

PROBS: Moderate winds, mostly southerly; fine and moderately warm

BULGARIANS GAIN UPPER HAND IN ALLIES' INTERNECINE CONFLICT; TURKS PREPARE TO ENTER FIGHT

Contradictory Reports to Belief That Servians are Suffering Defeat in Inhumanly Feroocious Battles.

LONDON, July 7.—(Can. Press.)—The most important news from the east of war today is the report, confirmed from Sofia, of the appearance of a large Bulgarian force at Vrania, threatening the Servian line of retreat.

Still more significant as tending to confirm the belief that the Servians are suffering defeat, is the announcement from Belgrade that only meagre reports are being received from the Servian army headquarters, and that the government has decided to publish reports only on alternate days. In addition, a rigorous censorship on the newspapers is being enforced, and the publication of special war editions has been stopped.

The Servian wounded describe the battles as almost inhuman in their ferocity, the men throwing away their fire arms and using their bayonets as daggers. This accords with the information from many sources of the sanguinary character of the fighting and the wholesale slaughter witnessed in the present struggle.

Whatever the policy of the European powers may be, little is now heard of attempts to stop the war. The ambassadorial conference met in London again today, but apparently did little else than discuss the boundaries of Albania. Meanwhile, Roumania and Turkey give signs that they will not long be idle spectators if the Balkan states continue the struggle, which will paralyze them for years to come.

Reports Are Contradictory

News of the fighting continues to be of a contradictory character. It is almost invariably from official sources in the respective capitals, no independent testimony being available. This applies equally to the struggle between the Greeks and the Bulgarians and between the Servians and Bulgarians.

A despatch from Saloniki reports that the Greeks have occupied Demetrichor and Strumitza, and according to the most likely information, the Bulgarian Gen. Ivanoff has been slowly retiring before the superior Greek forces northward since his army was weakened by the departure of his right wing to attack Krivolak.

It should be noted that another despatch asserts that Gen. Ivanoff, by an unexpected attack, shattered the Greek army of 30,000, commanded by King Constantine, and occupied Nigritia and other points on the Greek line.

It is possible that both reports are correct and that crediting victory to Gen. Ivanoff has reference to a later date, after the Bulgarian commander was reinforced.

Greeks Prevented Attack

An interesting detailed report from Greek official sources of last week's operations describes how the Bulgarians, by incessant labor had transformed Kilkish into another Plezna, with a surprising extent of trenches, guns and defenses, and asserts that the Greeks, by their successful advance, prevented the execution of a plan for a Bulgarian attack on Saloniki.

POLICEMAN SEES BURGLAR ESCAPE

Instead of Giving Chase Over Fence, Goes Round in Front of Store to Head Him Off—Is Foiled.

A thief broke into J. A. Gallagher's drug store, corner of Jones avenue and Gerard street, early yesterday morning, getting out of the store with \$15 of stamp money and escaping arrest, while a policeman stood still and watched him go.

Walking down an alley at the side of the drug store, the policeman on the beat stood at the gate and watched the retreating burglar climb the opposite fence a few feet from him. Instead of giving chase by climbing the fence after him, the officer thought that by returning to the front of the store he could head him off as he came thru a back lane, but his man never showed him much to his indignation.

According to police records, this burglar seems to be the man who is operating at stores in this locality. He generally managed to force his way thru a back window, as he did in this case. He evidently is a very particular person as to what he wants when he does get a store to himself, as he will not touch anything but "cash." Several cases have occurred where he has rifled nearly every drawer, had a chance of stealing stamps, cigars, etc., but if there is no money he quietly makes his getaway.

TURKS TO FIGHT

STANTINOPLE, July 7.—(Can. Press.)—The Sublime has sent a telegraphic message to the Bulgarian premier, Dr. Danoff, requesting the evacuation by the Bulgarians of the territory comprised within the Enos-Midia line as soon as possible. The necessary preparations for the advance of the Ottoman troops are proceeding.

BUMPER YIELD SAVS SIR WILLIAM

C. N. R. Will Bring Western Wheat Thru Toronto—Passenger Service and Doubletracking.

This winter should see cars of wheat from the Canadian west passing thru Toronto over the Canadian Northern Railway, on to the grain elevators at Montreal. Sir William Mackenzie, just returned from the west, was highly hopeful of this when seen by The World last night. The line is already laid from Port Arthur to more than 200 miles beyond Edmonton, and the remaining portions of the line between Port Arthur and Toronto, and between Toronto and Montreal will be finished in a few months.

Sir William declared he saw no indications in the west but those which pointed to this year's crop being a bumper one. While prophesying that last year's harvest would be broken, he considered it a little too early to form an estimate as to the grain yield.

Altho the money stringency had made it more difficult to place the securities, no lasting harm would result, and the western financial was most emphatically of the opinion that six or eight months from now would see the financial condition through the world on a par with the normal state.

He did not agree with those who laid the cause of the money tightness, to the war in the Balkans. While this had, of course, played a part, the main cause had been the expansion along all lines of business, due to world-wide prosperity. This had used up all available money and the business had to be reorganized in order to bring conditions back to normal.

Passengers to West

Until the completion of the Capreol-Ottawa wheel line, out of next year, the wheat will go by way of Toronto-Quebec service from Quebec to the west. The important announcement was made by Sir William that as soon as the transcontinental was in operation attention would be given to double-tracking the line from Port Arthur to Winnipeg. This is to be followed up by the double-tracking of the entire transcontinental line. An evidence of the way the C.N.R. accomplishes what it sets out to do, was shown by the fact that this railway had laid more than five hundred miles of steel since the beginning of the year, a railroad record.

With the completion of the transcontinental the strengthening of the royal line will be taken up.

New Coal Line to Toronto

When the line from Toronto via Hamilton to Niagara Falls is built, a new coal line into Toronto will be ready for operation. As there are several railways crossing the Niagara River into the States, Sir William did not think the building of an additional bridge necessary. "While an arrangement with an American road has not yet been made, it is possible that the C.N.R. would secure an interchange of traffic with several."

A concentration of their attention on the completion of the transcontinental, had prevented the C.N.R. pushing ahead with the line to Windsor, but Sir William gave the assurance that it was to come.

ENTRANCE TO DEN THRU CITY SEWER

Well Equipped Gambler Joint Found by Police Under Pittsburg Street.

Special to The Toronto World. Pitted July 7.—A well equipped gambling den, located beneath the street, the main entrance to which was a big city sewer, was raided by the police of this city late last night. Twenty-two men were captured as well as a large amount of money, and Lieutenant Barry, with a squad of plain clothes, was looking for small game. When they passed Logan and Pasture sts., they saw a light flash from a hole in the sewer, and the police proceeded about 75 feet thru the big conduit they came in front of an opening, which led into a large subterranean room, where the crowd of players were busy waging their money.

FOUND CLAY BELT EXCELLENT FOR AGRICULTURE

Dominion Government Experts Pronounce After Trip From Abitibi to Winnipeg That Only Twenty-Four Per Cent. of Big Area is Not Suitable for Farming.

WINNIPEG, July 7.—(Can. Press.)—Making the trip by "speeder" under conditions that at times were distinctly hazardous, two experts of the Dominion department of agriculture, Messrs. J. H. Grinsdale, director of experimental farms, and George H. Clark, seeds commissioner, arrived in Winnipeg after a long journey covering ten days along the line of the National Transcontinental Railway between Abitibi and Winnipeg, studying the agricultural possibilities of this new territory that is being made available for settlement by the Grand Trunk Pacific.

The "clay belt" along the railway line commences about 150 miles west of Cochrane and extends westward as far as English River, near Grant, a distance of over 400 miles. The general character of the land throughout this belt is fairly uniform. West of the clay belt between Grant and Superior Junction, the country is characterized by rocky and gravelly hills, interspersed with sandy intervals, occasional outcrops of clay and an abundance of small lakes and streams. A very small percentage of this country is suitable for agriculture.

When Wind Struck Sails on Canoes, Every Man Had to Look Out for Himself—All Were Expert Swimmers, But Only Five Had Strength to Swim.

BUFFALO, N.Y., July 7.—(Special.)—A canoe containing a sweater inscribed "University of Toronto" floating down the Niagara River this morning gave the first inkling to Buffalo and the people of Fort Erie that the lives of five college boys had been added to the total of deaths from yesterday's storm. Ten of them were making a week-end canoe trip thru the Welland Canal into Lake Erie and down the river again to Chippewa.

There were four Toronto boys in the four canoes making the trip. Three were drowned, others were rescued. The boys were from the University of Toronto, Ontario, and the University of Toronto, Ontario. Police Capt. Ward said that Brophy, Kayner and Reichert worked at Niagara Falls, and that their times are in Toronto.

REVOLUTIONARY PARTY ORGANIZE

Twelve Thousand South African Strikers March at Funeral of Riot Victims.

JOHANNESBURG, July 7.—(Can. Press.)—Many of the gold miners refuse to return to work. At a meeting held in Union Park this afternoon, militant leaders delivered fiery speeches to the 3000 assembled, and a resolution declaring that the strike is still on, and condemning the strike leaders, was carried.

One of the chief speakers announced the organization of a new union of South African workers, which, he said, would be a revolutionary party.

Efforts are now being made at Braamfontein to bring out the railway workers. A dispute is on over the actual terms of settlement, which Gen. Botha, the ex-premier, and Gen. Smuts, minister of mines, made with the unions.

An attempt to destroy the railroad between Johannesburg and Gormiston was made during the night, but failed. The only newspaper published today was a four page sheet issued by the Printers' Union.

Twelve thousand members of the trade unions marched today at the funeral of the victims of the riots. Immense crowds lined the route. The Right Rev. Michael Bolton Purse, lord bishop of Pretoria, officiated. He begged the multitude to return to their homes peacefully, out of respect for the dead.

The spokesman of the trades federation made a similar appeal. "Disperse quietly," he said. "Let none say that we are a disorganized rabble."

At the end of the ceremony the Socialists assembled outside the cemetery and sang "The Red Flag."

FIVE UNIVERSITY STUDENTS ARE DROWNED THREE FROM TORONTO, WHEN PARTY OF TEN ARE THROWN FROM CANOES INTO THE LAKE

Four Graduates of the University of Toronto and Six Companions Who Attended McGill, La Salle and Ohio Universities, Started Out From Crystal Beach on Sunday Night in Five Canoes to Make a Trip Down the Welland Canal, But An Off-Shore Gale Struck Them, and Before the Leaders Could Warn Those Following All the Canoes Were Overturned in Waves Ten Feet High, With the Result That Only Five of the Party Were Saved.

COULD NOT SAVE HIS DROWNING PARTNER

When Wind Struck Sails on Canoes, Every Man Had to Look Out for Himself—All Were Expert Swimmers, But Only Five Had Strength to Swim.

BUFFALO, N.Y., July 7.—(Special.)—A canoe containing a sweater inscribed "University of Toronto" floating down the Niagara River this morning gave the first inkling to Buffalo and the people of Fort Erie that the lives of five college boys had been added to the total of deaths from yesterday's storm.

There were four Toronto boys in the four canoes making the trip. Three were drowned, others were rescued. The boys were from the University of Toronto, Ontario, and the University of Toronto, Ontario. Police Capt. Ward said that Brophy, Kayner and Reichert worked at Niagara Falls, and that their times are in Toronto.

Upon finding the canoe with the sweater the local police telephoned along the shore and finally learned that the canoe in which the boys were was refused to let themselves believe that their details had been swept away in the storm.

A World Representative Visited

Crescent Beach tonight and got the details of the accident from G. C. Gray, a student at Toronto University. "We came to Crystal Beach on July 4, and had been staying at a cottage there until Sunday," said Gray to The World tonight.

"Late Sunday" afternoon the entire party started off on the return to Niagara Falls. It was our intention to make back thru the Niagara River to La Salle.

"Coming down the lake towards Wind-Mill Point, we felt an off-shore wind which we did not feel at Beach. There was a heavy sea running at the time, and we found that it would be dangerous to keep on so far from shore."

"Goodrich and myself and the two Cannon boys, who were paired off in our canoe, were leading, and they had turned back to the shore. We put up our sail but had to drop it because of the wind."

"The next thing I knew two canoes had gone over. I can't remember whose canoes they were. It was getting dark, and I can't recall very well."

Gray was in a very nervous state as the result of his experience. He had spent the night with his companions in a vain search for his brother and the other four young men who are missing. They had no trouble before reaching the Wind-Mill Point, he said.

