## HOMICIDE WAS JUSTIFIABLE DECLARES SPRACKLIN JURY SELF-DEFENCE THE VERDICT

Smith, in Whose Arms Trumble Died, Declares Victim Had No Gun, But Doctors Testify That He Told Them to the Contrary Shortly After Trumble's Death - Spracklin Again Gives His Version of the Tragedy-Other Witnesses Heard.

Windsor, Ont., Nov. 8 .- Justifiable homicide was the verdict returned by the coroner's jury conducting the inquest into the death of Beverley Trumble, who was shot by Rev. J. O. L. Spracklin, pastor-license inspector, at the Chappell House at 3.30 o'clock Saturday morning.

Crowds which packed the courtroom in the Sandwich town hall to capacity, awaited the jury's finding, and when the verdict was announced, dispersed without making any demonstration, which without making any demonstration, which every effort had been made by the heavy police guard in attendance to anticipate.

The inquest opened on Saturday and was adjourned until tonight, owing to the absence of E. Smith, one of the material witnesses in the case, who was present at the shooting and in whose arms Trumble died. Five witnesses were heard. They were Mrs. Ernest Deslippe, E. Smith,

and Harold Larke, all of whom were at the Chappell House on the night of the shooting, and Doctors Beasley and Mills, who were called to attend to the dead man's injury.

Smith was pressed upon this point ed that she had been in the hotel by Mr. Spracklin's attorney, R. L. when Trumble was shot. She testi-

Mr. Crerar paid no attention to the needs of any industry. The Council of Agriculture said they would give an industry the exact protection it required and no more. Of Mr. Crerar the premier said he believed him a man of honor and of sincere opinions.

Halifax-Told Agriculturists Fear New U.S. Policy.

Halifax, Nov. 8.—Nova Scotia farmers represented by D. L. Taggart, president of the United Farmers of the province, expressed themselves before the federal taffif commission here this afternoon as being in favor of a substantial reduction in tariff on articles necessary to agriculture. Manufacturers' Views.

Manufacturers of the province, on the other hand, urged on the commission the necessity of the retention of the present tariff system with possible revision in some respects downward and upward. Halifax and Nova Scotte generally embraced the oppor-

sible revision in some respects downward and upward. Halifax and Nova Scotia generally embraced the opportunity of expressing themselves on federal fiscal policy by presenting a variety of briefs for the perusal of Sir Henry Drayton, minister of finance, and Hon, G'deon Robertson, minister of labor. The two commissioners sat at the province building from ten o'clock in the morning until half-past three in the affernoon, with a brief luncheon recess.

Farmers Blame Tariff.

Mr. Taggart attributed the "languishing" of the agricultural industry and the depopulation of farms in part indirectly to a protective tariff which favored certain industries, enabling them to offer better wages and shorter hours than did the farm.

In conclusion, Mr. Taggart expressed some fear as to the possible policy of the Republican party just returned to nower in the United States. "The farmers of Nova Scotia think that the tariff agreement between the United States and Canada should be such that they could depend upon a continuation of the present trade conditions in the United States in respect to natural food products. We fear, however, that if Canada persists in keeping up the bars between the two countries in respect to tariff matters there is every danger of the new United States administration re-enacting the old Mc-Kinley legislation," he said.

## "My! How I did used to dread having the Threshers come-but I don't mind now."

HY, a year ago I could no more think of cooking a big dinner than I could fly.

"I did not seem to have any strength then, and a little extra work or excitement would use me up for a week.

The doctor said my nerves were weak and that I had nervous prostration. I certainly was nervous and irritable. I was always worrying about something.

"It all looks very foolish now. But that is just the difference between being weak and strong.

"Why doesn't every woman use Dr. Chase's Nerve Food when she gets rundown in health?

"But I suppose they do not all know about it or do not realize what it will do for them. Then perhaps some of them do not use it long enough to build up their exhausted nervous systems.

"One thing sure, the women of this community will know all about Dr. Chase's

Nerve Food, for they know how miserable I was, and I will see that they know what I used to make me well. "I certainly did get into a terribly run-

down condition, but no one would believe it to see me now since using Dr. Chase's Nerve Food. I can now take a real pleasure in life and its activities.

