BETTER DEATH THAN DEFEAT BY GERMANS

Frank Goodrich, Maine Soldier in Canadian Regiment, Writes of His Recovery

Hallowell, Me., June 11.—The following letter was received by Mrs. A. F. Goodrich from her son, Frank Goodrich, now in a hospital in Versailles, France: "Dear Mother O' Mine, "It is now four weeks since I was wounded and I think another two weeks will find me back with a rifle in my hands again. I am feeling quite fit again after my long rest and the wound is nearly healed now. I think if you could see me now you would call me a healthy looking patient, never felt better in my life. "I have received letters and parcels from the people of great Canada and from England. You remember the boy who invited me to his home where I met so many splendid people. He is safe, I am glad to say, but the other boy was taken prisoner by the Germans. "According to today's papers Italy has decided to take a hand 'Vive l'Italie.' It is the beginning of the end for Germany, notwithstanding their poison gases, submarine murders, etc. It is only a matter of time now and I hope I may be spared to see the German nation brought to its knees. If I ever thought they would be victorious I should prefer to go out first. You may not understand this, but no one could feel any other way after seeing what can only be seen at the front. "I have not heard from the boys, Dunn and Moore, and have given up hope of ever seeing them again. There are not many of the boys of the original bat-

tallon left, but I suppose we would be reinforced by new drafts from Canada soon. We may lose our men, but we will not lose our spirit. "The weather is fine. France is beautiful where she is not ravaged by war, and the people of France are confident of the final result. They are people of splendid qualities and indomitable courage. One only has to know them in their native land to appreciate them. Haven't received your letters yet, so I do not know how things are going with you all, but I hope for the best. 'Hoo is wee Donald the poo?' bring him up in the way he should go, and I'll make a Highlander of him yet. "I read in the paper of the death of Gen. Haliburn of Hallowell, another civil war veteran gone. This is all today, will cease fire, for fears of the censor. Will write again before leaving here. "Yours affectionate son, "FRANK."

THE TERROR OF THE SUBMARINE

The sinking of the Lusitania, one of the largest and fastest of the transatlantic liners, by a German submarine, must be considered not only as a great marine disaster, but as marking an epoch in the military use of underwater craft. Whatever opinion may be held as to the ethics of the use of the submarine, or as to the question of international law, morals, or humanity involved in sinking without a direct warning a passenger steamer carrying non-combatants, women and children, the fact remains that the aspect of war at sea and the activity of the marine of both combatant and neutral nations have been materially changed by the advent of the submarine. In this respect other European powers, it is worth considering how this arm has been developed and used with such striking efficiency and grim success. Not only have submarine torpedoes carrying up to 400 pounds of the most powerful explosives been used, but German submarines, armed with special guns brought out by the Krupp works suddenly to the surface, have halted merchant ships with one or more shots and have destroyed them either by gun fire or charges of high explosives placed aboard rather than by torpedoing. When one considers that this present war is on its naval side so far has not been characterized by tactical evolutions as much as by naval raids, the best appreciated how much the submarine has accomplished. Even the smaller and older craft have shown a marked increase in action of some 1200 miles at a knots that has been found more than adequate to enable them to harry British commerce, while there is every indication that the Germans have made tactical use of the submarine in their operations to previously arranged plans. This naval professional opinion has been expressed that the sinking of the Lusitania was not the result of a chance meeting along the liner's route, but rather the outcome of a tactical plan. In this group of submarines, a dozen or less, were strung across the probable path of the steamer so that at least one would be within striking distance, just as in the North Sea the Germans are reported to have used a false bait or lure to face craft as a decoy, pretending that it was a mine-layer. As regards actual operations, as well as design and construction, the whole submarine situation is shrouded in the deepest secrecy. Not only is the number of submarines known to be in service and under construction known to few, but the submarines have been almost free to pass out to sea and to make their destruction of warship and merchantman alike. But the Germans have not operated with impunity. Since the outbreak there has been the fate of more than one submarine, but in the main manifest injury has been inflicted upon the foe. It has been recalled by the fact that in the interval from February 18 to May 14, 1915, the Lusitania was struck by a merchant vessel was sunk by German submarines or mines, with a loss of some 1400 lives. These were the "Submarines," by H. T. Wade, in the American Review of Reviews for June.

BELIEVES SECOND SUBMARINE WAS IN WAIT FOR LUSITANIA

London, June 11.—Chief Carpenter Robertson of the Lusitania, said at the enquiry today that the condition of the life boats was good when the Lusitania left New York. In reply to the statement of the attorney for a relative of one of the victims that a certain life-boat maker had testified that the boat was unable to throw any light on this statement. He made this statement in reply to an argument put forward by Baron Jersey, who said he thought a mistake had been made in the testimony of the witnesses, who testified that they had seen the wash of a torpedo passing the stern of the Lusitania. O'Neill, one of the witnesses, who he testified that he recognized the Lusitania, although he did not see the submarine which fired it from the port side. This testimony, O'Neill was corroborated by another seaman, who testified that he saw the wash of the torpedo from the starboard side. These came forward in parallel lines until they almost reached the ship. When they parted at a slight angle, the Lusitania and then the other striking the Lusitania.

ONE TROUBLE ENDED

Copenhagen, via London, June 11.—The long standing difference between Iceland and Denmark has been settled by the cabinets of the two countries. Planting Pearls. Many attempts have been made to encourage oysters to produce pearls. The Chinese have done so with a certain degree of success by dropping fragments of nautilus into mussel shells. In time, these fragments are covered with a pearly matter, and are attractive enough to be considered a demand, says a writer in the New York Sun. According to the same authority a company began scientific experiments in the Indian Ocean not many years ago. They put little balls of nautilus weighing from 40 to 80 grains, between the shells of a particularly large species of oyster, known as the Australian type. After about ten months, these pellets are covered with a beautiful layer of pearly matter, and look exactly like true pearls. When these pearls come upon the market they will no doubt have a ready sale. Some of the experiments made by the company came to nothing, and for a curious reason. The cases in which they kept the oysters were bound with iron wire. The shells became impregnated with this iron, and the color of the pearls was seriously damaged. Since then, nickel wires are used, and the success of the company's enterprise seems assured. —Youth's Companion.

IN MEMORIAM

CAMPBELL—In loving memory of George W. Campbell, who departed this life in Calgary, Alta., June 17, 1910. We know not, Lord, who next may fall. Beneath Thy chastening rod. One must be first, but let us all prepare to meet our God. MOTHER.

A GENUINE TREAT IS ELSIE JANIS

English Star Big Hit at Imperial—Prices For "The Spoilers"

Tonight will be the last opportunity the people of St. John will have seeing Elsie Janis in the delicious English comedy "The Captives of Kitty". It will only be necessary to ask any of yesterday's Imperial patrons to find out how really dainty and funny this story is. Tomorrow the seventh episode of the fun as day is from night and Miss Janis, who is idolized by the British public as well as the Americans, was a delight in every scene. "The Captives of Kitty" is not only a splendid photograph and a clever little play, but is one of the outstanding bright features of the pictorial form of entertainment to date. Tomorrow the seventh episode of the "Black Box" will stir watchers to an unusual point of excitement. Mr. Oppenheimer, the author, further unravels his great plot in this chapter and the mechanical surprises employed will be quite out of the ordinary. The Imperial management herewith makes its first announcement of the scale of prices for next week's extraordinary agreement of "The Spoilers". The whole upper floor will be sold at the usual 10c price; the orchestra floor with the exception of the last five rows (near the glass shields) at 15c, while the boxes and the five rows already mentioned will be 2c. The unusual cost of bringing "The Spoilers" to St. John and the length of time its presentation will consume, make these extra prices an absolute necessity. Theatre parties may book their chairs at any time from this date. The Spoilers are playing in Toronto at prices ranging as high as 75c and \$1.

Premier Clarke of New Brunswick, is very ill at his home in St. Andrews. C. B. Foster, assistant traffic passenger agent, with the C. P. R. at Montreal, formerly of St. John, was in the city today. Mr. and Mrs. D. J. Corr, (nee McKinney) have returned after their honeymoon trip to the United States.

