QUEBEC IS LAND OF LIBERTY ITS PREMIER CLAIMS

Anxious for No Other Name Hon. Mr. Taschereau Tells Governor-General.

NOT BACKWARD IN ANY WAY HE SAYS

Satisfied With Rule of Duke of Devonshire Who Had Done Much for Country.

Quebec, July 18.—Speaking at a farewell banquet tendered His Excellency, the Duke of Devonshire at the parliament buildings tonight, Hon. L. A. Taschereau, Premier of Quebec, said that what impressed His Excellency would carry away with him of the Province of Quebec and said that the province would "desire it to be known that she yields to none in the matter of loyalty to her sovereign, in reverence for our political system, and in the strongest will to maintain intact the Canadian Confederation. "She wants to be a land of liberty where those of all races and creeds may live side by side in peace, harmony and good-will."

Washington, July 18.—Operations of the United States Shipping Board's fleet for the fiscal year just ended resulted in a loss of approximately \$380,000,000, Chairman Lasker of the board announced today. This deficit was greater by \$207,000,000 than previous estimates from official sources and was made following an examination of all board accounts.

BIGGS DEFENDS ROADS HE BUILT

Gave Work to 15,000 Ontario Men is Part of His Reply to Critic.

Hamilton, July 18.—Hon. F. C. Biggs, Ontario Minister of Public Works replied on Saturday at Dundas to the attack of Gordon C. Wilson, M. P., for North Westport, on his road building policy. He declared that Mr. Wilson had been going over the roads with a tape measure for four months and recently had requested Federal engineers from Ottawa to come and check up the work with the object of having the dominion grant cut off. Mr. Wilson's criticisms said Mr. Biggs had proved a stumbling block in the construction of the Macdonald road along the beach, which, it was generally admitted, would have meant much to the whole district. He declared that the highways programme had taken care of 15,000 workers during the depression period.

Little Hope Now of Bringing Sir James Craig, De Valera and the Premier into United Conference—Craig Going Back to Belfast to Consult His Advisers in the Government.

MINIMUM DEMANDS OF SINN FEINERS EXCITES WRATH OF THE ULSTER LEADER

Claims Sinn Feiners by Contesting Seats in Northern Parliament on a "No Partition" Platform Have Recognized Ulster's Claim to Self Determination for the Future.

London, July 18.—The Irish negotiations have taken an unexpected development. Late tonight Sir James Craig, the Ulster Premier, on leaving for Belfast made an important statement, which appears to forbid any hope of assembling a conference such as Premier Lloyd George proposed between himself, Mr. De Valera and the Ulster Premier. The Ulster leader maintains that the Sinn Feiners themselves, by contesting the elections for the Northern Parliament on a platform of "no partition," in which they were roundly defeated, have recognized Ulster's claim to self-determination, and, so far as his words have been interpreted for the present, he seems to wash his hands of any further participation in the peace negotiations.

DEADLOCK OVER ULSTER

The Irish situation, it was declared in responsible quarters tonight, has developed into a deadlock between Mr. Lloyd George and Sir James Craig, the Ulster Premier, and that the latter has been given an opportunity to go to Belfast to see if anything can be done in the circumstances.

The Sinn Fein leaders have submitted their minimum demands, which have been relayed to the Ulster Premier for consideration, it is stated, and it is in connection with such consideration by Ulster that Sir James and the other members of the Ulster delegation are, as was announced this evening, returning to Belfast tonight. London, July 18.—Just before taking the train tonight with his colleagues for Belfast, Sir James Craig, the Ulster Premier, said: "I return home well satisfied with the efforts being made towards peace. Mr. De Valera has broken his silence and cleared the ground by his statement to the press that he proposes to found his claim on recognition of the right of self-determination." The Ulster Premier contended that the people of Northern Ireland in the recent elections "determined" their

PREMIER STEWART GETS 20 SEATS

Three Ministers at Least Thought to Have Gone Down in Defeat.

Calgary, July 18.—The later returns show a surprising change in form, the Stewart government was defeated in Alberta today by the United Farmers. At 8.45 tonight indications were that the farmers would have from 30 to 35 members in the next assembly of the legislature, giving them a clear majority in the assembly of 51 members. Liberals are expected to return about 20 members; Labor three, and Independents about the same. In local election circles there is little doubt at this hour that the future combination will form the next government.

DE VALERA DEMANDS FULL HOME RULE

Wants Government Like Canada's With Separate Guarantees for Ulster on Quebec Lines

GRATTAN O'LEARY, Canadian Press Staff Correspondent

London, July 18.—Negotiations with Eamon De Valera continue. From an authoritative Irish source the Canadian Press learns that the Sinn Fein leader is practically demanding Dominion Home Rule on Canadian lines with Ulster given separate legislative guarantees, such as were given Quebec at Confederation. This, of course involves the Irish right to a separate army and navy, full autonomy and the power to withhold a contribution of any kind to the imperial exchequer.

No Truth in Report That His Majesty Has Been Asked to Solve Problem.

London, July 18.—Mr. Lloyd George declared today that there was no truth in the report that King George had stepped in to untangle a complication between Great Britain and the United States over the proposed Pacific conference before the recent action by the Washington Government in moving for such a conference.

The prime minister made this declaration in the House of Commons today in replying to a question: "The question whether there was any foundation for the statements in the press that the king had intervened directly to straighten an entanglement which had occurred in the negotiations with the government and the United States regarding the Pacific conference?" In answering, Mr. Lloyd George declared: "There is no foundation whatever for the statement. It is a pure invention."

Big Auto Burns On The Roadside

Gagetown, July 18.—While Gilbert Stockford was returning from his mill at Burton, he was stopped by a blow-out near the grave pit at Duck Creek. He was just jacking up the car for repairs when a stream of flame shot up in the air, and in a few moments the car was reduced to a hopeless wreck. It is understood that the loss is covered by insurance.

Humphrey Law had a somewhat similar experience recently. He returned in the evening from a run of some miles and put the car away as usual. The next morning he was surprised to find the front burned out of it. It was fortunate, however, that the fire did not spread to the building.

Unveil Monument At New Canaan

Dr. O. B. Price and Capt. the Rev. Mr. Corey Deliver Addresses for the Occasion.

Moncton, July 18.—Dr. O. B. Price, of Moncton, and Capt. the Rev. Mr. Corey, pastor of the Lewisville Baptist church, were the speakers Sunday afternoon at the unveiling of a monument erected at New Canaan, Queens county, to the memory of the fallen soldiers of that place. There was a very large gathering at the impressive unveiling ceremony, people coming by autos from different parts of Queens, Kings and Westmorland counties by the hundreds.

