FRENCH WILL OBTAIN GREAT VICTORY

Joffre's Troops Make 1 Mile Advance at Verdun and Capture at One Blow All Ground Taken by Crown Prince in Two Months' Fighting—Germans Taken Completely by Surprise, Surrender in Doves—3500 Prisoners Already Taken and More Are Pouring in—New Offensive May Cut Off Germans in France and Will Relieve Pressure on Roumania.

BY ARTHUR S. DRAPER.
Special Cable to The Toronto World.
LONDON, Oct. 24.—Verdun, where the German Crown Prince sacrificed half a million men in vain, is now the scene of a powerful French offensive. Smashing thru a front of four miles, Joffre's troops have captured positions on the right bank of the Meuse to a depth of two miles. The village and Fort of Douaumont, which have changed hands many times since the German drive began in February; the Thiaumont work and farm, strongholds of the Teuton advance line; and the Haumont quarries, north of Thiaumont, have fallen before the French onslaught. More than 3500 prisoners have already been passed back by the French troops, and the action is still in progress. Large quantities of supplies were captured in the charge, for the suddenness with which it was carried thru gave the

Germans little time to withdraw their guns and material to the rear. The French victory, won on terrain that has seen some of the bloodiest fighting of the war, and won despite the maze of fortifications that covers the Verdun front, is a welcome antidote to the Teuton victories against the Roumanians. It is evidence that Mackensen and Falkenhayn can not draw troops from other fronts to battle for Bucharest. It is an omen of renewed allied pressure against the Kaiser's lines in the west. With daybreak the French guns began to bathe the German trenches with shell. Recent visitors to French headquarters have reported that the French artillery on this front was firing fifty shots to one for the Germans. The execution of the bombardment did in the enemy's line tends to prove that statement. Shortly before noon the pollen sprang to the attack. Then began a series of assaults that swept thru the first German line and beyond into the Fort of Douaumont and into the village. Meanwhile the right wing was moving

toward Vaux, a position as much dis- sent, with its tip at St. Mihiel. Un- til this wedge is wiped out a French push eastward is almost impossible. By breaking thru the German line north of Verdun the French can flank the enemy's position at St. Mihiel and so force its evacuation. But the immediate effect of the at- tack on the Meuse will be on the Somme operations. With the Balkan movement in full swing it seems hard- ly likely that the Kaiser's generals can muster enough men to withstand two great offensives on the western front. When the thrusts for Foranne and Bapaume are resumed, this pressure will be at a maximum. The resumption of the Somme of- fensive cannot long be delayed, it is believed here. To offset this the Ger- mans are shelling the enemy's lines steadily between the Ancre and the Somme. A formidable counter-offen- sive was planned, military observers here assert, but the new Verdun at- tack may interfere seriously with this plan. The lull on the Somme cannot con- tinue, observers say. Only by pres- sure against the Teuton at all possi- ble points can the Roumanian situ- ation be relieved. The Verdun offen-

sive is the first move in that direc- tion. BLOW IS VIOLENT
Germans Lose in One Day What They Sacrificed Half Million Men to Win.
Special Cable to The Toronto World.
LONDON, Oct. 24.—Opening the most violent and intensive artillery bom- bardment that this war has yet ex- perience, the French yesterday storm- ed German positions north of Verdun to a depth of two miles on a front of four and a third miles. This blow was so violent and so well arranged that it remained in a single afternoon's fighting virtually all the ground lost when the crown prince launched his hosts against this point in February and March. What the Germans achieved in two months the French achieved in about half a day. Thus the Germans lost yesterday what they sacrificed half a million men to win. The Germans were resting quietly in their dugout this morning, pre- pared to spend an easy winter before Verdun, when the French cannonade began. It was conducted by hundreds

of heavy guns, and the bursting shells wrecked all the German trenches and buried their occupants in their dug- outs. Promptly at 11.40 o'clock the signal for an advance sounded along the French lines. The French infantry then leaped out of their trenches in extended formation, without their haversacks and other impediments to a rapid advance, and they rushed for- ward, surprising the Germans before they could emerge from their dugouts. Complete co-ordination existed be- tween the French artillery and the in- fantry, and as they moved forward the curtain of fire was thrown farther ahead. Before nightfall the French had passed many of their old fighting grounds, made famous by weeks of struggle. They first made for the fort and Village of Douaumont, which were taken by the Germans in the fourth day of their assault last February. Passing beyond to the left they storm- ed the Thiaumont work and farm, where they fought during March, April and May, and they took the Haumont quarries with a rush. When they reached the road from Bras to Douaumont they dug themselves in

to wait for further artillery action. On the right of Fort Douaumont the French success was equally as great as on the left. They speedily clear- ed the Germans out of their trenches and wooded ground and established their lines to the north of La Caillette wood, along the western outskirts of Vaux Village, lost to them for five months, along the eastern border of the Fumlin wood, and to the north of Chenois wood and the Damloup bat- tery. During the day the Germans came into French headquarters in droves, and by night 3500 had been counted. Great quantities of supplies and many guns were also taken, but sufficient time has not elapsed to count these yet. The French, it is said, are now in good position for the making of a breach in the German front and to move northward and cut off the Ger- man armies from their base at Metz. The French advance also threatens the Lorraine mining region. It is believed that Von Hindenburg will be forced to recall troops from the Roumanian front to attempt to save the situation. The bulk of the forces of the enemy in France is now concentrated on the Somme.

London, Oct. 24.—According to latest news from Roumania, the situation continues serious, but not desperate. The Germans have succeeded in ad- vancing down Predeal Pass on the railway south of Kronstadt, and they have taken the town of Predeal. The battle continues in the outskirts of this place and it is extremely violent. The Germans took 600 prisoners at Predeal. The battle is also proceeding with the Germans making heavy attacks in the region of Dragoslavie, where the Roumanians are maintaining their positions, and in the Jiu Valley where the enemy has made slight progress. The Roumanian counter-offensive is driving the enemy westward in the Usel Valley, but the fighting is still violent there. They have also at- tacked the Germans along the whole front at Otus, and they have taken 312 prisoners and ten machine guns in their offensive. In the Dobruja, the Russo-Roumanian line has not been broken, but the right wing of the allies has retired to Tzara Murat, 12 miles north of the railway. The left wing is still covering Cernavoda with its bridgehead. The Germans claim that they have taken 7500 prisoners in this region. The Turks also claim a share in this fighting, and they say that Field Marshal Von Mackensen has sent a message of congratulations to the sul- tan concerning their successes. It is also claimed that a Turkish submarine sank a 3000 ton transport, and some sailing ships off the Roumanian coast. Medjidia, 15 miles east of Cernavoda, has also been evacuated by the allies and occupied by Von Mackensen.

