

The Acadian

DEVOTED TO THE INTERESTS OF WOLFVILLE AND EASTERN KINGS

Vol. XXI. No. 15.

WOLFVILLE, NOVA SCOTIA, FRIDAY, January 27, 1922

\$2.00, payable in advance

WILLOW BANK CEMETERY

Lot Holders Hold Annual Meeting and Discuss Affairs of the Corporation

The annual meeting of the lot holders of Willow Bank Cemetery was held at the Council chamber on Monday afternoon at 3 o'clock. Owing probably to the disagreeable state of the weather the attendance was not large, although a number of the interested ones were on hand, including a few ladies.

After the reading of the minutes of the last annual meeting and special meetings held during the year, Mr. W. H. Chase, the president, read his annual report as follows:

In making this my annual report as Chairman of the Directors of Willow Bank Cemetery, I must voice my appreciation for help received, and interest shown by the whole Board of Directors, and also feel that special mention should be made of the services rendered by the Managing Director, who has taken a special interest in the work when it was being carried on, seldom missing a day when he was not "on the job" assisting in every way possible in all that was undertaken.

I also wish to make special mention of the work of Prof. Sutherland. In fixing the roads, and especially the lots, levels were required to be carefully worked out, and grounds graded on a proper slope, and to this phase of the work Prof. Sutherland has given unsparingly of his time. Further he has undertaken to make a plan of the Cemetery, in sections, and we propose having the plans show the burials in each lot, as far as possible, and for all this valuable service Prof. Sutherland has refused to take any remuneration.

The ordinary work of clearing up the Cemetery was carried on as usual, but at a meeting held in June, it was felt by your Directors, that a forward movement should be undertaken, so that when all was carried out the Cemetery might have a more uniform appearance in connection with graves, and your Directors thought the most important appearance would be much improved if the small irregular walks between the various lots in each section were filled in, and the grave mounds removed to such an extent so as to show only a slight rise, marking each burial, thus enabling the grounds to be lawned much more easily, and also give a more tidy appearance to the whole.

One section was tried first, and the change met the approval of nearly all the lot holders, so that your Directors thought advisable to push forward this work if some met the general approval. They then decided to call for a meeting of the lot holders in Sections No. 2 and No. 3, lying on the west side of roadway, from entrance nearest Wolfville. A vote was taken and finally unanimously decided to go on with this work. Subscriptions were asked for, and nearly all lot holders responded, giving from five to twenty-five dollars towards this work. In this way while not quite sufficient money to defray the whole expense was secured, yet your Directors felt justified in going on with this work—and it seemed the further the work was carried on, the more anxious lot holders in other sections of the Cemetery became for this work to be extended to their lots. Thus at the request of a number of Lot Holders, work was undertaken on a portion of Section No. 4, lying on the east side of the road—and about half of this section was levelled and all lots marked.

On all work done, fertilizer was sown, and raked in, and also grass seed, but on account of the unusually dry season the grass seed did not sod well and should probably all be reseeded and fertilized early next spring.

The amount of funds paid in for this special work has amounted to \$367.00, a few subscriptions have not yet been paid but on these we do not count.

Also your Directors have ordered 130 markers, to be used in marking lots, 100 of these are the ordinary, and 30 Perpetual Care, about half of these have been used, these having been placed only in lots which have been graded.

Your Directors also have been granted authority at a General Meeting, to build a house fit for storage of tools and fertilizer, but this work has been deferred for another season, although such a building is much needed.

Your Directors also had under consideration the purchase of small house and lot to west of Cemetery, but after considering this matter decided they would not go in debt for it, and as no funds were in sight, the matter was left in abeyance.

While on this subject it has been suggested that the Town should expropriate this lot of land, straighten the Gasperau Road at this point, and thus do away with a very dangerous bend in the road. If this was done, the Cemetery might consider a small amount for land not required by the town.

Now before closing this report, your

Directors wish to thank all those who showed their interest in the work being done, either by their contributions or occasional visits.

The field for further work is large—there is an immediate need for at least two new sections to be laid out and roads built, as at the present time there is only one place where lots can be sold. This will mean quite an expenditure. The estimated requirements for next season will be about \$400.00 for building, \$500.00 for laying out new sections, and building the necessary roads in conjunction with same, and opening up a new road on the east side of the Cemetery. Add to this, fertilizer and seed required for the spring \$25.00, and amount for cleaning up and keeping it in general repair an additional \$200.00, which makes a total of about \$1125.00. This is entirely outside of any special work, which some think should be carried on to completion as well.

The property belongs to the shareholders, and will probably be their resting place some day. I will leave the probable sources of revenue which we may expect, for the Managing Director to place before you.

Yours very truly,

W. H. CHASE,

Chairman of Board of Directors, Willow Bank Cemetery.

The report of Mr. R. E. Harris, treasurer and managing director, showed the past year to have been one of the most prosperous in the history of the cemetery. The receipts from assessments, sale of lots, fees, etc., amounted to \$623. In addition to this subscriptions amounting to \$367 were received on account of special work done during the summer. The total receipts including the balance on hand at the beginning of the year amounted to \$1236.03, with expenditures of \$828.40. The balance on hand at the end of the year was \$407.63.

During the year there were thirteen interments, the average being 63 years. Dr. Cohoon presented the report of the trustees of the fund for perpetual care. There are now fourteen lots that are awaiting perpetual care, the amount of the fund for this purpose to date being \$1500. \$100 pays for the care of the lot after it has been graded and put in condition. \$25 additional provides for the care of the monument as well.

The following were elected on the board of directors for the ensuing year: W. H. Chase, R. E. Harris, C. A. Patriquin, W. R. Fraser, Dr. Manning, W. L. Archibald and B. O. Davidson were appointed auditors.

List of Subscriptions Paid Willow Bank Cemetery Special Work, 1921

Capt. John Platt	\$25.00
Mr. J. G. Thompson (Halifax)	25.00
Messrs. C. and J. Wallace	20.00

\$367.00

The Dominion Atlantic Railway transported 105,000 barrels of apples to Halifax from points in the Annapolis Valley for the ten days ending Jan. 20th. There are still approximately 350,000 barrels left for export. From the beginning of the season 1490 more cars of apples were moved than for the corresponding period last year.

M. D. Davidson, principal of North Sydney schools for the past fifteen years, has been appointed inspector of schools for Kings and Hants counties and enters upon his new duties on February 1st.

Wolfville Defeats Canning

In Valley League Game—Soft Ice Made Slow Game

The Canning hockey team visited Wolfville last Friday evening for their second game with the local boys this season. As in the previous game, the Wolfville boys came off victorious, the score being 4 to 2. Due to the soft ice, the game was rather slow and not as interesting as some of the games played in the series.

After 10 minutes of see-saw play from end to end, Harvey from mid-ice scored the first goal for Wolfville. The play was in Canning territory for the rest of the period but no scoring resulted, in spite of several mix-ups in front of the goal. Wolfville played Canning in this period.

The second period opened with the puck again in Canning's territory, and after three minutes of play Woodman carried the rubber the length of the ice and on a pretty pass G. Kennedy scored. Canning then braced up and the play for five minutes was in Wolfville territory, with Spicer making a number of difficult stops. Wolfville then took the puck up and G. Kennedy scored, only to be followed in one minute by Canning's first score, netted by L. Lyons and the period ended 3-1.

In the third period after three minutes, Bennett sagged the net for Canning, making the score 4-2, which stood till the bell rang. But one penalty was handed out, and outside of the last five minutes of the game, the playing was clean. Wild shots were numerous and combination work spoiled by the heavy ice. The score is a good indication of the playing of the teams. The line-up:

WOLFVILLE		CANNING	
Spicer	Goal	Baxter	Goal
Harvey	Defence	L. Lyons	Defence
Fraser	Defence	Dick's	Defence
G. Kennedy	Centre	H. Lyons	Centre
A. Woodman	R. wing	Bennett	R. wing
W. Kennedy	L. Wing	Burns	L. Wing
Eagles	Sub	Eaton	Sub
Christie	Sub	Seaboyer	Sub
King	Sub	Joudry	Sub
Referee	R. H. Murray.		

OUT IN FRONT

WE are not
AS strong on Church
AS on Prayer Meeting
BUT we started
THE New Year
RIGHT
AND went the
VERY first day.
WE had a good
SERMON.
ALL about what
HAD happened in the
LAST 2200 years.
IT was very
INTERESTING.
BUT with that
THE parson wasn't
SATISFIED.
HE took us into
THE future
FOR the next
2200 years.
HE surmised
A GOOD deal
BUT he didn't
SEEM to know
WHETHER or not
2200 years hence
WOLFVILLE'S fire siren
WILL have been
INSTALLED.
NOT that we need
A FIRE alarm—
THE rumble of the
FIRE engines
TEARING to a fire
IS quite enough.
STILL
IF that siren
IS not going
TO be used
FOR a fire alarm
WHY not let

HON. ARTHUR MEIGHEN

Won election yesterday in Grenville, Que. by a majority of 1,620 votes over the Progressive candidate.

Windsor Defeats Wolfville

In Exciting Hockey Game at Windsor

The Wolfville hockey team met defeat for the first time this season on Monday night, when they lost to the Windsor team, at Windsor, by the score of 5 to 3.

The game was a thriller from start to finish. The teams were well matched and each team put a punch into the play that delighted the cheering fans on both sides. About 200 fans accompanied the Wolfville team to Windsor by special train, and double that number turned out from Windsor in spite of the zero weather.

