# ENEMY IN RETREAT EVERYWHERE, SAYS FRENCH COMMANDER

"Victory is Confirmed as More and More Complete"-The Armies Executing a Pursuit Unexampled for Its Extent-The German Line of Communication Cut.

[Canadian Press.] LONDON, Sept. 13.—9:50 p.m.—A Bordeaux dispatch to Lloyd's Weekly News says the line of communication used by the Germans has been cut and they cannot make use of the line east of the Argonne forest, owing to the rapid advance of the allies on the centre and the right. They must, therefore, try the line through the Meuse Valley and Luxemburg. ENEMY EVERYWHERE IN RETREAT.

BORDEAUX, Sept. 13.-4:30 p.m.-The Minister of War, Alexandre Millerand, today communicated to the Cabinet the following telegram which he had received from Gen. Joffre, commander-in-chief of the French forces:

"Our victory is confirmed as more and more complete. Everywhere the enemy is in retreat. Everywhere the Germans are abandoning prisoners, wounded and munitions of war.

"After heroic efforts on the part of our troops during this formidable struggle, which lasted from Sept. 5 to Sept. 13, all our arms are flushed by success and executing a pursuit unexampled for its extent. "On our left we have crossed the Aisne below Sois-

sons, thus gaining 100 kilometres (about 65 miles) in six days' fighting. "Our armies of the centre are already north of Marne, while those of Lorraine and the Vosges are arriving on the frontier. The morale, endurance and ardor of our

troops and those of our allies are admirable. The pursuit will be continued with all our energy. The Government of the republic may well be proud of the army which it has equipped.

(Signed) "Joffre.".

# GEN. JOFFRE DECLARES IT AN UNDENIABLE VICTORY

[Canadian Press.] PARIS, Sept. 13-3:16 a.m.-General Gallieni, military governor of Paris, oday received the following message from General Joffre, com-

mander-in-chief of the French army:

"The battle of the last five days has ended in an undeniable victory. The retreat of the first, second and third German armies is hastening before our left and at our centre, in turn, the fourth German army is commencing to fall back to the north from Vitry-le-Francois and from the Sermaize-les-Bains (in the province of Marne, 17 miles east of Vitry-

"Moreover, the enemy has left upon the battlefield many wounded and quantities of munitions of war. Also in gaining ground we have made many prisoners. Our troops show evidences of the intensity of the struggle and the extraordinary efforts made by the Germans in their attempt to resist our vehemence. "Our vigorous taking of the offensive has been determined and every

officer and soldier has responded to my call.

LEFT WING CROSSES THE AISNE.

The following official statement was issued tonight 'No report has been received tonight from general headquarters. The statements published yesterday and this afternoon have depicted with what vigor our troops are pursuing the Germans in their retreat. "It is natural that under these circumstances, general headquarters cannot send twice a day particulars concerning incidents of this pursuit.

"All we know is that the forward march of the allied armies continues all along the front and that we are in contact with the enemy. "On our left wing we have crossed the River Aisne." GERMANS EVACUATE AMIENS. An official statement, issued this afternoon, says:

"First-On the left wing the enemy continues his retreating move-ment. He has evacuated Amiens, falling backward to the eastward between Soissons and Rheims. The Germans have retired northward from the Vesle. They have not defended the Marne to the southeast of

"Second-At the centre the enemy, though it has lost Revigny and Brabant-le-Roi still holds the south end of the forest of Argonne "On our right wing the hostile forces, which were along the Meurthe, are beating a retreat beyond St. Die and Duneville. We have re-occupied Draon, Le Tape, Baccarat, Remireville, Nomeny and Pontamousson "In the Belgian field of operations the Belgian has vigorously taken

the offensive to the south of Lirre. 'In the Russian field the battle that has been in progress in Galicia for the last seventeen days, has ended in a great victory for the Russian army. The Austrians have retreated along the entire front, leaving in the hands of the Russians a great number of prisoners and important war material.