London, Oct. 24.—Another important success has been won by the Serbians when they advanced their first army on its entire front in Macedonia, and stormed the first system of Bulgarian trenches. While this was being done the Serbians beat off fierce attacks on the Serbian Vardar division. Then this Vardar division met the Galgians in fierce fighting north of Yel- veselo Village and repulsed them. The first army then followed up its first success and took 60 prisoners. Floods in the Struma valley con- tinue to hold up the British. The river is two feet above its normal level. The British raided the trenches of the foe on the Dolran front, after a bombardment of stubborn resistance was encountered from the enemy, and he was beaten back with loss. Eighteen Germans were taken prisoner and 40 dead Germans were found in the trenches.

London, Oct. 24.—On the British front south of the Ancre today the feature was intermittent shelling of the British positions by the Germans. In local fighting they took 80 prisoners yesterday and today. Sir Douglas Haig reports as follows: "In answer to the enemy's claim that the gains of Saturday between Schwa- be redoubt and Le Sara were only the result of heavy losses on our part, it may be noted that the troops engaged, which took over 1,000 prisoners, had only about 1,200 casualties." Further to the north round Armentieres the British and the Germans engaged in considerable shelling of each other. Probably to destroy some British mine shafts a party of Ger- mans raided the British trenches east of Loos and was immediately ejected.

Halifax, Oct. 24.—"There is need of men and munitions, and there is need of keeping the nation strong financially and economically, and in this last everyone can help. This war will only be won by exertion, by patience and by sacrifice; and these are faculties in which the men of our race have never been found wanting in a time of national crisis." In these words Sir Thomas White, minister of finance, summed up an address on "The Business Affairs of the Nation" at the quarterly meet- ing of the board of trade this after- noon. "What is the important question from a financial standpoint with re- lation to the war?" asked the minister of finance. And he replied by pointing out that with the Dominion Govern- ment spending \$730,000, and the imper- ial government cannot pay for munitions made in Canada by drawing cheques on the Bank of England. It can do so only by establishing dollar cred- its in Canada. And that can be ac- complished only by the people of this country placing large sums to the credit of the imperial government. "If we can give them the money we can get all the orders we want and more," said Sir Thomas, "but we must save."

Brewery Concerns Charged Selling Liquor for Resale

Brantford, Oct. 24.—Hamilton Brew- ing Association and Grant Spring Brewing Company, both of Hamilton, and Carling Brewing Company, Lon- don, were in police court this morning charged with violation of Ontario Temperance Act, by selling liquor for re-sale. Complaint was made by License Inspector R. J. Encaust, who claimed that liquor sold contained more than two and one half per cent. alcohol. Defendants made claim that it was not over strength when it left their factories, and that if it were over strength it must have been due to fermentation, which had taken place since that time. The three cases were adjourned one week.

**WAR SUMMARY
THE DAY'S EVENTS REVIEWED**

TAking advantage of the German preoccupation with Roumania, and with the allies on the Somme, the French opened yesterday a great offensive from Verdun. The first German knew of what was coming was the sudden opening of one of the greatest artillery bombardments of the war, of an intensity defying adequate reply.

As a result of this successful action the French, by last night, had established their lines along the road from Bras to Douaumont, and the following positions: Along a line drawn north of Caillette Wood, the western outskirts of Vaux Village, the eastern border of Fumin Wood and north of Chenois Wood and the Damloup Battery.

The fact that the French were able to penetrate the German front to a depth of two miles in one afternoon gives reason for believing that the Germans have been taken completely by surprise.

It is almost certain that an opening was given the French for an attempt that gives promise of success by the withdrawal of troops from this front to fight the Roumanians.

The greatness of the French achievement is seen from the fact that their coup at Verdun had regained in a single day virtually all the ground lost in the battle that began last February.

The taking of 1000 prisoners alone, besides inflicting further large losses in killed and maimed, and suffering only 1200 casualties in doing it, was the experience of the British army in storming a five-mile front on Saturday.

On the Roumanian-Transylvanian frontier the Germans have advanced down the Predeal Pass and they have taken Predeal Town, on the railway leading from Kronstadt to Bucharest. The fighting appears to have amounted merely to the pushing of the Roumanian lines back beyond the town, for the Roumanians have suffered no serious mishap.

The best feature of the situation is the continuous arrival of the Russians, whose strength will soon begin to tell in the struggle. A communication, issued at Petrograd yesterday, reports that the Russian first line, the Germans in the Trotus Valley, along the Buzna-Dobruza-Kimpung line, and at Orsova, on the Danube. In the first two sectors the enemy remains repulsed by the Russian fire.

Winter Underwear, Noted for Its Comfort

Such Famous Brands as "Cestee," "Tiger," and "Wolsey"

Underwear does not necessarily have to be heavy to be warm; in fact it has been recently discovered that finer and closer knitted garments are not only lighter in weight, but they're warmer and more comfortable and permit freer action of the body. We can supply just such garments at very reasonable prices, in sizes to fit men of all shapes and sizes. The increasing scarcity of wool is making the supply of real good underwear small, and it is important that men purchase their supply at once, while our stocks are abundant with pre-wartime qualities of such famous brands as these:

Tiger Brand Combinations for men. Made of a mixture of wool and cotton in elastic rib. These are made in all sorts of sizes to fit men of unusually odd shapes—short, long, slim, or ordinary size. Each suit has comfortable closed crotch, close fitting ankles and cuffs and pearl buttons. Sizes 34 to 46. A suit... 2.25

DROP PROSECUTIONS AGAINST BREWERIES

Firms Assure License Board They Will Conform Strictly to Temperance Act.

STRENGTH INCREASED

Draft Beer Which Was Sold for Resale Found to Be Over Two and Half Per Cent.

