

CALGARY, WEDNESDAY, AUGUST 28, 1912

ELEVENTH YEAR—No. 154

Calgary Retail Grocers May Combine In an Effort to Eliminate the Wholesalers; Contention is Made that the Wholesaler is Making all the Money

Contention is Made That Wholesale Merchants Are Living in Mansions and Riding About in Their Motor Cars While Retailers Are Slaves

To start a Retail Grocers' exchange and boycott the wholesalers was the important business discussed by the retail grocers at a meeting held last night in the board of trade rooms. It was the intention of a number of the grocers present that the retail grocers should deal direct with the manufacturer, and thus eliminate the wholesaler and jobbing houses. A committee of three members was appointed to investigate the matter and report at a later date. The contention of the advocates of the "revolution" is that the wholesaler is making too large a profit. One member stated: "The wholesalers are making large profits and living in mansions and driving their motor cars, while the retailer has to live from hand to mouth, and be slaves of the wholesalers."

Another reason was that the wholesaler had broken faith with the retailer, and was making retail sales. Another complaint against the wholesaler was to the effect that last year they signed an agreement not to supply restaurants and hotels, but to leave that trade for the retailer. They are charged with having violated this agreement and every wholesale grocer and fruit house was today, not only supplying the hotels and restaurants, but even delivering to residential houses.

Some members thought that the wholesaler was a necessary evil, as the manufacturer in certain cases would only distribute through the jobbing houses. This objection was swept away as only it was stated, matches and winter foods could not be obtained direct. The secretary read a report of an association in the States that had achieved considerable success through similar and dealing direct. One of the speakers said that the Calgary grocers could easily combine and order cars of brooms direct from the manufacturer which would save them several thousand dollars.

The same could be done in the purchase of oranges, lemons and other fruits and vegetables. It was estimated that the prices would be about five per cent above manufacturer's cost in the handling of the goods, and that would give the retailer some of the wholesaler's profits, and also reduce the cost of living to the consumer.

Another important matter taken up by the association was in reference to the collection agencies. The retailers claim that after giving the collection agencies accounts, it is almost as hard to get the money from the agencies as from the customers. Cases have been known, according to the secretary, where the retailers have even lost the money after collections had been made through the agencies.

PREDICTS LATE CROPS WILL BE HEAVY IF FROST DOES NOT CATCH THEM

Acme Correspondent of Alberta Pacific Elevator Company Makes Cheerful Report

Harvesting in Full Swing, With Weather Generally Favorable, is Tenor of All Reports

Cloudy Weather Has No Effect on Harvesting and Bumper Crop Now Assured

Oats and Spring Wheat About Ripe in Cheadle District, With Heavy Yield

That the late crops are going to be very heavy, providing the frost does not catch them, is the report from the Acme correspondent of the Alberta Pacific Elevator Company. Reports from correspondents in various sections of the province—north, south and east of Calgary—show harvesting in full swing, with the weather generally favorable everywhere.

The recent cloudy weather has no effect on harvesting, and the only chance of hurt to the crops now here is heavy cold rains, followed by frost. On the other hand, there is every indication that the crops so far as weather is concerned has passed, and the farmers are doing little worrying.

Harvesting is now at height. The reports of the correspondents in detail for last week are as follows:

CALGARY NORTH
Ponoka—Weather conditions during first part of past week have been ideal, but has been raining since Friday morning. Oat harvest had just begun previous to the rain, and with favorable weather will be in full swing the middle of next week.

Red Deer—Have had nice warm sunshine all week until last night, when we had some rain. Barley is being cut, and wheat and oats will be ready the coming week. With favorable weather a good crop will be harvested in this district.

Medicine Hat—Several farmers commenced cutting wheat and barley this week, and with favorable weather, crops will be ready by middle of next week. Rain commenced to fall Friday morning, but has since cleared away, and has continued ever since. With favorable weather from now on a record crop will be harvested.

Strom—Considerable rain fell today, which will delay cutting another day or two, as the ground is very moist. Very little wheat cut yet. Oats are turning rapidly.

Kilmer—Weather conditions for the past two days cool and showery, but no frost yet. Wheat harvest is well under way. Barley is mostly cut, and the rest is being ripened slowly.

Louge—Nearly all the farmers are cutting wheat, but some is not a very good sample. There is every prospect of a bumper crop of oats. Had light rains Friday and Saturday, but no frost yet.

Farmers All Over Alberta are Eager To Join in Movement to Sell Direct to Consumer and Swamp R. W. Pamment With Letters Asking for Information

Organizer of Nightingale Farmers' Supply Association Arrives in Calgary With Another Car Load of the Big Alberta Potatoes for Sale Today

WITH farmers from all point in Alberta clamoring to participate in the movement to sell direct to the consumer, Mr. R. W. Pamment, the farmer instrumental in organizing the Nightingale Farmers' Supply association, is swamped with letters from farmers in this district and from points as far away as Red Deer, Stettin, Medicine Hat and other points.

Mr. Pamment arrived in the city last night with another carload of two hundred sacks of the finest kind of Alberta potatoes, which will stack up against potatoes grown in British Columbia or any other part of the world for that matter. Between arranging to distribute these potatoes as equally as possible to suit the big demand of local buyers, and framing plans for the proposed big organization of farmers, Mr. Pamment is about the busiest man in Alberta.

Plans Permanent Organization
With the tremendous success of the movement, it is obvious that some plan of permanent organization must be perfected at once and that is what Mr. Pamment is working on now. He is in communication with similar farmers' organizations on the American continent which sell directly to the consumer in order to get information on which to base a perfect selling organization.

"The main fact and the important one which I want to impress on every farmer who wants to join the movement," said Mr. Pamment last night, "is first, last and all the time that the permanent success of the movement depends absolutely on keeping the goods we handle up to a high standard. This is just where the chief difficulty in forming the selling organization lies, and if the farmers will recognize this to start with, much of the difficulty will be done away with."

Perfect Inspection Necessary.
"It means that we will have to have a perfect system of inspection at every point from which potatoes are produced such as eggs and garden products are shipped. Hundreds of organizations have successfully got around the difficulties of handling the goods so as to distribute profits equally and fairly, but those that have failed have done so because of neglect to keep their products up to the first standard set. I am getting data now on various inspection and labelling systems, and every farmer that comes in must do so, believing in other parts that he is prepared to uphold a rigid system of inspection regardless of whether it hits him or the other fellow. Incidentally, I might say that Alberta has had practically no trouble so far as regards the quality of the Alberta potatoes for the simple reason that there has been no one else to beat us. The fact is that the Nightingale district can't be beaten anywhere."

Dealers Make Strange Excuses.
"The dealers who have been hit by the plan are now making the excuse that the soil conditions around Nightingale are such that better potatoes can be grown there than in other parts of the province. I don't believe that statement for a second. The farmers in our district are expert potato growers, and have given the subject close attention. I don't believe that any other part of the province can be attained in other sections of the province, and I am certain that it has been attained in the fact in that Alberta has had practically no trouble so far as regards the quality of the Alberta potatoes for the simple reason that there has been no one else to beat us. The fact is that the Nightingale district can't be beaten anywhere."

Ministers Say Their "Conference" with Tommy Burns Could Not Be Construed Into Anything Other Than a Willingness To Give Courteous Hearing to Promoter

Editor, The Albertan:
With reference to the "unique conference" between certain Calgary ministers and T. Burns, which was reported in The Morning Alberta of August 27, we wish to make a statement.

We were approached by Mr. Burns on the street, and so simply retired to a room for convenience sake. This is not to be construed into anything other than a willingness on our part to give a courteous hearing to the other side of the question.

Mr. Burns contended that boxing could be made clean and that the work of whatever was made hit by the plan are now making the excuse that the soil conditions around Nightingale are such that better potatoes can be grown there than in other parts of the province. I don't believe that statement for a second. The farmers in our district are expert potato growers, and have given the subject close attention. I don't believe that any other part of the province can be attained in other sections of the province, and I am certain that it has been attained in the fact in that Alberta has had practically no trouble so far as regards the quality of the Alberta potatoes for the simple reason that there has been no one else to beat us. The fact is that the Nightingale district can't be beaten anywhere."

What Great West Did Yesterday

In Calgary: Weather generally in western Canada continues favorable for ripening crops. No low temperatures.

In Victoria: The "Flying Legion," representing the Panama Canal exposition, left for home today. Mayor J. R. O'Neil, San Francisco, vice-president of the exposition, said: "Before leaving this shore we must tell our Canadian friends we cannot adequately express thanks and appreciation of the party for the many courtesies and lavish hospitality shown us. The people of Victoria opened their city, hearts and homes. The visit produced lasting ties of friendship and goodwill. We have seen new sights, met new people, exchanged ideas, and broadened our knowledge. We are much impressed with the thought that we are all one people, bent upon the united development of the Pacific coast. We wish Victoria the best of good luck, and hope anticipations of growth will be realized. The Panama exposition in 1913 at San Francisco is anxious to greet you."

In Edmonton: The Hudson Bay company announces the early erection of a \$25,000 brick warehouse. Store plans are being matured for a big six-story building to replace the present store.

In Saskatoon: A new three-story building has been announced. It will be one of the largest in the city.

In Winnipeg: Seven miles of asphalt paving have been laid in Winnipeg this summer. Four miles additional are under construction. The cost will be \$500,000.

In Regina: A fish hatchery will be built in Lake Winnipeg, at a cost of \$125,000.

In Fort William: The early erection is announced of a new Anglican church, to seat one thousand. Also a rectory and parish hall.

The corner stone of a new \$175,000 Presbyterian church was laid today.

In Fort Williams: Grain shipments from Fort Williams since the opening of navigation have been nearly \$6,000,000 bushels. This is greater than in any previous year by several hundred per cent.

That is Charge Against Boston Men Who Are Officers of Mills in Lawrence

E. P. Whitman, Who Killed Himself Yesterday, Said to Have Been Implicated

Boston, Aug. 27.—An alleged conspiracy on the part of a number of Boston men who are officers of mills in Lawrence, to secrete dynamite during the general strike in the latter city last winter is the subject of an investigation begun today. District Attorney Pelletier directed his assistants to go to Lawrence some time ago and ascertain if dynamite found there during the strike was purchased in Boston. At the time of prosecutions in Lawrence, John E. Brown, a prominent millaire contractor, of storing the explosive and fined \$500.

Among those summoned to give evidence was Ernest P. Pittman, of Andover, a prominent millaire contractor, who shot and killed himself this morning. The suicide of Pittman was ascribed to worry over finance.

When the dynamite was secreted in several places in Lawrence, the leaders of the Industrial Workers of the World, who were conducting the strike, declared they were not responsible. They charged that the dynamite was "planted" for the purpose of leading the public to believe that the unions were plotting to blow up the mills.

SALE OF TICKETS FOR THE STAMPEDE NOW TOTALS \$46,760

All Reserved Seats for Monday and Thursday Have Already Closed Out

Unreserved Seats Will Go On Sale Thursday; 50,000 Will be Offered Daily

More Celebrities and Special Cars Continue to Arrive, With More Coming

Work of Decorating City Progressing Rapidly and Colored Lights Will Glow

WITH the opening of the Stampede yet a week away, the sale of reserved seats yesterday reached a total of \$46,760.

At the end of the day, Mr. Arthur J. Murphy, in charge of the box office, announced that all reserved seats for Monday and Thursday had been sold.

On Thursday morning unreserved seats will be placed on sale, and each day thereafter, as soon as the reserved seats are disposed of, 50,000 unreserved seats will be placed on sale.

Mr. Murphy considers this a record amount of business so far in advance of the opening date of the big show, and it presages one of the largest crowds in the history of the province.

Yesterday seats for the special additional night attractions at the House of Commons were placed on sale, and these, too, are going quickly.

Celebrities Arrive.
With the arrival of each train from the south yesterday came more celebrities of the stage and will more are due today. Among the most noted is Clay McDaniel, of Pearl, N.M., who will hold the championship of the world in the "moll" category. Famous rider from Sierra Blanca, Texas, and Ned O'Grady, an old-timer from El Paso.

Out at the Stampede grounds things are fast assuming a finished shape. Strong corrals have been completed and are ready for the herd of wild Texas one-horns that are expected in the city almost any day. These animals have been selected from a herd of 1,000 of the strongest and most active animals on the southern range.

Special Cars Coming.
Today the special cars from Pendleton, Ore., conveying the famous "Coney Island" from Walla Walla, Wn., with Washington's best broncho twisters and steer ropers; from Denver, Colo., and points in Oklahoma, will begin to arrive.

Government May Build Quebec Dry Dock Itself

When Tenders Were Asked for Only One Was Received; Subsidy Insufficient

Seven Bids in for the Construction of Wharves; New Tenders May be Asked For

Ottawa, Aug. 27.—Owing to the difficulty which the government has encountered in securing tenders for the construction of a dry dock at Quebec, the question is under consideration of calling for tenders which will combine the construction of both dock and wharves. For the latter works, estimated to cost \$2,000,000, seven tenders have already been received, but no award has yet been made. In the event of the government determining to combine the two propositions, the calling of new tenders would be necessary.

The government has been forced to the conclusion that unless such action be taken, it will have to undertake the work of building a dock itself. When tenders were called for a dock at Lewis some time ago, only one tender was received, and that was merely for a contract and not a private enterprise. It was considered that the 1-1-2 per cent subsidy is not sufficient. A precedent for the combining of, as proposed above, is found in the Courtney Bay wharf and dock contract, let to the Norton Griffiths company last spring at St. John.

