TWENTY-FIFTH YEAR

RIGHT AT POINT  
PRESSED BY BOJ JAPS

OCT. 24 BATTLE CONTINUES  
JAPS GAINING GROUND  
BEFORE DORTRESS

Nothing of importance from Shakh  
River, where both sides hesitate  
to assume the offensive.

Japanese official reports regarding  
the siege of Port Arthur indicate that  
the attack began on Oct. 24 was still  
in progress on Oct. 25, the statement  
being made that the fire of the be-  
siegers was increasing in effective-  
ness. Nothing of importance has de-  
veloped on the Shakh River, where  
both sides seem to hesitate to as-  
sume the offensive, altho the Japa-  
nese are more active in the matter  
of attacks upon Russian positions.

Tokio, Nov. 1.—(9 p.m.)—Imperial  
headquarters tonight published a series  
of reports covering the operations  
against Port Arthur during the months  
of August, September and October. The  
chief interest centers in the tremendous  
attack which was begun Oct. 25, and  
is still continuing. Hundreds of Japa-  
nese guns began battering against the  
northern and eastern forts on Oct. 25,  
the infantry moving forward with de-  
spite and courage, where the artillery had  
prepared the way, while the pioneers  
and sappers were running mines against  
the Russian forts. The reports record  
a series of desperate encounters at  
close range and tell a dramatic story.

The reports, beginning with the at-  
tack of Oct. 25, follow:  
"From 8.30 a.m. the forts on Sangshu  
and Tyhling Mountains, the eastern  
forts on Keekwan Mountain and a fort  
lying north of the latter were bombarded.  
The parapet of Rihlung Mountain  
was demolished and openings were  
made in the fort.

Two of the most important covers on  
Sangshu Mountain were destroyed. One  
15 centimeter gun was dismounted  
and another damaged. One 81m on the  
southern crest of East Keekwan Moun-  
tain was destroyed.

From 2 p.m. other siege guns were  
brought against the technical forts Sang-  
sha Mountain, and a portion of our  
artillery against those on Rihlung Moun-  
tain and on Poshing Mountain, and took  
them without heavy loss.

The enemy in the nearby forts, to-  
gether with those on the forts on Wang-  
shihyankow, Manto Mountain, Golden  
Hill, Palyun Mountain and Laolinhua  
concentrated an effective fire against the  
points where our assaults were progress-  
ing.

A large mine exploded on the slope  
of Rihlung Mountain without fatalities.  
Shelled all night.

That night to prevent the Russians  
making repairs, we shelled the forts of  
Rihlung Mountain, East Keekwan  
Mountain and Sangshu Mountain, to-  
gether with the warships and machin-  
ery buildings.

The enemy held Sangshu and Rihlung  
Mountains under the protection of a  
shell fire and undertook several in-  
cessant night attacks against our  
positions.

On Oct. 27 our bombardment was  
continued and much execution was  
done.

Our engineer corps that night was  
sent against the northern part of East  
Keekwan Mountain and destroyed the  
outer casemate of a projected point.

The enemy tried every means to  
prevent our work and resorted to using  
bombs, at the same time working  
energetically in effecting repairs.

On Oct. 28 the bombardment was  
continued with good result.

A conflagration occurred in the old  
and second casemate of the fort here,  
which was observed near Golden Hill.

During the night on Oct. 29  
a machine building near the harbor  
was bombarded.

Reputed With Loss.  
"At dawn 100 of the enemy assaulted  
our line extending toward Rihlung  
fort, but were repulsed with heavy  
losses.

Simultaneously a similar force of  
the enemy assaulted our line projected  
against Sangshu Mountain.

Our men bravely withstood the at-  
tack, but were forced to lose a portion  
of the mine, which, however, was re-  
lieved later.

A mine directed against Rihlung  
Mountain fort reached the outer limit  
of the fort last night. A portion of the  
outer limit of the fort was blown up.

"Against the outer casemate of the  
eastern point of our assault, the north-  
ern of the East Keekwan Mountain dy-  
namite was applied twice last night, with  
wide openings and killing several  
of the enemy inside the casemate.

"Our bombardment is proving in-  
creasingly effective.  
"Five Russian ships, which were  
bombarded three days heavily dam-  
aged and the other two were set on  
fire."

QUITE NEAR SUKDEN.

St. Petersburg, Nov. 1.—Gen.  
Sukden reports that recon-  
naissances were made Oct. 30 on  
the Russian left flank, in a  
southwesterly direction, to  
chain of mountains south of the  
Village of Endesky, where vol-  
unteer sharpshooters and had  
a squadron of Cossacks drove a  
company of Japanese infantry  
and a squadron of cavalry out  
of the mountain range.

The Russians advanced three  
miles southwest. The same day  
Russian cavalry made a strong  
reconnaissance on the left bank  
of the Hun River, toward the  
fortified Village of Puteyandu-  
aday. The Japanese were driven  
out. The Japanese retired to a  
fortified position a mile and a  
half south and opened a cross  
fire on two Russian batteries.

