Haig Reports on His Drive Against Huns

Commander of British Force Details Operations of Recent Months—A Tribute to His Troops

London, June 20.—(Via Reuter's Ottawa Agency)—Field Marshal Sir Douglas Haig, British commander-in-chief, has forwarded to the war office a despatch covering operations from December 18 to the present offensive. It details the strategic plans behind the apparently isolated attacks and raids which continued throughout the winter, and shows all as fitting into a comprehensive and systematic scheme in order to prepare a favorable situation for the spring advance.

Well Known as Trapper, Fisherman and Guide—Friend of Sportsmen

Fredericton, June 20.—Frank Haines, of Macaque, yesterday received official notice that his son, Private Horace Haines, had been killed in action in the attack on the heights of the Somme in the winter of 1915-16.

HOMAS CASE GONE INTO BY MAGISTRATE

Recent Developments Said to Support Statements of Widow in Connection With Husband's Death

Fredericton, N. B., June 20.—The preliminary examination of Mrs. Mary Thomas, widow of Marvin Thomas, an anti-Morey, suspected of foul play in connection with the death of Mrs. Thomas' husband on the night of May 21, was begun yesterday morning by Magistrate John Murphy, of Blissville, Fredericton Junction.

Although public opinion at Fredericton Junction was strongly against Mrs. Thomas and Morey, and although circumstantial evidence also was believed to support the statement of the widow that her husband set fire to the house which he and his family lived in, a committed suicide, his body being found in the flames.

CHAPLAIN WRITES OF W. E. MILLS' WOUNDS

Mrs. W. E. Mills, of 185 Guilford street, West St. John, whose husband was recently reported wounded, has received the following letter from Rev. J. H. Jarvis, a Church of England chaplain: Dear Mrs. Mills: I am glad to hear that you have probably already received official information that your husband, Lance-corporal W. E. Mills, 2nd Canadian Pioneer, is wounded, but as I am sure you are anxiously awaiting for further news of him I am writing this to you.

FREDERICTON MEN BARRED FROM THE MAINE RACE TRACKS

New Regulations Prevent Them—Negotiations With Ottawa

Fredericton, N. B., June 20.—The Fredericton harness racing stables, which had intended to take part in the racing in Aroostook county, Me., where a circuit of tracks was formed some time ago, have been held up by the regulations which prevent men of military age from leaving Canada.

British Seize Enemy Guns; Gain Ground

London, June 20.—British forces have made some gains on the Aras front, according to official releases issued last night. Four German field guns were taken east of Messines in the advance last Thursday. The text of the statement follows:

"On the Aras front our troops gained ground slightly during the day south of the Cojeud River and also north of the Soutzer River, where we captured thirty-five prisoners. In addition to the captures already reported, four German field guns were taken by us east of Messines in the course of our recent advance in this area on Thursday night.

"Valuable work was performed by our airplanes yesterday in spite of unsettled weather. Bombs dropped on an enemy dump caused an explosion. Six German machines were brought down in air fighting and three of our machines failed to return."

WM. S. HART AT IMPERIAL TONIGHT

This is the day the Imperial introduces Wm. S. Hart, the grim-visaged, but kind-hearted gun-man of the western plains. His coming to the Imperial will be a distinct departure in star players. He is no dress-suit paragon, no flannel-trousered swain with a tennis racket, but a big, burly, clean-minded chap whose trusty .44's and unshakable nerve are constantly being used to help some needy folk in distress. In "The Square Deal Man," the opening Triangle picture, Mr. Hart gives a good sample of his western portrayals, a class of motion picture acting and characterization which has become a high art in the annals of the profession.

Bill Hart is not the typical cowboy but a refined product that gives a true conception of life on the plains in an early and no less lawless days. In addition to this interesting picture a rollicking Keystone comedy will be shown entitled "Innocent Sinners" and another of the World Tour series showing castles in France and a trip through Barbadoes, British West Indies.

A GREAT SERIAL

CLOAKMAKERS ASK 20 PER CENT. RISE

Dollar of Last Year Worth Only 70 Cents Now, Union Officials Assent

New York, June 20.—The cloakmakers' union, which has had periodical industrial battles with the manufacturers for many years, has served upon their employers a demand for a 20 per cent. wage increase. The most sensational fight of the cloakmakers was their fourteen weeks' strike last year, in which the 60,000 members won a partial victory.

The new demands of the needle workers are based upon the high cost of living. In a letter to the Cloak, Suit and Skirt Manufacturers' Protective Association, the officers of the International Ladies' Garment Workers' Union said that the settlement made last year did not give the workers enough pay to live on this year because of war prices, and that therefore they had to have more money.

LOOK FOR RECORD IN LAYING OF PIPE LINE IN LANCASTER WORK

A new record in pipe-laying on a big contract is likely to be established in connection with the Lancaster water main renewals. The contractors, who started the excavating only yesterday, are and sewerage that they will commence laying the pipe tomorrow.

The start has been made at Barnhill's corner and from that point the new pipe will extend out the Manawagonish road a distance of 5,000 feet. While this work is being carried out there will be no interruption of the water service, as the old ten-inch cement main, which the new pipe will replace, will continue in use until the new one is ready. The pipe is being placed in a separate trench and will not interfere with the use of the existing line. When it is completed connections will be made on a Saturday night and Sunday and that will be the only break in the service.

A stretch of 100 feet of pipe was laid in Princess street yesterday and it is expected that the 250 feet to complete the renewal to the corner of Wentworth street will be completed this week, possibly with the exception of the intersections.

In order to complete the installation of hydrants at the corners of Queen, Harding and St. James streets, in Charlotte, the gang of men who started yesterday continued until four o'clock this morning, when the work was finished. Four more are being installed in St. James street today.

New hydrants are being installed at the corners of Garden and Hazen and Coburg and Hazen streets.

COMMITTEE ON ACCOUNTS BELIEVES INTO MATTERS OF BRIDGES AND ROADS

Fredericton, June 20.—The public accounts committee this morning continued examination of the accounts of the road supervisors and bridge superintendents.

