Bev. A. S. Morton, of Fairville the First President Increating Papers Read at Wednesday's Sessions.

The opening session of the conven-tion of Subbath schools and Young People's societies in the presbytery of St. John Tuesday evening was of more than ordinary interest. There was a large number present, and the Sath-bath schools and Young People's societies within the bounds were ver represented. Rev. J. S. sucherland Judge Forbes delivered an address of

welcome to the visiting delegates, which was replied to by Rev. F. W. Murray of Militown.

Rev. D. J. Fraser, B. D., made an admirable and foreible address, which was listened to with close attention.

The regular business session commenced yesterday morning in St. Andrew's school room. Rev. J. S. Sutherdrew's school room. Rev. J. S. Suther-land was the chairman, and he conducted the opening devotional exercises. Rev. A. H. Campbell was chosen

A nominating committee was named to nominate officers.

The subject of an ideal Sabbath school library was then discussed. Rev. T. F. Fotheringham opened the debate and gave many interesting statements, urging that every care should be taken to educate and elevate the tastes of young people by giving them only the best of literature.

The discussion was participated in by Rev. Eben Smith, Rev. J. Burgess, Rev. L. G. Macneil and Rev. A. S. Morton.

Mr. Leavitt's paper was pro-nounced most excellent and was atten-tively listened to. He said: "Young nen and women are convinced by such a society that religion deals intensely with life and with the complete life of mankind, and the effect is that the old notion of religion as dealing only with the soul and in the way of preparation for the future is discarled, and the nature responds to the more healthy view of religion as seeking the salva-

view of religion as seeking the salvation and uplifting of the whole life."
Mr. Leavitt being a practical worker, his speech was the more forcible.
Mr. Dodds read a well prepared paper on St. David's association, in which he paid a high tribute to Rev. Dr. Bruce's energy and perseverance. The Christian Endeavor societ'es was represented by Miss Clarke of St. Stephen, who gave a very excellent paper on that subject. Kev. J. A. McLein, B. #### TUESDAY'S PROCEEDINGS.

The second day of the exhibition found things in far better shape in all the departments, but with still much to do before everything could be said to be in perfect order. Carriages kept coming in throughout the morning and afternoon, and live stock and agricultural products that arrived late led the attendants at the lower gates pretty busy lives. By night fall, however, nearly every exhibit, save a few de-layed by the Toronto fair, were in position and will be in perfect shape for inspection today.

What will strike every observan visitor is the prominence given this year to amusements for the masses. This, however, is the tendency of the age, and like wise caterers, the exhibition management has made up its bill of fare to suit the popular taste. Years ago people were content with an indus-trial and agricultural show, supplemented by horse races. Now they want something very much on the lines of a circus.

THE MAIN BUILDING.

The building is now pretty well filled few feet from the secretary's office, on the northern side, is the jewelry booth of J. In the Shorthorns such exhibitors are to be found as Senator Cochrane of Quebec, Fred G. Bovyer of Georgetown, P. E. I., and Chas. Archibald of Truro. Senator Cochrane has been for a long time one of the foremost breeders of this class of cattle, and the herd that he has sent to the exhibition is particularly fine. Mr. Bovyer has nine Maugerville; F. J. Davidson, Windsor; head of cattle, one more than he ex. J. T. McAllister, Gagetown: As Bur-Shorthorn bull that cleared things out at both the St. John and Halifax exhibitions last year, is again on the grounds, but this year he has far stronger rivals than last year. Charles Archibald of Truro has a herd that is strong in every particular, and will prove a hard lot to beat. The only herd of Galloways on exhi-

bition is that of Senator Donald Ferguson of Charlottetown, comprising fifteen cattle. Among them is the sire of last year's sweepstake cow at the Industrial Fair at Toronto. These cattle came in for a good share of the crowd's attention. Two herds of Polled Angus cattle are also on exhibi-

In the Hereford class William Black of Amherst is probably the largest exhibitor, while Aryeshires are shown by Chas. Archibald of Truro, and John Ferguson of Charlottetown; a bull shown by the latter is quite a noted prize winner.

E. R. Brow of Charlottetown is again to the front with his herd of Guernseys. The Jerseys are mainly from New Brunswick and Quebec.

Quebec and Prince Edward Island

are specially strong in their exhibits of cattle. The pens heretofore occupied by pigs and sheep have had to be given over entirely to the former on account of

their numbe In sheep, F. G. Bovyer and Albert Boswell have good exhibits of Oxfords, Lincolns, Shropshires and Leicesters but they have very strong competition from New Brunswick, a Mr. Mullins having an especially fine flock of sheep. Senator Ferguson has on exhibition a few Shropshires, one of them a prize

In pigs, John Colbeck of Tryon makes a very good showing.

NOTES.

The Lt. Governor and lady, Hon. Mr. Blair, Hon. Mr. Labillois and Parker Glasier, M. P. P., and Mrs. Glasier of Sunbury county, were among yesterday's visitors.

The A. B. McLean Co. show a sample of belting 64 inches wide, 8 ply, the largest belt in the world. J. D. Turner has his customary lunch room on the grounds, where oysters are served in every style. The Carleton Cornet Band played

the following programme on grounds and on the stand, yesterday afternoon: March, Selected; selection, Wang; waltz; Visions of Paradise; march, Hamlin Rifles; waltz, Nantas ket; march, Red Men.

The provincial government road ma-chine arrived last evening and will be xhibited today.

The Canadian Order of Foresters exhibited today. have a booth in the eastern gallery, prettily decorated with bunting and green stuff. A register is on the table for visiting brethren, and the place is open for all to rest in.

The Independent Order of Foresters registered at their booth in the gallery yesterday the following visitors : A. E. H. Gripe, Toronto; J. H. Mar-ven Springfield; E. H. Hoyt, Andover; Rev. J. A. Cahill, Centreville; Rev. A. J. C. Gollmer, Lower Jemseg; W. C. Smith, Blissville; T. Hagerty, Lepreaux; W. C. Webber, Westport; W. C. Clarke, St. Stephen; G. A. Perley, chell, Fredericton; J. M. Powers, St. Martins; T. W. Abbott, Gagetown. The booth is in charge of William

Senator Ferguson told a Sun reporter yesterday that this season has been an exceptionally good one for the farmers everywhere, and this is very true in the 'sland province, where crops have been far above the average, the hay crop was good and grain and roots excellent. Dairy products have also proved exceedingly valuable commodi-ties to island farmers. The price of cheese has risen to such an extent that farmers are able to get one dollar a hundred weight for their milk. It is estimated that Prince Edward Island farmers will obtain \$40,000 this year for their dairy products, nearly double that which they received last year.

WEDNESDAY'S PROCEEDINGS. The third day of the exhibition show

ed not only an increased patronage, but a more perfect running of the entire show in all its departments. The dark and gloomy weather was against high water attendance, in that it deterred country people as well as residents of the city from leaving their homes, but the rain held off all day and the thou-sands who flocked to Barrack Point had a good chance to inspect all that was to be seen without being jostled by an excessive crowd. The out-door amuse-ment programme had to be consider-ably curtailed, and some of its best features eliminated in consequer the dampness, but enough was given to show what was in store for patrons under the most favorable climatic con-

Machinery hall is particularly serving of good words, and Supt. Allan is entitled to praise for the manner in The carriage house has filled up great-ly since the exhibition doors were pened, and is now the centre of attraction for a large portion of the vis-itors. Several of the exhibitors al-

ready report gratifying sales.

Amusement hall was well patron yesterday, afternoon and evening, and yesterday, afternoon and evening, and ro were the side shows and catchpenny stands around the grounds.