A squadron of Cossacks at-  
tacked a Japanese battery and  
the Russian section advanced and  
retired. The Cossacks lost forty  
men killed or wounded.

SIZED UP FROM MONTREAL  
SCORE AMONG THE LIBERALS

Ministers Send Telegrams in Attempt  
to Throw Heart Into Their  
Following.

Montreal, Que., Nov. 1.—(Special.)—  
It may not mean much, but the fact  
cannot be denied that the Conserva-  
tives have worked themselves up to a  
degree of confidence which has been  
quite unknown to the party for many  
years past. No one can deny that the

Five men in one runaway  
AND EVERYONE IS INJURED

Team Collide With Telephone Post  
and Finally Hurl Rig Thru Plate  
Glass Window.

Brantford, Nov. 1.—The most remark-  
able and disastrous runaway in the  
recent history of Brantford occurred  
shortly before 10 o'clock last night.

Five men had driven to Burford in a  
two-seated covered rig drawn by a  
team of horses, and were returning  
via Paris-road, when the accident hap-  
pened. Near the car barns on Bran-  
tford-avenue a street car was encountered.

The horses shied and broke into a  
run. The rig collided with a telephone  
post on the side of the road, was over-  
turned and the occupants thrown into  
the street.

All the men are maulers in the em-  
ploy of the Buck Company. The am-  
bulance was called out, the men were  
picked up on Brant-avenue near James-  
street, and were removed to the hos-  
pital, where their injuries were at-  
tended to.

The team of horses dashed down  
the street, and finally hurled the rig  
thru the plate glass window at the  
corner of Coburne and  
Murray-streets. The top of the rig  
was demolished, one wheel was smas-  
hed and the harness slightly damaged.  
The horses escaped unhurt. The men  
are doing well at the hospital today.

BOY FALLS DOWN ELEVATOR SHAFT  
Whitford Little, Aged 14, Seriously,  
But Not Fatally, Injured.

In some way Whitford Little, a boy  
employed at the Canada Publishing  
Co.'s establishment at 9 West Wellin-  
gton-street, fell down the elevator shaft,  
a distance of three stories, yesterday  
afternoon, and was seriously injured.

Altho not unconscious the lad is in-  
jured to such an extent that it is known  
that he was on the third flat at the  
time of the accident. A man on the  
floor below saw him falling.

When picked up the boy was found  
to have fractured his right hip, both  
wrists and have cut his forehead. He  
was taken in the police ambulance to  
the Emergency Hospital.

He is 14 years of age and lives at  
191 Hamilton-street. The doctors say his  
case is serious, but have every hope of  
his recovery.

WANT TO PLAY LYON.

New York, Nov. 1.—(Special.)—There  
is a movement among American golf-  
ers to revive the annual matches with  
Canadian golfers. This is due to the  
fact that the Canadians have several  
players who the Americans are anx-  
ious to play. They are particularly  
anxious to play George S. Lyon of  
Toronto, and realize that the only way  
this can be done is to arrange annual  
matches. To this end they are now  
working.

St. M. Bowell's Railway Policy.  
Intelligence report.—(Special.)—The  
Bowell report in regard to the  
nomination of Sir Mackenzie Bowell  
as premier, has been widely discussed  
that anything he said in regard to  
the policy of Mr. Bowell was a  
misrepresentation of his policy. It was  
stated that the policy of Mr. Bowell  
was to build the Transcontinental  
railway, but not to build the  
Transcontinental railway in power  
and to build the Transcontinental  
railway in power and to build the  
Transcontinental railway in power.

St. John's, Nfld., Nov. 1.—Election  
returns received to-day strongly favor  
the Bond government. Ferryland has  
elected Cashin; Ellis Harbor, Main,  
has elected Morris and Lewis, all Bond  
candidates. In St. John's, the  
Conservative party has elected  
Hutchings, Bond and Winsor, opposition.  
Premier Bond has now six seats and  
the opposition only two. Counts now  
in progress indicate the return of six  
more Bonds for St. John's City.

Deseronto, Nov. 1.—W. N. Northrup,  
Liberal-Conservative candidate in East  
Hastings, at a meeting here to-night,  
stated that William Stoddart of Des-  
eronto, who recently left the Reform  
party with him, has been prom-  
isingly connected for many years, on ac-

ized him to say that he might bring  
Mr. Stoddart back, and was asked  
if any consideration would induce him  
to sign it. Mr. Stoddart is a prom-  
inent merchant in Deseronto. The state-  
ment by Mr. Northrup created a tremen-  
dous impression.

BACK FROM THE WAR  
Gordon, South of Victoria, Colonel,  
Tells His Experiences.

Victoria, B.C., Nov. 1.—The Boston  
S.S. Co.'s steamer Shawmut arrived  
to-day from Manila and the far-  
famed passengers were J. Gordon  
Smith of the Victoria Colonist, who has  
represented the London, England,  
Morning Post at the seat of war. Smith  
was an observer of the great battle  
of Liao-yang and several other news-  
paper men liberally going from their  
posts to tell his story. But it is known  
that he was on the third flat at the  
time of the accident. A man on the  
floor below saw him falling.