The first period saw sensational hockey, ending with Windsor two in the lead and Wolfville without a look-in behind Smith. Singer slammed in the first goal for Windsor and a few minutes later F. Poole scored in another. There were a few minor penalties, Wolfville having two in the end of the period. Windsor had one man off the ice in this period, which ended in favour of the home team.

Wolfville came back stronger in the second period and after ten minutes of struggling banged in one goal. In a few minutes Windsor chased the third score into the net. J. McDonald doing the trick, and the fans howled their glee. The play was all in around Wolfville's goal during this period, except for a few rushes down the ice into Windsor's territory, then the home team's strong defence would carry the puck back and a few minutes before the bell rang, S. McDonald tallied the fourth for Windsor.

In the last period the fans saw feature hockey. Wolfville seemed determined to redeem her slipping prestige as champions. The whole period was a series of thrills and genuine sensations. S. McDonald had a dislocated thumb from the Digby game, but that only seemed to digger into his fine stick handling and his rushes were the keenest delight to the hundreds around the boards.

Wolfville scored two goals in quick succession and the visitors' hopes revived, but Windsor notched up the fifth and the bell rang with the score 5-3 and Windsor cheered itself hoarse over the victory.

The line up:

WOLFVILLE		WINDSOR	
Spicer	Goal	Smith	Goal
Harvey	Defence	McCann	Defence
Fraser	Defence	S. McDonald	Defence
G. Kennedy	Centre	Singer	Centre
W. Kennedy	Wings		
Geo. Christie	Sub.	F. Poole	Sub.
King	Sub.	Hughes	Sub.
Woodman	Sub.	Mosher	Sub.
Eagles	Sub.	Clarke	Sub.

The monthly meeting of the Victorian Order of Nurses for Canada, Wolfville Branch, will be held on Thursday evening, February 2, at 8 p.m. in Town Hall. The Executive will welcome whoever cares to attend. The meetings are open to the entire town. The result of the recent canvass was very gratifying, the amount collected being \$528.26. The V. O. N. takes this opportunity to thank each individual contributor for co-operating in this work.

SOME poor child
HAVE it to play with.
IT seems a pity
TO waste such
A GOOD whistle.
WE thank you.
Z. I. P.

Acadia Lost To Crescents

Halifax Players to Fast for Local Collegians

The Acadia hockey team played its first game this season last evening in Evangeline rink, when they were defeated by the Crescents of Halifax by the score of 5 to 2.

For the first three minutes of play, Acadia kept the puck in Crescents territory, then the Crescents rushed and Holmes scored on a pass from in front of the Acadia goal. The play see-sawed until three minutes later, Holmes got the puck again and scored for the Crescents. After this both teams made some fine rushes until two more minutes of play, Whelan sagged the net for another score. Acadia made some splendid rushes, but failed to score due to the fine goal tending of Hurley. The period ended with the score 3-0.

In the second period play was fast, neither side having much advantage until Murray and Conrad rushed and Murray scored the first goal for Acadia. After two more minutes of hard playing, Acadia again scored from a mix-up in front of Crescents goal. A few minutes later Whelan scored. Despite rushes there was no more scoring in this period. One penalty was handed out. In the third period the play was fast and furious. After five minutes play, Smith scored for the Crescents, making the score 5-2. Captain MacDonald was knocked out in a mix-up and was carried off the ice. The game ended with the score 5-2 for the Crescents.

The Crescents produced great team play throughout. After the game, the visitors were entertained and stated that they were greatly pleased with their trip to Wolfville. The lineup:

Crescents		Acadia	
Hurley	Goal	Elderkin	Goal
Bowie	R. Defence	Murray	L. Defence
Cushing	L. Defence	Clarke	Centre
Holmes	Centre	Hirtle	Wings
McDonald	Wings	Morrison	Sub.
Whelan	Sub.	Conrad	Sub.
Creig	Sub.	McKay	Sub.
Smith	Sub.	Anthony	Sub.
Walsh	Sub.		
Referee	H. Baird.		

SOCIAL NOTES

Mrs. Charles Fitch entertained very delightfully Thursday afternoon of last week, at her residence on West Main St. A large number of ladies were present including Miss Barnstead and Mrs. Brown of Halifax and Miss McClatchey of Kentville. Miss Eaton presided in the dining-room, while the Misses Fitch, Miss Marguerite DeWitt and Miss Madge Pratt assisted in serving.

The Ladies Bridge Club was reorganized on Tuesday evening of last week at the home of Mrs. B. O. Davidson, who was again appointed president. A pleasant evening was spent, the first prize going to Mrs. W. B. Eaton. The Club met this week at the home of Mrs. G. R. Anderson, Westwood avenue, and the prize winner was Mrs. B. O. Davidson.

A very enjoyable Stag Party was given on Tuesday evening at the Parish Hall, by Messrs. J. D. Harris and G. S. Bauld, in aid of the Athletic Association. There were about forty present and the evening was spent with bridge and forty-fives. The prize for Bridge was won by J. R. Black, while H. E. Blakeney was the successful one at forty-fives. Each received a pair of chickens.

Mrs. E. L. Gould gave a very pleasant "at home" on Monday afternoon in honor of her guest, Mrs. Kennedy. Mrs. Gould was assisted in serving by Mrs. R. F. Reid, who poured tea, Mrs. P. W. Davidson, Mrs. J. A. McPherson and Mrs. G. S. Bauld.

ADMINISTRATION BUILDING

Acadia University has made another step forward in providing an administration building. The dwelling on Acadia street, formerly occupied by President Cutten, has been adopted for the purpose, and comfortable and commodious offices have been fitted up for the various departments. On the ground floor are the offices of Dr. Cohoon, the treasury, while President Cutten has well arranged apartments on the second floor. The whole arrangement is a decided improvement, as since the burning of the old College these offices have been respectively in the Carnegie Science Building and the Library, and necessarily interfered with the accommodation in these buildings.

Dr. G. B. Cutten left this morning for New York to attend the annual meeting of the New York and also the New England Alumni Associations.

Correspondence

THE H. C. OF L. IN WOLFVILLE

To the Editor of THE ACADIAN:
Sir:—Your Editorial recommending the people to stand by the town and do their purchasing at home, is good advice, but it is not being acted on, because most people find it to their interest to purchase all they can in Halifax, St. John, even in England and from the big departmental stores.

Witness the large consignments of goods arriving every week from Eatons. People are not fools enough to send money to Eatons unless they believe they can get better satisfaction there. The merchants here took full advantage of, and made big money during the period of inflation, and now that it passed they are unwilling to bring their prices down to rock bottom. This town is owing a considerable debt. The people are becoming heavily taxed. As the town possess no industries employing labor that could bring in people to help pay taxes, the only resort is to make Wolfville a popular residential town, that will attract people here. Cheapness of building sites, cheapness of building material, and of labor, cheapness of living are all important factors, but many people complain that Wolfville is a more expensive place than even Halifax. Desirable building lots near the tram line with sewerage can be obtained there at one half the price that lots are offered in Wolfville. If Wolfville is to make any substantial progress the next ten years, the town council will have to change its do-nothing policy and contrive to offer some inducement to outside people to become householders here, without adding to the burden we already bear.

A HOUSE-HOLDER

CANNING'S PROTEST

To the Editor of THE ACADIAN:

Dear Sir:—To show to you that your report of the Wolfville-Canning Hockey match was not correct, and that the Halifax Herald report was correct, I beg to give the following information.—Near the close of the last period the score stood Wolfville 4, Canning 3 when Canning made a grand rush through the Wolfville lines right up to about five feet from the goal—when Bennett shot as pretty a goal as was ever shot. At least 500 people saw the puck pass the goal keeper into the net, and the goal judge raised his handkerchief, only to drop it instantly when the puck landed at his feet "right back of the goal." Then the bell sounded and the game was ended. I jumped on the ice and discovered with many others, the hole the puck had made in the bottom of the net, and got the goal judge to come and examine it. He put his fist through the hole and said before at least 200 of us—"I am convinced that it was a goal and so declare it, because the puck could not go so straight into the goal, then bounce out and whirl around back of the net," and he (the goal judge) went to the waiting room and after stating what he had seen, said to the referee and the Wolfville team—"I say it was a goal." I am a fair man and a good sport, and am sure that this was a goal and what it counted that way, only to be rebuked by both the referee and the Wolfville team.

These are facts that can be vouched for by several hundred reliable people. I am aware that this one goal would make any difference now, as the games stand, but I believe in fair play, and want the little Canning team to get all the credit that is due.

Yours etc.,

A. D. Payzant.

Canning, Jan. 25th, 1922.

[Note.—Like our correspondent, THE ACADIAN believes in fair play and has no desire to distort the facts. The Editor was not present at the game in question, but our report was based upon information given by one present for whose judgment we have regard. In last week's issue appeared a statement from the referee, which ought to settle the dispute, and we believe our correspondent is himself too good a sport to question his decision, although he may not agree with it.—Ed.]

SHALL WOMEN HAVE EQUAL RIGHTS?

To the Editor of THE ACADIAN:

Mr. Editor: People like to follow along the track beaten by others. It saves work and relieves one from thinking. Most of us ambulo plerumque in cunctis. If any one dares to get off the beaten track, or go ahead of the Bell-wether, we regard it as an affront to our intelligence, our amour propre is insulted and we proceed to mislead him with articles and stories. Therefore all reforms and improvements are greeted at first with "hatred, malice and all uncharitableness." No movement in modern times has been greeted with more shafts of ridicule and with more shots from an angry people than the women's rights movement.

(Continued on page eight)

W. C. T. U. Notes

Women's Christian Temperance Union first organized in 1874.

AIM—The protection of the home, the abolition of the liquor traffic and the triumph of Christ's Golden Rule in custom and in law.

