Italy Agrees That She Shall Not Make A Separate Peace

Adherence Given to Allies' Compact—Cadorna Unable to Go to Conference in France—More British Steamships Sunk

Milan, Dec. 2.—Austria has notified Roumania that she considers the closing of the Danube against the passage of Austrian armed vessels below the Rumanian frontier an act of hostility. This news comes in a Bucharest despatch to the Corriere della Sera.

Paris, Dec. 2.—Italy gave her adherence on Monday to the London agreement of the other Entente Allies, not to conclude a separate peace, says a Milan despatch to the Matin.

Genoa, Dec. 2.—The Italian general staff, who were to have visited France for a conference with the French and British commanders, and for an inspection of the western front, has been postponed.

London, Dec. 2.—Two more British mines, the Coleman, 2582 tons, and Orange Prince, 2216 tons, have been lost, presumably by German submarines, in the Mediterranean.

WORTHCLIFFE DEFENDS HIMSELF

New York, Dec. 2.—A London cable to the Tribune says:—The following statement was made especially for the Tribune by Lord Northcliffe, with reference to Tuesday's debate in the House of Commons.

I don't know that has been called the United States but the broad facts of the situation are that my newspapers incurred the hostility of various members of the government, because, in my view, they were not doing their duty.

My newspapers always have taken a view that, while victory is certain, the allies, the war is a much greater task than it has been regarded to be by certain members of the British government, who have published from time to time, false predictions as to the success of the war.

Frank Vandorpe says the future promises unparalleled business prosperity, but while we are running at full tilt now, our problem is to make ourselves independent of war profits as soon as possible.

It has been remarked that in the death of Lieutenant Charles M. Lawson of the Lancashire Tennis Club adds to the fourth to its list of members who have died for their country. This is a remarkable showing for an organization with a comparatively small membership.

News of Maritime Province Men In the War

Brothers Meet at Front.

Mrs. A. C. Casey, of Amherst, received recently a very interesting letter from Frank Mills of the 12th Battalion, who has been serving in France for some months. His brother Will is with the 6th C. M. R. and lately the latter heard that Frank was doing duty in the trenches about a mile from where he was quartered.

Twenty-one years' service in the Imperial Army—16 years with the Grenadier Guards and five years with the Irish Guards—is the record of Sydney Hudson, of Juniper, Brook, Carleton county, who enlisted in Frederick with the 140th Battalion.

For Tunneling Company. Lieut. Frank P. Flett, of Chatham, who has been recruiting in this province for the tunneling company being mobilized in Upper Canada states that five experienced miners from Minto district enlisted and left for Pembroke to join this unit.

Newspaper Man Wounded. Private Howard V. Wallace, wounded at the front was a former member of the staff of the Amherst News. He left to enlist with the 28th Battalion.

Among the many Amherst women who have special reason for interest in news from the front is Mrs. Aaron Chapman, who has three grandsons fighting with the Canadian forces "Somewhere in France." The young soldiers are the Fowler boys of Sackville, sons of Mrs. Edward H. Fowler.

Of the thirty-two recruits enrolled in the vicinity of Hartland the following left on Monday: Ex-Coum, E. A. Britton, Frank L. Dickinson, H. A. Simpson, Burden Clark, Chester Carr, James Hovey, Les Candlemire, Elmer Tompkins, Guy Mean, Wendell Nixon, Arthur Clark, James Pratt.

One recruit, Herbert Powers, of Ormoco, enlisted at Frederick Tuesday with the 140th Battalion. He left next morning for Sussex with four recruits, W. A. Currie, H. A. Langille, H. Louie and Guy Hunter.

TWO BARNS BURNED

Loss of About \$1,000 at Lake George—Fredericton Has Inch of Snow

Fredericton, N. B., Dec. 2.—Two barns at Lake George, belonging to Claude Lawson, were destroyed by fire yesterday. Mr. Lawson was away at the time, but neighbors did what they could to save the adjoining buildings.

Fredericton is having its first real winter today. Last night the weather turned quite cold, and an inch of snow fell. The river is still open.

Lady friends of Miss Sadie Wyatt gave her a linen shower last night.

SOME MAY NOT BE ABLE TO GO WITH FORD

New York, Dec. 2.—A Washington despatch to the Times says that the passport problem is likely to prove a stumbling block for numerous members of the Henry Ford peace ship expedition.

Pittsburg, Pa., Dec. 2.—Faculties of the University of Pittsburg and the Carnegie Institute of Technology yesterday refused to sanction officially the proposed peace trip of Henry Ford.

FOUR OF ITS MEMBERS HAVE GIVEN LIFE IN WAR

It has been remarked that in the death of Lieutenant Charles M. Lawson of the Lancashire Tennis Club adds to the fourth to its list of members who have died for their country. This is a remarkable showing for an organization with a comparatively small membership.

COLONEL DID NOT COME FROM HALIFAX; MATTER OF WINTER QUARTERS UNSETTLED

He is Expected Tomorrow—Capt. Sprenger Has Been Appointed Adjutant of the 115th—Recruiting

Lieutenant-Colonel E. C. Dean of Halifax, who was expected to arrive in St. John today to make further arrangements for winter quarters for troops here, has not yet reached the city, but is expected tomorrow. Lt.-Col. Fowler, Senator Thomas, Capt. Tilley and representatives of the city council hoped to meet Lt. Col. Dean today to go over the whole situation in regard to winter quarters.