Bank Held Up.  
Cody, Wyo., Nov. 1.—The first Nat-  
ional Bank of Cody was held up to-  
day by two bandits, and the cashier,  
R. B. Middaugh, killed. The robbers  
rode into town and went straight to  
the bank and the other held the horse  
outside. Cashier Middaugh refused the  
robbers' demand for money, and was  
shot and killed. The noise of the shot-  
ting brought a crowd to the bank, but  
the robbers had fled instantly after the  
shooting without further attempting to  
get money. All the available men in  
town were soon in hot pursuit of the  
fugitives, who headed for The Hole in  
the Wall, the famous wilderness refuge  
for outlaws. They are particularly  
anxious to play George S. Lyon of

this can be done is to arrange annual  
matches. To this end they are now  
working.

QUETUS FOR ALARMISTS

WITHOUT FEAR OF A CONFLICT

WAR PANIC IN GREAT BRITAIN

WITHOUT A CIRCUMSTANCE  
TO JUSTIFY IT

Thought Leaving of Only Four Rus-  
sian Officers at Vigo, Meant That  
the Czar Had Broken His Agree-  
ment.

London has passed thru a day of sen-  
sational rumors, for which there  
seems to have been no basis in fact.  
The Russian ambassador was re-  
ceived in audience by King Edward,  
who expressed his satisfaction with  
the course events have taken and  
confided that the outcome will be  
satisfactory to both Great Britain  
and Russia. Admiral Kinnakoff of  
the admiralty council will be one of  
the two representatives of Russia  
on the international commission,  
the name of his colleague not hav-  
ing been announced. The four offi-  
cers detached from Rojstvenky's  
squadron to tell the story of the  
Dogger Bank affair are expected to  
reach St. Petersburg by Friday.

GIBRALTAR, NOV. 10.—(10 p.m.)—  
THE FLEETS HAVE NOT MOVED.

London, Nov. 1.—Negotiations between  
Great Britain and Russia, looking to  
a settlement of the North Sea affair, are  
progressing favorably and there is not  
the slightest danger of any friction arising  
between the two governments. The  
constitution of the international com-  
mission under the Hague convention is  
on the verge of settlement.

In spite of these pacific conditions,  
Great Britain to-day experienced a war  
panic that can only be compared to that  
which followed the sinking of the  
British trawler by the fleet under the  
command of Vice-Admiral Rojstvenky.  
Not for years have so many alarmist  
reports and flaming editorials flooded  
London. The most extraordinary feature  
of this scare, which was serious enough  
while it lasted, is that there was not  
one single circumstance to justify it.  
The excitement started early in the day,  
when the newspapers announced the  
departure of the Russian second Pacific  
squadron from Vigo.

The public were not in possession of  
the information cabled by The Assoc-  
iated Press, that only the officers con-  
cerned in the firing on the British traw-  
ler would be detached, and jumped at  
the conclusion that Russia had broken  
faith by not detaining the vessels in-  
volved in the affair. On top of this  
came wild reports of continuous activity  
at Gibraltar. Hour by hour the  
news from Gibraltar became more seri-  
ous, until last the climax was reached  
with the announcement that the  
British fleet had cleared for action.  
Some even said the fleet had sailed.  
Some reported the Russian second Pacific  
squadron had cleared for action.  
"The British fleet has cleared for ac-  
tion," was the cry. No newspaper and no person  
seemed able to explain the excitement.  
The reassuring information available in  
America, that the sailing of the

CANADIAN APPOINTED.

Philadelphia, Nov. 1.—(Special.)—Dr.  
Robert Tait McKenzie, a native of Al-  
monte, Ont., who was one of the great-  
est athletes McGill University ever  
turned out, has been appointed the  
special director of the University of  
Pennsylvania. With the material at  
hand, McKenzie expects to develop  
several great athletes.

What the Season Tells For.

For this particular  
season of the year there  
is no hat so satisfactory  
to wear as the tweed  
crush hat. The W. & J.  
Dunlop Company, corner  
Ronge and Temperance  
streets, exclusive agents  
in Toronto for Hoad,  
the famous London hat-  
ter, carry a special im-  
ported line of English and Scotch  
hats. They are in a variety of colors  
and checks, to match fall suits. Wet-  
ting or crushing hats may cause a  
Dunlop tweed hat to lose its shape.

FAIR.

Metropolitan Office, Toronto, Nov. 1.—  
The weather is fair and  
day in Canada except in British Colum-  
bia, where showers have fallen. High tem-  
peratures are still reported from the North-  
west Territories, but cooler conditions have  
prevailed elsewhere.

Minimum and maximum temperatures:  
Dawson, 4-14; Stinson, 42-48; Victoria,  
48-52; Kamloops, 46-54; Calgary, 30-38;  
Ottawa, 38-40; Winnipeg, 34-40; Port  
Arthur, 38-42; Harry River, 40-48; Tor-  
onto, 36-54; Ottawa, 30-44; Montreal, 32-  
40; Quebec, 24-38; St. John, 28-36; Hal-  
fax, 22-40.

