Charges of Disloyalty and Inconsistency Pass Between Ministers in Tariff Debate Belated Efforts to Save McCullough Fail And Morbid Crowds Salute Him From Park

ALL HOPE DEPARTED, MURDERER WAVES GOODBYE TO CROWD

Thousands Throng Riverdale Park, Cheering and Praying for Doomed Man.

EVERY EFFORT FAILS Up to Last Hour Reprieve Was Sought for Modern Jack Shepherd.

Within a few short hours of the appearance of this paper upon the street McCullough will have explained his crime upon the scaffold. Every effort has been made to save him, thousands have signed their names to petitions, learned lawyers have fought their utmost. The pleading of legal technicalities, attempts to prove the murderer insane, all have failed. McCullough will hang but not die, he will live for ever in the calendar of crime as one of the most romantic characters in its history. From his first escapades as a child to his murder of Williams, to his escape from Don Castle, to the flight from the same walls of his sweetest heart, to the moment when for the last time last night he waved his hands in a brave farewell to the thousands that cheered him and prayed for him below, he has been a gallant hero. But in spite of sentiment in his favor—and who can help a sneaking desire to see his reprieve—Hansman Ellis will measure the rope, calculate the drop and tie the knot destined to translate McCullough from the scaffold to confront a Greater Judge.

Park Thronged. Riverdale Park was thronged from an early hour last evening until long past midnight with an excited crowd of men, women and children, eagerly watching the window of the condemned cell in which the murderer Frank McCullough was awaiting his execution. Along Broadway Avenue from the corner of East Gerrard street a string of motor cars reaching almost to Woodbine Avenue stood for hours and a strong cordon of police and detectives paraded outside the prison fence. The juvenile portion of the crowd sang lustily and he is a jolly good fellow, followed by cheers for McCullough and cries of "Is McCullough down-headed?" caught up with counter yells of "No." A group of people in another part of the park under the prison walls, started a hymn and were promptly howled down. About 10 p.m. the noise became so deafening and the young people so boisterous that the police attempted to clear the park, giving as their reason, disturbing the patients in the isolation hospital, but which was unsuccessful.

McCullough appeared at frequent intervals through the evening and kissed hands and waved to the people. On each occasion he received a tremendous ovation with hand clapping and cheers. On two occasions he leaped to a chair and stood surveying his admirers. A Last Effort. In a last effort to save Frank McCullough's life, A. H. Rose, the assizes at 8.15 last night, and the trial judge could not change the order of execution. Mr. Harsard, who was associated with Mr. Horkins, who earlier in the day decided the order-in-council, appeared in the case as an amicus curiae, a friend of the cause, and Mr. Harsard pleaded in mitigation of the death sentence. Mr. Horkins, who were to be originally submitted to the court, and they are as follows: (1) The trial judge thought the case was one in which executive clemency should be exercised, and (2) point of law should be carried to a higher court. He argued that the criminal code made no provision for reprieve because the prisoner at the time fixed for execution had escaped from custody. Such a condition was never thought of when the code providing for the granting of a reprieve was drafted.

Had To Do His Duty. After listening to Mr. Harsard's argument his lordship said that in view of the fact that the governor-general had of his own volition postponed sentence of the crown over which he as a justice has no control whatever. It was not a pleasant duty in refusing the plea for a reprieve, said the learned justice, but such as he would have liked to have divided the responsibility with a court of appeal, yet he had his duty to perform. Barely half a dozen spectators in court No. 3 at the city hall to witness the decision of the court pronounced. "It was a chance and I did the best I could," said Mr. Harsard when asked by a reporter for the World immediately after the hearing. At 8.15 last night after Sheriff Mowat had produced a copy of a letter of an order-in-council which was passed fixing the date for execution for the 13th of the same date that Justice Rose had fixed, Mr. Horkins withdrew his application for a stated case and did not press his arguments. The existence of the letter was not known to either Mr. Harsard or Mr. Horkins until just before the hearing yesterday. Bore Up Well. Up till late last night the doomed man was bearing up well under the strain, and although he appeared pale and drawn the officials at the jail stated that "you

If this new photograph of the leaders of the allied nations at Paris is to be believed, complete harmony is restored. It is the first group of the "Big Four," Lloyd George and Premier Clemenceau stands in the doorway looking as amiable as the "Tiger of France" can be expected to, while President Wilson appears to be agreeably interested in Premier Orlando's remarks, whatever they may be.

Prince of Wales' Visit May Be Postponed a Year

Ottawa, June 12.—It is rumored that the visit of H.R.H. the Prince of Wales to Canada may be deferred until the summer of 1920. No reason, however, is assigned for the postponement.

WINNIPEG STREET CARS FAIL TO MAKE A START

Only Two Men Report for Duty—Minister of Labor Arrives on the Scene Armed With Wide Powers to Deal With the Situation.

Winnipeg, June 12.—Senator Gideon Robertson, federal minister of labor, arrived in the city this afternoon, and it was intimated at citizens' committee headquarters that he is armed with very wide authority in connection with the strike situation. Mr. Robertson declined to issue a statement at this time. Strike issues occupied a minor position in the scheme of things today, as the beginning of the fifth week of Winnipeg's general sympathetic strike was devoted to the celebration of the return of the 12th Grenadiers' Battalion and the 12th Field Ambulance Corps from the battlefields of France. The battle-worn veterans paraded the main streets, cheered wildly by the throngs which lined the route of march.

Street Cars Still Off. The chief concern of civic authorities is the resumption of street car service which has been paralyzed for more than four weeks. Although it has been definitely declared by Mayor Gray and other officials that cars would operate today, it was decided to postpone action until ways and means could be thoroughly discussed. Only two of the striking carmen responded to the appeal of the management of the railway company to report for duty today.

A strong force of pickets was placed about all bars by the striking forces. The Manitoba government took a forward step toward arrest and punishment of rioters. A reward was offered of five hundred dollars for information leading to the arrest and conviction of persons who assaulted Sergt. Frederick Coppins, V.C., here last Tuesday, while on duty as a special constable. One hundred dollars will be paid for conviction of any other person who throws missiles during the rioting.

Special Officers Armed. Owing to the riotous conditions prevailing during the past few days, members of the special returned soldier police force were ordered armed and instructed to defend themselves and the law with whatever force may be necessary. Union officials refused to comment on the telegram sent by R. B. Russell, one of the strike leaders, to western Canadian cities, where strikers are in progress to the effect that there was a "possibility" of the railway brotherhoods striking soon. The report of the brotherhood's mediation board with regard to their fruit-

BANK OF MONTREAL TO ABSORB MOLSONS

Report to This Effect is Being Circulated in Ottawa.

Steps are being taken by the Bank of Montreal toward the absorption of the Molsons Bank, according to a report in circulation in Ottawa yesterday. If such a merger goes into effect, it will reduce the number of chartered banks in Canada to 17, and will, moreover, considerably increase the Bank of Montreal's margin over its nearest competitors in the matter of capital stock, reserve fund, deposits, and total assets. The position of the Bank of Montreal as shown in the annual report for the fiscal year ended Oct. 31 last was as follows: capital stock, \$16,000,000; reserve, \$18,000,000; total deposits, \$69,727,890; total assets, \$558,413,546. The Molsons Bank at the end of its fiscal year on Sept. 30 last stood as follows: capital stock, \$4,000,000; reserve, \$4,800,000; total deposits, \$51,412,576; total assets, \$77,638,029.47.