How They Paired

According to Douglas McMahon, the partner of the boy who was killed in the lake: George Gray and Carl Goodrich, Douglas McMahon and Walter Frantz, William and Joseph Cannon, Reginald McMahon and Thomas Cannon, and Albert N. Kayner and Edward Reichert.

Five members who are alive did not want to cause their friends and relatives at the Falls and Toronto unnecessary worry, so on Sunday evening no word was telephoned home. The party was expected to be home at that time but when the young men went away they told their parents that they might be late in getting back, so no word was sent until a late hour today those in the group that reached land would not even hear that their companions had been lost, because they said all "could swim like fish." They were stout in the belief that the five unaccounted for had been picked up or were successful in getting to some shore or shelter.

NAMES OF THE FIVE DROWNED AND FIVE WHO WERE RESCUED

REGINALD McMAHON, 19 years, Niagara Falls, Ont.
THOMAS BROPHY, 20 years old, attended Toronto University; employed by the Toronto-Niagara Power Company, Niagara Falls.
ALBERT N. KAYNER, 922 Whitney street, Niagara Falls, attended Toronto University; employed at Niagara Falls.
EDWARD REICHERT, aged 18, attended Toronto University; employed at Niagara Falls.
CARL GOODRICH, La Salle, attended McGill University.
DEAD
G. C. GREY, 23 years old, Niagara Falls, Ont.
WALTER FRANTZ, aged 22, graduate of Toronto University, Niagara Falls, Ont.
DOUGLAS McMAHON, 21 years old, Niagara Falls, Ont.
WILLIAM CANNON, aged 20, Niagara Falls, Ont.
JOSEPH CANNON, aged 21, Niagara Falls, Ont.
RESCUED

GALE CAUGHT THE YOUNG MEN MIDWAY BETWEEN TWO BEACHES

Cottagers Saw Canoes Battling Against Great Waves, and When They Overturned Several Large Rowboats Put out to the Rescue, But Saved Only Five.

Five young men, members of prominent families of Niagara Falls and La Salle, N. Y., were drowned in Lake Erie Sunday evening, when a sudden gale overturned the canoe in which they were paddling down the lake. The dead are: Reginald McMahon, Albert Kayner, Thomas Brophy and Edward Reichert of Niagara Falls, and Carl D. Goodrich of La Salle. They ranged in age from 17 to 22 years, and were students in chemistry at Niagara Falls laboratories. Four of them were students at Toronto University.

The party, comprising ten young men in five canoes, left Niagara Falls, Ont., on July 2, following the Welland River into the Welland Canal, and thence to Lake Erie. They spent Saturday and Sunday at Crystal Beach, on the Canadian shore. Early Sunday evening they left there, intending to make Crescent Beach, a distance of about ten miles, before dark.

SYLVIA PANKHURST IS ARRESTED FOR IGNORING COURT SUMMONS

Several Other Suffragettes, Including an American Woman, Were Taken Into Custody While Holding a Public Meeting at Bromley—Miss Pankhurst Accused of Inciting Downing Street Raid.

LONDON, July 7.—(Can. Press.)—Miss Sylvia Pankhurst was arrested, together with several other suffragettes, at a meeting at Bromley tonight. A warrant had been issued for her arrest because she had failed to appear at Bow street police court last Saturday morning to answer a summons charging her with inciting a crowd to raid the residences of the ministers in Downing street, on June 29th.

ROBBER'S HANDS WENT UP; HIS VICTIM'S DOWN

Motorists were easy money to a slick youth operating on Kingston road on Sunday last. He reversed procedure in the hold-up game by throwing up his hands and yet getting the loot. Selecting a portion of the road that did not produce clouds of dust to interfere with his operations, he scattered a few broken pop bottles. When cars approached in either direction he threw up his hands and brought them to a stop.

"You'll cut your tires on this glass," he would yell.

He was all to the good. The drivers had only thought for their tires. They threw him quarters and steered around the glass. They were all in too much of a rush to suggest to him that he remove the glass.

TEN FOOT WAVES SWAMPED ALL CANOES

Sudden Wind Struck the Party and Before Those in the Lead Could Give Warning, the Ten Young Men Were in the Water Fighting for Their Lives.

NIAGARA FALLS, Ont., July 7.—(Special.)—When five canoes in which they intended to make a trip from Crystal Beach down thru the Welland Canal to Lake Ontario were swamped by the heavy sea on Sunday night, five young men were drowned, and five others saved their lives by swimming to shore. Two of the overturned canoes were washed ashore at Strawberry Island, near Fort Erie, two more were found at Crescent Beach, and the other has not been found.

The five men drowned, probably were carried away by the swift current of the Niagara River. The young men, all of whom were graduates of the University of Toronto, were all members of the Niagara Canoe Club, and they all had covered the same waters before.

The party left Crystal Beach on Friday morning, and were to have returned on Saturday. The high winds, however, prevented them from leaving on scheduled time, and they did not start on their homeward trip until six o'clock Sunday night.

Until they rounded Windmill Point, the party of ten encountered very little wind, with scarcely any sea. The lake was sheltered by the point.

Waves Ten Feet High

No sooner had the canoes rounded the protruding neck of land at the point, however, when they all were overturned by a strong wind. So sudden was the wind that the leaders had no opportunity of warning those who were following. One after another, the canoes were overturned and the occupants thrown into the water. The waves, according to the five survivors, were at least ten feet high.

George Gray, who came recently from Toronto, to accept a position with the Toronto and Niagara Power Company, at Niagara Falls, Ont., was the first to reach shore. While swimming against the high waves, he tore off all his clothing except his undershirt, and was almost exhausted when he reached the shore.

He at once spread the alarm among the campers at Crystal Beach. Campers and residents of the summer colony lost no time in setting out in boats in an effort to save the young men.

The Cannon brothers, William and Joseph, were found a short distance out, bravely swimming and cheering each other. They were hauled into the boats and taken to Roshill, where their mother met them.

All Night Search

Several hours after they had been picked up, the Cannon brothers were informed for the first time that they were not the only ones saved. It was meantime that Gray and Douglas McMahon had been rescued and cared for by the cottagers and campers. They were given every attention, but upon learning that there were others of their party who had not been found, they insisted on joining the campers in an effort to locate their chums. Bon fires were lighted at different points along the beach and an all night search was kept up for the five missing men.

Carl Goodrich of LaSalle was seen by his companions to topple from his overturned canoe and disappear beneath the great waves.

Relatives of the young men were notified and at once hurried to Crystal Beach. Some of them, hoping against hope that the five who had not been located had been picked up by some passing steamer, sent messages all along the lake and to all lake steamers in port at Buffalo and to watch for the missing men.

It was late this morning before news of the accident reached Niagara Falls, and Buffalo had not heard of it till nearly noon.

Nifty Norfolk Suits

For the hot weather, you need a two-piece Norfolk Suit. We have a splendid range of patterns and nicely tailored garments to meet your needs. No matter how hot it is you'll feel the comfort of a light weight two-piece suit. Of course, we can sell you any other style you wish but the Norfolk Suits are all the go just now. The prices are reasonable too, fifteen to twenty-three-fifty, and fitted to you in a few moments' time.

Play Days for the Boys

We have all kinds of clothing for the active boys who are hard on their clothes during the holiday season. Wash Suits, Khaki Suits, Crash and Linen Suits, Light Weight Tweeds and Worsteds. Priced from \$1.50 to \$15.

OAK HALL, CLOTHIERS

ALTERNATIVES FOR T. H. & B. ARE THREE

Hamilton Will Ask Them to Join in Common Entrance With Other Railways.

ABOLISH CROSSING

By Either Raising or Depressing Tracks if Entrance Proposal Not Agreed To.

The World understands that when the question of a common entrance and union station in Hamilton for the Toronto, Hamilton and Buffalo, Grand Trunk and Canadian Northern comes before the Dominion Board of Railway Commissioners in that city next week, the city will ask that the T. H. & B. (owned by the Canadian Pacific and New York Central) consent thereto, or withstand a motion to either raise or depress their tracks as now located. While the T. H. & B. would prefer to raise their tracks, the city would most probably fight to have them depressed. Either of these alternatives, if ordered by the board, would cost from two and a half to three million dollars; a third the cost of a joint entrance would be a somewhat smaller sum. If they further allege that the union station would involve abandonment of their present uptown one, the reply will be made that the new joint station at the corner of James and Murray streets would be more convenient for everyone, would be as near to the business centre (the city hall) and that the increase that has accrued in the value of their present station over its original cost would compensate for any such abandonment. It is therefore hoped that the T. H. & B. will see it in this light and accept the joint plan prepared by several of the leading engineers of the Dominion. And especially in such a settlement sought by the citizens because the Canadian Northern have announced as soon as the entrance question is out of the way they will immediately proceed to construct their Hamilton-Toronto line. All these works would let a lot of money in circulation, would improve the general facilities of the place, and add much to the standing of Hamilton as one of the great manufacturing centres of the province. Hamilton with its numerous factories, her enterprise, hopes to be in the front of the great development of Ontario that is now at hand.

MORE FACTORIES CREATED BY OZONE

Essential for Economical Processes of Oxidation.

AN ELECTRIC OZONATOR

A Long List of Manufactures and Processes in Which this New Device Can Be Used Economically and Profitably.

In the production of ozone for commercial purposes electrical engineers have widened enormously the field for those processes of manufacture in which oxidation plays a prominent part. Oxygen, the most important constituent of air, sometimes occurs in the form of ozone, consisting of three atoms instead of two, as usual. It is then very unstable, the extra atom having a tendency to break loose and combine where there is a greater chemical attraction. In nature the production of ozone is very slow, but electrical engineers, by following one of nature's methods, have just succeeded in producing it in any desired quantity at an almost nominal cost. On great heights and in localities remote from habitation, the presence of ozone in the atmosphere can be detected easily. There the action of the lightning discharge results in the formation of a small amount of ozone, which remains in suspension because there are so few impurities to attack. Ozone can now be generated anywhere by a C. G. E. electrical device called the "Ozonator," in which miniature electrical discharges perform the same function as lightning flashes, or miniature static discharge from the clouds. An artificial lightning discharge of great area is provided by means of electric plates surrounding a field under electric stress through which the air is passed. Whenever oxidation is desired, ozone is a logical adjunct, but there are hundreds of applications which are yet barely appreciated. The great fundamental principle of ozone action makes it possible to use it in the preservation of food. Experiments have shown that milk and other dairy products can be completely sterilized and kept from souring for a long time. Eggs stored in ozonized air keep for months with no apparent change, and the effect on fruit is very striking as ozone prevents the moulding which starts on the outside of the skin. Refrigerating engineers have found that ozone greatly adds to the value of plants for storing meat products, and that the temperature of the refrigerating room or chamber can be considerably higher in the presence of ozonized air than under ordinary conditions. As a preservative, ozone is destined to meet with considerable use, supplanting in a degree the use of drugs, sugar and sterilization by heat. Considerable success has been secured by the installation of ozonizers to prevent the growth of parasites in the storage of flour and flour products. It has been applied in many breweries in England and Belgium, where its use in cellars prevents parasitic growth, and has no unpleasant effect on the fermenting process. The number of bacteria in cellars thus equipped is greatly reduced, and it is generally found that those which are not entirely killed are not capable of reproduction. There are hundreds of applications of ozone which are yet barely appreciated. The bleaching and sterilizing of fine fabrics, ostrich feathers, and even laundry work, is already appreciated by a few, and will be used by the majority in the very near future. The additional advantages of sterilizing fabrics without injuring the strength and flexibility of their fibres is a decided gain over the bleaching agents which are generally used for the purpose. Even in metallurgy there is an extensive reorganization going on, as the use of ozone in the cyanide process of extracting gold increases the yield as much as 30 per cent. The production of ozone for such purposes can be undertaken with a high degree of efficiency and on a basis of economy which permits its application in many fields already developed and in speculative fields which are almost limitless.

UNABLE TO TEST FRIEDMANN CURE

Commission of Three Noted German Specialists Abandon Its Inquiry.

