The Delegation Is Still In The Dark

Thoroughly Dissatisfied With Results So Far—Cannot Even Learn Details of Agreement—Committee Conferring With Mr. Hazen This Morning

(Special To Times) Ottawa, Ont., Oct. 9.—The St. John delegation at this hour (eleven thirty) know no more than they did evening. They have just ended a session at the Chateau Laurier, discussing the situation relative to the mailers and planning the next move. A trunk has gone to see Hon. Mr. Hazen again.

Mr. Hazen says that the arrangement between the C. P. R. and I. C. R. was by Sir Thos. Shaughnessy and Mr. Hazen in the Rideau Club here, and ministers say they knew nothing of it.

The delegates are dissatisfied that they realize that staying here means only loss to each. Meanwhile the C. P. R. is passing and there is nothing to be done without learning anything, they realize that staying here means only loss to each.

The whole city of St. John. He delegates feel that so far as any practical good there has been little to show for their stay and expense coming here. They believe Mr. Hazen is doing all he can and is wholly sympathetic, but as yet the matter has been brought to anything practical. They have nothing, so far, to report to the citizens.

He delegates feel they must have the government of the old agreement following message was received Mr. Robinson today from W. H. Ward Co., Ltd., "something tangible" by the government will do its duty. Mr. Hazen is doing all he can and is wholly sympathetic, but as yet the matter has been brought to anything practical.

1 noon a message was received from Ottawa stating that the new agreement had been made to Ottawa. The delegates were much disappointed that was not wired and have requested Mr. Hazen to have the agreement made at once. It is hoped that this will be done and the terms of the agreement will be available this evening.

Wait For It The delegation has decided to stay in Ottawa until they get the agreement.

5 SLUM BUILDINGS RAZED IN WASHINGTON

Washington, Oct. 9.—As part of the plan to wipe out slums in the national city, five insanitary buildings were razed in the past fiscal year and close to 100 persons were forced to move into healthful quarters according to a report of the board of public health. The board of public health has ordered the demolition of five insanitary buildings made public by the district commissioners Wednesday.

Agreement Not Yet Reached—Prospects For Settlement Not The Best

That a new proposal from the St. John longshoremen will be under consideration by the Shipping Federation in Montreal today is the latest development in the situation which the conference recently held in this city between the men and W. I. Gear on behalf of the shipping interests did little to improve. The representatives of the union, after submitting Mr. Gear's proposition to a general meeting of the men, declined to accept the proposals of the Shipping Federation, and forwarded a second schedule of wages not dissimilar to the first for consideration. The matter will be taken up today and, while it is impossible to forecast the result of the conference, as the local shipping men are not in a position to give any information, the outlook for a satisfactory settlement is not considered very bright by the longshoremen. Failing an agreement, the matter may be submitted to a board of conciliation.

GREAT MASSACRE OF SPANIARDS

Many Killed by Rebels at Torreon

Anxiety Regarding Fate of French and German Residents—Leader is Man Supposed Dead

(Canadian Press) Mexico City, Oct. 9.—Private despatches received here tend to confirm rumors current last night of a great massacre of Spaniards by the rebels after the capture of Torreon. The despatches are that there was a slaughter of one hundred and seventy-five Spaniards in the city. The despatches come from Madero, midway between Torreon and Saltillo.

Besides Spaniards there are a number of French and German residents in Torreon. Their diplomatic representatives are making efforts to learn their fate. The rebels are said to be headed by Francisco Villa, whose reported capture and execution by the Federals recently, was later disproved. They are said to have swooped down unexpectedly, the last of September, the Federals evacuating after destroying about 1,200 rifles for which there was no more ammunition.

Evacuation Confirmed. Mexico City, Oct. 9.—The evacuation of the city of Torreon by the federal troops was confirmed today by Manuel Garza Aldape, minister of the interior, who declared that General Tracy Auler, the Federal commander there with Generals Murguía, Ignacio, Bravo and Escudero, was at Hipolitito near Saltillo. The latter three commanders, according to the minister of the interior, are to undergo court martial for the evacuation of Torreon.

Association in Session in Boston Protest Against Proposals For Government Control

Boston, Oct. 9.—The bankers of the United States again have declared their opposition to the proposed federal reserve plan of reform in the currency and banking system. With only one dissenting voice on the final vote, more than two thousand bankers from all sections of the country gathered at the first day's sessions of the annual convention of the American Bankers' Association, ratified the action of the conference of bankers in demanding amendments to the Federal Reserve Act, now pending in Congress. The financiers also approved the work of their own currency commission, which earlier in the day had reported the system of governmental control proposed in the Glass-Owen bill to be socialistic and imposing "unwise hardships on the banks, and equally unwise hardships on the general public."

The resolutions in which this ratification and approval were contained, also included commendation of "the president, the secretary of the treasury, and congress, for their efforts to create in this country an elastic as well as safe policy," and pledged their "hearty support of the enactment of proper legislation to that end."

Vancouver, B. C., Oct. 9.—The news of the discovery of gold on the Soohy River, on Dean Channel, has caused a large number of miners to leave for the strike.

HOME RULE FOR ONLY A PART?

Interpretation of Churchill's Speech

STRONGLY OPPOSED

Must Preserve Unity of Ireland.—Expects Settlement—The Part the King Plays

(Canadian Press) New York, N. Y., Oct. 9.—A cable from London to the Tribune this morning says: Commenting on the speech of Hon. Winston Churchill, first lord of the admiralty, at Dundee last night, the Liberal newspapers insist that there must be no tampering with the unity of Ireland. The Unionist papers and particularly the Daily Mail, concludes that Mr. Churchill's speech is an offer to exclude northeast Ulster from the purview of the Home Rule bill on the condition that the Liberals agree to work with the Liberals for the future success of the settlement.

It may be regarded as certain, however, that the Irish Nationalists will never accept the bill as a final settlement of Ireland's grievances if Ulster or any part of it, is left out of the scheme. In conversation after the meeting, Winston Churchill expressed his strong personal belief that settlement of the Irish question, would be attained before long, but he could not explain what he really meant by his references to Ulster.

The only thing that would induce the government to allow Sir Edward Carson to triumph, would be an expression of reluctance on the part of King George to give the Royal Assent to a bill that might mean armed rebellion in the United Kingdom, such as was not observed since the Jacobite rising in 1745 in favor of the young pretender.

TO REPEAL REBATE ON IMPORTS BY AMERICAN SHIPS

Administration Officials Ask House Leaders to Take This Step to Avoid Complications

Washington, Oct. 9.—If the consent of Representative Underwood and other house leaders can be secured today a bill which will be passed through congress within a few days repealing that portion of the new tariff law authorizing a five per cent rebate on goods brought to this country in American owned ships.

The decision to ask for the repeal of the clause was reached by administrative officials yesterday after experts of the state and treasury departments had decided that to carry out its exact terms in the tariff on a portion of five per cent of the goods from practically all the chief exporting countries except Brazil, France and Russia. After a conference with President Wilson in the latter gave his endorsement to the plan, Solicitor Jos. W. Folk of the state department, took up with congressional leaders last night the plan to have the objectionable clause eliminated from the tariff law.

DR. STUART McARTHUR CALLED TO BALTIMORE

Baltimore, Md., Oct. 9.—Dr. Stuart McArthur, president of the Baptist World Alliance, has been called to the pastorate of the Baptist church of this city. Members of the pulpit committee, said tonight that Dr. McArthur had indicated that he would accept the call. After a pastorate of 42 years at Calvary Baptist church, New York city, Dr. McArthur resigned three years ago, to become president of the Alliance. He is a native of Dalesville, Que.

KILLED GYPSY GIRL BUT ARE ACQUITTED

Molan, France, Oct. 9.—The criminal court here today tried and acquitted on a charge of running over and killing a gypsy girl on August 8, Baron Hans Von Bleichroeder and Walter Palmer, the chauffeur of Princess Sophie of Saxony, who committed suicide at Heidelberg on September 9, owing to the refusal of her parents to consent to her marriage to Baron Bleichroeder.

