

Words fail to express my gratitude to Mr. S. J. Carter, of Nashville, Tenn., for the benefits derived from Ayer's Sarsaparilla.

Having been afflicted all my life with Scrofula, my system seemed saturated with it. It came out in blotches, Ulcers, and Matter on the face, and all over my body. Mr. Carter states that he was entirely cured by the use of Ayer's Sarsaparilla, and since discontinuing its use, eight months ago, he has had no return of the scrofulous symptoms.

All baneful infections of the blood are promptly removed by this unequalled alternative.

#### FARM AND HOUSEHOLD.

It is a severe calamity to any agricultural country not to be the producer of its own wool.

It is said that 955 farms in Iowa are owned by women, and that twenty dairy farms are managed by women.

The Cranberry crop this year will be the heaviest ever known in New Jersey, the vines being loaded with fruit.

In Walla Walla, Washington Territory, may be seen eighty miles of continuous wheat fields along the foot-hills of the Blue Mountains.

The American Dairyman says that Jersey steers are as quick and intelligent as Devon steers; that they grow to good size and make the best of beef.

The Hog, a new paper, says that the animal for which it is named furnishes all the grease to run the farm machinery, and transports more grain to market, in its bones, sinews and muscles, than all the railroads in America.

The prairie fires in Dakota have done a world of damage, over several hundred square miles in the aggregate. Homesteads, crops, fences, etc., have been destroyed, and hundreds of farmers are destitute on the approach of cold weather.

It is said that about one-eighth of the English wheat crop was so damaged as to be fit only for stock feeding by three weeks of wet weather preceding Sunday, September 20. The damage to barley is reported to be much greater than that to wheat; but in view of the heavy supply in sight, the damage has not affected the markets.

The report of the Privy Council shows that during 1885 there has been in Great Britain a decrease of 192,720 acres in the area under wheat; an increase of 85,526 acres in that under barley; an increase of 25,317 acres in that under oats; a decrease of 16,817 acres in that under potatoes; an increase of 2,056 acres in that under hops. This is in comparison with the year 1884.

The over-stimulation of dairy cows has already had its effects, as showing the injury to cows by stuffing with special foods to produce wonderful butter production for a short season, at the expense of future usefulness of the cow. Another point, also practically determined, is that these wonderful amounts of butter produced have been at an expense greater than the value of the product.

#### Winter Fashions.

Godey's Lady's Book.

Beards are in great favor.

With dresses of woollen, bonnets and hats are in vogue.

Wool ribbons, that look like hands of Astrakhan fur, are a decided novelty.

Flomb the new lead color, is highly popular, but not generally becoming.

Green combines well with brown, garnet or pink, and such combinations are now in good style.

A novelty in hat trimmings is velvet, ornamented with nails made of jet having the points turned upward.

Some of the largest and most expensive fans are painted in oils and water colors, not only in designs of flowers and fruits, but in landscapes.

High loops of ribbon are arranged in bows of bonnets, and are intermixed with slender wings or quills, powdered with beads or diamond dust.

Blue moonlight and blue steel beads, mixed with a quantity of bronze or garnet beads, form some of the most beautiful trimmings that can be obtained.

A novelty is a set consisting of a hat or cap and muff with a bow attached. One of black velvet is trimmed with astrakhan and rosettes and loop bows of ribbon with linings of bright primrose satin.

Usters and English long coats are made of different autumn fabrics, and are richly garnished with silk cord appliques made so fine and delicate as to greatly resemble embroidery when set on the wrap.

For the neck and wrists of traveling dresses, the inside fold is now made of reppé pique cut on the bias. At least an inch of the fold shows above the collar of the dress—a severe style that is not becoming to many.

Tinsel is not as popular for ordinary dress trimmings and bonnets, but is now largely used for evening robes, wraps, and in the smaller articles of a woman's toilet. Many handsome black fans are decorated with it.

Arrasene embroidery makes a rich and stylish trimming for cashmere and wool house dresses. The work is quickly done, and small flowers of brilliant colors, mingled with leaf sprays and mosses, produce a very beautiful effect with comparatively a small outlay of means or labor.

Two thousand bonnet heads have been shipped from San Francisco to China. There they will be converted into various kinds of medicines, which sell very high. A load is placed in a flask of whiskey for several weeks and the stuff is then sold as a tonic.

The Harrington steam mill at

Shediac with all its contents was

destroyed by fire at an early hour

on Saturday morning. As the mill

has had no fire in it of late, its

destruction is supposed to be the work

of an incendiary. The loss is es-

timated at \$25,000. Insurance \$9,000.