Prosecutions have been instituted against the Hamilton Brewing Company, and the Grant Springs Brewing Company of Hamilton, the Bixel Brewing Company and Carling's Limited, of London, charging sale for resale of liquor over two and one-half per cent. It appears that the bottled liquor supplied was within the law, but that the draft beer had increased in strength after it left the brewery.

Representatives of the three firms first named appeared before the license board yesterday and assured the commissioners of their bona fide intention of supplying only such liquor as conformed to the requirements of the Ontario Temperance Act. It had been all right when it had left the brewery, fermentation must have followed. They promised to suspend the sale of liquor until they had overcome the difficulty.

The board accepted the representations of good faith and agreed to an adjournment of the prosecutions. This same course will be followed, it is understood, with the fourth firm if they make similar representations to the board.

It appears that the difficulty lies in the method of manufacture. A Toronto firm, it is said, allows its beer to ferment fully and then evaporates the superfluous alcohol. This method proves satisfactory. The others, it is stated, allow their liquor to ferment to 2-1/2 per cent. and then stop fermentation by chilling. This proves unsatisfactory as the process appears to continue in the heat of the bar.

The board is determined to stop the sale of liquor stronger than that specified in the act.

NORTHERN ONTARIO

The Land of Clover, Opens a Permanent Exhibit in Toronto.

"Show your wares" is the slogan that has been adopted by the colonization branch of the Ontario Government in promoting settlement in Northern Ontario. "Show your wares," they believe, is to see and be convinced. And with this thought in mind a permanent exhibit—small but representative—of the field products of Northern Ontario has been arranged in the government immigration office, 172 Front street west, Toronto, opposite the Union Station.

The exhibit, while it conveys to newcomers at once some of the possibilities of the "Land of Promise," is worthy of the attention of those who have heard but never ascertained for themselves what Northern Ontario means to the province as a whole.

The richness of the soil is emphasized on every hand, first by a collection of samples of fodder crops, such as clover, alfalfa and alsike, and then by a number of native grasses (also good for fodder) that grow in production in Timmingone, Nipissing, Algoma, Thunder Bay, Rainy River and Kenora districts. These, with sheaves of fall wheat and oats with an average of three feet in length, is declared proof that Northern Ontario will not yield to any other part of Canada first place in grain production. The cultivation of flax for seed and for fibre is being encouraged by the Dominion flax commissioner, with results which, he states, are exceeding his hopes.

The office breathes the free and optimistic spirit of the north. Information of every conceivable nature concerning the country is available. Enthusiasm is characteristic of the staff, which is trained to understand the needs of newcomers. The reception room is cheery and comfortable, with proper facilities to accommodate women and children.

Few people are perhaps aware that in the midst of this city is maintained by the government an institution that is something more than a turnstile through which settlers pass to their new heritage. It is a school where many things are taught to the profit of settler and citizen.

The department extends an invitation to every person to take advantage of the innovation and know more about Northern Ontario.

WILLS PROBATED

Rev. Dr. William E. Norton, superintendent of home missions of the Baptist Church, who died in Toronto Sept. 20 last, left an estate of \$14,293 to be divided according to his will equally between his widow, Sarah E. Norton, and his daughter, Jacqueline M. Norton.

The Toronto General Trusts Company have applied for probate of the will of George G. Burnett, financial agent, who died in Toronto July 30, leaving an estate of \$9855. The estate goes to the widow, Mrs. Madeline Burnett, 77 Alicia avenue, and on her death to his daughter, Dorothy.

Mrs. Louisa Brookstein, 32 Baldwin street, has applied for administration of the estate of her husband, Sinai Brookstein, who died July 29th last leaving an estate of \$4700, which will be divided between her and her four children.

William Blashford is the sole beneficiary of his sister, Miss Frances A. Blashford, who died in Toronto Oct. 16 leaving an estate of \$3809. An estate valued at \$2200 was left by Charles H. Hines, who died in Toronto last Sept. 23, leaving no will. Mrs. Ellen Hines, the widow, will receive \$1000 and the remainder will be divided between the three sisters and brother of the testator.

GRAND TRUNK RAILWAY SYSTEM

The special train service leaving Toronto 7.15 a.m. daily except Sunday and 8.15 a.m. Sundays only for Camp Borden, returning leaving Camp Borden 6.20 p.m. due Toronto 8.50 p.m., will be discontinued after Oct. 29th.

ON BETTING CHARGE

Morality Officers Kerr and Lawler arrested John Chestnut, 177 Yonge street, at his cigar store yesterday on a charge of conducting a common betting house.

RESTITUTION IS MADE.

In the sessions yesterday before Judge Winchester a jury brought in a verdict of guilty against Harry Paros and Constantine D. Poroff, charged with stealing 65 napoleons, or \$265, from Yonche Glegoroff. When the verdict of guilty was brought in friends of the Poroffs immediately made restitution, both on this charge and one other of a similar nature.

Goodyear Service Is World-Wide

The sun never sets on the Emblem of the Goodyear Service Station. In every latitude and longitude, in bitter north and blazing tropics; where the air is soft with summer sunshine and where the frozen wind whistles over icy plains; wherever the automobile has made its mark you will find the Goodyear Service Station. Goodyear Service Stations are making tires go farther, last longer, cost less, for those who drive on the paved streets of every metropolis of the world—London, New York, Copenhagen, The Hague, Christiania, Lisbon, Stockholm, Calcutta, Mexico City, Tokio, Rio de Janeiro, Buenos Aires.

On the sun-baked veldts of South Africa—on the snow-clad Himalayas—in the sands of Egypt's deserts—on the wind-swept steppes of Russia—in the quiet hamlets—in the roaring metropolises—in the jungles and forests—on the plains and prairies—yes, and on the muddied battlefields of Flanders—wherever man has built a road you will find Goodyear service.

Goodyear Service Is:—

doing everything to make your tires give you greater mileage. The Goodyear Service Station Dealer will see that your tires are properly inflated for the load you carry. He will advise you as to the benefit of more modern tims. He will tell you whether your tire is worth repairing—whether an inside tire protector will add mileage. He will show you how tire putty keeps water and sand out of tread cuts. He will supply you with everything needed in an emergency to repair your tires. He will supply you with Goodyear Tires, Tubes and Tire Saver Accessories without delay. He will show you how to make your decreased tire-cost-per-mile offset your increased gasoline-cost-per-mile.

