Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/  
Couverture de couleur
- Covers damaged/  
Couverture endommagée
- Covers restored and/or laminated/  
Couverture restaurée et/ou pelliculée
- Cover title missing/  
Le titre de couverture manque
- Coloured maps/  
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/  
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/  
Planches et/ou illustrations en couleur
- Bound with other material/  
Relié avec d'autres documents
- Tight binding may cause shadows or distortion along interior margin/  
La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure
- Blank leaves added during restoration may appear within the text. Whenever possible, these have been omitted from filming/  
Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.

- Coloured pages/  
Pages de couleur
- Pages damaged/  
Pages endommagées
- Pages restored and/or laminated/  
Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed/  
Pages décolorées, tachetées ou piquées
- Pages detached/  
Pages détachées
- Showthrough/  
Transparence
- Quality of print varies/  
Qualité inégale de l'impression
- Includes supplementary material/  
Comprend du matériel supplémentaire
- Only edition available/  
Seule édition disponible
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image/  
Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.

[Printed ephemera] 1 sheet (verso blank) This copy is a photoreproduction.

This item is filmed at the reduction ratio checked below/  
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	12X	14X	16X	18X	20X	22X	24X	26X	28X	30X	32X
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							

The copy filmed here has been reproduced thanks to the generosity of:

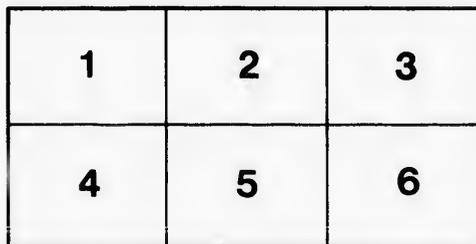

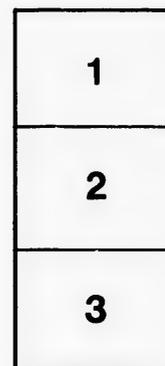

Bibliothèque nationale du Québec

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Québec

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

# PROSPECTUS.

TO be published in England, by DAVID THOMPSON, a new and correct Map of the Countries in North America; situated between the Parallels of 45 degrees; and 60 degrees of North Latitude; and extending in Longitude from the east side of Lake Superior, and Hudson's Bay, quite across the Continent to the Pacific Ocean; from his own local knowledge; being the result of 22 years employment in discovering and laying down the several Rivers, Lakes, Hills and Mountains on this extensive tract of country; many parts of which had never before been explored; these discoveries were only finished in 1812. The whole founded on astronomical observations, the Author being an astronomer by profession.

A small part of this work has already found its way to the public, being copies of a rough Map laid before the North West Company of Canada.

Of these regions the map makers have no doubt given the best delineation they could acquire; but of what was known, so little was founded on astronomical observations; and their being obliged to fill up the vacant space with what information they could procure, has led them into many errors.

In this Map now offered to the public, almost all the great Rivers on the above part of the Continent, on both sides the great Mountains are traced to their sources; the sources of the Mississippi, and several other great rivers, and the Shores of Lake Superior, have been examined and laid down by the Author only.

The position, extent and height of the Hills and mountains have engaged much of his attention; of which he has many Landscapes. The last six years of his discoveries were on the west side of the Mountains to the Pacific Ocean. Each Indian Nation's Territories, with their limits, and the places of the trading settlements of the North-West Company, will be marked out.

The courses and distances, (taken when necessary to one 100 yards,) with their calculations, &c. the astronomical observations, and rough Maps on the scale of one inch to a mile, on which these Maps are founded will be open to the inspection of the curious, while the work is publishing; and it will doubtless afford much speculation to the scientific, to find many of the great Rivers of North America taking their rise in a small compass, and going off to the different Seas like Radii from a centre.

To render the Map more general, and to give connection to all the parts, the Author will avail himself of the Sea Coast of Hudson's Bay and the Pacific Ocean, &c. &c. as laid down by the latest Navigators and Travellers; whatever he has not personally examined himself, will be in a different colour, and the authority mentioned.

Nothing less than an unremitting perseverance bordering on enthusiasm could have enabled him to have brought these maps to their present state; in early life he conceived the idea of this work, and providence has given him to complete, amidst various dangers, all that one man could hope to perform.

The Map will be engraved in a neat chaste manner, combining elegance and economy, on the scale of 3 inches to one degree of Longitude, and will form either a map or an atlas at the will of the subscriber.

The arduous survey, on which the Author is at present employed does not permit him to present the Public with a description of these Countries and the nations of Aborigines. This he hopes to perform as soon as time permits.

It is expected the geographical map will be ready for delivery to the subscribers by the latter end of the Summer of 1820 at the latest.

These parts of North America have long been a desideratum in Geography.

He also offers to the scientific public, of the same size as the general Map, a Chart to contain only the grand features of this part of the Continent, such as the great Mountains and Hills, the principal Rivers and extensive Lakes; as he proposes to delineate on this Chart the position and extent of the Coal Mines; of the various beds of different kinds of Stone and Rock; of the great Meadows and Forests; the limits of the Countries on which the Bison, Elk, Red Deer, Wild Sheep, &c. &c. are found; the line of the old, and new portions of this part of the Continent; the line of the position of the Countries, over which, is the most constant appearance and greatest brightness of the Aurora Borealis; and the lines that bounds their appearance to the west-ward, beyond which they are not seen; and whatever else he may deem worthy of remark: all of which could not have been delineated on the geographical Map without causing confusion.

*DEDICATED by permission to the HONOURABLE WILLIAM MCGILLIVRAY, and SIMON MCGILLIVRAY, ESQUIRE.*
