B NKERS-Bank of Nova Scotia, Amherst Branch; and Bank of New Brunswick, St. John, N. B OFFICE-Mr. W. J. MOFFATS Office, Amherst, N. S.

The Company have acquired, by purchase, three leases from Government of Nova Scotia to Hon Alex. Macfarlane, of one square mile each, of the richest coal deposits in Canada, at Spring Hill, Cumberland County, Nova Scotia, renewable until August, 1926 Royalty 10 cents per ton of 2.240 lbs.

Five seams and upwards, of varying thickness from 2½ to 13 feet, are known to exist within these areas, which comprehend (exclusive of a portion of the General Mining Association reserve) nearly all the coal yet discovered in this well known district. Of these, one, known as the 11 leet seam, has been opened, and several bundred tons raised by a slope sunk only 25 feet from the surface, and has been proved by test pits about 1½ mile at an average of 10 feet from the surface, and preserving a thickness of 10 feet for two thirds of that distance. The slope has lately been carried down to the depth of 95 feet, exhibiting a marked improvement in the quality of the coal, described by Sir Wm. Logan, from specimens near the outcrop, as "an excellent coal, superior to any of this continent yet known." A moderate estimate of the quantity would give as the yield from this seam alone, half a million tons annually during the lease. The larger seam has been exposed by a trial pit within the areas; the smallest of 2½ feet, is believed to contain a valuable gas coal, and it is a fair geological inference that all these beds of coal will be found in their proper position. Thus several distinct colleries may be leased to individuals or companies.

beds of coal will be found in their proper position. Thus several distinct collectes may be leased to individuals or companies.

A branch railway of 34 miles has been surveyed, and steps are being taken for its construction to connect the property by a down grade with the Intercolonial Railway, at a point 21 miles from the head of the Bay Fundy and contemplated Bay Verte Canal, and 13 miles from a shipping place at the mouth of Maccan River, half a mile from the Intercolonial, where vessels drawing 13 leet of water may load. Until the opening of the Intercolonial, between Truro and Amberst, next autumn, the coal will be hauled 4 miles to Black River Station.

the Intercolonial, between Truro and Amberst, next autumn, the coal will be hauled 4 miles to Black River Station.

From the nearness of the outcrop to the surface, and the seams lying on high and descending ground, securing easy drainage, it is considered that these seams may be most economically worked.

The freight of a ton from the head of Bay Fundy to Boston or New York is about 75 cents le-a than from Picton or Sydney—of itself a good profit, while the difference to St. John is fully \$1 00.

The Spring Hill coal is well adapted for house, steam and smelting purposes. Situated within 37 miles by rail of the lodes of brown hematite and micacous iron ore of the richest quality, known as the Acadia iron ore, of Londouderry, it is difficult to assign limits to the quantity of ore likely to be taken to Spring Hill, for smelting by a coal unusually free from sulphur. The large proportion of carbon renders it eminently adapted for manufacturing coke, which, with the coal itself, must be extensively used in the iron and steel works at Londonderry, as well as the Machine shops being erected for the Government railways at Moncton.

The portion of the Intercolonial between Truro and Amherst is now being ballasted with engines driven by Spring Hill coal. It is understood that the line between Truro and Newcastle, if not the whole line to St. John, a distance of 280, miles will shortly be worked in the same way, and the local demand between these points, already large, is steadily increasing.

Vessels bringing floor from the St. Lawrence to St. John, Varmouth, and other

Vessels bringing flour from the St Lawrence to St. John, Yarmouth, and other lower ports, through the Bay Vorte Canal, when completed, may have return cargoes of coal to Quebec, Montreal or Toronto.

From all these sources of traffic, in addition to the Western part of Nova Scotia, the New England ports and New York, it is assumed that an unlimited market will be afforded.

afforded.

Additional means of shipment will be afforded by the contemplated railway to Parrsboro—a port open at least ten to eleven months in the year—for which the Nova Scotia Legislature have provided large subventions.