COULDN'T SECURE DATA

Decision Reached Came as Surprise—Some Friction in Evidence.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World. BERLIN, July 7.—The following signed statement was given to The World's correspondent: "The committee for the investigation of the treatment of tuberculosis, according to Dr. Friedmann's method, was obliged to dissolve itself, owing to the difficulties in obtaining sufficient material for a person to base an opinion." Signed, Alfred Wolf-Eisner, Geo. Joachimulahi, Friedrich Krauss. Thus the special commission of three of the most noted German specialists in tuberculosis, who at the instance of The New York World, offered their services to determine the exact value of the Dr. Friedmann so-called "turtie cure" for consumption in a strictly impartial manner, has been voluntarily dissolved by its members. The reason given for the dissolution was the inability of the commission, after every proper effort to obtain sufficient data, whereon to base an intelligent opinion. This was "entirely unexpected. The German specialists had made every effort to obtain the data which might tend to relieve the doubts of the thousands of sufferers from tuberculosis who have clutched the Dr. Friedmann cure as a drowning man at a straw. After breaking an engagement to go to Frankfurt with Dr. Wolf-Eisner to examine patients there, Dr. Friedmann wrote a letter, bitterly attacking Wolf-Eisner. The Dr. Karfunkel cases described by Friedmann in the U. S. as corroborating his claim, were repudiated by Dr. Friedmann, when the commissioners proposed to examine them.

REPRIEVE GRANTED TO CHARLES GIBSON

OTTAWA, July 7.—Intimation that a reprieve until Oct. 1 had been granted Charles Gibson was conveyed in a wire sent by the acting under secretary of state to the sheriff of Toronto today. Gibson was to have been executed on Wednesday.

OPPONENT OF C. N. R. ELECTED IN ST. KITTS

Thomas Webb Succeeds Late Ald. Moyer in City Council.

ST. CATHARINES, July 7.—(Special).—Thomas Webb was today elected, by 170 majority over Landis C. Brad, to the vacancy in the city council caused by the death of the late Ald. Melvin Moyer. Webb's election was practically an ultimatum to the city council to prevent the C. N. R. using Louisbourg as a through route of their main line through the city.

GANANOQUE CARRIES BYLAW

GANANOQUE, July 7.—(Special).—The ratepayers of Gananoque today passed by a large majority the bylaw to give the Electric Light Co. a ten year contract and a thirty year franchise, and also carried by a large majority the bylaw re Gananoque and Arnprior Railway.

GALT COLLEGIATE TO BE DEGRADED?

Defeat of "Gym" Bylaw May Be Followed by Unpleasant Consequences.

GALT, July 7.—(Special).—In declining to meet the requirements of the

education department by voting \$15,000 for a new collegiate institute gymnasium, Galt stands to have the school degraded, if a department official is earned in intimating the alternative. The bylaw, defeated with only 80 for and 283 against, shows the community is in no mood at present to indulge in what The Reporter terms "a pet scheme of the inspector."

DR. VOGT CONDUCTS EXAMS. AT BERLIN

BERLIN, July 7.—(Special).—Dr. Augustus Vogt of Toronto, the eminent conductor of the famous Mendelssohn Choir, is conducting the examinations of about thirty pupils connected with Prof. George Ziegler's studio. Students from Berlin, Waterloo, Hawkesville, New Hamburg and Heppeler were present. The examinations cover elementary, primary, junior and intermediate music. At the conclusion of the examinations this afternoon Dr. Vogt was taken in charge by a party of friends who motored out to the Grand River Country Club, where the distinguished visitor was entertained.

BERLIN NOW READY TO RECEIVE KNIGHTS

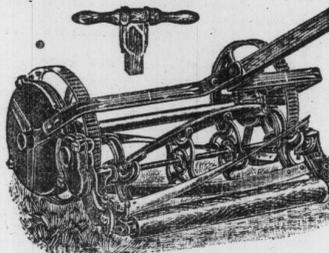

BERLIN, July 7.—(Special).—Berlin is en fete tonight in preparation for a grand reception to the 1500 Knights of Pythias who are expected here tomorrow to attend the annual convention of the Grand Lodge of Ontario. Many are motoring today from all parts of the province. The first to arrive were the Toronto contingent, with Alex. Coulter as good knight.

BANK BUYS CORNER.

GALT, July 7.—(Special).—It is announced today that the northeast corner of Main and Water streets, the Woods & Taylor block, and for six years the most conspicuous commercial building, has been bought by the Merchants' Bank, which institution some years ago bid for the opposite north corner, which another bank secured. The price was \$25,000. The bank will put up an imposing building.

FOR WOMEN'S AILMENTS

Dr. Martel's Female Pills have been the standard for 20 years, and for 40 years prescribed and recommended by Physicians. Accept no other. At all drug gists.

He Insisted Upon Having a Taylor-Forbes Lawn Mower

—We have a letter from a Torontonian who went out in the city recently to buy a Taylor-Forbes Lawn Mower. —He knew what he wanted, and he bought what he wanted.

- But in spite of his expressed preference for a Taylor-Forbes Lawn Mower, the salesman in the first hardware store he visited endeavored to sell him one of another make, which was not a made-in-Canada machine at that.
- Some lawn mowers cost more than Taylor-Forbes Lawn Mowers, but it does not follow that the more expensive lawn mower is necessarily the better.
- And the statement that the Taylor-Forbes Company are sold out of any model of their various makes of lawn mowers is incorrect. We have been 38 years in the business of manufacturing lawn mowers in Canada, and we know accurately the demands of the trade, and make enough machines to fully meet that demand.
- If a salesman endeavors to divert you from the purchase of a Taylor-Forbes Lawn Mower, it is because he has not got in stock the style of a Taylor-Forbes machine you want—or if he has one or two of the machines you want, he has an overstock of other makes, and it is to his advantage to sell off these machines in preference to the Taylor-Forbes.
- If the hardware dealer you usually patronize has not in stock the Taylor-Forbes Lawn Mower of the size and the price you want to pay, go to the next nearest dealer. They all keep them.
- And for more complete information about the Taylor-Forbes Lawn Mower and the variety of sizes in which they are made, write us for our Catalogue.

Blade and knives made of the best quality imported Sheffield steel. Every machine fully guaranteed.

Terms: One-quarter cash at time of sale, balance at 30 days, bearing interest, and satisfactorily secured.

BIG OIL BURNING FREIGHTER A SUCCESS
Merchants' Mutual Line May Get Sister Ship to Fordonian.

At last an oil burning freighter has been secured that has proven herself a success as a carrier of package freight thru the Canadian lakes. The Merchants' Mutual Line now declares this is proven by their big oil burning freighter, the Fordonian, which is running to Toronto after a successful initial trip to Fort William. The biggest package freighter in the Dominion, capable of going thru the Welland Canal, and with a carrying capacity of 4000 tons, this vessel, under Captain La Roche, attained a speed of 11 1/2 miles per hour on the trip from Toronto to Fort William. The management stated to The World yesterday that in view of the success attained by the Fordonian, the acquisition by them of another oil burning vessel of the same type was now looked forward to.

CHEESE MARKETS
UTICA, N. Y., July 7.—A half cent reduction in cheese prices featured today's session of the Utica dairy board of trade. The sales were 694 boxes at 13 1/2 cents. Butter, creamery, 169 tubs, sold at 27 1/2 cents.

WORK ON CITY AND SUBURBS

THIRTY-FIVE THOUSANT THOUGHT Big Price for Acre School Site—Estimates Will Be Secured on Cost of Bridge Over West Don—Many Important Matters Taken Up.

Township Council had a strenuous meeting yesterday. The development on the city's fringe brings up questions at every meeting that involve possible complications with the city. Reputable appeared from school section No. 30 regarding a new site for the school at the corner of Spadina road and Conover. The trustees recently asked the council to raise \$3,000 for the purchase of one acre. Even in view of the great advance in values, the council thought \$35,000 a tall price for an acre, but the trustees solicited Mr. McNaughton, explained that the sum included an appropriation for moving the present school, as well as fees connected with the transfer and possible expropriation.

Mrs. M. J. B. Wiley, the only lady trustee in the township, said that they might get a site for \$23,000, but they wanted to have enough in the trust placed. Will Secure School Site.

The resolution passed by the public meeting, authorizing the request, only mentioned that the site did not include moving or extensions.

Reeve Smye refused to do anything in the matter until this had been straightened out. He had in touch with children attending the school, and conditions are too crowded for comfort.

Deputy Reeve Miller thought that the trustees about the bridge over the city board of education before doing anything further, and see what the city's plans for the future were.

Bridge Over West Don. W. F. Maclean, M.P., addressed the council on behalf of the residents in his district who are interested to know the cost of a high level bridge over the West Don. Immediately after the proposed bridge to the townships. He pointed out that the C.N.R. had been making surveys and estimates for a bridge at this point, and would be willing to co-operate with the township. The level of the bridge would have to be 20 feet lower than the C.P.R., he thought, in order that vehicles could go under the ends of the railway bridge. All the traffic that came down the Don road could then reach the city without descending into the Don Valley. The townships of Markham and Scarborough, he thought, would also co-operate, and the cost assessed on the districts directly benefited.

Mr. Maclean also pointed out that the bridge might be utilized by the new Toronto & Eastern Railway and the Ontario Radial already planned. All that was necessary at the present stage was a report from the engineer as to the probable cost, etc.

The council thought well of the proposition and a resolution was introduced by Mr. Barber, the township engineer, to prepare an estimate.

Another matter which was brought up was the necessity for something being done about the Don road, which is almost impassable in its present state.

"The highway board is responsible for this road," said Reeve Smye. "All we can do is pay the rates."

"If they are responsible, why don't you do something about it?" said Mr. Maclean. "Somebody ought to be keeping a dangerous highway as the Don road is today. Let us put them in court."

"The commission cannot do much until the money has been voted," continued the Reeve. "but we will be meeting them soon and will take the matter up in these days of cut prices and close competition."

One of the most interesting items on the agenda was the proposed sewerage system for the township. Mr. Taylor's tender for a sewer on the Mill road was accepted at \$898, and Engineer Barber was instructed to take grade levels for a sidewalk the length of the sewer.

In response to the council's enquiries regarding the non-arrival of Hydro light lines, Mr. Gaby of the Provincial Hydro wrote to say that the matter had been in the hands of the Toronto Hydro-electric since the council gave the required authority, and that the delay was probably due to the difficulty of getting sufficient construction material. He promised to do all in his power to hasten matters.

"If something is not done," said Reeve Smye, "I'd favor making a deal with a corporation. These people can't wait for the Hydro to get their lines in my own district (North Rynmunde). We all want Hydro, but if we can't get it, we'll have to make our own."

A letter was received from James A. Fullerton, K.C., concerning the dispute between the city and the township of Scarborough over the width of roads. Judging by the letter, Mr. Fullerton's letter, there are yet more things to be fought. Discussing the conference, Mr. Fullerton wrote:

"If I gathered the purport of the meeting, it is that the township fathers want to get the township fathers to send in reports asking for amendments of anomalies to the act. If they do that, are they not assenting to the principle of the act? Should they not begin by fighting the confederation as wrong in principle, and something to be stopped altogether? If they are their position they must guard themselves against sanctioning by their reports what they so regard."

W. A. Clark was the only one present to comment on the letter. He said that he had been in the Dominion in view of the Fordonian, the of another oil same type was

MARKETS. A half cent cereals featured to-day. The flour market was 6040 boxes, creamery, 150 cents.

Whitby's Wonderful Transportation Endowment

Written for the Town Council by T. Howard Annes, Chairman Finance Committee

When His Worship, Mayor Willis, as chief magistrate of the county town, presented the silver trowel to Major Rutledge, the respected chairman of the board of education, at the laying of the corner stone of Whitby's free public library, the other day, it probably never occurred to either of them that there was any association between the action and a similar handling over of a shovel by Contractor Stewart to the latest arrival amongst the immigrants then—almost daily augmenting his working force in the construction of the Canadian Pacific's new line front line through the town, yet both incidents are traceable to one of the world's outstanding personalities of today, Mr. Andrew Carnegie.

But for the munificent gift from the laird of Skibo Castle, the citizens of Whitby would not see rising from the corner of Dundas and Byron streets, the beautiful building that shortly will be the new home of the "Poor Man's University," as it was referred to by Dr. Hare, principal of Whitby's famous educational institution—the Ontario Ladies' College—one of those multitudes of boarding schools, with its water tank, gathering supplies, etc., for making Whitby the temporary terminus. Further advance in track-laying is arrested by the fact that the next three miles eastwards towards Whitby's twin town—Oshawa—was the last piece of contract to be let, and for some time it will be impossible to continue the record in steel laying reached between Agincourt—where this new line leaves the present Montreal one—and Whitby. Great crowds have visited the scene with operations are inspected with especial interest the big track-laying machine that has made possible this rapid progress in track construction.