Probabilities.

Lower Lakes and Georgian Bay—  
Easterly to southerly winds; fair  
with much the same temperature.  
Ottawa and Upper St. Lawrence—Fair  
and about the same temperature.  
Lower St. Lawrence and Gulf—Variable  
winds; fine and cool.

Maritime—Northerly winds; fine, with  
about the same temperature.  
Superior—Westerly to easterly, fair and a  
little higher temperature.  
Manitoba—Westerly fair and somewhat  
warmer.

NOMINATE 3 PROFESSORS FOR MONTREAL COLLEGE

Hamilton Presbytery to Revise the Directory Regarding Observance of Lord's Supper.

Hamilton, Nov. 1.—(Special.)—This afternoon the Hamilton Presbytery made the following nominations for professors in the Presbyterian College, Montreal:

Rev. Dr. Smith, St. Catharines, for the chair of practical theology.

Rev. Donald McKinnon, M.A., for the chair of Old Testament literature, and Rev. J. L. Jordan for the chair of apologetics.

At the next meeting the members will discuss the necessity of asking the general assembly to revise the directory so that in the observance of the Lord's supper in the form ordained by Christ may be duly followed.

It was stated that there was a scriptural basis for the observance of the Lord's supper in the form prescribed by the directory.

The members promised to help Principal Gordon get financial aid for the college.

Rev. Nell McPherson's resignation as pastor of St. Paul's church was accepted to take effect on Nov. 15.

William Henry Reid, West Flamboro, was elected to the board of trustees.

RALLIES AT PORT HOPE.

Both Parties Held Meetings Last Night and Predict Success.

Port Hope, Nov. 1.—(Special.)—The election is at fever heat in Port Hope, and both parties are working hard.

To-night the Liberals held a meeting in the opera house, which was crowded, but there was not much enthusiasm.

The gallery and two-thirds of the hall down stairs were filled with ladies.

The speakers of the evening were George H. Watson of Toronto, and A. B. Aylesworth, the Liberal candidate for the seat.

Mr. Aylesworth spoke for over an hour, and at the end declared he would be elected by a good majority.

The Conservatives held a rally in their large hall, which was crowded to the doors with electors.

Mr. Donald McLean, the chairman, read what he claimed was a circular letter distributed by the Conservative party.

Mr. Harry S. White of Osgoode Hall, Toronto, son of ex-Mayor White of Port Hope, came down to speak.

Mr. White was asked to say a few words. He made a rousing speech and was cheered to the echo.

He urged the young men to vote for the Conservative party, as he believed the 20th century would be the century of the man.

There must be a national policy of the hour, and a policy of national pride that would send perjurors to the penitentiary.

Mr. White predicted a sweeping victory for Col. Ward.

There were many strangers in the riding, and the Liberals are trying to defeat Col. Ward by many means.

Mr. White's supporters say that he will carry the riding.

AT A PARIS POULTRY SHOW.

Great Cock-Crowing Competition Draws a Great Crowd.

Paris, Oct. 30.—Unusual interest marked the opening of the annual poultry exhibition to-day in the municipal glasshouse in the Cours de la Reine on the banks of the Seine.

The announcement of a great cock-crowing competition.

The curiosity of the public was whetted, and a large crowd assembled this afternoon to watch this novel contest, which was held under the patronage of the French Bantam Club.

The birds, to the number of twenty or thirty, occupied small competition cages well in view of each other, but covered over with black cloth.

A gong sounded, and the cocks were removed.

The birds imagined that day had just broken, and one of them—a little bantam—ruffed up his feathers and began to crow in a treble key.

A large, important-looking bird near by, with the air of a retired military officer, immediately raised his left leg and turned his head on one side.

Then uttering a couple of guttural sounds, as the clearing his throat, he burst into a magnificent baritone crow.

The other birds listened intently, and then one after another raised their voices in crows of every conceivable pitch.

They had been kept in darkness for several weeks past, with the exception of about half an hour per day, and were evidently under the impression that it was advisable to make the most of daylight.

Meanwhile, men were engaged in the front of each cage in carefully noting the number of crows that each bird gave.

The noise was bewildering, and the judges were obliged to bawl their remarks in each other's ears.

Presently the big baritone cock gave a falsetto-kind of a crow and retired crestfallen to the corner of his cage.

The little bantam, whose name was Treador, kept it up magnificently, and one after another of his neighbors ceased crowing, until he was left alone.

He then crowed shrilly and defiantly two or three times more, and with the impression that it was advisable to make the most of daylight.

Just then another gong sounded, and the black cloths were replaced on the cages.

The contest had lasted for an hour. Treador won the afternoon competition with thirty-two crows.

A little soprano, named Santos, amounting to some twenty-nine crows, and a fine big bass cock, named Lion, were third with twenty-five crows.

The competition will continue daily until Oct. 24. One hundred and forty cocks are entered for the contest.

Canada's New Governor-General.

London, Nov. 1.—Earl Grey proposed Bute's agency seems to have England on Dec. 1, by the steamer Parkin, to assume his post as governor-general of Canada.

