### CITY AND MCGILL IN QUITE FRIENDLY CONFAB

But Differences Respecting Rounded Corners and Freight Yards Are Still Unadjusted.

There were two conferences between the board of control and D. McNeill, vice-president and general manager of the C. P. R., yesterday. One was on the question of rounding the southeast corner of King and Yonge streets by the expropriation of 40 feet of the company's property by the city.

### FILIBUSTER

Mr. McNeill said the company was not disposed to stand in the way of anything that could be shown to be an improvement, and would be willing to re-arrange their building plans if it could be demonstrated that the alteration suggested was beneficial.

**LIKE A FLASH FROM THE SKY COMES THE STROKE OF PARALYSIS**

Almost daily you hear of someone having a stroke. Suddenly, and with no apparent warning, life is snatched away, or the victim has a slow and tedious recovery from helplessness, only to await in constant terror a return of the old enemy.

There has been sleeplessness, headaches, derangement of digestion and other vital organs, nervousness and irritability, failing of memory and the powers of concentration, feelings of discouragement and despondency. But these danger signals were not recognized as a warning that the nervous system was giving out, and so the stroke came suddenly and unexpectedly to one who considered himself healthy.

You may not be sick, but if you are neglecting such symptoms as these you are running a terrible risk. You cannot possibly get the best out of life with the nervous system at low ebb. Physical bankruptcy is staring you in the face.

Partial paralysis can be cured. It has frequently been cured by Dr. Chase's Nerve Food, as in the case of Mr. Alex. Honsburger. But how much wiser it is to heed the warning symptoms and prevent such overwhelming disaster by keeping the nervous system in condition at all times.

**LIMBS WERE PARALYSED**

Mr. Alexander Honsburger, 10 Moore Street, St. Catharines, Ont., writes: "For some years I was afflicted with nervousness, which grew on me and developed into paralysis of the limbs, so that I became helpless. The best efforts of three doctors failed to even relieve me, and though I tried a Buffalo specialist, he, too, was baffled in my case. I gradually grew worse, and was in such a bad condition that I despaired of being well again.

"After using ten boxes of DR. CHASE'S NERVE FOOD, I was able to resume work, and am now feeling better than I did for twenty years. I consider DR. CHASE'S NERVE FOOD the king of all medicines, for through its use I recovered health after long suffering."

**DR. CHASE'S NERVE FOOD**

This great food cure nourishes the wasted and depleted nerve cells back to health and vigor. This is the only way by which exhaustion of the nervous system can possibly be overcome. Narcotics deaden the nerves, stimulants whip them up to renewed effort. Such treatments cannot prove of lasting benefit.

Nervous prostration, nervous exhaustion, locomotor ataxia and paralysis are permanently cured when the depleted nerve cells are restored and reconstructed by Dr. Chase's Nerve Food.

TUESDAY MORNING, APRIL 25, 1911.

U.S. SOCIAL STRUGGLE.

The World regards the Indianapolis arrests, following dynamite outrages and the destruction of human life in many places in the United States, as the beginning of a great social struggle in the adjoining republic. There is no question that labor and capital have been bitterly opposed for years in that country, and instead of the situation becoming mitigated, it grows more severe. The trusts, the high tariff, the growing exaction of living, the cold-blooded execution of many kinds, the robberies in connection with municipal government and the opposition of capital and of society to its responsibilities, may end at any moment. The United States has no use for the man who has taught a single trade, and who is almost unfit for any other vocation. To discharge a man without a moment's notice is now a common practice in the Union, and these things have tended to produce a widespread feeling not only of unrest, but more or less bitterness and hostility.

That the outrages were committed to one doubts, and yet it is the duty of the law to follow up all these cases and to secure punishment. Labor, on the other hand, is insisting that it is the duty of the law to secure the correction of the evils which they complain, and the net result will be a far-reaching struggle. In fact, the World believes that a revolution of some kind is at the door of the United States today.

Why should Canada in any way mix herself up with the people of the United States? As was pointed out in the news columns of The Sunday World, there is good reason for believing that it is the interest of the United States that have induced President Taft to bring up the question of reciprocity with Canada, and the other question of interference with the government in Mexico, as a means of diverting the attention of the people from the great social problems that are demanding attention, and which it is the effort of the trusts and Wall-street to get by if they possibly can.

One of the measures for improving the conditions of the working people in the United States is a reduction of the tariff, and that reduction ought to be carried out on its merits and not with any regard to concessions from Canada. Another means of relief is the enforcement of the law against trusts. Still another means which might be carried out is the enforcement of the law and the punishment of those who are guilty of the outrages.

