DISTRICT AND GENERAL

A barber shop exclusively for women has been opened in a leading hotel in Houston, Texas.

Watford's tax rate for this year is 52 mills, which is considerable of a reduction from last year.

Watford Old Home week committee will have a surplus of some \$1,500 from their celebration this year.

Oshawa newspapers, owing to the high cost of publishing, have reverted to three issues a week instead of daily.

A new record attendance for Toronto Exhibition was made this year at 1,519,000, an increase of 26,000 over last year.

A terrific hailstorm on Friday swept over portions of Tilbury East township and caused considerable damage to the crops.

Thomas Craig, head of Ridgetown's largest mercantile business, The Craig Company, Limited, dropped dead in his store Thursday evening.

An employee of a lighting plant at Bellaire, Mich., found a steel fishing rod near highly charged wires, and in attempting to remove it was electrocuted.

On the conclusion of the recent Chautauqua at Essex, the people failed to respond to the appeal for a guarantee for the return of Chautauqua next year.

Hugh McIvor, one of the oldest residents of Lobo township, died a few days ago, aged 90 years. He was born in Scotland and came to Canada with his parents when ten years of age.

Following the receipt of claims totalling nearly \$2,000 for sheep killed by dogs, Westminster township council may pass a by-law making it an offense for persons to keep vicious dogs on their premises.

The marriage of Hannah Gwynfel, only daughter of Mr. and Mrs. Wm. Walters, of West Lorne, to Archibald W. McVicar, son of Mr. and Mrs. Peter A. McVicar, London, was solemnized Wednesday afternoon in the Methodist church, West Lorne.

One Lincoln county rural school did not reopen for the fall term on scheduled time. The teacher recently was married. She returned to resume her duties, but the rural school board, being opposed to employing married women teachers, refused to allow her to open the school.

Most everyone has had carburetor trouble with their cars, but here's a new one that is no joke. An Ellisworth, Minnesota, garage man while adjusting the carburetor of a customer's car removed a dead mouse that had found its way into the carburetor. The removal of the intruder remedied the trouble.

According to official Government statistics, wages in the Windsor track for the meet just closed totalled \$1,930,716, and the Government's revenue from the track's operation amounts to \$93,535.80. Although the track did not operate last year, comparison with spring meet figures shows that there was a decline in wagering from \$2,650,617, when the Government's percentage was 132.530.

According to a London paper several ratepayers living on the Lambeth-Delaware stretch of the provincial highway who by petition were successful in having a number of blocks of newly laid pavement torn up which they believed did not measure up to the required thickness may have to face a bill of costs. It was found that the contractors were adhering to their contract, which calls for seven inches of cement.

The result of the standing field crop competition in oats for 1924, conducted under the direction of the Mosa and Ekfrid Agricultural Society, is as follows:—

1. David Coulthard, Glencoe, Banner oats, 97 points;

2. A. B. McDonald, Glencoe, O. A. C. 72, 96 1/2;

3. Wm. McCutcheon, Glencoe, O. A. C. 72, 94;

4. D. C. McTavish, Walkers, O. A. C. 72, 93 1/2;

5. Thos. Henderson, Glencoe, Granary Filler, 90;

6. Frank I. Abbott, Glencoe, O. A. C. 72, 89 1/2;

7. Hugh Eddie, Appin, O. A. C. 72, 89.

The following competitors also scored over 85 points:—

D. W. Gillies, Glencoe, O. A. C. 72, 88 1/2;

Hugh McTaggart, Glencoe, Banner, 88;

Dan McKellar, Glencoe, O. A. C. 72, 87 1/2;

Robert N. Campbell, Alvinston, O. A. C. 72, 87 1/2;

W. H. Reycraft, Glencoe, Banner, 87 1/2.

R. W. McKellar, Secretary.

FIELD CROP WINNERS

The result of the standing field crop competition in oats for 1924, conducted under the direction of the Mosa and Ekfrid Agricultural Society, is as follows:—

1. David Coulthard, Glencoe, Banner oats, 97 points;

2. A. B. McDonald, Glencoe, O. A. C. 72, 96 1/2;

3. Wm. McCutcheon, Glencoe, O. A. C. 72, 94;

4. D. C. McTavish, Walkers, O. A. C. 72, 93 1/2;

5. Thos. Henderson, Glencoe, Granary Filler, 90;

6. Frank I. Abbott, Glencoe, O. A. C. 72, 89 1/2;

7. Hugh Eddie, Appin, O. A. C. 72, 89.

The following competitors also scored over 85 points:—

D. W. Gillies, Glencoe, O. A. C. 72, 88 1/2;

Hugh McTaggart, Glencoe, Banner, 88;

Dan McKellar, Glencoe, O. A. C. 72, 87 1/2;

Robert N. Campbell, Alvinston, O. A. C. 72, 87 1/2;

W. H. Reycraft, Glencoe, Banner, 87 1/2.

R. W. McKellar, Secretary.

PLEBISCITE PREPARATIONS

At a meeting held in the lecture room of the Presbyterian church on Friday afternoon, a branch of the Ontario Women's Prohibition Committee was organized for West Middlesex.

Mrs. Potter, of Wardsville, county president of the W.C.T.U., presided, and Gordon Wright, of London, gave an address in the interests of the coming plebiscite. Officers were elected as follows:—President, Mrs. E. Potter, of Wardsville; secretary, Mrs. Brownlee, of Appin; treasurer, Mrs. James M. Anderson, of Glencoe.

The primary object of the organization is to look after the interests of the temperance advocates in the coming plebiscite on the liquor question introduced by the Ontario Government.

TENNIS TOURNAMENT

A tennis tournament of men's and ladies' singles begins on the Glencoe tennis courts this week, and promises to be very interesting. Medals will be awarded to winners of the finals. The public are invited to attend these games.

For the interest of those taking part in the games the following rules are given:—1—Best two out of three sets; 2—A referee appointed for each game and his decision to be final; 3—Players failing to notify or not playing on schedule time, their game will go to opponent by default; 4—Games to be played according to schedule; in case of rain preventing play, you will be notified when to play.

It is requested that players be on time, as failure to do so complicates the schedule.

If our gospel be hid, it is hid to them that are lost.—2 Cor. 4: 2. Neither do men light a candle and put it under a bushel.—Matt. 5: 15. Everyone is welcome to come to the meeting that will be held (if the Lord will) in the Appin town hall, September 14th, at 7:30 p.m.—Adv.

MORE SPECIAL PRIZES

The following special prizes were received too late to be printed in the prize list of the Mosa & Ekfrid fair:

1. By Canadian Racing Association.—For best 1-year-old colt or filly sired by General Probyn or Springside.—1st, \$12; 2nd, \$8; 3rd, \$5.

For best foal of 1924 sired by General Probyn or Springside.—1st, \$12; 2nd, \$8; 3rd, \$5.

2. By Rennie Seed Co. of Toronto.—For best display of vegetables grown from Rennie's seeds.—\$5 in seeds.

For the best display of field roots grown from Rennie's seeds.—\$3 in seeds.

For the best display of flowers grown from Rennie's seeds.—\$2 in seeds.

Prizes in seed selected from Rennie's retail catalogue, season 1925. Rennie's seeds are sold by all merchants throughout Canada.

3. By Raphael-Mack Co., London.—For best display of dining-room furnishings.—Cash, \$2.

HUGE WHEAT YIELD

A news item credits a farmer near Peterboro with having the record yield for wheat for Ontario, with a production of 63 bushels to the acre.

This record, however, was beaten by John Hill, of the twelfth line of East Zorra, who threshed out his wheat crop to an average of over 64 bushels to the acre. This crop was taken from six and a quarter acres of wheat and without rakings it threshed over 400 bushels of grain, giving an average of 64 1/2 bushels. The Peterboro farmer threshed 315 bushels from five acres of grain.

UNIQUE EVENT

By arrangement with the Foreign Mission Board of the Presbyterian Church in Canada an event of educational and missionary interest will take place in the Glencoe Presbyterian church on Thursday and Friday of next week. An exhibit of workmanship, utensils, wearing apparel and natural products characteristic of India will be on display. Rev. Harold W. Lyons and Mrs. Lyons, of India, will be in charge to answer questions and explain points of interest.

On Thursday afternoon, September 18th, Mrs. Lyons will address a meeting for children and will speak on "Children of India." On Thursday evening she will give an illustrated talk on "Two fortress cities of Medieval India," with colored slides. On Friday afternoon there will be a special meeting for women with an address on "Women's work and life in India," and on Friday evening Mr. Lyons will give an illustrated lecture on "Rambles with a Central India Missionary."

GLENCOE'S TAX RATE

At the regular monthly meeting of the municipal council, held on Thursday evening, the tax rate for Glencoe for 1924 was fixed at 36 mills on the dollar as follows:—County rate, 7 1/4 mills; debenture rate, 5 1/10 mills; street lighting rate, 4 3/10 mills; public school rate, 6 2/10 mills; high school rate, 6 3/10 mills; library rate, 1 mill; village rate, 5 7/10 mills. The total rate last year was 35 mills.

The usual grant of \$50 was made to the Mosa & Ekfrid Agricultural Society.

A number of accounts were passed for payment.

RECEPTION AT HIGH SCHOOL

The teaching staff and students of Glencoe high school were "at home" to their friends and the public in general on Friday afternoon.

The object was mainly to give outsiders an opportunity to get information at first hand as to what was accomplished in the renovation and other wise improvement of the school building and grounds which had been undertaken during the summer vacation.

The visitors were received by the staff in the laboratory and served with a cup of tea and cake by a committee of the girl students. Splendid music was discoursed in the assembly room by the high school orchestra, in which the school as a whole takes a pardonable pride.

After enjoying the social features of the occasion the visitors passed out to the campus where an interesting exhibition of softball was being given by the girls.

Expressions of approval were many as to the transformation which had been made both inside and out of the school building. Included in the improvements are a complete renovation of the various rooms, a fitting up in the basement of separate lunch and dressing rooms for the boys and girls, rearrangement of the staff rooms, additional seating and desk accommodation, attractive flower bed, etc. Museum, library and other features contribute to make this school one of the most attractive institutions of learning in Ontario's smaller centres.

GOOD CROPS IN ENGLAND

J. C. Elliott, K.C., who with other members of the Canadian Bar Association has been the guest of the British Bar Association in England, returned home last week.

Mr. Elliott states that they had a most enjoyable trip and had been royally entertained by their British colleagues. The general political situation in England, he thinks, is much more settled than it has been.

While there were criticisms abroad concerning the Government the Labor party seemed thoroughly satisfied with it.

One thing which impressed Mr. Elliott was the excellence of the crops generally throughout England and Scotland and the great deal of land under cultivation. Splendid crops were seen everywhere.

TO WELCOME NEWCOMERS

Foreign settlers in the vicinity of Appin are to be welcomed to the country and given instruction in the English language and Canadian manners and customs as the result of a decision made by the Appin Women's Institute members at a recent meeting.

The meeting was held at the home of Mrs. Frank Nicholls, and Mrs. J. W. Macfie, the president, was in the chair. The fact that some foreign families had recently settled in the community was brought to the attention of the women and they at once appointed a committee to visit the newcomers with a view to organizing a class for their instruction.

Another departure decided on at this meeting was the organization of a girls' sewing class. It was arranged to hold the first meeting of the club at the home of the president, when further arrangements will be completed. Flowers for the park was another question dealt with and the members decided to introduce flowering shrubs to the beds since they can be cared for more easily than other flowers.

Reports on the last annual garden fetes were received, and the receipts were found to be less gratifying than usual, the weather having been unfavorable.

At the conclusion of the business Mrs. James Lotan, sr., gave a splendid paper on "Women's Influence and Responsibility in the Home," which was greatly enjoyed. The meeting was concluded with the serving of light refreshments under the direction of the following hostesses:—Mrs. R. E. C. McDonald, Mrs. Thos. Hodgson, Mrs. James McDonald and Mrs. Nicholls.

SCHOOL BY-LAW CARRIES

The by-law voted on last Friday to authorize borrowing on the credit of the municipality a sum up to \$10,000 for remodeling the Glencoe public school building was carried by a majority of 8 of the votes cast. The vote stood:

For	8
Against	0
Div. No. 1	51
Div. No. 2	13
Div. No. 3	17
Total	81

But very little interest appears to have been taken in the polling, as out of a possible vote of 424 only 120 votes were cast. Possibly this was a case in which silence meant consent. Further action in the matter now rests with the school board.

VICTIM OF DETROIT THUGS

Charles E. Lewitt, a former Glencoe man, was held up and robbed in Detroit on Friday afternoon. Mr. Lewitt is secretary-treasurer of the Wallbridge Construction Company and was acting as paymaster. With \$5,000 in cash in a satchel he started out to pay off the employees of his company working on the Detroit Terminal Railroad warehouse in Springfield. He was proceeding along Warren road when a car approached from the rear, drawing alongside and forcing his auto to the curb. Three men were in the car, two of whom covered him with

Delicious! "SALADA" TEA

Pure, Fresh and Satisfying.
Sold in aluminum packets. — Try it.

TRY THESE FOR STAINS.
Often an otherwise fresh garment is given unsightly by a stain which, if given immediate attention, may be removed at home, thereby saving the cost of having the entire garment cleaned, and also the inconvenience of having it out of use for several days.

At this season of the year table linen and linen frocks seem particularly disposed to acquire stubborn fruit stains. If such stains are saturated with glycerine and allowed to set for several hours before washing, they will usually disappear without a trace of damage. Coffee stains yield graciously to the same treatment.

Disfiguring ink stains may be removed from cotton or muslin garments by steeping the damaged part in boiling milk. If treated to a milk bath while the spot is fresh the stain will disappear and the color of the material will not be damaged.

Egg stains may usually be removed from a silk gown by rubbing them with common table salt.

If the gold lace or embroidery on an evening gown has become tarnished, it may be restored to its original freshness by applying powdered rock ammonia. A soft brush should be used for this. Slippers made of gold fabric may be treated similarly.

Tar spots usually succumb to a treatment of ether or chloroform. Saturate a piece of absorbent cotton with either of these preparations and cover the offending spot, allowing the moistened cotton to remain on the material for several minutes. If one application is not sufficient, repeat process until the spot vanishes.

White felt hats, which are modish for sports wear, may be kept fresh by frequent applications of bread. Merely take the soft inner part of a stale loaf of white bread and rub it over the hat. It does the work perfectly and takes very little time. Care should be taken, however, to brush the hat thoroughly before applying the bread.

"When Hearts Command"

By ELIZABETH YORK MILLER

"When hearts command,
From minds the sagest counsellors depart."

CHAPTER XXXIV.
Pan was piping in the old garden. He had it quite to himself in the hush of the sunset, except for Tito and the twittering little birds who answered him back, apprehensive and daring at the same time.

What was that funny creature doing in their garden? How came he there—that featherless songster with the voice of thin, trickling rain?
Hugo had made himself a new pipe, a magical one over which he had spent considerable time and trouble. It had half notes as well as the scale, and he played marvelous tunes on it of his own composing. They were weird lyric melodies, such as only Pan's soul could be burdened with, and he spent them freely on the ambient air at sunset.

The women in the public wash-house behind the high walls of the Villa Tatina ceased their labors to listen. One or two crossed themselves; others, less superstitious, smiled a little derisively. Every one knew that the curious little Signor of the Villa Tatina was mad, and madness is always interesting. Some children clambered up the terraces behind, hoping to catch a glimpse of the mad musician, but there were too many trees in the garden, and Pan was not visible.

To add to the mystery of him, now and again—following upon notes more piercingly sweet—would come the plaintive wail of a dog.
That, said the children to each other, would be Tito, Maddelina's little dog. Was the mad Signor murdering Tito? Hugo, Tito and the pipe were inseparable companions, and the garden was their lair. Between the three of them they made it by turns beautiful and hideous.