WANTED ONLY AMERICAN

Marriage Called Off When Intended Said He Was British. Thomas F. McCann, 64, of Stockton, Cal., who has already had five wives, almost got his sixth. He would have done so had he not been a subject of the King of England. McCann and Mrs. Othello Louise H. Bartels, a widow, called at the local marriage office and requested Cupid Munson to issue them the necessary documents. They filed out and all was well. Then he handed them the blank which was to be filled out for the state bureau of vital statistics. In that blank one of the questions which have to be answered is "where were you born?" McCann, with a flourish, wrote "Canada." "Just a moment," said Mrs. Bartels, who had been leaning against McCann's shoulder making smiling suggestions as he supplied the necessary data. "Are you still a citizen of Canada?" "Yes," declared McCann proudly. "Well then there will be no wedding bells," said Mrs. Bartels. "I thought you were an American citizen. I have no intention of marrying a British subject." They returned the partly filled out document and went their several ways—New York Sun.

"WAR BABIES" (Woman's Journal). The great slaughter of men in the European war is causing anxiety as to the future of the children who are being born in this time of war. It has been seriously suggested that it may be possible to establish polygamist families to take care of the children of women who would indubitably object to the same end might in fact be reached by taking means to keep down infant mortality. At present, half the children born die before they grow up. If all these could be saved, the net result would be the same as if the birth-rate had been doubled.

One way to reduce the infant death-rate is to give votes to women. Mrs. Beatrice Forbes Robertson Hale said at the graduation of their brother, Alphonse J. Reid, of Bellefleur, N. S. The company is distributing the prize winning paper in printed form.

THE BEST QUALITY AT A REASONABLE PRICE. Glasses Stop Many Headaches. An eminent New York physician says he has never encountered a case of typical headache in which defective vision was not a factor directly or indirectly.

It is easy to understand why properly fitted glasses stop many headaches. They focus the light rays properly on the eye, making it unnecessary for the muscles to be strained in an effort to do what the strain removed, or seen naturally, but constant strain causes tired, overtaxed muscles, nerve waste, exhaustion, causing headaches and other serious troubles.

Sharp's have every facility for testing of eyes and manufacturing glasses. The glasses you buy here, whether for your own use or your oculist's prescription, are exactly right—the best glasses you can get.

TROUBLE WITH THE YAQUS. United States Sends Bluejackets and Marines to Guard Americans.

Washington, June 11.—Admiral Howard, commanding the Pacific fleet, was under orders today to proceed immediately to Guaymas on the west coast of Mexico, with 800 bluejackets and 800 marines and to dispatch this force twenty miles inland, if necessary, to protect Americans menaced by the Yaqui Indians. The Indians had threatened to annihilate all foreigners.

AGAINST "TWILIGHT SLEEP". San Francisco, June 11.—"Twilight sleep," condemned by a score of physicians attending the national medical association here, was expected to be a topic of discussion today. According to Dr. W. N. Mundy of Forest, Ohio, "Twilight sleep" does not produce the insensibility to pain claimed for it. "It merely induces," he said "a loss of memory, and generally renders the subject so unmanageable as seriously to hamper the state of partial asphyxiation."

TROUBLE WITH THE YAQUS. United States Sends Bluejackets and Marines to Guard Americans.

Washington, June 11.—Admiral Howard, commanding the Pacific fleet, was under orders today to proceed immediately to Guaymas on the west coast of Mexico, with 800 bluejackets and 800 marines and to dispatch this force twenty miles inland, if necessary, to protect Americans menaced by the Yaqui Indians. The Indians had threatened to annihilate all foreigners.

AGAINST "TWILIGHT SLEEP". San Francisco, June 11.—"Twilight sleep," condemned by a score of physicians attending the national medical association here, was expected to be a topic of discussion today. According to Dr. W. N. Mundy of Forest, Ohio, "Twilight sleep" does not produce the insensibility to pain claimed for it. "It merely induces," he said "a loss of memory, and generally renders the subject so unmanageable as seriously to hamper the state of partial asphyxiation."

"WAR BABIES" (Woman's Journal). The great slaughter of men in the European war is causing anxiety as to the future of the children who are being born in this time of war. It has been seriously suggested that it may be possible to establish polygamist families to take care of the children of women who would indubitably object to the same end might in fact be reached by taking means to keep down infant mortality. At present, half the children born die before they grow up. If all these could be saved, the net result would be the same as if the birth-rate had been doubled.

One way to reduce the infant death-rate is to give votes to women. Mrs. Beatrice Forbes Robertson Hale said at the graduation of their brother, Alphonse J. Reid, of Bellefleur, N. S. The company is distributing the prize winning paper in printed form.

THE BANK CLEARINGS. The St. John bank clearings for the week ending today were \$1,608,000, corresponding week last year, \$1,599,008.

THE BEST QUALITY AT A REASONABLE PRICE. Glasses Stop Many Headaches. An eminent New York physician says he has never encountered a case of typical headache in which defective vision was not a factor directly or indirectly.

It is easy to understand why properly fitted glasses stop many headaches. They focus the light rays properly on the eye, making it unnecessary for the muscles to be strained in an effort to do what the strain removed, or seen naturally, but constant strain causes tired, overtaxed muscles, nerve waste, exhaustion, causing headaches and other serious troubles.

Sharp's have every facility for testing of eyes and manufacturing glasses. The glasses you buy here, whether for your own use or your oculist's prescription, are exactly right—the best glasses you can get.

Prices are always moderate. Consult our optometrists.

TOO LATE FOR CLASSIFICATION

What is considered by bankers a very exceptional offer, was made the province of Nova Scotia by a New York national bank, one of the leading financial institutions of the United States, and accepted by the province. It involves a sum of \$1,000,000 on 4-1/2 per cent treasury bills for one year at par and \$5,400 premium. In other words the province is borrowing money at a rate below 4 per cent. It is the best financial transaction of its kind made recently by any province of the Dominion. Compared with other Ontario, Saskatchewan or New Brunswick, it is far below any offer made to them, and the province's most extraordinary manner on the strong position Nova Scotia holds among financiers in the United States.

Although a short term note, it does not detract from the fact that the offer is a most unusual one and reflects satisfactorily on the province's reputation abroad. As a comparison New Brunswick recently floated a loan paid 6 per cent on what were virtually guaranteed provincial bonds.

GOVERNMENT HERE

A meeting of the provincial government was held this morning in their rooms, Prince William street. The application for the incorporation of The Gem Theatres, Ltd., was granted and examiners for applicants for the position of stenographer for the county courts in the north were appointed. Other business transacted was of a private nature. It was estimated that the appointment to fill the vacant office of Judge pro-tem for St. John county would be made this afternoon. Premier Clarke presided and all the members were present.

GETS SOME WORD

J. B. Magee today received from Ottawa a telegram officially reporting that his son Arthur M. had been wounded. This is the case in which a card from the soldier himself weeks ago told that he had been hit. Until today nothing official could be secured by Mr. Magee and even now he has not been able to learn where his son is. He was wounded fifty-six days ago.

ADDRESS ON MISSIONS BEFORE PRESBYTERIAL The afternoon session of the St. John Presbyterial opened yesterday with devotional exercises led by Mrs. R. C. Cruikshank, of St. David's church, in the absence of Mrs. J. K. Flemming. Greetings from the various denominations were extended, Mrs. C. F. Sanford representing the Baptists and Mrs. Fleming the Congregationalists. Mrs. Gordon Dickie spoke in reply. An encouraging report was presented by the secretary of the young people's work. This was prepared and sent in by Mrs. J. K. Flemming, of Woodstock, and read by Mrs. Cruikshank. Reports of the mission branch presented by the county vice-presidents, were very satisfactory. Mrs. R. C. Cruikshank gave a blackboard talk on mission work. Mrs. A. W. Thompson spoke along similar lines. The evening session was opened by Rev. J. A. MacKeigan with brief introductory remarks. The chief speaker, Principal Mackinnon, then addressed the gathering. His subject was foreign missions, and he dealt particularly with the work in Trinidad. Rev. W. W. Malcolm, of East St. John, also gave an interesting address on home missionary work. Rev. Dr. Burroughs and Rev. W. M. Townsend also spoke briefly. The musical numbers included a solo by Miss Blomfield and a solo by Miss Clinio.

