STAGING GAVE WAY TO THE BREAKING POINT

Another Serious Accident Today on E. F. Greany's House --- In Two Days Three Carpenters Have Fallen From Same House and Been Badly Hurt.

Another serious accident occurred this morning at the house owned by E. F. Greany, on King street east, where yesterday's accident happened. Yesterday George F. McNutt was seriously injured and had to be conveyed to the police hospital, where he now lies in a critical condition.

AMBURG WAS DISCHARGED

Man Who Assaulted Constable Heffer Out on Suspended Sentence.

This morning in the police court Joseph Amburg, who has served 29 days in jail on executions, and who assaulted Constable Heffer, was brought into court and was allowed to go on suspended sentence.

The judge in reviewing the case said that Heffer had Amburg under arrest on Princess street when Amburg assaulted him and escaped to Britannia street where he was hiding in Leonard's warehouse. He told the prisoner that he was liable to \$50 under the police act and a fine of \$100 under the Dominion Act.

The French sailor who refused duty on the Norwegian bark the other day did not wish to go back but as he had signed for three years he was sent back to jail until Tuesday by which time the bark will sail. "I would like to live in this country," said the sailor.

George Husley for drunkenness was fined \$8. David Ward, an American Express driver, was charged by James Ross with assault. Ross works in Golding's stable and Ward keeps his horse there. Ward got mad and struck him on the head. The defendant admitted the assault but the judge said that if Ward were fined \$20 a lot of ill-feeling would be occasioned. He therefore advised them to shake hands and be friends. This they agreed to do and left the court together.

FREDERICTON HAS LOST A PROMINENT CITIZEN

FREDERICTON, N. B., June 15.—(Special.)—Frederick lost a prominent business man and a most estimable citizen last night in the person of George T. Whippley, who passed away at eleven o'clock, after a lingering illness from cancer. He had been confined to his residence for three months. The deceased was a native of Greenwich, Kings county, but had been a resident of this city for forty-five years. He started life as a lumber surveyor and was employed at saw mills in Greenwich, Nashwaak and Fredericton. Forty years ago he opened a grocery store here and continued the business with much success up to the time of his death. He was a man of kindly disposition and was thoroughly honest and upright in all his dealings. He was a prominent member of the Church of England and was an occasional delegate to the synod. In politics he was a staunch Liberal. The deceased was in the seventy-sixth year of his age and leaves one son, Charles W., and one daughter, Miss May Whippley, both of this city. Miss Whippley has been in delicate health for some time, and it is feared she cannot recover. One sister, Mrs. A. Richards, lives at Long Reach, and there are three brothers, Harvey, of Long Reach, Edward of Dartmouth, N. S., and J. L. O. Whippley of Boston. Mrs. Whippley died fifteen years ago. The funeral takes place Sunday afternoon at two thirty.

Bishop Kingston did not pass a very comfortable night and he is not so well. His attending physician allows nobody to see him. Two corporals, belonging to the Royal Regiment, are under arrest on suspicion of having sold articles of military property to Davenport, the Charlton county man now in jail here.

RUSSIAN SITUATION NOW STRAINED ALMOST TO THE BREAKING POINT

ST. PETERSBURG, June 15.—The press is unanimous in its profound pessimism over yesterday's events in the lower house of parliament. The situation is strained to the breaking point. The attempt of the military procurator, General Pavloff, in behalf of War Minister Rudiger to shift the responsibility for the military executions to the minister of the interior is a palpable evasion of the issues raised by the house and has echoed throughout the country, with the result that a storm of indignation has been aroused and is being augmented by the cool attempt of the government to invade the inviolability of the members of parliament and the personal freedom of M. Ulanoff. Whether the government dares legally to follow up the refusal of the house to expel M. Ulanoff and its flouting of Procurator Pavloff is now the question. Unless the government is definitely resolved to give battle, the Government ministry must fall into the chasm between it and the parliament, which is unbridgeable. M. Aladdin, leader of the peasant-workman group, openly boasted from the rostrum yesterday that the death of the ministers would be the country's rejoinder to the government's refusal to abolish the death penalty. Some of the papers believe that the government's events, definitely foreboding the government's intention to dissolve parliament and they emphasize the military conspiracy of the officers of the guard which is progressing unchecked before everybody's eyes at the capital. It is significant that the "Voice of the People," a thick and thin supporter of the government, is silent today. The Hech and the Strass, which of the papers hitherto kept their heads in a state of stress, comment today on the rapidly waning chances of an understanding being arrived at between the emperor and parliament. They consider that the only hope now lies in his majesty's despatching his civil advisers immediately and trying the experiment of surrounding himself with representatives of the people. The agitation among the workmen here is increasing and several strikes are already in operation. At a meeting of five thousand social democratic workmen last night, it was declared that parliament had engaged in futile talk for a month and had done nothing and the workmen must have recourse to a general strike. Representatives of the tanners announced that the bakers would be closed in a few days and that the city would be without bread. The hospitals are filled with wounded, but it is being proposed to ascertain the correct number of the casualties, as many of the injured are hidden in private houses. All the streets except the four principal streets were socked. Military and police patrols now guard the streets and no civilians are allowed to leave their houses. A sort of armed force has been established pending the complete restoration of order.