Colonel Hanbury Williams, military secretary to the governor-general, for Canada with his family on Nov. 3, by the Toulon.

He will have an interview with the Earl of Minto before his departure leaves the Dominion.

TO IMPROVE SUNDAY SCHOOLS.

Annual 3-day Conference of Workers Opened Last Night.

The opening meeting of the Sunday School Institute was held last night in Castle Memorial Hall of McMaster University.

It attracted a very fair gathering of those interested in a concerted effort to advance the work of Sunday schools.

The meeting was held in the evening, and will be practically the same, the program including in each session a short address.

Last night the chair was occupied by Rev. Chancellor Wallace.

After devotions, the chairman addressed words of welcome to those in attendance.

Mr. Wallace, in his address, dealt with the problems that faced religious workers, and in the course of his address on "The Sincere and the Insincere," he offered suggestions as to the means to be employed in an effective crusade in the field of Christianity.

Rev. Robert Johnson, Montreal, gave his views on what he ideal center from the Sunday school standpoint should be.

This meeting, Rev. W. H. Hinks will speak on "The Master's Command to the Disciples," and the program for the day will be given an address on "Young Men's Contributions to Spiritual Effectiveness," and Rev. Robert Johnson on "The Art of Illustration." Hon. H. Blake on "The Relative Importance of the Sunday School to the Church," and Principal MacCrimmon on "The Preparation of the Teacher-General" will be heard.

A GOAVEYANGER CONVICTED

He is positive there is no remedy for Kidney and Liver troubles equals

Dr. Pitcher's Backache-Kidney Tablets

The story related by Mr. N. Ford, the well-known conveyancer of St. Mary's street, is but one of the thousands of tributes that are being paid to Dr. Pitcher's Backache-Kidney Tablets.

I have had a pain in my right side and back. I laid it to the liver and kidney troubles, but finally got a bottle of Dr. Pitcher's Backache-Kidney Tablets, and to my intense gratification they relieved both pains easily and quickly, and there has been no return of the symptoms since using them.

Dr. Pitcher's Backache-Kidney Tablets are sold by the Dr. Zina Pitcher Company, Toronto, Ont.

Dr. Pitcher's Backache-Kidney Tablets

There was a good deal about long heads, in the famous lecture, delivered before the London Anthropological Institute by Dr. J. Deniker of Paris. The following are some of the terms used:

Long Heads and Long Words. Mesopthalpic (medium-headed). Dolichocephalic (long-headed). Brachycephalic (short-headed).

Hyperbrachycephalic (very short-headed). Hypsibrachycephalic (high short-headed). Mesokranic (medium-headed).

Prognathism (long jaw). The following are some of the terms used:

Why I Became Your Valet

You see I made clothes—as finely tailored garments as you see in the city today—for years before I recognized the need of a "Weekly Valet Service."

I knew that suits should be cleaned and pressed regularly not only to look their best but to wear their best. I originated a system which enables me every week to send for and care for any garment which needs my attention at a very small charge.

The public have approved the plan. You too, will recognize all the advantages if you try the service a few weeks, or better yet, for three months. Phone M. 3074. FOUNTAIN "MY VALET" 30 Adelaide St. W.

Association Hall Crowded and Liberal Candidates Are Located "Under the Bed."

Mr. George E. Foster entertained the big crowd in Association Hall last night with a modern parable, Mr. and Mrs. Jones occasionally had little domestic squabbles. Mr. Jones was a small man with a very large voice, and Mrs. Jones was a big woman with a very weak and feeble one.

When Mr. Jones was big and when Mrs. Jones was weak and feeble one, they were welded the broom, and when Mr. Jones was small and when Mrs. Jones was big and when Mrs. Jones was weak and feeble one, they were welded the broom.

Mr. Foster, after describing Mr. Ugrahart's former devotion to public ownership, said that when his leader came to the tremendous tones of the little man might be heard.

"Don't mind Foster. I am master in my own house."

"Where will Mr. Ugrahart be found on the 3rd of November?" was a question vociferously answered by the audience.

"Under the bed."

Mr. Foster, as a regular old-time Toronto Conservative rally, and none in the campaign since the May day rally, was coming down the mountain.

It was coming down the mountain and broke in two, and the speaker, who was coming down the mountain, near Prospect-street, six cars were smashed into a pile of twisted metal.

Mr. Foster, after describing Mr. Ugrahart's former devotion to public ownership, said that when his leader came to the tremendous tones of the little man might be heard.

"Don't mind Foster. I am master in my own house."

AFTERMATH OF MONDAY'S BOUT.

Britt Would Have Surely Won But For Gans Seemed Outclassed.

San Francisco, Nov. 1.—Jimmy Britt of California lost the lightweight championship of the world when he fouled Joe Gans, defender of his title in the fifth round. He had won Gans in his knees in the fifth round and then, losing his head, gave him a vicious punch, and before Britt could recover Gans had landed a blow on the forehead which knocked him out.

The same thing had happened in the fourth round, but Gans had dropped to his knees to escape a hard righter, and when he came back he was a different man.