Gaunt, coming in through the gateway at the bottom of the garden, halted a moment and listened to the piping. Then he walked on up to the villa. The drive was well-screened by shrubbery and Hugo did not see him. The front door being open, Gaunt entered without the formality of ringing or having himself announced. Inside it was cool and fragrant, the marble stairs and floor having recently been sprinkled with rose petals. He would probably be in the drawing-room. He looked in, but she was not there. Then perhaps she was dressing for dinner. Gaunt had been invited to dinner, but he was half an hour early.

He went into the drawing-room, selected a book from one of the low cases which edged the walls, and stretched himself on the sofa. He was playing. But presently, with a disgruntled air, he thrust his pipe into his mouth and whistled to Tito, stalked reluctantly towards the house. "Every day he gets more and more childlike," Jean said to Gaunt. "Have you noticed?"
"Like a spoiled child," he amended. "You really ought to have someone to look after him."

"Do you mean to say," he asked, "that you don't like to manage, really?"
Hugo trailed in, Tito at his heels. "Hello!" he greeted Gaunt, but when he saw the man he was indeed a little child. "Do I have to change? Won't it be enough if I wash my hands and put on a clean collar? What's the use of dressing up? It's only us." His voice was querulous and plaintive. "Do as you like," Jean said. "Only hurry."

He flew off, delighted at having got his own way.
"Do you give in to him in everything?" Gaunt asked, jealously disapproving.
"Whenever I possibly can," she replied. "You mightn't believe it, but Hugo has a will of iron. He'd wear me out if I tried to oppose him. After all, what does it matter whether he dresses or not? Presently he'll be dead through sheer fatigue. Thank Heaven, there are plenty of books in this house! I don't have to stir, and people have given up coming to see us."

Gaunt showed her "Dr. Antonio" and what he had found pressed between the leaves of the book as he read the little note of long ago. "Why, Hector, why—oh, dear!" She mopped her eyes again. "Look—these were from a bunch of violets you gave me! I remember so well—"
"Mme. Douste had a good laugh at me. The garden was full of violets and I brought you these," he said ruefully.

"But I adored them. How terribly in love we were! Everything in this house reminds me of it. Sometimes it seems as though I was back again in those days. Then hear Hugo playing—and that sort of kills it. There's a mockery about Hugo's pipe. The other night after he had gone to bed I found it lying here on the terrace, and just for a moment I—I came near breaking the thing. But he would only have worried us all hunting for it, and in the end have made another. It amuses him. I'm a beast to complain. Poor Hugo!"
"Poor Hugo" came bounding in, demanding admiration for his clean hands and collar. They had dinner, and he ate ravenously, with an observable lack of neatness, slopping his food and talking steadily, usually with his mouth full.

His conversation was mainly directed at Gaunt and full of childish entreaties. Would Hector take him to the flower market to-morrow? Might he drive the little horse? Would Hector help him to select a thin linen suit? When were they going to have that long-promised boating picnic?
Gaunt found himself agreeing and promising just as Jean had the further information up to the Superintendent.

NURSES
The Toronto Hospital for Incurables, in affiliation with Bellevue and Allied Hospitals, New York City, offers a three year course of training to young women, having the required education, and desirous of becoming nurses. This Hospital has selected the eight-hour system. The pupils receive uniforms of the School, a monthly allowance and travelling expenses to and from New York. For further information apply to the Superintendent.
Minard's Liniment Heals Cuts.

Farewell to Summer.

Warm is the sun on the high pasture-lands
Wherewith rests the sweet lissome cleve
There's laughter and song where the farm-house stands,
There richest peace and contentment still hover,
Rays of the moon-sun fall burning and glowing
Upon the long hill, near the wild-wood
A lonely bird sits where the toilers are going—
It carols, "Sweet Summer, sweet Summer, farewell!"
Shrined in my heart are memories tender
Of all-perfect Summer, now folding her wings;
Across the worn threshold, there, falls the old splendor
Of Summer's calm close in the great soul of things,
Nay—but she will not mourn long for her excesses,
Nor stay for the thrush-song far down in the dell,—
Her spirit is hiding, she feels no distress—
The lonely bird carols, "Sweet Summer, farewell!"
—Charlotte Carson-Talcott.

FLAVORS FROM THE FLOWERS.

In our grandmothers' day many dainty dishes were prepared, the special attraction of which came from her flower garden. Of late years this seems to be a lost art. Seldom indeed do we find a modern housewife who knows the secret of making rose conserve, or a rose geranium cake. The girls of to-day have a fad of making anything popular which found favor in their grandmother's time, so I am giving below some of the recipes and secrets that were used by the quaint maidens of long ago.
Rose Geranium Cake—Do not attempt to flavor a dark cake—either fruit or spice—in this way, but choose some delicate white cake, which is very light and feathery. When you butter the pan in which the cake is to be baked, lay three or four rose geranium leaves in the bottom. Pour the batter directly on these, and bake as usual. Let stand for twenty-four hours after baking, and with the leaves still laying on the bottom of the cake, before using, and you will be delighted with the dainty flavor from the leaves, which will have permeated through the whole cake.
Nasturtium—Nasturtium petals, leaves and stems may be used in salads. They are fine in mint salads, and when used in this way, it is preferable to use the leaves and stems in the salad proper, and to use the petals or blossoms as garnishing.
The green seeds are fine to use in mixed pickles, as they give a deliciously spicy taste to the pickles. They may also be chopped and put in salads. When used in cooking of any sort, they should be picked while green, and before they reach maturity.

Courtesy Means Safety.

Courtesy is the essence of safety on the highway. Courtesy is usually the display of good judgment at exacting times.
Very often the man who complains of hard luck has been having too soft a time.

WRIGLEYS

Chew it after every meal
It stimulates appetite and aids digestion. It makes your food do you more good. Note how it relieves that stuffy feeling after hearty eating.
Whitens teeth, sweetens breath and freshens the body.
WRIGLEYS DOUBLEMINT SHAVING GUM

Has Nothing to do With the Age.
"She says she is still very young."
"She's had thirty birthdays, I know."
"What's that got to do with her age?"

For Sore Feet—Minard's Liniment.

Life on Mount Everest.

Animal life, it appears, is to be found on high mountains far beyond plant growth. The highest growing plant that the Mt. Everest expedition of 1924 observed was the blue vetch, at eighteen thousand feet, but animals live at as great a height as twenty-two thousand feet. "A minute and inconspicuous black spider," says a member of the expedition, "hops about on rocky cliffs and hides beneath stones in those bare places that happen to be swept clear of snow by the wind. I cannot think on what it lives at that height. In these altitudes there is no other living thing—nothing but rock and ice. This little spider is worthy of note as being the highest permanent inhabitant of the earth."
Very often the man who complains of hard luck has been having too soft a time.

Rinso
FOR THE FAMILY WASHING
No rubbing—no boiling

For every wash-day method

RINSO is ideal for any wash-day method you use. You do not have to change any of your usual steps—just use Rinso where you used to use ordinary soap.
If you like to boil your white cottons, Rinso will give you just the safe cleansing suds you need in the boiler. If you use a washing machine, follow the advice of the big washing machine manufacturers—use Rinso.
Just soaking with this new kind of soap loosens all the dirt until a single rinsing leaves the clothes clean and spotless.
However you do your wash, make it easy by using Rinso.
Rinso is sold by all grocers and department stores.
LEVER BROTHERS LIMITED TORONTO

FREAKS OF THE FAMOUS

Eccentricities of famous people provide a strange and surprising study, for many celebrities of the past have been obsessed with remarkable notions, and have engaged in freak hobbies and queer pastimes.
It is recorded of Daniel Webster that he had a peculiar fancy for painting the faces of his cattle, and he changed his color scheme frequently. One day the neighbors would see Webster's cows grazing in the park with their faces painted blue, and the following week the animals would appear with red-painted faces. Webster, it is said, delighted to mark the look of surprise with which his friends regarded the result of his strange hobby.
The ruling passion of Peter the Great was to ride about in a wheelbarrow, and many of his State visits to cities and towns over which he ruled were made in this fashion, the monarch being wheeled along in his homely conveyance pushed by a perspiring man servant.

One of the favorite entertainments of William the Conqueror was watching a dog fight. His subjects, knowing this, used to send him dogs, and the King would select from these the biggest and fiercest types. Then he set them to fight in pairs, and would sit all day watching the combats.

Training Fox Cubs.

Of a very different nature was George Washington, for, though he loved fox-hunting, his main idea of the chase was always to try to capture alive a young fox cub, which he would take home with him. Then, patiently and with much perseverance, he would teach his captive tricks, which the cub later performed for the amusement of Washington's friends.
Authors, it would appear, are more prone to eccentricity than any other class of men. Count Tolstol always went hatless and bare-footed, no matter what the weather. Sir Arthur Conan Doyle never wears an overcoat, even in the coldest weather, and has a trick of unbuttoning his shirt when he is lecturing in a heated hall.
James Fenimore Cooper could not write unless he was chewing gumdrops, of which he ate large quantities as he evolved his famous novels.
Robert Browning was unable to sit still when writing, and always hopped about on the carpet at his desk as the result of the constant shuffling of his feet. Edgar Allan Poe always took his cat to bed with him, and was very vain of the size and shapeliness of his feet.
The late F. Marion Crawford used one penholder for the whole of one novel, and would not dream of changing for another until that particular story was finished. He always carried his own pen, ink, and paper with him wherever he went, and refused to write with any other. Disraeli had a pen stuck in each ear when writing.

Thackeray's Trick.

It is recorded of Thackeray that every time he posted the house in which he wrote "Vanity Fair" he lifted his hat, and Hawthorne always washed his hands before sitting down to read a letter from his wife.
A peculiarity of the younger Damas was that every time he published a novel he went out and bought a painting to mark the occasion.
When Hieron went out for his daily walk he had his pockets filled with seeds, which he scattered in little handfuls on the road as he went along.
Peculiarities of dress in authors are remarkable. Disraeli wore corsets. Dickens had a weakness for flashy jewellery. Tolstol was fond of French perfumes, and kept even his linen scented. Bacon was so fond of fine clothes that he spent his odd time in trying to design new styles and fashions. When he could not persuade anyone to wear them, he got what satisfaction he could by hiring men to don his grotesque creations and promenade the streets in them.

Who Made the First Paper?

The credit for making the first paper is due to a Chinese named Ts'ai-lun.
In A.D. 75 he made the first hand sheet of paper from the bark of a mulberry tree.
Before this leaves of trees and various barks used in crude form had been good enough for the Egyptians, Romans, and other nations. The Chinese, however, did not use the crude inner bark of the tree as the final material on which to make his records. He used the bark merely as a raw material from which he produced a finished sheet of paper by a series of processes which, primitive as they may seem to us now, were the forerunners of paper manufacture to-day.
China monopolized the art of paper-making for about 800 years, until the secret was learned from her by the Arabs, who improved upon the Chinese process by using linen or cotton rags instead of mulberry bark.
Soon after 1500 the first paper to be made with wood pulp came to the market.
Nowadays, to meet the enormous demands of the press and commerce generally, over 400 varieties of wood and grasses have been called into requisition. Linen and cotton rags are used only in the making of the finest note-paper.
Of the paper now manufactured, 99 per cent is machine-made.

Soils

SOME SILO AIDS

To save time and annoyance, and to lessen the risk of the undertaking, one farmer has provided the outside wall of his silo with steps made from iron rod and mounted ladder fashion from the ground to the top.

Directly underneath the dormer through which the blow spout of the filling machine is inserted at filling time, there is a broad step or seat upon which the operator stands when assembling the outfit.

This idea naturally lends itself to any type of silo and is worth bearing in mind.

The writer once saw another kink that should be noted here. The silo was of wooden staves and required frequent painting. Since no ladder of the ordinary length would serve the painter's purpose, the owner laid the track from three old barn doors about the top just under the roof and on this mounted the car wheels from one of the doors.

These were attached to a wide plank and on the lower end another wheel at right angles was also mounted so that it would ride against the surface of the silo. This plank was also provided with a hook with black and tackle. When the silo was to be painted a seat of a wide board of sufficient length was attached to the tackle with two ropes, the painter seated himself and drew himself upward with the tackle. This had a lock and he could remain at any desired height. Movement about the silo was accomplished by his feet which were encased in rubber-soled shoes. It will pay the silo owner to keep these tips in mind.

BARRELING APPLES ON TREES

If you want to have good apples, begin barreling them while they are still on the trees. No amount of good care in barreling will make up for lack of care in picking, or picking at the wrong time.

Apples are not ready to be picked when they cling so tightly that spurs are broken from the trees. Neither is the color of apples which eventually turn red a reliable index, since the intensity of the color depends on the cloudiness or brightness of the weather. A good indication of maturity is a ground color which, when the fruit is ready for picking, should be turning from clear green to a whitish green or greenish yellow.

Yellow, green, and russet varieties of apples are generally ready to pick when they have reached their proper size and the stems separate readily from the spurs. In picking apples, the stems should be separated from the spurs either by giving the fruit a slight rotating motion combined with a sharp upward twist, or by pressing with the thumb or forefinger at the joint of the stem and spur.

In picking use both sacks and baskets. The baskets are handy for gathering fruit near the ground, while the sacks can be used for ladder work. Some folks think there is more danger of bruising the fruit when sacks are used. In emptying either basket or sack, avoid dropping the fruit. If a

POULTRY.

Ordinary culling practices simply involve looking the birds over at night when they are on the perches and eliminating those which are obviously out of producing condition. It becomes, however, a much more serious problem to attempt to handle every bird in the flock, make a careful examination and make a final determination as to the fitness of the individual for future breeding.

Here is a simple practice which will eliminate the shock to the birds: Confine the birds to the laying house the night before they are to be culled. This culling must be done in the daytime when the birds can be carefully examined. Secure a large catching crate. A good thing for this purpose is a live-poultry-shipping coop, double deck height, commonly known as a turkey coop. Make a hole in one end of this at half the height of the coop, about eight inches wide and ten or twelve inches high. Provide it with a slide door.

Set this coop so that this opening on the end is directly open to the hen exit opening in the poultry house. Scatter a little grain in the coop. Open the exit door and with a little encouragement the birds will pass out the exit door and enter into the coop.

When a convenient number is thus confined, the exit door can be closed and the hens can be culled and taken out of the coop through the door at the top, one at a time, handled carefully, examined in minute detail and a determination made as to what is to be done with them.

The culls can be cooped up in separate coops, ready to go to market, whereas the good birds can be dropped into the yard or, if their future quarters are ready for them, they can be transported and put in their new houses.

If this operation is carried on in a quiet, gentle way, the handling of the birds at this season will be followed by no loss in production.

basket is used, it should be lowered to the bottom of the lug box or other receptacle and emptied gently. There is a certain type of sack with a drop bottom, so that the fruit can be emptied without bruising it.

Step-ladders are especially good for work in small trees and for picking from the lower branches of larger trees. The good type are wide and flaring at the bottom, narrow at the top, and supported with but one prop.

In small orchards apples are usually packed right out in the open, but in large orchards and the sections where the weather is bad, fruit is often packed in central houses, tents or sheds. The use of packing houses is increasing. The houses afford shelter for a supply of unpacked fruit which can be handled during bad weather. If there is a packing house there is also a better opportunity to put in sizing machinery and other labor-saving devices.

Two types of grading or sorting tables are used—the apron table and the canvas or burlap table. The bed of the apron table is slatted, so that the trash can fall through, and is inclined so that the fruit as it is graded rolls to the lower end, where it is lowered into the barrel by means of an apron. While work can be done rather rapidly with this table, the fruit often crowds past the sorters faster than they can handle it.