The dining hall continues to give the most perfect satisfaction, and patrons are loud in praise of the excellence of the meals and lunches served by the

THE ATTENDANCE Yesterday's attendance reached 4,877, which makes the grand total to date

For the first three days last year he total was 8,963. THE POULTRY SHOW.

The poultry house this year present pps of modern type have been place position, and when the whole hos conced there is reason to believe the upper province poultrymen will enter their birds in competition with those from Calais and other parts of Maine, which now constitute no inconsiderable factor of the exhibit. Poultrymen, it remarked, in sending their ex-

n inspection of the birds yesterda wed them to be as a whole in bet feather than last year, which was some extent an off season for plum While all the chief sections ar Langshans. well filled, the most pronounced advance is in water fowl, the geese and being greater in numb a high type. Turkeys, too, look well. In poultry there is an advance in what may be called the industrial lines, this practical era having a keener eye for the dollar and the table bird than for the combative and pugnacious game breeds. With the attention now being given by the federal and local govern ments to the development of the cap-abilities of New Brunswick to furnish a large supply of poultry for the Brit-ish market, it is most probable that poultry shows will henceforth take on

a still greater practical character. In addition to a large number of St John entries there are exhibits from Amherst, N. S., Pleasant Vale, N. B., Calais, Me., Fredericton, Upper Maugerville, Barronsfield, N. S., Sussex, Gibson, Maugerville, St. Martins, Gibson, Maugerville, St. Martins, Queenstown, N. B., and Compton, Que-

3rd. ART GALLERY. The art gallery under the supervision of Miss Fraser, is one of the attractive features of the exhibition The pictures in the gallery are exhibited by C. Flood & Sons, and are the equal of anything ever shown, both in commercial and artistic value. The collection of art and needlework is large and of a good order. This class has been most liberally patronized by exhibitors, and to a greater extent than ever before, their collections are of high order of merit. Among the ladies who are exhibiting are Miss Flora McDonald, city, who shows a beautiful centre piece, embroidered with popples, a sofa cushion and lace embroidery; Miss F. W. Murray, city, exhibits a very pretty centre piece and a collection of needle work; Mrs. Frank Potts, city, whose collection is one of the largest and most varied, has on view a sofa cushion and toilet set that attract favorable comment; Miss Gussie, city, shows d'oylies taste fully done in silk: Miss E. Clarke, city, has some point lace delicately worked, and a sofa cushion. In the glass cases are the exhibits of Miss Alice Nowlin and Mrs. Mullin. Mrs. E. R. Moore. DIDN'T WORRY THE COMPOSER.

A musical organization, intending to give performance of an oratoric, began to be armed about the probable cost of the pro-iction. duction.

Accordingly the director of the chorus said to the leader of the orchestra, who was a professional musician:

"We've got to keen down our expenses, and I thought I might get you to leave out the trombones. You know, they have only four measures in the entire oratorio, and if we leave them out we can save at least \$15, and no one will be any the wiser."

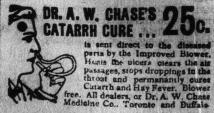

The leader of the orchestra was extremely shocked. Assuming a tragic attitude, he exclaimed:

After the adoption of the report, Rev. J. H. Hughes stated that the committees should be very careful what kind of a report they made regarding the temperance question, as he did not believe it was right for meetings of that kind to dictate to the government and it would only cause a feeling among the brethren.

Adjourned until evening, with trayer by Rev. M. Addison. THE NARROWS, Sept. 8.—The Frilay evening session of the Baptist convention of New Brunswick opened vith a devotional service led by Rev. S. H. Cornwall.

A large number of delegates were present from different portions of the The president stated that the session would be devoted to home missions. W. E. McIntyre, who was first

called on, in a very able manner dealt Bro. E. M. C. Barnes, the next

speaker, pointed out the great need of home missions and told of his experihome missions and told of his experi-ence in the work.

After a selection by the choir Rev.

I. N. Thorne spoke in the same line as the previous speakers. Pastor George Howard told of how a Christian to be a Christian must be a missionary and a Christian must be a missionary and must have a missionary spirit.

After the choir sang "Behold the Glory of the Lamb" Rev. C. W. Townsend in an able and effective manner spoke of the grand principles of the denomination regarding home missions, but deplored the lack of enthusiasm in the work.

The meeting adjourned with singing Blest be the Tie" to meet at 11 o'clock in the morning.

THE NARROWS, Sept. 9.—The Saturday morning session of the New Brunswick Baptist convention opened at 10 o'clock.

The committee on nominations reported Revs. R. M. Bynon, I. N. Thorne and J. Coombs as the temperance com-

necessity for a better quality of litera-ture for the instruction of the young people, and to employ a colporteur to carry it to the homes of the people. The report recommended that the books should be something of the nature of biographical sketches of missionaries, works of reference on the Bible and dictionaries for S. S. lib-

raries. The statistics of Bro. D. Branscombe showed: Reported sales, \$322.12; grants, \$8.62; expenses, \$21.96; miles travelled, 821; families visited, 1,098 collections, \$3.28; contributions, 50c.

o'clock. Reports were heard from different Sunday schools; also reports from the following county conventions of Queens, Kings and Kent Co. S. S. convention. The reports were en-couraging and showed an advanceent in the work of Sunday schools. Gladstone McLean and Dr. M. C. MoDonald were added to the executive

committee. The evening session opened with singing "What a Friend We Have in Jests," and prayer by Revs. J. H. Hughes and Cahill. Rev. S. D. Irvine read the 100th Psalm.

Rev. A. B. McDonald spoke at considerable length on the "Benefits to be derived from the Sunday School;" Rev. Mr. McIntyre on "The Benefits to be Derived from a Systematic Study," and Rev. Mr. Addison on "The Qualifications of a Teacher."
After singing "He Leadeth Me," Rev. Mr. Cahill spoke on the 'Benefits to be Derived from a Sunday School Convention," and Rev. Mr. Cornwall made a few well chosen remarks on "How to Study the Bible."

THE NARROWS, Queens Co., N. B. Sept. 9—The report of the temperance committee was handed in by Rev. R.

M. Bynon, and is as follows:

"The past year has been the most important Canada has ever witnessed on this great question. The prohibition plebiscite was introduced by the government. ernment and accepted by parlia and every protestant denog

and every protestant denomination.

"The provinces, outside of Quebec, rolled up a majority of 107,948. When we consider this vote was pure, voluntary and unselfish, when we consider the men who cast it are moral, lawariding Christian citizens, whose only remuneration is the consciousness of telping fallen man and receiving the approval of God; while on the other side is the saloon keeper, the brewer, the fallen inebriate [and Rome], those whohave violated our rights for sake of gain and rum, red-handed anarchy, ignoring our laws, spitting on our statutes, insuiting our flag, blighting, blasting, and damning the fairest

youths of our land, and with money wrung from helpless women and starv-ing innocency, have they fought with hellish fradulence and infernal hate against prohibition.

"Especially is this true of Quebec (where at some polls every vote was reported polled, though some of the voters were dead; there the liquor party, after election, estimated Quebec's majority against prohibi-tion forty thousand. The of-cial report showed 94,082. The ballot boxes stayed in the hands of the officers for an unreasonably long time. Good men have asserted that they voted "Yes" at polls where no "yes" was

"Yet have we triumphed. Standing with the God of Truth and the society we wish to stand with in the great Revealing Day of God Almighty, we have been victorious. In the whole dominion we have a majority of 13,916. "In view of this and of Quebec's appalling darkness, and believing if the Light of The Knowledge of the Glory of God had shone into their hearts and ives of that people such a vote would have been impossible,

"Therefore we, the N. B. Baptists in annual convention assembled,

vance gospel temperance by giving them this unspeakable boon; "Further resolved, We will not consent to remain in the coil of the rum flend; that nothing short of prohibition for the individual, the community and the dominion will meet our just, firm

and righteous demands; "Further resolved, We do regret the conduct and condemn the course our government has taken in ignoring our request, and treating with contempt the voice of our best citizens, whose servants they are, and whose mandate n honor they are bound to obey.