It is believed almost from the very first that if he were Britt's fight. He actually outboxed Gans and landed four blows in the fourth round. It was supposed that Gans was secured, and barring a foul the fight was to be a certain one. Gans was not to be a victim of the "foul" which had happened in the fourth round. Gans had dropped to his knees to escape a hard righter, and when he came back he was a different man.

It is believed almost from the very first that if he were Britt's fight. He actually outboxed Gans and landed four blows in the fourth round. It was supposed that Gans was secured, and barring a foul the fight was to be a certain one.

URGENT ENDS CAMPAIGN

WORDS OF GOOD BROTHERS

Had Hon. Wm. Paterson's Assistance at Two Friendly Meetings.

"Look out for roobachs and don't believe a word of them" was the parting advice of Thomas Urquhart at the Paul's last night.

Mr. Paterson had for over an hour and his honorific flights of eloquence were duly appreciated.

His Conservative friends, he said, were right to be wrong if they thought they were right.

Mr. Urquhart said the time had passed for speaking. He appealed for party government than that of the Conservatives.

Mr. Urquhart said the time had passed for speaking. He appealed for party government than that of the Conservatives.

ANOTHER PRIZE FOR "DEWAR'S"

At the great St. Louis Exposition "Dewar's" swept the boards.

The Grand Prize—highest award—in the gift of the judges was bestowed upon

J. M. DOUCLAS & CO., Agents, MONTREAL

That tells the whole story of "Dewar's" quality.

which it would come day—into error and sin, he hoped every right-minded man would look it. But at present it was doing its duty, and every man's supply.

JUDGE CENSURES JURYMEN

FOR A VERDICT RETURNED

Acquitted Two Men Charged With Robbery and Miscarriage of Justice is Claimed.

Leonard E. Morgan, Richard F. Cronberry, Albert E. Foyers, Robert W. Harrigan, James M. Fowler, Thomas Creedon, Edward McKenna, James Hillard, Alexander Ross, George Field, James Roundtree, William M. Esigo.

These were the jurymen who yesterday discharged William Arnold and George Hearst, who William Fullerton claimed had robbed him of a small sum of money at Fort Cross last week.

Fullerton was accused and then robbed, and so clear seemed the evidence of the assaulted man that Judge MacMahon did not think that the jury would find it necessary to leave the bench to find the accused guilty.

This is how Judge MacMahon regarded the decision. "The verdict," he said, "is a gross miscarriage of justice."

The prisoners he said: "You are fortunate in having such a jury. Next time, if you come before a jury, you will be one of more intellectual capacity."

The men were discharged. Joseph Barnes, on a charge of rape, was acquitted.

The grand jury returned no bill against the Sharpe woman, whose infant was found dead on the beach at Fort Cross school grounds; and true bills against Ryan, the postman, thief of letters; and Malcolm Leslie, for murdering by assaulting his wife.

ST. MICHAEL'S COLLEGE WON EASILY

CENTURY OF NAVAL POWER NELSON'S VICTORY PRESENT

England's Fleet of One Hundred Years Ago Compared With That of To-day.

For close upon a century Britain has enjoyed undisputed, the supremacy of the sea, won for her by Nelson's glorious victory at Trafalgar, 99 years ago, writes J. H. Wilson in The London Daily Mail.

Nothing is more remarkable than the complete revolution which naval construction and naval warfare have undergone in the intervening years. If the great admiral's fleet could be restored as it was in 1805, a single cruiser could blow it out of the water in an hour without ever coming within range of its guns.

The range and destructive power of the guns were then so small that officers and crew were often killed by rifle fire from picked shots placed in the enemy's masts, and, as all know, Nelson's own death was due to a bullet from the enemy's masts.

With the invention of armor plates, the first of which was made for the Cleopatra in 1840, the cost of warship construction has increased enormously. A 100-gun man-of-war in Nelson's time, equipped, masted and rigged, but excluding armament, cost £77,000. The King Edward VII, without its guns and ammunition, cost the immense sum of £1,385,212, or 20 times as much as Nelson's Victory.

Britain's naval predominance over other powers was much more pronounced five years after the battle of Trafalgar than it is today. It will be seen from the accompanying table that in 1810, so far as gun power is concerned, she could have made a good fight of it had all the other naval powers in the world combined against her.

X-RAY VICTIMS.

London Doctors Undergo Terrible Sufferings With It.

London, Nov. 1.—There are in London, it is estimated, a score of X-ray operators suffering from the effects of the rays, which proved fatal in the case of Clarence Daily, Mr. Edmond's assistant.

The disease, which is apparently incurable, is set up as a direct result of the manipulation of the Roentgen rays, and the hands of the operator appear to be the most vulnerable part.

A fortnight ago one well-known doctor, who is in charge of the X-ray department at one of the largest of the London hospitals, had the first two joints of the fingers of the right hand amputated, and on Thursday he was found necessary to take the amputation of the left hand.