The duty of Canadians and the Canadian Government is to keep clear of all these things and of any entanglements with the United States, and to take a lesson from what has happened there by making no move that will involve us in any way with the serious and menacing situation in that country.

CITY GOVERNMENT.

In The Ottawa Free Press we find the same stumbling over the commission government idea that betfalls all the other people who have been hypnotized by the United States plan of electing commissioners.

Why elect commissioners when the good old British plan for generations past has been to elect a board whose duties it is to appoint them? "We know, dear reader," says The Free Press, "that you yourself could sit down and name five gentlemen who would give us a civic administration in Ottawa immensely superior to any that we have hitherto enjoyed. We know we could."

That is an admission of the whole case for civic government by commission. If a council or board were elected whose sole duty it would be to pick those commissioners the board would pick the five men The Free Press believes are to be found.

In Germany it is realized that governing a city is just as much a business as running a railroad or managing a bank or conducting a newspaper. The directors of these corporations are elected by the shareholders, and they pick business men to do business. Any city can follow the example.

CANADA'S GREAT MISTAKE.

Let anyone read The Globe's special correspondence from Washington in yesterday's paper, dealing with the chances that reciprocity has in the senate of the United States, and then say whether it is a wise thing for Canada to place the making of her tariff—and that is what is really the issue—in the hands of the congress of the United States. According to The Globe the senate is not only divided into two parties, but each party is

full of internal warfare, and what with the various kinds of strategy as between the warring elements within each party, and as between the two big parties, the prospect is anything but bright for the passage of reciprocity. Furthermore it is certain that if ever we put ourselves in the same hole again the same thing will happen year after year, and time after time, and tariff uncertainty will be the rule in Canada.

We cannot afford any such condition of affairs; if we wish to let in American goods on lower duties let us let them in once and for all on our own part, and change it when we want to; and if the Americans wish to do the same thing with regard to our goods, let them do it. But this idea of reciprocity or joint arrangement is a great enemy to Canada's fiscal independence that ever was perpetrated.

Sir Wilfrid Laurier has made the mistake of his life, and so has the Liberal party, and the sooner they get away from it the better it will be for them and the country. The World believes now more than ever that there will be no reciprocity treaty.

BADEN-POWELL'S BOY SCOUTS.

Those scoutmasters who opposed any association of the boy scout movement with preparation for a military life were simply carrying out the wish and conviction of its founder, General Baden-Powell has repeatedly deprecated any diversion in that direction from his original conception. The laws of the boy scouts, the point of honor, the day-by-day helpfulness, of pity for wild creatures and helpless animals are not specially military virtues, rather do they belong to ordinary common life. The boy scout is a resurrection of the chivalrous knight of old with-out his spear and shield, but with all his courtesy, compassion, and will to aid all in distress. That ideal should not be dimmed in Canada.

SCHOOLS AND UNIVERSITIES.

Dr. Falconer has raised a very important question by requesting the senate of the university to consider the advisability of raising the standard of entrance to that of senior matriculation. It does not of course concern the university alone, for any change in that respect at once affects the whole school system of the province. If that system is to be effective the public and secondary schools must be correlated, not only among themselves, but so that each class may be complete in itself for the fulfillment of its proper purpose and at the same time form a connected chain with the universities.

As Sir James Whitney has repeatedly affirmed children who leave school at the legal age should have received a sound work-a-day education, while those who go forward to the high schools should be trained accordingly. The same ideal necessarily holds in the case of the high schools, which should at one and the same time be an end in themselves and also provide efficient preparation to students who desire to pass on to the universities. Both these objects are of the highest importance, but that which contemplates the education of the masses must not be subordinated to that which regards future professional careers.

Another sound principle is that which requires that the classes of schools and the universities be restricted to their appropriate work. Secondary schools ought not to be called upon to undertake duties rightly falling to public schools, nor should universities be expected to perform those rightly belonging to secondary schools. A really excellent school and university co-ordinated system guards against overlapping, but insists that the courses in the schools shall not be too largely determined by university entrance requirements. To obtain the best results careful consideration must be given to the adjustment of the courses to their respective objects. This problem is succinctly treated in a pamphlet recently issued by the High School Teachers' Association of New York City. The committee that prepared the report suggested two methods for its solution. By the first method college entrance would be based upon the simple fact of graduation from a four-year course in a first-class high school. The second method, not so radical as the first, called for a reduction in the number of "required" subjects together with the recognition of all standard subjects as electives. Whatever the universities of the province may do it is essential that the government maintain the position of the public and secondary schools as sufficient training places for all the walks of active life to which they lead.