"Further resolved, We view with contempt the shifting acts and hollow hypocritical trickery of many journals on both the liberal and conservative side of politics, who have tried to exalt party above principle, and make pol-itical capital out of this great temperance cause. table until some other business before the convention was disposed of. Rev. W. E. McIntyre brought in the

Province. And in view of the fact that unanimity in the administration in his important work is very desirable; "Therefore resolved, That this con-

vention, in the event of the formation of such board by the association, agrees to hand over its home mission work at the end of the first year; provided such board shall make an annual report of its affairs to this body to be incorporated with its minutes from year

After a lengthy discussion the report was adopted. The temperance committee report was then brought up for discussion. Rev. A. B. McDonald thought the report very intemperate, and moved that it be handed back to an enlarged committee for modification. This resolution was debated in no mild terms by the ministers. Revs. R. M. Bynon and M. Addison spoke in favor of the report as it

Rev. E. K. Ganong spoke against the report, and said that this convention had no right to dictate to any government as to how they should co the business of the country, and as a religious body they had no right to interfere on this prohibition question, as t would stir up a feeling among the

Rev. Mr. Cahill replied in an eloquent address in favor of the committee's re-port, and said: "There was not a rum seller in the province but what could say Amen to all Rev. E. K. Ganong had said." He said he was a liberal, but if his vote could upset the Laurier government at Ottawa he would upset it at once for its trickery, and put in a better class of men. Bro. T. H. Hall then spoke against the report in much the same strain as the other speakers on that side.

Bro. M. C. Barnes spoke in favor of the report, and Rev. J. H. Hughes

The resolution of Rev. A. B. McDon-ald's was put to the convention and

mittee: Dr. M. C. McDonald, Rev. C. A. Cahill, Rev. M. Addison, Rev. S. H. Cornwall, Rev. W. E. Hall, and Rev. E.

The convention then adjourned to 2 The afternoon session was opened The arternoon session was with prayer by Rev. C. W. Townsend.

The first matter to come before the convention was the report of the en-

convention was the larged temperance committee.

Their report amended the first one by omitting the words enclosed in brackets, as indicated above, and in the last case substituted the word "parilathat it reads "condemn the course, our parliament has taken."

This committee reported unanimously; and the report was adopted by the convention without a dissenting voice. Senator King sat in the convention at the time.

OTHER REPORTS.

After the temperance question was disposed of the convention seemed to breathe easier. The report of the Grand Ligne mission, of Quebec, was read by Bro. Barnes, and showed that during the year the total number of pupils enrolled were 185. Of this number 116 were boarders in the school; 27 were baptized. The committee report a large amount of good work being done, and asks the Baptists of N.B. to contribute their share of the \$15,000 required to carry on the work.

the report was laid on the table until Sunday afternoon, when it would be explained in the meeting of the W. M.

Derly state of the real

The report of the state of the denomination was given by chairman of committe, Rev. W. E. McIntyre. It showed the ministers ordained were: F. W. Patterson, Cumberland Bay, October 17, 1898; W. J. Gordon, Kars, October 20th, 1898; E. P. Calder, Windsor, May 16, 1899; R. S. Smith, Little River, Kent Co., May 25, 1899; I. N. Thorne, and Elgin, July 5th, 1899, and W. M. Field,

Musquash, July, 1399. New houses dedicated: Tobique Valley opened December 25th, 1898; St. George opened January, 1899; Meadows, Charlotte Co., a section of the Baillie field, opened May, 1899; Lord's Cove opened November 27th, 1898; Bristol opened March, 1899; Middle Simonds opened (nc date); Alma, Albert Co., opened June, 1899.

After a little discussion the report The foreign mission report was brought in by Rev. S. H. Cornwall. It showed that there were seven churches ship of 314, and suggested that the convention endorse the raising of \$50,000 during the next two years for home and foreign missions.—Report adopted

A letter was read from Rev. J. W. Manning in connection with the ap-pointment of a committee to confer with the home and fcreign mission

board. Rev. J. H. Hughes brought in this resolution: "That a committee be appointed to confer with the foreign mission board as to raising the \$50,000, as suggested in Rev. Mr. Manning's let-ter, for the twentieth century forward

The question was debated by Bros. W. E. McIntyre, T. H. Hall, A. B. McDonald and Rev. Mr. Hall in favor, and M. S. Hall against, and was carried and the following committee appointed: Revs. W. E. McIntyre and S. H. Cornwall, and M. C. McDonald, M. D., Hon. G. G. King, T. H. Hall, Rev. J. H. Hughes and Bro. J. S. Titus. It was thought that J. R. Richards would not be able to act on the board of directors, and Rev. Mr. Gates was

placed on in his stead. The resignation of Peter McIntyre on the board of directors was accept-ed and Rev. Ira. Smith was elected. Rev. M. Addison resigned from the directorate and Rev. Mr. Camp was

The report on obituaries was presented by Rev. M. Addison. He spoke in feeling terms of the loss to the conin feeling terms of the loss to the convention and Baptist body of Rev. W.

Sunday morning session opened at 9 a. m., with a devotional service, led by Elder G. W. Springer.
From 10 to 11 Rev. R. M. Bynon conducted a model Sabbath school lesson from Ezra, chap. 1, followed at 11 o'clock with the convention sermon preached by Rev. J. A. Cahill, from Matt. vi., 10th verse, and John xvii: 21.
Sunday afternoon the W. M. A. S.
held a public missionary meeting. Mrs.
McIntyre, vice-pres., made a few introductory remarks as to the society, and after prayer Mrs. M. C. McDonald presented the greetings of the W. M.
A. S. of The Narrows, which was responded to by Rev. W. E. McIntyre.

Mrs. E. K. Ganong read an interestng paper on the true character of a Rev. S. D. Irvine followed with an earnest plea for increase of the foreign Lission work and spirit. Rev. Dr. Black, in a very forcible manner, presented the claims of the Northwest missions, and was followed

with an appeal for Grand Ligne missions by Rev. C. W. Downsend.

The meeting closed with prayer by Rev. C. N. Barton.

Rev. C. N. Barton.
Sunday evening services opened with a devotional service led by Rev. C. N. Barton, followed by a preaching service by Rev. M. Addison.

NARROWS, Sept. 11.— The closing session of the N. B. Sunday School convention on Monday morning openwith Rev. S. D. Irvine in the chair.

There was a small number of delegates present.

The first business was the discussion in an informal way the ways and means of preparing the normal lessons through the press and of the way the executive should lay out the plan of teaching and general work of the Sabbath school, in connection with the care that should be taken in not electing teachers who are selecting teachers who are not church members. It resulted in the following resolution by R. M. Bynon, seconded by Dr. M. C. McDonald; "That this convention recommend the annual election of officers and teachers; also public installation of officers where yearly statistics shall be given. The second Sabbath in May is recommended as installation day."

The following resolution, brought in by Rev. W. E. McIntyre, was unanimously carried: "That this S. S. convention shall meet in annual session on the Thursday preceding the regular session of the N. B. Baptist con-

After a lengthy discussion on the legitimate use of Sunday school helps, the convention adjourned to meet at the call of the executive.

