the all-powerful empire of the Kaiser. He could not stand the sursax.

The World's belief is that if England revised her tariff toward Germany and insisted upon fair trade between the two countries instead of the Jug-handle system that now obtains, there would be less talk of Germany and England going to war. The German-Canadian incident to our mind has a great deal of significance; it remains to be seen whether those who ought to realize its importance do so, or continue to be blind.

In the meantime we can afford to hoer der Kaiser for his cold-blooded common sense. And President Taft has a "terrible example" to show those of his advisers who are urging him to give Canada a squeeze because of our treaty with France.

Ontario judges bring much common sense to bear on cases that come before them. Litigants might save themselves worry and expense by adopting that practice, and lawyers might also profit thereby at least in the long run.

Canada bulks large in the world's eye these days. Its wonderful resources and opportunities are becoming ever more widely known and more clearly recognized. These are possessions of incalculable value, but it is the manner of their administration and exercise that will be the supreme test of the Canadian people.

Professor Lowell has proved to his own satisfaction that Mars is inhabited, and that the Martians can teach men of this earth in the matter of conserving and developing natural resources. This is interesting, but if earthmen cannot learn from their own

Hon. Adam Beck's brilliant and convincing reply to the opposition attacks on the government's hydro-electric policy will increase his prestige and reputation as an able and responsible public servant. Carping criticism without any real basis carries no weight, but can be tolerated when it affords an occasion such as that which the power minister used to so great advantage.

Despite the shoal of self-contradictory rumors circulated about the position and course of the British Government it will probably be found that theoretical difficulties will dissolve just when they should materialize. Neither Laborites nor Nationalists are likely to take a stand that could only adversely affect themselves.

Let Canada Take Her Own Time. At the banquet of the Canada Club in London, Eng., on Feb. 1, Sir Edgar Speyer pleaded everyone by announcing that he would sail for Canada in a fortnight's time in company with Sir Robert Perks, Sir Edgar Speyer, the one of Sir Robert Perks' financial supporters in the Georgian Bay project, and he modestly declared that as a banker he wished to take a part, however small, in the onward progress which the Dominion was making.

Nothing can stop Canada in her path. The road is clear, and her progress unimpeded, but next year's signifi-cantly added this prominent English banker, "I hope she will not throw all her plums to England at the same time. (Hear, hear, and laughter.) Canada will lick creation, but let her take her time over it. (Cheers and laughter.) England will always be glad to furnish the shew of war, that is, the funds necessary to back legitimate enterprises.

Magistrate Kingsford's Case. Editor World: It is some months ago since action was begun by the city solicitor to recover a considerable sum of money from Magistrate Kingsford which it was alleged had been illegally taken in "fees" by that gentleman.

The legal department seems to have lost sight of the matter, as there does not appear to be anything visible to indicate that the charges will be gone on with.

One wonders if the magistrate's position exempts him from the usual procedure which would be followed in the case of an ordinary citizen, charged with a similar act. In the meantime, the deputy police magistrate dispenses justice and metes out punishment to others, while he is himself charged with illegally retaining certain sums of money collected as fees on bail bonds. The city's attitude on this matter is open to severe criticism. There is no doubt that if a similar charge had been preferred against an ordinary citizen, no time would have been lost in pressing the case.

It appears to the writer that Magistrate Kingsford should have the good sense to decline to act in his official capacity until the action has been disposed of. He displays decidedly bad taste in not doing so.

FEDERAL LIFE INSURANCE CO.

From the report made to the shareholders of the Federal Life Insurance Co. at the twenty-eighth annual meeting held in Hamilton on the fifteenth instant, the management is to be congratulated on the result of the business for 1909.

In the first place new assurance was issued during the year amounting to \$3,504,235; the total insurance in force being \$21,042,222. The premiums and annuity income have now reached the sum of \$718,927.86, which, with interest, rents and profits, brings the total annual receipts to \$885,062.68. A magnificent increase is shown in the satisfactory increase in the number of assets of the company, which are now valued at \$2,643,949.

The reserve fund reflects great credit upon the financial standing of the company, and now has reached the magnificent sum of \$3,256,510, while the surplus on policyholders' account is \$292,695.53.

Altogether the Federal Life Insurance Co. occupies a position which places it in the forefront of Canadian life companies.