"That's My Corn" What a Confession! Something hits your shoe. There's a flash of pain, and the victim says, "That's my corn." "My corn," pined and coddled for years, perhaps. It's as needless as dirty hands. A Blue-jay plaster, applied in a jiffy, would end that pain instantly. And the B & B wax that's in it would terminate the corn in two days. No pain, no soreness, no inconvenience. The corn loosens and comes out. It disappears forever. It's hard to prevent corns while having dainty feet. But it isn't hard to end them. A million corns a month are ended in this easy Blue-jay way. You do yourself injustice when you suffer from a corn. Half your friends have proved this. THE NEED OF ORGANIZATION

At last night's meeting in Sussex four eminent sons of Kings county presented Britain and Canada's case in this war with force and eloquence, and urged the necessity not only of sending more men to the front but of organizing the country to the fullest extent, so that all the people may do their share.

vation of the nation is to be found in the use of its leisure time. A gifted speaker crystallized this thought in a question before a St. John audience not long ago, when he asked—What do you do when you have nothing to do?

THE JITNEY BUS.

An article on the jitney bus, in The American City for June, says that within a month 800 of them appeared on the streets of San Francisco, and soon 1,000 cars were in use there.

CANADA'S DISGRACE

When certain telegrams that passed between Dr. R. M. Simpson and Hon. Robert Rogers at Ottawa, and Hon. Messrs. Corder and Montague at Winnipeg, between March 1 and May 21, were sought for in connection with the Royal Commission enquiry in Winnipeg, it was said that the telegrams had been destroyed the day before, on instructions from Z. A. Lash of Toronto, president of the G. N. W.

PUBLIC RECREATION.

The extent to which the value of public recreation and supervised play is recognized in the United States is illustrated by the fact that there will be a six-days National Congress on Recreation in connection with the Panama-Pacific International Exposition at San Francisco. The dates are July 10, and the preliminary announcement says:—

THE NASHWAAK DRIVES.

Ex-Senator N. M. Jones of St. John, manager of the Partridge Pulp and Paper Company with H. W. Schofield and James McAvity of St. John left Fredericton by motor yesterday morning on a trip up the Nashwaak to visit the scene of the company's driving operations.

THE LATE ARCHBISHOP LANGEVIN

His Grace, head of the diocese of St. Boniface, died this week in Montreal. He was one of the best known prelates in Canada. The funeral is to be in Winnipeg on next Tuesday.

HEIR TO MORGAN MILLIONS WEDS
Dorham, June 16—In St. Paul's Episcopal Church here yesterday Miss Louise Converse, daughter of Frederick S. Converse, composer of operas, was wedded to Julius Spencer Morgan of New York, heir to the Morgan millions.

Privacy and simplicity surrounded the ceremony, but the most serious efforts could not protect the bride and groom from the eager gaze of a throng of uninvited spectators who, when the two issued from the church canopy, crowded their way to the automobile door and even fought for points of vantage on the machine that they might get a peek through the window at the foremost June bride.

Young Morgan, not to be outdone, promptly lowered the limousine curtains and then everybody just watched the car roll away.

Miss Converse, the bride, did not arrive until the last moment. She was accompanied by her father and mother. She was groomed in white satin with court train which her costume carefully held as she stepped under the canopy. Her veil was caught up with orange blossoms and carried a bouquet of lilies of the valley and orchids.

Her maid of honor in the wedding procession was her eldest sister, Miss Augusta Converse, who was dressed in a gown of lavender and pink chiffon and carried a large picture hat, carrying a cluster of Dowry sweet peas.

The bridesmaids were Miss Jane Morgan, sister of the groom, and Miss Marie Converse, another sister of the bride, who were dressed in frocks of yellow and pink chiffon with hats to match. They carried over their arms bouquets of Cornelia di Spencer sweet peas, in harmony with their gowns.

The church within was lavishly decorated with flowers and green in harmonious arrangement. Pink and white peonies in small bouquets were caught up with white satin ribbon against the background of the great trees. In the background of the sanctuary were bay trees and palms with carnation bouquets while the altar was banked with white carnations.

The officiating clergyman at the marriage ceremony was Rev. George Alexander Strong of Boston, formerly of New York. He was assisted by Francis Lee Whitmore, pastor of the local St. Paul's Church in which the wedding was held.

PIE SOCIAL AND SCHOOL ENTERTAINMENT ENJOYED
A pie social and school entertainment was held in the hall at Garnett, on Thursday evening, June 10. The following programme was carried out under the management of the teacher, Miss Margaret L. Porter, assisted by Mrs. John C. Stewart as organist.

Recitation—"The Holidays," Nellie Dempster.
Recitation—"What A Boy Can Do," Arthur Moore.
Recitation—"Teacher," Helen Garnett.
Recitation—"Mary and I," Roland Dempster.
The Dairy Maids, Margaret Dempster, Katie and Laura Garnett.
Recitation—"A Ticked Cake," Gladys Garnett.
Recitation—"A Boy's Complaint," Sandy Moore.
Reading—"Hit or Miss," Dorothy Garnett.
Exercise—"Our Colors," Robert Porter, Sandy Moore and Roland Dempster.
Recitation—"Dolly's Speech," Laura Garnett.
Recitation—"A Six by Nine Rhyme," Harold Dempster.
Duet—"My Own Canadian Home," Gertrude Moore and Dorothy Garnett.
Recitation—"The First Pair of Breeches," Johnny Garnett.
Recitation—"The Old Flag," Katie Garnett.
Reading—"Vacation Time," Robert Porter.
Recitation—"Mud Cakes," Margaret Dempster.
Quartet—"Summer Is Coming," Gertrude Moore, Laura, Katie and Dorothy Garnett.
Recitation—"Harold's First Smoke," Harold Dempster.
Reading—"A Most Obliging Little Sister," Gertrude Moore.
Exercise—"Our Flags," Ten Girls and Boys.

All the selections were well rendered, but especially pleasing to the audience was the exercise "Our Flags" by ten girls and boys. Rev. C. W. Follett acted as chairman. The pies were well sold by Thomas Moore as auctioneer. Refreshments were also sold during the evening, and the sum of \$60 was realized. There was a large gathering and many visitors from the city were present. After the sale of the pies music was rendered by Clarence Record and dancing was enjoyed by the young folks.

During a service in a Middletown, Conn. church, a dog walked up the main aisle and lay down before the pulpit. As he made no disturbance no one put him out, and he lay there throughout the rest of the service.

BOND'S CAFE OPENED BY SOLDIERS' WIVES

League Given Proceeds of First Day by Messrs. Bond and Scott

At the opening of Bond's handsome new restaurant in Charlotte street yesterday, at an afternoon tea under the auspices of the Soldiers' Wives' League to whom Messrs. Bond and Scott kindly gave the use of their premises, \$121 was realized to be devoted to the use of Dr. Murray McLaren for his hospital in France. A special souvenir programme was provided by the proprietors to whom the members are deeply grateful. The arrangements were in charge of Mrs. George F. Frink, Mrs. Murray McLaren and they were ably assisted by Mrs. Ingham, Mrs. John Keefe, Mrs. F. Sawyer, Mrs. Ambrose, Mrs. Douglas McArthur, Mrs. George McLeod and Mrs. A. Skelton.

Those who waited on the beautifully appointed tables were Mrs. Ward Hassen, Mrs. F. B. Schofield, Mrs. W. Vassie, Mrs. A. L. Fowler, Mrs. M. F. White, Mrs. D. B. Pidgeon, Mrs. F. J. Hogan, Mrs. W. King, Mrs. Frank Fairweather, and the Misses A. Scammell, E. Skinner, I. Jacy, L. Robinson, B. Jack, D.

SIXTY RECRUITS FROM BATHURST

(Bathurst Northern Light)

Sergt. Ben. Arsenau, who is still in town signing on recruits for the 50th Battalion, has taken the names so far since the campaign began of 21 men. This number taken with the 19 who enlisted in the 28th Battalion and to the 30 who left a short time ago to join the 50th at Sussex, brings the total number of recruits secured in Bathurst to the fairly respectable total of 60.