LILLE ALSO EVACUATED. Reports from the different regions of North France continue to indicate a general withdrawal of the Germans. Lille and Amiens have been evacuated

The disorder which accompanied the retreat of the Germans is shown by the capture of numerous groups of stragglers. A Havas Agency dispatch from Troyes says that four German flags

were brought there and were received with a great demonstration. It is now being said that the war seems destined to refute the popular judgment of French character. The people have always been expected to exhibit excitement and impulsiveness on momentous occasions, but they accepted the victory in the battle of Marne with the same calm self possession as that with wich they faced the possibility of defeat and the rigors of a siege. It is true that their countenances were loss grave today, but there was a total lack of jubilation.

The press pays a generous tribute to the military genius of General Joffre, who after ten days of retreat, was able to reform his army and repulse an enemy so redoubtable as General Von Kluck.

The French military writers, while they do not go so far as to say that the Germans are incapable of pulling themselves together and making another stand, think it is unlikely that General Von Kluck will be able to form his forces and give battle in France unless the allies. breathless from their prolonged struggle, are themselves compelled to halt. It is held more probable that the gigantic armies will meet again in Belgium this time on more ever terms and with the chances strongly

# FATHER MEUNER DIED

Former Vicar-General Was Victim of Paralytic Stroke.

[Special to The Advertiser.]
WINDSOR, Sept. 13.—Right Rev. Monsieur Joseph Edward Meunier, pastor of St. Alphonsus' Catholic Church, here, died Sunday afternoon from the effect of a paralytic stroke sustained while motoring through Tecumseh, Ont. on his way to Belle River, to visit Father Peter L'Heureux, pastor there. Father Meunier celebrated mass in his church, ate a hearty dinner, and expressed the intention of taking an auto ride with P. Ouellette, organist at St. Alphonsus'.

They set out from the rectory shortly after dinner, and it was while entering the village of Tecumseh that Father Meunier was taken ill, Mr. Ouellette noticed that something was wrong, and as he brought the machine to a stop he saw that the priest was very ill. He carried him to a near-by house, and physicians were summoned. He was carried on a stretcher to the residence of Father Langlois, pastor of Tecumseh Catholic Church, and there became unconscious. He died about 4 o'clock, after receiving the last sacraments of the church.

Requiem high mass will be celebrated Wednesday and the body will be taken to Montreal for burial. Bishop Fallon and the priests of the

ocese of London will attend. Father Meunier was pastor of St. Anhonsus' Church for fourteen years, formerly serving as pastor of the Belle River Church, He was vicar-general of the diocese about four years ago, during a vacancy in the bishopric. Such Is Rev. R. W. Norwood's View of Present Universal Conflict.

STEP IN PERFECTING RACE

God No Respecter of Persons -No Nation Immune From Disaster.

That the war in Europe is not a catastrophe, but merely a part of the refining process by which God is bringing mankind to a state of perfection, was the view expressed by Rev. R. W. Norwood in the course of his sermon, at Cronyn Memorial Church, last night.

Taking as his text, Isaiah's message to the Israelites, when they were becoming despondent in Babylon: "Look unto the rock whence ye are hewn, and to the hole of the pit whence ye are digged." Mr. Norwood pointed out that the prophet's people had grown to consider themselves the chosen of God and that Isaiah was reminding them that God was no respecter of persons, that they must not consider themselves immune from discipline. He reminded them also that their forefathers had had to undergo similar discipline in Egypt and in the wilderness.

A People Become Careless. "We," Mr. Norwood said, "had become careless, as a people under prosperity is apt to do; our lax principles and our presumptuous flying in the face of folly had made war, a scourge of God, neces-

sary for our universal correction. "Is this thing of God?" he asked. "Are we indeed under the divine and benignant power? Perhaps we have sinned much and are being scourged for our offences.