CITY OR RUST LIABLE FOR AUTO ACCIDENT?

Investigation Shows Mishap Occurred in "Off Duty" Hours—Mayor Replies to Auld Reekie.

Whether the city is liable for the injuries received by Mrs. Ward of Roxboro-street last summer thru being run down by a works department auto driven by Arthur Rust, roadways inspector, and, if so, whether Mr. Rust should foot the bill are questions which the board of control was unable to settle yesterday.

Mr. Rust, who was but thru an examination, explained that the mishap occurred about 3 o'clock on Saturday afternoon. He had driven the auto home, and with his wife, was taking it to the repair shop. He had slowed down to allow a car to pass at the corner of Yonge-street and Roxboro-avenue, and Mrs. Ward, who was crossing Yonge-street, didn't get across before the car started.

Mayor Geary held Mr. Rust to be blameless, but that thru an examination, explained that the mishap occurred about 3 o'clock on Saturday afternoon. He had driven the auto home, and with his wife, was taking it to the repair shop. He had slowed down to allow a car to pass at the corner of Yonge-street and Roxboro-avenue, and Mrs. Ward, who was crossing Yonge-street, didn't get across before the car started.

Cost of Snow Removal. The city engineer, who was asked to report on the cost of snow removal, explained that the city would require 3000 men to make the clean-up in one day, and last year only 1000 men were available for snow-removal. It would take a force of this size to remove the snow of each snowfall. The cost would be \$169,000 yearly.

While the city's water now shows no trace of typhoid bacteria, Dr. Ross stated that they will not return, and in the meantime, the number of typhoid cases continues to multiply. There have been 58 so far this month, and it is feared that the number will be reached in February, 1909, there were only ten cases.

Mayor Defends Toronto. "That Toronto is less immoral than any other city of equal population, in England, Ireland, Scotland or America, is a statement of undoubted veracity and responsibility would, I have no doubt, willingly attest."

This is one of the statements in a letter by Mayor Geary to The Edinburgh Scotsman in defence of Toronto's moral tone, replying to charges made in a letter to that publication, in which the assertion was made that the city was a "vice city."

After alluding to the fact that the wages of housekeepers in hotels averaged a month and board, refuting "Auld Reekie's" assertions that pay for such service is very low, and also denying alleged harsh treatment of poor patients at city hospitals, the mayor suggests that newcomers are to blame if they are dissatisfied.

No Auxiliary Plant. That the Street Railway has entirely abandoned the use of its auxiliary steam plant is the candid admission made by Manager Fleming. He says that, since the company started getting a full supply of Niagara power in February, 1907, the plant has been out of commission, and that it would cost several hundred dollars a day to keep it in readiness.

Mr. Fleming says that during 1907 the power was off only 2 hours, 41 minutes; in 1908, 1 hour, 18 minutes; and in 1909, 2 hours, 41 minutes. Some citizens are asking whether there will be similar breakdowns in transmission when the hydro-electric lines are in operation. There need be no fear, says K. L. Aitken, the city's electrical engineer, who says that the superior insulation of the Hydro Development lines have had to meet.

POST-MORTEM PROVES WITHERS A SUICIDE

Murdered Wife Shot Twice After She Had Fallen From Fatal Bullet.

Post-mortem examinations have now been made upon all three of the dead in the Elliott-street shooting affray, and with them all doubt as to the suicide of the negro murderer, Bill Withers, is dispelled.

The evidence of the revolver upon his wounds and the bullets found in an interesting story, and with the evidence taken at the morgue yesterday afternoon, when an inquest was held upon the wife and first victim of the murderer, go to show that the original story of the crime is the correct one.

It is shown that, finally realizing the uselessness of further resistance, Withers turned one of the revolvers upon his own head, and, pressing the muzzle close behind his right ear, fired. The bullet went upward course and came out at the left side of the top of his head at the back. This was a .38-calibre bullet, and was fired from the gun found still clutched in his right hand by Detective Guthrie.

The evidence of the lad, John Couch, Mrs. Shepard and others, taken at the inquest yesterday, will be filed in the case of Mrs. Davis, and the necessity of an inquest in her case thus avoided.

