Figures in Murder Mysteries

The picture shows (above) Louise Lawson and Dot King, figures in brutal and mysterious murder mysteries and (inset) Harry Lesser, held for investigation, and identified as the man who robbed Mrs. Howard Johnson, co-writer of the musical comedy "Tangerine." Lesser is suspected by police of a long list of baffling New York robberies. Methods used in the Johnson robbery were found similar to those of the Dot King and Louise Lawson cases—hence the suspicion cast upon Lesser.

Young Sailor Hangs Half Hour in Mid Air; His Hand Jammed in Block

Boston, May 21.—While scores of deck workers and others looked on in horror, Jack Burke, 19 years old, able seaman on the Shipping Board steamer West Calumb, and youngest member of the crew, hung suspended in mid-air for nearly half an hour with his left hand tightly wedged in a block on the boom over No. 3 hatch. The young man, suffering intense pain, gamely kept his nerve and did not attempt to wrench himself free. To have done so would have meant his hand hurting to the deck 25 feet below, which would have meant death.

MINER FEARS DEATH LESS THAN 2 WIVES

Pottsville, Pa., Man Hangs Himself When He Learns First Wife Coming. Pottsville, Pa., May 21.—Choosing death to the ordeal of facing two wives, Stephen Kupmont, a miner at the Lytle Colliery, hanged himself. When Kupmont left Austria five years ago to seek his fortune in the U. S., he left his young and attractive wife there to wait for him. But once in this country he became infatuated with a widow and married her. His home life then, with the widow and three children, was all that could be desired. Apparently he thought that his European wife would never know.

AFFECTS NATIONS' WAR DEBTS

French Fear Hope of Lend-ent Treatment by Creditors Passes. STATESMEN MEET Millerand Confers With Herriot—Morgan Agreement Discussed. (United Press.) Paris, May 21.—Passage of the bonus bill over President Coolidge's veto is regarded here as a most serious blow to France's hopes of leniency toward her debts on the part of her creditors. It is expected that the United States will insist on prompt payment of the British debt, which will make it difficult for France to expect any reduction of her debt to England. Nothing is said about the money France owes the United States. Saint Brice, writing in Le Journal, predicts that passage of the bonus bill "will deprive France of all hope of recovering what she has spent on the devastated regions." He foresees that it will be difficult now to apply the experts' plan, because France cannot consent to reduction of her claims against Germany. Cabinet Making. Paris, May 21.—(United Press)—The first step towards formation of a cabinet to succeed that of Premier Poincare was taken at the Elysee Palace at noon today. President Millerand informed Edouard Herriot concerning his engagements France made to J. P. Morgan in exchange for the loan that saved the franc from collapse a few months ago. Before Herriot, leader of the Radical Socialists, is formally invited to form a cabinet, Millerand wants to know the attitude of his party toward the agreement with Morgan. It is also necessary for the next Premier of France to understand what France has promised the American banker. The Socialist statesman, who will probably succeed Poincare, went on foot to the President's palace, arriving a few minutes before noon. Promptly on the hour Premier Poincare drove up, and a moment or two later ex-Premier Millerand was escorted with the President, who had spent the morning consulting with his financial advisers regarding the exchange situation, as with M. Doumergue, president of the Senate. Exchange Is Vital. The condition of her exchange is the most vital thing to France right now, and already the franc has shown signs of skidding, due to the uncertainty of the political situation. The financial decrees and the increased taxes, plus a very important loan of about \$40,000,000 from Morgan, arrested a recent downward plunge of the franc. With a new government, Socialist in character, coming into office, the financial stability achieved temporarily by Premier Poincare may not last. Certain Socialist leaders, for instance, have declared their intention to abolish Poincare's decree, and the 20 per cent increase in taxes, and generally change the equilibrium of taxation. According to the Matin, J. Pierpont Morgan and the financial syndicates which aided France during the recent crisis of the franc wish to know just what the policy of the next government will be. These bankers, says the Matin, had counted upon France pursuing a policy of strict equilibrium of the budget, and now want to know if the new regime will renew assurance of this point. President Millerand was requested to inform Herriot and Poincare, in the presence of Poincare, how matters stood. The Premier called a cabinet council for today and the President summoned a ministerial council for tomorrow, all part of the elaborate machinery of a change of regime in France. Conferences Held. Paris, May 21.—President Millerand today summoned to the Elysee the leading statesmen of France, with whom he consulted regarding formation of a new cabinet to succeed that of Premier Poincare. (Continued on page 2, sixth column.)

SIGN AT CITY'S GATE
GREET TRAVELERS

Information About St. John
Given on Board at Man-
chester's Corner

The visitor to Boston who motors out to Lexington and Concord, or to Gloucester or Plymouth, or in some other direction, sees near the entrance to towns through which he passes a very large sign in the form of an open book, erected beside the road. On the pages of the open book are printed in large type for the information of the traveler salient facts regarding the town he is about to enter.

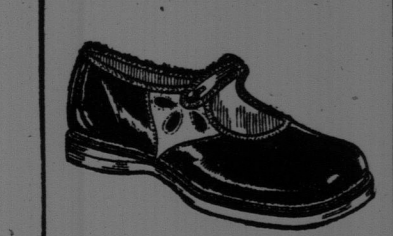

It has been suggested that this sign, which is not far from the hydro sub-station, might very well be lighted at night. It is a good advertisement, and would appropriately welcome the touring motorist approaching the city after dark. The suggestion that such a sign be erected was made by Rotarian E. J. Terry, who supervised its erection.

UNCERTAIN ABOUT HEARINGS.

Hon. William Pugsley, K. C., did not know last evening whether he would sit at any war claims hearings in the city on this trip. Dr. Pugsley's son, W. G. Pugsley, K. C., of Ottawa, arrived here yesterday. He said that he was on a private business trip.

FATE LEADS BOY TO MOTHER
HE DIDN'T KNOW FOR 17 YEARS

Lynn, Mass., May 21.—A son, 20, has just met his mother for the first time since he has been out of swaddling clothes.

He comes to her, after 17 years, at a time when she needs him most. She is poor. Her little farm in Maine is heavily mortgaged. She is sickly. "And I was so afraid I would be just a stranger to you," the son told his mother. "I am happy to have found you, and I am happier that I can be a real son to you."

Howard McConnell's story is one of strange complications—the sort one finds in the movies. Mystery, action, the unexpected, and the happy ending. When he was three years old his father kidnapped him from his mother. They had agreed to separate, but neither could agree to give up the boy. Police, the mother's relatives and friends were unable to find Howard after the kidnapping.

It was almost like suffering the loss twice. McConnell tells of his tragedy. He had loved and worshipped her as his own mother—at the time I almost wished she had not told me the truth. The shock, with its ante-climax, was almost more than the boy could bear. Running away from his home he set out to find his real mother. All he had as means of identification was a picture of himself, which he was a baby, a picture his mother might also have.

For a year he searched through the eastern states. Discouraged, desperate, he joined the navy. Wherever he went he continued his hunt. But it was not until early this month that he came across a tangible clue as to the whereabouts of his mother. McConnell had left the navy and was but two weeks in the army, stationed at Fort Slocum, New York. By chance he met a relative of his mother. On a leave of absence he came to Lynn—

of the class took the examination, several being unable to be present. The class was conducted under the auspices of the St. John Ambulance Association. Several of those who took the examination were seeking the higher awards of the association for re-examination.

M. R. A. Ltd., who have lately announced the "Community Plate Buying Club" to this city, are introducing a novel plan which we believe will create widespread interest. M. R. A. Ltd., tell us that there is a definite need of such a club here. "Not every housewife can afford at one time to purchase all the silverware a family really needs. Now—and until Saturday, May 31st—the "Community Plate Club" makes it possible for the housewife to come in to M. R. A. Ltd. art department, make an initial payment of \$5.00, and take home with her the set of pieces of Community Plate she requires. This club buying plan is effective only on purchases of twenty-five dollars or over, and the balance, after the initial payment is made, is payable in specified amounts over a period of six months.

This is the first time it has been possible to obtain such High Grade Silverware so conveniently a way. M. R. A. Ltd. extends an invitation to all interested to visit the special display of this Silverware in their art department, any day until Saturday of next week.

But by a similarly peculiar coincidence, Mrs. Marjorie McConnell Mason of Wellington, Me., had come to Lynn. She was ill and friends here were caring for her. Mother and son met, brought together by George W. Kitchell, the boy's grandfather.

And now action is being taken to have the son released from the army, that he may support the mother whom he has just met—for the first time.