Mr. Smith (Carleton) was able to explain some features about which the committee required information. He admitted that the system under which road and bridge repairs is carried on is not a particularly good one and could usefully be amended in many respects. One reason for the accounts of the superintendents appearing to be large was that the men often worked themselves, for which they would naturally draw their pay, and the item for "expenses" meant their traveling expenses. Under the rules of the department a superintendent was supposed to attend to only one bridge at a time and his expenses for traveling from one place to another would naturally be considerable if the distance was great.

Mr. Leger said he noticed that in some cases there were a superintendent and a foreman on the same job. If the superintendent was at work, what was the need of the foreman?

Mr. Smith replied that would be a case where the superintendent was not working himself.

Mr. Leger said he gathered that a superintendent would drive up and look at a bridge and if he was there only an hour would draw a day's pay. Under such circumstances as those, why could he not look over several bridges in the day's work?

Mr. Smith said it had been suggested that instead of superintendents local men might be employed but often there was no local man to be had. In the case of a crew which had been working at one bridge was often taken to another as being a quicker way to get the work done than trying to hire a crew at the other place. There were many suggestions which might be made to get repairs done but it was impossible to lay down any rule which would apply to all cases. In one case he called for tenders to repair a bridge and the lowest was \$125. The work was done by day work and cost only \$65. The committee will take the matter up again tomorrow.

JUVENILE COURT

Two boys, ten and eleven years of age respectively, were before the juvenile court today charged with theft. One of them was charged with theft of fifty cents from the home of his sister-in-law, and also with ransacking the house. It was stated to the court that his mother is dead and father away, and the child lives with his sister-in-law. The court decided to give the boy another chance and sent him out of court with his sister-in-law. A sentence of four years was suspended.

The other boy was charged with theft of newspapers from the doorway of B. Robertson's store in Marsh road on June 20. The boy was allowed to go home with his parents with the understanding they will guard their child better in future.

ENLIST AS FORESTERS

35 Bangor Men Leave for Aldershot, N. S. Military Camp for Training

Sergt. Moore of the Second Canadian Forestry battalion, left for Aldershot military camp, Aldershot, N. S., Monday afternoon, with the last batch of recruits for his battalion. About thirty-five men from this vicinity have enlisted with this unit.

Private Chas. Morgan, who has seen a 4 year's service in the trenches with the Second battalion of the First Expeditionary Force in Bangor for a few days calling on friends. Mr. Morgan was in some of the hardest fighting on the western front without being "touched" only to receive a bad wound through the hips by a fragment of shell while his company were resting behind the lines. After eight months in the hospital, Mr. Morgan was sent back to Canada, and after a short furlough will continue to do his "bit" by helping to recruit new units.

MRS. PANKHURST IN PETROGRAD

Petrograd, June 20, via London.—Mrs. Emmeline Pankhurst, British suffragist leader, made an unexpected arrival in Petrograd yesterday. She appeared in the best of health and at once called upon the Root commission and accompanied by the British consul, Mr. J. H. Richardson, was directed to the new democracy toward the struggle with the czar.

In a conversation with newspaper correspondents, Mrs. Pankhurst said that she had come to Russia to explain to the men and women of the new republic the attitude of the British democracy toward the war.

STARTED SOMETHING THAT THEY COULD NOT FINISH

Anarchists Who Seized Petrograd Newspaper Were Compelled to Surrender

Petrograd, June 18, via London, June 20.—The building of the newspaper Ruskskaya Volla, Petrograd's richest and most largely circulated newspaper, was seized this afternoon by a corps of armed anarchists who expelled the staff, destroyed all copies of the paper and the books and declared that they would stand siege.

The Ruskskaya Volla is particularly hated by the anarchists because it strongly supported the provisional government and attacked the Bolsheviks and other extremists. When the government learned of this action by the anarchists it ordered stringent measures. General Polovtsev, commander of the Petrograd troops, sent a large force of Cossacks, infantry and machine guns and surrounded the building.

In the meantime the congress of the council of deputies passed a resolution condemning the anarchists. The commander of the troops sent a message to the anarchists, demanding their surrender. Seventy of them were marched to jail.

FOR NEW WAREHOUSE

Plans and specifications for the new warehouse to be erected on No. 8 wharf, and to replace the structure which collapsed, are being prepared by the city engineer. The work of clearing away the ruins, it is expected, will be advanced far enough by Saturday or the first of the week to enable the engineer to examine the foundations and determine whether or not they are secure. If the piling is in good order tenders for the new warehouse will be called for as soon as possible.

FUNERAL

The funeral of Mrs. Emma Dixon to place this afternoon from Messrs. Brennan's undertaking rooms. Services were conducted by Rev. Mr. Pinkett. Interment was made in Fernhill.

Miss M. Ethel Magoe is being welcomed home by her many friends after completing a three years' course in nursing at St. John's Hospital, Lowell.
Friends of Pilot Robert Doherty and Mrs. Doherty called at their home last evening, and presented to them many useful gifts, in the form of glass and woodenware. The occasion was the fifth anniversary of their wedding.
There is now no hope of saving the schooner Edgar W. Murdoch, which went ashore on the Old Proprietor, about 6 o'clock Monday morning, according to a message received yesterday afternoon by J. T. Knight & Co., of this city, to whom the cargo was consigned.
About half the broken timber has been removed from No. 5 shed, according to Contractor E. O. Leahy, who has the contract for removing the freight and clearing away the debris. Of the munitions, 295 cases have been removed out of a total of 3,000 that went down in the crash. City Engineer Murdoch said yesterday that the disaster was due to excess loading. It is said that the damage will not exceed what was at first reckoned upon.
The case in the connection with the destruction of W. J. Crawford's house in the Loch Lomond road was resumed in the police court yesterday. Several witnesses were examined, but no additional light was thrown on the matter. Mrs. Layden said that the two defendants, Joseph O'Brien and John Hughes, called at her home in Loch Lomond to see her husband. A young boy who works for Frank Donnelly in Coburg street, testified that the two men having secured a rig on the night the fire took place.