GRAFT CASE LENIENCY NOT ON MR. FOY'S PART

G. T. Blackstock Assumed Responsibility in Asking Dismissal of Buchanan.

Hon. J. J. Foy, who had just returned from Atlantic City, was asked yesterday if the plea for leniency for G. T. Blackstock made by G. T. Blackstock at the North York graft case, was authorized by him.

The attorney-general's only reply was to produce the court reporter's official report of Mr. Blackstock's address, which read as follows: "Therefore, my lord, having regard to all these facts, and to two other facts to which I allude, namely, the fact that an investigation has been dragging on for a long time, in respect of which the accused was put to heavy expense, as well as in the proceedings we have here, and also to what I have on good authority had presented to me in the conversation with the learned friends frankly in the conversation I had with them, as I now say publicly, that I would myself assume the responsibility of asking your lordship to say whether, under all the circumstances, the ends of public justice might not be achieved by allowing him to go on suspension of sentence in reference to these charges, having regard to what has been done."

"I need not say that that is a very grave and weighty responsibility, which I should very much have preferred to have had placed upon other shoulders. I have availed myself of the interval which your lordship was kind enough to grant me, to communicate with the attorney-general's department, and in the absence of the attorney-general and the regrettable illness of his assistant chief, the deputy attorney-general, prevented me from getting such advice as I should have liked to have had under the circumstances, and at the same time I was authorized (as I expected would be) to take that course, which under the circumstances I felt, with the facts before us which we have, it was expedient for me to take."

LATENT WEALTH OF NORTHERN ALBERTA

Wonderful Natural Resources of the Calgary Country, Yielding Up Their Rich Minerals.

CALGARY, April 24.—(Special)—Surveyors have just returned from the north-western part of the province, and have reported the discovery of large American speculators. They traveled to a point 2600 miles distant. They state that all along the Athabasca, McLeod and McLeod rivers there was indisputable evidence of petroleum. Said the chief of the party: "There is good fuel burning here from Ft. McMurray to Fort Smith, and there is oil-bearing land all the way from the Athabasca to Smith-Portage, 1600 miles north of here. The whole country on each side of the river is capable of agricultural development of the highest kind, and equal to the very choicest land in Southern Alberta district."

"Around Fort McMurray are veins of coal and the richest in the country for 100 years to come. Natural gas is also existent in superabundance. There is sufficient power in the Grand Rapids of the Athabasca River to heat and heat a big city. "There are also veins of copper, coal, antimony and aluminum. "I confirm everything that Jim Cornwell has said about the country. I have traveled through Central Africa and Russia and in parts of Australia, and I want to say that the country north of here is the richest in the world. If the railroads are put thru this country it will create great cities in Alberta, equal to Chicago. I have been surveying for 20 years, and I know what I am talking about."

None of the party would say what the ultimate outcome of their trip north would be. Parties and surveyors are being sent out of here nearly every week for some point north to stake out claims on land where the choicest minerals abound. One hundred companies have recently been incorporated within the province to develop Northern Alberta oil fields. After lying for years in the province, waiting for someone to discover its value, and come with capital enough prepared to develop it successfully, one of the greatest oil fields in the world is to be opened up, and therefrom by capital gathered together from the United States, the Frenchmen, Germans, Englishmen, Canadians and Americans are interested, and Calgary men, too, have been optimistic enough to put their money into a venture that promises to return millions of dollars.

The City of Calgary views these immense prospects with much satisfaction. They mean vast population and wealth to the young metropolis. "HIGH SCHOOL SNOBBERY." "I would not decrease the amount of cultural studies in the high schools," stated Trustee Ellis yesterday, "but I would increase the amount of vocational work. Snobbery is being inculcated into the minds of every boy and girl that enters a high school. When the common school graduate appears before the teachers he is a Greek, a German, philosophy and other culture-making studies are the things to be taught, and the student should go to light on manual training or domestic science. "This is the way the class distinction and the social idea of some young people are being built up."

An appeal by plaintiff from the order as not recovered from defendant, to be paid out of testator's estate.

