SUE BOARD OF HEALTH WEST ENDERS THREATEN

Garbage Dumps Are Offensive—Site for Consumptive Hospital Refused.

HAMILTON, July 19.—(Special)—The board of health found itself in the odd position this evening of being threatened with a law suit because it was maintaining a nuisance in connection with garbage dumps in the west end of the city, which have such an evil odor that the residents in the district are much annoyed. It was suggested that the garbage collection should be turned over to the board of works, or that an incinerator should be erected. A special committee was named to find places where garbage may be dumped without causing trouble.

Reductions.

We have marked down several lines of our Sovereign Brand Suits for quick selling during this month. \$25.00 lines for \$17.00; \$20.00 lines for \$15.00, and so on. We will make it worth your while to come and see us for Suits during this month.

"COME ON IN" FOR SNAPS.

MINES STILL OPERATING.

Managers Hope to Have Complete Staff in a Week.

COBALT, July 19.—(Special)—Drifting at the 80-foot level in shaft No. 4 will soon disclose the values under Co. Cobalt Lake. The company is under the lake for 20 feet, and is running, despite the strike. At the O'Brien, eighty men are working and a start has been made at their new power-house.

There are probably 600 men working in the mines of Cobalt. This includes union, non-union and Italian labor employed at surface work. The mines lighting the union claim they will be working with full force in another week.

Cobalt town is going to have an electric light and waterworks system. Black Bros. of the Nancy Helen mine are closing a contract with the town with this view.

Edmund Gerard of the French end of Cobalt was sent to jail to-day by Magistrate Brown. The prisoner pleaded guilty to selling liquor, and was taken to North Bay to-night.

The Finnish branch of the union is holding a meeting to-night, which is being addressed by a Finnish leader from Toronto.

The camp's July shipments to date have amounted to nearly \$50 tons, and the probability is that this will be a banner month, despite the strike. Conlags shipped two cars to-day, and Nipissing will ship a car to-morrow.

MESSAGE FROM NEW ZEALAND. The Widespread Fame of the Great Canadian Shoe House.

From Napier, New Zealand, the Slater Shoe Company received the following letter, which was about a month on the road from the southern Pacific:

"A friend of mine who has used your shoes has recommended them to me, so I am taking the liberty of asking you to be so good as to post me a copy of your shoe catalog. Thanking you in anticipation, I am, truly, W. E. Mousure.

IN A GOOD CAUSE.

Did you know there was a place over on Broadview-avenue—No. 275—where 600 or 600 boys are given an opportunity to do all the things many active, healthy and good-hearted boys want to do, and are saved the temptations of the street and the slum after school and office hours?

The World is trying to interest boy-loving citizens in the project, and to raise \$1000 towards the payment for the five and one-half acres of property. Make cheques payable to the Sterling Bank.

The following sums have been subscribed, and are acknowledged with thanks:

- J. M. Godfrey \$50

MAJOR COLLINS' GOOD WORK.

Now that the railways and the city have agreed upon the construction of a force at the Bay-street crossing, it is only fair to say that Major Collins has naturally aided in bringing about this partial solution of the problem of protection. He has been insistent in urging the railways to take action, and is justly entitled to some of the credit.

ITCH, Mange, Prairie Scratches and every form of contagious Itch on human animals cured in 30 minutes by Welford's Sanitary Lotion. It never fails. Sold by Burgess Powell Co.

"THE FACTORY BEHIND THE STORE."

It helps wonderfully when you know your little belongings are right at hand when you are travelling, and a still greater benefit accrues when you can take so many things with you, without adding to the bulk. Our trunks and bags are constructed to hold the greatest number of things in the least possible space. Here are some of the things that are without equal.

Club Bags of genuine alligator leather, fine leather covered frame, with 1 in. trimmings, best leather lining, with inside pocket, special inches. \$3.26.

Trunks, waterproof canvas covering, hardwood slats, brass lock and trimmings, two drawers, two drawers and bumper corners, lined, deep set up tray and hat box; also extra skirt tray, extra skirt tray, extra 30 inches.

Special \$7.50. East & Co. Limited 300 YONGE ST.

BILLY CARROLL A Great Creator of Tric Tric and Cigar Stores. Grand Opera House Cigar Store. HEADS GROW SMALLER. Diminution in the Size of Hats.

"The average mental capacity of Englishmen is on the wane." Sir James Barr, president of the Liverpool Union, declared in his presidential address at the Public Health Congress, at Douglas, Isle of Man.

"One of the largest hatmakers in the United Kingdom told me that in the last half-century the average size of hats has diminished a full size. 'An average diminution of three inches in the national brain-box is a fact to give us pause.' 'It is not enough,' he continued, 'to show the public how to keep we must teach them how to get well; the finest physique will win in the end. Why, then, do we not have some system of artificial selection?'

"Miserable little specimens of humanity dilute on the physical value of total abstinence, and I have heard them, our first and last impression has been that it was a pity they were not still poorer. If our race were physically improved, we should refuse to take pilgrims for our precursors."

"To my mind, the muscular Christian is a man to the admired, and a type which we should aim at preserving and perpetuating in its most valuable asset, and I should like to see every Britisher between twenty and sixty years of age, are held in bayonet in defence of a country and need be. I would encourage the military spirit as a means of developing the physical and moral grit of the nation."

"There is no reason why sickness and death among children should not be reduced by more than 50 per cent, if parents and the state would only take more interest in their health. If we had less cant and hypocrisy about the Lord giveth and the Lord taketh away," and a little more genuine Christianity it would be better for society."