The tablet, which is of granite, with the figures of a soldier in khaki on front of it, is located in front of the new Canaan Baptist church and the beautiful design was much admired by the great concourse of people who assembled to pay a tribute to the memory of the gallant boys whose names were engraved thereon. The inscription on the tablet reads: "Erected to the memory of our boys who answered the call and gave their lives, 1914-1918. 'Greater love hath no man, this, that a man lay down his life for his friends.'—John 15:13. Then follows the following names: Lieut. J. Wallace Corey, 26th Batt., killed Aug. 28, 1916, at Arras; Pte. Lebaron Beach, 50th Batt., killed at the Somme, Nov. 19, 1916; Pte. Boas S. Corey, C.A.S.C., died in training, June 10, 1917; Pte. Arthur G. Small, P.C.L.I., Oct. 30, 1917; Pte. MOOSE AT GAGETOWN

Gagetown, July 18.—Moose still seem to be haunting the environs of the village, and lead the hunter to hope that they are even more plentiful in the woods. About six o'clock one morning recently when Mrs. Herbert Crabbe opened her front door, she found two moose standing a few yards away under the trees. One contentedly sniffed the morning breeze looked at her for a few minutes, did not seem at all alarmed, then slowly ambled down through the orchard back of Hotel Dinges, and on down the front street to the water. They evidently were on their way to the intervals around Mount Crook, the hot weather having driven them from the woods.

Right after the Shower the Sun came out as hot as ever.

SALMON DRIFTERS CAUGHT.

Chatham, N. B., July 18.—Warden J. J. Martin of Green River of Victoria and Madawaska Counties, recently captured three poachers using dynamite in Green River. One of them paid a fine of \$100 and costs, and the other two were sent to jail. Overseer W. L. Mersereau, of Carleton and Sunbury Counties, surprised poachers in the British Pool, on the St. John River. They were drifting for salmon, a proceeding which is against the law. Mr. Mersereau was successful in capturing one of them as well as the net.

Fires Breaking Out Again In Province

Fredericton, N. B., July 18.—A fire broke out yesterday at Fredericton Junction and forty-five men were rushed to the scene. Through this prompt action, the flames were soon put under control. About fifteen acres were burned over, but the damage is not great. A few men have been retained as a patrol.

A fire was reported from Busby's Station, north of Newcastle, on Saturday afternoon and it has been causing considerable trouble. The recent showers did not fall heavily in that section. Additional men were sent to this morning. The heavy wind yesterday spread the flames considerably and the fire is a hard one to fight. It is now under control as far as it is known at the department of lands and mines.

No Increases For Gagetown Teachers

Michael Law is Appointed Trustee to Fill Term of H. B. Bridges, Retired.

Gagetown, July 18.—The annual meeting of the rate payers and trustees of this school district, was held at 10 o'clock on Monday morning in the Grammar School. The attendance was unusually large, about fifty men being present. None of the rate payers, however, attended. The meeting was called to order by J. L. Allingham, trustee, and the minutes of the preceding meeting were read by the secretary, H. H. Gilbert, and approved by the meeting. Thomas Allingham was then elected chairman. The senior trustee, H. B. Bridges, retired and Michael Law was appointed. Dr. W. M. Jenkins and J. L. Allingham are the other members of the school board.

Hillsboro, N. B., July 18.—The July meeting of the Women's Institute met on Saturday afternoon. Mrs. R. A. Steeves, the newly elected president, in the chair. Among other business was the matter of payment of the upkeep of all the street lights of the town which the institute has been doing. Many of these lights have been installed by this society. Mrs. A. S. Bishop sang a solo and Mrs. Harry Fillmore read, which were enjoyed. Refreshments were served by the entertaining committee. The annual picnic of the institute will be held at the home of Mrs. Holmes Steeves, Salem, on August 11.

SYDNEY MINES' GREAT BLAZE

Fifteen Buildings, Including Two Hotels, Burned With Loss of \$100,000.

Sydney Mines, N. S., July 16.—The worst fire in the history of Sydney Mines occurred here at an early hour this morning. Fifteen buildings were destroyed, including the King Edward and Coronation Hotels, with an estimated loss of \$100,000. The fire was discovered about 2:15 in the Coronation Hotel. It was then breaking through the walls and roof of the building. A call was sent to the North Sydney firemen, who came to the assistance of the Sydney Mines brigade. Notwithstanding the efforts of the firemen the fire rapidly spread to the King Edward Hotel and to an adjoining building, the prolonged drought having made every bit of wood as dry as tinder.

Raged All Night. It was not until after seven o'clock that the fire was brought under control. Guests in the hotels and occupants of other buildings got out with considerable difficulty, several escaping in their sleeping clothes. No one was injured.

In addition to the two hotels, the buildings destroyed include three houses belonging to John Egan, two belonging to John Vickers, the shop of Edward Handley, Kilpatrick's livery stables, an old tenement row known as Rankin's Row, and another tenement row, one of the oldest in town, known as "Long Wall." Several barns and outbuildings were also destroyed. Fifteen or sixteen families were made homeless.

Restigouche Will Not Pay Board of Liquor Violators

Council Adopts Resolution Declaring That No Board Bills Will be Paid.

Dalhousie, N. B., July 18.—At the regular meeting of the Restigouche Municipal Council the payments for prisoners convicted of violation of the Prohibition Act created sharp discussion. It arose over the letter from a prisoner asking the council to provide for his wife and family while he paid for his home brew making.

Coun. Murchie said that stills were running in parish of Durham making home brew wholesale and nothing was being done. An Inland Revenue officer arrested two who had a small quantity of home brew in the cellar, but who did not make a business of selling it. He recommended that the jail doors be opened and that these offenders be permitted to go free. Coun. Duncan said that he had two cases of a similar nature. Two heads of families who had been convicted under the Prohibition Act left families with no means of support. He spoke of one case where a man had been convicted under circumstances which left doubt as to the justice of the conviction, yet there was no chance of appeal.

Coun. Murchie moved, seconded by Coun. Miller, that the Sheriff be notified that the municipality would not be responsible for board of prisoners imprisoned for infraction of the Inland Revenue or Prohibition laws while the fines go to the different governments.

Eve And Magdalen Appeal To Italians

Women of That Nation Would Rather be There Than Any Other.

Rome, July 18.—Most Italian women if they had their choice to be anything but Eve, according to results of a vote recently taken by one of the Roman papers. The argument advanced for being Eve was that she, of all women, had no competition. Her husband was never away from home and there was no other woman on whom he might cast an alluring glance. Those that did not choose to be Eve, chose for the most part to be Mary Magdalen, because, after being allowed to enjoy all the sins of the world, she was forgiven and afterward became a saint, thereby enjoying all the pleasures of heaven.

He also has had his first remembered view of a railroad train, a street car, a daily newspaper and a fiction magazine. Upon seeing a woman for the first time, Gillis visited a barber shop and had his long hair cut and his face shaved.

Gillis is 33 years old. He was born in Chicago. His mother was an actress and his father a disciple of Moody and Sankey. But for a third of a century father and son, their Bible open to the chapter which tells of John the Baptist dwelling in the wilderness, have lived alone on a western Nebraska ranch forty miles from a railroad, with no stranger stopping within its fence posts.

Coming to Big City. George Gillis, the father, died recently, two years short of the fourscore and ten which he believed had been promised to him. Tracy, the son, buried the body on the ranch and went on with his farm work. Today he came to Omaha on his pioneer journey with a load of cattle.