The canvas or burlap table is made by stretching the cloth over a rectangular frame. This type of table is fitted for running the fruit from the apron into the barrel. The apples must be sorted by hand into baskets. The most common practice in barreling is to separate the fruit into two standard sizes. The first size includes apples from two and one-quarter to two and one-half inches or larger.

The apple grower must get a grading machine which has a big enough capacity to handle his crop, and one that can be operated most economically. Look for one of simple design, not requiring too much adjustment and not apt to bruise the fruit. The life of a machine, and the various methods of feeding fruit to the machine, should be studied carefully. Upon all these things depend the total daily output and, consequently, the cost of operation. Only small machines can be operated by hand power. Some of the simplest types have a capacity of perhaps 100 barrels a day. In most cases, however, the gasoline engine or electric motor is preferable.

The first step in packing the barrel is to face the first and perhaps the second layer of apples. That is, arrange the layers in circles with stems down. For facing, only apples of the best size and quality should be used, because the trade expects and customarily demands an attractive pack. But remember that the general quality and size should conform to the grade in the rest of the barrel. That is, arrange the layers in circles with stems down. For facing, only apples of the best size and quality should be used, because the trade expects and customarily demands an attractive pack. Call on the Surveyor.

The payment of two dollars for a half day's work of a civil engineer meant the changing of plans in drainage for my neighbor when he wanted to put in a main tile outlet for his farm. His eye told him that the water should go to the east, which was in the direction of a river outlet, but for some reason he consulted an engineer and found that the water could as well go west and save digging the trench and buying the tile for a good many extra rods. The engineer surveyed the whole ditch and left the depth of cuttings every 100 feet so there was no trouble to get the tile in properly.

In my own case I had a drainage problem and had two outlets that could be used. One was a fifteen-inch tile along the border of the farm and the other an open ditch at the end of the place.

My plan, as my eye told me, was to run a main tile the length of the farm along one side and drain into it with cross ditches. But the surveyor soon showed me that I could cross-ditch right into the fifteen-inch tile and save 160 rods of six or eight-inch outlet. I had plenty of fall. Besides, a large tile is a better outlet than an open ditch.

The saving is hard to estimate but the cost in my case was \$1.50. A good many drainage jobs are jumped into without much previous thought or planning and surveyors can earn their charges and much more on many farms. The eye is not a sure gauge of levels, and natural slopes of the land do not seem always to tell the story.—Earl Rogers.

The number of eggs consumed per year on farms averaged 28.8 dozen per person. The per capita farm consumption of fowls averaged nearly one fowl per month. The consumption of eggs and poultry was found to be the greatest in seasons of lowest prices.

Miss Annette E. Buck, of Brooklyn, N.Y., is the first woman to ascend to the summit of Mount Robson, the highest peak of the Canadian Rockies. She was accompanied by Mrs. Monday, a Canadian.

How to Hang Your Pictures

BY LUCY B. TAYLOR.

Pictures give a room "thought" and add the touches that suggest interest and life. It is quite possible to decorate a room, have it perfectly "correct," and yet have it stupid and uninteresting. It is the humanness of a room that gets our interest and makes us feel at home.

The little picture over the mantel or on the table, the colored print on the bedroom wall, may go a great deal further than we ever expect in giving to that particular room the air of being really "lived in." Whether in color or black and white, it represents thoughts that greet us pleasantly and arouse similar and stimulating ideas within us.

But it doesn't do to pick out pictures carelessly any more than it does to pick out friends carelessly. If they are not genuinely good in some respect, it is better to have something else that gives a spot of color and life; for a poor picture is like a poor companion—it grows constantly worse to us.

The duplication of ways and means in reproducing pictures has done marvelous things in placing at our disposal the loveliest of reproductions, both in color and black and white. There are now several museums that carry a full line of prints of their paintings. These include landscapes, sea pieces, and subject pictures of leading artists, as well as some of the best of the historical pieces. Every good and really great piece of modern art owned by a museum is pretty sure to have its color or photographic reproduction. And it is pictures such as these, framed and hung carefully in the right places on the wall, that make a room look right and furnished. There are also many good color prints from the magazines that may be cut out, mounted, and framed to give uttermost satisfaction.

Hanging the pictures is in itself an art. Scattered around in bit or miss fashion, or hung stiffly in rows, they are not especially pleasing. The true secret of successful picture-hanging lies rather in studying your spaces

for size and shape and then adjusting your picture accordingly. For example, there may be a sofa, a chair, and a table up against the wall. The natural thing to do is to hang a fairly large picture over the sofa—one that will take the same feeling of length—and then possibly over each of the other two objects a smaller picture. This repeats the feeling of size and shape that has already been established by the sizes and shapes of the furniture, and keeps the essential harmony. That's the whole story. Follow the lines and spaces of your furniture groups as well as you can, and if they are well spaced the pictures will be too.

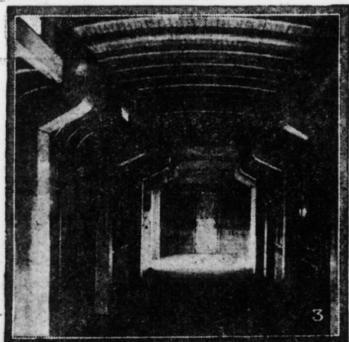

Sometimes an odd problem comes in. There is a table in the corner, a chair at the window, and perhaps a bed along the wall. Then group one, two, or three of the smaller pictures in a longish-looking group over the bed and balance the wall with one well chosen with regard to size over the table. Then your walls will be pleasing.

The possibilities are innumerable. Choose good pictures, study your wall spaces, and try to maintain a feeling of balance. One could write volumes and say no more!

Ask the Agricultural Representative.

In most every section wheat varieties show an adaptation to a soil fertility range. The kinds that do best on poor land fall to make so good a showing on rich land. This is another matter about which agricultural representative advice would be desirable. As a rule the earlier wheats make their best showing on the poor lands. The richer lands with a greater moisture-holding capacity can more safely carry the later-growing varieties.

We need more men who do not fear to break new ground, to blaze new trails, to lead the people on to a larger and more satisfactory progress.—Arthur Capper.

FRUIT NOW SHIPPED IN NEW TYPE OF CAR

The development of the Niagara Peninsula as a source of fruit for the markets of the Dominion is becoming more pronounced, through the co-operation of the fruit growers, the dealers and the Express Department of the Canadian National Railways.

For this traffic, the Canadian National Express has designed an entirely new style of fruit car which has already given satisfaction. No ice is used in these cars, a natural air-cooling method being used. While this does not develop as low a temperature as ice refrigeration, the process is more natural, and as a result, the fruit does not deteriorate as quickly when removed to the warmer outside atmosphere.

There are thirty of these cars in operation between the Niagara Peninsula and points in Ontario, Quebec, the Maritime Provinces and the North West, and they received several tests under the most unfavorable conditions possible, before they were finally adopted for service.

Home Education

"The Child's First School is the Family"—Froebel.

Co-operate With Nature — By Ora A. Clement.

"Godness, taking care of children means spending all your time making something do something he doesn't want to do," exclaimed young Mrs. Lane as she took Daddy's letter-press from the baby and motioned Billy and Sister to continue their task of picking up blocks and toys.

"Oh, I hope it is not as bad as that," her mother laughed comfortably. "In fact, I do not remember it in that way at all."

"But how did you manage, Mother, when there were six of us to get into mischief and tease and hurt one another? It must have been Bedlam all the time."

"I suppose it was noisy, and I don't doubt that I was sometimes worried—and cross. But I have forgotten that part of it. That is one of the nice things about growing old—you forget so much that is unpleasant."

"But about the children—I learned one thing while I was taking care of mine that helped me a lot, and it was that Mother Nature keeps a firm hand on all her babies and is quite determined they shall grow up to be normal, healthy human beings. So that working against Nature is very much like swimming up-stream, while co-operating with her makes the care of children comparatively easy."

"I don't know what you mean," the daughter confessed.

"Well," explained her mother, "after watching six of my own and many of my friends' and neighbors' children go through their childhood, I have decided that all children pass through certain stages of development, and during each stage it is especially easy to teach them certain things."

"Of course, at first, the baby's attention is chiefly occupied with learning to manage his hands and feet. We do not usually interfere with this process, though sometimes people urge a baby to walk too soon, and sometimes sickness prevents him from walking when he should."

"Usually the four-year-old has learned to use his hands and feet, and his chief delight is in their use. Movement of the arms and legs is what he wants, and he imitates the motions his mother makes as she works about the house. During this period chil-

dren can be taught habits of order and cleanliness which will stay with them all their lives. Though too small to do actual work, they are pleased to do little, step-saving tasks for mother, if the task is a matter of imitation. This imitative age is a period of golden opportunity."

"Right on top of this lovable age comes the individualistic age, when, almost overnight, the child becomes distressingly selfish. He wants the best of everything for himself and will fight to get it. He wants the attention and adulation of adults and will try to gain them by 'show-off' antics. He bullies the younger children and teases the older. He becomes a family nuisance, and his discouraged mother wonders what she has neglected to do for Johnny that he should get so far beyond control. It is not her fault, though. Johnny's Mother Nature is preparing him for the battles of life; she is teaching him to think and to act for himself."

"That the process is painful to his parents and friends does not influence the old Dame for one instant. She knows what she is doing. Soon his selfishness will be controlled by conscious self-denial, and Johnny will begin to show real character. His boastful contrariness, which challenges every spoken statement, will soon be tempered by reason."

"There are many things you can teach him at this age. He appreciates praise for his individual effort and will spend tremendous energy to gain it. He can be taught to take responsibility. The irresponsible and untruthful young people, who are altogether too numerous to-day, were not handled rightly at this age. The child asks innumerable questions, and your greatest possible mistake is to ignore, ridicule or evade these questions. Give truthful, serious answers, drawing him out when you suspect that some troubled thought lies at the bottom of the questions, and in later years you will not have to suffer that worst of all hurts, the knowledge that your child's confidence is being purposely withheld."

"Besides these there are other—but, mercy, child, see what time it is! If I sit here lecturing, James will find no dinner when he comes home."

Stringent Measures to Prevent Spread of Corn Pest.

On account of the danger of further distributing the European corn borer, a pest which is seriously menacing the corn-growing industry in Ontario, stringent regulations regarding the transport of corn from infested to uninfested areas are being enforced by the Dominion Minister of Agriculture.

Last year, during the sweet corn season, the Department inspectors discovered corn on the cob, infested with the caterpillars of the pest, being carried from the infested areas by motor cars. The regulations make it illegal for tourists and campers to carry corn from the quarantined areas, because of the danger of the spread of the pest in this way.

The regulations provide that corn may not be moved or shipped by grower, produce dealers, or others, from the following areas under quarantine: "Brent County; Bruce County; Dufferin County; the townships of Clarke, Darlington and Hope in Durham County; Essex County (including Peel Island); Grey County; Haldimand County; Halton County; Huron County; Kent County; Lambton County; Lincoln County; Middlesex County; Norfolk County; the townships of Pickering, Whitby East and Whitby West in Ontario County; Oxford County; Peel County; Perth County; Waterloo County; Welland County; Wellington County; Wentworth County; the townships of Etobicoke, Markham, Scarborough, Vaughan, and York in York County, and the township of Brighton in Northumberland County."

From the counties of Elgin and Middlesex, which are the most heavily infested districts in the province, corn may not be carried even to other counties in the infested district.

Except from Elgin and Middlesex counties, corn on the cob may be shipped from the quarantined area to the Toronto and Hamilton markets, but may not be shipped north or eastwards. Violations of the regulation are punishable by a fine.

Exports of Live Stock and Meats.

Our exports of domestic live stock and meats, according to Dominion Live Stock Branch reports, to Great Britain during the first seven months of the year compared with the same period in 1923 were: 40,026 cattle compared with 34,152; 2,357,200 lbs. of beef compared with 5,108,600 lbs.; 62,411,600 lbs. of bacon compared with 57,408,300 lbs.; and 3,203,300 lbs. of pork compared with 1,738,700 lbs.

To the United States during the same periods were sent: 45,082 cattle compared with 34,152; 20,708 calves compared with 13,745; 390 sheep compared with 3,817; 7,411,200 lbs. of beef compared with 3,923,700 lbs.; 253,300 lbs. of bacon compared with 91,900 lbs.; 818,900 lbs. of pork compared with 412,900 lbs.; and 25,600 lbs. of mutton compared with 60,600 lbs.

THE CHILDREN'S HOUR

AT THE CROSSROADS.

"Bee, five, bee four, I wish I had some more," sang Willie Woodchuck as he finished the last sugar cookie that Old Mother Coon had given him.

"Me, too," said Johnnie Muskrat. "I'm still a little hungry, but I'm tickled that we are on our way home. I don't think I want to go sailing on a log again."

"Mrs. Coon said we would be home by afternoon," said Jackie Rabbit, "but we must walk faster."

"I can't walk much faster," puffed Willie Woodchuck as he waddled along the road that Mrs. Coon said would take them back to Woodland and home. Soon they came near the crossroads where she had said a sign post would tell them which road to take to Woodland. As they came to this post they were very puzzled. No, it was not because these three little Woodland boys could not read, for they were the best pupils in the Woodland school, mischief excepted. But a big puff of wind had blown that way, or someone had hurried around the corner too fast. The sign post which was to tell them the way home was topsy-turvy.

On one board was printed "Stoneyville" and on the other "Woodland," but they both pointed "hitch-a-cue" angles toward the blue sky.

"Well, well, well, this is a real mix-up," said Jackie Rabbit scratching his head. "We can't follow the sign post to Woodland, because it points up to that big fleecy cloud. What had we best do?"

"I think this road goes to Woodland," said Johnnie Muskrat, pointing to the right.

"I'm sure it is this one," said Jackie Rabbit, pointing to the one to the left.

Willie Woodchuck said nothing, for he was getting too tired to bother to think.

"That's more of a puzzle still," said Jackie Rabbit. "Perhaps we had better draw cuts. We will go with the one who gets the longest cuts."

"Fine," agreed Johnnie and Willie.

When Willie had carefully prepared the draws, Johnnie Muskrat pulled the longest one, so off they started down the road to the right, hoping to reach Woodland before the sun went down.

From Weeds to Honey.

Sweet clover through its dense smothering effect the second year of its growth sickens and discourages weeds. Such rampant fellows as thistle and bindweed become greatly weakened.

And while the land is becoming enriched and weeds smothered, an enormous honey crop of highest quality is produced. Moreover, having bees on hand to harvest the honey crop helps greatly the yield of seed. Bees carry the pollen from flower to flower.

FARMING MUST BE BOTH

For many years we have been advised, urged and persuaded to look upon farming as a business. Twenty years ago it was the big idea emanating from the then popular farmer's institute platform. But farming as a business has had little to recommend it in very recent years and so makes a rather difficult subject matter.

There are always a few brave, loyal, optimistic souls, however, who are bound to find good in the worst of things, and within the last year or so they have been telling us that farming is, after all, not so much a "business" as a "mode of life."

Regardless of the fact that we farmers and others have for years been lamenting because we could not keep the boys and girls on the farm, it has, as a business, attracted enough people to cause over-production often and along many lines. And as a manner or mode of life it should attract, not only all who like country life, but all those who would be better off out of the cities and towns, whether they like it or not.

The farmer is both capitalist and laborer. The manner or mode of life which seems so ideal in the country, could hardly remain so for long if that capital and labor were not both gainfully employed. The charm of country life is sure to quickly fade away when the farm, from a business standpoint, fails to pay, and laudable as may be the optimistic view that strives to make the farm attractive even when financial profits fail, the fact remains that, in order to be satisfactory the farm must have a passing standing both as a business and as a mode of life.

Commercial Fertilizers for Potatoes.