The Efficient Mr. Biffkins
(Chapter Three)
The new partner was an energetic one, full of progressive ideas and his decision was that each salesman of the company should have a motor car. Naturally, this required a considerable financial investment so the partner, with puckered brow, called in Mr. Biffkins for consultation. "Let's advertise in The Times-Star for the cars," said Biffkins. "You know that there never was a time when there were more cars—good cars—on the used car market than right now. Prices were never lower, either."

TOO YOUNG AT 30.
(Brandon Sun.)
Many of us who are over thirty will be comforted by a little probe made by a London writer into the age question and merit. The investigation has shown that most of the prominent personalities in the various groups scattered over Europe are well over fifty years of age. The writer goes on to say if they are not visible in politics, it is not because they are devoted to the arts. If we ask for a good novel by an English writer, it is probable that we shall be offered one by Wells (who is 55), Conrad (66), Galsworthy (57), or Arnold Bennett (56). The three most popular British dramatists are Barrie (who is 64), Henry Arthur Jones (72), and William Archer (67). The best-known English poets are Hardy (88) and Kipling (88).

NOT MUCH FOR THE MONEY.

If it costs \$200,000 to get thirty-five settlers for Western Canada, how would it do to make an experiment and see if they could not be located at less expense in the Maritime Provinces?

In the House of Commons on Monday, Hon. J. A. Robb, Minister of Immigration, was asked what amount was paid to the Canada Colonization Association during the fiscal year by the Federal Government.

story of the campaign has never been fully told, though enough has reached the public to prove the folly of those who planned it, and the heroism of the weak force which made such efforts to successfully perform an impossible task.

DIFFERING VIEWS.

The United States Secretary of State, Mr. Hughes speaks of his country as secure from attack, and as a disinterested lover of peace.

least until it is seen whether a European settlement on the basis of the Dawes report comes reasonably soon. If Europe settles down this year there will be another conference to further limit armaments.

THE FILM BATTLE OF BEAUVAIS.

Way-back in the fifteenth century Charles the Bold led an assault against the fortified city of Beauvais, the ancient Casaromagus, in the present department of Oise, in France.

Just the other day tourists in the Midi, the south of France, who happened to be passing under the grim walls of the fortified city of Carcassonne, in the department of Aude, suddenly found themselves transported into the days of medievalism.

By a curious coincidence the Herald-Tribune, the day after Mr. Hughes' speech, proceeded to point out that the United States would be helpless in war unless it had an immense merchant marine to supplement the navy.

When it was too late the British world realized that the attempt to capture Baghdad was an impossible one with the forces at Townshend's disposal, which were greatly outnumbered and without sufficient support or safety to their communications.

General Townshend spoke only the literal truth when he said after the siege that the surrender, after 148 days of fighting which shines in British history, was due to hunger and to mental and physical suffering beyond description.

The British navy is still worrying some Americans. The chairman of the House Naval Committee now tells Congress that \$150,000,000 must be spent if the American fleet is to be made as strong as Britain's and as much stronger than Japan's as he thinks necessary.

GOOD-NIGHT! When Capitalism's been shattered And smashed to the very last root, When all of the banks have been plundered, And every one's shared in the loot, We shall pause—though a trifle belated—

And only the people shall suffer, And only the people shall weep, And no one shall work for money, And no one shall sow to reap; But each in his corner shall strive, And think how much better they fare With the system of all-having-nothing Than of some-having-more-than-their share.

WHY LET YOUR DOLLARS GO UP IN STOVE SMOKE? Gas is the greatest and most favored kitchen utility of the age. All over the world it is taking first place as the great essential for efficient and cheap cooking.

LET US FIGURE IT ALL OUT FOR YOU. You can have the very latest and best in gas equipment, installed in your home, if on our main, at a small yearly rental. You will save in energy, in time and in money. Put the drudgery burden on the gas. It can stand it better than you.

St. John Leads the Way. We believe we are the only company in Canada to install a plan whereby our customers may rent gas stoves, heaters, etc. We have done so to place this great commodity within the reach of every family in St. John who reside on streets served by our gas mains.

CHEAPEST AND BEST OF ALL. There is no doubt about that. Besides being efficient, gas cooking cuts the fuel bill down to the minimum. Our rental system places this service within reach of all. Try the gas way and solve the household fuel problem.

can. At an early date, if the foreign relations committee does not report out a world court resolution—and there is no indication that it will—Senator Swanson will move to discharge the committee from the consideration of the Swanson resolution. This will thrust the question before the Senate in a way to make it impossible to

dodge a vote. If the Senate votes to discharge the committee then it will have to consider the Swanson resolution and probably cannot escape from disposing of it one way or another. DRIVER INJURED. Daniel Murphy, a driver of a Government truck, arrived in the city last evening with considerable blood flowing from wounds. He said that while driving near Grand Bay his truck skidded on the road and he was thrown out. He received a severe cut on the head and some scratches on the side of his face. His wounds were attended to by a local doctor.

WEDDINGS

Benson-Martin.

The marriage of Miss Delize Martin and Levi Benson, of Newfoundland, who have recently been residing in St. John, was solemnized at the residence of Mr. and Mrs. A. M. Clarke, 102 Winter street, Monday evening. The ceremony was performed by Rev. E. E. Styles, pastor of the Carmarthen street Methodist church, in the presence of friends of the bridal party. The bride was becomingly gowned in a traveling suit of navy blue and carried a bouquet of carnations. After the ceremony dainty refreshments were served. Good wishes for their future happiness were extended to Mr. and Mrs. Benson.

DEATHS

Mrs. C. E. V. Cowan.

After a lingering illness of two and a half years, the death of Mrs. George Cowan, wife of C. E. V. Cowan and daughter of the late William and Isabelle Bryden, occurred in this city on Tuesday. Besides her husband, she is survived by three sons and one daughter. The sons are Isaac S., of Melrose, Mass.; C. William of Fort William, Texas, and Fred T. of Chippewa, Ont. The daughter is Mrs. William Knorr, of Snell Settlement, N. B. Nine grandchildren and two great-grandchildren also survive. The funeral will take place from the residence of Mrs. F. L. Hea, 101 Adelaide street.

John Foley.

John Foley, an aged resident of Fredericton, died on Monday night, aged nearly 90 years. Surviving are two sons, John and Thomas of Fredericton, and six daughters, Mrs. Shapley of McAdam, Mrs. John Kennedy, Mrs. Fitzmorris of Medicine Hat, Mrs. Daniel Hatfield of St. John, Mrs. James

THIRD GRAND FALLS PARTY PREPARING

Hon. Dr. E. A. Smith, chairman of the New Brunswick Electric Power Commission arrived in the city last night from Shediac, and will be here today on business connected with his department. He said that another survey party was being equipped and that it would in the near future follow on the trail of the other two to the lakes, rivers and woods in the Upper St. John region. The surveys were working steadily, he said, and although reports were made periodically, it would be several months before everything would be down to bed rock, and things would be connected up with the system.

In reference to the application of Petticoats, Salisbury and the Jordan Sanatorium for light and power, he said that the contracts had not yet been ratified but expected that all three places would be connected up with the system.

Regarding the possibility of linking up Cody's and the Millstream, Dr. Smith said that a survey of these places would be taken during the coming week, and that a report would be made before anything definite was decided. Dr. Smith said that he was arranging for a meeting of the New Brunswick Electric Power Commission in St. John next week.

CARLETON Y. F. S. MEETS.

The Y. F. S. of the Carleton Methodist church had a splendid attendance last evening with Clarence Beattie, president, in the chair. Rev. F. T. Bertram led in the devotions and gave a lesson of the course for the teachers' training class. The meeting extended thanks to their pastor for helpful suggestions.

COASTAL CUTTER DAMAGED OFF N. S.

Halifax, May 20.—The United States coast guard cutter Modoc, which arrived here today from the North Atlantic ice patrol, struck the Western Union cable wharf a glancing blow as she was warping to the dock and suffered damage to five of her plates, which were dented by the impact. The wharf was not injured. The Modoc reports that cruising as far as north of latitude 40 no ice was seen and interviews with fishermen spoken to in that latitude elicited the fact that there has never been so little ice in the last twenty years.

LADIES' AID ELECTS.

The Ladies' Aid of the Fairville Methodist church held its annual meeting last night at the residence of Mrs. Vernon McComber and elected its officers for the coming year. Those named were as follows: President, Mrs. S. A. Worrell; secretary, Mrs. Dane Crosby and treasurer, Mrs. Vernon McComber. The pastor's aid committee appointed consisted of Mrs. O. D. Hanson, Mrs. S. A. Shaw and Mrs. Edward Kirkpatrick. The reports presented showed that the year had been successful. Those present at the meeting were Mrs. S. A. Worrell, Mrs. O. D. Hanson, Mrs. J. M. Rice, Mrs. Edward Kirkpatrick, Mrs. S. A. Shaw, Mrs. Albert Taylor, and Mrs. Alec Scott. The hostess served delicious refreshments.