"And why shouldn't I? I sleep like atop, enjoy my meals and get outdoors where the fresh air and sunshine help to keep me feeling fine.

"I don't believe people appreciate good health until they have been sick for a time. I am sure that I did not. The credit for my splendid health now is undoubtedly due to the use of Dr. Chase's Nerve Food, and I want every woman to know it."

his present stocks cost, because the manufacturers from whom he buys his clothes can now buy woolens and other raw materials at prices that make it possible for him to buy at very much lower prices. Furthermore, Mr. Pascoe says that it has always been his policy to sell clothes to his patrons at prices based upon replacement values.

In further conversation, Mr. Pascoe intimated that he had received generous price concessions from the manufacturers from whom he buys most of his clothing and gave this as a further reason of his newly revised prices.

The annexed proposition is before mayor, controllers, to extend and widen Avenue road or a substitute therefor (Oriole Parkway), from St. Clair up past Upper Canada College to Eglinton avenue, with a view to a first-class therefore and street railway service as a part of the civic lines as they now are or will be when taken over by the city.

The communication to the mayor is from P. W. Ellis of the transportation commission, who for many years has been interested in real estate in the city, northeast of Upper Canada College. Mr. Ellis' letter is also endorsed by Mr. Stockdale, manager of the Trusts and Guarantee Co., acting for other property owners within the city and immediately west of the city limits, between St. Clair, and Eglinton avenue.

The World also publishes a map of the portion of the city and township lying north of St. Clair up to Eglinton avenue from Yonge street clear over to Bathurst, more than one-third of which is in the city. It is believed that several large estates, more or less interested in Mr. Ellis' and the Trust company's statements made to the city are willing to see the annexation a generous one.

n a generous one. The board has referred the letter of Mr. Ellis to city officials For-

man, Harris and Ross.

The World imagines these officials may report in favor of a system of annexation, but on a larger scale than has been suggested by the petitioners, namely, that the city should take in everything over to Bathurst street and up to Eginton avenue: in other words, complete the block of a mile and a quarter square, bounded by Yonge, St. Clair, Bathurst and Eglinton, about a thousand acres, about two-fifths of which is now in the city, leaving three-fifths to be annexed.

The civic officials may take the view that if a high-class street railway is to be put thru the big block, practically on the line of Avenue road extendiated, or on Oriole road, which is also an extension more or less of Avenue road, that the property immediately west and north now lying in the township, should be brought in and made to pay its full share of the cost of the Avenue road line up to Eglinton. For instance, the Baldwin estate of 130 acres, which lies immediately west of the city, would be enormously benefited by a city railway built alongside. And the same is more or less true of other property still in the township between the city and Bathurst street and up to Eglinton avenue.

The only physical difficulty is getting over the Belt line railway, shown

The only other question that remains is the supply of water for the proposed annexation, and this should be covered at the start by two or three main pipes. At the present time the township has an extension of the Eglinton avenue water pipe along to Bathurst street.

If the city took in this district over to Bathurst street it would also

If the city took in this district over to Bathurst street it would also have to provide police protection and allow the residents to put down sewers and water pipes as local improvements.

As for a street car service the proposal would be to take a new line of divert it at the parkway by Kilbarry road to Avenue road and then north.

Another proposal has been made that the line be taken up Duplex avenue, just west of Yonge street.

The only physical difficulty is getting over the Belt line railway, shown on the map from Yonge street up to Eglinton avenue. But this is not expensive. Two such overhead bridges as on the Belt line at the Mount Pleasant road would solve the difficulty for many years to come.

As will be seen on the map two new roads are also proposed parallel of the Belt line, one to the north and one to the south, which would go a long way toward making that country available for building purposes. Certainly the people who own property thru which these proposed roadways are laid should give the right of way for new streets.

