MAYOR OF CORK  
NEAR THE END IN  
BRISTON PRISON

Brighter This Morning But  
Very Weak

More Trouble in Belfast  
Region, With Serious Clashes  
—Various Reports on the  
Irish Situation.

London, Aug. 26.—Terence MacSwiney, lord mayor of Cork, despite two serious collapses last night due to his critical condition resulting from his hunger strike in Briston prison, was brighter this morning when visited by Father Dominic, his private chaplain. However, he was too weak to speak more than a few words. Mayor MacSwiney's visitors also included his two sisters and Bishop Cahalane of Cork.

It was said officially today that thirteen policemen were injured, more seriously during last night's disturbances outside Briston prison, when a crowd engaged in a free fight with the police.

When told last night of King George's telegram replying to the appeal of Lord Howard, nephew of the late John Redmond, urging a cessation of Irish hunger strikers, Father Dominic said: "I am glad, but I am afraid it is too late to hope for the lord mayor's recovery now. He is resigned to his fate."

Sinn Fein Statement.

Dublin, Aug. 26.—"Young Ireland," organ of the Sinn Fein, will announce in this week's issue that the Dublin Castle authorities, after consultation with the premier's office in London, have decided that Irish political prisoners are to be taken to England and tried before an English judge and an English jury.

The newspaper recalls that the Sinn Fein parliament of last year, seeking its sympathy and explaining their reasons for the foreign office announced today that the Polish victory had not changed the attitude of Poland on the question of peace and that the Polish delegates at Minsk were seeking all means to end the quarrel with the Soviets.

The foreign office reiterated that Poland was not fighting the Russian nation but only Bolshevism.

Warsaw, Aug. 26.—The question of the treaty of the Russo-Polish peace is being shifted from Minsk to some other city has been under the government's consideration.

Paris, Aug. 26.—The Russian Soviet government is prepared to withdraw the clause in the Soviet peace terms to Poland concerning the formation of an armed militia of 200,000 workmen in Poland, says a Moscow despatch.

The Moscow government insists that the peace negotiations must be discussed with Poland absolutely.

Dublin, Aug. 26.—Arthur Griffith, founder of the Irish moderate party, was adopted a resolution looking to full national self-government for Ireland.

The former unionists, who chiefly composed the meeting have taken longer steps in absolute autonomy than they will take from legislative autonomy to full acceptance of a republic.

It is a political force is dead; the Sinn Fein has killed it. The slave mind in Ireland has been killed, but they have made Ireland's leaders, but they have made sure that she will never prevail against the Irish nation.

Dublin, Aug. 26.—Arthur Griffith, "father of the Irish moderate party," has sent the following cablegram to President Wilson and the heads of all the governments:

MAY BE APPOINTED TO THE SENATE

Hon. J. D. Reid, M. P., Greenville, minister of railways and canals, named in connection with one of the two Ontario senate vacancies.

Hon. J. D. Reid, M. P., Greenville, minister of railways and canals, named in connection with one of the two Ontario senate vacancies.

As Hiram Sees It

"Mrs. Hiram is a bit," said the Times reporter, as he pointed the man on his postcard at breakfast, "the wife who has become great friends since I came to the settlement. It is the wife who had at me in a friendly way along the way, and she has now applied to fall from that August tree in the province."

"There's apples," said Hiram, "mixed with bog cranberries, makes the best jelly, you ever tasted. An' they've been growing on that tree for fifty years."

"I'll let you try 'em in an apple pie for dinner," said Mrs. Hiram. "Help yourself, now, to them pancakes."

"Trust me," said the reporter, "but he blew hard last night, and the wireless screen of my window was in a peculiar way. He had other things to do, and I fell into the trap. I was not to be taken in by the old fellow. He was a good sport, and his agitation was young people, and their agitation was young people, and their agitation was young people."

"He isn't always so good-natured," said Mrs. Hiram. "He nearly ruined a lot of clothes for me last week. An' when fall comes an' he goes up into the north-east to get a good start, said Hiram, 'you'll want to be layed around in no hammock while the tree's a log in the fireplace.'"

"You s'nt seen Hiram in a tantrum yet?" said the reporter. "You s'nt seen Hiram in a tantrum yet?" said the reporter. "You s'nt seen Hiram in a tantrum yet?" said the reporter.

May Attack on Polish Centre  
While Other Retreating  
Armies Are Being Pursued  
—Red Commander Says  
They Will Soon Be  
Stronger Than Ever.

London, Aug. 25.—It is announced that Polish troops yesterday after hard fighting captured the fortress of Ostrozhka, twenty-two miles southwest of Lomsa, and forced a passage of the Narew River.

Warsaw, Aug. 26.—Russian Soviet reserves are reported being brought up on the southern front in great numbers, according to information in the hands of the Polish General Staff. Reserves some distance behind the Bolshevik north front also are being brought up.

It is believed that the Bolsheviks will continue their pursuit of the retreating Polish armies eastward from Grodno on the northern front. Reports today continued to tell of Polish forces closely pursuing the retreating Bolsheviks on various fronts.

Red Chief Optimistic.

London, Aug. 26.—"We have drawn back, but we will keep our forces intact, and in ten days we will be back in the hands of the Bolsheviks," said Gen. Tuchatschewski, commander-in-chief of the Bolshevik army on the Polish front.

Warsaw, Aug. 26.—Remnants of the Polish army, which were cut off in cutting their way through the forest at the last night's fighting, are regrouping in making their way out of Mlawa. On the central front the Poles have carried out a flanking movement to the north and have taken the town of Mlawa.

Reports are that the 5th Bolshevik division has been called from Grodno to attempt to drive the Poles out of Mlawa.

