NO. 106.

COLUMBIA IN THE LEAD; BUT IT WAS "NO RACE."

Result of the Sailing Shows That Shamrock Is Not Columbia's Equal in Light Winds—Will Try Again Saturday—Lipton's Confidence Unshaken.

New York, Sept. 26.—One of the biggest crowds that ever put to sea went down to the Sandy Hook lightship today to witness Sir Thomas Lipton's second challenger, Shamrock II, and the white flyer, Columbia, struggle for the yachting supremacy of the world in the first of the cup races of 1901. But the excursion fleet returned disappointed.

Under the rules of an unfinished race, the race will be re-sailed on Saturday and the course will be again 15 miles to windward or leeward and return. When seen on board the Erin after the race Sir Thomas Lipton said: "It was not a satisfactory race, because the wind was erratic. I hope we shall have better luck next time. A race sailed on such a day—if it can be finished at all—depends upon the lucky chance position, as to wind, of one boat or the other. I was never more hopeful for the Shamrock than I am now. I am confident I shall get the cup. I have never seen any more skillful handling of a boat than was shown by Captain Barr of the Columbia today. Shamrock, too, was well managed."

nasty lump of sea outside and before the race began was whipping the foam off the crests of the waves. A heavy haze which hung over the bay had blown away the bright sunlight. Magnificent steam yachts, stamers and excursion boats filled the air above the water, and the yachtsmen, tugs, picnic barges and sailing craft gathered about the old yellow lark in front of which the start was to be made.

The Columbia was first to reach the scene of the start, being towed from her moorings out to Sandy Hook lightship. Her mainsail was set, but it took her skipper some time to decide what size sail to set aloft. At last it was decided to set the biggest clubtop sail and a very pretty sail it was. The Columbia made several tacks round the lightship.

line and soon a string of signals was displayed signifying that the course would be east by north 15 miles to windward and return. The preparatory gun was fired at 10.55 and from that moment the yachts were amenable to the racing rules of the New York Yacht Club.

Both Crossed Top Soon. Both skippers were in such a hurry that they crossed before the starting gun was fired. They were recalled by three short blasts from the whistle. Both then were round and immediately after the gun had crossed the line ahead. The Columbia was to windward of the Shamrock, the latter being to leeward.

SOUTH AMERICAN TROUBLES SERIOUS; Trying to Persuade President Castro Against Aggressive Frontier Action--Details of Fight.

Willemsstad, Island of Curacao, Sept. 26, (via Haystack Cable).—The Venezuelan gunboat Restaurador, formerly the American yacht Adama, arrived here last night, and will return to Maracaibo today.

An emissary to President Castro, from an influential Venezuelan official at Maracaibo, passed through here yesterday and is due at Caracas tonight. The emissary is charged to persuade President Castro to refrain from taking aggressive action on the frontier, but to hold the troops on the Venezuelan side ready to repel a Colombian advance should any be made.

August Statement of Finance Department Shows Opposite to Decline of Prosperity in Canada's Business Institutions. Ottawa, Sept. 26.—(Special)—The August bank statement issued by the finance department shows that there is no decline in the prosperity of our business institutions.

CZOLGOSZ'S LIFE TO PAY FOR HIS CRIME.

Trembling, Unable to Speak Above a Whisper, Assassin of President McKinley Heard His Doom Pronounced—Execution the Week of October 28.

Buffalo, N. Y., Sept. 26.—Leon F. Czolgosz was sentenced this afternoon to be put to death by electricity in Auburn state prison during the week beginning October 28, 1901. Before sentence was passed, the assassin evinced a desire to speak but he could not get his voice above a whisper and his words were repeated to the court by his counsel.

At this point Judge Titus came over to the prisoner and bade him goodbye. Czolgosz replied very faintly, letting his eyes rest upon the man who has been his counsel. "Goodbye," he said weakly. Czolgosz was then hurried down stairs and through the tunnel of cells to the jail where he will remain until removed to Auburn to pay the penalty for his crime.

doors were locked and no more were admitted to the room. The prisoner was brought into the room at five minutes to two. Five minutes later Justice White took his place upon the bench and Chief Justice said: "Pursuant to a recess, this trial term of the supreme court is now open for the transaction of business."

Justice White then said: "Have you anything to say in behalf of the prisoner at this time?" "I have nothing to say within the definition of what your honor has read," replied the attorney.

Prisoner Takes All the Blame. Then the prisoner said: "There was no one else but me. No one else told me to do it; and no one paid me to do it." Judge Titus repeated as follows: "Owing to the prisoner's feeble voice, he (Continued on page 7.)"

OIL TANK EXPLODES; MANY KILLED. Dead in Newark Disaster Number at Least Six, Perhaps Seven--Body Hurling High Through the Roof to the River.

New York, Sept. 26.—Six men, possibly seven, were killed and seven injured by the explosion today of an oil tank of the Essex and Hudson Gas Co. at Newark, N. J. The known dead are: Lawrence Kirch, 35 years old, who died at the scene; Otto Newman, 27 years old, resided in Jersey City; Nicholas Miller, 45 years old, unidentified man.

immense steel reservoirs which was undergoing its periodical cleaning, having been emptied of its oil in the morning. Ketchum, without taking the precaution of having ropes tied about them, they were immediately overturned in the furnace. Foreman Newman started down after them and he, too, collapsed in the tank.

FRENCH PAPER'S STORY CANNOT BE CONFIRMED. Clash Between Britain and Turkey the Theme--Brings Forth Another Sensational Statement.

Paris, Sept. 26.—The Patrie today prints a sensational story to the effect that a conflict has broken out between Great Britain and Turkey, saying that three British warships have been ordered to the Persian gulf to suppress revolts at Tocat, in the province of Bagdad, and that the Turkish government has dispatched a strong detachment of troops with instructions to oppose the landing of the British force. Russia, Germany and France, the paper says, have agreed to support Turkey.

INSTANTLY KILLED AT NEWCASTLE, N. B. Sailor of Inquest Velona Fell from Aloft--Injured in Progress.

Charlton, N. B., Sept. 26.—(Special)—One of the crew of the barque Velona, now being loaded by Ritchie at Newcastle, fell from the rigging yesterday afternoon and was instantly killed. The inquest is now going on. Deceased belonged to Liverpool.

CRESCUS WAS TWO SECONDS OFF RECORD. King of Trotters Failed in Last Half of Mile Against Time.

