ARTISTIC DISPLAY
OPENING NIGHT
OF E.D.C.'S BIG FAIR

Autumn Woods Reproduced in Miniature At Mission Hall—Mayor Bullock Lauds Good Work in Eloquent Address.

Sylvan groves with all their enchantments are faithfully reproduced at the Autumn Fair of the Every Day Club, which was opened in the Mission Hall, Waterloo street, last evening. Realizing that a touch of nature makes the whole world akin, the promoters of the fair have spared no effort to represent the beauties of the autumn woods and have succeeded admirably.

The eye of the visitor is caught by the wealth of greenery, the rich relief note supplied by the bunches of red rowan berries and the crowning glory of the tinged autumn leaves. One can almost feel the tang of the forest air and imagine the busy little waterfalls which fall about in the woodland, nymphs whose sole duty is to minister to the visitors in their midst.

Mr. A. M. Belding, president of the club, occupied the chair and before introducing the mayor, paid a tribute to the ladies who had done so much to make the fair a success. He announced that a Ladies' Auxiliary would be formed in connection with the Every Day Club.

The Mayor's Address. Mayor Bullock said that knowing of the good work of the Every Day Club he had accepted very readily their invitation to open the fair. There was abundant evidence that the committee had worked hard and had accomplished their task well. He hoped to see the club installed in quarters of their own for he believed in the work it was doing. The club was the result of the labor and zeal of a few of the members and now they had the best organization of the kind east of Montreal. The work was practical, not theoretical, and as the people reaped the benefit they should appreciate the club.

Never in the history of the human race has his worship, "has there been so close a study made of individuals as today. When a man achieved distinction he was raised above his fellows, his opinions were quoted for mottoes, his opinions for oracles. The Every Day Club aimed to make men better to themselves, more useful in society and to render aid and assistance. It is the reason it has left the impress upon so many individuals and also upon the community at large."

The Attractions. The many attractions were then thrown open to the public and a fair street enjoyed the amusements provided. On entering, to the right, is the candy booth where delicious confections are disposed of by obliging young ladies. The fancy booth has a splendid supply of fancy goods and the flower booth, also on the right hand side, is very pretty. At the end of the room, there is a large refreshment booth where iced cream, and light lunches, his sandwiches, dainty, hand-painted menu cards are used and much favorable comment was heard regarding the appearance of the cards, which were the work of a young and promising artist, Miss Kathleen Walker.

M. DURANT LOOKS
OVER THREE SITES
BUT NO DECISION

Vacant Lots On Strait Shore Inspected In Addition To Others Offered—Something Definite Expected Today.

Nothing definite transpired yesterday in the negotiations for the establishment of a sugar refinery in the city. Mr. E. C. Durant and Mr. M. H. Day, who reached the city on Monday after a visit to St. Andrews, had a conference with the Mayor of Trade Council and later the mayor and such information as happened to be about City Hall at the noon hour.

Mr. Durant said he did not think the site at the end of Courtenay Bay would be suitable as there was a long distance from deep water. He understood that Dr. Pugsley had offered to dredge a channel and turn the water into the mill race. Mr. Durant thought the site at the end of Courtenay Bay would be suitable as there was a long distance from deep water. He understood that Dr. Pugsley had offered to dredge a channel and turn the water into the mill race.

Mr. Durant will remain in the city today for the purpose of having further information from the proprietors and a definite decision is expected by tomorrow.

Mr. Day is manager of the Consumers Cordinate Company, Montreal. Mr. Durant is said to be connected with the Crown Construction Company.

Monday was the 50th anniversary of Mr. and Mrs. R. Keltie Jones' wedding, and in the evening a large number of their friends gathered at their residence, Caverhill Hall, for the purpose of wishing them many more happy years of married life. As it was their crystal wedding, Mr. and Mrs. Keltie Jones were the recipients of many beautiful gifts in cut glass from their friends, which attested to their great popularity.

DECIDE BIRTH
OF AMISH

Queerest and Most Ignorant People in America Are Believed to Be The Amrish. They Scorn Education.

Montgomery, Ala., Oct. 19.—The queerest people in America are probably the Amish. In Alabama, Ohio and Oregon may be seen wearing long black beards, broad brimmed black hats and black clothes without buttons. They are Amishmen, there are several thousand of them in America and they are constantly increasing in number.

The Amish are the most ignorant people in America. Education is scorned. They resent all attempts to educate their children. Even after their sons and daughters have been to school and learned about the world the Amishmen brand the knowledge as a lie. They have no conception of the modern part of the state. Even there they were persecuted and a large number of them moved to Alabama and Oregon.

The minister never preaches. He simply delivers a good heart to heart talk on the sins and transgressions of the congregation. After the meeting the congregation enter the house and partake of a feast provided by him. On the same evening the young folk dance until 10 o'clock.