Enormous Assets. If the rumored merger goes thru, the Bank of Montreal will, on the basis of the foregoing figures, have \$20,000,000 outstanding capital stock, a reserve of \$22,800,000, deposits of \$521,140,000 and total assets of \$658,051,000. Both banks have their headquarters in Montreal, the Bank of Montreal having been founded 103 years ago and the Molsons Bank 62 years ago. Sir Vincent Meredith, Bart., is president of the former institution and the latter is headed by the directorate of the latter. The directorate is largely made up of Montreal men.

Other Leading Banks. The position of other leading banks according to last reports available is as follows: Bank of Commerce—Capital stock, \$15,000,000; reserve, \$15,000,000; total assets, \$440,310,000. Royal Bank—Capital stock, \$14,911,700; reserve, \$14,000,000; total assets, \$427,512,922. Bank of Nova Scotia—Capital stock \$10,500,000; reserve, \$17,000,000; total assets, \$234,000,000.

The last previous banking merger was announced in January of this year when the minister of finance assented to the taking over of the Bank of Ottawa by the Bank of Nova Scotia. Considerable opposition developed in Ottawa, but in the end the consolidation was carried out as planned. In 1918 there were two banking amalgamations, the Bank of Montreal absorbing the Bank of British North America and the Northern Crown Bank losing its identity following negotiations with the Royal Bank.

TRIAL IS CONCLUDED OF PRO-GERMAN AGENTS

Zurich, Wednesday, June 11.—The trial of the pro-German agents and anarchists, which has been in progress for some days, ended today. Sentences will be imposed on those convicted shortly. The public prosecutor in his address said he regretted that several of the defendants, including Hindu anarchists, had escaped over the frontier. Their absence from the trial, he declared, had prevented much evidence from being brought out.

H. C. OF L. CHAIRMAN ANNOUNCES NO WORDS AT C.M.A. BANQUET

G. B. Nicholson Urges United Platform for Capital and Labor. OPEN REBELLION

Has Reliable Authority for So Stigmatizing Winnipeg So Called Strike.

The annual dinner of the Canadian Manufacturers' Association, held at the King Edward last night, was one of the best attended for many years. T. G. Howard, the new president, was in the chair, and he had representatives of every class of manufacturing supporting him. The principal speaker of the evening was George B. Nicholson, M.P., chairman of the High Court of Finance Committee. Mr. Nicholson is known as a speaker who does not mince his words, and he certainly kept up his reputation last night, and told his hearers some very homely if not palatable truth in regard to the relations between capital and labor in this country. He was prepared to go ahead with any of his little or no unity in the country, but there was an agitation at the bottom of the working man. He was a working man himself, declared Mr. Nicholson, and he said to the employers of labor who were listening to him, that unless employers and employees could talk on a united platform, there was going to be chaos in Canada.

Three Factors. The three factors which tended towards making the present bad industrial situation, high tension in the country, and the economic position of Canada and her people were responsible for allowing the agitator to have his say. Whist he had been at work the authorities had sat down calmly in their chairs and looked on. Such men ought to be turned out of the country unless such because Canadians and acted as other cause of unrest. There must be contented in that matter and he contended the control of the government exercised over the necessities of the country. (Cheers) There might be something in the fact that our distribution scheme was too tight, but the duty of the C.M.A. distribution was cut out and the system tended towards unfairness in the labor field. Matters could not go on as they were at present.

Class War. Class war was rife and must be met by mutual cooperation on both sides. Let the working man feel he is a citizen. (Concluded on Page 2, Column 4).

GERMANY ADMITTED TO LEAGUE OF NATIONS WHEN TREATY IS SIGNED

Allies Have Reached Complete Accord on All Principles, and Drafting Will Be Simple—Reply Will Be Presented on Saturday.

Paris, June 12.—A complete accord has been reached in principle on questions connected with the reply to the German counter-proposals. This statement was made in responsible quarters tonight. French and American conference circles are highly gratified at this favorable turn after the prolonged difference of the past fortnight, verging on a deadlock. The accord includes the admission of Germany to the league of nations, and reparations which were the chief subjects of difference among the delegates. The agreement in principle leaves only the details of drafting, which it is said, could be accomplished by Friday night, the expectation is that actual delivery of the document to the Germans will not take place before Saturday night. The accord concerning the admission of Germany is the same as drawn by Lord Robert Cecil and Col. House, with the omission of the fourth condition, requiring Germany to abandon compulsory military service. Mr. Clemenceau, president of the conference, contested this condition as tending to precipitate the same question in France, and the council finally dropped it. No Definite Time Fixed. No time has been fixed for Germany's entrance. But, if she conforms to the conditions it is expected that meeting of the assembly. The Siberian question is based on a plebiscite for the disputed Polish man himself, declared Mr. Nicholson, and he said to the employers of labor who were listening to him, that unless employers and employees could talk on a united platform, there was going to be chaos in Canada.

Baron Makino, Japanese delegate, today joined Premier Lloyd George, Clemenceau and Orlando, and President Wilson, and the council, known as the "big five." The decision adding Baron Makino to the council is explained by the fact that his government must be given an opportunity to full concurrence, if full adherence is expected. His entry into the council meeting today necessitated rearranging the entire reply, article by article. Conditions of Admission. The conditions for the admission of Germany to the league of nations, embodied in the report of Lord Robert Cecil and Col. House, are: 1. The establishment of stable government. 2. The signing of the peace treaty. 3. The loyal execution of the peace treaty. A proposed fourth condition, relative to Germany's abolishing compulsory military service, was finally omitted on Premier Clemenceau's suggestion. It was considered that the treaty sufficiently provided for Germany's disarmament. The attitude of the German delegation on the signing of the peace treaty is not clear, because the delegates are unaware of the exact nature of the instrument they are called upon to ratify, owing to the conflicting earlier reports on the extent of the modifications accorded them. The French, who alone had an opportunity of sounding the members of the German delegation informally on the prospective changes, believe that neither the present delegation nor the present government will sign, but they look for the immediate installation of a radical socialist administration, which will accept the treaty.

RAID ON DON JAL FOILED BY POLICE

Until a late hour this morning, crowds such as would not have disgraced a public hanging of the old times showed an equally morbid curiosity which was fostered by McCullough's theatrical appearance at the death cell window, where he repeatedly waved his hand to his cheering and singing admirers below. From an early hour last night the streets in the vicinity were almost impassable with motor traffic hastening to the asylums of Don Castle, where a fellow man was soon to suffer death. The attitude of the crowd became so boisterous in the early part of the night and the noise made by them so distressing to patients in the isolation hospital that the police attempted to disperse them repeatedly without success and finally at 11 p.m. reserves were hastened to the spot to assist the small squad of specials on duty. Even the reserves could do nothing and the crowd was constantly augmented by hundreds of newcomers. When came the climax at 11.45 a.m. when the crowd, becoming decidedly hostile in character, bricks began to fly above the heads of the police and the order to charge was given to the mounted men and they obeyed in order at the gallop only to be driven back to the jail walls with volleys of missiles.

Mounted Police Rally. At last by sheer persistence the mounted police, rallying, succeeded in driving the crowd back along Gerrard street to Broadview Avenue. Here a pitched battle took place, ending in 35 arrests including 10 returned soldiers and one woman. They were taken to No. 4 station in patrol wagon. The crowd were finally dispersed, only to reappear in large numbers in front of the jail. Meanwhile word was sent to the military authorities and M.P.'s in motor trucks were speedily hastened to the scene, but the trouble was over before they arrived.

SAYS CALDER TRIED TO OVERTHROW BORDEN

Startling Charges in Commons Also Against Crerar—Lucien Cannon Declares Calder Intrigued With Liberals in Quebec.