"It is hard," Mr. Norwood added, "to realize that this nightmare is of the Twentieth Century. We had accustomed ourselves to the thought that the advance of humanity in the last years had forever left behind us the terrors of war. Our boasted civilization has failed us, and all our pomp of yes- by the enemy. Property has been terday is one of the Niveveth and Tyre. wantonly destroyed. "And out of the prophet's message," the preacher said, "I find the answer to head-off the enemy, who were surall our questions and the assigning of rounded and trapped in a sunken road, our fears. Viewed from the divine where over 400 men surrendered. angle of vision there has never been, as a catastrophe. Pain, peril, sorrow off and surrounded. After a desperate of humanity, but there are no kn tangles in the warp and woof. God rules by laws that change not, for in them as in Him, is no variableness neither shadow of turning.

"The mistake we are in the habit of making is in the complacency that regards the present as exempt from the hewing and digging processes of the past. The cry of our pacifists is made without regard to the rock and the hole of the pit. Is the twentieth century so far in advance of the day of Hastings, Crecy and Waterloo that we stould forget how our fathers were cut from the rock and digged from the pit? Have we developed such nerves and sinews of body, mind and spirit, have we grown to be such giants that we need no more the discipline of the hammer and

not the European war, but in the self+ complacency that makes us forgetful of the rock whence we were hewn and the gence collected, more especially during hole of the pit whence we were digged. the recent advance. "Therefore, I conclude that this war is not a catastrophe, but part of the what has been effected may be specismelting blows by which the Almighty fied, and the far-reaching nature of the is projecting us into a great future. The results fully explained, but that time nations are still in the rough, and mankind is yet in the making. Godlike is the humanity of which we Canadians are a part. # SENDS KING ADDRESS.

CAPETOWN Union of South Africa Sept. 13.-Via London, 8:40 p.m.-The senate and assembly of the Union of South Africa, has adopted an address to King George in which they state:

While deeply deploring the outbreak of the war, we are convinced that participation therein was forced upon the Empire and we respectfully desire to be allowed to express our approval of the action taken in defence of the principles of liberty and justice and of the integrity and sanctity of international obligations.' The conviction furthermore is ex-

pressed in the address that the Empire will emerge victorious in the gigantic struggle and that the conflict will be ucceeded by "an era of beneficient and lasting peace."

The address concludes with a declar

# NEW YORK WOMAN FINDS NEW MOUNTAIN

In Wilds of British Columbia Climbs Unnamed Peak of 11,000 Feet.

[Canadian Press.] NEW YORK, Sept. 13 .- A mountain, 11,000 feet high, which Miss Mary L. Jobe, explorer, instructor in history at Hunter College here, believes has never been mapped, was discovered by her in the wilds of British Columbia and a report concerning it will be made, she said tonight, to the Canadian Government and to the National Geographical Society.

Miss Jobe returned today from her exploration trip, which lasted six weeks, and announced her discovery. She locates the mountain, to which she will give a Cree Indian name, as about 150 miles north of Mount Robson. The topographical survey of Canada extends to a point only a few miles north of Mount Robson

Miss Jobe and several companions arrived at the foot of the newly-discovered mountain on August 22 and began the ascent in a heavy snowstorm. After covering six miles, they were forced to return to camp for food. A flock of grouse enabled them to provision and the ascent was begun once more. On August 25 they reached within 800 feet of the summit. Here great ice caves, with icicles sixty feet in length at their mouths, blocked pro-

We all know that through the offices of the Red Cross Societies wounded men are cared for where they used to be left to die on the battlefield as valueless encumbrances, but do we really sense the importance of extending the moral influence of this society?

> Red Cross Needs. First there is the matter of financial support. Without that the society's operations must be limited. In this connection one or two points deserve special emphasis. Because the Red Cross is well known and a permanent organization, we are inclined to think t does not need our little assistance; we often pass it over and contribute to other funds which make a strenuous though temporary demand upon Often our imaginations are captured by a transient campaign and we give it all we can afford, leaving ourselves without the means to aid other charities. In our impetuous generosity, we may be swelling a fund already sufficient and neglecting one that has been neglected. We should act intelligently in this matter of patriotic giving. It is not enough that we hand out to any agent of any department of national service who happens along, what we think we can spare. That is an inefficient and lazy method.