Definite word as to the mobilization and quartering of the 115th Battalion is still being awaited. The men thus far assigned are still on subsistence allowance. Regarding St. John's share, it is the understanding that there will be billeted about two companies, comprising 500 men, in this city, but just where is not authoritatively stated.

Confirmation of the appointment of Capt. A. H. Sprenger, 22 DeMonts street, West End, as adjutant of the 115th Battalion, was today received by Col. Wedderburn, O. C. The announcement will be heard with pleasure by friends of Capt. Sprenger, who recognize his capability to all the important duties of the position.

London, Dec. 2.—The grand total of British military and naval losses, according to a reply by Premier Asquith in the House of Commons, has reached 310,230. The casualties for October were 74,297 and those for November 46,410. The losses are distributed as follows:

GETTING NEAR TO CLASH OF AUSTRIA AND ROUMANIA

Former Objects to Denial of Armed Vessels Passing Below Roumania's Danube Frontier—Italian Troops Soon to Albania

New York, Dec. 2.—A London cable to the Herald says:—Only Austria remains among the Teutonic allies an active belligerent in the Balkan area. Bulgaria yesterday announced her campaign, virtually ended with the capture of Plovdiv and 17,000 prisoners on Tuesday, just as Germany announced the end of her major operations with the capture of Pristina.

Except for the probability of sharp conflicts later between the German-Bulgarian armies and the Franco-British in the Ardur Valley—conflicts prevented now by the continued cold and snow, which at this time reaches the proportions of a blizzard—Montenegro now offers the only field of battle in the Balkans.

Here Prince Nicholas' mountaineers, re-inforced by scattering bands of Serbs, who succeeded in retreating across the northern frontier, will interpose all their genius for guerilla warfare against the main Austrian columns.

EXPLOSION IN ONE MORE PLANT WHICH IS MAKING SUPPLIES FOR THE ALLIES

Berlin Newspaper Favors Putting Peace Question

Berlin, Dec. 2.—The Berliner Tageblatt is the first newspaper to come out in approval of the plan of the Social Democrats to ask Chancellor Von Bethmann-Hollweg under what conditions he is prepared to begin peace negotiations.

For our part, says the newspaper, "we cannot see why such a question should not be directed to the chancellor nor why he should not answer it. It is believed that an answer would be regarded abroad as a sign of weakness."

FEARFUL TALE OF MASSACRE OF ARMENIANS

Rome, Nov. 29.—We solemnly believe that out of the million or more inhabitants of the provinces of Trebizond, Erzerum, Sivas, Van, Bitlis, Diarbekr and Kharpout hardly 50,000 have escaped.

These few words reveal a tragedy without parallel in the annals of the world. The Armenian massacres have reached the outside world of the actual situation.

It was an Armenian prelate who made this statement to the International News Service correspondent today. He has a personal knowledge of conditions in Armenia and has received official reports telling of the fate suffered by the helpless Armenians.

Commander Agostino Gornali, who is Italian consul-general at Trebizond for six years, gave the first authentic news of conditions in Armenia, and it was through him that the International News Service correspondent was enabled to get the interview with the Armenian prelate.

While Commander Gornali had partially lifted the veil behind which he had concealed the Armenian horrors, it remained for this prelate to reveal the fact that 800,000 Armenians are believed to have been massacred after suffering terrible tortures or been driven into the desert to die of hunger and thirst.

It was in the Armenian College at Rome, also the residence of the general procurator of Armenia, that the prelate received the correspondent.

"We have only been able to collect facts of the massacres since five provinces of the Ottoman Empire, namely Trebizond, Sivas, Van, Bitlis and Erzerum.

Full Story Not Known. "There have been revealed to us by the few of our people who have been warned in time had been able to escape to Russian Armenia. But the facts are hard to collect even now.

Greatest Massacre of All. "Yes, the greatest, that of 1894-7, ordered by Abdul Hamid, when two hundred thousand Armenian men, women and children were slaughtered in the streets of the capital and in the principal cities, is nothing compared with the magnitude of the present one carried on under the auspices of the Young Turks, or rather, the Committee of Union and Progress. I deem it superfluous to speak of the 1896 massacre ordered by the Young Turk government, which overthrew the Hamidian despotic regime and securing a constitution, in that massacre, only, thirty thousand were slain.

Refined Murder. "But today we are confronted with a determined, well organized, better executed attempt to wipe off the face of the earth the Armenian race. Even the methods employed to accomplish this end are different. Abdul Hamid was a poor, primitive savage compared with the refined Young Turks. In those days we knew the massacre would last only a few hours, or a few days, and that those who had somehow succeeded in avoiding the fury of the mob would be safe when the troops were withdrawn to stop the massacre. Besides this method was quicker and less painful. A man was slain and his torture ended then and there. Also we were able to count our dead.