The estimated cost per ton for raising, handling, and putting on board ship, say at mouth of Maccan river, is about as follows:

 Cost on board...
 \$1.10

 Freight to St. John...
 1.20

If Pictou and Sydney coal can be shipped to Boston and New York at paying prices. it cannot fail to be highly remunerative to send a better article from Spring Hill, with an advantage of 75 cents in freight. The local traffic would yield a high rate of Taking the low average of only 80 cents per ton, inclusive of repairs of machinery, &c., and assuming only 100 000 tons as the annual production at first, we have a gain of 20 per cent. on the capital, which might be much augmented by the rent of other seams, as suggested. From the exceptionally high character of this coal, and the facilities for raising it cheaply, this quantity, it is confidently believed, might ere long be doubted or treblet, and a laterate of profit secured even with considerable increase

TESTIMONIALS.

Extracts from Reports of Messrs. Woodhouse and Jeffcock, Mining Engineers, London and Derby, G. B., (January 2, 1866)

The Coal Field which we have carefully examined, and which is the subject of this Report, is situate in the country of Cumberland, in the province of Nova Scotia. It is generally described as the "Springhill Coal Field, but in reality it is a part of the great Cumberland Coal Field.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these Pulls rapidly cure:—

For Dyspepsia or Indigestion, Listlessness, Languor, and Loss of Appetite, they should be taken moderately to stimulate the stomach, and restore its heathy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache; Sick Headache, Jaundice or Green Sickness, Bilious Colle and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it. Building. diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhoea, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Bide, Back, and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression, a large dose should be taken, as it produces the desired effect by sympathy. Dr. J. C. AYER & CO., Practical Chem LOWELL, MASS., U. S. A. FOR SALE BY ALL DRUGGISTS EVERYWHERE MEDICAL HALL, H. L. SPENUER, Medical Warehouse, 20 NELSON STREET, ST. JOHN, N. B., · 文本稿 HALL'S

VECETABLE SICILIAN HAIR RENEWER. ITS EFFECT IS SAINT JOHN, ANNAPOLIS, KENTVILLE, WINDSOR AND HALIFAX, Per Steamer "Empres." and Windsor and An-napolis Raiway. MIRACULOUS It is a perfect and wonderful article. Curebaldness, M. kes hair grow. A better dressing than any "cil" or "pomatum" Softons brashly and wiry hair into Beautiful Silken Tresce Above all, the great wonder is the rapidity with which it restores GRAY HAIR TO II "HIGHNAL COLOR.

The whitest and worst looking hair resuments youthful beauty by its use. It does not dwithe hair, but strikes at the roct and fills it with new life and coloring matter.

The first application will do good: you will see the NATUAL COLOR returning every day, and THE Subscriber having made arrangements with BARRY'S EXPRESS. Hallfax, is now prepared to deliver PARCELS and MO'NEY to all Stations on the Windsor and Annapoli Railway. Through rates to Halifax, and all in tormation can be ottained at the office lay, and BEFORE YOU KNOW IT,

the old, gray, discolored appear ance of the hair will be gone, siving place to lustrous, shining and beautiful locks.

Ask for Hall's Sicilian Hair Renewer; no other article is at all like it in effect.

Nks 7 & 9 Water street.

A very lean pig, on a windy day, Stood alone by a garden gate; He couldn't get in, for the gate was locked, And sadly he moaned o'er his fate. Then he wiped his eyes with a curl of his tail,
And gracefully stood on his ear.
And a trembling tear coursed down his spine.
Till his face turned the color of cuir. His snoot grew flat, and gray were his locks, When a knot-hole round he esp ed: And he sat on the silken folds of his paw. And peered through that loop-hole wide. He saw the sun in a golden beam, Glint its rays on a bucket of mash, And his porcine feelings welled upin his breast And he went through that bole with a dash Then his optic fell on some CATTLE SPICE, As he glanced o'er the garden green; And he smacked his lips and distended hi With a relish uncommonly keen. He loaded his skin till it cou'dn't hold more And his sides began to expand His face got cheeky; stout grew his limbs, And he left for his native land. He reached the hole at the side of the gate And jumped for that circular crack When his febrile pulse felt a normal shock And he fell on the broad of his back. And the Coroner sat on the fat remains
Of that porker in his pride:
And this was the verdiet the Jury gave:
"Died from a swelled inside."