Belin, Aug. 26.—The capture of Bialystok by the Poles means the end of the Russian brigade and fifteen armies, so a Russian brigade commander at Friedland, East Prussia, is expected today and tomorrow to retreat along the whole front at the rate of sixty versts a day.

According to information here, it is believed that the Russians will make their next stand at the Niemen line.

In the course of an editorial the Allgemeine Zeitung says: "There is one thing to be said in this and that is the Russian winter. It is believed that 'Bolshevism will now strip to the buff for a final fight.'"

Five Hundred Former Soldiers Stranded — Ad Used Unemployed to Keep 'rom England.

Ottawa, Aug. 26.—Hon. J. A. Calder, minister of immigration and president of the privy council, who is in England, has cabled the department of immigration to the effect that there are now 500 Canadian ex-soldiers in London who are unable to get employment and who have no means of returning to Canada.

Mr. Calder emphasized the point that that unemployed men had better stay away from the mother country.

POLICE COURT

While walking along Mill street last evening about 9 o'clock inspectors Merryfield and White saw two men, one of whom they thought under the influence of liquor. They found a bottle of liquor on George Baxter and the man who was thought under the influence of liquor.

They brought to the police station. He appeared in court this morning pleaded guilty and was remanded. Baxter, who it was said, was to have been in court but was not arrested, did not appear, and it was said and proceedings would be taken.

POLISH PEACE  
PRESIDENT TO  
BREST-LITOVSK

Warsaw, Aug. 26.—M. Dombkowski, president of the Polish-Minsk peace delegation, has been called to Brest-Litovsk to confer with Polish government representatives.

There is much speculation here concerning the outcome of the Minsk conference, some of the newspapers already hinting there will be no results chiefly because of the attitude of the Soviet representatives assumed from the beginning.

The foreign office announced today that the Polish victory had not changed the attitude of Poland on the question of peace and that the Polish delegates at Minsk were seeking all means to end the quarrel with the Soviets.

The foreign office reiterated that Poland was not fighting the Russian nation but only Bolshevism.

Warsaw, Aug. 26.—The question of the treaty of the Russo-Polish peace is being shifted from Minsk to some other city has been under the government's consideration.

Dublin, Aug. 26.—Arthur Griffith, "father of the Irish moderate party," has sent the following cablegram to President Wilson and the heads of all the governments:

"I inform you that the Lord Mayor of Cork and deputy elected deputy for the county of Cork, Ireland, was recently seized by the armed forces of England, arraigned before English military officers and forcibly deported from this country in an English war vessel, and is now in imminent danger of death in Briston prison, London. I recall to your excellency the declaration made by the heads of the Allied and neutral states when the burgomaster of Brussels was treated with a lesser indignity and harshness."

Montreal, Aug. 26.—The Self-Determination League of Canada last night sent a cablegram to Premier Lloyd George stating that "speaking for the Irish population of the province of Quebec," it "protests against the action of your cabinet in refusing to release Terence MacSwiney, Lord Mayor of Cork, from prison and will hold you and your cabinet personally responsible for the crime of murder if he is permitted to die." This is signed by H. J. Stafford, provincial secretary.

Delegates were elected to attend a Quebec provincial convention in Quebec on Saturday.

Premier Lloyd George is said to have refused an interview at Lucerne to former King Constantine of Greece.

Employees of the American Corporation's plant in Hamilton, Ont., went on strike yesterday over wages and working conditions. The company's headquarters are at Newark, N. J.

The Federation of University Women's Clubs in Canada is in session in Toronto. A plea for an international tribunal of justice to secure world order, freedom and peace was made by Viscount Lathom in an address last night before the convention of the American Bar Association in St. Louis.

It is said that the German chancellor and minister of foreign affairs have refused the German frontier, having failed to obtain an interview with Lloyd George.

Sir Hamar Greenwood, chief secretary for Ireland, is expected at Lucerne tomorrow to discuss the Irish situation with the British premier.

Persian Cossacks have captured Rehat, Persia, on the Caspian Sea, from the Bolsheviks, which still maintains a gigantic organization in Europe, is employing as many stranded ex-soldiers as it can, but complaints have already been heard in Washington about "armchair" jobs over here, and many who are returning to the U. S. fall to find it.

The American Legion can't do more than make futile hunt for jobs for them. Two reasons are given by the ex-soldiers for returning to France. First, they "want to see" their families; second, they want to buy a drink, and second, they want to marry French girls. The last is the excuse heard oftenest.

He leaves his present four sisters, Mrs. Stanley Golding of California, Mrs. Ora Price of Michigan, Miss Estella of Ontario, and Miss Winifred at home, also four brothers, Ernest, Hedley, Albert and Arthur, all of Northern Ontario, and will take place on Friday from the Baptist church and interment will be made in Riverbank cemetery.

## UPHOLDS CANADA'S RESTRICTION OF PULP EXPORTS

Laurentide's Chief Forester Addresses Convention

Says Agitators Trying to Stir Up Trouble Between United States and Canada—Conservation a Wise and Necessary Move.