OIL STEAMER BURNED AT SEA

Her Whole Crew Probably Perished in Explosion Which Caused Fire.

SEATTLE, Wn., June 15.—The gasoline schooner Argus is burning 35 miles off Destruction Island and according to Captain G. E. Bridgett of the steamer Annapolis, a Pacific Oil Company's line steamer, it is unlikely the crew will ever be heard from. Captain Bridgett thinks the crew was all wrapped up in an explosion which caused the fire. He says he went alongside the Argus and at that time the vessel's hull and bow were burned away. The Argus was bound from Puget Sound to San Francisco with a cargo of lumber. She was built in 1902 and had a register of 165 tons. She was owned by the Pacific Ship Company of San Francisco. Another point mentioned by Captain Bridgett, which seems to indicate that the crew perished in an explosion is that the lashings on the boat were not touched.

THE STRIKE IN THE MILLS

Murray & Gregory Divert 3,000,000 Feet of Logs to Fredericton Mill.

From the appearance of things now there seems little likelihood of an early settlement between the mill owners and employees. Both sides are holding firm. One of the mill owners said this morning that the strike could not have come a better time for them, they had cleared up about all of the drift logs and the others had hardly started to arrive yet.

James Fitzgerald, of Winter street, was arrested last night by Acting Sergeant Smith and Officer Covay for assaulting Mary Guy, aged 16 years, in her home on Winter street, and this morning in the police court Judge Ritchie said that the language used by the prisoner defined the nature of the assault, and he fined Fitzgerald \$100, including costs or three months in jail, and when the fine is paid his honor will sentence Fitzgerald to six months more in jail.

SENATOR JAMES K. JONES

WASHINGTON, D. C., June 9.—Former Senator James K. Jones, of Arkansas, two times chairman of the Democratic National Committee and one of the closest friends of William Jennings Bryan, called on the president today. Afterward he declared for Bryan's nomination by the democracy for the presidency.

"I believe Bryan is the logical candidate of the democratic party, and my judgment is that he will be elected, and will make the race under the democratic standard for the third time. If he makes the race I think he will be elected to participate, and in his letter to me Mr. Bryan was recommended. As the Wall Street-Ryan-Parker-Nicoll people cannot be considered old friends of Mr. Bryan upon his return from Europe, which will probably be in September, I ask your newspaper to be so kind as to set the matter right before the public."

The much talked about game of baseball took place last evening at Milford between the Milford Stars and the Milford Creams, the Creams winning by a score of 6 to 3. No score was made until the fourth inning when the Creams piled up four. The Stars did not score until the last inning when they scored three.

MAGISTRATE WILL ACT IN INTERESTING BOAT CASE

An interesting boat case came up in the police court this morning and it may be that the judge has not heard the last of it.

It appeared from the evidence this morning that H. Sheridan was at Riverside last September and had a light boat, about 12 feet in length, moored near the shore. One morning it was reported to him that the line had been cut and the boat taken. He investigated the matter and found the boat in the possession of Shubal Carvell, of Marble Cove. Mr. Carvell claimed that he had found the boat adrift at Akery's Point and wanted Mr. Sheridan to pay him \$5 for his trouble. Mr. Sheridan said that he had paid only \$13 for the boat in the first place and after obtaining advice he refused to pay more than \$20. He then left the matter in the hands of a Mr. Hamilton, who he thought had recovered the craft.

This spring he learned that he had not and immediately went to Mr. Carvell and offered him \$5. The latter refused to accept the proposition.

Judge Ritchie pointed out to the defendant that he had better take the \$5, as the boat was the property of Sheridan, and he had no right to paint and repair it. As he was obstinate, the judge told Sheridan to put the matter in the hands of Detective Killen and tell him to bring Carvell and his boat to court if Carvell did not bring back the craft to \$4 lawful owner, and then his honor said that Sheridan would get the boat and Carvell would be out more than his \$5. Carvell left the court saying that he would accept the proposition.