Poor, Pale, Anaemic There is no beauty in pallor, but plenty of weakness. Any exertion makes your heart flutter, your back and limbs ache, and altogether you feel the need of something to make you strong—Ferrozine will supply it. First of all Ferrozine gives you an appetite and improves digestion, so you come back to your cheeks. The thinness that makes you angular and the tiredness that has taken the place of your old time brightness, disappears. Ferrozine quickly makes you feel alive—it makes you want to do things. Ferrozine can help you to do things without getting tired, because the new, rich blood has now been formed and strengthened the tired body. Use Ferrozine and you will be rosy, strong and happy. No tonic gives superior results. Sold everywhere in 50c boxes.

The Merry Widow may not take place in New York after all. Three different out of town managers have made overtures to Henry W. Savage to present the fascinating Viennese opera in their theatres prior to its Broadway production. Either Boston, Philadelphia or Washington is likely to hear the famous "Merry Widow" waltz before the earthshaking melody reaches New York.

Marion Ivel, who has just been engaged to sing leading contralto roles at the Nantes opera house, makes the sixth member of the Savage Grand Opera Company so honored in the past year. The others include Gertrude Rennyson at Brussels, Jean Lane Brooks at Nice, Putnam Griswold at Berlin, Robert Kent Parker at Ham-

BIG ATHLETES LIMBER UP READY FOR TO-DAY'S GAMES

Irish-Canadian Athletic Club's Championship Meet at Hanlan's Point:

Everything is in apple pie order at Hanlan's Point Oval for the Irish-Canadian games this afternoon, and they will be held, rain or shine. The program, which opens at 2.30 with the boys' mile race and the pole vault, is the strongest ever put on in Canada.

Flanagan is out after the records with a vengeance. Yesterday he threw the 56-pound weight 38 feet 4 inches, which is three inches better than the records, and he says he will surely beat the banner record from the nine-foot circle. Allen's arrival was quite unexpected. His entry came to hand a week ago, but the club heard nothing further from him, so the entry was held over. He came up from Olean, N.Y., yesterday and demanded his entry be accepted. There was no alternative, and he will compete. Allen vaults about 11 feet 10 and thinks that he will just about set the Canuck record up a notch or two. Allen is a little fellow, built much on the lines of Cameron, the Central Y.M.C.A. crack. The Longboat-Daley affair, the Linden-Bonanz walk and the final of the McCarthy-Morton bicycle match race are all scheduled between 4 and 6 o'clock. Flanagan's attempts upon the world's weight records will be made at 3.30.

Men's Foursomes at Lambton. Following is the draw for the men's foursome at Lambton this afternoon: John Littlejohn and T. H. Mason v. W. W. Schumacher and H. R. Tiley. G. G. Hume and C. W. Lennox v. C. H. Pringle and C. J. James. W. B. Varley and Leslie Wilson v. T. G. Bright and F. A. Parker. C. E. Rolfe and G. H. Muntz v. A. E. Austin and C. N. Candee. M. Wilson and W. E. Greig v. J. A. Robertson and S. R. Hart. W. H. Garney and S. B. Gundy v. J. H. Anger and W. Hoger. E. G. Fitzgerald and R. G. McLean v. A. F. Rodger and J. T. Clark.

Heather Quoting Club. The Heather Quoting Club held their regular weekly banquet at 2 p.m. to-day. All quotations are invited.

FLOG THE FLAGRANT LIVER. With the man of the flagrant liver stalking thru the Liberal party, even ruthlessly swaggering into the very cabinet council chamber, it is a miserable commentary on the independence of Liberal journals to find that only one Liberal newspaper in Canada has had the courage to acknowledge the truth, take thought and blaze a trail for Sir Wilfrid Laurier.

Knowing what he knows, the Rev. J. A. Macdonald, editor of The Globe, is no friend to truth nor to his party when he suggests that the way to purify present politics is by constitutions. Quoting the unctuous Brantford Expositor, the Rev. J. A. Macdonald adds: "It is in the elevating of the standard of private citizenship that improvement in public life must begin."

looming large in the eyes of the world, deserves the heartiest possible reception from his fellow-countrymen. Abroad he has acquitted himself well. With a sure hand he directed his course at the colonial conference, and whether we agree with him or not, we must all confess that he held himself with the dignity, with the grand air, and with the directness of the experienced statesman. In manner, in mind and in personality, he appealed to the imagination of the people of the old land, and he returns to Canada the biggest Canadian they have ever seen.

Upon his party his hold is strong. Cabinet ministers, members of parliament and party managers fondly speak of him as The Chief. And their chief he is, towering head and shoulders above them in all that makes for statesmanship. In fact, where in Canada shall we find a bigger man than Sir Wilfrid?

Yet there are Canadians who believe that the great crisis of his public career has come. It is as he decides and acts now that the real greatness of his life must be estimated. He has the affection of his followers. He may have the admiration of all Canadians if he removes the shame from Canadian politics.

Is it in him to compel recognition as The Chief from all true Canadians? IRISH NATIONALISTS AND BRITISH POLITICS. In their endeavors to claim the right of the Jarrow election as a great victory for the government, the British ministerial press add the figures of the successful Labor and Socialist candidate, the Liberal candidate, and the Nationalist together. This easy method of piling up a big majority for the conflicting policies of the cabinet is thoroughly discounted by the remarks made by Mr. Patrick O'Brien, one of the Irish Nationalist party whips, who claimed that in one sense the Nationalists put Mr. Curran into parliament.

"If the Irish had not started a candidate of their own," he said, "they would assuredly have voted and worked for the Unionist candidate, in view of the attitude of the government on the education question. At the last election the Irish voted for the late Liberal member, and issued a manifesto in his favor, but on this occasion, in the absence of a separate candidate of their own, they would have thrown enough votes into the Unionist side to put Mr. Rose Innes at the top of the poll."