It has been found profitable to use commercial fertilizer in the growing of potatoes at the Nappan, Nova Scotia, Experimental Station, according to the report of the Superintendent for 1923. The potatoes, grown in a three-year rotation, followed clover after oats. A complete fertilizer mixture was used, applied at different rates. The results are given with some reserve because only two years' work has been done. It is concluded, however, that the use of commercial fertilizer is profitable in the growing of potatoes. The average yield from all the plots receiving fertilizer was 247.6 bushels per acre, while the plots that received no fertilizer gave an average yield of 107.5 bushels, an increase of 140.1 bushels in favor of fertilization. Valuing the marketable potatoes at 55 cents a bushel and the smaller ones at 20 cents a bushel, a profit of \$39.93 per acre over the cost of the fertilizer was shown. Fertilizers of different consistency were used. The mixtures were 3 parts nitrogen, 8 parts phosphoric acid, and 6 parts potash; 4 parts nitrogen, 8 parts phosphoric acid and 10 parts potash; 4 parts nitrogen, 8 parts phosphoric acid and 8 parts potash.

From the two years' work there was little, if any, difference in the results from the use of these three mixtures. The most economical quantity to apply was found to be from 1,000 to 1,200 pounds per acre. While heavier applications gave higher returns, the increased yield was made at too great a cost. The average increased yield from the 1,500 pound application over the 1,000 pound application, was 24.5 bushels per acre, with a value of \$11.52. To obtain this, however, required \$9.00 for the extra fertilizer, leaving only \$2.45 per acre in favor of the 1,500 pound application. This increase is not considered sufficient to meet the extra expense of interest, freight, truckage, and handling charges. It is therefore concluded that for conditions at Nappan in the three-year rotation mentioned that where commercial fertilizer is depended on, about 1,000 pounds per acre is the most economical quantity to use.

Treatment for Cattle Lice.

Lice on cattle develop most rapidly in dry, cold weather, and cattle should be dipped or treated before the cold weather sets in, says Mr. S. Hadwen of the Dominion Dept. of Agriculture, Ottawa, in his bulletin, "Insects Affecting Live Stock." For range cattle, fall dipping with the official Canadian Government mixture of lime and sulphur is an excellent practice, as it kills off the lice that are present on the cattle. A second dipping two weeks later is always necessary to insure the best results.

For stabled animals kerosene emulsions prepared as follows has been found very satisfactory: one quart soft soap, quarter pound hard soap, one pine kerosene and two quarts water. Mix with boiling water before using; mix thoroughly so that the skin won't be scalded; repeat in ten days to two weeks. The mixture can be applied with a brush.

In cold weather when it is not safe to either wet the skin or clip the hair off, pyrethrum powder is a useful remedy. Dust over the skin and strap a blanket on. Disinfect everything that has been in contact with the animal.

Improved stock raising is no longer "a rich man's hobby," but a practical farmer's necessity.

We Have Anticipated a Big Fall and Winter Business and Stocked Accordingly

Case after Case of Newest Merchandise Opening up each day. The Greatly Increased Stock Makes Shopping a Pleasure.

Ladies' Fall and Winter Coats

Selected from half a dozen of the leading Manufacturers of Toronto and Montreal. To appreciate the great values we offer, you want to see the Styles, Quality and Workmanship. You can't help buying these three specials, \$17.50, \$22.50, \$27.50. \$5 to \$8 under value.

A Touch of Autumn Air Suggests Warmer Undergarments and Hosiery

The stocks already coming in show improvements in quality. Greater value for the money.

School Opening Demands Hats for the Kiddies and Grown Ups

English Silk Plush and Felt Hats for Girls and Misses, 98c to \$2.50. Wonderful values.

School Opening Suits for Boys

Pure Wool Mixed Tweeds for Real Service made in "Mannish Way" as boys demand at saving in prices, \$7.50, \$8.50, \$9.50, \$12.50.

Goodbye Straw Hats Time to Don a New Felt

Imported English Fur Felts in Newest Blocks and proper colors, \$3.00 to \$4.50.

Boys' Bloomers in Serviceable Tweed

at \$1.25, \$1.50, \$1.85, \$2.25.

Empress Shoes for Ladies

The Greatest Shoe Value given among them all, more style, more comfort, more service at lowest cost. Big stock in Patent and Vici Kid Oxfords and Slippers.

Shoes for the Whole Family

at general store prices which means a saving of 10% to 15%. The easiest sales we make is to the shrewd buyers after making comparison. Whether to look or buy you are equally welcome because lookers afterwards means buyers eventually.

J. N. CURRIE & CO.

The Transcript

Published every Thursday morning from **The Transcript Building**, Main Street, Glencoe, Ontario. Subscription—In Canada, \$2.00 per year; in the United States and other foreign countries, \$2.50 per year. Advertising—The Transcript covers a wide section of territory in Western Ontario, and its readers are the leading farmers and townspeople. It is a first-class advertising medium. Rates on application. Job Printing—The Jobbing Department has superior equipment for turning out promptly books, pamphlets, circulars, posters, blank forms, programs, cards, envelopes, office and wedding stationery, etc. A. E. Sutherland, Publisher.

Commenting on the proposed tax on gasoline to secure additional revenue for road expenditure, the *Farmers' Sun* with good reason says:—"In some way provision must be made for exemption from the tax of gasoline used in stationary motors operated for industrial purposes. On a very large percentage of Ontario farms gasoline engines serve in pumping water, crushing grain, silo filling, etc., and it would be a manifest injustice on farmers, who use rural highways much less than those used by urban dwellers, to tax farmers on the gas consumed in their stationary engines as well as in their cars."

The editor of the *Beaverton Express* thus expresses his wrath:—"For a real heart-breaking nuisance there is nothing to outdo the new nickel five-cent piece. Why this infernal horror has been inflicted upon an innocent public has not been revealed. As a promoter of profanity and other non-Christian virtues it has no equal. You innocently pass it for a quarter and the recipient brands you for a 'beat.' You receive it as a quarter and you are filled with disgust at the smallness of the individual who palmed it on you. The collection plates are filled with the obnoxious coin which the faithful pass to the Lord's treasury as quarters. The thing has no virtues and no friends."

The registrar of motor vehicles for Massachusetts will put a stop to the practice of displaying silhouettes of bathing girls and other decorations on windshields and rear windows of motor cars. Similar action should be taken by highway departments generally, as anything that distracts the attention of a driver of a car or interferes with the view of the road is not in the best interests of safety.

There is a whole sermon in this, from the *Toronto Globe*: The exhibition ended on Saturday, but on Monday they will begin preparing for the next year, which is one reason for its success.

Assessment notices for 1925 are being delivered by the Glencoe assessor. Notices are being sent out thus early in order to be prepared for the collection of taxes semi-annually, a new regulation which will be inaugurated next year. While it will not be compulsory for rate-payers to pay their taxes in semi-annual instalments, those who do so

will receive the benefit of a discount. The object of the semi-annual collection is to furnish the council with sufficient funds for current expenses without having to borrow from the banks. It also works out to the benefit of the ratepayer, who is placed in a position to practically receive the interest that formerly went to the banks. The system has been adopted in many other municipalities with success.

SNOW IN CHICAGO, CLEAR IN THE CANADIAN WEST

and chilly, rainy days in Ontario. Do your Christmas shopping early.

COUNTY SCHOOL FAIRS

With ten rural school fairs to be held in Middlesex county within the next few weeks the department of agriculture are busy sending out prize lists to the teachers, accompanied by entry tags and rules governing the special competitions which are being held. The opening fair will be held at Brinsley on September 15, concluding on October 9 at Poplar Hill.

Country fall fairs for 1924 give promise of being the best in years, as the number of children who are expected to take part will run into the hundreds. Special contests for boys and girls in practically all lines of farm work are being conducted, with the assistance of various agricultural associations. Numerous special prizes have been donated by the Women's Institutes, particularly at Appleton, where one of the lengthiest programs of events has been arranged.

In past years the fairs have been conducted entirely by the department, but interest has been so widespread for the forthcoming fairs that practically every organization connected in agriculture is taking an active part.

Other centers where fairs are being held are: Dorchester, Appleton, Glencoe, Kerwood, Thorndale, St. Johns, Mount Brydges and Adelaide. R. A. Finn, B.S.A., and J. F. Andrew, B.S.A., will be in charge for the department.

MARK TWAIN SAID

"Man can't sleep out-of-doors without freezing to death or getting the rheumatism; he can't keep his nose under water over a minute without being drowned. He's the poorest, clumsiest excuse of all the creatures that inhabit the earth."

"He has to be coddled, housed, and swathed and bandaged to be able to live at all. He is a rickety sort of thing any way you take him—a regular British Museum of infirmities and inferiorities."

"He is always undergoing repairs. A machine as unreliable as he is would have no market."

"The higher animals get their teeth without pain or inconvenience. Man's come through months of cruel torture, at a time when he is least able to bear it. As soon as he gets them they must be pulled out again. The second set will answer for a while, but he will never get a set that can be depended on till the dentist makes one."

"Man starts in as a child and lives on diseases to the end, as a regular diet. He has mumps, measles, scarlet fever, whooping cough, croup, typhoid, diphtheria, as a matter of course."

"Afterward, as he goes along, his life continues to be threatened at every turn by colds, coughs, asthma, bronchitis, quinsy, consumption, yellow fever, blindness, influenza, carbuncles, pneumonia, softening of the brain, and a thousand other maladies of one sort and another."

"He's just a basketful of pestilent corruption, provided for the support and entertainment of microbes. Look at the workmanship of him in some particulars."

"What is his appendix for? It has no value. Its sole interest is to lie in wait for stray grape-seeds and breed trouble."

"What is his beard for? It is just a nuisance. All nations persecute it with the razor. Nature, however, always keeps him supplied with it, instead of putting it on his head."

"A man wants to keep his hair. It is a graceful ornament, a comfort, the best protection against weather, and he prizes it above emeralds and rubies, and half the time nature puts it on so it won't stay."

"Man isn't even handsome, as compared with the birds, and as for style, look at the Bengal tiger—that ideal of grace, physical perfection and majesty."

"Think of the lion and the tiger and the leopard, then think of man—that poor thing! The animal of the wig, the ear trumpet, the glass eye, the porcelain teeth, the wooden leg, the silver windpipe—a creature that is mended all over from top to bottom."

"If he can't get renewals of his brace-brac in the next world, what will he look like?"

An Oil for All Men—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicines and be amongst those taken on a journey.

ERADICATION OF WEEDS

Co-operative Experiments Show How It May Be Done

Rape for Perennial Sow Thistles and Twitch Grass—Iron Sulphate for Mustard—Another Plan for Killing Twitch—O. A. C. Barley Popular in the United States.

(Contributed by Ontario Department of Agriculture, Toronto.)

As a result of ten years' experiments the following methods are recommended by the department of Botany of the Ontario Agricultural College:

Use of Rape to Destroy Perennial Sow Thistle and Twitch Grass.

Cultivate the field until about the middle of June, running over it frequently with the cultivator so as to keep the tops down and thus weaken the roots. Then apply manure at the rate of about 20 tons per acre (12 good loads). Cultivate the manure in thoroughly, and with a double mould board plough slightly ridge up the land, making the ridges about 24 inches apart. Then sow rape at the rate of 1 1/2 pounds per acre. It is important that the right amount of rape be sown, for if too little is sown the stand will not be thick enough to smother the weeds, and if on the other hand too much is sown the plants will be too crowded and not grow vigorously enough to keep ahead of the weeds. Sow the rape when the land is sufficiently moist to insure quick germination of the seed. If the rape is sown in starting the weeds a start in the rows and thus necessitate hand cultivation there. Cultivate the rape every week or ten days until it occupies all the ground and makes further cultivation on or pastured, any weeds remain, the field should be ridged up the last thing in the fall and put in with a new crop the following year. This should be done if a good stand of rape is secured.

Spraying With Iron Sulphate to Destroy Mustard in Cereal Crops.

Iron sulphate or copperas can be successfully used to destroy mustard in standing grain without injury to the crop.

Preparation of Solution.

A 20% solution should be applied. This can be prepared by dissolving 20 lbs. of iron sulphate in 40 gallons of water. Iron sulphate is best of spraying weeds in cool weather. The solution should be strained through a cheese cloth, as it is put into the spray pump tank. This will remove dirt and small particles that are apt to clog the nozzles.

Time to Apply.

Apply on a calm, clear day just as soon as the first few plants in the fields show downers. It is very important to spray early. If the plants are left too long the treatment is not nearly so effective. If a heavy rain comes within 24 hours after the solution is applied, it will be necessary to spray again.

How to Apply the Solution.

An ordinary hand pump barrel sprayer, such as is employed to spray fruit trees may be used, or a potato sprayer can be rigged up to do the work. Many of the up-to-date sprayers have a special broadcast attachment for spraying weeds. These are excellent for large areas, as they cover a wide strip at each round. Care must be taken to see that every mustard plant is covered with the spray, and that the spray is applied evenly.

Another Plan for Killing Twitch Grass.

A successful experiment in ridding land of twitch grass was made recently by the Farm Department of the Ontario Agricultural College on a field of about a half acre. The area was excellent for large areas, as they cover a wide strip at each round. Care must be taken to see that every mustard plant is covered with the spray, and that the spray is applied evenly.

O. A. C. Barley Grown in the United States.

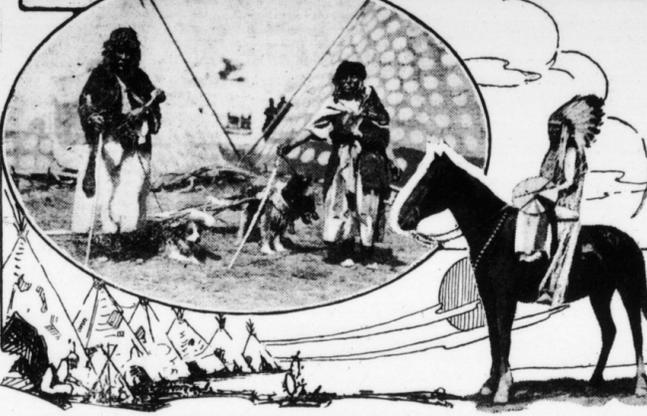

Dr. C. A. Zavitz received a letter recently from Prof. Moore of the Agricultural College of Wisconsin, which says: "Now practically all of the barley grown in Wisconsin, and in many of our surrounding States, emanated from the few pounds of barley which you so kindly sent up. We will never be able to get even for the good things you have done for us in bygone years."

The man who takes pride in "doing chores well" usually has sleek stock and clean stables, and realizes a great many advantages in everyday choring as from any user of his farm operations.

A bee is said to travel 43,776 miles to gather one pound of honey consisting of 29,136 drops of nectar. Those who do not believe it are invited by the bee to count the drops.

Sometimes it's lack of time and sometimes it's just indifference that leaves farm machinery neglected and broken from one season to the next.

ORIGINAL MOUNTIES WHOOP 'ER UP

The photographs reproduced above were taken, not a century ago as may be supposed, but early in July of this year when the town of MacLeod, Alberta, celebrated its Jubilee with a stampee and other goings-on reminiscent of the days of horse-thieves and Indian raids, and the advent of the Royal North-West Mounted Police. There is a very pretty little story told in connection with this celebration. Roxie, a beautiful race-horse owned by "Old Three Sons," a Black-foot Indian, although fourteen years old, was entered again to race. This horse was said to have never lost a race. Sleek and beautiful, she was the pride of the prairies, and as proud as she was beautiful. But her age was beginning to tell. Though she strained every muscle in her body, coaxed by "Old Three Sons" crouching on her back, having lost the lead she could not regain it, and for the first time in her racing life Roxie finished second. No more will she set the prairie turf flying under her feet. Having trotted back to the judges' stands, Roxie sank to the ground dead. She died, it is said, of a broken heart.