New London, N. H., Aug. 26.—(By Canadian Press)—A strong defense of Canada's policy in limiting the exportation of pulpwood to the United States was made today by Eliwood Wilson, chief forester of the Laurentide Company of Grand Mere, Que., before the forestry convention which is being held under the auspices of the Society for the Protection of New Hampshire forests. Mr. Wilson declared that the interests which were raising an agitation in the United States in the hope of compelling Canada to withdraw or modify her pulpwood embargo have misrepresented the situation and "have deliberately tried to stir up trouble between the two countries." He pointed out that the state of New York had forbidden any cutting whatever on state timber lands and declared that if that were permissible in the United States surely the Canadian provinces were within their rights in regulating the cutting and manufacture of wood from their crown lands. After summarizing the timber regulations of the dominion, Mr. Wilson paid a tribute to the provincial governments, and particularly to that of Quebec, for their policy regarding the conservation of the country's forestry resources. "As a very large part of the Province of Quebec is non-agricultural land and can never be used for anything except forestry," he said, "it is a very wise move on the part of the government to make every effort to conserve its raw material and to build up an industry based on the great natural resources of the forests. In doing so the government is entirely within its rights and should, by all means, be commended and encouraged in such a policy. It would be very foolish indeed for the Quebec government, or any of the Canadian govern-

ments, to allow unmanufactured wood to cross the border only to build up mills at a great distance from the forests, greatly to the detriment of the local population.

"Americans and other foreigners have from time to time purchased timber licenses, and have never been disturbed in the exercise of their rights. At the time the law was amended, requiring the manufacture of timber in Canada, there was practically no opposition whatever on the part of license holders, either native or foreign, and several mills were built with outside capital.

"Prehold lands, that is, lands which have been granted outright to settlers or others, are not subject to the manufacturing clause restriction, and wood cut on these lands can be exported or handled in any which the owner sees fit. It is certainly entirely within the rights of the government to say what shall be done with the timber cut on its own lands and it is not in any way overreaching its powers when it requires it to be manufactured on the Canadian side of the line.

"Several American firms, who purchased timber licenses, with an eye to the future, looking forward to the time when they would either have exhausted their own supplies or when it would be more convenient or profitable for them to manufacture nearer their source of supply in Canada. Some of these companies, without any protest whatever, came up here and decided to build mills so as to be near their supply of raw material and cheap water power, and have been manufacturing very successfully and sharing in the prosperity of the pulp and paper industry.

"Most of the agitation for bringing out crown lands wood to the United States has come from one company which has been manufacturing lumber for a number of years from their Canadian timber lands, and who, before they started the agitation, made plans and commenced to build a mill in Canada. The small group of Americans which have agitated for the free export of crown lands timber to the United States have not a single word to say in their own defense. They have deliberately tried to stir up trouble between the two countries and they will find that, as always, such methods will react unfavorably to their ends.

for this company and others in New York state to carry on an agitation compelling the state of New York to allow them to cut timber in the forest reserves before they begin to agitate for the removal of the manufacturing clause from the Quebec law.

"If New York has the right to take up timberland and forbid any cutting whatever on its timberland, it is equally within its rights to frame some national and state policies from the proper conservation and exploitation of the resources of its timberland, and having wasted its own birthright, it should now attempt to utilize Canadian forests in the same way."

## MORE BUTTER FAT FROM FEWER COWS

Danish Farmers Obtain Wonderful Results by Careful Selection.

According to the Smor Tidende, there was a reduction in the number of milk cows in Denmark of about 22 per cent. during the war time, caused by scarcity of fodder, home grown and foreign. Since peace was restored in Europe the number has been slowly increasing, but the total increase is estimated to be only some 2 per cent. With only 80 per cent. of the number of dairy cows we had in 1914, we are today producing the same quantity of butter as in 1914. This astonishing result has been brought about by the farmers' careful selection of the animals that were good milkers and should be retained for the dairy industry while the bad milkers were sold for butchering. This policy has brought about the result that the stock of dairy cows in Denmark to-day is the best we ever had.

The production of butter in Denmark has recently been about 42,000 cases weekly; a single week it reached even 45,000 cases. Notwithstanding the reduction of the number of domestic cattle during the years of war, production of butter has at the present moment reached the same quality as in pre-war times, corresponding period of the year.

It has come to the attention of W. H. McClary, provincial tax inspector that certain automobile owners have been using fictitious license tags on their cars. Several owners have been caught at this practice and the inspector wishes it understood that any further violations will be fully prosecuted.

## LITTLE GIRLS' BAZAAR.

The work of six little girls yesterday afternoon has made the Protestant Orphan Home, in this city, richer by the sum of \$48. These little girls, of their own accord, held a bazaar in the yard adjoining the house of J. H. Crockett, 961 Union street, and disposed of candy, ice cream, fancy work and numerous other little things to the neighbors who, anxious to help the good cause along, spent their money freely. The little girls feel very proud of their work and had very excellent results. Two bazaars were held in former years when Mr. Crockett resided in High street. The little girls taking part were Misses Margaret and Dorothy Crockett, Sadie Kirkpatrick and Lillian Lawrence.

A POOR STORY.

An attempt to make political capital out of anti-British feeling among certain American elements is to be seen in the Chicago story that British money has been employed to help along the Democratic campaign.

The story is preposterous, like many others which spring up among Americans in a presidential year. The British government lives up to old British traditions and its honorable policy is to keep aloof from American politics.

It is a foolish endeavor on the part of anti-British elements in the United States not to all in one party, and fortunately both platforms avoided delicate bids for their support.

thousand. In New York City, he says, 786 in every thousand are foreigners, and in many other centres where the steel trade and coal mining is important there are like conditions.

These American conditions are worth study by the Dominion government. From this time forward, Canada, which needs immigrants to make its vacant land productive, will be receiving an increasing army of newcomers year by year.

It is a foolish endeavor on the part of anti-British elements in the United States not to all in one party, and fortunately both platforms avoided delicate bids for their support.

PIONEER ROADMAKING. In the closing days of August, 1804, Lord Selkirk, a great explorer of Western Canada, made a proposal to the executive of Upper Canada to construct a wagon road through what is now the heart of the Province of Ontario.

His offer was made formally to General Hunter on Aug. 30. Hunter was then the governor of Upper Canada. He offered to build a road from the Grand River to Amherstburg, which he estimated would cost about £20,000.