Following are the names of the men who have most recently signed the honor roll—Ernest R. Good, Bathurst Basin; Norman F. Payne, South Tetepouche; Aine Savoy, Green Point; A. K. Robertson, Bathurst; Frank Kilian, Moncton; Leonard Roy, Bathurst Village; James Baldwin, Bathurst; Fred L. Vantour, Chatham; Frank Elliott, Black Rock; Harry Salter, New Brandon; James Ryan, Newfoundland; Hiram Lecoutre, Mincou Centre; James E. Lavigne, St. John; William Berrin, Bathurst; John McDonald, Chatham; Wilfrid Hechey, Charlott; Angus Handley, Sydney, C. B.; Adolard Degrege, Grand Anse; Carris Morale, Tracadie; Harry McNally, St. John; John D. Campbell, Parrthro.

All these mentioned above have already proceeded to Sussex except the last two, and of the total list, three, Norman F. Payne, James Baldwin and Harry Salter were rejected on account of slight physical ailments. This is the third attempt that James Baldwin has made to serve his country only to be turned down on account of a slight injury to one of his eyes.

WAR OFFICE JAM ORDER.

(Financial Post)

The intimation that Wagstaffe, Limited, Hamilton, has received a big order from the War Office for jam, recalls the circumstance that it was James Wagstaffe, president of the company, who organized the deputation of fruit growers, sugar refiners, tin manufacturers and jam makers that interviewed the government last fall relative to getting an outlet for the surplus production of fruit in the old country.

By dint of much persistence and in spite of the incompetence of the department of trade and commerce, Mr. Wagstaffe has at last succeeded in gaining his end. He is an aggressive and progressive man in this Hamilton manufacturer. Coming to this country from England several years ago, with only a few cents in his pocket, he has built up a large business, which is conducted in a plant that is a model of perfection in appearance, sanitation and the comfort of its employees. Those Hamilton investors, who put their trust in James Wagstaffe, and their money into his company, have every reason to be satisfied with the result.

"Hi! It speaks well for his honesty, but it's a terrible slight to the umbrella."

Was Troubled With Choking Spells and Shortness of Breath.

When the heart becomes affected, there ensues a feeling of a choking sensation, a shortness of breath, palpitations, throbbing, irregular beating, smothering sensation, and dizziness and a weak, shaking, all-over feeling of oppression and anxiety.

Many men and women drag along with weary step, and become worn out and haggard, when otherwise they could be strong and healthy if they would only pay some attention to the first signs of heart or nerve trouble. On the first sign of the heart becoming weakened or the nerves unstrung, Milburn's Heart and Nerve Pills should be given a fair trial and you will find that they will soon correct both these organs.

Mr. James Leard, Tryon, P.E.I., writes: "Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I had choking spells and was troubled with shortness of breath. I had three doctors but they all failed. A neighbor recommended me to try your pills, so I got a box and they helped me so much I have taken six boxes. I highly recommend them to all who are troubled with their heart and nerves. I was not able to do any work for over two years, now I can do quite a bit."

Milburn's Heart and Nerve Pills are 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Easyest Way to Remove Ugly Hairy Growths

(Beauty Culture)

Here is a method for removing hair or fur that is unfeeling and is quite expensive: Mix a thick paste with some powdered deodorant and water and spread on hairy surface. After 2 or 3 minutes, rub it off, wash the skin and every trace of hair has vanished. No harm or inconvenience results from this treatment, but be careful to get genuine deodorant.

SALE OF BATHURST BONDS

A special meeting of the Bathurst town council was called for last Monday evening for the purpose of opening the tenders for the purchase of town bonds up to \$75,000. On motion the joint offer of the Eastern Securities Co. and J. M. Robinson & Sons of St. John for the \$75,000 issue of the town bonds at 8 1/2% was accepted, the terms mentioned being \$10,000 on July 1, and the balance in three months thereafter, bearing interest during the accrued time. The offer also stipulated that if the balance of the \$150,000 should be issued before December 31, 1914, that the parties should have an option on them at the same price.

Weighted 135 Pounds, Now Weighs 166 A 25-Pound Increase

"When I started taking Sargol my weight was only 135 pounds," writes H. E. Henniger. "Now my weight is 166 pounds and I am the picture of health and stronger than I ever was before. You may say my letter for I am sure it will help somebody in the same shape I was. Would not take \$100 for the good it has done me." "When I commenced taking Sargol I weighed 116 pounds. I have been taking it only 26 days and weigh 150 pounds," writes Miss Lillie Davis. "I gained 7 pounds in 10 days," states W. P. Thackeray.

And so it goes. Some folks take little stock in vertebrae because they say people are apt to take treatment for some disease and just imagine they feel better. But Sargol is not a treatment for any disease. It simply puts firm, healthy, "stay there" fat and muscular tissue on men and women who are thin, run-down and underweight. There is no guess-work—no imagination about it. These people weigh themselves before they begin. They weigh themselves each week thereafter and the scales tell the story. Hundreds upon hundreds of Sargol users are constantly reporting increases in weight ranging all the way from ten to forty pounds.

Sargol is just a tiny tablet which you eat at meals. It mixes with your food and turns all the fats, sugars, starches and oils of your food into rich, ripe, flesh-producing nourishment for the tissues and blood. If you are underweight it is certain that the greater portion of the fat-producing material in your food is going through your body as waste. You eat and eat but get no benefit. Sargol stops this wasteful, dangerous leakage of fats and the result is quickly noted as the hollows of the body fill out with healthy flesh.

You risk no loss in taking Sargol, as leading druggists everywhere sell it with a positive guarantee of increased weight as contained in every package. Absolutely harmless. Costs little if it succeeds and nothing if it fails. If you are ten pounds or more underweight you owe it to yourself to try it.

Sold in St. John and vicinity by all leading druggists.

"TOMMY" CHEERFUL AT BATTLE ENTRANCE.

The British soldier's good humor is unshakable. This group of smiling faces was taken just as a train was pulling out from base headquarters with men for action at the front.

ADMIRAL JACKSON, NEW FIRST SEA LORD OF THE ADMIRALTY

Admiral Sir Henry Bradwardine Jackson's name was practically unknown to the general public before the resignation of Lord Fisher as First Sea Lord opened for him the highest position in the British navy. In the fleet, however, he is well known, and it is said that if Fisher had to go there is no man who would have been preferred to Jackson by the officers in the service. Admiral Jackson is considered, says the Toronto Mail and Empire, to be probably the most scientific student of naval warfare in the navy. He is the navy's greatest specialist in torpedo warfare, and he is said to have the patient temperament that is demanded to meet the present crisis. Like Jellicoe, he is no hot-headed fighter, but is a master of craft, and is expected to show quite as much resourcefulness and scientific cunning as all the directors of the German navy.

A Shipmate of Jellicoe
Admiral Jackson was born on January 21, 1865, and is therefore younger than his predecessor by fourteen years. He entered the navy at the age of thirteen, and at first specialised in navigating duties. However, the vessel in which he was appointed as navigating officer was the old battleship Agincourt, and it is a coincidence that Sir John Jellicoe, then a lieutenant, was gazetted to the same vessel on the same day. It was not long before Lieut. Jackson devoted himself almost exclusively to the study of the torpedo, which was then in rather crude shape, having been invented indeed, only two years before he entered the navy. In 1881 he was appointed to the Vernon, the Portsmouth torpedo school ship, and for twenty years thereafter was almost exclusively occupied with experimenting and lecturing upon torpedo warfare. It is to be borne in mind that the torpedo officer of a modern vessel is responsible for the whole electrical equipment of the ship, and therefore must have a comprehensive knowledge, practical and theoretical, of electricity.

Except for his appointment to the Vernon, Sir Henry's years afloat have been spent on the Mediterranean. By this time he had been recognized as probably the greatest expert in the navy upon the subject of torpedoes. He was raised to the rank of commander, and appointed to the Defence, the torpedo school ship at Devonport. Among the officers of the Defence at this time were Robert Falcon Scott, of Antarctic fame, and Carolyn Bellini, now M. P. for Maldenstone, and a great naval authority.

ROSS RIFLE HAS STOOD TEST WELL

Wounded Officers on Their Return Have High Praise For Canadian Arms

Ottawa, June 17.—Two visitors at the Militia Department who excited much interest on account of their wounded appearance were Capt. George Rodgers, of the 6th Battalion, and Lieut. J. A. Danesereau, of Montreal. The first mentioned officer was the victim of eleven wounds and the second of two wounds. Both had been through the battle of Langemarck and both expressed satisfaction with the Ross rifle.