VALLEY RAILWAY FINANCES

The people of New Brunswick may be left to form their own judgment in relation to the course of action by which \$125,000 to \$130,000 of the money to be paid by the people for the construction of the Valley Railway was diverted to the use of Mr. W. B. Tennant.

For it was the money of the people that went into Mr. Tennant's pocket. He admits that he received it, and contends that it was properly received, and that as it came to him in the ordinary way of business it should not concern the public at all.

Mr. Tennant is not a railroad contractor. He does not build railroads. He did not invest any capital in the Valley Railway enterprise. The Nova Scotia Construction Company were not in need of capital. They only wanted influence.

Mr. Tennant's influence was used to get the contract. By what process was this idea inserted and imbedded in the mind of a shrewd railroad contractor, who would not willingly divide his profits with any more persons than he deemed to be absolutely necessary in the transaction?

RUBBING THE PAINT OFF

Sir Sam Hughes is not one of those who shout: "Sir Robert Borden will desert them, and but for that description Canada's 300,000 would long since have been recruited by the voluntary system."

According to Sir Sam Hughes, this Robert the Lion—this Terror who destroys his enemies by the breath of his nostrils—this tinselled hero of the St. John Standard and Halifax Herald—instead of standing by the men in the trenches was putting his ear to the ground to hear the rumblings from Toronto, where his friends the manufacturers and industrial and financial corporations were up in arms against the recruiting campaign.

Every citizen who had anything to do with recruiting in 1915 and 1916 knew that the government was to blame for the failure to get satisfactory results. Sir Sam Hughes now states the fact in parliament. We are told that more than 421,000 men have already enlisted in Canada. This is clearly an over-estimate, since many men were counted several times, being discharged from one unit and joining another, repeating this process perhaps four or five times, and being four or five times counted as recruits.

The members of the New Brunswick legislature should take note of the fact that the British House of Commons last night, by a large majority, passed the final reading of the clause in the electoral reform bill dealing with the question of woman suffrage; and that it is expected a proposal will now be made that the franchise be conferred on women on the same basis as on men.

Mr. Guthrie, M. P., will support the conscription bill. But he adds: "I would vote to suspend the operation of this bill unless the government is prepared to go further, and during the present session bring in other legislation to also bring into use the wealth and resources of Canada in connection with the needs of this war."

The Standard wonders how anybody can fail to admire the keen anxiety of the late government to protect the public, and the marvellous skill with which that Valley Railway contract was made, which netted Mr. Tennant \$125,000 to \$180,000, less a mere trifle for election funds.

The appointment of Hon. W. J. Hanna as food controller does not imply food control. The government will still do the controlling, and it will control Mr. Hanna in the interests of its friends the profiteers.

Legal Witticisms. "Forty Years at the Bar," by Mr. Balfour Brown, K. C., of the London bar, contains these English legal stories: One of them concerns a colleague of his, Herbert Saunders, K. C., whose father was secretary of the Great Western Railway.

This gentleman once came to a committee in deep mourning, and one of the counsel asked: "Who is Saunders in mourning for?" Some one answered: "For the late Great Western train, of course."

A good story is being told about M. Ribot, the French premier, who is married to an American lady and speaks English perfectly. When on a visit to London, during the time he filled the office of minister of Finance, he sat at dinner next to a well-known city financier whose French-acquired in twelve phonographic lessons—was none of the Ribot spoke our language, the man of millions elected to open the conversation somewhat as follows: "Monsieur," he said, "eska-ah-eska-vo-oo-oo voo, ma-vo-oo-oo ma dunny."

If You Want Evidence

That Hemorrhoids, or Piles, Can Be Completely Cured Read These Letters—Both Are Sworn Statements

Toronto, Ont., June 18—Next to personal experience the sworn statements of reliable people is the strongest evidence obtainable. If you have any doubt of Dr. Chase's Ointment will positively and completely cure piles, these letters should convince you.

Mr. Donald M. Campbell, Campbell Mountain, N. S., writes: "I have used Dr. Chase's Ointment with great success for hemorrhoids or piles for fifteen years' standing. After trying all kinds of so-called pile cures, three boxes of Dr. Chase's Ointment gave me a complete cure. I have also used Dr. Chase's Kidney-Liver Pills, and there are no others so good. You may use this letter, if you wish, for the benefit of others who may suffer as I did."

the report of the director of the crown land survey. Mr. Murray (Kings) gave notice of inquiries as follows: As to the amounts paid to each member of the present government for travelling expenses; what traveling had been done since May 17 by E. S. Carter in connection with his position as secretary of the Valley railway, or in his position as secretary to the premier; and also what salary, if any, had been paid him for injuries to what members of the government have visited England on public business since 1900 and what expenses were paid for each.

The bill was agreed to with amendments and an amended title. Hon. Mr. Robinson introduced a bill to provide for the early closing of shops. The house again went into committee. Mr. Leger, Westmorland, in the chair, and took up the bill relating to the crown land timber limits.

Hon. Mr. Smith said he proposed to strike out the last paragraph which provided that no long in a timber area should be open for settlement. He thought, would meet the objection of honorable gentlemen which was raised when the bill was last before the committee.

The bill to amend the motor vehicle law was then taken up. Hon. Mr. Veniot outlined the provisions of the bill, the principal one of which is that it requires each car to be equipped with an appliance for dimming the lights on approaching any other vehicle, and it changes the method of assessing the tax from horses to weight. The scale of fees will be sixty cents per hundred weight for all ordinary cars; motor trucks not exceeding two tons, \$10 with \$5 per ton or fraction of a ton over two tons; motor cycles \$3.

Hon. Mr. Veniot said young boys were apt to lose their heads. In fact many complaints came from St. John of boys under eighteen being entrusted in charge of cars. Eighteen was quite young enough for a boy to be licensed.