NEW MARKET. The need for improving the water supply was the main topic of discussion at last night's meeting of the Newmarket Council. It was practically decided that some new wells were needed, and Mayor Allan, Reeve Keith and Councillors Hunter and Boyd were appointed a special committee to deal with the problem. The four standing committees appointed are as follows: Roads and bridges—Councillors R. B. Smith and A. W. Evans. A petition was presented to council, asking that Pearson street be opened to its full length. At present it runs from Prospect street to Court, and some property owners want it extended to Hamilton. The petition was received and referred back for consideration.

DEATH OF MRS. PUGSLEY. Mrs. Pugsley, widow of the late Gilbert R. Pugsley of St. John, N. B., died at noon yesterday at her residence, 287 Pacific avenue. A funeral service will be conducted at the residence this evening at 8.30. The interment will take place at St. John, N.B.

Bruce Old Boys' Annual. The Bruce Old Boys will hold their annual excursion, Friday, July 11th, to Southampton and Warton, via Grand Trunk, leaving the Union Station at 7.00 a.m. This is one of the finest opportunities of the year to revisit the old home as the train stops at all stations in the county. It gives you a four days' visit at less than half the regular single fare, and the committee has made special arrangements for the accommodation of everybody on the train. Tickets at G. T. R. office, or at the excursion agents.

"MARY JANE'S PA" VERY ENTERTAINING. A Rather Serious Toned Story That is, However, Bright and Pleasing. It is a naive little vein of philosophy running through an otherwise familiar enough tale that makes the success of "Mary Jane's Pa" at Shea's Theatre this week. The first appearance of it last evening sufficed to convince one of its enjoyable possibilities, and the Bonstelle Players realized most of these in competent fashion.

At the Strand. Large audiences at the Strand yesterday were thrilled and fascinated by the wonderful photo play, "The Tiger Lily," in a tragedy of jealousy, love and revenge, but it leaves the young lovers over whom the terrible menace suspends, free at the last to link their lives together in the development of the absorbing story a tiger, which has taken a great fancy to the actress heroine, takes a strong part, and in the more intense moments the play is of absorbing interest and exerts a high degree of emotional power. This is one of the most holding dramas of its class ever produced at the Strand.

TESSIER MAYOR OF THREE RIVERS. THREE RIVERS, Que., July 7.—Mr. J. A. Tessier, M.L.A., was today elected Mayor of Three Rivers, Quebec.

SPARKLING PLAY BRILLIANTLY GIVEN. "Divorcions" Most Artistically Satisfying Performance of Haswell Company. Victorian Sardou's sparkling comedy, "Divorcions," is the vehicle this week at the Royal Alexandra for the most complete, finished, and artistically satisfying performance that the Percy Haswell Company has given this summer. There was the snap and effortless brilliance, about the second act especially, quite worthy of a metropolitan production. Miss Percy Haswell herself has the greatest part of the dialog, and her picture of the two years' wife, neglected and consoling herself, but all the time unconsciously eager for her husband's affection, was a thoroughly delightful assumption. The plot of the play turns on the ardent flirtation of Mme. des Prunelles with her husband's cousin, M. Adhemar de Gratignan, most amusingly rendered by Eftingham Pinto. A bill to legalize divorce is going through the French Chamber of Deputies, and the first act agogors an opportunity for the discussion of the pros and cons of the question. Frederick Tilden played the part of Henri with fine smoothness and the ease of a

of his friend, Clavignac, in which part De la Force, F. Downie, was capitally made up, he decides to humor his wife and let her have the divorce. "It will put more husbands into circulation," cries de Brionne, in the character of the banter in which she, Mme. de Valfontaine (Miss Julia Fanchett), Mr. Bafour (Edward Hayes) and the other characters engage. Joseph Brionne, in her fascinating red blouse and white skirt and hat in combination, takes a widow's privileges, and Cyprienne readily becomes jealous. "You men have arranged things very nicely for your own convenience," she complains, and tells her husband that divorce for him is a great cure, while Mme. de Valfontaine regards it as positively indecent. Miss Haswell's long speech at the end of the first act was given with splendid spirit and without a dragging word. Young girls should see little of life, as young men do, and then they would be able to choose, she complains. The second act forces the clandestine lovers to open their eyes, and the charm of illicit meetings disappears. Miss Haswell's rueful face as she Brionne agrees, in the character of "There's a big day in my cream," was a picture. In the last act husband and wife go off to a restaurant, breaking faith with Adhemar, and the discomfiture of the cavalier is a bit of farce. Joseph Brionne, in his made as artistic and amusing a bit of low comedy as James T. Galloway has ever seen in many a day. It was just right and not over-exaggerated. The conjugal bliss of the husband and wife making ready for divorce over an excellent dinner was hugely enjoyed by the audience.

CHICK AND CHICKLETS HERE. Chick and Chicklets, the latest comedy bicyclists to break into vaudeville, were the chief attraction at Scarborough Beach Park last night. Their performance was as daring as it was amusing, and it is doubtful if two cleverer entertainers have been seen in Toronto for a long time. The music was supplied by the Band of the Mississauga Horse, and appeared to be greatly enjoyed by the large crowd. The moving pictures were another attraction. The films are changed three times a week, and are all new as far as the city is concerned.

HAMILTON HOTELS. HOTEL ROYAL. Largest, best-appointed and most centrally located. \$3 and up per day. American Plan. \$30.00. For the remainder of the season, rents a large furnished room, Stop 12, Burlington Beach, corner, room upstairs, two doors opening on veranda. Owner forced to leave town. Box 25, World Office, Hamilton.

\$1,000 REWARD. For information that will lead to the discovery or whereabouts of the person or persons suffering from Nervous Debility, Fits, Skin Diseases, Blood Poison, Genito Urinary Troubles, and Chronic or Special Complaints that cannot be cured at The Ontario Medical Institute, 265-266 Yonge Street, Toronto.

ADULT BIBLE CLASS. HOLD LAWN SOCIAL. News of Ward Seven—Mix Up of Rigs on Dundas Street. The adult Bible class of Victoria Presbyterian Church, held a most enjoyable lawn social and band concert last night on the lawn of Rev. D. T. L. Kickerell, 19 Lewis street. An excellent musical program was rendered by the band of another oil same type was

THE GOOPS THE NURSERY

GOOPY

Lieut.-Col. H. C. Lowther, C.M.G., military secretary to the Duke of Connaught, leaves Ottawa shortly to rejoin his regiment, the Scots Guards.

Much sympathy is expressed for Mr. and Mrs. Douglas Armour, who have been recalled from abroad by the sad accident by which their daughter Miss Dorothy Ethel Armour was drowned in Saranac Lake.

The cottage of Mr. Justice Anglin is a beautiful and acceptable addition to the already numerous pretty resorts around Blue Sea Lake.

The Earl and Countess Grey have returned to England from Stockholm.

Mrs. Fluke and Mrs. Fred Beardmore have left Montreal for Cap a L'Aigle, and are in the Alert.

Mr. D. S. Thorburn, M.P., Peebles, Scotland, is at the King Edward.

Mr. and Mrs. J. W. Flavell have gone to their country house at Sturgeon Point. Mrs. Wallace Barrett has taken a cottage there also, and leaves town this week.

Mr. Justice Cassels, Col. Irwin, Mr. Edward Waldo, Ottawa, and Mr. Curtis, New York, passed thru Metis on their way to Matane for the salmon fishing.

The Lord Lieutenant of Ireland and the Countess of Aberdeen gave a ball at the Victoria Hotel, Dublin, to meet Vice-Admiral Sir Stanley Colville and the officers of the First Battle Squadron.

The Hon. J. D. Hazen is leaving shortly for British Columbia.

Sir Charles and Lady Fitzpatrick and Miss Fitzpatrick have gone to their country house at Murray Bay.

Mr. and Mrs. A. W. Treble, Hamilton, have gone abroad on a three months' trip.

Mr. F. E. Meredith, K.C., Montreal, has gone to England to appear before the privy council.

Mr. and Mrs. A. A. Morrice, Miss Eleanor Morrice, and Master David Morrice passed thru Montreal on their way to join Mr. and Mrs. David Morrice at Trout's Neck, Maine.

Miss Pauline Lemoine is visiting Mrs. Charles Kingsmill at her country house.

Prof. and Mrs. Robertson have gone to Cap a L'Aigle for the summer.

Sir Sanford Fleming has gone to his summer home at the North Arm, near Halifax, with his son, Mr. Walter Fleming, and grandson, Master Archie Fleming. Mr. and Mrs. Hugh Fleming will spend the summer at Murray Bay, where Mrs. Walter Fleming will be their guest for a few weeks, and later will go to Kingston to visit her mother, Mrs. Davis.

Mrs. Glyn Osler is occupying Echoes, at Little Metis.

Miss Estelle Kerr, who went on to Vancouver after the Press Club meeting in Edmonton, is on her way home.

Col. and Mrs. Percy Sherwood of Ottawa will go to Blue Sea Lake on the arrival of their two daughters, the Misses Hilda and Isabel Sherwood, from England the middle of this month.

The Rev. J. Bedford Jones is giving a house party at his country house near Brockville. The guests include Mrs. Mildred Jones, Kingston, and Dr. L. W. Jones, Rochester.

Mr. F. T. Condon, K.C., former M. P. for the Yukon, who has been in Vancouver for some weeks, is returning to British Columbia before going back to Ottawa in the autumn.

Mr. and Mrs. Hugh Ferguson Macdonald and Mr. and Mrs. W. A. Rutherford spent the week-end in Victoria, the guests of Hon. Chief Justice and Mrs. Macdonald.

Mr. and Mrs. Charles Cambie and their children have returned to their Little Metis, where they are at the Boule Rock Hotel.

Mrs. Gerard Barton has left Toronto and will spend the summer in San Francisco and Los Angeles, Cal., with her mother.

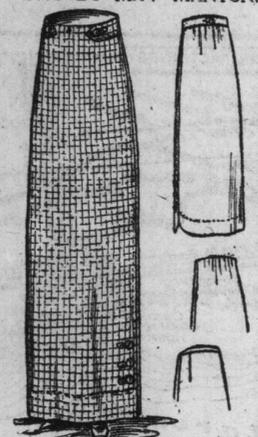

A delightful date luncheon took place at the Country Club, Kingston, when those present included Mrs. Carlos Crisgaard, Miss Marjorie Pense, Miss

One Application and The Hairs Are Gone

(Aids to Beauty.) Women troubled with fuzzy growths of hair are delighted to learn that a single application of a paste made with powdered delonix and water will remove every trace of hair or fuzz without pain or injury. If the growth is very thick or stubborn, a second application may be required. The delonix paste is spread thickly on the hairy surface, and after two or three minutes rubbed off, then the skin is washed and dried. This is a safe and reliable way by which to permanently rid the skin of objectionable hair. A little apron rubbed on eyebrows causes them to come in thick and dark. The hair grows more luxuriantly and will grow long and curly by applying apron to hair-roots with thumb and forefinger. Be careful and don't get any apron where no hair is wanted.

Daily World Pattern Service.

HINTS BY MAY MANTON.

7877 Two-Piece Skirt, 22 to 32 waist.

WITH HIGH OR NATURAL WAIST LINE

Unquestionably the two-piece skirt is a pronounced favorite. The newest ones are gathered across the back in place of being dart fitted and often the lower edge is left open for a few inches from the lower edge to provide freedom. Here is a model that can be cut to the high waist line and with or without the ornamental belt or to the natural waist line. The lower edge can be left straight or it can be curved at the sides and the seams can be closed or left open just as liked. When the natural waist line is used, the back can be dart fitted if preferred, although the gathers are smart. Such a skirt is admirable for the coat suit, for the gown and for wear with separate materials that can be made in so severe a style. Linen, raiine and Bedford cord suggest themselves among washable materials; serge, wool and silk Bedford cord, poplin and all similar materials for the skirt of wool or silk.

For the medium size, the skirt will require 3 1/2 yards of material 27, 2 1/2 yards 36 or 44 inches wide. The width at the lower edge is 1 yard and 2 1/2 inches. The pattern of the skirt 7877 is cut in sizes from 22 to 32 inches waist measure. It will be mailed to any address by the Fashion Department of this paper, on receipt of 15 cents.

Daily World Pattern Coupon

Form for requesting a pattern, including fields for Name, Address, and Size.

- List of names and addresses for which patterns were sent, including Miss Rogers, Miss Madge Dawson, Miss Alva Sewell, etc.

To Look and Feel Bright in Hot Weather

This is the season when she who would have a complexion of alabaster, bright eyes, neck and hands, should use a hair-removing cream. The cream is made of powdered wax, the firm friend of the complexion, and is so effectively used that it comes the soiling effect of dust and dirt. The cream is applied to the face, neck, and hands, and is rubbed in with the fingers. It is a safe and reliable way by which to permanently rid the skin of objectionable hair.