Doctor Told Her She Did Not Have A Pint Of Good Blood In Her Body. Mrs. Donahue, P. Cormier, Middle Sackville, N.B., says: "In the spring of 1897 I was all run down, and the doctor told me I had not a pint of good blood in my body. I took different remedies from doctors, but they did not seem to do me any good. After having taken a lot of different kinds of medicine, and they did not seem to benefit me, I was almost in despair and did not know what to do until my husband met a lady and told her about my sickness and she told him to try Burdock Blood Bitters as she had received the greatest benefit from using it. My husband went and bought me a bottle, and after having taken it I felt better, so I kept on using one bottle after another until I had taken six in all and then I was all right and my blood was positive that my being alive to-day is due to the use of Burdock Blood Bitters. One spring since then I was not feeling very well, and I went to work to do. I thought I would procure a bottle of Burdock Blood Bitters and after I had taken two I was able to do a lot of hard work in the same manner, and I never felt better in my life. In 1906 I had pneumonia, and it left me with a severe pain in the left side. Every morning when I would get out of bed I had a sick pain for a few days, and it was so painful. After I had used Burdock Blood Bitters the pain disappeared completely. It has also cured me of bleeding from Burdock Blood Bitters that you may publish this as it may help others like it has me."

Motion by defendant for an order setting aside the statement of claim on the ground that plaintiffs have no joint cause of action and have improperly joined separate and independent causes of action. Judgment: The action of Wakefield will be dismissed without prejudice to the certain cheques action against the defendants or any of them as they may be advised. He will pay one-third of the costs of this action. The cause of action in respect of the cheques will be allowed to proceed. The plaintiffs must elect upon which of the three actions they will proceed. In the absence of an election within five days the statement of claim will be set aside with costs. If an election be made within five days the plaintiff will have leave to amend within one day thereafter, but will pay the one-third of the costs of the motion, the remaining two-thirds to be paid by the defendants in any event of the action.

TRIAL.

Before the Chancellor. McLellan v. McLellan.—I. B. Lucas, K.C., for plaintiff. C. R. McKewen, K.C., for defendant. The action by executors of deceased testator is for a declaration that certain cheques are void and should be ordered to be delivered up and cancelled, and that the moneys paid thereon are void and should be ordered to be delivered up and cancelled. This is a case of unique case and of unusual difficulty. The immediate origin of the litigation is to be traced to the will of the testator, which is not parties on the record, out of which complications have arisen that may not be ended by this suit. The order is entered declaring plaintiffs entitled to the \$250 paid into court by the Sterling Bank and Tubs, and the executors thereof, together with interest thereon, and ordering defendant to pay to the plaintiff \$25, and interest from Nov. 16, 1910, to date of payment of the assets of deceased. Defendant to pay plaintiff one-half of costs of the action, exclusive of costs of expert witnesses. An appeal by plaintiff from the order as not recovered from defendant, to be paid out of testator's estate.

ALDERMEN WAX CARELESS

Committees Waited Long for Quorum—Eaton's A.A. Bathing Tent for Girls.

At 23 minutes after the appointed hour Ald. Baird arrived and saved the day for the civic property committee, called for 3 p.m. yesterday. The other three necessary for the quorum who had waited patiently, were Ald. O'Neill (chairman), Chisholm and Weston. It took them exactly three minutes to transact the business, which was simply the passing of a few accounts.

The parks and exhibition committee had a wait of 15 minutes and transacted 20 minutes' business with a bare quorum consisting of Ald. Graham (chairman), O'Neill, McCausland and Baird. They appointed Ald. Graham to represent the city at the annual meeting of the American Playground Association, D.C., on May 10, for a three days' session.

The island committee fared better so far as attendance was concerned. They considered an application from the Eaton Athletic Association for permission to erect two tents outside the breakwater at Ward's Island, to be used as dressing rooms for the girls members of the association who have organized a swimming club. They permitted the erection of the tents on the island, the rental being paid. The letter containing the application was signed by Thomas P. Douglas, who stated that the association wished to keep the tents up during the months of July and August. There will be a competent matron in charge and it is expected that from 50 to 100 girls will use the tents every evening from 5 o'clock to 9, except on Saturday afternoons and holidays, and a few will also use them then.

FIRST BOAT UP ST. LAWRENCE

MONTREAL, April 24.—The steamships Sicilian and Royal George are the first two boats to navigate the gulf this year. The former boat was reported 90 miles southeast of Cape Race at noon yesterday, while the latter was reported 200 miles east of Cape Race at 8 o'clock.

The ice in the river is almost all gone out from Viauxville to Point Aux Trembles. The river is reported clear from Quebec to Montreal on the north side, and the Sicilian and the Royal George are expected to arrive in port here on Friday.

AN ARTIST AT LARGE.