There are too many young girls about town that are being assaulted daily by men," said his honor. "You have got to take the consequences of what you have done," said the judge to Fitzgerald. His honor then imposed sentence and ordered Fitzgerald to be taken into jail immediately as the prisoner seemed determined to talk.

The court before imposing sentence before a young lady in a cinder shoe. The judge then said that he would make an example of Fitzgerald.

XXIV. THE FLORENTINES

M. Etienne, forgetting his manners, snatched the papers from his father's hand, turning them about and about, not able to believe his senses. A man hurled over a cliff, plunging in one moment from flowery lawns into a turbulent sea, might feel as he did. "But the seal!" he stammered. "The seal was genuine," Monsieur answered, startled as he. "How your fellow could have the king's signet--"

INTERESTING COMMENTS ON THE NEW YORK STOCK MARKET

Waldaw & Co. It is said in some quarters that some very important announcements are expected from day to day, any one of which would naturally infuse a little additional life into the market. Whatever it may be, it is certainly essential that something of this kind be speedily to give us any kind of a market.

J. S. Roche: The market is still of a very professional character and outside interest is very slow to respond to the movements in different stocks.

E. & C. Randolph: Wall street continues to keep its eye on the crop situation, but there have been further developments in that line today to affect prices one way or the other.

J. B. Picken: Public interest in the market is still of an apathetic character, dealers on the whole being for the most part of a professional nature.

Norris P. Bryant: The situation continues to suggest trading fluctuations with a purchase on weak spots.

A New York letter says: Apparently the pools have confidence in their ability to attract a large portion of the \$50,000,000 July disbursements, and they would not continue their usual cautious task of spending commissions

Ogilvie's Royal Household

More Bread in a Barrel.
That extra cost per barrel which your grocer asks you for

doesn't go into anybody's pocket. It comes back to you. It is the difference in money between flour you are sure of and flour you are not. It covers the cost of inspecting the entire wheat crop of the country, and selecting the choicest grain. It pays for advanced milling methods, for cleanliness, for purity and for scientific flour-making. It comes back to you in the shape of light, wholesome, nourishing bread and pastry. A barrel of Ogilvie's Royal Household Flour goes farther than a barrel of any other flour. It makes more bread and better bread. You are not really spending that extra amount—you are investing it. Do not let it stand between your family and good baking. Go to your grocer and say "Royal Household."

A RADICAL SUGGESTION

A professor in the Teachers' College of New York makes a radical suggestion with regard to the problem of properly caring for the city children, in the close packed tenement districts. He would have a nine-hour school day, giving one third of it to study, one to manual training and one to play or other exercise.

The city council of Toronto, recognizing the importance of providing the means for a more practical education for many of the pupils of the schools that has hitherto been afforded, has voted \$250,000 for the erection of a new technical school. It has been decided to erect a plain but substantial building, with over thirty class rooms, which will accommodate from 1000 to 1200 students. In addition to the civic grant, some \$30,000 will be required for equipment, but there will be a government grant of \$5,000 per year.

The Ottawa city council has appointed a meat inspector, whose duty it shall be to visit meat stables and butcher shops as well as the market, and the Citizen remarks: "Now that there is a meat inspector it is to be hoped he will go the whole way in the matter of inspection. If he should prove the right sort of man and is giving the proper backing by the committee the citizens will have reason to be thankful that the appointment was made."

THE INSURANCE INVESTIGATION

Affairs of the Life Managers Association Discussed at Yesterday's Session.

TORONTO, June 15.—The missing witness who was required for the investigation of the Home Life Insurance Co. was still missing from the insurance investigation yesterday morning. His solicitor stated that his client, A. J. Pattison, had not received any official intimation that his presence was required, but would be here when wanted if notified. The commission thereupon decided to take up the Life Managers' Association. The facts in connection with the investigation of the Home Life Insurance Co. are as follows: The association was formed in 1894, the founders being A. G. Ramsay, Canada Life; Wm. McCabe, North American Life; J. C. MacDonnell, Confederation Life; D. J. P. Ellis, Manufacturers Life; and Wm. Hendrie, Mutual Life of Canada. The association desired to do for insurance legislation what the Bankers' Association does for legislation which affects banking interests.