Now that the government has shown its disinclination to risk another disruption of the Liberal party by the promotion of a home rule bill in a form acceptable to the Nationalists they will be free to follow their own views on the matters of education and fiscal reform. On both questions they are more in accord with the Unionists than with the ministerialists, and Mr. O'Brien's intimation only reaffirms the curious situation of British politics at the moment. That the cabinet is in a quandary Mr. Birrell disclosed in his speech in the house of commons on the vote for the Queen's College. There will, he intimated, in effect, be no Irish university bill next session, and if it does come, if ever, it will not be like the forecast Mr. Bryce gave on the eve of his acceptance of the United States ambassadorship. Irish support versus a second Liberal bolt is the dilemma offered to the government coupled with the further difficulty that no educational reform acceptable to both Nonconformists and Nationalists can possibly be devised. The position has an important bearing on both fiscal reform and the campaign against the house of lords.

ASHBRIDGE'S BAY. With the experiences of the past as at once a warning and a guide the city council of Toronto should have no difficulty in agreeing upon the principles of the policy to be adopted in connection with the opening up for public purposes of Ashbridge's Bay. In this tract the city possesses an asset of importance, both directly as a source of revenue, and indirectly for the effect its exceptional excellence as a site for industrial and manufacturing plants and buildings cannot but have on the general prosperity of the community. With easy means of shipment and transportation by water and land its advantages are unmeasured, and it must be steadily kept in view that its value cannot but increase with the growth of the city and its development as one of the chief commercial and manufacturing centres of the Dominion. No policy can serve the proper interests of Toronto that does not include a thorough well considered plan both for its first utilization and for securing to the community its fair share of the unearned increment bound to follow from the expansion of the Dominion in general and this province and city in particular.

Toronto is not alone in finding to-day many regrettable mistakes of omission and commission made by the civic authorities of earlier days, and it would be as unfair as useless to condemn for their failure to foresee that what is so easily seen now. The point for our city fathers to-day is that in the light of these first years of the twentieth century the faith reposed from them is not the evidence

of things not seen, but of things whose beginnings are past and whose vitality and expanding force are visible to all but the chronic sceptic. There is no excuse these days for failure to adopt the methods and safeguards which are now known to be essential. Ashbridge's Bay offers too many advantages and facilities to be dependent on acceptance of the first proposition that comes along on any conditions who seek them an early and desirable location.

It is stated with some show of authority that the interests behind the Canadian Northern Railway have in contemplation the erection of an iron smelter on the marsh, and certainly this would prove a notable addition to the city's industries. Nor does there appear to be anything in the impression troubling some citizens that its establishment would be a menace either to the health or amenity of the residential portions of the city. But while prudence does not counsel any attempt to discourage a valuable enterprise it does advise the exacting of sufficient safeguards. Thus a conveyance in perpetuity or for an excessively long period ought not to be given, the there would seem to be nothing objectionable in allowing a proper period—say fifty years—at a reasonable rental for the thorough establishment of the industry. The city should retain the ownership with the right to resume the land at the expiry of the lease or in the event of the lessee proposing to transfer it to any other company. And in the matter of railway and dock facilities precautions ought certainly to be taken to prevent exclusive privileges from being acquired, to secure equality of use and to protect the rights of the citizens.

LIVELY RACE ON LAKE. Turbina and Cayuga Make Fast Time From Niagara. The big paddle steamers Cayuga and Turbina figured in a lively race from Niagara-on-the-Lake to Toronto yesterday. Both sides claim the victory, but the officers of the Cayuga state that they left at 6:50 p.m., 20 minutes behind their rival, and came thru the eastern gap about two minutes after the Turbina. The Turbina people admit that their boat had some little lead, but that she is "too slick" for the Niagara Navigation ship. George Arnold, chief engineer of the fleet, had charge of the engine-room of the Cayuga and pled it as the reason for the delay. The officers of the Cayuga state that they left at 6:50 p.m., 20 minutes behind their rival, and came thru the eastern gap about two minutes after the Turbina. The Turbina people admit that their boat had some little lead, but that she is "too slick" for the Niagara Navigation ship. George Arnold, chief engineer of the fleet, had charge of the engine-room of the Cayuga and pled it as the reason for the delay.

HAD STROKE IN WATER. Roderick McLeod of Kincardine Is Found Drowned. KINCARDINE, July 19.—Roderick McLeod, a resident of Kincardine on the river at the rear of his property. It is supposed that he had a stroke of some kind on the boat that was upwards of 50 years of age and unmarried.

FARMER INSTANTLY KILLED. KINCARDINE, July 19.—John Miller, a farmer living on the south line of a farm in Kincardine Township, was accidentally killed while unloading some hay into his barn. The trip rope broke, throwing him backwards, his head striking the ground, fracturing the skull. He was about 60 years of age and leaves a widow and two children.

How to Reach the Thousand Islands. The speediest, most attractive and convenient way to reach the Thousand Islands is via the Grand Trunk Railway System. For day trip you can leave Toronto at 8:00 a.m. and make connection with steamer at Gananoque, leaving there at 2:30 p.m. Alexandria Bay 4:15 p.m. For night trip you can leave Toronto at 10:15 p.m. in Pullman sleeper and in the morning make connection at Kingston Wharf daily with steamer, leaving at 8:00 a.m. Full information and tickets may be obtained at city office, north-west corner King and Yonge-streets.

J. D. McKeerroll Rescued. There was a pretty brisk breeze meandering across the bay yesterday afternoon, and some of the sailing craft had no easy end of the prey. They tried when their efforts didn't fizzle they were forced to seek the cool waters. J. D. McKeerroll of Orillia narrowly escaped drowning by the overturning of his dinghy at the Queen City Wharf. He was rescued by Fred Clarke and a party who were on the dock, and now McKeerroll is a great swimmer, but he appreciates assistance.

A Peterboro Appointment. William M. Lang of Peterboro has been appointed measuring surveyor of ships for the Port of Peterboro. Office Removed. The Dominion Lumber Company has removed its head office from Quebec to Deseronto, Ont.