Biggest Shake-up New York Police Have Ever Known

Tenderloin Cops To Be Replaced by 500 Young Men Just Out of Police School

(Canadian Press) New York, Oct. 9.—What is said to be the biggest police shake-up which New York has known, will be effected during the next few days by the uprooting of all the policemen in the upper west side Tenderloin section and replacing them with just turned out of the police school.

McGILL UNION BUILDING SINKING INTO THE GROUND

Foundations of Massive Structure Undermined—Hurry Call For Experts to Prevent Further Damage

(Canadian Press) Montreal, Que., Oct. 9.—The massive McGill Union building, at the corner of Victoria and Sherbrooke streets, is sinking rapidly into the ground. Already cracks are appearing in the walls and ceilings of the northwest corner of the building. The sinking is so great that the Foundation Company of New York has been employed and gangs of men worked all night, by the light of electric lamps, lately installed on the higher floors, in an effort to right the building. As soon as the foundation is uncovered, jack screws will be used and cement pillars placed underneath the corner to divide the weight of the building more evenly.

Blasting in the C. N. R. tunnel nearby or shifting sands below the surface, is believed to have shaken the foundation of the building. McGill Union is the gift of Sir Wm. C. Macdonald to the University. With the land and building it represents a value of \$250,000. The structure is three stories in height, with a basement.

BAPTIST WOMEN WILL MEET IN ST. STEPHEN

The annual meeting of the United Baptist Women's Missionary Movement will be held in St. Stephen next week, opening on October 15 and lasting for two days. A meeting of the executive will also be held on the fourteenth. The following members of the executive who reside in the city will probably be present at the convention.—Mrs. D. Hutchinson, president of the union; Mrs. W. E. McIntyre, Mrs. Horsman, Mrs. E. M. Simpson, Mrs. F. E. Howland, Mrs. A. C. Smith, Mrs. J. J. Richards, Mrs. T. S. Simms, Mrs. N. C. Scott, Mrs. Jacob Smith, Mrs. Thomas Robinson and Mrs. John Gillies.

WELSH BESTED HYLAND

Butte, Mont., Oct. 9.—Light weight Freddie Welsh, of England, last night won the decision in a one sided 12-round contest with Fighting Dick Hyland, of San Francisco. Welsh outboxed and outpointed Hyland, playing a taton on his lead and body and dancing and dodging around him.

JUMPED INTO RIVER WITH CLOTHES AFIRE AND SAVED LIFE

Kingston, Oct. 9.—As a result of the explosion of a gasoline lamp at the Kingston Shipyard, a young man, on Saturday, Melville McKane, a young man, is in the general hospital in a very dangerous condition as a result of burns received. After his clothes caught fire he jumped into the river, and this prevented him from being burned to death. His fire-workmen pulled him out of the water and rushed him to the hospital.

NEW GOVERNMENT IS FRIENDLY

Message of The Chinese President

Cordial to Foreigners

Will Continue All Treaties, Conventions and Other Engagements Entered Into by Former Governments

(Canadian Press) Peking, China, Oct. 9.—The friendly intentions of the Chinese government, toward foreign interests, will be strongly emphasized in President Yuan Shi Kai's message to parliament, on the occasion of his inauguration tomorrow. On this subject, he will say: "The attitude of the foreign powers toward us, has always been that of peace and fairness and they have given us cordial assistance whenever the occasion arose. This, of course, is due to the civilization of the world. Yet, all the same, we highly appreciate the good will of the friendly powers."

It is most important for all citizens of the Chinese republic clearly to understand this, and to endeavor to strengthen international friendship. "With sincerity I hereby declare that all treaties, conventions and other engagements entered into by the former Manchou and provisional Republican governments, shall be strictly observed and that the contracts duly concluded by former Chinese governments with foreign companies and individuals, shall also be strictly observed."

"Further I declare that all rights, privileges and immunities enjoyed by foreigners in China by virtue of international engagements, national engagements and established usages are hereby confirmed."

"This declaration I make with the view of maintaining international unity and peace."

WATER COMMISSIONER GETS A BOUQUET

Pleasing Tribute From Ladies of Millidgeville Avenue in Recognition of New Water Supply

The path of civic honors is not always strewn with flowers. "We are more often on the lookout for a brick than a bouquet," said Commissioner Wigmore this morning—speaking metaphorically, of course—from behind a fragrant bunch of sweet peas and dahlias which adorned his office.

"I was so surprised," he went on, "that I hardly knew what to say when my team was held up in Adelaide street this morning, and I was met by a delegation of three ladies representing the residents of Millidgeville avenue, who came to show their appreciation of the new water supply being put in."

A little speech was made and the ladies presented the commissioner with a fine bouquet of flowers in honor of the final water main connections being made in the Adelaide street extension.

The treasury department denied the report and Secretary McAdoo said the regulations would be shown women who bring such articles in their hats.

FRIENDLY ONCE MORE

Indications of Better Relations Between Germany and Austria

With One Game Each Both Managers Are Confident of Victory—Giants Weakened But Very Much in the Running—Probable Line-up—Grand Jury and Ticket Speculators

(Canadian Press.) New York, Oct. 9.—The National Commission announced at 10:30 o'clock that today's game would be played if there was no further rain. The announcement was made upon a report to the commissary by Umpire Rigler, who examined the field. Rigler reported that the grounds were soggy, but fit for playing if there was no more rain. Immediately after the announcement, the gates swung open and the long line waiting outside began to file into the park.

New York, N. Y., Oct. 9.—With a victory safely tucked away for each club, Giants and Athletics prepared today for the third contest for the world's championship, each in confidence that the break would come its way this afternoon, and open the road to a steady march to success in the series. The only doubtful sound was from the weather bureau offices, whose predictions of probable rain, made everyone fearful that a real downpour might take a notion to soak the battlegrounds and prevent the meeting of the teams.

Filled with far greater assurance than on the opening day, before the teams had tested each other's mettle, New York fans were ready early this morning to flock to the grounds in droves, as soon as it appeared that weather conditions would permit the playing of a game. The wonderful pitching of the great Mathewson yesterday, and the fine way his mates had rallied to his support, and with a crippled team prevented a single Philadelphiaian from reaching the plate, had worked wonders with the spirit of the club's followers.

Whether with far greater assurance than on the opening day, before the teams had tested each other's mettle, New York fans were ready early this morning to flock to the grounds in droves, as soon as it appeared that weather conditions would permit the playing of a game. The wonderful pitching of the great Mathewson yesterday, and the fine way his mates had rallied to his support, and with a crippled team prevented a single Philadelphiaian from reaching the plate, had worked wonders with the spirit of the club's followers.

It was the debatable problems, whether the colts of the Mackmen could stand up against the bats of the Giants, and whether Demaree and Tesreau could do as well against Baker and Collins and the other hard-hitters among the Athletics, as they have against National league sluggers that apparently were about to find at least partial solution at the Polo grounds on this third day of the series.

Both Managers Confident

Manager McGraw himself was not slow to express his own confidence as to how his problem would work out. "In comparison with what our opponents have left, my remaining pitching staff looks mighty good to me," he smilingly declared.

Connie Mack was less explicit on this point, but apparently he had no fear of the outcome. "We are not a bit discouraged by our defeat," he said, "and we are out after today's game. I expect the Athletics to win the series."

The Giants, with the mighty Matty moving down the Philadelphia hitters and giving the Mackmen the first coat of whitewash ever applied to them in a world's series, since 1905, got away with yesterday's game in splendid fashion. But it was not to be denied that the crippling of Meyers and Merkle, with the continued inability of Snodgrass to play his game, was likely to prove a severe handicap on McGraw's men in contests in which the services of these veterans were not at the teams command.

Shaffer's comparative inexperience in the outfield, showed its effect in Tuesday's game, in which his playing off Schang's drive that went for three bases, has been freely criticized.

Regarding McLean

Larry McLean, while he started the attack which led to Plank's undoing yesterday, is so slow of foot that McGraw usually feels himself impelled to put in a runner for the big fellow when he lands safely on a sack by virtue of a hit, a pass or an error, lest he effectually block the paths of swifter men. Murder and Suicide Theory in Double Tragedy in Jail Ward's Family

New York, Oct. 9.—The Queens county jail in Long Island City, just across the East River from New York, was the scene of a midnight double tragedy today, in which a case of murder and suicide. Henry C. Schlett, who was warden of the jail, returned to his apartments there at an early hour this morning, and found his wife and four-year old son, dead, each with a bullet wound in their right temples. Near Mrs. Schlett was found a revolver with two chambers empty. Both mother and child were in their night clothes.

