# Some of the "Musts" and "Shoulds" in the College Girl's Wardrobe

*You Were Inquiring?*

Such Apparel as Good Taste and Good Sense Advise for the Class-room, the Gymnasium and Out-of-doors—Simple, Well-made Toggery for That Interesting Young Person, the Girl of 14 to 20

**A. Trig and trim and everything else that a college girl's skirt should be is this navy blue serge model sketched above. And for wear with her blouses such a garment is, of course, a bounden necessity. It is slightly gathered at the waist, under the wide belt, and black bone buttons serve as a finishing touch to the pair of patch pockets. It may be had in sizes 22 to 26 waist-band, and lengths 31 to 38. Price, \$5.95. It is procurable in the Misses' Department.**

**B. Peter Thompson — as familiar a name to the fair collegian as Christopher Columbus itself. For by such title do we know the popular species of misses' dress which our artist has numbered "B." As shown here, it is well-tailored of an excellent quality navy blue serge, fine and firm in weave. The skirt is laid in box pleats, stitched as far as the hips, and the collar of the bodice, banded with white, black, gold or silver braid, is smartened with a soft bow of black silk. The dress may be had in sizes 14 to 20 years—priced \$12.50.**

**C. Here's a case where "simplicity" claims "smartness" and "suitability" as its synonyms—the case of the fetching little hat in the circle above. It is modestly fashioned of silk velvet, a softly shirred fold of the velvet serving by way of brim, and a band and flat bow of corded ribbon effectively acting as trimming. A delightful hat for the schoolgirl of 14 to 20. It may be had in navy blue, Burgundy, dark brown, taupe and black. Price, \$5.50. A similar model in velvet in the same colors is \$5.50.**

**D. Athletics are held to be quite as important as aesthetics in the make-up of modern education—as, for example, our Girl with the Dumb Bells here to the right. Hence the huge popularity of the middie blouse in general, and the famous "Paul Jones" in particular. For it reaches the top notch of excellence in fit, make and material. As shown in the sketch, it is fashioned of white jean, with collar and cuffs of navy, Copenhagen, red, rose or white, and crown, anchor and chevron on the sleeves. Price, \$2.25. A similar middie in Holland blue jean is \$2.50, and one in navy serge, \$3.50.**

**E. Fencing, basketball, vaulting the horizontal bar—for such vigorous accomplishments Miss College Girl must perforce take to bloomers. And such well-cut, well-tailored knickerbockers as they are—as featured in the Middie Blouse Department. In navy blue union serge they are \$2.00; in all-wool serge, \$3.50, and in all-wool, knitted style, \$5.00. They may be had in all sizes for women and misses.**

**F. Like the brook, styles may come, and styles may go, but the sailor dress goes on forever in the favor of the girl in the classroom. This one in the drawing above is a joy to behold, the navy serge is of such excellent quality, and every detail of make and finish is characterized by such nicety. The braid on the collar may be black, red or white, and, if desired, the elastic from the edge of the blouse, permitting it to be worn in middie style. The skirt is separate, and may be worn with other blouses. Sizes 14 to 20 years. Price, \$10.00.**

**G. Warmth, smart cut and navy blue beaver cloth make up the sum of this coat's attractiveness. It is one of the season's new models—note the long, pointed collar and the straight fall of the skirt. The buttons so liberally applied are covered with seal plush. The same model may be had in green and brown. Sizes 14 to 30. Price, \$22.50.**

**H. For a happy alliance of good style and common sense, in a young woman's shoe, let us commend this laced boot above. It is of heavy, pliable box calf, the top in dull finish, the vamp perforated in wing-tip style. Furthermore, it boasts extension sole and low heel of Neolin. It may be had in sizes 3 to 7, and widths A to D. Price, \$7.50.**

**I. A model of the well-known "Educator" make, with broad toe, low heel and extension sole. It is of black patent leather, with dull calf-skin top. Sizes 3 to 7. Widths C, D and E. Price, \$6.50.**