ST. JOHN, N. B., SEPT. 16, 1899.

MR. BLAIR HAS BEEN COERCED The declaration of the minister of railways that he has adopted a policy for the Intercolonial, and will not re cede from it, recalls an equally strong declaration of independence made by Mr. Blair within the past ten years. When he was premier of the province of New Brunswick a number of influof New Brunswick a number of influential lumbermen on the Miramicht demanded a reduction of the stumpage rate on lumber cut on crown lands. Mr. Blair protested with strong emphasis that the stumpage was not too bigh, and declared that in the interes of the public he would refuse to yield to the demand. Finding that the lumbermen were organizing a ticke in Northumberland Mi Blair appealed to the rest of the province against them. He began the poly tical campaign of 1890 by a programme speech in which he denounced the Northumberland campaign and solemnly assured the province that come what would be would never so far forget what was due to the people at large as to permit the coercion of the government. New Brunswick from the Gulf to the border and from the Bay of Fundy to the Restigouche rang with the premier's note of defiance and de-

Only a few weeks after this public declaration Mr. Blair had sought out these Miramichi lumbermen and abjectly offered to surrender to them or their own terms. They got all that they had asked and much more. The reduction of stumpage was conceded at the outset. But that was not Mr. Blair was ordered to ce the control of crown lands in the hands of one of the Northumberland men whom he had denounced and by whom he had refused to be coerced. He surrendered on this point also and took the coercionist into his cabinet, placing him over the department in rmen were alone concerned. ## THE ONTARIO EXPOSURES.

The trial of the North Waterloo election now in progress is the last of fou such inquiries into Ontario provin sts. They have revealed a sy em of campaigning which has startled of the whole country. Corrupt pra-tices in elections are not new. Person ation of voters has been heard of b fore, and two or three cases of the stuffing of ballot boxes has been re corded in previous elections. But th recent inquiries show a con these methods carefully won an organized army of men paid, dril and equipped for the service. It was not a local combination but a general corps marched about from riding to riding, commanded by able leaders These chiefs, where they have escaped conviction by the courts, have been re-warded with offices by the federal and

dn case is probably not worse than the other three, but more is than the other three, but more is known about it by reason of the confession of the liberal candidate who was elected. In that election men who knew how to stuff ballot boxes or steal beliots were brought in from abroad. To give them a better chance they were made deputy returning officers. But as outsiders they could not hold this position. So it was arranged that they should present themselves under they should present themselves under they should present themselves under the assumed names of local men. They who are serving in the British signed the papers, took the oath, and held the poil under this disguise. At night they gave some local member of Oom Paul.

One of these personators was Duncan Role, an official of the Onterio government, who lives at the Sault, which is a long way from the poil he held under another man's name. Mr. Bole when summoned to appear in court remained away. It is believed that about forty ballots were doctored at this one poil. More than a month ago the attorney teneral of Ontario, was presented. tal of Ontario was presented wit petition signed by some eighty residents of the place where he committed the crime called for the crown to act The attorney general has not ever

The exposure made last week as to North Waterloo makes it clear that this seat, like the other three, was stolen by the Hardy government. With four seats so vacated, and a majority of only seven in a house of ninety three, Premier Hardy's situation is alerming. If he should pull through he will do it only by repeating the West Elgin and North Waterloo perform-

#### MR. TARTE APPROVES.

So far as can be learned, Mr. Tarte's paper is the only journal outside of which commends the Dreyfus La Patrie says that "another t than that which has been verdict than that which has been rendered could not have been pro

"nounced." It adds:

This new condemnation, if it be not of a nature to gratify the enemies of France, will at least be received with respect in the ranks of the French people. Let us hope that the verdict at Rennes will but an end to the discomfort which paralyzes the enforts of our mother country in the accomplishment of its glorious destinies, and that the deplorable divisions which for so long a time weakened it at home, and ruined its prestige abroad, will be buried with the last death struggle of this affair. From today an era of peace, concord and union will rise tyer France. The Dreyfus affair forgotten, France can prepare herself in caim and harmony to receive all nations at the triumphant exhibition next year to celebrate the opening of the new century.

The generals who first caused Dreyfus to be convicted without evidence, and who afterwards tried to justify

and who afterwards tried to justify the conviction by producing forged evidence, are convicted by every just man in all countries. But Genera Mercier, and Du Paty de Clam, and all the rest of the conspirators are the sort of men who would be expected to commend themselves to Mr. Tarte. The minister of public works was the bosom friends of the two McGreevys and the two Connollys, and was well satisfied with all their doings so long as they were free with contributions and endorsements. One day he came cut as the public accuser of Mc-Greevy. About this time, as was learned afterward, Mr. Pacaud was exploiting the provincial treasury the tune of \$100,000 in one transaction. A part of this Baie des Chaleurs money went to pay notes with Mr. Tarte's name to them. It was not known when Mr. Tarte suddenly the side of virtue" in the MoGreevy matter that he was entering into finrelations of this Et cial the Merciers with Quebec. Neither when the Merciers cauds

### THE TRANSVAAL.

The time is almost at hand when either Chamberlain or Kruger must yield. The last message from England, if not an ultimatum in form, is one in spirit. It is such a deliverence as must be followed by immediate action if the reply is not satisfactory The text of the reply has not at the hour of writing been made public. A great deal depends upon the message

from the boers. Mr. Bourke Cockran of New York counsels President McKinley to intervene for the protection of the Transvaal. This request would seem to be intended for the purpose of mis-chief to the president, whom Mr. Cockran does not love.

The Monroe doctrine does not apply to the Transvaal, or if it does it applies against interference. Besides the capturers of Cuba and

the invaders of the Philippines are hardly in a position to order Britain out of the Transvaal.

Oom Paul would do well to put no trust in the United States. If they should protect him they would annex him afterward. Then the last state of Kruger would be worse than the next to the last.

### THE EXHIBITION.

The St. John exhibition of this year is a good show.

The stock exhibit is the best ever seen in the maritime provinces The industrial, mechanical and com-mercial features are up to the usual

ments of the fair are far ahead of any previous fair in St. John. They afford ntertainment for young and old. It is said that the most interesting part of an exhibition is the people who attend it. They are pouring in this

year in larger numbers than usual.

The exhibition of 1899 is a success so far as the management can make it so.
The rest belongs to the people. If they keep it up as they have started this will be a banner year.

Over Ten Thousand People Were Present Thursday!

The Attendance Fully Five Thousand Ahead of Last Year's Figures for First Four Days.

Another Great Display of Fireworks Tonigh -A Phenomenal Programme of Sport and Amusement-See Nata's Startling High Dive, Afternoon and Evening.

#### (Continued from Page Three.) THURSDAY'S PROCEEDINGS.

Fine weather yesterday morning brought gladness to the hearts of the exhibition magnates, and spurred the exhibitors to burnishing up their stands and booths and otherwise preparing for the inevitable rush of visitors. By soon there was a fair attendance, and noon there was a fair attendance, and after dinner people trooped in such number that when the out-door amusements began the track in front of the grand stand was excircled by several thousand spectators. The programme was carried out without a fitch and delighted all beholders. Sanborn's Fr coach horses were universally nounced the most stylish and attractive exhibition of horse flesh ever seen on the grounds; the running and hurdle races evoked a tempest of applause and were as exciting as any past contests on Moosepath park; the trapez act on horseback was startlingly nal, but the gem of all was Bernice Nata's sensational high dive from the top of a tall polt into a tank at its base. This famous English swimmer is a British blonde, of fine figure and asing face, and is as much at home as a fish in the water. Her dive perfection, and she cut through air like a swallow. A storm of applause greeted Nata as she completed her daring act and stood bowing be fore the multitude. Many a lady's heart was in her mouth until the feat was over. The grand stand will doubtess be thronged this afternon to wit-

MOLASSES MARKET STRONG:

There is practically no Barbados There is practically no Barbados molasses in this market. Merritt Bros. & Co. shipped a carload to Quebec this week. They got an order for another carload, but could not fill it in the town. As there are no cheap grades of molasses in the market, the trade must depend almost wholly on Porto Rico, of which the stock is also light. Stocks are also light in the country, and prices are likely to go higher. Halifax has shipped nearly all its Barbados to Quebec, and has less Porto Rico than usual. ess Porto Rico than usual.