Ottawa, June 12.—As the budget debate goes on increasing bitterness develops, startling charges are being made, and some unwritten history is coming to light. The government forces are a dead sea on Hon. T. A. Crerar. Yesterday he was assailed by Hon. J. A. Calder, who insisted that his former colleague had left the government with the idea of making himself a popular hero in the west. Tonight, Hon. J. A. Calder, spilled some cabinet secrets and, by not quite telling all the truth, placed Mr. Crerar in a strange position. But the mud is not going to be all slung from one side of the chamber. Tonight Lucien Cannon, the Liberal firebrand from Dorchester, made some highly sensational charges against Hon. J. A. Calder. He charged that within the past six months Mr. Calder has been intriguing with the Liberals in Quebec to overthrow the Borden government.

In Atlantic City. It will be remembered that about the time of Sir Wilfrid Laurier's death Hon. J. A. Calder, who was in close conference at Quebec with Sir Lomer Gouin. A month or two later he was said to have foregathered with the Quebec premier in Atlantic City. N.E. Everyone at the time took it for granted that Mr. Calder was trying to bring over Sir Lomer Gouin to the Union government, but for several weeks past there have been persistent rumors to the effect that Mr. Calder's approach in Lower Canada were not made for the purpose of helping Sir Robert Borden but for the purpose of arranging a new deal which would drive Sir Robert from the premiership. Whether these charges be true or no they are at least given publicity by the scathing arraignment of Mr. Calder.

Special to The Toronto World. Ottawa, June 12.—Hon. T. A. Crerar, ex-minister of agriculture, when asked tonight if he had any comment to make upon Mr. Rowell's charge that he would have remained in the government if no tariff concessions at all were made to the west, and therefore was inconsistent in leaving the government because there were no greater reductions in the tariff, said, "I prefer to say nothing until I have read the Hansard report of Mr. Rowell's speech. Even then I scarcely know how to deal with it as ministers of the crown are not permitted to reveal what takes place at the meetings of the privy council. When I am free to state all the facts it will be seen that Mr. Rowell's statement does me a great injustice."

Hon. T. A. Crerar Claims Injustice

Replying to Rowell's Charges, States Will Answer After Reading Hansard.

Special to The Toronto World. Guelph, Ont., June 12.—The Guelph Chamber of Commerce has taken formal steps to induce the immigration to Guelph of several hundred British girls. It has been estimated that 100 girls are needed here at the present time for domestic purposes and 300 more are required in the factories. Secretary Westoby of the chamber of commerce has written to the British board of trade, whose representatives are now in Canada, asking that some of their surplus female labor be diverted to Guelph.

### ADVISORY COUNCIL RATEPAYERS MEET

Hon. G. S. Henry Gives Full Account of Road Repairs Undertaken.

A well attended meeting of the recently organized advisory council of Scarborough Ratepayers' Association was held in Birchcliffe school last evening. Robert Tucker, president, occupied the chair.

A resolution was unanimously adopted requesting the council to repair the following roads as soon as possible: Kingston road in the West Hill, and Birchcliffe Heights sections, and Robinson avenue in the Danforth park district, and also to open up the road in concession D, south of Kingston road, at stop 44, Kingston road.

Hon. Geo. S. Henry, minister of agriculture, gave an interesting talk on good roads. He said the work on the roadways would be continued from where they were left off last year by the good roads commission.

It was decided that all delegates in the various sections see that voters are on the voters' list.

Employees Dug From Debris—Two Critically Injured Are in Hospital.

An explosion, immediately followed by fire, occurred in the Cane pencil factory yesterday morning. Thirteen people were injured by steam, flying debris and burning cans. Eade and Miss Nellie Magee were so seriously hurt as to make their removal to Toronto General Hospital imperative.

Part of the buildings is destroyed; one of the large dry-kilns and contents are razed, and a considerable quantity of valuable machinery ruined.

It is strange that the office building, which is separated from the affected part of the buildings by a brick wall only, escaped without damage, when a two-inch machine was tossed like a feather thru the gap.

Newmarket has had various visitations recently in the form of floods and what not, but yesterday's accident is the most serious yet suffered by the municipality.

Following is the list of casualties: Miss Magee, sent to Toronto General, and in critical condition. John Booth, badly scalded on back, chest and legs.

Robert McVish, returned soldier, badly scalded and in serious condition. Fred Drury, scalded.

Susan Bishop, badly burned. Daisy Bishop, shoulder broken in three places and badly scalded.

R. H. Brinson, scalded and cut about head and shoulders.

Norman Hepworth, burned. Chas. Eade, thigh broken in two places and arm badly injured.

couldn't see any difference" in the condemned man. Rev. Mr. Nelles remained with McCullough in the death cell until 10 o'clock last night, praying and reading the Bible with him.

Public sympathy is exceedingly strong in favor of McCullough and there are many who would like to see him reprieved and think that the department of justice has been unusually severe in this case in not granting the commutation of the death sentence.

To Chief Turnkey Addy, McCullough made the request yesterday that he be shaved and laced up to look his best.

There has been an unusual request for passes to see the execution, but Sheriff Mowat refused to give any, except to the officials who must be present at the execution, but will be represented by a deputy.

Forty paces from McCullough's cell is the scaffold, grim and foreboding. It has been fully tested for the execution by Hanzman Ellis, who had McCullough weighed on Wednesday, and has completed all arrangements to make the execution as humane and speedy as possible.

W. C. Good of the United Farmers of Ontario said that the only solution was to cut down the cost of production all round, both for farm products and manufactured articles.

SAY CALDER TRIED OVERTHROW BORDEN (Continued From Page 1).

### Charges Against Crerar.

Only seven in interest to the Canadian charges against Calder were the Rowell charges against Crerar. Mr. Rowell in the course of his speech tonight said that it might have been the wisest course for the Union government to have made no reduction in the tariff.

It is not customary for cabinet ministers to discuss in public what occurs at the meetings of the privy council, but now that Mr. Rowell has opened the door, the reply of Mr. Crerar will be awaited with interest.

### Crerar's Proposal.

It is said that some months ago Mr. Crerar proposed to his colleagues that a public announcement should be made that irreconcilable differences existed in the cabinet on the tariff question, and that the tariff would not be dealt with by the Union government.

The formation of the new party proceeded so far that something like a platform had to be secured, and it became evident that the budget speech would, to some extent, at least, constitute the tariff plank of the new party's platform.

No doubt Mr. Crerar will take an early opportunity to state his position to the country, also he may wait until the attack of the government has exhausted itself.

Mr. Calder can scarcely wait to make his reply, as the charges leveled against him directly affect his personal honor.

## Think of the Exhilaration of a Trip to the Country on a Bicycle

Up and Down Hills, Through Villages You Have Never Seen Before

past beautiful fields, through the woods, and, best of all, to rest under a shady tree or by "a bubbling brook" or a lovely little creek, and partake of the welcome lunch.

If artistically inclined, think of the wealth of material for inspiration—the quaint farm cottages, the ravines, the woods, and you're there in no time on a "wheel," setting up your easel and sketching to your heart's content.

Think of what it was like last year when the fellows all took their wheels on a Saturday afternoon and went far out into the country to the swimming hole, while those without a wheel were left at home to roam around and wish for one.

Then on a week day what a relief to be independent of street cars, with a bicycle to carry you to and from work. Think of the car fares. There's a saving of time and money. And the bicycle of today is the acme of comfort and easy riding. No bumps—the new springy saddle accounts for that.

The new model of the Road King is especially suited for city work. It is light, yet very strong, and will stand no end of hard usage. It is fitted with studded tires guaranteed for two years, extension handle bars, roller chain, three-coil saddle, steel mud guards and a guaranteed coaster brake. These machines are guaranteed for one year. They're assembled in our own workroom, and we recommend them. The price is \$37.50.