MONTREAL, April 24.—Some party animated by a strangely misguided sense of humor or out of sheer vandalism, caused damages to the extent of a few hundred dollars to the property of Goodwin, Limited, last night. Armed with a glass cutting diamond, a sharp piece of steel, they disfigured nearly all of the large plate glass windows, which surround the store on the ground floor. Skulls and crosses were etched on the glasses with more or less skill.

REMEMBERED HIS OLD TOWN.

BROCKVILLE, April 24.—(Special)—Alex. Macle of Chicago, a former resident of Brockville, has sent a donation of \$500 towards the erection of a nurses' home in connection with the St. Vincent de Paul Hospital.

ROYAL BAKING POWDER Absolutely Pure The official Government tests show Royal Baking Powder to be an absolutely pure and healthful grape cream of tartar baking powder, and care should be taken to prevent the substitution of any other brand in its place. With no other agent can biscuit, cake and hot-breads be made so pure, healthful and delicious. Royal Baking Powder costs only a fair price per pound, and is cheaper and better at its price than any other baking powder in the world. It makes pure, clean, healthful food. NORTH TORO. TO BAND HELD FINE CONCERT

Funeral of Late Mrs. Wright Takes Place To-day—Suburban Happenings.

NORTH TORONTO, April 24.—(Special.)—The second annual concert of the Toronto Citizens' Band, held in the town hall, was an unqualified success. The crowd was a good one, but not so large as the merits of the performance would have justified.

In each of the numbers rendered, and there was generous provision, the band gave evidence of splendid training and good hard conscientious work. Bandmaster Dawson was in charge, and he was warmly commended for his good work.

The assisting artists, among whom were Mrs. W. P. Hewitt, Miss Lilian Dent, Miss Florence Morton and Messrs. Charles Stanley and J. M. Dawson were encored again and again. Altogether it was the best musical concert ever given in the town, and it will be most regrettable if arrangements are not completed so that the citizens will be enabled during the coming summer to hear this fine musical association in a dozen or more consecutive concerts. It will add immensely to the pleasure of living in the northern town and no slight difference of opinion as to the financial arrangements between the council and the band ought for one moment to stand in the way. With all due respect to the former they can well afford to be a little more generous in the matter, and the citizens will strongly support them in so doing. The town cannot afford to take any retrograde step.

An annoying case of intervention on the part of an employee of the Bell Telephone Company has been reported. This morning when immediately following an offer of \$12,000 made by an unknown party to Mr. Hopkins, the local blacksmith, for his property, the connection was broken, and that before the local man could learn who his prospective buyers were an interesting feature of the whole thing is the ability of the company, if any, in connection with the contemplated deal. At the rate North Toronto and Yonge-street junction, maybe the telephone company did Mr. Hopkins a kindness.

On Sunday evening a special memorial service was held to the late John Scumels of this city, and eldest son of Rev. J. Samuel, rector of Chipping Norton, England. Rev. Robert Gray presided to a crowded congregation. The most eloquent sermon, taking for his text, "I am he that liveth and was dead." At the conclusion the organist and choir rendered "The Lord's Prayer" and "The Amen." The service was most impressive. The choir, under the direction of Mr. E. E. Stainer, rendered "The Amen" in a most impressive manner. The service was most impressive. The choir, under the direction of Mr. E. E. Stainer, rendered "The Amen" in a most impressive manner.

WEST TORONTO.

Funeral of Late Mrs. Wright Takes Place To-day.

WEST TORONTO, April 24.—(Special.)—The funeral of the late Mrs. Wright, who died on Monday last, took place at 8.15 o'clock, from the residence of her daughter, Mrs. Charles Wright, 154 Western-avenue, and whose death took place suddenly on Saturday, will be held from the family residence tomorrow (Tuesday) afternoon at Prospect Cemetery. Mrs. Wright was one of the most respected residents of West Toronto, and had for many years been actively identified with the work of St. John's Anglican Church. Her husband, Mr. Charles Wright, was a well-known business man in the Western States and the Northwest (Tuesday) afternoon at Prospect Cemetery. WAS TERRIBLY AFFLICTED WITH LAME BACK.

COULD NOT SWEEP FLOOR.

Three Boxes of Doan's Kidney Pills Cured Her.