Philadelphia, Sept. 26.—Crescus, the king of trotters, today failed to lower his record of 2:02, made at Columbus on Aug. 2, in a trial on the Belmont driving park course. The great son of Robert McGregor stepped the mile in 2:04 without a skip and thereby reduced the track record from his first job. He warmed him up in the stretch for a few minutes and then jogged him around the track in 2:31. After a rubbing down Crescus was brought for his preliminary trial. While out a race he made the mile in 2:13; out a race he made the mile in 2:13; out a race he made the mile in 2:13.

MANITOBA'S CAPITAL DID WELL IN ENTERTAINING DUKE AND DUCHESS. Royal Party Spent Ten Busy Hours in Winnipeg--Presented Medals and Opened University Building--Left for Regina.

Winnipeg, Sept. 26.—(Special)—The Duke and Duchess of Cornwall received their first welcome to the west at Winnipeg, the capital of Manitoba, today. They arrived at noon and during a half of 10 hours' duration, were the guests of a hospitable people.

At 3 o'clock in the afternoon the duke and duchess assisted in the formal opening of the new building of Manitoba University. There was another large crowd gathered about the university and the duke and duchess were loudly cheered when they drew up and entered the grounds. They were first presented with an address, and after the duke had replied, were taken into the building to sign the register.

OTTAWA MAN BUYS EXTENSIVE TIMBER LIMITS FOR \$380,000.

Sanction of Quebec Bank Needed to Complete Transaction--Important Postal Regulation re Yukon Mails--Brigade Commanders for Review.

Ottawa, Sept. 26.—(Special)—It is understood that an extensive sale of timber limits in the Kippewa district, the Quebec bank has an interest in the sale and all that is required to complete the deal is the sanction of the bank to the transfer, which, although at present withheld, will likely be granted in a few days.

to restrict the mails to letters and a limited quantity of newspapers, preference being given to single papers addressed to private individuals. The department cannot guarantee the transmission to the Yukon of any matter other than letters after the first proximo.

WALLACE OF MONCTON HAS BEEN RELEASED. Crown Prosecutor Finds Grounds for Holding Man Arrested Wednesday Are Too Meagre.

Moncton, Sept. 26.—(Special)—Edward "Cook" Wallace, arrested here last night on the indictment of the Glouce Bay authorities, was released today upon advice of the crown prosecutor of Glouce Bay, who says that the grounds for detaining Wallace are too meagre.

YOUNG LOVERS QUARREL; GIRL ENDS HER LIFE. Fifteen-Year-Old Lillah Silverthorn Drink Carbolic Acid.

Toronto, Sept. 26.—(Special)—Lillah Silverthorn, a girl aged 15, quarrelled with her sweetheart, Percy Johnson, a young drug clerk, last night and afterwards told her employer it was all up with them. This evening the girl committed suicide by drinking carbolic acid. She left a letter on which she had rudely drawn a broken heart and saying Percy was her only comfort and she hoped to meet him in heaven.

MAD RUSH OF RAILWAY CAR IN ST. STEPHEN. New Conductor Has a Thrilling Initiation Into His Position.

St. Stephen, N. B., Sept. 26.—(Special)—This evening, an electric car in charge of Motorman Mitchell and a new conductor, stopped at the head of King street. The motorman left the car for a few minutes and the conductor, without noticing his absence, loosened the rear brake. The car started down the street, where there is quite a long grade, with no controlling hand at the motor. At the foot of the street there is a sharp turn, and here the car left the rails and made a mad rush towards the end of the public wharf.

DUCHESS OF CORNWALL WRITES NATIONAL COUNCIL OF WOMEN.

Montreal, Sept. 26.—(Special)—The Duchess of Cornwall and York has addressed the following letter to the National Council of Women, in reply to an address presented to her: "Government House, Ottawa, Sept. 23. I am deeply touched by the kindly and affectionate sentiments contained in the address presented to me by the National Council of Women of Canada. I heartily thank all those who, from all parts of this vast country, have associated themselves with this token of welcome and good will towards my dear husband and myself. The excellent objects towards which the endeavors of your society are directed have my sincere sympathy, and I pray its work may be crowned with all possible success."

They will receive an address and troops will escort them to government house, where they will be entertained at luncheon.

BIG BEER SEIZURE. 1,000 Gallons Ale and Beer, and 150 of Whiskey Captured in Maine.

Leviston, Me., Sept. 26.—Deputies Carrigan and Marcoux seized over 1,000 gallons of ale and beer and 150 gallons of whiskey at the Lower M. C. R. station this morning about 9 o'clock. The goods were marked "J. B." and were valued at about \$800.

SUICIDE WHILE DELIRIOUS. Toronto Engineer, Ill With Typhoid, Jumps from High Window.

Toronto, Sept. 26.—(Special)—Fred Cookman, stationary engineer, aged 28, who had been delirious from typhoid fever today committed suicide by jumping from a third story window of his boarding house. He fell 30 feet to the stone pavement, dying within a few minutes.

GRANT CONTINUES TO IMPROVE. Kingston, Ont., Sept. 26.—(Special)—Principal Grant's condition continues to improve. He is gaining strength and is able to take stronger nourishment. The physicians are very hopeful for his ultimate recovery.

GRANT CONTINUES TO IMPROVE. Kingston, Ont., Sept. 26.—(Special)—Principal Grant's condition continues to improve. He is gaining strength and is able to take stronger nourishment. The physicians are very hopeful for his ultimate recovery.

They will receive an address and troops will escort them to government house, where they will be entertained at luncheon.

GRAND SUCCESS AT MOOSEPATH.

St. John Agricultural Society's Exhibition Wednesday Was Very Fine—Specially Good Stock Showing—List of Prize Winners.

The agricultural exhibition held at Moosepath Park Wednesday under the auspices of the St. John Agricultural Society proved a grand success and was far ahead of any exhibition before held by the society. With the exception of a high wind which sprang up in the afternoon, the weather was all that could be desired for a fair.

The display of carriage horses would be hard to excel in the provinces; there being over 200 entries in the gentlemen's driving class. The display of sheep and swine was very creditable and showed the value of the disposing of the society's funds for the encouragement of pure bred stock.

The thoroughbred stallion Skeptic was shown. He has vastly improved. He is now three years old and weighs 1,170 pounds. He was purchased by the society a year ago and is now owned by G. F. Stephenson, of Golden Grove.