"Today the method is radically different. Blood is no longer flowing under the eye of the shocked European in the streets of cities of Turkey. The heads of the victims are no longer carried on the pike of the brutal Kurd, nor ornamenting the gates of the Mosques and the entrances of the houses and shops. The Young Turk knows that this offends the sense of justice and humanity of every man and in the present massacre he has endeavored to hide the appalling crime he has planned.

Priests Slain on Altars. "But the Kurds and the Ottoman fanatics' lust for blood could not be wholly restrained. Here and there in the cities of the interior blood has flowed as in the Hamidian days. At Angora ten Armenian priests were slain before the altar of their churches, and twenty-seven Armenian employees of the Angora-Constantinople railway were found along the tracks with their heads severed.

"The Bishop of Maridin in the province of Diarbekr, Monsignor Mahajan, was beheaded on the threshold of the convent where he was endeavoring to prevent the mob from breaking in.

Bishop Murdered. "At Cesarea, the Armenian Bishop, Monsignor Anthony Bahaban, and the Bishop of the Schismatic church were both murdered while defending their flocks.

"At Diarbekr, three Armenian bishops were burned in the public square before the eyes of the assembled Armenian population, on the point of being interned in the desert.

"But these are only a few instances hardly worth mentioning in the great catastrophe which has befallen our race. From the reports already received we know that a positive fact, that out of sixty or seventy thousand Armenians inhabiting the province of Van, only ten thousand succeeded in crossing the border and finding a place of refuge in Russian Armenia.

"Of the sixty or more thousand Armenians residing within the city of Trebizond, only about a hundred are left, but we do not know anything of the forty thousand Armenians of the province of Sivas. We know that Sivas has been burned to the ground and that the same fate has befallen Tokat, Amassia, Gurin and Merzifun. From a priest of Amassia, we know the Catholic convicts of

COL. DANSEREAU AND TWO REGIMENTAL BANDS

Will Attend the Automobile Drawing at St. Andrew's Rink Friday Evening

In view of the enormous sale of tickets and the general interest aroused in the automobile drawing tomorrow evening, a very large attendance is anticipated. The bands of the 104th and 68th Regiments will participate, assembling at the head of King street and marching to the rink at eight o'clock where a program of music and speeches will be carried out, after which, at sharp nine o'clock, Colonel Dansereau, who will be introduced by Colonel Sturges, will select from a mammoth chuff the lucky ticket that will place some fortunate person in possession of a handsome "White" touring car.

The Nurses' Red Cross Club have worked energetically in their efforts to secure a substantial sum for the British Red Cross and are anxious to see a very large gathering at the climax of their efforts.

IMPERIAL THEATRE OFFERS A BIG FILM VARIETY

Miscellaneous Programme Concludes Tonight—John Barrymore in "The Dictator" Tomorrow, Also "The Broken Coin"

There was a little hull at the Imperial Theatre yesterday following the brilliant Lauder engagement but it is expected tonight's business will resume with ordinary spirit and volume. A variety programme was offered yesterday and to be concluded tonight, is particularly interesting as it contains three new plays, a visit to Rouen, France; a visit to the Pacific during a hurricane; and a visit to the North Sea and a budget of photo-news in the Hearst-Selig Weekly. Miss Lelroy's singing is also a pleasing feature. Surely this is a splendid mixture of pictures for those who like variety.

John Barrymore, who appears in "The Dictator," at the Imperial tomorrow, is quite justifiably said to be the prince of screen comedians. In tomorrow's "The Dictator" he is to play a part of assassination in a South American revolution through which he loses his own life. He is about to be the scapegoat for a lot of plotting and double-crossing, and a general's disappointed love. The whole story is a riot of merriment and will wind the week up with plenty of laughter. "The Broken Coin" will be continued in the same programme for the delight of those who like excitement and adventure.

Quebec is Loyal SAYS MR. LEMIEUX Two-Fifths of Canadians in First Contingent of French Descent Declares Criticism Unjust

Quebec's part in the war is no mean one, according to Hon. Rodolphe Lemieux, in an address to the Women's Loyal Association in the Y. W. C. A. hall, Montreal, recently, when he described what his province was doing in the great conflict. At the outset he declared that Quebec was largely an agricultural province and that labor was in demand. Out of the 4,000 Canadian-born soldiers who went with the first contingent, he said, 2,000 were of French descent. He gave Sir Sean Hughes' estimate of 10,000 as an approximate figure of the number of French-Canadians in France.

Condemnation of the Nationalist policy and reminders that Laurier was now sought to appeal to his compatriots rally to the colors, while the Nationalist leaders were "believed," were made by Mr. Lemieux.

"In spite of the fact that labor is in strong demand, recruiting is proceeding quietly in Quebec. When the roster is finally made up the Province of Quebec will very nearly measure up to the rest of Canada. Toronto was referred to as the city where charity is the first prospect. The appeal was made that the justices between the two peoples would vanish if the grass was not allowed to grow on the trail between the two provinces.