The colony, of course, was not in a position to pay such a bill, but Lord Selkirk offered to accept wild lands in payment on each side of the highway.

**FORTUNES FROM VOLUNTEER WHEAT**

Crop Grown from Seeds Which Fall in Harvest. One-Sixth of Total.

(Associated Press Correspondence.)  
Topsels, Kans., Aug. 24—Stories of sudden wealth in the Kansas wheat belt are numerous this year, due to the unusual average of "volunteer wheat," a crop grown from seeds which fall in the previous harvesting. Officially estimated there was 1,500,000 acres of volunteer wheat in Kansas this year, or about a sixth of the total harvested acreage. This wheat yielded probably 40,000,000 bushels of "representing a monetary value of about \$100,000,000. The total Kansas crop of wheat is estimated officially at 180,000,000 bushels. The large acreage of volunteer wheat is due to the fact that a great deal of this acreage was deserted as wheat, land by the owners, after the year's normal bountiful crop had been harvested. The 1919 average was in excess of 11,000,000, by far the record for any state in the union. A wet fall caused the kernels of wheat which had fallen to the ground during the harvesting to germinate. "Finding the 'volunteer' crop making a stand, farmers did not disturb the growth and, with ideal weather this spring, the volunteer wheat made yields fully as bountiful as the rest of the crop.

Unnumerable stories of "deserted acreages," producing \$5,000 to \$25,000 worth of wheat crops from western Kansas where the bulk of the volunteer wheat was grown. Others tell of farmers who purchased a farm this year and paid for them with the returns of this year's wheat harvest. Illustrating the "sudden wealth" given throughout the western Kansas counties, where land has been cheap and favorable seasons few and far between, a recent canvass of wheat yields in the vicinity of Oakley, a small town 60 miles east of the Colorado line, in Logan county, showed at least 50 farmers whose wheat crops this year are worth more than \$50,000 each; at least 25 have more than \$15,000 of wheat each and every farmer has a good crop. Thirteen counties, most of them of northwest Kansas, this year are yielding 48,701,887 bushels of wheat, according to the latest official estimate by the state board of agriculture.

The one big drawback to the Kansas wheat growers prosperity this year is the lack of facilities in which to transport their wheat to the market centres. Cists still are scarce, especially in the central and western parts of the state but the situation is not as desperate as it was two months ago, grain dealers report.

Favorable summer rains have practically assured a big corn crop in Kansas this season. The crop has been officially estimated at 240,000,000 bushels and the official forecasts now assert that the continued favorable weather means the yield will mount still higher. The Kansas weather bureau here reported that it is the first year in its 38 years existence that Kansas had "bumper" wheat and corn crops the same year. A banker who has lived in Kansas 22 years, is authority for the statement that in that time, such a favorable crop combination never before occurred.

Similar conditions prevail with the oats and barley crops which have been harvested. The state raised 20,000,000 bushels of barley—four times the average annual yield of the last 20 years. Alfalfa and grain sorghums, to which millions of acres are devoted in Kansas, likewise are producing bountiful crops. Kaw valley potato growers report one of the best crops ever grown. As one editor of western Kansas puts it: "The horn of plenty appears to have been dumped right into the lap of Kansas this year."

**RECENT DEATHS**

The death occurred at Brunswick, Australia, on July 16 of Robert Brooks Peters, son of the late Benjamin L. Peters. Mr. Peters is survived by one daughter, Marrienne, wife of James H. Fritchard, and one son, Robert Brooks Peters, who resides at Altonville, Richard River, New South Wales.

The death of William Sheehan took place last night at the residence of his daughter, Mrs. Charles Connolly, 84 Exmouth street. He was seventy years of age and is survived by three daughters and two sons. The daughters are Mrs. Charles Connolly, Mrs. Frank Nugent and Miss Nellie, of this city, and the sons are James, of this city, and William, of Boston. He also leaves two brothers, John and Humphry, and one sister, Mrs. Catharine Monahan. The funeral will be held on Friday afternoon at 2:30 from the residence of his daughter, Mrs. Charles Connolly, 84 Exmouth street.

Jim McMillan, a native of Nova Scotia, aged thirty-eight years, accidentally shot and killed himself while on a fishing trip with Dr. McIntosh Bell on Lake Temiskaming, Quebec. Dr. Bell became separated from his companion and he fired a shot to get his location and in answer he heard another shot but in a few minutes found the dead body of his friend. The young man lived with his mother in North Cobalt.

Liberal Leader Well Pleased With His Fortnight Campaign

Hon. W. L. Mackenzie King Thinks Success of Farmers in Federal Elections Will Not Be As Great As In Provincial Contests.

Queensville, Ont., Aug. 25.—Hon. W. L. Mackenzie King completed his series of public meetings in North York here last night and left today for Renfrew where he speaks on Thursday. The Liberal leader expressed himself as being exceedingly well pleased with the two weeks' campaign. He has addressed at least 7,000 constituents at the nine meetings that have been held in the riding and met scores of others who were unable to attend.

U.S. OPINION OF ST. LAWRENCE CANAL PROJECT

Many Objections, But General Opinion That It Will Be Realized—Fear for New York Trade.

(By Canadian Press.) New York, Aug. 25.—While the attitude of the people of New York city and state towards the proposed St. Lawrence deep water ship canal project continues to be one of hostility, due largely to the fear that the new highway to the sea would in some way interfere with the natural prerogatives of New York harbor, there appears at the present time to be a tendency to accept the inevitable, and to regard the St. Lawrence project as one certain to be carried to realization.