**K. If she sighs for a cloth top to her boot, she may indulge her fancy without any sacrifice of the common sense, which is deemed essential in schoolgirl footwear. For here is a boot with low heel, patent vamp and back, and black cloth laced top. It has a turned sole, and may be had in sizes 3 to 7.**

**M. Smart enough to satisfy the fancy of the most fastidious maiden of fashionable New York is this "mushroom" in blue silk beaver. It may be had also in brown, blue and black, also with straight or rolling brim. Price, \$10.00.**

**N. She elects the uttermost simplicity in her hats, does the College Girl who knows what's what in smart attire. And some such sailor as this pleases her mightily. 'Tis of black velvet—may be had, too, in blue, brown or green—and is priced \$5.50.**

**L. Another model with a black cloth top, this one, buttoned, the uppers being of box calf. It has extension sole and low heel. Sizes 2 1/2 to 7; widths D and E, and price \$4.00.**

"Patty."—We should love to uphold your fancy for the blue walls, but candor compels us to endorse the opinion of your decorator that they would be much too cold in a north room. What we would suggest is a warm buff—almost a honey shade. It would provide a good background for the blue and mulberry tapestry on the Chesterfield and big chairs, and would allow your having curtains of mulberry or blue casement silk. Oatmeal paper at 23 cents a roll, or a narrow self-tone stripe at 40 cents, or a sort of grass-cloth effect at \$1.00 a roll would serve the purpose well.

"Sister Susie."—The new Trench Cap is not nearly as long or bulky as the old "Balalaava." It reaches just to the neck, and is designed for wear under the tin helmet by day, and as a sleeping cap by night. You will require about a quarter of a pound of wool—Canadian Khaki yarn at \$1.75 a pound, or five-ply Bealite at 23 cents a skein would be suitable. Here are the directions: Cast on 96 stitches, 32 on each needle. Rib 2 and purl 2 for 25 rows. Knit 6 and purl 2 for 22 rows. Narrow second stitch on each end of needle until you have 4 stitches on each needle. Then thread the end of the wool with large darning needle and button-hole around the 8 left, leaving a small opening on top of cap.

One has a dim recollection of the "situation" to which you refer. Was it not in "Helbeck of Banisdale," that masterpiece of Mrs. Humphrey Ward's?

"Maizie."—But the "hard-up art student" may blossom forth like an illustration from "Vogue" as far as furs are concerned. She really may, Maizie. Wolf, squirrel, opossum and other lumber-politica are scarcely to be detected this season from such aristocrats as chinchilla and fox. There is a fascinating little stole—flat shawl style—in ringtail opossum at \$20.00 with round muff at \$22.50. One of new wide scarfs in taupe wolf is \$25.00, and the muff the same price. And in neutral beaver is a very chic little collarette at \$12.50, with muff to match it, at the same low figure. Is "Dick" out East this time, too?

M. D. E.—On the contrary, Mam'selle, there is quite a live little list of new books. Here are a few of them:

"The Secret Witness," George Gibb, author of "The Yellow Doves," \$1.25; "The Bridge of Kisses," Berta Ruck, \$1.25; "Marta, the Unconquered," Kathleen Norris, \$1.25; "The Triumph," Will N. Harben, \$1.25; "Donald and Helen," E. W. Campbell, \$1.25; "The Long Lane's Turning," Halle Ermine River, \$1.25; "The Inner Door," Alan Sullivan, \$1.25; "The House of Dreams," L. M. Montgomery, \$1.25.

# Vision Your Sons, Mothers of Canada!

Vision them at early morning when through rising mists, there bursts a hurricane of fire--- See your valiant boys--- calm, grim, but cheerful--- "stand-to-arms" until the Hun's "morning hate" dies away.

Picture them at breakfast, the meal that must bring them the bodily sustenance to carry them through the strain of another day.

Then think of what might happen if, one morning, there was no breakfast---no food to be had, and the word went down the lines that Canada had failed them.

Vision all these things, and then--As Women of Canada--Mothers of Men--Answer this Call to Service.