CANADA ALWAYS TO THE FRONT

It is Rapidly Becoming a Great Nation in Commerce and Industry as Well as in Area. Canada has the largest wheat fields in the world. It also has the largest grain elevator, the largest lift lock, cobalt, silver, zinc, asbestos and gold mines in the world. It has more than one-half the fresh water of the globe. Its citizens are among the most progressive and appreciative of any country in the world. Indeed, its young men are being sought after by many other countries because of the superior ability of Canada's sons. They are inventive, progressive and successful. One of Canada's best and most popular products is "Cola-Claret," the wonderful summer drink, the prices of which are being sought after by many other countries because of the superior ability of Canada's sons. They are inventive, progressive and successful. One of Canada's best and most popular products is "Cola-Claret," the wonderful summer drink, the prices of which are being sought after by many other countries because of the superior ability of Canada's sons. BRAMPTON'S HANDSOME PLAYHOUSE.

Front Elevation of Neat Little Structure, Which Will Soon Be Reared.

Brampton will soon boast of one of the neatest little music halls in the province.

The interior is being kept extremely simple, the principal effect being obtained by a wide display around the proscenium opening which would be susceptible of good decoration at any time.

FRINGE MANUFACTORY GROWS

Sherbourne Street Establishment Doubling Its Capacity.

With the idea of doubling their output, the White-Alien Company, fringe manufacturers, have decided to put up a three-story brick extension 72x23 feet to their present factory, 57 Sherbourne-street.

The south wall of the old building will be torn away to admit of continuous floors and roof for both the old and new structures.

BUILDING PERMITS.

Following are the principal building permits issued at the architect's office during the past week. Twelve pairs two-story brick veneer and roughcast dwellings on Langley-ave, to Love Bros, Limited, \$38,000.

ST. JEROME R.C. COLLEGE TO UNDERGO ALTERATIONS

\$80,000 Will Be Spent on New Wing Alone—Corner Stone to Be Laid Next Month.

St. Jerome's R. C. College at Berlin is to be entirely reconstructed, as the present buildings are totally inadequate for the needs of the community.

The work will be done in sections, as funds will permit. Excavation has already begun for the new wing, the first wing, which will cost \$80,000.

MORE CAREFUL STUDY SHOULD BE OBSERVED IN PARK ARCHITECTURE

The rapid growth of public parks and playgrounds in the larger cities gives scope to architects for careful study and the exercise of ingenious ideas in planning buildings appropriate to these places of amusement.

It is no wonder that citizens get erroneous ideas as to the proper kind of structures to erect for themselves when such a hideous thing is presented to their view in a location supposed to abound in the beautiful.

WORKINGMEN ACQUIRING HOMES.

Since July 1, F. B. Robins has turned over 2340 feet of vacant land in small parcels in Earls Court, Wychwood, Eglinton Heights and Northern Heights.

NEW WAREHOUSE.

A new three-story warehouse, 60x60 feet with concrete foundations and floors and brick superstructure, is to be erected at the rear of 163 York-street for Halber Bros, metal merchants, at a cost of \$3000.

DOCTOR HAS SMALLPOX.

Disease Contracted From Child Patient in North End of City.

The physician who attended the little girl first taken ill with smallpox in the Pritchett-place house, was discovered yesterday to have contracted the disease, and has been removed to the Swiss Cottage.

DRUGGISTS MEETING.

KINGSTON, July 18.—The druggists of No. 2 District, Eastern Ontario, held their convention in this city. The following officers were elected: President, E. W. Case, Picton; vice-president, F. R. Curry, Brockville; secretary-treasurer, W. W. Gibson, Kingston; executive, T. B. Wallace (Napleton), F. J. Hoag (Kingston), F. J. McKeown (Belleville).

SEAL THINKS BROTHER MET WITH FOUL PLAY

But Coroner Sutton Has Heard Nothing to Warrant Holding Inquest.

W. J. Seal of Montreal, brother of the man W. H. Seal, who was found dead on the railway tracks at Port Credit on Thursday morning, believes his brother met with foul play.

Mr. Seal bases his belief in the murder theory on the fact that his brother had just received his pay as cook of the railway construction party, and when the body was found there was only 55 cents on the body.

The World communicated with Dr. Sutton of Cooksville, the coroner who investigated the circumstances and declared that an inquest was unnecessary. Dr. Sutton, he still adhered to the opinion that death was accidental, but if any evidence was submitted to him, tending to show that his theory was wrong, he would order an inquest held.

HISTORICAL SOCIETY OFFICERS

Barlow Cumberland Elected President—Secretary Boyle Retires.

KINGSTON, July 19.—At the Ontario Historical Society's meeting to-day, these officers were elected: President—Barlow Cumberland, Port Hope.

NOMINATES FAIRBANKS.

Rev. W. F. Wilson Sets Fire to Tinder at C. E. Meeting.

The Seattle Morning Times embellishes its front page with a two-column picture of Rev. W. F. Wilson of Toronto, and a lengthy report of the address at the Christian Endeavor convention, in which he nominated Vice-President Fairbanks as the successor of President Roosevelt.

BEGGING THEIR WAY ALONG.

Doukhorbor Pilgrimage Has Its Patriotic Features.

MCCREARY, Man, July 19.—(Special).—About 35 Doukhorbor arrived here on the march. All were very aged, except the leader, who is quite young.

P. JAMIESON THE MEN'S STORE YONGE AND QUEEN STREETS

Electricity Cures WHERE DRUGS FAIL

Every organ of your body is governed by a network of nerve wires. These nerves convey the power which run the human machine. This power is called nerve force. Nerve force is nothing but electricity.

Mr. Thomas Johnston, Box No. 233, Deseronto, Ont., says: "I am some fit or six years since I got your Belt. I am well satisfied with it. It cured me, and I have not been bothered since, and have not used it since then."