This point of view was expressed in a recent editorial in the Sun and New York Herald. The newspaper said: "Plans for the development of the upper St. Lawrence to provide for an open waterway from the Great Lakes to the ocean are maturing rapidly. With all Canada backing the great scheme, and with strong support from the grain growing western states of the Union, it seems not improbable that it will soon be pushed through to completion. Before another half decade has passed ocean-going vessels may be sailing from Chicago or Duluth directly for Paris or Rio de Janeiro or Sydney."

The advantages of cutting away the barriers between America's inland seas and the Atlantic are visible. To do so obviates the necessity for overland transportation. The grain and most of the northwest may be shipped at nearby lake ports and carried without interruption to foreign markets in all parts of the world.

On the other hand many objections present themselves. New York State has expended first and last \$200,000,000 on her own system of inland waterways. Many of her people look with disfavor upon the appropriation by the United States of large sums for a project which they believe can but divert commerce along other channels and injure not only the barge canal but the port of New York city.

"It is contended also that it would be unwise to develop an outlet for American goods through foreign territory and thus create for the United States a situation similar to that in Belgium, where the commerce of the principal seaport, Antwerp, has exodus to the ocean only through Dutch waters, the estuary of the Scheldt. No matter how friendly the relations between this country and Canada it would be unwise, they say, to plan deliberately to thrust through her territory a vast artery of American trade."

"Still other opponents of the plan contend that it will result only in a waste of money. They point out that the St. Lawrence is ice choked for several months of the year, making winter commerce impossible; that the long delays of a journey through locks and the narrow circuitous channel of the river would be expensive and troublesome; that the ocean passage from the mouth of the St. Lawrence to Europe is endangered by icebergs. The properly in the near future. It will then be possible to test the prophecies both of its friends and opponents. Of this, however, we may even now be sure. The new project will not injure with finality the port of New York. The prosperity and greatness of this city and harbor are the result not only of geographic advantages but of centuries of business foresight and energy. No new scheme of transportation, no new outlet for the West, can seriously impede its supremacy."

FRANCIS WEIRATH, foreman at Goodrich Rubber Co., Akron, Ohio, who declares he has improved so since taking Tanlac that no one would ever take him to be the same man. Says he gained fourteen pounds.

Mr. King said that, from their local viewpoint, the success of the farmers in the next general election might seem to be just as great as the provincial elections in Ontario, but that such would not be the case.

He addressed many of the U. F. O. candidates was due in no small measure to the votes of Liberals who turned in and helped.

HELPING CHINA FIGHT CHOLERA

U. S. Medical Missionaries at Work in Szechuan.

New York, Aug. 25.—Associated Press Correspondence.—American Baptist medical missionaries and students from the Union University Missionary Medical School are aiding the Chinese authorities in fighting a severe cholera epidemic in Chengtu, Szechuan Province, West China. W. P. Lippard, secretary of the American Baptist Foreign Missionary Society, Chicago, said that the Chinese doctors of the Pasteur Institute and Dr. Morse and Dr. Allan, of the China Medical Missionary Association, are helping to fight the epidemic. The officials accepted the advice of these medical men and placed Chengtu with instructions for preventive measures. Dr. Morse's message stated: "We are here where plague and epidemic diseases are rampant. The Chinese American nation would spend millions of dollars to buy a few hundred thousands of men can kill the bacteria before it can raise its head above the surface. We are doing what we can with an inadequate force and little money, but we are putting our schools and pupils to a very real test and will win out."

FRENCH RELATIONS ARE NOT CRITICAL

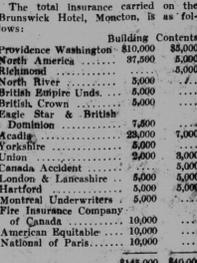

Lord Burnham Says There is Little Cause for Alarm. Vancouver, B.C., Aug. 25.—(Canadian Press)—There is little cause for alarm in the reports that friendly relations between France and Great Britain are being strained almost to the breaking point, Lord Burnham told the Canadian Club of Vancouver today, at luncheon at the Imperial Press Conference here, which he presided over. He said that the reports are highly colored, but that there are difficulties, but that these are being met by a process of distillation. He said that the French policy and joint action as ever there was, but that there are many difficulties to be overcome in the French policy, but that he is persuaded that we need not have the least fear that the friendship of the two peoples will suffer.

MRS. BAXTER NOT GUILTY

In the County Court yesterday Mrs. Annie Baxter was found not guilty of having stolen some cloth from a neighbor, Mrs. Addison in Brussels street, valued at about \$13. It was alleged that she had taken the cloth while the plaintiff was in hospital but no proof of this was given, and the verdict was found in favor of the defendant. Charles E. Dalton and Capt. W. R. **BOLSHEVIKI AS ENEMIES OF DEMOCRACY**

Address by British Ambassador to American Bar Association.

St. Louis, Aug. 25.—The Bolsheviki were pictured as enemies of democracy, of Lincoln's ideal government of the people, by the people, in an address by Sir Auckland Geddes, delivered before the American Bar Association's annual convention here today. The British ambassador declared that the Bolsheviki were the real reactionaries endeavoring to establish a privileged class called the proletariat to force on society a great idea, regardless of whether society wanted it.

## MONEY AND THE MARKETS

### Somewhat More Rapid Grain Movement

The following statement regarding current market conditions is sent by the National Bank of Commerce in New York under date of Aug. 9.

