WHERE ARE THEY?

How many just and fearless men are there in the Common Council? Any just and fearless alderman would not hesitate to look the taxation situation in the face. An alderman who is determined to do his duty would not allow the situation in regard to taxation in this city to continue without the strongest protest.

THE REFERENDUM

The proposal for a referendum on tariff reform, which is playing so large a part in the British elections, is comparatively new in British politics and it is very doubtful if it will ever become popular under institutions that are so sensitive to public feeling.

Tortoise shell toilet sets are the latest. One set, made to order for a bride of the season, has a beautiful marbled shell, uncarved with a raised monogram of shell on each piece. In other sets the shell has a carved border, with a raised monogram.

gram, but the all-shell ones are the latest and probably the most attractive. Nothing looks prettier on a dressing table than silver appointments, but nothing is more troublesome to keep clean in a soot-laden atmosphere. It is a good plan to rub the silver toilet set with a rough chamise or special silver soap at least once each week.

**The Evening Chit-Chat**  
By BUTH CAMERON

**T**HERE is a little new mother across the street from us, who, because she seems to all of us such a young and helpless mite to have charge of another even younger and more helpless mite, is the constant recipient of wise advice and suggestions and "how-I-did-it's" from all the mothers in the neighborhood.

Most of this she receives willingly—no, avidly. But the other day she rebelled. This is how it happened.

The lady who is born with a mania for regulating everyone's affairs came in to see the baby.

She admired him enthusiastically enough to suit even the little mother, and then she started to regulate. Had she done it in the direct frank way of the other mothers there would have been no trouble at all, but instead she went about it this way:

Addressing the baby: "So he was a blufum, blufum little baby, but he didn't tell his mother that she had his little garters too tight so they drew his little legs right up?"

"Oh, did he sawn, was he real sleepy? Bless his little heart. He must tell his mother that he needs a longer nap in the morning than she gives him."

When she took her departure after half an hour's conversation thickly jeweled with modest pearls of inaudible wisdom like the above, the little mother came back from seeing her to the door with tightly shut lips and a flame of resentment on her cheeks.

"Tell the lady the next time she comes here that your mother wouldn't do a thing she said to do, but she is going out this evening instead of telling you frankly the moment you called up that she had an engagement and would rather you called up the next night, which you would have been entirely willing to do?"

To unnecessary frankness in the speaking of disagreeable things I am a most militant foe.

But to frankness and directness in the matter of necessary facts, as opposed to hints and suggestions, I am as vigorous a friend.

Comment me for a friend to that kind of person who never says a disagreeable or critical thing unless it is to the good, and when he thinks it will say it frankly and plainly instead of hinting.

**Daily Hints for the Cook**

**CHEESE FONDUE.**  
One cup of milk, two cups of stale or toasted bread-crumbs, half a cup of butter, pepper and salt, also a dash of cayenne for good digestion.

**CREAMED GRAPES.**  
To cream grapes, have them clear of all soil; take a piece of fondant the size of a large egg, put it in a basin of boiling water and stir continually until it melts; then add a few drops of vanilla extract flavoring and, if necessary to make thin, a few drops of hot water. In this dip the grapes very quickly and turn carefully in to greased paper.

**POT ROAST.**  
The cross ribs, by the addition of six cloves, a little parsley and celery stalk while cooking, will give a delicious flavor and convert a cheap pot roast into a luxurious table d'hôte. If onions are not objected to, add a few slices. When the meat is tender, these flavoring ingredients should be strained out of the juice before the sauce is made.

**PLAIN BREAD PUDDING.**  
Take three cups of stale bread crumbs and one cup of raisins, four cups of milk, one cup of sugar, flavor with vanilla, put in a pudding pan and bake from 30 to 40 minutes.

**IN PARLIAMENT**

Ottawa, Dec. 7.—The commons today centered easily through the greater part of a long order paper arranged for the consideration of private members' business. The result was an interesting variety of matters.

Hon. Mr. Brodeur thought that a civil servant who was attacked should have some right of reply.

Mr. Borden and Mr. Foster disagreed. Sir Wilfrid said that a civil servant who had been attacked should look to his minister for defence.