Another duty which falls to the minister is to supply benches for his flock. These he places in a semicircle around his front door. At meeting time he takes his place on the door-step and designates where each member of the congregation shall sit. Men, women and boys and girls sit in different parts of the semicircle. The men sit with their backs to the minister and sit through the entire lecture with their chins in their palms and their elbows on their knees. Some of them sleep through the lecture, which lasts four hours, and communion, which lasts seven hours.

The next important "social function" outside of a "meeting" is a wedding. The highest honor which can be bestowed upon an Amish lass is to be a bride. After this meeting the height of every Amish girl's ambition is to become a bride.

Mr. Connell presided at the dinner, and after the good things had been enjoyed a programme of toasts, recitations and songs were carried out.

After a couple of songs had been rendered by the chairman amid much applause, the prizes were presented to the winners in the regatta. The winners were: Double scull—Melrose and McKendric of the Royal Bank. Crab race—H. Gilbert, Royal Bank. Single Scull—Nickerson, Union Bank. Swimming Race—Swift, Bank of N. A. A number present expressed their regret that Mr. Connell who had acted as chairman was about to leave the city. Mr. Connell will engage in the insurance business. The gathering came to an end shortly after eleven o'clock and the party parted at an early hour in the morning.

LEOPOLD'S OPERATIONS IN CONGO A ROUND OF HORRORS

Another chapter of Conan Doyle's Horrifying Recollections of White Man's Cruelties. Most Colossal horror of Modern History Found in the Rubber Areas of Africa.

NO REFORM IN SIGHT. Brussels, Oct. 19.—The programme of colonial reform as announced is vague and does not touch upon the questions of forced labor or concessions in the Congo.

In this third installment of Sir A. Conan Doyle's book, "The Crime of the Congo," Dr. Doyle continues the tale of horrors he began in the second installment.

The array of evidence of cruelty against King Leopold of Belgium forms a gallery of horrors. Added to the testimony already given is that of the Rev. Jos. Clarke, an American missionary in the Congo Domain.

Imagine them returning from fighting some rebels; see, on the bow of the canoe is a pole and a bundle of something on it—these are the hands of 16 warriors they have slain.

Compare this with extracts from King Leopold's official bulletin, referring to this same tract of country. The exploitation of the rubber vines of this district was undertaken barely three years ago by M. Fievez.

loration in the native's condition of existence wherever he comes into contact with the European element. Such is, in fact, one of the aims of the general policy of the state to promote the regeneration of the race by instilling into him a higher idea of the necessity of labor.

"As I saw it brought in each man had a little basket containing, say, four or five pounds of rubber, which was equalled to a larger basket and weighed, and, being found sufficient, each man was given a cupful of coarse salt and to some of the head men a fathom of calico.

Meeting of Bishop Auckland Guardians in London Draws Factious Remark from Dr. Campbell. London, Oct. 19.—At a meeting of the Bishop Auckland guardians in London the other day Dr. Campbell facetiously said: "I beg to give notice of the following resolution: That a new wing be added to the infirmary for the especial accommodation of dukes; that it be of an ornate and castellated type of architecture, and built of marble, to remind them of the marble halls in which they formerly dwelt and that their creature comforts be studied by the engagement of a French cook; that Lord Londonderry be respectfully asked to supply them with grouse, in return for the many so-called educational benefits that they have provided for the children of the poor working men; and, as we are responsible for the soul as well as for the body, that a learned chaplain be appointed to look after their moral, religious, and spiritual welfare."

ROLLER UP OF KING LEOPOLD'S GUN CONTEST

Has Hearst Played Infractor to Gaynor?—Is Gaynor in League With Gamblers?—Is Bannard Nominated in Bar? AN INTERESTING SITUATION REVIEWED

New York, Oct. 19.—No other city in the country can have as terrible majority fights as New York. And the dirtiest, most besmirching fight the city ever experienced, perhaps, is under way now.

The integrity of a justice of the court has been questioned; an entire party, emblem and all, has been stolen; men have been indicted and friends have been parted forever.

Three men, Wm. J. Gaynor, justice of the supreme court; Otto Bannard, millionaire and business man; and Geo. B. Duffy, a working boy, Police Commissioner, Bingham, newspaper owner, are striving for the mayoralty honors.

Gaynor First. Gaynor was first in the field. Last spring he wrote a letter to Mayor McClellan, complaining against treatment which the police had accorded Geo. B. Duffy, a working boy.

Otto Bannard. The Republicans picked Otto Bannard, a business man. He had been such a successful business man that his name had never before been in the papers.

Gaynor looked around for his independence league, which he organized in the last presidential campaign. He called it the Tammany, St. John, and the primaries, had stolen it, emblem and all.

That set Gaynor loose. Treachery Charged. "Treachery!" he cried. "He asked me to run, and I said 'No' on a ticket. He ordered his editor to support me. Four years ago he wanted me to run for mayor. Does he only make a promise to break it?"

Justice Gaynor, charged Ivin, wrote an opinion on that case which will, if it stands, insure the acquittal of all the men who have been arrested for violating the anti-betting law at race tracks.

Alfonso and Cabinet At Loggerheads Now

PROF. FERRER.