STRAWBERRIES MAY HAVE SLIGHT DROP

GOOPYS

FLORODORA PRATT

"I don't want to!" "Who said that?" "I don't want to!" "What a queer thing to say to Mother dear!" "You, of course, politely say."

Don't Be A Goop!

The usual dull Monday trading was experienced at the local fruit market yesterday and receipts for the day were comparatively light. The return of fair weather was hailed with delight by dealers; the recent rains, should they be followed by a good hot spell, will help all trees and small fruits along fine. Cherries continue plentiful, and strawberries are arriving in about the same quantities. According to dealers a slight drop in the price of the latter may be experienced late on in the week should the weather remain warm. Raspberry prospects continue bright, and the next few days should see them on the market in large quantities, depending also, of course, on the weather. Red currants are plentiful. American black current crop looks good. Prospects for the Canadian apple crop are bright, and while as large a picking as last year is not probable, it is expected that they will be plentiful. Dealers are, however, eagerly awaiting news of the results of yesterday's wind storm on all tree fruit.

The following prices were in evidence at the market yesterday: American raspberries, 15 to 21 cents. Prices of this fruit should fall considerably in today's market. Small gooseberries, 50 to 60 cents a bushel; American currants, \$1.00 to \$1.25 a bushel; large variety \$1.00 to \$1.25 a bushel. This is a slight increase over recent prices, and is caused by a light arrival during the day. Red currants, 85 cents a bushel; American raspberries, 15 to 21 cents. Prices of this fruit should fall considerably in today's market. Small gooseberries, 50 to 60 cents a bushel; American currants, \$1.00 to \$1.25 a bushel. This is a slight increase over recent prices, and is caused by a light arrival during the day.

CHARMING MUSKOKA.

The Muskoka Lakes, of which Lakes Muskoka, Rosseau and Joseph are the principal among some 500 in this district, are secluded in some of the most beautiful scenery that can be imagined. 112 miles north of the Ontario line of the Grand Trunk Railway. They are in the midst of the "Highlands of Ontario," and have become a favorite resort for the Canadian tourist, pleasure-seeker, sportsman and those in search of health. The curative odor of balsam and pine and the preponderance of water area to land surface, together with the high altitude (1000 feet above the sea), render the lakes a most desirable and perfect immunity from this annoying ailment are assured. The way to go is via Grand Trunk Railway, the line that made Muskoka famous. Train leaving Toronto at 8:30 a.m. daily carries Pullman sleeping cars (open 10:30 p.m.) and coaches, making direct connection for Muskoka Lakes resorts.

OWNERS OBJECT TO BEING "SOAKED"

Pendrieth Avenue Residents Hold Meeting Against Nineteen Thousand Expenditure. The claim that the city was proposing to go to the expense of grading Pendrieth street, at a cost of \$20,000, when the undertaking could be accomplished for \$500, was made at an indignation meeting of the property-owners of Pendrieth street last night against whose property the extra \$19,500 expenditure was levied. Pendrieth street is situated a short distance north of Willow Park, and runs from Shaw to Christie street. It is a narrow street, and it was to remedy this fault that the \$20,000 grading was proposed. At the meeting last night, at which Ald. Meredith was present, it was pointed out that if the city used for the grading of Pendrieth street the earth it is now putting in the Shaw street dump, and in addition used the earth that was obtained from the excavations for the new technical school, the grading of the street could be done for a much smaller sum. It was decided to put this fact before the city and see what they were willing to do in the matter.

GUNNER DEAD AT KINGSTON

KINGSTON July 7.—(Special.)—Gunner Graham of "A" battery, R.C.H.A., died in the station hospital today after several months' illness, aged 37 years.

PRINCE OF JAPAN DEAD.

TOKIO, July 7.—(Can. Press.)—Prince Takahito of Arisugawa-N-Miya, head of a collateral branch of the imperial family, died yesterday. He had been critically ill with tuberculosis, and recently the emperor ordered the chief physician of his household to attend him at his residence near Kobe.

GUNNER DEAD AT KINGSTON

KINGSTON July 7.—(Special.)—Gunner Graham of "A" battery, R.C.H.A., died in the station hospital today after several months' illness, aged 37 years.

PRINCE OF JAPAN DEAD.

TOKIO, July 7.—(Can. Press.)—Prince Takahito of Arisugawa-N-Miya, head of a collateral branch of the imperial family, died yesterday. He had been critically ill with tuberculosis, and recently the emperor ordered the chief physician of his household to attend him at his residence near Kobe.

GOOPYS

"I don't want to!" "Who said that?" "I don't want to!" "What a queer thing to say to Mother dear!" "You, of course, politely say."

Don't Be A Goop!

The usual dull Monday trading was experienced at the local fruit market yesterday and receipts for the day were comparatively light. The return of fair weather was hailed with delight by dealers; the recent rains, should they be followed by a good hot spell, will help all trees and small fruits along fine. Cherries continue plentiful, and strawberries are arriving in about the same quantities. According to dealers a slight drop in the price of the latter may be experienced late on in the week should the weather remain warm. Raspberry prospects continue bright, and the next few days should see them on the market in large quantities, depending also, of course, on the weather. Red currants are plentiful. American black current crop looks good. Prospects for the Canadian apple crop are bright, and while as large a picking as last year is not probable, it is expected that they will be plentiful. Dealers are, however, eagerly awaiting news of the results of yesterday's wind storm on all tree fruit.

The following prices were in evidence at the market yesterday: American raspberries, 15 to 21 cents. Prices of this fruit should fall considerably in today's market. Small gooseberries, 50 to 60 cents a bushel; American currants, \$1.00 to \$1.25 a bushel. This is a slight increase over recent prices, and is caused by a light arrival during the day. Red currants, 85 cents a bushel; American raspberries, 15 to 21 cents. Prices of this fruit should fall considerably in today's market. Small gooseberries, 50 to 60 cents a bushel; American currants, \$1.00 to \$1.25 a bushel. This is a slight increase over recent prices, and is caused by a light arrival during the day.

CHARMING MUSKOKA.

The Muskoka Lakes, of which Lakes Muskoka, Rosseau and Joseph are the principal among some 500 in this district, are secluded in some of the most beautiful scenery that can be imagined. 112 miles north of the Ontario line of the Grand Trunk Railway. They are in the midst of the "Highlands of Ontario," and have become a favorite resort for the Canadian tourist, pleasure-seeker, sportsman and those in search of health. The curative odor of balsam and pine and the preponderance of water area to land surface, together with the high altitude (1000 feet above the sea), render the lakes a most desirable and perfect immunity from this annoying ailment are assured. The way to go is via Grand Trunk Railway, the line that made Muskoka famous. Train leaving Toronto at 8:30 a.m. daily carries Pullman sleeping cars (open 10:30 p.m.) and coaches, making direct connection for Muskoka Lakes resorts.

OWNERS OBJECT TO BEING "SOAKED"

Pendrieth Avenue Residents Hold Meeting Against Nineteen Thousand Expenditure. The claim that the city was proposing to go to the expense of grading Pendrieth street, at a cost of \$20,000, when the undertaking could be accomplished for \$500, was made at an indignation meeting of the property-owners of Pendrieth street last night against whose property the extra \$19,500 expenditure was levied. Pendrieth street is situated a short distance north of Willow Park, and runs from Shaw to Christie street. It is a narrow street, and it was to remedy this fault that the \$20,000 grading was proposed. At the meeting last night, at which Ald. Meredith was present, it was pointed out that if the city used for the grading of Pendrieth street the earth it is now putting in the Shaw street dump, and in addition used the earth that was obtained from the excavations for the new technical school, the grading of the street could be done for a much smaller sum. It was decided to put this fact before the city and see what they were willing to do in the matter.

GUNNER DEAD AT KINGSTON

KINGSTON July 7.—(Special.)—Gunner Graham of "A" battery, R.C.H.A., died in the station hospital today after several months' illness, aged 37 years.

PRINCE OF JAPAN DEAD.

TOKIO, July 7.—(Can. Press.)—Prince Takahito of Arisugawa-N-Miya, head of a collateral branch of the imperial family, died yesterday. He had been critically ill with tuberculosis, and recently the emperor ordered the chief physician of his household to attend him at his residence near Kobe.

SOCIETY HOUSEKEEPING

C. P. R. OPERATED AGAINST CITY INSPECTOR'S ORDER

SAT ON TRACKS TO COOL OFF; KILLED

Open Verdict of Accidental Death in Inquest on G. T. R. Fireman D. Stewart.

An open verdict of accidental death was returned by Coroner Hardy's jury when it met last night to investigate the death of David Stewart, who, at 2:45 a.m. June 23, was run over and killed by a yard engine in the Bathurst street yards south of the Harris Abattoir.

According to Nelson Smith, the engineer of the freight train on which Stewart was fired, the dead man was one who could never stand heat, and on this particular night, while his train was awaiting a signal to proceed, he got off and went down on the track to smoke a cigar and cool off. He saw the yard engine coming west on the track Stewart was on, and thought he heard Stewart move away out of the road, so he had got his signal and started to move off, when he heard Stewart call "Nels, come to me." He stopped the train and ran back to find him lying between the tracks with his head on the ground. Stewart's head was covered in blood, and various other injuries to the body. His brakeman had called the caboose and they rushed him off to medical aid, where he died later.

RELATIVES NOT HEARD FROM

KINGSTON July 7.—(Special.)—The remains of the late Thos. Brown, Toronto, watchman of the steamer Kingston, who was drowned here on Saturday, are being held until Tuesday at the residence of his relatives. It is not claimed they will be interred at Caturqui Cemetery, at the expense of the R. and O. Navigation Company.

CHILD DRANK FLY POISON

KINGSTON July 7.—(Special.)—Francis Stafford, aged three years, found a dish of fly poison on the table at his parents' home on Division street and drank a quantity of it. The little fellow died after nine hours in convulsions.

WE INVITE EVERY MAN AND WOMAN HERE TO GET FAT AT OUR EXPENSE.

Now I carry rosy cheeks, which is something I could never say before. The medicine has done me a world of good. I am looking better than I have ever been, and I feel like a new man. I have gained 22 pounds in the last few weeks, and I feel like a new man. I have gained 22 pounds in the last few weeks, and I feel like a new man.

TUESDAY MORNING, JULY 8.

"STILL HARPING ON HER FAULTS"

The Telegram is not satisfied with having apologized, but wants to know why we did not follow its example. We have already—several times—told The Telegram that the Bloor street viaduct was the most important issue in the Campaign of 1909, and we devoted our energies to that fight and left The Telegram to champion the cause in which it boasted at the time it needed no assistance.

APOLOGY IN ORDER.

Now that The Telegram is in the way of apologizing it might apologize to Mayor Hocken for misrepresenting him in stating that he opposed the creation of the board of control. His worship at that time was on The News and advocated the board of control idea. When the bill was drafted, however, it provided for three controllers and a mayor with two votes.

G. T. R. PAYS HALF.

A mistake of a figure in our editorial yesterday on the T. & N. O. Railway made the contribution of the Grand Trunk to the capital charges of the road just half what the agreement provides. The Grand Trunk pays half of the \$600,000 at which these charges are estimated, or \$300,000 annually, as well as their proportion, on wheelage basis, of all other expenses.

A MAN OF AFFAIRS.

Controller O'Neill seems to be keeping the balance of power in the board of control at present, and his action on the proposed nomination of Prof. Wright as city architect will be watched with interest. He has a chance to participate in a reorganization which will take rank as one of the best things done by this year's council.

MR. WILSON AT GETTYSBURG

No task more trying could have been set for the president than the duty of speaking to the veterans and people of the United States from the battlefield of Gettysburg. The marvelous address delivered by Abraham Lincoln in 1864 became at once, and bids fair to forever remain a classic, in the literature of the world.

MR. WILSON AT GETTYSBURG

Mr. John S. Ewart, K.C., of Ottawa, says that in every case between a municipality and a private corporation which has gone to the privy council, the private corporation has won. Perhaps in each case the private corporation was entitled to win, but in a number of them at least, their lordships reversed the Canadian courts.

MR. WILSON AT GETTYSBURG

That these dead shall not have died in vain, that this nation under God shall have a new birth of freedom; and that government of the people, by the people, for the people, shall not perish from the earth.