## **TOUR THRU WEST**

Yorkton, Sask, Nov. 8.—Canadian Press).—Hon. W. L. Mackenzie King completed his tour of the west with a public meeting in the town hall here this afternoon. The tour has lasted exactly seven weeks, during which time Mr. King has addressed twenty-seven public meetings. This afternoon he made a speech which showed no signs of the long and arduous trip. He was in good voice and introduced a fighting note in his speech which was well received by his packed audience. He had the support on the platform of the attorney-general for Saskatchewan and five members of the provinges.

SUSTAIN EIGHT-CEFT FARES Briefly, some of the more important reasons for the immediate granting of these proposals are:

1. The opening of Oriole parkway is necessary to provide an area for development similar to the present of the provincial legislature, including the lady member.

Canadian National and Grand Trunk Being Welded Into One.

Ottawa, Nov. 8. — (Special)—Notwithstanding the extension granted to the Grand Trunk by Arbitrators Cassels, Taft and White, to put in evidence as to the value of the road, the co-ordination committee, headed by General Manager Kelly, is still at work putting the Canadian National and the Grand Trunk into one system. Every day sees further changes that make for saving and efficiency. More double-ups will take place in Ontario as soon as the new Unior. Station is in commission; a lot of single staffs in connection with the two systems will be put into one office in the new building and unnecessary hands transferred or let out.

Women's Vote Heavy.
That whoever was elected in the riding of Northeast Toronto would have to thank the vote of the women, was perhaps a foregone conclusion before the election was held, but reports from a number of polling sub-stations early indicated that the anticipations were more than fulfilled, women in some sub-divisions voting at a ratio of five to one, in others at three and two to one while in the majority of cases one, while in the majority of cases, ouside of special instances, they voted either on a par with the men or largely in excess of them.

The World made a tour of the subdivisions in the Cumberland street division, the Carlton street division and the Danforth and Broadview districts. Out of a possible total of approximately 65,000 votes, there were perhaps 20,000 polled, if the cursory survey of the tour was any criterion.

The Danforth district tendered the largest average number of women's votes, and the subdivision of Danforth and Chester street, No. 95, by half-past votes, and the subdivision of Danforth and Chester street, No. 95, by half-past five had polled a total of 91 votes, of which the women gave more than 70. Another subdivision very close to the Chester street district, polled at the real estate office of Lambert, gave the women a total of 68 votes (at 5.15 p.m.) as against a total of 28 for the men. ### VERDICT OF JURY IS ONLY A RIDER

The verdict brought in by the jury at last night's inquest into the death of the late Miss Grundy, 111 Keewatin avenue, who was struck on November 1 at the intersection of College and Augusta streets by a Cadillac car driven by Joseph P. Fallon, was practically no verdict, the foreman merely expressing for the jury the opinion that "Joseph Fallon should have seen deceased before striking her."

Another subdivision very close to the Chester street district, polled at the real estate office of Lambert, gave the women a total of 68 votes (at 5.15 p.m.) as against a total of 28 for the men. On the other hand, another subdivision in the Danforth district, with Playter boulevard as its centrepiece, gave 38 votes for the women and 41 for the men up to five o'clock, Altogether in the three Danforth sub-stations visited, with a total possible of 1,040 votes, 266 votes were polled up to five o'clock.

Queen's University Professor Places the Responsibility for Bitter Hatred.

"The most vital problem before the world today," said Prof. J. L. Morrison, or Queen's University, to the Canadian Club yesterday, in his address on "Nationalism and Common, sense," "is that termed nationalism."

There were, he declared, nations which had compromised on the queswhich had compromised on the question of nationality, yet they had gained individual liberty. Nationalists had assumed that nationalism was the same as individual liberty, but it was pure assumption and extreme limitation was often found where nationalism sprung up. Sinn Feinism in Ireland had furnished an example of restricted liberties, of the enormous limitations in the rights of individuals, and the Turk had lost his individual liberty in 1914 when the offices were held by a gang of corrupt jobbers. Tyranny had been the result. The nationalist movement had made Germany, but as it grew con-stitutional institutions declined, and Hungarian liberties were built on the

"You got pitchers, an' yo' rich."

Patty laughed. "I'm afraid I'm not very rich," she said.