It is hard to do housework with a weak and aching back. Backache comes from sick kidneys, and what a lot of trouble sick kidneys cause. But they can't help it. If more work is put on them than they can stand it is not to be wondered they get out of order. Weak back is simply a warning from the kidneys and should be attended immediately so as to avoid years of terrible suffering from kidney trouble. Mrs. N. L. Smith, of Smith's Falls, Ont., writes: "I had a severe case of kidney trouble, and I was unable to do any work. I was advised to try Doan's Kidney Pills, which I did, and with the greatest benefit. I only used three boxes and I am as well as ever. I highly recommend these pills to any sufferer from lame back or kidney trouble."

row (Tuesday) evening at 8.15 o'clock. Court Toronto Junction No. 166, C. O. F., held their regular meeting to-night in the lodge rooms of St. James' Hall. Mr. McClure of Pacific-avenue has returned from a four months' business trip in the Western States and the Northwest (Tuesday) afternoon at Prospect Cemetery. Mrs. Wright was one of the most respected residents of West Toronto, and had for many years been actively identified with the work of St. John's Anglican Church. Her husband, Mr. Charles Wright, was a well-known business man in the Western States and the Northwest.

The funeral of the late Captain D. C. Burk took place yesterday from his late residence, 106 Shuter-street, to St. James' Cemetery. The services were conducted by the Rev. Canon Farncomb. Mayor Geary and the Rev. Perry conducted the services of the Orange Order surrounded by a large number of the brethren of the lodge, of which the deceased was a member, at the graveside. Besides the relatives of the deceased there was a very large number of neighbors and old time friends, who had come to pay the last tribute of love and respect to one who at all times during a long life proved himself to be a worthy citizen and friend. The mourners present were the only son, D. C. Burk, and daughter, Mrs. A. McIntosh of Perry Sound; his only brother, William Burk, Markham, who is in his 80th year; the four sisters, Mrs. Harrison, Mrs. Webb, Mrs. Galt, and Mrs. H. Robinson, all of this city, also Mr. A. McIntosh, son-in-law, F. Harrison, H. Robinson, T. F. Webb, Mr. and Mrs. Harcourt, Mrs. Moore of Detroit. Among the many old time friends present were Governor Chambers, an old schoolmate and friend of 50 years; Wm. Crawford, Jos. Thompson, Charles Soudy, James Ewman, J. J. Cosgrave, E. W. J. Owens, Thomas Hook, G. R. Vanant, Robert Edgar, Wm. Eastwood.

The pall-bearers were: Mayor Geary, Hilliard Birmingham, Col. Selby, Wm. Street, Thomas Close, and Thomas Williamson. Amongst the many floral offerings were a beautiful sheaf from the brethren of L.O.L. #13; wreath from E. Bristol, M.P.; wreath from R. Birmingham, who on account of illness, was unable to be present.

WESTON.

Methodists Raised One-Half the Amount Required on Sunday.

WESTON, April 24.—(Special.)—Weston Methodist Church, which has been closed for two months or more during the progress of repairs, was reopened on Sunday for divine service. In the morning the pastor officiated and in the evening Rev. J. Falls, a forcible and eloquent preacher, presided. The church has been decorated and a new pipe organ installed. The expense incurred amounts to about \$4000, of which half the amount was raised on Sunday. The pastor and choir have adopted the innovation of wearing surplices. On Tuesday evening, April 25, a supper will be given in the basement of the church, followed by an organ recital by Professor Egeon of Woodstock.

GOT SOME BIG-UNS.

Followers of Isaac Walton who have not so far this season, in the feeling of exhilaration which comes from a good big catch of "suckers" would have turned green with envy at the success which befell a party of city and Scarborough men yesterday afternoon away down on the River Rouge, some 18 or 20 miles to the east of the city. The party leaving the city was composed of Ald. T. N. Phelan, Dr. Demary, Bob Patterson and with Ald. Phelan in charge of the transportation department, handling the lever and guiding his big new Cadillac 38 h.p. touring car with the skill and confidence of a Barney Oldfield, and at times giving the said Barney a close call on speed. The trip was a delightful one. Of the genial doctor's wonderful feats of skill in handling the dip and every other kind of net, and the efforts of the party to take to the water all too successfully; of the marvelous Alpine climbing exhibitions shown by the "Bob" Patterson of the inspector's schemes to sidestep all the hard work and his feats at the luncheon following; of Frank Walton's long walk, due to the inspector's forgetfulness, of the newspaper man's big "catch" which alone redeemed the trip, and of Ald. Phelan's sunny smile and words of cheer, time and space will not permit us to tell.