According to the young man's tale, the older Gillis trafficked with his neighboring farmers only on their property and never on his own, for fear his son's ears should pick up hints of civilization. The father died to the west with his son to save him from the dancing, singing actresses in Chicago's old Haymarket Theatre.

A devil lurks on every city street corner, father taught me, Tracy Gillis said today. "He told me the sad story of my mother and warned me to avoid all sinful men."

Honest Advertising.

THIS is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be.

That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained.

Fletcher's Castoria is strictly a remedy for Infants and Children. Honestly advertised as such, without a claim for more than its over 30 years of use have amply proven. A Baby's remedy for Babies. And not an adult's remedy for all the family and all the ails that human flesh is heir to.

Children Cry For

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

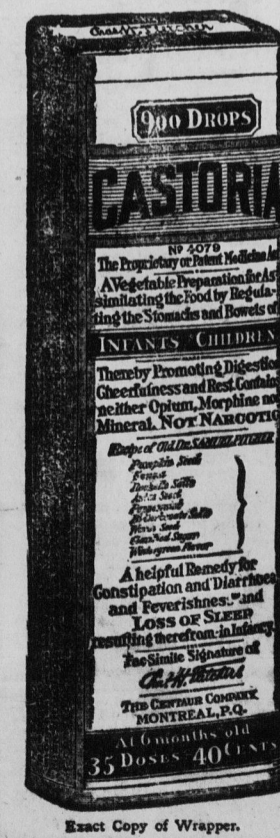

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

THE HARBOR QUESTION

The whole question of turning over the harbor to the Government seems to hinge on the word "TR".

To recognize St. John as a national port for the use and benefit of the Dominion as a whole is to raise the question of a whole as Halifax is.

To raise the tolls or do any other act that will place the port at a disadvantage as regards other ports.

Then by all means let the city sell the harbor and all belonging to it to the Government without delay.

But if the Government: Will only take over the harbor on the terms laid down in the 1913 Act.

Will only spend such a sum of money in improvements as the revenue is sufficient to pay interest on.

Will only patch up the property sufficient to "carry on" with.

Will expect the harbor revenue to take care of all outgoings, increasing the tolls if necessary, to swell it.

Will not regard the harbor as a national property indispensable to all parts of the Dominion alike.

Then the less the city has to do with Harbor Commission as proposed by the present Act the better.

For years and years the City of St. John has at its own cost maintained this port for the benefit of Canada as a whole.

It has not been a money-making proposition, on the contrary the revenue derived from its business has always been less than its absolute necessary outgoings.

It is of no financial benefit to the city to maintain a public harbor for the use and enjoyment of the millions of people in Upper and Western Canada.

But it is a valuable property, and before the city parts with it, it wants to be assured that the best possible use is going to be made of it, and that it will be equipped in such a way as to redound to the city's credit.

The plea that is offered in some quarters that no Government would spend two millions on a property and then neglect it, avails nothing so long as the revenue derived takes care of the interest on the outlay. The Act as drawn leaves ready too much to chance.

A POLICY OF NATIONAL SUICIDE

Those short-sighted farmers who are enamored at the prospect of a few dollars they will be able to save on what they may purchase under Free Trade had better seriously consider what they are bound to lose on their sales should that suicidal policy ever go into effect.

It is estimated that 85% of all that the Eastern farmers raise is sold for cash at good prices in our towns and cities, the most of the surplus going to the United States.

The United States market is now "banged, barred and bolted" in our faces. Not a single thing that the Canadian farmer raises is exempt from a heavy, indeed, a prohibitive customs tax under the new tariff.

Where are our farmers to dispose of their surplus? Abroad? That remains to be seen. Europe, on account of the ruinous state of exchange, will buy as little as possible.

Europe, indeed, seems to be self-sufficient and people abroad are working the land as never before. According to the International Bureau of Agriculture at Rome, there are sufficient stocks of grain on hand at present in Europe to carry the European peoples till the next harvest (which promises to be good) is reaped.

Surplus. Surely, under these circumstances, common sense and self-interest should cause our wild Free Traders to pause in their mad career. Free Trade, or a near approach to Free Trade, would destroy our towns and cities, and, of course, at one blow, destroy the farmer's principal market.

The cities would go down, but the farms would go down with them and we should all be involved in a common ruin. Furthermore, Free Trade in food stuffs (the principal plank of the Laurier Liberal party) would result in the United States dumping their surplus stocks of farm produce on Canada to the great detriment of Canadian agriculture.

Our markets would be open to them; their world would be closed to us. It is time for the farmers to wake up and grasp the

Linton And Saab Get Newman Brook Work

Engineer Expresses Belief That Contractors Will Lose Money.

The tender for the concrete arch over Newman Brook was awarded at the committee meeting of the Common Council yesterday morning to Linton and Saab, the lowest tenderers, the claim of Miss Wilkins for damage to her house was thrown out, and a release of liability for payment for water installation was ordered issued to the Misses Parks.

Before the Council got down to business the Mayor said he had been informed that members of the Water and Sewerage and Public Works departments staffs had taken part in the parade on Friday night and asked that he be furnished with a list of those so doing, and called attention to request that no parade be held. Commissioner Frink promised to try and furnish the information asked for. Commissioner Jones reported that the superintendent of water department reported that the damage complained of by Miss Wilkins to her house at the corner of Marsh street and Haymarket Square was not due to any defect in the city water pipes and moved that she be informed that the city would repair the sidewalk, but could not pay the bill she had rendered for \$191.

On motion of Commissioner Jones the Misses Helen and Louise Parks were granted a release on two lots for which they were liable for the interest charges on the cost of installing water service to Cedar Grove Crescent.

On motion of Commissioner Jones the contract for the concrete arch over the Newman Brook was awarded to Linton and Saab, the lowest tenderers at \$14.90 per cubic yard. In his report the city engineer expressed the belief that the contractors would lose money on the work. Commissioner Jones reported that the superintendent of the police department were working on the latter case.

Conference Opens At Wolfville Today

Missionary Conference is Under Auspices of Missionary Education Movement.

An inter-denominational Summer Missionary Conference will be opened at Wolfville today under the auspices of the Missionary Education Movement of Canada. The conference is to last from the 19th to the 26th, and the work of the missions and their needs will be treated on by prominent missionary workers.

The Program. The mornings of each day will be devoted to a Bible study period followed by a mission study hour where four new text books, "The Way of Friendship," "India," "New Life Currents in China," and "Korea," will be studied. The afternoon will be devoted to tennis and other recreations to which the Acadia campus is well adapted, and outings will also be indulged in. In the evening Life Service talks will be given by prominent missionary platform speakers and denominational missionary rallies will also be held.

The Speakers. The conference will be addressed by such speakers as the Rev. Prof. Falconer, of Pine Hill College, Halifax; Rev. W. T. Gunn, general secretary of the Congregational Union of Canada; Rev. H. P. DeWolfe, principal of Acadia Seminary; Rev. H. C. Priest, secretary of the Missionary Education Movement; Rev. W. R. FINGER NAILS

This nails denote poor health and lack of energy. Black spots in the nails denote grief, attention and melancholy. As a rule, the nails on the right hand grow faster than those on the left.