MOTTO—For God and Home and Native Land.

BADGE—A knot of White Ribbon.

WATCHWORD—Agitate, educate, organize.

Let us not judge one another any more, but judge this rather, that no man put a stumbling block or an occasion to fall in his brother's way. RM. 14:81.

OFFICERS OF WOLFVILLE UNION:

President—Mrs. J. G. Elderkin. 1st Vice President—Mrs. W. O. Taylor. 2nd Vice President—Mrs. G. W. Miller. Recording Sec'y.—Mrs. Ernest Redden. Cor. Sec'y.—Mrs. Roy Jodrey. Treasurer—Mrs. H. Fideo.

Business meeting of the W. C. T. U. the last Monday of every month.

The regular Monthly Business Meeting of the Wolfville W. C. T. U. will be held in the Ladies' Parlor of the Baptist church on Monday afternoon, at 3:30 o'clock.

IN MEMORY OF THE TEMPERANCE ORDERS OF U. S. AND CANADA

On Thursday, Sept. 29th, 1921, there assembled at Westminster Abbey, Br. E. L. G. Hohenthal, M. W. P. of North America, and his son: Bro. W. J. Wightman, M. W. Trustee, G. S.; Bro. H. Kennan, G. W. P.; Bro. A. W. Thomson, G. T.; and Bro. W. C. M. Wightman, M. W. A.

By kind permission of the Abbey authorities Bro. Hohenthal was allowed to place upon the grave of The Unknown Warrior, a silk flag made up of the flags of the six chief allies in the War: France, Italy, Belgium, Japan, United States and Great Britain.

The ceremony was simple; under the direction of a gentleman representing the Dean, the Brethren gathered at the barrier surrounding the grave. Part of the barrier was drawn aside and Bro. Hohenthal quietly placed the combined flag upon the grave. The flag bore the following inscription:—

"This flag is placed here as a tribute for the service, devotion, valor and sacrifice rendered by him who is buried here and of all his associates of this and the Allied Nations in the name of his comrades in arms, Members of the Sons of Temperance of Canada and the United States by the Most Worthy Patriarch of, and for the National Division of North America, on this 29th day of Sept., 1921, the Seventy-ninth Anniversary of the birth of the Order."

Emil L. G. Hohenthal, So. Manchester, Conn, U. S. A.

The very great kindness and courtesy extended to our Brethren by the Abbey authorities was very warmly appreciated and will be gratefully remembered.—Forward

CANADA'S NATURAL RESOURCES

Attention is now being directed towards the country's natural resources, as never before, since it is generally recognized that only by a more widespread utilization of Canada's undeveloped lands, mines, forests, water-powers and fisheries can present day economic problems be solved.

The Natural Resources Intelligence Branch of the Department of the Interior has published a map showing the leading natural resources of each province. In Nova Scotia mixed farming, mining and fishing predominate; in Prince Edward Island fur-farming and agriculture. New Brunswick has large areas of timber, while mixed farming and fruit growing are outstanding interests. In Quebec may be found a wealth of timber for pulp-wood, also minerals such as asbestos, graphite and molybdenite, while in Ontario somewhat similar opportunities exist.

In the Prairie Provinces the prospective settler or investor may obtain adequate returns on capital and labour in either grain growing, mixed farming or ranching while in British Columbia timbering, fishing, fruit-growing and mining are among leading industries.

In addition to information on natural resources, the map shows all railways and trade routes. An interesting and valuable feature is a series of comparative diagrams illustrating the production and exports of the various provinces. A copy of the map may be obtained free of charge upon application to the Natural Resources Intelligence Branch, Department of the Interior, Ottawa.

POT AND KETTLE

"You have such strange names for your towns," an Englishman remarked to one of his new American friends. "Wee-hawken, Hoboken, Poughkeepsie, and ever so many others."

"I suppose they do sound queer to English ears," said the American, thoughtfully. "Do you live in London all the time?"

"Oh no," said the unsuspecting Briton, "I spend a part of my time at Chipping Norton, and then I've a place at Stoke Newington."

A majority of physicians in 19 States, representing all sections of the United States, replying to a questionnaire sent out by the Journal of the American Medical Association, assert that they did not regard beer and wine as necessary therapeutic agents in the practice of medicine.

A majority of the physicians made a similar assertion in regard to whiskey. About two thirds of these physicians declared there were no instances in their practices where suffering or death had resulted from enforcement of the prohibition law, and about three fifths favored restriction in prescribing whiskey, beer and wine.

In the 19 States 6797 physicians replied they did not consider whiskey a necessary therapeutic in the practice of medicine, and 6519 asserted they had found it of value. Beer as a therapeutic agent was supported by 2668 physicians and opposed by 9982.

READING IN BED

In a lecture on the eye, at the Institute of Hygiene, Dr. R. H. Elliott has just been discussing reading in bed. The best advice he can give is not to read in bed at all; but if anyone must do so, then he can prevent its being harmful by having a good light and by holding his book in such a way that he is always looking down on it. Our eyes have grown accustomed to locking down mostly. If we look at the level of the eye of higher the muscles from their unaccustomed work and a headache comes on when we look up in a picture gallery. So if you must read in bed, sit up and look down at the print, or anyway, keep the eyes above the level of the book, and never look up at the book.

Is Now a Healthy Boy

"From a puny, delicate child, my little Johnny has become a strong sturdy boy."

One mother writes: "If you had seen my little Johnny four months ago and you were to see him to-day, you would never believe that he is the same boy. Then he weighed only 49 pounds. To-day he weighs 90 pounds, almost double what he weighed four months ago. His trouble first started with a cold, which we never noticed because he was strong and like all boys of his age occasionally caught cold. After a while we began to notice that his cough, instead of getting better, was getting worse, that he was looking pale and losing weight. He seemed to be tired all the time, had no energy to do anything. Before he caught this cold he had no trouble with his lessons and remained at the head of his class without much study. But we began to notice a change. He didn't seem to care whether he knew his lessons or not and nothing seemed to interest him. He coughed so much and so hard at times that his face would become purple and we thought he would surely burst a blood vessel. Medicines and cough mixtures didn't do him any good. Finally, in desperation and as a last resort, we tried Carnol. In a short time his cough had almost disappeared. His appetite was returning and he was beginning to take an interest in his studies. And, thanks to Carnol, he has become as strong and healthy as he has ever been."

Carnol is sold by your druggist and if you can conscientiously say, after you have tried it, that it has not done you any good, return the empty bottle and he will refund your money. 1-122

SCHOOL REPORT

Wolfville, N. S., Jan. 21, 1922. Gentlemen of the School Board: I beg leave to submit the following statement for the year ending Dec. 31, 1921.

We have held during the year twenty Board Meetings.

The chief feature of the year has been the proposition of the new school house. This gave the Board very anxious and serious consideration, as we felt that the large expenditure involved should not be made lightly and without very great necessity.

The general contract for the building was \$34,456 heating installation \$3900. There are certain extras such as retaining wall at the back, grading back and front fences, etc., blinds for windows, wardrobes and seating for one room.

I should like on behalf of the Board to take this opportunity of referring to the resignation of our former Principal, Mr. Ford. For many years he was Principal of our school and gave good and faithful service for which the town owes him a debt of gratitude.

It was a source of gratification to the School Board that the Town was in a position to offer him the office of Town Clerk, as a mark of appreciation for his services and confidence in his ability for the office.

The present Board recommends an increase in the teachers' salaries, for the coming year—the laborer is worthy of his hire.

Mr. Silver is interested in improving the library and will be pleased to receive any suitable books friends care to donate. A number of dictionaries contributed were much appreciated.

The proceeds from Miss Haley's entertainment, \$61, was to have gone towards a piano, but will now be used for other needs in her department.

Under Miss White, the Women's Dean of Acadia College, a census of the school children has been taken. There are a number of children not attending regularly.

A miscellaneous school has been started for the benefit of backward children, also a night school for those who cannot attend during the day.

Miss Harry, our V. O. N., has been assisting Miss Hayden, the County Nurse in her examination of the school children.

Miss Harry states he will be glad to give any advice or supervision required. The fee for outside pupils was raised from Eight to Ten Dollars and we would recommend a further increase this year.

Chrysanthe-mums and Carnations All Colors. Church & Illsley Falmouth, N. S. Wholesale Florists

appreciated by the Board, it is certainly a forward step and if followed up by the parents would undoubtedly improve the health of our children.

We wish to thank Mr. Percy Brown and the gentlemen who have made it possible for the children to enjoy the School Rink, and hope next year it can be set up on the old site, giving more room.

FINANCIAL STATEMENT

Table with Disbursements and Receipts columns. Disbursements include Supplies and Repairs (\$1582.88), Advertising (6.16), Rent of Hall (10.00), Sinking Fund (130.00), Janitor's Wages (530.00), Teachers' Salaries (7098.04), Cleaning Schools (155.50), Printing (49.22), Water (10.00), Fuel (577.25), Acadia University (481.95). Receipts include Government Grant (481.95), Municipal Grant (1344.95), Tuition Fees (55.00), Rent of Government Land, Cables, etc. (49.30), Accounts Receivable (84.01).

Net Expenditure \$8615.79. Amount appropriated 10500.00. Less amount expended 8615.79. Balance \$1884.21

All of which is respectfully submitted. LAURA HALIBURTON MOORE, Chairman.

THE IDEAL NEWSPAPER

(Arthur H. Folwell, in Lealie's Weekly.) A newspaper publisher, wishing to please his readers, asked for suggestions.

"How can I make mine the ideal newspaper?" he inquired.