Equally well suited for city work, but better suited for work on the rough country roads, is our Speedwell Truss Frame Model. The double cross-bar and truss fork give added strength to this model. The frame is enamelled black with a gilt stripe. The mud-guards are of the motorcycle type with drop sides. It is fitted with the well-known Kelly handle-bars and leather grips, a high-grade roller chain, an easy-riding, three-coil saddle, Dunlop Traction-Tread tires and an Eadie coaster brake. This bicycle is also equipped with a tool-bag containing wrench, oilcan and a repair outfit. The price is \$50.00.

## Perhaps You Already Have a Bicycle, But Require a Few Accessories to Put It in Running Order

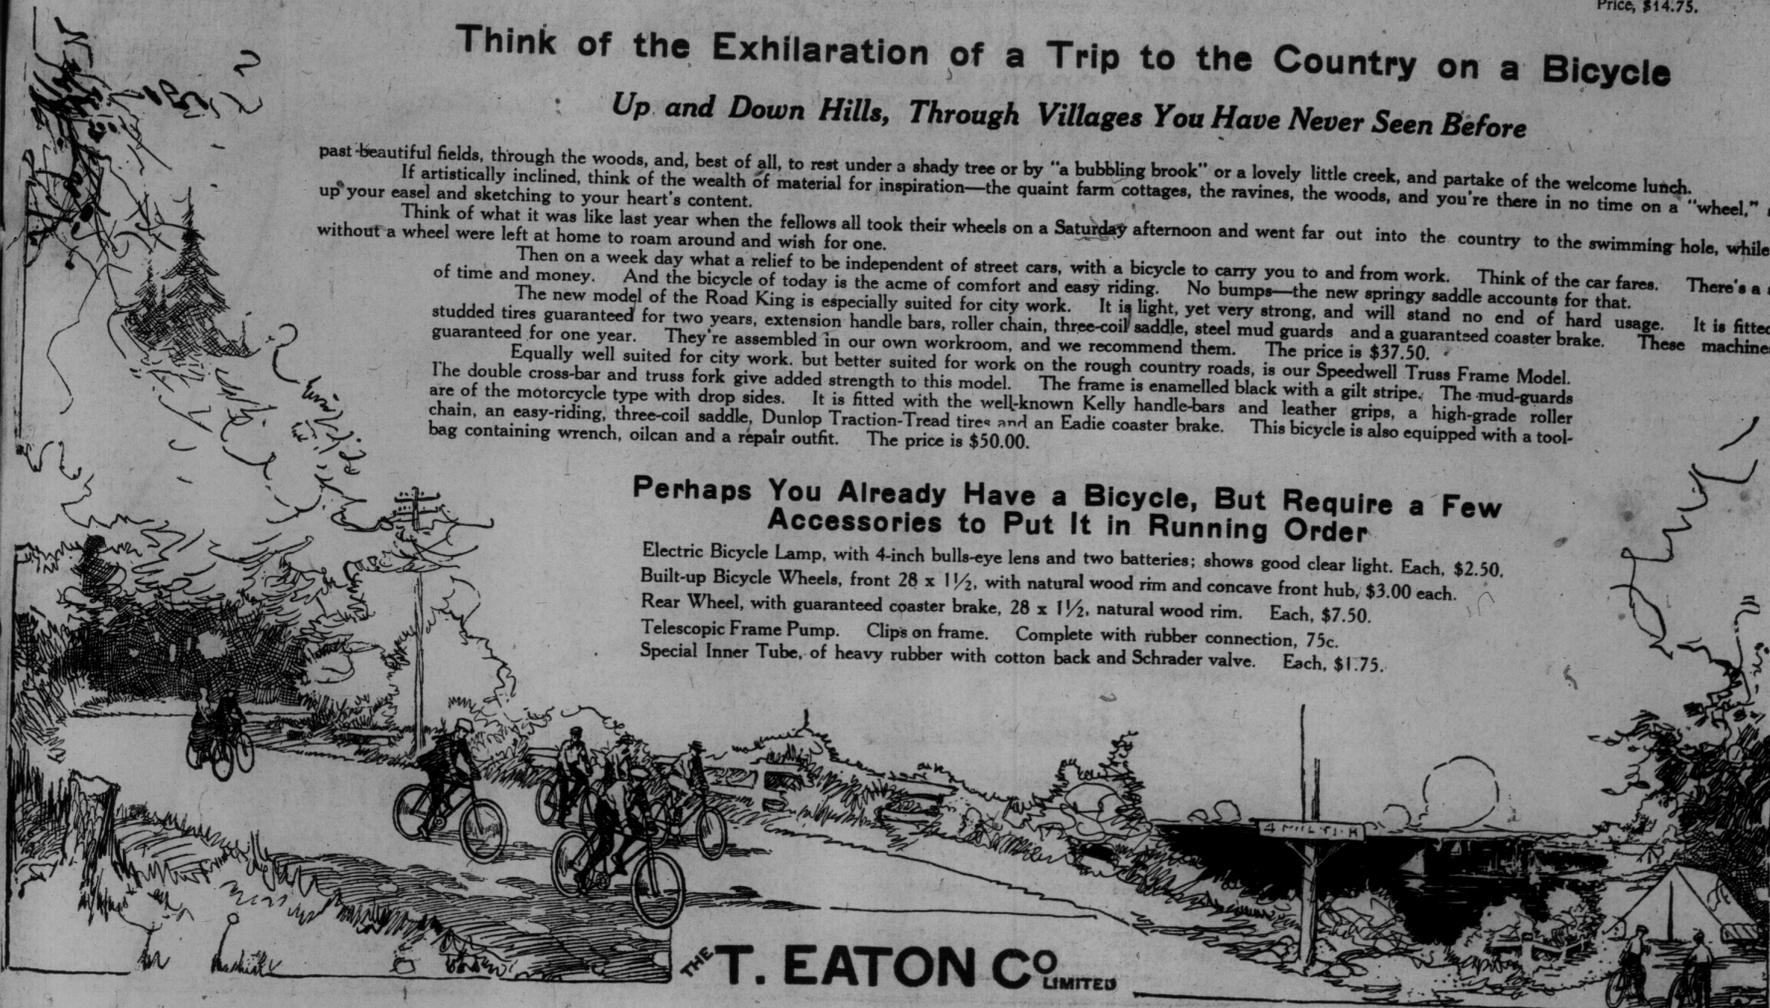

Electric Bicycle Lamp, with 4-inch bulls-eye lens and two batteries; shows good clear light. Each, \$2.50.

Built-up Bicycle Wheels, front 28 x 1½, with natural wood rim and concave front hub, \$3.00 each.

Rear Wheel, with guaranteed coaster brake, 28 x 1½, natural wood rim. Each, \$7.50.

Telescopic Frame Pump. Clips on frame. Complete with rubber connection, 75c.

Special Inner Tube, of heavy rubber with cotton back and Schrader valve. Each, \$1.75.

METHODISTS STRONG FOR PROHIBITION

Time Coming When Church Must Take Some Action, Says Dr. Moore,

IN WESLEY'S TIME Labor Unrest and H. C. of L. Chief Problems in 1733.

Social service and finance were the topics before the Toronto Methodist Conference at Elm Street Church last night.

Rev. S. W. Dean, secretary of the finance department, stated that the infant department of the Methodist church is function was the promotion of Christian stewardship and of the various church funds.

The department was planning for the organization of a department of fire insurance by taking agencies for various high-class fire insurance companies for some years, with a view of the Methodist church ultimately carrying its own fire insurance.