A LITTLE ABOUT GLENCOE

Glencoe is situated in the South-western part of the county of Middlesex; has a population of about one thousand well-to-do citizens; is the centre of a thrifty agricultural community, with good gravel roads in all directions, and within two and a half miles of Provincial Highway running east and west; has three trunk lines of railway—Canadian National, Canadian Pacific and Wabash, with 25 passenger trains daily; and is a divisional point on the C.N.R.; is the chief town between London (30 miles) and Chatham (40 miles); 2 miles by train to Detroit and 3 hours to Toronto.

Glencoe has a good record from a sanitary point of view, which is further attested in the general good health of its citizens; has fine church buildings, high and public schools, Carnegie Library and Reading Room, bowling greens, tennis courts, large curling and skating rink, ball grounds and recreation park—making it a most desirable place of residence.

Glencoe has several industries, including a foundry and manufacturing plant turning out woodenware and many kinds of machinery and employing some sixty workmen. Its splendid railway privileges and desirable location offer unusual inducements for other industries.

Glencoe is a sub customs port of entry and has handsome Dominion Government building, recently erected, containing post office, customs office and armory; has large municipal building containing opera house seating 400, assembly hall, council chamber, fire hall and jail quarters; has Memorial Hall, with comfortable veterans' rest room and other conveniences.

The registry office for the West Riding of Middlesex is located here; the Fifth Division Court of the county holds its sittings here. Glencoe has two bank branches—the Royal and the Bank of Montreal.

The weekly newspaper, *The Transcript*, is one of the best conducted local papers in the province and has been established for upwards of fifty years; it has a large circulation. There is a fine hotel building; stores and other business places car-

ry large and attractive stocks, and have a large trade. Societies and clubs are well represented.

Agricultural and schools fair is held here annually in the fall, also a horse show and races in June, there being an excellent half-mile track.

There is a Board of Trade, the secretary of which will be pleased to furnish any further information applied for.

BRUCE McALPINE

A CALIFORNIA BABY

The Sun, published at San Bernardino, California, thus records the entry into life of a baby boy of which Dr. Patterson, a son of John Patterson, of Walkers, is the happy father: "Baby Causes Joy in Home.—Dr. and Mrs. J. A. Patterson are rejoicing over the arrival of a fine baby boy, born at the County Hospital, August 29, 1924, weight 8 lbs. 10 oz. Dr. Patterson, a graduate of the University of Toronto, has been a member of the staff of the County Hospital for the past six months, being formerly of the staff of Miami Inspiration Hospital, Miami, Arizona."

An Oil That is Prized Everywhere.—Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

BIBLE THOUGHT FOR TODAY

Bible Thoughts memorized, will prove a precious heritage in after years.

WENT ABOUT DOING GOOD:—And Jesus went about all Galilee, teaching in their synagogues, and preaching the gospel of the kingdom, and healing all manner of sickness and all manner of disease among the people.—Matthew 4: 23.

Card of Thanks
Mrs. Thomas Field wishes to thank her many friends and neighbors for kindness and sympathy extended to her during her recent bereavement, also for the many beautiful floral tributes.

Card of Thanks
Mrs. Mitchell E. Walker and John S. wish to thank their many friends and old neighbors for their kindness and sympathy that met them at Oakland cemetery on their arrival from Aylmer in their recent sad bereavement, also special thanks to Rev. Mr. Whitehall.

TOWN AND VICINITY

Rev. C. G. Graham, Mt. Brydges, and Rev. D. G. Paton, Glencoe, will exchange pulpits next Sunday.

D. D. Johnson, of Crinan, was awarded first prize for Clyde brood mare with foal at Toronto fair.

Rev. Dr. T. L. Fowler, of St. Thomas, will preach in Church of Christ, Mosa, on September 14th and 21st, at 11 a.m. and 5 p.m.

J. A. Raeburn, the Glencoe driller, who has been drilling on the farm of A. Whitlock at Cowal, has struck oil at a depth of 265 feet.

Representatives of the various schools of this district W.O.S.S.A. met at Glencoe on Saturday and made final arrangements for the annual field and track meet to be held at Glencoe on Friday, October 3rd.

Anniversary services of Guthrie Presbyterian church, Melbourne, will be held on Sunday, September 21st, at 11 a.m. and 7:30 p.m., conducted by Rev. J. S. Henderson, D.D., of Vancouver, a former pastor of this church.

Citizens are pleased to note the splendid progress of the Glencoe brass band since its reorganization. The band played several selections in front of the Memorial Hall on Saturday evening, this being their first appearance in public.

Roy McLean, ledger keeper in the Bank of Montreal here, has been transferred to a branch of the same bank at Holstein. Prior to his leaving for that place, the young men of the town presented him with a beautiful brown leather club bag.

The Home Bank premises at Melbourne, where Russell Campbell, of that village, was shot down and killed by Sid Murrell in April, 1921, are to be auctioned off by L. L. McTaggart on order of the liquidator of the defunct institution.

Toronto Fair closed on Saturday. This week London Fair, the popular South-western Ontario attraction, is in full swing. Weather conditions were not favorable for the opening, but brighter days following will ensure a big attendance, as the exhibition is said to be in advance of any in the past.

The speed limit for motor cars is fixed by Highway Traffic Act, 1923, section 24. In urban municipalities 20 miles per hour and 10 miles per hour at street intersections and curves where the view is not clear. The limit outside urban centres is 25 miles and 12½ miles at intersections and curves.

D. M. Stuart, cement contractor, of London, has completed the Second bridge in Mosa township, for which he had the contract, and it is a most satisfactory piece of work. The bridge has a twenty-foot span, and 30 cords of gravel and 131 barrels of cement were used in its construction. Councillor John A. Leitch was commissioner for the work.

R. A. Finn, local representative of the Department of Agriculture, estimates that the oats crop in Middlesex will be twenty per cent greater than that of a year ago. The acreage in crop is smaller than last year but the yield is unusually bountiful. In Lambton it is said the oats yield will average from 55 to 60 bushels to the acre, with some fields showing 90 bushels.

The death occurred at her home in Mosa on Tuesday evening of Mrs. Archie Graham, in the nineties, following an apoplectic stroke. She leaves a family of four sons and one daughter: Duncan, of Rodney; Neil, of Euphemia; Dougald and John, at home, and Mrs. Alex. Dewar, of Mosa. Funeral services will be held at her late residence on Thursday afternoon, with interment in Alvinston cemetery.

A pleasing incident occurred on September 9th in the Presbyterian schoolroom—the anniversary of the opening of the church. The occasion was a church quilting, when the ladies sprang a surprise by presenting a beautiful pink and white birthday cake, illuminated by a number of candles, as a tribute of gratitude to Mrs. Thos. Mawhinney on her birthday, for her faithfulness as a church worker. A social time was spent during the tea hour.

PERSONAL AND SOCIAL

Mr. and Mrs. Edgar Quick and family, of Mosa, spent Sunday at Chas. Hurley's.

Miss Margaret Macintyre, of Strathroy, was a guest of Miss Mollie Tait last Thursday.

—John A. Jones, customs collector, is on a three weeks' holiday, and his place is being filled by Mr. Woods, of London.

—Robert Eddie, accompanied by his son, Wm. R. Eddie, and grandson, Kenneth, spent Sunday at the former's home here.

—Mr. and Mrs. J. S. Smith and Mr. and Mrs. John Crysler motored from St. Catharines and spent the weekend at the manse.

—Misses Gladys and Ethel George have returned home after spending a week with their uncle, W. F. Siddall, the Warrington place, London.

—Mrs. Josephine Cloonan left this week for her home in Chicago. Mrs. Cloonan was called to Glencoe some weeks ago on the death of her sister, Mrs. Hugh Currie.

—Mr. and Mrs. Bowie and daughter Alice, of Buffalo, and Mr. and Mrs. Thomas Tait and son Jack, of St. Thomas, were guests on Sunday at the home of Mr. and Mrs. John Tait.

—Mrs. M. S. Andress and Miss Christy Andress, of St. Thomas, have returned home after an interesting five weeks' tour in the West, visiting Winnipeg, Edmonton and a number of other places.

—Mrs. C. G. Yorke, Mrs. H. McCutcheon, Mrs. (Rev.) A. S. Whitehall, Mrs. Alfred Squire, Mrs. T. C. Roycraft and Mrs. Reeves attended the district annual convention of the W.M.S. of the Methodist church held in Thamesville recently.

AUCTION SALES

At south half lot 13, con. 14, Metcalfe-Ekfrid townline, on Thursday, September 18, at 1 o'clock sharp:—

5 young cows, due to freshen on or before Dec. 1st; 2 cows due to freshen about Nov. 15th; cow and three weeks-old calf; baby beef calf; dry cow, fat; 3 fat heifers 2 years old; 4 steers between 1 and 2 years of age; 12 heifers, in good condition, 1 and 2 years old; 4 spring calves.—Thos. Towers, proprietor; L. L. McTaggart, auctioneer.

CELEBRATE THEIR VICTORY

About 300 persons and over 60 autos from West Lorne met the International Limited train here Saturday night to welcome the West Lorne baseball team, on their return from Brantford, where they defeated the Brantford Cordage team 6 to 5 in the third round of the O.B.A.A. intermediate series.

The crowd was very enthusiastic and as the train pulled in the boys were greeted with cheers and confetti, along with a serenade by the new Glencoe brass band. The ball players were picked up and carried above the heads of the large crowd and were escorted to waiting autos, when the 60 cars formed in parade for West Lorne.

The West Lorne citizens were greeted by a large crowd of Glencoe people, who, in all, made up one large and noisy assembly, all showing the right community spirit for good, clean sports.

Much sympathy is extended to Mr. and Mrs. Bert Anthony, of Napier, in the loss of their home by fire recently. Only a small amount of insurance was carried. Being a frame house it burned so quickly that but a few of the contents were saved.

Glencoe Fall Fair, Wednesday and Thursday, September 24 and 25.

Persons interested in the coming vote on the liquor question should examine the voters' lists. Remember you cannot vote unless your name is on the revised list.

G. H. S. NOTES

School opened on Tuesday, September 2nd, with a record attendance. The status of the school has been materially improved this year by the addition of an Upper School class, which is taken advantage of not only by our own graduates but outsiders as well.

The registration at present is as follows:—Form I, 49; Form II, 42; Form III, 28; Form IV, 19; Form V, 12; total, 150.

The students gathered on Monday afternoon and reorganized the literary society for the coming year. Officers were elected as follows:—President, Wm. Trestain; vice-president, Elva Sutton; secretary, Vesta Gast; treasurer, Annie Switzer; editor of Oracle, Viola Squire; pianist, Miriam Oxley; reporter, Eleanor Sutherland.

The annual meeting of the girls' athletic society was held on Wednesday, September 2nd, and the following officers and committees were elected:—Manager, Miss Gillies; secretary-treasurer, Ethel George; reporter, Vesta Gast; form representatives—4th, Nuala Stuart; 3rd, Vera Henderson; 2nd, Donna McAlpine; 1st, Ethel McAlpine.

The first meeting of the G. H. S. boys' athletic society was held on Wednesday, September 3. A motion by Wm. Trestain that Mr. Yorke be chairman for the meeting was carried. Officers were then nominated for the coming term and the following were elected:—President, Wm. Trestain; vice-president, Hugh McKellar; secretary-treasurer, Wm. Mess; committee—1st form, K. Peckham; 2nd form, K. Webster; 3rd form, R. McKellar; 4th form, J. McArthur; reporter to Transcript, S. McAlpine.

As Field Day is drawing near the athletes are now in training for the different events so that the G. H. S. will come out on top.

MOSA COUNCIL

A meeting of the Mosa council was held at Newbury on August 16. All the members were present. The minutes of the last meeting of the council were read and approved.

Moved by A. McCready, seconded by J. A. Leitch, that the engineer's report on the repair of the Frederick-March drain be adopted, and the clerk is hereby instructed to prepare a by-law in accordance with said report. Carried.

By-law No. 738, to provide for the construction of the John J. Shields drain, received its second reading.

Moved by James Gilbert, seconded by Isaac Waterworth, that the reeve be hereby authorized on behalf of the municipality of Mosa to sign the petition for drainage work presented by E. Gosden and affecting the municipality of Mosa and the village of Newbury. Carried.

Orders were issued as follows:—F. Bunda \$2, F. Beurian \$2, Jas. Beurian \$2, A. McCready \$3, for assistance surveying the Frederick-March drain; J. A. Leitch \$3, J. D. McNaughton \$2, A. Winger \$2, W. Hillman \$2, Peter Mitchell \$2, George Turner \$2, for assistance surveying the McNaughton drain; Jas. M. McGregor, \$25 for plans of Secord, \$28 for survey, plans and report on McNaughton drain, and \$44 for survey of Frederick-March drain; A. E. Sutherland, \$201.95, printing voters' lists, etc.; Municipal Ward, \$9.18.

Moved by Jas. Gilbert, seconded by J. A. Leitch, that the engineer's report on the McNaughton drain be adopted, and the clerk is hereby instructed to prepare a by-law in accordance with the said report. Carried.

Moved by J. A. Leitch, seconded by James Gilbert, that a rate of 23 mills on the dollar be levied on all the rateable property of the township of Mosa for the year 1924. Carried.

Moved by J. A. Leitch, seconded by Isaac Waterworth, that Ross Douglas be paid \$7, damages to car owing to hole in road at culvert on road between concession 5 and 6 opposite lot 6. Carried.

The council adjourned to meet at Glencoe on September 20th at 1 p.m. C. C. McNaughton, Clerk.

THE LATE MITCHELL WALKER

The funeral of the late Mitchell E. Walker, who died at his home near Aylmer, was held Friday afternoon, with interment at Oakland cemetery. Large numbers of friends from this district attended at the cemetery. Mr. Walker having been for many years a resident of the township of Mosa, where he was born 63 years ago.

Although Mr. Walker had been in ill health for some time, his death was quite sudden. He and his son were working at the barn on the morning of September 3rd, his wife also being near by, when he was seized with a faintness and almost immediately after fell into the arms of his son and expired.

After leaving the farm in Mosa some years ago, Mr. Walker lived for a time in London, and about three years ago moved to the Starkey farm, near Springwater, where he died.

Surviving are his widow and one son, John, at home. He also leaves one brother, Isaac Walker, of Alsask, Sask., and four sisters: Mrs. J. D. Smith and Mrs. James Poole, Glencoe; Mrs. Lizzie Fryer, Detroit, and Mrs. A. D. McCallum, London.

EKFRID COUNCIL

The municipal council of the township of Ekfrid met in the town hall, Aylmer, on Thursday, August 21. All members present. The minutes of last meeting were read, approved and signed by the reeve.

On motion it was resolved to levy a rate of eleven mills on the dollar for payment of the county rate and six mills on the dollar to raise a sum sufficient to pay all valid debts whether of principal or interest falling due within the year as per estimates made by the council, and the clerk instructed to prepare a by-law therefor, and it was further resolved that a further rate of two per cent, be added to all taxes unpaid from the 15th day of December, 1924, to the 1st day of January, 1925, and an additional rate of three per cent on all taxes unpaid after the 1st of January, 1925.

The clerk was instructed to publish in The Glencoe Transcript for four successive weeks the passing of a by-law closing the road through lot seventeen as ordered by the Ontario Railway and Municipal Board.

Council adjourned to meet in this place on Thursday, September 18, at 10 a.m.

A. P. McDougald, Clerk.

CASTORIA

In Use For Over 30 Years
Always bears the Signature of *Chas. H. Fletcher*

Some of the questions fired at the Prince of Wales by New York reporters indicate why the young man prefers the privacy of his ranch to the limelight.