Dermatologists insist that no two nails on a person's hand grow at the same rate. The average rate of growth of one's finger nails is 1/8 of an inch a month, or from 1 to 1 1/2 inches a year.

If the nails are flecked throughout with white spots the patient's nervous system requires immediate attention. Most physicians admit that the appearance of the nails is a valuable index to the condition of one's health.

One's state of health affects the rate of growth of the nails. Nails on the hands of an invalid grow considerably faster than those of a person in perfect health.

The perfect nail should be white and naturally polished; transparent, without being too thin; slightly pink and not brittle. The proper length requires cutting at the fingers' ends.

McGrath Had Spent A Small Fortune

Newfoundland Man Sought Relief for Eight Years—Says He Now Feels Fine.

"Tanlac did for me what every other medicine I tried failed to do," said Patrick McGrath, of Colliers, Conception Bay, Nfld.

"I had a bad form of stomach trouble for eight years and during that time spent a small fortune trying to get relief. After every meal gas bloated me up, sometimes almost cutting off my breath altogether, and at other times my heart would palpitate like it was about to jump out of my body. I was so short winded that the least exertion would start me gasping and panting for breath. I got to where I wasn't sleeping enough to do any good, and in the mornings felt as bad as I did when I went to bed.

"My digestion is perfect now and I have a splendid appetite too. Soon after my head hits the pillow I am sound asleep and sleep all night long without waking once. In the morning I get up feeling as bright and happy as a boy, eat a big breakfast and go off to work whistling. When it comes to building a man up and making him feel like Tanlac hasn't an equal."

MRS. SOLOMON SAYS:

By HELEN ROWLAND (Copyright, 1920, by The Wheeler Syndicate, Inc.) Being the Confessions of the Seventh-Hundredth Wife

My Daughter, there is a pitfall in the life of every man, and in the life of every woman an hour of peril. And lo, it is called the Dangerous Age!

For the Seven Ages of man are as the course of a banquet, which follow one upon the other in natural succession; but the Dangerous Age cometh not according to years, and is ALWAYS a surprise. Yes, by these signs, shall a man know when it is upon him. When he yearneth to cast aside his sober cravats, and to array himself in spotted fantasies and flowered works of art. When he ceaseth to hide his flirtations under a bushel of deceit and modesty, and beginneth to boast of them with pride and self-complacency.

When he no longer findeth thrilling the kiss of a widow of thirty, but beginneth to cast tender eyes upon flappers and ingenues. When he refuseth to apologize for his sins and follies, and seemeth to vaunt upon them with the flourish of trumpets, and panting for breath. I got to where I wasn't sleeping enough to do any good, and in the mornings felt as bad as I did when I went to bed.

"My digestion is perfect now and I have a splendid appetite too. Soon after my head hits the pillow I am sound asleep and sleep all night long without waking once. In the morning I get up feeling as bright and happy as a boy, eat a big breakfast and go off to work whistling. When it comes to building a man up and making him feel like Tanlac hasn't an equal."

New Specimen of Protectionist

Preparations Being Made to House the New Car for Use of Police Department.

Preparations were begun yesterday to convert the alleyway between the old court house and No. 2 Engine House, King Square, into a garage for the new Ford car which was recently purchased by the city for the use of the detective department.

No. 2 Engine House has been used for some time past as a garage for the ambulance and police patrol, while the upstairs apartment is used as sleeping quarters for the crews of two civic "busses."

A newcomer is expected at No. 2's shortly, as the new police patrol ordered by the city is expected to arrive within a fortnight's time. The body of the new car is now being built in Toronto. In addition to serving as a patrol, it is also being equipped to serve as an emergency ambulance. The body will be mounted on a Studebaker chassis, and will be a much more powerful car than the present Lincoln, otherwise known as the "Boottlegger's Pet."

English Play And Music Very Fine

Imperial Theatre Delights Packed Houses With Highest Class of Entertainment.

Imperial patrons might well have been in England yesterday, sitting in a picture palace on the gay white ways of London itself for the program presented was typically and actually English, the fourth of the British Mastercraft series "The Great Gay Road," was the title of the photoplay, a romantic, out-of-the-ordinary conceit of a gallant tramp, a knight errant of the highway, who won his way and almost a wife by his striking personality, his gentlemanly bearing.

The story was Tom Fallon's well-known novel that has also been done into a play. As a picture it becomes a charming scenic production with the splendid acting of the London stars into the generous bargain. Stewart Rome, as the tramp was most satisfying and everybody seemed to revel in the overness of the story its real English atmosphere and different kind of presentation.

Mention must surely be made of the English music that accompanied the film. This setting of pictures with appropriate melodies and themes certainly raises the film form of entertainment from the slough of mediocrity and renders it vocal with sentiment and feeling. Accompanying the big picture were such miscellaneous subjects as a delightful series of nature studies—snow vistas, foliage, rippling brooks and placid streams, roistering winds and sapphire hills, all contrasted sharply and beautifully in colors by that master of scenic photographing Burton Holmes.

Mr. Irving, the Imperial's talented pianist, clothed these scenes with musical raiment that increased their beauty. There were topical pictures in the Fox News reel and funny sayings from The Literary Digest's columns.

Today the same program obtains. Tomorrow Bert Lytell will be the star in a Metro production entitled "The Price of Redemption"—something about Anglo-India and social classes there, the military code and the inevitable woman, powerful and colorful as all such features are. The Imperial is certainly giving a fine line of film entertainment these summer days—days when it is traditional that business is slack because of the rural lure and outdoor amusements, but which are seemingly quite busy by the force of merit. American tourists are especially appreciative of this oasis in the summer desert.

Evaded Arrest While In St. John

Harry Stone, "King of Dope Smugglers," Got Clear Here But Confederate Arrested.

Local interest is attached to a recent despatch conveying the intelligence that Harry Stone, "King of the Dope Smugglers," had been convicted in Cornwall, Ont., of an attempt to smuggle \$100,000 of dope into the United States, and sentenced to six years' imprisonment and a fine of \$1,000.

Stone narrowly evaded arrest under a similar charge in this city last spring. As it was his confederate was taken and also a local Chinaman, Hum Seck. The confederate, on Goldberg, turned King's evidence and was allowed to go. Hum Seck was sentenced to a year's imprisonment and is now doing time. Two other local Chinamen were also fined for having the dope in their possession as a result of conditions brought to light after Stone's visit.

Weddings

Deacon-McKenzie

St. Stephen, N. B., July 18.—An event in which society folks were much interested was solemnized this afternoon at the home of the bride on Erin street, in which the principals were Miss Margaret Tibbets McKenzie, eldest daughter of Mr. and Mrs. Arthur R. McKenzie, one of the most popular young ladies of the town, and Melvin Newham Deacon, eldest son of the late Dr. M. N. Deacon and Mrs. Deacon, of Milltown, now employed in office work with the C. P. R. at North Bay, Ont. Ven. Archdeacon Newham, rector of Christ Church, and grandparent of the groom, was the officiating clergyman, and the ceremony was witnessed only by members of the families, among them six grandparents.