Canada must send to Her Own, and to the Allies Fighting Forces, more wheat, more beef, more bacon, and more of such other foods as are nonperishable and easily exported.

Canada can do this, without depriving her own population of a fair share of any of these foods if You Women will but help.

All we ask of you is, that instead of buying so much white flour (if you do your own baking) you vary your baking by using one-third oatmeal, corn, barley or rye flour. Or, if you buy your bread, that you order a certain proportion of brown bread each day.

Second, instead of using as much beef and bacon as formerly, you vary your family's diet, by substituting for beef and bacon such equally nutritious foods as fish, peas, lentils, potatoes, nuts, bananas, etc.

Third, and this is most important--positively prevent the waste of a single ounce of food in your household.

# They Must Be Fed

Statistics show that, everyday, in Canada, sufficient food is thrown into garbage cans, to feed the entire Canadian Overseas Army.

Travellers have often remarked that many a European family would live well upon the quantity and quality of food wasted in some Canadian homes.

Such waste is shameful at any time; but in these times it is criminal.

Our only hope is that with these truths before you, and in view of the vital issues at stake, we may count upon your earnest co-operation in stopping this appalling waste; and in substituting other foods for the wheat, beef and bacon that must be sent overseas.

Next week a Food Service Pledge and Window Card will be delivered to you. The Pledge is your Dedication to War Service. The Window Card your Emblem of Honour.

Women's Auxiliary, Organization of Resources Committee, In Co-operation with The Hon. W. J. Hanna, Food Controller.

**NOT WORRIED ABOUT COAL.**  
No fears are expressed by the chief superintendent of supplies but that Toronto schools will have all the warmth necessary during the coming winter. An ample supply of hard coal is on hand, but as both hard and soft are used in equal quantities the supply of soft coal is now engaging attention.

"Slow transportation is the chief difficulty in the way of getting immediate supply," says Mr. Kerr, "but I have no doubt we will get all that is needed in time."

### SIFTON REFUTES NEELY'S CHARGES

His Attitude on Conscription Completely Misrepresented, He Declares.

#### OBSTACLES FORESEEN

W. A. Charlton, M.P., Fails to Substantiate Neely's Allegations.

The Toronto Star yesterday published an Ottawa despatch giving an interview with Sir Clifford Sifton in which Sir Clifford flatly denied charges made by Dr. Neely at Charltonham that he had once promoted among certain Liberal members a campaign against conscription.

"The facts are," he said, "that I met Dr. Neely on the street in front of my office, when he stopped and began to talk about the political situation. As it was not convenient to talk on the street, I asked him to come up to my office. He came up and chatted there for some little time about the political situation with reference specially to the prime minister's announcement of policy of conscription.

"I said that I regretted very much there was likely to be a split on the subject of conscription, in which different portions of the country would arrayed against each other, but as it was quite clear to me that English-speaking Liberals in the west ought not to follow Sir Wilfrid Laurier on this question."

"Dr. Neely asked me what I thought they ought to do. I said that they ought to organize themselves, and repudiate the stand taken by Sir Wilfrid Laurier, and at the same time announce their intention of supporting conscription and supporting the government in any war policy. Dr. Neely expressed thanks to me for my advice, and I have not seen him since. If the report is correct, his statement is a complete misrepresentation of what passed between us."

**Perceived Difficulties.**

The press informed him that Mr. Charlton had said that he, Sir Clifford, had expressed doubts of the wisdom of enforcing conscription to him. As to this, Sir Clifford dictated the following:

"With respect to Dr. Neely's statement that I expressed myself as opposed to the conscription bill to Messrs. Power and Charlton, this statement is also incorrect. I have never expressed myself as being opposed to conscription since Sir Robert Borden made his announcement. It is quite true, however, that in common with many others in favor of conscription at different times, I have, in discussing the question, recognized the difficulty of enforcing it, and that it would have been desirable to have got recruits by voluntary enlistment if possible. In this respect, my opinion does not differ from that of any other intelligent person familiar with political conditions in Canada. The position is that the country is faced with a difficult situation, but no course is open but to face it and carry through the conscription policy which is necessary under the circumstances."