### MAJOR DOWLING OF CALGARY.

The death of Major Dowling of Calgary is 'amounced.' The following sketch of this energetic officer is taken from a Calgary letter in the "Canada West" series, which appeared in this

paper two years ago:

If Calgary is rich in cattle it is richer in traditions. It is not the oldest of the Hudson Bay posts, but is one of the best. Once there were is one of the best. Once there were wild days in Calgary. When the rail10ad was building the place was full of stragglers. The Indians were then at large. Liquor was plentiful and all sorts of wild doings prevailed. Two New Brunswick men are connected with the history of the establishment of law and order in the community. Major Dowling of Fredericton was very early on the scene. It was to some happy mistake, so it is said, that the town owes a picturesque feature in its development. There were two Mr. Dowlings. One was a young and sturdy man who was to have been appointed a police officer in Calgary. The other was an experienced person, who was booked for a customs office. The babies got mixed. The customs officer was made inspecter of mounted police, and the stalwart was obliged to repress his energies and keep books. How many years it was before the mistake was discovered is before the mistake was discovered is not stated, but Major Dowling, who was intended to be a customs officer, turned out to be a terror to evil doers as an officer of the peace. In these early down he was prosecuting officer, informant, shariff and judge. The law was indefinite and the major had large opportunities of interpretation. His urisdiction was civil and military, his trials were all the way from summary conviction to a court martial, and covered all offences from the importation of whiskey in a barrel of flour to bigamy. The lawyers of old times still tell wonderful stories of Major Dowling's proceedings in the case of abduction of females and other sensational offences. Major Dowling is an old man now and has no jurisdiction worth mentioning, but he is able to tell many interesting stories of old times and how he kept the peace in

THE LUMBER TRADE.

antly enough in the interview I had

with him, but I will keep his stories

Some high prices for lumber have lately been realized in New York. A St. John firm got \$21 for some long wide deals of special specification. The price previously quoted had been around \$19, but this was a particularly desirable lot.

Homan & Puddington's circular of Sept. 9 says: "During the last week several cargoes of spruce randoms were sold on our market at good pri-

Arthur Cogswell, accountant for the Halifax Banking Company at Lunenburg, was in the city yesterday. He says that the fishing industry, which is the largest interest in the town, is the largest interest in the town, is flourishing, as the catch has been fair and the price is high. The demand exceeds the supply, as when Mr. Cogswell left Lunenburg several West Indian vessels were in looking for fish Grapes, grown under glass (7 entries) exceeds the supply, as when Mr. Cogs-well left Lunenburg several West In-dian vesels were in looking for fish cargoes that were not, forthcoming. The fishermen go shares with the owners of the ship in the result of the trip, and some of the more thrifty own shares in the vessels. Some of the capitalists own shares in a large fleet. Mr. Kaulback, M. P., for instance, is interested in thirty or forty fishing craft. Mr. Cogswell says that the Lunenburg folk are naturally pru-dent and industrious, but the nature of the fishing business favors the credit system, which is not always for the benefit of either debtor or creditor. Those who suppose that the descend-ants of the Germans who first colonized Lunenburg adhere to the primitive simplicity of their ancestors are much mistaken. Lunenburg is modern in its houses, its dress and its manners. In the rivalry between Bridge-water and Lunenburg, each side main-tains its case with the same spirit that is seen in the friendly competition of

knows by experience what the I. C. R. time table is like. The man who takes the early train from Moneton has to start before breakfast, and the man who waits and takes the secommodation (five hours to St. John) has to go without his dinner. Possibly the minister may be made to see the necessity of saving axle grease by butting an end to running the Sussex train to Moneton, and by urging the accommodation to "get a gait on."

YARMOUTH, N. S., Sept. 6.—All the meetings of the Bible conference today were held in Zion Baptist church.

Rev. R. P. McKim spoke with great acceptance from Acts 1:3. He was followed by Dr. Pleirson and by Evangelist Martin, who took as his subject the bringing of the ark into the temple.

Miss McLaurien at the afternoon session discoursed on the Syrophenician woman. Rev. H. B. Gibberd next stirred up the conference on the subject of personal effort, giving many striking examples.

After this meeting the Sunday school workers present remained to organize the county for a convention. The following officers were elected:

President, Rev. W. F. Parker ist vice-pres. Rev. E. Braithwaite sec. Rev. Mr. Crowell: cream, Mr. Burton: representative to provincial executive, the above with Rev. Mr. Miller and Hon. A. Gayton and Mr. Hermes.

On Saturday night last an informa meeting of ratepayers of the village and station was held in the agricultural hall, Cornelius Sullivan, J. P. in the chair. No public notice had been issued calling the gathering to gether, or the gathering would doubtless have been much more generally attended. Indeed, it is understood that only one of the councillors received a written request to attend. However the meeting proceeded to nominate councillors for the ensuing year, Samuel H. Flewelling and Henry J Fowler being the gentlemen selected, both of whom accepted the nomina-tion, which was quite numerously signed at the close of the meeting Had public notice been given and the attendance been sufficiently represent ative, the feeling of unanimity might have been sufficiently strong to preclude the necessity for an election, but under present circumstances it looks as though five candidates will be in the field, and a lively contest will be the result. In addition to the gentle-men named, Fred M. Sproul, one of the present councillors, George H. The bridesmaid, Miss Maud King, sister of the groom, wore white organdie over heliotrope, and carried a bouquet of lavender sweet peas. The maid of honor, little Miss Winifred Smith, wore a pretty dress of white organdie. After the ceremony, luncheon was served to the wedding party and guests, after which the young couple drove to the depot and took the C. P. R. train for Montreal. They will visit Toronto, Niagare Falls and Quebec. They received many beautiful wedding gifts. The groom's present to the bride was a prooch of diamonds and pearls, and to the bridesmaids a feur-de-lis of nearls. The bride's father gave an oak case of silver, engraved with the bride's mon-

The pleasant summer resort, Duck Cove, has many social events, but the st wedding took place there Tuesday, when Miss Madeline Prince, daughter of the late Henry Prince of Truro, was united in marriage to John A. Reid of Fredericton, formerly with the Ames Holden company in this city, The marriage took place in the afternoon at the summer cottage where Miss Prince and her mother have been staying. There were only a few invited guests, but the summer residents were present in force to witness the nuptials and give congratulations. Rev. John Prince of Moncton, uncle of the bride, performed the ceremony. The bride wore a very becoming travelling suit of blue with hat to correspond and carried a large bouquet. She was unattended. After the ceremony Mr. and Mrs. Reid took the afternoon

train for Fredericton. They received At Trinity church, Kingston, Tuesday, the marriage was solemnized of Grace Florence, youngest daughter of the late Wm. A. Carter, to Melcolm R King, son of Senator G. G. King of Chipman, N. B. The bride was becomingly attired in a handsome travling suit of grey cloth, with hat to of roses. She was attended by her four little nieces, Miss Edith, Royce, Norah and Mary Carter, who were prettily dressed in white and carried baskets of flowers. Rev. H. S. Wainwright performed the ceremony, at which only the near relatives of the bride and groom were present. After luncheon had been served at the home of the bride's mother, Mr. and Mrs. King took the train at Rothesay for a trip to Quebec and Montreal. Many handsome and useful presents were received from the friends of the contracting parties.