E. ELDRIDGE IS SHOT IN LEFT ARM AND LEG

Bryson Eldridge, of 537 Main street, has received official advice from Ottawa that his brother, Elmore Eldridge, has been admitted to No. 1 Canadian General Hospital, Etaples, France, suffering from gunshot wounds in the left arm and left leg. Private Eldridge went overseas with the 55th battalion, and afterwards was transferred to the machine gun section of another unit. He arrived in France about a year ago, was wounded in the right arm in last October and returned to the trenches just before Christmas. Before enlisting he was an electrician with the Atlantic Sugar Refinery.

Was Anaemic For Over a Year

Anemia, or blood turning to water, is caused by the heart becoming deranged and if the heart becomes weakened it cannot pump the blood as it should. As a result the blood becomes impoverished, and it loses its nourishing qualities. The face becomes pale and thin, and the lips bloodless. There is a weakness, tiredness and loss of weight.

When those suffering from thin or watery blood start taking Milburn's Heart and Nerve Pills they can see a change from the outset.

Every dose introduces into the blood those vital elements necessary to make it rich and red. The pale cheeks take on the rosy hue of health, the weight increases, and the whole being thrills with a new life.

Mrs. R. J. Grey, Fredericton, N. B., writes: "When I was a girl working at general house work I overworked my strength and became completely run down. For over a year I was very bad with anemia. A friend told me to try Milburn's Heart and Nerve Pills so I got a box and when it was done I felt and looked so much better I decided to get six more. When I had taken them I had gained not only in strength, but in flesh and color, and best of all was good health."

Milburn's Heart and Nerve Pills are 50c a box; three boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

MORE TRAFFIC CASES

Three citizens were before the court this morning on charge of by-law infractions. A. L. Stern was reported by Policeman Giles for exceeding the speed limit in Mecklenburg street on June 13 by driving his delivery truck at the rate of more than twenty-two miles an hour. The chauffeur said he was not aware he was going at that rate of speed. The court said that chauffeurs should look out for Mecklenburg street. "It is just like a bottle now," said the magistrate. A fine was struck against the driver.

HAIG REPORTS ON HIS DRIVE AGAINST HUNS

(Continued from page 1.)

"The weather favored the enemy retreat. The thaw broke up the roads, the sides of trenches collapsed and the acquired ground became the worst quagmire. Contrariwise, the roads behind the enemy improved the further he withdrew and a succession of misty days prevented rapid pursuit. Consequently, it is greatly to the credit of all ranks that constant touch with the enemy was maintained."

Continuous and systematic advances drove the enemy out from successive positions until March 2, when the British reached Le Transloy-Loupard line, except at Iries, which formed a salient. Seven days were then devoted to improving communications and bringing up guns and on March 10 Iries was captured.

The casualties incurred were less than the number of prisoners taken who numbered 280. The way was thus opened for attacking Le Transloy-Loupard line, which was shelled so effectively on March 11 and 12 that the enemy was forced back to parallel lines, whereupon Grevelins and Loupard wood were occupied and methodical operations began for attacking the next line.

The Hindenburg Line

Prior to this there were indications that the German withdrawal would be further extended. It had been ascertained that he had been preparing a new defensive system known as the Hindenburg line, running from Arras eastward to Queant, then west of Cambrai towards St. Quentin. Various switches, branching off from this line, were also being constructed. The enemy's immediate concern appeared to be to escape from the salient between Arras and Le Transloy, which became increasingly difficult to hold. It was also evident, however, that the enemy contemplated eventually the evacuation of the great salient between Arras and the Aisne valley.

The despatch then deals in detail with the operations between April 14 and 19, in which the enemy's possession of Chaules, Bapaume, Peronne and numerous villages from which the enemy retired.

On April 19 the advance reached the stage at which the increasing difficulty of maintaining communications compelled slackening the pace of the pursuit. South of Peronne the lack of bridges, which the enemy had destroyed, presented a formidable obstacle, while north of Peronne the wide belt of devastated ground over which the Somme battle had been fought, offered even greater difficulties to the passage of guns and transport.

Hard Going

"We were advancing, therefore," continues the despatch, "over a country in which all means of communication had been destroyed and against an enemy whose army was still intact and capable of launching a vigorous offensive, should a favorable opportunity occur. Strong detachments of his infantry and cavalry occupied points of vantage along the line of our advance, keeping the enemy informed of our progress, and screening his own movements."

"His guns had already been withdrawn to previously prepared positions available at and cover and support counter strokes, while the conditions of the country across which we were moving made the progress of our artillery slow."

"But the enemy's forces were known to be holding a formidable defensive system, upon which, should we fall back, his counter stroke miss its aim. On the other hand, as our troops moved forward, they left all prepared defenses further behind. In such circumstances the necessity for caution was obvious."

"Meanwhile, despite the enormous difficulties which the condition of the ground and the intensity of the enemy's resistance in our way, the work of repairing and constructing bridges, roads and railways was carried on with the most commendable rapidity throughout."

The despatch proceeds to describe how the enemy's resistance increased as we neared the Hindenburg line, emphasizing the great costliness of his many counter attacks, particularly in attempts to recover Beaumont-Les-Cambrai.

The Winter Campaign

Speaking of the outstanding features of the five months fighting from November 18, Field Marshal Haig says: "Despite the unusual severity of the weather, the winter campaign was conducted to a successful issue, under the most trying and arduous conditions. The activity of our battle front was maintained without a break from the conclusion of last year's offensive to the commencement of the present operations. The successful accomplishment of this part of our general plan had already enabled us to realize no inconsiderable instalment of the fruits of the Somme battle, and has gone far to open the road to their full achievement."

"The courage and endurance of our troops have carried them triumphantly through periods of particularly trying fighting, in which they were subjected to the maximum of personal hardship and physical strain. I cannot speak too highly of the quality of all ranks. The ability with which the troops in the

Tired, Aching Feet and Limbs

are promptly relieved by applying Absorbine, Jr., the antiseptic liniment. It is soothing, healing, and invigorating—puts vim and energy into jaded muscles.

One of the many enthusiastic users writes: "I received the trial bottle of Absorbine, Jr., all right and at that time was unable to walk without a cane, just around the house. I used it freely and inside of two days could walk without limping, something I had not done in two months. I went to the drug store and procured a \$1.00 bottle and today can walk as good as ever. I'll never be without it. I am recommending it to everyone I can, for I am a living witness."