BY-LAW No. 791

A By-law for Stopping Up the Highway on Lot 17 in the 3rd Range South of the Longwoods Road in the Township of Ekfrid.

WHEREAS an application was made by the Municipal Council of the Corporation of the Township of Ekfrid to the Ontario Railway and Municipal Board for an order relieving the said corporation from the obligation to rebuild the bridge over the creek on the River Road through lot number seventeen in the third range south of the Longwoods Road in the Township of Ekfrid in the County of Middlesex; and

AND WHEREAS on the 18th day of September, 1923, the said Ontario Railway and Municipal Board made an order granting the said application upon payment by the said corporation to Thomas Brown, the owner of the said lot number seventeen, of the sum of one hundred dollars and the conveyance to him by the township of the road in question;

AND WHEREAS it is desirable to stop up the said highway and to convey it to the said Thomas Brown in pursuance of the said order;

THEREFORE the Municipal Council of the Corporation of the Township of Ekfrid enacts as follows:

1. That that portion of the road through lot number seventeen in the third range south of the Longwoods Road in the said Township of Ekfrid, which may be more particularly known and described as follows, that is to say: All and singular that certain parcel or tract of land and premises situate, lying and being in the Township of Ekfrid in the County of Middlesex and being composed of part of lot 17 in range 3 south of the Longwoods Road, which said parcel or tract of land is used as a road allowance and may be more particularly described as follows: i.e. a strip of land one rod in perpendicular width on each side of the below described centre line and shown colored red on the attached plan; commencing at a point in the north-easterly limit of said lot 17 and 2925 feet south-easterly from the north-easterly angle of said lot; thence south 47 degrees and 52 minutes west 295 feet and 6 inches; thence south 56 degrees and 39 minutes west 270 feet and 6 inches; thence south 40 degrees and 18 minutes west 303 feet and 3 inches; thence south 37 degrees and 54 minutes west 395 feet and 2 inches; thence south 35 degrees and 03 minutes west 345 feet; thence south 33 degrees and 57 minutes east 190 feet; thence south 33 degrees and 02 minutes west 90 feet; thence north 67 degrees and 33 minutes west 180 feet, be and the same is hereby stopped up.

2. That the reeve and clerk be and they are hereby authorized to convey to the said Thomas Brown, the sum of one hundred dollars in pursuance of the order of the said Ontario Railway and Municipal Board, and they are hereby authorized to execute on behalf of the Township of Ekfrid the annexed deed of the said road and to deliver the same to the said Thomas Brown upon execution thereof by him.

3. That the Treasurer of the said Corporation of the Township of Ekfrid be and he is hereby authorized to pay to the said Thomas Brown the sum of one hundred dollars in pursuance of the order of the said Ontario Railway and Municipal Board, and they are hereby authorized to execute on behalf of the Township of Ekfrid the annexed deed of the said road and to deliver the same to the said Thomas Brown upon execution thereof by him.

4. That this by-law is to take effect from and after the passing of a by-law of the Council of the County of Middlesex confirming this by-law.

READ a first, second and third time and finally passed this 22nd day of May, 1924.

Bernie Galbraith, A. P. McDougald, Reeve. Clerk.

FISHERMEN TELL YOU

Fishermen will tell you that they only go to French River, Nipigon, or Lake-of-the-Woods for the fishing. Not all of them will tell you that they go because Madame insists, these being three of the few districts where one can enjoy the comforts of the average holiday resort, the joy of camp life and the glory of the woods as well as the finest fishing in North America. There are bungalow camps, operated by the Canadian Pacific, in each district.

MCLAUGHLIN-BUICK SPECIAL SIX 25-21

Where Luxury and Economy Meet

BEAR in mind that this Special Six Double Service Sedan embodies all the refinements in appearance and performance—all the mechanical excellences that has made McLaughlin-Buick known as Canada's Standard Car.

The handsome Fisher-built body is upholstered in high-grade and very-durable automobile plush. The rugged chassis, powerful valve-in-head motor, Four-Wheel Brakes, together with the unusual riding qualities made possible by cantilever springs and low pressure tires, make this the ideal car for business or pleasure use.

The price is considerably less than you'd expect to pay for a car so fine.

Dominion News in Brief

Amherst, N.S.—The rolling mills of the Canadian Car & Foundry Co. here are busily engaged on an order for several hundred tons of reinforcing rods to be used for construction work in Montreal. It is the first time that rods of this description has been cast out at the local mill.

Fredericton, N.B.—Wool grading for the New Brunswick Sheep Breeders' Association has been completed by the Livestock Branch of the Provincial Dept. of Agriculture. The total amount of wool graded this year amounted to 25,000 pounds. The quality is declared to be the best ever handled under the co-operative arrangements.

Quebec, Que.—Tourist traffic in the Province of Quebec in the past year or two has developed into one of the province's most important industries, and in order to make better known the attractions which this province has to offer the tourist, the Provincial Government has authorized the expenditure of some \$50,000 for advertising and publicity purposes. The money will be spent in conjunction with the Quebec Tourist Association.

North Bay, Ont.—Exports of the products of Northern Ontario to the United States for the first six months of the present year show an increase of approximately 45 per cent. over those of the same period of last year. The total value of the exports for the period was \$24,957,570 in comparison with \$17,292,808. Gold bullion exports show an increase of more than 100 per

cent.; silver bullion of 30 per cent.; lath 450 per cent.; and newsprint 40 per cent.

Winnipeg, Man.—With a record attendance, including buyers from all the principal fur centres of the world, the fur auction sales held here during August, were the most successful yet experienced. Pelts to the value of \$825,000 were disposed of during the three days of sale.

Regina, Sask.—Creamery butter production in the Province of Saskatchewan during the month of July amounted to 2,284,699 pounds, according to the report of the Provincial Dairy Commissioner. This is the first time in the history of Saskatchewan that it has been possible to record an output of over two million pounds in a single month. Compared with July, 1923, this is an increase of 389,925 pounds.

Edmonton, Alta.—Completion of a new well at Wainwright, Alta., which will produce more than 500 barrels of oil a day, was announced by the superintendent and geologist of the British Petroleum Co., Ltd., at the annual general meeting of the company held at Vancouver.

Vancouver, B.C.—Tarzan Second, the largest wooden scow in the world, was launched recently at the Wallace Shipyards. She is one thousand tons burden and has 300,000 feet of British Columbia lumber in her make-up. The scow is to be used as a carrier for a great pile-driver for the Sydney E. Jenkins Co.

MAJOR FIGHTING NEAR SHANGHAI COAST

All Sectors Engage in Civil Warfare—Wild Firing Reason for Few Casualties.

Shanghai, Sept. 7.—Engagements were reported to-day in all sectors, including Chekiang, in Chekiang province, about 100 miles southwest of Shanghai and Huchachen, in Kiangsu province, on the west shore of Taihu Lake, 75 miles west of Shanghai. But the major struggle centred on the small town of Lieuhou, on the seacoast barely 30 miles northwest of Shanghai.

Late night reports confirmed the outbreak of fighting Sunday at Taiungpu east of Taihu Lake, where the objective of the Kiangsu troops is Sumkiang, a city only about 20 miles southwest of Shanghai. Late reports from the Hwangtu sector, northwest of Shanghai, indicated that the Chekiang advance had reached Liutichiao.

An eyewitness returning to-night from Lieuhou reports that the Chekiang troops were withstanding all attacks, though the Kiangsu line had advanced about a mile just south of Lieuhou. The deserted town was under heavy shell fire and continuous machine gun and rifle fire of both sides. General Ho Fung-Ling, Chinese Commissioner of Shanghai under Lieuhou, Yung-Huaten, the Governor of Chekiang, spent the day in this sector personally directing the Chekiang army.

The wounded there numbered perhaps 200. The number of casualties continues out of proportion to the tremendous amount of firing. The eyewitness related the haphazard method of the front lines, saying that the soldiers were discharging rifles and even field pieces utterly regardless of aiming, often simply pointing them at the sky.

1,519,000 VISITORS AT CANADA'S FAIR

Increase of 26,000 Over 1923 Attendance Gives Evidence of Prosperity.

Toronto, Sept. 8.—For the first time in the history of the Canadian National Exhibition the million-and-a-half mark has been passed, and as a result, the year 1924 will go down in the records of the Fair as one of the peaks of optimism; and, owing to the fine spirit displayed by the citizens in general, the opinion has been strengthened that the era of depression has passed its lowest point and the country is once more on the up grade towards prosperity. The grand total of attendance at the end of the two weeks stood at 1,519,000, compared with the high-record figure of 1,493,000 of the year previous, and while there were fluctuations in the attendance during the two weeks, the temper of the people was fairly even, and the majority of the days showed increases over the corresponding days of the year before.

Five of Missing Men Picked Up in Gulf of St. Lawrence

Sydney, N.S., Sept. 7.—Five of the fifteen men missing from the three-masted schooner Raymond, which was torn from her moorings in St. Pierre harbor during last Thursday's gale and wrecked on the rocks at Fortune Bay, N.B., were picked up in the Gulf of St. Lawrence by the C.G.S. Arras, Friday, and landed at North Sydney yesterday. The men were practically exhausted and unable to stand on being taken aboard the rescuing craft. Hope is expressed for the safety of the remainder of the Raymond's crew. The rescued five stated that they saw the other boats early on Friday morning and the expectations of an unidentified sailing vessel which came in stays several miles from the Arras, and shortly after resumed her course, leads to the belief that she had hoped to, to pick the ten up.

The Prince of Wales is shown in polo costume in England, a costume which he wore at Meadowbrook during the international polo matches. The prince is a known player of ability.

SHANGHAI FOREIGN SETTLEMENT PROTECTED BY CORDON OF SAILORS

Fight for Control of Port Waged in Fields of Growing Grain Without Material Progress Being Made by Either Army.

A despatch from Washington says:—A protective cordon, composed of Shanghai volunteer corps and British, United States, Japanese and French sailors, will be thrown about the foreign settlement in Shanghai to prevent the entry of armed Chinese forces there.

A despatch from Shanghai says:—Although only one of the three armies of General Lu Yung-Hsian, Tuchun of Chekiang, who is fighting to retain control of Shanghai against the assaults of General Che Shih-Yuan of Kiangsu was engaged in the battle which continued through Thursday, the Chekiang headquarters assert it was able to more than hold its own.

Despite the fact that its line from the Shanghai-Nanking Railway to the Yangtze River was tightly held, the Chekiang leader reported their army held their positions in the centre and made some progress in the Hwangtu sector, on the railway and in the vicinity of Liahou on the river. Both sides are said to be rushing up reinforcements. Men and women in the affected area are being conscripted, causing a further influx of refugees into Shanghai, the Chinese quarter of which is already crowded with people fleeing to escape the fighting.

General Lu has two further lines of defence. The second, held by 20,000 men, the same number as engaged in Thursday's battle, extends from near the boundary of Northern Chekiang to a point west of Woo Sang, the outer port of Shanghai. The third army, some 8,000 strong, is stationed in Hang Chow and Ningpo in Northern Chekiang.

Though troops estimated to number 40,000 battled throughout the day, competent eye-witnesses declared that

neither side had made any material gain in the fighting. The battlefront extended from the line of the Shanghai-Nanking Railway to the Yangtze River, about 18 miles from Shanghai at its nearest point and about 25 miles at the most distant.

There was no evidence that the Kiangsu had any co-operation from naval forces on the Yangtze River. Indications were that the Chekiang troops would be able to hold that sector unless the attacking forces were heavily reinforced.

At several points the opposing fighters were hidden from each other by fields of growing grain through which the rifle and machine-gun bullets cut their way. Eye-witnesses said that undoubtedly the fighters were wasting large amounts of ammunition in the characteristic manner of Chinese troops firing wildly.

General Lu Yung-Hsian, commander of the defending forces, styles his command the "Chekiang-Shanghai force." The defenders are divided into three armies, only one of which has thus far actually been engaged in the fighting.

Prize Money for Prince Is Sent from Saskatoon

A despatch from Saskatoon says:—His Royal Highness the Prince of Wales won't be broke when he arrives at his ranch in Alberta. Among the many letters which will receive on his arrival will be one from the Saskatoon Industrial Board, enclosing a cheque for \$501, this amount being the prize money won by the Prince's exhibit at the 1924 Saskatoon Fair.

If you don't know what you want, others will sell you what you don't want.

ARBITRATION IS KEYNOTE OF MACDONALD'S SPEECH AT GENEVA MEETING

A despatch from Geneva says:—Prime Minister MacDonald, of Great Britain, dominated the Assembly of the League of Nations on Thursday in an hour speech, during which he defined the British position.

He declared against military alliances by groups of nations. He declared definitely for arbitration agreements. He pleaded with the smaller nations to base their security on international arbitration agreements rather than on military pacts, and said: "History is full of military pacts, but always there have been invasions."

He said the United States, Germany and Russia must come into the League of Nations. He complimented the United States for its help in the London settlement, and said: "Europe for the past few years has not offered United States a very attractive companionship, but when the United States of America will incline her to come in, she will find an honored and welcome place."

CANADIANS RETURNING FROM UNITED STATES

Immigration Officials See Beginning of Large Influx of Dominion Workers.

A despatch from Windsor says:—What local immigration officials believe to be the beginning of a large influx of Canadians from the United States is seen in the monthly figures issued by the department for August, which show that last month 852 persons entered Canada at the Port of Windsor. Of that number 410 were Canadians returning home after years of sojourning in the United States. There were 386 persons refused admission.

At Walkerville out of 56 persons admitted 45 were Canadians returning from various parts of the United States, the majority of them, however, being from Detroit. There were 134 rejections.

The general trade outlook across the line is believed responsible for the swinging back of so many of these who left their own land for work in Uncle Sam's country.

Canada's Fruit Finds Market in England and Germany

A despatch from London says:—Hon. S. F. Tomlin states that arrangements have been concluded whereby a Hamburg firm takes half a million boxes of Canadian apples, if procurable. Mr. Dettart, acting for the great, sails on Saturday on the Pittsburgh for Halifax, and will see the Nova Scotia merchants there before he proceeds to British Columbia, via Kootenay. Mr. Cosgrave, of the Dept. of Trade and Commerce, has also concluded a deal with a leading British firm prepared to take an unlimited quantity of first-class fruit and freight. Mr. Dettart is also this firm's sole agent. The deal offers exceptional opportunities to the Canadian fruit trade.

To Interest Canadian Manufacturers in 1925 Exposition

A despatch from London says:—F. W. Bridges, who organizes the shipping, engineering and machinery trade exhibition held yearly since 1906 at Olympia, has sailed for Quebec, to interest Canadian manufacturers in establishing a Canadian section in the exposition in November, 1925. Mr. Bridges, who is in touch with the highest class manufacturing concerns here, wishes to arrange for Canadian agents for several of them. He last visited Canada thirty-six years ago.

New Western Wheat Grading Up Well

Winnipeg, Man., Sept. 7.—Inspection of the new crop of wheat up to and including Friday, Sept. 5, consisted of 189 cars, of which the following grades were represented, showing that the early wheat has been grading well: No. 1 Northern, 169 cars; No. 2 Northern, 22 cars; rejected, 6 cars, and smutty, 1 car. One old car of oats was also inspected and graded No. 3 CW. The total number of cars of barley inspected was 137, of which 82 were No. 3 CW, 17 No. 4 CW, 13 no grade, 13 feed, 11 rejected, and 2 barley and wild oats. New crop eye naturally showed the heaviest inspections, totalling 481 cars. The grades were: No. 1 CW, 30; No. 2 CW, 308; No. 3 CW, 5; no grade, 136, and rejected, 5 cars.