WILL DO GOOD

The situation in the United States, relative to recent exposures in high places, is by no means discouraging. The net result will be a cleaning-up process of great benefit to the nation. As a contemporary puts the case:—

"The people of the United States have gone through a wallow of details of corporate corruption. The insurance scandals, the packing house scandals, the Pennsylvania Railroad scandals, would not have been brought to the light without the light of investigation. The big thieves and the little thieves may have had their day, but the people of the United States are getting after them. Eventually they will get them. Evil is being brought to the light and effective prosecution follows. The situation is not one which should be viewed in a spirit of pessimism. Rather it presents a suggestion of encouragement, since this unavailing searchlight turned upon the operations of the malfactors means that in the end the malfactors will be run to earth and their evil doing stopped."

BOOTBLACK AND HERO

An Italian bootblack the other day risked his life to save a man who had leaped from the Battery wall, New York, with the intention of committing suicide. The attempt at rescue was successful, and the Italian calmly resumed his humble occupation. This leads the New York Globe to moralize in the following very appropriate manner:—

"The profession of bootblackening is a lowly, unimpressive occupation. It makes the slightest of demands on intellect, character, and courage. It is dirty and

MOVILLE AS PORT OF CALL

MONTREAL, June 14.—(Special)—A special London cable says "Lord Strathcona today received a large deputation of Irish Nationalist members of parliament and representatives of Irish local authorities, regarding the abandonment of Merville as a port of call for the Canadian Mail steamers. Lord Strathcona explained to the deputation the reasons for the suggested change, but said that the matter was still under consideration by the postal authorities."

CROP REPORT IS SATISFACTORY (New York Globe) The Agricultural Department's June report indicates that the crop season so far has been generally satisfactory.

It was known that a prolonged drought in the southwestern states last month had done considerable injury to winter wheat, and the official figures bear this expectation out with a decline of 8 points in the average condition since the first of May. But even with this shrinkage the condition of 93 is slightly below both last year and the ten-year average, but this is more than compensated by the unusually large area under cultivation. Taking the government's percentages for the two sections of the crop together the total wheat yield promises 713,000,000 bushels, which would be 10 per cent above the record production of 1905, the largest ever indicated at this time of the year.

These figures for wheat following the excellent showing made in the government's cotton report a week ago, certainly justify nothing but cheerfulness over the agricultural outlook. It is particularly fortunate that this is so for our industry is under such enormous high pressure—low prices, wages, output, everything very much extended—that the slightest check to prosperity on the farms would react seriously upon the entire business movement.

S. S. CONFERENCE

The closing session of the Sunday school conference in Trinity church was held yesterday afternoon. The address on "Institutions, Impetuses, Ends," was not delivered at any great length by Rev. Canon Harrower, and the most of the session was taken in replying to discussions of the following subjects: "How to Secure Good Teachers," "The Fast, Roll and Primary Department," "The Child at Worship," "The Spiritual Care of the Young Communicants," "The Family Home and Public Worship," and "Music and Art in the School."

Canon Harrower remarked that in 90 per cent of homes family worship has become obsolete. Music and art in the Sunday school opened up a large question. The school could not afford to have anything unworthy in the way of either music or words. No one had the right to incorporate into the music that which could not definitely uplift the child.

Canon Harrower believed pictures and decorations in the school room to be a valuable adjunct to Sunday school work. He emphasized how the child's early impressions are the most lasting, and spoke of Sunday school work as the creating of power and character in the hearts of boys and girls.

ZION AND PORTLAND TO BE ONE CIRCUIT
Carmarthen Street and Queen Square Churches May Also Unite --- Methodist District Meeting.

The Methodist district meeting was continued yesterday afternoon and evening. In the afternoon a communication was read from the board of the Sussex circuit, asking that the town of Sussex be set off as a separate appointment and that the outlying appointments constitute a new circuit. Rev. Dr. Sprague moved, and the motion was seconded by Rev. Charles Comben, to forward the application to the conference with the approval of this district. Carried.
Recommendations toward improving the church work in the district were next taken up. The committee in charge, Rev. Thomas Marshall, Rev. G. M. Campbell and Rev. T. J. Desautels, made the following suggestions:
First, that Zion and Portland churches be made one circuit with two men, as at present.
Second, that Kemptown street church be recommended to secure an assistant minister or a deaconess.
Third, that Carmarthen street and Queen square churches be recommended to consider the advisability of uniting their quarterly boards of the two circuits so as to constitute one circuit.
Fourth, that special provision be made for the pastoral oversight of the members of our congregations who spend the summer at the country resorts within the district.
It was decided that these suggestions be adopted.
The following committees were appointed:
Sunday school—Rev. S. Howard, E. R. Macham.
Epworth League—Rev. H. D. Marr, J. Hunter White, Secretary, \$1,000.00.