"Cut out the crimes, the murders, the sensational divorce case reports," said the nice people.

"Cut out the accidents, the railway and steamship disasters," said the people who "couldn't bear" to read such things.

"Cut out the politics," said the old-fashioned woman. "I don't understand it, and haven't time for it."

"Cut out the League of Nations and all that heavy stuff," yawned the flappers of both sexes. "What's it all about, anyway?"

"Cut out the so-called funny pictures," said the careful mother. "Such pictures aren't funny, and they're bad, very bad, for children."

"Cut out the ponderous editorials," snapped the man who merely scans the headlines. "Nobody reads 'em nowadays."

"Cut out the woman's page," said the female with the strong mind. "It's mushy trash, trivial, an insult to our sex."

"Cut out sports and theatres," said the intellectual. "Both are bad influences both have received altogether too much notice."

"Cut out—" began another and still another, but the publisher beat them to it.

"Stop all of you," he cried. "On second thought I have decided to cut out myself. It is no use trying to publish the ideal newspaper until I come across the ideal reader."

Saying which, he shut up shop and went into the wholesale saxophone business for rest.

THE ACADIAN STORE

SAVE THE ARBUTUS

(From the Boston Transcript.) There is reason as well as sentiment in the petition of Mr. Albert R. Burrage for an act to prohibit the sale of the trailing arbutus, or mayflower.

Year by year, as the result of the wholesale uprooting of this beautiful plant for commercial purposes, the arbutus is withdrawing further and further from our towns. It is already a stranger not only to the region about Boston, but to the vicinity of every sizable town in the Commonwealth.

Its natural stronghold, the Plymouth woods, is regularly devastated to supply the Boston market, and at the present rate of ravage it will soon be exterminated there.

The traffic in the flowers and plants should be vigorously suppressed, to the end that we may have this exquisite and emblematic flower with us in perpetuity. At the same time that its sale is prohibited, our motor people should be implored to spare the pretty plant, and not gather it, except in very limited quantities, for home use and decoration.

It is, of course, impracticable to forbid its plucking; it would be impossible to enforce such a prohibition. But if people realize the peculiar sensitiveness of the arbutus and the almost impossibility of plucking the flower without uprooting the plant, they will surely be inclined, if they love it, to content themselves with the fewest and choicest blooms.

The legacy of the Puritan flower is a precious one. It should not be utterly squandered merely because a new and wonderful means of transportation has enabled all and sundry to annex Plymouth woods and Wachusett slopes to their backyards.

TEACHER'S FAULT A school teacher received the following note: "Dear Madam,—Please excuse my tommy today, he won't come to skule because he is acting as timekeeper for his father, and it is your fault. U gave him a example, if a field is 15 miles around how long will it take a man walking three and one-half miles per hour to walk two and one-fourth times around it? Tommy ain't a man, so we sent his father. They went early this morning, and father will walk around the field and tommy will time him, but please don't give my boy such examples agin, because my husband must go to work every day to support his family."

"It's going to be a war to the knife," declared the suburbanite, who was feeding his chickens.

"What now?" asked his friend.

Why, Binks sent me a box of axle grease and advised me to use it on my lawn-mower."

"Well?"

"Well, I sent it back and told him to use it on his daughter's voice."

No sooner does a man get his Christmas and New Year's bills paid than he begins saving for his summer vacation, and as soon as he gets on his feet after vacation he has to begin "shopping early."

Florida farmers it is stated are netting \$200 an acre for sweet potatoes. One would think from the price up here that they must be making at least a \$1,000.

The 1921 census returns gives Toronto a population of 519,290, an increase of 137,390 over 1911 or 35.71 per cent.

"Have you a little fairy in your home?"

"No, but I have a little miss in my engine."

THE SHAME OF THE WORLD

A publisher, about to sell the writings of a noted scold, in book form, advertises its contents as "the shame of the world". In other words, it is deemed attractive, for money-making purposes, to blazon over the country the fact that the world has shame.

What's the matter with us Twentieth Century folk anyway? Why is it that so many of us are always knocking something always looking for the bad in everything, always ready to believe that wrongs are advancing on us, always suspecting some abomination or other?

The "shame of the world," forsooth! Most certainly there is shame in the world—always has been and always will be as long as it is inhabited by human people. But there is ten thousand times more chastity, ten thousand times more good on this earth than there is shame, and there always will be—BECAUSE THIS EARTH IS INHABITED BY DECENT HUMAN PEOPLE.

Rules are made to have exceptions. There is no rule where there is no exception. The human heart in the mass is sound and moral and lovable. In only the exceptional human is the heart shameful. And that's all there is to it.

Habit does a lot of things. Habit will even change the heart. If it is going to be a habit with the mass of us to look for shame, cussedness and general infamy, we may be sure that the filth will cling to us and it may even turn into a cancer afflicting the whole.—Ex.

DAVIDSON BROS., Printers and Publishers

Members of the Canadian Weekly Newspaper Association.

Subscription Rates—In British Empire, in advance, \$2.00 per year. To U. S. A. and other countries \$2.50 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Weekly Newspaper Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day after.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

DEMANDS PROMPT ACTION

The advent of the motor vehicle and the consequent increased traffic on our streets has so changed conditions as to demand greater attention to the state of our highways. In former issues THE ACADIAN has called attention to the dangerous condition which exists in certain sections and the need of these roads being better guarded from possible accidents. Right here in Wolfville there is also need of some action along this line. At the junction of Gaspereau avenue and Orchard avenue the street is so narrow and shaded, and the turn in the road so sharp as to make a very dangerous situation in these days of speedy and careless driving. The road at this point was evidently encroached upon many years ago and at different times there has been agitations to have the bounds of the street again defined. In the opinion of THE ACADIAN the time has now come when prompt action is demanded in the interest of public safety. We would suggest that the town authorities take the necessary steps to correct this dangerous condition and the least possible delay by acquiring the land and broadening and straightening the street. It is understood that the management of Willow Bank Cemetery is anxious to bound their property at this point on the street and would gladly co-operate with the town authorities to the extent of purchasing what land might not be necessary for street purposes if the property was taken over. The expense of the proposed undertaking to the town would not be great and the outlay is certainly warranted in the prevention of a likely serious accident later on.

With the civic election only a little more than a week distant there appears to be little interest taken among citizens in the election of men who are to serve the town at the council board during the next two years. Conditions in wolfville demand the attention of competent and aggressive men

with correct understanding of public business and of the duty which citizenship imposes upon them. With no desire to criticize unduly the work of the past year or the men in charge of the various utilities of the town THE ACADIAN regards it a plain duty to urge upon citizens more interest in these matters than is apparent.

NEW MINAS ITEMS

Quite a number attended the Masquerade Carnival at Wolfville, on Tuesday evening of last week. The ice was in good condition and there were some fine costumes worn by both the young ladies and gentlemen.

Mrs. Eagles gave a very enjoyable 5 o'clock tea to a number of her friends, on Wednesday evening of last week.

Mrs. E. LeRoy Willis left for Florida, her sunny southern, winter home, on the 23rd of this month.

The store, which has been closed here for quite a time, has been taken over by Mr. Miner, of Gaspereau, who has put in a full line of groceries, feed, etc., and began doing business on Saturday, Jan. 21st. Success to him, we say.

Mrs. McBride and little daughter, spent a few days at the home of Mrs. McBride, Sheffield Mills, recently.

Mrs. Arthur Walker gave a social party to number of her friends quite recently.

Mrs. F. Millett, who has been quite ill, is now recovering her old time health.

Mr. Archie Turner's new bungalow is now almost completed, and when the grounds around the house are properly graded, will make one of the prettiest homes on the street.

The farmers are busily engaged now in getting out their wood for the coming year.

We are sorry to hear that Mrs. Bowell has been quite ill.

A business meeting was held at the close of the prayer meeting at the church here Thursday evening, Jan. 19th.

The first thing the grocery man does when he decides to run the cash-and-carry system, is to offer the farmer 25 cents a pound for butter that he had been paying 50 cents for and selling it at 65 cents. No farmer can raise a pound of butter for less than 50 cents. It costs that much to produce it.

The Wolfville ACADIAN comes to our homes every week, well filled with good, readable news. This paper is well patronized by the merchants of that town, it being filled with ads. announcing the goods they have for sale. The typographical appearance of this paper is second to none.

The death of Pope Benedict occurred at Rome on Sunday morning after a brief illness.

THE SCHOOL RINK

The committee in charge of the School Rink wish to announce that they have only sufficient funds in hand to pay the manager for one more week.

Parents are requested to see that all children who use the rink have tickets. The low price of fifteen cents for the season should not prohibit anyone.

It will probably be necessary to canvas for more funds if the rink is to continue and it would be a great pity to close it now that there is such a splendid sheet of ice. A number of people who were not called upon last year have expressed their willingness to contribute. They would confer a favor by sending their subscription to Mr. Grant Porter, Treasurer, as soon as possible.

Mrs. Edward C. Hennigar, Greenfield, will be "at home" to her friends on Thursday afternoon, Feb. 2nd, from 2 to 5 p.m.

The date of the Recital by the Faculty of Acadia Conservatory of Music, has been changed from Feb. 2nd to Feb. 3rd, on account of the hockey match on the 2nd.

The annual meeting of the Sir Robert Borden Chapter, Imperial Order Daughters of the Empire, will be held on Wednesday, Feb. 1st, at the Parish Hall, at 3 p. m. Business, Election of Officers.

The Grand Pre Women's Institute will meet at the home of Mrs. Fred Crane, Friday, Feb. 3rd. Members are requested to bring annual fees to Children's Aid. Rev. Douglas Hemmeon will address the meeting, subject, Relation of the Church to the Community.