Absorbine, Jr., should always be kept at hand for emergencies.

At drug stores, \$1.00 and \$2.00 a bottle or sent postpaid. Liberal trial bottle for 10c. in stamps.

Amere were handled by General Gough, and, farther south, by General Rawlinson, was in all respects admirable. The retreat to which the enemy was driven by our continued success re-introduced conditions approximating open fighting, in which cavalry was given an opportunity to perform its special duties. Although deliberate, the enemy's withdrawal enabled him to choose new ground for resistance and to employ every device to inflict losses on our casualties, which were exceedingly moderate throughout the operations in the Amere, became exceptionally light during the period of retreat.

"The prospect of a more general resumption of open fighting can be regarded with great confidence. The systematic destruction of roads, bridges and railways made unprecedented demands on the royal engineers, who were already heavily burdened by the work entailed in the preparations for the spring of defense. Our steady progress in the face of great difficulties is the best testimony to the energy and thoroughness with which these demands were met. The bridging of the Somme at Brie is an example of the nature of the obstacles which we encountered and the rapidity of their removal."

"In this instance six gaps had to be bridged across the river where it is of considerable width and where the current flows swiftly. The work was commenced on the morning of March 18, by ten o'clock the same night the infantry bridges were complete. By five o'clock on the morning of the 20th a medium type bridge for horse transport and cavalry was completed and by two in the afternoon of the 28th heavy bridges, capable of taking of all forms of traffic had replaced the lighter type."

The report then goes on to describe how transport problems throughout the winter were handled, and continues: "I desire to acknowledge in the fullest manner, the debt which the country owes to all who assisted in meeting the most difficult situation, especially to Sir Eric Geddes, director general of transportation, whose great ability, organizing power and energy the results achieved are prominently due. I am also glad to acknowledge the valuable assistance of the Chemin-de-Fereries. I also wish to place on record the fact that the successful solution of these problems would have been impossible but for the patriotism of the railway companies at home and in Canada, who did not hesitate to give up the locomotives and rolling stock required and even to tear up their tracks to provide us with the necessary rails."

The despatch concludes: "The loyal co-operation and mutual understanding by the circumstances attending the enemy's withdrawal. During the latter part of the period under review, a very considerable tract of country has been won back to France by the combined efforts of the allied troops. This result is regarded with lively satisfaction by all ranks of the British army in France. At the same time I wish to express the feelings of deep sympathy and profound regret provoked among us by the sight of the destruction that war has wrought in a once fair and prosperous country."

EMPLOYEES MUST KEEP CORNS OFF

Says They Destroy Efficiency But Can be Lifted Right Out Now

Many large retail establishments now insist that every employe have cornless feet, because one can not appear pleasant before a patron or be fully efficient when the brain is constantly reminded of these painful pests.

The simplest method known to get relief is to apply a little drop of frezone directly upon the tender, aching corn, which promptly relieves the soreness and soon the entire corn, root and all, lifts out without pain.

A quarter ounce of frezone will cost very little at any drug store but is sufficient to remove every hard or soft corn or callus from one's feet.

This drug is gummy but dries in a moment and seems to just shrivel up the corn without inflaming or even irritating the surrounding tissue or skin.

This should interest many men and women here.

Announcing The Re-organization and Opening of New Departments

Thursday, June 21st, 1917

We invite everyone to come and see the improvements made and the beautiful Summer show of new goods assembled for this occasion.

We believe that the changes effected will inaugurate a larger scope in the Women's Ready-to-wear business of the city, and give these departments of our business the much needed facilities to accommodate their growing custom and at same time give better service.

We also take this opportunity of thanking the people of St. John, who, through their generous support have made this development possible.

Yours truly,
F. W. Daniel & Co.

P.S.—Put it down on your memo. to drop in during these opening days, Thursday and Friday.

Sir Sam Blames Borden?

Ottawa, June 19.—From varying standpoints and marked contrast of tone, style and argument, Sir Sam Hughes and Hugh Guthrie made two notable contributions to the conscription bill debate in parliament today. Both arrived ultimately at the same conclusion, that they would have to support the bill, falling something better. Both criticized some of its provisions and the limitation of its scope purely to military service.

Sir Sam, however, devoted most of his attention to reviewing past mistakes of his former colleagues in regard to the administration of the voluntary system. He handed out a Hughesonian thrust at Sir Robert Borden, Sir Thomas White and the other "meddlers" in the Borden cabinet who had hampered his own efforts to raise men and who were primarily responsible, he believed, for the collapse of the voluntary system. He had, too, little use for the bona fides of Sir Wilfrid Laurier who, he declared, was really responsible for the Quebec situation.

MARITIME SCHOOL OF PHARMACEUTICS LIKELY

Sackville, June 19.—The first session of the annual meeting of the New Brunswick Pharmaceutical Society was held here this afternoon with a good attendance of provincial druggists. A. W. Coombs, of St. Mary's, the president, was in the chair. After the general routine, the question of establishing a maritime college of pharmacists was taken up and practical agreement reached as to the advisability of locating the proposed school in connection with Dalhousie University at Halifax, in conjunction with the Nova Scotia and P. E. Island schools. The chief business of the evening was the election of officers for the ensuing year. The following were elected: President, C. P. Hickey, Chatham; vice-

owing to the disorganization among the assessors, the bills were late in being issued, and the date upon which taxes were payable was about the middle of August. Commissioner Fisher recommended that the N. B. Telephone Company, Ltd., be permitted to erect poles in Short street. This was seconded by Commissioner Russell and adopted, a condition being that the work be approved by the commissioners of safety and public works.

The mayor, in discussing the coal situation, stated that he might have something definite to report by Thursday. The difficulty appeared largely in getting cars, and he felt satisfied that the dealers here were not getting any undue profit, as they were paying freight at the rate of 88 per ton in Montreal, however, the same coal was being retailed at \$9.75 and \$10. In Montreal there are facilities for unloading, while in St. John cars would have to be unloaded by hand. He thought it might be well to get in touch with Mr. McGrath, fuel controller.

