ITALIAN ELECTIONS IN MARCH. ROME, Jan. 21.—The parliamentary session which was adjourned immediately after the publication of the Giollitti documents, was today declared closed by royal decree. The dissolution and appeal to the electors will take place probably in March.

HENRI IS ALL RIGHT. LONDON, Jan. 21.-Upon receipt of the dispatch from Paris saying that it was rumored there that Henri Rochefort had been murdered, a representative of the United Press sought that gentleman and found him enjoying excellent health. He was greatly amused at the large number of telegrams which had been received at his apartments

asking for confirmation of the report and particulars. He was unable to give any idea as to the origin of the report. BRIGHTER COMMERCIAL PROS-PECTS. LONDON, Jan. 21,-The new year opened very hopefully in London. There

is a general idea that commercial prospects are altogether brighter, and this winter the ranks of the unemployed will be far less in number than they have been for many years. It is surprising with what respect the proposals of Gen. Booth are received by the papers which condemned him so bitterly as late as Among recent subtwo years ago. scriptions received by the Army was a check from Sara Bernhardt.

DRESSED FOR THE OCCASION. LONDON, Jan. 21.-This piece of homely philosophy was uttered by Commissioner Kerr at the City of London Court. He was trying the case of a wife seeking to enforce payment of \$280 due her under a separation deed from her husband, the defendant. The man lived in good style, but pretended that he was only earning \$6 or \$7 a week. He appeared in court in a dilapidated suit of clothes, and it was hinted that he had dressed himself for the occasion, so as to impress the court with his impoverished condition. It was stated that he was usually stylishly attired, and had all the outward marks of a man of means. It was in adjourning the case in order to ascertain the defendant's resources that the commissioner made his speech on the value of appearances.

MAY BREAK UP FOX-HUNTING. LONDON, Jan. 21.-An American inventor is in a fair way to break up the English sport of fox-hunting. In consequence of the rapid increase of barbed and other wire fencing in the Shropshire Hunt country, which has caused a number of serious accidents this season, including one to the first whip, Heywood Lonsdale, the master of the Shropshire hounds, has intimated to the secretaries that he shall decline in future to allow any of the whips or huntsmen in his employ to endanger their lives if the objectionable practice is allowed to continue.

THE JAPS' FORWARD MOVEMENT. United States Secretary Gresham has received two cablegrams from Minister Denby at Pekin, dated today, confirming the report of a Japanese expedition against the great Chinese arsenal of Wei Hai Wei. The first conveys information of a report reaching Pekin that the Japanese had bombarded Ting Chow Foo, 50 miles north of Chee Foo, and had landed forces on the Shantung promontory, 40 miles north of Wei Hai Wei. The latter dispatch, apparently a confirmation of the one received several hours earlier, stated that three ships bombarded Ting Chow Foo, and that the American missionaries had left

COST OF KILLING A WIFE. LONDON, Jan. 21.-The price for killing one's wife has been judicially fixed in England at \$500. At the North London Police Court, before Mr. Lane, Q.C., Arthur Fasnacht, 39, comedian, of Clarence terrace, Haggerston, was charged with causing the death of his wife, by severely beating and otherwise ill-treating her. The evidence that the woman's death had been caused by her husband's blows during a drunken row was conclusive, and Justice Lane asked Inspector Bailey if he had all the necessary witnesses present. Inspector Bailey replied that he had, but he would ask for a remand until the inquest on the deceased had been held.

WALES. LONDON, Jan. 21.-The wil late Czar brings a windfall to the Princess of Wales, and one that will be more than appreciated. He has left to his sister-in-law the sum of \$50, 0, "because I love her," reads the imperial testament. It is unnecessary to add that this little sum of money is acceptable, if only for the fact that it will at \$160,000.

Nine Hundred Dollars Voted to the Directors

Of the London and Port Stanley Railway by the Retiring Members.

Two Hundred to Ex-Mayor Essery-Ex-Ald. Coo Gets. \$300, and the Directors \$50 Each-Initial Meeting of the New Board.

The retiring London and Port Stanley Railway Board was good to itself in its dying hours yesterday. The directors were so good that they divided \$900 among themselves. Last year's board was composed of Mayor Essery, Ald. James Fitzgerald, Judd, Taylor, Shaw, Dreaney, Carrothers, Coo, Messrs. F. A. Fitzgerald and F. E. Leonard.

Messis. F. A. Fitzgerald and Judd were not present at the meeting yester-

During the year Ald. Coo was granted \$1/50 for "extra services" as secretary. Yesterday he was voted \$150 more, making \$300 in all.

Then ex-Mayor Essery, the retiring president, was voted \$200.

Following that the directors get \$50 each, with the exception of Mr. F. A. Fitzgerald, who did not attend regular-Mr. Fitzgerald was only granted The other \$25 was voted to Mr.

Pope, city treasurer. The meeting was a star chamber one. But the new board meeting took place later in the afternoon, and once again reporters were allowed to sit through a meeting of the London and Port Stanley Railway Board. They have not done so for the last couple of years. Some of the old members had no faith in

the publicity of the press.

The motions dealing directly with the matter read as follows:

"Moved by Ald. Taylor, seconded by Ald. Coo, that the board make a grant to the president (Mr. Essery) of \$200 for his services, and that each director who has attended the meetings regularly be paid \$50, and that the secretary be granted \$150 for the past year." Carried.

The next motion was as follows: "Moved by Ald. Shaw, seconded by Ald. Carrothers, that the treasurer be instructed to pay to each director the sum of \$50, except F. A. Fitzgerald, who should be paid \$25; also the sum of \$150 to the secretary and \$200 to the president. Also that the treasurer be paid \$25 for his services.'

The new board met at 4 o'clock in the mayor's office. Ex-Mayor Essery was in the chair, and on motion of Mayor Little he was accorded a retiring vote of thanks. Mayor J. W. Little was then elected president, and Mr. Frank Leonard was re-elected vice-president. Ald. Parnell was elected secretary pro tem without salary.

Ald. Wm. Heaman moved that Parke & Purdom be the board's solicitors. Ald. J. W. Jones seconded. Ald. Carrothers moved that Mr. Ed.

Meredith be reappointed. There was no seconder. Engineer Graydon was appointed resident engineer.