Mr. Lancaster had a bill requiring an inquest to follow every railway fatality. Mr. Graham suggested that the provincial authorities should be consulted and the bill was held for that purpose.

H. H. Miller had a bill to compel mortgagors to accept payment of an overdue mortgage on a mortgagee's notice.

The minister of justice thought this an unnecessary interference with liberty of contract. On a second reading by 87 to 24.

Claude Macdonell, of Toronto, reintroduced his bill to amend the hours of polling in cities and towns.

James Conmee presented his bill to amend the Dominion Elections Act by providing that railway trainmen shall vote wherever they may happen to be on the election day.

Hon. Mr. Puzosy said that the post office and custom house in Montreal were decorated in September last during the Eucharistic Congress upon instructions from the officials of the department. He, personally, gave no such instructions.

**DEEP-SEATED COUGH CURED IN FIVE HOURS**  
New Home Made Syrup

From Boston Press

Progress in medical compounds never ceases, and now it is stated by a prominent medical man that any deep-seated cough or cold on the lungs can be actually cured in five hours by the clock. Opium and morphine have been resorted to in the past as a relief measure. But now it is learned that the system must be treated to a dose of stimulant and congestion. A tonic laxative cough syrup does the work so quickly and thoroughly as to be almost magical. The hero of the hour has taken weeks of treatment and has been in hospital for months. The new medicine is a simple mixture of one-half ounce of wild cherry bark, one ounce compound essence of cod liver oil and three ounces syrup of marshmallows. Shake the bottle and take twenty drops every half hour for four hours. Then take one or two teaspoons every three or four hours. The cough is usually cured in five hours. Give your children less according to age. One filling will usually cure a whole family, as the dose is small.

**ASSOCIATED CHARITIES**

The monthly meeting of the Board of Associated Charities took place in the Y. M. C. A. parlors yesterday afternoon. The president in the chair and the secretary, Mrs. C. H. Hall, submitted her report, which showed that during the month 300 applications were received, 102 for employment, 38 for relief, 25 for meals and 14 for clothing. Employment was found for 14 men, 38 women, three boys, four girls, two housekeepers and two nurses. Eighteen requests were received from out-of-town places, ten for girls and eight for boys. Relief was provided for 10 people and clothing for 10 families. Thirty-four records were given to employers and 34 to workmen. Twelve cases were investigated, 29 letters written and 40 victims made. The address of 25 families were given to the charitable societies of the different city churches for the Christmas season.

The secretary also reported that she was sending out about 300 circulars asking for subscriptions so that the society would be able to carry on its good work in the future as in the past.

New York, Dec. 7.—The board of review of the National Trotting Association in session here today, expelled L. G. Marshall, of Towanda, Pa., for racing the mare Lucy Simpson, under the name of Roscoe Belle, starting her in the 2:30 class at Whitney's Point in this state.

**VICTORIAN ORDER OF NURSES**

The monthly meeting of the executive of the board of governors of the Victorian Order of Nurses for Canada was held in Ottawa Thursday last. The president, J. M. Courtney, C. M. L., presided. There were also present Hon. Excellency, Countess Grey, Mrs. R. L. Borden, Mrs. Geo. E. Foster, Dr. Theo. Gilson, J. P. Ord, K. C. Travers Lewis, K. C., and Miss Mackenzie, chief superintendent.

The usual reports were presented, and a number of communications dealt with. It was decided to have the by laws and regulations of the order with all amendments to date, reprinted for distribution.

The chief superintendent's report dealt principally with the meeting of the executive of the National Council of Women held in Brandon in November, and with the inspection of the Brandon district. The work in Brandon was reported as being very satisfactory.

At the close of the meeting Miss Clayton was admitted into the order. Lady Grey graciously presented to Miss Clayton the medal of the order, and wished her success and happiness.

**Back From Wheat Belt**  
(Montreal Herald)

F. W. Thompson, managing director of the Ogilvie Flour Mills, who has just returned to Montreal after an extended tour of the "wheat belt," expresses himself as being impressed with the development of the middle west, being particularly struck with the growth of population and the capacity of railway development. This, Mr. Thompson believes, is due to the stability of the national fiscal policy and the good prices obtaining for agricultural products.