Questioned as to the allegation that he had asked Wm. Power, M.P., to give out a statement against conscription and then sent a wire canceling it, Sir Clifford said:

"I met Mr. Power in the Chateau Laurier one afternoon. I think it was before the military service bill was introduced. Mr. Power was obviously very much exercised about the attitude of the Province of Quebec. In talking the matter over with him he expressed the opinion that the people of Ontario did not understand Quebec attitude, I said: 'Perhaps it would be a good idea for you, in the interests of fair discussion, if you should give an interview to Toronto papers, and state your views.' He said he might do so on his return from Quebec, to which he was about to go. After I left him, on thinking the matter over, I concluded that no good end could be served by promoting the publication of such an interview, and I sent him a telegram to that effect."

Confirmed by Charlton.

W. A. Charlton, member for Norfolk, confirmed in an interview this morning, Sir Clifford's statement, and denied the statement of Dr. Neely that the ex-minister had expressed himself as opposed to conscription.

"I met Sir Clifford one day in the Chateau Laurier, and we talked over the political situation. As it was inconvenient to talk in the corridors, I went up to his room. He said he had two sons at the front, and he did not know whether he would ever see them again. He said he was a conscriptionist from the word go. He also expressed doubt as to the wisdom of enforcing it in view of the fact that there were two million French-Canadians and a half-million Germans opposed to the measure. He was afraid it would create internal strife and bring pleasure to the Germans."

On Tuesday, Wednesday and Thursday of This Week We shall hold our Formal Autumn Opening. This Important Event is eagerly looked forward to as an Outstanding Opportunity for seeing what Madame is to wear during the Fall and Winter

### You Are Cordially Invited to Attend

We Promise You a Series of Delightful Surprises. In spite of many Obstacles, we have Succeeded in Assembling a Collection of Millinery, Ready-to-Wear Garments, Dress Materials and so on, such as, we Feel Assured, will Charm All who Attend this Special Showing

#### First and Foremost Comes the New Autumn Millinery

The woman of good taste will fairly revel in the new hats—they seem to have been designed specially for her wearing:

Simplicity is the dominant note. It's the lines of the shape that count—the trimming is almost a minus quantity on many of the smartest models. They are of velvet principally, though soft felts and velours are also shown. There are small hats, medium size hats, and really large hats—all are charmingly simple—and simply charming.

#### The Gloves Are Important, Too

No easy matter to get fine kid gloves this season—but we've succeeded beyond our hopes.

You'll find a splendid assortment of FRENCH KID GLOVES in our Glove Section, in black, white and soft shades. Be sure you see them and—take our advice—buy what you need NOW.

#### And, of Course, Boots Come Next

The new fall boots are most graceful in design, and they are just as high as ever.

What you'll notice specially in the new AUTUMN FOOT-WEAR is the fact that cloth tops are to be much used. As for height—there's no lowering of the popular nine-inch top, while the long, slender vamp is the correct thing.

#### Beautiful Linens Will Be Given Prominence

Real joy for the house-lover who visits our Linen Department on one or all of the opening days.

We shall make a special display of fine Madeira Linens, as well as Lace-trimmed Linens, specimens of the finest Venetian, Florentine and Cluny hand-made faces being included. Then, too, there'll be snowy satin damasks a-plenty, with a goody array of fine towels just to give a thoroughly practical note to the display.

#### The Showing of Exhibition Models Will Be the Attraction in the Misses' Wear Section.

You've pressed through the crowds at the Exhibition, hoping to get a closer view of the Murray-Kay showcases. At our Opening you will have an opportunity of seeing these charming Frocks for Misses' and Children's Wear at closer range, and in more attractive surroundings.

We're very proud of our Exhibition display—we're told it's a real credit to Toronto. Every model in the collection was designed in our own workrooms, as well as made there. The wee girls taking part in the Maypole dance will be specially admired, while the misses' dresses are sure to attract all who see them. Be sure you take a look at the new "bustle" drapery on one of these models. This is absolutely the last hint from the makers of fashion, and only the clever designer will dare to use it.