"We cherish the same ideals for which our boys are dying on the Flanders and France," declared Mr. Lemieux. Referring to Sir Wilfrid Laurier, the speaker said that he was in "better shape now than ever before, and that he was ready for a tussle if a tussle was necessary." "Notwithstanding the campaign of 1911, I am proud to say Quebec is honorably represented in the trenches," said Mr. Lemieux. "In spite of his age, Sir Wilfrid will still appeal to his fellow-men to stand by Great Britain, the flag and the king. There is not a hamlet in Quebec that is not working for the various patriotic funds and for the soldiers. Funds are provided to support peasants of the invaded French territory. Quebec is at least entirely with you in this struggle. You cannot libel a whole province because of the protests of a few men who do not represent the heart and soul of the people."

A series of monster recruiting meetings was planned, he said, which were calculated to fan the flames of French-Canadian patriotism. "It will never be said," he declared, "that Great Britain's difficulties were Quebec's opportunities."

GREEN GRASS IN DECEMBER To go along the Gernain street boulevard on Dec. 2 and see the grass as green as in summer is a joy to the man who wants an excuse to tell about the "old-fashioned winter."

Tokat and Amassia were destroyed and the most shameful of all fates befel the harmless, defenseless inmates, whose only crime was that of assisting the despicable Mohammedan women and girls.

"Of the province of Kharpout, Diarbekr, or the Armenians residing at Sumra and Beirut, of the small communities of the interior we know nothing yet and will probably know little for a long, long time. The facts are slow in coming in, above all it is difficult to collect them and avoid exaggerations, but we are working hard."

A SIGNAL HONOR FOR THE PRINCESS PATS

Capt. C. McDonald Writes They Are Instructing Hundreds of British Subalterns—Only Unit With Colors

(Montreal Gazette)

Montrealers will be glad to hear that the P. P. C. I. E. are still winning signal honors at the front, so much so that they have now been detailed to act in an instructional capacity to a large number of young British subalterns and N.C.O.s. This information is contained in an interesting letter from Captain George McDonald, who had a commission under the 3rd Universities Contingent, that left some time ago as reinforcements for the Princess Pats, and has evidently been with them for some time.

Capt. McDonald's letter is dated from France, Nov. 10, and is, in part, as follows:

"On Monday we had a delightful march of about ten miles to this village, or rather town, for it is much larger than any of the other places in which we have been billeted.

"Before leaving in the morning we were received by General Smith, Brigadier of the 90th Brigade, to which we were saying farewell. He made good address and spoke very highly of the P. P. C. I. E. Brigades, speaking very well indeed. The regiment has been in that brigade for nine months, and is most popular with the other battalions and very highly thought of by the O. C. I was detailed to carry the flag on this occasion. This occasioned standing or marching at attention for 1 1/2 hours, with a squad of three sergeants with fixed bayonets. When the men saw me come on parade, they thought I was under arrest. They told me that the P. P. C. I. E. is the only battalion in the army which is carrying its colors to the field.

"We have now been paid the signal honor of being attached to the 30th Division as instructional battalion. I understand this entails our being used during the next ten weeks for the instruction of between one and two hundred young subalterns and N. O.s."

"Our march was again westwards and northwards. By that we are gradually slipping up toward the Canadian division."

"I am billeted over a butcher shop. Fortunately it is small and clean, and carry little stock on hand. I have a very comfortable room and go in for the luxury of a bath every morning. Today the men of our company are having baths in the baths of a nearby factory. They are billeted in a music hall, which has encouraged them to give a concert.

"I have just been practicing my French. Madame Boudier, a French girl, short and stout and possessed of a very quiet, gentle voice, much appreciated after the terribly noisy time at last billet. Madame has had all kinds of troops to entertain during the year. French Artillery, Cavalry, Turcos, Algerians, English, and now Canadians. There have also been Indians in the town. We shall probably be here for several weeks, and the officers all agree that it is the best billet we have had yet."

GVERNOR A WITNESS. The case for the people of Sackville, Light & Power Co. of Sackville cases, before the Public Utilities Commission. Evidence regarding the speed of electricity power during the day time, which the company wishes to curtail, was given by Lieutenant Governor Wood, H. C. Read and George E. Ford. The hearing was continued this afternoon at three o'clock.

THE NEW HOSPITAL. The formal opening exercises of the new county hospital will take place at four o'clock on next Thursday afternoon when speeches will be made by the warden of the municipal council, the Mayor and other prominent citizens. The building will be open for inspection from two to six o'clock that afternoon.

Sunshine in the Home. A sunbeam is a small thing, yet it has a power to fade the carpets and curtains, to rot the blinds, and for this reason some folk carefully exclude the sunshine. What is the result? The family is always ailing, the young girls have a waxen white skin and a weary, pinched expression of countenance. The appetites fail; they fall into such a bad state of health that the doctor is called in. In older days he would have shaken his head, perhaps, and friends would have whispered that dread word, "decline." Nowadays he notes the pale gums and waxen skin, and says "anemia," prescribes iron and milk, fresh air, exercise and often a change. If he knows nothing about the darkened rooms, he will be puzzled as to why no permanent improvement comes. He possibly the patient will seek other advice.

SOCIALISTS AND PEACE

The German Socialists are again discussing the outlook for peace, and their organ, "Vorwaerts" says:—"It is necessary at this time to discuss the possibilities of peace, because a peace comes suddenly a storm may arise for which only the diplomats and statesmen can be blamed. Public opinion will not tolerate peace without knowledge."

becoming so great that they cannot much longer be borne. The allies, of course, will not listen to peace proposals, and Germany is face to face with trying experiences in the winter which has already set in.