FIRE STARTS UP AGAIN.

The brush fire which started at Blue Point, near Pokiok, on Monday afternoon and looked rather serious for the camp in that vicinity, and then died down, started afresh yesterday afternoon and continued during the early part of the evening. It caused some alarm in the city owing to the smoke and flame that could be seen from the city streets. It was learned last night that, besides burning some brush in the vicinity of the Boer's Head road, no other damage was caused.

PIECE OF CANNON SHOWN. The exhibit at the Natural History Society's Union street window this week is an interesting local historical relic, being a fragment of an old French cannon which was dug up on the site of the old French fort in Carleton. The original gun was of the early sixteenth century type and probably as old as the days of Champlain or LaTour. The fragment was discovered by workmen several years ago when they were digging a sewer and it was presented to the museum by Miss Una Wilson. The cannon of which it is part was evidently blown up, but whether accidentally or purposely there is nothing to indicate.

It's great for growing boys who use up energy as an engine uses steam. With milk or cream, a fine body-fuel. Makes vim and vigor.

Social Notes Of Interest

Miss Sally Macdonald, 127 Duke street, was a charming hostess on Monday evening at her home, in honor of Miss Constance Ewing, daughter of Mrs. William Ewing. Bridge was played at five tables and the prize was awarded to the bride-elect. Miss Louise Alward assisted Miss Macdonald in serving the guests at the buffet supper. Fansies were arranged tastefully about the rooms and presented the bride at the close of the evening. Those enjoying the pleasant evening were Miss Constance and Miss Frances Ewing, Mrs. A. E. Cunningham, Mrs. Jack Leonard, Mrs. J. H. Marr, Miss Frances P. Alward, Miss Alice Young, Mrs. Arnold Gibbon, Miss George Springer, Miss Helen Corbett, Miss Marion McKendrick, Miss Alex Rogers, Miss Helen Marr, Mrs. G. H. Thurber, Mrs. Ralph Ganong, Mrs. A. Bert Welling, Miss Edith and Miss Theodora McKiel, Miss Mabel Lewis, Miss Marjorie Staples and Miss Louise Alward.

Miss Lella Cairns, DeMonts street, West St. John, was a charming hostess last evening for a shower in honor of Miss Reta Taylor, of Summer street, who is to be married shortly. Lavender and yellow were used in the attractive color scheme. A large box bedecked with crepe paper in these delicate colors held the gifts and a tiny bride in her lovely finery guarded the treasures within until the bride-elect was able to find them out for herself. A lovely shower bouquet of roses made the decorations complete and roses of yellow and lavender were attached to the ends of the streamers of the same colors that fell prettily from the centre of the room to the table

and were fastened by the roses. There were 25 guests who were served with delicious refreshments late in the evening. Miss Muriel Baird and Miss Louise Alward assisting the hostesses. This was the first of several events which are planned for Miss Taylor before her wedding day.

Mrs. J. C. Oland, who has been visiting her daughter, Mrs. J. P. O'Connor, of Arlington, Mass., arrived home yesterday and has gone to her summer home at Millidgeville.

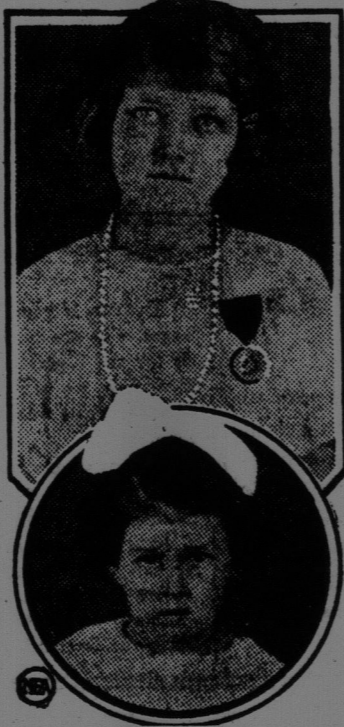

Captain Frederic S. Dupuy and Mrs. Dupuy, who were married last Saturday in Montreal, arrived in the city yesterday and were the guests for luncheon of Mrs. Dupuy's uncle and aunt, Mr. and Mrs. John Connor, Paddock street. They have taken up residence at their apartment, 78 Sydney street. Owing to recent bereavement, Mrs. Dupuy will not receive formally until the autumn.

The friends of Mrs. A. Ernest Goss regret to learn that she has been seriously ill in the Evangeline Hospital since May 7 and so far there is no improvement.

Miss Alice Harrison, B.A., left on the afternoon train yesterday for her home in Moncton, after conducting a meeting of the primary department of the Maritime Religious Education Council in St. David's church, Monday evening. Miss Harrison will leave Moncton this morning for Prince Edward Island, where she will conduct meetings in her department for ten days.

Miss Olive Golding was pleasantly surprised last evening when about 25 members of the Philathen Club of Central Baptist church met at her home on Sydney street and tendered her a lovely shower. In New York

New York, May 21—Playing in the chorus of one of the girl and music shows on the electric-lighted pathway is a girl lovely of figure and demure of feature. She is of the dainty, baby type.

Being a chorus girl is merely incidental—she is paying her sister's school tuition—while she plans for the future, a home and children and happiness with the sweetheart who is rounding out his business career in Detroit.

Each night after the theatre she has a long and late ride to her home, alone. Devoted of make-up and becomingly though simply gowned, she sparkled in the gaudy night crowd as a rare jewel in hideous surroundings.

Forward men pursued her. Her trips home each night became dangerous, fraught with fear and anxiety. Then she changed her tactics. Each night before she left the theatre, she made up her sweet face, replacing the facial charm of youth with a mask of sophistication. Her lips, curved into a cupid's bow of lipstick, were cold, professional, calculating.

Now men shun her. Her advertised charms hold no lure for fickle men seeking excitement in the after-theatre hours and she pursues her course unmolested.

SISTER MARY'S KITCHEN A Daily Menu For The Stout and Thin EAT AND-- Lose Weight—Gain Weight

Three large unsweetened stewed prunes, 10 stalks asparagus on toast, 1 beef timbale with 1 cup bean puree, 2 tablespoons tomato sauce, 2 ounces curly endive with 1 tablespoon lemon juice, 2 tablespoons coffee jelly with 1/2 tablespoon whipped cream, 1 toasted whole wheat roll, 1 thin slice gluten bread, 1 plain cookie with dessert, 1 pint skimmed milk.

Total calories, 1212. Protein, 834; fat, 305; carbohydrate, 122. Iron, .0201 gram.

Beef Timbales With Bean Puree (for Four)
One pound lean round steak, 1 teaspoon salt, 1/2 teaspoon pepper, 1/2 teaspoon celery pepper, white 1 egg, 4 tablespoons soft stale bread crumbs, 1/2 cup skimmed milk.

The meat should be put through the food chopper several times. Combine with seasoning, bread crumbs and milk and stir until smooth. Add white of egg beaten until stiff. Mix by folding. Turn into four individual molds, set in a pan of hot water, cover with buttered paper and cook 40 minutes in a hot oven.

Rub two cups baked beans through a colander, add two Bermuda onions boiled and chopped and cook the mixture in one tablespoon bacon fat until very hot.

Remove timbales from molds and serve surrounded by bean mixture.

Total calories, 1704. Protein, 667; fat, 396; carbohydrate, 641. Iron, .0309 gram.

Six large sweetened stewed prunes, 1 cup boiled rice with 1 tablespoon sugar and 1/2 cup cream, about 3 ounces ham omelet with 4 tablespoons white sauce, 2 whole wheat pop-overs, 1 tablespoon butter, 1 tablespoon orange marmalade, 1 cup noodle soup, 10 stalks asparagus on toast with 4 tablespoons heavy cream, 4 tablespoons salmon salad on 1/4 head lettuce, 1 beef timbale with 1 cup bean puree, 4 tablespoons tomato sauce, 2 ounces curly endive with 2 tablespoons bacon dressing, 4 tablespoons coffee jelly with 2 tablespoons whipped cream, 2 plain cookies, 2 salad rolls, 2 slices rye bread 1 pint whole milk, 5 tablespoons butter.

Total calories, 4083. Protein, 502; fat, 1632; carbohydrate, 1948. Iron, .0218 gram.

You will like the omelet much better with a white sauce poured over it and it will add many calories to your diet. The more butter and the richer the milk the more fat.