WEDDINGS
SEELY-PEELES.
A very pretty wedding took place at the residence of Theodore Stackhouse, west end, last evening when Rev. Mr. Ferguson united in marriage Emma May Peoples and William Seely. HARRISON-THOMSON.
The wedding of Miss Muriel Adair Thomson to Walter A. Harrison was solemnized last evening at the residence of the bride's parents, as published in yesterday's issue of the Times.
Prior to the time set for the wedding the vicar of St. Andrew's church and of the bride's home on Queen Square held many people, eager to see the young couple and the invited guests. The function proved of great interest and the floral decorations both at the church and home called forth many admiring comments. The exquisite toilettes of the ladies and the sombre black of the men formed a pleasing contrast.
The Thomson steamers in port—the south shore steamer Sealac and the Battle liner, Estria—were given a decorated in honour of the bride and the by their office of the groom in the 2nd Regiment R. C. A. had arranged for a sit-

Oak Hall Branch Clothing Store
695 Main Street, North End.
JUNE 15th, 1906.
Our \$12 Suits for Men Would Cost You \$15 Elsewhere.
We'd like you to compare any of our \$12.00 Suits with the best you can find on sale elsewhere at \$15.00. Make the comparison as thorough as you please. Note the quality of the cloth and linings, the character of the workmanship, the style, the fit and the general appearance of the garments—and if you don't say that our Suits at \$12.00 are as good as any you can find at the other stores at \$15.00, or even more, we'll be very much surprised. No other store can afford to sell suits as good as ours for the same money. The difference in price is the difference between buying direct from the manufacturer (as you do when you buy from us) or of buying from the retailer who must add his profit to the manufacturer's price. And it's the same with our \$5.00 Suits and with our \$25.00 Suits, and suits at every other price—they're all 25 per cent. to 30 per cent. below what other stores must charge.

BROKERS AND CUSTOMERS
Why Advice on the Market Fails These Days—A Recent Episode.
(New York Evening Post).
The fact that one brokerage firm that sent out 200 circulars last week telling customers that the market had "turned," and that stocks were a purchase, received but a single reply, and that, a retical, direct attention to Wall Street's various methods of drumming up business. Customers, particularly investors, have become wary of advice of late, assuming that the motive of the giver was to increase his own profits, regardless of the benefits to the recipient. The public has been deceived so often that it has become suspicious of anything that looks like a "tip."
In the second week of April, Wall Street's pools were preparing for a bull market during the next thirty days. Leading operators gave out optimistic later views on the business outlook, and stock brokers flooded the country with circulars advising people to buy.
Prices began to rise on April 14, and were trending upward when the San Francisco earthquake, four days later, put an end to all this with a collapse of from ten to thirty points. The brokers and pools that had loaded up with stocks suffered in the liquidation that followed. They could not force what happened. The rule still holds, however, that most customers in conducting operations go by the sustained behavior of the market. Some traders who bought Colorado Fuel around 64 this week, only to see the price run off to 57 1/2, would have done better if they had bought when their brokers urged them to. Yet the broker must accept human nature as he finds it. When the market is "bidding" with 2,000,000 shares a day, customers will scramble to buy stocks 10 or 20 points above the level the broker recommended.

DUE CARE NOT TAKEN
Jury in McCracken Inquest Returns Verdict Reflecting on Hospital.
The jury empaneled to enquire into the death of Harry McCracken, found last night that due care was not taken leaving his room had not been taken and that there should have been a special nurse in constant attendance.
Patrick N. Higgin, the first witness told about seeing the deceased on his hands and knees on the grass on the day of the accident.
Mrs. Jane McCracken, mother of the late Harry McCracken, said that her son took ill on May 23. Dr. Christie had told her that he never advised anyone to go to the hospital.
After Peter Stewart, Mary Brown and Gustav Olsen had given brief testimony and some of the nurses had been recalled, the coroner addressed the jury. He said that he believed that Dr. Scott, superintendent of the General Public Hospital, desired an investigation, as did also the commission. Dr. Barryman said that the question hinged on whether the deceased received the proper treatment while there, also whether the superintendent had done his duty in this case, and if the nurses had carried out their instructions. "A nurse never was so well trained that she could not be better trained," said the coroner. The evidence showed that the deceased had received the best of care and if the jury came to that conclusion their verdict should be that the deceased came to his death by a rash act of his own. If they believed that there was not sufficient protection to the windows then their verdict should be in accordance with their belief. The coroner said he believed the hospital to be one of the best institutions in the community.
After the jury had been out an hour and ten minutes they returned with the following verdict:
We, the jury empaneled to inquire into the death of Harry McCracken, find that the said Harry McCracken was admitted to the Public Hospital on Monday, the 4th day of May last, suffering from a severe attack of typhoid fever, and that while in that condition he left his bed and passed through the window to the ground, a distance of forty feet, and three days later died from typhoid fever and other causes.
We also find that due care was not taken to protect the patient in leaving his room. We also think, he being in a critical condition in this period of the disease, there should have been a special nurse in constant attendance on him.