Among the bidders for the wharves are Sir John Jackson, the great English contractor; the St. Lawrence Dock company, M. P. and J. T. Davis, and Horace Dussault. The awarding of the contract for the wharf will be delayed pending further consideration of the proposed joint contract.

SPANISH PRIEST SHOTS POLICEMAN; IS LYNCHED

Had Been Placed Under Arrest for Assaulting Old Man; Row Over Funeral

Lisbon, Aug. 27.—Despatches received here today from the Portuguese town of Alcala Obispo tell of the putting to death of a priest by an infuriated mob.

The parish priest, it is alleged, attempted to conduct a funeral without the traditional burial rites, and the authorities and the people of the town objected. In the scuffle which ensued, the priest, whose supplies were torn, beat an elderly man and was placed under arrest. On the pretext of changing his surplice before accompanying an officer, the priest went to the presbytery and secured a revolver, with which he shot the policeman dead.

The inhabitants, infuriated by this act, stormed the presbytery, and after seizing the priest, lynched him. Burial of the body, which was horribly mutilated, in the local cemetery was opposed by the angry crowd.

THE CROOK AND HIS METHODS REVEALED

By One of Plain Clothes Detectives Now in Calgary to Protect Public From Those Who Prey Upon Society

Things for the Public to Guard Against While Attending Stampede; Great Machinery of Law Grinds to Prevent Crime and Detect Criminal; Fate That Awaits Those Who Incur Law's Wrath; Horrors of the "Cat"

A LONG the busy thoroughfares of Calgary stroll perhaps a dozen ordinary looking men, nonchalantly viewing the passing procession and pausing to join some little knot of similarly dressed individuals gazing into a show window or lounging in front of a saloon. To all intents and purposes these men are ordinary mechanics or fresh from the rural precincts. To the close observer, and he who knows why they are here, there everywhere, these are some of the men who work while the remainder of the world sleeps, or who apparently loaf while the wheels of business life hum away at the daily grist of human effort; they are none less than some of the most skilled criminal hunters on the North American continent.

No Disguises.
There are no Nick Carter disguises, no mysterious air of importance; they might be taken for any one of a number of men who go to make up the great mass of humanity. In conversation they are as versatile as they are charming. In no strata of life are they awkward and they will not be easily broken into the conversation, and even be ready for an argument on the merits of demerol. At a certain point, it may be a gathering of what is known as the "bohunk"—non-descript laborers who turn their hands to anything. It may be mechanics who have gathered as mechanics will, the unassuming individual with the affable personality, soon has an acquaintance and drops in for a smoke in the private lives of his associates.

As a "Con" Man.
One thing he has learned thoroughly and that is to always be ready with instant sympathy. It may be a general wall against society, and it may be some especial grudge against an individual. In conversation the crime hunter discovers the character of man to whom he is conversing. If someone proposes a drink, he readily acquiesces, but finds some excuse to avoid intoxicants. As the day draws to a close, he begins to be cleared of their busy throngs, the process of nature gradually brings about the elimination of the wheat from the chaff; it also serves to give the scout a pretty good estimate of the people whom he has met during the day, and in what direction he should look for the "dumbbells," the "assured story" man, the "peter man," the "moll buster," the "die," and any one of fifty varieties of crook that preys upon the public while the crowds gather.

In the Hotels.
While these "plain clothes" men are filling their niche in the big crime hunting machine, others are up to the hotels, reading clubs and cafes. To all intents and purposes they are business men, professional men, good fellows, good story tellers, and good (apparently) drinkers and poker players. They have an entrée into the most exclusive circles, many times their identity being as much unknown to the host as is known the mode of Rafferty like the man against whom he is pitting his cunning, he is a "confidence" man. He has as many "get-rich-quick" schemes as George Randolph Chester ever laid to the door of "Blackie" Daw or Wallingford. He has a more difficult errand than the street man for he must in advance of the crook identify him quickly.

ALBERTA'S WATER AND MILK IS FREE FROM DEADLY GERMS

Provincial Bacteriologist Says Sample of Water Shows No Bacilli Coli Communis

Local Expert Reports Milk Also Free From Bacilli Indicating Presence of Typhus Germs

Milk From One Dairy Shows Other Bacteria Indicating Dirt - But No Typhoid Fever Germs

Bacteriological tests of Calgary city water conducted by the provincial chemist and bacteriologist at Edmonton show that the water of this city is free from bacilli coli communis—in other words, it is practically certain that the city water is free from typhoid germs.

A report received by Medical Health Officer Estey from the provincial bacteriologist contains the foregoing information in very brief but decisive form, stating that the sample "does not show the presence of bacilli coli communis." The latter is the scientific name for a form of bacilli invariably found in water contaminated by sewage, and its presence is the indication to bacteriologists of the presence also of typhoid germs.

The reports made to Dr. Estey on the bacteriological tests of Calgary milk made by a local bacteriologist also show that the milk of all the dairies supplying Calgary is free from the dreaded bacilli coli communis. All the samples of milk, taken at random, according to Dr. Estey, were free from contamination with the exception of one dairy.

One Dairy Was Dirty.
The bacteriological test of the milk (Continued on Page 11).

INVESTIGATING CHARGES AGAINST GRAND TRUNK

Alleged Ill-Treatment of Men, and Loss of Life is Being Enquired Into

Ottawa, Aug. 27.—The labor department is investigating the charges made against the G. T. P. in effect that the railway construction employees were being subjected to ill-treatment and that through lack of proper precaution being taken, a number of men were drowned.

Mr. McNiven, fair wage officer of the department, is now going over that section of the road, and makes the charges the subject of a report to the government.

SELLING RAGS TO ENGLAND

Ottawa, Aug. 27.—Canada's rag trade with Great Britain is developing. Reports just published show that no less than \$288,740 worth of women rags were shipped from Canada to the United Kingdom last year for its manufacture into shoddy in the Dewsbury and Bradford districts.

Judging from current prices at which this commodity is purchased in Canadian cities, the amount would represent an immense quantity of rags.

Do You Feel This Way?

Do you feel all dried out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at night unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to go ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Fierro's Golden Medical Discovery will make you a different individual. It will set your liver to work, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 90 per cent of the cases. It is a remedy originally prepared by Dr. R. V. Fierro. Medical offices given free to all who wish to write for same. Great success has come from a wide experience and varied practice. Don't be wheedled by a penny-farthing medicine substitute for Dr. Fierro's medicine, recommended to be "just as good." Dr. Fierro's medicine are of known composition. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contains no habit-forming drugs. World Dispensary Medical Association, Buffalo, N. Y.

MAY HAVE BEEN CHARACTER OF DR. FIERRO'S MEDICINE

African Adventurer Identified as Former Gambler in Yukon Territory

Well Known by Those Who Witnessed Stirring Times in Early Days of Alaska

Vancouver, August 26.—That John Ward Rogers, the American who this week was reported killed in Central Africa, was none other than "Jim" Rogers, a man famous as a gambler at Dawson in the early days of the Yukon gold activity, is the assertion of a number of Vancouver men, who were acquainted with the latter.

The story of John Rogers' life in Alaska, as they tell it, is as romantic and spectacular as is the life of John Ward Rogers in the African wilds. "Jim" Rogers is described as a tall, thin, weighing about 220 pounds, with steel gray hair and stature of striking proportions. His Alaska career began when he came to the "Swiftnote Bill" the Monte Carlo saloon in Dawson, in 1898, his entry into the country being made the year before, fighting his way over the bitter trail with the others who passed inland that year. It was during the trip over the trail that he first showed himself a leader, with his indomitable spirit and commanding mien. At Dawson he became a reckless "devil-may-care" character. One day he was on a mining expedition with Soeger, the Jeweller, and was shot by that man. One day he was arrested and taken to the jail, where he was held before Judge Dugas. Mr. Wade does not remember the outcome of the trial. He still heard the notorious Monte Carlo, the resort where, ruin, killings, suicides and fortunes were made all in the morning of the little and where "Swiftnote Bill" often bet \$10,000 on a single play. Rogers paid \$2,000 a month for the gaming resort, and he conducted it until colored happenings and losing with equal calm, never drinking to excess. Jim Rogers disappeared, and rumor had it that he had gone to Nome to avoid meeting his wife, who never returned from Los Angeles. Jim never came back to Dawson, and his wife went back to Los Angeles, where she secured a divorce and remarried. Jim was believed to be in Alaska, but one day, in 1906, it is said, two Dawson old-timers met on the streets of Seattle, and one of them began to talk about a man who had gambled in Dawson for millions in "some great rubber scheme" in West Africa somewhere.

Further down the coast of the Alaska coast, where the Alaska ivory poacher was the same person might be furnished by Rex Beach, for "Cherry" Malotte, who was believed to be in Dawson, was acquainted with Rogers at Dawson.

ATTENTION OF NEAR EAST IS TURNED IN EAST

Belief Prevalent That End of Italo-Turkish War Looms in the Foreground

Believed That Austrian Disinterestedness is Open to Elastic Interpretation

Paris, Aug. 26.—Now that M. Poincaré, the French premier, is back from Russia, events in the Near East are again engrossing news. The belief is prevalent that the end of the Italo-Turkish war is near. That Turkey is anxious for peace is indicated in a statement made by the Turkish minister of foreign affairs, who expressed the conviction that peace will be once more on a firm basis of peace.

In Berlin and Rome, to judge from general opinion is that peace will be the outcome of negotiations now afoot.

Austria's Disinterestedness. The Italian press is apprehensive, after the annexation of Bosnia and Herzegovina, that Austria's disinterestedness in the Balkans is open to question. Italy sees in Count Berchtold's proposal of autonomy for Albania an effort to strengthen Austrian influence in the Balkans, leading ultimately to the establishment of a sort of moral protectorate.

German sentiment is hostile to any European intervention because Germany wishes to retain her preponderant position in the Balkans, and any form of foreign intervention would be extremely unpopular in Turkey, both with the government and the people.

Britain is as unfavorably disposed as Germany toward the project for much the same reasons.

Russia's Position. Russia regards the Slav protection of the Balkans as her racial prerogative and does not wish to see them brought under the control of Austria, while the Slavs themselves, whether Bulgarian, Serbian or Montenegrin, all have ambitions that would be frustrated by the development of Austrian political influence in the peninsula, so all are stoutly opposing the idea contained in the Berchtold proposal. In fact, with the exception of Austria, are directly interested in the defeat of the project. The Albanians already have made peace with the Ottoman government, and if the negotiations now proceeding should result quickly in the ending of the Italo-Turkish war, the last excuse for European intervention, either diplomatic or material, would have disappeared. The powers generally are waiting for the Ottoman government to wait the negotiations and hoping for their success in order that they may give Constantinople the project of concentration a first-class funeral.

Victor's Trip Postponed. Sir Wilfrid Laurier's trip to the West has been postponed.

Victoria, B. C., Aug. 27.—A dispatch from Sir Wilfrid Laurier announces that he will be unable to attend the Canadian Greaters convention here on September 4, other duties having intervened, he says, and this is taken to mean that the proposed trip through the west has been postponed.

MUNICIPAL MUDDLE

What is wrong with municipal government in the West? With an abundance of good water available Edmonton has had difficulty, extending over several years, in getting an adequate supply of clean water; its council appears to meet merely to provide an alderman with the opportunity to challenge another to a personal encounter; and one of its aldermen stays up all night to interfere with a capable chief of police and thus deprive the city of his services.

Almost every place that can be mentioned is a centre of useless conflict. Aldermen and city officials are fighting; they are doing nothing else and even that they are not doing well. If they were first-class fighting men we might turn them over to Colonel the Honorable Sam in the hope that they might be of some use in the international conflict which the colonel believes to be imminent.

The tasks of municipal government are too important, too vital to the welfare of the community, to be entrusted to men of the calibre of those who now dominate municipal politics. There are capable men in the service of this as of every other city in the West, but the task of finding them in the crowd is only less difficult than that of Lot, searching for an ever-diminishing number of righteous men in Sodom.

SIR WILFRID AND THE WEST

A week or more ago, when it was announced that Sir Wilfrid Laurier would commence a tour of the West at this date, The Calgary Herald, in common with other Tory papers in the West, charged the doughty Liberal chieftain with tardiness. Only one interpretation could be placed upon this Western visit; the hero of a hundred political struggles was running away from Premier Borden, hopeful thus to avoid a discussion of the naval policy. Now comes the report that Sir Wilfrid will not come West save possibly for a brief visit just before the house opens.

Whatever decision Sir Wilfrid may be obliged to make regarding the proposed tour there would be general disappointment in the West if he found himself unable to leave the East during this fall. No time could be more fitting for such a visit and he would be assured of the very warmest welcome. The West looks to him as its leader and would give him such a demonstration as would scatter any last vestige of doubt that may exist in certain quarters concerning the sentiment which it entertains for the fundamental principles of Liberalism.

DEFAULTING BANK CLERKS

The defalcations of bank clerks in Toronto has aroused the usual discussion concerning the temptations of this calling and the salaries paid to those engaged in it. The discussion is not without interest, though it is to be feared that it will accomplish nothing. Banking institutions are not very different from other institutions that employ labor, and the salaries paid to their employees are determined in the main by the relation of supply and demand. Youths fitted for the work of bank clerks and with little else open to them are numerous, and therefore cheap. Teachers also, for precisely similar reasons, receive no more for the very important work they do. If men capable of managing a railroad were as numerous they would receive no more for their labor. It is unfortunate, especially as, from a point of view which seems to be the highest, the general manager of a railroad is often of less value to the community than a good school teacher. It must remain so, however, until we have succeeded in re-organizing this old world and revolutionizing our standards of value.