Electricity is a relief from the old system of drugging. It does by natural means what you expect drugs to do—unharmful means. It gives back to the nerves and organs the power they have lost, which is their life.

DR. M. O. McLAUGHLIN, 112 Yonge Street, Toronto, Canada. Dear Sir,—Please forward me one of your books as advertised. Name: Address:

NO CURE! NO PAY!

Every sufferer should try Electricity. It is far cheaper than a course of drugging. I GIVE IT FREE! Get my 80-page book describing my treatment and with illustrations of fully developed men and women, showing how it is applied.

Elm St. Methodist Church. The pulpit of Elm-street Methodist Church will be occupied to-morrow by Rev. Jeff. McComb, Morning subject, "Divorcement"; evening subject, "Friendship." Mingle by choir and quartet, under direction of W. A. Carnahan. Miss Ethel Dever is very acceptably supplying as organist during the absence of Miss Perry on her holidays.

Interest at Three and One Half Per Cent. Per annum will be added to the account and compounded FOUR TIMES A YEAR.

### CANADA PERMANENT

Mortgage Corporation, TORONTO ST., TORONTO

### ACTIVITY AND BUOYANCY FEATURES AT NEW YORK

Hill Stocks Are Strong on Wall Street—Good Buying Taking Place in Domestics.

World Office, Friday, July 19. The Toronto stock market to-day was excessively tame, the principal business being that of making prices for the various market specialties which must, perforce, be kept in the public eye. The local market has ignominiously failed to respond thus far to the betterment observed in outside markets. This is due solely and completely to the action of financial institutions refusing to assist any speculative movements until the preparatory work has been made for the same. Very few of the better class of securities are offering at current prices, but these are retained at a low level because of the inability to purchase by those who are confident that prices in the future of these shares must show an appreciation. Having weeded out most of the speculative accounts, no attempt is being made to inculcate purchases at present levels, and every discouragement is being thrown in the way of those who contemplate long transactions. The local market, superficially viewed, is distinctly weak, but for stocks which have merit there is certainly the best class of buying at present levels.

James J. Hill is quoted by The Journal of Commerce as saying that there is nothing at all in the reported plan for the rearrangement of control of the Burlington. Mr. Hill states there is no need of rearrangement, and none is contemplated.

Copper stocks in London generally strong on large sales of the metal recorded Thursday.

Expected new director of Illinois Central will represent Harriman interest.

Steel men do not believe iron ore strike will reach serious proportions.

Fair demand for stocks in the bean crowd.

Rumors of large distribution to Northern Pacific stockholders.

Exchange moving in favor of New York and gold from the Pacific Coast should come here in the near future.

Initial dividend of 25c a share and 15c extra on British Columbia Copper.

M. P. officials say all their equipment is fully employed.

Nineteen roads for second week July show average gross increase 12.52.

Union Pacific reports for the fiscal year ended June 30 last a surplus of \$1,000,000 and dividends of \$12,400,455. Southern Pacific, \$13,864,723.

The gain by currency movements for the week was reported at \$4,636,000 in cash by the banks. It appears the banks lost \$14,000 thru interior buying of stocks and that is not a favorable development, as the gain thru sub-treasury is entirely due to bond redemption, of which \$10,500,000 remains to be paid off.

LONDON.—Financial Times says, editorially, that the land assets of the Canadian Pacific Railway Company are worth more than \$100 per share of capital stock. The stockholders are urged to take advantage of the opportunity to create an investment demand for bonds than a speculative interest in stocks.

Copper metal sales and A.C.P. dividend will probably cause further buying by shorts of A.C.P. The utilities investigation of the tractions will cause some further selling there, but we would not follow it down. The rumored resignation of President Corey re-acted and dividend rumors may hold it back temporarily. H. P. holding company reports will induce buying of that stock, which we think should be taken on all recessions. N. P. and G. Q. may be bought when soft. We continue bullish on St. Paul, and see no reason why Atchison should not do better. A.R. should be bought when attacked only just now. Reading is

### MINE MANAGERS' SIDE OF WAGE CONTROVERSY

Letter to Secretary Acland Points Out That Miners Are Unable to Accede Demands

The following is the text of a letter sent by the chairman of the Association of Cobalt Mine Managers to F. A. Acland, secretary of the department of labor, Ottawa:

"Dear Sir—I have the honor to acknowledge receipt of your letter of the 18th inst. to the chairman of the representatives of those mining companies whose employees are now on strike, and to report that a general meeting of trade representatives was held at Cobalt yesterday, at which your letter was carefully and respectfully considered."

"At this meeting the following facts were brought out: The wage schedule on the following ten mines, viz., Nipissing, Coniagha, Buffalo, Trehew, O'Brien, Flight of Way, Silver Queen, Cobalt Township, LaRose and Cobalt Lake, affects 1094 men, who received a daily wage of \$25.75 prior to the adoption of the new schedule, and \$29.40 on the same terms under the revised schedule, thereby increasing the wage earned by 871 men 8 cents each per day, and decreasing the wage earned by the balance by 4 cents each per day, showing an average wage per man per day under the old schedule of \$2.61, and under the revised schedule of \$2.68 per man per day, or a daily average increase of 7 cents per man per day, making a yearly increase of over \$23,000 for these ten mines."

"The fact was brought out that the camp as a whole is not self-supporting, and in view of the evidence that the mines that were paying a wage in excess of the average wage have failed to compensate their shareholders regularly, and that the issue was forced by the publication of notices calling a general strike in the Cobalt district, the representatives unanimously decided upon any alteration increasing the cost of production would be unfair, and would be injurious to the best interests of the camp."