Chief Coroner Johnson will open the inquest into the death of Withers at the morgue to-night. The bodies of Mrs. Withers and Mrs. Davis are being turned over to the sister of the younger for burial. Mr. de Orpen, pursuant to the request left by the murderer, has applied for the body of the negro, but it has not yet been decided whether the body shall go to the school of anatomy.

FATALLY WOUNDED, BUT KILLS ASSAILANT.

INDIANAPOLIS, Ind., Feb. 16.—Fatally wounded by two bullets fired by Adolph Casasa, a violinist, Louis H. VEGETABLE GROWERS BANQUET WAS BEST EVER

Good Program, Great Spread and Social Dance Made Delightful Evening—Country.

It was a jolly good-natured crowd which comfortably filled Victoria Hall last night, when the annual banquet and dance of the Toronto branch of the Ontario Vegetable Growers' Association was held.

Among the artists who will take part in the Don Public Library Board's undertaking a work so pretentious as "The Sign of the Cross" is most meritorious and ought to be and doubtless will induce a very large attendance.

MAPLE, Feb. 16.—(Special.)—The night dress carnival held here a few nights ago proved a decided success in every particular.

On Friday evening next the Epworth League skating party will skate in the rink from 7 to 8:30 o'clock, after which lunch will be served in the Methodist school-room.

WEST TORONTO. WEST TORONTO, Feb. 16.—The Tri-Mu fraternity in connection with the Davenport-road Methodist Church will hold their third annual banquet to-morrow night in the lecture-room.

By special request Gounod's "By Babylon's Wave" was repeated before Grieg's "Ave Maria." "Scotts Wha Ha" followed and Franck's "150th Psalm" won a rapturous encore for which "The Greater part of Brahms' Requiem" was sung for the last part of the program.

The playing of the Thomas Orchestra was more delicate and artistic than ever. Lato's Norwegian rhapsody was encored and "The Bee" was given in response.

A feature of the concert was the singing of Herbert Witherpoon, whose splendid bass voice was used with immense effect in the declamatory setting of "Young Lochinvar" by Chedwick Witherpoon has a dashing legato method, very telling in such a composition.

The concert closed with the singing of stanzas from "America" and "God Save the King," amid cheering and tumultuous enthusiasm.

The press notices to-day were of the enthusiasm description already indicated. The evening papers outdid the morning ones in their compliments. A notable article of severe standards is given by "The Evening Press," and he is unreserved in his eulogies.

Mrs. Adella Prentiss Hughes has become one of the interesting group of figures associated with the history of the Mendelssohn Choir. She is recognized as the organizing musical genius of Cleveland. Felix Hughes, to whom she is married, is a well known vocal teacher, and his brother Rupert is the celebrated writer. Mrs. Hughes organizes the Symphony Orchestras of America to Cleveland every season, maintaining a guarantee fund for the purpose.

John D. Rockefeller is one of the guarantors and is able to call for \$500,000. This is due to the limited seating capacity of the hall, the expenses for the two concerts being about \$7000. All this is provided with the most ungrudging good will, and the glowing satisfaction of Clevelanders in the success of the concerts artistically is good for Toronto folk to behold.

The choir expects to be in Toronto at 8 o'clock in the morning; if snowstorms do not delay. A.E.S.S.

That the Canadian farmer who installs a gasoline engine in his barn should not be debarred from getting out an insurance policy on that structure, was the evident trend of feeling at the annual meeting of the Mutual Fire Underwriters Association, which opened at the Walker House yesterday.

A sub-committee was appointed to draw up regulations under which permits for the engines will be allowed. It was stated that in some cases it might be necessary to charge an extra fee, but that in the main there would be no rate increases because of the privilege to be extended.

James Cochrane, Owen Sound, submitted a plan of mutual insurance bookkeeping which he thought it would be advantageous to adopt as a uniform system. This will be considered.

CHOIR REPEATS TRIUMPH IN SPLENDID PROGRAM

But Despite Crowded Halls There is a Deficit of \$2,000 for the Music Lovers to Foot.

CLEVELAND, O., Feb. 16.—(Special.)—To-night's concert was as great a triumph for the Mendelssohn Choir of Toronto as last night's. The program was less varied and was made up of heavier elements, but the appreciation of the audience was unbounded and the army was packed to the doors.