Spanish King Wanted to Pardon Ferrer, but Premier Objected—Subsequent Riots Draw King and His Advisers Further Apart—Agitation in Spain Still At Fever Heat.

Paris, Oct. 19.—A special from Madrid says that King Alfonso has had a violent quarrel with the premier because of the king's failure to give his majesty an opportunity to exercise the royal prerogative of pardon in the case of Ferrer.

Public opinion today strongly condemns the attack made on Wednesday last against the Spanish anarchist leaders. Herve, Jaures and Valliant, who organized it, incited the rioters and yet so lacked the courage of the doctrine as to remain safely and comfortably seated in their editorial chairs while their followers were getting their heads broken in the fray.

Ex-Shah of Persia In Tears Over His Fate

er place, but I will not live among the unclean. "Will you, then, leave the shah alone, at all the trouble he has passed through?" "I do not care," was the pettish answer.

Mohammed Ali Shah was so annoyed at this that he left the room. Early in the afternoon the fourteen wagons of the ex-shah's caravan were being hurriedly loaded. Outside the Russian legation a big crowd gathered to see the show. About ten minutes to four the sepalsahar (the ex-war minister) came out of the legation, followed by others of the shah's retinue.

He stopped and addressed the Persian Cossacks, saying: "I am going. God will take care of you." Some of the Cossacks answered, "God be with you." A voice from the crowd said, "Pity you did not follow the Sheikh Fazulla" (who was hanged by the Nationalists on July 3).

As the caravan again set out there was great confusion. The ex-shah's carriage was surrounded by hundreds of beggars, to whom he distributed silver coins. On reaching the main road the procession was properly formed, with Persian and Russian Cossacks and Indian Lancers, the carriages of the British and Russian diplomatic representatives, and those of Mohammed Ali's retinue, and of the queen and her ladies.

The public in the streets was greatly astonished at the respect paid by the Europeans to the dethroned shah and the dignity with which he was escorted on his long journey to his new abode at Odessa.

MUNICIPAL ELECTIONS AND PARTIES.

The effort to make it appear that the Municipal elections condemn the Hazen Government has been a conspicuous failure. These elections are not over but the councils of York, Sunbury, Queens, Westmorland, Kent and Gloucester, all contain a majority of Government supporters.

"In Aberdeen it was a party fight and the Conservatives Messrs. Lamont and Hemphill, whose uncle is Hon. J. K. Fleming, won easily over the Liberal ticket Messrs Miller and Millie. Of course Mr. Wiley, who is a Conservative, fell between the two tickets, but carried with him a large Conservative vote.

"We doubt if our opponents dare claim it was a party fight in Brighton where Messrs. Morgan and Britain, Conservatives, had a majority of nearly 100 over that staunch Liberal Allan Bradley, when it is understood that many Liberals, headed by a gentleman who will likely be on the Provincial Opposition ticket at next election, voted and worked for the successful candidates.

"There certainly could not be any politics in the fight in Kent for the three candidates are Liberals. In Northampton Arthur Gibson, Conservative, led the poll. He split his votes with Henry Phillips, a Liberal, who was elected, although the Liberal leaders in that parish did everything in their power to defeat him and elect A. H. Stewart instead.

"Richmond showed a similar state of affairs. Alex. Bell, a Liberal, was asked to retire by his party leaders, and upon refusing to do so, they put a ticket in the field against him. Messrs. Merrithew and Toms, which was soundly beaten. John M. Hay, Conservative, is the colleague of Mr. Bell.

"In Simonds Messrs. Shaw and Perry, Liberals, were elected over Messrs. Rideout and DeLong, Conservatives. We understand that this was simply a fight between individuals and that politics was not introduced in the contest.

"There is reason to suspect that federal party lines were drawn in Wicklow, where Messrs. Tracey and Estey, Liberals, were elected, defeating Mr. Owens. It must be remembered that Messrs. Tracey and Estey have a strong personal following, irrespective of politics, and uniting their forces against Mr. Owens he went down. In Woodstock parish Messrs. Scott and Smith, Liberals, were elected over Messrs. Bull and Franklin, Conservatives, not because of their politics, but rather owing to the fact that they were running together and had good organization and untiring workers.

"If it were a party fight, as our opponents claim, their tickets were beaten in Aberdeen, Brighton, Northampton and Richmond, and they won in Simonds, Wicklow and Woodstock Parish, with a family fight in Kent. They make the personnel of the new council board, Liberals 13, Conservatives 12. To make the number 13 they not only count Councilors Kinney and Perry, which we allow them, but Councilors Alex. Bell and Henry Phillips whom the Liberal leaders endeavored to defeat and would have done so had it not been for the Conservative support given these gentlemen.

"No, the Liberal party gained no prestige by the elections on Tuesday, but rather the real leaders will be kept busy for some time allaying the discord caused by the would-be leaders in three or four of the parishes."

AN IMPOSSIBLE PROPOSITION.