Included in this display are several practical dresses, as well as charming models of the "parifed" order. Don't fail to see them when you're making your rounds at the Opening.

#### A Few Little Things to be Seen at Our Opening:

**In the Neckwear Section**

The very last word in pretty collars—most of them of fine satin, bengaline silk, or Georgette, of special interest being the graceful jabot of fine lace.

**In the Knit Goods Section**

All sorts of fine Wool Sweater Coats in brushed or plain effect. A delightful variety of models, some having cap included, and in colors to suit everyone.

**In the Dress Goods Section**

The finest new Broadcloths, Velours and Tweeds—all the new shades represented; of course, there are practical serges, too—the very best qualities.

**In the Silk Section**

Satins and Duchesse Mousselines vying for first favor, with the dullest finished taffetas and failles—Velvets, too, will be given much prominence.

**In the Hosiery Section**

**In the Stationery Section**

Writing paper de luxe of finest American makes, in white and delicate tints. And just to the side, all the new books, attractively displayed.

**In the China Section**

The most delightful collection of fine China Dinner Sets, as well as a beautiful array of sparkling cut glass, all attractively displayed.

**In the Toilet Goods Section**

Every variety of delightful toilet preparations, including the famous Lillian Russell creams, powders, etc., which are so generally liked.

### Beautiful Array of Women's Coats, Suits and Dresses Including a Remarkable Offering of Coats

A big part of your interest at the Opening will be centred in the magnificent showing of Women's Suits, Coats and Dresses. In all three classes of garments we have a beautiful array of models from New York and Paris.

We specially want you to see the new coat-dresses from well-known Paris designers. Stunning coats and suits are also to be had, each with its much-coveted label, to show just which famous atelier gave it birth.

New York, too, has sent us a glorious selection of models, each showing the newest lines and exemplifying the finest tailoring to be found on this side of the water.

#### A Sale of Fur Fabric Coats at \$25.00 and \$35.00 Many of Them Could Not Be Duplicated at \$50.00

Here's a sensational offer, just to give unusual zest to the first of our Opening days. This sale is the result of a remarkable purchase of beautiful Fur Fabric and Cloth Coats, made in New York, and sent to us just in time for today's selling. They're stunning models, one and all, beautifully cut, lined throughout, some with fur collars—in short, they are just such coats as the woman of discernment would choose at many dollars more than our Sale prices.

Every coat in the lot is a wonderful value—many of them could not be duplicated at \$50.00. Sale prices, today

ONE AWFUL CONTEST GOES TO THE LEAFS

Twelve Innings and Thirty-Five Runs in Montreal Closing Fixture.

Special to The Toronto World. Montreal, Sept. 10.—Thirty-five runs scattered more or less through twelve innings with Toronto getting 19 and Montreal getting 16, the Leafs and half-brown fans who traveled out to the park to see the 1917 season close in a state of semi-employment and discontent.

Eight home runs, a record in itself, were committed during the afternoon with the home being evenly divided in this respect. Larry Lajoie was expected to do great things at the bat, and he did. Two home runs were his contribution to the day's festivities, the second one coming when the bases were so full that they threatened to overflow at any moment.

Another run her and there was gathered in by the teams until the ninth when the Leafs went in to bat six runs to the lead. They slugged and finally sent the home team into a doubleheader until the twelfth with the fans yelling themselves into a frenzy.

Table with 4 columns: Club, Won, Lost, Pct. Includes International League and National League records.

GIANTS DROP TWO GAMES TO DODGERS

Phillies Only Able to Get an Even Break With the Braves.