Captain Rodgers said that as a general rule the Canadians were pleased with the Ross rifle. He said that he was speaking for his own battalion, and that though the rifle had rough usage on Salisbury Plain and in the trenches it had come out satisfactorily. He instanced also the testimony of Major Ballentine of Georgetown, Ontario, also invalided home whom he had met last week who also said that he would take the Ross rifle every time in preference to any other rifle.

Lieut. Danesereau said: "From four o'clock in the morning until nine on Saturday of the big fight, the Germans were trying to get out of their trenches I had charge of forty men and though there was rapid fire most of the time, there was not any complaint about a single jam in the Ross rifle. The men liked the rifle when they understood it well. There was trouble at Valenciennes because they did not know how to handle the rifle, but there would have been the same trouble with the Lee-Enfield rifle if they had not known how to use it."

Do not send another day with PILES. Dr. Chase's Ointment will relieve you at once and as certainly cure you. It is a true, all-healer, or Edmondson, Bates & Co., Limited, Toronto. Sample box free if you mention this name and quote in stamp to pay postage.

RECENT DEATHS

Friends of Mrs. S. W. MacBeath, of the North End, will regret to hear of her death, which occurred last evening at her home at a comparatively early age. She is survived by a sorrowing husband, her father, Herbert Lingley, of Boston, and one unmarried sister.

John Campbell, of Campbell Sattellment, Kings Co., is dead, aged fifty-nine years, leaving his wife, one daughter and one son.

In Boston on last Sunday Fred Penney, a well known artist of that city, passed away. He was a native of this province, a son of the late William Penney of St. John, and a nephew of the late George E. Penney of Fredericton.

J. L. Slipp, who died in Portland, Oregon, on April 29, was fifty-eight years of age and a native of this province. He went to Oregon in 1878, and engaged in the hotel business, but soon entered the service of the Southern Pacific as a passenger agent and was twenty-six years in its employ. He leaves his wife, Mrs. Fannie Slipp, and three children, Perley, Ruth and Helen. A half brother, G. T. Slipp, resides in Blissville, N. B.

Wesley Tucker, of Middle Hainesville, died recently, aged seventy years, leaving his wife, three daughters and three sons.

Grace, widow of Donald A. McDonald, of Hardwicke, is dead, aged eighty-eight years, leaving one son, four daughters, one brother and two sisters.

Miss Mary A. McNaughton of Black River, Northumberland, is dead, aged eighty-three years, leaving four brothers and one sister.

Peter S. Walsh of Douglastown, died in North Reading, Mass., aged forty-one years, leaving his wife and five children.

RECENT WEDDINGS
Peddie-McKinnon.
Yesterday morning at the residence of E. D. Kierstead, 201 Duke street, Frederick, Allan Peddie, an electrician with the St. John Railway Co., was united in marriage to Miss Ebbel May McKinnon. The ceremony was performed by Rev. D. J. McPherson of Brussels street Baptist church. The bride was attired in a Copenhagen blue traveling suit. Mr. and Mrs. Peddie left for a honeymoon trip through the provinces and on their return will reside for the summer at Summersville.

Barker-Lyons.
Moses N. Barker and Miss Addie L. Lyons, both of Burton, were united in marriage at St. Paul's Manse, Fredericton, June 15 by Rev. Dr. W. H. Smith.

Potter-Irving.
On June 14 at the home of Mr. and Mrs. P. B. Dickson, Richibucto, Miss Jennie B. Irving, daughter of Henry Irving, of that town, and Mrs. Dickson's only sister, was united in marriage to William Potter, a prosperous young farmer of Kouchibouguac.

Hamilton-Fraser.
Moncton, June 17.—Miss Alberta Fraser was married yesterday afternoon to John Arthur Hamilton, son of F. J. Hamilton, of Charlottetown, at the home of the bride's mother, Mrs. Charles Grant, of this city. Rev. T. Drummond of St. John's Presbyterian church, performed the ceremony. The bride was given away by her stepfather, and was attended by Miss Marion Lockhart, Mr. and Mrs. Hamilton left on a wedding trip through Nova Scotia and P. E. Island. Among the out-of-town guests was Miss Lillian McLeod of St. John.

Therouast-Hagarty.
Moncton, June 17.—Bernard's Church on Wednesday morning, Frank Therouast and Miss Agnes Hagarty of Moncton were married by Rev. Father Savage.

PERSONAL EMISSARY OF VON BERNSTORFF TALKING LOUDLY

London, June 16, 6.47 p.m.—A peaceful settlement of the questions which have arisen between the United States and Germany is predicted by Dr. Anton Meyer-Gerhardt, who is on his way from the German embassy at Washington to Berlin to explain the situation to the German government. An interview accorded to Dr. Gerhardt is published by the Frankfurter Zeitung, and forwarded to London by the Amsterdam correspondent of Reuters' Telegram Company.

The interview was obtained yesterday at Christmas, Norway, when the steamer United States, on which Dr. Gerhardt was a passenger, touched at that port.

"WILSON INDEPENDENT IN DRAFTING NOTE"

"The conflicting views existing between Berlin and Washington regarding the Lusitania affair rest on a misunderstanding, and will be settled peacefully," Dr. Gerhardt is quoted as saying. "The conflict between President Wilson and Secretary Bryan is of old origin, and arose from quite different causes than the Lusitania affair. The breach was rendered inevitable by the independent action of the president, who rejected the counsels of his responsible minister and Secretary Bryan in his own ideas. As President Wilson framed this reply to Germany without the independent action of Secretary Bryan, the latter had no other recourse but to request that he be released from office."

INVESTIGATE STORY OF IMPERSONATION

Washington, June 16.—Published charges that Dr. Anton Meyer-Gerhardt, for whom the United States arranged a safe conduct with the Allies that he might return to Germany with a personal message from Count Von Bernstorff, the German ambassador, was in reality Dr. Alfred Meyer, chief of the supply department of the German army, who had been secretly in the United States buying munitions of war, are to be investigated by the state department. Simultaneously, another version of the story—that Dr. Alfred Meyer, while not passing as Meyer-Gerhardt, has been in the country and aided with the latter for Christmas' imposture—also will be looked into.

State department officials and members of the diplomatic corps here recalled that at the personal request of Count Bernstorff, the former secretary of state, W. J. Bryan, asked the British and French ambassadors for safe conduct for Dr. Anton Meyer-Gerhardt, a representative of the German Red Cross, who was returning to Berlin to carry a personal message from the count, after the latter's audience with President Wilson in the midst of diplomatic negotiations with Germany.

REPORT RECEPTION FRIENDLY AND COURTEOUS

Washington, June 16.—Ambassador Gerard called today his first informal report on how the last American note to Germany was received in official quarters in Berlin. He spoke of its reception as friendly and courteous, and said unanimous opinion seemed to be that the document afforded a basis for diplomatic negotiation and settlement.

Long extracts from German newspaper editorials, most of which have already been published here, were transmitted by the ambassador. There is a friendliness of tone in them and an absence of the bitterness which has previously characterized some of the newspaper utterances.

The ambassador's own comment on brief and of a general character, bearing out press reports of the favorable impression made by the note, especially because published reports had reached Germany that the United States would send something in the nature of an ultimatum DEPARTMENT BELIEVES HE IS RIGHT MAN.

Washington, June 16.—Secretary Lansing received word late today from sources which he regarded as reliable that the man who sailed for Germany with a safe conduct, carrying messages to the foreign office at Berlin from Count Von Bernstorff, the German ambassador, was Dr. Anton Meyer-Gerhardt.

Doubt had been cast on the identity of the German ambassador's envoy by published reports that the safe conduct given to Meyer-Gerhardt was in reality obtained for Dr. Alfred Meyer, chief of the supply department of the German army, who was said to have been buying supplies in the United States.

CANE PRESENTED TO JUDGE ARMSTRONG

The members of the board of health, assembled last night at the home of Senator J. W. Daniel, Princess street, and presented a handsome gold-headed cane to Judge J. R. Armstrong, former solicitor for the board, whose retirement from that office was made necessary by his recent appointment to the county court bench.