During the day Wm. Bowen drove Happy (a new addition to the St. John racing string) a half mile in 1:10. In the afternoon the attendance was fair and many lovers of horseflesh attended from the city to witness the judging of the horses. Some fine animals were shown. S. T. Golding drove Ben H. a couple of heats, going one of the miles in 2:7.

The following is a list of the prize winners: Farm and Draught Horses—Geo. H. Barnes (Sussex) Judge. Best stallion, four years and upwards—Joseph Cayvaugh, 1st.

Best mare four years and upwards—Thos. Hayes, 1st; E. N. Abbott, 2nd; W. McFate, 3rd. Best mare three years—Joseph Cayvaugh, 1st.

CZOLGOSZ GUILTY.

Murder in the First Degree, the Jury's Verdict—Prosecution's Case Ended Unexpectedly—No Defence Attempted—Address of Counsel and Charge of Court.

Buffalo, N. Y., Sept. 24.—Leon F. Czolgosz, alias Fred. Nieman, was today found guilty of murder in the first degree by a jury in part three of the supreme court, in having, on the sixth day of September, shot President William McKinley, the wounds inflicted by such gunshot wounds afterwards resulting in the death of the president. The verdict of justice was a foregone conclusion.

The announcement made this afternoon by the attorney for Czolgosz, that the eminent alienist summoned by the Erie County Bar Association and by the district attorney to examine Czolgosz and to determine his exact mental condition, had declared him to be perfectly sane, destroyed the only form of a defence that was left to Lewis and Thrus could have put together.

Before adjournment Justice White announced that he would pronounce sentence upon the defendant on Thursday afternoon at 2 o'clock. The prisoner was at once taken through the tunnel under Delaware avenue, back to the jail. To all appearance he was in no way affected by the result of the trial.

The crowd gathered at city hall today was the largest since the arraignment. People were lined up on both sides of the big rotunda on the second floor when court convened, and fringed the stairs leading from the floor above. There was no demonstration, except that of curiosity. A large number of women saw today's proceedings.

At 2:44 this afternoon District Attorney Pease abruptly announced that the case of the prosecution was ended. Ex-Judge Lewis arose slowly and, addressing the court, said the sudden close of the case against the defendant was a surprise to him and his colleagues. They had no wish to call for the defence. He asked the court that he be allowed to address the jury at once. The court consented and the venerable jurist, who said that he would long be remembered by those who heard it.

Ex-Judge Lewis said: "Gentlemen of the jury—A calamity has befallen this nation through the act of this man, but the question is whether his act was the act of an insane man. If an insane man, it is not murder, but a crime, and there should be no stigma in your minds as to the responsibility of the defendant."

It is charged here that our client is an Anarchist, a man who does not believe in any law or in any form of government. We all feel that such doctrines are dangerous, are criminal, are doctrines that will subvert our government in time if they are allowed to prevail.

ROYAL COUPLE JOURNEY WESTWARD.

Duke and Duchess Most Heartily Received—Train Held to Give Duke Chance for Exercise—Change in the Winnipeg Programme.

Ottawa, Sept. 24.—(Special)—The duchess smiled in that pleasant way she has, the duke was busy acknowledging cheers, cannons boomed, people shouted, the car wheels creaked and the royal train pulled out of the Elgin street station about 12:30 o'clock today. The last words spoken by the duke on the platform were to the Hon. Derek Keppel, to whom his royal highness said, "It is quite correct this time it is not," referring to the departure of the train, and then he added without waiting for Mr. Keppel's answer, "The time is quite correct."

The going away was a rather quiet ceremony. Several thousand people surrounded the station, the military kept a space free for the guests and those who had business on the station. Officers of the Guards with drawn swords lined the platform while drawn up on the outside were the Guards and the 43rd regiment. The Ottawa field battery were stationed some distance to the right of the station and there fired a salute of 21 guns in honor of the royal party. The salute was so exactly timed that when the duke stepped from the carriage and placed his foot upon the station platform the first cannon was fired.

The Royal Canadian Infantry, Veterans, Guards, 43rd and 4th batteries were early at the station and about 70 police were also there. A number of people were in the stands and several thousands were around the station. The train for the members of the staff and for the press was waiting at the station until 12 o'clock, when it drew out, taking among others Sir Wilfrid Laurier and most of the royal household. It had been thought that the governor general would go out on the first train but his excellency remained in the city and his excellency, accompanied by Major Maude and others, went away.

The interval between the arrival and the departure of the first section and the arrival of the royal party appeared to be quite long but soon cheers were heard in the distance and then the mounted police at the head of the royal procession came in sight followed by Dragoons. They dashed up the horses drawing the royal carriage and the duke and duchess, both dressed in black, stepped upon the platform. They were met by the cabinet ministers present and also by the mayor, who wore his scarlet robe and cockade and the members of the civic reception committee and others.

The duke and duchess went from one to another, not overlooking any, and saying that they had had a pleasant time in Ottawa. This friendly action on the part of the royal visitors was most favorably commented upon by the crowd.

The leaving took up a few minutes and then the duchess, accompanied by Lord Minto, walked to the train, followed by the duke and others. The duke and duchess stood upon the rear platform of the last car and the signal was given for the train to start. As the train moved out the duke and duchess bowed at the cheering crowd, while the duke gravely lifted his hat.

North Bay, Ont., Sept. 24.—(Special)—The Duke and Duchess of Cornwall resumed their tour of the west through Canada today and their next half of any length will be made at Winnipeg on Thursday after a continuous run of 48 hours from the capital.

ARREST AT MONCTON

Edward Wallace Held on Warrant from Glace Bay, Nova Scotia.

IS A SERIOUS MATTER.

Arrest in Connection with Mysterious Death of Porier at Glace Bay, Saturday Night Last—Wallace Makes Strong Denial—Says He Was About to Return.