The department aimed to cut down the number of appeals and increase the generosity of the members.

Religious Regeneration. Rev. Dr. T. Albert Moore, secretary of the department of evangelism and social service, quoted from a paper published by John Wesley in 1733, in which lack of employment and the high cost of living were discussed as the great problems of that date.

Co-operation and service in place of competition and profit were the ideals approved by the general conference. The day will come when profiteering will cease.

MAKE YOUR VACATION DAYS WORTH WHILE. The Canadian National Railways has been aptly named the line of National Playgrounds.

The C.N.R. line running northward from Toronto is laid through the region furnishing the most pleasant and picturesque scenery the province has to offer to tourists.

Throughout this playground there are established in accessible and suitable spots scores of summer hotels and boarding houses.

For those who prefer, there remain almost unlimited opportunities for camping parties, and sites are easily obtained.

BUILDING PERMITS DOUBLE IN VALUE. Since the beginning of the year the value of building permits granted by the city architect's department is almost double that of the same period last year.

The statistics for this year include: Brick dwellings, 937, value, \$2,537,500; brick front and rough cast dwellings, 612, value, \$1,068,050; frame dwellings, 29, value, \$44,100; factories, 8, value, \$122,188; garages, 908, value, \$312,644; stores, 107, value, \$354,500; theatres, 2, value, \$135,000; warehouses, 6, \$272,680.

ST. JOSEPH'S COLLEGE DAUGHTER-IN-LAW CLOSING EXERCISES BOSSSED THE HOUSE

Catholic Private Academy Nelson's Mother Gives Mrs. Nelson Far From Angelic Character.

St. Joseph's College Academy, the largest private college in Ontario, held its closing exercises yesterday afternoon, when the school was en fête in the last of a series of entertainments given at the close of the year.

The little ones of the junior classes had given their public exhibition a few days previously, so that the girls who filled the rows of tiered seats were those of the higher grades only.

The program opened with the singing of the National Anthem, headed by the graduates who performed by Rev. Michael's College. The plan, by "Scherzo, C sharp minor (Chopin) Miss Mary Carlo and the recitation of "A Tribute to St. Joan of Arc" by Miss Rita Morgan followed.

Follow Up Traditions. At the close of an address to the graduates Rev. Father McEneaney hoped that they would follow up the traditions of their alma mater by being for any emergency which might arise, even to the point of requiring heroism.

C. M. A. DISCUSSES EXPORT CONDITIONS

Necessity for Representatives Abroad Urged by Many Members.

SHELVES EMPTY HERE

Why Worry About Exports When Home Market Calls? Asks J. R. Shaw.

Lloyd Harris' address on export trade before the C. M. A. on Wednesday does not meet the views of many members of the association.

W. J. Bulman, the retiring president, seen yesterday on the subject, said that he was under the impression that the British manufacturer has the advantage over the manufacturer in Canada.

Two Sides to Question. J. R. Shaw, of the Canada Furniture Company, contended there were two sides to the question of export trade.

"We have found that our shelves are empty here at home," he stated, "and why should we expend energy in uncertain markets abroad when we cannot attend to half the possible business waiting for us in Canada?"

Mr. Shaw is of the opinion that a little can be done in Europe, especially the Balkans, unless impartial offices are opened there to keep the Canadian manufacturer informed as to conditions and needs.

Mr. Harris, of the Harris Printing Company, is of opinion that the Dominion government should open up the channels for export trade.

Need for Organization. J. P. Murray, secretary of the Toronto Carpet Manufacturing Company, said that he hoped the day was not far distant when an organization for the distribution and sale of Canadian goods would be established in Canada.

Mr. Murray's secretary, J. P. Murray, said that he hoped the day was not far distant when an organization for the distribution and sale of Canadian goods would be established in Canada.

Another group of delegates to the manufacturers' convention expressed the opinion that certain large firms in Canada might send individual representatives to Europe to report on individual requirements and conditions.

SHOWS MANY CHANGES IN PUBLISHING FIELD

The Canadian Newspaper Directory for 1919, just issued by the publishers, A. McKim, Limited, Advertising Agency, of Montreal, Toronto, Winnipeg and London, England, indicates great activity in the publishing field during the past year.

The number of daily papers published in 1918 diminished from 126 to 125, due mainly to the effect of the high cost of newsprint, the total number of Canadian publications increased from 1,490 to 1,512.

Five new weeklies have arisen during the past year. Altogether, the situation warrants optimism of the soundest nature, reflecting, as it does, the healthy condition prevailing generally from east to west of the Dominion.

Whoever examines the pages of the McKim Directory with the care they deserve cannot fail to be impressed with the great labor involved in gathering so many thousands of items of information. Not only is the entire field of Canadian publications covered, but the directory is a complete gazetteer of every town and city in Canada and Newfoundland, where a publication is issued.

One may turn to it for information as to population, county seats, railways and waterways, telegraph, express and banking facilities.

Especially with the new conditions arising daily—reconstruction, expansion, development—this book in its familiar green and red covers must earn its place on every office desk and in every business library.

WOULD COST CITY HIGH.

If the city laid the roadbed and the company the rails on King street, between Simcoe and the streets, where the track allowance is in bad condition, the cost to the city would be \$90,000, but if the city supplied the rails the cost would be \$170,000, reported Works Commissioner Harris to the board of control yesterday. The works commissioner is to report on the policy to be adopted.

The strike among American telegraph operators is said to have resulted in a falling off of business with Canadian companies, few night letters being transmitted, and ordinary wires being considerably delayed.

MAYOR WOULD ADDRESS JOINT CONFERENCE

Mayor Church, in a communication to Sir Robert Borden regarding the rights of municipalities to control their own streets, says:

"I respectfully request if a joint conference is to be held between the senate and the house of commons regarding clause 374 of the consolidated act that myself and one or two others as official representatives of over 200 municipalities using Hydro light and power be allowed to be heard for half an hour at any time that suits the convenience of the joint committee, and that the government of the province of Ontario, thru Mr. Kilmer, K.C., be also allowed to be heard. Hope that the joint committee so appointed may give each side an hour's hearing, as both provincial and municipal rights are being very seriously interfered with. The right to control our own streets was stolen from us in 1902, and we respectfully submit we should be heard again before any final action is taken. Please answer."

WILL NOT REOPEN T. S. R. AGREEMENT

"If the Ontario Railway Board were at all alive to the Toronto Railway situation it would have in its office an up-to-date survey of the Toronto company's entire affairs since they were incorporated, a charter from the legislature," declared Mayor Church yesterday.

"There will be no increase of fares or any opening up of the street railway agreement," continued the mayor. "We want no royal commission that will find the company unable to pay the increase. What I desired was an investigation into the affairs of the company by such a firm as the Clark-Son Company, who reported on the Hydro."

TRAIN DERAILED NEAR PORT ARTHUR

Tourist and Baggage Cars Leave Line—Fireman Only One Hurt.

A derailment, in which nobody was seriously injured, occurred on the Canadian National Railway this morning near Port Arthur, 13 miles east of Port Arthur.

The derailed train consisted of a car and two tourist cars of the east-bound passenger train for Toronto left the rails. There was only a 5 ft. embankment at the point where the accident occurred and fireman A.S. Fitzgerald was hurt, but not seriously.

On receipt of the advice, the company despatched a fire engine to the scene and the equipment, with the exception of that derailed, was backed in to Port Arthur and detoured to join the Canadian National line near Nipigon. The line is now being cleared for regular traffic.

WILL SEEK BULLET IN PUTWAIN'S HEAD

Surgeons at the General Hospital yesterday stated that an attempt will be made to operate on Fred Putwain for the bullet in his head, which lodged there since Putwain, in the case of Harold Boyes, died from the wounds he received in the affair.

