Bradshaw and the Months

Although the provision "D. V." has never figured on railway time tables, a close examination of Bradshaw reveals a trace of strong religious feel-ing. On the cover the months are re-ferred to by their numerals—"1st mo." for January, "2d mo." for February, and so on. Bradshaw as a Quaker ob jected to taking the names of the onths from heathen emperors and deities, and this prejudice has been perpetuated since the first issue of the time table in 1841.-London Answers.

To put this new system of simple living in effect begin with a destruction day. Fix in your mind that it is the clutter of civilization that really bothers you and determine that you will rid yourself of much of this clutter.

Begin in your living room. Think of the beauty of Japanese houses, the furniture of which consists of a few screens, a few pieces of good pottery and some embroidered wall panels Get a picture of a Pompeian house and study the effect gained therein by bare spaces and roomy airiness.

It's the Custom Nowadays to Serve Callers With Light Refreshments. Afternoon teas are the fashionable fad of today and without doubt will become even more popular as time goes on. Dear Mr. Editor:--Thanks for your kindness in allow-ing me the privilege of appealing at this Christmas time on behalf of the Hospital for Sick Children, Toronto. It would take more space than you can spare to tell of the good work done for the sick and deformed children of this Province. Let me, however, in a few words, tell you of the progress of the work of the Hospital. One nurse, six little white beds, a few dollars, a few friends--this was the beginning. The beds have grown to 250, the dollars to thousands, the friends to hundreds. 1875, the first year, 44 in-patients, 67 out-patients; 1913, last year, 1,648 in-patients, 25,507 out-patients; 1875, 1 nurse; 1913, 70 nurses. nurses.

nurses. Since 1875, thirty-eight years ago, the Hospital has admitted within its walls 21,018 children as in-patients, and 159,231 as out-patients, a total of 180,249, or an average of 4,743 per year. Of the 21,018 in-patients, 15,200 were from Toronto, and 5,818 from other parts of the Province; 10,150 of the total in-patients were cured, and

other parts of the Province; 10,150 of the total in-patients were cured, and 6,367 were improved. " In the Orthopedic Department last year, of the 1,648 in-patients, 278 were treated for deformities, 25 hip disease, 37 Pott's disease, 2 knock-knees, 19 bow-legs, 62 club feet, 8 lateral curva-ture of the spine, 44 infantile paralysis, 6 wry neck, and 75 tubercular disease of knee, hip and ankle. In 1913, the Surgical Apparatus Shop manufactured 427 appliances for in-patients and out-patients, including ankle braces, spinal braces, hip splints, bow-leg splints, patients, including ankle braces, spinal braces, hip splints, bow-leg splints, club-feet splints, plaster jackets, etc. In this Department in 38 years near-ly 800 boys and girls have been treat-ed for Club Feet and 650 corrected. Haif of these came from places out-side of Toronto. Surely we have a fair claim for help from the people of this Province.

fair claim for help from the people of this Province. Will you, the reader of this letter, help to give crippled children a fair start in life? Busy dollars are better than idle tears. The sympathy that helps is good, but the Hospital has to have the sympathy that works. Toronto, Dec. 16 .- Receipts for to-day

Toronto, Dec. 16.—Receipts for to-day at the Union stockyards were 71 cars, with 1,020 cattle, 902 calves, 1,146 hogs and 206 sheep and lambs. Practically all the choice, well-finished Christmas beef cattle have now been marketed. The high prices realized have had the inevitable effect of attracting the poorer and unfinished in the market. The abattoirs and wholesale men are prob-ably well supplied with beef for the holi-day trade. These conditions were felt on the market to-day. While prices may not be quotably lower for anything choice still the average quality is lower and trade was a little slower to-day. The market waa barely steady, being helped

Do you ever realize that each one of those "cases"—mere items in an official record—is a black tragedy to somebody, that behind each one of them lies long, hopeless days of pain, feverish nights of despair, lifetime plans that must be laid away, grinding poverty, perhaps a wife to fight her own way afterwards or children who know hunger now that the father is gone.