'Will yo' give me a pitcher?" ny, yes." She glanced at the few prints that adorned the log wall, trying to make up ner mind which she would part with, and deciding upon a mysterious moonlight-on-the-waves effect, lifted it from the wall and placed it in the sir's hands.

"When Arthur Griffith applies the Hungarian model to Ireland," said the professor, "the parallel is extremely dangerous."

Nationalists were fanatics, he continued, and fanaticism became tyranny when small groups held sway, but constitutional government, as practised in Canada and Britain, was a complex thing, and the result of compromise. In every case the typical government was the result of complicity, a compromise between various principles.

"I don't want to deny the strength of nationalism," said Prof. Morrison, "because it is so powerful that I ask you to understand its limits, but the nationalist assumes that the principle means something that he does not mean, and in his hurry destroys liberty as he makes straight for his end."

Mark of Nationality.

The French in Canada, said the speaker, had every mark of nationality; their religion, customs, etc., were unchangeable, but the problem was one of the first magnitude, and the opinions of men like Lavergne were dangerous nonsense. The old lady shook her head. "No, the cattle will have to wait. I want you broys to stay right around close till you hear from Vil Holland. Keep your best saddle horses up and at least one of you stay right here at the ranch all the time. The rest of you might ride fences, and you better take a look at those mares and coils in the big pasture.

The cowboy's eyes twinkled. "I savvy, all right. Guess I'll take the bunkhouse shift myself this afternoon. Got a couple extry guns to clean up an' oil a little."

"Whatever you do, you boys be careful," admonished the woman. "And in case anything happens, and Vil Holland isn't here, send one of the boys after him at once."

The other laughed. "Guess they ain't much danger, if anything happens he won't be a-ridin' right on the head of it."

CHAPTER XIV.

The Horse Raid. DATTY did not know how long she had slept when she awoke, tense istening, sitting bolt upright in

Thru the open window came sounds, the muffled thud of hoofs upon the soft ground. The low rattle of bit-chains and spur-rowels, and the creak of saddle leather. She realized that the sounds were passing—growing fainter—and leaping from the bed, rushed to the window and peered out. Only silence—procound, unbroken silence, and the moon-light.

dow and peered out. Only silence—proround, unbroken silence, and the moonlight.

She knew that a horse raid had been
expected, Could these raiders have the
audacity to pass thru the very dooryard
of the ranch, knowing, as they musthave known, that four armed and determined cowboys occupied the bunkhouse?

And who were these raiders? At
Thompson's she had heard Monk Bethune's name mentioned in connection with
possible horse-thieving. Bethune had
spoken of hurried trips "to the northward." She remembered that upon the
cocasion of their first meeting she had
heard him dickering with Watts for the
rent of his horse pasture, and she recollected the incident of the changed name.
Could it be possible that the suave Bethune was a horse-thief? On the other
hand. Bethune had openly hinted that
Vil Holland was a horse-thief—and yet,
these other people all believed that he

was persistently on the trail of norsethieves.

Again a slight sound brought her to a
sitting posture. This time it was the
opening of a door across the hall from
her room. The sound was followed by
the so't padding of slippered feet in the
hall, the low tapping, evidently at another door, a few low-voiced words, and
a return of the padding steps.

Without lighting the lamp, Patty
dressed hurriedly. Was the Samuelson
ranch a place of mystery? What was
the meaning of the light sounds—the soft
tramp of horses and the padding of feet?
Patty opened the door to see Mrs.
Samuelson, her face expressing the deepest agitation, and one thin hand catching together the folds of a lavender kimono.

Major Ney, who has the Croix de Guerre from both France and Belgium. is from Winnipeg, and spoke with that experience of travel and observation which made his address worth while.

Tho personal service was the note of the address, Major Ney dwelt on what had struck him as of value in the province of Quebec. Visitors had been greatly impressed by the wise combination of business training and saddle, and the sound of pounding hoofs grew far away.