C. P. R. OFFICIAL HERE ON INSPECTION TRIP

A. Price, assistant general manager of the C. P. R., arrived in the city this morning, on his inspection car, New Brunswick, attached to the Montreal express. Mr. Price is here inspect the railway's terminals at this port and will go to Sand Point and the Strait Shore this afternoon. He will return to Montreal this evening. His tour of inspection has nothing to do with the sailings of the steamers this winter but is the usual inspection held here before the winter port business opens.

Frank J. Carr of the C. P. R. staff, Montreal, arrived in the city this morning with Mr. Price and will return to Montreal this evening.

"Larry" or "Jack" McLean, Giants' catcher, who played in St. John with the Roses and Alerts ten years ago.

Meyers injured this process early in a game would compel the substitution of one of the younger catchers, Wilson or Hartley, whose nerves the speedy Athletic runners might try severely.

Merkle started out to hit well in this series, and he is an experienced first baseman, while George White is not, although this fine fielding pitcher gave a splendid account of himself at Shiih Park, saving the game for the Giants, by his skillful handling of taps by Lopez and Plank in the ninth inning. Altogether, the general batting and base running and probably the defensive strength of the Giants is lessened by the inability of the crippled trio to play.

Today's Batting Order

Neither manager this morning would commit himself as to his choice of a pitcher for today's game. As the situation shaped itself while preparations for the game were in progress, the probable batting order was:

Philadelphia:—E. Murphy, rf.; Oldring, lf.; Collins, 2b.; Baker, 3b.; McInnis, 1b.; Strunk, cf.; Barry, ss.; Schang, c.; Brown, Shawkey or Bush, p.

New York:—Herzog, 3b.; Doyle, 2b.; Fletcher, ss.; Burns, lf.; Shaffer, cf.; Murray, rf.; McLean, c.; Wiltse, 1b.; Tesreau or Demaree, p.

Grand Jury After Speculators

New York, Oct. 9.—John B. Foster, secretary of the New York National league baseball club, was to appear before the grand jury today to tell what, if anything, he knows about the operations of speculators in world's series tickets. He was served with a subpoena last night on his return from Philadelphia.

Mr. Foster was quoted early in the week as saying that more than a hundred tickets had reached the hands of speculators through attaches of the district attorney's office and other city departments. He subsequently repudiated the interview, but District Attorney Whitman determined to make an investigation.

\$1,000,000 Bet

Heavy betting began in New York yesterday, when "Billy" Smith, brother of "Pittsburgh" Phil, wagered \$1,000,000 even money on the Athletics. The wager was made in a Harlem cafe.

After this bet about \$3,000,000 more was put up, one bet being \$1,000,000 on the Giants. Most of the bets were at even money.

A modest estimate figures that at least one million dollars have been bet on this event. Professional bettors do not figure largely.

Be Sure Before You Spend Your Money

People who get the worth of their money are people who think before they buy. They buy the things they want at the time they want them and pay the lowest market price. Competition is their servant. They know who's who and what's what. They are readers of advertising in live daily newspapers like The Telegram and Times. They look upon advertising as a guide to their intelligence. They count it as a good friend who saves them time and money. They get their money's worth always. As a rule they are prosperous and thrifty. Be a reader of advertising. HEADACHES AND HEART TROUBLE

Nervous Prostration of Three Years' Standing Cured a Year Ago by Dr. Chase's Nerve Food.

Anyone who knows the discouragement and despair which accompany the helplessness of nervous prostration will appreciate the gratitude felt by the writer of this letter.

Mrs. H. C. Jones, Scotch Lake, C. B., writes: "I suffered from nervous prostration for nearly three years. I had frequent headaches, had no appetite and was troubled with my heart. After consulting two doctors, without obtaining satisfactory results, I began the use of Dr. Chase's Nerve Food, and was completely cured by this treatment. It is nearly a year since I was cured, and I want others to know of this splendid medicine. I now attend to my household work with pleasure and comfort, and am glad to have the opportunity of recommending Dr. Chase's Nerve Food."

At least some benefit is bound to be derived from each dose of this great food cure, as day by day it forms new blood, and builds up the system. 50 cents a box, 6 for \$2.50, all dealers, or Edmanston, Bates & Co., Limited, Toronto.

Daily Hints For the Cook

Plum Jelly

Cover plums which are not quite ripe with boiling water, let simmer until soft, then drain in a jelly bag. Measure the juice and to each pint of juice allow a pound of sugar. Boil the juice in a preserving kettle for five minutes, add the sugar, which should be warmed in the oven, stir until dissolved, then continue the boiling until it will jelly when dropped on a cold plate. Turn into glasses and seal when cold.

Snow Pudding Made Without Gelatine

Three tablespoons cornstarch dissolved in a little water, one-half cup of sugar. Add one pint of boiling water, cook about 20 minutes. Let cool, add beaten whites of three eggs and juice of two small lemons. Beat 10 minutes. It will thicken up after setting over night. Take the yolks with a quart of milk and make a custard to pour over it.

SOMEONE'S TIME HAD COME, BUT IT WAS NOT HER'S.

London, Oct. 9.—Mrs. Laura Gallagher, Cliswell, who saved her life when threatened by her now dead husband's revolver, was suffering from shock to-day and was in a serious condition, her friends said. She was in no danger, however, early today. The cause of her attack of nervous prostration came suddenly early Sunday morning, when her husband pulled his wife from bed saying "Your time has come." As a matter of fact he was wrong, for his wife fought him off. Her screams brought aid and Cliswell fled. They found his body rapidly getting rigid in death some time after. His time had come.

GERMAN SOLDIERS INVADING FRANCE ARE REPULSED BY BAR MINE

Brsay, France, Oct. 9.—There was an other Franco-German episode in this frontier town on Saturday.

Early in the morning the people became excited when some German troops galloped in on French territory. They remained until evening, when they were invited to leave.

In the meantime, the men, who had imbibed too freely, attempted to get all the drinks they wanted free in a bar-room, whereupon the landlady shot one of them, but without serious result.

MISSIONARIES ALIVE, WOMEN UNHARMED

According to Message From American Minister in Hu-Peh—Hope to Hold Bandits

Pekin, Oct. 9.—A message dated October 8 was received today at Siang Yang-Fu, in Hu-Peh province from the Rev. Christian Stokstad and the Rev. Mr. Johnson, the two American missionaries trying to negotiate with the Chinese bandits for the release of the American and Norwegian missionaries held in captivity by the bandits at Tsaoyang. It says that three white women and two children are at the bandits' headquarters and have not been harmed, while the men are believed to be living.

This message appears to discredit the report that the little son of the Rev. Mr. Fauske and Mrs. Fauske has been killed.

The Rev. C. Stokstad and the Rev. Mr. Johnson express the hope that the force of 1,800 troops round Tsaoyang will be able to hold the bandits until reinforcements arrive. The bandits number about 1,000 of whom half are mounted.

John H. Woodbury devoted his entire life to a study of the skin and its needs. From his experience with thousands of cases of skin troubles, he developed the formula of the now famous Woodbury's Facial Soap.

In the 12-page wrapper around every cake of this soap the causes for all common skin troubles are given—conspicuous nose pores, sallow skin, blackheads, etc.—and the proper treatments to relieve them.

If there is any condition of your skin you want to improve, get a cake of Woodbury's Facial Soap and follow carefully the directions. A promise of that lovelier complexion which the steady use of Woodbury's always brings.

Woodbury's Facial Soap costs 25¢ a cake. No one hesitates at the price after their first cake.