Heat heavy cream, season with salt and pepper and stir in one egg yolk for each half cup of cream. Cook over hot water until the mixture coats the spoon and remove at once. Four over asparagus.

The mayonnaise is mixed with the salmon, in the salmon salad, to make moist so that it is needed for "masking."

The marmalade is suggested for the breakfast menu to add a bit of pep to an otherwise rather tasteless meal. This is worth remembering because a tart or in this case bitter preservative or jelly helps to stimulate the appetite as well as furnish calories by its own merit.

JUNIOR RED CROSS BRANCHES FORMED

Fire Prevention Essays Near 1,000-Mark—Donations to Children's Fund Made

There were 11 more essays received by the Junior Red Cross supervisors as entrants in the fire prevention essay competition for the schools of the province. The total is just 12 short of the 1,000. Mrs. Margaret Lawrence and Miss Jesse Lawson, the supervisors, have not yet begun the work of judging the essays. Besides these, they have to judge the Fire Prevention week slogans sent in by Junior Red Cross branches and various resolutions with regard to Fire Prevention passed by the school children.

They have just completed the May "News Letter" for the Junior Red Cross branches. The new issue gives special attention to the Empire Day theme, and explains what the Junior Red Cross charter stands for.

What's Best for a Bad Stomach?

Nine-tenths of all stomach trouble—indigestion, sourness, gas, pain, heartburn, etc., are caused by an excess of acid in the stomach. Artificial digestants, such as pepsin, are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead neutralize the acid that has upset your stomach with a spoonful of two tablets of pure Bisurated Magnesia, taken with a little water. This instantly sweetens the stomach and stops the pain and discomfort that your food digests as nature intended. For quick positive relief from Acid Stomach.

SPEEDY TRIPS MADE BY TWO SCHOONERS

One 68 Hours From New York, Other 16 Days From Turk's Island

Owners and consignees of cargoes were given real surprises by the arrival of two sailing vessels in port yesterday afternoon and evening. Both made very quick voyages. The four-masted schooner Whitebelle, Captain E. K. Merriam, dropped anchor in the harbor yesterday afternoon about 2 o'clock. She is consigned to Messrs. Kerrison and Linton with 1,000 tons of coal from New York for R. P. & W. F. Starr, Ltd. Captain Merriam reports that from the time that he left New York until he reached Partridge Island he was fortunate in having a good strong fair wind and made the entire distance in 68 hours. When it is taken into consideration that the distance is estimated at more than 600 miles, the schooner is seen to have made steamship time. The schooner docked at the Starr wharf last night and will begin discharging her cargo this morning. A month ago the Whitebelle sailed from an up the bay port with a cargo of lumber for New York. About 7 o'clock last evening the large tern schooner Francis J. Elkin, Captain Rafuse, ploughing along under lower sails and topsails and staysails, came in view to the eastward of Partridge Island, furnishing a pleasant surprise to her chief owners, R. C. Elkin, Ltd., for this vessel was not expected to arrive in port for several days. The Francis J. Elkin, 479 tons, with a cargo of salt from Turk's Island, had a good chance and made a very long voyage in 16 days. She was anchored in the stream and will dock today for the purpose of discharging her cargo.

SUNDAY SCHOOL ELECTS.

The annual meeting of the executive of the Sunday school of the Carmarthen street Methodist church was held last night. The reports showed a year of outstanding success. The year closed with a balance of \$80. The election of officers resulted as follows: Superintendent, George Calhoun, re-elected; associate superintendent, Isaac Mercer; secretary, Miss Edith Piers; assistant secretary, Miss Alma Roberts; treasurer, Fred Morrissey; superintendent of the home department, Miss Ethel Brindley; missionary secretary, Miss Estelle Earle; organist, Miss Gladys Brindley; cradle roll superintendent, Mrs. Jacob Martin; primary superintendent, Mrs. Robert Childhouse. A committee was appointed to make arrangements for the annual picnic of the Sunday school and the meeting recorded its hearty appreciation of

"Of course not!" you answer. But every scrape of your razor is its request to you for Colgate's "HANDY GRIP" Shaving Stick; every pull of your beard means that the hairs are asking too; a smarting face is the plea of your skin: "Please use Colgate's."

Do you shut your ears to these petitions? Colgate's "Handy Grip" gives you a quick, fragrant lather which holds the hairs of the beard upright and softens them at the base, where the razor's work is done. It leaves the face cool and refreshed. The "Handy Grip" lasts for years. "Refills," threaded to fit it, cost you the price of the soap alone. There is no waste. PRESENTATIONS AT SCOUTS' BANQUET

The individual prizes, won by the six members of the Trinity troop of Boy Scouts for choosing the best camp site on the recent hike to Tucker Park, were presented at a banquet served by a committee of mothers of the boys in Trinity church school room last evening. A sing-song was held during the

evening. The prizes were waterproof match safes and were presented by Dr. L. De V. Chipman, president of the St. John Boy Scouts' Association. The winners were Victor Regan, Donald Sullivan, Douglas Smith, Gregory Short, Edgar Williams and Walter Dunbrack. A scout knife was presented Douglas Smith for special services in connection with a recent Scout and Guide concert. On behalf of the Boy Scouts and Wolf Cubs, Charles E. Upham, scoutmaster, presented Rev. Canon Armstrong a swastika thanks badge, the official badge of the association, in

recognition of his services and his interest in the boys. To Mrs. Armstrong he presented a bouquet. Canon Armstrong expressed his thanks and that of his wife for the gifts. Mr. Upham presided at the dinner at which about 80 were present. Dr. G. B. Post, district commissioner, spoke on scout work. Junior First Aid certificates were distributed by Walter Harrison to Victor Regan, Seccord Gill, Gregory Short, William Ward, William Hoyt and Edgar Williams. R. S. Coupe was an acceptable accompanist.

**TRADE COUNCIL'S
OBJECTIONS HEARD**

**Juvenile Court Committee
Plans an Educational
Campaign.**

At a meeting of the Juvenile Court Committee in the Board of Trade rooms last night it was arranged that the fifteen organizations represented on the committee should be asked to name at least three representatives, one of whom was to be a member of the central committee for the Juvenile Court project, and all to be members of the general committee.

A meeting of the general committee was called for June 11, when sub-committees will be formed on publicity and propaganda, literature and its distribution and the affiliation or inclusion of other organizations will be discussed.

In the meantime an interim committee consisting of A. R. Crookshank, chairman of the general committee, and representatives of the Rotary Club and Gyro Club, E. C. Weyman and Alexander I. Machum, was appointed to carry on the necessary work and to arrange the programme for presentation at the next meeting.

Educational Campaign Planned.

The meeting was held in the Board of Trade rooms with A. R. Crookshank presiding. In deciding on the future line of action it was agreed that a request should be made that the finance committee of the Municipal Council at its July meeting appoint a sub-committee to go into the matter of a Juvenile Court and present a report to the October meeting of the Council. The Juvenile Court committee in the meantime was to conduct a vigorous campaign of education.

Representatives of the Trades and Labor Council were present at the meeting and stated their position with regard to a Juvenile Court. The Council has gone on record as favoring the establishment of a Juvenile Court, but objects to some clauses in the present acts which govern its establishment and operation. The legislative committee of the Trades and Labor Council had prepared a report on the acts referred to and this report was read at the meeting. The chief objections stated were with regard to the clause providing for the sending of city children to foster homes in the country and the section dealing with the apprenticeship system. It was believed by the Trades and Labor representatives that these clauses in operation would work a hardship.