A number of accounts were passed. The question of erecting a new freight house and other buildings in this city was discussed and the matter laid over The annual report was in the late mayor's handwriting. It read:

"Your directors beg leave to report that the M. C. R. operated the London and Port Stanley Railway Company until April 30, 1894, after which the road was taken possession of on May 1, and has been operated since by the L. E. and D. R. R. under their lease. We have received from the M. C. R. the sum of \$1,863 94, after deducting our share of the running expenses and the payment by our company of \$2,742 25 out of the total cost of the interlocking switch built by the M. C. R. under an order issued by the Dominion Government for that purpose, which was paid on the advice of our solicitor. The roadbed has been placed in good repair by the lessees and the new overhead bridges have been rebuilt. A warehouse at Port Stanley and a station and freight shed combined has been erected at St. Thomas on the company's property, under our direction, and the amounts expended are shown in the accounts filed with the

ecretary.
"The lessees have endeavored to keep their passenger service up to the requirements of the lease, and the board have pleasure in making that statement. Your board have prepared plans and specifications for the erection of freight sheds, round house, stand pipe and coal docks as required by the terms of the lease. They have been referred to the incoming board with a recommendation that the same shall be constructed. We have received no rents from the present lessees, as they have expended the amount so far due in improving the railway bed and property, as agreed to by the lease. The treasurer's statement shows a balance of

\$1,192 23." The financial statements showed the receipts to have been \$2,019 63, and the expenses \$827 40, leaving the balance mentioned above.

The disbursements included \$150 to ex-Ald. W. C. Coo for "extra services," and \$438 86 to Ed. Meredith as solicitor. The members present were: J. W. Little, Ald. Wm. Heaman, Ald. J. W. Jones, Ald. O'Meara, John Bland, Moses Masuret, Ald. Carrothers, F. E. Leon-ard, Ald. Parnell and Wm. Bowman.

An Agreement Reached in the Comfort Will Case.

The Young Widow Will Get \$13,500 of the Estate,

And Not \$4,000, as Designated in the Document.

Increased Legacies Given Several Other Heirs.

Mrs. Hindmarsh's Share Will Rea Nearly \$70,000 - The Bequests to Charities Unchanged.

Monday Afternoon.

At this afternoon's session of the dlesex Winter Assizes the long-looked case of Hindmarsh vs. Comfort was reach It is a dispute over a will, involve estate valued at about \$115,000, and p ises to bring many startling statemen light. About the middle of August, Hiram Comfort, an old citizen, died iSt. Thomas. Comfort had acted as ass or, and collector there for abou years, and it was generally unde ood that he was worth about \$25,000. fort was twice married. His secon vife was a Miss McRoberts, of St. Thos, a very attractive lady, respectably con-nected and many years the junior comfort. There were several children Il of them grown up-and the day of Coort's

funeral THE WILL WAS READ. It surprised even the heirs then ives. Maud May Comfort, the widow, was bered with about \$4,000; Mrs. Ell Dyer, a daughter, got \$1,000, and her four a similar amount each. Mrs. Ma Ann Toogood, another married daugh Was bequeathed \$4,000, and each of two children got \$1,000. H. C. Hind sh, a grandson, got \$1,000; W. N. Crs and Percy Cripps, two other grandldren, got \$1,000 each; the Thomas Illiams Home in St. Thomas, \$500; t Amasa Wood Hospital, \$500; the Y. C. A., \$200, and a mortgage in favor of ceased from his brother Frank Cont was ordered to be discharged on prent of \$3,000. Mrs. Hindmarsh was en the balance of the estate, which ants to over \$100,000. This was

THE SURPRISING FEATUR of the will, as it was natural spected that the widow would come for the lion's share. Application to late the will was made, but Mrs. Con would not consent. The suit arose tigh this refusal, and Mrs Comfort has Mr. B. B. Osler to represent her. Shems that Mrs. Hindmarsh exercised undaffuence over her father, and thus gim to fix the will to suit herself.

WHAT MR. WYATT KY Wm. J. Wyatt, of Qu'Apr. North-west Territory, a former Thomas grocer, was the first witness r. Wyatt was an occupant of the stoast of the Southern Loan Company's own Talbot street in 1891, and lived at his store. Comfort lived over the Loompany's building. Wyatt had been d by Mr. J. W. "Well, it can be shown by the reading of those letters," replied Mr. Osler.
"Well, I cannot help that," was Mr.

Ellis' reply. The court then adjourned.

The Case Settled. When Justice Meredith took his seat at 10 o'clock this (Tuesday) morning the lawyers and clients in the dispute over the will of the late Hiram C. Comfort, of St. Thomas, were all present. It was ananounced that an endeavor was being made to settle the case. Judge Meredith hinted that he would be very glad if an agreement could be reached. About 12 o'clock Mr. B. B. Osler, representing the widow, announced

A SETTLEMENT.

By the agreement the will is very much altered. The costs of all parties are to be paid out of the estate, including Surrogate Court and examination fees and the expenses of Mr. Dier (Comfort's son-in-law) in coming from British Columbia. The defendant's funeral and testamentary expenses and all costs are to have first preference. The legacies of \$500 each to the Thomas Williams Home, the Amasa Wood Hospital and \$200 to the St. Thomas Y. M. C. A. are unchanged.

The widow, Maud May Comfort. WILL HAVE \$13,500

over and above all sums given to her by deceased in his lifetime, and she is to bar her dower in all the real estate of Comfort. This is an increase of \$9,500 over what Mrs. Comfort was to receive had the original instructions of the will been carried out.

The tour grandchildren of the deceased-Elmore, Harry, Roy and Aggie Dier-will come in for \$1,000 each, as under the will, while their mother, Ellen Dier, is much better off by the settlement. She will re-

ceive \$9,500 instead of \$1,000. Frederick and Minnie l'oogood, grandchildren, will receive the share originally designated to them-\$1,000 each. Their mother, Mrs. Mary Ann Toogood, who is a daughter of Comfort's, will receive \$7,000 instead of \$4,000. The remaining two grandchildren, Wm. N. Cripps and Percy Cripps, have lost their mother. They will be remembered with \$4,500 each and not \$1,000. All the above sums are to be paid tree of all costs or taxes of any kind.

MRS. HINDMARSH GETS THE REST. The residue of the estate will be paid to Mrs. Hindmarsh. It will amount to about \$70,000. This is a decrease of \$30,000 compared with the old will. The will shall be probated at once.

THE SUFFERERS SHOULD BE DIRECTED TO PAINE'S CELERY COMPOUND.

MRS. DURANT IS CURED

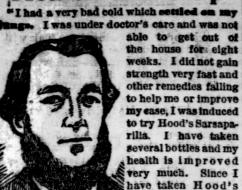

At the present time there are thousands of valuable lives in jeopardy in our country, and men and women are anxiously seeking for help. Many are cruelly suffering and in deep distress. Kidney and liver complaints, heart troubles, dyspepsia, indigestion and rheumatism have brought many to the verge of the grave. Mental anxiety, failures with doctors, and the thought of leaving near and dear ones behind, adds to the weight of agony and physical tortures.