Through the columns of THE ACADIAN the members of the family of the late Mrs. G. H. Gilmore beg to convey to the many friends in Wolfville and vicinity, their sincere thanks for the many tokens of sympathy and goodwill, of which they were the recipients during their recent bereavement.

THE IMMORTAL BURNS

(From the London Advertiser.)
As the 25th of January, the birthday of Robert Burns, is approaching, and is to be celebrated by a Scottish concert, it is worth recalling the meeting of Burns and Scott, Scotland's greatest men, as it is described in a book by W. S. Crockett, "Footsteps of Scott."

"It was about this time, too, he had his memorable interview with Burns at Sciennes Hill House, (still standing at Braid Place, Edinburgh.) 'I saw him one day (he writes) at the late Venerable Professor Ferguson's house, where there were several gentlemen of literary reputation, among whom I remember the venerable Dugald Stewart. Of course we youngsters (young Adam Ferguson, his bosom friend, was the other) sat silent and listened. The only thing I remember which was remarkable in Burns' manner was the effect produced on him by a print of Bunbury's representing a soldier lying dead on the snow his dog sitting in misery on one side, on the other his widow, with a child in her arms. These lines were written beneath:

"Cold on Canadian hills or Minden's plain,
Perhaps the parent wept her soldier slain,
Bent o'er her babe, her eyes dissolved in dew,
The big drops mingling with the milk he drew;
Sad presage of his future year,
The child of misery baptised in tears."
"Burns seemed much affected by the print, or rather the ideas which it suggested to his mind. He actually shed tears. He asked whose the lines were, and it chanced that nobody but myself remembered that they occur in a half-forgotten poem of Langhorne's, called by the unpromising title 'The Justice of the Peace.' I whispered my information to a friend present, who mentioned it to Burns, who regarded me with a look and a word, which, though of mere civility, I then received and still recollect with very great pleasure."
It is stated that the "word" which Scott suppressed was "You'll be a man yet, sir."

BIG HOCKEY EVENT

What promises to be a most interesting and exciting hockey game will take place at Evangeline Rink next Tuesday evening when a picked team of puck chasers and stick handlers from the Liberal party will meet a similar aggregation of Conservatives in a friendly contest. The fact that Mr. E. Robinson, M. P., will guard the net for the Liberals and that Mr. H. W. Phinney will occupy a similar position on the Conservative team will add to the interest of the occasion and should assure the attendance of the friends and supporters of these gentlemen from all parts of the county. The line-up of the players will be as follows:

- | | |
|---------------------|----------------------|
| LIBERALS | CONSERVATIVES |
| Em. Robinson..... | Horton Phinney |
| Bill Harris..... | Otto Foshay |
| Burpee Balcoth..... | Dwight Sherwood |
| Elliott Smith..... | Alf. Cor |
| Jerry Bauld (Capt.) | Artie Young (Capt.) |
| Arch. Mason..... | Frank Godfrey |
| Bill Bleakney..... | Avery deWitt |
| B. C. Silver..... | Jack Roach |
| Herb. Bleakney..... | Truman Sanford |

NEW YEAR KNOCKS

Mr. R. W. Tufts objects to my criticism of the local telephone exchange. "The Knocker" has no desire to criticize Mr. Tufts, who is a well known stock-broker and specialist in the stock of the Maritime Telephone and Telegraph Company. According to his statement, Mr. Tufts gets satisfactory service from the telephone people. "The Knocker" is glad to learn that somebody gets what he pays for. If the telephone can be operated to the satisfaction of Mr. Tufts, why not to the satisfaction of other people? Is there a reason? If so, the public might like to know the secret.

THE KNOCKER.

WANTED

WANTED IMMEDIATELY, Capable maid in small family. Apply by interview. References required. MRS. R. B. BLAUVELDT.

WANTED TO BUY.—If you would like to turn into cash that something you don't need, try a "For Sale" Want Ad. The cost is trifling. You are reading this ad., others will read yours.

WANTED.—A position on farm by married man of 40, with wife and two small children. Good Milker. Capable of managing farm. Apply stating salary to P. O. Box 861, Halifax, N. S.

MISCELLANEOUS

OFFICE TO LET.—Apply to THE ACADIAN.

LOST.—One gold class pin, design T. S. crossed in triangle. Initial C. B. R. on back. Finder please return to C. B. Russell.

FOUND.—Early in January on Main street, a Cane. Owner may have same by applying at this office and paying for this adv.

FRUIT GROWERS' ASSOCIATION

Held Annual Session at Bridgetown—Instructive Addresses Given

The 58th annual meeting of the Nova Scotia Fruit Growers' Association was held at Bridgetown last week, and was largely attended by the fruit growers of the Valley.

The opening session was held Tuesday evening, and was opened with prayer by Rev. Mr. Underwood, of Bridgetown. The vice president, G. H. Vroom, presided owing to the absence of the president, M. K. Ellis, in Florida. An address of welcome was delivered by Mayor Warren, and replied to on behalf of the association by A. E. McMahon, General Manager of the United Fruit Company. The president's address was read by the Chairman.

Professor John M. Truman, of the N. S. Agricultural College, spoke on the subject of home grown crops, and dwelt on the importance of the hay crop to all those interested in mixed farming. He referred to experiments on the growing of alfalfa and sweet clover in Nova Scotia and talked at length on the value of the silo.

He was followed by Professor Brittain, who explained the habits and life history of the latest apple enemy, the apple sucker, and suggested methods of combating this pest. He showed interesting slides in illustrating his observations and theories.

Wednesday morning's session opened at 9.30 and the greater portion of the morning was occupied listening to the address of Mr. B. Leslie Emslie, consulting Agricultural Commissioner, the subject of his address being fertilizer in the orchard. The audience listened with much interest, as was shown by the many questions that were asked him, all of which were gladly answered.

The next speaker was Mr. W. O. Creighton, of East River, Pictou County, his subject being strawberry culture. It was very much regretted that this could not have been taken up earlier in the morning. The subject is an interesting one to Nova Scotia fruit growers, and especially to those residing in the Annapolis Valley. The morning session closed at 12.30.

After luncheon and before the opening of the afternoon's session, the delegates and visitors attending the meeting accepted an invitation to the warehouse of the Banner Fruit Company, which is located near the Dominion Atlantic Railway Station, and there witnessed an exhibition of dusting machines, and dusting, the same as is now recommended by many as the proper way of dusting young and old orchards.

The regular session opened in the Primrose Theatre at 2.30, with Vice-President Vroom in the chair. The first speaker was W. T. Macoun, of Ottawa, who spoke on horticulture in the West. He gave a splendid description of the raising of small fruits as well as apples. There is probably no place in Canada as well adapted for growing large strawberries as the Gordon Head farms at Victoria, B. C. The fruit is not as good as that raised in Nova Scotia, but it grows larger and presents a very attractive appearance when marketed. He also gave information concerning the growing and marketing of British Columbia and Ontario apples.

The next speaker was J. A. Ruddock, of Ottawa, on the pre-cooling of fall apples before shipping, or in other words, the advisability of establishing cold storage plants for this purpose. Prof. M. Cumming, of Truro, spoke on the same subject. He advocated the cooling of our present warehouses by some such means as fans, or some inexpensive appliances until the fruit growers became more familiar with the subject. He was followed by A. E. McMahon, manager of the United Fruit Companies, Kentville. He was very familiar with this subject, having at one time decided to put in one or more large cold storage plants, especially for the pre-cooling of Gravensteins and other early varieties before shipping, but after going into the matter more fully his company decided that such plants would be too expensive in return for the work they would accomplish.

The next speaker was Mr. G. H. Vroom, who talked on the same subject, and also referred to the packing and handling of apples, and advocated that more care be taken from the time they left the orchard until they reached the English market.

The last speaker at the afternoon session was Prof. W. S. Blair, Manager of the Experimental Farm at Kentville, who has just returned from a trip to England. He was asked to speak on subjects of interest learned in the English market. He also referred to the matter of pre-cooling the shipments, and advocated that we use our night air, showing to the audience the vast difference between the temperature at night from the middle of September to the first of October, also the difference in October and the lesser difference in November. He said considerable benefit would arise from storing our apples in open ventilated sheds instead of warm closed in warehouses. He said our apples reached the English market, as a whole, in a much better condition than he expected to find them. The large shipments of boxed fruit from British Columbia and Ontario have now been consumed, which leaves a good open market for present shipments, but asked what have we now to send. The present varieties going forward are all right when they are not in too strong a competition with other apples. He said that what we should have is an apple as firm as the Ben Davis and of the quality of the Spy. Mr. Macoun, at Ottawa, had made some good experiments along these lines, but the success which he had met in Ontario and Quebec, would not apply to Nova Scotia, as the same variety of apples growing in the Maritime Provinces were not of the same flavor and firmness as those grown in the inland Provinces, this to be understood to refer only to the experiments made at Ottawa along these lines.

Prof. Blair said that the transportation companies had greatly improved in the manner in which they handled our fruit, and would not keep inefficient men in their employ twenty minutes whom they had formerly employed for years. He also said that the men employed by the transportation companies were in many cases taking better care of our fruit than those who were working in some of the warehouses. He would not say that it was careless, perhaps thoughtfulness, but a fruit grower in the audience said cussedness.

The evening meeting was also largely attended. G. P. Raymond, of Berwick, read a very interesting paper by Prof. George E. Sanders, formerly of the Entomological Laboratory at Annapolis Royal, who has accepted a more lucrative position in the United States. The subject of this address was "Recent Results from Dust Spraying." Many questions were asked, all of which were replied to by Mr. Kelsall, of the Annapolis Station. C. W. Baxter gave an illustrated address, showing many interesting views of apple and small fruit culture.