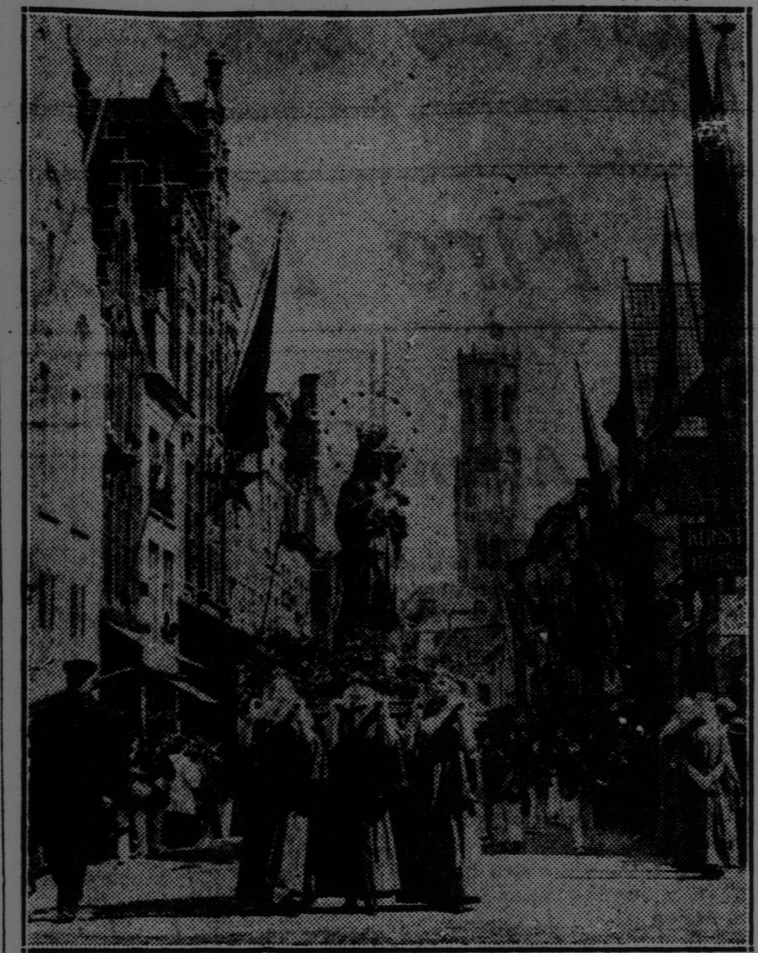

Pledge Financial Support.

The meeting decided that the interim committee previously appointed should meet with the legislative committee of the Trades and Labor Council and give consideration to the two acts in order to come to an understanding as to their meaning and as to the possible need of revision of the clauses of the acts. A. M. Belding was added to the interim committee for this consultation. The matter of finance was discussed and those organizations which compose the committee, according to their ability to do so, pledged support. Some organizations were unable to give financial support. As Mr. Crookshank will be out of the city when the committee convenes again on June 11, Alexander Machum was appointed vice-chairman to preside at the June meeting.

Those Present.

Those present at the meeting were: Mrs. G. Wilford Campbell, Ladies' Auxiliary of Y. M. C. A.; Mrs. C. A. Clark, King's Daughters; Mrs. E. A. Young, Mrs. A. M. Belding and Mrs. J. H. Doody, Women's Council; D. C. Clinch, Society for the Prevention of Cruelty; E. C. Weyman, Rotary Club; F. S. A. McMullin, Thomas Killen, F. A. Campbell and George R. Melvin, Trades and Labor Council; Alexander I. Machum, Gyro Club; Mrs. A. M. Belding, Playgrounds Association; P. J.

**THE PROCESSION OF THE SAINT SANG
AT BRUGES**

The procession of the Saint Sang is held annually at Bruges, Belgium, and is one of the most famous religious demonstrations of its kind. It is the occasion when the Holy Relic, believed to be stained with Christ's blood, is borne around the town, each parish being responsible for the presentation of a biblical scene in the procession, in which thousands take part.

Steel; A. M. Belding, Children's Aid; A. R. Crookshank, St. John County Religious Education Council. Organizations which have affiliation with the committee and were not represented last night were as follows: Y. M. C. A., Y. W. C. A., Social Service Council, I. O. O. F. and Evangelical Alliance.

PRESENT PLAY ON WEST SIDE.

When "Quality Street," the well-known Barrie play, was presented last evening at the New Albert School by the High School Alumnae a pretty feature of the play was the presentation of bouquets to Miss Elsie Spence and Miss Helen Smith, who took leading parts. The amateur actors excelled themselves last evening. Miss Marjorie Johnson, director, received great praise for her art in bringing the cast to such perfection. The play was first presented at the assembly hall of the St. John High School on April 28. There was a good audience last evening.

TO STUDY IN BOSTON.

John B. Connolly, of Moncton, was a visitor in the city yesterday. Mr. Connolly, who is well known as a baritone singer throughout the Maritime Provinces, expects to leave in the near future for Boston, where he will further continue his studies at the Boston Conservatory of Music. At all times willing, Mr. Connolly has loaned his splendid voice in all matters of a patriotic nature in this province and has delighted audiences wherever he has been heard. His many friends in these parts will wish him well in his work.

Not all of the peoples of the earth see a menace to civilization. Some of them haven't been civilized yet.

A man who falls in love with himself never has any rivals.

The cost of living doesn't seem to have much effect on its popularity.

**SEES CHANCE FOR
CANNING INDUSTRY**

**Hon. Fred Magee Suggests
Development of Business
in Rural Districts**

That a splendid opportunity for the development of the canning industry existed in the Maritime Provinces was the opinion expressed by Hon. Fred Magee, of Port Elgin, at a meeting in Sackville last week. The Sackville Tribune in its report of the meeting says:

Mr. Magee gave a brief account of the establishment of the canning industry on this continent about 40 years ago, tracing its rapid development, particularly during the last 20 years, since the introduction of the sanitary can. The speaker said that one billion dollars worth of canned goods were produced annually in the United States. These included: Milk, \$168,000,000; meats, \$34,000,000; beans, \$1,000,000; stringed beans, \$30,000,000; corn, \$19,000,000; peas, \$22,000,000; tomatoes, \$122,000,000; apples, \$7,750,000; berries, \$5,750,000; peaches, \$24,000,000, etc.

Believes in Opportunities.

Referring to the Maritime Provinces, the speaker pointed out that the canning industry was very meagre, but there was a splendid opportunity for the development of this business. Mr. Magee spoke of the national canners' organization in the United States which meets each year. As many as 10,000 canners assembled at the convention held at Buffalo, including many Canadians.

In Ontario and Quebec the canning of vegetables and small fruits was progressing. Coming nearer home, the speaker discussed the feasibility of starting such a factory in Sackville. He considered it would be possible to grow sufficient products in the district to keep a canning plant in operation nearly all the year around. At the present time about \$2,000,000 a year was going out of the Maritime Provinces for canned goods, a large amount of which could be taken care of at home.

MODERN VALJEAN

Ira B. Hall, like another Jean Valjean, finds himself undone by his honesty and faith. Eight years ago Hall escaped from a Georgia prison where he was under sentence for murder and, joined by his wife and family, went to live on a Florida truck farm. There he has been an exemplary citizen. Recently his daughter became engaged to marry and, feeling that his future son-in-law should be told, Hall bared his story. A few days later a sheriff arrived and returned Hall to prison. Mrs. Hall (here pictured with her baby) is pleading before the Georgia Prison Commission for his release.

SEEKING CAMP SITE.

The committee of the Health Centre appointed to arrange for a suitable site and building for the summer camp for under-nourished children has been busy at work looking up various possible locations. The committee is eager to get a site as speedily as possible as arrangements for the children will occupy some little time.

**FIVE LIVES ARE LOST

**Captain, Engineer and
Wheelsman Among Dead
in Lake Superior Wreck**

Sault Ste. Marie, Mich., May 20—The captain, the chief engineer and one wheelsman are among the dead in the wreck of the steamer Orinoco on Lake Superior, a wireless message to the owners of the tug Gargantua, which went to the rescue said tonight. The message did not give the names of any of the dead.

A re-check of the list of dead tonight through additional wireless messages showed that five lives had been lost instead of four as previously reported. The Gargantua started to tow the Orinoco when she foundered, to Sault Ste. Marie, but James Davidson, of Bay City, Mich., owner of the foundered vessel and the barge wired

the owners of the tug to let the barge remain where she is. The Orinoco was in command of Captain Lawrence, of Cleveland, who previously sailed for the Tomlinson Company, of Cleveland, but accepted command of the Orinoco this season. The chief engineer was Joseph Wurtz, of Bay City.

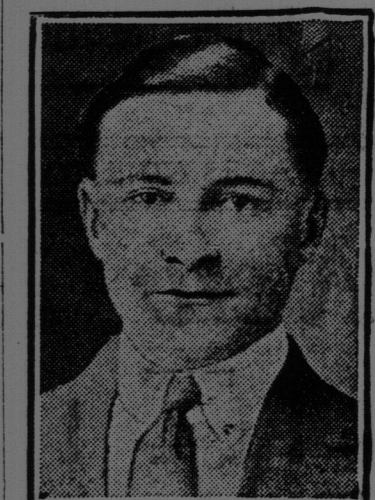

BLAMES SCHOONER.

Halifax, May 20—Captain Reid, of the car ferry Prince Edward Island which grazed and damaged the Newfoundland schooner Gladys Bullen outside this harbor yesterday morning, stated today that it was the fault of the schooner, and declared that if the Bullen had been equipped with an adequate fog-horn the accident would not have occurred. No horn was heard aboard the car ferry, Captain Reid asserted. The ferry was coming to Halifax for her annual overhauling and the Bullen was from Harbor Breton in ballast. The collision occurred in a dense fog. Both boats proceeded unassisted.