THE SECRET All true success is the outcome of real personal interest and genuine endeavor. You may be designing a battleship or you may be thinking of a bright idea for a 15 cent toy. Controlling your commissariat or puzzling and experimenting with fruits and spices in order to perfect a new recipe for the home table, but the real road to success is just the same in one case as in each of the others. It is not what you are doing, but how you are doing your work that really counts. You cannot know, unless it were told you, how much personal interest was thrown into the manufacture of H. P. Sauce before its name began to be household word. The manufacturer—the largest firm of malt vinegar brewers in the world—were determined upon producing a sauce that should touch perfection and so make a name for itself and bring success to the makers. The Midland Vinegar Company of England are proud of their H. P. Sauce, proud of the reputation it has earned by being the richest, most pungent, fruit sauce obtainable. Choicest Oriental fruits and spices and purest malt vinegar are the constituent parts of this cause—but the manner of blending, the "knack" of blending is the secret of H. P. You had better test it for yourself. It's easy. Grocers over here are already selling it freely.

CONVICTS PLAY BALL IN PRISON

New Warden at Joliet Encourages Sport

REGIME CHANGED Humane Methods, Better Fare and More Liberty Work Transformation—Correspondence School For Inmates

"All right, Jack, old boy there's one left. Hand him that out curve." "Never mind 'em, bo! One little bingle does it." "Two strikes! Wow! Rotten!" "Zowie! A homer! Take another base! Come in—SLIDE!" This was no major league ball game, nor yet a corner lot contest, but a hot diamond battle within the walls of Joliet penitentiary, where convicts howled with glee at crack of bat, thumped each other on the back with joy as their side got ahead, wrangled over the score and associated under the eye of only one guard as freely as on a public playground making a daily scene in the prison equalled nowhere else on earth. The cause of the fun and the reason of it is the fact that Joliet has a new warden. The 1500 inmates realized it the first day he took office, three months ago, and they have been realizing the change more and more every day. Today some of them told a reporter that the "underground railroad of the prison has almost disappeared; that if any prisoner made a move in opposition to the warden he would find practically all the rest ready to fight for their head keeper and that life has been changed for all of them because they know now "they've got another chance." The man who has caused a revolution in prison methods, reduced domestic marks to a minimum and stamped out all ill feeling among hundreds of men who feel that the world is their enemy is Edmund M. Allen, former mayor of Joliet, Ill. "I've been hoping for years that I'd get the chance to do this work," said Allen, "and now I'm doing it, and the start I've made shows me that some other improvements will succeed, too, and that in time we will have the world's best prison here at Joliet." Allen took office April 26. His father was warden 20 years ago and he knew the prison, its good and bad sides. "Let it men have an hour a day to play freely," was his first order. "Let them do anything they want to, and, above all, let them talk without hindrance and let them raise all the Cain they want to, as long as they don't fight." "It can't be done," said his advisers. "You'll have a revolution on your hands in a week." "Bad Marks are Reduced The revolution came, and came quickly, but it was a peaceful one. It was a revolution for the better in prison conduct, health, discipline and work. The misconduct report for the month of April showed 128 men given bad marks for breaking rule, hatching plots, trying to get away and doing other things prisoners are punished for. Allen took office late that month, and in May the misconduct marks number had fallen to 90. They had been reduced to 75, a reduction of 89 per cent, and they are still going down. Allen's whole theory of running a prison is that the men should get a square deal while inside and have another chance when they get out. The first day of his administration, Allen made them a speech, in which he told them he would meet them half way in an endeavor to change conditions. He said they could talk to each other for an hour each day when on the playground, he expounded the theory of another chance and the square deal. He told the men to help, they are helping. One accomplished burglar, who shall be nameless and numberless, put in about these words: "Dinner was a fine theory of running a prison is that the men should get a square deal while inside and have another chance when they get out. The Evening Times and Star

ST. JOHN, N. B., OCTOBER 9, 1913.

AT OTTAWA

The St. John delegation was not well pleased with yesterday's conference with Premier Borden and other members of the government, concerning the withdrawal of the mail steamers from St. John.

"After the door had been left open by the government, and the C. P. R. and Allans had selected St. John as the port from which they most advantageously could do business, did a government official make arrangements that induced the companies to change the port?"

Mr. Borden and Mr. Hazen obviously should have been in a position to answer this question, but it was not answered, and Mr. Pidgeon was therefore quite justified in expressing disappointment.

Since Mr. Borden solemnly declares that the government did not possess the information required, criticism may be withheld until it is learned what he will do with the information when he gets it; although it must be confessed that the ignorance of the government on such a matter is somewhat amazing.

It is also somewhat remarkable that Mr. Gutelius should have such remarkable powers, and should be able to persuade the Canadian Pacific Railway Company to cancel its carefully made arrangements and withdraw the mail steamers from the port of St. John after the sailing lists had been published.

There is a story, emanating from a gentleman formerly well known in these parts by the title of "Lord" Harris, who intimates that the steamers Royal Edward and Royal George of the Canadian Northern will come to St. John this season instead of Halifax.

The Standard in its Ottawa despatch this morning says that Mr. Gutelius has been moving about considerably and is hard to reach. This is given in partial explanation of the failure of Mr. Borden to produce the information asked for by the St. John delegation.

THE CONSUMER'S NEED

The following paragraph appears in the editorial columns of the Montreal Star:

"One of the first persons to be hit by the new American tariff is the Canadian consumer. His cost of living has consequently gone up. Those who claim that the opening of the American market would be a great boon to us—a boon which we rejected when we declined to ratify the reciprocity bargain—can now explain to the Canadian consumer who thought that he was paying enough for his living before."

It is not the advocates of reciprocity to explain, but for the Star and its friends. Had reciprocity been adopted, there might have been at the outset some slight increase in the price of articles of produce, but there would have been compensating advantages in the lower price of goods coming in from the United States.

The political pot is boiling in Great Britain this week. Reginald McKenna, Winston Churchill and Lloyd George are entering this week upon a campaign to present the case for the government at Bedford on Saturday.

PETTY CANVASSES

The Montreal Star's report gives some fine illustrations of the sort of canvass the Conservatives are putting up against Hon. Sydney Fisher in Chateaugay. One story circulated by his opponents was to the effect that he had once searched for a long time on the floor of the house of commons for a lost five cent piece; and another was that he had placed a sign over his gate at Knowlton, Quebec, warning the people away. It was only necessary for Mr. Fisher to deny the first of these stories, and point out in connection with the second that while he was perfectly willing that his private roadway at Knowlton should be used by the people, yet, since under the Quebec law such road, if used for a certain number of years by the public, could be claimed as a right of way, he had put up the sign "private road" in order to prevent the alienation of his property.

By the way, although he is profoundly convinced that there is an emergency, Premier Borden has not yet addressed the electors of Chateaugay. How is it possible for a yearning Imperial statesman to lose an opportunity to declare himself on the naval question, in a political campaign, especially in the province of Quebec, where his friends the Nationalists are so much in evidence?

The interesting news has come from Halifax that the sister port, having got the big mail steamships, does not know what to do with them, there is so little accommodation for the extra business their coming involves.

Yesterday the Standard intimated that the Telegraph and Times were liars. Today it says they are cowardly traitors. If the Standard will cease their revellings, and make a noise like an Empire steamer, the St. John public in its present temper will be much more agreeably entertained.

All of his fellow citizens have learned with sincere regret that Commissioner Schofield's condition of health makes it necessary for him to take a further prolonged rest. All will earnestly hope that the precautions now taken will result in his complete restoration to vigorous health.

The St. John members of the Order of Moose are to be congratulated upon the success of their first appearance as patrons of clean amateur sport. The bicycle and running races held under their auspices yesterday were very successful, and brought together competitors from three provinces. The Moose are perhaps even more to be congratulated, upon having as their secretary a man so interested in clean sport as Mr. A. W. Covey, who has himself a fine record in athletic events.

A very interesting conference is being held this week at Hull, England. It is the annual conference of the National Union of Workers, popularly known as the "Parliament of Women." Child welfare is the chief subject under discussion. Among other things, organized playgrounds will be discussed, and we are informed that this subject is a very live one in England at the present time, and much attention is being paid to playground work in other countries.

The Times objects to the language employed by The Standard in our references to the partisan attitude adopted by the Times and its big brother toward the withdrawal of the Empire steamers. A "truculent adversary" is the term the Times uses to describe this paper. If our "truculence" has offended the Times we can only plead that we have in a measure been guided by the advice of the old farmer who once said to his son: "Jimmy, never put on your good clothes when you go to a hog killing."