"You can see from the fingers of the right hand how the trouble has developed," he remarked to a Weekly Dispatch reporter. "The hand seemed as if it had been severely scalded. It was red, swollen, and the nails turned black. The fingers were crushed and torn to pieces."

"Have you suffered much pain during the removal of the nails?" "The doctor's face clouded over at the recollection of his sufferings. "My dear sir," he said, "I have suffered the torments of the damned. From last June onward, until I had my fingers amputated, I scarcely knew what sleep was. Night after night I rolled about in agony."

"All the earlier workers," proceeded the doctor, "are suffering in greater or less degree, and this is probably the fact that we do not know what we were working with, and took no precautionary measures against possible danger."

Harry King Edward, who supplies the admiralty and the war office with X-ray apparatus, is another of the victims. He carries his left arm in a sling, as the result of his injuries.

MAYOR'S CLAIM TO CHICAGO.

London, Nov. 5.—Alderman D. H. Redhead, J.P., who will be Peterborough's next mayor, claims that if he and his rights he would be the owner of the City of Chicago.

In 1834, his parents, then a newly married couple, went to an inn where they owned the tract of land in Illinois State upon which the city was afterwards built.

"When they arrived they found that the uncle was dead. They were his only relatives, and claimed the property, but as he had left no will a tedious process at law followed them."

They went to New Orleans, and the husband died there. Seeing no chance of obtaining her rights, the wife returned home to Peterborough with her two little children.

BIGGEST ELECTION BET.

Silver City, N.M., Nov. 5.—Y. C. Place of the Pines, Altos Gold and Silver Mining Company of Grant County, N.M., and Charles M. Shannon, proprietor of a newspaper in Silver City, have made the largest bet thus far on the result of the presidential election. Mr. Place bets his new gold mill and all the company's mine and property, including the mercantile house, valued at \$200,000, on Roosevelt, against the Hughes and Shannon mine property, also valued at \$200,000, on Parker.

Escaped Ratine.

Paris, Nov. 1.—A German who arrived in Paris to-day from Noumea gave details of a second massacre which took place at Malleo, one of the New Hebrides, on Aug. 14. Three men, including the coxswain, of the vessel Charlotine were murdered and robbed, and but for the timely arrival of assistance would have been eaten by cannibals.

The Names of 1,800,000 People Who Are Users of Ligozone.

All of these people asked us to buy the first bottle—a 50c. bottle—and give it to them free. We did it—and we will do it for you.

Each of those 1,800,000 people suffered from a germ disease. Ask some of them if Ligozone cured them—if it destroyed the germs. Ask if they advise you to take Ligozone. Ask if they advise you to meet someone whom Ligozone has cured.

Millions of people use Ligozone constantly. Yet we have never asked a person to buy it. We have asked them only to let us buy the first bottle—just as we ask you. They have continued its use because of what Ligozone did for them—just as you would. Won't you— for your own sake—be one of those millions? Won't you write for a bottle to-day?

There are millions of other users of whom we don't know. We learn only of those who write us. But each user tells others about it, and those others tell others. Ask your friends if they use it, and you will be surprised at the number who do.

Your own neighborhood is full of Ligozone users. Ask a few what they think of it—ask them what it does. If they say it is wonderful—that it does as we claim—then let us buy YOU a 50c. bottle. Try it as our expense; see what it does for you. If you find it effective and useful, tell others about it, as we have told you.

Not Medicine. Ligozone is not a medicine. It is not made by compounding drugs, nor is there any alcohol in it. It is made solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time.

This product has, for more than 20 years, been the constant subject of scientific and chemical research. The object of its discoverers was to get the virtues of oxygen in stable form into the blood. Their reason was that oxygen alone can kill disease germs without harm to the living tissues.

Each cubic inch of Ligozone requires the use of 1200 cubic inches of the gas. And that is all that goes into it—the gas, and the liquid used to hold it. The result—after 14 days—is a germicide so certain that we publish on every bottle our offer of \$100,000 for a disease germ that it cannot kill.

Acts Like Oxygen. The virtue of Ligozone lies in the fact that it does what oxygen does. Oxygen is the vital part of air, the very source of vitality, the most essential element of life. Oxygen is also Nature's greatest tonic, the blood food, the nerve food, the scavenger of the blood. It is oxygen that carries the blue blood to red in the lungs. It is oxygen that eliminates the waste lime and builds up the new. You could not live three minutes without it, and half the sickness in the world is caused by having too little.

Ligozone acts like oxygen. It gives to every nerve centre just the food that it needs. It gives new power to every function of nature. It brings back vitality at once. No other known product can compare with it as a vitalizer. And Ligozone is the only tonic that never leads to reaction.

Kills All Germs. Another fact is that an excess of oxygen destroys any disease germ. The reason is that germs are vegetable; and an excess of oxygen—just as we saw in the case of a germ trouble brought back from the verge of the grave by it.

We proved to the satisfaction of the best physicians that in germ troubles Ligozone did what nothing else could accomplish. We proved it to be of more value to sick humanity than all the drugs in the world combined. Then we staked our fortunes and our reputation on it.