PIMPLES AND BOILS
ALL OVER FACE AND BODY

When the blood becomes impure you will find that pimples and boils will break out all over the body, and although they are not a dangerous trouble, they make you appear uncleanly both to your friends and yourself.

Burdock Blood Bitters will cleanse the blood of all the impurities and poisons which cause the skin to break out in these eruptions.

Miss Sylvia Swanson, Theodore, Sask., writes: "I read about how good your B.B.B. has been to me. A year ago I started to grow pale and weak, the cause being bad blood. I got so many pimples and boils all over my face and body that I would not let strangers see me, and I used to avoid company. I tried many remedies but all seemed to fail. I read about how good your B.B.B. had been to thousands of people so I got a bottle and after I had finished the second one my pimples and boils had all disappeared. People thought it a miracle how well I looked."

"Your grand old remedy sure has been as good as gold and better, to me." Burdock Blood Bitters has been manufactured for the past forty years by The T. Millburn Company, Limited, Toronto, Ont. See that our name appears on the wrapper.

Head Master's Report.
The school year, which comes to a close today, has been a noteworthy one in several respects. Perhaps its most noteworthy feature is the fact that we were unable, through lack of accommodation, to receive the pupils who sought admittance. The school has grown steadily for several years, but with the increased number of pupils who sought admittance, it was necessary to add three years ago, gave us the ability to admit all the applicants. This year, however, our accommodation again proved insufficient and we may, I think, look forward to the time when we will be able to provide for 100 boarders or over, instead of only seventy-five as at present.

WOMAN NOW IN
PERFECT HEALTH
What Came From Reading a Pinkham Advertisement.

Paterson, N. J.--"I thank you for the Lydia E. Pinkham remedies as they have made me well and healthy. Some time ago I felt so run down, had pains in my back and side, was very irregular, tired, nervous, had such bad dreams, did not feel like eating and had short breath. I read your advertisement in the newspapers and decided to try a bottle of Lydia E. Pinkham's Vegetable Compound. It worked from the first bottle, so I took a second and a third, also a bottle of Lydia E. Pinkham's Blood Purifier, and now I am just as well as any other woman. I advise every woman, single or married, who is troubled with any of the above-said ailments, to try your wonderful Vegetable Compound and Blood Purifier and I am sure they will help her to get rid of her troubles as they did me." Mrs. ELLEN J. VAN DER SANDE, 96 No. York St., Paterson, N. J.
Write the Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass, if you need special advice.

five of our boys who took the full matriculation in either arts or science for McGill University and five others who took parts of both matriculations for certificates in certain subjects. The results were generally very good. All who took the regular matriculation passed well up in the lists, which comprise candidates from all over the dominion. In the arts matriculation one of our candidates, A. E. Triles, took second place and won an open exhibition. In the science matriculation another of our candidates, G. H. Burchill, took fourth place.

In conclusion I would say that while the year has not been without its attendant anxieties, yet it has proved on the whole to be a most successful and encouraging one. I gratefully acknowledge the able and loyal support of the staff and the hearty co-operation of the boys in our efforts to maintain the best interests and worthy traditions of the school.

TWO ON MURDER CHARGE
Fredericton, N. B., June 19--Mrs. Mary Thomas, widow of Marvin Thomas, and Frank Mory were arrested this morning at their home near Fredericton Junction and will appear before Magistrate John Murphy in Blissville tomorrow on suspicion of being connected with the death of the late Marvin Thomas. The arrests were made on the instructions of Peter J. Hughes, acting on behalf of the attorney-general, as the sequel to a tragedy which occurred on the night of Saturday,

considerable amount was accomplished especially in the way of land clearing. Thus most of the fruit of our labors ought to appear next year, but something as well as accomplished in the way of putting in an extra crop for this year. It is hoped that we may be able to go on with the work next September. The boys also undertook the support of prisoners of war which is being managed by the Red Cross Society. Forms 5, 4, 8A and 3B each undertook the whole support of one prisoner, while forms 2 and 1, being few in number, undertook the half support of one prisoner.
Staff Changes
Each year brings its inevitable changes in the personnel of the staff. This year Walter Murray left us at Easter in order to enlist with the battery at Woodstock. We were fortunate in being able to secure at the time the services of Miss Alice MacKeen, B.A., who undertook some of the teaching work. Having a lady member on the teaching staff is not altogether without precedent, as Miss West has been doing most useful work in that capacity for the last two years. Just near the end of the term W. A. Haines, B.A., joined our staff. Mr. Haines has had considerable experience in teaching and I am happy to say expects to be with us again next term.
I regret that we are to lose the services of Lionel H. S. Bent, M.A., who during the last two years has proved to be a most efficient master; also the services of Howard Caswell, B.A., who has been most efficient master; also the services of Howard Caswell, B.A., who has been with us only one year. Besides those mentioned, two other appointments on the staff have been made for next year. Charles Scott, who after a course at the University of London had eight years' experience in boarding school work in England, and who for the last four years has been science master at the High School, Quebec, is coming to us next term. Mr. Scott is very highly esteemed by those who have had ample opportunity of judging his character and ability and I feel confident that he will prove to be a source of strength to the school. The second appointment is that of T. H. Dewhurst, B.A., a recent graduate of Middlebury College, Mr. Dewhurst was captain of several college athletic teams and has been active in Y.M.C.A. work. His intention is to identify himself with the athletic interests of the boys as well as the work in the class rooms.

Drury Cove A.A. Meet

At the annual meeting of the Drury Cove Athletic Association, held on Saturday, June 15, at Drury Cove, the following officers were elected for 1917: Hon. Pres. Col. A. E. Massie; pres., G. Dishart; sec., T. E. Simpson; treas., T. F. Drummond; executive, A. H. Wetmore, L. H. Sandall and E. E. Thomas. The members of the club are doing their best in the production campaign this season.