The voyage home along the Kingston-road, barring one or two incidental calls was made in record time, and that, too, in face of tremendously added weight of the aforesaid suckers. Besides those brought home thousands were left undisturbed in the cavernous depth of the River Rouge. But it was a glorious trip and the sight of the fine waters of Lake Ontario to the south and the highlands to the north, down thru the very heart of Scarborough, with the farmers busily intent in preparing the soil for the season's crop, and coupled with all this the pure bracing air of the country—say, this is living.

WILL OIL KINGSTON ROAD.

The action of the Scarborough Township Council in agreeing to bear a share of the cost of oiling the Kingston-road along the Birch Cliff district is giving a good deal of satisfaction to the residents out there. Last year the council gave a certain amount and this was supplemented by private subscription. For a distance along this road the council have a certain amount and this was supplemented by private subscription. NEW LADY PRINCIPAL. Miss Harriet Walsh to Become Head of Bishop Strachan School. A distinguished graduate of Trinity College, Dublin, Miss Harriet Walsh, B.A., has been appointed lady principal of the Bishop Strachan School in succession to Miss Acres, who resigned a year ago, owing to ill-health. During the interim the school has been making excellent progress under the able administration of Miss Nation, the vice-principal and both she and the strong staff will remain to assist the new lady principal. Miss Walsh, who is the daughter of the Ven. Robert Walsh, D.D., Archbishop of Dublin, and granddaughter of a former vice-provost of Trinity College, Dublin, has a distinguished academic and teaching record. After winning honors in the Dublin University, she entered at the University of Cambridge upon the special course of study prescribed for those who wish to qualify for specialist standing as teachers. In this course she was eminently successful. After two years spent in the study of French and German abroad under university professors in the two countries, Miss Walsh returned to England and entered upon her professional career as a teacher. In 1903 she was appointed assistant mistress at Uplands School, St. Leonards-on-Sea, and a year later head mistress of the same school. Under her administration the school made rapid progress. The wide scope of the work done is amply attested by the official recognition granted to it.

During the interim the school has been making excellent progress under the able administration of Miss Nation, the vice-principal and both she and the strong staff will remain to assist the new lady principal. Miss Walsh, who is the daughter of the Ven. Robert Walsh, D.D., Archbishop of Dublin, and granddaughter of a former vice-provost of Trinity College, Dublin, has a distinguished academic and teaching record. After winning honors in the Dublin University, she entered at the University of Cambridge upon the special course of study prescribed for those who wish to qualify for specialist standing as teachers. In this course she was eminently successful. After two years spent in the study of French and German abroad under university professors in the two countries, Miss Walsh returned to England and entered upon her professional career as a teacher. In 1903 she was appointed assistant mistress at Uplands School, St. Leonards-on-Sea, and a year later head mistress of the same school. Under her administration the school made rapid progress. The wide scope of the work done is amply attested by the official recognition granted to it.

Honesty in Advertising. In the operation of the largest retail drug stores in America, the Liggett Company spend thousands of dollars annually in their publicity. To receive the benefits of the expenditure, we believe honesty of statement to be the basic principle of all advertising. To have your confidence in our statement of product and values and prices is our mission in our first store in Toronto. To this end we are offering a bonus of \$5.00 to any customer bringing to us a copy of any untruthful statement in our advertisements. Our own sales force are paid for any similar discovery. If we talk value and it is not there—if we quote a price and do not sell at that price—the money awaits your demand. Consequently, you are safe if you buy at LIGGETT'S.

100 Refrigerator Cars. MONTREAL, April 24.—(Special.)—During the last four weeks the Angus shops of the Canadian Pacific Rail- way at Montreal turned out 100 refrigerator cars—an average of six each day. All of the cars were of the standard C.P.R. dimensions, weighing approximately 40 tons each. Fifty of the cars were fitted up with ventilators in the roofs, and were equipped with the C.P.R. pan-system of cooling. The other fifty were equipped with the ordinary tank system of cooling. Most of these cars are already in service, so great is the demand for them.

Slumber Chairs in Parlor Cars. MONTREAL, April 24.—(Special.)—A new style of parlor cars will shortly be put into commission by the C.P.R. The new car will be of standard size and weight, but the interior will be arranged in a novel manner. One end of the car will be built like the observation cars now in use, while the other end will resemble the ordinary vestibule car. Inside the car will be furnished in mahogany and will be equipped with heavy slumber chairs upholstered in dark leather, and cast-iron raised or lowered.