ABOUT TESTING CATTLE.

It is stated that the board of health will not accept the testing of some herds of cattle in Kings county by a Nova Scotia veterinary. In a disputed case referred to in the Sun last week, it appears that when a local veterinary made the test of the herd several of the cattle reacted. owner, not satisfied, called in the Nova Scotia surgeon, who tested them and there was no reaction. The matter was referred by one of the parties in-Bachern, who replied that in such a case the first test would be the correct one, as it not infrequently ocwould be no reaction. As the board of health must be satisfied in the matter, it appears that local veterinaries must be employed by all owners of herds sending milk to St. John. The Sun is informed that it was not necessary to get a man from outside the province to avoid cost, as at least two local men could have been called on. The majority of the herds have been examined by the men appointed der the board of health regulation.

BACK FROM DAWSON. John Dibblee, brother of Beverly Dibblee of the C. P. R. train service, and a native of Norton, Kings Co., has been in town a few days. home is in Boston, but he has travelled widely for a young man, and s but recently returned from Dawson City. He went into the Klondike country last year and came out by way of Atlin in the spring. He has a ine collection of small Klondike nuggets, and much more valuable nuggets of experience. He says that on several occasions while journeying in that region he had hair-breadth escapes from accidental death. Dibblee is of opinion that the Klondike gold will be exhausted in a year or two, as no rich strikes have been made for a long time and the old ones are being worked very actively. He is not greatly enamored of officialdom as it is represented in the Klondike.

#### GLADYS PEROT

Accompanied by Her Grandfather Arrives at Halifax.

Were Passengers from England on the Steamer London City.

The End of the Famous Kidnapping Case That Created Such a Sensation Some Months Ago.

HALIFAX, N. S., Sept. 12.— When the steamer London City reached hen dock last night after a rough voyage from London, among her passengers who debarked was an elderly gentleman, bearing every evidence of the man of taste and wealth. He was accompanied by a dark-eyed little girl of a serious caste of countenance, who clung to his hand. The one was Wm. H. Perot of Baltimore, the other was grand-daughter, Gladys Perot, whose kidnapping in Baltimore by her mother, the former wife of W. T. Perot, and dramatic flight across the ocean, were the talk of the continent two months ago. Mrs. Perot was formerly Miss Sponagle of Liverpool, a small village 100 miles west of this city. The Perots name was not on the steemer's passenger list, although it appeared on the list furnished to the immigration authorities, as required by the Canadian law. On that list both names appeared.

Mr. Peret came from London for

Baltimore via Halifax for no other reason than to escape observation. He was met at the wharf last night by the Mesars. Wainwright, sons of Mrs John T. Wainwright, and was driven rapidly to her house on South Park street, in the fashionable part of the eity. I called there in the hope of being allowed to see Perot, but they refused admittance absolutely, and no one has been allowed to call on him all day. Early in the evening the house was barred and the inmates would not respond to the ringing of the door bell, or any other signal from the outside.

It was in Bermuda that the Waln wrights became acquainted with Perot, and the intimacy there formed was the reason for the part the Wain-wrights have taken here in the effort to keep the movements of Mr. Perot and his grand-daughter secret. Tickets were bought for them today via Yarmouth for Boston, and it was stated their intention was to leave tomorrow morning, but this plan may be altered, either at this end or en

VANDERBIL DEAD.

Cornelius Vanderbilt, the Head of the Famous Family Passes Suddenly Away.

NEW YORK, Sept. 12.— Cornelius Vanderbilt, the head of the Vanderbilt family, died at his residence in this city at 5.45 o'clock this morning from a stroke of paralysis. Mr. Vanderbilt was in his fifty-sixth year. At his bedside when he died was his wife. No physician was in attendance. The attack was very sudden and entirely unexpected, and it was impossible to reach any physician before death occurred: Dr. Francis Delafield, had been attending Mr. Vanderbilt, arrived at the house after Mr. Vanderbilt's death had occurred and pronounced death due to cerebral hem-

The funeral will be held in St. Bartholomew's church, probably next Friday, and Bishop Potter and the rector, Rev. Dr. Greer, will officiate at the service. There will be a meeting of the Vanderbilt lines next Thursdey to pass appropriate resolutions of respect to Mr. Vanderbilt., All the members of the family have either called in person or sent telegrams with the exception of his son, Alfred,

who is now ravelling in China. Chauncey M. Depew, who was a near friend and business associate of the deceased, reached the house at about 7.30 o'clock. He was visibly affected. He remained a short while and when he came out there were tears in

his eyes. Wm. K. Vanderbilt, jr., and his wife called early and remained some time at the house. Then Wm. K. Vanderbilt, jr., went for his father and brought him to the house. The father was so much affected when he caught sight of the house where his brother lay dead that he clasped his son in his arms and kissed him. They walked together arm in arm into the house, shedding tears.

Coroner's Physician Dr. Hamilton Williams made the inquest into the cause of death, and found that it was eause of death, and found that it was due to cerebral hemorrhage. Coroner Fitzpatrick also viewed the body and indorsed Dr. Williams' finding. Permission for burial was given and the body was embalmed.

A special detail of policemen are on duty at the Varderbilt house.

NEW YORK, Sept. 11 .- A letter to the Associated Press from Kingston, Jamaica, says:

CATHARTICS CANNOT CURE

# CHRONIC CONSTIPATION

(Catarrh of the Liver.)

FIRST-Because Cathartics do not second—Because they waste the Bile and thus drain the system. THE BILE IS NATURE'S PURGA-TIVE. It is extracted from the blood by the liver and poured into the bowels. But when the bile has done

its work in the bowels it should go back into the blood to enrich it. Cathartics prevent this. They irritate the bowels so that these organs instead of re-absorbing the bile, throw it violently out. It passes away in the evacuations, often burning and smarting on its way out. The blood becomes gradually impoverished from this drain. Each time it is harder for the liver to extract the bile from the

cathartics have to be used. As more and more bile is lost the blood grows poorer and poorer. It may not seem thin, because it is clogged with impurities. But it lacks the rich life-giving properties. The sufferer, because of the poor state of his blood, feels dull and heavy, without energy or ambition. His appetite is variable. He has a tendency to th "blues." And all the time the consti pation grows steadily worse.

THE LIVER.

With Dr. Sproule's treatment all this is changed. The liver is gently but surely cured of the cause of the trouble-the catarrh of the liverwhich prevents it from doing its work. It begins to produce bile in small natural quantities. Easy regular movements are thus established. At the same time the bowels are toned up. As a result they no longer eject the tile. They re-absorb it. It goes back into the system. It carries with it new health and strength; NEW LIFE from the food with which it has come in contact.

The whole system feels the change. The dull heavy feelings disappear. The weakness vanishes. The circulation improves. The mind grows clear. "blues" depart. The patient 'feels'like a new man." Best of allthe cure is permanent. Dr. Sproule has done all this for thousands of others who had suffered for years.

BOSTON LETTER.

Talk of Boycotting the Paris Exposition for Dreyfus' Sake.

Another Blast From Manila-Not the Rev. Simpson-Recent Deaths.