Moncton, Sept. 25.—(Special)—Edward Wallace, better known here as "Cook" Wallace, was arrested here tonight on the strength of a telegram from D. A. Hearty, crown prosecutor of Glace Bay, asking for the apprehension of Wallace on the charge of murder. The prisoner is being held pending the arrival of an officer from Glace Bay, where Wallace is wanted in connection with the death of Taddy Poier, who came to an untimely end in a mysterious manner last Saturday night. Wallace denies knowing Poier or anything about his death beyond reading of the affair in the papers before leaving Glace Bay. He says he was running as conductor on the Louisburg railway and drew his pay Saturday morning last, starting for his home in Moncton Monday morning. Wallace is 35 years of age and has a wife and one child living here. He is the son of Henry Wallace, of the I. C. R., and is a native of Moncton. When taken into custody tonight he told the officers that he had his trunk packed and intended returning to Glace Bay at 5 o'clock tomorrow morning. He appeared surprised when told that he was wanted in Glace Bay in connection with Poier's death and says that he neither has any knowledge of the affair or that he hurried away from the town.

NOVA SCOTIA BRIG ABANDONED AT SEA.

The May of Lunenburg Battered by Hurricane in Frightful Manner.

Boston, Sept. 24.—The British brig May, belonging to Lunenburg, N. S., was abandoned at sea on September 13, and the crew taken off by the barquentine Kremlin, which arrived here today. The Kremlin was from Buenos Ayres and fell in with the dismantled, leaking brig in latitude 28.23 north, longitude 60.39 west. The brig had four feet of water in her hold and was slowly sinking. She was from Lunenburg, her home port, for Porto Rico with fish and lumber, sailing August 29. Captain Love reports that on September 5 a hurricane battered the brig in a frightful manner. Seams began to open and heavy seas continued to flood the cabins so that the crew were kept at the pumps continually for eight days, when the Kremlin was sighted.

HEART "STARTS"

Does the slightest effort excite the heart, quicken the breathing, induce suffocation, fluttering, palpitation or any other nervous symptoms? You need no surer symptom of disease, for when the heart "starts" the heart is sick.

ST. JOHN MAN SHOT.

Joseph Wood, of S. A. Constabulary, Has Bullet in His Arm.

NOT FROM ENEMY'S GUN.

Wound Received in Exchange of Shots Between British Troops, Rounds Patrol Mistaking Others for the Enemy—Word Comes in a Letter.

DON'T BECOME AN OBJECT

Of Aversion and Pity. Cure Your Catarrh. Purify Your Blood. Stop the Offensive Discharge. Rev. Dr. Bochner, of Buffalo, says: "My wife and I were both troubled with distressing Catarrh, but we have enjoyed freedom from this aggravating malady since the day we first used Dr. Agnew's Catarrhal Powder. Its action was instantaneous, giving the most grateful relief within ten minutes after first application. 5 cents."

GOOD OPINIONS FROM EVERYWHERE

South American Nerve cures that hackneyed speech. "A trial will convince you. Carry with it no deception when applied to this great of Nerve treatment."

1,000 CATTLE SENT OUT FROM TORONTO.

Biggest Lot Ever Forwarded—Go to Liverpool via Boston.

ORDERED TO LASH EVERY NATIVE HE MET.

Such the Evidence Given at Trial of Trooper in Pretoria.

"MUSCLES IN KNOTS"

Do you know that there isn't a case, no matter how acute or how long standing, that South American Rheumatic Cure will not relieve almost in a trice and work a permanent cure. Its action on a system so disordered is marvellous. It works quickly, quietly, effectively and harmlessly, and leaves no bad after effects. It does not cure all diseases, but it does cure rheumatism.

EARLY MUSKMELONS.

Transplanting From Thumb Pots and From Hotbeds. Experiments in transplanting muskmelons for the purpose of securing extra earliness or increased yields have been conducted at several of the experimental stations...

At the Colorado station a test was made to note to what extent hotbed propagation may hasten maturity and how successfully it may be performed. The seed was put in hotbeds April 3...

A New Strawberry Louse. Reports of a plant louse, or aphid, infesting the leaves of cultivated strawberry plants in myriads, which is an undescribed species never found before and must therefore be indigenous to the arid region...

Favorite Easter Plant. Of all the plants high in favor the erica are not outshined at Easter. The erica is and is not a novelty. It is just receiving the recognition which it deserves...

The Early Shrubs. The season of hard frosts begins almost before the snow is off the ground and some time before the leaves put in an appearance with the forsythia, with its bell shaped flowers of clear yellow...

What Others Say. The demand for ornamental nursery stock is increasing. There is considerable inquiry for peonies of varieties suitable for cut flowers, and buyers are in search of stocks of the true "drop white"...

THE SEMI-WEEKLY TELEGRAPH. Published every Wednesday and Saturday at 11.00 a.m. in advance.

Advertising Rates. Ordinary commercial advertisements taking the run of the paper: Each insertion \$1.00 per inch.

IMPORTANT NOTICE. Owing to the considerable number of complaints as to the misstatements of letters...

FACTS FOR SUBSCRIBERS. Without exception, names of new subscribers will not be entered until the money is received.

RULES FOR CORRESPONDENCE. Be brief. Write plainly and take special pains with dates.

AUTHORIZED AGENTS. The following agents are authorized to take orders and collect for the Semi-Weekly Telegraph.

SEMI-WEEKLY TELEGRAPH. ST. JOHN, N. B. SEPTEMBER 28, 1901.

SPECIAL NOTICE. As a great number of our subscribers are interested in the Census Guessing Competition...

As soon as the Hon. Mr. Fisher has made the official statement showing the results of the Census...

A SPLENDID MARKET FOR CIDER. While the apple harvest is under way it is pertinent to point out the value of the market for cider...

TYPHOID IN WATER AND ICE. Twenty years ago the Petteukofer theory that typhoid fever was caused by certain conditions of the soil was generally accepted...

AUSTRALIAN PROTECTION. The new Australian tariff bill contains a very peculiar clause dealing with shipping, which is an example of protectionism seldom attempted.

PEARY REFLECTIONS. Such a spectacle as the Schley controversy which is now fast for such a long period has excited the attention of the American people...

STEEL WORKS FOR AUSTRALIA. It is of more than passing interest to Canada to note that the existence of vast bodies of iron ore in New South Wales has been proved...

PROSPECTS IN NOVA SCOTIA. The results of the nominations in Nova Scotia are all in favor of the Murray government. In the counties of Yarmouth, Antigonish and Shelburne...

THE IRISH YACHT INSPIRES FAITH. The first of the international yacht race events of the Atlantic took place Thursday. It developed into a drifting match...

JOURNALISTS AS ENTERTAINERS TO ROYALTY. Newspaper men are nothing if not ubiquitous. The excellent service they accomplished at Ottawa yesterday...