A sugar refinery in constant operation would be a good thing for the city and Mr. Durant claims that with his processes he can capture business enough to keep his plant busy. The city ought to be more than hospitable to any investment of this character, offering all reasonable encouragement and opportunity. But there is a general consensus of opinion that the west shore of Courtenay Bay should not be tied up for any such purpose, or for any purpose that will interfere with its use for harbor and transportation purposes. It is not proposed to establish the refinery there. The promoter simply asks for this land as a bonus, and intimates that if a railway company or the crown should need the land it could be bought from him. Mr. Durant points out that the site which he selects is a rock which will require enormous expenditure to make it available and accessible. The bonus which he mentions he considers not too much compensation for the proposed outlay to prepare the site. This is an argument against the situation chosen and raises the question whether the city has not more available sites to offer. In this connection mention has been made of the Straight Shore where, it is said, land may be procured at a moderate price with good approaches by land and water. The eastern shore of Courtenay Bay has also been mentioned, but the promoter who goes there must, perhaps, wait for some years before the dredging contract in that water is completed. We have at St. John a considerable extent of water front, and it cannot be necessary to choose for the purpose of a refinery a site, the preparation of which calls for so large an outlay in preparation, as to justify a land bonus such as that proposed. That proposition is clearly impossible, even though its impossibility means the establishment of the refinery at St. Andrews, instead of St. John. But if Mr. Durant has for his primary object the establishment of a sugar refinery, and is in a position to take the matter up seriously, he should not find the city a hard bargainer in respect to any property or privileges that are actually required for the enterprise.

CIVIL SERVICE EXAMINATIONS.

The competitive civil service examinations are again a partial failure, so far as the desirable positions in the civil service go. These examinations are to take place next month. For the almost purely clerical positions in the Third Division, with the relatively small salaries, comparatively low qualification, and no promotion into the Second or First Divisions, there are no less than 200 candidates. But for the higher and regular branches of the service, which offer some promise of a career, and call for scholarships such as that of a college graduate or a grammar school teacher, all Canada offers only 12 candidates. As examinations are held at many local points there is no great loss or risk in trying them and yet the number of applicants is less than half that of the positions to be filled. Therefore every candidate who can pass the test wins an appointment. When this reluctance to compete on merit for positions in the service is contrasted with the eagerness with which they have been sought under the patronage system, it is rather disheartening to reformers. But the system is yet new and seems to have hardly attracted the attention of the schools. The substitution of the merit system for the spoils system may yet be found to have made the civil service of Canada an honorable profession as it is in Great Britain.

BUCCANEERS AND OTHERS.

The organ of the "Buccaneers" has this to say of Mr. Pearson's Sun and the group that it represents:—"Advocacy of the leading plan is and will be useless until the would-be borrowers come out of the underbrush into the open. Finally, as to the Sun's proclamation of its own virtue and that of those for whom it speaks, 'its loud assurance is not quite so comforting under the circumstances as the fact that the Intercolonial is rendered secure by numerous spikes and fish-plates. To all intents and purposes it is nailed down. Public sentiment is an additional safeguard. For the present at least the railroad is safe from the 'energizers'."

The Sun returns on the Telegraph by declaring that the present Intercolonial system has not done away with the evils of patronage, and neatly proves it by observing that the Telegraph is in favor of the present system. The suggestion that the Telegraph favors everything that has patronage in it, and favors nothing else, is an extension of the "parasitic" theory. In further proof that the Intercolonial is still a part of the patronage system the Sun says "that it has been threatened with the loss of certain advertising and printing 'business' because it has ventured to criticize certain 'matters' in connection with the road, though there has 'been no fault found with the quality of the work done.'"

A valuable group of immigrants from Great Britain, thirty in number, recently arrived in Canada. They are to be followed next week by thirty-three more. These are all young Methodist preachers sent for work in the Northwest, by Rev. Dr. Woodworth, superintendent of missions in the Manitoba conference. They come mostly from the Northern and Central Counties of England, largely from Yorkshire, that ancient seat of Methodism. It is arranged that after a year or two in the field they will take art courses in one of the western universities. The Standard does not see the need of making a party contest of a municipal election, but since the opponents of the Hazen Government have chosen to treat these elections as a political issue, we commend to their attention the result in Kent. Following the contest in Westmorland, which Messrs. Robertson, Sweeney and Copp and their friends chose to make a party fight the election of only five anti-Hazen men to the Kent council is significant. At least we may expect that the highway act will get fair play in that county.

Speaking of the proposed docks in Canada, the Toronto World says that the C. P. R. has made a splendid start with British-built liners, but it is now time to take the next step and secure that Canadian-owned boats shall be constructed in Canada. The World thinks that the proposal of Harlan and Wolff to establish docks at Montreal and St. John indicates that they look for more than warship orders.