The young bride was very beautiful in a costume of white organza with hat to match and carrying a shower bouquet of white roses. Her bridesmaid was her cousin, Miss Helen Stevens, Edmondston, and the groom was supported by Fred Boyd of Milltown. The wedding march was played by Miss Hazel Flewelling of St. John.

Very many beautiful gifts testified to the esteem in which the young couple are held, the groom's gift to his bride being a dinner ring of platinum set with diamonds.

A wedding supper was partaken of and the happy couple left on the evening express for wedding trip that will carry them to Montreal, Quebec, the Saguenay and to their future home in North Bay. The bride's trousseau costume was of blue jersey cloth with hat to match.

COUNTY RESIDENT IS NOT PLEASED

Wm. B. Daley's Store Was Robbed and Feels That Police Protection is Needed.

The grocery store of William B. Daley on the Loch Lomond road was broken into Sunday evening and a quantity of money, groceries and other articles stolen therefrom. Mr. Daley reported the matter to the city police department and was informed that the matter was within their jurisdiction. He then reported to the county authorities, who informed him that as there was no county officer assigned to that section, he would have to hire an officer who he might wish to have investigate the matter. Mr. Daley was not much pleased with such information, holding that as a taxpayer of the county, he was entitled to equal police protection with any other county resident.

Robbed While Attending Church

Leon Blethon Arrested for Stealing \$300 from Lady Who Had It Under Pillow.

Leon Blethon was arrested at McAdam Junction yesterday afternoon by C. P. R. Officer Legate, acting on instructions issued by the local detective department.

Blethon will be charged with the theft of \$300, the property of Mrs. H. Shepherd, of Musquash, and which was stolen from under a pillow in her bedroom Sunday while she was absent at church. When Mrs. Shepherd returned she found the money was missing and also Blethon, who was working on the development project at Musquash, and who had been boarding with her.

Blethon is alleged to have come to the city Sunday evening in a motor car, but decided not to stay, so left again and went as far as Westfield, where he boarded a train for the border, going as the McAdam, where he was apprehended.

Jamaica Welcomes Fleet From Canada

Bishop De Cartaret Declares Trade Pact Between Canada and West Indies Good.

Halifax, July 18.—The relations which exist between Canada and the West Indies are both close and cordial, and it is our earnest hope that many of these relations may be considerably strengthened in the near future," said His Lordship Bishop De Cartaret, of Kingston, Jamaica, officially welcoming the Canadian Navy Squadron to that port yesterday. Referring to the trade agreement arrived at last year in Ottawa, Bishop De Cartaret said that it had been described as the greatest advance which had yet been attained in imperial preference in any part of the empire.

Advantage to Both. He felt that it would be of great advantage to both countries. "So far as Jamaica was concerned," he said, "we desire to do all that lies in our power to strengthen the ties that already bind us to the Dominion of Canada." Captain G. H. Adams, commander of the cruiser Aurora, replied on behalf of the squadron. An account of the ceremonial of welcome is contained in a cable received here tonight.

Two Years Jail For Bicycle Theft

Bathurst, N. B., July 18.—A twenty year old lad named Ernest M. Cormier, belonging to Lower Carleton Place, was sent to the penitentiary for two years by Judge McLatchey in the local court house for stealing a bicycle.

The bicycle had been left by the owner in the church grounds at Lower Carleton.

When Cormier appeared before the Judge and was formally charged with the theft he pleaded guilty, and after considering the case for a few minutes His Lordship passed sentence.

All Set For The Fredericton Races

Nine Races on Programme and Horsemen from All Over East Are at Capital.

Fredericton, N. B., July 18.—Anticipating record-breaking time in most of the nine races on the programme, horsemen from all over the east had here tonight ready for the opening of the Maine and New Brunswick circuit meeting tomorrow.

There was every indication this evening that the speculation will be heavier at this meeting than it has been this season, and altogether it looks like a big meeting if the weather holds good.

The introduction of Nutwood Lou, an entry of the Means stable from Machias, Me., has added an element of uncertainty to the 2:17 trot, the only one of the three races on the opening card that was looked upon as settled before they started.

Bobby Belyea Will Accompany Hilton

New England Intermediate Champion Will Accompany St. John's Senior Wonder.

The executive in charge of raising funds for defraying expenses of Champion Hilton Belyea to the Canadian Henley and St. Catherine's, July 23 and 24, also the National Championships at Buffalo, N. Y., July 6 and 6, met again last evening. It was reported that tickets for the benefit ball game on St. Peter's grounds Wednesday evening were being sold in large numbers and record crowd would be present when the champion St. Peter's and Commercial met.

Members of the executive reported substantial sums having been received, and it was pointed out that many citizens, who wished to make donations large and small, did not know where to leave the same.

Hilton is at present training at Millidgeville. He is in the pink of condition, and it is only hoped that he will continue so and within a few weeks the citizens will learn that he has not only defeated Bob Dibble, the winner of the Diamond Sculls in England and the Canadian Championships, but while at Buffalo, the St. John oarsman will have John Kelly, the Olympic champion of the world, taking the back walk.

Ford Sales This Year Nearly A Billion

Sold Its Five Hundred Millionth Car a Few Weeks Ago—Wonderful Growth.

New York, July 18.—Gaston Plaut, the New York manager of the Ford Motor Company, in discussing the growth of the Ford Motor Company the other day, said: "A few weeks ago the Ford Motor Company sold its 500,000,000th car."

"Last year we built 998,000 cars and 79,013 tractors, valued at \$667,000,000. And this year, if the present demand continues, the company will build close to 1,200,000 cars, which with trucks, tractors and parts, will bring our total volume of business up to pretty close to the billion dollar mark."

The number of Ford cars built and sold since 1903, when Henry Ford started business, is as follows:—

Year	Number of cars
1903-4	1,708
1904-5	1,695

Acadia Sugar Co. Changing Office

Canada, Not Scotland, Will be the Head in the Future—Delay Offering New Securities.

Montreal, July 18.—Acadia Sugar directors announce that they are considering the changing of the domicile of that company from Scotland to Canada, which may be done at a meeting of the directors this in a notice calling the thirty-first ordinary general meeting of the company, for July 27. The directors state that they have had in mind the fact that the company has been in operation since 1903, and that they propose a change of domicile, a step which they believe has many substantial reasons in its favor.

The directors say that if they finally decide to submit such a proposal to the company, the necessary meetings will be called to deal with the proposition. The statement by the directors of the Acadia Company that they went through the recent world sugar crisis with relatively much less loss than other companies engaged in the same business is significant.

Delay New Securities

The directors announce delay in the issue of \$3,000,000 new securities for hypothecation purposes. The circular announces that the issue if these new securities in lieu of back dividends has been delayed by various technical and legal difficulties and as being further postponed by the failure of Messrs. Imbrie and Company, New York, but the directors anticipate no serious consequences from this failure and hope at an early date to be in a position to proceed with the distribution. The issue of share certificates of the new denominations has been postponed pending the decision as to the change to Canadian domicile for the company.