GET PAY OF A SOLDIER

More Than a Million Men Now in Service of Empire's Watchdog.

There are now 5,000 overseas troops stationed in Toronto for training. With the arrival tomorrow of 150 Artillery men, members of the 67th, 69th, 70th and 71st Depot Batteries from Potawawauqua Camp, the total of active service troops quartered in this city will pass the 6,000 mark.

In Exhibition Camp there are already 4,100 soldiers, and in school quarters in the city proper, 1,900 more. The troops at Exhibition Camp include the Divisional Cyclists, under Capt. W. A. Kyle; 198th Buffs, Lt.-Col. J. A. Campbell; 204th Bn. Royal Canadian Trenchers, Lt.-Col. W. H. Price; 205th Irish-Canadian, Lt.-Col. T. H. Lennox; 20th York, Lt.-Col. E. W. Wallace; Army Service Corps, Depot, Major J. C. Allan; Army Veterinary Corps, Capt. F. S. Macdonald; No. 2 Lt.-Col. R. C. Munday; and the 21st Battalion in the city of the 21st Battalion.

The following bayonet fighting and physical training instructors have been promoted to the rank of sergeant-major: Sergts. T. S. T. Ransom, F. Grinnell, A. N. Dixon, G. Brown and P. Andrews.

With the departure on Saturday night for overseas of its sixth draft of two hundred and fifty men, the Depot Regiment, Canadian Mounted Rifles, has attained the record of having sent one and one-half times its authorized strength to England since spring.

The regiment is now recruiting back to strength and has openings for a number of chapt. young men desirous of joining a mounted unit. Special opportunities are offered by the signaling and machine gun sections.

The regiment has enough horses to provide a mount for every man. Lieut. Purvis, 89 King street, west, is receiving the recruits.

Lieut. Stephen Wilkins of the Royal Flying Corps, is home on a brief leave of absence. He is a son of James Wilkins, 18 McKensie avenue. He went to France as a despatch rider with the 1st Canadian Division soon after the war's outbreak, and served there at this work until joining the flying corps eight months ago.

LET HIM STICK IT OUT IS BILL DONOVAN'S RECIPE

Only Way for Young Pitcher to Develop is to Take the Bumps as They Come to Him—Some Solid Advice.

Fans in St. Louis criticized Fielder Jones manager of the Browns, because he was too ready to take out a wavering pitcher.

A manager whose policy is opposite to that of Jones, in that he often has been accused of leaving pitchers in when it seemed that good judgment demanded relief, is Bill Donovan of the Yankees.

Donovan's policy is to give his pitchers a chance to become more settled in their work.

Before taking up the remarks of Donovan it is timely to remark that no manager knows the ins and outs of pitching better than the boss of the Yankees.

Young Pitcher Needs Encouragement. I have explained Donovan as he most pointedly to build up a winning ball club and pitching is the big part of any club.

As I said, my pitchers are young, and I am thinking of the future of the club. I am not a shaker or a puller.

To me victory means more than it does to any fan in the stands, but I am another side to be considered.

ACCIDENTALLY SHOT HE MAY NOT RECOVER

Percy Roebuck, Seventeen Years, Received Contents of Shotgun in Back of Head.

St. Catharines, Ont., Oct. 24.—Numerous shooting accidents occurred today, the only one of the year permitted for pleasure hunting in Lincoln and Welland Counties.

The most serious was that of Percy Roebuck, aged 17 years, of South Township, who was brought to Welland hospital, where his recovery is considered doubtful.

Roebuck, who has just shot a crow, was walking a couple of paces ahead of H. Parker, of Grandham Township, who stumbled and accidentally charged the entire contents of his shotgun at close range in the back of Roebuck's head.

CANADIANS BEAR HIGH REPUTATION

They Are "Fine Fighters and Brave Fellows," Says Wounded German.

New York, Oct. 25.—The World this morning publishes the following from Joseph W. Grigg, its correspondent at the front in France:

Moving bodies of troops on the broad plains just back of the firing line show impressively the superiority of the British air service over the German.

Opportunity has been afforded me for a closer inspection of part of the British and to traverse desfilées of the front, as well as obtain a closer inspection of the German lines.

The Somme battles have demonstrated that the German strategy in the west is primarily that of a machine gun defence. It is not a surprise that this strategy is the most impossible that such craftily built trenches and underground fortifications could offer.

The sign placed at the entrance of such dugouts. Almost on the lip of one big crater made by British mines, are the miniature figures of many brave Britons who wrested this shell-torn hill from the Germans.

Flowers growing in the crater holes indicate that nature is taking a hand in covering up as soon as possible the scenes of desolation.

"Hun Not Yet Beaten." "The German has not been beaten, but will be," is what I found to be the opinion of generals as well as men in the ranks.

If Germany hopes to win by machine guns, the British are just as determined to win by smashing such a defence, whether they do it by the big guns of which I have had a good opportunity to see the operation.

I have had fleeting glimpses of a combination of these implements of war and the superb soldiers who have since July 1 consistently and relentlessly pushed their way over flat ground swept with a hail of lead to the crest of the hill which brings them to the crest of the hill which brings them to the crest of the hill.

I have found no underestimating of the German strength and fighting spirit. "They fight like lions" is an expression I have heard over here more frequently than one of a derogatory character. It is the true of certain elements running away.

Bayoneted Seven Times. The Germans have placed their best and bravest soldiers in charge of the machine guns. It is an expression of contempt for the German soldier, who has been bayoneted seven times before he was knocked out.

As compared with this example of ferocious tenacity, much light is thrown on the German soldier by the discovery of an order by Von Buelow to his officers warning them that they would be court-martialed if they continued to leave their posts when attacked.

What the forward movement of such an army as this British one is on the Somme means is indicated by the ceaseless tide of supplies which flows constantly to the very line of battle.

One Tommy said to me that a British general on his way to the battlefield in his motor car often has only a blur, but it is a more persistent, steeper pace which carries supplies and munitions to this advancing army or equips them with patches of khaki-clad men who are ready to be moved up into the actual fighting sector.