In the opinion of the World Montreal is adapted to become the shipbuilding centre of the Dominion. But our Toronto contemporary sees the limitation of Montreal and adds:—"The drawback attaching to its inland situation and its consequent closure by ice in the winter 'months necessitates similar provision in an open port, and Messrs. Harlan and Wolff are understood to have selected St. John for that purpose. The World looks forward to seeing before very long a daily service between Canada and the Mother Country with Canadian ships prominent in it."

Rev. Dr. Henderson, pastor of the Dominion Methodist Church, Ottawa, one of the leaders in the denunciation, and for many years missionary secretary, has taken part in the discussion of the authenticity of certain Bible narratives. He particularly condemns the language and teaching of Hon. S. H. Blake, who is among the most uncompromising opponents of higher criticism. Dr. Henderson's statement about the Book of Jonah will trouble the mind of many of his Methodist brethren.

Making all reasonable allowance for slander, exaggeration and careless talk, it seems certain that the Congo natives have been outrageously abused. All the evils of the slave trade, a traffic which the nations have agreed to suppress, have been exceeded in these atrocities. As the Congo State was an international creation, and has come into the possession of Belgium by favor of other states, there is greater reason for interference. The powers are responsible to the natives for the masters they have given them, and must do what they can to undo the grievous wrong that has been done.

Nova Scotia has been fortunate in having had for many years the services of two expert economic and as well as scientific members of the geological survey of Canada, the late Mr. Hugh Fletcher, who worked in the coal measures, and Mr. Faribault who explored the gold areas. The sudden death of Mr. Fletcher took place a few weeks ago, and now it is announced that Mr. Faribault is accepting the position of geologist for the province of Quebec.

The dredge Fieiding should never lose her way in wandering around the Sand Point slip where she is engaged in dredging. It is understood that the Department of Public Works keeps a well paid pilot continually on board, or at least continually on salary. Without this safeguard she might make her way up into the salmon pond.

Ex-President Roosevelt has had a narrow escape from a large bull elephant who rushed out of a herd to attack him, though not before Mr. Roosevelt had shot one of his companions. There are several naturalists in the United States whose sympathy will be with the elephant.

The "buccaneers" of the Telegraph, and the "energizers" of the Sun are measuring up each other with precision. Their daily bulletin of results is noticed with interest by the class of people who get their due when other classes fall out.

Mr. N. S. Sipprell. Mr. E. M. Sipprell received a telegram Monday, notifying him of the death of his brother, Mr. N. S. Sipprell, of Mattawamkeag, Me. The deceased, who was a native of Carleton county, was in his 68th year and leaves a widow and a family of two sons and two daughters. Death is thought to have resulted from the effects of a stroke he suffered some three or four months ago. Mr. Sipprell left for Mattawamkeag yesterday morning to attend the funeral.

Capt. John McCaffrey. There was a very large attendance at the funeral of Captain John McCaffrey yesterday morning from his late home in Clifton street, West End, indicating the esteem in which he was held by all who knew him and the sympathy felt for his family because of his death. On the casket was placed a number of beautiful floral remembrances from personal friends and relatives of the family and also one which marked the kind regard in which Capt. McCaffrey was held by former associates in athletic circles in St. John which was sent by some ten or twelve men who were prominent on field or track, or in the management of athletic events in the old St. John Association, when Captain McCaffrey took part in hammer throw and shot putting events.

The funeral proceeded to the Church of the Assumption where a high mass of requiem was sung by Rev. J. J. O'Donovan. The church was filled for the service. Interment was made in Sand Cove cemetery. Relatives acted as pallbearers.

Mr. W. J. Rutledge. Oromocto, N. B., Oct. 18.—The funeral of the late Mr. William R. Rutledge, whose death occurred on Friday, the 15th inst., after a few days' illness from head trouble, took place today at 2.30 p. m. in the old St. John's church. He was one of the largest seafarers in this vicinity for many years, friends from Fredericton, St. John and other places testifying to the esteem in which he was held. Mr. Rutledge was one of Oromocto's leading and respected residents and his loss will be keenly felt by all. The funeral service was conducted at the St. Vincent's de Paul church by the Rev. C. P. Carleton, after which the remains were borne to the adjoining cemetery by six relatives and friends—John V. Holland, William A. Wade, John Mahoney, Thomas Mahoney, T. J. McElroy and A. B. Barrett. The floral offerings from the family and friends were many and beautiful. Mr. Rutledge leaves to mourn his sad loss besides a sorrowing widow, three sons and six daughters, viz., William W. and Holland P. of Bangor, Me.; James P. of Boston; Mrs. John P. Kerwin, Mrs. George L. Churchill, of Bangor; Mrs. G. B. Robinson, of Sharon, Penn.; Mrs. Wm. A. Wade, of Waasa, and the

JIM JEFFRIES COMPELLED TO FIGHT NEGRO

Boilermaker To Arrive From Abroad This Week and Johnson Says He Is Ready For Him--Ketchel Mismanaged.

Jim Jeffries will be compelled to make a match with Jack Johnson for the heavyweight championship of the world or admit that he does not intend to receive the prize ring. Jeffries is on the Lusitania which will arrive here on Thursday or Friday, and has promised to make arrangements for the big fight without further delay. Johnson will be in Chicago probably by the end of the week and says he will be ready to sign articles and post a big forfeit to go as a side bet.