No one can view with any feeling but that of the deepest regret the position of the two young

fellows in Toronto whose defalcations bid fair to blacken their respective careers. It is time to protest, however, against the mawkish sentimentality which inclines to the argument that if they had received an additional \$20 per month in salary they would not have robbed the bank of thousands of dollars which they lost to the rapacious and unscrupulous bookmaker. The temptation to which the bank clerk is exposed has been somewhat over-rated in view of the certainty of final exposure and punishment. One would also expect that the intelligence one supposes as necessary for the work would save the youth from the delusion that profit is to be made from transactions with the race-track bookmaker.

EDITORIAL NOTES

The citizens of Calgary apparently refuse to accept even good water from a bad council.

Suicide in Australia is on the increase. Why don't the Australians emigrate to Western Canada, where life is worth living even though the cost of living is high?

The government has engaged an expert engineer to improve the acoustic properties of the chamber of the house of commons so that the members may be more readily heard each other speak during the forthcoming naval debate. It would do better to employ an expert psychologist to ascertain why anyone should want to hear the great majority of the speeches delivered in the house.

Having approached very closely to the limit in bungling the affairs of the city, the city council will now adjourn until after the Stampede, when they will return with renewed vigor to complete the work.

The Dominion government has robbed Calgary of one of its city officials. If it could arrange to call a few more to government appointments, there are people in Calgary who might become reconciled with the spoils system.

The phonograph is being used by German "hello girls" to make the stereotyped replies to users of the telephone. Some of these prominent British Unionists, who are being interviewed in every Canadian city, say nothing of certain of our Canadian politicians, might use the phonograph with advantage. They could declare at each place visited that war with Germany is inevitable, while at the same time "saving their breath to cool their porridge." Those who like the sound of their own voices could still enjoy that pleasure by themselves making the record used.

The general manager of the Canada cement merger is travelling through the West circulating bonded assurances that the annual cement shortage will not be experienced next year. This gentleman also declares that the last shortage after all amounted to nothing. He announces, however, that the merger is doubling the capacity of its plant at immense expense and at the risk of losing all sorts of money in its philanthropic efforts on behalf of the West. It may therefore be necessary next year to stimulate its efforts by a reduction of the tariff on cement.

Vest Pocket Essays

By GEORGE FITCH

BUFFALO

THE city of Buffalo was named by an early resident of New York who once got that far west and mistook the killing of the Erie canal stevedores for the wild bison of the plains. It is a handsome city, the second largest in New York state and has 425,000 people who are noted for their hospitality, each citizen having entertained at least 125 relatives by escorting them to Niagara Falls, which performs nearby. Buffalo was first laid-out in 1813, but was laid out even more badly in 1910 by Cleveland and Detroit, which passed it in the census war. Its population grew slowly until 1824, when the Erie canal was completed. It then became a great seaport and during travellers braved the canal in droves to visit it. Buffalo also became the great transfer point for freight between the east and west and over 13,000 varieties of plain and fancy cuss words used by canal skippers in those stirring days are still preserved in the municipal museum.

Buffalo is now a great lake port and railroad centre. It is lighted, heated and trolleyed by Niagara Falls, the greatest cataract in captivity, which is located 20 miles north of the city and is fed half-eaten sandwiches by tourist parties from all parts of the country. Buffalo has the largest soap factory in the world, a 7-acre office building, a depot built while Ramesses was still in the high school, a motor boat which does fifty miles an hour, some fine public parks, two class A Democratic politicians and so many asphalt streets that automobilists cry when they have to leave the city and go to Paradise. It is growing fast and will have 500,000 people and another coat of paint on the New York Central depot by 1920. The history of Buffalo is braided up with national politics and it is one of the few cities in the country which has produced two presidents. Millard Fillmore was born and died in Buffalo and Grover Cleveland got his start by shuffling for the country in an able and impartial manner. William McKinley was shot while visiting Buffalo, but not under the auspices of home talent. Buffalo would be a great metropolis in the middle west, but located as it is under the shadow of New York and Philadelphia it is not looked upon with awe and is not even allowed to have a big league baseball team. The fast trains now run around it and were it not for the Falls and Messrs. Mack and Connors, Buffalo would have as hard a time flagging public attention as do Newark and Jersey City.

Ideas of a Plain Man

By DR. FRANK CRANE

GENIUS

IT is a genius that feeds the world. The word Wagner makes this comparison; that, just as we all live upon the earth, but it is necessary that plants and animals transform the minerals of the soil so that they assume forms suitable for our nourishment, so men of genius take the great facts of Nature and reduce them to such substance as shall supply our souls. Shakespeare says the poet gives "to airy nothing a local habitation and a name." Mr. Bailey stated in the national legislature that without the farmers we should all perish from the face of the earth. Doubtless, but the genius is not less necessary. Without him civilization would soon sink into "a war of kites and crows."

It is not labor nor the laboring man that is essential to society; it is brains. Remove every hand-worker from the earth, and humanity could still live, for the non-workers could soon learn to work. But remove all superior minds, the inventive, resourceful, far-seeing, organizing minds, from the world, and we should slip back into barbarism at once.

False aristocracies, of inheritance and privilege, we might well dispense with; but the real aristocracy of superior men and women is an eternal necessity. "The equipments which decay the insectivorous virtues of men," says Wagner, "are symptoms of moral rickets. We live by our capacity to recognize and honor what is great, and we die by suspicion, skepticism and the spirit of misanthropy."

750,000 ULSTER MEN TO SIGN THIS COVENANT

Pledging Themselves That If Home Rule is Enacted They Will Ignore Government

London, Aug. 27.—The Times says the covenant to which Ulster men will pledge themselves at the meeting on September 28 is that if some rules enacted they will not acknowledge the parliament at Dublin, will not obey its laws, and will not pay taxes. It is expected that the privy councillors will be the first to sign, and that those signing the covenant will number from 500,000 to 750,000.

There is reason to believe, moreover, that the Ulster leaders at the meeting in Belfast on September 29 will announce the heads of the constitution which they will set up in the contingency of the enactment of home rule. It will separate the judiciary as well as the executive.

Stories of an armed rising, the seizure of the Belfast post office, and other such plots are untrue.

Speaking along similar lines, Right Hon. Walter Long, M.P., in addressing a crowd of his own party in the House of Commons, said: "We must come face to face with the great problems which confront the empire. He remembered unflinching firmness that it will arrest attention and command the support of the English and Scotch people."

PREDICTS LATE CROPS WILL BE HEAVY

Continued From Page 1

Erskine—About 15 hours' rainfall during week. About 10 per cent of the wheat is cut; some fields are badly lodged. Oats are a good average crop, and cutting has commenced in many localities. About 75 per cent of the barley harvesting is finished.

Halkirk—Weather conditions during the past week very ideal, but it has been raining all day yesterday and today. Wheat and oat harvest will be general next week. A good portion of the barley is ready cut. There is every prospect of fine crop of fax.

Langdon—Perfect weather all week. Grain is nearing maturity and cutting will be general this week. Next week wheat is nearly all cut. Some fall rye threshed during week and yielded splendidly. Two weeks more good weather required to mature the spring wheat and oats.

Stathmore—Weather during first part of week ideal, but that couple of days has been cloudy, with light rains. Barley is nearly all cut. Some fall rye threshed during week and yielded splendidly. Two weeks more good weather required to mature the spring wheat and oats.

Calgary East—Perfect weather all week. Grain is nearing maturity and cutting will be general this week. Next week wheat is nearly all cut. Some fall rye threshed during week and yielded splendidly. Two weeks more good weather required to mature the spring wheat and oats.

Carman—No rain this week. Some cutting and harvesting will be general. No damage reported from any cause.

Clareholm—Weather conditions during past week very good. Wheat and grain is maturing rapidly. Some spring wheat has been cut, but harvesting will not be general next week. Threshing of winter wheat will commence this coming week.

Barons—Weather has been very warm all week and crops are ripening more rapidly than anticipated. Cutting will be general Monday. No damage reported of any description.

Macleod—Weather during past week has been ideal for harvesting and nearly all the farmers are cutting. Spring wheat is splendid crop, but winter wheat not so good. Within two more weeks of fine weather all grain will be out of danger.

Granum—Weather during past week has been very good. Wheat and grain is maturing rapidly. Some spring wheat has been cut, but harvesting will not be general next week. Crop conditions have shown marked improvement during past month.

Cayley—Winter wheat is fair crop and nearly all harvested. Spring wheat is splendid crop and harvesting will be general this week. Oats are also in fine condition; harvesting of same will be general this week. They are nearly ready for harvesting and is an excellent crop.

High River—Weather during past week has been ideal. Winter wheat is nearly all cut, and spring wheat is turning rapidly. Barley is ready to harvest, and oat harvesting will be general by September 1.

Purple Springs—Have had no rain for two weeks. Wheat and barley nearly all cut, and threshing will be general in a few days. Very little flax cut yet, but same is in good condition.

Bow Island—About 90 per cent of wheat and barley cut. Some wheat threshed, averaging about 26 bushels per acre, and grading No. 1 and No. 2 Northern. There are about half cut, and some fields are about half cut. Threshing will be general next week.

Parkland—Heavy rainfall the night of the 24th, which will delay harvesting for a day or so. Fall wheat practically all cut. Spring wheat harvesting will be general this week. Oats are turning fast and record crop is looked for.

Reley—Dry weather at this point. Fall wheat nearly all cut, and greater part of seeding done. Oats and spring wheat still green. Flax well advanced and good crop is looked for. Threshing will start in about ten days.

Cardston—First part of week was ideal for harvesting wheat. Very cold rain the night of August 25. Some threshing may be done this week.

COAL SHORTAGE IN MONTREAL Montreal, Aug. 27.—While ordinarily there are stored in Montreal at this time of the year about 250,000 tons of stove coal, local dealers state today that there are not 500 tons of this coal in the city.

The dealers also announced that the price of stove coal is jumping within the next two weeks, stove coal loose is selling at \$7.75 a ton and in a week or two will likely go to \$8.25. Egg coal loose is quoted at \$7.25, and will likely reach \$8.00 a ton. Stove coal being sold at \$8.00, will be sold at \$8.75.

CONTRIBUTION TO NAVY A DELICATE QUESTION

Should Not be Discussed by Public Men of England Until Policy is Announced

That is the Opinion of F. E. Smith, K. C., Noted Leader of the Unionist Party

WINNIPEG, Aug. 27.—"The question of the Canadian contribution to the navy is a very delicate one," said F. E. Smith, K. C., the young Unionist leader, today. "Personally I think that English public opinion has dared express his opinion openly until the Premier of Canada had delivered his statement. I might say without immoderation that the general opinion of Mr. Borden's government has been received with gratitude by all parties in England. No proposal has so touched the imagination of the people in regard to the imperial conception since Canadian co-operation in the building of the South African war fleet that for all time. To-day the naval supremacy of the empire was threatened. For his part he had no doubt that Canada would answer the mother country's present need in the most timely and efficient way. He will see that the navy is sufficient, for any occasion."

Speaking along similar lines, Right Hon. Walter Long, M.P., in addressing a crowd of his own party in the House of Commons, said: "We must come face to face with the great problems which confront the empire. He remembered unflinching firmness that it will arrest attention and command the support of the English and Scotch people."

MONTHLY MEETING OF BOARD OF TRADE TODAY

Will Take Up Matter of Returning Visit of British Financiers to Canada

Report of Committee on Securing Terminal Elevators and Making This Routing Point

The regular monthly meeting of the board of trade will be held at 3 p.m. today, at which time the report of the grain commission committee will be submitted.

Another matter that will come up for final determination will be the question of returning the visit of the British financiers who toured the Dominion last summer.

A number of other matters of equal importance will come before the board, including that of devising ways and means for preparing the case of the shippers and presenting it to the grain commission in the effort to have Calgary made a routing point.

ARISTOCRATIC CAT HEARS CALL OF THE WILD

Chicago, Aug. 26.—The most pampered cats in the world are to be found in Chicago.

They are Mickle, Tommy and Dickie—three large Angoras belonging to Mrs. H. Rose, of 619 Lexington avenue. All have pedigrees longer than their tails.

Besides being probably the most valued cats in the city, Mickle, Tommy and Dickie bear the distinction of being probably the only cats in the world that make regular visits to the "barber shop" and are shaved.

Mickle, by the way, has suddenly developed sociological research tendencies. He wanders far from his life of ease and is seeking new experiences and a change of diet in some dark alley of Chicago.

According to Mrs. Rose, Mickle asked permission, in the cat language, to be allowed to leave his soft pillow and venture into the outer world. Once outside the door, he disappeared and has not been seen since, although a diligent search has been made.

Mickle, like the other two cats, is shaved after the most approved fashion for poodle dogs. Every summer, as soon as warm weather arrives, Tommy, Mickle and Dickie are taken to a veterinary surgeon and their long fur is carefully clipped from a point just behind the forelegs to another point near the end of their tails.

From this the owner, Mrs. Rose, believes her lost pet will be easily recognized among the million cats of Chicago.

Besides being carefully shaved each year, the three cats are given every attention possible. They are fed on especially prepared breakfast food, eat only the choicest cuts of mouse meat, are bathed in violet scented water every week, and drink only water and cream.

