The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagram illustrates the method:

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. SAINT THOMAS

AGRICULTURAL SOCIETY

REPORT.

In accordance with the Resolutions of the Committee of Management, at a meeting held at the Talbot Mansion House on the 2nd November, 1889, we have drawn up the accompanying Rules and Regulations for this Society, which we submit, and recommend for the adoption of the General Meeting on the 2nd Saturday of January 1890.

In reporting on the proposed Plan of appropriating the Funds of the Society to the Importation of Cattle instead of giving Cash Premiums.—We highly approve of it, and earnestly recommend it may be put in execution as soon as the Funds of the Society are ascertained to be sufficient, and to substitute in lieu of Cash, a Premium Ticket that shall be available to the holder or bearer to the amount of its value by the use of the Society's Bulls or other Stock. And in case a fortunate Candidate may obtain more Tickets than are of use to him, we propose they shall be negotiable, by the holder selling his claim on the Society to any other person, (member or non member,) for the same purpose only.

According to the existing Rule of Agricultural Societies in this Province, of giving Cash Premiums, we are strongly of opinion, that little benefit is derived to the Agriculturist. The Funds of Societies are dissipated in giving Premiums for Stock that little entitled to merit, and we believe (without impositions) that in ten years time our Cattle will be no better than at the present day.

Although there have been a few individuals who have been spirited enough to import Stock with great benefit to themselves and the Public, the benefit has been confined to the immediate neighborhood where such animals were obtained, and it is, we fear, too much to expect a private importation of Horned Cattle will be a success for many years. In recommending at present the importation of Horned Cattle only, we are not blind to the necessity of improving our Sheep and Pigs, but from the lesser risk and expense attending the importation of these animals, many Farmers emigrating to this Province, bring some with them; they are also more prolific, and more easily distributed through the country; consequently the improvement in these breeds of animals is now much more apparent than in Horned Cattle. With these views we confine our recommendations at present to the importation of Horned Cattle of a pure Breed, to be decided on at the next General Meeting of the Members, and we are of opinion, that many Members of this Society have friends in England, who would purchase animals, and ship them for this Society, without any charge but travelling expenses; and we recommend the correspondences may be entered into by some member or members of this Society, to ascertain the price animals may be purchased for and the expense of transportation to Montreal. Then, if the funds of the Society be found sufficient, we recommend that four Yearling Bulls and two Heifers be purchased and imported.

By importing this number we are of opinion, that (without unforeseen accidents) a future importation of Horned Cattle would not be necessary for many years; as, by changing the station of the four Bulls, they would be equally beneficial to the end of twelve years as the first year, and may then be sold for the benefit of the Society; besides which, having two Heifers, the Society may breed Bulls to succeed the imported ones; and also, some for sale, which would eventually become a source of pecuniary benefit. We further are of opinion, that in two or three years the Society may (by adopting this method) be enabled to import one or two thorough-bred Horses, which would be the means of greatly benefiting the Society and the country. Should these plans be successfully adopted, and a further importation be considered unnecessary, the Society may then give Premiums in cash; but till that time, we feel confident such premiums should be withheld; and when we consider, that the merit of being the breeder or possessor of the best animal, is the same with or without cash, we think the members of this Society will lose sight of the immediate possession of a Penny by the prospect of a no very distant possession of a Pound.

If the Society succeed in importing Bulls, we suggest that they should be stationed at such distances as will insure the greatest benefit; and the Prices charged for each Cow shall be to members, Three Shillings and Nine Pence, and to non-members, Ten Shillings, Currency.

(Signed,) G. T. CLARIS,
WM. WEBB,
JOHN K. LABATTE.