"The committee also brought out that the wages for ordinary labor offered by this new schedule are in excess of the wages for skilled labor in most parts of Eastern Canada, and the wages offered for the miners and other skilled labor are in excess of the wages paid for the same labor in any part of America east of the Mississippi River. The charge for labor in the companies' camps is as low as it can be obtained in any thriving community in Canada—60 cents per day."

"With regard to your suggestions of a public meeting for discussion, the committee considers it unwise and impracticable in view of the fact that the difficulty has arisen thru the incidental utterances of professional agitators who have no stake in the community, and who have not the confidence of the community or workers at heart; but whose sole interest is to earn their living by agitating; they have been especially importunate for the purpose of the community and workers at heart; and a discussion of this kind would give them an opportunity for further agitation and personal insults."

"In view of this question being the subject of discussion in the press, the committee deem it wise to forward a copy of this letter to the public press."

DOODY'S KIDNEY PILLS. CURE FOR RHEUMATISM, BRUISES, SWELLINGS, GOUT'S, GRAVEL, CALCULI, NEURALGIA, MIGRAINE, SCIATICA, SCIATICA, SCIATICA.

CANADA GOODS FOR SHOW FAKED BY UNITED STATES. Manufacturers Complain of Treatment—Readjustment of Freight Rates.

At the monthly meeting of the executive council of the Canadian Manufacturers' Association on Thursday certain members made complaint of the treatment accorded Canadian exhibitors at United States exhibitions.

It was pointed out that whereas Canada admits United States goods intended for exhibition purposes free of duty on the understanding that they are to be shipped out of the country, the United States has steadily refused to accord Canadian exhibitors the same privilege.

It is not yet known whether this will hitherto meted out to United States exhibitors at the Toronto Exhibition, as the association will consult the directorate before doing anything in the matter.

Readjustment of Rates. The council received the report of the transportation committee referring to the recent order of the Board of Railway Commissioners on the readjustment of rates, the removal of discrimination at frontier points and the new classification. This is looked upon as one of the most important things accomplished by the association for many months.

Disatisfaction was expressed, however, over the fact that the Board had failed to set any date by which the new tariffs were to be effective, and representations were made to the Board to have them to take effect immediately.

The London office of the association reports that to date some 200 exhibitors in Canada. It has been difficult to obtain them in many instances it was found necessary to advance their fares. All those who have been assisted are now on their way to their destination and are steadily at work paying back their employers in small monthly instalments.

Mutual Companies. Progress is being made with the organization of the two mutual fire insurance companies. The insurance committee reports that practically half the task is set out to accomplish is now completed, and no time is left unturned to have things in shape for the time of the annual convention in September.

The association has decided to inaugurate a system of over-accounts and for handling the claims of members against insolvent debtors. This will be done by the time of the annual convention in September.

The chair was occupied by Vice-President Hon. J. D. Rolland. Deaths registered at the city hall yesterday were: Mark Yenz, 27 years, hemorrhage of lungs.

Funeral of Dr. J. W. Leslie. The funeral of the late Dr. Joseph Walter Leslie took place yesterday morning at 10.30 from the residence, No. 1 St. Patrick-street, at St. James' Cathedral. The pall-bearers were: Messrs. Hamilton Cassels, Richard S. Cassels, Robert Baldwin, Stephen Baldwin, A. Graham Thompson and R. A. Robinson.

O'Hara's Body Found. The body of William James O'Hara, 36 Noble-street, who was drowned while bathing at Sunnydale Thursday, was recovered yesterday morning at 9 o'clock by his brother. It was located directly in front of the chute of the No. 1 St. Patrick-street, and was evidently a spot 150 yards east of where the police were dragging for it Thursday night. No inquest will be held.

Forestry Lectures. In an effort to interest teachers and the public generally in the subject of forestry, Prof. Fernow, dean of the faculty of forestry at Toronto University, will deliver a free lecture on that subject in the chemistry building of the university Monday evening. The lecture will be illustrated by lantern slides.

Bullet for Thief. KINGSTON, July 19.—The paymaster at the Bedford felpar mines shot to be killed in the leg at an early hour while trying to climb thru a screened window of a security pay packet containing \$1500.

Bank Clearings. NEW YORK, July 19.—The following are weekly bank clearings compared with the corresponding week of the corresponding year last year:

Protest Against an Arrest. PALERMO, July 19.—A meeting was held to protest against the arrest of Signor Nunzio Nuzzi, the former minister of public instruction, who is charged with embezzlement. Serious rioting followed the meeting, and the police and troops were stoned.

Accidental Death. "Accidental death" was the verdict returned by the coroner's jury enquiring into the death of James Swan, who died at Grace Hospital Thursday as a result of injuries received in a cave-in in a Bloor-street sandpit.

YORK COUNTY CROPS MAKE GREAT GROWTH

Eastern Counties Report Fine Yields of Hay—General News Items.

TORONTO JUNCTION, July 19.—About 11 a.m. to-day the horses of one of the Robert Simpson Co.'s delivery wagons took fright at the work car of the Toronto Suburban Railway on King-street, opposite No. 2 fire hall. One of the whipple trees broke and the driver, William McKeag, was thrown to the ground, and the wagon passed over him he was not touched by the wheels and escaped with a few scratches. The horses bolted and ran along King and Carlton streets, where they were stopped by the wagon striking a telegraph pole near the C.P.R. tracks. The wagon was badly smashed and the horses were cut about the fore legs. William Switzer, a stonecutter on the new Bank of British North America, had a valuable silver watch stolen while at work this afternoon. He had placed his vest, containing the watch and chain, on some lumber nearby and a short time afterwards, on going to see what time it was, found the watch had disappeared. The chain had been clipped and part of it still remained in his vest. Chief of Police Flintoff was immediately notified and a description of the watch given him, but so far the thief has not been discovered. The watch was valued at \$30.