WE LEAD IN PURE-BRED CATTLE. The largest number of pure bred horned cattle ever collected together at any one point in the maritime provinces...

TO REDUCE YOUR BOOT MEASURE ONE SIZE. Isn't half as hard, neither is it as painful as before the introduction of Putnam's Pain Expeller...

PUT OUT THE FIRE. Dr. Agnew's Erysipelas Cure is the only cure for this disease which is cured first application kills the "sting."

strong and Kettle theory correct. The Boston health authorities have been considering for some time whether typhoid fever lurks in ice, and have arrived at the result that there is very little danger from this source...

"If ice is formed by the ordinary process of freezing downward toward the bottom, the mere act of freezing itself results in a diminution, by physically throwing out the bacteria to the extent of 80 per cent, the remaining 10 per cent, being reduced in proportion to the contamination already given, and in two weeks the percentage remaining in the ice, as compared with the number in the water originally, would give nearly the same purification as that of filtered water...

"Notwithstanding all the factors of safety inherent in the ice itself, there can be no question that the safety is not absolute. It is possible for ice to convey typhoid germs, if it is polluted with typhoid discharges. A water supply must, therefore, be infected within, at most, a month previous to the formation of ice in order that the ice then formed may contain any living organism."

It is of more than passing interest to Canada to note that the existence of vast bodies of iron ore in New South Wales has been proved, as also of extensive deposits in the other states of Australia...

SMALL POX IN HALIFAX IS NOT DECREASING.

Two More New Cases Developed in the City Wednesday.

TO BREAK QUARANTINE.

Dissatisfied Fishermen Who Talked of So Doing Have the Riot Act Practically Read To Them—Chaplains Who Visit Patients Must Stay at Quarantine.

Halifax, Sept. 24.—(Special)—There is another suspected case of smallpox at Canoe today on the American fishing schooner Essex, which put in for medical aid. The crew were not allowed to land and the vessel sailed for Halifax this evening.

A young girl living in a house on Lockman street where two sailors who were found on the D. A. R. train several weeks ago suffering from smallpox, but was found today to have developed the dread disease. The house has been quarantined and a policeman put on guard. The patient will be removed by the hospital tomorrow.

Halifax, Sept. 25.—(Special)—Quarantine Officer McKay had to read the riot act today to some of the Gloucester fishermen of two crews now on Lawlor's Island. They complained strongly against being quarantined and they expressed their desire to see a chaplain and the medical officer asked if the chaplains could come and go to and from the island. He wired the Board and received a reply stating that the chaplains were not exempt from the regulations, so if either goes on the island now he must stay there until he is cured.

The coasting steamer on which were two sailors who first brought the disease here, was ordered into the steam wharf and crew today for observation, several of those on board complaining of illness. She is loaded with freight and was ready to sail at the time.

The yellow flag was displayed today from the house on Lockman street in which smallpox was reported yesterday. There are two cases there now and they have been removed to the infectious disease hospital as soon as arrangements for their vaccination there will be completed. The city doctors have been busy today vaccinating citizens. A case has been discovered at Victoria General Hospital and as a consequence the institution has been closed to visitors and will not receive patients until further notice.

HON. J. I. TARTE ASKS TO HAVE BANQUET POSTPONED

Necessitated Because of Effect of Recent Accident—Complains of Deafness.

Montreal, Sept. 25.—(Special)—The committee arranging for the banquet to Hon. J. I. Tarte met today, when the following letter from the minister, addressed to the president of the Chamber of Commerce, was read: "The accident from which I suffered the other day in Quebec is much graver than I thought at first, and is interfering with considerable deafness in the left ear, and my medical attendant strongly recommends that I should take as much rest as possible for some time to come, and, therefore, kindly request you to postpone to a later day the banquet which the commercial organizations of Montreal have been kind enough to tender to me and which had been fixed for October 3 next. I need not tell you how much I regret this unfortunate circumstance. The committee, after expressing how deeply they sympathized with the overworked minister of public works, unanimously resolved to postpone the banquet to a date to be determined on later."

HON. J. I. TARTE ASKS TO HAVE BANQUET POSTPONED

For President of Cuba.

Havana, Sept. 23.—Next Saturday or sooner, Senator Tomas Estrada Palma will be proclaimed a candidate for the presidency of Cuba, with the endorsement of all political parties, and with absolute assurance of election which the vote is taken. Senator Palma has accepted the nomination and stand upon the questions involved, which are principally those of a reciprocity treaty with the United States, a permanent treaty as prescribed by the Platt amendment; the manner of the payment of the Cuban army for services during the revolution, the system of collecting revenues for governmental maintenance and the ownership of the Isle of Pines.

Sir Claude MacDonald in Montreal.

Montreal, Sept. 25.—(Special)—Sir Claude MacDonald, formerly British minister to China, is in Montreal, on his way to Japan, where he will represent the British government.

BURGULARS' BOLD BREAK NEAR DORCHESTER.

Robbed Store of \$500 Worth of Goods, and Carried Away Plunder in Wagons--An Arrest.

Dorchester, N. B., Sept. 25.—The store of Scott H. Dickie was broken into and robbed by an organized gang of thieves. Dickie's store, which is situated about a mile from Dorchester Corner, was broken into on the 24th, some time between 10 o'clock, p. m., and 5 o'clock, a. m. About \$500 worth of clothing and smaller articles were taken, which will probably bring the total up to near \$500.

Entrance was effected through a second storey window, and the plunder was carried away in two wagons. The thieves also, while in the store, made a meal of canned goods and biscuits.

An ex-convict named John Doyle has been arrested for complicity in the affair and is now in jail. Detectives Bowser and Ayer are now after two more convicts named Nickerson and Doyle, who have been traced to the store.

Monday, Sept. 25.—(Special)—A stranger named John Raison was detained here this afternoon by Chief Scott on advice of Sheriff McEwen. Raison was suspected of being concerned in the Dorchester burglary. Raison was searched and, as nothing suspicious was found on him, he was allowed to continue his journey towards St. John. Raison is an Englishman oddly and poorly clad, but had \$110 in cash on him.

INDEFATIGABLE'S PILOT BLAMED BY COURT.

Vice-Admiral Bedford So Informs Montreal Harbor Commissioners.