Friends can be very annoying, but if it were not for them you would be a total stranger.

It doesn't cost so very much to start in business now. Ten dollars will buy a fairly good sucker list.

HERO OF NORTHWEST

Albert Moore, 22, a Minneapolis engineer, has been proclaimed by Mayor G. E. Leach of Minneapolis "the outstanding hero of the year in the northwest." Moore saved the lives of three boys who had slipped off a bank into 25 feet of water. He brought the third boy up from the bottom.

**BANK BANDIT IS

**Holds up Bank Manager and
Escapes With Cash
Which is Recovered**

Winnipeg, May 20—After holding up the Postage avenue and Gouling street branch of the Bank of Montreal in the Western part of the city and getting away with about \$7,000 in cash, a lone, unidentified bandit was shot to death in a running fight with police shortly after noon today. All the money stolen was recovered.

Entering the bank at the noon hour, the robber ordered the manager G. A. Geddes and the teller, T. N. Evans, to hold up their hands while he scooped the cash from the teller's cage. Backing out of the door the bandit threatened to shoot a customer who was just entering. This man retreated hurriedly and immediately notified the police, who pursued the bandit along Postage Avenue to Lipton street, where the bandit was successful in starting an automobile standing in front of a residence. Closely pursued by the officers the man refused to surrender and was killed while grasping the steering wheel.

**FRENCH AVIATOR

ST. JOHN IS IN DEGREE
LIST AT MOUNT ALLISON

(Continued from page 9.)
al subjects, as sewing, cooking, nursing, household management, will be taught as at present in the Massey Treble School of Household Science. Students who have already taken courses at the Ladies' College and who wish to return to take their degree will be given credit for work already done.
Supplies Real Need.
This course will supply a real need in these provinces, and it is expected that a number of students will take advantage of the opportunity to get both the vocational training and the academic degree.
It has been decided to hold this year a summer session of the university. It will open July 7 and continue until the end of August. The large number of inquiries about this school is evidence of the interest taken in it. It is an attempt to bring the university within reach of a larger group and give them an opportunity to carry on systematic work, and to complete courses. Mount Allison is centrally situated and there is no reason why Sackville should not become the home of a large and successful summer school.
Thus far the most of the students have come from teachers and ministers. A number of these wish to continue their courses during the year, after they leave here, and plans will be made to direct their work by correspondence. In this way it is expected that another group of students will be looked after by the university, as large, perhaps, as the group in regular attendance. These will be largely ministers who have already had two or three years at the university, and teachers who are looking forward to getting a higher class of license or to prepare themselves for teaching special subjects.
The honors in Philosophy, Mathematics, English, Biology, Physics, Chemistry, French, Latin, were presented by Professors Laidy, Hutton, Tweedie, Fraser, McGregor, Bigelow, and Delano respectively.
The degree of Bachelor of Arts was conferred on the following:
Daniel Murray, Angeline, St. John; Winifred Margaret Braine, Annapolis Royal; Stanley Wilfred Brooks, Bridgetown; Dorette Desbarres, Moncton; Madeline Alice Fisher, Middleton; Vera Victoria Frye, Moncton; Alfred Guild Fulton, Guysboro; Georgiana Frederica Keith Graves, Moncton; George Robert Keith, Angeline, St. John; Charles Raleigh Keith, Sussex; Gordon King Kelley, St. John; Marjorie Dunbar Kelley, St. John; Helen May Lodge, St. John; Frederick Lawrence Meyer Meek, Sydney Mines; Arthur John Moore, Sydney; Ethel Angel Moore, Pouch Cove, Nfld.; Kenneth Borden Palmer, Sackville; Frederick Preston Patten, Dartmouth; Alice Muriel Pigott, Bridgetown; Georgie May Wall, Hantsport.
The following received the degree of Bachelor of Science:
Raymond Marshall Chapman, Amherst; John Chesley Dawson, Halifax; Laurence Edward Archibald Fraser, Angeline; Carlton Patterson, Guysboro; John Churchill Hall, Lunenburg; Jack Evans Monnell, Botwood, Nfld.; Elmer Russell McMillan, Kentville; Harold Wilfred Musgrave, Nfld.; William Donald Payzant, Liverpool, N. S.; Ronald Keith Purdy, Bear River; Raymond Harold Wiles, West Brook, N. S.
Certificates in engineering were conferred on: Allan Carl Estey, Grand Falls; James Randolph Jones, Woodstock; Ernest Burchell Jubien, North Sydney; Leonard Holder, Lunenburg; Joseph Norrie, Truro; Creighton Stevenson, Sydney; John William Turner, Glace Bay and Roland B. Winsor, Westville, Nfld.
The Valedictory Address.
Following is the Valedictory address given at the convocation by Fred M. Meek, of Sydney Mines. He is a graduate in arts with honors in English.
Since the first class graduated from this university in 1883 there have been annually times such as this at which a final appraisal of the life led by an undergraduate is made, and where teachers and friends are assembled to see the graduating class enter the workaday life and swell the ever increasing group of Mount Allison graduates who have assumed the burdens, the duties and the privileges of national citizenship and of the larger world.
And so, tonight, we (the 62nd graduating class of Mount Allison University) with all the enthusiasm common to any such group of young people are wondering, and perhaps a little fearfully, what these new-found burdens will entail on the morrow.
Universities the world over are bound by common ties into one great family which numbers its individual members by the hundreds of thousands and its family branches by hundreds. To us who count ourselves as humble members of this great concourse there is one branch of this large family which is particularly dear. In its home and advice during the four years of undergraduate life.
Among the Essentials.
Universities in general are not so much the buildings they possess, representing so much capital investment, or the amounts of the endowment, which are in their keeping. Certainly, these things are among the essentials. But fundamentally they are or should be an attitude of mind of which student life should be the protagonist. Emerson says, "There is one mind common to all individual men. He that is once admitted to the right of reason is made a member of the whole estate. What Plato has thought he may think; what a saint has felt he may feel, what any time has betokened he may understand. Who any man can understand, and who hath access to this universal mind is a party to all that is or can be done. This attitude of mind makes us all feel a part of the world of affairs outside of us. Here you develop personal relations. Your characters, habits and actions are under close scrutiny. To you we would say make

HE CAME BACK A CARDINAL

Nearly 1,000,000 Chicagoans turned out to greet George Cardinal Mundelein on his return from Rome. The demonstration accorded the west's first "prince of the church" was the greatest the city ever has given an individual. Here is the cardinal, in his robes of scarlet and gold, standing on the observation platform of his special train as it backed into the station.

The Alumni banquet was held tonight with Ivan C. Rand as toastmaster. The toast to the King was proposed by Mr. Rand and responded to by the singing of the National Anthem. The "Institution" was proposed by Dr. B. C. Borden and replied to by Dr. George J. Tremblay, Dr. George Bond, Dr. A. D. Morton and Dr. Murray Angevine. The "Alumnae" and "Alumni" proposed by Dr. H. E. Thomas and responded to by Mrs. Colgan and Dr. McCollum.
Rev. H. E. Thomas.
Rev. Herbert E. Thomas is a native of St. John, who has steadily risen in public esteem and also in influence in the Methodist Church. He is widely known, as during the period of his ministry he has been located at quite a number of different stations. He has been minister at Stanley, Sunny Brae, Lindsay, Campbellton, Moncton, Charlottetown, West St. John, Sackville, Devon and Exmouth street, St. John. He was ordained in 1900, and in 1919 was chosen president of the Methodist Conference. He is a past president of the N. B. and P. E. I. Sunday School Association, and of the P. E. I. Temperance Alliance. He is a member of the Board of Regents of Mount Allison University, and in 1922 was elected editor of the Wesleyan. Rev. Dr. Thomas has always been a fearless and outspoken minister, whose utterances, however, have been guarded and entirely free from sensationalism. Mrs. Thomas was formerly Miss Annie Good, of Jacksonville, a sister of Colonel W. C. Good. Both have great numbers of warm friends in St. John and in the provinces, who will congratulate him upon the honor conferred upon him by Mount Allison.

FRUIT TREATMENT
HEALS KIDNEYS

Concentrated Fruit Juices
Give Astonishing Results

Anyone who has suffered with Weak or Irritated Kidneys—with the accompanying miseries of pain in the back, splitting headaches, swollen hands and feet, rheumatism and constipation—ought to try the Fruit Treatment for their trouble.
To those who use intensified fruit juices—"Fruit-a-lives"—for the first time, it seems almost impossible that the juices of apples, oranges, figs and prunes combined with tonics, could relieve Kidney Trouble.
But a short treatment of "Fruit-a-lives" gives quick relief and the regular use of these intensified fruit juices—"Fruit-a-lives"—today and begin the Fruit Treatment. At all dealers; 25c. and 50c. a box; or sent postpaid by Fruit-a-lives Limited, Ottawa, Ont.