The presentation was made by Manning W. Doherty, chairman, and it was accompanied by an address. Each member of the board spoke a few words of regret reviewing the energetic and successful work of Judge Armstrong as solicitor for the board and his efforts to improve the sanitation of the city. He was deeply moved by the deep consideration of his friends and when it fell to him to make a few remarks, he could hardly express his thanks and appreciation.

The address, read by Mr. Doherty, followed:
Judge J. R. Armstrong:
In severing your connection with the board of health after thirteen years service as their solicitor, the members feel unwilling that this parting should take place without their making an opportunity of acquainting you with their regret that the business and friendly relations which have existed between us for so long must necessarily be interrupted.

Each one of us has felt that in giving your advice when required, you have taken pains to lay before us not only what was lawful, but also what was expedient, recognizing the fact that our board have to deal with the individual not only in his public capacity, but also in the intimate relations of his private life.

We therefore feel that we are losing not only a capable counsellor, but a friendly counsellor as well, and one who appreciates the unique position the board of health occupies as compared with other authorities.

At the same time we are glad to know that our loss will be your gain, and to congratulate you on attaining the very honorable position you have been appointed to fill.

As a reminder of our pleasant relations in the past and as a help to guide your feet in the future, when the paths become rougher and the hills grow steeper, we take pleasure in presenting you with this cane.

Chairman.

NEW SENSATION IN MANITOBA SCANDAL

Telegrams Between Rogers and Ex-Cabinet Ministers Destroyed

"SUGGESTION" BY LASH

Toronto Globe Declares "Looting" of Treasury of Province Was Not a One Man Job But Was "A Plant"

Winipeg, June 14—It is understood that the telegrams filed over the G. N. W., which the royal commission particularly desire are those passing between Hon. Robert Rogers and Dr. Simpson, at Ottawa, and Hon. G. R. Caldwell and Hon. Dr. Montague at this end. These telegrams were demanded from the local G. N. W. manager here on June 11, but he destroyed them before they were sent to a wire from President Z. A. Lash, of Toronto, who mentioned that the company did not require them under the new system. The Dominion Railway Board will be dragged into the scandal. When Dr. R. M. Simpson's name was mentioned by N. W. Horwood, the former provincial architect, in his evidence at Winnipeg, a hurried telegram was despatched to the Liberal counsel in Winnipeg, to have the C. E. R. and G. N. W. telegraph managers subpoenaed to produce certain telegrams. These telegrams passed between Cabinet Ministers here and Dr. R. M. Simpson and Hon. Robert Rogers at Ottawa between March 1 and May 31.

On "information received" it was also alleged to secure telegrams sent to or from Hon. Robert Rogers. He, too, was mentioned in the subpoena. Manager Goldstein protested against the production, but admitted having collected the telegrams required—against that such exist. He was ordered to produce them. It was not even an order that Goldstein received from President Lash. It was a suggestion but it came by wire. This wire was dated June 10 last Thursday. The subpoena was served on Friday, by that time the telegrams had vanished. Lash is outside the jurisdiction of the commission and he cannot be compelled to take action. This is where the Dominion Railway Commissioners come in. There is said to be a regulation compelling telegraph companies to keep their business six months, and it is usual for destruction to take place once in six months. Therefore, if such regulation is in force, the action of the G. N. W. is in violation of the Commission's ruling on the company received special permission from the railway commissioners to admit new regulations. Liberal counsel asked the commission to refer the matter to Z. A. Lash, the president of the G. N. W. The commission agreed that Lash ought to be informed by wire that messages had been destroyed and that he furnish copies. Local Manager Goldstein admitted that it was customary to keep telegrams six months. He didn't know of any other such wholesale destruction.

Yesterday's Evidence. Winipeg, June 16—M. G. Hook, a witness at the Manitoba legislative building inquiring this afternoon, asked for the protection of the court in a statement he wanted to make. Chief Justice Mathers replied he would be protected to this extent, that evidence he might give would not be used against him in any criminal proceeding, except for perjury at the inquiry. Hook then said he wanted to correct some statements he had made on his former appearance on the stand. He said he did not know money was sent to Winnipeg. He sent a telegram to Salt which he did not tell of in his former evidence, and he made a third trip to visit Salt, of which he had not spoken before. He took a parcel containing \$500 to Salt at Chicago on March 24. He looked in the envelope and saw the money. Describing a later trip, this time to Minneapolis, Hook said he had a telegram from Salt saying he had a telegram return to Winipeg the following Monday. Hook gave this news to Horwood and he said, who asked him to go to Minneapolis, and take some money and in- since Salt not to return for a week or so, until things were in shape. Horwood, he said, gave witness \$500 in bills. Paid Salt Hush Money. Hook said he met Salt at Minneapolis and gave him \$500. When Hook left for Winipeg, Salt told him he would go to Denver. "When I was in Minneapolis," Hook proceeded, "Mr. Salt told me it had been suggested he could get \$2,000 or \$3,000 if he would go back and give evidence in such a way that it would be favorable to the government. Of course, this was only discussion. I told him he would be foolish to get himself in wrong for that figure. I don't remember whether I suggested it, or he, but it was agreed that he should have \$5,000." Hook said Salt wanted to know what he, witness, was getting out of it. Hook told him he did not want anything, that probably he would get a "raise" in salary. There was absolutely no agreement as to splitting or anything of that kind. Hook said he saw Horwood on his return to Winipeg, and Horwood suggested an effort be made to keep Salt away. Later in the day Horwood asked him to go to Salt again, and said he was going toward \$5,000. Hook said he told Horwood he did not think Salt would keep away indefinitely for that amount.

It is in all there, however, in black and white. Verily the whittling of time brings its revenges, when we find any such announcement as this, even as the report of a speech, in the columns of a paper which for years kept yelling "tin-pots, tinpots," at everything in the shape of colonial warships, and which declared that no ships were of any use or counted for anything in naval matters save super-dreadnoughts all built and manned in Britain and placed in the North Sea. It now appears that ships other than dreadnoughts have their uses, and that other seas needed patrolling and attention besides the German Ocean. The truth of the matter is that up to date the results of the war have been a triumphant vindication of the policy of colonial fleets and secondary naval bases. It is safe to say that the Borden contribution bill will never be introduced in parliament again.

LOSE CAPTURED GERMAN TRENCHES BUT MAKE GAIN ELSEWHERE

London, June 16—For the first time in weeks there has been heavy fighting over a comparatively extensive line of the British front in Belgium and France. The Berlin official communication makes note of it and describes it as an Anglo-French movement, synchronizing with the Russian reverse in Galicia.

To win a mile of front, and then to lose it before terrific German counter-attacks, was the experience of the British on Tuesday night near Festubert. In a statement, frank, if brief, Field Marshal French records this incident, but does not state the losses, which must have been heavy on both sides.

The Germans are as frank in conceding the loss of ground near Ypres, but they make no mention of having been forced, even temporarily, to yield a mile of their Festubert stronghold.

In the east the Austro-Germans advance continues to swing forward, with the exception of the section between the Dolomites and the Zaurau, where the Russians holding the bridge-heads are making some headway.

General Von Mackensen, according to despatches, has given himself a fortnight in which to capture Lemberg, and it would seem that, at the rate his and co-ordinate forces are going forward, this time limit will be ample if the Russians are unable to initiate a stiffer resistance than they are showing now.

The latest Zeppelin raid on England has created hardly a ripple of excitement. Aircraft protection was one of the subjects discussed today in the House of Commons, William Johnson Hicks urging a marked increase in this branch. He said that London must soon expect a serious raid, and added that at one time more than five Zeppelins of the latest type were over the English coast.

The under secretary for war, H. J. Tennant, besides giving assurances that bigger aeroplanes were under construction, said that since the beginning of the war the number of machines had been increased ten-fold, and the number of men engaged in this branch five-fold.

London, June 16, 8:30 p.m.—Sir John French, commander-in-chief of the British forces in France, reports that the British troops captured and then lost a line of German trenches at Festubert, but that the British have occupied the German positions to the north of Hooge for a distance of one thousand yards.

London, June 16, 11:18 p.m.—The following official statement regarding the Zeppelin air raid was issued tonight: "Further inquiries show that the casualties in connection with the visit of a Zeppelin to the northeast coast Tuesday night amount to sixteen killed and forty injured."