The gradual improvement of transportation which has been effected during recent weeks has permitted a somewhat more rapid movement of grain than had been anticipated. Consequently the hold-over from the preceding year has in good measure been cared for and the new crop-moving season has begun on schedule and under more favorable conditions than seemed possible a month ago. It is reported from some sections of the middle west that bank loans to finance the actual harvesting of the new crops are being reduced at an earlier date than is usually the case. While the credit requirements of the new movement will not reach maximum volume for some time to come, and while easier credit cannot be expected until the peak of the movement has passed, the situation has improved sufficiently to make reasonably clear that the autumn agricultural demands for credit will not be in excess of the ability of the banks to supply.

There are indications also that many commercial borrowers, in response to expectations of a credit stringency during the fall which have prevailed for many months, have at least to some extent anticipated their autumn requirements by the continued tendency toward reduced volume of business and lower prices for many commodities, which are expected to relieve the pressure of commercial and industrial credit requirements. It must be recognized, however, that some little time will be necessary for this relief to make itself manifest, because of the interval which must elapse before a new policy in business brings results.

### Money Rates.

Rates in the New York money market have ruled steady throughout the period of July 16-August 15. Commercial borrowings in the open market have continued at a firm level of 9 per cent. Call money rates, which ruled at 9 per cent at the beginning of the period, gradually declined to about 8 per cent at its close. This decline has reflected, not a surplus of funds available for stock exchange employments but the reduced volume of requirements resulting from continued stock liquidation.

### Securities.

The bond market has experienced a real measure of improvement during the period under review. The absorption by investors of corporate and particularly of railroad securities has been good and has extended to bonds of the second and third grade. The general trend of prices, moreover, has been moderately upward.

This improvement in tone is a reflection of the more definite and improved position of the railroads which will result from the settlement of the railroad wage question and the allowance of substantially increased freight and passenger rates by the Interstate Commerce Commission. It reflects, also, a feeling that the readjustment of business and prices to a more normal level is proceeding satisfactorily and that this process

### Altered Wagon—and Multiplied Trade by Six

Bommer Bros., in Hamilton, Pa., report that they do more business now in one day than they did in a whole week before they added to their equipment a traveling refrigerator wagon to deliver fresh meats and groceries to patrons who never come to the Bommer store.

According to his directions, Kay lined the bottom of the 42 by 60 wagon box with galvanized metal sheeting, extended it up the sides for eighteen inches and up the back and front for the same height. The joints were soldered and a water tight box, lining the wagon box, was thus provided. Glass lids were made, with hinges attached to the sides and these were put on top of the box, the arrangement making it possible for the whole interior to be exposed by the throwing back of the lids, which, when raised, rested against the sides of the wagon. Inside the metal-lined box two ice chests were placed, 12x12x18 inches. One was put on the right-hand side back of the driver and the other on the left at the tailboard. A drain pipe to tap the water from the ice chests as the contents melt was put under the wagon body and a "goose-neck" on this acting on the same principle as in house-

## A Time for Quality

There was a time when a man could take a chance on a "cheap" suit—costs were low—and some sort of wear could be obtained from it. But not now. You must insist on quality. It is mighty poor judgment to skimp your suit expenditure at the beginning—and be sorry at the end.

hold plumbing, prevents hot air from the unbanked rocks entering the closed refrigerator-like wagon body and raising the temperature of the air therein.

Bommer Bros. tried out the plan as an experiment, because they like to eat to see if they could not deliver the same kind of stock to the trade living too high from their market to come and buy right off the ice. They found they could do it, and also discovered the selling appeal of a display of meats, produce, soft drinks, reliable, canned goods and other articles arranged with the same care as is done in the central city stores had tremendous drawing power. The proceeds from the wagon trade of the past week have grown to the point where an average day's business is as good as that done in a whole week before the improvement was made.

They Motor Miles to Trade With Mrs. McGee

In a store where the rent is \$18 per month, located in an old wooden building, with plain glass windows instead of plate glass and almost without store fittings, Mrs. June McGee makes an excellent living from the sale of women's hats and furnishings and is educating a son in an eastern college.

Summer, Wash, has perhaps 1200 people, with a close-in farm population perhaps 1000 more. The village is prosperous, having four factories, which provide work for both men and women, but it is not the local trade that keeps Mrs. McGee and her shop assistants busy, but rather the city trade, which reaches her by automobile.

It is half an hour's ride from Tacoma on a paved road to Seattle, and while other local merchants complain of the people buy-picks in Summer and do their retail trading in the cities, Mrs. McGee rejoices that the city people come to her village store to trade.

The answer is that the McGee hats are city hats at a country price. The styles are city styles, but at the more moderate prices, which, with small overhead, are sufficient in the country shop.

## METHYLATED SPIRITS

(Denatured Alcohol)

DURING the last session of parliament, the Inland Revenue Act was amended so that the sale of Methylated Spirits (denatured alcohol) is no longer controlled and carried on by the Department of Inland Revenue.

Our Distillery at Corbyville, Ontario,—the largest Industrial Alcohol plant in the British Empire—is fully equipped and thoroughly organized to serve manufacturers who use Methylated Spirits or Denatured Alcohol.

We will be pleased to place at your disposal the advice of our chemists in regard to the use of specially denatured alcohol. One of these formulas may prove more suitable in your business than that which you are now using.

We also manufacture Ethyl Alcohol, Cologne Spirits, Fuel Oil and Non-Potable Alcohol. All orders received by us will be given the prompt and careful attention that only an organization such as ours can give.

MURRAY OF N.S. IS MODEST OLIGARCH

Has Ruled Nova Scotia for a Quarter-Century With Increasing Support.

GENIAL PERSONALITY Makes No Pretensions to Higher Statesmanship — Is Just Loved and Trusted.

By M. GRATTAN O'LEARY. THE HONORABLE GEORGE H. MURRAY, whose quarter-of-a-century old Government has weathered its sixth test of strength at the polls in an old-fashioned Liberal of the Whig school whose political temperament and outlook are the very antithesis of upper Canadian and Western radicalism.