It is the duty of all who know what Paine's Celery Compound has done in the

past to urge every sufferer to give it a trial; it cannot fail; its mission is to cure and Mrs. George Durant, a lady living in Elma, Dundas county, Ont., was cured of liver and kidney troubles after the failure of several physicians. She writes as fol-

"Permit me to record my testimony in lows: favor of your excellent preparation, Paine's Celery Compound. For many years I have been a sufferer from liver and kidney troubles, and have doctored with several physicians, but only found relief for a very short time. My husband advised me to try your Compound. I did so, and found so much relief from the first bottle that I continued, and am now using the third bottle. Your Compound has done more for Q.—I link that he honestly knew me than any physician. For months before using the Compound I never had one night of sound sleep; but now I can go to bed and sleep soundly and naturally, and feel like a new creature in the morning."

An Inexperienced Motorman Kills a Woman-Strikers Prodded With Bayonets.

BROOKLYN, N. Y., Jan. 21.—A woman was run over and killed on the Sumner avenue line by an inexperienced motorman this afternoon. 2:50 p.m.-Shortlyafter noon, at Wyckoff

and Myrtle avenues, a rioter was stabbed with a bayonet by a soldier while the troops were dispersing a crowd. At this hour everything is quiet.

Martin J. Connolly, of the strike com-

mittee, said this afternoon that the prospects of the strikers were brighter today than any day since the beginning of the At 6:15 a mob of over 1,000 men sur-

rounded a Gates avenue car at Nostrand avenue. Sticks and stones were thrown and shots were fired by men in the crowd. After some trouble and fighting, in which three policemen were seriously injured, the mob scattered. Officer Lewis Shackleton sustained a fracture of the skull. Officers Dennis Burke and James L. Coolihan were injured.

SYMPATHY FOR THE STRIKERS. BROOKLYN, Jan. 21.—The board of supervisors of the county of Kings met this afternoon and adopted resolutions expressing sympathy with the strikers and favoring the annulment of the charters of the railroad companies. The common council took similar action this afternoon and instructed the city clerk to at once communicate with the Attorney-General with a view to the commencement of proceedings to annul the charters of the several companies.

NEW YORK'S CRACK SOLDIERS SHOOT. The Seventh Regiment tonight, for the second time fired a volley. At about 8 o'clock the police were called in and the mititia took charge of the various car Palmer placed twenty picked sharpshooters at Howard avenue and Halsey street, where a crowd of about 200 jeered them and threw stones and other missiles. At about 10 o'clock the men fired a volley, presumably into the air. The mob quickly dispersed. Serious trouble is expected.

TALMAGE PRAYS FOR THE UNIONS. NEW YORK, Jan. 21.—The Brooklyn trolley strike was the subject of the opening prayer of Dr. DeWitt Talmage, who preached yesterday afternoon to an im-mense audience in the Academy of Music in this city. Dr. Talmage prayed for the adjustment of the differences existing between employers of labor and their employees. He called upon God to give strength enough to labor unions to counteract the grinding influences of capitalists and corporations, which, he said, were now such that a poor man has not always a place to lay his head. He prayed for a quick settlement of the strike on terms that would prove equitable to all.

The Flying Rollers at Detroit-Their Peculiar Practices--Former Londoners Interviewed.

(From Saturday's Detroit Journal.) Ethel Dawson, tall and handsome, with as pretty a pair of azure blue eyes as ever were framed by the face of a maiden, stood at her mother's side in the "Soul" house at the Israelite camp on Hamblin avenue this forenoor Near by sat her father, Wilberforce Dawson, whose rebellious spirit and independence have caused no end of trouble among the representatives of the chosen 144,000 who live on in their own queer ways, defving the law of man and state. A picture of purity, the young girl stood there and repeated her determination to live as her father and mother thought right and honorable, regardless of the edicts of the church.

"They did not try to put the new rule in force in this house last night," said Mr. Dawson. "They were afraid and dare not. I am here to protect my family and to see that these people stop this practice, and I will do it.

"Last night my daughter occupied our room until the so-called ruler of the household came down and said that the law would not be put in force, and that unless we desired our daughter to room with her mate the matter could rest until a settlement was reached. Addie, our elder daughter, has been warned repeatedly, but she appears to think that her father and mother are mistaken, and, although not now living with the man to whom she was mated, she believes that the rule is all right. I do not believe that these few who claim to be the dictators are following out the laws of our faith in carrying out this sharp practice and trickery, and I do not in-tend to be influenced by the edicts from the lunatics among whom we are

thrown in this religion. "I don't object to the religion, but I do most forcibly object to the methods employed, and if they go much further than they have they may feel the law and know what it is."

Tears stood in the eyes of the mother as she answered the next question of the reporter.
"Mrs. Dawson, you say that in your faith the soul must be tried and the body proven safe against all of the

temptations of the world. You also be-lieved that celibacy could be practiced, and that no wrongful acts are carried on in this settlement. Are you willing to risk your daughter who stands be-"No," replied the mother, "she is yet too young to act for herself, and she

shall not leave our protection, no matter what the church says. If she should make a mistake we would be responsible for her dishonor and not she. With my older daughter it is different, I have talked with her, but it makes no difference. Three weeks ago she was mated by Eliza, and during two nights she roomed with him. In the same room and bed was a woman appointed to act as the mother protector, and the third day, when I heard of it, I insisted on protecting my own child. I did so and passed the night on the bedside in prayer. This match was broken up and has not since been attempted." There are six houses in the colony: The Outer court, Inner court, God house, Soul house, Spirit house and mititia took charge of the various car houses and property of the various traction companies. At the Railway street stables Companies "C" and "K" of the stables Companies "C" and "K" of the Seventh Regiment were stationed. Capt. Seventh Regiment were stationed. Capt. Seventh Regiment were stationed sharpshooters organ in the front room. They were a happy lot of persons, and inter-spersed the hymns with laughter. When asked the cause of the rejoicing, it was explained that the spirits of evil were being driven from the Daw-Near the reporter stood a lad about 17 years old, not at all prepossessing in appearance, and singing as if his life depended upon it. This was Willie Miller, who was disappointed by his chosen mate, Ethel Dawson. Willie was singing to the bad spirits that had taken his Ethel from

him, and he was doing it with all the earnestness of his heart. None of the Israelites appeared to have anything in particular to do, and one of them said they were all minis-ters. When asked where the money came for supporting the colony it was explained that the 36 traveling preach-ers who are raising the 144,000 to be saved sent in contributions every week. This foots up to a liberal amount every week, and then the new converts are supposed to turn into the common treasury all their earthly possessions for common use. Mrs. Dawson explained that it was not possible for them to leave if they so desired, as they had invested all their money in the plant, and they must stay until they could get a start. The settlement now contains 60 disciples of the Flying Roll, and most of them seem satisfied to live in their odd way, and are happy.