At Boston (National).—Boston and Philadelphia again split even in a doubleheader yesterday. Tyler's wildness had much to do with Alexander winning the first game, 5 to 2. In the second contest Boston hammered Lavender for 12 runs, all but one of them earned. Ragan struck out eleven men. The score was 12 to 2. Score: R.H.E. Philadelphia... 2 0 0 2 1 0 0 0-5 9 2

At St. Louis.—Smith's steal home in the third inning enabled St. Louis to win the first game of the final series with Pittsburgh, 3 to 1. With Smith on third and Miller on first and two out, Miller offed first. When he did so Smith dashed for the plate and scored. The score was 3 to 1. Score: R.H.E. Pittsburgh... 0 0 0 0 0 0 0 0-2 9 1

At Chicago.—Chicago-Cincinnati—Cold weather. (Two games tomorrow). With the end of the season in sight and the Leafs mixed up in the hottest pennant fight on record, large crowds gathered to watch the final series, which opens today with the Royals. A doubleheader is on the card for this afternoon.

Table with 4 columns: Club, Won, Lost, Pct. Includes National League and American League records.

**LOCAL WOMEN DISCUSS CONSERVATION OF FOOD**

**Believe Housewives Do Not Understand Suggestions Advanced by Food Controller Hanna.**

Letters received by Mrs. L. A. Garnett, secretary of the women's auxiliary of the Organization of Resources, make it quite plain that many women throughout the country have very indefinite ideas as to what is meant by the rules and suggestions of the food controller in the matter of food conservation. At a meeting held at the parliament buildings yesterday the secretary emphasized the fact that substitution of other articles of diet for whole wheat bread was one of the things upon which women were asked to concentrate. Oatmeal, cornmeal and cereals generally are suggested.

A letter urging the need for conservation is being sent broadcast thru the country by the government with a view to making every woman understand the situation. On the question as to the disposition of wheat there remains a doubt in the minds of some which should be put to rest by the following paragraph from *The Canada Gazette*: "No person shall use any wheat in the distillation or manufacture of alcohol unless such alcohol is to be used for manufacturing or munitions purposes, and no person shall use wheat in the distillation or manufacture of alcohol for any other purpose unless such person has obtained a license therefor from the food controller of Canada. No fee shall be payable for any such license."

The distribution of food pledges begins next week Monday, and women throughout the province are asked to help in Toronto the headquarters for the week will be in the Northheimer Building, East King street. Immediate volunteers will be welcomed.

**ASSESSMENT EXCEEDS SIX HUNDRED MILLION**

City officials were given a pleasant surprise yesterday when the total assessment for Toronto was announced by Chief Assessor Parley. The assessment is shown to have jumped from \$552,450, \$18 in 1917 to \$655,107,480 in 1918, an increase of \$102,657,030, and the population from 465,526 in 1917 to 478,823 in 1918, an increase of 13,297. The officials are highly pleased that despite the abnormal war conditions and the drag on its manhood the city has continued to grow at an alarmingly rapid rate.

The increase in the assessment and the population are as follows:

Land	\$2,578,285
Buildings	7,092,708
Business	2,187,852
Income	4,847,265
Total	\$16,697,117
Exemptions	1,663,290
Population	13,309

The following table shows the details in the total assessment as returned by Mr. Parley:

Land	1917	1918
Buildings	\$238,967,334	\$291,146,619
Business	217,376,603	224,472,311
Income	61,635,674	63,803,538

**FAMOUS OARSMAN DIES IN WESTERN HOSPITAL**

After an acute illness John J. Doran, well-known Toronto sportsman, died in the Western Hospital yesterday. Up till about five years ago, when the business was disposed of, he was a member of the firm of Bond and Company, manufacturer, and since then he was engaged in the real estate and brokerage business.

He was born in Toronto about 50 years ago and educated at St. Michael's College. Early in his teens he took a prominent part in aquatic, and became one of the foremost oarsmen on the continent, being a member of the Toronto Rowing Club's team which won the Junior championship of America more than twenty years ago. He was later celebrated as a sculler and was the winner of a number of valuable prizes.

Always interested in politics he was a strong supporter of the Conservative party, and a member of the Albany Club. He was unmarried and is survived by a sister the wife of J. S. Fullerton, K. C.