Premier Murray of Nova Scotia.

Province, outside of Quebec, Nova Scotia has been, perhaps, the most conservative Province in Confederation. Until comparatively recent years, when radicalism first made its appearance in the labor districts of Cape Breton, the average Nova Scotian was either a Liberal or a Conservative, oblivious to new and strange political movements and theories, and suspicious of leaders displaying the slightest disposition to depart from the beaten path.

Not a Wrecker "Do you want me to begin my regime by wrecking my Government?" he is said to have asked a friend who, upon his accession to the Premiership, urged him to give the Province more progressive action.

And such has been the character of Murray's lengthy regime. He has not given Nova Scotia progressive government. He has not given it brilliant leadership. But, beyond question, he has given honest, efficient administration. In twenty-four years, during a time, too, when demonstrated corruption felled many another Government, not even a breath of scandal was heard against the Murray Ministry; and this in a Province where political strife is bitter and election passions run high.

COX'S ORGANIZER OLD KLONDYKER

Chairman of Democratic National Committee Is a Willing Fighter Against Odds.

ALASKA PETE WON

IN Congress half a dozen years ago they called him "Alaska Pete," but today he is George White, the new chairman of the Democratic National committee, and as such is manager of the Presidential campaign of Governor Cox. The name "Alaska Pete" came from the fact that White, just out of Princeton, joined the rush for gold twenty years ago in the Klondike, says The Sun and New York Tribune.

White got gold, too, more than \$100,000 worth of it, for that was the prize he set out for to win a girl with whom he had fallen in love, and who, by chance, happened to have a father who insisted that the man who married his daughter should be fully able to support her in the way to which she had been accustomed.

White went back to his room somewhat dejected, but he bought a paper on the way and read of the push to the Klondike. Gold, the paper said, was to be found all over Alaska. It would be easy, White figured, to pick up \$100,000 and hurry back to the states. He packed up his gear and departed.

Gold, however, wasn't that easy to find. It took him two and a half years, beginning in the summer of 1897, to get to the Klondike. It was two and a half years of hardship, of insufficient food, of frozen North of sickness. White wears the marks of it to-day, and although he is only forty-eight, he looks much older.

Strong on Concentration THERE is a slight stoop in his shoulders, much of his hair is gone, there are premature lines in his face and his complexion is weatherbeaten. With it all, however, there is a certain personal attractiveness about him, a sort of determined air and much earnestness. His ability to concentrate is marked.

REAL "UNCLE TOM" LIVED IN KENT

In Village in England are Descendants of Escaped Negro Slaves.

LEGIONS PRESERVED

By T. R. ELLIOTT. IT is a fact little known in this generation that in the town of Dresden, Kent County, there is a colony of negroes whose forebears were escaped slaves from the United States, and that among them are descendants of Josiah Henson, the undisputed original of "Uncle Tom," who gained immortality in Harriet Beecher Stowe's book "Uncle Tom's Cabin." The lot of the negroes at Dresden for a century and more has been vastly different from that of their forefathers, but many traditions and legends are still preserved of the early arrivals at the fugitive colony in Kent, and the grave of Uncle Tom may still be seen in the colored colony's cemetery.

The Vice-Presidency is Coming to the Fore in the Coming U.S. Election Both Parties Have Broken With Tradition by Picking Men Who are Qualified for High Office.

While Roosevelt was put on the ticket as an Administration man, he enjoys a peculiar distinction among the various gentlemen who can be so described. He has not shared in any of the anomalies that have been shown to the audience in the Administration. Both men are fairly good speakers, says a writer in the New York Sun, Coolidge has what looks and sounds like a thoughtful way of putting things, and in a sober sort of way he is epigrammatic. He frequently says things that stimulate thought in others. His manner is more that of the old-style political orator than Roosevelt's. His speeches have a good deal of tact, so far as the effect on the audience is concerned.

Fifty Years on the Hamilton Spectator

And Mr. Jas. R. Allan, Advertising Manager, Is Still Going Strong.

BY HAMILTON OLD BOY. WHY not decorations for long service in newspaperdom? There's James R. Allan, of the Hamilton Spectator. He has completed fifty years with the "great family journal"—the name applied to it by the late John Robson Cameron. Thinking of it—fifty years, useful, profitable years and continuous, too, Mr. Allan has been blessed with rare good health, which has enabled him to do his best for the paper he joined half a century ago, during the Lawrence-McCullough regime, as message boy.

Some of the old inhabitants are credited with saying that bashfulness, or some such form of masochistic reluctance, almost kept him from entering the field in which he has been so successful. After learning the job printer's art and taking a sally into the newspaper, he essayed the role of reporter for a brief period. Then came the turning point. He was offered the position of advertising solicitor. He hesitated; mistaking as to his ability to fill the bill almost overcome his desire to try, but he accepted, stuck to his guns and made good, building up an advertising patronage which to-day fairly gorges the "Spec's" pages.

He has always been quiet and unassuming; he is no thrasher of the jungle in staking his quarry; and no man in the newspaper business is more highly respected than the Spectator's advertising manager. Best of all, he looks good for many years yet, and his friends are confidently looking to see him celebrate his diamond year of service.

BASEBALL

Y. M. H. A. won again. The Y. M. H. A. team added to their record last evening when they again defeated the Telegraph-Times team on the 3rd street grounds. The score at the end of the seventh inning was 7 to 3. This was the fourth game in the series between these two teams, each team now having two wins to its credit.