> We should take an intellectual as well as a sentimental interest in the needs of our country. And this brings moral support of the Red Cross. We

The ideal to be reached in broiling teak is to sear the surface very quickso that the juices which contain greater part of the flavoring of the meat shall be kept in, and then to allow the heat to penetrate to the inside until the whole mass is cooked to the taste of the family. To pass the point where the meat ceases to be puffy and juicy and becomes flat and hard is very undesirable, as the palatability is then lost. Exactly the same ideal should be kept in mind in broiling chopped meat. If this were always done, hard, compact, tasteless balls or cakes of meat would be served less often. To begin with, the broiler should be even more carefully greased than for a whole steak. This makes it possible to form the balls or cakes of chopped meat with very little pressure without running the by adhering to the wires of the broiler. They should be heated on both sides even more quickly than the steak, hecause the chopping has provided more ways of escape for the juice, and these openings should be sealed as soon as possible. # WHEN CHANCE FIRST JOINED AMERICAN LEAGUE) THE BOSTON BRAVES ARE THE SMARTEST CLUB OF BALL PLAYERS IN THE NATIONAL LEAGUE

Much Like White Sox of 1906, Except That They Have a Much Stronger Fielding Aggregation.

When that well-known epigram to the effect that "Life isn't so much in holding a good hand as in playing a poor hand well," was uttered, its author must have had George Tecumsch Stallings in reind lings in mind. For 22 years now the present pilot of the Boston Braves has been holding

poor, or at the very best, just fair, and in the baseball game, and it isn't on record that he ever has played one adly. He hasn't always won a pennant andly. He hasn't always won a pennant, and, in fact, never has landed one in the majors, but he always has had his club up a good deal higher than anyone had any right to expect.

This season George is not exactly playing a bad hand. His Braves cunnot be called a poor club, yet neither do they rank as a great one. Taking the men individually, there are three great nitchers, two star infielders, one not be called a great one.

do they rank as a great one.

the men individually, there are three great pitchers, two star infielders, one great pitchers, two star infielders, one ine catcher and one good outfielder in the line-up. The rest are just ball-players. None of them is exactly a weak sister, yet none, aside from these mound work for Boston, Stallings, has mound work for Boston, Stallings, has several other good ones. Notably George Davis, the Lancaster boy, who agers to knock one another down to age to age to age to a set age to age to a set age t

stick, and if baseball were limited to stick, and if baseball were limited to slugging it couldn't finish first in the American Assocation. But there are several ways of killing a cat, so to speak, and Stallings not only knows them all, but invents some new ones from time to time Strategy of Stallings.

The Braves are up in front in the National League procession because they play baseball from the time the patteries are announced until the last man is out. In fact, they start to wing games before they even take the field,

lanning out their campaign in noon-lay meetings, which are held every lay, while on the road, and in clubnouse conferences that precede every ome conflict. Nobody knows better than Stallings that he hasn't a great club. Life would be too easy to be interesting for him if he were handed a collection of stars. Realizing fully the deficiencies of his talent, he makes brains, speed and fighting spirit take the place of natural ability. The Braves never overlook a bet. They take advantage of every mistake made their opponents, pull the play that

couldn't see the ball. looked as though Stallings didn't have Then St. Louis let its defence crack to the extent of passing the first man up. That was enough for the Stallings tribe. The next hitter nem out, and Manager Huggins, fearing that Doak was losing control, hough he had been absolutely unhittable for several innings took him out. Walt Them Out. It didn't take Stallings long to see that the left-hander was wild, and

that the left-hander was wild, and everybody was instructed to play the string out. One man fanned following out this system, but the next two walked, filling the bases. A sacrifice fly, a triple and a wild throw soon cleared the sacks, and gave Boston four runs, and victory. It was a typical Boston inning. Only one hit was made, but four men scored.