Montreal, Sept. 25.—(Special)—Vice Admiral Bedford has communicated with the harbor commissioners regarding the accident to the H. M. S. Indefatigable while under way from Quebec to Montreal on her way up the St. Lawrence river last week, informing the board that the court which investigated the accident had found due to a grave error of judgment on the part of the pilot.

MAINE'S BIGGEST SAWMILL.

New Ashland Plant in Operation—Employs 150 Men.

Bangor, Sept. 23.—The largest sawmill in Maine has just been completed at Ashland, on the Aroostook River, to replace a mill that was burned last spring. The main mill is 207,000 feet, furnished with the best of machinery, including double cutting bandsaws and steam loading apparatus, and adjoining this building is a large planing mill. The planers from which the lumber is loaded upon cars are four in number, each 400 feet long. The power plant consists of four self-feeding boilers and engines of 700 horse-power. Rope are used on the pulleys instead of belts, and the mill is lighted with eight arc and 300 incandescent lamps. A pile of logs aggregating 20,000 feet is now at the mill, and is being sawed into lumber at the rate of 200,000 feet a day, 150 men being employed in the mill, with a payroll of \$6,000 a month, while many more are employed outside. Most of the lumber is shipped to New York, by rail to Bangor, thence by vessel.

LOCOMOTIVE WORKS AT KINGSTON HAVE A STRIKE.

Kingston, Ont., Sept. 25.—(Special)—Two locomotive works at Kingston, Ont., were on strike today because a union man was discharged for refusing to work overtime. The man had been taking holidays and was instructed to work overtime to catch up with his work. He refused and was discharged. The union asked that he be taken on again, but the request was not granted, hence the strike. The works will be closed rather than submit to the men's demand.

KAISER AGAIN AT ODDS WITH BERLIN COUNCIL.

Berlin, Sept. 25.—(Special)—The Berlin city council are again at odds with the re-election of Herr Kaufmann as second burgomaster has naturally not taken on again, but the request was not granted, hence the strike. The works will be closed rather than submit to the men's demand.

Bride and Groom Welcomed Home.

Digby, Sept. 24.—J. Hallett Campbell and bride have returned home from Halifax. A reception was held at their home, Queen street, last evening. The Digby Cornet band rendered good music. Luncheon was served to over 50 people. The affair was a pleasant one and will be long remembered by those present.

Impaired Digestion

May not be all that is meant by dyspepsia now, but it will be if neglected. The uneasiness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker. Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by Hood's Sarsaparilla which strengthens the whole digestive system.

Hood's Sarsaparilla

FOUR LIBERALS ARE HANDED NOVA SCOTIA SEATS.

Returned by Acclamation at Nomination Proceedings Wednesday.

PRACTICALLY TWO MORE.

For Shelburne County Has No Conservative in the Field, and Independents Have No Chance--A Change on Inverness Liberal Ticket--Other Counties.

Halifax, Sept. 25.—(Special)—Nominations for provincial elections which take place October 2, were made today in all the counties of the province. Four Liberals were returned by acclamation. They were A. F. Stoesman and H. S. LeBlanc, Yarmouth, and A. McMillan and C. P. Childs, Antigonish. Practically there were six Liberals by acclamation, as in the county of Shelburne the two government candidates, Hon. Thos. Johnson and Thos. Robertson, are opposed by Arthur Hood, Independent Liberal, and the result is certain to be the return of Johnson and Robertson by a tremendous majority. Hood likely losing his deposit.

In Inverness the nominations were James McDonald, ex-M. P., Liberal, and John L. McDonald, barrister, Strathroy, who was nominated this morning at a convention of the Liberal party in the name of A. C. Aucoin, who retired. M. J. Doucet, ex-M. P., C. E. McMillan, of Whybemoag; Hon. Daniel McNeil, barrister, of Port Hood, were the Conservative nominees.

In Victoria county, the Conservatives nominated John A. McDonald and J. J. McEneaney. Hon. G. H. Murray, M. P., were the Liberal nominees. In Digby—(Special)—Nomination day passed off quietly at Digby. Quite a large number of voters listened to the speeches at the court house. The following gentlemen were nominated: A. H. Comeau and A. M. Gaudy, Liberal candidates; Messrs. Joseph K. Tobin and Louis Dugas, Conservatives. All four gentlemen made short speeches but the meeting was decidedly Liberal from beginning to end. When Mayor Letesny, Conservative candidate, he said there was nothing to reply to the Conservative candidates made no points worthy of note.

There is nobody in either party but a certain that the Liberals will have a walk-over. It is only a question of how large the Conservative vote will be. The Conservative candidates will lose their deposits.

Amherst, N. S., Sept. 25.—(Special)—The Conservative nominees for the county of Cumberland are M. H. Tucker were today nominated by the Liberals and Chas. R. Smith, K. C., and Daniel McLeod by the Conservatives for the county of Cumberland. After nominating a joint meeting was addressed by the four candidates, Mayor Dickie presiding. The result on October 2 is only a question of how large the Conservative vote will be.

MRS. ROOSEVELT AT HOME IN WHITE HOUSE.

Takes Up Her Residence in Washington—President Entertains at Dinner.

Washington, Sept. 25.—Mrs. Theodore Roosevelt, the wife of the president, took up her permanent residence in Washington tonight, when as mistress of the White House she occupied apartments there for the first time. She reached the city about 9.30 o'clock, bringing with her two of the Roosevelt children, their governess and a housekeeper.

Mr. Kipling, the superintendent of public buildings and grounds, met the party at the station at the request of the president and escorted them to the White House. President Roosevelt met Mrs. Roosevelt and the children at the porte cochere of the White House. Apartments in the southwestern part of the building have been specially fitted up for the new presidential family. New carpets and furniture have been bought and some painting and decorating done.

President Roosevelt entertained a party of gentlemen at dinner tonight before Mrs. Roosevelt arrived. They had left the house before Mrs. Roosevelt came. For two hours late in the afternoon the president enjoyed a horseback ride accompanied by Col. Sanger, the assistant secretary of war.

MAY BE LOG FAMINE.

Penobscot Drives Delayed and Unique Conditions Obtain--Low Freight.

Bangor, Me., Sept. 23.—There is little chance that the West Branch log drive will get to Bangor in time for any considerable part of the logs to be milled this fall, and the lumbermen are relying chiefly upon the 20,000,000 ft. log branch to supply logs to start the mills now idle. This 20,000,000 feet will soon be used up, however, by the large mills, and there seems to be no way of avoiding a log famine at the very close of the season, something that has never before occurred on the Penobscot. A crew of 100 men are now at work on the East Branch, trying to get it to boom by Tuesday or Wednesday of this week, but it is not likely that any of its logs will reach the mills before Oct. 1.