Canadians Great Fighters. As I with several others worked my way past the endless chain of lorries we came in view of the Canadian division which had been in the fighting line and was now returning for rest.

These war patches of khaki-clad men had had to me: "The Canadians are fine fighters and brave fellows, and so are the Australians." He had been fighting against Canadians at different intervals, he said, for many months.

This Canadian division went along the road whistling, singing and muddied. They were fighters and no doubt it, as were also those Scotch troops we met later at the point on the road where there was a veritable hillook of empty shell cases.

Whatever troops Germany removes from the western front must be replaced by others. To hold her gains around Verdun she will be compelled to maintain intact her troops already there. In the meantime Britain piles up her mountains of shells and supplies for "the day"—Britain's day as her vast organization in France believes absolutely.

Premier Borden Thinks C. P. R. and Employes Will Reach Agreement.

REDDY TO TAKE ACTION

Government to Use Drastic Measures if Necessary to Avert Disaster.

By a Staff Reporter. Ottawa, Ont., Oct. 24.—In government circles there is confidence that negotiations now in progress in Winnipeg between the C.P.R. officials and employes of the company will avert a strike.

Sir Robert Borden's notice to the disputants today has done much to bring an amicable settlement within reasonable expectation. There is no doubt but that a drastic policy has been decided upon by the government in the event of the company and the men not arriving at a settlement by tomorrow afternoon.

It is believed that negotiations toward a settlement are in progress and that a satisfactory agreement will be reached, said Sir Robert Borden tonight.

"We are in touch with the situation and urging both parties to avert what would be a disaster to the country," it is G. G. Bury, first vice-president, who is now representing the company. Baron Shaughnessy is not in Winnipeg, as reported.

PATROL BOAT STANLEY SANK GERMAN U-BOAT

Captain of British Steamer Says He Was So Informed.

Boston, Oct. 24.—Captain Tudor of the steamer Holoheaga, which arrived today from Louisburg, N. S., said that before he left Louisburg he was told by a shipping man that he "need not worry about the German U-boat."

"The U-53 will not bother any more British vessels," the captain said, "she has been sunk by the Canadian patrol boat Stanley." Captain Tudor says this man told him.

ROMANIAN SITUATION RECOGNIZED AS GRAVE

Von Mackensen Gaining Ground, Largely by Weight of Numbers.

FOE'S STROKES SWIFT

British and French Newspapers Do Not Under-Estimate Success.

London, Oct. 24.—The "suddenness" of Von Mackensen is commented upon in connection with his capture of Constantza from the Russo-Romanians. "After breaking the left wing of the Russo-Romanian defence in Dobruja," says The Chronicle, "Von Mackensen pushed instantly forward fifteen miles, and, with that remarkable rapidity in improving a victory which is one of his chief military virtues, threw his army within 24 hours across the railway. Constantza was thus cut off and had to be abandoned. Further possibilities are embarrassing. The Russo-Romanian forces cannot retreat northward for they must keep in contact with Chernavoda bridge, their sole line of communication, across the Danube. They must hold the bridge-head, and the enemy, therefore, probably will be able to sweep northward past their left to the mouth of the Danube and hem them into a small semi-circle in front of Chernavoda. Such a bridgehead is very difficult and costly to defend under modern artillery fire. Possibly the allies will not try to hold it, but to retreat across the bridge would be fraught with the utmost difficulties and danger.

Romanians Outnumbered. On the other Romanian front, the fighting proceeds stubbornly, but the names of the places, where the communications shift pretty steadily in the wrong direction. One cannot escape the impression that on all the Romanian frontiers the Russian reinforcements are greatly outnumbered. The Russian reinforcements cannot have been so large as were popularly supposed. Some surprise also is felt that General Serrail's army has not effected a good deal more."

DAMPER ON ENTHUSIASM

Paris, Oct. 24.—The capture of Constantza, the "Teutonic ally" although not unexpected, nevertheless puts a damper on the enthusiasm aroused by the continued progress of the allied forces on the front in Picardy. French commentators do not unduly exaggerate the importance of the achievement of Field Marshal von Mackensen, whose action up to the present time is regarded here as a defensive one in shortening his front so as to hold it better with fewer men. They point out that the only way he could do this is to advance, since, if he fell back, his front would, on the contrary, be lengthened so far as to succeed. These observers say also that if he manages to tie up the Russo-Romanian front in Dobruja by holding a narrow front slightly south of the railroad, he will not be slow to employ his troops thus released to act in direct relation with the Austro-German army operating in Transylvania, which, they assert, is the essential front from which alone Bucharest can be attacked with any chance of decisive success.

Long before that it is believed here, Roumanian with the help of the allies, will be in a position to turn the tables upon its enemies. French critics assert this belief seemingly is justified by the gallant defence the Roumanians are maintaining in the passes of the Carpathians.

Two Cases of Eczema And How They Were Cured

Further Proof That Dr. Chase's Ointment is a Positive Cure for Chronic Eczema.

If you read these letters you will find that Dr. Chase's Ointment is not to be classed among ordinary salves and ointments. By actually curing itching, stinging eczema in many thousands of cases it has stood the most severe test to which any ointment can be put. Mr. J. Erice, Temperance road, Ferry Sound, Ont., writes: "Just a line to praise Dr. Chase's Ointment for what it has done for my wife. She has been suffering with eczema in her head for two years, and has spent no end of money with doctors and for ointments, which did her no good. She had about given up hope of ever being cured, when someone told her to try Dr. Chase's Ointment. By the use of this Ointment the trouble has left her entirely, so we have abundant proof that the Ointment is a positive cure for the Ointment." Mrs. W. G. Dowden, Greenspond, Bonaville Bay, Nfld., writes: "I suffered with eczema on my hands, and for eighteen months was so bad that I could not use a needle or sow or do anything. I could scarcely dress myself. Though I had lots of salves from doctors, I could never get any benefit from them. Then I sent for a sample of Dr. Chase's Ointment, and found it very different in action. It was not long before my hands began to heal, and four boxes made them well. I cannot praise Dr. Chase's Ointment too highly, and frequently give some to those who are using it, for I know that it will cure."