Thirty-five Australian cadets got a great reception in Ottawa this week. At a great meeting at which they appeared their spokesman, Lieut. Simon, expressed regret at not hearing Sir Wilfrid Laurier. He said it had been one of the greatest desires of all the boys to see and listen to Sir Wilfrid. His name was the most familiar to them of any from this country, and he was looked upon as a hero as one of the greatest men that ever rose to uphold the traditions of the British nation.

A number of German newspapers have been suspended for discussing the food question. The soldiers now being sent to reinforce the German armies are far below the standard of earlier levies in quality. The deadly pressure is making itself felt. If the German casualties have reached the enormous total of 5,000,000, it is abundantly clear that another year of war will leave but few men in the fighting line compared with the millions the Allies will still be able to put in the field.

DRINK AND THE WAR

Good results have followed the adoption of more stringent rules regulating the hours of drinking in London. In Liverpool the improvement is still more marked. In Sheffield the arrests for drunkenness have decreased fifty per cent. A London cable says:—"But it is the 'no-treating' edict which has been the most effective weapon ever used against drunkenness in this country. It has more than realized the claims put forth by its warmest adherents. As was the case in cities where it was applied long before, it has reduced liquor consumption by 46 or 50 per cent. There are some philanthropists and social workers who insist that it never can be repealed, even in peace times, without a bitter fight."

It is extremely doubtful if any of the restrictive legislation relating to the liquor traffic during the war will be entirely repealed after the war is over, if any of it is even partially repealed.

IS IT AFRAID?

The St. John Standard, which did not publish Mr. F. B. Carvell's first letter on the hay contracts, gave first page space, large headlines and editorial emphasis to the reply of Mr. B. F. Smith, and among other things said: "We will now see if the Telegraph and Times and other newspapers supporting the Carleton county libeller of Gen. French will devote as much space and attention to Mr. Smith's reply as they have done to Mr. Carvell's original charges."

Of course the Telegraph and Times printed Mr. Smith's reply. They also printed yesterday Mr. Carvell's withering answer to that document. But the Standard, which did not print Mr. Carvell's first letter, refuses also to print the second one. It makes, however, this remark:—"There is no doubt that if there is anything wrong in Mr. Smith's hay contract, or any other profits made at the public expense, investigation can be secured as was done in other cases."

If the Standard will assist, Mr. Carvell may be able yet to get an investigation of last year's hay transactions.

St. John has ample accommodation for three battalions of soldiers. Why not have them?

The Ottawa Free Press says:—"According to the report of the Inland Revenue Department Canadians in the past year consumed 872 gallons of liquor per capita as compared with 1,061 in the previous year. Of beer 4,071 gallons per capita were consumed as compared with 4,200 in 1914 and of wines 609 as compared with 124 gallons last year. The figures for tobacco show 8,427 pounds were consumed per capita compared with 8,711 pounds in 1914."

As an illustration of how the war situation is regarded in American financial circles the following from a leading New York firm of brokers to their clients is worthy of note:—"The German armies have been winning victories, but the prospect of ultimate success for the Teutonic nations does not improve. The side having the greatest financial resources will win in the long run. That the allies have the advantage in that respect is every day becoming clearer. There seems to be no diminution of financial strength, while Austria must by this time be approaching the point of exhaustion, and Germany's burdens are

SAYS MODERN GREECE OWES FRANCE MUCH

In tracing the rise of Greek patriotism in the early part of the last century, which resulted in independence from Ottoman rule, M. Henry Coville, professor of history at the Lycee of Rheims, who gave an interesting lecture in Montreal before L'Alliance Francaise, showed how great was the debt the Greeks owe to France. Although the greater events of the present time were not touched upon except in a passing remark, the lecturer made the subject one of living interest. The personality of the Greeks, the distance from the seat of empire in Constantinople, were two of three reasons given why Greece has led the Bulgars and the Serbs in the struggle for home government.

THE GREAT BLOOD PURIFIER

"Fruit-a-tives" Cleans, Purifies, Enriches

Fruit juice is Nature's own remedy. "FRUIT-A-TIVES" the famous fruit medicine, keeps the blood pure and rich because it keeps the whole system free of impurities. "Fruit-a-tives" improves the Skin Action; enables the stomach to digest food properly; makes the bowels move regularly; and relieves the strain on the kidneys.

LIGHTER VEIN.

"I am not wealthy," he said, "but if the devotion of a true and tender heart goes for anything with you, Miss Clara— it goes well enough with me. Mr. Spoonbill," interrupted the fair girl, with a pensive look on her face, "but how will it go with the grocer?"—"Fack."

Among the harmless unfortunates whom the visitor saw at the asylum was a pleasant faced man eternally scribbling in a note book. "O, yes, his case is quite hopeless," remarked the superintendent, "and yet he earns over a hundred dollars a week."