Trade Continues Very Active—Lumber Prices Fully Sustained-Fish Firmer.

(From our own Correspondent.) BOSTON, Sept. 10.—General business throughout this section continues sat isfactory, and it is the unanim verdict that times are better than the have been since 1890. To be sure i costs much more to live than ever be fore, owing to the high prices of meats and other provisions, but the opportun employment has not bee equalled for years. The era of high prices is expected to last three or four years, if the various trusts and com-binations have their way, but it seems certain a re-action is bound to come sooner or later, as has been the case invariably in the past. The good times are not confined to this country, but in fact seem to extend to most all

The interest in the Dreyfus case wa intense here, and the announcement of the verdict created widespread indignation. The American people appear to be a unit in the condemnation of the French military. The action of the Rennes court martial is looked upon as a black stain on France, which will require years to efface. Many promin-ent Americans are in favor of boycotting the Paris exposition next year and others propose a boycott on French goods of all kinds. At a meeting of reminent St. Louis merchants and other business men last night it was voted to hold aloof from the exposition and have nothing whatever to do with

it. Strange to say, some of the Demo affair as an argument against the ad-ministration (or mal-administration as they please to call it) of President Mo Kinley. Ex-Governor John P. Altgeld, of Illinois, who has been called an anarchist by the Republicans, says that the Dreyfus case is one of the natural sequences of the domination of militarism, and that such evils would result here from the mainutenance o a large standing army in the United States. President McKinley's enemies claim that he is in favor of establish ing a great standing army in this coun try, and that such an army would be menace to liberty.

The blueberry trade from the provinces has been quite brisk this season and large consignments have been re-ceived by both rail and water. The business seems to be about equally divided between New Brunswick, Que bec and Nova Scotia. The Prince Edward Island trade also assumed large

The drouth which has prevailed in Maine and other sections of the New England states continues, the showers of a few days ago having had little efneed of a long rain is severely felt, especially by the lumber industries. The Penobscot river is at a very low pitch, so that the lumber mills depending wholly upon water power are in some cases able to run only a part of their machinery, and the output of lumbe is curtailed just at the time when i should be at top notch.

A dispatch from Maine says that no since 1874 has there been such a demand for all kinds of lumber, long and short and the production up to within a month, has been nearly equal to the demand. The August survey on the Penobscot river of manufactured lumber was the largest on record for that month, reaching a total of 31,000,000 feet, and in order to meet the calls for lumber the surveys in September and October should be fully as large, but the prespects for such an output are not encouraging.

The sensation of the week in political and newspaper circles was the publication of a long letter from Robert M. Collins, one of the correspondents of the Associated Press in Manila, to Melville E. Stone, general manager of that organization. The letter, which was sent in reply to a request from Mr. Stone for an explanation of the system of censoring of news despatches which prevails there was a revelation to the American public. It shows that not only have the newspapers of the United States and Canada been victimized and a mass of lying stuff scattered broadcast through most of the civilized countries through most of the civilized countries of the world, but a hideous array of blunders and scandalous acts has been perpretrated in the Phillipines by the American military leaders, and that the whole censorship business has been used to blind the people at home and supress facts which might be damaging to President McKinley and his policital advisors, who are endeavoring to conquer an unwilling race. It was not intended that this letter should have been made public, but when one of the directors of the Associated Press got hold of it he decided to print it. The communication shows that none of The communication shows that none of the press associations, ror any of the correspondents in the Phillipines are to blame for the garbled reports sent from there. The blame is generally attribut-ed to Gen. Otis, the American com-mander, and his subordinates. Mr. Collins says that under censorship sys-

Collins says that under censorship system "every fight became a glorious American victory, even though every one in the army knew it to have been substantially a failure, and we have been drilled into writing quite mechanically, wholly ridiculous estimates of the number of Philipinos killed." Mr. Collins quotes one of the censor's comments on his refusal to forward a genuine news despatch. The censor said: "Of course we all know that we are in a terrible mess out here, but we don't want the people to get excited about it." When the newspaper men served their famous round-robin cn Gen. Otis the latter threatened to have them court-martialled. Mr. Collins says that Admiral Dewey and Dr. Jacob G. Schurman (the latter a native of P. E. Schurman (the latter a native of P. E. I., and one of the American co sioners) were the only two men of the calibre of statesmen the government

had sent to Manila.

The springs lumbar trade continues

The spruce lumber trade continues brisk, with prices fully sustained. As the demand from New York is much better than here, and prices have been pushed up \$1 there, most eastern mill men are turning their attention to the metropolis. The Cup Challenger's Steel Gaff Broken During a Trial Spin.

As a Result of the Accident it May be Week Before the Big Yacht is Ready for Another Trial.

NEW YORK, Sept. 13.-After escap ng destruction in Monday's storm, Sir Thomas Lipton's challenge yacht Shamrock met with an accident today that would surely have lost her the race had she been contesting with the Columbia for the possession of the America's cup. Her steel gaff broke at a point about

ten feet from the jaws, and if she has not another gaff ready of the same length it will be at least a week before she can sail again with the mainsai she set today, for the present gaff and boom are the ones she is to race with in October, and the mainsail will not fit the spars she discarded on Tuesday Leaving her moorings at 19.05 this morning the Shamrock proceded under her own sail to Scotland lightship, where a start was to be made for a run of 15 miles to leeward and return

against time.

Although she had no opponent, Captain Hogarth put her through a lot of moves to get ready for the signal at 11.40. At that moment her spinnaker was broken out to port and she crossed the line a minute later going at a 1 knot clip, for the wind increased to 15 knots just before the signal was given. At 11.47, just six minutes after the

start, the gaff broke. The main boom start, the gaff broke. The main boom being swung broad off to starboard, the throat halyards would not overhau after being let go, and nearly to min-utes elapsed before the crew were able to get the mainsail down. They had finally to cut the hoops clear of the mast, and when the Erin's launch had towed the yacht's bow head to wind they were able to get the sail on deck The club topsail hung at the masthead

At 12.45 the tug Lawrence took th Shamrock in tow. She arrived at her moorings an hour later. She was first taken alongside the lighter Ulster, where the broken gaff was deposited.

LETTERS FROM THE PEOPLE. H. B. Hetherington and Some Queens Co Matters

To the Editor of The Sun: Sir-It seems that nothing so aggravates the "Blairites" as to have their peculiar election methods exposed, to cave a have given to the public a full descrip- Kings college, Windsor. tion of that particular brand of magnetism by which Blair and his "heelers" cast their all powerful spell upon the electorate. I notice that my few from business three or four years ago, remarks at the Coles Island picnic has been living a good part of the have aroused the ire of the Gazette, and as a consequence I am made the and as a consequence I am made the subject of a column editorial in the daughter, Mrs. W. Saturday issue.

Of course Gazette articles are neither conspicuous for their truthfulness nor remarkable for the amount of information they contain. The article on the "Game Law" is not above the average, and in reading it I was continually reminded of the title of that old time popular air, "The Old Man's Drunk Again." Nothing else can explain that verbose and very clumsy misrepresent

ation of well known facts.

The remark that caused the excitement was in regard to the violation of the game law in New Brunswick being used as a bribe to influence votes. He says that I am responsible for the difficulty in enforcing the law. Can the Gazette, or any one else, give a single case where I have ever advised any one to violate the law? I challenge the Gazette to produce the name of a single man who voted for Farris and Carpen-

tion, the case has been carried to the

who is generally supposed to be in close touch with the government wire pullers.