The output of lumber is considerably less than usual at this time of the year. Freight continues low, for so late in the season, \$2.25 per thousand to New York, \$2 to Long Island Sound ports and \$1.75 to Boston being offered, and accepted. Instantly. The vessel owners complain that with seamen's wages, the cost of stores of all kinds and increased expenditures in other directions, they cannot afford to carry lumber from Bangor to New York at \$2.25 per thousand. In past years the rate from Bangor to New York has ranged in the fall months from \$2.50 to \$3.25 per thousand to New York. At \$2.25, the rate advancing as the season progressed toward its close. It remains to be seen whether of late this season, it will be an exception to the rule.

SAD STORY OF GIRL WHO CLAIMS ST. JOHN HOME.

Ethel Lamonte, in Boston Court, Pleads Guilty to Being Inmate of Disorderly House.

Last April Ethel Lamonte, a beautiful girl of well-to-do parents, left her home at St. John, N. B., to spend a vacation with her mother in Lowell, says the Boston Post.

Shortly after her arrival there, she fell in with evil companions, and in spite of her mother's protests, came to Boston. Her career since then has been of the wildest nature, and brought her at last into the police court.

She stood in the dock of the municipal court yesterday morning, still beautiful, although with the marks of dissipation plain upon her face. The young man who got her into the city, came to Boston and was there since then has been of the wildest nature, and brought her at last into the police court.

A SOLDIER VISITOR.

Campaigner of Thirteen Years Arrived Last Night from Bermuda.

GOING TO HALIFAX. He is Sergeant Kemp of Royal Artillery, Who Has Been Transferred to the Nova Scotia Garrison Town--An Interesting Chat About His Experiences.

A man attired in a complete suit of hot weather khaki, to which was pinned the South African ribbon, passed through the city last evening on route for Halifax. He was Sergeant Kemp, of the Royal Artillery, who has seen 13 years soldiering yet, despite the almost world-wide area which that space of service has covered, this city is his first introduction to Canada, he having arrived yesterday from the garrison at Bermuda, having been transferred from that station to Halifax.

He has seen 18 months' aggressive action with his corps in the Transvaal campaign, passing through various contests and finally routing Pretoria free both from entrance and sound.

"My most noteworthy experience," he remarked, "was in the British re-advance at Nooitgedagt. It was exciting work sticking to the guns, but it was something that was quite necessary to perform."

Asked if he had seen previous warfare, he replied that while stationed in Malta he had taken part in quelling the insurrection of the very close of the season, something that has never before occurred on the Penobscot. A crew of 100 men are now at work on the East Branch, trying to get it to boom by Tuesday or Wednesday of this week, but it is not likely that any of its logs will reach the mills before Oct. 1.

From Malta he went with his battery to the Cape and from there to the Bermudas, there being on the same steamer 800 Boer prisoners who, he states, are fairly comfortable and semi-contented.

News of the Local Fishing.

Halifax, Sept. 25.—The reports tonight from the local fishing centres are: Nova Scotia.

Digby—Hake plenty, cod scarce. Lockeport—Cod fair, few herring reported.

Lunenburg—Cod fair, few mackerel reported.

Musquodoboit—Cod fair, herring and mackerel scarce.

Selmon River—Herring plentiful, cod fair.

Arichat—Cod fair, herring scarce.

Quebec.

Newport Point—Cod and squid good in plenty.

All branches had at Canoe, Port Hood, Petit de Guit, Alberton, Bloomfield, Cheticamp, Spry Bay, Ingonish, Malton, Isaac's Harbour, Fort la Four, Sand Point, Percé, Gascons, Grand Mannan, Douglastown, Grand River, Paspébiac and Southeast Point, Antigonish.

Bait and fly.

Frozen bait at Bayfield, Souris, Port Monton, Gabarus, Alberton and Queensburg.

Bait can be obtained at Douglastown, Gabarus, Caraque, St. Ann's, Paspébiac, Lunenburg, Arichat, Canoe, Port Hood, L'Archeve, Fort la Four, Gysby county, South Head, Whale Cove, Cheney's Head, Grand Manan, Digby, Tiverton, and Newport Point.

Ice at Arichat, Digby, St. Mary's Bay, Freeport, Westport, Tiverton, Granville, Douglastown, Isaac's Harbour, Hawksbury, Lunenburg, Georgetown, Yarmouth, Paspébiac, Lockeport, Port Malton, Livepool, Whitehead, Fort Mulgrave, Paspébiac Island, Canoe, Queensport, Souris, Port Monton, Prospect, Hubbard's Cove, Gysby county, Fox Island, Gysby county, and Port la Four.

Low Ocean Freight Rates.

Baltimore, Sept. 25.—Never before in the history of the eastern seaboard have grain charterers been so scarce or rates so low as at present. The British steamship Newcastle, which arrived here eight days ago, was chartered today to load 23,000 quarters for continental ports at the lowest freight rate ever given from this coast. It is estimated that the steamship will be barely able to cover the expenses of her trip, but her owners prefer that to letting her lie idle waiting for rates to advance.

Commission men say that the movement of grain is never so slow, and the reason is that the foreign yield of grain this year has been so good. The conditions are in striking contrast with those of last year, when at this season it was almost impossible to get a steamship to carry the grain, and 7,000 tons and 8,000 tons vessels were loaded daily.

River Wharf Finished.

Contractor Thomas Gilliland has finished the building of the new Jenkins wharf, on the Bellisle, and the wharf is one of the best on the river. The new structure is 200 feet long and 40 feet wide, and has been so built that it will serve the steamers at flood time as well as at low water.

Mr. Gilliland has now commenced work building a new wharf at Gordon's Point on the Kennebec River. This wharf will also be a staunch structure and something that has long been needed.

Montreal Street Lighting Trouble.

Montreal, Sept. 25.—(Special)—In the superior court today, Judge Paquin dismissed the petition asking that the mayor be restrained from signing a contract with the Royal Electric Company, for lighting Montreal for five years. This removes the last obstacle to obtaining the civic contract by the Royal company.

Hazard Powder!

These are the brands: Indian Rifle, Duck Shooting, Sea Shooting, Electric, Trap, Blue Ribbon Smokeless.