Every member of this company uses Ligozone daily in his family to prevent sickness, and millions of others are learning to do likewise. Ligozone is now employed by hospitals everywhere, and by the physicians of nearly every nation.

Germ Diseases. We give here a list of the most common germ diseases. Each of these diseases is caused by germ attacks, or by pollution of the germs, or by germs which germs create. A cure can be made for each of these diseases. All that medicine can do for these troubles is to help Nature overcome them, and these results are indelible to the patient's condition. There are never cures. In all of them, the results from drugs are doubtful and uncertain. There are no obligations, and it will introduce to you a product better than anything else in the world for you.

Ligozone costs 50c and \$1. Asthma Hay Fever—Influenza Abscess—Anemia Kidney Diseases Bronchitis La Grippe Leucorrhoea Blood Poison Liver Troubles Bowel Troubles Malaria—Neuralgia

We Paid \$100,000. For the American rights of Ligozone, and the British Liquid Oxide Co., Ltd. and the British Liquid Oxide Co., Ltd. It is the only product known—the only product man can conceive of—that can destroy the cause of a germ trouble without harm to the living tissues.

We tell you this fact because it best indicates the value of Ligozone. Our claims are easily made, but men of our class don't pay a price like that for a product of very great worth.

Before making this purchase, we tested Ligozone for two years through physicians and hospitals in this country and others. We tried it in all kinds of germ diseases, in thousands of the most difficult cases obtainable. We saw it cure hundreds of sick ones with whom everything else had failed. And we saw many a patient brought back from the verge of the grave by it.

We proved to the satisfaction of the best physicians that in germ troubles Ligozone did what nothing else could accomplish. We proved it to be of more value to sick humanity than all the drugs in the world combined. Then we staked our fortunes and our reputation on it.

Every member of this company uses Ligozone daily in his family to prevent sickness, and millions of others are learning to do likewise. Ligozone is now employed by hospitals everywhere, and by the physicians of nearly every nation.

We give here a list of the most common germ diseases. Each of these diseases is caused by germ attacks, or by pollution of the germs, or by germs which germs create. A cure can be made for each of these diseases. All that medicine can do for these troubles is to help Nature overcome them, and these results are indelible to the patient's condition. There are never cures. In all of them, the results from drugs are doubtful and uncertain. There are no obligations, and it will introduce to you a product better than anything else in the world for you.

Ligozone costs 50c and \$1. Asthma Hay Fever—Influenza Abscess—Anemia Kidney Diseases Bronchitis La Grippe Leucorrhoea Blood Poison Liver Troubles Bowel Troubles Malaria—Neuralgia

We tell you this fact because it best indicates the value of Ligozone. Our claims are easily made, but men of our class don't pay a price like that for a product of very great worth.

Before making this purchase, we tested Ligozone for two years through physicians and hospitals in this country and others. We tried it in all kinds of germ diseases, in thousands of the most difficult cases obtainable. We saw it cure hundreds of sick ones with whom everything else had failed. And we saw many a patient brought back from the verge of the grave by it.

We proved to the satisfaction of the best physicians that in germ troubles Ligozone did what nothing else could accomplish. We proved it to be of more value to sick humanity than all the drugs in the world combined. Then we staked our fortunes and our reputation on it.

Every member of this company uses Ligozone daily in his family to prevent sickness, and millions of others are learning to do likewise. Ligozone is now employed by hospitals everywhere, and by the physicians of nearly every nation.

ISSUE AS SEEN IN LONDON

BORDEN HAS BEST POLICY

Saturday Review Suspects Laurier's Loyalty and Endorses Public Ownership.

The Saturday Review, London, this week discusses the Canadian elections. It is significant that the Canadian elections are being fought wholly on issues much broader than are contained in that ill-used attribute, colonialism...

OWNERSHIP OF THE GOVERNMENT

WILFRID LAURIER'S POLICY

Ownership of the government, Sir Wilfrid Laurier has made arrangements for the carrying of the railway through part of the Province of Quebec. The section, it is contended, will be valuable to the Dominion as a whole...

ENJOY CURING A COLD

AT COOK'S TURKISH BATHS

More people have benefited by Cook's Turkish Baths this Fall than ever before. It is a positive fact that a fresh cold can be broken up by a couple of hours here and an attack of grip can be avoided.

COOK'S TURKISH BATHS

202-204 King St. West, Toronto

POLITICAL CORRUPTION

London Minister Speaks Out With Firmness From the Palace.

London, Nov. 1.—(Special.)—The Rev. Dr. Ross dealt with political corruption in his sermon in St. Andrew's Church, Sunday evening. In the course of his remarks he said: "You hear some men say, 'Thank God I never mix religion and my politics'..."

HER MISSION IS HIGHER

THAN PROFANE SWEELS

Anna Eva Fay Discusses the Deeper, Truer Aspects of Her Wonderful Power.

MASEY HALL

Masses Hall was again crowded last night, and the same weird manifestations of Anna Eva Fay's supernatural powers were witnessed with frequent demonstrations of mystified approval.

EVERY MAN'S DUTY

TO BE INFORMED