"It is now possible to state more exactly the casualties resulting from an air raid on the northeast coast of the northeast coast on the night of June 6. The number of deaths there was twenty-four, comprising five military civilians, thirteen women and six children. There were also forty cases of more or less serious injuries."

The principal fires were in a drapery establishment, a lumber yard and a group of small houses."

OLD TIME SPORT

More Great Speed Work By Hugh McCormick

VICTORIES OVER DOWD

Chas. Gillespie's Half Mile Backward in 1:37—Athletes of The Year 1888 in a Y. M. C. A. Series of Sports

The first half mile of the McCormick-Black race in the Victoria rink on Tuesday, March 29, 1888, was one of the best contests ever seen in the rink. The ice was in good condition for fast skating and the race between the representatives of New Brunswick and Ontario was one of the feature events of the season.

The race was started from opposite sides of the rink. At the starter's word the men were off like a flash. The pace was terrific. It was one spurt from the start. Black, with his peculiar stroke, gained inch by inch upon the Ontario. Black had to turn his head to see him, and realizing that the world's champion was gaining on him, he redoubled his efforts and skated himself out. Foot by foot, yard upon yard McCormick gained on his rival until, instead of the original half, there was only a quarter of a lap between them. As McCormick finished the half mile and swept onward the stop watch registered 1:37.2 seconds, a 2.55 clip, the fastest ever skated in the Victoria rink or anywhere in the world. The Ontario boy was fast losing his power and speed and McCormick was soon at his heels. Still the pace was fast until the end of the first mile, when the leader slowed and both men eased and regained their breath. The time for the first mile was 3:03. The second mile was finished in 6:41.2. The third was a succession of spurts and was finished in 10:31. On the 10th lap of the fourth mile Black showed how game he was by a tremendous effort to get away from McCormick, but it was no use. The fourth mile ended 16:03. The fifth and last mile ended in 19:03.4. Black 18:19. The shouts and applause which greeted the skaters at the finish was tremendous. McCormick's friends congratulated hundreds upon his greatest triumph. Does Even Better

About 1,600 people assembled in the Victoria rink on Thursday evening, March 22, 1888, to witness the much heralded race between Champion Hugh McCormick and Frank Dowd of Montreal, ex-champion. The race started at 8:30 o'clock from opposite sides of the rink. McCormick led by almost a half lap. The shouts and applause which greeted the skaters at the finish was tremendous. McCormick's friends congratulated hundreds upon his greatest triumph. Does Even Better

On Thursday evening, April 5, 1888, the Y. M. C. A. sports were held in the St. John roller rink proved one of the most successful of the season. The rink was crowded and a lively interest manifested in every number on the programme. The following is a list of the successful competitors: 100 yards dash—First prize, medal, won by F. White. The second prize, \$2,000 accident insurance policy, was won by A. Magee.

Trick rings—Exhibition: J. M. Barnes, R. Buchanan and Prof. Raebough. Boys' race—Won by C. H. McLean, time 28-4-5 seconds. G. Wilson, second. Running high jump—Oscar Watson won the medal for first prize, height 5 feet. R. A. Watson took the second prize, a silk umbrella. Club swinging—F. Stone, won; F. Spencer, second.

Quarter mile run—R. A. Watson won, time 1m-12-5c; prize, a medal. S. Davis was second. Sack race—Won by H. Watson, J. Angeringer second. Hurdle race—Won by F. White, time 3-4-5 seconds. H. Ring second. Boys' race—H. DeBruyere first, H. Bain second, time 27-4-5. High kick—F. White, won, height eight feet. J. Maher, second. Half mile run—W. A. Kerr, first; J. Robinson, second. Time 2m. 19-1-6c. The final heat in the boys' race was won by McLean, with Bain second, time 28-2-4. Half mile walk—Won by R. Watson, second, A. S. Morrison; time 4m. 5-4-5c. Potato race—Won by R. Buchanan; S. Thomson second. At the close of the programme Mayor Thorne presented the prizes to the winners.

Beware of Ointments for Catarrh That Contain Mercury. A necessary will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescription from a responsible physician, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by J. C. Chase & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by J. C. Chase & Co., Toledo, Ohio. Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

Residents of Houston, Me., were recently alarmed by the noise from a strange craft which finally approached the shore. It proved to be a boat, built catamaran style, with long outriggers, with air propellers and a twenty-horsepower engine, taken from an old automobile. It went finely, but the passengers had to wear bathing suits, as the water rose up in a steady stream, drenching the boat and everything on it.

NEARLY 5,000 MEN AT VALCARTIER

St. John Member of Mounted Rifles Sees Entertaining Letter Home—Real Camp Life

A member of the 6th Mounted Rifles, at Valcartier, writes an interesting account of their trip from Amherst. After the great farewell demonstration at Amherst they were greeted by bands and cheering crowds at Stokville, Montreal, Newcastle and Campbellton, and at River du Loup and Lévis, besides receiving a hearty welcome at Quebec. Continuing he writes:

"The view of old Quebec from the train Lewis I shall never forget. We left the train there and boarded the ferry, and had to wait about an hour for our baggage. From the bow of the ferry we got our first view of the city, and with our binoculars we were able to get a splendid view of the Citadel, Chateau Frontenac and other features. After crossing we entrained again and came eighteen miles to Valcartier.

"After we left the train we had to travel two and a half miles over a bad road. We carried great coats, haversacks, water bottles, bandoliers and kit-bags, and with the sun pouring down and tons of dust flying it was some work. On arrival we found the 4th and 8th regiments lined up to receive us. They gave three cheers as we marched past. Our own band was gallantly playing a march. The Brigade of Rifles, some 1,800 strong, is certainly a fine looking body of men.

"All told there are nearly 5,000 men here. Besides the Rifles, are the 41st and 57th Battalions of Infantry (French-Canadians); also several batteries of field artillery, the Field Ambulance Depot from Montreal, No. 5 Co. A. S. C., under Capt. Gillis, and the Canadian Ordnance Corps, and a detachment from the 8th Infantry.

"There are a lot of Germans interned here, and they are working making roads, etc. They are drier-crowd than those at Amherst. They looked very sulky as we marched by.

"Our own boys are really enjoying it. The ground is very sandy, and no end of a nuisance. We are drilling from 8 a. m. till 12 and from 1-4 till 5 o'clock, and we have physical drill at 7 a. m. We have to walk a mile to swim, but it is worth it. I swam across the river and back this afternoon. The river and hills here are really beautiful. You could sit by the river for the hour and enjoy it.

"We have a wooden floor in our tent now. We got the boards from an old mill, and carried them nearly a mile. The dust will not be nearly so bad now. We are to have horses here this week for training. We have had to turn out twice to fight a brush fire on the outskirts of the camp.

"We gasp with amazement, think something must be wrong, and read it over again. It is all there, however, in black and white. Verily the whittling of time brings its revenges, when we find any such announcement as this, even as the report of a speech, in the columns of a paper which for years kept yelling 'tin-pots, tinpots,' at everything in the shape of colonial warships, and which declared that no ships were of any use or counted for anything in naval matters save super-dreadnoughts all built and manned in Britain and placed in the North Sea. It now appears that ships other than dreadnoughts have their uses, and that other seas needed patrolling and attention besides the German Ocean. The truth of the matter is that up to date the results of the war have been a triumphant vindication of the policy of colonial fleets and secondary naval bases. It is safe to say that the Borden contribution bill will never be introduced in parliament again.

NEED MINISTER OF MUNITIONS IN CANADA

Conservatives in Toronto Criticize the Way Things Are Going

Toronto, Ont., June 16—Dr. Forbes Godfrey, M. P. for West York, attacked the dominion government munitions committee at a meeting of Ward Seven Conservatives. He referred to a company that had written to Ottawa stating that it was prepared to supply shells, and desiring that it get a contract. The reply was unfavorable. The government, he maintained, was doing everything possible to encourage these industries rather than to discourage them, as had been done this time. He declared emphatically. Mr. Wallace of Woodbridge, brother of Tom Wallace, M. P., declared that a minister of munitions in Canada, as they had in Britain, would be a good thing.