Johnson's signal victory over Stanley Ketchel, the latter being knocked out in the twelfth round, has put the pugilistic situation squarely up to Jeffries. The sporting public is ready to admit that Jeffries is the only white man in the world who has the physical strength and science necessary to bring about the defeat of Johnson and at that there are many followers of pugilism who doubt Jeff's ability to whip the gigantic negro.

Jeffries said in London on Friday that as soon as he reached this city he would confer with Sam Berger, his loquacious manager, who made a report of tentative agreement with Johnson last August which amounted to practically nothing. Jeffries also said with apparent sincerity that if Johnson defeated Ketchel, the colored champion would have to make the match that has been widely discussed for nearly a year.

In Fine Health. Jeffries further said that he was in fine health and if Johnson ever got in the ring with him the championship title would be returned to the white race. So far so good! Jeffries has \$5,000 posted with a friend in the city and probably will call Johnson's attention to it as soon as he steps off the big Cunarder. If Johnson objects to this particular stakeholder, which is not improbable, Johnson can easily draw the money over to somebody else with the provision that it will go as an appearance forfeit and also as a part of a side bet on the result of the mill. If Johnson wants to clinch the fight he will cover Jeff's forfeit without a pow-wow and both men can then sign articles.

There need be no wrangle over the purse of the battle-ground, for Promoter Coffroth who will be here on Saturday, probably will make an offer which will secure the fight for Colma. If Johnson and Ketchel drew a \$35,000 gate at popular prices it is believed that the Jeffries-Johnson mill in the same arena would attract at least twice that amount.

Johnson is ready to fight Jeffries right off the reel, he says, but he probably knows that Jeffries will not be in his best condition before March or April. Besides, Johnson believed he was anxious to tour the big cities for a while in search of more easy money as the result of his triumph over Ketchel.

The sporting public have been patient over the arrangement of the big mill and the men are entitled to a reasonable amount of time, but if they do not agree to get into the ring within the next six months they doubtless will be accused of shuffling. Johnson looms up as a formidable proposition for Jeffries after all, which means that if they settle the differences the fight will be about the biggest thing of its kind ever held on American soil.

COMISKEY IS SPENDING \$100,000 FOR UNTRIED PLAYERS TO LAND FLAG

Old Roman Declares That Chibago Will Capture Next Year's American League Pennant.

How He Is Going About the Accomplishment of His Purpose--His Own Statement.

Chicago, Oct. 19.--"Spending \$100,000 for players to win another pennant" might be the title of a book written about Charlie Comiskey, owner of the Chicago White Sox. The "Old Roman" has spent \$110,000 for new men this year to get a pennant winner for 1910. On top of this he is building one of the finest parks in the country.

Two forces determined Comiskey to spend the money. They are his maxims: "There is no money in a loser." And "If a team wins all the pennants, the others might as well close shop." Comiskey has won pennants and his success is evidence that if he sets about it he can come close to repeating.

This year the Sox finished fourth. Comiskey seemed indifferent. His attitude caused comment. Then Comiskey came out of it on the run and sent out "Ted" Sullivan scouting. Sullivan was on the jump until just before the drafting season when 22 youngsters had been purchased.

His Promise. Southside fans do not pin their hope of a winner on this injection of new blood, so much as upon Comiskey's promise that next year's pennant will float over the home of the White Sox. "He never promised anything he didn't deliver," they declare. And Comiskey has spoken.

In the men Sullivan scraped the land with a fine-toothed comb. Some fabulous prices were paid for men who may do a Chicago uniform after the training season. But if from the two score a Cobb or a Wagner is picked Comiskey will rejoice.

Some youngsters have been tried out already and they appear to be in the first heat of the 2.16 pace. One of the finds is said to be Jas. Collins, who batted .325 for Springfield, Connecticut league. Walter, a Springfield outfielder, is another 300 hitter gathered in.

Others purchased are J. Cole of Wichita, Kas.; Walter, Manly of Des Moines, outfielder; T. P. Dalton, from the same club, who is said to have made 12 hits in a double-header; Block, the Minneapolis catcher; Joe Beal, Los Angeles, outfielder; Hollis Barrows and S. Messenger, New England league, said to be the fastest men in the organization.

WORCESTER MEN SHOW UP WELL IN ALEAGUES

Analysis of Batting and Fielding Strength Shows That Greeks' Opponents Were Pick of N. E. League.

A study of the batting and fielding averages of the players in the New England league reveals the astonishing fact that the Worcester team, which played the Marathons here, were not only the leading hitters in the league but that a number of the men were chosen from other teams, the result being that the aggregate was practically composed of the stars of the New England league.

Murch played with Brockton and led the third basement of the league with a fielding average of .944. In 122 games he had 144 putouts, 257 assists, with 24 errors.