The concert closed with the singing of stanzas from "America" and "God Save the King," amid cheering and tumultuous enthusiasm.

The press notices to-day were of the enthusiasm description already indicated. The evening papers outdid the morning ones in their compliments.

The Story of Your Life interests you---because it has "human interest."

The trials, tribulations, joys and sorrows of others interest you because they have "human interest."

Your advertising must have that same "human interest" to attract others.

In other words---no matter whether you are selling a wood pile in Toronto, or building lots in Kamchatka---your "ads" must put animation in that wood pile, or personality into that real estate before the public will "sit up and take notice."

If you can't get "human interest," virility and life into the story of the article you are trying to sell---send for me and watch me do it.

MUTUAL COMPANIES MEET ROYAL TEMPLARS TEMPERANCE

Delegates to the Dominion Council of the Royal Templars of Temperance, which meets in Hamilton next month, were elected by the grand council of the order at their afternoon session in the Temple building yesterday.

The delegates are: W. M. McMillan, K. McKenzie, J. A. Copeland, Dr. Crawford, Rev. W. J. Tedy, W. J. Conron, H. Allen, Rev. W. J. Coon, Thomas Morris, C. J. McCallum, W. J. McBride, W. Spencer and T. J. Shank.

A portion of the evening was given over to the demonstration of the ritual work of the order.

Mayor Geary, who opened the convention in the morning, declared his sympathy with the work for which they stood, and wished the local option movement all success.

Ex-Ald. Hales took occasion to make a vigorous speech in denunciation of newspapers which publish liquor ads.

The grand council resumes at 9 o'clock this morning, and hopes to conclude its labors to-day.

By special request Gounod's "By Babylon's Wave" was repeated before Grieg's "Ave Maria." "Scotts Wha Ha" followed and Franck's "150th Psalm" won a rapturous encore for which "The Greater part of Brahms' Requiem" was sung for the last part of the program.

The playing of the Thomas Orchestra was more delicate and artistic than ever. Lato's Norwegian rhapsody was encored and "The Bee" was given in response.

A feature of the concert was the singing of Herbert Witherpoon, whose splendid bass voice was used with immense effect in the declamatory setting of "Young Lochinvar" by Chedwick Witherpoon has a dashing legato method, very telling in such a composition.

New Signs of Life Exhibited At the New York Exchange

Prices Are Steadier and Rallyes Over on Wall St.—Toronto Market Not Yet Favored by Speculators.

World Office, Wednesday Evening, Feb. 16. Notwithstanding the strength shown by securities on the Toronto market yesterday, the market here is still very much affected by the New York market.

Business today was small and scattered, and buyers were those who have confidence in the future. The declaration of an increased dividend by the directors of the New York Exchange, which was held yesterday, has had a beneficial effect on the market.

Steel and Coal shares were dull, but pool support is still recognized in Nova Scotia Steel. There was no pressure on the market throughout the whole day, and any broad buying would have resulted in early forcing further advances.

WALL STREET POINTERS. Hearing at Albany on stock exchange reform on Wednesday. Building trades mechanics seem less anxious to strike.

Large number of cotton spinners to extend short time to April 24. The Federal Mining and Smelting Co. declared regular quarterly dividend of 1 3/4 per cent. on its preferred stock.

The visible supply of copper on Feb. 15 was 114,100 tons, compared with 110,820 tons on Feb. 1, and 52,550 tons of Feb. 15, 1909.

INDUSTRIAL EARNINGS. New York Air Brake reports for year ended Dec. 31, 1909, surplus of \$273,972. Increase \$28,573.

Pressed Steel Corp. for fiscal year ended Dec. 31, shows a total surplus of \$5,659,660, increase \$959,583.

WALL STREET ADVICES. Joseph says: Buy the Wabashes. Another good advance is impending. Keep long of Rock Islands. Tractor and very good. Steels will recover. Hold Chesapeake & Ohio.

M. K. & T. is in shape to rise. B.R.T. shows a rallying tendency. Consolidated Gas may go higher. Amalgamated Copper should be taken on all reactions. Smelting is well bought.

We look for this with resulting lower prices and the probability that before the down move will have terminated some new low figures will be recorded in the list of active leaders.—Town Topics.