The electric light town superintendent, James Hardy, who received injuries on the pole on which Lineman McGowan was killed a few days later, has now left the General Hospital and returned to his home in the Junction, but has not yet recovered sufficiently to resume his duties. In the council chamber of the town hall to-day Judge Morgan heard the appeal of the Toronto Suburban Railway against the assessment of their property in Weston. This property was formerly assessed at \$6000 per mile, but at last court of revision in Weston it was reduced to \$4000 per 1-1/4 miles, within the village limits. Today it was further reduced to \$5000 per 1-1/4 miles, within the village limits.

WESTON. WESTON, July 19.—Susan, 43 years old, wife of William Charbonneau of George-street, died yesterday at the General Hospital, Toronto. The funeral will take place on Saturday at 2.30 p.m. to Riverside Cemetery. In the eighth division court, which was held to-day in the Junction for the first time, some of the parties concerned in the cases were absent. Wellington Smith sued Charles F. Wright for \$21, which Judge Morgan allowed. Judge Morgan stated this afternoon that in future the division court will be held at the Junction. The G.T.R. have commenced building a new station at the Junction, a short distance from the site of the present one, the foundation for which is already partly completed. The prizes to be competed for in the different sporting events at the merchants' picnic, which will be held at Berlin on July 24, are now on exhibition in the window of J. G. Wright's drug store on Dundas-street. Among the prizes, which are all useful and expensive, is a beautiful silver cup for the winner of the mile foot race. The cup is presented by Charles Buchanan, manager of the Sterling Bank, Toronto Junction. The firm of Brown Bros., a brick

Seasonable Weather Clothing and Special Prices Are the Particular Inducements We Offer To-Day in Our Men's Department.

Our TWO-PIECE SUITS are made from high standard fabrics, and have that distinctive character that peculiarly appeals to men who demand correct style and expert tailoring in dress. This, in conjunction with the marked reductions we have made in men's hot weather garments, renders this a very opportune and advantageous time to buy. This applies with equal force to our sale of Men's Straw Hats. Best blocks of the world's best makers at one-third to one-half off regular prices.

- Two-Piece Suits and Summer Clothing: 50 two-piece Suits, three-button single-breasted saques, in light-weight serge and English flannels, all good patterns, regular \$7.75, for \$5.00. 64 Special Two-piece Suits, in the fashionable shades of grey, light and dark, plain and in stripes and shadow plaids, best made clothing in Canada, regular \$15 and \$16.50, for \$10.50. 150 Fancy Summer Waist Coats, \$1.50 to \$5.00.
- Straw Hats and Panamas: 25 dozen Men's English Milan, Mackinac, Sennit Braud Straw Hats, soft rolled brims and plaid interior styles, regular \$3.50, for \$2.50. 10 dozen Fine Split Straws, all sizes, extra fine \$4, for \$2.50. 5 dozen English Sennit Straws, regular \$2, for \$1.00. 5 dozen Panama Hats, \$5, \$7 and \$8, for \$5.00. Children's Straw and Linen Sailor Hats at Half-price.

J.W.T. Fairweather & Co. 84-86 Yonge Street.

daughters of deceased, the grandsons and one sister. EAST TORONTO. Fine List of Sports for Saturday—Trustees to Appoint Teacher. EAST TORONTO, July 19.—The East Toronto lacrosse team will play the Crescents on the east side of the Don at 4 o'clock to-morrow (Saturday). The local team will be picked from these players: Thompson, E. Taylor, F. Taylor, Deneves, Robinson, Dissette, Clay, Chandler, Dunn, Matthews, Colston and Shaw. At 2.30 the E. T. baseball team will play the St. Josephs, and at 4.30 Balmly Beach and the Evangelists will struggle for supremacy. Degree work has accumulated to such an extent that Acadia Lodge, A. F. & A. M., will hold a special meeting on Monday night. A meeting of the East Toronto Athletic Association will be held to-night, but beyond the decision to incorporate as an organization, little business was transacted. The high school trustees will meet on Tuesday, when the appointment of another teacher will be made. East Toronto and North Anglican outing to Centre Island yesterday was a delightful event. Special cars took the excursionists down and back. WESTON. Town Gets New Bell—Many Citizens Attend Military Outing. WESTON, July 19.—Reeve Quinn has proclaimed Monday, Aug. 5, as the town holiday. Rev. Mr. Potter is absent on vacation, and Rev. Mr. Rodwell will take his work during the former's absence. Weston is getting a new town bell put up this week. It will be first rung on Friday evening, July 26. Quite a number of Weston people took part in the G.G.B.G. excursion on the Cayuga to-night. Principal Alexander is taking a month's holidays at his old home in Norfolk County. Miss Webster is absent on an extended visit to Brandon. Weston Methodists cleared about \$100 at lawn social. NORTH TORONTO. Many Citizens Favor High School—Young Men's Club Organized. NORTH TORONTO, July 19.—The report in this morning's World re the discussion at the school board meeting of the advisability of establishing a high school in town has caused considerable comment in town. Few expressed themselves as antagonistic towards the idea, but stated that the High-class sponges for the bath and the nursery at Twiddy's drug store, corner Yonge-street and Eglinton-avenue. The Excelsior Paving Co. are busy laying the concrete sidewalks. They have contracted for Hawthorne-avenue and it is about finished and it is expected that a start will be made with the Sherwood-avenue walk on Monday. Mrs. J. Kyles of Glenrover-avenue and her daughter, Miss Corine, are visiting friends in the country for a few weeks. The Misses Richardson of Chicago are visiting their aunts, Mrs. Fred Davis and Mrs. Robert Cook, for a couple of weeks. The Eglinton Presbyterian Sunday school will hold their annual picnic to Bond Lake next Friday. THIEVES ARE BUSY—Local Gardeners Offer a Good Reward. TODMORDEN. TODMORDEN, July 19.—Vegetable school has commenced operating in this locality. It is usual for this class of operators to make midnight raids by moonlight upon crops in the suburban districts during the growing season. Last night the crop of R. C. Cosburn on North Leslie-street was raided and a quantity of white trippol onions and beets were taken. The stolen vegetables were the most select of the respective kinds and a large area of crops was trampled upon and destroyed. This work has been going on for many years past.