Quick Sale of Canadian Securities on N.Y. Market

A despatch from New York says:—The Dominion of Canada offering of \$29,000,000 30-year 4 1/2 per cent. bonds for the account of the Canadian National Railways was oversubscribed, and the books closed before noon on Friday, according to an announcement by Dillon, Read & Co., head of the bank syndicate offering the bonds here. The offering price of the bonds was 96 and interest. They will return a yield of 4.75 per cent.

England is Inundated With Flood of Pennies

A despatch from London says:—There is a glut of pennies in this country, and the royal mint, which has not struck off any since 1922, is undecided whether to coin any next year. The London Gas Light Co., which is a proprietor of the largest number of slot meters in this city, has an accumulation of 17,000,000 pennies which it is unable to unload.

The mint can well afford to let up on the manufacture of copper coins, as it is stated officially that a profit of 1,000,000 pounds was shown on the silver coinage last year, due to the use of a new alloy in this currency.

Committee of Guarantees Gives Way to Dawes Plan

A despatch from Paris says:—The Reparation Commission decided on Thursday that, during the application of the Dawes reparation plan, the Committee of Guarantees would not exercise the attributions conferred upon it by the Treaty of Versailles and by the schedule of payments of May, 1921.

\$4,500 in Old Stamps Are Found in London

A despatch from London says:—During the turning over of old documents in the Record Office here, a batch of New South Wales postage stamps of the 1855 issue was discovered. Collectors value them at \$4,500. The stamps were attached to a report sent to the Colonial Secretary by the Governor of New South Wales.

New Zealand Continues to Reduce Taxation

A despatch from Wellington, New Zealand, says:—New Zealand is one of the few countries which is able to steadily reduce its taxation. This year's budget reduces the land tax by 10 per cent. and the income tax by 13 1/3 per cent. Mr. Massey, Prime Minister, also intends to ask the House to reduce the amusement tax and the tobacco duty, thus making the remissions of \$3,000,000 pounds in all.

Trade Treaty Between Canada and Netherlands

A despatch from Ottawa says:—Most-favored-nation treatment in customs duties by both parties is provided in a trade treaty between Canada and The Netherlands, concluded on Friday. Legislation will be necessary to give the treaty effect.

The photograph shows the wreck of Major Stuart MacLaren's plane in his attempted 'round-the-world' flight at Bering Island. He and his crew arrived recently at Prince Rupert, British Columbia, having decided to give up the attempt of circling the globe.

Roadside Trees—Canada and France

By R. B. Meredith.

In our mature Canadian cities and in hundreds of progressive towns trees have become one of the principal factors in municipal beautification. The Canadian countryside, however, too frequently shows no such systematic cultivation of tree life and the roads in consequence become little more than a lonely man-made motor path.

It is interesting to study a country that has lived on its land for centuries and whose rural conditions are the results of mature development. Here at home, during the last century, the change has been drastic, and in parts we have passed from extreme to extreme from a densely wooded land, to a countryside barren of trees.

The Old World is old, and old-fashioned, but she has more to teach than she has to learn. In one respect, tree preservation, she is particularly sane and wise and Canada would profit by following suit. France and Germany are famed for their extensive forest reserves; but in France, the systematic utilization of the roadsides almost universally for tree plantation, is of chief interest to Canadians.

The roads and canals are bordered by single, double, and sometimes triple rows of trees. In the North of France these are generally Plane or Poplar; and in the South more often Pine, Olive or Cork. In the tablelands the road sides in the distance holding an unswerving tree-framed vista to the horizon. In the hilly country, the avenue of trees—write up and down the valley wall disappearing abruptly, to reappear miles away on a distant slope.

The lower branches of the trees are being constantly collected for faggot fuel, and on many species a regular pruning is carried on by the thrifty farmers. Banks of naked trunks, by the roadsides or separating field from field, are often seen, the limbs all having been rawn close off, and the bald stubby post having not yet sprouted its fresh crop of branches. This pollarding for fuel is carried out very generally and on practically every kind of tree.

The French are very thrifty. I remember one Frenchman from the North exclaiming with horror at the sight of ungathered twigs and branches on the wooded hillsides by the Mediterranean. In the North, trees are scarce and the smallest limbs are collected.

When the trees have reached a fair state of maturity they are cut and utilized. In their place are planted saplings, and within a year a healthy avenue of young trees flourishes in place of the old. One does not regret seeing them cut, they go into good use, and immediately young trees are planted to replace them.

"Is your horse sick?" "Not as I know of," was the short reply. "No. But he's so afraid I'll say 'Whoa!' and he won't hear me that he stops every once in a while to listen."

Patients did better in tents than in any other accommodation—this is one of the lessons of the Great War.

Autumn Days. "Then followed that beautiful season, called by the pious Acadian peasants, the summer of All-Saints. Filled with the air with a dreamy and magical light; and the landscape lay as if new created in all the freshness of childhood. Peace seemed to reign upon earth, and the restless heart of the ocean was for a moment consoled. All sounds were in harmony blended. Voices of children at play. The crowing of cocks in the farmyards. Whirl of wings in the drowsy air, and the cooing of pigeons. All were subdued and low as the murmurs of love and the great sun looked with the eye of love through the golden vapors around him; while arrayed in his robes of russet and scarlet and yellow. Bright with the sheen of the dew, each glittering tree of the forest flashed like the plane-tree the Persian adorned with mantles and jewels."

Summer Night. Night stealthily stirs with motion. A black panther switching its tail Restlessly to and fro. It crouches ready to spring. Out Dawn steals near. And with soft stroking fingers Turns it into a tame tabby cat, Stretching sleepily.

Night is full of a beating silence. The half-remembered drumming of an eel. Along a sloping beach. Night gathers itself. To burst into crashing noise. But ever is held by the endless rhythm. The ebb and flow of its long throbbing silence; Pierced and shattered at last. By the shrill cry of waking birds. —Helen Dafforth Prudden.

Why some people don't get on is because they are always falling off in application.

RED ROSE TEA 'is good tea'

and extra good is the ORANGE PEKOE QUALITY

Surnames and Their Origin

HUTTON
Racial Origin—English.
Source—A locality, also a characteristic.

This is a family name, which, if one judged it by one of its meanings alone should be classified as a variation of the name Houghton and Haughton, for in a large number of cases it is derived from a place name which means "high-town." Both the place and the name, however (which is Hutton), have an identity distinct from those concerned in the origin of the names Houghton and Haughton.

But there is another derivation of the family name, from the old Norman-French word "hutin," meaning "proud." The mention of such characteristics as this in connection with a man's name with the same given name, was quite common in the middle ages. At that period, just prior to the development of family names and coincident with it, populations were increasing so rapidly, and shifting as well, and the same given names were applied to so many persons, that some further method of differentiation, such as mention of the place whence a man had come, or of some personal characteristic of his, was the rule rather than the exception.

Those who can trace their ancestry back to a form of the name prefixed either by "de" or "le" will have no difficulty in determining whether their family name developed from the place name or the nickname. The "de" indicates the former and the "le" the latter.

Cautious Horse.
Harris prided himself on a thorough knowledge of horses and their habits, and so he was interested when, on a visit to the country, he saw a farmer having some trouble with his mount. It would start, amble along slowly for a short distance and then stop. Then the farmer would have great difficulty in getting it started again. Finally Harris approached the farmer and asked kindly:

"Is your horse sick?" "Not as I know of," was the short reply. "No. But he's so afraid I'll say 'Whoa!' and he won't hear me that he stops every once in a while to listen."

Patients did better in tents than in any other accommodation—this is one of the lessons of the Great War.

MUNSON.
Racial Origin—English, also Scottish.
Source—Given names.

Munson is a family name of quite simple and regular origin, but you'd hardly guess the given name from which it comes unless you were familiar with the manner in which the English of the Middle Ages abbreviated their given names.

Many of the shortened forms of given names were the same as those we use to-day, such as Dick for Richard, Harry for Henry, Ed. for Edward, Edgar or Edmond, and so on. But there was also a method of using other syllables of a name than the first for purposes of abbreviation and variation. This has virtually disappeared among English-speaking peoples, though it remains among the Germans, among whom Hans for John (from Johannes) is widespread.

In medieval England "Mun," "Mun" and "Mon" were regular variations of Edmond and Edmond, and the simple addition of the ending "son" to one or the other of these forms has given us the patronymics Munson, Monson and in some cases, through further variation, Manson.

Manson, however, is more likely to be of Scottish origin, a development of "Magnus-son." This is the name of one of the sept or branches of the Clan Gunn, that clan which rose to prominence in the fifteenth century as the followers of George Gunn, the "Crown" or "Coroner," a historic figure in Scottish history.

Was Not Making Out.
Aunt—"How are you making out, Dot? Having a good time?"
Dot—"I ain't making out, Aunt Lil—I is having a good time!"

Our jaws have dropped half an inch since the days of prehistoric man; this is stated to be due to changes in the palate and in the teeth.

German Factories Workers Paid in Shoes.

When pay day came around in Permasens, Germany, recently, the factory owners were up against it for cash. The scarcity of liquid capital is quite acute in the shoe industry as it is in any branch of German trade.

A novel way was sought out of the dilemma. Instead of paying the men off in marks, they gave them each a pair of shoes as part payment of their wages.

An hour later virtually the whole shoe working population had been transformed into a sales aggregation. From store to store wandered heads of families, trying to dispose of their pair of shoes in return for things to eat.

EFFICIENCY IMPAIRED

Why Many Men and Women Are Badly Handicapped.

When you are so run down in health that it impairs the efficiency of your work as well as your power to enjoy your leisure hours, or obtain rest, it is time you looked to the cause. If you do not, a serious breakdown is almost sure to result sooner or later. In nearly all cases this condition, which doctors usually describe as general debility, is due to poor blood—blood that is deficient in red corpuscles. When the blood is thin and weak your whole system suffers. You lose appetite, have no energy, your nerves trouble you and you feel restless.

What you need is help to build up your blood and you should begin at once to make your blood rich and red by taking Dr. Williams' Pink Pills. You will soon notice the difference in your health by a better appetite and increased vigor. The reason is that the new blood created by Dr. Williams' Pink Pills stimulates all the organs of the body to healthy activity, and so the system gains nourishment and strength. If you are weak or out of sorts begin gaining new strength to-day by taking Dr. Williams' Pink Pills.

You can get these pills from your druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Boy With a Big Conscience.

A curious thing happened to me when I was a lad," remarked old Mr. Markham. "When I was ten years old my father died, leaving my mother in strained circumstances with a large family to support. My older sisters at once began to teach, and as soon as I was old enough I found a job in a clothing store. The work was not hard, but one thing troubled me. My mother was a testator and had taught me to think it wrong to drink. Well, there was an old gentleman who stopped daily at the store on his way home and took a drink of whiskey. We did not sell whiskey, but he kept his bottle and glass there because it was convenient. As I was the youngest clerk, it was my duty to bring the bottle and glass when he came in.

"Well, I worried about it a good deal and finally went to the head of the firm and told him my conscience would not allow me to encourage any man to drink. He looked at me in amazement; then his face turned red, and he cried, 'See here, boy, are you trying to be impudent?'"

"No, sir," I replied, "but I just don't think it's right."
"Well," he said, "no one stays in my store who can't take orders from me! You may get your pay and leave at the end of the week."

"That was a blow! When I went home I told my mother the news. She sighed and said: 'You were quite right, my son. I would not have you disobey your conscience for all the money in the world!'"

"When the week ended and I was paid in full I was told to my great astonishment that the firm would present me with any suit of clothes in the store that I wished to have. I was much pleased and walked out with my new suit under my arm, feeling almost cheerful.

"I had not gone two steps before one of the owners of the drug store next door accosted me. 'Want a job?' he asked.

"I was too much astonished to answer. 'I hear you're leaving Brown's on account of an abnormally developed conscience!' he went on. 'Well, that's the kind of a young fellow we are needing in our business. Can't have too much conscience in a drug store. Somebody's life might depend on it!'"

"I had recovered my wits by that time. 'I'll be glad to get the work, eh, and I'll do my best,' I said.

"When I went home and told my mother and showed her my suit she exclaimed: 'I knew you were right, but we no not always have such quick returns for a little investment in doing right!'"

Gone Forever.
Passenger (after the first night on board ship)—"I say, where have my clothes gone?"
Steward—"Where did you put them?"
Passenger—"In that little cupboard there, with the glass door on it."
Steward—"Bless me, sir, that ain't no cupboard. That's a porthole."

Children under three years of age are now forbidden by law to be used in the producing of German films.

Minard's Liniment Relieves Pain.

A Musical Creed for Canadian Music Lovers.

Here is a musical creed worthy of the attention of all Canadians. We believe that:

1. Music is a necessity, not a luxury.
2. Every child has an inherent right to a musical education.
3. Utility through music is a means to civic improvement.

4. Patriotism is developed by music.
5. The spirit of comradeship, regardless of race or creed, is induced by music.

6. Music is the most useful medium in constructive work in any community. Interior places of entertainment are being rapidly abolished, there must be established in their stead places of clear amusement.

7. Music tends to encourage a higher form of citizenship.
8. Music is a powerful curative for mental, moral and physical ailments.

9. Every city of 10,000 or more should build a memorial community club house, as the fountain head for branches of music and social activity for the entertainment of the peoples of that locality.

And in these serious days of unrest, it is well to remember that by giving greater encouragement to music, much of the present discontent now existing among the masses, will be done away with. More music and kindler co-operation between the various sections of our communities will make Canada the envy of the world.

A Forbidden Plant.

In California, if you grow a marijuana bush you risk imprisonment for three months. Marijuana is the Spanish-American name for hashish, or Indian hemp. It grows freely, and its smaller leaves and seeds are dried, crushed, and made up into cigarettes.

Although the cost of production is much less than that of ordinary tobacco cigarettes, the retail price in the underworld is as much as ten or fifteen cents each.

A SPLENDID LAXATIVE FOR THE BABY

Mothers should constantly be on guard to keep their baby's bowels working freely and his stomach sweet, for nine-tenths of the ailments from which little ones suffer are caused by derangements of the stomach and bowels. Baby's Own Tablets are a splendid laxative for the baby. They are mild but thorough; contain neither opiates nor narcotics, and are absolutely guaranteed to be safe and efficient for either the newborn babe or the growing child. By their action on the bowels and stomach they drive out constipation and indigestion; break up colds and simple fevers and make the dreaded teething period easy.

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Double-Edged.

Mr. Billerton, whose daughter had just been united to the husband of her choice, looked a little sad.

"I tell you, William," he said to one of the wedding guests, a man of his own age, and himself the father of a number of unmarried girls, "I tell you it is a solemn thing for us when our daughters marry and go away."

William assented, but not altogether heartily.

"I suppose it is," he conceded, "but I tell you it is more solemn when they don't."

A Beautiful Friendship.

Two battered old wrecks were sitting on a bench in the park the other afternoon. Suddenly one of them leaped over and remarked, "I'm a man who never took advice from his friends."

"Shake, brother," replied the other. "I'm a man who followed everybody's advice."

Better Gem Cutting.

The Antwerp diamond cutters say they have found a way of cutting and polishing gems so that they give 585 reflections.

Oriental Debt Paying Day.

In China and Japan all debts are supposed to be paid by New Year's day.

Sugar is found in the sap of nearly two hundred plants and trees.

BROCKVILLE FARMER SUFFERED 20 YEARS

"Les" Booth Finally Got Relief Through Taking Tanlac.

"Since taking Tanlac, I feel so fit I sometimes seem like a dream for there was hardly a day in 20 years that I did not suffer," is the striking statement of Geo. L. ("Les") Booth, 271 Perth St., Brockville, Ont., one of the best known farmers in Ontario.

"For 20 years, up to three years ago when I took Tanlac, I suffered from rheumatism in my arms, shoulders, back and hips, so bad at times I could not lift my arms to put my coat on. I couldn't even write my name and I

just limped about like a cripple. Many a night it looked like I would not live to see daybreak, and once I was laid up six months unable to hit a lick of work.