Putwain's condition for the past two weeks has been practically unchanged, but it is stated that he is a little stronger this week, and it is hoped that on account of this the operation may prove successful.

STRONG RECOMMENDATIONS

West Toronto G. W. V. A. executive has decided to hold its next general meeting on Thursday next at St. Julien Hall. It was decided at last night's session to recommend that the government request the highest officials of the soldiers' civil re-establishment to resign, and to at the same time refuse to accept the resignations of both Dr. Ryan and Dr. McKeelvey Bell.

The executive also recommended that the association lodge the strongest opposition against the report of the Toronto Housing Commission, the chief cause of opposition being the expressed intention of the commission to force upon the returned soldier a cash payment of ten per cent. upon all houses purchased under its auspices.

RIBBONS AND COLORS GALORE

An interesting ribbon little known in Toronto is the Imperial service ribbon issued to every man who saw service in any field of battle, but the issue of which has not yet been gazetted. Many young men were seen wearing this ribbon yesterday, and in answer to queries, they stated that it was the issue they had received immediately prior to embarkation for Canada. One man stated that he had been ordered to wear it on parade on the morning he left camp for his ship.

The ribbon is a compound of blue, black, white on either end, and the large centre distinctive gold.

Officials of the G.A.C. stated yesterday afternoon that they had been informed by Gen. Gunn, O. C. for Military District No. 2, that this issue was the result of an order of the war office in Britain, but that it had not yet been gazetted and was, therefore, worn in Canada against military discipline and orders.

An old-timer related an experience yesterday to ribbons which were issued to him by the G.A.C. when he was in the British army in the Boer war.

It is interesting to note that an original may soon be seen wearing his Originals' Club button, the G.W.V.A. or G.A.C. button, the Army and Navy Veterans' button, the 1919 ribbon, the red rectangle, the returned soldiers' button, here and there a V.C. or D.S.O., an M.C., or a D.C.M., huge B.I. badge, resplendent in silver, the Imperial blue, black, white and gold ribbon, and last, but not least, the allied victory ribbon, with possibly a Belgian or Mesopotamian ribbon thrown in, and his service stripe pin.

The issue of many returned men, interviewed yesterday was that the urgent orders would satisfy the most urgent longings.

A MUTUAL BENEFIT

W. J. Carmichael, Dominion secretary for the G.A.C., replying yesterday afternoon to criticism of his alleged request of instruments from the board of control, stated that there was no ground for such criticism, a money grant being a different matter to a grant for instruments which would be at the service of the city at a moment's call.

G. A. C. JOURNAL CHANGES.

The Grand Army of Canada Journal is undergoing distinctive reorganization as to its editorial staff and equally distinctive in cast as to the layout of its pages. The frontispiece of the issue of next week will be the issue in color and breath of sentiment, and a decided improvement will be effected in the reading matter written by R. C. Wood, the managing editor, gathered around him a staff comprising some of the most notable journalists in the Dominion, among whom Lou Marsh will be recognized.

SEVENTY PER CENT. FRANCE MEN

W. J. Carmichael, general secretary of the G. A. C. in Canada, reiterated yesterday his statement of a few weeks ago that France men were very largely represented in the association. "I can say without fear of contradiction that the membership of the G. A. C. is 70 per cent. France men," he said.

SCARBORO DISTRICT COMMAND?

The following G. W. V. A. branches may soon compose what may soon be known as the Scarborough district command of the association: Markham, Stouffville, Tottenham, Mount Dennis, Swansea, Woodbine, Leaside, Newmarket, Aurora, Westmount, Sheppard, Mimico, Islington and New Toronto, Fairbank, and Weston. It is suggested by Ed. Stephenson, secretary of Scarborough G. W. V. A., that each of these should be considered as an independent branch with its autonomous government.

Logan Roney, M.M. of 54 Crawford street, who has tales to tell of Unter der Linden, Berlin, and the capture of the 75th Battalion and 60th Battery, have made their parents both famous and happy. All but John D. have returned to Canada.

North Toronto G. W. V. A. turned down a resolution calling for a car service at certain hours during the coming T.S.R. strike.

PRESIDENT BULMAN SAYS FAREWELL

Claims C.M.A. Most Necessary Body in Canada Today.

PUBLIC OWNERSHIP

Members Resolve Against Further Purchase of Railroads by Government.

At the session of the C.M.A. yesterday morning the following officers for the coming year were elected: President—T. P. Howard, Montreal. 1st Vice-President—J. S. Mackinnon, Toronto. 2nd Vice-President—W. S. Fisher, Sackville, N.B. Treasurer—F. Ellis, Toronto. General Manager—J. E. Walsh, Toronto.

Retiring President Bulman in his final address to the association said the C.M.A. is possibly the most necessary body in Canada today. If the laboring man knew of the efforts of the association he would recognize that they were for the development of industry in Canada, which meant more jobs, more work and more pay.

Continuing, Mr. Bulman said: "I think the slurs and attacks on the C.M.A. are made in ignorance of the work of the association. I believe, when the labor trouble is over, when the budget is passed, the sentiment of the west will change. There are a large number of farmers in the west who are not behind the Grain Growers' movement. We have seen the result of half-baked economic ideals in Winnipeg. The sooner the Dominion Government take hold of these agitators the better for the whole of Canada." (Applause.)

C. G. Robson of Edmonton told of the great areas in the west that separated the manufacturer from the farmer. He urged for a better education and an understanding because there was a growing antagonism, which "would do Canada no good."

Twelve Resolutions. After Mr. Bulman's address twelve resolutions were put to the meeting and unanimously carried. These included asking the Dominion Government for the establishment of a permanent tariff commission, immediate legislation to protect the tractor industry, summary punishment of revolutionary agitators, and legislation to help prevent fire loss.

Another resolution asked that the Dominion Government do not proceed with the taking over of further railroads in Canada.

George Waddy of Hamilton said that he had just returned from Australia and New Zealand, where they had government ownership of railroads. He said that the purchase of a ticket to go a few miles was like making a clearance at the Hamilton customs house. The service in Australia given by the government was appalling.

Tractor Protection. Arthur W. White of London, speaking of the board of control yesterday

METHODISTS ELECT THE "LUMBER JACK"

Rev. E. J. Adams Becomes President by Large Majority Vote.

"Lumber Jack" E. J. Adams, as forecast last week by The World, was elected president of the Toronto Methodist Conference with 131 votes out of 270. The ballots for other candidates were so scattered that Rev. E. J. Adams had a long lead. When he was a lumber-jack he decided to become a preacher, but put in his early ministerial work among the lumbermen on a New Ontario mission. After a short course at Victoria College, Toronto, he is at present stationed at Colingwood.

The conference, which is in session at Elm Street Methodist Church, was addressed by Rev. Dr. S. D. Chown, general superintendent, who has just returned from attendance at the British Columbia and other western provinces. Dr. Chown attributed criticism of Inspector Ayscough and his attempt to unseat Premier Harts' to anti-prohibition hatred of the Methodist church.

Discussing the labor situation after seeing conditions in the west for himself, Dr. Chown said: "Our general conference recommended the policy of the British government, the commission, of vesting the government of every industry in a joint board of employers and workers. I think, however, that the time has not yet come when a strike as at present conducted, for under the camouflage of the beautiful word sympathy, so far as many of us are concerned, there is in reality a purpose to consolidate a force which as such is not amenable to conciliation, and which does not aim at any constitutional settlement."

"The sympathetic strike may be judged by its effects upon the community of calculated starvation, public disorder and probably death."