In tears, Patty turned to the woman. "Oh, why couldn't he have believed me?" she cried. "He thinks I'm one of that detestable gang of thieves! But, you—surely you don't think I'm a horsethief?" In broken sentences she related the facts to the woman and finished by beggins her to go up to the Samuelson ranch. "I'll ride on to town for the doctor myself!" she exclaimed. "And surely you can do that much for your neighbor."

"Do that much fer 'em!" the woman exclaimed. "I'l reckon they ain't nothin' I wouldn't do for them. Mebbe Jack's right, an' mebbe he's wrong. I've saw him be both 'fore now. ### HAS CROSSED PASSAGE FROM WAR TO PEACE

BD,

Paris, Nov. 8 .- France has shown the same ardor in her work of reconstruction as she did in the war, and has successfully crossed the passage from war to peace, which is always difficult for victors, says premier Leygues in an interview printed today in The Petit Parisien. Discussing his foreign policy, the premier declares the government will seek to maintain and strengthen its alliances, and will examine in utmost sincerity of spirit all questions arising between France and Germany.

In a successfully crossed the passage from war to peace, which is sarch after truth—and it requests for the performance of this the common labor of all, regardless of national boundaries," says the German reply. "The war interrupted this joint labor and dissolved many personal ties. We are ready to resume these connections and by common labor to relegate to oblivion everything offensive spoken or written in both camps."

It is a combination treatment hereto-fore prescribed is due to the fact that the nose, throat, tonsils and larger bronchial tubes. The "cold" may be even more extensive and amount to a general infection of the entire body. All of the breathing apparatus, extending apparatus, exten the same ardor in her work of re-

sincerity of spirit all questions arising between France and Germany.

Belief is expressed by M. Leygues that the League of Nations must become a great force and a strong barrier against a return of imperialis and militarism. He declares the government's program is to so enforce execution of the Versailles treaty that national reconstitution and the organization of work and production may be advanced.

Thing offensive spoken or written to both camps."

# **PROCLAMATION** THURS., NOV. 11th

T. L. CHURCH, Mayor.

THOS. L. CHURCH, ESQ., MAYOR OF THE CITY OF TORONTO.

Whereas, His Majesty the King has asked that an opportunity be provided for the people of every part of the British Empire on the second anniversary of the armistice, which stayed the world-wide carnage of the four preceding years and marked the victory of right, justice and freedom, to perpetuate the memory of that great deliverance and of those who laid down their lives

His Majesty, therefore, requests that there may be on Armistice Day, for the brief space of two minutes, a complete suspension of all normal activities, so that in perfect stillness the prayers and thoughts of everyone may be concentrated on reverent remembrance of the glorious dead and of the victory by God's grace, vouchsafed to the Empire and its devoted Allies.

I, therefore, in compliance with the wishes of His Majesty the King, do request that, at the hour of 11 o'clock a.m., on Thursday, the 11th instant, all business and domestic activities of every description should cease for a period of two minutes. I beg also to request that commemoration services be held

in schools and colleges of the city. A patriotic ceremony will take place in front of the main entrance of the City Hall, at noon, on which occasion all citizens are invited to be present.

It is further specially desired that flags be flown throughout the city in honor of the Day. In witness whereof I have hereunto set my hand and caused

this proclamation to be made public.

Mayor's Office, Toronto, November 8th, 1920. GOD SAVE THE KING

THURSDAY'S BOUTS.

A dark horse from Montreal is coming for the 130-pound tournament, which will be held in connection with the boxing show at the armories on armistice night. His name is Harry Sims, and he has a manager and trainer and everything. Mr. Sims is going to meet some stout opposition, and if it so happens that he takes down the "jack pot" he will have reason to believe that he has had a busy night. Among the entries are Fred Stone of Camp Borden, Patsy Mayo of St. Catherines, and Jack McCracken, Billy Martin, Ernie King and Curly Wilshire, all of Toronto. The tourney alone will provide seven bouts, four preliminaries, two semi-finals, and a final. Each bout will be of three rounds. Frank Bull's speed has not been dulled by his long lay-off, and his admirers expect him to win handlly from Harry Freeman in the ten-round main bout. As for the Fern Bull-Farmer Platt six-rounder it is a case of write your own ticket. Even their club mates are divided on the matter, and all that they will say is that it will be a battle.