Keep Yourself Free
From Indigestion

By Taking Dodd's Dyspepsia Tablets.

Mr. J. Lecbey Recommends Them to All Who Suffer from Indigestion.
Coal Creek, N. B., May 21.—(Special)—That Dodd's Dyspepsia Tablets are an excellent remedy for dyspepsia and indigestion is substantiated by the following statement from Mr. J. Lecbey, a well known resident of this place.
He says: "I have found Dodd's Dyspepsia Tablets very satisfactory. I have only used two boxes and they have done me a lot of good. I would recommend them to anyone suffering from indigestion."
When so many people are satisfied with Dodd's Dyspepsia Tablets, you can confidently begin taking them yourself.
Dyspepsia or chronic indigestion means that the stomach has got into such a state that it cannot do its work of digestion. The different muscles and organs of the body are not receiving the food they require, and are starved and weak.
Dodd's Dyspepsia Tablets do the work of digestion, supplying the juices that the tired stomach fails to provide.

Offer of Moore & Co. Refused—Only One Tender for Educator.

The city will not purchase any of the white pine offered by J. E. Moore & Co. as Commissioner Bullock failed to find a tender to his motion that 100,000 feet of it be bought and stored on the West Side for future use. It was also decided at yesterday's meeting of the City Council not to send a chartered accountant to Oshawa to examine the books of the McLaughlin Motor Car Company. Three months' salary was voted to the widow of James Covay, who for 40 years had been a member of the police force. A tender for a catch basin cleaning machine for \$1490 was referred to the Commissioner of Water and Sewerage for a report.

The Mark of Quality
Why Gum Dipping Increases Tire Life
A tire in use is being constantly bent backwards and forwards by road action. Such movement generates friction and heat that has a deteriorating effect unless the tire is built to withstand it.
Gum dipping puts a coating of new live rubber around each separate cord that keeps it from rubbing against the cords that lie next to it.
In the carcass of a Gum-Dipped Cord there is less friction to generate heat. It stays cooler and therefore lasts longer. Gum-Dipping, with air bag curing, rubber tempering and other special Firestone processes, produces a tire that is stronger, more resilient and easier riding.
Travel on Firestone Gum-Dipped Cords. They add to your enjoyment of motoring and their extra mileage without extra cost is the truest source of economy. Ask for Firestone Steam-welded Tubes. They help tires give more mileage because they are leak-proof.

They are Happy and Well
You Should Be the Same
A LARGE number of women's ailments are not surgical ones. Serious displacements or radical changes have not yet taken place.
A tiny part in a fine clock may become loose and cause the clock to gain or lose. If not attended to in time, the part may fall from its place and cause serious trouble. So it is with women's ailments, they start from simple causes; but if allowed to continue, produce serious conditions.
When the warning symptoms are first noted, take Lydia E. Pinkham's Vegetable Compound to relieve the present troublesome ailment, and to prevent the development of serious trouble.
River Desert, Quebec—"I used to have a severe pain in my side. I would be unable to walk fast and could not stand for any length of time to do my ironing or washing but I would have to lie down to get relief from the pain. I had this for about two years, then a friend told me to try Lydia E. Pinkham's Vegetable Compound as she had had good results from it so the last time I had a sore side was last May and I have not had it since. I am also glad of having good nursing for my baby and I think it is your medicine that helped me in this way."—Mrs. L. V. Burpee, River Desert, Quebec.
Woodbridge, Ontario—"I took Lydia E. Pinkham's Vegetable Compound for female troubles. I would have headaches, backaches, pains between my shoulders and under my shoulder-blades and had feelings in the lower parts on each side, in the groin. I was sometimes unable to do my work and felt very badly. My mother-in-law told me about the Vegetable Compound and I got some right away. It has done me more good than any other medicine I ever took. You are quite welcome to use this letter as a testimonial if you think it will help some poor sufferer."—Mrs. EDGAR SIMMONS, Woodbridge, Ontario.

Brokers' Opinions

New York, May 21.—Hutton—"Congressional action has, in our opinion, removed any logical hope for a general rise in the market this month."

Housman and Co.—"It seems doubtful that there will be an immediate fresh wave of real liquidation."

Tobey—"We think that the situation still has adverse elements which will cause much irregularity."

Hornblower & Weeks—"In many instances prices of stocks are as low as, if not lower than, the levels existing at the bottom of the major bear market which culminated in 1921. This includes the Rubber, Copper, Leather, Fertilizer, Shipping, Machinery, and Oil groups."

Brimley Chamberlain—"We look for irregularity with strength in the railroads and in the oil stocks, and believe that they should be given preference on any break."

THE TROJANS' VIEW.

To the Editor of The Times-Star:—Sir,—The news item in your issue of May 20 regarding the decision of the Y. M. C. I. officials on the bout which took place in the armories some few weeks ago between Louis Donovan of the Y. M. C. I. and Eric Snow of the Trojans, has caused a great deal of comment in local boxing circles and on behalf of the Trojans A. C. I am taking this opportunity of acquainting the public with the real facts of the affair. These directly responsible for a decision have refused to give it either one way or the other and the Y. M. C. I. officials have, apparently, taken the matter into their own hands without even consulting Mr. A. W. Covey, president of the N. B. A. U. of C.

To Canada Life Policyholders

Each year the Canada Life sets aside a special month for making personal calls upon policyholders where that is possible.

This is done in order to give all Canada Life policyholders the best and most up-to-date service possible in connection with the life insurance they already possess.

Services We Offer You

There are many forms of service which may be the means of increasing the value of your life insurance protection:

1. Your Canada Life policies may require to be changed to suit new conditions.

2. You may wish to arrange to have your life insurance paid as a monthly income.

3. You may want advice regarding the proper appointment of a beneficiary, or it may be necessary to change the present beneficiary.

4. You may wish to know how your insurance can be paid to your beneficiary in quarterly, half-yearly or yearly instalments, instead of a lump sum.

There are many forms of service in addition to these which we shall be glad to explain.

Two Factors of Success in the Mabou Coal Mines Cheap Extraction — High Quality

The saving in cost of extraction alone—at least 50 cents a ton below the cost of other large mines in Nova Scotia—in itself would be more than sufficient, with an output of 3,000 tons a day to pay the interest and sinking fund charges on the present bonded indebtedness of Atlantic Coast Collieries Limited.

In other words, if other mines are operating at no profit, Atlantic Coast Collieries Limited, because of the accessibility of their coal at Mabou and the consequent low cost of extraction, will be earning interest and sinking fund charges.

Besides these important facts, the quality of the coal in their eight-foot seam is higher than that of any other coal in Nova Scotia. In competition with either Nova Scotia or United States bituminous coal, it will sell at a premium on a quality (analysis) basis.

In a signed statement to Mr. A. J. Tonge, M.E., Mr. Neill A. Nicholson, Deputy Inspector of Mines for Nova Scotia, wrote: "As regards the Eight Foot Seam, there is no coal in Nova Scotia to equal it."

The Mabou coal mines of Atlantic Coast Collieries Limited not only contain vast measures of economically mineable coal, but they contain coal of the finest grade in Eastern Canada.

These are two important factors of success which make the investment in the bonds of Atlantic Coast Collieries Limited attractive to careful investors.

We recommend the purchase of the 7 per cent. first mortgage Sinking Fund Gold Bonds of Atlantic Coast Collieries Limited, carrying a bonus of 20 per cent. common stock.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

HAS HAD ATTACK OF STAGE FEVER

Benny Leonard Discusses His Prospects as an Actor.

(By HENRY L. FARRELL) New York, May 21.—(United Press) Benny Leonard has developed so much enthusiasm for the theatrical profession and he professes to see such a future in it that it would be no great surprise if he announced his retirement from the ring after the outdoor season. When a champion in these days of tight money, the public pursues talks of retirement, would be justified in considering the conversation to be a lot of bunk. Leonard, as the champion lightweight of the world is, at the very least, \$200,000 a year man, and he is not in his thirties. A surgeon, a lawyer, or an engineer, who has made himself worth \$200,000 a year by merely being a boxer, would be justly proud of his position and would not be likely to give up his business and start in the practice of a new profession. While it is admitted that the boxer has a profession as permanent as a young man with a skilled trade, it seems that Leonard has several years ahead of him, and even a few years at that handsome salary would put the ordinary tradesman at ease for life.