## Crop Conditions Are Excellent And Wheat Market Turns Heavy

### Corn Has an Early Budge at Chicago, But Reacts to Former Levels—Wheat Lower at Winnipeg.

CHICAGO, April 24.—Although wheat averaged higher to-day on account of bullish foreign news, the close showed a net decline of 3-8 to 5-8 and 3-4, because of selling by traders who attached more importance to beneficial rains west of the Missouri River. Latest figures were 1-8 to 1-8 and 1-4 down for corn; oats off a shade to 1-8 and 1-4, and provisions easier by five cents to 25 cents.

Popular sentiment in the main was bullish regarding wheat, but on the advance considerable amounts of both May and July were sold out by holders. Interest in the May option receded to a great extent to-day, other months unimportantly being in the lead. July ranged from 87 3-8 to 88 1-2 and 5-8, with the close steady at 88 1-2 and 3-4 down at 87 1-2.

Falling off in export demand weakened corn after a substantial rally early, due largely to strength shown at Liverpool. Late in the session there also was an increase of country sales. Fine weather helped the bears. July ranged between 85 1-8 and 7-8, closing at 85 1-8 and 1-4, a net loss of 1-8 to 1-4. Cash grain in moderate demand.

Slim eastern call kept oats all day less bullish than their grain. The market fell sharply after that and corn started down. July varied from 81 5-8 to 82, and in the end was 1-8 off at the bottom price reached.

Provisions were depressed by heavy receipts of hogs. When the pit was cleared pork had fallen 1-8 to 1-2 to 25; lard 5 to 7 1-2, and ribs 10 to 12 1-2.

# Two Sales of Importance

"There now! if this confounded sale had only happened last week I would not have paid all that money for this."

We trust **you** are not in a position to give vent to your feelings in that way.

These two sales are at a most opportune time of the year, and we hope just in time to **fit you** out, at a **very** moderate price, with exactly the Spring clothes you wanted. This is a case of "A sale in time saves nine dollars," and more, too, for you will be getting a **Genuine Less Than Half-Priced Bargain**.

## In the Mantle Department

Sale of Women's Dresses, Regular \$15.75, \$18.50, \$25.00, and up to \$29.50, Wednesday **6.98**

We put on sale a collection of 100 Women's Dresses of fine broadcloths, crisp voiles, silks and mulls, and of foulards, in fancy designs; the colors in the lot are grey, brown, green, champagne and navy; these dresses are made in a variety of fashionable styles, some with the kimona waist, some trimmed with lace, velvet or silk cord; long or three-quarter sleeves; high or low collar, with rounded or V shaped yokes; skirts have the slim effect, and are either gore or pleated styles. These dresses sold regularly at prices ranging from \$15.75 to \$29.50. Will clear Wednesday at... **6.98**

### Women's Spring Coats

73 Women's Spring Coats, in either long or short lengths; some in plain tailored styles; some with shawl collars and button trimmed; others with self strapping; the materials are fine broadcloths, in black and navy, good quality covert cloths in fawn shade, worsteds in black and white shepherd checks, and of light weight tweeds in mixtures of brown or fawn tones. Regular selling values from \$10.00 to \$18.50. Wednesday special... **6.49**

## In the Men's Department

Sale of 150 High Grade Men's Suits, Reg. to \$22. Wednesday **\$12.95**

These Suits are of the finest West of England Worsted and Scotch Tweed.

They are the remains of full lines of our this season's goods; there are only 150.

The tailoring is the best, and they are cut in single-breasted 3-button sack style.

You know perfectly well that nowadays ready-made clothing can be had to **fit** as well as any made-to-measure. But, of course, that depends largely on the **class** of clothing. These 150 Suits are **First-class**.

## 16,000 Yards of Japanese Matting, Worth 25c, 30c, 35c, Wednesday 15c Per Yard

16,000 yards means quite a lot of matting, nearly ten miles, but such are the facts. Here are more facts about this large purchase:

It is the best Japanese matting in Canada for the money. The warp is of fine hard spun cotton. The straw is selected, tough and pithless. The patterns and colorings are better than those of former seasons. Most of this shipment is 30c and 35c matting. It is not likely that this offer will be repeated.

## Lace Curtains at Half-Price

As a result of the heavy selling of Lace Curtains during the past few weeks there have accumulated many last pairs, and to clear we have put them on sale Wednesday at half-price. One curtain has been used as a sample, and is more or less soiled. The variety of makes covers the entire range from 50c to \$15.00, and includes Nottingham, Swiss, Brussels, Battenberg, Point-Arabe, Marie Antoinette, novelties, etc. Wednesday your choice at half-price.

## Cushion Form Sale