In the home Dr. Chase's Ointment is of almost daily usefulness, for by relieving itching and irritation of the skin it prevents eczema and similar itching skin diseases. Applied to all sores and wounds, it prevents blood poisoning, and is a positive cure for all skin diseases. MEN AND WOMEN PAID ALIKE BY HENRY FORD

Inspiring Talk With Woodrow Wilson Swayed Him, He Says.

Long Branch, N.J., Oct. 24.—Henry Ford of Detroit tonight announced that he has established the women workers in his automobile plants on the same basis as the men, which is understood to mean that his women employees will receive a minimum wage of \$5 per day. Mr. Ford's statement in part reads: "I took this step because of an inspiring talk I had with President Wilson on the forward movement among womanhood. This principle of equality is now in operation, and I look forward with complete confidence to its vindication." Mr. Ford came here today, as he expressed it, "to get" on the Wilson band wagon.

CANADIAN PATROL BOAT SANK U-FIFTY-THREE?

German Craft Disposed of Off Sydney, N.S., Says Report.

Boston, Mass., Oct. 24.—An unconfirmed report that the German submarine U-53 was sunk off Sydney, N.S., by the Canadian patrol boat Stanley is generally credited in Nova Scotia, according to Capt. W. G. Tudor, of the British steamship Hochelaga, which arrived here today from Cape Breton. According to the report the U-53 was caught and sunk three days after her raid on shipping off Nantuxet.

Expect Federal Probe of Alleged Trade Combines

Ottawa, Oct. 24.—Action by the government in regard to the cost of living problem is looked for very shortly. An investigation of a public character in two particular lines is strongly suggested. Alleged combines in restraint of trade will be looked into, and the operation of cold storage establishments investigated. Removal of the "hurd" and duty from oleomargarine, in view of the high and daily advancing cost of butter, has been proposed to the government. The matter has not yet been considered officially.

MORE STEAMERS SUNK

Two British and One Norwegian Vessel Victims.

London, Oct. 24.—Lloyd's shipping agency announces that the British steamer Chuden of 3166 tons, the Harkness of 1185 tons and the Norwegian steamer Renafjell has been sunk. The steamer Chuden was last reported at Karachi, British India, on Sept. 22.

Ottawa, Oct. 24.—Stefansson, the Arctic explorer, has been heard from by a telegram from him from latitude 78, longitude 116 west, via Kodak, St. Paul, Dutch Harbor, Cordova and Seattle and dated May 5. He has reached the naval service department. Stefansson is on his newly discovered land. All the party reported well except himself. He says he is suffering from a badly sprained ankle. The weather, he says, had been hazy, and prevented extended observation, but Storkensen's advance party had observed a coast line of 40 miles confirmed by the water sky.

DEMAND WILL BE BIG FOR CANADIAN CATTLE

Whole World Will Look to This Country for Replenishment.

PREPARATIONS NEEDED

Closer Co-Operation Between Cattle Breeders is Held Desirable.

Ottawa, Oct. 24.—The whole world will look to this continent, particularly Canada, for replenishing its supply of cattle, which has been reduced to unprecedented proportions by the war, and means towards supplying this need were outlined by H. S. Arkell, assistant live stock commissioner for the Dominion, in evidence submitted to the dominion's royal commission today. He made several recommendations. First, was an intelligent system of handling the industry. Annual statistics were needed. In the past, though he made issues every ten years. Statistics should also show the quality and condition as well as the number of cattle. There should be definite periods during the year for marketing cattle, so that the farmers could raise cattle to suit that time. Statistics should not be biased for commercial reasons. Information and statistics should also be supplied regarding the condition in competitive cattle raising countries, such as the Argentine and the United States. Field officers ought to be appointed in Canada, and at least one technically trained man should be stationed in Great Britain to organize the export trade. He believed that there should be closer co-operation between farmers in the cattle trade, such as now existed between those selling eggs and wool. A quarter of a million dollars' worth of eggs were sold by one such co-operative organization last year. This had led to an improvement in the product. There should also be sale by grade and supervision of stockyards and markets. A commission agents should be controlled by the government.

PROTEST AGAINST LOSS OF TAXES

Midland Municipalities Concerned Over Payment of Levies Against Seymour Co.

CONSIDERATION PROMISED

Sir Adam Beck is in Favor of the Government Assuming the Liability.

Sir Adam Beck told the delegation from the Midland Municipal Association which waited on him, and later on the cabinet yesterday, to protest against the loss to their municipalities of the taxes paid by the Seymour Power Company before the government took over its plants under legislation passed during the last session.

He expressed the opinion that since the municipalities had struck their tax rate reckoning on these taxes, it would not be entirely fair for the government to take over the plants and leave the ratepayers to make good the taxes that would have been paid by these companies during the remaining ten months of the year.

There is some divergence of opinion on these matters among the municipalities themselves. Sir Adam intimated that some of the delegation appeared to wish for the government to provide these taxes for a longer period than the balance of this year, but Sir Adam pointed out that he presumed that the course taken with these municipalities would be similar to that taken in others—that is, that the power and light would be supplied to the municipalities at cost, with further saving to the municipalities thru reduction of rates when the cost was reduced to warrant it.

The delegation, which was headed by Mayor Mulholland of Port Hope, was assured of the government's careful consideration by the premier. It was stated that the loss to Port Hope would be in the neighborhood of \$60,000.

Mayor Explains Position in Appointing Fire Secretary

Mayor Church took occasion before the board of control yesterday to explain the part he took in reference to refusing to appoint J. T. Robins, a returned soldier, to the position of fire department secretary.

When Ald. McBride, he said, asked him if he had received a letter from W. D. McPherson, M.L.A., regarding the appointment of a returned soldier, he told him he had received no such letter. "I do not remember," he said, "having received a letter from the secretary, Mr. Warwick."

"I did not," he continued, "approve the appointment of Mr. Webber at the time, but there were no returned soldiers available. It was the chief who made the appointment. I should have told Ald. McBride to mind his own business instead of answering his questions."

REDUCE DOWNTOWN PROPERTY ASSESSMENT

Nine Lots on West King Street Drop From Fifty to Seventy-Five Dollars a Foot.

Most important at the court of revision sitting yesterday was the decision arrived at to materially reduce land assessments on portions of downtown property. On West King street nine lots, street numbers 164, 164, 190, 194, 196, 198, 206, 208 and 210 were all reduced by \$50 to \$75 per foot. And on Bay street James McCaffery's property was reduced by \$200 per foot and similar reductions made on property on the west side from Adelaide to Richmond streets.