Despite present prosperity, however, he believes that the question of preventing droughts must be carefully looked into.

Opposite the Loaded Ball.  
 More feeling is being shown over the loaded ball than over any other bowling subject in years. The feeling is so strong that it is being carried to the city and vicinity are rapidly becoming less, and only a few of the most expert are still hanging on.

An opposition to the loaded ball has been brought about recently through the fact that the man who delivered it in a mechanically correct manner got strikes. On rainy alleys, which are long and fashion anywhere, this sphere is deadly, in that it was no trouble to get a string of strikes, thereby overcoming any difficulty a player encountered with regard to spares. Generally it was a case of either a strike or a break. In this respect science was greatly eliminated, and the game became a matter of merely "finding an alley and delivering the ball on a certain spot." All of which was fine on some alleys.

John Koster, former national all-around champion, has been using the loaded ball for the past few seasons. He has long been "spotty." He has lost more matches in the last two years than ever before in a similar time, just because he is unable to get marks at a crucial time. Leo Luckie is another experimenter with similar results. John Koster has long argued about how uncertain this implement was, and it will be remembered how he threw one he had been trying out, and a sewer in Cleveland some five years ago, in opposition to the loaded ball in New York. The New York delegates to the national convention of bowlers will in some of their remarks, perhaps, go into the case of that memorable convention, in which the cast broke from the west on the same matter eight years ago, and again became the battleground, with the east divided in two factions.

**MUSEMENTS FOR OURSELVES AND OTHERS**

**NICKEL**  
 There was a good attendance of patrons at the Nickel last evening when the new programme was put on. The picture bill, like that of Monday-Tuesday, was particularly good, as follows: Right in Front of Father, a delicious comedy number by the Lubin Co., which elicited rounds of laughter; a pretty little child story entitled Nellie's Farm, by the Vitagraph Co., and the rich photographic rural drama of the Gaumont Co., The Love Affair of Two Farmers. Floyd Baxter pleased everybody with his concert number and today will sing his old-time favorite, Ace, where Art Thon? The same bill of pictures that the Nickel's annual Christmas treat for the little ones will commence next Monday afternoon at 3:15, when the little musical play, The Narrow Escape of Santa Claus, will be put on by a small company of adults with child assistance. The cute holiday sketch will take nearly half an hour to put on and there will be plenty of comedy, real stage setting and special Christmas music.

**THE LYRIC**  
 Clever exhibitions of strength and dexterity are always interesting, and the fact that the Lyric management had secured the services of the renowned European acrobat, the Loretta Bros., for the balance of the week is regarded as a most packed house. A great deal is expected of this team in brilliant feats, as they come with the highest praise from those who have seen their performance. Their hand balancing acts are said to be something of much credit. They will conclude their offering by a head to head, playing a mandolin and guitar duet.

The picture programme of last night will be repeated today. The two Biographs, "Not So Bad," and "His New Lid," were found to contain much cause for hearty laughter and the same may be said of the Imp photo play, "Willie." Two others complete an excellent entertainment for these wintry days.

intellectual but good natured. In speaking of his ability as a boxer, I think that he has been both overrated and underrated. He was overrated when in his prime, and underrated when he was in the school of bare-knuckle fighters and glove-fighters. Much of his work at close quarters was done when performed by a small object as a bare fist, when, if attempted by a gloved fist it could rather easily be looked. Being his object, it was to get an opening for a wrestle-hold. If he secured this his opponent stood an excellent chance of landing on the head, or shoulders. Just that befell Tom Allen, when Mac had fought him to a finish. I was not intending to write a sporting article, though this begins to look like it; I was merely trying to show that some injustice had been done to Mac by the boxes of the modern glove school.

From all that I have been able to learn, Mac was not a thoroughly good fighter, meaning by that, a man who will fight as long as he can stand or see-saw, for instance, like Tom Sawyer. There is more than a suspicion that Mac was beaten by Brettie in their first battle on account of "fast falling," and not, as the English say, "against his will."