## PARKES FOR C.H.A.

A Kitchener despatch says: Eraie Parkes, the speedy forward of the Kitchener O.H.A. seniors, has jumped the amateur ranks and has signed to play with Percy Quinn's C.H.A. Toronto team or the season.

Parkes has played with the Kitchener seniors for the last two seasons and was a prominent factor in the winning of the Allan cup two years ago.

Parkes will report early in December. It is reported that Jack Cain, late of De La Salie and St. Patricks, has also signed with the C.H.A., as has Moose Heffernan, Goldie Prodgers and Lehman, the coast goalie.

## WHILE OUT HUNTING

London, Ont., Nov. 8.—William G. Pow of Tillsonburg, well-known Ontario trapshooter, was rushed here tonight for treatment, having been shot in the eye while out partridge hunting. His friend, Sam Vance, not knowing he was on the other side of a brush pile, fired and part of the charge of buckshot struck Pow. He will recover.

MEN'S UPSTAIRS CLOTHES SHOP

Announce an Important Revision of Prices on their entire stocks of Men's Hand-Tailored Clothing

WE hereby advise the patrons of our Upstairs Clothes Shop and the men of Toronto that the manufacturers from whom we buy our clothes have notified us that their wholesale prices have been reduced for spring. That is to say, we can replace our present stocks, consisting of the finest hand-tailored clothes produced in Canada, for less money than we paid for them.

In view of this condition our manufacturers have given us certain rebates and concessions on our present stocks.

As a consequence of this notice and concession from the source of supply we have decided to sell all our present stocks at new, lower prices and thus give our customers the benefit of a falling market NOW.

The patrons of Pascoe's Upstairs Clothes Shop know that for six years our prices have been consistently lower than the same clothes could be bought for in ground floor stores. They know that our policy has always been to buy at the lowest prices and sell to the public at prices free from high rents and selling expenses.

Now with this new revision of prices based upon next spring replacement values, the men of Toronto will get a still further saving by coming to the 2nd Floor, Kent Building.

We wish to say that this condition in the high-grade clothing market has arisen suddenly and is the sole reason for the change in our prices. The public of Toronto know that Pascoe's Upstairs Clothes Shop never holds "sales," and, therefore, there must be a solid fundamental reason for making this announcement.

Pascoe's new revised prices are now in effect, and the men of this city are invited to make comparisons before buying their winter clothing.

N. B.—We wish it clearly understood that this is not a "sale" announcement but a revision of prices brought about for two

(1)—Because we have been granted rebates and concessions from the manufacturers.

(2)—Because we can replace our present stocks for less than we paid for

We also wish it understood that the new prices to be found in Our Upstairs Clothes Shop will be permanent.

Claude Pascoe

the close of yesterday's trading there must have been quite a few cattle left unsold in the pens.

The western cattle, as a rule, were in the trip condition than the Ontario cattle, and, while a bit roughish, apart from the banging around they get on the trip down, were in fair shape.

Shreep and Lambs.

There was a tremendous run of sheep and lambs—over 7000 head—with the market holding around 12% to 12% c a lb. for the nice light lambs around 75 lbs., while the poorer class of lambs sold at around 11% c. The market was very slow on the start, but picked up a bit later on. Sheep

During the early part of the morning the market was erratic, and, after opening slightly lower on heavy hedging sales and liquidation, quieted down considerably, and some come-back was shown. Renewed buying from American milling interests held back the decline for a time. The local market was at one time two cents out of lime with Chicago. Later in the day this difference was wiped out, and prices receded into line, and continued the downward course in sympathy with United States market. Barly in the session there was a fair cash demand for wheat. There was no new business reported, the buying being only to fill old contracts. Coarse grains snowed a firm undertone, considering the hervous wheat market. Flax and rye hewever, again showed considerable weakness. Oats and barley were in good demand in the cash market, rye undifferent, and flax good.