The question of what the general conference meant in its Hamilton declaration in favor of co-operation was sent to the committee on social opinion of the conference to the question: "What does it mean?"

Rev. W. J. Smith Chosen. The ballot for secretary went in favor of Rev. W. J. Smith, Yonge Street Church, who nominated Rev. H. E. Wellwood and Rev. J. W. Fox as assistants.

Rev. R. J. D. Simpson, the retiring president, in his address stated that a Toronto Methodist layman was giving \$5000 a year for three years to help bring up the minimum pay of ministers to fifteen hundred dollars.

Miss Wilcox, deaconess of Westmoreland Avenue Methodist Church, and Mrs. Gold, a minister's daughter, are the first women delegates to attend a meeting of the Toronto conference. The eligibility of women was adopted at the last meeting of the general conference.

CITY MUST PAY SHARE FOR FRONT BOULEVARD

According to the report of the harbor commissioners presented to the board of control at a private conference yesterday, the city's share of the cost of the lake front boulevard between Sunnyside and the Humber river is \$300,000. The commissioners asked the city to carry out its share of the agreement. They stated that the board would receive a revenue of \$150,000 from amusements and the customs house. The bulk part of the improvement has to be paid for by the city in accordance with the arrangement made with the harbor board.

TORONTO TO MUSKOKA WHARF TRAIN SERVICE

Commencing on Saturday, June 14, and on each Tuesday, Thursday and Saturday thereafter up to and including June 28th, the Grand Trunk will run the Muskoka Express from Toronto to Muskoka Wharf, leaving Toronto at 10:00 a.m. Returning, train will leave Muskoka Wharf at 12:45 p.m. for Toronto on Mondays.

Train will connect with Muskoka Lakes Navigation Company steamer to and from points on Muskoka Lakes. Full information from Grand Trunk ticket agents.

THE PEAL OF WEDDING BELLS

Does it not bring visions of the day when your own little girl will be a blushing bride? And don't you hope that when she marries, "Daddy's Gift" will be such as will add much to her happiness?

Well then, why not commence now to provide for her dowry by means of an Imperial Endowment Policy on your life? You'll scarcely miss the small yearly savings required to maintain it.

In this way you can make sure of having available when she reaches a marriageable age any sum you may choose. And if you should die in the meantime, the full amount of the policy will be paid to her or to her guardian immediately.

We'll tell you all about Imperial Endowments. If you'll send us your name and address, and your asking for the information will not place you under any obligation whatever.

FRIDAY MORNING, JUNE 13.

Reciprocity and the Tariff.

The Toronto Star has been comparing the tariff schedules under the reciprocity proposals of 1911 and those of the present budget and finds them near akin.

The Star feels bound to moralize on the situation and say a lot of things which to those who have forgotten the savage campaign of eight years ago may sound convincing.

Mr. W. F. O'Connor, K. C., has been labeled "dangerous" by the corporation interests, and the department of justice announces that it cannot permit him to take service under the food board.

Mr. O'Connor was the one man who began to get results and looked like doing something when the high cost of living began to be a problem and he was placed in charge of remedial measures.

Reciprocity was designed as a measure which would bring us into partnership with the United States, so that as Mr. Taft said at the time, we would become an adjunct of the republic.

Income Tax. When it is stated that 31,310 people paid income tax for 1917, another clue is given to the cause of the unrest socially in Canada.

When it is stated that 31,310 people paid income tax for 1917, another clue is given to the cause of the unrest socially in Canada.

In Great Britain they have less of the guileless faith in human nature which our government displays, and every man who looks as if he might, could, would or should have an income tax bill with an amount such as the tax collector deems just.

Where there are dishonest people in society—and where are there none?—is justice to the honest people, this is the only course to pursue when income tax is to be collected.

Like the income tax should be all the more carefully administered. With the right kind of supervision there should be many more than 31,310 people in Canada paying income tax.

Striking for Higher Cost of Living.

Labor is striking, it is said, for higher wages and shorter hours. Whether the strike succeeds in these aims or not, it will surely succeed in gaining higher cost of living and shorter commons.

Strikes are all right in times of plenty, when work is abundant, wages on the upturn and food cheap. But in the middle of a situation like that following the war, when the existing food is only a famine allowance for the population of the world, when work is non-existent except by grace of the speculative business man, and where wages are already at a prohibitive height, strikes are quite another kind of matter.

Any policy that adds to the non-productiveness of the community lessens the wealth of the community, lessens the value of money, puts up prices, injures the national credit. There never was a time when it was more necessary for capital and labor, the politician and the citizen to sit down round a table and find out where they are jointly heading.

He Might Have Interfered.

"Patriotic men in 1911 were misled," says The Star, "and they must stand amazed at the coolness with which all the passionate appeals of 1911 are now forgotten, while the changes that were denounced then as ruinous are now quietly accepted as inevitable."

Nothing more misleading or disingenuous was penned in the campaign of 1911 nor since than that statement. The entire conditions of the two nations have changed. There is no question of our wheat following north and south lines instead of east and west.

Reciprocity was designed as a measure which would bring us into partnership with the United States, so that as Mr. Taft said at the time, we would become an adjunct of the republic.

BOLSHEVISM IN THE SCHOOLS

Editor World: While I do not approve of newspaper discussion of such petty incidents as that which occurred in my school the other day over the question of boys wearing coats in the classroom, I feel that a protest should be entered against allowing two wayward and self-important boys to raise such a rumpus over a small matter.

A great many people fail to save money simply because they put off making a beginning. They think they must have a substantial amount before they can open a savings account and that there are a great many formalities in connection with opening such an account.

THE DAY AT OTTAWA

By TOM KING

Ottawa, June 12.—The budget debate goes merrily on as the weavers begin the beginning instead of nearing the end of the session. Sir Thomas White's notice that the house must hereafter sit morning, noon and night every day except Sunday has not stopped the flow of eloquence.

The western Unionists do not take seriously Hon. Mr. Calder's threat of a general election. They say if the government went to the country at this time it would not be able to carry over 13 out of the 43 ridings in the prairie provinces.

Mr. Clark of Red Deer was the first man at the bar this afternoon. As usual, the floor and galleries of the house were filled with people anxious to hear him. He made a good speech, the talking overlong and not up to his best form.

**CLARK PROPOSES SUCCESSION DUTY AND NEW LAND TAX**

**But in Budget Debate Fails to Tell How He Will Vote.**

**ROWELL WANTS UNITY Says Neither East Nor West Can Hope to Have Full Way.**

Ottawa, June 12.—The budget debate again occupied the day in the house and promises fair to continue well into next week. Hon. N. W. Rowell, president of the privy council, and Dr. Clark, the free trader from Red Deer, were the principal speakers, although speeches by Mr. Stacey of New Westminster district, and Mr. Cannon were followed with close interest. Dr. Clark opened the proceedings. He could not agree with Mr. Crerar that the budget was protectionist. Indeed, he saw in it a tendency towards free trade. He argued that the government should have imposed a federal succession duty and undeveloped land tax. Why, he asked, should there be absolute free trade between the mother country and the dominions? There was not a thoughtful man in the house, Mr. Rowell argued, who since the armistice, radically to change the tariff. Mr. Rowell concluded with a plea for unity of all parts of the Dominion. "On the fiscal question," he said, "neither east nor west can hope to have its full way. Both should be patriotic enough not to press matters to an extreme issue."