THE SATURDAY HALF-HOLIDAY To Be Observed Here.

Our friends in the city and country will please take notice that we will close our store on SATURDAYS at One O'clock, during the months of July and August. Having made this decision we intend standing by it irrespective of what others in the trade might do in the matter.

We make this announcement without any conditions or reservations whatever. In other words we intend giving our HELP THE NEEDED HALF-HOLIDAY even though all other merchants in our line should remain open.

During these two months our store will be open Friday Evenings.

The day is coming when the large city business places of every kind will close the year round from Saturday noon till Monday morning. We are interested in seeing this brought about, and to that end we make this move.

It would not be to the detriment of Storekeepers, and would be greatly to the advantage of thousands of workers.

IN THE WORLD OF SPORT

BASE BALL

In a seven-inning game on the Victoria grounds last evening the St. Peter's boys won quite handsily from the F. M. A. team by a score of 5 to 2. The game, while at times not of the best, was exciting and there were some excellent plays which called forth loud applause, especially a fine one-hand catch by Small in centre field in the fourth inning, and a double play in the fifth inning, also a double play by Driscoll and McCormick.

Small was the best batter, hitting and a three-runner to his credit. The F. M. A.'s had Mike in as catcher, and Allan McGuinness at short.

THE RIFLE

Halifax, June 14.—The twenty-first inter-provincial match took place on the Bedford range today and resulted in a win for the Nova Scotia team with a score of 385. The P. E. Island team was second with 370 points, and New Brunswick third with 360.

The weather was fine but the high wind made good shooting difficult. The conditions of the match were seven rounds at 200, 300 and 600 yards, and two sighting shots at each range.

Nova Scotia led at the 200 and 600 ranges, New Brunswick leading at the 300 yards range.

The highest individual total score was made by Lieut. Sergeant, of Nova Scotia, who had 94. Sergeant Crooks came next with 91, and he also made the possible at one range, scoring 35 at 200 yards. The team scores by range are as follows:

200	300	600	Total
Nova Scotia, 145	220	230	595
P. E. Island, 222	227	211	660
New Brunswick, 225	230	205	660

Lord Bishop of Ottawa Says High School Geography Which Teaches Evolution Would Breed Infidelity.

KINGSTON, June 13.—Bishop Mills in his charge to the Ontario Synod made particular reference to moral standards of the day and church union. Concerning the latter he said:

"When one thinks of the moral standard which now exists, how shocking it seems. Many people think little of taking advantage of their neighbors or over-reaching in a business transaction. How little value is attached to a promise of the day and church union. Concerning the latter he said:

JAPS BARRED FROM U. S. NAVY

It Has Been Found That They are Too Handy in Securing Plans.

NEW YORK, June 14.—All Japanese are to be excluded from the American navy on July 1st unless they produce citizenship papers or a signed statement declaring they will take out the same. In the future no Japanese will be allowed in the navy unless he renounces the Emperor of the Japanese service. Not only the personnel but the names of all alien Japanese from the papers of every warship in this country have been issued by Secretary of the Navy Bonaparte. He further directs that the places of the Japanese who have been employed as stewards and servants be filled with American negroes.

Officers of the navy yard in Brooklyn say it has been discovered that the Japanese Government has been able, through its subalterns on board American ships, to learn altogether too much about the breaking plans of the business section of the navy. It was discovered that the turret of one of the largest types of warships, the steward's personal effects were searched by order of the commander of the ship. It was discovered that he had been working for weeks on the plans of the ship and was a remarkably fine draughtsman. The matter was reported to Washington and was doubtless one of the things which caused the order issued against the Japanese.

WERE MARRIED SIXTY TWO YEARS

Mr. and Mrs. W. L. Prince of Moncton Congratulated by Friends on Happy Event.