Wheat closed 6%c to 7½c lower; oats 1/2c to 1c lower; barley, %c to 2%c lower; flax, 7c to 6½c lower, and rye 6c to 6½c down. day. During the early part of the morn. No. 2, nominal.

**CORN AND TOBACCO** 

Washington, Nov. 8.—A record crop of corn in the United States, exceeding the previous largest crop by 75,000,000 bushels, was announced today by the department of agriculture in its preliminary estimate placing the production this year at 3,199,126,000 bushels.

Tobacco production this year also established a record with a total output of 1,476,440,000 pounds, or 87,000,000 pounds more than last year's record crop.

Corn lost 17,000,000 bushels during the month; tobacco was 2,000,000 pounds less than forecast a month ago, and there was a loss of 1,000,000 bushels in the buckwheat crop.

Increases were shown for a number of crops, including potatoes, 7,000,000 bushels and apples 8,000,000 bushels.

## FIRST NIGHT AT THEATRES

"Jack o'Lantern" Welcomed to Princess-"The Ruined Lady" Scores at the Royal - "Earthbound" Still Attracts at Massey Hall -Good Vaudeville and Pictures at Other Houses.

"Jack o' Lantern"—Princess.

"Jack o' Lantern," a musical extravaganza, with lots of pretty girls, gorgeously gowned, clever dancers, beautifui scenic effects, catchy music and elever principals, opened a week's engagement at the Princess Theatre last night. The piece is headed by James Doyle and Harland Dixon, both well known to Toronto theatregoers, and two of the eleverest dancers and entertainers seen here in many a day.

MEN YOU HEAR OF Seen as Their Friends Know Them

"The Ruined Lady" Pleases.

A well-pleased audience at the Royal Alexandra last night welcomed to Toronto Grace George in her clever comedy. "The Ruined Lady." The plot of the play hinges upon the rather hackneyed theme of the laggard in love after a long engagement. In the hope of bringing the amiable but belated swain to the point Ann Mortimer plans with a friend to have herself talked about in connection with "Bill" Bruce. Thru a combination of accidents the plan succeeds only too well. However, Bill, awakening from his torper finds himself really in love and ready to marry Ann, and the curtain drops to the chime of wedding bells.

Fine Bill at Loew's.

Musical turns of a high order feature the vaudeville bill, which opened yesterday at Loew's Yonge Street Theatre. 'Fads and Frolics," the turn which enjoys headline honors, presented a company of clever singers and dancers and a beauty chorus of more than average concliness. The melodies introduced were, further, new to Toronto audiences. La Hoen and Duprece interspersed songs and dances with a thrilling exhibition of rifle markmanship. Keating and Ross specialized in 'pep' in their musical trayesty on anchestral and modern courtship. Maxon and Morris, presenting marionette specializes, were enthusiastically received in their impersonations. E. J. Moore and company disguised the difficulty of their illusions by a mask of excellent comedy. Harry Tsude, a "smiling thriller," concluded the vaudeville section of the bill with a turn fully maintaining its high standard. "Held in Trust," the feature film, starring May Allison, relates the romance of a working girl suddenly transferred from a dreary hall bedrom and taudry environment to a luxurious home. The film version of the story is particularly faithful and retains all the dramatic incident which made it so absorbing when first published in serial form in the Red Book magazine. A Sunshine comedy, a Mutt and Jeff film and a news weekly proved equally entertaining.

Good Bill at Pantages.

Klein Brothers, with their songs, steps and catchy chatter, kept their audience in rippics of laughter during their turn at the Pantages Theatre yesterday afternoon, the "Galeties of 1919" presing as acceptable to a Toronto audience as it did at the New York Winter Garden. A var ed line of vaudeville, which embraced singing, dancing and playing on a number of different musical instruments, was the offering of the tem members of "Broadway Echoes," which had a spectacular setting. The personification of George Primrose and other minstrel dancers was an attractive specialty. The Temple Comedy Quartet, the Gaudsmidts Leroy and Hart and Jupiter and Mars, had all part in a vaudeville that was seemingly very much enjoyed. The chief film showed Anita Stewart in her latest production, "Harriet and the Fiper," a story of free love, which in the opening scenes leaves little to the imagination. Delightful scenery from the country of the Moselle completes the bill.