The Yonge street decisions which are being awaited with interest will in all probability be along similar lines. Scholes Hotel property had its business assessment of \$28,000 canceled, as it went out of business on Sept. 15. N. F. Davidson appealed for practically all the owners on Edward street. The land is assessed at \$175 per foot, and the appellants asked for about \$75 per foot reduction. The court made minor reductions in almost every case.

Mechanical Dishwashers For the Technical School

Dishwashers—mechanical ones—formed one of the main topics of discussion at the meeting of the advisory industrial committee of the board of education last night. Fully 600 students at the technical school are in the habit of lunching in the spacious dining-room, but the trouble of washing dishes afterwards resulted in a recommendation being made by Principal McKay for the purchase of a dishwasher at \$125. The recommendation carried.

Too Much Talk in Council And Too Many Legislators

In its latest bulletin the bureau of municipal research asks "Why does it take so much talk to keep the city's business going?" The bulletin says it is the fault of the system of government, and declares there are too many legislators. It suggests cutting council down to seven or nine members, the abolition of the ward system and the establishment of an administrative board made up of the heads of the city departments.

CITY HALL NOTES

Finance Commissioner Bradshaw has issued five hundred warrants for immediate payments of overdue taxes, and more are to follow. Most of the amounts involved are very small.

MISERABLE FROM STOMACH TROUBLE

Felt Wretched Until He Started to Take "Fruit-a-tives."

594 Champlain St. Montreal. "For two years, I was a miserable sufferer from rheumatism and stomach trouble. I had frequent dizzy spells, and when I took food, felt wretched and sleepy. I suffered from rheumatism dreadfully, with pains in my back and joints, and my hands swollen."

"A friend advised 'Fruit-a-tives' and from the outset, they did me good. After the first box, I felt I was getting well and I can truthfully say that 'Fruit-a-tives' is the only medicine that helped me." LOUIS LABRIE, 50c a box, \$4 for \$20, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

ATTEMPT TO SELL CAR LED TO ARREST OF PAIR

Man and Woman Held at New York for Montreal Theft.

New York, Oct. 24.—While attempting to dispose of a valuable automobile, said to have been stolen in Montreal on Sept. 29, a fashionably dressed couple giving their names as Norman Hepworth, 30 years old, and his wife, Estelle, were arrested and held in \$2,500 bail in this city today to await the action of the Montreal authorities. An offer by Hepworth to dispose of the car for \$175, a ridiculously low figure, led to the arrest and identification of the car as belonging to a citizen of Montreal, the police say.

An examination of Hepworth's room disclosed the fact that he had been receiving mail at the Y.M.C.A. under the name of "Arthur Armstrong." The couple claim to have been married on Aug. 24 at the "Little Church Around the Corner." Mrs. Hepworth said that her maiden name was Estelle Henry, and that her home was in Westmount, Montreal.

Two Years in Penitentiary Is Given Dishonest Checker

Two years in the penitentiary was the sentence given Wilfred C. Graham, employed as a checker at the Robert Simpson Company, when he came up in the police court yesterday on a charge of theft. Graham has been in court before, once for theft and once for forgery. Reginald Bowes, a driver for the same company, also implicated in the theft, was sent down for ten days.

NORWAY REPLACING SHIPS.

Seattle, Oct. 24.—Captain Louis Hannevig, a Norwegian shipowner, who signed a contract today for construction of two 3800-ton steamships at a cost of more than \$1,000,000 each, says submarines are sinking Norwegian vessels faster than Norway can replace them. Orders for new ships are being placed at all yards which can build them.

NOT IN A HURRY TO USE THE CLUB

Mayor Church Declares City Does Not Want to Be Unfair to Toronto Electric.

NEEDS SERIOUS THOUGHT

Next Action Shall Be Discussed With Sir Adam Beck and the Hydro-Board.

The city will not be in any undue haste to use the club on the T.E.L. Company following the recent victory before the privy council. "We do not want to be unfair," declared the mayor yesterday, "although they have not always been fair to us in some of their advertisements. It is a signal victory for the city and it gives us control of our own streets. What we shall do next is a matter for serious consideration. We will take up the question with the hydro and Sir Adam Beck."

The order which the privy council held valid was issued by the city solicitor and the city engineer in 1911. It explicitly sets out that upon the expiration of the contract all poles and other appliances used by the contractor upon the city streets shall be removed and the roadbed or sidewalk restored to its previous condition. The agreement even went so far as to state that if the contractor refused to carry out the agreement the corporation might remove the poles and charge the same up as a debt against the company.

Litigation in the supreme court of Ontario arose when the city undertook to cut down poles on Playter boulevard, Playter crescent, Ellerbeck avenue and Hurondale avenue. In spite of their promise to remove the poles in three years following 1911, they had taken down only 100 out of 16,000.

If the T. E. L. Company wants to continue in business and put its wires underground it is estimated that it will cost them \$5,000,000.

DR. JAMES C. BEATTY COMMITTED FOR TRIAL

Perjury Charge Arises Out of His Testimony in Trial of Dr. L. N. Coulter.

Dr. James C. Beatty of Brunswick avenue appeared in the police court yesterday on a charge of perjury and was committed for trial. Bail in one charge of \$1000 was furnished by the doctor's mother.

The charge arose out of the sworn testimony of Dr. Beatty during the trial of Dr. L. N. Coulter, found not guilty in the general sessions of perjury. Dr. Beatty was committed for trial upon Annie Sweet's affidavit that Dr. Beatty stated, to the best of his belief and according to his records, that he had made a test of the girl's blood. Miss Sweet swore yesterday morning that she was not in Toronto on the date when the doctor was supposed to have made the test.

Counsel for Dr. Beatty asked that his client be allowed to see the girl's arm. Miss Sweet consented, but insisted that the doctor first say which arm he wished to examine, claiming that one of her arms bore a mark which resulted from a test made by Dr. Jukes Johnson. This caused a deadlock, which was made by Dr. Beatty requesting that the benefit of returned soldiers. Both applications were refused.