First Author—"That Carper is a beastly sheet; it says you have put a lot of trash in your recent book of poems."
Second Author—"Yes, and it says that you have put a lot of yourself into your recent novel."

Black Hand Ensign

In the spring of '86 a reporter for The Arkansas Traveler died. The day after the funeral a visitor to the office found the editor and his staff talking about the latter's associate.

"It has been a sad loss, friends," he sighed and looked about the room. "Ah, I am pleased to see," he went on, "that you commemorate the melancholy event by hanging up crape."
Opie Read frowned, "Crape," he said. "Where do you see any crape?"
"Over there," said the visitor, pointing.

"Crape be damned," said Read. "That isn't crape. That's the office towel."

Unavoidable

"Have you been able to meet all the demands of your creditors?"
"Meet them? I haven't been able to avoid them."

THE LIFER

I wince at the tramp of feet outside. They tread upon my soul; I shake the bars, I moan, I chide; The Devil take them all!

Those are the men who put me here To eat my heart away Behind brick walls, mortared by fear, To live 'till I grow grey.

I killed him, yes; I'm proud of it! I lick my hands sometimes, As 'twere to taste the blood of it! The greatest of my crimes.

And yet—next cell there lies a sot Who roars of "spay" and "kale." He thinks I'm of the John Yeg lot— Me—who played first for Yale!

The other side is a cocaine fiend; He curses the live-long day; His head's a-shake, his face is greened, He talks of "snow" and clay.

Across the hall in Cell Thirteen, Is a banker who went wrong; He fakes the books and gloomed the green; He pawned his life for a song.

A thousand of these, and yet they say That I'm the worst of the lot! I killed a man, you see, and they swear that I planned the plot.

Well, so I did! And I'd do it again if I knew I'd go soft free; But fifteen years of this Hell on earth, this awful misery, Is enough to make a man—but it's much too late— Turn straight!

ENORMOUS WOOD WASTE 145,000 Cords of Pulpwood Lost Annually, is Forestry Branch Report. In the manufacture of chemical wood-pulp by the sulphite process, one-half of every cord so treated is dissolved by the liquor in which the wood is boiled, and is discharged into the adjacent rivers as waste liquor. According to the latest bulletin on Pulpwood, issued by the Forestry Branch, Ottawa, the amount of pulpwood subjected to this chemical treatment in 1912 was almost two hundred and ninety thousand cords. One-half of this amount was absolute waste. The average price of a cord of pulpwood is six dollars, so that this waste, reduced to its money equivalent, represents a loss to Canada of over eight hundred thousand dollars.

WHOLESALE CONFECTIONERS

BOARD OF TRADE FAILED TO SETTLE THE DUBLIN STRIKE

London, Oct. 9.—Sir George Askwith's attempt to settle the Dublin strike has failed. The enquiry court, over which a Board of Trade "strike settler" presided, submitted a scheme of conciliation which was accepted by the representatives of the Transport Workers, but employers declined to accept it on the ground that the plan would not solve the trouble, that it was too elaborate and does not provide guarantees. The court's report condemns the

"sympathetic strike," saying no community could exist if this method of fighting for the right of workers became general. It added, however, that "sympathetic lockouts" are just as unreasonable a method of dealing with labor disputes.

SOME EFFECTS OF SINGLE TAX IN THE WEST

Vigorous Advocate Claims Stimulus to Building Operations and Protection Against Financial Depression

(Times' Special Correspondence)

Victoria, B. C., Sept. 20.—Years ago William Lloyd Garrison wrote Henry George that "he did not believe that the adoption of the Single Tax would cure all the ills which afflict humanity." Mr. George replied "I certainly agree with you that the single tax will not cure all human ills, but freedom will."

H. N. McDonald in the "Toronto Daily News" of September 18th, makes a vigorous attack on the single tax because its partial adoption has not made everyone in Vancouver wealthy and because he insists that all workmen have a right to homes in the exclusive districts of Shaughnessy Heights, Kitilano and Fairview.

Every single taxer will agree that workmen do not today get a fair share of the products of their labor and that only the abolition of every form of privilege will ensure their getting their just deserts.

But Vancouver has not yet adopted the single tax even for city purposes, and taking the tax off improvements is only one short step toward the full single tax; but it is a step which has done all that any student of the single tax ever claimed it would do.

It has not prevented Vancouver, Victoria and other cities from sharing to some extent in the general upsurge of business which has been caused by the contraction of credits and tight money due to the Balkan War and our bad banking system; but it has prevented those cities from suffering as severely as they would have done under the old system. Most of his objections he answers himself and only a more careful and more thorough study of the single tax is needed to make Mr. McDonald a single taxer.

As figures, take these: Building permits in Vancouver in 1909 (the year before the full exemption of improvements was adopted) \$7,258,568; 1910, \$18,150,863; 1911, \$17,650,642; 1912, \$20,888,482; 1913—for first five months, \$6,209,482. June, July and August have swelled this so that the total so far is over nine million dollars. In spite of hard times and tight money and the great amount of building for the past few years, Vancouver buildings which has away ahead of Seattle's which has double the population. Victoria's building permits tell the same story. Exemption of improvements from taxation was adopted in 1911 with the result that buildings doubled, being more than four million dollars against two millions under the old plan in 1910 and in 1912 doubled again, being over eight million dollars. The above mentioned figures for Vancouver and Victoria do not include the suburbs where the same system has had the same results, viz. more buildings with better accommodations and more substantial in character.

Mr. McDonald admits that the practical working of the system has converted to its favor almost every man who fought it bitterly four years ago. He approves the idea of taxing the rental value of the bare land, but if, he adds, "and abolishing all other taxes," he has the single tax programme in the very words in which single taxers prefer to state it.

He quotes approvingly the single tax canon of taxation "never tax anything that can or would run away or that could or would come to you" without knowing that it is single tax doctrine, nor that the logical result of its application would be the abolition of all taxes save one on the rental value of bare land.

But let anyone who disputes either the justice or the expediency of exempting improvements from taxation consider this: In 1910 the full exemption of improvements was bitterly fought and those who advocated it were vigorously denounced and it was carried by but one vote. In 1911 there was again vigorous objection but the majority was larger. In 1912 opposition had almost disappeared and in 1913 it was adopted unanimously. Substantially the same thing is true of Victoria and the other twenty-six municipalities large and small in British Columbia which have adopted the same system. No man today in all British Columbia can make a successful campaign for any office who would take for his platform opposition to the exemption of improvements from taxation or opposition to the single tax. I believe that to be true also of Alberta and Saskatchewan and the day is at hand when it will be true of every province.

NEW REGULATIONS ON FRUIT PACKING PROTECT IMPORTERS

Canadian fruits, than which there are none better, are now requested in the markets of the world at their true worth. Through the operations of the Inspection and Sale Act the packing of Canadian fruit has been greatly improved and the development of the trade accelerated. From time to time since its enactment, as experience has indicated, the act has been improved in order to more completely encourage and protect the industry. The latest amendment to the act, which was passed during the present session of parliament, extends inspection to imported fruit, thereby placing it on an equal footing with that grown in Canada. The amendment provides that the government-council by regulation may prescribe

the kinds of imported fruit the packages containing which must be branded or marked; the brands or marks to be used thereon, as well as the methods and places where such branding shall be done. Other minor changes were effected in the Act.

For the information of those interested in the fruit trade there has been issued by the Dairy and Cold Storage Commissioners a pamphlet designated bulletin No. 40 of the Dairy and Cold Storage branch containing the Inspection and Sale Act, part 9, (the Fruit Market Act and Fruit Packages) as amended. Copies of this bulletin are available to those who apply for them to the Publications Branch of the Department of Agriculture, at Ottawa.

THREE TYPES OF WORKMEN

(American Machinist)

Sometimes we see men when leaving the plant, so forgetful of others that they actually run or climb over their shopmates in order to be among the first outside the gates, yet when their destination is reached they stop to light a cigarette and slowly saunter away. Usual-

ly you will find these same men each night among the loiterers at the street corners.

Another type comes in as soon as the doors are open, in a gentlemanly and orderly manner, dons his working togs, and sits down to read the morning paper. It is probably the only chance he has to read, and it is usually the ball score he turns to first. But, why not? All day long he does the very best that is in him, although he does not seem to accomplish very much. He leaves the plant as he came in, and you call him a good fellow, who does the right thing always. You would, of course, grade him as "good."