W. A. Macoun, of Ottawa, also spoke on the "Growing and Marketing of Certified Seed Potatoes." Wednesday morning's session, which opened at 9.30 o'clock, was devoted to business. The following resolutions were moved, seconded and passed, some with out discussion, while others called forth many remarks:

Whereas, varieties of fruit grown in Nova Scotia, while of excellent quality, are lacking in uniformity in color due to the maritime situation; and, whereas, this difficulty could be overcome in the development of new sorts of Nova Scotia origin having better color; and, whereas, this work could be carried on at the Experimental Station, Kentville, by the employment of a trained man to take up this work;

Therefore Resolved, that this Convention of Nova Scotia Fruit Growers, now assembled, petition the Federal Department of Agriculture to have such a division established for the purpose of developing new sorts of apples suitable to our conditions, particularly with reference to late keeping varieties.

Whereas, George Sanders, officer in charge of the Entomological Laboratory

at Annapolis Royal, has been asked to sever his connection with that department; and, whereas, the service rendered by Mr. Sanders has been of inestimable value to the fruit growers of Nova Scotia;

Therefore Resolved, that while regretting his departure, we wish him all success in the new field he has chosen, at the same time assuring him that the latch string of our hearts will always be open to welcome his return.

Whereas owing to a continuous close season during the past three years, partridge have become so plentiful as to cause serious loss to many of the fruit growers in the Valley, therefore Resolved we petition the government not to place a continued close reason on partridge covering a number of years.

It is with deep regret that we have to chronicle the passing away of our esteemed fellow horticulturist, Col. Shippy Spurr. Through his death we lose one of our most valued members and one who unselfishly devoted himself to all matters pertaining to the advancement of our interests as fruit growers. Possessing as he did excellent judgment his counsel was sought in all questions touching the welfare of this Association and his ready response and willingness to give of his knowledge gained from years of experience, has in no small way aided in the material advancement of fruit growing in Nova Scotia.

We therefore wish to record our esteem for our departed member and to convey to his family an expression of our deep sympathy in their sad bereavement.

Resolved that the convention of the N. S. F. G. A., held at Bridgetown in January, 1922, do petition the Hon., the Minister of Agriculture at Ottawa, and the Hon. the Provincial Secretary for Nova Scotia at Halifax, to make provision for a commencement of experimental work in pre cooling of apples this year.

Whereas, the fruit interests of the Annapolis Valley suffer a severe loss because of what is known as "slack" in barrel apples arriving on the British market; and, whereas, this loss may be due to various causes which by definite experiments can be clearly defined; and, whereas, attention is being given in other parts of Canada by the Federal Department of Agriculture to experimental shipments and their direction to British markets to help solve this and other problems of a like nature;

Therefore Resolved that the Nova Scotia Fruit Growers' Association now assembled ask the Federal Department of Agriculture to take up this matter as related to the shipment of Nova Scotian apples, so that information looking toward the landing of our fruit on the British market in better condition be obtained.

Resolved that a vote of thanks be extended to the Board of Trade of this town for the energetic manner in which they have provided for our entertainment, and also Mr. Bishop for the moving picture shows; the residents for their splendid hospitality which was so much enjoyed by our members and also to our genial and generous friend, M. W. Graves, of the firm of M. W. Graves and Co., for the bounteous supply of refreshments of the very best quality.

Officers for the ensuing year were elected as follows:

President—G. H. Vroom, Middleton.
Vice-President—J. Elliott Smith, Wolfville.

Secretary—F. W. Foster, Aylesford.
Treasurer—Prof. W. S. Blair, Kentville.

Auditors—J. R. Webster, R. S. Eaton.
Executive Board—George Hutchinson, Ray Clarke, Lakeville; Fred. H. Johnson, Middleton; and Fred. A. Chipman, Nic-taux.

Delegates to Farmers' Association—J. H. Cox, Cambridge; A. Fitz Randolph, Bridgetown; Substitute, Ray Clarke, Lakeville.

Representative to Shippers' Association—J. A. MacDonald, Upper Dyke.
Delegates to Ottawa in February—E. H. Johnson, Wolfville; W. C. Spurr, Melvern Square; J. H. Cox, Cambridge; Substitutes—J. Elliott Smith, Wolfville; F. H. Johnson, Middleton.

H. C. Burchill, of Windsor, at the close of the session gave, an address on "Limestone."

ITS USE

"Who can tell me what a cow's skin is used for?" the teacher asked, and smiled encouragingly.

"I kin, teacher!" responded the little lad at the end of the row. "It's used to keep the cow's meat in."

Here's a definition of an optimist: A stranger who goes broke in Scotland, expecting to borrow his fare home.

COUNTRY PAPER IS BEST SELLER

The following from the Inland Printer shows the fast growing recognitions of the selling power of the country newspapers:

"There is now sufficient propaganda going on to impress foreign advertisers with the importance of the local newspapers as an advertising medium. Most local newspapers can ring the bell for 100 per cent efficiency as advertising mediums, or come very near it. Recently, we heard a splendid advertising and publicity man for one of the largest concerns in this country addressing an ad. club. He displayed charts and put his ideas across perfectly. And one of his charts illustrated his system of advertising.

"He showed five great rays of light, these representing the national periodicals, daily paper, state farm papers, national farm papers and beautiful folders and mail matter.

"These five rays were going directly into a 'burning glass', the handle of which was the 'local dealer'.

"And the burning glass gathered in the five rays of light, focusing them into one strong, active, penetrating burning ray—and this burning ray, the element that struck fire and made all the advertising effective, was the local newspaper. We thought it a fine tribute to the power of the local press of this country.

"It is splendid that the great publicity men who study and know the effect of their work have found the real point of contact that causes fire, light and energy.

"But he went on further and stated that the problem of this concern was to get the local dealer to hold the burning glass where it would gather the rays and reflect them through the local paper. In other words, he found that the local newspaper man had not 'sold' his paper to the local dealer to the extent the manufacturer needs, and for this reason, his publicity department was pursuing a policy of requiring the local dealer to sign up a contract to do six months' advertising in the local newspaper when he buys the manufacturer's goods.

"We firmly believe that if the local newspapers of the country can convince the local dealers of the fact illustrated by the manufacturers' publicity department—that it takes the local newspaper to really sell the goods to the consumer—there will be a rush of advertising contracts to the local press, and not even the best organized publishers of farm or other papers can sidetrack them, as they are now doing."

THE MODEL SUBSCRIBER

By Bret Harie.

Good morning, Sir, Mr. Editor, how are the folks today? I owe you for next year's paper, and I thought I'd come in and pay. And Jones is goin' to take it, and this is his money here; I shut down lendin' it to him and then coaxed him to try it a year. And here is a few little items that happened last week out our way. I thought they'd look good for the paper, and so I just jotted 'em down. And here is a basket of apples my wife picked expressly for you; and here is a pumpkin from Jennie—she thought she must send something too. And now you are chock full of business and I won't be taking your time; I've things of my own I must tend to—good day, sir. I believe I will climb." The editor sat on his hard bottom chair, and brought down his fist with a thump. "God bless that sturdy farmer," he muttered, "he's a regular jolly old trump." And its thus with our noble profession, and thus it will ever be still, there are some who appreciate its labour, and there are some who never will. But in the great time that is coming, when Gabriel's trumpet shall sound, and they who have labored and rested shall come from the quivering ground; when they who have striven and suffered to teach and ennoble the race, shall march at the head of the column, each one in his God-given place, as they march thru the gates of the golden city with proud victorious tread, the country editor and his devil will travel not far from the head.

WHAT COULD BE FAIRER

A young woman from the east, who married a Seattle man recently, had a novel experience when she engaged her first Chinese cook.

"What's your name?" she asked, when the preliminaries had been settled.

"My name Hong Long Soo," said the Celestial with much gravity.

"And I am Mrs. Harrington Buckingham," said the new employer. "I am afraid I shall never be able to remember your name—it's too long. I shall call you John."

"All right," returned the Chinaman, with a suspicion of a smile. "Your name too long too. I call you Charley." Seattle Times.

If I have a dollar and you have a dollar and we exchange, you have a dollar and I have a dollar. But if I have an idea and you have an idea and we exchange, you have two ideas and I have two ideas.

CHOICE RECIPES

SUGAR COOKIES.—One egg, 1 1/2 cups sugar, 1 cup shortening, 2 teaspoons cream of tartar, 1 teaspoon soda, 1/2 teaspoon nutmeg. Flour to thicken so as to roll out thin. Bake in quick oven.

NUT CRISPS.—One tablespoon butter, 1 cup powdered sugar, 2 eggs (well beaten) 2 1/2 cups rolled oats, 2 teaspoons baking powder, 1/2 teaspoon salt, few drops vanilla. Drop the batter on baking tins, about a teaspoon to a cake and bake in a slow oven to a light brown.

MOCHA JUMBLES.—Three tablespoons butter, 1 cup of sugar, 1 egg, 2 tablespoons of cold coffee, 1 1/2 oz. chocolate, melted in 1 tablespoon of butter, 2 teaspoons baking powder, 1/2 teaspoon cinnamon, 1 1/2 to 2 cups flour. Roll to one third of an inch in thickness, cut with doughnut cutter, sprinkle with sugar and bake.

CELERY AND CHEESE SALAD.—Chop nicely bleached, tender celery fine and bind it together with mayonnaise. Line an ice-cream dipper with cottage cheese, then fill up with the celery mixture, packing it in well. Screw out the cones on crisped lettuce leaves arranged for individual serving.