WHAT A REAL BLIZZARD IS LIKE A Different Affair to the Show Flurries Made Comic by That Name

in the East. "Your use of the word 'blizzard' here in Chicago is amusing to me," said J. W. Elkins, of Minnesota. "Now there is nothing unusual in this weather. It's cold, to be sure, and it's windy, and there is some snow-the three elements which go to make up the genuine blizzard, but in so modified a form as to make the use of the

word entirely out of place.
"A brizzard," continued Mr. Elkins, as his face became serious with the recollec tions the theme brought to mind, "a blizzard is something which the man who has been out in one will never forget, and it impresses one with the awful power of nature as the slow-moving funnel-shaped cyclone does, and one who knows these dreadful winter storms would no sconer ncounter them than he would a cyclone.

"I was up on the Northern Pacific in the early days of March, 1882. The winter had been remarkable for its openness, and the whole Northwest had been bathed in sunshine for months. Some cold weather had been experienced, but the old settlers were congratulating themselves upon their comparative immunity from extreme weather, when Friday, March 3, I think it was, just about noon, the wind swung into the north and northwest, and one of the most dreadful storms that ever swept the Western prairies came howling and shrick-

ing down upon the unsuspecting folk. "The wind blew a gale fully 60 miles an hour, the snow filled the air like a fog and obscured all objects as a curtain would do and the mercury dropped out of sight, the spirit thermometers registering 45 degrees below zero. It was impossible to live in the storm. A young telegraph operator had taken charge of the Northern Pacific station at Jamestown that very day. In the early evening he started down the principal street to deliver a message to the Roman Catholic priest. A man stepped out on the street for a moment, and through the shrieking of the storm he heard a call for help, and, following the direction of the sound, came to the young snow not twenty feet away. I helped restore the young fellow, but he was dreadfully frozen, and it was long before he recovered. "That was only one incident, but it

illustrates how completely at its mercy the blizzard holds its victims, even in the thoroughfares of towns of considerable size. Out upon the prairies the effects are infinitely worse. How many a poor devil, caught out in one of them, has traveled round and round in a circle until, overcome with exhaustion and exposure, he has sunk down in the dry snow to his death! In the storm of which I speak I recall that one mother at Sunborn, a few miles east of Jameston, went out that day to feed the stock in the barn, taking with her a small child. The distance from the house was but a few hundred feet, but when the storm was over and the sun shone forth again mother and child were found, the latter clasped close in his mother's last embrace a few feet from the sheltering barn. They had wandered, perhaps, for hours, with the stinging snow in their faces, every flake like a needle prick, blinding them and hiding from view the warm places of shelter so near at hand. "I see by your papers that Nebraska has had just such a visitation as this. You will never know what it means till you experience a real blizzard, and after you have had that experience you will never again refer to a little storm like this as a blizzard."-[Chicago Times.

BILLIARDS.

SCHAEFER AND IVES. CINCINNATI, Ohio, Jan. 22 .- Schaefer and Ives, billiard experts, played yesterday afternoon and evening to standing room on y at Francis' billiard hall. The afternoon game was 300 points balkline on a 5x10 table and was won by Schaefer. The evening game, 400 points balkline, 5x10 table, was easily won by Ives. CLOTSHOT.

HOW THE GAME IS PLAYED. Two players on each side have to play alternately with one ball. One village has ball No. 1 and the other ball No. 2. These balls are 2½ inches in diameter, and in weight are 1½ pounds. The material is of hardwood root, and lead is poured into six holes, of which every two face each other. This lead makes the ball a firstrate missile, and the smooth surface of the hardwood lets it quit the fingers easily when the throw is made. Now what is the object of this throwing? It is simply to get as tar as possible down the appointed course. You have to walk for an hour at least and back again. He who can cover

the distance with fewest throws wins.

I would like to see a good English cricket ball thrower contend at this game with these Germans. In each case a map who can throw 100 yards is a very good thrower. The Germans, in throwing, go through an amount of acrobatic contortion and leaping that I have never seen practiced at baseball or cricket ball throwing. But the Germans are very accurate. One great point with them is to cast the missile so that it shall continue after touching the ground to go on. The ball, therefore, should be thrown as low as possible, so that it may have force to hound and roll onward when it alights .- [Good

GREAT LIBERAL MEETING IN MONTREAL. MONTREAL, Jan. 21.—The Hon. Mr. Laurier arrived in town last night and registered at the Windsor. Sir Oliver Mowat and Mr. Patterson are expected today. THE APPROACHING ELECTION. (United Press Dispatch.)

There was a great deal of talk about the approaching election today in Mon-treal, but the best information states that nothing has yet been de-cided. It is understood that the French members of the Cabinet are anxious to defer the elections as long as possible in order to give them time to organize the Quebec district. At the last general elec-tions, it will be remembered, the Conservatives only secured four seats out of 21 in the district of Quebec.

MALAHIDE LIBERALS. The annual meeting of the Malahide branch of the Reform Association was held in the town hall, Aylmer, on Saturday, when the following officers were elected: President, R. Locker; vice-president, Samuel Slatey; secretary-treasurer, Omer L. Westover. Committees were appointed in each ward.

THE CONTEST IN ANTIGONISH. The candidates for Antigonish are: Hon. C. F. McIsaac, Liberal, and Mr. J. H. Chisholm, Conservative. That the latter is regarded in the light of a ferlorn hope is pretty clearly indicated by the following dispatch sent from the Tory headquarters here to the St. John Sun when Mr. McIsaac

was nominated by the Liberals: "The Liberal convention in Antigonish today nominated Hon. Colin McIsaac as the Opposition candidate for the seat in Parliament made vacant by the death of Sir John Thompson. Antigonish is a strong Liberal constituency, but Sir John Thompson's personality and his influence as a member of the Government enabled him to secure election there. Mr. Mc-Isaac, the candidate of the Liberals, is a strong local man, has been elected to the Provincial Parliament several times, being returned at the last election by some 500 majority, is now a member of the Nova Scotia Government, and his party are confident of electing him to the Federal Parliament."

This sounds very much like getting ready for a defeat on the part of the Conservatives.

Buffalo Barley Market.

Buffalo N. Y., Jan. 21.—Barley—There has been a marked decrease in the visible supply of barley during the past week. Stocks in sight, afloat and stored aggregate 2,316,040 bu. as against 2,624,000 bu last week and 2,194,000 bu a year age. The quantity taken out for consumption is much greater than during the season of last year to this date. Stocks in store here are 1,129,362 bu. as against 1,363,084 bu a week ago and 900,000 bu a year ago. Decreased stocks are reported from Milwaukee, Detroit and Minnearolis. and at no point is an increase shown. The market is quiet. Cheap barley is scarce, and what little call there was it was for that class. The lowest effering was at 58 1-c, a small lot. Sellers are asking old figures. ORDERED TO FIRE.

erious Situation in Brooklyn - Troops Will Shoot at Rioting Strikers-A Disturbance.