Again, the complaints against the Again, the complaints against the "Woods and Hetherington voters" are always made by the paid spies of the government, and it is a well known fact that some of these informants have caught deer with dogs during the close season. The conservatives are not informers, but feel that the paid agents of the law should track the Farris and Carpenter men as well as others. One man who was supposed to have slaughtered moose illegally and to be in danger of information being lait, was apprehended by a government official and told to make some arrangement with the game commissioner. frent with the game commissioner about the matter. The nature of that about the matter. The nature of that arrangement can be determined by other arrangements, which have been made in similar cases by "grit" heelers. A few years since a resident of Coles Island was convicted and fined for a violation of the Scott act. He was told that if he would vote and use his influence for a certain candidate at a then pending dominion election that nothing more would be said about

the fine. He did so and the case was Mr. Farris has lately refused to grant any road money to a certain section of "Bagdad," because the resi-

section of "Bagdad," because the residents there did not vote for him. If yubit money is to be used as a bribe is it not reasonable to conclude that violation of the game law, as well as violation of the Scott act, could be made a matter of arrangement? Why does the Gazette so emphatically affirm that the man against whom the warrant has been issued will be convicted in spite of my assistance "as attorney in the case," of it be not for the puriose of making that man go on purrese of making that man go on his knees to Farris for assistance? If the reference is to Sydney Perry, I can assure the "Gazette" that he has defence sufficient to clear him before any fair minded magistrate. If the game law has not been used for the benefit of the Farris and Carpenter men, how does it happen that the names of tory guides have not been registered by the game warden. One was approached on election day and told that if he would vote Farris and Carpenter the government would assist him in getting "spoils." The "heeler" in this instance was advised to emigrate to a land where he would-n't need any winter clothes.

I can assure the Gazette that the farmers of Brunswick are not dogs to lick the hand that smites them. That the conservatives of Johnston and Brunswick are determined to stand together, come what may. That if Sydney Perry or any other man be unjustly fined the money will be made up by his friends, That all the statements contained in this letter can be supported by affidavits of re-

liable parties if necessary.

If these facts are not sufficient I have lots of a similar nature to begiven to the public. Thanking your for your valuable space, I am, Mr.

RECENT DEATHS

Yours truly H. B. HETHERINGTON.

Mrs. John W. Weldon, widow of Honorable Mr. Justice Weldon, of the supreme court of this province, died at Halifax Monday morning, at the age of 81 years. She had been in failage of 81 years. She had been in fall-ing health for some time. Mrs. Wel-don had resided in St. John for several years, and was very much liked in this community. Her maiden name was Susan Haliburton, and she was a daughter of the late. Hon Justice Thomas Haliburton of Nova Scotia, whose writings as "Sam Slick" made whose writings as "Sam Slick" made his name famous. Her brother, Sir-Arthur Laurence Haliburton, long pern a pertunder secretary in the English war office, was lately raised to the peerage. Her sister is the wife of Dean Gilpin of Halifax. There was one son by her marriage with Judge Weldon, Haliburton Weldon, but he died soon after he reached manhour. a circumstatice which his mother never ceased to deplore. She will be interred beside him on Thursday next at Windsor, N. S., a place which her father's writings has made classic ground. The late Charles Wesler Weldon, M. P., was her stepson. Mrs Weldon was at one time a great col-lector of china, in which she was

The death occurred Monday afternoon of William R. Russell, long one of the best known merchants of this city. Mr. Russell, since his retirement time in Boston, but came here spend the summer and lived consider was preparing to return to Boston, and on Saturday sold all his effects. He was to have left last evening, but he was taken ill and passed away shortly after two o'clock. Mr. Russell shortly after two o'clock. Mr. Russell' was sixty-two years of age and a native of this city. He was for many years a successful clothing merchant on King street, was a genial, kind-hearted citizen and made hosts of friends, who will hear of his death friends, who will hear of his death with sincere regret. Mr. Russell: leaves a widow, formerly Miss Scribner, of this city, and two daughters. Mrs. Purchase and Mrs. T. M. Pengilly of Boston. He was an active member of the Masonic traternity. He was a past master and for many years treasurer of New Brunswick lodge, a member of Carleton chapter and of the Encampment of St. John.

On Sunday Robert McKay and Roman companion, who were out rowing, were

man who voted for Farris and Carpenter who was convicted or even tried for a violation of the law. Failing in this, the Gazette statement concerning the two alleged violators, one liberal, one tory, receiving the same fine, loses its force. The Gazette also informs us that "in every case where violation of the law has been reported to the chief game commissioner, where there was sufficient evidence to warrant prosecution, the case has been carried to the chief that the companion, who were out rowing, were companion and the falls, to wait until the tide changed so that they could get through the changed s companion, who were out rowing, were compelled to land at Goat Island, in was John Walsh, who for several years has been the solitary inhabitant of the island. Six years ago he and his wife were found living there and tion, the case has been carried to the courts. Two of the cases have been tried outside the county."

Quite true, but the "evidence sufficient to warrant prosecution" is to prove first, that game has been slaughtered; second, to show that the hunter voted for Woods and Hetherington. Then to make conviction a certainty the violators are carried out of the county and tried before a magistrate who is generally supposed to be in close touch with the government wire pullers.

Amendment of the cases have been that were found living there and the police removed them to the alms house. Mrs. Walsh died since, and her husband left the institution and went back to his hermitage. Relatives at Strait Shore wanted to give him a home, but he would have nothing to do with them and persisted in living alone on the almost inaccessible place. The men who found him on Sunday gave him some food they had with them, and attended to him as well as they could, and when they got. well as they could, and when they got on shore they reported his condition to the police. On Monday morning word was received from Murray's mill that some of the men had found Walsh dead in his shanty. Capt. Hastings sent word to Coroier Roberts and he being out of town, secured Coroner Walker and together they went to the island at once. After making some inquiries, the coroner decided an inquest was not necessary, and gave the necessary permission to Walsh's relatives to take charge of the remains.

ment would suggest an appropriation to compensate Mackenzie and Mann for their expenditure in connection with the Yukon railway contract. A doubt exists in some quarters as to whether the contractors really have a degal claim against the government.

The contract was subject to the approval of parliament, and as Mackenzie and Mann entered into the contract on this understanding, and as parliament did not ratify it, it is held by some that the whole thing fell to the ground. There is a disposition, however, in ministerial circles to recompense I kenzle and Mann for their expendi-but it has not yet been determ what method to pursue. OTTAWA, Sept. 14.-Co Larke, writing from Sydney, again calls attention to the manner in which Canadian manufacturers and exporters are neglecting their opportunities in Australia, He says orders are not filled promptly, and in many cases their receipt is not even acknowledged; packing cases are defective; the contents of cases are not marked upon them, and invoices are made out at prices higher than quoted in the first instance. Altogether Canada is missing glorious opportunities for trade at

The new government steamer Lord Minto, for the Prince Edward Island service, sailed from Dundee for Can-ada today.

At last the wish of the shipping in-terest for a direct telegraphic service to and from Belleisle is within a measurable distance of consummation. Parliament last sesion voted the necessary funds to extend the north shore line from its present terminus at Big Ro-maine to Chateau Bay, Labrador, opposite Belleisie. The distance to be covered is 315 miles, and the contract has been awarded to X. Gendreau of Quebec. C. J. Bickerdike of Montreal has received the contract for furnishing the necessary poles. It is not yet decided whether the terminus at Chateau Bay and the lighthouse on Belle-isle will be connected by cable or not It is feared that the cable might be injured by the grounding of icebergs in ments will be made with wheless telegraphy to see if communication can be managed between the lighthouse and the Chateau Bay station in this way.