Each cat has his own special dish for his meals, and his own silver-mounted comb and brush. Mrs. Rose denied that the "nails" of her cats were manicured, but admitted that she kept them trimmed carefully.

HUDSON'S BAY COMPANY SCHOOL SHOES FOR BOYS, GIRLS, MISSES

ALTHOUGH school started on Monday many mothers will hardly realize their children's shoe requirements until the children have been attending school for a few days. In view of this we wish to call further attention to our well assorted stocks and to our ability to supply your children with well made, stylish, serviceable and correct fitting shoes. Furthermore, we wish to emphasize their high quality, also their splendid value at the different prices.

Girls' and Misses' Shoes: "Classic" Shoes are one of our best lines for girls and misses. They are made of the finest materials by skilled workmen and come in many smart styles. They also give splendid service and being made on "natural shape" lasts allow the feet to grow as nature intended they should grow; all sizes. Prices \$1.50, \$1.75 and \$3.00

Nail Brushes, 25c. Hair Pads, 25c. THESE PADS are different from most lines now on the market. One feature is that they are made of real human hair and another is that they can be removed when their condition demands it. A third feature is the price, which will speak for itself when you see the goods. Price 25¢ Notion Counter

Hatpin Specials: By purchasing a large quantity and by going to the direct source of supply we are able to offer you these Hatpins at 25¢, whereas they would command about 50¢ if bought through the ordinary supply source. The collection is large and varied and contains brilliant pearl and other stone settings, also antique and the new pear shape enamel pins, etc. Strong, steel pins fashionable short lengths. Wednesday morning and balance of week special. 25¢

Glass Jug and Tumbler Specials: It will certainly be worth your while to come and secure these two specials because both afford an exceptional saving. Made of pure clear crystal of a medium thickness. GLASS JUGS, hold about 3 pints, are 8 inches high and in the shape of a regular 50¢. This morning's special 25¢. TUMBLERS, match jug, plain, but nice shape. This morning's special, 6 for \$1.00. China Department, Second Floor

Boys' Suits For Fall and Winter Wear. IT WILL PLEASE mothers to find such a splendid assortment of Boys' Suits as that which we are showing for fall. Not only is there a wide range of smart styles, but also a splendid selection of distinctive patterns. Then there is the smart tailoring, the good quality materials and their good wearing ability, all of which qualities make them exceptionally good values at \$4.00 to \$12.50

RICHARDSON SAYS HYMAN KING TRIED TO BRIBE HIM Evidence is Not Corroborated; King is Remanded; Admitted to Bail

Colored Man Makes Gun Play to Frighten Robbers; Shoots at the Wrong Man

Winnipeg, Aug. 27.—On June second this summer, Winnipeg consumed more water than was pumped that day. Winnipeg is also face to face with a most serious water famine next summer. A much larger supply will be absolutely necessary then. The only source that can be possibly tapped in time is the Poplar and Crystal springs, an extension of the artesian well system estimated to cost \$1,000,000. To secure a supply from the Winnipeg river is out of the question, as it would take four or five years.

Magistrate Sanders said he did not think that it was the intention of Franklin to shoot Boucher, and he was willing to change the charge against the prisoner to one of shooting at random.

Magistrate Sanders said he did not think that it was the intention of Franklin to shoot Boucher, and he was willing to change the charge against the prisoner to one of shooting at random.

Montreal, Aug. 27.—Mr. C. H. Oshon, K. C., president of the Western Canada Power Company Limited, states that negotiations have been in progress for some time for the sale to Interprovincial of a large block of Power, approximately 40,000 horsepower, have been concluded, for the present, and Mr. R. F. Hayward, general manager of the Western Canada Power Co., who has been conducting these negotiations in London, is now on his way home to submit his board of directors a draft which it is understood has been approved by him. This contract, if carried out, will necessitate the enlargement of the Western Canada Power plant, which was contemplated at the time of the issuance of the annual report.

Low Prices and Terms Sell Many Pianos

Mason & Risch Great "Forced Removal" Sale of All High-Grade Pianos Offers Values Unparalleled in Calgary's Musical History.

SEARCHES MANY YEARS FOR LOST BROTHERS

Reno, Nevada, Aug. 27.—Through the persistent search made by a sister for her brothers who left their home in St. Charles, Quebec, twenty-six years ago, Mary Alda Bousquet has been rewarded in finding two of them and is in Nevada now attempting to locate the third brother that is estate may be settled up in Canada. Miss Bousquet said that her three brothers lived in San Francisco at one time, but they were ignorant of others' presence in the same city. One is a contractor in Oregon, the other is a carpenter in Oakland. The third brother, Amedee, was last heard from four years ago in Jackson, Amador county, Cal., where he worked in a mill. From there he left for Nevada where he previously had been located, once in Tonopah and again in Carson city. Miss Bousquet has been in every city in the country and almost every

Bladder Twine Shortage

Moose Jaw, August 27.—Hand to mouth is the position of the bladder twine situation. Only 8,000 pounds is left of 24,000 expressed to the Massey-Harris Co. Saturday. Another 30,000 at Moose Jaw Implement Company represents the city's entire stock with very little visible supply. Express orders are the rule now as Winnipeg seems typically indifferent to ordinary freight orders.

Emperor William is Better

Cassel, Hesse, Nassau, August 27.—The condition of Emperor William, who since Friday last has been suffering from a severe cold and an attack of muscular rheumatism, is improved tonight. His Majesty's appetite is better and it is possible that he will be able to leave his bed on Tuesday.

Bladder Twine Shortage

Moose Jaw, August 27.—Hand to mouth is the position of the bladder twine situation. Only 8,000 pounds is left of 24,000 expressed to the Massey-Harris Co. Saturday. Another 30,000 at Moose Jaw Implement Company represents the city's entire stock with very little visible supply. Express orders are the rule now as Winnipeg seems typically indifferent to ordinary freight orders.

Their appearance is inviting, every bean mealy and whole—never mushy. Their flavor is delicious—not equalled by any other kind. Choicest beans and pork with rich sauce, combined the DAVIES way. Made plain, with tomato sauce and with chili sauce. In 10c, 15c and 25c tins. Order one or a dozen from your grocer.

THE WILLIAM DAVIES COMPANY LIMITED TORONTO

ALL THE WEST IS GOING INTO DUDE RANCH GAME OF TRAINING COWBOYS

Life of the "Puncher" has a Glamour for the Average Easterner

Western Points Are Dotted With These Schools of the Dude Cowpuncher

Tenderfoot is Made Over Into a Broncho Buster in the Course of 60 Days

CHEYENNE, Aug. 27.—Are you a "dude"? If so, are you doing anything for it? If not, what do you do for it? I do. There are a thousand salaried men for you in the Rocky Mountains. There are ten thousand graduate cowpunchers as attendants. The vacation season is here and the dude ranching. You are or should be tagged and "it" for 30 days of 60 days on a "dude ranch" in our own wild and woolly West, cure guaranteed.

What are Dude Ranches? For there is a great new industrial institution known as the "dude ranch" that is overrunning the West. Dude ranching is proving a calling that is rivalling with that of branding the troglodyte maverick that seeks to elude the law—the tentacle of the mounted man-creature. Under the old regime, in the work of the open range, the horse wrangler was an important functionary. For he it was who looked after the well-being of the herd of mounts. Taking this man as a precedent, the individual who looks after the well-being of the errant tenderfoot who finds himself temporarily in the wilds is known as a "dude wrangler." So has the new industry of "dude ranching" and the new calling of "dude wrangler" come into being.

Location of Dude Ranches. All the West is going into the business of dude ranching. All that region between Glacier park, where the Rockies break over into Canada, and the extraneous grandeur, to Brownsville, where the Rio Grande empties into the Gulf and the Atlantic overruns the plains, is becoming the home of the dude ranch. From historic San Antonio and the plains of Arango, where Tom O'Connell was at home, to the top of the earth at Flagstaff, Ariz., and down to near to Sheridan, Wyo., are scattered schools in frontier life. They find their perfection, however, in the shelter of the Yellowstone National park, where the Rockies of Wyoming still boast regions of greater isolation from the disturbing foot of the locomotive. That greatest of national playgrounds is cut in half a western state full of scenery as good, and furnishes a breeding reserve for more of the wild things of the woods than are to be found elsewhere.

So it is in Wyoming that dude ranching has seen its highest degree of development. At Sheridan, skirted by the Big Horn mountains, which sheltered armies of Crow and Sioux Indians and boasted the Hole-in-the-Wall, the last stand of the desperate adeos of the Northwest—do dude ranchers outfit for trips through these regions of romance. At Cody, that town that took its name from Buffalo Bill and which rests in the shadow of a "hog-back" mountain, which is to be the tomb of this frontiersman when he dies, are fitted out other parties that outfit for journeys up the Shoshone river and into the national park by Sylvan Pass, a trip which is the height of the first lesson in the art of the plains. He is not allowed to ride long this first day. Instead, he is given a flash pole and directed to the forenoon he recalls the cunning of his youth in endeavoring to conquer the West.

Becomes a Cowboy. Probably a roundup is on at this time. As a preliminary to that annual gathering of the herds for branding, the horses must be brought to the corral. Great numbers of horses are used at roundup season and the majority of these run wild upon the range during the remainder of the year. After 10 months' freedom most Western horses are as vicious as when, in their youth, they first fought the bull of the rope. It is the best sort of wild west show to witness the catching and the riding of these range horses. Live with them there young horses to be broken each year, and the dude sees the whole process as it applies to the quality of its first training.

On his gentle pig the tenderfoot jogs along after the cowboys as they circle through the sections of the mountains on their drives for the cattle. He witnesses the concentration of the calves to give a good show, he sees the men of the range ride into the herd, single out the animals for branding fire. The second cowboy ropes the yearling by the hind legs, the animal falls and is held taught between them. The third cowboy seizes the animal by his side. Such is the work of the real life of the West.

Should the outsider select some remote near Ranches during the summer find many a trip that is filled with the fun of the big live of the early West. An excursion may lead to the Crow Indian reservation, where each fall the annual festival is held at the agency and the old traditions of the tribes are again called into being. Again the story of the man who rode his last stand and was out to the very place of its enactment. Again the story of the man who rode his last stand and was out to the very place of its enactment.

In Buffalo Bill's Country. All this is but preparatory, however, for "Dude Wrangling" is the refinement of the whole. It is the summer as the senior course in the visitor's education. He who wrangles dudes looks after their well-being on an extensive overland trip.

The best type of the Western town that today exists is Cody, Wyo. Here is a town of 2,000 souls pitched in the midst of a vast expanse of plain and hill and mountain, and inhabited by as choice an assortment of those active spirits that go to make up the new country as was ever gathered together. Cody is the gate to the Yellowstone park from the east. Around Cody are dude ranches innumerable, and from its vicinity annually wind scores of cavalades, the membership of which comes from all the world and the object of the wandering of which is the viewing of that array of natural wonders which are gathered to Uncle Sam that he has set it apart as a playground for his children to the end of time.

All the folks that gather at one of these dude ranches during the summer and have served their apprenticeship in the ways of the West and acquired sufficient vigor to ride a mile a day on horseback, take up this pilgrimage of wonder seeing toward the end of the season. Such a party as this is traveled but five miles out of Cody until it is in wonderland. It enters that perpendicular canyon of the Shoshone river which, a few miles further up, is blocked by a vast dam, the highest in the world which was erected by the reclamation service and which impounds the floods of the Shoshone river that they may irrigate the fertile valleys below. A day's ride further on is Pahaska, the home lodge of Buffalo Bill. Yet another day and the party mounts to snow-crested Sylvan pass, 8,000 feet above the sea, and the center of the wonderland of the world. The party is now in Yellowstone Na-

Even participate in the work of the branding pen. The wild horses of the Big Horn country lead past the greatest caught, tamed and ridden. These men of the West go out into the brush and bring back deer and elk and antelope and deer as prizes of the hunter. The guest may be likewise if he aims true and he falls not a victim to "buck fever." Pack trains, such as followed Lewis and Clark when they first pushed into this unknown, are made up and excursions lasting weeks are made into the mountains of the Tetons, of Yellowstone park, of the Tetons, of the Big Horn, are revealed. The deeps on up, the Dankees in the depths of great forests beside splashing waterfalls and hears the scream of the preying mountain lion.

What the Dude Does. The man of the East arrives at his selected resort after days on the train crossing the great prairie states, after a night in a borderland hotel of a small cattle town, and after three hours' ride from the station he is met by the painted face of an Indian or two from a car window and suspect that this is his host. He has heard of the cowboy galloping into town with his leggings and his swinging lariat, and he is so quiet and the town was not immediately shut up. With the cowboy and the Alleghenies in mind as his ideal of what a man should be, he has been appalled over the plain of the "dude ranch." So he reaches the Dude ranch.

Here he is assigned a comfortable bed in a log cabin or a shelter tent. The big ranch house is set down to a man's dinner of fresh meat, boiled vegetables, preserved fruit and milk. There is something in him that prevents his hand raising in protest at this simple style. It is funny that that satisfied feeling is so slow in coming. The dude never is that that feeling is to be strangely elusive through the weeks that he spends in the West.

On the morning the dude is assigned a horse and saddle and bridle all to himself. A guardian cowboy takes him in tow and the dude is the first lesson in the art of the plains. He is not allowed to ride long this first day. Instead, he is given a flash pole and directed to the forenoon he recalls the cunning of his youth in endeavoring to conquer the West.