MONCTON, June 14.—Robert Kindred, a former traveller for the Record Foundry & Machine Co. in this city, now manager of the company's branch office in Winnipeg, and in the city this afternoon on an interesting mission. He is to be married next week to one of Moncton's well known young ladies and former popular member of Victoria school teaching staff.

A well known citizen was summoned to appear in the police court this morning to answer to the charge of crassly beating his horse, upon information laid by S. P. O. A. The accused failed to appear the case was adjourned for a week and a warrant issued for his arrest.

Mr. and Mrs. W. L. Prince, of this city celebrated the sixtieth anniversary of their marriage yesterday. About a hundred friends called at their home in the afternoon and evening to tender congratulations on the notable event. Mr. and Mrs. Prince are among Moncton's oldest citizens and have lived in this section all their lives. Among the letters congratulating the aged couple upon the important event was one from Mr. R. J. Borden, the Conservative leader at Ottawa.

Among those who went to Sackville to attend the funeral of the late Mrs. J. W. S. Black were Mr. and Mrs. F. W. Sumner, Mr. and Mrs. G. E. Willett, Mrs. R. W. Henson, Mrs. W. L. Creighton, Judge Wells and J. H. Harris.

HE WASHED HIS FEET 2 OR 3 TIMES EVERY DAY.

Also changed his socks as frequently and still could get no comfort or relief. Foot relieved however when he could wear the pair of socks a week with comfort. It changed unnatural, unhealthy feet into healthy, vigorous, joyful feet.

Send me a box of this medicine if you don't believe it. 25 cents invested in Foot Milk will do as much for you. Sent by mail if your druggist does not keep it. We pay the postage.

1904, a new test tube in his own image, originally from some inferior form of animal life, to gradually attain by evolutionary processes to the higher form in which he appears today.

BUILDING IN NEW YORK EXCELS OLD HIGH RECORD

Reports from 50 of the leading cities in the United States received by the American Contractor, New York, tabulated and compared with those of the corresponding month last year, show two-thirds of the cities to have had an increase over the operations of 1905. In Greater New York the gain is small, only 1 per cent, but this is a remarkable showing when the enormous, record-breaking business of last year, with which the comparison is made, is taken into account.

Chicago breaks all its records, with \$6,494,229 a gain of 80 per cent over May, 1905. The per cent of gain in other leading cities is as follows: Atlanta, 34; Bridgeport, 167; Buffalo, 96; Cleveland, 17; Duluth, 110; Harrisburg, 12; Louisville, 90; Nashville, 130; Newark, 26; New Orleans, 48; Omaha, 75; Philadelphia, 11; Portland, 307; St. Louis, 14; St. Paul, 69; Seattle, 30; Syracuse, 34; Toledo, 93; Tacoma, 111; Wilkes-Barre, 27. The following figures show the losses reported in leading cities: Cincinnati, 44; Denver, 29; Indianapolis, 33; Kansas City, 17; Milwaukee, 23; Minneapolis, 25; Mobile, 67; New Haven, 34. Some of the cities showing a loss have enjoyed a building boom for some years past, and diminution of building was almost a matter of necessity.

A REASONABLE THEORY ABOUT CANCER

There is a peculiar condition of the blood that favors the growth of Cancer, and a single knife or plaster will effect a permanent cure without the aid of a constitutional treatment such as ours. Send 9 cents (stamp) and get the booklet and names those cured without knife, plaster or pain. Stott & Jury, Bonaventure, Ont.

A peculiar accident occurred on the steamer Calvin Austin yesterday when she was at her dock at Lubec, Me. The first assistant engineer, Winford Pitt, of 89 Main street, this city, had his left arm broken through the sudden recoil of a small brass cannon when the men were at drill on the gun, which is used to shoot a line ashore. On arrival of the steamer Mr. Pitt was removed to the General Public Hospital, where he was feeling fairly well last night.

The appointment of Charles Avard Emery, deputy registrar of deeds for St. John, has been approved by the government.

fits perfectly under all conditions.

Made on the only machine in Canada. Every stitch is of equal length, smooth, close, firm, elastic and durable.

INCENDIARY FIRES IN BRANTFORD ONT.

BRANTFORD, June 15.—(Special) About half-past three yesterday morning, fire broke out in the dwelling of Jos. Butt, Northumberland street. The smoke was so heavy that Mr. and Mrs. Butt could not come down stairs and had to jump out of an upper window. They were scantily clad. A cow in an adjoining stable was suffocated.