Stallings has good bunters, and he is fast developing good waiters.

Braves and they are a good baserunning club. They are not prove to sucal myriads of bases, but succeed in a surprisingly large number of their attempts. They run the sacks as they do everything also intelligently. Like tempts. They run the sacks as they do everything else, intelligently. I ke the White Sox of 1906, they get much action with very little hitting.

the Braves, though another is hovering around this mark all the time. Taking the club as a whole, it is a decidedly weak aggregation with the stick, and if baseball were limited to become confused on a fielding play, and the other day in St. Louis pulled a "boner" that will go fielding play, and the other day in St. Louis pulled a "boner" that will go down in history. With men on first and third and one out, the batter hit shapply to Crutcher on the first bound. Paying no attention to the man who was scoring, and who was 30 feet from the plate when the ball lodged in his glove, Crutcher looked at second, decided that he couldn't make a double play, and then calmly threw his man out at first. Strand a Comet.

Strand, a left-hander, looks like the coming young hurler of the league in the opening of well-posted critics. He has as much stuff as anybody, but and for the present the Braves when there is a man on first. If he could pitch with men on the sacks like he can with clear paths, nobody would beat him, according to Stallings. Otto Hess is a veteran who can would beat him, according to Stallings. WILL BE ONE MORE STEP IN THE LEADERSHIP AND SUCCESS WE HAVE ATTAINED IN THE CLOTHING BUSINESS OF WESTERN ONTARIO. As the direct result of keen foresight, tenacity and courage in going out after the very best clothing that the best and brainiest artists can produce, at all times keeping our finger on the price button and pressing at the opportune moment, enabled us to produce values superior to anything shown in Ontario. We have pressed the price button with hard cash, as the great leverage on price power, and our big store will be practically overflowing with results during every day of the Fair Week. Every man and every boy from Sarnia to Guelph, from Stratford, St. Marys,

Strathroy and every district should avail themselves of this opportunity to purchase their full winter outfits.

Won Commercial Championship After Uphill Fight at Tecumseh Park Saturday Afternoon.

The McLeod, Nolan team won the Commercial League champioleship Saturday afternoon by defeating the Orient Club by the score of 9 to 8, after an uphill fight. The Orients appeared to have the game sewed-up in the first three or four innings. At one time the score was 8 to 4 in their favor. However, the cigarmakers settled down after the fourth inning and the Orients were unable to send another run across. In the meantime, the David Harums started to get after Anderson and aided by some bar errors on the part of the Orient infield, scored three runs in the fifth and two more in the seventh. The game was a stenuously played affair, Healy, of the Orients, and Gregory the Harums, both being laid out as esult of colliding with baserunners. continued in the game, however, er recovering. The kepnote of these operations was the tremendous attack of the allies along the Ourcq on Tuesday, which showed the German commander that his lines of communication were threatened. Then came the crowning stroke. The army of the Ourcq and of Meaux and the army of Sezanne drew together like the blades of a pair of shears, the pivot of which was in the region of the Grand Morin. The German retreat was thus forced toward the east and it speedily became a rout. "I repeat that England scarcely real izes yet fhat has been achieved alike in breaking up the enemy and in heartening our troops. The tactics of Mons and Charleroi are completely justified." Concentration Impossible.

This disposition of the German forces if confirmed, makes another concentration in France, as suggested by certain critics, impossible. It leaves Generals Von Kluck and Von Buelow hotly pursued by the allies and menaced by an enveloping movement on the left and without hope of reinforcements except perhaps from the 60,000 troops which occupy Belgium.

The latest news from Antwerp, however, shows that these are likely to be needed there to stand off the offensive novement taken by King Albert's army. Taken altogether, the attitude here is riewe with equanimity and the Government is busying itself with ways and means for reviving trade and com-

"I am convinced that the full of this rout is not yet appreciated in "The number of wounded entailed colossal transportation work. I counted livered a fierce cavalry attack on the very amiable, except the officers.