All the folks that gather at one of these dude ranches during the summer and have served their apprenticeship in the ways of the West and acquired sufficient vigor to ride a mile a day on horseback, take up this pilgrimage of wonder seeing toward the end of the season. Such a party as this is traveled but five miles out of Cody until it is in wonderland. It enters that perpendicular canyon of the Shoshone river which, a few miles further up, is blocked by a vast dam, the highest in the world which was erected by the reclamation service and which impounds the floods of the Shoshone river that they may irrigate the fertile valleys below. A day's ride further on is Pahaska, the home lodge of Buffalo Bill. Yet another day and the party mounts to snow-crested Sylvan pass, 8,000 feet above the sea, and the center of the wonderland of the world. The party is now in Yellowstone Na-

BAND CONCERT TONIGHT AT ST. GEORGE'S ISLAND

- Containing "Laughing Love," "In the Shadows," "Hear Those Chimes," "That Raggedy Rag," "In the Gloaming," "The Subway Guide," "The Druid's Prayer," and "Summer-time."
- "God Save the King."

PRICE OF DIAMONDS STILL GOING UPWARD

Indianapolis, August 26.—Diamonds this year are 7 1/2 per cent. higher in the rough and about 15 per cent. higher or cut than last year, and the market in Amsterdam, Holland, is decidedly the hardest for the buyer in its history, according to J. C. Sipe, an Indianapolis importer, who has just returned from Amsterdam.

"The trouble with the market is that none of the mines are producing heavily, with one or two exceptions, and from those mines where the production is large a poor grade of stone is being taken," Mr. Sipe explained. "In fourteen years the price of diamonds has advanced 100 per cent. They began going up in 1898, and each year since there has been an increase. Only a short time ago I allowed a woman \$25 on a pair of earrings she bought from me fourteen years ago for \$150. Her husband had objected to her buying diamonds, she said. Though she knew the stones had advanced considerably in value, she was much surprised at the amount."

"I have made about \$10 a year for wearing these earrings," she said, "and my husband has bought four or five automobiles in that time, each of which he has traded back for considerably less than he paid for them. I guess my investment will compare very favorably."

Mr. Sipe spent four weeks on his trip, allowing a week for the journey each way and two weeks for buying in Amsterdam.

"In England the 'high cost of living' is making a more marked advance than it is in the United States," Mr. Sipe continued. "In London many persons with whom I am acquainted said that prices are going up at a great rate, and I observed that in the hotels I paid considerably more for food than ever before. For example, a piece of melon, for which in former years I never paid more than a shilling, cost me two shillings this year."

"It seems that that knocks out completely the argument that the high cost of living in this country is due to the tariff, for if free trade England is finding its cost of living advancing at a greater rate than it is in America, certainly tariffs have little to do with it."

BURIED UNDER LOAD OF COAL; ASPHYXIATED

Fireman Shoveling Coal From His Tender Discovers Dead Body

Moose Jaw, Aug. 26.—William Aiken, aged 38 years, a C.P.R. employe met death tonight in a remarkable and tragic manner. While a fireman shoveling coal out of his tender he came on what appeared to be a discarded shoe. He went to shovelling until another shoe and trouser leg appeared, then he set up a cry for help. Four men dug furiously until the body of Aiken was taken out, but in spite of expert first aid and medical attendance the man had died of asphyxiation.

It is presumed that Aiken had fallen into the tender just as it was being filled with coal. He was found in a few minutes before he was found. He leaves a family of four children.

Stocks are Fast Melting at this AUCTION SALE of High Class Jewelry

ALL previous sales records were broken Saturday when thousands of dollars worth of jewelry changed hands at prices never before heard of, for there isn't an inferior piece of jewelry in this store. The hundreds of eager buyers who have thronged the store each day of the sale furnish the best and strongest evidence of the exceptional values offered. Everything in the entire stock is to be sacrificed by auction, from the tiniest and cutest rings for little tots; the rarest gems in diamonds, to the most elaborate and massive timepieces. Of course we couldn't begin to enumerate all the beautiful things here—a veritable Aladdin's Cave. To fully appreciate the wonderful bargains being offered each day of the sale you should pay the store a personal visit. It will be well worth your while, for you are sure to see some article in jewelry you want—and pay what you can afford for it. Come.

HARPER, POWERS & CO.'S COMPLETE STOCK

Diamonds, Cut Glass, Solid Silver, Gold Goods

NOTE TO LADIES

Clocks, Watches, Novelties, Hotel Flatware

THE auctioneer is sparing nothing. Everything in our store is to be sold in record-breaking time regardless of former prices. Perhaps you have longed for a diamond, or a new watch, or a fashionable gold bracelet, or pendant—whatever you have longed for before and could not afford to buy—can be had now at the price you can afford to pay. Ask for what you want—pay what your purse will allow.

The many sensational price-cuts in every line of jewelry have created widespread interest among Calgary women— attracting them from every corner of the city. For their comfort and convenience we have reserved a section of the store for ladies only. Here you will have every opportunity to share in the harvest of exceptional values.

IT is a well known fact that everything ever bought from this store, the oldest established business of its kind in Calgary, has given absolute satisfaction. It had to do, for the owners never did things by halves. No shoddy or inferior grades of jewelry were bought—hence no cheap jewelry could be sold. And here all this immense stock of precious stones, silver, gold and cut glass is being practically given away. Better make the most of it while the opportunity is here.

OPTICIANS AND JEWELERS—RETIRED FROM BUSINESS

126 EIGHTH AVENUE EAST CALGARY, ALTA.

MEN, LISTEN!

There is not a drug on earth that cures varicocele. A great many doctors claim to remove this treacherous disease with poisonous applications and nerve-wrecking dopes, but they never show any proof of their cures. The reason is plain—they never cure.

Varicocele is the greatest strength-sapping scourge that afflicts men. Its influence reaches out over the entire vital organism, robbing the nerves, the stomach, the heart and brain of the nutrition which nature sends them.

The cause of varicocele is a congestion of blood. The circulation is checked and almost stopped. The blood vessels become twisted and dilated. The affected parts thus deprived of life blood, gradually waste away and a general breakdown in health often results.

The only way to cure varicocele is to remove the congestion of blood. Dr. V. G. S. does this.

They never did and never will. The Dr. V. G. S. knife will do it.

Of course, but that leaves you just part of a man.

The best way is to help nature cure. Electro-Vigor does that. It sends a gentle but powerful current of electric life into the affected parts, decomposes the stagnant blood and cleanses the veins by procuring a vigorous circulation of warm, healthy blood, which carries off all impurities and restores them to their natural healthy condition.

Electro-Vigor builds up strength. It increases vitality and power, and makes a man of you in every way. No pain or weakness can exist where there is plenty of electricity. You can have no rheumatism, no lamp back or

sciatica, no stomach, kidney or liver troubles, if you will keep your nerves filled with electric life.

Electro-Vigor is an electric body battery, applied while you sleep. It is not an electric belt, never needs charging, no trouble of any kind, for it makes its own power. Electro-Vigor has a special varicocele attachment, which gives the full force of current direct to the ailing part.

Asygarth Orchard, Kelowna, B. C.

Dear Sirs— I got your appliance for varicocele and weak back. I received a lot of benefit from it.

The varicocele veins seem to be reduced quite a lot and the tissues are firmer. I expect that by the next time I write you I will have a better report to send, as I will be able now to carry out your instructions in full.

Yours truly, JOHN BROWN.

TRAIL OF SMUGGLING GANG LEADS TO BANFF

Secret Service Men of Minneapolis Tracing Down Violators of Customs Laws

Jewelry and Clothing Ring Broken Will Now Go After Illicit Wheat Dealers

Minneapolis, Minn., Aug. 28.—On the ground that no criminal intent had been proved against the alleged smugglers of Minneapolis, John E. Wikie, head of the government secret service, has refused to divulge the names of the persons who are reported to have paid \$34,000 duty on smuggled goods.

George E. Foulke, the agent who collected \$28,000 in customs duties from one Minneapolis man and broke up a ring of smugglers in this city, declared he was going after the wheat smugglers now.

"I have about stopped the jewelry and clothing specialists," said Mr. Foulke, "and will now go after the grain dealers who smuggle wheat and other grains from Canada."

"All I am working on a case of wheat smuggling at Kenmare, N. D. There is a steamboat line operating on Lake des Lac, between Kenmare and Oxbow, Sask., which frequently give me trouble in seeing that its cargo is shipped in bond or that the bond is not removed. I expect to go to that locality tomorrow, after which I will proceed to Banff, Alta., in connection with another Minneapolis case."

UNUSUAL TITLES ADOPTED BY LONDON CLUBS

Names Derived From Queer Sources and Objects; Members Bound by Strange Laws

Secrets of Some Organizations Are Religiously Guarded From Curious Public

London, Aug. 27.—London is securing a choice collection of titles for new clubs. Picturesqueness is the essential. Hence we have the Club of the Golden Calf and the Black Cat Club—both well known institutions with titles that certainly arrest attention.

There is also a Ghost Club, whose secrets are so well guarded that it is unknown to the outside world.

It meets monthly in a private dining room of a fashionable West End restaurant and its membership is both limited and exclusive. Amongst the members are a titled chemist of a world-wide fame, Harley Street physicians, solicitors and a number of other men and a conjuror who is entitled to rank high in the list of popular entertainers.

Amongst the members are a titled chemist of a world-wide fame, Harley Street physicians, solicitors and a number of other men and a conjuror who is entitled to rank high in the list of popular entertainers.

But these clubs are not the only ones with queer names or unusual objects. Many of these clubs have been connected with matrimony, the members being either for or against the married state. In America there was organized some twenty years ago the Black Bean club for forty unmarried men of Geneva, New York. The membership was limited to forty, and the initiation fee of \$50 covered all the expenses. The club met only once a year, and at that meeting a box containing as many beans as there were members present was passed round. All the beans with one exception being white, the exception being black. The member drawing the black bean must, according to the solemn pledge taken on initiation, get married before the next meeting, and all pledge themselves to remain single until drawing the black bean. The expenses of the wedding were provided from the invested funds of the club, and included a wedding tour of three weeks and the complete furnishing of a seven-roomed house.

Bachelor Girls. Thirty bachelor girls in New York formed themselves into a self-governing Girls' Club not long ago. Every member made a solemn promise neither to marry nor become engaged for one year after joining, and the vows were renewable from year to year. The club badge was a pin in the form of a lathkey, and signified that the members did not require male escorts. The fines were \$25 for breach of the rules, \$5 for slowness, \$10. But the club rules declared that if a fines must be paid by the member. In Kansas there is a bachelors club which issues a catalogue containing photographs and descriptions of its members to eligible applicants.

One of the most extraordinary clubs London has ever known was the Sighing Club, the members of which were supposed to be wholly absorbed in the thought of their sweethearts. Each would hold in his hand a bit of ribbon, a lock of hair, a purse, or some other article belonging to the object of his affections, and from time to time he would address the article in terms of endearment, no other speaking being allowed. On initiation the member had to compose and recite a poem in honor of his lady, and at the meeting a fine was imposed upon the member who did not sing five times within a quarter of an hour.

By a curious coincidence the president of Switzerland, Louis Ferrer, is confined to his bed with a severe attack of gout, and it is doubtful if it will have sufficiently recovered his health to entertain the emperor next week.

GREAT WEALTH IN FORESTS OF DOMINION

Secretary of Forestry Association Explains How Many Benefit Thereby

Desires That All Land Fit for Cultivation Should be Given Settler

Vancouver, Aug. 28.—"There seems to be a great deal of misunderstanding about the aims and ideas of the Canadian Forestry Association. We are not at war with the lumbermen, and we are not opposed to the cutting of trees. We are opposed to the cutting of every tree as soon as there is a market for it. We want the farmer to stock the rarer and the fruit grower to have all the land suitable for their requirements."

The speaker was Mr. James Lawlor, secretary of the Canadian Forestry Association, who is staying at the Hotel Vancouver. He is in the city making arrangements for the annual convention which will be held in Victoria shortly.

"All land fit for cultivation should be cleared and made available," he continued, "but at least two-thirds of Canada is fit only to grow trees. The great question is to make this area revenue producing. Take the province of Quebec for instance. If it could secure a revenue such as the United States get for their forest lands it would derive the sum of six hundred millions annually. That can be done by a proper system of reforestation. Keeping the forest growth in full production means maintenance of streams and rivers at an even level and a consequent enhancement of the water power."

"What has the common man to do with the question of forest protection and preservation? Fully seventy per cent. of the cost of the timber in the lumber yards goes to labor. If one hundred millions worth of timber is burned by forest fires it means a loss of seventy-five millions to the general public."

"To get good results in forest protection the government must be backed up by public sentiment. The province has adopted a forward policy in this regard, and the forestry experts from the East will learn something when they come to the convention in Victoria."

London, Aug. 27.—A miserable fiasco is the term used by the Pall Mall Gazette in referring to the reported intention of Holland to order four dreadnoughts of 17,000 tons each, to be constructed in England and to be armed with thirty-two heavy Krupp guns.

Canadian and Australian ships, according to the gazette, are being backed up by public sentiment. The province has adopted a forward policy in this regard, and the forestry experts from the East will learn something when they come to the convention in Victoria."

Not only is the order being considered, but it is reported that the orders of the Netherlands will be very enthusiastically welcomed by Germany, because British building itself is being hampered.