Logan was second among second basemen with a percentage of .963. He played in 163 games, had 1748 putouts and 310 assists, with 24 errors. Bradley was fourth among the first basemen with a percentage of .987. He played in 111 games, had 1145 putouts and 89 assists with 17 errors.

Worcester led the league at bat, with a team percentage of .264, while Brockton led the field with a team average of .953.

A glance at the batting averages shows that of the nineteen players who were hitting over .275, seven were members of the team which played the Marathons.

The first nineteen are as follows, the players who appeared here being denoted by an asterisk: Name and Club. G. A. B. R. BH. PC. Danzig, L.O. 64 232 39 30 345

There will be no football game on the E. D. C. club grounds this afternoon as the All St. Johns have failed to get a team together. Manager Tully asked for another match Saturday but the Algonquins will probably accept an outside XV here and have made no arrangements for a local contest.

WINNER IS STILL WANTED IN 2.16 TROT

Hills Grove, R. I., Oct. 19.--Left over from yesterday for decision the 2.16 trot was still undecided at the close of today's racing at the Hills Grove track. The four heats of today, added to the three raced yesterday, resulted in Bena, the favorite, Porter Oil Filter and Oxford Boy, Jr., having two wins each. W. H. Pointer won in the 2.20 pace was protested, several drivers claiming the horse to be a "ringer." Fleetwood, after finishing second in the first heat of the 2.16 pace, was not sent easily in straight heats.

2.16 Trot, three heats Monday, still unfinished:-- Purse \$500. Hills Grove, R. I., Oct. 19.--Left over from yesterday for decision the 2.16 trot was still undecided at the close of today's racing at the Hills Grove track. The four heats of today, added to the three raced yesterday, resulted in Bena, the favorite, Porter Oil Filter and Oxford Boy, Jr., having two wins each.

But that he could not land it on the right spot because of the negro's clever defensive tactics. The way Johnson cut loose his attack after being floored, however, proved that he did not have the much discussed yellow streak and was a slugger as well as a boxer.

SULLIVAN IS EASY FOR HARRY LEWIS

Boston, Mass., Oct. 19.--Dan Sullivan, national 158-pound amateur champion, a brother of the Twin Sullivans of Boston, was knocked down and out in two minutes in his first professional bout by Harry Lewis, of Philadelphia at the Armory A. A. to night. Sullivan swung and landed two or three blows but was no match for the experienced fighter he went against and dropped under a right and left swing to the head after being badly cut up about the face.

UNABLE TO SECURE TEAM GAME IS OFF

There will be no football game on the E. D. C. club grounds this afternoon as the All St. Johns have failed to get a team together. Manager Tully asked for another match Saturday but the Algonquins will probably accept an outside XV here and have made no arrangements for a local contest.

After reading the results of Saturday's ball game, Woodstock and Newcastle will in all likelihood, renew their challenge for provincial honors. --St. John Standard.

HISTORIC OLD HOUSE DAMAGED BY CHIMNEY FIRE

Blaze Discovered in Mrs. D. J. Merritt's Residence Last Evening—Had Caught Around Fire Place.

One of the oldest houses in the city narrowly escaped destruction by fire last evening when the woodwork around the chimney in the residence of Mrs. D. J. Merritt, corner of Union and Germain streets became ignited and prompt discovery was all that prevented a serious conflagration. Mrs. Merritt and her son and daughter had retired for the night and Miss Merritt was awakened about 10.45 o'clock by the crackle of flames. She found the house filled with smoke and the other occupants were soon aroused. They cried out to a passerby in the street who rang in an alarm from No. 3 engine house. No. 1 chemical was quickly on hand and its stream was all that was necessary to extinguish the fire. The boards encasing the old fashioned fire-place in the kitchen were ablaze and these were ripped off and carried out in the yard. It was also necessary to tear off the roof around the chimney, but otherwise there was no serious damage. The Merritt house was built about 100 years ago and four generations of the family have occupied it. The slight loss is covered by insurance in the companies represented by Mr. J. Sydney Kaye.

RAMSEY FINED \$32 IN POLICE COURT; KELLY DISMISSED

Charges Of Creating Disturbance And Resisting Police On Shamrock Grounds Disposed Of Yesterday.

In the police court yesterday at 2 o'clock the case of Michael Kelly and Wm. Ramsey, charged with creating a disturbance, violently resisting a police and using abusive language on the Shamrock Grounds, was finished. Owing to the lack of evidence, Kelly was dismissed.

Ramsey was fined \$32 or four months in jail. Mr. Herbert J. Smith conducted the prosecution, and Mr. Edward S. Ritchie appeared for the defence. Harold McGoldrick and Harold McIntyre were called. Neither saw Ramsey strike the officer, but each had seen Ramsey on the ground with Officer Crawford holding him down. Ramsey was called in his own defence. He said he went to the players bench and had asked McDonald what inning it was, and had made no other remarks to Donald at that time. He did not consider that he was acting disorderly. He had three drinks of liquor that afternoon. He admitted striking Crawford when the officer attempted to arrest him.