RICH ALMOND COOKIES.—Mix together lightly with the finger tips until well blended, a pound of butter substitute and a pound of flour. Add half a cup of sugar, one whole egg and one additional egg yolk, one half cupful of milk and a teaspoonful of almond extract. Chill, then roll very thin, brush with the white of egg, and sprinkle with sugar and minced nuts—preferably almonds. Bake in a quick oven. (This makes about one hundred and twenty very rich and delicious cookies.)

LARGE FALLING OFF IN IMMIGRATION LAST YEAR

OTTAWA, Jan. 16.—The estimated total immigration for the fiscal year ending March 31st will reach nearly 100,000. For the eight months ended November 30, 1921, 63,296 coming in at ocean ports and 23,279 from the United States, being a decrease from the preceding year of 45 per cent, in the case of the British and 39 per cent with the case of American immigration. The total decrease for all countries was 37 per cent.

From the period from March 31, 1900 to 1921 the total immigration was 3,577,311 of which 1,323,531 came from the British Isles, 1,366,508 from the United States and 887,272 from other countries. Of the latter a number came from enemy countries from which the flow ceased during the war, but for the whole period we find 200,075 from Austria-Hungary, 38,958 from Germany and 125,397 from Italy. Russia contributed 121,984, including 32,125 Finns. The great influx of Mennonites and Doukhobors was during the previous decade.

Other nationalities during this period included 62,000 Scandinavians, 40,326 Poles, 40,348 Chinese, 20,418 Japanese, 78,877 Hebrews, and 5,307 Hindus.

The greatest influx of Japanese was in 1907-08 when 7,601 entered. In 1917 there were 883; 1918, 1,178; 1919, 711 and 1920, 532. Chinese came in greatest numbers in the five years before the war, the highest total being 7,445 in 1912-13. In the year ending last March 2,435 entered. In the same year 4,061 Poles and 2,763 Jews entered.

During the eight months ended November the number of immigrants of the farming class who came in was 27,054, including 16,391 at ocean ports and 10,663 from the United States.

DRIVE TO THE RIGHT

The recent move of the Province of British Columbia to enforce the law of driving to the right, leaves only the Maritime Provinces of New Brunswick and Nova Scotia still adhering to the old custom of driving to the left. But New Brunswick has passed the law and only awaits action from Nova Scotia before placing it in effect.

As it now stands, Nova Scotia is the only place in the Dominion that prevents the law of driving to the right from becoming universal in the United States and Canada. The great benefit of a uniform law is apparent where so many tourists from across the border now come to Nova Scotia. The confusion in rules of the road is vexatious, and to many seems unreasonable.

While the change in rule would involve considerable expense to people and companies, it must come before long.

CURIOS

He had called on her twice a week for six months, but had not proposed. E. H. he said, as they were taking a moonlight stroll one evening, I am er—going to ask you an important question.

Oh, George! she exclaimed, this is so sudden. Why, I—

What I want to ask you is, 'his, be interrupted. What date have you and your mother decided upon for our wedding?

AIN'T HE CUTE?

Arrayed in snow-white pants and vest. And other raiment fair to view, I stood before my sweetheart Sue. The charming creature I love best. "Tell me, and does my costume suit?" I asked the apple of my eye, And then the charmer made reply—"Oh, yes, you do look awful cute!"

Although I frequently had heard My sweetheart vent her pleasure so, I must confess I did not know The meaning of that favorite word.

But presently at window-side We stood and watched the passing throng; And soon a donkey passed along, With ears like sails extending wide, And gazing at the dolful brute My sweetheart gave a merry cry,— "I quote her language with a sigh,— 'Oh, Charlie, aint he awful cute?'"

Minard's Liniment For Garget in Cows

SHERIFF'S SALE

1921. A No. 3534.

In The Supreme Court

Between: Mary E. Masters and William B. Moore, Executrix and Executor of the last will and Testament of Frederick A. Masters, deceased, Plaintiffs, and Nathan Fitzgerald and Hattie Fitzgerald, Defendants.

To Be Sold at Public Auction by the Sheriff of the County of Kings, or his Deputy, at the Court House at Kentville, King's County, Nova Scotia on

Thursday the 2nd day of February 1922

at the hour of eleven o'clock in the forenoon, pursuant to an order of foreclosure and sale herein dated the 19th day of November, 1921, unless before the day of such sale the amount due to the Plaintiffs, Executor and Executrix as aforesaid, with their costs to be taxed, be paid to the Plaintiffs or their Solicitors.

All the estate, right, title, interest and equity of redemption of the Defendants and each of them and all persons claiming or entitled by, from or under the Defendants and each of them in and to the following lands and premises, namely,—

1. All that certain lot and parcel of land lying and being in Lockhartville, Kings County, and more fully described as follows:— Beginning on the south side of the Fielding Road (so called) at the north west corner of lands owned by Asaph Newcombe and thence along said Newcombe line in a south easterly direction by lands formerly owned by William Davison, by lands formerly owned by Benjamin Jackson and by lands owned by John Lucas to lands owned by Brenton Borden; thence in a south westerly direction along said Borden line by the lands formerly owned by the Lockharts (so called) thence in a northwesterly direction by lands owned and occupied by Albert Fitzgerald to the Fielding Road (so called) thence along the said road to the place of beginning, containing fifty acres, more or less.

2. ALSO all that certain lot and parcel of land and premises situate, lying and being at Lockhartville aforesaid and bounded and described as follows:— On the north and west by the Old Fielding Road; on the south by lands owned by Albert Fitzgerald, Mortimer Fitzgerald; on the east by lands of or at one time of Albert Lockhart and Ephraim Lockhart and lands of or at one time of Brenton Borden and on the north east by lands owned by John Lucas and William Davison, containing fifty acres, more or less.

3. ALSO all that certain lot, piece and parcel of land and premises situate at Lockhartville aforesaid and bounded on the east by the Old-Telegraph or Nictaux Road; on the south by lands owned by David Hutchinson; on the west by lands known as the Swift lands and by lands now or at one time owned by William Mortimer; on the north by lands owned by Arthur Fitzgerald, containing fifty acres, more or less.

The first two lots herein above described appear to be identical, or nearly so.

TERMS:—Ten per cent. deposit at time of sale and remainder on delivery of deed.

Dated at Kentville, N. S., December 20th, 1921.

FREDERICK J. PORTER, High Sheriff in and for the County of Kings.

JAMES L. HUSLEY, of Chase & Husley, Kentville, N. S., Plaintiff's Solicitor.

SPRAY MATERIAL NEEDED

The following estimates are made upon the basis of the average sixteen to twenty-five years old apple trees to be sprayed four times:

1. Get the exact number of trees to be sprayed.

2. One half as many pounds of dry lead arsenate will be required as there are trees to be sprayed.

3. One half as many gallons of lime sulphur will be required as there are trees to be sprayed, unless dormant strength is used and then it would require more or one and one half as many pounds of dry lime sulphur as there are trees to be sprayed four times.

4. Where aphid, or green plant lice, are present at the cluster bud spray, about one pint nicotine sulphate should be used to each fifteen trees in the orchard.

5. When bordeaux is to be used in three sprays, it will require about one

pound of copper sulphate and one pound quick lime for each tree. In case bordeaux is used for three sprays, the lime sulphur order will be only one fourth of the above estimate, the lead arsenate remaining the same with whichever fungicide is used.

A peach had a date with a prune, and when she gave him the lemon he went plum crazy.

ASTHMA USE RAZ-MAH

NO Smoking—No Spraying—No Snuff Just Swallow a Capsule
RAZ-MAH Is Guaranteed to restore normal breathing, stop mucus gurgling in the bronchial tubes, give long nights of quiet sleep; contains no habit-forming drug. \$1.00 at your druggist's. Trial free at our agencies or write Remingtons, 148 King W., Toronto.

Personal Paragraphs

Miss Grace Smith, of Windsor, spent the week end with friends in town. Miss Isabel Belcher, of Upper Dyke Village, has been the guest of Mrs. B. O. Davidson. Mrs. Ernest Johnson spent several days in Middleton last week, the guest of Mrs. Fred Johnson. Mrs. J. H. MacDonald is visiting at Ottawa, the guest of her daughter, Miss Ruth MacDonald. Mrs. J. E. Sponagle, of Truro, with her infant daughter, is visiting her parents, Mr. and Mrs. D. G. Whidden. Mr. and Mrs. A. I. Dani is arrived from the West last week and are visiting at the home of the latter's parents, Mr. and Mrs. J. W. Beckwith. Mrs. G. K. Prescott, accompanied by her daughter, Sarah, left last week for Daytona, Fla., where they will spend the remainder of the winter. Miss B. K. Saxton has received the news of the very sudden death of her brother-in-law, Col. Francis Edwin Elwell, of New York, and is leaving to-morrow to go to her sister. L. E. Shaw left Monday on his annual trip to the American Brick Manufacturers Association, which meets in Indianapolis, and the Canadian ten days later in Toronto. He was accompanied by J. A. McPherson, of the firm.

DEATH OF MISS EMMA WHIDDEN

Miss Emma Whidden, last of an old family, the name of which is closely linked with the early history of Halifax, died Sunday at Dartmouth, where she has made her home for a year. Miss Whidden was 84 years of age. Her family at one time owned large tracts of land in Halifax, in the vicinity of the present location of the Infants' Home. Several years ago she gave up her residence in Halifax and removed to Wolfville for the benefit of her health. After residing here for many years, she returned to Halifax and later took rooms in Dartmouth where she lived with friends until her death. Mrs. C. A. B. Bullock, a niece, is the only surviving near relative.