KITTY BUYS ANOTHER ROAD. NEW YORK, Feb. 16.—M. K. & T. bought the Cleburne & Southwestern Railroad.

DROPS ITS DIVIDEND. New York Air Brake passed their dividend.

HESITATION AND DOUBT Have Had an Influence on the Steel and Iron Business.

The New York Iron Age to-day will say: Some published statements from railroad sources in the past week have indicated that the continued expansion and doubt have had their effect on the current business. In the iron trade there is thus far no evidence of cancellation of orders nor has there been any appreciable holding back of shipments.

On finished materials specifications continue to be large and new orders in most finished lines with less than current shipments of iron and steel. The halt in buying is most pronounced in foundry pig iron, and in some markets considerably lower prices are reported. In nearly all the finished products mills are now making better decisions than some recent reports have indicated.

IRON PRICES DEFINITELY DOWNWARD. NEW YORK, Feb. 16.—Town Topics says: The present trend of prices in the pig-iron market is definitely downward. In almost every centre enquiries are being withheld, and what actual transactions are sought they are negotiated at concessions from the openly quoted figures. This has happened.

CEMENT FOR DAM. TIMAGAMI, Feb. 15.—Sixty car loads of cement are being taken from this point to Matabichuan River, where E. A. Waverly is building a dam to furnish power for the drills in the Cobalt and South Lorrain mines. He has 35 teams at work. The distance from Timagami is about 20 miles.

A Law to Curb Brokers. ALBANY, N.Y., Feb. 16.—A bill resulting from the New York Stock Exchange bill, following the collapse of the pool stock, was introduced to-day by Assemblyman Clarke of Brooklyn. The bill has been carried by the New York exchanges who, while acting as a "specialist" in any stock, shall take for his own account the stock in which he has been authorized to deal, shall be deemed guilty of conspiracy to defraud, and subject to the penalties prescribed for larceny.

UNDERTONE UNDENIABLY GOOD. World Office, Wednesday Evening, Feb. 16.

The speculative position of the Toronto market is best indicated by the securities which have received emphasis on this exchange. All of these stocks were strong to-day, with a sharp rise in Amalgamated Asbestos. Yesterday's improvement in the South Americans seemed to be easily held, and those who realized were not able to get stock back, except at further cost. The undertone to the market is undeniably good, and if the floating supply of some of the older issues were more plentiful, a much more active market would be seen.

HAMILTON SIDETRACKED

NO NIGHT TRAIN EAST. Belated Morning Service—Railway Men Admit Grievance, But it Might Not Pay.

The comparative isolation of two such cities as Toronto and Hamilton for nearly half of the time furnishes a remarkable commentary on the benefits (?) accruing to the public from the private ownership of railroads.

The resident, or visitor, who finds himself in the Ambitious City after 9 o'clock need not consult his time table for the next train out, if requiring, for any reason, no matter how urgent, to travel east, whether to Toronto, a local, or more distant point.

If he did look up the schedule he would find that the last train out from Hamilton to Toronto is the 10:30 p.m. train, which has NO LATE TRAIN EAST.

This might be of no special consequence to the millionaire inadvertently so situated. A special train would be at his service. It is simply a matter of having the price. With the general public it is different.

After resigning himself as philosophically as may be, to awaiting the dawn of another day, for an early train, another predicament faces the ear-bounding traveler. THERE IS NO EARLY TRAIN. He can take a good, long night's sleep and rise leisurely, for the first train towards Toronto does not draw out until 7:30. If flagged, it commences its journey at 8:00, and descends into South Parkdale at 8:45, and is due at the Union Station at 8:50.

Enquiry by The World among railway officials elicited the admission that a later train from Hamilton would be a public convenience.

The objection one railway man said was that "at first, it would not pay for the extra mileage." He, however, conceded that a later train at night from Hamilton to Toronto would "in time work up business."

How long the Hamilton members of the Dominion Parliament will stand for their big urban constituency being treated from 9 o'clock in the evening like a rural village, as a negligible quantity by the railway corporations, but that the question has been raised, remains to be seen. That the residents of Hamilton, and the traveling public have a grievance, the statements of the excuse of the railway men, and omissions of the current time tables amply prove.

King Edward Buys Naples Villa.