John Barrett, director of the Bureau of South American Republics tells this story apropos of the dilemmas of many of the public office-seekers today:—"It happened in the time when herds of buffalo grazed along the foothills of the western mountains. Two hardy prospectors fell in with a bull bison that appeared to have been separated from his kind and run amuck. One of the prospectors took to the tall timbers and the other dived into a cave. The buffalo bellowed at the entrance to the cave and then turned his attention toward the tree. The man in the cave was not seen. He yelped to his comrade, who pale and trembling, stood at the cave's mouth. "You don't know nothin' about this hole," yelled back the other tremulously. "There's a bear in it."

TWENTY-THREE SIGN THE ROLL
 Recruiting Brisk Yesterday—Rev. D. Squires Addresses Recruiting Meeting—Maritime Casualties

Twenty-three recruits were signed yesterday at the Mill street offices, among whom were George F. Cole, Minto, N. B.; Thomas W. Hill, High street; William Duncan, Bass River; Ross Murphy, Bass River; D. J. Allan, St. Andrews street; J. Y. Kierstead, St. Lawrence street; William V. Owens, Tower street, west; H. C. Simmonds, St. James street; J. C. DeMille, Golding street; H. J. McAvilly, Queen street; Frederickson, H. L. Leonard, Adelaide street, and S. C. Colwell, Millidge avenue.

Another satisfactory meeting was held last evening in the Mill street recruiting offices at which the speakers were Rev. C. W. Squires, D. D., of Campbellton; J. F. Gregory, and R. W. Daniels, who presided. S. H. Maves, Mrs. Maves, Miss Valde Fenton and J. L. Mullaly took part in a musical programme.

Casualties.
 Peter Kynock, of Scotland, a member of the 6th Mounted Rifles, is reported dead from the front.

Douglas Hooper, son of Rev. Capt. R. B. Hooper, is in hospital in Belgium with a foot wound.

Instead of Edward A. Mellor, of this city, a member of the 26th Battalion, being killed in action overseas, according to yesterday's official list, it is now believed that the name should be Edward A. Miller, aged twenty, of Charlton, Cumberland, England.

Howard V. Wallace, 98th Battalion, of Halifax, a former member of the staff of the Halifax Herald, has been killed in action overseas.

Arthur Cotter, writing home from France, where he is with the Canadian Construction Corps, refers feelingly to the death of his brother, Sergt. Frank L. Cotter, and says that up to about the time of his death, the two were encamped within a short distance of each other.

Capt. J. W. Margeson, M. P. P., paymaster, 26th Battalion, is returning to Halifax from France, on military business.

A letter received at his home in Gagetown, from Pte. Percy A. Murray, 1st Battalion, 98th overseas draft, yesterday said that he had not been wounded as was reported. He had helped carry in to safety a wounded officer, but had escaped untouched himself.

Pte. James McEvoy, 26th Battalion, has been wounded in one arm and is now in hospital.

Pte. Guillaume Beuchamp, 69th Battalion, now in the city, enjoys the distinction of having come of a soldier's family. His father, now eighty years old, served in the Franco-Prussian war as a lieutenant; in the French army since the outbreak of war he has lost one leg, Jean, killed in the battle of the Marne, another, Jacques, has been wounded twice, a third, Edouard, is a physician of war in Germany, and fourth, Francois, has not been heard of for three months.

OLD FOLKS NEED "CASCARETS" FOR LIVER, BOWELS
 Salts, Calomel, Pills Act on Bowels Like Pepper Acts in Nostrils
 Enjoy Life! Don't Stay Bilious. Sick, Headachy and Constipated

Get a 10-cent box now. Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only ten cents per box at any drug store. They work while you sleep.

Oak Hall's Removal Sale! Is Creating an Epoch in the History of Merchandising

The influence of the Removal Sale has been felt in every quarter. From every point, has come enthusiastic response. It took daring and courage to subject our stocks to such radical reductions at this season of the year, yet our reward will be found in lessened stock on January first next to have to remove to our new store.

We knew this sale would create a sensation, coming at the height of the season when hundreds of men are ready to buy new clothing, but we hardly looked for the great response it has met with. It's a foregone conclusion that the sales for the balance of this week will mark a new record in our clothing business.

St. Ann's College when he enlisted, in the University Troop of the 6th. We have already been reviewed by the O. C. of the Canadian Army Corps of which we form a part, and he said we would be very soon instructed in trench warfare, so we're expecting our turn now any day. But please don't worry about us. We'd feel a lot better if you wouldn't for here face to face with the actuality of war, we do not look forward with any misgivings but are sure strength will be given us to play our part as Christian soldiers, whatever may come. There are few casualties comparatively, as can be seen by studying any official list, but it is not wise to think much of that part of it.