BROOKLYN, Jan. 22.—The troops have now been ordered to fire upon any person seen throwing a missile or shooting at them. The sharpshooters have been detailed to pick off people on housetops and in windows who throw or shoot from their sheltered locations at the troops, police or cars operated by non-union men.

The mobs do not yet appear to realize these facts. The citizens of Brooklyn do not heed the proclamation of the mayor warning them to avoid the crowds and refrain from assembling in the streets. Apparently there must be serious slaughter before peace can be restored.

The mobs which caused trouble yesterday and last night did not assemble today. There were disturbances, however. Wires were cut and cars interfered with at points away from the stations of the troops. No end of the strike is in sight. The day for a compromise is passed; arbitration is no longer thought of. Linemen refused to repair cut wires today, giving the companies more trouble. general resumption of the operation of the cars has followed the arrival of the troops, and the companies have made but a poor showing in spite of their boast of plenty of

The first disturbance of the morning was in the vicinity of the Fifty eighth street and Third avenue stables. The strikers made an attack on a wagon containing a fireman and conductor on its way to the stables. The howling mob followed yelling, jeering and throwing missiles at the men. By the time the wagon reached the stables a mob of nearly 1,000 had gathered, and the situation looked threatening. At this point the official in command of troops ordered a charge and the streets were cleared. During the charge a shot was fired but no one was hit.

Peace in the kitchen means joy all over the house. There is peace in every kitchen where Dr. Price's Cream Baking Powder is sed.

SOME FRESH ANECDOTES. All Told Without an Undue Waste of Words.

A very ignorant and wealthy woman, who was fond of talking about her "art gallery," one day met at the house of an acquaintance a lady who had not called on her, although they lived in the same "Come and see me, do!" said Mrs. B—, the patron of art, as the other lady was taking her leave. "Thank you very much," was the non-committal reply. "We've got a new picture, too. That ought to tempt you to come, if I can't."
"I should be very glad, indeed, to see it." "Such a lovely picture! Sometimes it seems to me I could look at it all day "What is the subject of your piclong." ture, Mrs. B-?" inquired the hostess. "Jupiter and ten," was the reply. It was "Jubiter and Io."

He Had Written Many Falsehoods. A member of the Chamber of Deputies, much given to long speeches, one day found another deputy conversing in the lobby with a man whose face seemed familiar to him, but whom he could not remember. He fancied the man must be an intruding journalist. "Pardon me," he said to the other man, "but whom have we here?" "Allow me to introduce to you," answered the deputy, "the man who has written more falsehoods and stupidities than any other man living." "Indeed!" said the great man; "then my supposition was correct that he is a journalist?" "Not at all; he is the official stenographer of the Chamber.

A Frenchman's Story. Some Frenchmen were boasting of their 'affairs of honor," when one of them, a Marseillais, declared that he had inflicted upon an antagonist the most dreadful fate that a duelist had ever met. "How was it?" asked everybody. "I was at a hotel, and I chanced to insult a total stranger. It turned out that he was a dancing mast er. 'One or the other of us,' he declared in fearful wrath, 'will not go out of this room alive!' 'So let it be,' I shouted in response; and then I rushed out of the room, locked the door behind me, and left him there to die!"

The Way to Millbank.

A Canadian, traveling in England, on one occasion happened to be in the neighborhood of Millbank Prison, and fancied that he would take a glimpse at that famous place of detention. "Can you tell me the way to Millbank?" he asked of a stout tradesman whom he met. "Aye," answered John Bull; "knock medown and rob me pockets, and you'll soon enough be on the straight road there!" Then, without vouchsafing any further information, he passed on with a chuckle,

Baked Eagles. "John Phœnix" (Lieutenant Darby) was standing on Montgomery street one day, a way back in the '50's (writes a Los Angelos reader of the Argonaut), when a delivery wagon, labeled "Eagle Bakery," came along. Phoenix hailed the driver, and, going up to the wagon, said: "Give me one." "One of what?" said thedriver. "One of those," replied Phoenix. "Those what?" said the driver. "Why one of your baked eagles." It is old, but good.

The T. E. Mara Company (Limited) have decided to offer the same list of bargains as advertised by them in our issues of Saturday and Monday on Wednesday. This will enable all their customers to take advantage of these special bargains—an advantage which they were prevented from taking on last Monday owing to the disagreeable

weather. Although they had a fairly good crowd in their stores all day Monday, the Mara Company inform us that owing to the low price at which the goods were sold there was but little profit left for them, as they build upon selling a large quantity. Hence, it is to be hoped the people will take this opportunity on Wednesday.

The great lung healer is found in the excellent medicine sold as Bickle's Anti-Consumptive Syrup. It soothes and di-minishes the sensibility of the membrane of the throat and air passages, and is a sovereign remedy for all coughs, colds, hoarseness, etc. It has cured many when supposed to be far ad-

vanced in consumption. THE Maharajah of Mysore, who has just died of diphtheria at 30, was the most progressive of the Indian native princes. Under his rule Mysore was fully abreast of British India in the administration of justice, the protection of property, and in public works, while in some things, like the education of women and the development of the natural resources of the country it was far ahead of it. The Maharajah was the first Hindo prince to establish a school for girls in India.

The funeral of the late David Johnston, whose death occurred on Wednesday last, took place from the family residence on Friday afternoon, and was very largely attended. A NEW ERA

In the History of Medical Practice Inaugurated by a Recent Cure of Bright's Disease.

MONTREAL, Jan. 22.-Although some weeks have elapsed since the first dispatch concerning Dr. A. G. McCormack, of Richmond was sent out from this city, the public luterest in the man and his recovery from Bright's disease has not abated. Doctors have investigated the report of this wonderful cure, and have satisfied themselves of its truth. As a prominent physician remarked to your correspondent today: "Dr. McCormack's case marks a new era in medical practice, and Dodd's Kidney Pills, which cured him, cannot fail to secure wide recognition from the medical profession." Lecal druggists report a heavy sale of these pills throughout the city since this cure was first reported.

The Mississippi Disaster-18 Lives Lost. TELL CITY, Ind., Jan. 21 .- Later and complete reports from Wolf Creek regarding the loss of life by the sinking of the steamer State of Missouri place the loss of life at eighteen. This includes the cabin crew, the carpenter, one passenger from Pittsburg ar 1 one from Barefield. The five lady passengers were saved. Five roustabout. were lost.

The Extent of the Grand Gospel Campaign.

Dr. Talmage Discourses on the "Points of the Compass."