LONDON, Feb. 16.—A despatch to The Chronicle from Milan says that the beautiful Villa Brazziera, at Posillipo, on the Bay of Naples, has been purchased on behalf of King Edward.

Settled by Agreement.

In the New Jersey assize court yesterday R. J. Batt, acting as executor of the estate of the late S. J. Alexander, claimed \$1500 from Mrs. M. A. Hubbard for an unpaid balance for work done in building a \$700 house for the family on Crescent-road, Rosedale. The defendant, while denying the liability, paid \$110 into court. She said that on account of the plaintiff's failure to finish she incurred \$444 liability in having the work done herself.

His lordship, Chief Justice Meredith, proposed that Mrs. Hubbard allow Mrs. Alexander widow of the contractor, \$750, and after a conference the case was settled by Mrs. Hubbard agreeing to pay \$700.

REPUTATIONS SHATTERED. Patriots of 1776 Painted in Some New Coloring. BOSTON, Feb. 16.—Stung to the quick by the storm of denunciation which has greeted his attacks on revolutionary heroes in his book, "The Loyalists of Massachusetts," James Henry Stark to-day struck back with a declaration that for every statement he has made he has the sure proof. He brands certain patriots of 1776 as follows: Patrick Henry—"a cracker" one of the most unreliable men living. Benjamin Franklin—Postmaster, dismissed for stealing from mails. Samuel Adams—"a defaulting tax collector of Boston, who was dismissed. John Hancock—"Malfeasance in office and a notorious intriguer. Cabots of Beverly—"Became wealthy thru rapine and plunder." John Hancock—"Malfeasance in office while treasurer of Harvard.

Suffered Terrible Pains From His Kidneys.

Perhaps no other organs work harder than the kidneys to preserve the general health of the body, and most people are troubled with some kind of kidney complaint, but do not suspect it.

There is no way of getting the kidney poisons out of the system except through the kidneys, and no medicine so effective in taking them out as Doan's Kidney Pills.

They help the kidneys to flush out the acid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and urinary passages.

Doan's Kidney Pills are entirely vegetable, and may be safely taken by old and young.

Mr. Douglas A. McIsaac, Broad Cove Bank, N.S. writes:—"I was troubled with my kidneys for nine months, and suffered with such terrible pains across the small of my back all the time that I could hardly get around. After taking two boxes of Doan's Kidney Pills I began to feel better, and by the time I had taken three I was completely cured."

The Thirty-fifth Annual Meeting of the Shareholders of the Standard Bank of Canada was held at the Head Office, corner of Jordan and Wellington Streets, Toronto, on the 16th inst.

REPORT

Your Directors have pleasure in presenting to the Shareholders the Thirty-fifth Annual Report of the affairs of the Bank for the year ending 31st January, 1910.

The net profits, after making the usual provision for Bad and Doubtful Debts, Rebate of Interest on unmatured Bills under discount, exchange, etc. amount to \$342,258.58, being at the rate of 18.26 per cent. on the average amount to \$456,460.00 premium on new stock, which, with the balance at credit of Profit and Loss Account, \$150,257.69, brought forward from last year, makes the sum of \$848,976.27.

Table with 2 columns: Description and Amount. Includes items like Four Quarterly Dividends at the rate of 12 per cent. per annum, Transferred to Officers' Pension Fund, etc.

Since our last Annual Meeting the purchase of the Western Bank of Canada has been consummated. During the year Branches of the Bank have been opened at McTaggart, Sask., Roncesvalles Avenue, corner of Geoffrey Street, Toronto, and Winnipeg, Man. Arrangements have been completed for the opening of Branches at an early date at Calgary, Alta., and corner of College and Clinton Streets, Toronto.

Authority is being asked from you to apply to the Treasury Board to increase the Capital Stock of the Bank to \$5,000,000. Allotments of the new stock will be made from time to time as your Directors may conclude the business of the Bank demands.

The Head Office and Branches have received the usual careful inspection during the year, and the staff have discharged their duties in a satisfactory manner.

W. F. COWAN, President.

PROFIT AND LOSS ACCOUNT

Table with 2 columns: Description and Amount. Includes items like Balance brought forward from 30th January, 1909, Profits for year ending 31st January, 1910, after deducting expenses, interest accrued, etc.