ACADIA SEMINARY NOTES

On Tuesday morning in Class Room A, Acadia Ladies' Seminary, Miss Evelyn Smallman of the Department of Expression read to a limited audience, on account of restricted accommodations, Tennyson's, The Coming of Arthur. On one of the Blackboards, the Junior Class in English Literature had beautifully colored original drawings illustrating the poem. At the close of the reading the guests examined the drawings at closer range which consisted of the following scenes illustrated by the girls below listed: Panel 1—And down the wave and in the flame was borne A naked babe, and rode to Merlin's feet. Illustrated by Ena Roop. Panel 2—And thus the land of Camelard was waste Thick with wet woods and many a beast therein. Illustrated by Marion Page and Elma Corning. Panel 3— And Guinevere Stood by the castle walls to watch him pass. Illustrated by Aileen Freeman and Kathleen Bancroft. Panel 4—And like a painted battle the war stood. Illustrated by Kathleen Bancroft. Panel 5—If I in aught have served thee well Give me thy daughter Guinevere to wife. Illustrated by Marie Sexton. Panel 6—He cheer'd his Table Round With large, divine, and comfortable words. Illustrated by Dorothy Duff and Marie Sexton. Panel 7—The sacred altar blossom'd white with May while the two Sware at the shrine of Christ a deathless love. Illustrated by Norma McDorman. Panel 8—Camelot, city of shadowy palaces where Arthur Made a realm and reigned. Illustrated by Kathleen Bancroft. The printing was done by: Grace Carpenter, Annie Webb, Ena Roop, Dorothy Duff

Aileen Freeman, Mary Birmingham, Margaret Cochran, Kathleen Bancroft.

Later in the morning Mr. Edson-Graham took a photograph of the boards. This is one of the series of Tennyson's, The Idylls of the King, which will go toward the illustrations of all the Idylls taught on school curricula. Those now completed are on exhibition and sale at Graham's Studio. A prominent publishing house is taking up the matter with Miss Rosemond Archibald, instructor of English, of bringing out a book of The Idylls of the King, illustrated by the Junior Classes of Acadia Seminary. By this method of teaching by original illustrations, the difficult and elusive stories of the great classics are indelibly fixed in the mind of the student.

A PLEASANT EVENING

The monthly social and business meeting of the Ladies' Bible Class of the Baptist church was held at the home of Mrs. Percy Porter on Monday evening. In spite of the very severe weather, twenty members of the Class were present. After the usual opening exercises, business was talked over. A report was given of the work that had been done at Christmas and letters read thanking the Class for same. The Mite Box Opening was one of the big items of the evening. The money will be forwarded to Mrs. Walter Higgins to support a Bible Woman to help her in her work in India. Besides business routine, old familiar hymns were sung and readings given by different members of the Class. A vote of thanks was extended to the hostess for the delightful refreshments and pleasant evening spent in her home. Great interest has been taken in the Bible Class of late and it now has about forty-five members. In all probability the Nova Scotia legislature will open much earlier this year than last. Although the date is not yet set, it is rumored at the Provincial Building the House will be in session some time by the middle of February. The House opened on the 9th of March, last year, and adjourned in June.

Correspondence

(Continued from page one)

an's Movement, aiming to secure her her right to her own property, to the franchise and to a competitive place in all employments. Even Wolfville, which prides itself on the enlightened views of its towns people, is not free from this feeling, as I see from a correspondent in the Halifax Chronicle that a ticket of four has been organized for the four vacant seats in the town council, thus to force the only woman member out. I hope the report is not correct. The creation of such an organization against one woman would turn this town into ridicule and carrying it into effect would be a lasting reproach. Men could not be employed in a more pitiable or smaller crusade.

EQUAL RIGHTS.

OUR BOARD OF MANAGEMENT

To the Editor of THE ACADIAN: Dear Sir—With your permission I would give further information on my letter of Dec. 23rd. It was not my wish to unduly censure our present board of management, but to show, in this particular department of their administration, that the management has been on trial for a number of years.

I submit that our public utilities should be the best, regardless of cost. If our Western sewer had been laid down by the statute of the Province, as the then acting committee assured me that it would, it would have been safe and have given no further trouble. To avoid this, our council board had a special act passed without protecting or safeguarding the laying down of the sewer.

The course followed from Main St. tapped a dyke spring, so that the water would not rise enough to fill a trough twelve feet long, which gave a constant overflow the year round. "My loss" one thousand dollars." Following the line of least resistance they crossed the railway through the natural water course. The pipe was broken at this point. It was repaired with concrete, making a dam.

thus forming a stagnant pool. The same outlet might have been reached with a small increase of expense.

They tell me that I have not been damaged very much. Last season was very dry. The health officer was forced to make a report which was not for the public ear, nor was his bill for kerosene oil and lime for sanitary purposes.

At the very feet of our university this ought not to be. I felt strongly tempted to publish this fact in every paper and journal of our Province. It would not be necessary to do so if our citizens were at all interested.

E. C. JOHNSON

A MILD BIT OF SARCASM

To the Editor of THE ACADIAN: Dear Sir,—In reading the account of the last Windsor-Wolfville hockey game, played at the Windsor rink on Monday evening I came across the following amusing item: "With an impartial whistle in the following contests it should not be a very difficult matter for Windsor to cop the League Championship". I use the term amusing advisedly and agree with the Windsor scribe that with the aid of such an "impartial whistle" as was in evidence on Monday evening it should indeed not be difficult for Windsor to win.

FAN

Mr. R. W. Tufts left on Saturday for Boston, expecting to return in about ten days, via Ottawa.

What happens because of toothache—Pain, loss of sleep, loss of temper, loss of work, indigestion, bad breath, are the results of toothache.

G. W. Goler, M. D., Health Officer, Rochester, N. Y. (Published by the Metropolitan Life.) Child Welfare Clinic, Friday, Feb. 3, commencing 2 p. m.

The Eye Policeman

You can't see the Eye Policeman—he's one of those invisible people like fairies or brownies—but he's there with his note-book and pencil, watching you, so just listen while I tell you about him. His job is to watch over your eyes, because sight is very precious, more precious than pearls or diamonds. If you lost a pearl or a diamond you could buy another, but if you lost your sight you would be blind; there are no eye shops in the world yet. In the morning the Eye Policeman peeps in while you are washing. You know those people who sweep out their houses, but leave the dust on the door step, well, eyes are like that. You don't need to wash your eyes because they wash themselves, but they leave the dust in a little heap in the corner, and the Eye Policeman wants to see whether you remember to wash it away every morning.—To be continued. (Distributed by Canadian Red Cross Society.)

Italy's New Riviera

Few regions can boast of so great a variety and so large a number of climatic and health resorts as the bounty of Nature and the activity of man have created in the Venezia Giulia. Before the war some of these resorts were flourishing and popular. There assembled in crowds the flower of the aristocracy of the nations; the rich and elegant, not only of Europe, but from more distant countries beyond the ocean. They went there as to a charming refuge from freezing climates, or as to an oasis where they could rest in physical repose and intellectual enjoyment from the worry and stress of the daily fight for life.

The fury of the war-storm and the innumerable dissensions of the long and discouraging effect on the movements of visitors, and for several years there has been only a dreary desert where formerly life had triumphed in its most fascinating expressions of joy, beauty and richness.

A journey in this beautiful country, now in full process of rebirth and development, offers the greatest artistic attractions and rich and varied material for observation.

Take Abbazia for example. Abbazia, on the eastern coast of Istria, in the embrace of the Quarnero, slopes gracefully at the foot of Monte Maggiore (1400 m.), which protects it from cold winds. The vegetation there is superb, almost tropical, deep and vast laurel woods, impenetrable gardens, flowers in profusion. The climate is excellent, the beach delightful, the sea of a fascinating blue; which with its charming walks have given world-wide fame to Abbazia.

Before the war every year 50,000 visitors passed through Abbazia during all seasons, since that fortunate district enjoys an eternal spring. Many illnesses are cured there. The best results, however, are obtained as a winter climatic station in the treatment of all diseases of the heart, of the nervous and circulatory systems, the lungs, or of any constitutional weakness. It is highly beneficial to weak or sickly babies.

An entirely different type of bathing and climatic resort is the island of Brioni, near Pola.

Brioni, until a few decades ago was desolate, and now, thanks to Kaiser Koyssipier, proprietor of the great hotel established there, it is a veritable Paradise.

The aristocracy of Austria, Germany and Hungary used to make Brioni their chosen retreat.

- (1) Portorose, Italy. (2) Grotta di Posturnia. The Great Cave.

Brioni seems, so far as vegetation is concerned, to be a strip from the Migration Riviera; there are delicious woods, alluring walks, palms and genists in profusion everywhere. The larger island was the summer abode of the Roman patricians, and there are still interesting Roman remains, ruined temples, mosaics, etc. Moreover, there is at Brioni a large Hagenbeck Zoo, an establishment for rearing ostriches; tennis courts, etc. But the speciality is a huge swimming-bath made of tiles of majolica, large enough for two hundred persons, for hot sea-water bathing in winter. Also at Brioni the climate is excellent. Another charming climatic and balneic resort in Istria is Portorose, near Pirano, about one hour from Trieste. Portorose is in the neighborhood of the finest saline springs in Europe, and has an speciality truly unique, the so-called "acqua madre," which is the liquid residue of the marine crystallized salt during the summer months. This saline "acqua madre," brought to the baths of the establishment and heated to a temperature of 56° C. is used for various medical appli-