A tract of land was donated by the company and each member secured a lot and every evening has and takes a lot in evidence. Following out this line a resolution was passed at the annual meeting placing the club on record as not in favor of outside matches for the season of 1917. At the preliminary sports held at Rothersey College yesterday afternoon, the boys kept well up to the standard.

Things look promising for the finals to be held today. The results of yesterday's trials are as follows: Throwing cricket ball, senior—1st, Starr; 2nd, Nase. Intermediate—1st, Haydon; 2nd, Pugsley. Junior—1st, Peters; 2nd, Naspel. Running broad jump, senior—1st, Brydone-Jack; 2nd, Nase. Intermediate—1st, Cudlip; 2nd, Pugsley.

Cool—Clean—PURE

It is difficult to describe the difference in taste between a Pure Crystal Spring of running water, and the kind of water we usually drink.

It is just as difficult to tell you the difference in taste between CRAVEN "A" and other cigarettes. You must try CRAVEN "A" to appreciate the difference.

What we can say is that CRAVEN "A" cigarettes are pure. Nothing but the finest and purest of Virginia tobaccos properly matured and blended.

Like spring water, they are cool, clean, satisfying.

Neither too mild nor too strong. Neither too light nor too heavy. You can smoke them more freely than the average cigarette, and feel better at the end of a long smoking day. It is a healthier smoke. Its natural purity guarantees that.

Cannot Appeal From Penalty

Directors of National League Upheld Pres. Tener's Action in Case Against McGraw

There can be no appeal from the fine and suspension recently imposed upon Manager McGraw of the New York base ball club by President Tener, according to a ruling of the board of directors of the National League at New York, Monday. As a result the \$500 fine and the sixteen-day suspension inflicted upon the field leader of the local National League team for his attack upon Umpire Byron at Cincinnati on June 8 stands, despite the protest and appeal filed by President Hampstead at the conference of his fellow magnates. The members of the board went upon record as approving the fine and suspension and announced that McGraw's alleged statements reflecting upon the president of the league would be the subject of inquiry at a special meeting Tuesday. The session, which was an all-day affair, was attended by all the eight club

presidents composing the board of directors. In addition, Umpires Byron and Quigley were present, but were not called upon to testify. Prior to the morning meeting it was announced that the New York club had withdrawn its protest against the penalty imposed by President Tener. When Hampstead arrived for the afternoon session he had changed his mind apparently, for he stated that the New York club desired to appeal from the finding of the league executive. The decision that there could be no appeal was finally reached after a careful reading of the constitution in which it found that section 26 applied to McGraw's offense rather than section 30 as previously supposed. The former section reads that where the charges are filed by an umpire there shall be no appeal from the president's penalty except in a case where expulsion of the offending player from the league is ordered. The charges filed against McGraw by Tener as the outcome of published statements of alleged criticisms by the New York club manager of the conduct of the league executive were considered only in a general way. It was announced that the board would hold another session Tuesday at which the question would be carefully investigated. Manager McGraw was not in at Monday's meeting and it was stated that the league had not called upon him to appear. The New York club, however, may require his presence at Tuesday's conference, although the club officials refused to state definitely their attitude on this point.

Having approved of the sample we are now prepared to accept delivery of a large consignment of this kind of weather.

The chap who blames our recent dampness on the war offers further confirmation that war is what Sherman said it is.

Although the temperature is higher, some people are complaining of a chilly feeling, due, perhaps, to exposure to the selective draft.

Sir Sam's evidence indicates that Premier Borden spent less time in leading the country to victory than he did in sitting on the then minister of militia.

But Sir Robert now seems to be experiencing the sensations of the person who sits down on the chair in which the bent pin is concealed.

The old lady who said that we need a provisional government to deal with the food question, now suggests that perhaps one of these modern kitchen cabinets would do as well.

"There'll be a hot time in the old town tonight" might have been a popular song in St. John forty years ago today, if it had been written then.

Comparing the appearance of St. John today with his recollection of the city before the great fire, leads an old citizen to remark that perhaps the fire was not such a disaster after all.

At the same time, we are not particularly anxious to see how much better a city we could build if this one were wiped out.

The suggestion that such disasters as the great fire come as a punishment for sin should lead to searchings of the heart on the part of the citizens; for instance, there is the chap who borrowed our garden rake four weeks ago.

Of course, no one around St. John has anything like \$120,000 burdening his conscience.

Evidence given at a certain inquiry held in this city yesterday would indicate that it is easier to make money than explanations.

The chief contractors did the tendering; the sub-contractors do the work, but what did Mr. Tennant do?

Query to the editor—In the above sentence should the word "what" be used, or would "whom" be the better usage? Answer—We give it up.

RECENT PRICE CHANGES

Changes in provision prices during the last week show some slight encouragement to the housekeeper, possibly enough to console for the number of increases in price which appear as usual. During the week there have been reductions in potatoes, sugar and clear pork, while various other lines have continued on their upward way. Owing to the arrival of southern potatoes, prices of the dropped in the St. John market to \$6 a barrel, although this still is a dollar higher than the wholesale price quoted in Fredericton last week. Sugar shows an advance of one cent higher and pure lard shows a slight advance. Ontario canned peaches are up thirty cents a case; candied citron peas up an advance of two cents a pound; Oregon apples are firmer in price and Messina lemons have advanced fifty cents a box. Another increase of forty cents, effective this morning, brought the wholesale price of Manitoba flour up to \$15.20.

DEATH OF MRS. IBISHUA WARD

Mrs. Julia Ward, wife of Joshua Ward, 21 Dorchester street, died in the General Public Hospital at half past four o'clock this morning. Mrs. Ward had been seriously ill for only a week with throat trouble but from the first it caused grave anxiety to members of the family. She was removed to the hospital in hope that an operation would prove successful but physicians upon examination found that nothing could be done. Although for the last few days it was known she could not recover, her death this morning proved a shock not only to relatives but to many friends.

Mrs. Ward was one of the best known women of the Cathedral parish. Of a deeply charitable disposition she made many close friends and was universally respected and liked. But it was within the circle of her own family that Mrs. Ward's qualities were best exemplified. She was a model wife and a kind and loving mother.