Geo. Ramsey, a brother of the accused, said that he was present when the trial was made. He had heard any remarks made by anyone present. He would have heard any remarks that might have been made. This ended the Ramsey case. Policeman A. Crawford said that when arresting Ramsey, Kelly had said: "Don't you go. He can't make you go." Kelly then kicked him in the groin, and he arrested him. D. B. Donald said that he did not see Kelly kick the officer. Kelly, when called, told the court of going into the grounds and of seeing the officer arrest Ramsey. He was positive he had not kicked the policeman. He drank occasionally and might have had three drinks that afternoon.

Murray Stackhouse told of being present when the arrest was being made. He did not see anyone kick the policeman and did not hear Crawford say he was kicked. This concluded the evidence. His Honor dismissed Kelly but fined Ramsey \$32 or four months in jail.

St. Rose's Autumn Fair. Another large crowd attended the Autumn Fair in St. Rose's Hall, Fairville, last evening. The hall was filled with pleasure seekers and the games and other amusements were well patronized. The fair will be continued this evening, and the St. Peter's Y. M. A. Orchestra, under the leadership of Mr. H. F. Heenan, will furnish music.

Wholesale Offenders. Andrew Magee and John Clancy were arrested by Sergeant Campbell last evening between 6 and 7 o'clock. Besides being drunk on Water street, Clancy is charged by Mrs. Mary McLaughlin, who keeps a restaurant on the corner of Water street and Market square, with using profane language by taking God's name in vain, and using obscene and abusive language to her in her store. Magee is charged with ordering three lunches to the value of 70 cents without paying for the same, and also with taking goods from her store. An empty bottle was found on Clancy when arrested.

Read Selections From His Writings. A large and appreciative audience heard Rev. Dr. Phillips, whose writings are well known to the people of St. John, read selections from his works in Brussels street Baptist church last evening. An excellent musical programme was rendered, including numbers by Miss Annie Edwards, Mrs. George Brown, Mrs. Charles Munro of Halifax, and the ladies' quartette of the Brussels street church. Dr. Phillips read a number of selections from his own writings, contributed to the Religious Intelligencer, under the title of "What the Deacon Said," and also from some of the letters of the Brussels street church. Saturday "Sermonettes" by Thaddeus, which were recently published. Dr. Phillips held the close attention of his audience throughout, and the evening proved very enjoyable.

RODNEY WHARF DEATH TRAP NEARLY CLAIMS ANOTHER VICTIM

Patrick McGoldrick Fell Into Slip In Darkness—Seriously Injured And Now In Hospital—A Change Needed.

Falling headlong from Rodney wharf to the mud flats, twenty-five feet below, Mr. Patrick McGoldrick, father of Aid. John McGoldrick, had a narrow escape from death last evening. He was rescued from his perilous position, but is now in the hospital suffering from bruises and the great shock. Owing to his great age, the outcome of the accident is still doubtful, though there is good hope for recovery.

Mr. McGoldrick is an active man for his years and had been down to New River yesterday on business. He returned on the wharf from train and reached Carleton about 1 o'clock. He intended going home by the street car, as he lives in the North end and crossed the wharf to the track. In the darkness, he misjudged the distance and stepped over the edge.

Cries Attracted Attention. His cries attracted the attention of Mr. Alfred Clark and steps were taken to rescue him. Conductor Jack White of the street car service, the well known baseball player, went down the face of the wharf and fastened a rope about the injured man. Mr. Clark, Mr. W. Campbell and Gatekeeper Theat of the ferry service, assisted to raise Mr. McGoldrick to the crown of the wharf and he was carried into the N. B. and he was carried into the N. B. Southern station.

Dr. J. H. Gray, of Fairville was called and found Mr. McGoldrick suffering from cuts about the face and an injured back. He had not lost consciousness. Aid. McGoldrick and his son Mr. John H. McGoldrick were called and they accompanied the sufferer to the hospital in the ambulance. At the hospital early this morning it was reported that Mr. McGoldrick had dropped off into a quiet sleep and that the chances of recovery were bright.

Wharf Needs Protection. Last night's occurrence following upon the tragic death of Frederick T. Dodge some weeks ago, recalls the pressing need for some protection at the end of Rodney wharf. There is no railing, and at night the darkness is impenetrable. Gatekeeper Theat said last evening that he had repeatedly asked for a light at the end of the wharf, and some life-saving apparatus, but that neither had been supplied. The only light on the wharf was that which came through the window of the toll house and recently this has been obscured by a large dipper from one of the dredges which stood on the wharf.

Mr. Theat says that in his years of service at the ferry gate he has rescued at least twenty-five people from the mud and water of the slip and that the accidents are occurring more frequently of late. On one occasion, he fished out four drunken sailors who had fallen in together. At another time a man chasing his hat slipped and fell from the wharf and was taken out barely alive. In view of the frequency of such occurrences as the accident last evening, Mr. Theat believes some precautionary measures should be taken at once.