Sammy Green was on the mound for the Y. M. H. A. and pitched a fine game. He was given excellent support at all times, the work of the outfielders being especially commendable. Left Thompson, the paper hunter, also worked well, but the fielding by the newspaper men was rather weak at times. Henry McEachern, the popular first baseman of the Telegraph-Times team, had his leg at quite badly while sliding into second base.

The line-up was as follows: Y. M. H. A.—R. Green, second base; animan, catcher; Cohen, left field; faucus, first base; Budovits, shortstop; ottman, third base; W. Jacobson, right field; S. Jacobson, right field; S. oem, pitcher.

Telegraph-Times—Fraser, shortstop; we, second base; L. Thompson, chier; McEachern, first base; Hennes, first field and first base; McLeod, left field; R. Thompson, right field; John, third base; Wilson, catcher; McNulty, centre field.

San Francisco and Boston, handling specials and all breeds with unusual success. It is safe to say that Mr. Hopson will be one of the most popular judges St. John has ever had here at a dog show. Entries are now commencing to come in and all signs point to this being a banner show for the New Brunswick Kennel Club.

AQUATIC. Canadian Second. Antwerp, Aug. 26.—George Vernot of Montreal, dominant champion swimmer, won yesterday in the 1,600 metres free stroke race. He held the lead for 800 metres when he was overtaken by the winner, Norman Ross, of the United States.

British Arrivals. New York, Aug. 26.—Cyril H. J. Todd, British amateur golf champion, and Lord Charles Hope, also a British amateur golfer, today departed as contestants in the national amateur golf championship tournament to open at Roslyn, N. Y., on September 6. They arrived here from England yesterday on the Olympic.

Vardon Against Brother. St. Paul, Minn., Aug. 26.—Harry Vardon and Edward Vardon, British professionals, yesterday defeated Tom Vardon, brother of the English star, and Jack Burke, local professional, in a four ball best ball golf match. H. Vardon, with a card of 67, tied the course record in the afternoon round.

PREDICT CHANGE IN TELEGRAPHIC CODE. The recent and universal development of the wireless telegraph will bring about a change from the use of the old morse code by telegraph companies generally now seems assured, so the experts say.

As has often been the case, American engineers have been in the lead in this country and Canada ever since the inception of the telegraph. Gradually, however, as time went on its imperfections were noted.

It was found that a rearrangement of the dots and dashes made for greater simplicity and speed. In other countries these changes were adopted, and once a system had been adopted in the United States and Canada, the telegraph companies were bound to follow.

At the present time continental or universal system has been adopted in the United States and Canada. The various regulations of the International Telegraph Union are based on the continental code, and are binding on the United States, though Americans have no vote in their preparation.

Just why the adoption of improvements on the old Morse code has not been made is somewhat of a mystery. It is probably largely a matter of sentiment and also of habit.

Once a system has been in general use, it is a great deal easier to put up with its imperfections rather than temporarily handicap efficiency by the retaining of old operators in spite of the fact that in the long run a much greater degree of efficiency would result.

When the new branch of telegraphy was born, though unhandicapped by convention and precedent, the advantages of the more modern continental system were rapidly appreciated and adopted.

The rapid growth of the wireless in the last few years has, of course, vastly augmented the number of operators in the country using the latter code, and thus prejudice is gradually breaking down.

So marked has been the change of sentiment in the last year or so that many of the old-line telegraphers' organizations are openly advocating the substitution of the continental code for the Morse as a commercial necessity.

NO 10 CENT SUGAR. Halifax, N.S., Aug. 25.—Halifax sugar authorities characterized as nonsense today the Ottawa statement that the price of sugar would drop to ten cents per pound in the near future. They said that most of the Canadian refineries were doing business today on the basis of a raw sugar price of anywhere between fifteen and twenty cents per pound. This condition would obtain, they said, for two months more at least and as a result there was no immediate prospect of a natural decline in the price of sugar to the consumer.

RACES HERE MARK  
ANNIVERSARIES  
GREAT DAY FOR  
OPENING OF MEET

Forefather First Choice in the 2.20 Trot — The Card for Today and Tomorrow.

With the weather beautifully fine the Maritime Racing Association's first meeting at Moosepath Park opened this afternoon, thus restoring St. John to its place on the harness racing map again.

Automobiles, taxis, street cars and motor buses took the people to Moosepath and the facilities for handling the crowds were much better than usual. People appeared to anticipate. At the track it was found a good deal of work had been done to put the plant in shape for racing, including strengthening the supports of the grand stand in accordance with a report by Inspector of Buildings Cartson, who had made an inspection of the stand at the instance of the Commissioner of Public Safety Thornton.

The first race called this afternoon was the 2.30 trot. The 2.20 trot, the second race on today's programme, has proven one of the heaviest betting races of the season. Forefather, 2:19 1/2, a St. John pacer, Lake Be Sure, 2:18 1/2, a Montreal horse, and Roy Viola, 2:18 1/2, another Fredericton entry, together in what many believe will be the best race of the meet. The other race on tomorrow's programme is the 2.18 trot and pace in which Brage, 2:15 1/4, Border Prince, 2:18 1/2, and Clay Watts, 2:18 1/2, a trio of the best trotters in the east, are sure starters along with Tommy Trotter, 2:19 1/2, a former St. John pacer Saska, 2:16 1/2, the St. Stephen trotter, is slated to make a second start in this race and Royal McKinney, 2:11 1/2, if he can get here in time from Danforth, Me., where he started earlier in the week, will be an additional factor.

Visitors flocked into St. John last evening and again today for the races and it is evident that, if the weather man continues to do as well as he is doing today, the racing revival in St. John will be a complete success.

Perhaps it's worth a trial. "If men would stop saying mean things about the way women dress," suggested the Macon Chronicle, "perhaps the women would quit expressing their conviction about tobacco."