Wheat Market

Winnipeg, July 18.—Wheat prices worked lower today in view of the small volume of business, the undertone was undoubtedly strong and the price movement followed Chicago closely. Both July and October declined after the opening, keeping on the downward path until the close which was 2 1/2 to 4 7/8 cents lower.

There was a fair domestic demand from millers existing for cash wheat, but the demand did not appear urgent.

RAIL WAGE SLASH STARTS AT WINNIPEG

Winnipeg, Man., July 18.—Railway brotherhoods, on the Western lines of the Canadian National Railways were officially notified this morning by A. E. Warren, general manager western lines, that the wage cut of 12 per cent, became effective Saturday last, July 14. Some six thousand employees are affected. Chairmen of the various organizations are holding a conference with Warren at the western in regard to the wage cut.

GOSSIP AROUND THE MARKETS

United Fruit's dividend of 12 per cent annually appears fully warranted by earnings of the company in the first six months of the current year. It is estimated that its total net prior to Federal taxes in this period was upwards of \$12,000,000. On this basis earnings for the year, before taxes, would be equivalent to a 24 share on the \$100,000,000 outstanding stock. These figures take into account the assumed loss suffered on sugar carriages over from last year. On the current year's sugar business the company is making money, selling 25,000 barrels today.

Statistics compiled by the Automobile Chamber of Commerce for companies producing about 75 per cent of the country's output, show that shipments during June were about 3 per cent in excess of those of the previous month, and 60 per cent in excess of those of June last year. Furthermore, it is reported that a canvass of local automobile companies reveals that sales for July to date are running ahead of those of last month, for the first time on record. July sales have always been below those of June, according to motor car dealers. Officials of the Chandler Motor Company say that sales for July compare favorably with the largest of any month since last October.

THINKS GERMANS WILL PAY COSTS

Canadian Official Declares They Will Do It if Given Sufficient Time.

Ottawa, July 18.—The German people are hopeful of being able to pay for war indemnity and reparations that they will be able to do so if given time, in the opinion of Major H. Spencer Ralph, controller of the clearing office in Canada which is handling enemy property and reparations. Major Ralph has just returned to Ottawa after spending some time in England and in Germany. In regard to conditions in Germany, Major Ralph stated that during two years he had made he found every evidence that all factories were running full blast day and night and German agricultural crop prospects were excellent.

THEFTS IN 1920 COST RAILROADS OVER \$21,000,000

Robbery Loot Nearly Fourth of All Freight Claims Assessed During 1920.

New York, July 18.—By theft and robbery the railroads of the United States lost \$21,890,000 during 1920. This amount represents nearly one-quarter of the estimated total of freight claims which the roads were called upon to pay during the year. It was considerably larger in proportion to the total claims than it had been any previous year in the history of United States railroading.

These figures were presented at the annual meeting of the protective section of the American Railway Association in the Hotel Pennsylvania, which had for its chief business the formulation of a plan whereby these losses may be reduced. W. W. Atterbury, vice-president of the Pennsylvania system; E. J. Peterson, president of the New Haven, and R. H. Ashton, president of the American Railway Association, all addressed the meeting on the necessity of working out such a plan.

DRY GOODS WERE MOSTLY FANCIED

Rail Assn. Seeks Plan to Stop Losses—Liquor Proves Hard to Carry.

Police officials of the roads who told their troubles at the meeting, said the shipment of liquor was proving their most difficult problem. The losses through these shipments are soaring every month and it requires more police to guard them than it does any other shipment of like value. The railroad men propose to deal with the problem by bringing about fuller co-operation between their own special police and municipal and federal authorities. They also will endeavor to obtain a higher average in the quality of the men doing railroad police work. An educational campaign to teach shippers to place their goods in stronger containers also will be undertaken.

There were 136 railroads represented at the conference, including all sections of the United States. R. S. Mitchell, chief special agent of the Missouri Pacific, was chairman.

WALL STREET IS VERY IRREGULAR

Only 335,000 Shares Traded in During Full Day—Atlantic Gulf Under Pressure.

New York, July 18.—Business on the stock exchange today totalled scarcely 335,000 shares. Irregular price movements revealed weakness in certain specialties and comparative steadiness in seasonal issues.

Atlantic Gulf, under constant pressure in connection with litigation involving the company's finances, made an extreme decline of 3 1/2 points. Mexican Petroleum gained three points at one time, but reacted sharply on heavy offerings, finishing at a loss of 3 1/2 points.

Representative steel, equipment and motor related pressures, as well as specialties in the leather, textile and sugar groups. Sugars were sustained by prospects of a loss to Cuban growers, a move which contracted limits, some leaders unquoted.

Last week's loss of cash reserves by clearing house banks failed to disturb local money rates. On the exchange all call loans were made at six per cent, and the little time money available was offered at the same figure. Some outside loans were made at 5 1/2 per cent, both on call and time.

Liberty issues showed mixed gains and losses on small dealings and the remainder of the bond list was equally irregular, including foreign flotations. Total sales, par values, aggregated \$7,400,000.

FOREIGN MONEY AT RECORD LOW

London Today Fell to the Year's Lowest Quotations in the Local Market, Demand Bills Declining to \$1.60 5/8. Little actual business was reported.

New York, July 18.—Exchange on London today fell to the year's lowest quotations in the local market, demand bills declining to \$1.60 5/8. Little actual business was reported.

Rates to France, Italy and most other continental centres reacted sympathetically. Paris demand bills were quoted at 7.76 1/4, off 3 1/4 points. German marks were quoted at 1.30, a decline of 3 3/4 points. Dealers in exchange ascribed the adverse movement mainly to Britain's unfavorable trade balance.

GRAIN IN STORAGE

Ottawa, July 18.—According to returns received at the Dominion Bureau of Statistics for the week ending July 18, 1921, the quantity of grain in store at the different public elevators throughout Canada had decreased in wheat by 561,145 bushels; barley 208,117 bushels; oats, flax and rye show increases of 830,205; 81,205; and 50,274 bushels respectively as compared with the previous week.

THE CANADIAN CATTLE

London, July 18.—Frank Donovan, of Birkenhead, reports an almost cessation of the demand for meat in consequence of the hot weather.

Machinery was disabled and circulating and ballast pumps not working, according to radio messages which came into River Plate ports during the month of July 1920, barely nine a day have arrived from the United States each day of the present month.

Little Shipping To Platte River

Buenos Aires, July 18.—An enormous decrease in American shipping tonnage passing into the River Platte during the past few weeks has become manifest. Instead of the daily average of thirty vessels which came into River Plate ports during the month of July 1920, barely nine a day have arrived from the United States each day of the present month.

STEEL WAGES CUT.

Hamilton, Ont., July 18.—The action of the Steel Company of Canada on Saturday in reducing the wages of unskilled laborers to thirty cents an hour, will be reflected in a corresponding decrease for this class of labor in other local industries, it was said last night. The city is still paying 50 to 55 cents an hour. Proposed reductions of 12 per cent in their wages are opposed by members of the Locomotive Firemen's and Railway Conductors organizations.