NEW YORK, Jan. 20.—The subject of Dr. Talmage's discourse to-day was, "Points of Compass," and the text, Luke xiii., 29: "They shall come from the east and from the west and from the north, and from the south, and shall sit down." The man who wrote this was at one time a practising physician; at another time a talented painter; at another a powerful preacher; at another a reporter —an inspired reporter. God bless, and help, and inspire all reporters! From their pen drops the health or poison of nations. The name of this reporter was Lucanus; for short he was called Luke; and in my text he reports verbatim a sermon of Christ, which in one paragraph bowls the round world into the light of the millennium. Nothing more interested me in my recent journey around the world than to see the ship captain about noon, looking through a nautical instrument to find just where we were sailing; and though the captain tells you there are thirty-two points of division of the compass card, there are only four cardinal points, and my text hails them, the north, the south, the east, the west. So I spread out before us the map of the world to see the extent of the Gospel campaign.

The hardest part of the field to be taken is the north because our Gospel is

taken is the north, because our Gospel is an emotional Gospel, and the nations of the far north are a cold-blooded race. But already the huts of the Arctic hear the songs of Divine worship. Already the warmth of the Sun of Righteousness begins to be felt through the bodies, and minds, and souls of the Hyperboreans. From Zembla, from Spitzbergen Seas, from the Land of the Midnight Sun, Christ's disciples are coming from the north. The inhabitants of Hudson's Bay are gathering to the Cross. The Church Missionary Society in those polar climes has been grandly successful in establishing 24 Gospel stations, and over 12,000 natives have believed and been haptized. The Moravians and been baptized. The Moravians have kindled the light of the Gospel all up and down Labrador. The Danish Mission has gathered disciples from among the shivering inhabitants of Greenland. William Duncan preaches the Gospel up in the chill latitudes of Columbia, delivering one sermon nine times in the same day to as many different tribes, who listen, and then go forth to build school houses and churches. Alaska is hearing the voice of God through the American missionaries, men and women as deflant of Arctic hardships as the old Scottish chief who, when camping out in a winter's night, knocked from under his son's head a pillow of snow, saying that such indulgence in luxury would weaken and

disgrace the clan Scientists have never been able to agree as to what is the Aurora Borealis or Northern Lights. I can tell them. It is the banner of victory for Christ spread out in the northern night heavens. Partially fulfilled already is the prophecy of my text, to be complete-ly fulfilled in the near future: "They

shall come from the north." But my text takes in the opposite of the compass. The far south has through high temperature tempta-tions to lethargy, and indolence, and hot blood, which tend toward multiform evil. It means Africa, which David Livingstone consecrated to God when he died on his knees in his tent of ex-ploration. Already about 750,000 converts to Christianity in Africa. south! That means all the islands strewn by Omnipotent hand through seas. Java for God: Sumatra for God; Borneo for God; Siam for God. But I must not forget that my text takes in another cardinal point of the compass. It takes in the east. I have to report that in a journey around the world there is nothing so much im-presses one as the fact that the missionaries, divinely blessed, are taking the world for God. The horrible war between Japan and China will leave the last wall of opposition flat in the dust. When Misionary Carey put before an assembly of ministers at Northampton, England, his project for the evangelization of India they laughed him out of the house. From Calcutta, on the east of India, to Bombay on the west, there is not a neighborhood but directly feels the gospel power. About 3,000,000 of Christian souls in India are the advance guard that will lead on the 250,000,000. The Christians of Amoy, and Pekin, and Canton are the advance guard that will lead the 340,000,000 of China. "They shall come from the east," and the

Christ who came from the east will yet bring all the east with him. There is another point of the compass that my text includes: "They shall come from the west." That means America redeemed. Everything be-tween Atlantic and Pacific Oceans to be brought within the circle of holiness and rapture. Will it be done by worldly re-form, or evangelism? Will it be law, or gospel? The gospel is the only power that can revolutionize society and save the world. All else is half and half work, and will not last. But what nothing else in the universe can do, the gospel can and will accomplish. "They shall come from the west," and for that purpose the evangelist batteries are planted all along the Pacific coast, as they are planted all along the Atlantic coast. All the prairies, all the mountains, all the valleys, all the cities, are under more or less gospel influence, and when we get enough faith and consecration for the work this whole Ameri-

can continent will cry out for God.

"They shall come from the west." But what will they do after they come? Here is something gloriously consolatory: "They shall come from the east, and the west, and the north, and the south, and shall sit down." Oh. this is a tired world! But my text suggests a restful posture for all God's children, for all those who for a lifetime have been on the run. "They shall sit down!" Why run any longer? When a man gets heaven, what more can he get? "They shall sit down." Not alone, but in picked companionship of the uni-Not embarrassed, though seraph should sit down on one side of you and an archangel on the other. I notice that most of the styles of toil require an erect attitude. There are the thousands of girls behind counters, many such persons through the inhumanity of employers compelled to stand, even when because of lack of customers there is no need that they stand. Then there are all the carpen ters, and the stonemasons, and the blacksmiths, and the farmers, and the engineers, and the ticket agents, and the conductors. In most trades, in most occupations they must stand. But ahead of all those who love and serve the Lord is a resting place. "They shall sit down." Rest from toil; rest from pain; rest from persecution; rest from uncertainty. Beautiful, joyous, trans-porting, everlasting rest! Oh, men and women of the frozen north, and the blooming south, and from the realms of the rising and setting sun, through Christ get your sins forgiven and start for the place where you may at last sit down in blissful recovery from the fatigues of earth, while there roll over

you raptures of heaven. Many of you have had such a rough tussle in this world that if your faculties were not

perfect in heaven you would sometimes forget yourself and say: "It is time for me to start on that journey;" or "It must be time for me to count out the drops of that medicine;" or "I wonder what new attack there is no me through what new attack there is on me through what new attack there is on me through the newspapers?" or "Do you think I will save any of those crops from the grasshoppers, or the locusts, or the drought?" or "I wonder how much I lost in that last bargain?" or "I must hurry, lest I miss the train." No, no. The last volume of direful, earthly ex-periences will be finished. Yea, the last chapter, the last paragraph, the last chapter, the last paragraph, the last sentence, the last word. Finis!

Frederick the Great, notwithstanding the mighty dominion over which he reigned, was so depressed at times he could not speak without crying, and carried a small bottle of quick poison with which to end his misery when he could stand it no longer. But I give you this small vial of gospel anodyne, one drop of which, not hurting either body or soul, ought to soothe all unrest and put your pulses into an eternal calm. "They shall come from the east, and from the west, and from the north, and the south, and shall sit down."

A WOMAN'S HEART.

One Disease That Baftles the Physician.

The Story of a Woman Who Suffered for Nine Years-How She Was Cured.