Earthbound," which was reviewed in The World on its premier showing at Massey Hall, is continuing this week and attracting large crowds. The story, by Easil King, and produced by Goidwyn, is worked out in exceptional photography, and acting of a very fine class. It is the tale of two men who enter into manhood's estate with the creed of no God, no sin and no future, and with this belief one alienates the love of a wife from her husband, and is killed by the man he has wronged. The unusual part of the story is that which, against all Christian canons, shows the dead man converted to better things after his death. Altho it is claimed that the screen drama is not neant to have any particular propaganda, the tendency of the author to spiritism is evident.

## CANADA AHEAD IN FIGHTING DISEASE

Woman Appeals to Mothers to See That Children Get a Better Chance.

On behalf of the city council, Mrs. Neville Rolfe, O.B.E., was welcomed to Toronto last night at Foresters' Hall by Alderman L. A. Hamilton who spoke for the mayor and members of the council, in the absence of Controller Maguire, whose name was on the program. Mrs. Rolfe, who is the gen-eral secretary of the British Council

decade the public had been cowards. Now investigation has shown that it is the upper and middle class more than the workers that are affected, and that it is not the guilty who ore and that it is not the guilty was e-e suffering, but the women and chil-dren. She appealed to the mothers to see that the children of the future get a better chance. Since the war the best brains of the country had experi-mented and worked with the result hest brains of the country had experimented and worked, with the result that a treatment for the disease that used to take a year can now be obtained in two months. The value of a healthy population was illustrated by the speaker, who placed a healthy individual of twenty at \$800 a year to the community. If only one hundred are in asylums, she stated it means are in asylums, she stated, it means \$80,000 annually. To bring about needed reforms, three things are needed, the audience was told. These are understanding of conditions, the discentanglement of the restanding of conditions.

understanding of conditions the discentanglement of the problems involved and the determination of the majority of the public that the changes will be brought about. The disease must be looked upon as cancer diphtheria or other disease. The question must be looked upon under two aspects, one that of public health, and the other the aspect of moralty.

Mrs. Rolfe said that it would be of intense interest to the council in Britain to note how the public got behind the movement in Canada. She advocated that the work should be international, there being little use in legislation in Britain and Canada if nothing was done in the various countries of Europe. Mrs. Rolfe charged the "movie" and a certain class of literature "as a suggestion to one aspect of life which is not a hopeful one."

In the City Council yesterday approved the proclamation of Mayor Church calling for a two-minute silence on Armistice Day, Nov. 11, and a 20-minute service in front of the city hall, where a temporary cenotaph will be erected. An electric sign surmounted by a crown will also be erected, bearing the words, "Their name liveth for evermore."

as follows:

"The general public is looking to the Toronto Builders' Exchange and construction industries to bring about, if possible, a reduction in the high building costs which prevail today, and in this connection we wish to point out the serious effect on the building industry brought about by the several interviews which have been given to the press, intimating to the public at large the pessibility of increases in labor rates, whereas, it is obvious to both parties to this question that such proposed increases would be ridiculous, bearing in mind the fact that all over the American continent the tendency the American continent the tendency has been towards dropping prices in both materials and cost of living.

"We would point out the serious effect on the building trade which affects both employers and employes, brought about by such propaganda setting into the public press. There is an inconceivable amount of deferred building which has been held in abeyance for several years and is still being held up by just such agitation. The industry must be stabilized and it

## DECLARE BELIEF IN SPRACKLIN STRONG

Toronto Methodist Ministerial Association for Strict Law Enforcement.

At a meeting of the Toronto Methodist Ministerial Association yesterday, the members generally expressed their belief in the honor and integrity of Rev. J. O. L. Spracklin. A committee was formed to go thoroly into temperance matters.

Rev. Dr. T. A. Moore, secretary of the general conference, stated that there were only two ways in which Mr. Spracklin might leave the pulpit. If charges were brought against him, and he were proven to be guilty he could then be asked to resign.