DIED AT THROTTLE.

Altona, Pa., July 18.—Alva G. Laughlin, engineer of Pennsylvania train No. 18, Chicago mail east died with his hand on the throttle, as his train was passing Wilmore, Cambria County at 7.35 o'clock last night. Engineer Laughlin evidently felt himself sinking as he made a vain effort to shut off the power and bring his train to a stop. Fireman Hitchey saw Laughlin sink back and stretched over the prostrate engineer to reach the throttle and halt the train. Laughlin had been with the railroad for thirty-three years.

COAL ORDERS POOR.

Toronto, July 18.—The Toronto coal men announce that they have abnormal quantities of coal on hand and that orders are coming in very slowly. They declare that there is no chance of the price weakening, but on the contrary, it is likely to advance as the season progresses. E. A. SCHOFFIELD, Mayor.

THE WEATHER

Toronto, July 18.—A trough of low pressure extends from the Great Lakes to the Gulf of St. Lawrence and pressure is relatively high in the Western Provinces. Thunderstorms have been very general in Ontario and Quebec, and they have occurred locally in Northern New Brunswick. Elsewhere in Canada the weather has been fine.

MEETS THIS MORNING.

The City Council will meet this morning instead of the afternoon on account of the Municipal Council meeting this afternoon.

BROUGHT MANY PASSENGERS

Five Pullman cars and four day coaches were necessary to care for the passengers on the Boston train arriving here at 1.45 Monday afternoon.

DISTINGUISHED PARTY HERE.

Hugh J. Chisholm, president of the International Paper Company, and a director of the Maine Central R. R., with a party of friends arrived in the city yesterday aboard private Pullman car Federal, attached to the train from Boston. The Federal was coupled to the Halifax train, the party aboard being enroute to Iona, C. B.

H. A. MORTON APPOINTED.

H. A. Morton has been appointed Boys' Work Secretary of the Y. M. C. A. in place of Nelson MacEwen who resigned to take over a "Y" post at Winnipeg. Mr. Morton is a local boy, and acted as assistant to Mr. MacEwen last year. His appointment is meeting with much favor especially amongst the boys of the Y. M. C. A. with whom he is deservedly popular.

ACCIDENT NARROWLY AVERTED

The prompt action of automobilist turning from Charlotte down King street, yesterday afternoon, when he shot his car across King to the curb in order to save crashing into a jitney full of passengers, that moved out from the curb in front of the Ross Drug Co., without giving any warning, probably prevented a serious accident. Some accident is sure to follow this reckless handling of jitneys at the particular corner.

WANTS INFORMATION.

The secretary of the Board of Trade is in receipt of a letter from the Commercial Intelligence Branch of the Department of Trade and Commerce, Ottawa, stating that they intend to issue propaganda to British manufacturers setting forth the advantages of Canada as a commercial centre. They wish information about St. John with reference to transportation facilities, tariff, success of British industries already doing business here, and what concessions would be made in relation to factory sites, taxation, etc.

Not Sanitary And Unclean

Dr. Crawford Reported to Hospital Commission Yesterday.

A special meeting of the Hospital Commission was held yesterday afternoon at 4 o'clock in the rooms in the hospital to hear the report from the house committee with M. E. Agar in the chair. This report recommended that 30 new mattresses and covers be supplied to the epidemic hospital. Dr. Crawford told of visiting the hospital on the 9th of this month and making a verbal report to the superintendent and a written report to the warden. He said that the place was not sanitary and was unclean, and he would like the warden and the mayor to look it over. It was moved and seconded that the mattresses be bought and the motion adopted.

Mrs. J. V. McLellan next spoke and told of the need for wire screens on the basement windows in the new Nurses' Home. Some samples of netting and their estimated costs were laid over. The commission realizing the need of screens and would look into it at the next meeting. J. King Kelley said that the new building was paid for and became the property in custody of the commissioners on Saturday and that all the contractor's bills were paid up. There were no extras on the building except what was ordered by the county council, and also excepting the suits for the electrician. The matter of the dietitian suite is to be taken up later. Mr. Kelley also spoke of the opening of the Nurses' Home and said that Dr. Hudson and himself were in charge of the opening, and that no formal opening had been planned. The ladies who are sitting up the Home will be through with their work on Monday.

Those in attendance at the meeting were Dr. Crawford, J. K. Kelley, Mrs. J. V. McLellan, Mr. Flawelling, W. H. Emerson and M. E. Agar.

MOTOR BOAT "MIGRACE" ARRIVES HERE FROM BRIDGEWATER, N. S.

W. T. Ritcey, President and General Manager of Acadia Gas Engines, Ltd., Bridgewater, and Party on Board—Bound for Fredericton—Speedy and Well Fitted/Craft.

Much interest was caused along the waterfront yesterday by the arrival of the motor boat "Migrace," bound for Fredericton, owned by Mr. W. T. Ritcey, president and general manager of Acadia Gas Engines, Ltd., Bridgewater, N. S. Accompanying Mr. Ritcey are Mr. E. C. Sullivan, sales manager for Acadia Gas Engines, Ltd.; Mr. G. A. Hubley, Mr. J. G. Robertson and Mr. A. Rafuse of Bridgewater.

"Migrace" is of a heavy mahogany construction screw fastened, 23 ft. long, 6 ft. wide, V-bottom, hand design, equipped with electric lights, auto hood, windshield, and all modern conveniences, and has a speed of 24 miles per hour. Mr. Ritcey's boat is equipped with the 40-60 H. P. "Acadia" high-speed or medium duty engine, has a 5 in. bore and 6 1/2 in. stroke, and will rank with any of the highest class 4-cycle engines manufactured in any country. Manufactured in the "Acadia" factories by expert mechanics, it places this company on the highest pinnacle in the engine trade.

As will be seen by the cut, this engine is very compact and simple in construction. Combining only necessary weight with special materials, thereby adhering strictly to the conservative and the practical in engine building, it performs its work economically with freedom from breakdown, as dependability and durability have not been sacrificed for extreme light-weight or excessive high speed. The cylinders, cylinder heads and pistons are made from a special close grained grey iron; lower crank case of tough bronze metal; upper crank case cast from aluminum, being rigidly reinforced by ribs and steel tie rods, insuring strength; crank shaft forged from solid block open heart steel; connecting rods steel forged; cylinders and pistons ground accurately to size; and cam rollers hardened and ground to size; bearings lined with genuine babbit metal. The lubrication is entirely automatic, being of the modern pressure feed, forced by a bronze gear pump thus eliminating troublesome oilers and grease cups. A compression re-

head, thereby preventing water from entering the cylinders. They supply a complete electrical, water, exhaust, fuel and propeller equipment; everything necessary for installing. The stationary engines manufactured by this company are rapidly gaining the same position that their marine engines hold. They are now establishing agents in the inland towns, enabling them to cater to the farming trade, and just recently they sold three carloads to one Quebec firm. Acadia Gas Engines, Limited, are, and have been for a number of years, the largest manufacturers of motor engines in Canada, but until two years ago confined themselves exclusively to 2-cycle engines from 3 to 24 H. P. Mr. Ritcey had the manufacturing of 4-cycle engines under consideration for some time, but until two years ago could not secure a designer that he considered would come up to the "Acadia" standard. The gentleman he then secured has had about thirty years' experience with gasoline engines, and previous to his coming was designing engines for one of the largest, oldest and most widely known manufacturers of 4-cycle engines in America.