The Fatherland must surely realize, argues the journal, that British delay in fact, the order is restricted to those while at the same time the order from Holland calls for an armament with guns of German design, as well as the construction of some dreadnoughts in use in the German navy.

Salzburg, Austria, August 27.—The reception of the Anglo-Canadian delegation visiting Austria for the inauguration of the Canadian Pacific railway in London.

Business men here declare that the official trade returns give a small idea of the trade Austria already does with Canada, via Germany, Belgium and American ports. Among the more important articles of commerce purchased by Austria from Canada are coal, all the nickel for the new dreadnoughts and other warships under course of construction, and practically all the whisky used in Austria. Canada also sends agricultural machinery and implements, canned fish, timber, skins and other goods to Austria.

What Austria Now Sends to Canada. In return Austria sends to Canada carpets, gloves, electrical goods, linens, silks, bruses, smoking tobacco, pianos, and bentwood furniture.

As the trade between the two develops, it is anticipated that the powerful Austrian Lloyd steamship Company who acted as hosts to the deputation in Trieste, will establish a direct service between Montreal and Trieste, which is the Adriatic port for the Hinterland now served by the Canadian Pacific.

Mr. W. L. Griffith, secretary to Lord Strathcona, speaking for the Canadian government, said the British and Canadian people are deeply impressed not only by the glorious scenery and the links with imperishable history and romance of the past, but by the warm-heartedness of the people and their obvious desire to come into closer relations with Canada.

"As his excellency has truly said," remarked Mr. Griffith, "the world now begins to recognize Canada as a young giant and Canadians feel it a high privilege to be able to take part in what their hosts are proudly calling a conquest of hearts. It was the first conquest Austria ever endured without bloodshed. This triumph Anglo-Canadian tour is, judging from experience, likely to have developments highly beneficial to both countries."

Must Come to Canada and Be Charmed. "We Canadians," added Mr. Griffith, "have come to Austria and you have charmed us. Now you come to Canada and we will charm you."

Other Austrian ministers represented in the party are the minister of railways, the minister of commerce, the minister of public works and also the diet of lower Austria.

The Austrian state department has made the announcement that beginning the end of August its general agency in London will be located at the head

SUN YET SEN IS FOR YUAN SHI KAI FOR PRESIDENT

Says He is the Ablest Head Available for the Executive Office

London, Aug. 27.—In speeches to two of the leading Chinese societies at the meeting of the Sun Yat Sen Club, the former provisional president of the Republic, emphasized the need of abating party strife and of devoting their energy to the construction of new administrative machinery, the form of strong central government, according to a despatch received by the Times.

Mr. Sun said he believed that Yuan Shi Kai was the ablest head available for the executive office and he strongly urged Yuan's reappointment as president. After the elections Dr. Sun said he did not intend himself to engage in active politics, but would use his personal influence to promote these ends.

MANAGERIE IS FOUND IN LODGING HOUSE

Paris, Aug. 24.—For some time the commissary of police in the Quarter of the Boulogne had been receiving complaints from the tenants of a house in the Rue Richelieu that the occupants in the fifth floor kept their men awake by imitating the sounds of different animals. The proper place for the exercise of such talents, they held, was the stage, and not a reputable dwelling, where everyone went bedtimes to bed. The law moved at last, and the inquirers of the commissary discovered not a ventriloquist with a distorted idea of humor, but a veritable menagerie. In fact, the tenant of the fifth floor was an explorer but lately returned from the Congo, who, no doubt, to assuage his nostalgia for the life of the wild, had installed in his rooms several men and a number of apes, parrots, badgers and snakes. He has been registered to transfer his miniature menagerie elsewhere.

EMPEROR MAY FOREGO THE SWISS MILITARY FESTIVITIES

And Confine Himself to Attending the Manoeuvres; Swiss President Also Ill

Geneva, Switzerland, August 28.—The sudden illness of the German emperor is placing Swiss governmental and military circles in somewhat of a quandary. Preparations for the reception of his majesty are almost completed and it is now reported that he may abandon his intended visit to witness the Swiss army manoeuvres. In any case it seems probable that Emperor William will forego the proposed festivities arranged in his honor and will confine himself to attending the manoeuvres.

By a curious coincidence the president of Switzerland, Louis Ferrer, is confined to his bed with a severe attack of gout, and it is doubtful if it will have sufficiently recovered his health to entertain the emperor next week.

WALDO PROMISES EXPOSE OF DIVE OWNERS

New York, Aug. 26.—Police Commissioner Waldo has caused a sensation in connection with the underworld, graft inquiry by the announcement that he is having prepared for publication a list of the owners of property occupied by dives and dens of vice in this city.

Waldo intimated that the public would be amazed at the number of so-called eminent citizens whose names would appear. He asserted that his purpose in doing this is to show critics of the police department the influence with which these men have to contend when they endeavor to close the town.

The exodus of keepers of dives, gambling places and hangouts for gangsters, as a result of the various investigations now under way and proposed for the immediate future, continues. Particular fear is felt in view of the

REES, ROES AND FINDLAY

CASTLEMAN RANCHER HELD FINE TALE OF THE SEA WITH FOR MURDER THREAT DETAILS LACKING

Nelson, B.C., Aug. 26.—Charged with threatening to murder G. M. Annable, of Moose Jaw, brother of the mayor of Nelson, a Castleman rancher named H. E. Cleugh has been committed for trial by P. J. Gleaser, J.P. Annable is manager, and the prosecution claims that during a business discussion Cleugh threatened him with a rifle.

Priestened at Cleugh's behavior, Annable says he hid in the bush and the escaped to Arrow Lake boat. He went to Victoria and gave information to the police, Cleugh warning him not to come to Nelson.

M. M. Annable is a brother of H. F. Annable, of Taber, who had Jack Carroll before a Taber magistrate on an attempted murder charge a week or so ago.

London, Aug. 26.—Archdeacon Maden in a speech at Bridlington quotes one of the officers of the steamship Mauretania as saying that when this steamer was crossing the Atlantic his attention was attracted one night by a woman stowing on the water. He stopped the engines and called the captain. Nothing could be seen, but a boat was lowered and rowed in the direction of the voice. The woman was singing "Jesus, Lover of My Soul." The sailors found the woman with a child in her arms tied to a raft.

She had been singing the hymn in prayer, as she was convinced there was no hope of herself and child being saved. She was taken aboard the steamer.

The date of this alleged occurrence is not mentioned.

The Boxing Championship

Calgary August 1912 To The Sports of Alberta Gentlemen

The Lightweight Boxing Championship of Canada between Joe Bayley and Billy Allen, will be held on September 4th in Calgary's new Arena at 10.45 a.m. sharp. The Blue & White Street Cars run out to the Arena, also Automobiles and Carriages will leave the C. P. R. Depot at frequent intervals at reasonable charges. LEPROSY SUSPECT IS FOUND

IN VANCOUVER Chinaman Being Held Pending Closer Scrutiny by Dominion Health Officials

Supposed Skin Disease Now Believed to be Evidence of Ancient Malady

Vancouver, August 26.—What is considered to be a case of leprosy was discovered on Thursday. The patient is a Chinaman named Leon Chen, who is now in strict isolation pending action by the Dominion medical authorities.

The medical health department was at once notified and a further examination was conducted, which confirmed the opinion already hazarded. Communication was at once opened between the city health department and the Dominion station at William Head and the medical health officer is now awaiting instructions from the medical officer at this depot, who will decide at once whether to take the action that should be taken.

Inquiries were instituted and the hospital authorities made no effort to disguise the situation. It is understood that the malady from which the Chinaman is suffering is not of a virulent type and that there is no danger from further infection. The man had not been in even the most remote contact with any other patients, and the medical officers that have been employed in isolation are such that no greater peril is offered to other patients than if he were in some distant city of China.

No sooner had the symptoms manifested themselves than the Dominion authorities at William Head were notified, and all danger of possible infection have been absolutely eliminated.

Contrary to the prevailing opinion, leprosy is not a very infectious disease. It is communicated not by contact, and even then only under peculiar conditions. Its rapid spread in Oriental countries is caused by the crowding together of people in one another's dwellings. The fact that nurses and Sisters of Mercy have dwelt for years in close communion with sufferers without becoming infected is the strongest proof that where sanitary measures are invoked it does not readily obtain a hold.

JEWISH ORDER TO COLLECT AND IMMIGRANTS

Vancouver, Aug. 25.—On a mission of defence of the immigrants who will come to the Pacific Coast when the Panama Canal has reached Vancouver. He is president of the great Jewish order, the B'nai B'rith, and as such he is first taking up the work with that order, but this, he explained, is but the commencement of a movement which is spreading through all the Pacific Coast cities.

He predicted there will be an immense influx of from 150,000 to 200,000 immigrants the first year of the canal's high way is opened. These immigrants, coming farther afield than the other immigrants, will be more numerous and more intelligent, and therefore Dr. Nieto maintains, Western persons ought to get the most advantageous of not exploit the newcomers.

However, the new work which is being undertaken is not only against the exploitation of the immigrant, but for the organization of bureaus of information where the strongest force will be enabled to get data on any section of the country which strikes their fancy and appeals to them from a financial point of view.

"The immigrants the West will get on account of the Panama Canal will be the most adventurous, and therefore the best," said Dr. Nieto. "They are weaker of the immigrants, as is generally known, scarcely get any distance from their places where they land on the Atlantic Coast. Those who have come West are the hardier and more intelligent, who want to be located instead of being content to be led."

CUTS UP HUSBY'S TROUSERS THROUGH JEALOUSY

Sullivan, Ind., Aug. 26.—Because she was jealous of her husband, who she said dressed in the latest fashion while she was compelled to dress in the old-fashioned style, Mrs. Isaac Healy appeared in front of an undertaking establishment where her husband is employed as a horse driver and that to pieces of new pair of trousers her husband had just bought and left at home. She was arrested on a charge of larceny and fined \$1 and costs.

FEATHERED BEAR TOO MUCH FOR WILLY FOLKS

Uncanny Apparition Causes Many Sap-Tappers to Sign Temperance Pledge

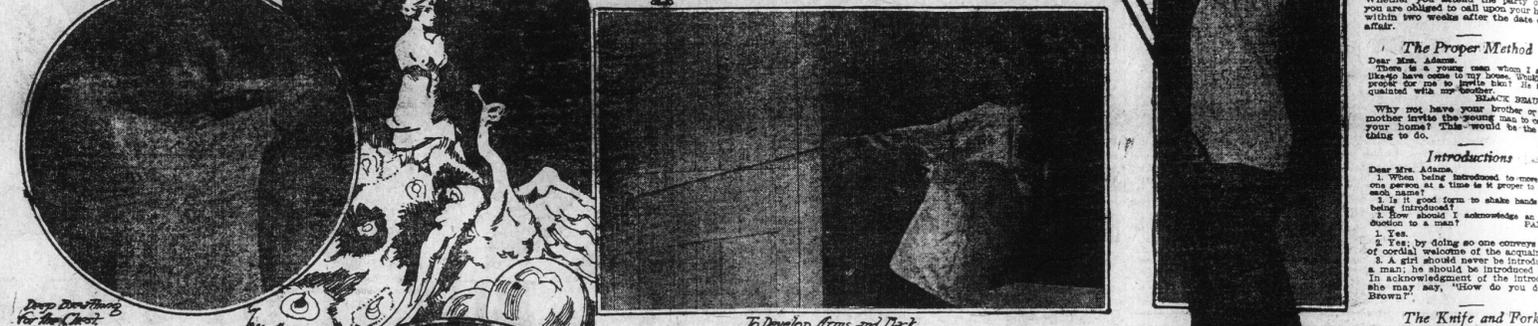

Bangor, Aug. 26.—When a man sitting on his own doorstep after his day's labor can see feathered bears wearing tin helmets racing by faster than the wind, it is not surprising that it does seem that there is a screw loose somewhere.

"I ain't been takin' more'n half a mug's common, but I see that bar with feathers on the tin hood over his head that's sure 'ere bark on a log," declared Charles W. Boundy, of Mora plantation, who is named as being the first to see the bears.

"I ain't no spirit, and I don't take no stock in no bears. What I see 'ere is a Curly part of it all, I didn't have a drink that day, nor the day afore that, and that's what I can see."

CONCERNING HEALTH and BEAUTY

By MRS. HENRY SYMES

How to Obtain a Perfect Figure. This subject to be considered today is how to obtain a perfect figure. Inborn in every woman's nature is the desire to be beautiful, and to have a lovely face, hair, eyes and skin, a perfect form.

How to Obtain a Perfect Figure. We have grown, perhaps, to womanhood without taking care of our bodies. We have not been taught to develop our muscles, and the right shoulder is higher than the left, the one hip larger than the other, or, maybe, as a little girl we stooped over our lessons until our backs were rounded instead of flat, our chest narrow and flat, making it impossible for our lungs to expand properly, and ourselves easy prey to lung trouble or pulmonary disease.

How to Obtain a Perfect Figure. Perhaps our limbs are thin and undeveloped, the abdomen too large, or, in some cases, there is too much fat on our bodies, and flabby muscles should be firm.

How to Obtain a Perfect Figure. These are some of the things that must be overcome if it is to be a perfect figure, but it is not always possible to correct these things. Some are of long duration and bones and muscles have grown tough, or hardened, and with persistence, exercise and massage, a straight, strong, and supple figure can be developed.

How to Obtain a Perfect Figure. For general exercise there is no better method than pushing the bag. This brings into play all the muscles of the body, and develops the arms, chest and back especially.