The family of our respected

townsman, R. A. Trueman, Esq., met

with a serious bereavement on

Friday by the death of their eldest

daughter Louisa, a young lady

whose amiable character and bright

disposition had endeared her to an

extensive circle of friends. A very

large attendance at the funeral on

Sunday afternoon showed a wide

spread sympathy for them in their

loss.

A farmer in Memramcook, it is

said, has secured a large sum of

money (a pure fund of course) in

aid of McLeod's election, and he promp-

tly handed over \$5. Being asked to

double it, he declined the honor.

The same man, it is said, persistently

refused to pay the taxes, and he

has abused everybody from the tax

collector up and down. This shows

how much stronger is grit than

patriotism or honesty. Perhaps

some of our readers will know the

man.—Times.

The article in last issue, on the

opening of the Elgin, Pontiac and

Havlock Railway, scarcely did jus-

tice to the rapid manner in which

the road had been pushed forward.

Work was not commenced till last

January and very little was done

till June, so that the actual time of

construction was not more than six

months. The contractor, Mr. J. A.

Wheaton, deserves credit for the

rapidity with which the road was

built, and for the thorough sub-

stantial character of the work.

An interesting social event took

place in the English Church at Baie

Verte last night, to wit, the marriage

of Mr. Burton E. Black, of Middle

church was filled to its utmost

capacity, and the ceremony was

performed by Rev. D. M. Ties.

After supper at the residence of J. A.

the happy party left for Sackville by

special train. The Post tenders its

warmest congratulations.

Whatever may be said concerning

the moral aspect of Peck's Bad

words, as presented by the Atkinson

play without a plot has hit the

public fancy, and that the audacious

antics of master "Henry" and his

chum, the quintessential peevish

grocery man, have been the

social traits, the Major, Mr. Duffy

and the other characters were duly

appreciated by the large audience

at Music Hall last Friday evening.

The Bad Boy makes people laugh

and therefore is successful, while

plays of greater merit are not pay-

ing expenses.

## LOCAL MATTERS.

PERSONALS.—Senator Botsford has

been on a visit to St. John.—Rev.

George J. Bond, A. B. President,

of the Newfoundland Conference

and a graduate of Mount Allison,

has been visiting old friends in

Sackville this week.

FROM THE WHARVES.—The "Ella

Maud," before reported as having

partially capsized at the landing,

and to have lost part of her deck

load of kerosene, has been righted

by digging out the bed beneath her.

Some forty barrels of oil have been

picked up and delivered to the cus-

toms.—Schr. "May" from Port

Williams discharged on Tuesday,

200 barrels of apples for J. A. Mc-

Queen. The expected another cargo

next week.—Some half a dozen

schooners have been lying along

the bank of the river, unable to ob-

tain berths at the wharves.

FINE COLTS.—Some of the colts

exhibited at the late show deserve

a fuller notice than could be given

by a cold show by Mr. William Pro-

ctor for draught purposes, or, as the

price list has it, a one year old

draught horse, which was exhibited

by Mr. George Wells, and took first

prize, weighed 1080 pounds. An-

Queen, who took second prize, was

shown by Mr. W. E. Barnes weighed 1050

pounds and took second prize. A

yearling roaster exhibited by Mr.

Barnes weighed 850 pounds and

took first prize, closely followed by

a colt shown by Mr. William Pro-

ctor. Several other colts in these

classes were but little inferior to

the prize winners.

MISSIONARY MEETING.—The annual

missionary meeting of the Sack-

ville Circuit was held in the Meth-

odist Church on Sunday evening, and

was largely attended. The opening

services were conducted by Rev. John

Burwash, A. M., after which the

chair was taken by Dr. Inch, who

made a brief reference to the

very successful and interesting

missionary meeting held at Halifax

last week. The Secretary, Rev. R.

W. Weddall, A. B., then read his re-

port, in which he stated that the

total contributions of the Methodist

Church in Sackville for the year

amounted to \$180,000, for a

larger sum according to mem-

bership than was contributed by any

other denomination. The amount

contributed by Sackville Circuit was

\$900,000, which is the largest sum

ever sent from this circuit. The

Chairman then called upon Rev.

George J. Bond, A. B., President

of the Newfoundland Conference,

who gave a very interesting account

of his visit to the American

Conference, and of the work done

by the Methodist Church in the

Dominion, who gave a graphic de-

scription of missionary work on

the coast, and made an eloquent

and powerful appeal for the support

of the various missions of the

Methodist Church.

NEW R. C. CHURCH.—According

to announcement, the Church of

Our Lady of the Holy Rosary, Mid-

dle Sackville, was opened for Divine

service last Sunday. At the morn-