> Pursued Hotly. "The enemy crossed the Marne the return journey north under great difficulties and beneath a withering fire from the British troops, who pur sued them hotly. The German artiller operated from a height, there was again much hand-to-hand fighting and the river was swollen with dead.

### ACCORDED HIGH HONORS

Father of Sons Distinguished in Field of Science and Education.

Dr. William Saunders, C. M. G. At the First Methodist Sunday School F. R. S. C., F. L. S., for a quarter of a century director of the Dominion experimental farms, and originator of Marquis wheat, estimated to have increased the value of Northwest lands by \$2,500,000, died vesterday afternoon about 4 o'clock at his home, 355 Dufferin avenue, to which he had been confined by illness since August, 1913. Dr. Saunders went to Europe in 1911, hoping to improve his failing health, but returned but little benefited in 1912 to this city, after an absence of 26 Prof. Dorenwend, of Toronto, will be years. He was born in Crediton, Devonshire, England, in 1836. Came to London in 1848.

When he was 12 years of age, his pareis, with a family of nine other child on, the sole survivor of which is now Mrs. William Skinner, of this city. well known throughout the Dominion, came to Canada, settling in London, after making a trip from Hamilton by stage over the old corduroy road. At 19 years of age he entered business for

In 1855 he had begun his scientific career, when he was apprenticed to Salter, a pioneer chemist of the city. In 1857 he became interested in entomology. A few years later he took up the study of botany. In 1863, with Rev. Dr. Bethune, then of Port Hope, and now of Guelph, Dr. Saunders founded the Entomological Society of Ontario, which a few years ago was removed to Guelph, and which this year elebrated its semi-centennial anniversary. From botany Dr. Saunders became interested in horticulture and agriculture, and in 1869 purchased his first farm on Dundas street, east of the Hospital for the Insane, which he devoted chiefly to experimental purposes. In 1873 he purchased a smaller property near Mount Pleasant Cemetery, which he used entirely for horticultural and agricultural experiments.

Internationally Famous. By his accomplishments in the cience of horticulture, botany and entomology, Dr. Saunders had received recognition abroad as well as at home, by his appointment as Fellow of the Linnaean Society of London, England; corresponding member of the Royal Botanical Society of London; Fellow of the Entemological Society of London; a director of the Fruit Growers' Association of Ontario, and an honorary member of the Highland and Agricultural Society of Scotland. In addition. he was the recipient of many other houors and distinctions. In 1905, by the pleasure of the late King Edward VII., he was appointed to be a Companion of the Most Distinguished Order of Saint Michael and Saint George.

For two years following his ippointment as director of experimental farms in 1886, Dr. Saunders made a careful study of experimental farms in other countries. He was intrusted with the selection of officers and the location of branch farms at Nappan, N. S. Brandon, Man., Indian Head, Sask., and Agassiz, B. C. Founded Drug Company.

Previously Dr. Saunders had founded the large wholesale drug company, which is now conducted by his son, Parks Commissioner and ex-Water Commissioner W. E. Saunders, under the firm name of W. E. Saunders &

the American Pharmaceutical Association, and before going to Ottawa was successively for a number of years director and president of the Huron and finest bushel of wheat exhibited, re-Erie Loan and Savings Company.

Four Sons Are Scientists. Dr. Saunders was married in 1857 to Miss Sarah Robinson, daughter of Rev. J. H. Robinson, who was stationed in London for many years. Besides his wife, Dr. Saunders is survived by one S., a leading Toronto musician; Charles E., cerealist at the Central Experimental Farm, Ottawa; Dr. Percy, professor of chemistry and dean of Hamilton College, Clinton, N. Y .: and Dr. Fred A., professor of physics at Vassar College, Poughkeepsie, N. Y. Marquis wheat, which is one of the greatest achievements of the late Dr. Saunders, ripens a week to ten days