MR. WILSON AT GETTYSBURG

Do we deem the nation complete and finished? If it yet squared itself with its own standards set up at its birth, when it made that first noble, naive appeal to the moral judgment of mankind to take notice that a government had now at last been est-

IT'S a fine, old, mellow stout—that is as rich and nourishing, as fresh cream—yet won't make you bilious because it's extra mild. ORDER A CASE FROM YOUR DEALER.

The Philosopher of Folly

Barfoot boy with cheek of tan, you're a bluffer, little man. Now you're thru with books and slate, with your battered can of bait meet me yonder at the creek; cut your baited bit of stock, and go to it, little chap, and you'll see perchance, myrod, that your methods are in Dutch, that you don't amount to much, that you are no fisherman, barfoot boy with cheek of tan. Off your picture have been in some book or magazine—yep, a simple country youth, with a string of fish, forsooth, such as I have caught in dreams of Elysian fishing-streams where the finny beauties rise, jumping for my well-placed flies, till I catch a six-foot heap in a happy hour of sleep; no where else there has been seen such a catch as yours, I ween. Cut along and fish with me—we shall see what we shall see when our rival strings we scan, barfoot boy with cheek of tan.

AVERAGE TAXBILL SEVENTY DOLLARS

Over Hundred Thousand Bills Are Now Being Distributed by City Collectors.

Toronto is now getting her tax bill shower. Yesterday seven tax collectors and their assistants commenced the delivery of 126,000 tax bills. There may be another 80,000 duplicates to be delivered, that number being allowed for mistakes and astrays.

SPLENDID SAMPLES OF GERMAN ART AT EX.

Twenty pieces of porcelain, representing a wedding procession, has been loaned by the German government, for exhibition at the Canadian National Exhibition. They were made in the Rimbault Dildem, representative in Germany of the C. N. E., has written W. K. McNaught, chairman of the art committee, that the exhibit from the loaned by the German government, art galleries of Germany will be a joy to art lovers who visit the exhibition.

PRIVY COUNCIL APPEALS.

Mr. John S. Ewart, K.C., of Ottawa, says that in every case between a municipality and a private corporation which has gone to the privy council, the private corporation has won. Perhaps in each case the private corporation was entitled to win, but in a number of them at least, their lordships reversed the Canadian courts.

CANADA PERMANENT MORTGAGE CORPORATION Toronto Street, Toronto.

The Naval Question—A Political Forecast

The article underneath is worthy of the thought of every Canadian. It admits that the naval question, now before Canadians, involves our future as a free nation; it admits that that question must be dealt with; it criticizes the Borden policy; it states the Liberal position, not as the Liberals would put it; and yet Liberal and Conservative ought to read it. What it ignores is that the Borden policy may be greatly modified when re-introduced.

During the parliamentary recess the Canadian people will give some consideration to the question of the navy upon which the political parties are so profoundly interested. Those who speak of the indifference of the people to the matter are not close observers of current affairs. The Canadians are by no means indifferent. The relative restraint in the discussion of this question arises from the fact that they have not yet come to any definite opinion about it. It is new, large and difficult; and it is not to be expected by any of the conventional political standards. There have been more readings and thinking during the past six months about this issue of the part of the people generally than has been thought; and definite lines of public opinion are beginning to form.

It is not a question between the ins and the outs; not a controversy over the relative desirability of alternative trade or development policies. It is a question of life or death, or at least of the future of Canada and of the status of every man in Canada. Every Canadian who is not a member of the Liberal party, or who is not a member of the Conservative party, must come to some decision as to where he stands. He must choose between Canada as a nation with its own fully developed national life, or as a province, or as a colony, or as a dependency, or as a possession, or as a province, or as a colony, or as a dependency, or as a possession.

When the issue becomes quite clear those who hold that this is their land and that they have a right to be Canadians will have to band themselves together, leaving prudential, business and social considerations aside, for desperate, unyielding resistance to the powerful conspiracy which aims to rob them of their country. Every month of delay is precious because it makes clearer the divergent paths one of which we must tread. If Mr. Borden had accepted the Liberal challenge last December, when he immediately appealed to the people the result, whatever it might have been, would not have represented the reaction of the Canadian people. They would have voted in a free and honest election, and the result would have been directed towards misleading the electors as to the intention and character of the program. The honest pretence that it was a purely emergent program, dictated by naval conditions in the North Sea, would have been instantly urged to the mental confusion of the voters. The four months' debate in the house of commons with Mr. Churchill's valued words has sufficed to destroy completely the argument upon which Mr. Borden relied to secure parliament's consent to the gift of the three dreadnoughts. The contribution was not an emergent one, and the ships were not going to the North Sea to the British margin against the Germans. They were to go towards the "extra imperial" waters, and to "draw a world-wide imperial fleet made up of ships contributed by the various British nations under the control of an imperial admiralty which would not be distinguishable from the present British admiralty. This is now quite clear to all who have followed the discussion with any degree of care. Mr. Borden must, however, bear the responsibility in history and before the people of having tried to trap Canada into a permanent naval policy by untrue representations.

NOVA SCOTIA'S DRY BELT

The Mayor of Truro Resents a World Correspondent's Account of That Town—The Real Facts Restated.

Editor World: I am informed that you published a late issue that there were 32 kitchen bars in Truro. This is absolutely untrue and I wish to emphatically contradict. There is no bar open in Truro, or in any place where liquor is sold by the glass that is known by the authorities. It may be possible some time ago, but it is not now. The town authorities are constantly on the watch for these pedlars and each week sees less of this kind of business. The citizens demand a clean town and the council are using every effort to meet their wishes, and with great results.

Truro, N. S., July 5. Acting Mayor T. S. Paillette.

Acting Mayor T. S. Paillette of Truro, N. S., hastens to assure The World that a statement recently published in the newspaper that there were 32 kitchen bars and 20 pocket pedlars selling liquor in Truro is "absolutely untrue." After making this sweeping denial, Mr. Paillette curiously admits in the next sentence of his communication that there may be some liquor sold in Truro. "There is not a bar open in the town," he says, "but there is an off heard story, 'or the glass that is known by the authorities; it may be possible some quantity of liquor is sold by pocket pedlars."

Here is a distinct admission that there are pocket pedlars in Truro. It is to be noted that Mr. Paillette makes no denial of the statement in The World that the vault in the Truro City Hall is filled with bottles of whiskey seized in the past few months. This fact of itself is proof that the illicit vendors are doing business in Truro. The World made no statement that there are open bars in Truro. It did make the statement that there are open bars and kitchen bars there is a decided distinction—a distinction familiar to those conversant with conditions in prohibition places. An open bar is a definitely business establishment, accessible to all varieties of the initiated, where liquor is sold promiscuously by the glass or bottle. A kitchen bar, often called in Canada a blind pig, designed for the sale of liquor, a surreptitious household place where liquor is sold either in some room in the home or on the premises. The difference between the two is-

not to be distinguished from the present British admiralty. This is now quite clear to all who have followed the discussion with any degree of care. Mr. Borden must, however, bear the responsibility in history and before the people of having tried to trap Canada into a permanent naval policy by untrue representations. By the time parliamentary recesses in November there will have been a further advance in the crystallization of public opinion. Circumstances will constrain the government to a candid and frank statement of its policy on this question. Mr. Borden cannot hope to do business again with his counterfeit presentation of an imaginary temporary policy dealing with a mythical emergency. He must avow, in at least general terms, the permanent policy to which he has given his personal adhesion and to which he is pledged to commit his party. No doubt the times are not altogether propitious for such an announcement. Mr. Borden came home last fall in a mood of optimism with the expectation until the United States victory at that time thought to be impending by Mr. Borden Law and his friend Mr. Borden. Mr. Borden would make it possible for him to announce a Centralist program with the strong backing of the home government. Most inconveniently for these plans Mr. Asquith is still in office and is likely to remain there for a year or so more. Mr. Borden will be forced, unless he stubbornly adheres to the transparently fraudulent formula which did duty last session, to commit himself to a declaration in favor of centralization which will rally against him all the forces of Canadianism and will set on foot a reaction in England which may end Mr. Borden Law's political career, already sadly overcast. One other objection to Mr. Borden's announcement of a permanent policy may be that it commits him, in view of his 1911 pledges, to a general election as soon thereafter as is practicable. This pledge, given to the Conservative-Nationalist supporters behind him in the house, could, however, be broken with safety. The Conservative-Nationalists do not want an election which would mean their extermination. So far as they are concerned Mr. Borden can announce his permanent policy and take his time about submitting it to the people. Other circumstances might, however, bring about an election very shortly after the declaration by Mr. Borden of his permanent policy of centralization. One such circumstance would be the realization by the shrewd members of the party that the policy, once clearly avowed, would be subjected to a shattering assault by the opposition. So far as they are concerned Mr. Borden can announce his permanent policy and take his time about submitting it to the people. Other circumstances might, however, bring about an election very shortly after the declaration by Mr. Borden of his permanent policy of centralization. TO ABOLISH PILOTS' CORPORATION

OTTAWA, July 7.—(Can. Press.)—It is stated here that the control of the St. Lawrence ship channel, now under the outside service, is to be transferred to the inside civil service, for improvement in efficiency, as was recommended in Sir George Murray's report. The pilots' corporation at Quebec will be abolished.

HEROIC PRIEST DROWNED

ST. HYACINTHE, Que., July 7.—(Can. Press.)—Diving to the assistance of a student named Gaston Richer, Rev. Omer Gagnon, one of the professors of the St. Vincent De Paul College here, yesterday managed to save the boy by pushing him into the shallow water, but lost his own life in the swift current of the Yamaska River in which the boy was bathing, sweeping him down stream. The priest was a poor swimmer and his efforts to save the boy exhausted him.

APPOINT SUPERVISOR IN ARCHITECT'S DEPT.

Not Likely That Professional Man Will Get Important Position. A supervisor of the city architect's department is to be appointed by the board of control this morning. The city architect is on three months' leave, and his term of office then expires. Until another city architect is appointed, the department is to be placed under the supervision of someone acceptable to the board of control and the property committee. It is expected that Commissioner Chisholm will be selected. The policy of having a business man at the head of each department is so generally favored that it is doubtful if an architect will be appointed in control of the architect's department. Some members of the civic administration favor placing Commissioner Chisholm in charge of the property and architect's departments. Others favor giving the projected purchasing department to Commissioner Chisholm, and promoting William Fitzgerald to the head of the property and architect's departments.

EULABEL'S FIRST DIVISION OF FAMOUS TAVERN "STEAK"

Grand Circuit Opens at Cleveland — Feature Race in Three Divisions With Final on Friday — Del Ray in the Edwards Stake.

CLEVELAND, July 7.—Almost perfect racing weather and thousands of racing enthusiasts helped to open auspiciously the first meeting of the Grand Circuit at North Randall track. As is usual on Tavern "steak" day, when the millionaire owners plot their own colts, the grand stand was filled largely with society people.

Favorites in the Tavern "steak" were hard to pick, as only amateur drivers may enter, but the Edwards Stake went to the heavily-played favorite, Del Ray. The lightest field that has scored in the Edwards Stake since its establishment was given the word today. In the first heat, Daron broke at the eighth and was hopelessly distanced. Del Ray got away in front in the next two heats and kept the lead, Frank Bogash Jr. finishing close up each time. The record for the Edwards is 2:08 1/2, held by Vernon McKinney.

Seventeen horses were called to the post in the Tavern "steak" for amateur drivers only, which was divided into three preliminaries, with \$100 purses for each, the final to be raced on Friday for the rest of the \$400 purse.

In the first division, Eulabel, a Toledo horse, driven by Parisi, won after finishing fifth in the first heat. Cassie Home, driven by J. L. Dooze of Memphis, took the first heat from Baring of the second heat, and the second heat, and stretch Eulabel took the second heat, and won easily in the third.

The preliminary among the second division were also hotly contested. Joe W., driven by Geo. M. Tipping of Cleveland, taking the deciding heat from Frank Baring, driven by C. J. Hauser of the state, N.Y., in a whipping finish, in 2:08 1/2, within one-half second of the record for the tavern, set by H. A. Watterson of Cleveland, won rather easily the third division, half the field being distanced in the first heat. Frank Cassio, driven by Geo. Nugent of Phoenix, Ariz., was second.

Ulian, the world's champion trotter, failed to break the track record of 1:58 1/2, established by himself three years ago, going the mile in 1:09 1/2. Quite a strong breeze impeded the great black gelding. Summary: The Edwards Stake, 2 1/2, pacing, three heats, purse \$320: Del Ray, b.m., by Nutwood Wilkes (Cox) 1 1 1; Frank Bogash Jr., b.g., by Frank Bogash (Murphy) 2 2 2; Max Heart, b.h., by Max Heart (The Assessor, ch.g. (Geers) 3 4 4; Daron, b.h. (Branon) dis. Time—2:08 1/2, 2:08 1/2, 2:08 1/2.