Attempts to Serve Court Order on Louis Smith Reported Fruitless.

An echo of a series of cases which were heard last year in local courts concerning a shipment of liquor from St. John in connection with which charges were made against Harry Rabinovitch, was heard in the Supreme Court chambers here this morning.

H. H. McLean, Jr., acting on behalf of the plaintiff in the case of Leon Chechik against A. Friedman and Louis Smith, asked for an order varying an order made by Chief Justice H. A. McKeown for personal service for oral examination of Smith here on May 14. Mr. McLean presented affidavits from New York and Halifax parties to the effect that service could not be made personally on Smith. He asked for an order that service might be made on Smith's solicitor.

The New York affidavit was to the effect that L. Smith was registered at the Hotel Pennsylvania, but that he could not be located.

The Halifax affidavit was made by Deputy Sheriff Mitchell, who deposed that he had located Smith with some friends in the Halifax hotel lobby and when he made an effort to effect service, Smith fled from the hotel and he had not seen him again. He made an effort to serve him with the order and appointment of the date of hearing before Percy Leonard, court stenographer, at a house in Barrington street, but was told by one of Smith's friends that Smith and his associates would do everything to prevent service being made.

J. D. P. Lewin, who appeared for Smith, read an affidavit of Harry D. Rabinovitch in which he said that Deputy Sheriff Mitchell had come to them at the Halifax Hotel on April 23 and enquired of each if he was Louis Smith. Rabinovitch deposed that Smith was not with them at the time although he was in Halifax, and that Smith had feared the service of capias for \$79,000 against him in St. John.

In the original case, Rabinovitch was tried on a charge of conspiracy with others to obtain fraudulently \$79,000, the proceeds of a shipment of liquor from here. He was acquitted on this charge. Later he was tried on a charge of receiving stolen money, knowing it to have been stolen, and was again acquitted. A bailable capias for \$18,121 was issued against Smith in the same connection and, according to his solicitor, this amount was deposited as bail with the sheriff here and the trial of the case could not proceed before June. The order for a writ of habeas corpus was issued in connection with this case under the judicature act.

Mr. Lewin protested against the order to accept service on behalf of the client, as he argued that he did not know where he was at present, although he understood that he had left for Europe. He therefore did not want to be placed in a position whereby he would be unable to see that his client was notified in time for the examination and thus jeopardize the money which Smith had deposited with the sheriff.

The judge replied, however, that he was satisfied that every attempt at personal service had failed and Smith should have sufficient interest in his case and the money deposited to keep in touch with his solicitor. The judge granted the order for service through Mr. Lewin.

BODY BROUGHT HERE FOR BURIAL

Mrs Margaret Sharkey Who Died in Mass., Interred in St. Martins.

The body of Mrs. Margaret Sharkey, widow of Edward Sharkey, who died at her home in Charlestown, Mass., on February 19, was brought to the city yesterday on the Boston train and taken to St. Martins. She was buried in the Catholic cemetery there outside the mother who was the first person to be interred in that burial ground when it was opened more than forty years ago. Funeral services were conducted yesterday by Rev. Harold Coughlan.

Mrs. Sharkey, who was 57 years old, was born in St. Martins and was before her marriage Miss Margaret Power. She resided at her natal place until about 80 years ago when she removed to Massachusetts. She was ill for three days, with bronchopneumonia.

She is survived by four sons—William C. and Edward J., who accompany her to St. John, and Herbert and Walter, who were unable to attend. All belong in Boston. Two daughters, Catherine and Catherine Sharkey, also came to St. John with their mother's body. Those who came to St. John will return home on Friday.

JAMES ARNOLD OF SUSSEX ENDS LIFE

Cuts His Throat With a Razor Blade; Is Found by Wife.

James Arnold of Sussex, aged 60 years, ended his life this morning by cutting his throat with a safety razor. He was found a few minutes later by his wife.

Mr. Arnold lived in Paradise Row, Sussex. At the rear of his home is a workshop that he used. He went to the workshop about 8:45 o'clock and about a quarter of an hour later Mrs. Arnold, who lives with him, was horrified to find her husband lying on the floor with his head in a pool of blood. Nearby lay the blade of a safety razor and a small handkerchief.

Dr. L. R. Murray was called as quickly as could be but Mr. Arnold was dead. The doctor found a deep wound in the throat, through which almost severing the windpipe. Coroner F. W. Wallace was notified and he had a jury summoned and an inquest was arranged for this afternoon.

Mr. Arnold had been a blacksmith in Sussex for years but retired some time ago. Lately he had done farming and to be placed in a position whereby he would be unable to see that his client was notified in time for the examination and thus jeopardize the money which Smith had deposited with the sheriff.

The judge replied, however, that he was satisfied that every attempt at personal service had failed and Smith should have sufficient interest in his case and the money deposited to keep in touch with his solicitor. The judge granted the order for service through Mr. Lewin.

RUSH WAS MADE TO HIDE WET GOODS

Inspectors, However, Got Some in Loch Lomond Road Visits.

It was a case of "hide and seek" on the Loch Lomond road last night when Prohibition inspectors Crawford, Killen and Garnett, who were accompanied by Detective Biddiscombe, made a systematic search for "wet goods." They visited the premises of Samuel Leach, Fred Barker and the Barker House and according to statements seized a quantity of whiskey, dry gin, vermouth, port wine and beer said to be over-strength.

Although the inspectors were non-committal, it was learned from other sources that word had been flashed along the line and there was a rush to get illicit goods under cover. In one instance two of the inspectors, not satisfied with a result of a search of the premises, went into the woods nearby after discovering a hiding place well stocked with a variety of liquor. In another instance the "joy water" was discovered secreted between blocks of ice and covered with sawdust. However, the inspectors anticipated this and having authentic information did not take long in unearthing the spirits. As a result the proprietors were instructed to be at the Fairville court tonight. One inspector said today that several reports had been received about men driving automobiles along the Loch Lomond road at night while under the influence of liquor and thus endangering the lives of people.

STORES OPEN ON FRIDAY EVENING; CLOSED SATURDAY

At a meeting of the retail merchants this morning the matter of observing the 24th was under discussion, and it was decided to close all day Saturday and to keep on Friday evening.

ON VAGRANCY CHARGE Charles Hayes appeared before Stipendiary Magistrate Allingham in the Fairville Court this morning charged with vagrancy. He was taken into custody last night near the C. P. R. station. It was said he will be kept in jail until arrangements can be made to have him sent to the Alms House in East St. John.

MAYOR WILL OPEN SEASON. Frank White, president of the Senior City Amateur League, called on Mayor Potts this morning and extended an invitation to His Worship to open the league season on Friday evening. The invitation was accepted. The first ball will be thrown across the plate by Mayor Potts at 7 o'clock that evening.

WARNS AMATEURS. F. J. Legge, secretary of the Maritime Branch of the A. A. U. of C., issued a warning today that before any amateur leagues open the season all teams and players must be properly affiliated with the union. He said that to date only a few applications have been received. Teams playing without receiving a sanction leave themselves open for suspension.

SATURDAY IS HOLIDAY. The common clerk reported this morning that his office had been called up by people who were anxious to find out whether Saturday or Monday was to be observed as the holiday. The matter of a change to Monday was discussed but His Worship Mayor Potts said after looking into the matter that as this was a statutory holiday it would be impossible to make any change in the day and therefore Saturday would be the holiday.

BOYS GET AWAY. Four boys, Howard and Edward Cunningham of Sussex, Wilfred Dixon of Nova Scotia, and Donald Payne of this city, succeeded in escaping from the Boys' Industrial Home last Monday and are still at large. Superintendent Parker said today that he expected to have them all back in the institution tonight, as it is said to be known where the boys are. The two Cunningham brothers were reported at Passakeag last night, and were expected to be caught sometime today.

WILL BE UMPIRE. Alfred Henderson, who is well known to baseball fans, will leave tomorrow for Nova Scotia, where he is to officiate as umpire in the Nova Scotia Independent League, composed of teams from Westville, Kentville and Yarmouth. He has had many years experience in baseball, having pitched for various amateur teams and later with the Veis in the professional league, and his friends are confident that he will make good.

As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "I want your opinion. I have just prepared, by special request, a little Book for Beginners, for the use of earnest civic and other legislators seeking knowledge. It begins thus—

"This is a court. It is a ju-ve-nile court. It helps boys and girls. It keeps them out of the police court and jail.

"This is a judge of the ju-ve-nile court. He is a good man. He does not send boys and girls to jail. He helps them to be good. He talks to them like a father. He talks to their parents and they do what he asks them to do. They know he is their friend and the friend of boys and girls.