THE WORLD INTERVIEWED several large ratapayers in connection with the movement, and their replies are: Ex-Mayor J. S. Davis said: "The establishment of a high school in town is the best move towards the town's progress that can be suggested." Ex-Councillor James Pears said: "I do not study the matter to any extent, but considering everything, North Toronto should be in a position to open up a high school. If villages in the county of York with 700 inhabitants can successfully maintain a high school, North Toronto with over 3000 inhabitants should. Toronto Junction has a successful high school and is nearer to the city than North Toronto; so has East Toronto. Let us be a progressive people." John Kyles, Glenrover-avenue, was enthusiastic in favor of establishing a high school in the town and said: "It would be an inducement to people to move to Toronto's healthiest suburb and build it up." William Ziegler, Glenrover-avenue: "My opinion that we should have a high school in North Toronto. I believe it would not only be a good thing for the children of the locality, but a good thing for the locality generally." North Toronto is a growing municipality and a greater number of people would locate in that district if they had better facilities for educating their children than the town at present affords. T. A. Gibson, solicitor, said: "The cost of a suitable building for a high school would be rather a heavy burden at present times. If this could be avoided for a year or two by renting or by using part of one of the school buildings, which could be enlarged if necessary, I would be strongly in favor of having a high school established."

The congregation of the Davisville Methodist Church have taken up a subscription towards the renovation and repainting of the church and realized a handsome amount. The work will start to-morrow (Saturday). The newly-organized Young Men's Club held their first regular meeting in the Eglinton Methodist school-room last night. The executive committee submitted a draft of constitution and bylaws, which were discussed and adopted. Rev. N. Wellwood was elected honorary president and A. Wilson rector. A happy relief came to the citizens of North Toronto this morning when Richard Baillie turned up with his wretched cart and dampened three inches of dust on Yonge-street. High-class sponges for the bath and the nursery at Twiddy's drug store, corner Yonge-street and Eglinton-avenue. The Excelsior Paving Co. are busy laying the concrete sidewalks. They have contracted for Hawthorne-avenue and it is about finished and it is expected that a start will be made with the Sherwood-avenue walk on Monday. Mrs. J. Kyles of Glenrover-avenue and her daughter, Miss Corine, are visiting friends in the country for a few weeks. The Misses Richardson of Chicago are visiting their aunts, Mrs. Fred Davis and Mrs. Robert Cook, for a couple of weeks. The Eglinton Presbyterian Sunday school will hold their annual picnic to Bond Lake next Friday. THIEVES ARE BUSY—Local Gardeners Offer a Good Reward. TODMORDEN. It is usual for this class of operators to make midnight raids by moonlight upon crops in the suburban districts during the growing season. Last night the crop of R. C. Cosburn on North Leslie-street was raided and a quantity of white trippol onions and beets were taken. The stolen vegetables were the most select of the respective kinds and a large area of crops was trampled upon and destroyed. This work has been going on for many years past.

THE WORLD INTERVIEWED several large ratapayers in connection with the movement, and their replies are: Ex-Mayor J. S. Davis said: "The establishment of a high school in town is the best move towards the town's progress that can be suggested." Ex-Councillor James Pears said: "I do not study the matter to any extent, but considering everything, North Toronto should be in a position to open up a high school. If villages in the county of York with 700 inhabitants can successfully maintain a high school, North Toronto with over 3000 inhabitants should. Toronto Junction has a successful high school and is nearer to the city than North Toronto; so has East Toronto. Let us be a progressive people." John Kyles, Glenrover-avenue, was enthusiastic in favor of establishing a high school in the town and said: "It would be an inducement to people to move to Toronto's healthiest suburb and build it up." William Ziegler, Glenrover-avenue: "My opinion that we should have a high school in North Toronto. I believe it would not only be a good thing for the children of the locality, but a good thing for the locality generally." North Toronto is a growing municipality and a greater number of people would locate in that district if they had better facilities for educating their children than the town at present affords. T. A. Gibson, solicitor, said: "The cost of a suitable building for a high school would be rather a heavy burden at present times. If this could be avoided for a year or two by renting or by using part of one of the school buildings, which could be enlarged if necessary, I would be strongly in favor of having a high school established."

ROWELL & CO. AUCTIONEERS

Goods Bought and Sold. FARM LANDS AND PRODUCTS A SPECIALTY. All Sales conducted personally. For terms, address WYCHWOOD P.O., Ont. Street Cars at Exhibition. Editor World: As I have heard of no effort having been made to make it easier to remove the immense crowd which forms in Dufferin-street after the fireworks, I beg to offer the following suggestion, which, I am convinced, would very much relieve the congestion which, invariably takes place. At present the crowd accumulates at the corner where the cars enter Dufferin-street from the loop. Passengers for all the car routes are almost inextricably wedged together, and as a King, Queen or other car turns the corner a most dangerous rush is made to fill it by those who are waiting to go by that route. The only wonder is that more bad accidents do not occur. To obviate this terrible struggle and confusion I would suggest that immediately above the entrance from the loop, separated by the distance of a motor and trailer, poles ten feet high be erected, crossed at the top with a sign, such as is used on the street cars. The first one, "King," the second, "Queen," the third, "Bathurst," the fourth, "Dovercourt." The crowd would therefore be broken up into four, which would greatly relieve the congestion, as the passengers would make for the sign where their car stopped. The cars would fill naturally and be got away with little difficulty, and the necessity for the string of men done away with. J. F. Johnston, 259 College-street.