In this respect he differed from another ex-fighter that often came into the gymnasium. That was old Joe Winrow, the winner of six desperate battles, and with no defeats. But this is aside from my subject, and I will stop. It all happened, as the story says, many years ago, and at least two of that lusty little company that visited us at the old "gym" are dead. Joe Winrow, too, long since passed away, and almost with him went "Charlie" Bennett, one of our club boys, who boxed Mac's first fight, and who was a very good fighter. It is surely time to stop—let me really grow remiss.

**St. John Boxing School.**  
 The boxing school started Monday night under the direction of Jack Powers, gives promise of becoming a great success. More than a score of pupils have been already enrolled, and the popular instructor class is largely taken up with the class now attending. The room Mr. Powers selected are ideal—large, light and airy, and there is comfortable floor space. He is on the whole a very good teacher, and is interested in the instruction of the boys, who will undoubtedly find themselves far healthier and stronger than when they first entered the exercise and development. Both public and private classes have been organized.

**Abandons Wolgast Bout.**  
 Battling Nelson appeared in San Francisco on Monday, with a new story, probably the result of talk occasioned by his determination to hold out for the first chance with Wolgast despite his defeat last night.

According to the Dane he has abandoned the idea of clinching the first crack at the champion, but will strike out in a few days for the mountains and then to his Arizona ranch, where it will be one long rest. After that the former Rumble Dane will head back east to tell how it all happened and incidentally pick up some soft change by facing a few second-rate boxers.

If he succeeds against these men Nelson will once again camp on the trail of the lightweight champion and attempt to land a trip to regard his last loss. The latter find himself devoid of all that old-time ruggedness he will probably lose the fight, and the money for the fight will be his. He has already done well, as he did in the world of pug.

**Allen to Meet Atell.**  
 All Syracuse, N. Y., hailed little Billy Allen, the Canadian featherweight champion, as a wonder for having put on by the Government a heavy fight put on by the Syracuse City A. C., Allen clearly defeated Billy Ryan, a lightweight known the country over.

Allen permitted his opponent to weigh in at 125 pounds, a 6 o'clock, it was a full of action from the start, Allen setting the pace and by his aggressiveness won the fight. He was a very good fighter, and he was a very good fighter, and he was a very good fighter.

**A Furious Draw.**  
 In one of the most sensational fights ever seen around New York, Tommy Houck, of Philadelphia, and Jimmy Carter, of St. Louis, fought on Monday night, and the fight was a very good one. The fight was a very good one, and the fight was a very good one.

 Jiggs Donohue, ex-White Sox first baseman, and who played at the initial corner of the Washington Nationals, is another retired athlete who would "come back." Donohue's antics have been well known since the winter of the 1909 season. Upon the advice of an expert

Once you have used **PURITY FLOUR** you will readily pay the little more it may cost.

Until you have actually tried **PURITY FLOUR** you may demur at the trifle more it costs you than lower grade flours cost—but your first sack will show you why that seemingly higher price is a real economy for you

**PURITY FLOUR**

That trial sack (which you ought to order this very day) will teach you what **PURITY FLOUR** is worth to you, as contrasted with an ordinary flour.

**PURITY FLOUR** is milled from only the kernels of the choicest Manitoba hard wheat—the world's wheat standard.

From the 84 grain elevators which we own and operate, we select the best wheat of the year's crop. This, at our mills, is so treated that only the most richly-nourishing part of the wheat berry gets into a **PURITY** sack of a **PURITY** barrel.

The result is a flour so strong that it produces more bread for the quantity used than ordinary flour.

But bulk of product is not all you are to expect of **PURITY FLOUR**. You are to expect lighter, snowier bread; bread that has the nutlike, sweet, wholesome taste of the best wheat tries to put into the bread she bakes.

**PURITY FLOUR** moreover, is not merely a bread flour. It is an every-purpose flour. It makes the kind of pastry you can be proud of—cake that invites praise—biscuits that suggest an encore.

Not only is **PURITY** the flour for economy's sake, you see, but the flour for quality's sake. Thus, the few extra cents which it may cost you actually insures you against baking disappointments. **PURITY FLOUR** is the flour you will never be without, once you fully test its unusual merits.

Begin with a small trial sack, if you are dubious. Your grocer can supply you.