(From the Newark News.) Valvular disease of the heart has al-Valvular disease of the heart has al-ways been considered incurable. The following interview, therefore, will in-terest the medical profession, since it describes the successful use of a new treatment for the disease. The patient is Mrs. George Archer, of Clifton, N. J., All physicians consulted pronounced the patient suffering with valvular disease of the heart, and treated her without the slightest relief. Mrs, Archer said: "I could not walk across the floor, neither could I go upstairs without stop-ping to let the pain in my chest and left arm cease. I felt an awful constriction about my arms and chest as though I were tied with ropes. Then there was a terrible noise in my right ear like the labored breathing of some great animal.

I have often turned expecting to see some creature at my side.

"Last July," continued Mrs. Archer,
"I was at Springfield, Mass., visiting, and my mother showed me an account in the Springfield Examiner telling of the wonderful cures effected by the use of Dr. Williams' Pink Pills for Pale People. My mother urged me to try the pills, and on Nov. 25 last I bought a box and began taking them, and I have taken them ever since, except for a short interval. After beginning on the second box, to my wonder, the noise in my ear ceased entirely. I kept right on, and the distress that I used to feel in my chest and arms gradually disappeared. The blood has returned to my face, lips and ears, which were entirely devoid of color, and I feel well and strong again.

"My son, too, had been troubled with gastritis, and I induced him to try the Pink Pills, with great benefit. I fee that everybody ought to know of my

The Motorman Was Dead.

ST. Louis, Mo., Jan. 21 .- John Moser, conductor of an electric train on the Lindell street railway, rang a warning bell to his motorman to stop at a crossing near the tracks of the Wabash Railway in Forest Park boulevard. The car dashed on at increasing speed. The conductor investigated and found Motorman John M. Monroe hanging over the front gate with his skull crushed and dead. He had reached 25 Pounds Montreal Granulated Sugar over the side to look for an approaching train and was struck by one of the iron posts set between the tracks to support the trolley wires.

ONCE MORE, AND THEN FAIR PLAY FOR ALL.

Every Liberal whose vote is appealed against by the Conservative agents, should attend the Court of Revision at the Court House as soon as possible this week, and report to the Liberal counselor, or to Mr. Hyman, M.P.

It is a shameful thing that so many electors who have a perfect right to vote should be put to the trouble of defending themselves against unwarranted attacks, but the end draws near, when there will be a change at Ottawa, and the first measure to go will be this inequitable, vexatious,

To make more certain that London shall roll up a majority in favor of a fair franchise act, we ask all our friends who are appealed against to strain a point to attend the court and defend their manhood's freedom, believing as we do that the present will be the last occasion upon which they will be called upon so to do.

It certainly is a most objectionable thing for a Government to call upon the workers in the sommunity to either reveal all their private financial affairs, to show how they make a living, and where they get this dollar and that dollar which they have honestly earned. Yet hundreds of young men, aye, and veteran rkers, too, have to go before the court, and be quizzed regarding these purely domestic affairs before their right to a vote is secured. While this is the treatment of wage-earners, the dude-he may be a worthless fellow-gets a vote without question if his father is rich enough to own property ! Is that equal rights ?

How much better, fairer, more expeditious is the Ontario Registration Act? There the Man is regarded as the voter, not the Money. Under the Ontario Act, no elector is badgered about his earnings or about his washing bill. It is sufficient that the applicant is a man who is selfsupporting and a citizen of the country.

We will have a similar system in force at Ottawa, so soon as a change of Government him \$12,000 a year, but which he doesn't use, because he has returned to Europe to takes place. To aid in bringing about that change, which will be beneficial to Liberal people, are not happy .- [Buffalo Times. and Conservative alike, let every man TO REV. T. FENWICK, GREETING. appealed against promptly attend, and demand his rights. He may not get them -the act is drawn to deprive of voting power the man who has been unfortunate in not obtaining work during the year, or who has been sick-but it is the patriot's duty to make the attempt. The bogus vote must not again be allowed to overturn the werdict of the people.

-The cable announces that the new year has opened hopefully in Great Britain, that the commercial prospects are ther brighter. It is in the land where trade freedom is the rule that the first ret in the cloud of commercial depression is generally witnessed.

LOWERED INTEREST IN THE OLD THE RICHEST AND THE POOREST.

WORLD. In France, an important issue projected this month is a city of Paris loan of \$40,000,000 bearing 21 per cent interest. In April last a loan for a like amount and also carrying 21 per cent interest, was issued at a price that yielded just under 3 per cent. It was applied for no less than 10 times over, the application money alone amounting to upward of \$200,000,000. This is a great change from fifteen or twenty years ago, when the interest charge on borrowed money for similar purposes was nearly as much again. The same holds good of recent loans effected in Great Britain. Everywhere, money can be borrowed at a rate of interest enormously under what it was a few years ago. But no old country authority holds, as has been contended in Canada, that the Government of the day should be credited with the fall in the interest rate. The attempt of the Dominion Government to make believe that it has reduced the interest rate, and that the people should be grateful that it only costs dian dairy industry has been due entirely them ten millions of dollars a year for to the individual and co-operative energies interest, is only laugued at by British of those engaged in it and to the deterfluanciers. The Canadian people should have the benefit of the fall in interest, but they have not. They have to pay interest on a public debt which has been increased over \$100,000,000 in the last few years, not ance they have received from the Legislaa little of the money so borrowed being ture of the Province; but they have found equandered on favorites.

THE COMING ELECTIONS. No announcement of the meeting of Parliament has yet been made. This is a

This evening's session began at 7:30 and lasted till after 11. No time was wasted except in a few ineffective arguments against Liberal voters by Richard Margraves Chinnery Toothe, the Conservative counsel. Tuesday Morning. The work of revising the Dominion voters' list went wearily on today before
Judge Edward Elliott. The room was
crowded to the doors, and would-be voters had to stand in a row while each party alternated with a case. The results so generally admitted, knews as much about far have been gratifying to the Liberals, and they look for big gains during the week. The cases this morning were mostly of a humdrum character, and no startling decisions were made. That of Harry Boyd a Conservative, to whom the Liberals objected, was rather peculiar. He is a car riage trimmet, who had been out of work since last August, and among the odd wages since that time he included \$20 which he had received from the Conservative party for aiding in the revision.

"And did they pay you the money?" asked Mr. McKillop. "Yes," answered the witness. The objection was dismissed as the \$20 made Boyd's earnings for the year \$313. ASSESSMENT ROLL NOT FINAL. In a case of an owner's son seeking

final, you know." Peter Taff, a Conservative, applied to

"Yes, you did." "Well, I will kiss it again. (A loud smack). There, does that suit you?" Laughter.) A REGULAR THING.

Old John Lewis, a colored man, who has been appealed against regularly by Conservatives since he came to this country, took the stand. "Are you a British subject?" asked Mr.