Another type comes in quietly, and at the same time each day, a few minutes before the bell rings. His step is brisk, he is clean shaven, his clothes are pressed and clean, his manner courteous, and his work is perfect, always allowing a reasonable shrinkage. He is always willing to suggest and help the little fellow, and he does each day much more than he is paid to do. He has the welfare of the plant at heart, and is the kind of material from which managers and superintendents are made. This type may

be classed as "experts" in their line of trade. In fact, there are no better workmen.

Premier Lays Blame On Manager Gutelius

Borden and Hazen Profess Ignorance of C. P. R. Arrangement With The Intercolonial

Promise Information on Subject Today When Conference Will Be Continued--Dr. Pugsley's Question Reaches Root of the Matter--Plain Speaking by Indignant Delegates From Saint John

Ottawa, Oct. 8--For an hour this afternoon St. John's delegation, sent here by last Monday night's meeting to protest against the use of the Intercolonial in discriminating against the port of St. John in the matter of the mail steamers, discussed the subject with Premier Borden in the parliament buildings.

The delegates arrived at 1 o'clock. In addition to those named before Allan McAvity joined the party at Montreal and H. A. Powell joined them just after the conference with Mr. Borden began. Before this conference the Conservative members of the delegation had a meeting with Hon. Mr. Hazen at the Rideau Club and there presented the feelings of his constituency on the matter.

Hon. John E. Wilson, Senator Daniel, D. P. Pidgeon, L. P. D. Tilley and others spoke in the interests of justice to St. John. A little after 4 o'clock the meeting with Premier Borden took place. Other members of the government present were Hon. Mr. Hazen, Hon. L. P. Pelletier and Hon. Geo. E. Foster. Hon. Mr. Reid, who is acting minister of railways in Mr. Cochrane's absence, was not at the conference, though when the delegation came out of the conference Mr. Reid was in the anteroom next.

The delegates assembled in the council chamber in private session with Mr. Hazen. Tonight they were Mr. Hazen's guests at supper at Rideau Hall. J. M. Robinson.

When the delegation assembled in Mr. Borden's room Mr. Hazen briefly introduced them. J. M. Robinson, president of the board of trade, was the first speaker. When it was announced in parliament last winter, he said, that the steamship companies would be given a free choice as to port, St. John was well satisfied. As late as Sept. 23 St. John was still well satisfied, for a schedule hearing that date showed the mail boats sailing from St. John. Over night, however, came a change, and the steamers were declared to be settled for Halifax alone.

rates had been increased on the ground of necessity. Now came a special arrangement for the carrying of freight and passengers at what was believed, in the absence of information, were rates even lower than usual on the I. C. R. If this were not so, the discrimination would not exist. St. John people were willing to stand on an equal basis with others, wanting no special favors and unwilling for others to have them at her expense. Halifax had the advantage of the shorter sea trip, St. John the shorter railway haul. If such a rate were given to take away our geographical advantage and give it to Halifax, in addition to her own, then St. John felt there was discrimination.

Senator Thorne. Senator Thorne felt there was room for both Halifax and St. John in connection with maritime province development. But in this case the people believed such discriminatory rates were given as actually were below cost. If they were there should be rectification by the government. If such discrimination existed he believed the government would remedy that defect. There could be no objection on business principles, however, if the I. C. R. was doing the business at a rate yielding a fair profit.

Dr. Pugsley. Hon. William Pugsley said the city's case had been well pressed. He thought already they had evidence that action had been taken by the government in one of its officials, which led to St. John being left out by the mail steamers. The C. P. R. and Allans had published a schedule of direct sailings naming St. John, and not Halifax. Evidently Halifax made its views known, and Mr. Borden, of the C. P. R., is reported to have stated that arrangements had been made making it satisfactory for the company to go to Halifax.

Mr. Pelletier--It is in the contract. Hon. Mr. Pugsley, continuing, said it struck him there were two ways in which this open arrangement might have been overcome by the government: either by pressure, or special consideration. If the government, through Gutelius, had made special arrangements which enabled the C. P. R. and Allans to change their decision, then there was discrimination against St. John. He differed from Senator Thorne in one respect. Mr. Thorne felt it wrong if the government permitted the I. C. R. to give rates which meant a loss to the government road.

Dr. Pugsley's Point. DR. PUGSLEY WENT FURTHER. IT WAS DISCRIMINATION EVEN IF THERE WAS PROFIT TO THE INTERCOLONIAL. THE MAIN QUESTION WAS: AFTER THE DOOR HAD BEEN LEFT OPEN BY THE GOVERNMENT, AND THE C. P. R. AND ALLANS HAD SELECTED ST. JOHN AS THE PORT FROM WHICH THEY MOST ADVANTAGEOUSLY COULD DO BUSINESS, DID A GOVERNMENT OFFICIAL MAKE ARRANGEMENTS THAT INDUCED THE COMPANIES TO CHANGE THE PORT?

GOVERNMENT FOR SOME TIME IN THE PRESENT INSTANCE, AS HE UNDERSTOOD IT, THE MATTER HAD BEEN DEALT WITH ALTOGETHER AS A BUSINESS MATTER BETWEEN THE PROPER OFFICER OF THE C. P. R. AND THE GENERAL MANAGER OF THE INTERCOLONIAL. HE WAS SURE THE LATTER HAD NOT BEEN INSPIRED BY ANY DESIRE TO DISCRIMINATE AGAINST ST. JOHN OR ANY OTHER PORT. HE HAD NOT RECEIVED ANY SUCH SUGGESTION FROM ANY MEMBER OF THE GOVERNMENT.

Mr. Borden said he was assured that the agreement made between the C. P. R. and the Intercolonial was based purely on business considerations and with no desire or intention of discrimination against or for any port. WHATEVER ARRANGEMENT HAD BEEN ENTERED INTO, HE UNDERSTOOD WAS OF A TEMPORARY NATURE, AND SUBJECT TO FURTHER NEGOTIATIONS. ITS PRECISE NATURE COULD NOT NOW BE TOLD, BECAUSE HE HAD NOT SEEN IT, BUT HE SUPPOSED THAT AN ARRANGEMENT OF SOME KIND MIGHT FAIRLY BE MADE IF BASED ON BUSINESS CONSIDERATIONS.

There was no desire by the government to discriminate. The premier added that probably in the immediate future the business for the maritime provinces ports would be larger than they all could handle. He hoped to receive more data on the agreement with the C. P. R. at an early date, and trusted that the situation, when more fully explained, would so present itself as to show no discrimination had been intended. He felt he was capable of looking at the matter from a broad view point.

MR. PIDGON THEN SPOKE OF THE SPIRIT OF LAST MONDAY'S MEETING IN ST. JOHN AND SAID THE DELEGATION WOULD RETURN IN FEAR AND TREMBLING BECAUSE OF LACK OF INFORMATION.

DR. PUGSLEY WENT FURTHER. IT WAS DISCRIMINATION EVEN IF THERE WAS PROFIT TO THE INTERCOLONIAL. THE MAIN QUESTION WAS: AFTER THE DOOR HAD BEEN LEFT OPEN BY THE GOVERNMENT, AND THE C. P. R. AND ALLANS HAD SELECTED ST. JOHN AS THE PORT FROM WHICH THEY MOST ADVANTAGEOUSLY COULD DO BUSINESS, DID A GOVERNMENT OFFICIAL MAKE ARRANGEMENTS THAT INDUCED THE COMPANIES TO CHANGE THE PORT?

TO BENEFIT OTHER SUFFERERS

You May Publish My Letter About "Fruit-a-tives"

Mr. Jones is proud to acknowledge the great debt of gratitude he owes "Fruit-a-tives." He is glad to have his letter published in order that other sufferers may be induced to try these wonderful tablets made of fruit juices.