REFUGEES COST RUSSIA MILLIONS Petrograd, Nov. 30.—The efforts to find a solution of the problems connected with the great migration of peoples incident to the Russian withdrawal from Poland and other parts of Russian territory is seriously engaging Russian thought. The monetary cost of the vast movement already has mounted high. The imperial government and the governments of various provinces and cities of the empire have expended money freely to shelter, feed and clothe the refugees, whose numbers are estimated as 13,000,000 by some. The expenditures of the central government in this connection are already in excess of 13,000,000,000 by some. The total cost is probably more than 100,000,000,000. Besides this sum there must be reckoned the high sums involved in abandoned property and the cost to the railways, over which free passage was given, and whose operations for a time were largely confined to removal of unfortunate victims of the war.

workers for the refugees over their frequent refusal to accept employment when offered is reported. To offset this there is the certainty of ample labor for the cultivation of crops and of a great growth of colonialism on the virgin lands of Asia. Many prisoners of war are said to be gladly accepting work in the mine and field. An interesting development in this connection is an order that heretofore the Slav elements be separated from the Magyar and German-speaking. It is considered probable that many slav prisoners will settle permanently in Russia. DOMINION LODGE OFFICERS Dominion Lodge No. 18, L. O. B. **MOTHER GOOSE FAIR
WAS GREAT SUCCESS**

Large Attendance and Much Money Taken--Col. Dansereau and Others as Auctioneers--Result of Drawing

The Mother Goose Fair conducted by the Royal Standard Chapter, I. O. D. E., in the Knights of Columbus hall yesterday afternoon and evening proved successful even beyond the expectations of the members of the chapter. The attendance was large and the receipts generous and the affair proved enjoyable as well as successful financially.

The band of the 69th Battalion was in attendance last night and played at the entrance to the hall for half an hour. Harrison's orchestra was also present and rendered dancing music. To both these, Mrs. E. A. Smith, regent of the chapter, expressed her gratitude. His worship, the mayor, was unable to attend, but in his absence, Lieutenant-Colonel Dansereau, of the 69th, was the official figure. Many of the officers of the battalion were at the affair and played a very active part in its success.

Lieutenant-Colonel Dansereau, P. C. Macneil and Miles E. Agar acted as auctioneers. They were successful in selling out absolutely everything and reaping a substantial sum.

The Princess Mary doll, donated by Miss Nelson, was the chief attraction. Tickets were for sale during the last week or more. The total receipts from this alone amounted to \$250. Miss Annie McGuigan, Queen street, held the lucky ticket. Another doll was placed in a guessing contest. Of the many who attempted to guess her name, no one named her properly. So the little beauty was put up at auction and brought \$8. The table cloths donated by Mrs. V. S. White, were won by tickets 187 and 187. The holders of these can receive the prizes at the home of Mrs. E. A. Smith.

of Rhode Island, formerly of St. John, was auctioned and knocked down to M. E. Agar for \$30. Before the close of the evening, Mrs. Smith opened an envelope containing \$50 from Mr. Richardson of the Gem Fruit Store, Waterloo street, accompanied by his best wishes. Mrs. Smith, on bringing the very en-

joyable and successful affair to a close, extended thanks to those who officiated as auctioneers, and to the ladies who portrayed the Mother Goose characters so effectively, to the Knights of Columbus for the use of the hall, and to all who by their attendance and generosity aided the affair.

The Man In The Street
 St. Andrew's night and Harry Lauder made a great combination for those of Scottish descent.
 Scotland For Ever.
 There was one lady in the city who did not appreciate the music of the bag pipes so much as she might have when they awakened her from her sleep early on Wednesday morning. Seeking sympathy she tried to arouse her husband and remarked indignantly "Do you hear those bagpipes?" But her husband's Scottish ancestry made itself felt even in his sleep and without awakening he murmured in a tone of deep satisfaction "Aye, aren't they grand?" She gave up the search for sympathy.
 "Has provincial government new road policy?" asks a morning paper. Who said they ever had any road policy?
 Some one accuses the city of paying too much for hose. Why don't they try some of that near-silk stuff? It comes as low as fifteen cents a pair.
 Germany now wants an "honorable peace." They will have peace when they are licked thoroughly, but they will have no honor; they lost it long ago.
 If Henry Ford's peace expedition does not hasten the end of hostilities it will at least add something to the gaiety of the nations at a time when people are most in need of a good laugh.
 News notes say that President Wilson works his own typewriter at times, but because he's going to be married again, doesn't say he takes dictation.
 The street car service these days just seems to be one little transfer after another.
 Caruso has been exempted by Italy from military service. Considering his experience in charging, he would probably have been a valuable man in the ranks.
 Didn't Recognize Him
 Those who had the pleasure of seeing the Lauder show at the Imperial Theatre this week, will remember that in his different songs, the famous Scotch comedian changed his name time after time. His change from the Hie-lan-d soldier with the sword, the legging, and the plaid breeches to the four-footed, stunted baker was complete. Two men were overheard talking about the show. "I didn't think so much of Lauder," said one. "That fellow who came out as a baker was a better singer and he was funnier."

HARRY ANDREWS BACK TO FRONT
 First Direct Word to Mether Since He Was Wounded at Ypres
 The first direct word from him since he was wounded at Ypres in the spring has been received by Mrs. Thomas Andrews of Edin street from her son Harry, who went over with the first contingent. He says:
 "I was up before a medical board and was one day discharged but I refused to take it and volunteered to go back to France. By the time you receive this I will be back in France again with the divisional ammunition column. I am with an outfit that any one would be proud to go to the front with. They certainly are a jolly bunch.
 "Dodge Garnett of St. John tried hard to get back to France again but couldn't. He went to the doctor and told him he was fit for the front again but it was no use. He certainly was game, a lot more so than a lot in St. John.
 Mr. Andrews speaks of seeing George Rolston and others of the 26th.