About the same time, another fire was started at St. Mary's R. C. church, Colborne street west, the door back door, destroying the small annex and the stairway to the basement. On Northumberland street, there was found on the sidewalk some pieces of waste saturated with oil, and it is evident an incendiary used the oily waste to start the fire.

"BIG MIKE" IS DEAD

Councillor Michael J. Sullivan an Ex-baseball Player Died Today—Has Played Ball in St. John.

BOSTON, June 15.—Michael J. Sullivan, a member of Governor Guile's council, and formerly a pitcher of the New York National League baseball club died at the City Hospital of cerebral hemorrhage this morning.

Councillor Sullivan was stricken with what was thought to be syncope last Monday. He gradually failed and the end came shortly after midnight.

After abandoning baseball a dozen years ago, Sullivan entered the Boston University Law School, and upon his graduation was admitted to the bar and practised his profession in this city. Mr. Sullivan was originally democratic member of the governor's council. He was about 40 years old. A widow and child survive.

"Big Mike" Sullivan will be well remembered by baseball fans in St. John. In the palmy days of the game he visited this city on several occasions with picked Boston teams.

At that time he was a member of company of the best in fact that has been seen here in melodrama for some time.

As Wray Wille, the philosophical humorist, occupied the centre of the stage for a large part of the evening. His work throughout was very good. In the lighter parts he furnished much amusement, and in the more serious situations showed considerable ability.

The title role, Miss Edna Bert charmed the audience. She made a very sweet and graceful heroine. J. T. Doyle as the heavy villain was as fierce and wicked as could be desired. The part of Jack Wharburton the fiance of the convict's daughter, was well handled by Harry Rowe, Grace Vinton as the housemaid, and Thos. Richardson as the Kentucky banker, are also deserving of mention.

The play will be repeated tonight and the health matter and evening performance tomorrow.

A GOOD SHOW

York Theatre Has a Good Melodrama in "The Convicts Daughter."

A wholesome melodrama, with natural situations a clever vein of humor and strong red blooded characters came up "The Convict's daughter" which was produced at the York Theatre last evening.

The play which has been seen here before under various titles has lost none of its popularity. It should be popular for it tells a coherent, reasonable story and one that holds considerable interest. The company presenting it is a first-class one of the best in fact that has been seen here in melodrama for some time.

CANADIAN CHOSEN BISHOP OF OREGON

But Rev. Mr. Scadding Has Not Yet Decided Whether He Will Accept.

CHICAGO, June 15.—The Rev. Charles Scadding, of Lagrange, Ill., who was elected Bishop of the Protestant Episcopal Diocese of Oregon, last night, was seen at his residence in Lagrange early today. He said: "I cannot say positively whether I will accept the position. I have been here for ten years and have become greatly attached to Chicago and to my church in Lagrange. However, the election is a great honor from my point of view."

The Rev. Mr. Scadding was born in Toronto and was graduated from Trinity College in that city. His first charge was St. George's, New York.

AN ART LOTTERY PROPOSED (Montreal Star).

Senator Ellis has a bill before the senate which proposes to legalize in Canada the distribution of pictures by means of a lottery. No one will imagine that Senator Ellis has anything but a perfectly proper purpose in his mind; and he is doubtless persuaded that by this means string-ging artists could be encouraged by people who have too little money to become out-and-out patrons of art.

But it is a question whether this would not open a door to dangerous practices. Even if the privilege be limited to the Kingdom, operations by Canadians will not be prevented. They might seek incorporation in Britain; or they might compel the extension of the privilege to native artists which we would thus bestow upon the art patrons of the Mother Country.

We have seen lotteries "for the encouragement of art" become indistinguishable from lotteries for the encouragement of gambling in this very city. Mr. Ellis proposes to prevent the redemption of a picture won by a ticket holder for cash; and, if he could do this effectively, he would have guarded against one very grave danger. But how can he be certain that this will be done? What is to prevent a prize winner from selling his picture to a third party; and then what is to prevent the third party from having a "working agreement" with the lottery manager?

It is the lottery which is the dangerous thing. Once that is established as a going business, it is not difficult for astute managers to discover some means by which its prizes can be made tempting to those who care nothing for art, but who are mightily fascinated by a cash prize. It would seem that the senator had better think of some other means by which art can be encouraged. The door against lotteries cannot be closed too tightly; and it would be with real misgivings that the friends of the classes, which are usually blessed so cruelly by these institutions, would see that door left ajar even so far as to admit the slipping through of an ambitious artist's master picture.