The Tavern "steak" first division: Eulabel, b.m., by Mobel (Mitchell) 6 1 1; Castle Dome, b.g., by Jay McGregor (Dodge) 1 2 2; Baring, b.h. (Small) 4 3 3; Henrietta C., b.m. (Castle) 4 4 4; The Guide, b.h. (Jones) 5 5 5. Time—2:08 1/2, 2:08 1/2, 2:08 1/2.

SO rigid, so unremitting is the system of scrutiny enforced in the making of Tuckett's "CLUB" VIRGINIAS that thousands of Cigarettes are discarded every day for slight, immaterial imperfections which would be overlooked by even the critical smoker. Even the paper in which Tuckett's "CLUB" VIRGINIAS are rolled is made of pure rice paper imported direct from France. No chances are taken with ordinary arsenic-tinted papers. Tuckett's "CLUB" VIRGINIAS are made from the finest selected growth of Virginia leaf and are equal to the exclusive imported brands; but—mark the difference in the price!

PLAIN OR CORK TIPS 10 FOR 15c

CADILLAC RENEWED CARS

When buying a used car, quality should be considered. Unless an automobile has "quality" in every point, it will not give satisfaction when it is sold as a used car. A renewed Cadillac will give you greater service than any other new car at the same price. We have a few renewed Cadillac Touring Cars which can be seen at our showrooms—models of 1909, 1910, 1911 and 1912—at prices ranging from \$800 to \$2000.

HYSLOP BROTHERS, Limited Corner Shuter and Victoria Sts., Toronto

DR. HUGHSON

MANUFACTURERS OF BILLIARD & POOL TABLES. ALSO REGULATION BOWLING ALLEYS. 102 & 104 ADELAIDE ST. W. TORONTO. ESTABLISHED 50 YEARS.

Manufacturers of Bowling Alleys and Bowling Supplies. Sole agents in Canada for the celebrated "TIFCO" BOWLING BALL.

This ball is the best on the market, because it never slips, never loses its shape, always rolls true, hooks and curves easily, does not become greasy, is absolutely guaranteed, is cheaper than any other reputable patent ball, and complies with the rules and regulations of the A. S. C.

All first-class alleys are putting these balls on. Try one on the alley where you roll and you will never roll any other ball. 246

AMATEUR BASEBALL. Bradshaw, Robinson and Dale defeated W. R. Brock & Co. 18 to 11 at Bayville Park last night. Gordon Thornton's hitting was the feature.

RICORD'S SPECIFIC

The only Remedy which permanently cures Gonorrhoea, Gleet, Stricture, etc. No matter how long standing. Two bottles cure the worst case. My signature on every bottle—none other genuine. Those who have tried other remedies without avail will not be disappointed in this \$1 per bottle. Sole agency, SCHOFIELD'S DRUG STORE, 214 King St. East, Toronto.

MEN'S DISEASES. Involuntary Losses, Nervous Debility, Blood Disease affecting Throat, Mouth and Skin, Unnatural Discharges, Lost Vitality, Kidney and Bladder Affections, and all diseases of the nervous and Genito-Urinary Organs a specialty. It makes no difference who has failed to cure you. Call or write. Consultation free. Medicines sent to any address. Hours—9 to 12—1 to 6—7 to 9. DR. J. REEVE, 18 Carlton Street, Toronto. Phone North 6132.

—MEN— Private Diseases and Weaknesses quickly and permanently cured. I guarantee the quickest cure and lowest cost. Call or write. Medicines mailed in plain package. DR. STEVENSON, 171 King St. East, Toronto.

Jeff's Comedy Is All to the Ashcan - - - - - By "Bud" Fisher

GEE, I JUST THOUGHT OF A SWELL JOKE TO SPRING ON MUTT, I'LL GO PULL IT ON HIM BEFORE I FORGET IT.

SAY, MUTT, WHAT IS THE TALLEST BUILDING IN THE WORLD.

WY, YOU POOR SIMP, THE WOOLWORTH BUILDING OF COURSE.

NOPE! YOU'RE WRONG, THE HOTEL TOURAINE IN BOSTON IS THE TALLEST.

YOU'RE CRAZY HOW DO YOU MAKE THAT OUT?

WELL BECAUSE IT'S SO TALL THE CLOUDS HAVEN'T TO GO INTO THE WINDOWS TO RAIN—TEE-HEE! GET IT? TOURAINE!

Leafs Win a Game, 5 to 2--Ex-Tiger Secured by Royals--Giants Again

BROWN'S GOOD PITCHING MADE VICTORY POSSIBLE

Leafs Outplayed the Bisons at All Stages and Won With Something to Spare--Jordan Back at First--Two Leaf Draw Suspension.

BUFFALO, July 7.—(Special.)—With Brown pitching first-class ball this afternoon, the Bisons never had a chance. The score of 5 to 2 is no indication of the playing of the two clubs, as from the very beginning the Toronto Club outplayed their opponents.

A REAL VICTORY.

WAGNER'S HOME RUN SETS A NEW RECORD
BOSTON, July 7.—Heavy batting gave Philadelphia the first game of a double-header from Boston today by a score of 7 to 4, while the second game went to the locals, who also batted freely, by a score of 8 to 3. The visitors drove Ray Collins from the pitcher's box in the first innings of the first game. In the ninth innings of this game Boston knocked Brown out of the box, after he had kept the locals from reaching first base for six innings. Boston's second pitcher, Bender, pitched Boston hit only one ball out of the infield. Bender quickly put a stop to Boston's rally in the ninth, after three were on base, by striking out Brown.

REAL ESTATE NEWS

SEASON OF LONG DISTANCE TRADING

Real Estate Agents Work Hard for Their Commission Now.

For owners of central property are in the city at this season of the year, but that is not stopping energetic brokers, eager for a sale in these rather slow times, from getting right after their man, altho they may have to chase him half way around the world.

This long distance trading has brought out some good stories now, that the realty men have a chance to get together and chat. One broker tells of an unusual experience. He had to get in touch with a large central owner about a peculiar turn in a big deal that was practically concluded before the owner left the city.

FARM HELP IS OF BETTER QUALITY

Number Coming From Britain to Ontario Fields Shows a Large Advance.

Ontario has come nearer solving her farm help problem this year than for many years past. Not only has there been an abundance of laborers, but their quality has been very much appreciated in the agricultural sections of the province.

H. A. Macdonnell, director of immigration for the department of agriculture, stated last evening that between 2700 and 2800 laborers had been brought in from the old land, and had been placed with different farmers.

Mr. Macdonnell has calculated that within 1913 over 4000 in all will have been settled on the farms, and of these at least 70 per cent. will be experienced men.

The bulk of the new-comers hail from England, a large percentage being from Yorkshire and the southern counties. The ratio of nationalities is as follows: English, 60 per cent; Scotch 25, and Irish 15.

Notice has also been received that two contingents of Scottish school teachers will make Toronto their headquarters for a week or so this month, and visit the O. & C. at Guelph, and similar institutions.

You cannot spend a more enjoyable or profitable day. Thorold is in the centre of the great electrical, natural gas and manufacturing belt of Ontario, and is the distributing centre of the \$50,000,000 to be spent on the New Welland Ship Canal.

F. H. AIKMAN 133 BAY STREET Phone Main 3618 TORONTO

few days, then cabled to Sydney to the hotel his man should stop at. The cable came back "Not found". Then one of the members of the family here told him to wire to San Francisco. The telegraph office said he had gone to Seattle; the message was sent there. He had just left. It was on the last three or four thousand miles of this thirty or forty thousand mile chase that the real estate man worked hardest. He was almost frantic with the delay. Hours meant thousands to everybody interested. He was told his man was coming back over the C.P.R. and would stop at Banff. The telegram was sent to Banff, but there was no one there to receive it. The man had stayed off at Revelstoke. Back came the message for redirection. Banff was tried, then Winnipeg. It should have caught him at Winnipeg sure, but the owner went unexpectedly to another hotel and stayed there but an hour or two. Undaunted the real estate man wired him again of every train coming from Winnipeg, and the message overtook him at the Union Station, Toronto. He immediately came up to the real estate man's office, not two blocks from the station, and signed the necessary papers; the deal was picked up again and the agent got his hard won commission, and for his persistence was also given the agency of all that owner's extensive holdings, which has brought in enough to keep almost any realty man happy.

Another peculiar summer incident was that in which a Montreal man wrote to a local agent asking him to buy a piece of property alongside the Toronto house of the Montreal man's sister. The deal was to be put thru quietly at net price, and the agent had cartilage as to terms. The property was bought and the agent sent on the papers to Montreal for the buyer's signature. The owner's office was directly opposite that of the buyer on Notre Dame street. The buyer paid the commission, demurringly tho, and the agent pocketed it and smiled to himself.

W. J. RICHARDSON HAS PASSED AWAY

Former Manager of Queen's Hotel Died in Penicton, B. C. Wm. J. Richardson, for 23 years connected with the Queen's Hotel, Toronto, and the last few years, manager, died at Penicton, B.C., where he went only a year ago to take charge of the new "Incolta" Hotel, making a splendid success of his new venture.

Mr. Richardson was recognized as the best hotel man in Canada, being exceptionally popular with the traveling public, and with the guests at the Queen's Hotel.

While running under bare poles—before a heavy gale, the schooner Maud Carter, 92 tons, coal laden, bound from Louisburg, N.S., to Charlottetown, foundered about four miles off Cape George, Antigonish County, this morning. The captain and crew launched a dory and reached shore safely.

LORD FITZGERALD IS COMING TO TORONTO

MONTREAL July 7.—(Can. Press.)—Lord Edward Fitzgerald, the brother of the Duke of Leinster, the latest of the English peers to select his wife from the ranks of British theatrical beauties, arrived here today on his honeymoon trip. Lady Fitzgerald, who was Miss May Etherage of the Shaftesbury Theatre, London, responded to the reporters about the idyllic life she and her husband had been leading during the past two weeks in a shack on the shores of Lake Edward, among the wilds of Quebec.

His lordship said he was going to investigate the fox farming industry with a view to starting one here. Lord and Lady Fitzgerald will remain in Montreal for a day or two and then pass on to Toronto.

BOYS WILL BE BOYS.

GALT, July 7.—(Special.)—A party of small boys discovered an odd article on the railway track and proceeded to smash it. It proved to be a torpedo fog signal, and the explosion seriously wounded Henry Cober.

At Less Than Half

Do you want to buy a good automobile for a very small fraction of what it is actually worth? You will find plenty of them in the Want Ad Section of this paper. They are under the heading of "Automobiles."

All the automobiles advertised here are bargains—real bargains.

These cars are all in first-class condition, and good for years of service.

The Want Ad columns of this paper are famous for their bargains in Automobiles.

Many automobiles change hands every year through these pages.

This is the great market-place for every make of car. Look over it today and every day.

Read the Ads and answer the ones that look good to you.

Every day wonderful bargains make their way into these Want Ad columns. And shrewd buyers have been known to get machines in tip-top condition for less than one-half the original price.

Watch these Ads every day now. And answer some of them.

You can't tell when the very car you want will be advertised, and you want to be looking for it when it is.

And every time you answer an Ad, please mention this paper.

Help Wanted

FIRMER UNDERTONE IN TORONTO MARKET

But Improvement in Values Was Narrow—Speculation Very Dull.

BRAZILIAN UP AGAIN

New Low Records on Preferred Shares—No Activity in Sight.

Two reasons were assigned for the firmer undertone in the Toronto Stock Exchange yesterday; first, an accumulation of buying orders over the week-end holidays, and second, a more cheerful feeling regarding the outlook as inspired by the buoyant disposition of the London exchange and the settlement of the Rand strike.

Fractional improvement in Brazilian as shown in London cables and a reflective advance in the price here was the most interesting event of the day. The shares opened unchanged from last Friday at 8 1/2, and gained just half a point during the session, winding up at 8 7/8.

Some of the preferred stock issues did not do so well, slight recessions in prices following the liquidation of a few blocks of these shares. Four preferred securities, Sawyer-Massey, Maple Leaf, Monarch and P. N. Burt made new lows for the year, and of these the latter two were in new low ground in their history.

The market was dull throughout, with sentiment subject to momentary changes. The outlook is for narrow trading and consequent restricted price swings.