George Doucet Under Arrest

Charged With Assault and Carrying Concealed Weapons—Robbery Suspect.

After pleading guilty to the charge of assaulting Hazen Brown, and of carrying concealed weapons, George Doucet was remanded to jail yesterday, at the request of the detective department, who wish to investigate several robberies which they believe him to be connected with. At the hearing yesterday Hazen Brown said that the accused struck him with a rock. Emma Brown swore the accused said he would wring her damn neck. He came to the house about 12 o'clock at night and shook the door violently. Officer Howard, who arrested Doucet on a warrant, stated that he found a loaded stick on the prisoner, and that the accused was the leader of a disorderly crowd around Millidge avenue, and in the last week or so that there had been many complaints about the actions of this crowd. Seven drunks pleaded guilty and were remanded. One drunk pleaded not guilty, and was sent down stairs to the police who made the arrest could appear in court.

RAY HANSEN INJURED.

The St. Peter's baseball team is minus the services of Ray Hansen on the mound these days. A week or so ago a batted ball struck him on the leg and it has developed that the muscle was torn away. He has been suffering a great deal with it but carried on undisturbed till yesterday, when his doctor ordered him to bed. It is hoped that a few days will see him all right again.

A Story About Brush Making

Rotary Club Listens to Interesting Talk by L. W. Simms on This Subject.

Among the visitors at the weekly luncheon of the Rotary Club yesterday was Mrs. Munro, superintendent of the Chataqua, who briefly addressed the members on the subject of that undertaking, her chief desire, she said, being to remove the impression that, sent abroad, that it was a money-making concern. The sole object of Chataqua, she declared, was educational.

Rotarians M. E. Agar and Dr. Chipman were given an enthusiastic reception on their return from their European trip. Both the more enjoyable on account of the fine views of both the exterior and exterior of the company's plant and factory. He pointed out that the coloring on some of the slides was defective, and they were prepared, he said, in the United States (Deserves no pity. He should have had them made in Canada and patronized home industry—Ed.) However they gave an excellent idea of the many operations which are required to turn out an up-to-date brush of all the various kinds. His remarks were very much enjoyed and he was tendered a hearty vote of thanks.

Ronald McAvity, on behalf of a dozen Rotheray golfers, extended a challenge to as many from the Westfield links and a match will be arranged. Rotarian Harold Rising was in the chair, and there was a good attendance.

Persons Hectoring St. Car Passengers

Subjected to More or Less Annoyance from Hoodlums When Boarding Cars.

Street cars were crowded yesterday on the East St. John and Glen Falls routes. Persons along the route showed their appreciation of the resumption of service by liberally patronizing the service. The Haymarket and Main line routes were also operated, and the patronage accorded the cars on these lines was greatly in excess of that reported on any day since the resumption of service.

Hectoring Goes On.

Those who patronized cars yesterday subjected to more or less annoyance by sympathizers with the former employees of the Power Company. At Haymarket Square, a crowd of men and youths "mugged" those who boarded the cars. The Haymarket crowd also endeavored to discourage men employed by the Company on the Brussels street work. At Indian Point a crowd gathered when the boats began to arrive from up river and carried on the work of intimidating passengers who were boarding street cars. These matters were reported to Manager Thompson of the Power Company.

Manager Thomson says there are people who have informed him that they prefer taking chances on the street cars than on some of the detestable taxis now in service, but they rate: recent being made the object of insulting remarks by a crowd when they board or alight from a car. There are not sufficient police to cope with this situation, and Manager Thomson has been asked the question "what are the Mounties doing here?"

Time For Action.

The annoyance to the public, yesterday, patronizing the cars was reported to have been the worst at any time since the service was resumed. Manager Thomson says the public would like to know if this sort of thing is going to be permitted to continue indefinitely, or is it going to be stopped by the employment of the Mounted Police, brought here for the protection of the citizens.

Union and Buses.

The Union men had their representatives before the City Council yesterday setting forth their plans for a bus service in competition with the street cars. They explained to the Council the kind of carriages they intended to employ. The Mayor and Commissioner of Public Safety have been given authority to act in the matter and their decision in regard to granting licenses to the Union will be announced later.

MILITARY NOTES.

It was announced yesterday morning that the following appointments, promotions and retirements had been gazetted: 16th Infantry Brigade, to be brigade commander with the rank of colonel on organization, Lieut.-Col. H. Montgomery Campbell, O. B. E., Sept. 16, 1920. To be captains: L. S. Doyle, M. D., No. 7; H. J. Pugsley, M. D., No. 7. Lieutenant supernumerary and brevet captain, J. L. Sullivan, M. D., No. 7. Confirmation of rank: Lieutenant (sup.) F. W. Benn, M. C., Northumberland Regiment, Nov. 19, 1915.

which comes out through the exhaust. Many Carbon Removers contain a fuel oil, which causes smoke.

D. B. Carbon Remover

CONTAINS NO OIL OR GREASE. The process of removing Carbon with D-B Carbon Remover is similar to the way Peroxide works on a wound. A demonstration on a spark plug will show you the effect it has on carbon and the way it works in the cylinder. Take out No. 1 spark plug (be sure it is warm, not hot.) Fill it with D-B Carbon Remover. Watch results. D-B Carbon Remover is the new scientific way of removing carbon. The chemical action separates the carbon from the metal in such a way that it is pulverized at the first explosion and passes out through the exhaust. Won't interfere with spark—Won't hurt metal—Won't affect oil.

KING STREET GERMAIN STREET MARKET SQUARE

From Toledo, Ohio, To Charlottetown

R. B. Brehant and Wife Passed Through the City Yesterday on Up-to-Date House Car.

House boats may be comfortable but the very latest thing in house car comfort was seen yesterday, when R. B. Brehant and wife passed through the city on their way to Charlottetown in their "Auto Rest." They left Toledo, Ohio, on June 15, and are on their way to Charlottetown P. E. I., to visit Mr. Brehant's mother in that city. The house car has every modern convenience that could possibly be imagined in such a vehicle as, an ice box, clothes press, stove, beds, pantry and many more things that are aids in a modern home. In conversation with Mr. Brehant he said the roads were in fairly good condition, and that some days they were able to cover 200 miles under favorable circumstances. He advised that the roads committees get busy and repair those roads that are in bad condition so that next year the influx of American tourists will be greater than this present year which surpasses 1920 in tourist travel in the maritime provinces. The party are not trying to make any speed record and have been taking things fairly easy, and have made several trips of two or three hundred miles out of their route in the different states which they passed through.

NOTICE.

Members of No. 1 Salvage Corps and Fire Police will assemble at their rooms, No. 3 Engine House, at 3 o'clock this afternoon for the purpose of attending their annual outing. By order of the Committee.