WHERE WORDS COST MONEY
 Mum Supper is a Success—Carmarthen Street Church Sale
 The school room of Carleton Presbyterian church last evening was no place for one to be quietly inclined. There was a price set on speech. Instead of "silence being golden," words had a money value. For under the auspices of the Ladies' Aid Society a "Mum Supper" was held. In order to conform to the regulations of the "mum" supper the diner has to confine his conversation to nods, suggestions by motion, facial expression, and impolite as it may seem by pointing. This was how it was last night, and a penalty of a nickel was imposed for each infraction of the rule. The line, however, did not deter many a one from enjoying a pleasant tete-a-tete with his neighbor across the table.
 The supper was distinctly successful. Mrs. Albert Ruddick and Miss Annie Wilson had the management in hand, and were assisted by other members of the society. Mrs. Frank Stewart was convener of the supper committee, and the paid helpers were Misses Gladys McNitt, Agnes Morrison, Jean Leister, Florence Turnbull, Odessa King, Margaret Newcombe, Annie MacLellan, Edith Cameron, Irene McAuley, Annie Smith, Lena Nioe, Bella Thompson, Ruth McLennan, and Helen Knowles. Mrs. Gouge and Mrs. Jasper McCavon presided. Mrs. J. Cruikshank was in charge of the candy table, assisted by Misses V. Drinnan, Nellie Purvis, the Misses Evans and Miss Bennett. The apron table was presided over by Mrs. Theo. Rippey, assisted by Misses Edna Smith, F. Drinnan, F. Brittain and Ella McLennan. Miss Grace Warnock was in charge of the table, assisted by Misses V. Drinnan, Nellie Purvis, the Misses Evans and Miss Bennett. The apron table was presided over by Mrs. Theo. Rippey, assisted by Misses Edna Smith, F. Drinnan, F. Brittain and Ella McLennan. Miss Grace Warnock was in charge of the table, assisted by Misses V. Drinnan, Nellie Purvis, the Misses Evans and Miss Bennett. The apron table was presided over by Mrs. Theo. FAIRVILLE NEWS
 Birthday Presentation—Both Sons of O. D. Hanson in Uniform—Word from Frank Kelly
 About twenty-five young friends of Charles Stinson called at his home in Prospect street last evening and tendered him his best birthday wishes in the form of a surprise party at which everybody enjoyed themselves. Games were played and other fun indulged in and then, on behalf of the company a handsome gold ring, set with his birthstone, was presented to Mr. Stinson. He replied suitably.
 Refreshments were served and the party broke up wishing Mr. Stinson many more happy birthdays.
 Among the newest recruits from Fairville is Clarence Hanson, son of O. D. Hanson, druggist, who has joined the 10th regiment of the medical corps in France. There are only two boys in the family and now both are in uniform.
 A letter received by a friend from Frank Kelly, who left with the first contingent, tells that he is well and sends a snapshot to prove his assertion. Private Kelly mentions that he had a long spell at trench work, but is now billeted some little distance in the rear of the firing line. He and several of his companions expected to secure leave of absence for a few weeks about New Year and if all goes well, he is likely to spend the holiday in Dublin.

ANOTHER STEP TOWARD THROUGH CAR SERVICE
 This morning about half past eleven men were put to work excavating for the city approach to the new bridge, thus marking the beginning of the final job to have a through car service. It is understood that the curved rails, made especially for this section arrived yesterday so within ten days now the line should be in operation.
 The diamond intersecting the C. P. R. tracks was installed last week and double tracking the street railway line to the C. P. R. crossing was finished this morning.
 While no definite information is available, it is said the probabilities are that a through car will be run from the head of Fairville to the end of Douglas avenue and then passengers will be transferred to city bound cars and that if three cars were put on the Fairville route a minute schedule with Main street could be maintained.

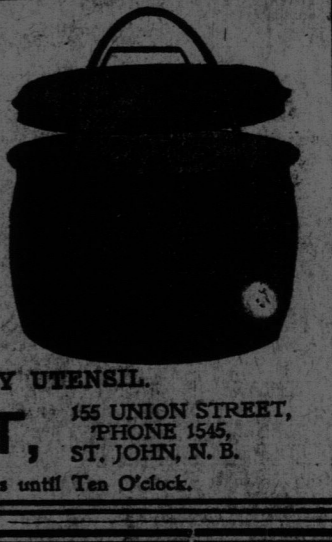

POLICE COURT.
 In the police court this morning three men arrested on drunkenness charges were fined \$2 or two months in jail. Albert Page, arrested on charge of absenting himself from the steamer Knosand without leave, was sent back on board after being warned that he was liable to twelve weeks in jail.

Building The Chimney
 First
 Some manufacturers build their advertising structure like Pat tried to build his house—"From the chimney down."
 They begin with secondary instead of primary mediums.
 They attempt continent wide flight without testing their wings.
 The more discriminating build from the bottom up—covering the country section at a time.
 They use the logical medium for their advertising—"The Newspaper."
 If any manufacturer is anxious to know why this is so, the Bureau of Advertising, American Newspaper Publishers Association, 806 World Building, New York, will gladly tell him.