"Money could not buy the good Tanlac has done me. It ended every sign of rheumatism and built up my weight 16 pounds, and since then I have not had a rheumatic ache or pain. If anybody wants to know about Tanlac, just let them see Les Booth."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Take Tanlac Vegetable Pills for constipation.

Japanese Capital to Aid Newly Married Couples.

Fearing race suicide among the poorer classes due to the high cost of getting married, the Social Works Bureau of Tokio municipality proposes to establish a matrimonial intelligence bureau.

The bureau will register the names of those who express the desire to be married, and will act as go-between to arrange satisfactory matches. A stock of handsome kimonos will be purchased by the bureau and lent to the prospective brides and the services of an officer to perform the ceremony and a hall to hold the ceremony will be donated without charge.

At the conclusion of the wedding ceremony the responsibility of the bureau for the financing of the newly married couple ceases.

Minard's Liniment for Rheumatism.

Beavers Did the Work. A colony of beavers repaired a dam near Bellefont, Pa., that was 200 feet wide and from four to ten feet deep. Fishermen and farmers had considered repairing the dam for several years, but were deterred because of the expense involved. The beavers performed as good a job as the average dam builder.

MISERABLE AND ALWAYS IN PAIN

Lydia E. Pinkham's Vegetable Compound a Dependable Help for Mothers

Port Greville, Nova Scotia.—"I took your medicine for a terrible pain in my side and for weakness and headaches. I seemed to blot all over, too, and my feet and hands were the worst. I am the mother of four children and I am nursing my baby—the first one of four I could nurse. I took Lydia E. Pinkham's Vegetable Compound before the baby's birth, so you can see how much it helped me. I cannot praise it too highly for what it has done for me. I took all kinds of medicine, but the Vegetable Compound is the only one that has helped me for any length of time. I recommend it to any one with troubles like mine and you may use my letter for a testimonial."—Mrs. ROBERT McCULLY, Port Greville, Nova Scotia.

Before and after child-birth the mother will find Lydia E. Pinkham's Vegetable Compound a blessing.

Many, many letters are received giving the same sort of experience as is given in this letter. Not only is the mother benefited, but these good results pass on to the child.

No harmful drugs are used in the preparation of this medicine—just roots and herbs—and it can be taken in safety by the nursing mother.

98 out of every 100 women reported benefit from its use in a recent canvass among women users of this medicine. C

Cuticura Heals Itching Eczema On Arms and Face

"My trouble began with red blotches and itching and burning on my arms and face, and then eczema broke out with a rash. My face was disfigured and my clothing aggravated the breaking out on my arms. I could not put my hands in water, neither could I do my regular work at night. I lost my rest on account of the irritation."

"The trouble lasted about a month. I began using Cuticura Soap and ointment and they helped me and after using two cakes of Cuticura Ointment I was completely healed." (Signed) Mrs. Leon Hallock, 104 Atkins St., Bellows Falls, Vt.

Use Cuticura Soap, Ointment and Talcum for all toilet purposes. Sample Each Free by Mail. Address: Cuticura Dept., "Cuticura," P. O. Box 5118, Montreal, P. Q. Cuticura Ointment is made in Toronto, Ont. Try our new Shaving Stick.

QUESTIONS and Bible Answers
17 Parents will encourage children to look up and memorize the Bible Answers, it will prove a precious heritage to them in after years.

What happened to the foolish virgins which had no oil in their lamps?—Matt. 25: 1-13.

NEWBURY
Mr. and Mrs. Alex. Gray and family spent the holiday with their mothers, Mrs. Gray and Mrs. Yates. Wm. Glennie and wife attended the funeral of his late cousin, Mrs. Vesta Vall Owen, at Delaware on Sunday, August 31st.
Mr. McKee, of the grist mill, has moved his family from Toronto and they have taken the residence of the late Miss Early.
John A. Robinson attended the undertakers' convention in Toronto last week.
R. H. Winters and family arrived home last week from a pleasant motor trip east as far as Ottawa.
Miss A. L. Tucker spent a few days last week with Detroit friends.
Mrs. George Andrus and children, of Reese, Mich., visited Mrs. J. P. McVicar, "Ingliside," recently.
Rev. H. Bollingbroke and Rev. R. J. Murphy, B.A., have returned from their vacations and again taken up duty.
Miss Florence Richards left for Sarnia on Saturday to take a position.
John G. Bayne spent Labor Day week-end with his brother, James H., in Detroit.
Hugh Callan, wife and daughter, of Toronto, are visiting Mrs. Lamb.
Mr. and Mrs. Campbell, of Waterloo, Iowa, and Mr. and Mrs. O. Gage, of Cairo, visited at Arch. McCreedy's last week.
Henry Willick and wife and children, of Ford, were calling on friends in town last week while visiting Fred Haggitt, of Moss.
Mrs. Frank Robinson arrived home from Toronto on Saturday.
Miss Jessie Gray, of Detroit, is spending a two weeks' vacation with her mother here.
Today, Thursday, September 11th, has been proclaimed civic holiday.
Mr. and Mrs. Gino, O'Dell and her mother, Mrs. J. B. Cornell, of Cleveland, spent Monday with their aunt, Mrs. Sarah Yates.
The regular meeting of the W. M. S. of Knox church was held at the manse on Thursday, September 4th. The president presided and the meeting opened with the usual devotional exercises. Mrs. Bollingbroke told some very interesting incidents from her summer vacation. At the close of the meeting the hostess served a dainty lunch.
Miller's Worm Powders do not need the after-help of castor oil or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels untenable to the parasites. And not only this, but the powders will be certain to exert most beneficial influences in the digestive organs.

NORTH EKFRID
A large number from this vicinity attended the Kilmartin picnic. Appin and North Ekfrid played ball; score 16-14 in favor of North Ekfrid. Miss Emma Klemm, who was visiting her aunt, Mrs. Henry Roemmele, sr., was taken ill and was rushed to St. Joseph's Hospital. After a surgical operation she is getting along nicely.
Mrs. Foster is holidaying in Komoka and London.
Threshing is the order of the day. A large number from this vicinity intend going to London Fair.
Louis Ramey, of Windsor, is visiting his parents, Mr. and Mrs. Casper Ramey.
Mr. and Mrs. Fred Nichols and son Chester, of Lindsay, are visiting his sister, Mrs. Chas. Roemmele.
Miss Alice James is visiting her sister, Mrs. Ella Hardy.

NO REST WITH ASTHMA...Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh, and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merits through years of service. A trial will surely convince you.

SHETLAND
Miss Willis Elliott, of Windsor, spent the holidays at her home.
Wm. Nicholson spent a few days at Robert Gray's.
Mr. Badgley and Miss Reta spent a day in London.
Mr. and Mrs. John Gray spent the holidays at Fred Jeffery's.
Miss Fieta Brownlee is spending a few days in London.
Miss Grace Bilton is visiting Detroit friends.
Marion Webster, of Melvin, Sask., is visiting at Cliff Wilson's.
Duncan Gray attended Toronto Fair.
Mrs. James Ralph and two daughters attended Toronto Fair last week.

WOODGREEN

Mr. and Mrs. Dunc. McCallum and children, Mr. and Mrs. Chas. Gould and sons and Duncan McCallum motored to Lucan on Sunday and spent the day with relatives.
Mr. and Mrs. Lorenzo Gardiner and Will McFarlane attended Toronto Exhibition last week.
Threshing is the order of the day in this burg.
The Book Club meets at Mrs. Thos. Gardiner's this (Thursday) afternoon.

APPIN

Mr. and Mrs. Dan Talman, of Dunwich, and Mr. and Mrs. John Talman and baby Mary and Mrs. Belback, of Detroit, spent the week-end with Mr. and Mrs. Orville Hathaway.

The August meeting of the Fraser Young Women's Auxiliary was held at the home of Mrs. Den Laughton, with a large attendance. A pleasant afternoon was spent in quilting. Considerable business was transacted relative to the decorating of the church and the reopening which will be held the first Sunday in October. A large shower of fancy work was contributed for the bazaar. Lunch was served by the hostesses, Mrs. Black and Mrs. Dan McDonald.

A largely attended meeting of the Ladies' Aid was held at the home of Mrs. N. A. Black last Wednesday, about forty ladies being present. Considerable business was transacted relative to the decorating of the church and the reopening which will be held the first Sunday in October. A large shower of fancy work was contributed for the bazaar. Lunch was served by the hostesses, Mrs. Black and Mrs. Dan McDonald.

A large number from here attended Bethel anniversary last Sunday. An interesting union service was held in the Presbyterian church last Sunday evening in the interests of the Bible Society. Rev. R. Bowen addressed a large congregation and brought out some very interesting thoughts regarding the work of the Bible Society.

KILMARTIN

Mr. and Mrs. Duncan R. McAlpine have returned home after spending some time with friends in Detroit. Miss Elizabeth McAlpine has been engaged as teacher in Windsor.

Neil Lease has completed his contract of walks and steps at S. S. No. 17, which adds much to the appearance of the school.
Mrs. Ray Tyrell and Miss Anna Dewar, of Detroit, spent a few days recently with their parents, Mr. and Mrs. Alex. Dewar.

Many of the friends and neighbors from here attended the funeral of the late Warren Field at Napier on Sunday. The sympathy of the community goes out to the bereaved family.
Miss Mary Campbell left on Monday to teach in Toronto.

WALKERS

The death occurred at his home at Walkers on Friday, September 5th, of one of our highly respected young men in the person of Warren Field. Warren was in his 24th year, and although not in the best of health for a few years he was always cheerful and hopeful of being well again. A year ago he started to Westwell School, London, but owing to ill health had to give it up. He will be greatly missed by all his friends. In church and social work he was always ready to do his part. He leaves his widowed mother and one brother, Gordon. The pallbearers were John A. Little, T. W. Little, Warren Winter, Arthur Field, Harold Field and George Field. The funeral services, which were very largely attended, were held from St. Andrew's church, Napier, of which he was a member, on Sunday, September 7th. Rev. Mr. Mackintosh conducting the services. Much sympathy is expressed for the bereaved ones.
Mr. and Mrs. W. Cady and son Gordon, accompanied by Mr. Patrick, of St. Thomas, were visitors at Jas. Walker's on Sunday.
Mr. and Mrs. John Graham and son Mack, of Dutton, called on friends here last week.
Mrs. John Secord is visiting in St. Thomas.
Malcolm Walker has accepted a position in Mitchell's drug store, at London.

Mr. and Mrs. Dan Walker and daughter have returned after a motor trip to Windsor.
Mrs. Annie McPhail, of Alvinston, has returned home after spending several weeks with her sister-in-law, Mrs. John Dewar, who has been ill.

SHIELDS

Mrs. Robert McAlpine has returned home after visiting her sister, Mrs. Fred Kaske, Washington, D.C.
Miss Isabel McAlpine has gone to Sarnia, where she will teach school for the coming year.
Following is the standing granted the pupils of S. S. No. 12, Mosa, who took the first year lower school course in public school:—Nelena McVicar—geography, art, botany, Canadian history; Miss Purcell—geography, art, botany, Canadian history; Winnie McLean—botany.
The Needle Club met at the home of Mrs. D. H. McLachlin on Thursday, August 7th. It being the annual meeting a large number were present—16 members and 39 visitors. Officers for the coming year were elected, as follows:—Mrs. D. M. Mitchell, president; Mrs. A. Quick, vice-president; Miss Bessie McAlpine, secretary; Mrs. John McVicar, treasurer. A flower committee was appointed, consisting of Mrs. O. Watson, Mrs. L. McLean, Mrs. N. McVicar and Mrs. D. H. McLachlin. Tea collection amounts to \$9.20. Flower collection \$25 and membership fees 75c, making a total of \$10.20. At the close of the meeting refreshments were served by the hostess. The next meeting will be held on Friday, September 19, at the home of Mrs. A. M. Leitch; roll call, "Grace."

Ontario's Greatest Grain Crop.
In 1926 oats were grown more extensively in Ontario than all other grains combined. It is probably safe to say that three-quarters of the oats which are now grown in this Province are of the O. A. C. No. 12 and the banner varieties. According to extensive experiments and accumulated records at the College at Guelph and in western, Eastern and Northern Ontario, the O. A. C. No. 12 has surpassed the banner in both quality of grain and yield of grain per acre. The difference between these two varieties, if applied to the oat lands of Ontario, would mean millions of dollars annually in favor of the O. A. C. No. 12.—Dept. of Extension, O. A. C., Guelph.

TREES FALL PLANTED

How They Compare With the Spring Planted Trees

Pears, Plums and Sweet Cherries Do Well — Dig vs. Dynamited Holes for Planting—The Appeal of the Tree—Rainfall and Potato Rot—The Great Oat Crop.

(Contributed by Ontario Department of Agriculture, Toronto.)
Experiments to determine, for the Niagara Peninsula, the relative merits of fall and spring planting of pears, plums and sweet cherries were started at the Horticultural Experiment Station, Vineland, in 1914 and 1915. Complete records of growth and fruitfulness have been kept for each season so that the evidence we now have is fairly conclusive.

Pears, Plums and Sweet Cherries Do Well.
Several speaking for pears, plums and sweet cherries fall planting has resulted in the least number of deaths, and has given a somewhat greater growth of tree, both during the first season and thereafter. At no time, however, have the differences been very great, though they have been sufficiently marked to warrant fall planting, providing well matured trees can be secured from the nurseries. Trees dug too early and with unripened wood are apt to suffer from winter injury. In some seasons, owing to weather conditions which retard late growth, it is practically impossible to secure well-matured nursery stock. After such seasons spring planting would probably be preferable.

A probable reason for the fewer number of deaths in fall planted than in spring planted trees is that the roots of the fall planted trees are not subjected to drying out as are the roots of trees held over until spring.

Dug vs. Dynamited Holes for Planting.
In conjunction with the fall vs. spring planting, experiment trees were also planted in ordinary dug holes and in dynamited holes. This experiment was carried on, of course, in heavy soil. The general size, health and vigor of the trees in the various plantings seemed to indicate that the trees set in holes immediately after dynamiting were for some cause weakened and delayed in growth. This was attributed to the rapid drying out of the soil immediately following dynamiting, which delayed the starting of the trees. To overcome this difficulty the experiment was continued with the addition of trees planted in holes dynamited in the fall and allowed to fill with water and settle over winter.—Hort. Exp. Station, Vineland Station.

The Appeal of the Tree.
Travelers in Portugal report that in many places where timber trees are to be found—in woods, parks, and gardens—one sees the following inscription, headed "To the Wayfarer":
Ye who pass by and would raise your hand against me, harken ere you harm me.
I am the heat of your hearth on the cold winter night, the friendly shade screening you from the summer sun, and my fruits are refreshing draughts, quenching your thirst as you journey on.
I am the beam that holds your house, the board on your table, the bed on which you lie, and the timber that builds your boat.
I am the handle of your hoe, the door of your homestead, the wood of your cradle, and the shell of your coffin.
I am the bread of kindness and the flower of beauty.
Ye who pass by, listen to my prayer; harm me not.

Rainfall Affecting Potato Rot.
Very careful records of the rainfall at the College have been kept by the Department of Agricultural Physics in each of the past sixteen years. In comparing the amount of rainfall during the months of July, August and September with the amount of rot in the potato crop in each of the past sixteen years some interesting information has been obtained. The annual amount of rainfall for the three months referred to for the eight years in which there was no rot was 7.1 inches, for the four years when there was a moderate amount of rot 9.8 inches, and for the four years in which the rot was abundant 11.7 inches. The amount of rainfall, therefore, appears to have a very marked influence in making conditions favorable or unfavorable for the development of rot.—Dept. of Extension, O. A. C., Guelph.