How to Obtain a Perfect Figure. Stand erect with the inflated bag on a level with the shoulders, and punch it with swift, steady strokes, five or ten times at first, increasing the number each day until you feel fatigued.

How to Obtain a Perfect Figure. Use one hand, then the other, and as many different motions as is possible for you to master.

How to Obtain a Perfect Figure. To give agility and strength to the lower limbs the skipping rope is useful and especially so when used with the following exercise.

How to Obtain a Perfect Figure. Skip the rope in just the same way as you did when you were a little tot, but do not skip with the feet, but with the hands, and keep the feet steady on the ground.

How to Obtain a Perfect Figure. Walk with the hands clasped behind the head and breathe deeply to help you obtain a straight, strong, and supple figure. A very pleasant lotion is made of the super-saturated solution of borax in water, and every one with a supple figure should use it.

How to Obtain a Perfect Figure. Rub this lotion on the face, neck, and chest, and it will give you a perfect complexion. It is especially useful for the face, and should be used every day.

How to Obtain a Perfect Figure. The cucumber wash is also a very useful preparation. It is made of cucumber juice and water, and should be used on the face and neck.

How to Obtain a Perfect Figure. The cucumber wash is also a very useful preparation. It is made of cucumber juice and water, and should be used on the face and neck.

A BAD ARBITRATOR BETTER THAN A SUCCESSFUL

While England Thinks of Panama D

Opines That British and Canadian Diplomacy Will to Settle Panama D

Says Germany is Territory for the Pu of Colonization

Ottawa, Aug. 26.—A luncheon given by the British and Canadian Legation to the guests included members of the cabinet and the former government, among them Sir Wilfrid Laurier, Hon. W. T. Hon. W. B. Nantel, Hon. W. J. Reid, Hon. W. J. Rodolph Lemieux, and S. Fielding.

In proposing the toast, Sir Wilfrid Laurier, pointing out how Canada's position with the United States has been settled during the dried years, without arms, said a bad arbitrator better than the most war. Touching on the armament in Europe, he said that Canada should be into it to settle her part of a race. In England, you have armaments and wars in Canada, armaments and wars in Europe.

As to the German peril, that Germany was only a danger for Germany, there was enough for Germany to embrace Great Britain's war. He mentioned the Panama canal dispute, which he believed that British and Canadian diplomacy would be able to settle.

A BAD ARBITRATION IS BETTER THAN MOST SUCCESSFUL WAR

While England Thinks of Armaments, Canada Thinks of Railroads and Public Works

Opines That British and Canadian Diplomacy Will Be Able to Settle Panama Dispute

Says Germany is Seeking Territory for the Purposes of Colonization

OTTAWA, Aug. 27.—At a luncheon given today to visiting British financiers and legislators at the Chateau Laurier, the guests included several members of the Dominion cabinet and the former Liberal government, among them being Sir Wilfrid Laurier, Hon. W. T. White, Hon. W. T. Crothers, Hon. W. B. Nantel, Hon. J. D. Reid, Hon. W. J. Roche, Hon. Rodolphe Lemieux, and Hon. W. S. Fielding.

In proposing the toast to the guests, Sir Wilfrid Laurier, in pointing out how Canada's differences with the United States have been settled during the past hundred years, without resort to arms, said a bad arbitration was better than the most successful war. Touching on the race for armament in Europe, he said: "Thank God, Canada shall never go into it to settle her difference by such a race. In England, you think of armaments and wars in Canada we think of canals and railways and public works."

As to the German peril, he believed that Germany was only seeking territory for colonization. He believed there was enough for Germany without embroiling Great Britain into a national war. He mentioned the present Panama canal dispute to say that he believed that British and Canadian diplomacy would be able to settle the satisfaction of all concerned.

Sir Arthur Lawley, a former governor of South Africa, said that he had recently taken part in the reception to the Canadian premier at the Royal Colonial Institute in London. He said that Mr. Borden told of his work in settling together a nation in Canada. He stressed the heart of every Briton, however self-centred and emotional he might be.

Our welcome to Mr. Borden was no mere act of courtesy, but it was the hand-grip of citizens of a common empire. Touching on the matter of imperial union, he said that at the present time the union of British self-governing dominions was being promoted for the purpose of defence. He proceeded to testify this way of looking at the world situation. Europe was just now "in a war," he said, "and the world's greatest military power and the second greatest naval power, was arming herself prodigiously for no possible reason. At the same time, Britain might find herself embarked upon a colossal fight, and he would insist the intelligence of his audience by pointing out the inevitable effect on Canada of a great continental war.

How more comfortable at the present time to prattle about perpetual peace," said the speaker, "but the most potent factor in the world's peace today is the British navy."

SHORT NAP IN WAGON COSTS SLEEPER \$150

It is cheaper to get drunk in Calgary than to get sober, according to Edward Rosen, who arrived yesterday from Edmonton with something more than \$150 in his pocket. When he told his troubles to the police yesterday afternoon, he said he might have sufficient of the coin of the realm left to get him to Field, B.C., where he was going to take a job. According to Rosen, \$150 was too much money to have in one's possession and not celebrate the event, therefore he razed upon the wine while it was red and likewise found a brand of Scotch that had a kick in it like an elephant. It was one kick from the latter that made him desire to take a nap, so he wandered into the rear of a heavy establishment and took the right-hand berth in a delivery wagon, and was soon in the arms of Morpheus. He was rudely awakened by someone jostling through his pockets. He arose in time to get him to Field, disappearing through the heavy bars. Leaping out of the wagon he started in pursuit, calling to a man spraying whistles with a hose to catch the thief. "And what do you suppose that fellow did?" asked the victim of the deaf sergeant at headquarters. "He turned the hose on me and near drowned me, and the thief escaped."

\$20,000 FIRE IN MONTREAL

Montreal, Aug. 27.—Fire about noon today did about \$20,000 damage to the warehouses of the Alaska Feather and Down company, St. Ambrose street. The warehouses were entirely destroyed. Three cars loaded with lumber on the railroad siding went up in the flames. It is believed spontaneous combustion was the cause. The damage was confined entirely to the warehouses. The factory was again in operation fifteen minutes after the blaze was put out. Mr. Chartrand, manager of the Alaska Feather and Down company, said the loss was covered by insurance.

BONUS FOR WORKMEN

MOOSE JAW, Aug. 27.—A crisis occurred today in the labor situation when the city decided to bonus workmen in connection with the city's water supply from Caron Springs, 25 miles from the west. These men contracting labor will receive \$1 per day extra during the contract, provided they remain on the job thirty days.

Good Housekeeping

BY JANE EDINGTON

Green Corn Relish

At this season of the year there is usually a lot of green corn relish. A friend of mine makes the following, which is a great favorite in her family. Green Corn Relish—Park 1: Four large onions, one large cabbage eight red peppers, twenty ears of corn, one cup and a half of sugar, one-half cup of salt, one quart of vinegar. Bring these to a boil. Three tablespoons of mustard, one tablespoon of turmeric, one-half a cup of flour, one level tablespoon of celery seed. One scant quart of vinegar. Dissolve the mustard, flour, and turmeric in the vinegar until there are no lumps, add to the other ingredients, and cook all for thirty minutes. This makes six quarts. Recipes for this relish are rather rare. There is not one in any of my collection of cook books, standard or other.

Sweet corn for any purpose is best cooked as soon as possible after picking, as it heats and loses its sweetness, which some cooks restore artificially by making a syrup of sugar in the water in which it is boiled. In the city there is a little experience with real green corn. Even when it is possible to get fairly attractive green corn in the market there is a great difference between this and that which is straight from the stalk. The difference is in the texture of the corn, but it is almost perfectly cellulose and perfectly digestible; therefore it is a little rougher on the digestion. Yet people in certain sections of the country have corn on the stalk, which is not only at dinner, but at other meals.

MAYORALTY HANDS ACROSS THE BIG CONTINENT

Mayor of Halifax on the East Salutes the Mayor of Vancouver on the West

Many Civic Big Bugs Attend Convention of the Union of Canadian Municipalities

Windsor, Aug. 27.—The Mayor of Halifax, N.S., shook hands with the Mayor of Vancouver, B.C., in Windsor this afternoon, and greetings were exchanged between other mayors and other prominent citizens who are gathered in Windsor for the twelfth annual convention of the Union of Canadian Municipalities. President W. K. McCreary, city clerk of Fredericton, N.B., outlined some of the problems that are confronting the union in his address, referring to the question of government by commission, agitation for revision of assessment laws, town planning, and the movement for good roads. One of these questions, that of revision in assessment laws, was brought out before the convention at an evening session by papers on municipal taxation by Alderman Jos. Clark of Edmonton and Alderman W. Hepburn, of Vancouver. In both cities the system of taxation has been adopted, the papers and the discussion, which followed indicated that the system of assessment in the older cities in eastern Canada in many cases are opposed to it. "The triumph of our land tax in Edmonton is shown by the fact that in 1908 we had building permits to the value of \$1,500,000, while in 1912, the first year all taxes other than land taxes are taken off, they were \$1,500,000.55 said Alderman Clark. "If the previous ratio had been continued it would have required \$9,000 population to justify this expenditure, while our population is approximately \$5,000."

6,000 SUFFRAGETTES IN COLUMBUS PARADE

Women Who Would Assume Cares of State Trudge Through Ohio's Capital

Columbus, Ohio, Aug. 27.—Approximately six thousand women, including many of the best known people of the state, paraded the streets here today in the annual Columbus parade. The parade was the most spectacular event of the Columbus centennial, and was the beginning of a day devoted almost entirely to the women. The procession terminated at a noon and at once dispersed to a number of meetings and learned that the parade was a success. A feature of the parade had been the soap-box carried by many of the marchers. When the march ended these boxes were distributed to every corner of the business section, and were at once taken by orators, who expounded the suffrage and the rights of women. At Memorial Hall 3,000 sympathizers gathered during the afternoon to listen to the further speeches of Dr. Anna Shaw, Dr. LaFollette, and Mrs. Harriet Taylor-Upton of Warren, O. president of the Ohio League for the Promotion of Women's Suffrage, were the chief speakers.

BOOTH MEMORIAL SERVICE WILL BE HELD WEDNESDAY

A public funeral service for the late General William Booth will be conducted at the Salvation Army Auditorium on Wednesday evening of this week, at 8 o'clock. The proceedings will be conducted by Adjutant Howell, the officer in charge of the local corps. A special programme is being arranged, and amongst the speakers will be Dr. Kerby, Rev. J. A. Clark, Hon. W. H. Cushing, and others. The Salvation Army silver band will be in attendance, and render appropriate music. All Christian friends and citizens of Calgary are cordially invited to join in paying respect to the memory of the Army's beloved leader.

THE "SHORT CHANGE" GAME DID NOT FOOL EX-POLICEMAN

Mr. Bert Fisher, on Whom They Tried Swindle, Lands Two Men in Lockup

Trailed to Subway and Taken to Uniformed Constable Who Was Waiting

Men Now Held Believed to be Those Who Have Victimized Many Pool Rooms

BERT FISHER'S experience as a former policeman stood him in good stead last night. People who were swindled by him and the police now have looked at headquarters two men whom they believe have been swindling a number of pool rooms and clear streets by what is known as the "short change" game. The men gave their names as Geaves and Short, and it is claimed the police have been looking for them for some days. According to Mr. Fisher, who manages the Clarke cigar store, he was sitting between Eighth and Ninth avenues, the men entered the store shortly before ten o'clock last night, and immediately offered to shake dice for the cigars. He was accompanied, and started a story about his "short change" game. The other asked to see the dice, and Fisher laid out another five the man picked up this and then, reaching into his pocket extracted the first five and handing it with the five in change all ready counted out, shoved it over to Mr. Fisher, thus hoping to pay him back five in his own money, and making five by the transaction. "When I saw this," said Mr. Fisher, "I remarked that he was evidently trying to work the old 'short change' game. He then made some excuse and went. I was some minutes in taking the trail, and learned that just after trying the game on me they worked it on a merchant near the city hall, and saw them just entering the subway beneath the C. P. R. tracks in the mountainous building to seek a policeman. When I overtook the men I used the same measure, grabbing each by the shoulder and taking them to the police."

CALGARY IN BRIEF

R. N. Anderson and wife, of San Francisco, are stopping at the Empire. Charles Nevin has returned from Edmonton. A. Blundell left the city yesterday for Lethbridge.

R. R. Roberts returned to the city yesterday, few days' business trip in the south. Dr. Wade, medical superintendent of the I. O. F. is leaving today for a three weeks' vacation.

Bruce Campbell, vice-president of the Winnipeg Advertising company, is in the city on a business trip. Several large catches of fish have been reported at Chestermere Lake. Anglers say Pike fishing at this lake was never better.

The Calgary Trades and Labor council have appointed Messrs. from New and Laraway as their representatives on the technical school committee.

The Associated Charities announce that two car loads of beds and bedding have arrived from Regina. By Thursday night these beds will be installed at the exhibition grounds.

The remains of Abel Millster Rawn, aged 67 years, were shipped from Harrison & Foster's undertaking parlors to Prosser, Wash., U. S. A., on the 8:30 train Monday night for interment.

H. M. Rogers and company, realty agents, of First street east, are expected to have approved Messrs. from New York state points. Most of this party are land seekers and may make their homes in Alberta.

C. Bartsch, of Gleichen, one of the foremost farmers in that district is very suspicious of strangers. He reports that his vicinity crops are in first class shape and that harvesting is well underway.