SARNIA, ONT., Feb. 9th, 1911 "I have been a sufferer for the past 25 years with Constipation, indigestion and Catarrh of the Stomach. I tried many remedies and many doctors, but derived no benefit whatever. Finally, I read an advertisement for "Fruit-a-tives" I decided to give "Fruit-a-tives" a trial and they did exactly what was claimed for them. I have now taken four boxes and find they are the only remedy that does me good. I have recommended "Fruit-a-tives" to a great many of my friends, and cannot praise these fruit tablets too highly."

PAUL I. JONES, 50c. a box, 5 for \$2.50, retail \$2.50. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

FORMATION. THEY HAD ABSOLUTELY NONE. THE LACK OF IT, AFTER FIVE DAYS, SEEMED RATHER AS A LUKEWARM RECEPTION THIS AFTERNOON. IF THEY HAD A REASONABLE ASSURANCE THAT THE INFORMATION WOULD BE IN OTTAWA IN A REASONABLE TIME THE DELEGATION SHOULD REMAIN TILL THEY RECEIVED IT.

Mr. Borden said he would see what could be done. Hon. Mr. Pugsley expressed the thanks of the delegation for the hearing and the premier closed the interview by saying he would give attention at once to the matter of the information required about the contract.

SIR GILBERT IS CONVERT ON NAVAL POLICY

It is gratifying that Old Country Imperialists, who, at first, were shouting so loudly in favor of Mr. Borden's contribution policy, are beginning to realize that that policy is against a scheme which casts such an aspersion upon their manhood and patriotism. There are few Old Country politicians who are more ardent in their Imperialism than Sir Gilbert Parker, M. P. for Gravesend. Sir Gilbert visited his old home in Belleville, Ontario, the other day and in response to the civic welcome tendered him, made a speech which is worthy of some notice.

First of all, he said that "Canada has always been happy in her Premiers who have represented her at the Imperial Conference." Sir Gilbert Parker is a Tory of the Tories, and his testimony as to the happy way in which Canada has been represented at the Imperial Conference is chiefly valuable, because it is one of the backhanded cries of the Tory leaders and the Tory press of Canada, that Sir Wilfrid Laurier fought against Imperial interests and "Imperialism" which was the cause of the loss of the Empire. Sir Gilbert Parker would say, in every Imperial Conference which he attended, every Canadian worthy of the name, has always been proud of the distinction which Sir Wilfrid Laurier brought upon Canada during his term of office in England, but it is particularly gratifying to have this testimony borne by Sir Gilbert Parker, whose loyalty to the Tory party cannot be questioned.

In the second place Sir Gilbert Parker made a notable reference to the navy question when he declared, that whatever form the bearing of part of the Empire's burden might be taken, he felt sure that when it stood complete it would be the expression of Canada's duty and her own sense of responsibility for her own security. "If a navy was needed in Australia it was needed as much here. A French-Canadian premier has taken the first step on the navy question. There would be no backward step when Canada adopted either form of naval policy. Then the war mania and armament race will begin to decline, for no nation could stand against an Empire's Nations, if banded for the maintenance of peace."

And the only safe way upon which Canada can progress is along the lines laid down by the House of Commons in 1908, which provided for the establishment of a Canadian naval force. It will be a Canadian navy or nothing. Canada will never submit to the humiliating policy of contribution. Sir Gilbert Parker, who has no slightest doubt, sees this as clearly as Canadians themselves.

HAD ITCHING PILES FOR 27 YEARS Often Laid Up for Days at a Time--A Wonderful Tribute to Dr. Chase's Ointment. Few people were ever more enthusiastic in praising Dr. Chase's Ointment than the writer of this letter. When you read the description of his case you will not wonder why.

Dr. Chase's Ointment is worth sixty dollars a box instead of sixty cents. I am a different man since using it. I am farming all the time, and never miss a day. Words fail to express my gratitude for the cure this ointment made for me. I cannot tell how much about it as it deserves. Anyone doubting this can write direct to me."

PRESBYTERIAN SYNOD IN SESSION AT SYDNEY

At the second day's sittings of the Presbyterian Synod in Sydney yesterday the working of Sunday schools and societies for young people were discussed in the morning. In the afternoon the subjects of social reform and evangelism were the principal subjects of discussion and the committee's report on augmentation was submitted in the evening the church budget and foreign missions were dealt with.

At the night session which was well attended Rev. Mr. McLeod from Antigonish county, dealt with the exodus of young people from the rural districts to the cities. Mrs. Putnam, a deaconess of the church, gave an interesting address on her work throughout the provinces in the interests of social reform. A cordial invitation was received by the gathering from St. John's church Moncton, to hold their meetings there next year. The invitation was accepted and the synod will be held in Moncton on the first Tuesday in October, 1914.

A telegram from the synod was sent to greet the Methodist conference now in session in Amherst.

How to Make Better Cough Syrup than You Can Buy A Family Saver, Saving \$2 and Fully Guaranteed.

Sixteen ounces of cough syrup--as much as you could buy for \$2.50--can easily be made at home. You will find nothing that takes hold of an obstinate cough more quickly, usually ending in the matter of 24 hours. Excellent, too, for croup, whooping cough, sore lungs, asthma, hoarseness and other throat troubles.

Mix two cups of granulated sugar with one cup of warm water and stir for two minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a 16-ounce bottle, then add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours. This is just laxative enough to help cure a cough. Also stimulates the appetite, which is usually upset by a cough. The taste is pleasant.

Introduction of New Wool Blankets

THESE ARE BLANKETS OF PEDIGREE.

We give to buying and selling blankets the careful attention that such intimate articles of household economy deserve. Consider the service that one expects from good blankets, and helter skelter buying or selling seems unwise.

Our advance showing of Wool Blankets, critically examined, will demonstrate our point. The soft surface of true wool blankets which leaves no doubt of quality is an assurance not to be misunderstood.

There is satisfaction in buying in the early season, when stocks are fresh from the looms, and one has the unlimited choice that only early buying assures.

WHITE WOOL BLANKETS

Five lbs. \$3.00 pair; six lbs., \$3.75, \$4.75 and \$5.50 pair; seven lbs., \$6.25 pair; eight lbs., \$7.75 pair.

LOCAL NEWS

BANK CLEARINGS

St. John bank clearings for the past week were \$1,696,548 as compared with \$1,825,489 for the corresponding week last year.

A RIPE STRAWBERRY

The Times has received from Miss Zella Harrison of Jerusalem, Queens County, a ripe strawberry, plucked on October 7th, on the farm of her father, Samuel Harrison, of that place.

INTERFERED WITH RACES

Charles O'Neil and Charles McInerney, twenty-four and twenty-eight respectively, were before Judge Ruliford this morning on a charge of drunkenness and disorderly conduct near the Marsh Bridge when the road race was being run yesterday. Policeman Gosselin testified that the men were intoxicated and had been endeavoring to interfere with the racers. The men were remanded pending investigation, but were released on payment of a deposit.

BURIED TODAY

Archdeacon Raymond officiated at the funeral of the late Richard J. Sullivan this afternoon. After a short service at the house, the body was taken to St. Mary's church, where service was held, and thence to the Church of England burial ground. There was a very large attendance, and the procession was a long one. The Feast of the Union was represented by a very large delegation. The Union also sent a large floral piece, and the steem in which Mr. Sullivan was held was shown by many other beautiful floral tributes.

GREAT INTEREST HERE

IN THE WORLD'S SERIES

Crowds impatient to hear Results—Betings on the Game—Some Large Wagers

The intense interest shown by St. John fans in the world's baseball series is evident by the crowd around the various bill boards in the city where the scores are put up as soon as received, and by the heavy betting.

It is reported that one well-known man, not unconnected with the hotel business, won \$800 on yesterday's game, while another won \$200 on the first day's play and lost the same sum when the Giants won yesterday.

Betting today was more in favor of the Giants, but no odds were offered except in one instance, when a wire from John Frodham to a local man made him offer 4-3 that the Athletics would win. It was quickly snapped up.

CHARLOTTETOWN MAN

NEXT PRESIDENT OF CANADIAN A. A. U.

Montreal, Oct. 9.—Though he has only held the office of president of the Canadian Amateur Athletic Union since the last annual meeting of that body, held in Toronto, November 1912, Dr. Fred J. Tees of this city has given out unofficially that he will not stand for nomination this year.