LONDON MARKET IN CHEERFUL MOOD

Settlement of Rand Strike Was Reflected—Advances Didn't Hold, However.

LONDON, July 7.—Money was plentiful and discount rates were easy today. The Bank of England advanced the rate of the \$10,000,000 new gold offered in the open market.

PESSIMISM MAY BE EASILY OVERDONE

Liquidation has been prolonged and severe in securities; it has made considerable progress in commodities, many of which have undergone sharp declines. The process of self-righting has been going on for nearly a full year; many difficulties have been safely passed and those that remain have been well counted.

MONEY MARKET.

BIG BANK FAILURE ACROSS THE LINE

Pittsburg Institution Carries Other Companies Down in Its Own Wreckage.

NEW YORK, July 7.—A bank failure of far-reaching importance occurred today in Pittsburg when the Deputy Comptroller of the Currency closed the First Second National Bank of Pittsburg. The institution was a merger of the First and Second National Banks, and was capitalized at \$3,400,000, with deposits of \$2,900,000, loans of \$1,705,000, and total resources of \$38,103,800.

As a result of the failure the First National Bank of McKeesport, Pa., was closed, application was made for a receiver to take charge of the American Water Works and Guaranty Co. of Pittsburg, capitalized at \$20,000,000, and the firm of J. W. and W. S. Kuhn, a financial concern with offices in Pittsburgh, New York, Chicago and branches in Europe, closed its doors and applied for a receiver.

C. P. R. WILL EARN ABOUT TWENTY P.C.

Indicated Record of Principal Railways as Shown by Eleven Months' Figures.

Canadian Pacific Railway earnings for the fiscal year which ended on June 30, 1912, were \$11,000,000, or 19 1/2 per cent on the capitalization, the earnings for the first 11 months being \$10,000,000, or 19 1/2 per cent on the capitalization.

GOLD IS EXPORTED TO FRANCE AGAIN

Bank of France is Increasing Its Bullion Reserves at Expense of Wall Street.

NEW YORK, July 7.—The heavy export movement of gold to Europe this week resumed today after a lull of several weeks with the exception of \$3,000,000 for Paris. This makes a total of \$11,000,000 for the year and of \$61,385,000 for all countries.

DECREASE SHOWN IN U. S. VISIBLE

Visible grain supply in the United States today, last week and a year ago, compare as follows:

Table with 4 columns: Commodity, 1912, 1913, 1913. Wheat: 2,292,000 (1912), 2,015,000 (1913), 2,472,000 (1913). Corn: 7,355,000 (1912), 11,861,000 (1913), 15,339,000 (1913). Oats: 3,210,000 (1912), 14,577,000 (1913), 15,839,000 (1913).

DULUTH SUPERIOR RECORD OF EARNINGS

Duluth-Superior earnings continue to evidence an excellent improvement over those of 1912, the figures for June and the year to date being as follows:

Table with 4 columns: Period, P.C., P.C., P.C. First week: 3,202.57 (1912), 32,079.05 (1913), 10.9. Second week: 25,433.31 (1912), 22,408.75 (1913), 13.5. Third week: 25,584.23 (1912), 22,659.35 (1913), 13.3.

BIG INCREASE IN BRITISH TRADE

LONDON, July 7.—The June statement of the Board of Trade shows an increase of \$38,274,500 in imports and \$39,321,000 in exports. The imports of food stuffs and raw materials increased \$15,000,000, while the principal gain in exports was in manufactured goods including \$7,500,000 in cotton textiles.

STOCKS DEPRESSED ON DIVERSE NEWS

Failure of Pittsburg Bank Important Factor in Chilling Enthusiasm.

EUROPE DRAWING GOLD

Money Strain Abroad Promises to Continue Indefinitely—Reserves Depleted.

NEW YORK, July 7.—News in which Wall street was especially interested today was nearly all of a bearish turn, and there was no outside demand to sustain the market, quotations were generally lower. Resumption of trading after the triple holiday brought no awakening of interest, and although the development might have had little influence on a broad and active market, they formed an available basis for operations of the financial element, whose activities accounted for the greater part of such business as was done.

Most attention was paid to the closing of a Pittsburg bank and the receipt of a related cablegram from the receiver to the suspension of the bank were purely local, and that no unfavorable inferences could be drawn regarding the banking position in general. In fact, the maining in which the banks were building their reserves, in view of the difficulty of the present situation, was shown in the reports just made to the comptroller in response to his call.

UPS AND DOWNS IN N. Y. MARKET

Ericksen Perkins & Co. report average New York Stock Exchange prices of ten leading rails and ten leading industrials for 1913, as follows:

Table with 4 columns: Rail, Ten Rails, Ten Indus. High Monday: 116.9 (Rail), 64.4 (Indus). Low Monday: 116.2 (Rail), 63.8 (Indus). Close Monday: 116.9 (Rail), 64.4 (Indus).

RAILWAY EARNINGS SHOW BIG INCREASE

U. S. Lines Report Larger Gains Than Canadian Roads for First Time.

Canadian Railway earnings for the month of June maintain the gains shown in the preceding months, but were considerably ahead of those for the month of the year for the first time since the first three weeks of 1912, when the first three weeks of the year were 6.2 per cent above the corresponding period of the year.

RIGHT OF WAY MINES IS VERY MUCH ALIVE

In reference to a recent report that the Right of Way Mines had surrendered its rights to the government, the secretary of the company, the Right of Way Mining Co., Ltd., old Right of Way Mining Co., Ltd., company was taken over by the Right of Way Mines, Limited, four years ago.

BRAZILIAN EARNINGS BELOW THE AVERAGE

Gross earnings of the Brazilian Traction Company for the week ended June 28 were the lowest reported in a couple of months, and the increase over the corresponding period of the year fell well below the gain recently reported by the little over 50 per cent of the increase in 1912, compared with \$329,484 in 1912, a total of \$339,585. They compare as follows:

Table with 4 columns: Week, Earnings, Increase. Week June 23: \$432,080 (1912), \$39,585 (1913), 9.2. Week June 24: \$458,206 (1912), \$70,951 (1913), 15.5.

A FINANCIAL MECCA.

The new C.P.R. skyscraper at King and Yonge streets is fast becoming a Mecca for brokerage houses and financial firms. The latest to be attracted there is A. H. Martens & Co., members of the Toronto Stock Exchange, who have moved their former offices at 14 East King street.

LIVERPOOL COTTON.

LIVERPOOL, July 7.—Cotton—Futures closed quiet; July, 6 1/4 to 6 1/2; August, 6 1/4 to 6 1/2; September, 6 1/4 to 6 1/2; October, 6 1/4 to 6 1/2; November, 6 1/4 to 6 1/2; December, 6 1/4 to 6 1/2; January, 6 1/4 to 6 1/2; February, 6 1/4 to 6 1/2; March, 6 1/4 to 6 1/2; April, 6 1/4 to 6 1/2; May, 6 1/4 to 6 1/2; June, 6 1/4 to 6 1/2.

MINNEAPOLIS GRAIN MARKET.

MINNEAPOLIS, July 7.—Close—Wheat: July, 89 1/2; Sept., 91 1/2 to 92; Dec., 94 1/2; No. 1 hard, 92 1/2; No. 1 northern, 91 1/2 to 92 1/2; No. 2 northern, 89 1/2 to 90 1/2.

LITTLE LIFE IN MONTREAL LIST

Brazilian and C. P. R. Were Firm Spots—Liquidation of Bank Shares.

NO DEFINITE TREND IN MINING MARKET

Mid-Summer Dulness Held Both Porcupine and Cobalt Lists Thruout.

NEW LOW RECORDS

But Buying Demand Was of Fairly Good Calibre—Price Changes Small.

MONTREAL, July 7.—The resumption of trading on the Montreal Stock Exchange after the holiday was accompanied by no change in the general conditions of the market. Commission business was even smaller than on any of the duller days of the last week, and today's fluctuations were again toward sagging. Brazilian, which sold between 8 1/2 and 8 3/4, and closed 8 1/2, as compared with 8 1/2 when the market closed last Friday, was one of the few leaders to display a slightly better tone.

UPS AND DOWNS IN N. Y. MARKET

Ericksen Perkins & Co. report average New York Stock Exchange prices of ten leading rails and ten leading industrials for 1913, as follows:

Table with 4 columns: Rail, Ten Rails, Ten Indus. High Monday: 116.9 (Rail), 64.4 (Indus). Low Monday: 116.2 (Rail), 63.8 (Indus). Close Monday: 116.9 (Rail), 64.4 (Indus).

EUROPEAN MARKETS.

The Liverpool market closed 1/4 to 1/2 higher and 1/4 higher on Berlin wheat was 1/4 to 1/2 higher and higher, Paris 1/2 to 1 1/2 higher and Buda Pest 3/4 higher.

WINEGRAIN EXCHANGE.

Wheat—Open. High. Low. Close. Prev. July: 99 1/2, 99, 97 1/2, 98 1/2, 98 1/2. Oct.: 93 1/2, 93 1/2, 92 1/2, 92 1/2, 92 1/2.

LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, July 7.—The market over the holiday was quiet with prices unchanged. Today the market opened steady and advanced 1/4 to 1/2 higher and 1/4 higher, further advanced during the morning advanced with some covering by shorts. The Liverpool market to Liverpool and the increasing stocks were offset by unfavorable French crop advice and the political situation. There was an increased demand for cargoes with prices more firmly held.

CHICAGO MARKETS.

J. P. Bickell & Co., Standard Bank Building, report the following prices on the Chicago Board of Trade:

Table with 4 columns: Commodity, Open, High, Low, Close, Prev. Wheat: 90, 90, 88 1/2, 88 1/2, 90. Sept.: 90 1/2, 90 1/2, 88 1/2, 88 1/2, 90 1/2.

WINNIEPEG GRAIN MARKET.

WINNIEPEG, July 7.—The wheat market was decidedly weak in more favorable weather conditions prevailing over the spring wheat areas on both sides of the line and in face of higher Liverpool cables. Trading in options was more active, closing prices were 1/4 to 1/2 lower.

CHICAGO LIVE STOCK.

CHICAGO, July 7.—Cattle—Receipts, 10,600; market, active, 10c to 25c higher; heavy, \$2.00 to \$2.15; rough, \$1.80 to \$1.95; pigs, \$7.15 to \$7.30; bulk of sales, \$3.95 to \$4.10.

TORONTO SUGAR MARKET.

Sugars are quoted in London, in bags, per cwt., as follows: Extra granulated, St. Lawrence, \$4.40 to \$4.50; refined, \$4.40 to \$4.50; do. do. Acacia, \$4.35 to \$4.45; Imperial, granulated, \$4.25 to \$4.35; No. 1 Yellow, \$4.20 to \$4.30; No. 2 Yellow, \$4.10 to \$4.20.

NO DEFINITE TREND IN MINING MARKET

Mid-Summer Dulness Held Both Porcupine and Cobalt Lists Thruout.

NEW LOW RECORDS

But Buying Demand Was of Fairly Good Calibre—Price Changes Small.

There was a fair buying demand in the mining market at the opening session of the week, but trading was restricted and no definite trend developed. Half a dozen issues showed a tendency to sag whenever selling put in an appearance, and on this account several declines were in evidence at the close. On the other hand a medium of firmness was evident in other sections, so that it was impossible to characterize the list as either strong or weak when the final gong rang.

Some interest was taken in the establishment of a couple of new low records, notably Beaver, Cochrane and Hargrave. Cochrane shares have been filtering out from time to time, and as the insiders do not seem at all inclined to take over the stock, the price has to be lowered with every order which will do much better yesterday, which compared with \$1.38 two months ago.

Beaver at 25 was at its lowest in several years. There was nothing new out of the old story of the stock held in an estate being voiced in explanation. Hargrave preferred shares were again made a new low for the year. The street has heard nothing regarding the outlook for this company for some time and consequently is not inclined to bid for the shares. Other weak spots were Burt, which closed at 7 1/2, and McIntyre at \$2.20, the latter indicating a net loss of 10 points for the day.

BUSH FIRES ARE NO MENACE TO PORCUPINE

That all danger from bush fires is passed so far as the Porcupine mines are concerned is the opinion of the company, by wire this morning by Hamilton. Wills, the Standard Stock exchange broker, from his engineer in the camp.

LONDON WOOL SALES.

LONDON, July 7.—The offerings at the wool auction sales today amounted to 1,086 bales. Good wools were readily absorbed, but the demand for inferior and shoddy was not so strong. The sales were closed by 11 o'clock.