GENERAL STATEMENT

Table with 2 columns: Description and Amount. Includes sections for LIABILITIES (Notes in circulation, Deposits bearing interest, etc.) and ASSETS (Gold and silver coin, Dominion notes, etc.).

Toronto, 31st January, 1910. GEO. P. SCHOLFIELD, General Manager.

The authority asked for to apply to the Treasury Board to increase the Capital Stock to \$5,000,000 was approved unanimously.

The usual resolutions, conveying thanks to the Directors and Officers, were passed, after which the vote was taken for the election of Directors.

The following were elected: W. F. Cowan, W. F. Allen, Frederick Wylde, W. Francis, W. R. Johnston, F. W. Cowan, H. Langlois and T. H. McMillan.

At a meeting of the Directors, held subsequently, Mr. W. F. Cowan was re-elected President, and Mr. Frederick Wylde Vice-President.

TRAGEDIES OF A DAY.

NEW YORK, Feb. 16.—Two women dropped from the roofs and met death on the pavement to-day.

One of them, a young shirt waist maker, is known to have leaped purposely to her fate. She was Jennie Shroley, 17 years old, and a note she left showed that it was because of melancholy over a love affair. Her body, falling from a six story roof, struck a passing baker carrying a basket thru Second street.

The other death was that of a woman of 73 years, Mrs. Bridget O'Toole.

Shot Wife and Self. NEW YORK, Feb. 16.—After breaking in the door of the house where his wife was living apart from him at Freeport, Long Island, to-day, George

W. Taylor shouted out his intention to kill her, followed her as she ran screaming to the home of a neighbor, and shot and fatally wounded her. He then shot himself.

No Home; No Friends. KANSAS CITY, Mo., Feb. 16.—Miss Agnes Elkins, a niece of United States Senator Stephen B. Elkins of West Virginia, shot herself to-day at her room at a local hotel.

A note found on the dressing table read: "I am tired of life and have no home or friends."

To Develop Newfoundland. NEW YORK, Feb. 16.—W. D. Reid, son of Sir Robert G. Reid of Newfoundland, says that plans are under way for a great development of the interior of Newfoundland. The government has contracted for the construction of five branch lines of railroad, which will bring many parts of the colony which are now isolated or reached only by steamer into direct communication with St. John's.

Nickel Theatres Pay High License. BRANTFORD, Feb. 16.—Local theatrum managers made a strong effort here on the 15th to have the license fee of \$500 per annum reduced to \$150. Brantford it is stated has the highest fee in the province. The council refused to make a reduction, but the motion to reduce the license fee for central location and are consequently rated as well able to pay the license.

Maylor's Vote Killed License Reduction. SAULT STE. MARIE, Ont., Feb. 16.—On the casting vote of Mayor Simpson the motion to reduce the hotel license from 13 to 9 was defeated here last night. The mayor, who is a declared temperance man, urged that the reduction would not to his mind cause less drinking.

Children's Aid Society. The board of management of the Children's Aid Society will hold its annual meeting on Thursday afternoon, Feb. 17, at 2 o'clock, at the residence of Major-General Gibson.

CANADA'S GREATEST BUSINESS THOROUGHFARE

Yonge-Street Has Remarkable Part - Destined to Become Most Important on This Continent.

Before the advent of the steam railway, which is today such a factor in the birth and subsequent growth of cities and towns throughout the country, what are now important commercial centres were always found contiguous to some great highway. After a hundred years of service these highways have become honored by tradition and history, and in some cases public-spirited citizens or local historical societies take up the self-imposed task of marking the spots which posterity should treat with reverence. As New York City can proudly point to Broadway, the greatest business thoroughfare on this continent, so can Toronto show equal pride in its Yonge-street, rich in history and romance. For Yonge-street it can be said without equivocation that everything or anything required by the great business family can be had from the street business merchants who line its either side. When first projected, in 1791, as a "short cut from York to Lake Simcoe," Yonge-street did not extend farther south than Lot—now Queen-street. Later it was seen that the logical southern terminus was the bay, and adjustments were made with the owners of property whose lands were required, in part, to make this extension, that it might be carried thru. At that time, however, and for a considerable period afterwards, the street was little used between the Town of York and the Village of Yorkville, situated north of Bloor-street, from which point it was much traveled, the intervening strip of sand being known as "the Road to Yonge-street." Incidentally, we might mention that the street derived its name from Sir George Yonge, at one time secretary for war in England. Gradually, thru the course of time, and circumstance the street became open and the adjacent district settled. From the first it was marked for business. To-day besides representing the highest property values in the city, it is known wherever the English language is spoken.