Toothe. "I am," answered Mr. Lewis, "though was born in the State of Virginia." "When did you come to this country?" "In 1891."

"Have you got your naturalization "I think so."

It is well known that the present age is developing many troubles of the degestive system which our fathers with their plain and wholesome diet never dreamed of. The necessity of the age has produced an invention in Eseljay's Liver Lozenges that certainly surpasses all other medical discoveries for these complaints. They are sold at 25 cents a box, or five boxes for \$1. Those troubled with chronic indigestion, dyspepsia, constipation, pimples, etc., should buy them by the dollar's worth.

She and her companion, an older lady, exchanged a word or two, but it was French, spoken with the purest of accents. So if Roderick had had any hope of finding a country-woman it

faded out at once.

Faded—as the lovely vision of the Jung-frau and Fensterhorn already had begun to fade. Yet still the little group stood silently gazing, in a common sympathy. Roderick never looked even at his young neighbor, until, suddenly turning, their eyes met. Both were full of tears:

Reynier in his search for Archibald Jardine—in whom, it must be confessed, his own interest was fast dying out. Anything tedious, or

dull, or unpleasant, was so new to him. He did not appreciate it at all.

The train being late, he had only just time to dart out and fly to his hotel to dress for

the evening. He had a fine face and a graceful figure: a bearing that was every inch a gentleman— and manners—well, he could not have said a harsh or discourteous word to a woman any women, high or low, ugly or pretty, young or old—for his life! Thus he appeared as he entered the salon of M. le Professeur Reynier.

It was very dimly lighted; with shaded lamps, so that at first Roderick distinguised lamps, so that at first Koderick distinguised nothing; then he became aware of a gray-haired gentleman, a matronly lady, and a cloud of young people of different ages, down to quite small children; of a courteous and kindly reception, and of passing into a salle-a-manger, where was laid out a simple but abundant meal, corresponding to the 'hungry tea' of Scotch habit. Everything indeed was extremely simple—but so pretty indeed was extremely simple—but so pretty from the shiny parquet floor to the tastefully decorated table, with its dainty china, flowers and fruit. One missed a little the bright English fire; and the stove gave a certain coseness to the room-a sense of warm darkness, which, however, was not unpleasant; there was a sort of mystery about it, and youth likes mystery, Roderick glanced round him at the party, evidently It was an odd thing, a very odd thing; but

And when, re-entering the salon, he found a few other guests, scarcely visible in the dim light, and was introduced expressly to a Mess Somebody from Edimbourg, who responded, with painful blushes, in the broadest of Scotch accents, he heartily wished his own country-people were—well, that they were all safe at home!

"And here, monsieur." continued his host, leading him up to another lady, middle-aged—"here is one of our bestfriends though but newly settled near us, who I doubt not will have the pleasure of conversing with you in your own tengue—Monsieur Ardon—Madame—"

Some cowardly miscreant entered the residence and office of W. C. Holland, publisher of Farm, Orchard and Garden, Ingersoll, during his absence, de-stroying a quantity of material and emptying the contents of the type cases upon the floor.

Health Officer Coventry, of Windsor, has completed his annual report. It shows a total of 83 deaths for the six months ending Dec. 31, 1894. The death rate was 14.47 per thousand. Dr. Coventry says the large number of deaths from consumption is notable.

Wm. Fewster, with several aliases, was arrested at Chatham on Saturday with a stolen horse in his possession which he had taken from James Gillet, a farmer near Rondeau. The owner of the animal, a valuable one, identified the property, and Fewster was handed over to the chief of police of Blenheim.

The efficiency of the fire brigade at the Agricultural College, Guelph, pre-vented a serious conflagration on Saturday. The engine house, situated near the large barn, caught fire from the ash box. The college brigade turned out promptly, and soon had the fire under control. One end of the building is badly scorched, but the damage is not serious. The wind at the time was blowing in the direction of the barn, and had the fire got any headway it would have been

difficult to save that structure. Henry Ellerbeck, of Chatham township was shot in the leg one Saturday night last fall by a man in a buggy, of whom Ellerbeck was asking for a ride.

As a result of the wound he lost a leg. Charles Bevins was in the sessions of December last tried for wilfully shoot. December last tried for wilfully shooting Ellerbeck, but the grand jury threw out the indictment. Mr. Ellerbeck, through his solicitor, Mr. Wm. Douglas, Q.C., has issued a writ for \$5,000 against Bevan. Bevan is a wellto-do farmer, who earlier on the night in question had been robbed on the highway. He was returning home after reporting the robbery to the city police, and Ellerbeck asked him for a ride. Bevan, fearing another "hold up," pulled a revolver and shot at the man who accosted him, and then drove ahead at a gallop.

Jan. 21.—There was no hope for Mrs. Andrews' recovery after her third stroke of paralysis, and she peacefully passed away on Saturday night. Rev. A Mother Writes About Lactated Food.

In the city of Ottawa there was recently added another convert to the great army of mothers who believe that Lactated Food is the best in the world for babies that can-not be breast fed. The lady, who lives on Wellington street, writes as follows:

"When my baby was born, seven months ago, I found myself unable to nurse it, and was in a quandary as to how it should be fed. One of my most intimate friends suggested a food of which neither of us knew anything. This food was used for nearly a month, but my baby did not seem to relish it or to gain strength

"I fortunately read an article in one of our daily papers about Lactated Food and quickly decided to give it a trial. I bought a tin from my druggist and commerced to feed baby regularly. She quickly improved and slept more naturally. Since then Lactated Food has been been colly dist, and today there. her only diet, and today there is not a finer looking baby girl of her age in the city. This food, I am sure, was the means of saving her life. I can strongly recommend Lactated Food to every mother after my happy experience with it.

Than any other house in this city. Being first in everything, we were the first to adopt the system of "Cash Transactions," which some false prophets predicted would not be practical in a city the size of London, but they have now been forced to change their minds. We sell for cash and buy for cash, which, owing to abundance of capital, we are able to do. Thus the people can see that we are in a position to buy at very close prices and also sell the goods to them at a very small margin of profit, a fact which we believe they have long since recognized. We were also the first in this city to inaugurate the system of shopping by mail, a system which many hundreds of customers throughout Western Ontario and the Northwest take advantage of. And we were the first store in this city to institute a "Cash Jobbing Department." This is a department, which, although it is scarcely a year since it was started, has gone ahead with leaps and bounds. Our jobbing connection extends all through this part of the country. All country merchants and storekeepers would be amply repaid by heaving this in mind, and if they already as the country is mind, and if they already as the country is mind, and if they already as the country is mind, and if they already as the country is mind, and if they already as the country is mind. by bearing this in mind, and if they already are "not in the ring" would do well to "get in," and the next time they are out of any line to either call in person or drop us a card.