THE BEST AT ANY PRICE. W. H. THORNE & CO. ST. JOHN, N. B.

Harness and Collars.

The Horse wear we sell all over the country stands for us and we stand by it. When you buy Harness or other Horse Goods here you know you are getting it right. We recommend it. We supply the best of Harness from the best of Leather, well made and sure to wear. A call will convince you of our prices are right as well as quality.

H. HORTON & SON, Market square, St. John, N. B.

A Salesman's Story

"Yes sir," this is Stanfield's Unshrinkable underwear, pure wool and guaranteed not to shrink. There are other goods marked "Unshrinkable," but you must be sure that they are mostly of foreign make and are either a deception or a fraud.

Stanfield's Unshrinkable underwear are made entirely from the best New Zealand wool, by the Trans-Atlantic Mills Co., the largest manufacturers of high-class knit underwear in Canada; they guarantee that you, in turn, guarantee them to you in the only way that is worth considering—"You may take it for granted that you and they will outwear any other underwear on the market. No more expensive than any other underwear of equal quality."

It is sold by Dry Goods and Cent's Furnishing Stores, for them.

Prospects for Review.

Smallpox in Halifax and a Question of Military Precedence May Help St. John.

Rumors continue to be persistent that a big military review will take place in St. John during the royal visit. The most recent report is that 5,000 troops will be reviewed in St. John, because of the existence of smallpox in Halifax where the review was originally scheduled to take place.

It is also stated that dominion militia department may have another reason for assigning the review. This case is a reported dispute as to whether Major General O'Grady-Haley or Col. Biscoe shall command the mobilization, in imperial rank, Col. Biscoe is senior to the commander of the Canadian forces, but the militia department is not willing to have the major general supersede it.

If 5,000 men are to be reviewed in St. John there are only two suitable situations, Courtney Bay flats or the grounds of James Manchester, Managoush Road. The flats is claimed to be a most suitable place for such an event for when imperials were stationed here the troops were frequently reviewed on the sands.

WOULD WEAR KHAKI.

St. John Boys Want to Don Their Service Clothes to Receive Medals from Duke.

There is a very general impression amongst the city's contribution to the South African campaign that they dress in their khaki uniforms at the time of the bestowal of service medals upon them by the Duke of Cornwall and York.

The great majority, in fact about all, have so expressed themselves, and there will be some dissatisfaction if the regulations issued by General O'Grady-Haley are enforced. The boys are favorable to the holding of an early meeting in order to discuss the matter.

They Appreciate Carnegie's Gift.

Glasgow, Sept. 24.—Five thousand students have applied for the benefits of the Scottish University educational trust founded by Andrew Carnegie, a number far exceeding expectations. This pleasure is largely due to the fact that the trust is not only able to cover the expenses of her trip, but her owners prefer that to letting her lie idle waiting for rates to advance.

Commission men say that the movement of grain is never so slow, and the reason is that the foreign yield of grain this year has been so good. The conditions are in striking contrast with those of last year, when at this season it was almost impossible to get a steamship to carry the grain, and 7,000 tons and 8,000 tons vessels were loaded daily.

The Fortune-Hunters.

BY GILBERT DAYLE.

It was a magnificently hot morning in August, but there was shade in the Park, and I was sitting there, deep in my reflections...

They were passing within a yard or so of my seat, and my stick slipped to the ground. Marjory—she was a pretty young cousin of mine—turned her head and saw me...

"Of course I must run against you the first thing," she said with a smiling little pout. "Why on earth don't you leave town like everybody else?"

The death warrant signed by Justice White is addressed to the agent and warden of the prison, and directs them to execute the sentence of the court within the walls of the prison, on some day during the week beginning October 28th, 1901...

At 11:35 the Columbia went on the port tack and crossed the bows of the Shamrock, the latter having just started on her way...

Thus for the first and only time in the race the Shamrock was in the lead, and she was a great piece of jockeying. About 1:20 the breeze shifted from east by north to east by south...

At 2 o'clock the Shamrock took in her jib topsail and set one slightly larger and of more stylish cut. It was a cause of wonder to the yachting experts why the splendid sails of the Shamrock with their greater area of surface, were not more effective...

THE WITNESS OF GOD

Possessed the Kind Barbarians of Melita.

FOR THEY SHOWED KINDNESS.

Love, Which God Is, Thus Manifesting Proves Its Divinity in That It Unites in Conscious Brotherhood All Who Live and Suffer.

Washington, Sept. 22.—In this discourse Dr. Yelvington commends the spirit of unity and good feeling and mentions numerous examples of that spirit...

Here we are on the island of Malta, and our name for Melita. This island, which has always been an important commercial centre, belonging at different times to Phoenicians, Greeks, Romans, Arabs, to Spain, to France, now belongs to England.

When Paul and his comrades crawled up on the beach, saturated and hungry from long abstinence from food and chilled to the bone, the islanders, though called barbarians because they could not speak Greek, gave them food and shelter.

And here is a man with a broken arm, we will have a doctor brought in to attend to this fracture. And, though for three months the kindness went on, we have little more than a faint recollection of the barbarous people showed us no little kindness.

There is kindness of disposition, kindness of word, kindness of act, and there is Jesus Christ, the personification of all of them. Kindness! You cannot affect it. You cannot play it as a part. You cannot enact it. By the grace of God, you must have it inside you, an everlasting summer, or, rather, a combination of June and October, the gentleness of the one and the tonic of the other.

MANY BRIDES AND GROOMS OF BRIGHT SEPTEMBER DAY.

The home of Mr. R. J. Dibble, 150 Broad street, was the scene of a quiet wedding Tuesday afternoon, when his niece Annie Louise Northrup and Isaac Burns Murray, of Messrs. J. M. and C. W. H. Grant's insurance office, were united in the bonds of holy matrimony.

At the residence of her grandfather, Samuel Belyea, Middle street, West End, Tuesday night, Miss Amanda Parker was united in marriage to J. E. McLeod by Rev. B. N. Adams.

IF YOU CATCH COLD.

Many things may happen when you catch cold, but the thing that usually happens first is a cough. An inflammation starts up in the bronchial tubes or in the throat, and the discharge of mucus from the head constantly pours down.

Great numbers of persons disregard cough at first, and pay the penalty of neglect. Cough never did any one any good. It should be dispensed with promptly.