As a successor to Dr. Tees, several names have been mentioned, but the man most generally favored, is apparently H. D. Johnson, of Charlottetown, P. E. I. For a long time, Mr. Johnson has been a vice-president of the union, and he has been one of the most active of its workers. He is credited with creating the strong hold that body now has on all amateur sport in the Maritime Provinces.

MISSIONARIES ARE

RESCUED FROM HANDS OF CHINESE BANDITS

Peking, Oct. 9.—The foreign missionaries, American and Norwegian, who have been in the hands of the bandits at Tsao Yang, have been rescued. According to the advices received here they have not been injured. The captives included the Rev. George Holm and the Rev. Harman Fauske and his wife and child. They were being held for ransom, but Tsao Yang was surrounded by government forces, and an attempt by the bandits to break through the cordon, had already been repulsed.

RECHRISTEN STEAMERS AFTER NAMES OF BAYS ON ATLANTIC COAST

Ottawa, Oct. 9.—The ships of the royal Mail Steam Packet Company engaged by the government are to be re-christened and named after four of the bays on the Atlantic coast, Chaleur, Chedibucto, Cobequid, and Chignecto.

The first sailing under the new arrangement will be from Halifax in November.

WEDDED AT McADAM

A Brewer, Maine, letter says:—Word has been received of the marriage of Fred Wood, the well known ball player of this city, and Miss Beulah McKay of McAdam Junction, N. B. The ceremony, which was performed by Rev. Mr. Stirling of McAdam Junction, took place Saturday and Mr. and Mrs. Wood left on the evening express for a wedding trip to the east. Mr. Wood is a Brewer boy for several years one of the coming amateur ball players of this city. For the past two years he has signed with the McAdam Junction ball team and has evidently made good, remaining with them for two successive seasons and, incidentally, capturing a bride in the railroad town. His many friends in Brewer, where his mother and other members of the family still live, will extend hearty congratulations and good wishes.

ONE ON THE PARSON

Skowhegan, Me., Oct. 8.—Rev. J. G. Osborn, pastor of the First Baptist church, is telling a story on himself. He is the recognized pastor of the county jail, and while in conversation with the inmates a few days ago, one of them said to him: "Mr. Osborn, we like you better than the other preachers. The others are all right, and we haven't anything against them, but you seem like one of us."

HOW CAN HALIFAX ACCOMMODATE THEM?

Two Berths For Six or Eight Steamers—Lack of Facilities There May Force Rearrangement of Sailings

Only one wharf, with two berths! That's what Halifax has, and with those two berths, according to dispatches from the Nova Scotia capital, she will have to accommodate the Empresses, the Allan liners, the White Star, Dominion, the Cunard, the Canadian Northern as well as the freight vessels which make Halifax their terminus in winter.

Naturally, Halifax is worried. Rumors that the action of the C. P. R. in sending the Empresses to Halifax will mean that the Canadian Northern, Cunard and White Star Dominion boats will change their port to St. John and leave out Halifax altogether are rife.

Calculating that six lines will touch at Halifax or make their terminal at that port, these two berths will have to accommodate at least six to eight vessels every week. The Liverpool-Newfoundland service to be considered, and the Furness steamers.

The Empresses always stay in port one week to be provisioned and overhauled. Thus one berth will be continually occupied by a mail steamer, leaving only one other berth for the other five, or seven, or nine, as the case may be, which are waiting in the stream for their turn to unload!

According to this each boat should have about half a day at the berths for the purpose of unloading, loading, discharging and taking on passengers and mail, stocking, filling their bunkers and the other multitudinous duties that fall to the lot of a ship's company in port. Just twelve hours—when it can't be done in less than several days!

Added to all this the report states that neither of these two berths is big enough to accommodate either one of the Empress boats or one of the big Allan liners. Look at it if Halifax will be bitten off more than she could chew!

A. H. Harris, a Canadian Pacific official at Ottawa, who is believed to have inside information as to the arrangements for C. P. R. shipping, is said to have stated at Ottawa yesterday that in all probability the Royal George and the Royal Edward, both mail steamers of the Canadian Northern line, would not go to Halifax because of the lack of facilities there, but would come direct to St. John.

WOODLAND NOTES

(By O. S. H.)

It is said that a race is decadent when it loses interest in good sport. History seems to agree with this statement. The love of clean sport is an evidence of the vitality of a people. It is the credit of the city of Montreal in St. John that they encourage clean amateur sport. It was a pleasant sight to see the contestants in the bicycle and running races. They passed swiftly along the road by the river made historic by the Paris and Renforth crews. Here also raced such famous names as Hankan, Wallace, Ross, Brown, Harry Vall and many others. In the bicycle race most of the riders seemed new to us, but we recognized two born sports—Winchester and Cochrane, two men who are in the game for the love of it, and who are on the happy side, win or lose. A speaker later said: "The success is not so much in winning as in playing the game. Thomson in his 'Seasons' says: 'Even from the body's purity the mind receives a certain sympathetic aid. True sport calls for purity of body and mind. The ideal is good. The greatest benefits are indirect. In everything we do well we get a greater benefit than we expect. In a carriage we saw Ernest Stirling, we could wish him in the contest, yet doubtless the qualities that brought him victory so many times will carry him well through life. Oulton of Amherst has proved the worth of the adage "Try again."

PROBATE COURT

The probate court this morning dealt with the estate of Timothy Clark, lighthouse keeper. Deceased died intestate in 1910, his wife predeceased him and she left him surviving three sons, William L. of Boston, commercial traveler; Edwin F. of the same place, carpenter; and George H. of St. John, police officer; and one daughter, Elizabeth, wife of Robert Fawcett of St. John, laborer, and two grandchildren, Mabel and Adam, children of a daughter, Alice, wife of Albert Lockhart of San Francisco, mariner. On the petition of the children resident here, George H. Clark, the son, is sworn in as administrator. No real estate; personally, consisting of a leasehold, valued at \$500. Baxter and Logan are proctors.

In the estate of Nehemiah Shepherd, laborer, Rev. Robert P. McKim, the executor, files his accounts and asks to have the same passed and decree for distribution made. Citation issued returnable on Monday, 17th November, next at 11 a. m. Messrs. Hanington and Hanington are proctors.

BUTTER AND EGG PRICES WILL JUMP

Winnipeg, Oct. 9.—According to local wholesale and retail dealers, prices of butter and eggs are about to take an upward jump. They declare that the shortage in these commodities is becoming acute, while prices this year are lower than at the same period last year. The same situation exists all over the west, and Winnipeg is asked by outside points to supply produce on urgent calls. Butter is expected to jump five cents a pound in price, and eggs the same per dozen.

ROBERT ATKINS AND CHILD

A letter from Cranberry Isles, Me., to the Bangor Commercial says, "News has come from Nova Scotia that Robert Atkins, who last August took his twelve years old daughter in a small sloop boat and left his home here, saying he was going to take the girl to Nova Scotia, to live with his people there, is in Yarmouth, and that he has left the daughter with an old man who has a home on Grand Manan Island. Her relatives here are doing all they possibly can to learn some particulars of the child."

There are Johnnie Smiths and Willie Browns

Johnny is a well-dressed boy. Each season his wardrobe is carefully replenished at Oak Hall.

Willie Brown never looks nearly so well, though his mother spends just as much in fitting him out. She hasn't learned, however, that "there's a difference." The wise mother goes where she will find suits of the latest cut, most careful finish, and greatest attention to fit. She looks for materials that are both good and good looking.

In the season's fashionable Norfolk Suits are embodied all the elements which make the really good suit.

The choice may be fancy wool chevrons, or worsteds, or homespun or plain serge; it may be blue, or brown, or gray; it may have pointed, straight or slanted yoke, belt run through plaits, or stitched on—but in any case it is sure to be "just right."

Many other styles to choose from and every one "just right."

Russian Suits, 2 1-2 to 7 years, \$3.75 to \$6.50
Bloomer Sailor Suits, 6 to 10 years, 3.50 to 7.00
Plain Norfolk Bloomer Suits, 8 to 16 years, \$3.00 to \$6.00.

D. B. Norfolk Bloomer Suits, 11 to 17 years, \$9.00 to \$13.00.
Special School Reefers in Navy Cheviot, 3 to 10 years, \$3.75.