Mrs. Ward was formerly Julia Hogan of Calais, Maine. She leaves her husband, six sons, three daughters, three sisters and two brothers. The sons are John D. of Chatham; Walter J. of Seattle; William E., Joseph B., Gregory T., and Francis J. at home. The daughters are Misses Mary, Margaret and Alice, at home. Mrs. Charles Morris of West St. John, Mrs. Edward O'Melia and Miss Agnes Hogan of Stanwood, Washington, are sisters, while John Hogan, also of Stanwood, Washington, and Edward Hogan of this city are brothers. The sincere sympathy of a wide circle of friends will go out to the bereaved members of the family.

DELINQUENT GIRLS

Near the corner of Main street and Paradise row last evening about half-past nine o'clock, as a gentleman and his wife in an automobile were turning into Main street at a leisurely pace, three girls about ten years old ran to the curb with handfuls of sand and threw them directly into the faces of the passengers. The lady was quite severely injured in one eye, and the gentleman was fairly coated with sand. The parents of these little girls were nowhere in sight.

CLOSING GAPS AT THE BORDER

Chief Inspector Confers With Maine Officials Over Liquor Law Enforcement

Closer co-operation between the officials of this province and those of the State of Maine in connection with the enforcement of the liquor laws has been made possible by negotiations which have been carried on by Rev. W. D. Wilson, chief inspector under the prohibitory act. Mr. Wilson has visited the adjoining state and, in interviews with the authorities, has arranged for more effective action along the border by the provincial and state officials. There always has been a certain laxity along the border, especially at places where access is easy, but Mr. Wilson expects there will be a marked improvement in the future.

Regarding the importation of liquor into the province for personal use, Mr. Wilson says that there is nothing in the act to prevent this, if the regulations are complied with and, further, that bringing the province under the Doherty act would not have prevented such importations. The purpose of the Doherty act merely is to aid in the enforcement of the prohibitory laws by assisting in the punishment of those who take or bring liquors into dry territory "for illegal purposes," and importation for personal consumption does not come under that head.

The amendment to the act, which would have brought the province under the Doherty act, he said, was dropped purely because extensive amendments to the latter act are planned and it was thought unwise to commit the province to legislation before it was known what the nature of the changes would be. The decision to drop this amendment simply leaves the bill, in this respect, as it was when it was passed by the late administration.

Under the amendment providing for the issue of beer licenses, these licenses will be issued towards the end of the month or early in July, and after they are ready, all dealers will be obliged to secure a license or stop selling the non-intoxicating alcoholic drinks. No license is required for the sale of soda-water or other beverages which contain no alcohol.

Regarding the local enforcement of the law, Mr. Wilson said that Alexander Crawford, sub-inspector for the city, will continue to act for the county since for the present.

IN HOSPITAL IN LONDON

Letter From Gunner J. McAnnet After Strenuous Time at Front

The following is an interesting letter received by Miss M. McAnnet, 49 Charlotte street, from her brother, Gunner John, who recently took part in the Vimy Ridge engagement and is now in London, England, in hospital. Charity Ward, St. Bartholomew's Hospital, London, May 5, 1917.

Dear Sister— You will no doubt know by this time that I am back again in dear old Blighty after eight months' up the line, quite enough for me. What do you think? On April 27 we were bombarding (Arteux) "Vimy Ridge," being on duty at four in the morning. I took suddenly sick and we came out of action. I had not been feeling extra well for a few days, so the strain must have gotten on my nerves. Anyway I had to give in and a few hours after I got, delicious, then the rest, well I don't remember a thing until the medical orderly of the battery got me around and took my temperature, 102 degrees in the shade. Worse luck, the two stretchers we had were being used to bring in one of our officers, killed, and the doctor for England, and the same fate. So I had to walk two miles to a dressing station. Goodness knows how I ever got there. I have often read how I ever got there. I have often read how I ever got there.

That's all, however getting away from my own experience. When I woke up that spell I found myself in a comfortable bed in No. 11 General Hospital, Etampes, France, with a nice little Scotch nurse holding my hand every few hours. After spending ten days there I was marked by the doctor for England, and on the following night I was in an hospital train bound for Calais; then into the hospital ship and finally sped for Blighty. We arrived in Dover safely and from there to Charing Cross, London. What a reception! Being a stretcher case, four of us were in an ambulance. The girls nearly smothered us with flowers, cigarettes and chocolates. The people could not do enough for you. Oh, what a wonderful sight!

I happen to be the only Canadian in this ward, and between us I am having a great time of it. This is my first time out of bed today for four weeks. I am feeling rather shaky. I have another fellow to wheel me around, and picture me in London's busy streets in that with all the flappers asking you for stories about Vimy Ridge. O, this is the life. It seems that I will be in here for another two weeks, then they will send me after I am all better I get two weeks sick leave, which is quite a term altogether.

Now I will have to stopping this affair, as I have a few more letters to answer. What ever you do, don't worry about me, as I am getting along O. K. Hoping I will hear from you soon, sending my best wishes and regards to everybody I know around the town. I remain your loving brother, JOHN.

GEORGE CALLAGHAN ENLISTS Mrs. Richard Callaghan of 270 Germain street has received a letter from her son, George, who is with the Robert Lurford Company in Montreal, stating that he has enlisted and will take a course at Ottawa in signalling. Mr. Callaghan is a young man of fine character, with a host of friends and has been for some years with the Bedford Company, in St. John in winter and Montreal in summer. His uncle, Richard O'Regan, has been wounded once and returned to the front, but is now in an English hospital again, suffering from trench fever.

Don't you need New Rugs and Carpets?

Dear Mary:—

There is no necessity now-a-days of a woman having in her home carpets with holes in them or frayed, faded old rugs when for so little money she can down to Everett's and buy new ones.

Why, rugs and carpets wear out just like clothes do and they are just as essential. If I had worn-out, old things on my floors I'd throw them out and get new ones, wouldn't you, Mary?

Your pal—HELEN P.S. Such beautiful rugs and carpets at