Three Divisions.

Above Queen-street, that portion of Yonge-street, within the city limits, is naturally divisible into three sections, viz., Queen to College, College to Bloor, Bloor to the northern city limits.

From Queen-street northward—practically from Shuter and Albert-streets—the retail business on Yonge-street is largely affected by the reflex action of the business activity further down. Trade is for the most part transient, but the character of the newer stores which are constantly being built is making for stability. Concerns with ample financial backing are taking long term leases or purchasing advantageous locations or business. Expensive and elaborate fronts and store fittings are being installed, and in a few years Yonge-street, from end to end, will present an appearance which, from the standpoint of the man of business, cannot be surpassed. Competitive window displays play a large part in the modern retail game. Artistic and attractive displays seek to gain the confidence of the wary and elusive buyer.

Passing to the section between College and Bloor-streets, one comes into intimate contact with the class of retailers who cater to the daily wants of Mr. Man and his family. Clean, sweet-smelling butcher stores distribute large quantities of fresh meat. Grocers—men who know the nature and quality of the numerous articles dispensed to make the palatable—minister to every requirement of the culinary department; and bakers, whose manipulation of "that delectable article called cake," bring delight to the family board. So, too, those who dislike purchasing their personal apparel amidst the madding crowd of the larger stores find in the quieter stores of the upper district, time and opportunity to make selections which give more lasting satisfaction than the hurried choice downtown.

Important Centre.

Passing now to the most noteworthy section of Yonge-street, the situation is somewhat different. Bloor-street is always has been a great cross-town thoroughfare, and in the immediate neighborhood of its intersection with Yonge-street, a class of stores have collected which will bear favorable comparison with the most excellent high-class shopping district in any city on the continent. Here, for instance, will be found a number of grocery and provision stores, jewelry establishments, station stores, jewelry establishments, and other popular emporiums that make for solid and comfortable business. A number of prominent banking institutions have also seized the opportunity to establish branches in this neighborhood. In fact, from Bloor-street to the city limits Yonge-street can count a greater number of banks than either of the sections below.

It is therefore evident that the most northerly section of Yonge-street possesses the greatest potentiality for immediate exploitation. Real estate values have gone up enormously of late, new stores are constantly being erected and enjoy from the first a profitable patronage. There is no need whatever for citizens going to the more crowded districts, where shopping becomes a heavy task, to make their purchases. Intelligent salesmanship, reasonable prices, prompt service can be found at one end of the city as well as the other. In these days of enterprise one is never far from the "base of supplies," and the man close

ANOTHER BATTLE FOR BOOTS And Another Victory for This Store

The booty amounts to 6,000 pairs—The Flower of Canada's best Shoemaking—Away Less than Cost—Men's, Women's and Boys', Girls' and Children's.

Table with 2 columns: Item description and Price. Includes Men's \$4.00 to \$6.00 Boots for \$2.49, Women's \$3.50 to \$4.50 Boots for \$1.99, Boys' \$2.00 to \$3.00 Boots for \$1.39, etc.

WE HAVE another victory to report! We have been so fortunate or so deserving—or both—as to have achieved a purchase second to none in the history of our famous footwear campaigns.

We have secured no less than \$10,000 worth of Boots such as we can sell to you at a fraction of the prices paid in every city in Canada.

The manufacturers of most of the footwear concerned claim their Boots the equals of any on the Continent, and we believe them. They are as proud of the firm name as we are proud of the name Robert Simpson Company. They have stipulated that their label on the inside of each shoe be removed, and that we do not publish the name of the makers. The price at which we cleared this great collection was so unprecedented we could not refuse the request. But our customers may take our word for it their shoes are RIGHT. We'll take all we can get of them on the same terms. We add to this main lot special purchases from Jas. McCreedy, J. & T. Bell, and two other Montreal manufacturers.

This sale is to make a new record. We feel sure of it. We are making special and unusual arrangements to handle this great quantity quickly, surely and with expeditious satisfaction.