The Police Commissioners Discuss Closing of Jail

After a short conference between Controllers Cameron and Foster, Property Commissioner Chisholm and Inspector Dunlop of the provincial secretary's office and the police commissioners in the city hall yesterday afternoon concerning the closing of the Toronto jail, it was decided to leave the matter in the hands of Inspector Dunlop and Commissioner Chisholm. It is expected that a plan whereby the prisoners may be removed to the jail farm and the jail and the officials may still comply with the act will be formulated.

Frank Regina, a shoemaker, asked for a tag day in aid of the suffering Lithuanians, while Serge, Turley and Meredith requested one for the benefit of returned soldiers. Both applications were refused.

C. P. R. Employees Committed For Trial on Theft Charge

Yesterday morning in the police court, H. Godfrey, Wellington Bruce, R. T. Stoner and George Buschlen, former C.P.R. employees, and Edmund Quinn, an employee of the Taylor-Forbes Company, appeared on a charge of theft from the C.P.R. and were committed for trial. George Artrees and Thos. Lobb, arrested on a similar charge, were remanded for a week.

Louis G. Hastings, formerly an employee of the C.P.R. now serving a 70-day term for theft, testified against the men committed, implicating them all more or less in the theft and receipt of the goods.

Nicholas Munshure, also charged by the C.P.R. was given thirty days in jail for the theft of liquor.

Every World Reader

SHOULD grasp this opportunity to obtain a copy of the New Universities Dictionary now on distribution. The World's popular coupon plan.

These Dictionaries are not a reprint from old plates but an entire new edition, with all the latest additions to the language in the new words created by the introduction of the Flying Machine, the Submarine, and the many other new services brought into being by the great WAR.

The New Universities' Dictionary is not merely "a word Dictionary," but a combination of nearly five distinct dictionaries in one. It is a marvel of completeness, and those who are fortunate enough to obtain one before they are withdrawn will be everlastingly grateful to this newspaper for the opportunity.

The scores of letters of commendation from the many who have already secured one prompts us to urge all our readers not to let this chance pass.

Remember, that it is only "Toronto World" readers who have the privilege of obtaining the dictionary, as six consecutively dated coupons are necessary.

The coupon which appears elsewhere in the paper explains the terms.

WINNIPEG GRAIN MARKET

Winnipeg, Oct. 24.—Wheat closed 2c higher for October, 2 1/2c for November, 1 1/2c for December, 2 1/2c for May. Oats were 1/4c higher for October, 1/4c higher for December, and 1/4c better for May. Rye advanced 1/4c in October and 1/4c in December. Flux advanced 1/4c in October and 1/4c in November, and 1/4c in December.

There was a very broad and active market for grain in Winnipeg on the 24th of the month, mostly speculative. Heavy trading in the morning, which was half price taking, was followed by a sharp break, but the unexpected strength of the southern markets stopped the decline here. The cash demand was very poor. Oats, flax and rye were in good demand.

POLITICS GET BLAME

Bethlehem Steel Proves Outstanding Feature on New York Exchange.

New York, Oct. 24.—The approach of the presidential election and attention paid to political considerations...

Prices yielded 1 to 2 points from their best declines being checked on comparatively light offerings.

Quotations were at lowest levels in the last hour, but rallied substantially before the end when leather and paper shares...

Bethlehem Steel was the outstanding feature of the morning, rising 44 points to the new record of 629...

Equipment and munition issues were less prominent than usual and transactions in these groups were made at moderate concessions.

Aside from its wonted leadership as to activity, U. S. Steel pursued a comparatively normal and narrow course...

RALLY IN MONTREAL FEATURE OF MINES

Stock Closed Strong After Erratic Day—Vacuum Gas Continues to Soar.

The mining market yesterday at the Standard Stock Exchange was fairly active, but irregular in tone during the morning session...

Molymore was the real feature of the market, displaying an erratic trend throughout. The stock opened at 157 and gave the closing trading a better tone...

A feature of strength was Vacuum Gas. This issue advanced 3 1/2 points to 63 1/2, a new high record...

The weakness of Nipissing featured in the silver stocks. After opening steady at \$8.50 it eased off to \$8.15...

Adanac was steady at 3 1/2. There was a good demand for Lorrain, which held at 49, the recent high level...

Equipment and munition issues were less prominent than usual and transactions in these groups were made at moderate concessions...

Aside from its wonted leadership as to activity, U. S. Steel pursued a comparatively normal and narrow course...

WHEAT ADVANCES ON HEAVY SALES

Chicago Market Gains Four and a Half Cents During Yesterday.

CORN FOLLOWS SUIT

Big Falling Off in European Visible Supply Gives Bulls Advantage.

Chicago, Oct. 24.—Huge export sales of wheat caused prices today to advance to an extent that made any previous quotations since the beginning of the European war look cheap.

The market closed at 1 1/2 to 1 3/4 net higher with December at \$1.78 1/2 and May at \$1.78 1/2.

Other leading staples scored gains, corn 1 1/8 to 2 1/8-cents 1 1/8 to 1 3/8-c, and provisions 7 to 14.

Bulges in wheat were preceded by a weak start and by a series of nervous fluctuations before the market in the last hour of the session took the upgrade in earnest.

Early declines were largely the result of reports of unsettled wheat in Argentina pointing to a possible break-up of the drought which has brought about serious crop damage there.

Assurances were also current that the Argentine damage had been to some degree exaggerated. A big falling off in the European supply also was compared with a weak supply of wheat in Argentina.

Advantage to the bulls was later emphasized by the fact that the world supply showed for the first time in months something of a decrease.

Nevertheless, no unusual upward leap in prices took place until word came that export business of the day would aggregate as much as 2,500,000 bushels.

Highest quotations of the season quickly followed, not only for wheat but also for the entire grain list.

In connection with the immense sales of wheat to Europe the fact was pointed out that primary receipts in the U. S. and Canada were less than half as large as a year ago.

Corn received most of its strength from wheat. Country offerings of new corn were larger but it was felt that rain would delay the movement.

Oats advanced in sympathy with other grains because of big export sales. The amount of oats taken today by Europe was estimated at 1,000,000 bushels.

Speculative buying led to excited upturns in the provision market. There were intimations of large export orders being filled but the rumors were not confirmed.

Offerings proved unusually scarce.