Detective Tucker, late of the Calgary police force, is in the city, registered at the Yale. Detective Tucker is in the city on business in connection with the provincial detective department.

R. Sommerville was taken to the Holy Cross hospital yesterday as a result of an accident while stepping off a moving train at Calgary junction. He suffered three broken ribs and several cuts and bruises.

J. Goldsmith, a farmer of the Wetaskiwin district, is registered at the Dominion. He says the crops will be both late and good this year, and that there will be no binder twice shortage in his district.

Col. Robert Gundry of the 103 Battery Royal Artillery, of Aldershot, England, was a visitor to the city yesterday and registered at the King George. Col. Gundry said it was his first visit to Canada and from what he had seen he believed it was a young man's country.

Chief Cuddy received word yesterday from Deputy Sheriff J. A. Erickson, of Moody County, North Dakota, that a police officer was on the way to Calgary to take Edward Bell, alias Miles, back to the States. Bell is wanted in that country for forgery. He was arrested by Detective Cox yesterday.

Helan Alva Pipe—the death occurred yesterday morning of Helan Alva Pipe, beloved daughter of Mr. and Mrs. Ernest Pipe, 1302, Fourth street east, the funeral place from the Harrison and Foster's chapel, 230 Twelfth avenue west, on Tuesday afternoon at 2 o'clock. Interment in Union Cemetery.

A letter has recently been written the Calgary Exhibition company asking that organization to start a riding academy in the new horse show building. The exhibition directors are averse to starting such a riding school, declaring that it would be interfering with several private businesses.

Harvesting is in full swing in the Stettler district, and a record crop is being cut, is the report brought by J. Good, of that progressive young town. The Stettler district is very friendly, declaring that it would be interfering with several private businesses.

Chief Cuddy will not let up on the holdup men, on men, or vags, and his intention is to get them all, even if the cells are filled to overflowing during the Stampede. When all other resources have been exhausted, the chief will erect tents and chain the prisoners. This move would be something new in police procedure, but the chief would even go to that extent rather than let the hobos run wild about the city.

Because J. Robinson could not pay for his game of pool at the Peterson pool room on Ninth avenue east, the same Peterson took two or three punches at Robinson. Robinson was brought before Magistrate Sanders yesterday morning for not paying his dues. The magistrate severely lectured Peterson for taking the law into his own hands, and stated that Peterson had no right to punish the man. The case was dismissed.

GIRL IS DROWNED. Chatham, Ont., Aug. 27.—Genevieve Taylor, the ten-year-old daughter of George Taylor, a prominent merchant here, was drowned this afternoon at Erieau, while bathing.

QUALITY TELLS AND QUALITY SELLS

AND THEN HE WENT OUT

MRS. NAGG—Don't you think it's about time that girl of ours was getting married? Mr. Nagg—Aw, let her wait until the right man comes along. Mrs. Nagg—Why should she? I didn't.—New York World.

JUST A LITTLE FARTHER ON. AFTER North Carolina voted to be a "dry" State, its citizens became very suspicious of strangers. One day a commercial traveler went up to an old negro in a little town in the Eastern part of the State, and said to him: "Say, uncle, if you will lead me to some place where I can get a drink, I'll give you two dollars."

The old dandy looked him over carefully, accepted the two plunks, and said: "All right, boss; jest foller me." He led the thirty one through the town, on through the suburbs, into the country, and then started due west.

After they had traversed about five miles in silence, and still nothing in sight, the man asked: "Look here, Mose! Where are we going after this drink?" "We's gwine ovah into Kentucky, boss; we can't git nuthin' in dis State."

THE ONE THING CERTAIN. "So you want me to tell you something about your future husband?" asked the fortune teller. "Yes, I do," replied the young thing. "Well, have you an idea what sort of a man you want to marry?" "Oh, yes; indeed I have!" "Why then, I can tell you he will be very different from that!"

SHE CAME PROVIDED. It was a hidden spot on the seashore. The waves lapped contentedly, the sun shone sweetly, and everything was quiet and peaceful.

The yard of sandy space between them had delimited to two feet, to one foot, to nothing. They watched the seagulls skimming round the white cliffs, and she told him that her name was Edith.

"Edith's a sweet name," he declared. "Ow you men flatter!" she murmured.

He edged still nearer. His arm was in the vicinity of her giraffe nose. "Ere," she said, as she flashed a pair of men's gloves from her vanity bag, and glanced at her white plique waistline. "It's your's, you see, to be friendly, you'd better wear these! My boy's a policeman, and he's a nut on finger prints!"

DIFFERENT NOW. "He lost his money shortly after we named the baby after him."

OH, CRUEL LOVE. THERE was a sound of revelry by night. The Blaggies were giving a party.

Mr. Blagg had just obliged with the touching ballad, "The Love That Makes the World Go Round," and Master Blagg seized the opportunity to sneak behind a screen with father's pipe. Shortly afterwards it was observed that the White wasn't well. His face was pallid, and his eyes stood out. Cried Mrs. Blagg: "Goodness, child, what's the matter? I do believe you've been smoking!"

"Wasn't that, ma," he replied, untruthfully. "It's true what father's been singing about, I—I must—be—loved!"

MARTIN J. WILCOX DEAD. Auburn, N. Y., Aug. 27.—Former senator Martin J. Wilcox, for many years an "Old Guard" leader in Albany, died late today of arteriosclerosis. As a member of the old organization he was elected regularly to the state senate and it was not until his vote in the race track fight against Gov. Hughes that his political career ended. The opposition to his attitude on the race track bill was sufficient to control the senatorial convention.

MOOSE JAW'S ASSESSMENT. Moose Jaw, Aug. 27.—This city's assessment has been fixed at 11 4-6 mills.

SCOOP, The Cub Reporter, by 'HOP'

CROOK AND HIS METHODS REVEALED BY PLAIN CLOTHES DETECTIVE

(Continued From Page 1)

Once a swindle or crime of the greater magnitude is uncovered, the reporter is bound to investigate it to its very end so far as that case is concerned. Then he renews his labor of analyzing mankind.

MR. TREGILLIS' CRITICISM OF FILTRATION PLANT

Says Ratepayers Have Right to Know What They Are Called Upon to Pay For

An Albertan reporter called on W. J. Tregillis and asked him how he had seen Mr. Child's remarks re filtration plant. Mr. Tregillis said "Yes! My attention has been called to a paragraph containing Mr. Child's remarks, and let me say that my statement was not made for the purpose of embarrassing or annoying the city engineer, and the statement with regard to the system was made on the authority of a medical man who has recently been touring Europe and the continent of America investigating all kinds of plants, and is thoroughly qualified to give an opinion, and I am quite right in making the statement that the filter recommended for Calgary, wherever it has been faithfully tried, has not been a perfect success, and I repeat, why should Calgary not have the very best? We do not want a filtration plant in Calgary which has been discarded, and is considered by those in a position to know to be obsolete.

CONDUMNED SYSTEM ON AUTHORITY OF MEDICAL MAN WHO INVESTIGATED MATTER

The health officer reports for the month of August will show that at the present time there are about seventy cases reported for this month. On August 5, the date of the meeting of the local board of health to consider the typhoid situation, the medical officer furnished a list of typhoid cases at the hospital showing approximately 70 cases reported during July, and up to August 8. The report for this month will of course include the seventy cases of typhoid reported between July 31 and August 8.

FARMERS ARE EAGER TO JOIN MOVEMENT

potatoes have simply been driven out of the local markets by misrepresentation in order to get the best of the Alberta farmer.

CHICAGO WHEAT

Chicago, Aug. 27.—The belief that the United States wheat exports to Europe will be larger this season than ever before, helped the market today to rally last night. Latest trading last corn at 98 to 102. Flour at 1-2 to 1-4; oats up to 98 to 102.

CHICAGO CATTLE

Chicago, Aug. 27.—Cattle receipts 2400. Market slow and generally steady. Choice steers 45 to 49.25. Western steers 42.50 to 49.25. Cows and heifers 32.50 to 44.00. Calves 30.75 to 35.00.

TORONTO CATTLE

Toronto, Aug. 27.—Receipts were light. Market slow. Choice steers 45 to 49.25. Western steers 42.50 to 49.25. Cows and heifers 32.50 to 44.00. Calves 30.75 to 35.00.

CHICAGO WHEAT

Chicago, Aug. 27.—The belief that the United States wheat exports to Europe will be larger this season than ever before, helped the market today to rally last night. Latest trading last corn at 98 to 102. Flour at 1-2 to 1-4; oats up to 98 to 102.

CALGARY'S WATER AND GERMS OF TYPHOID

(Continued From Page 1)

mechanical type of filter as compared to the slow sand and gravel filtration method. The slow sand and gravel filter is a filter for Calgary except recommending the type by which the sand and gravel are filtered. It is a filter which is mechanically by means of blowing air through the filter from valves in the bottom, thus obviating the necessity of removing the sand to clean the filter. Both the Roberts and Jewell filters are of this type.

FARMERS ARE EAGER TO JOIN MOVEMENT

potatoes have simply been driven out of the local markets by misrepresentation in order to get the best of the Alberta farmer.

SALE OF TICKETS FOR THE STAMPEDE NOW TOTALS \$48,760

(Continued From Page 1)

Already the city is filling up with visitors who are coming in advance and becoming settled before the excitement begins to pour their thousands into the hotels.

ENGINEER CHIEF REPLIES TO HIS ASSAILANTS

my communication to the commissioners at that time, more than eight months ago, read as follows: "I have investigated more than a year, and it is found after considerable enquiry, extending over a year, that the only way to get rid of discoloration is by a chemical treatment of the water supply to filtration. With this in view, the next procedure was to find the most reliable and effective method of filtering. The choice as to this matter between what is known as the slow sand and gravel filter, and the mechanical filter, Skatkschewan, with its conditions somewhat similar, has after considerable investigation, adopted generally the mechanical process, principally on account of the smaller space required for these works and the reduced cost of operation and upkeep."

OLD COUNTRY KEEPING PAGE

More Opportunities Than Ever. There are more opportunities for employment in the Old Country than ever before, and more money is paid for the services rendered. The government itself is doing wonders in this respect. It is a wonderful thing to see the progress of the working classes, as for instance, the old age pension act, which has been passed, and which will be a great boon to the old people. The recent insurance act, which has also been passed, will be a great boon to the working classes. The Old Country people, declared Mr. Skinner, take the war talk very seriously.

MONTREAL PRODUCE

Montreal, Aug. 27.—Butter is steady. Cheese is fairly active. Provisions in fair demand. Eggs—Finest Easterns 13-12 to 13-5. Finest Westerns 13-12 to 13-5. Choice creamery 26-14 to 26-12. Seconds 25-12 to 26.

TORONTO STOCKS

Toronto, Aug. 27.—Trade in local securities was again dull today, and with only a few exceptions the movements in prices are hardly worth mentioning. The investors, however, continue to buy small lots, and the floating supply of securities appears to be within bounds. There was quite a good rally in C. P. R. abroad, and higher here with a slight uptick in some of the only sales were at 27 1/2 and 27 3/4.

NEW YORK STOCKS

New York, Aug. 27.—The congressional recess, further confirmation from high officials and unofficial quarters of the brilliant crop outlook and the demand for steel, iron and copper were the chief factors which imparted general strength to today's stock market. London's high prices and the general rise in the market were also influential factors.

CALGARY LIVE STOCK AUCTION MARKET

THE MARKETS

Winnipeg Wheat

Winnipeg, Aug. 27.—There was active trade on the wheat market in futures during the early hours, but later it was quiet and dull with a final spurt at the close on unfavorable weather conditions. Prices opened 3-8, lower for October, 1-2 lower for December, and May wheat was sold today for the first time at 50 cents. The lower values were due to lower Liverpool cables, on weather clearing in Great Britain, increase in the world's visible and weaker American markets at opening.

Montreal Stocks

Montreal, Aug. 27.—A late rally in C.P.R. following the forenoon improvement put the price back to 27 1/2. So also absorbed some of the buoyancy and advanced to 15 1/2 full point improvement on the early price. Cement added to its early rally, going to 30 while Detroit, just the same, going back to 11-2. The balance of the list was quiet and unchanged. Power at 234-2; Scotia 31 and Car 86. Quebec railway was inactive and 257-8 bid.

New York Stocks

New York, Aug. 27.—The congressional recess, further confirmation from high officials and unofficial quarters of the brilliant crop outlook and the demand for steel, iron and copper were the chief factors which imparted general strength to today's stock market. London's high prices and the general rise in the market were also influential factors.

DO YOU WANT CHEAP LUMBER

Fifty-two Yards in Alberta—Two Yards in Calgary

Few people appreciate that there is quality in lumber the same as there is in tea, or in paint, or in most other articles. Cheap cut lumber or green lumber in better grades will build a house that, when well painted, will look fairly well for a few months. Such a building in our extreme climate soon takes on a dilapidated cheap look, making it difficult to sell, difficult to rent, and uncomfortable to live in.

We have always made a specialty of the highest quality, and owing to the tremendous size of our business we are able to buy on a basis that permits us to sell our lumber for as low a price as would be generally asked for a poorer quality. This has built up our large business—the largest in Western Canada.

Before building inspect our stocks and permit us to give you evidence that quality considered, our prices cannot be beaten. Particular people use our lumber, if your contractor obtains his lumber from us it is a sign that he is a particular man and demands the best of everything.