The speaker read in the house this afternoon a letter from the governor-general stating that his excellency had received the address of the House in regard to the conferring of honors. The address had been transmitted to the secretary for the colonies in order that it may be humbly laid at the foot of the throne. Dr. Clark Debatos. Dr. Clark of Red Deer then continued the debate on the budget. In opening his speech he referred to the question of political independence raised earlier in the session by Hon. W. S. Fielding. Mr. Fielding, he said, had seemed to plead for party government for political accomplishment. Dr. Clark asked if Golden was not a proof to the contrary. That and a good many other proofs could be found to show that partyism was not necessary for political accomplishment. In looking over matters of trade and commerce, mentioned in the budget, the member for Red Deer said they should be viewed in the bright light that shone from the fields of France and Flanders. The primary consideration was that having won independence in France and Flanders, it should not be surrendered in Canada. They were at the parting of the ways in Canada. They had been told that their sons not only fought for freedom but against autocracy. Autocracy used bureaucracy in Germany. They had too much government in that country, and to get rid of it they had to get to a state in which there was very little government at all. Canada Much Governed. For a country of 8,000,000 of people, he thought Canada was pretty well governed. There were ten governments, ten parliaments, and ten sets of officials. Coming to the question of trade policy, he said that, in his judgment, protectionism was kaiserism cut down. They had a very close relation to one another.

Politics Chief Business. Someone had said that militarism was the spearhead of protectionism. Protectionism arose because certain people came to the state and said they would like a little help in the conduct of their business. In Germany state socialism came to be the accompaniment of protection. In Canada it was growing so that it was absolutely inundated with commissions and boards of various kinds until politics appeared to be becoming the real business of the country. He could not agree, said Dr. Clark with the member for Marquette (Hon. T. A. Crerar), that this was a protectionist budget. The budget he indeed saw a tendency toward free trade. In the past he had been accused of being the only free trader in the house. He was still in the position of believing in no tariff. He was glad to note that both the government and the opposition were gradually inclining toward his view, because both were in favor of a reduction in the tariff.

He west, Dr. Clark continued, would be grateful for such a reduction in the tariff as there was but the budget was not satisfactory. Reduction of customs taxation was more apparent than real. Hits the Middleman. Dr. Clark reiterated that the rules of the house did not permit the moving of a sub-amendment. It seemed to him to be an absurd anomaly that never since confederation had the possibility been contemplated of there being three groups of persons, representing three different opinions on the principles of the budget. There was, said Dr. Clark, no excuse for anyone in Canada being unable to get enough food for three meals a day. The cost of living, in regard to food, should be at a minimum in Canada. Why was there an apparent scarcity of food? The reason was that food was being held from the people in order that prices might be kept up for the middleman. He was, said Dr. Clark, in hearty agreement with the McMaster amendment, so far as it concerned free food and agricultural implements. The clause in the amendment, which provided for the free entry of necessities of life, appeared to him beautifully vague. Dr. Clark advocated the removal of the duty on iron and steel as a help to railroad construction. It appeared to him a strange thing for a young country, requiring railroad development to permit tariff which forced up the price of iron and steel. He wished, said the speaker, to associate himself with Mr. Crerar in regard to the government's proposed income taxation. These, he said, were not adequate to the times. Free trade England, Dr. Clark said,

Passenger Traffic. Passenger Traffic. Passenger Traffic. Passenger Traffic.

**DEAF MUTE DROWNS AT LONG BRANCH**

William Young, aged 25, a deaf mute living at 9 Afton avenue, was drowned while swimming with a number of companions off Long Branch Park, Young who was a powerful swimmer, swam out about 50 yards, returned to the pier and then started to go out again, when he was seen to doze up and go down. His companion Wesley Ellis, another deaf mute, not being a strong swimmer, endeavored to attempt to go to his rescue, but steps to deal with hearing and he did take steps to cut down the excessive profits. Mr. Crerar had never made any proposals to the government and his colleagues did not most cordially support. If there had been any friend of the food board, he would not have been the minister of the government, and he just had to mention this to show how absurd it was.

Southern Alberta's Crops. Calgary, June 12.—Generally speaking, southern Alberta faces a bright crop outlook. Rain has been plentiful over every district in the past month or six weeks, and the growing grain bears a very healthy look. There are few districts that offer any serious complaint of lack of moisture.

WHOLESALE FRUIT AND VEGETABLES

Strawberries—More Canadian strawberries offered in yesterday's market. Spence each having shipments, the prices ranging from 50c to 40c per box, according to quality and the time they are arrived, as afternoon shipments do not compare with early in the day. The imported berries were rather scarce, only a few coming in, which found a ready market at 40c to 30c per box. Peaches—Domestic bests of extra choice quality, well at the high price of \$1 to \$1.25 per dozen bush.

Watermelons—50c to 60c per 11-quart basket. FARM PRODUCE. See farmers' market board of trade quotations. Hay, No. 1, per ton, \$35.00 to \$38.00. Hay, No. 2, per ton, \$34.00 to \$36.00. WEST SHINING TREE'S FAME SPREADING THROUGH AMERICA

Representatives of Big Capitalists in Number of Leading Cities of United States Are Looking Over New District and Important Deals Are Pending.

West Tree, June 12.—The fame of West Shining Tree is now spreading rapidly over the whole continent. Many agents of big capital are here. New York, Philadelphia, Boston, Pittsburgh and other American cities show a great deal of interest in the new Eldorado.

Within the past week George H. Dunde, special representative of The Evening Post, New York, made a visit to the camp. He will return to the American metropolis a vivid impression as to the great mineral wealth of this district and also tangible evidence of the gold that here in the way of samples. He was shown two separate ore bodies, each over 75 feet wide and each with much visible gold.

The West Tree and Atlas are both famous for rich ore. Both are in the immediate lava. Work is now being pushed on both properties. They cannot fail to make good.

The government is finishing the road from the steel to the Wasapika gold mine. The first 13 miles are now ready for automobiles, and the whole will be completed in 60 days.

Three years ago Ernhorse, acting for the Nipissing mines of Cobalt, examined what is now known as the Herriek and was much impressed with the property.

Maple Leaf Milling Strengthens Position Profits for Year Show Some Contraction, But Assets Are Enlarged.

While the eighth annual statement of the Maple Leaf Milling Company for the fiscal year ended March 31 last shows somewhat smaller profits than for the previous fiscal year, the decrease being about \$80,000, the company's financial position is shown to have been very considerably strengthened.

The enthusiasm which was manifested for the long side of the account was attributed almost entirely to the fact that speculative interests apparently had been covered from their recent scare over take into account various factors in the general situation.

Paris, June 12.—Prices were irregular on the bourse today. Three per cent. rentes, 22 francs continues for cash. Exchange on London, 29 francs 65 centimes. The dollar ranged from 6 francs 28 1/2 centimes to 6 francs 43 1/2 centimes.

Toronto bank clearings this week established a high total of over \$100,000,000. This was more than twenty-seven million dollars more than the corresponding period last year.

STEEL STOCKS RISE: WAR LOANS ACTIVE

Dominion Iron and Steel of Canada in Demand—Brazilian Easier.

A movement in the steel stocks and brisk buying of the war loans, in which total transactions represented a par value of well over three-quarters of a million dollars injected some interest into an otherwise drabbing local market yesterday.

WASAPIKA MAKES ANOTHER ADVANCE

Stock Two Points Above Former High Record—General Market Steady.

With news from the close-down of the Kirkland Lake, Bourkes, Ontario Creek and Larder Lake mines as the result of a strike which went into effect yesterday morning, the local mining market could hardly be expected to present an appearance of bullishness.

WEST TREE adjoins WASAPIKA in West Shining Tree.

The reputation of Pantage's popularized vaudeville is well established in the United States and Western Canada. The sixty Pantage's Theatre on this continent have been steady money-makers.

DULUTH-SUPERIOR EARNINGS.