A teacher was examining a class of small boys in arithmetic. Addressing a particularly smart boy, she asked: "Can five go into one?" "Yes," came the answer at once. "You stupid boy!" she said. "How do you make that out?" "Please ma'am," he said. "I put five into one and it took five mornings."

Benjamin Franklin "Father of American Diplomacy". AMERICA has never produced a greater statesman than Franklin, who was revered by the people second only to Washington. He was a signer of both the Declaration of Independence and the Constitution of the United States, and his wisdom made the latter a possibility. The great Lord Chatham pronounced him not only an honor to the Anglo-Saxon people, but to human nature. In every capital of Europe he was a welcome guest, and he was who induced France to lend us ships, men and money during the darkest days of the Revolution. Upon his death Congress ordered a general mourning of a month. In France it was decreed that all members of the national assembly should wear mourning for three days. So long as Americans treasure the Republic and Personal Liberty as the noblest of all human blessings, the fame of Franklin can never perish. Personally he was possessed of robust health; he was a well-shaped man, of a wise but merry nature; he had the head of a Greek philosopher while his grace, his noble bearing and winning personality made him a conspicuous figure in any assemblage of great men. He was a moderate user all his lifetime of Old Madeira and barley-malt brews. It is safe to say that he toasted the New Republic with every great man of Europe and America. Franklin considered his work in building the Commonwealth his greatest service to posterity. Upon the self-evident declaration of the Constitution of the United States, Anheuser-Busch 49 years ago launched his gigantic institution. To-day, wherever Americans go for health, or business, or pleasure, their famed brand BUDWEISER is there. Its popularity, due to its quality, purity, mildness and exquisite flavor, has daily grown in public favor until 7,000 people are constantly employed to keep pace with the ever-increasing demand. When in St. Louis visit the home of BUDWEISER. ANHEUSER-BUSCH, ST. LOUIS, U.S.A.

ST. JOHN BOYS OF 23RD BATTERY OFF TO FRANCE TO FIGHT

Frank Jennings Sends Word From Shorncliffe—Also Tells of Other Local Soldiers—Major Magee Praised

"The last week has seen some wonderful changes in our old brigade," writes Q. M. S. Frank Jennings to his mother, Mrs. P. L. Jennings, East St. John, from Shorncliffe, England. "Of the 181 men who came over with the 23rd Battery, but a few remain here. The rest, I suppose, are now at our base in France. Before the draft left we had in our battery about 800 men—we are now down to about 180 or so, and all our St. John boys with the exception of Sergt. Major Patchell and Harry Holman, are gone. They left on Thursday and it has certainly been lonesome here since then, although there has been plenty of work to keep us busy.

"Sergt. Gustave Kuhring, Corp. Jack Hipwell, Bomb-Chief, Merritt, Bomb, Herb. Geyer, and Tom Gowman are all away. Major McKay, our O. C. has gone in charge of the draft. I have now made Brigadier Q. M. S. Sergeant in charge of guns and gun stores, which will mean that I will go over to the big headquarters at this week.

"Southeast Kent is a regular little Canada these times, and within a radius of five or six miles there must be fully 15,000 or 20,000 Canadian troops. I was talking last week with Charlie Malouin, the doctor's brother, and 'Standy' Ross, from East St. John, both of whom are here with the 3rd. (McGill) General Hospital. Both seem to be enjoying life as it comes to us here. I also saw Don Campbell, who was in Fredericton when we left, and came over here with the artillery park, which arrived last week. I had a note the other day from Frank O'Brien of the North End, who came over with the 21st Battalion as signal sergeant, but have not yet seen him. They are located about five miles from here."

Q. M. S. Jennings speaks of Lieut. T. E. Ryder of St. John's joining his battery. He also spoke of a Sergt. Collins having been attached after having been wounded in France. While taking up ammunition to his battery at night his horse went into a hole made by a "Jack Johnson" and he had his leg broken. Sergt. Collins said that all St. John men were doing well and spoke particularly of Major Magee, who had made a name for himself at the front.

GETS HIGH POST IN Y. M. C. A. IN WASHINGTON

George R. Keith, Formerly of Havelock, N. B.—Sister Lives Here

George Reese Keith of Havelock Kings County, was on June 7 placed in charge of the publicity and promotion work of the twenty-four Young Men's Christian Associations in the State of Washington. This is one of the most rapid promotions ever made in the rank of the association.

A year ago Mr. Keith joined the staff of the Seattle Association, which boasts of being the 8th largest institution of its kind in the world. Spectacular work persistently kept up won for him the new position in the face of keen competition among local secretaries on the Pacific Coast.

Mr. Keith's strongest recommendation was the fact that he had considerable newspaper experience, and was held in high regard by the newspapers with whom he had come into contact. In a recent seven days' campaign for membership supremacy between the Seattle association and the one located at Portland, Oregon, the Seattle Y. M. C. A. for the first time in its history moved its rival under, obtaining in the seven days a total of 1,200 new members, the most successful membership campaign ever had in American northwest. The victory was attributed to the support obtained through Keith, from the four Seattle dailies.

In personal work he also out-distanced any twenty-five other workers, obtaining single handed more than 800 new members. Since then scores of offers have come to him from other institutions and the present one has been under consideration for more than five months.

Mr. Keith is the son of Mr. and Mrs. Joshua M. Keith, of Havelock, one of the best known families in the district. He attended the Havelock High School and the Pettoctadic High School. Mr. Keith has a sister, Miss Elizabeth. Later he went to the Fredericton Provincial Normal school, where he was editor-in-chief of the Student paper. Later he taught at Sussex, and was for some time principal of the Harcourt High School. He is well known in western Canada where he was engaged in educational work in all three of the prairie provinces obtaining considerable attention because of his political activities during the reciprocity fight.

He is only twenty-six years old and was promoted over the heads of several men a great many years older. On entering his new duties he said that since he had left home eight years ago, he had not had a single vacation and had planned to take one this year to go east to his parents, but the demands of the new office compelled him to go without any holidays until at least late in the year.

Keith has a sister, Miss Elizabeth L. L. Keith, living at 27 Garden street, St. John.

THE K. OF C. STATE COUNCIL

Members of St. John Council, 387, Knights of Columbus, who have been in attendance at the annual state convention, returned home from Halifax last evening. The convention was well attended, and many matters of importance were discussed. In addition to the business sessions, there was a good programme of entertainment, including a tour to objects of interest about the city, a harbor excursion, and a musical evening. W. J. Mahoney, grand knight of St. John council, was present as a local delegate, while W. M. Ryan, Andrew Dean, and others were present at the exemplification of degrees. The "third degree" was exemplified by G. H. Bolvin, M. P. of Quebec.

Among the resolutions was one pertaining to members who have joined the colors since the outbreak of war, worded as follows:

"Whereas the Empire of which we are proud to be the loyal subjects is engaged in a stupendous struggle for existence, a struggle unparalleled both for the ferocity with which it is being waged, and the inhuman treatment accorded non-combatants, and the innocent and helpless who are being slaughtered; and whereas the call to arms has been joyfully answered by members of our order in this jurisdiction, who felt that their citizenship demanded that they enlist to serve King and country;

"Therefore resolved that we, assembled in state council, heartily approve of the action of subordinate councils in paying all dues and assessments of such members for the duration of the war; and we further bespeak for the various patriotic and charitable funds your generous and cordial support."

A WORD AS TO THE LOCAL PATRIOTIC FUND

In a letter to the press G. B. Allan, secretary of the Canadian Patriotic Fund (draws attention to a case recently before the police court in which a heavy sentence was imposed on Mrs. Charles Carlin, of 72 Camden street, for an attempt to secure from the fund money to which she was not entitled. He says:—

"This was prevented by our system of identification, showing the necessity of those receiving money from this fund preserving their identification cards. I would also like to point out that there have been cases where people have accepted and cashed checks to which they were not entitled. The patriotic fund as well as separation allowance is intended for the families and dependents of soldiers now serving, and the relatives of soldiers who have left the service are running great risks in accepting and using money to which they are not entitled after the soldier's name has been struck off the rolls of the battalion to which he belonged. I would suggest that any of this class should immediately return checks of this nature to this office."

Mr. Allan now has his office in the Globe-Atlantic building through the courtesy of the owners.
