Never was there a greater travesty of legislation The first weeks of the session were alowed to lapse without any work, the whole power of the Government having been devoted to the attempt to defea the Liberal Government of Ontario.
When the members who had been sent right and left to secure that object reurned to their places, they found nothing to do. Great as Mr. Blake's powers were admitted to be, he astonished his most ardent friend with the mastery he displayed of every question that came before the From the most minute details to the widest generalizations, he proved him-self thoroughly informed. Were the House of Commons less a compact of partizans, his labors would have been requited by a large measure of success. The sym pathy of the House was usually with him, but the strength of the majority made individual effort hopeless. At one time there were indications of a split in the Conservative ranks, but Sir John tided over the difficulty for the nonce by coneding everything to the Bleus. Even in the License Bill he allowed Quebec to be sion that Quebec governs the Dominion and is the only province whose auto Sir John dare not invade with his policy of centralization. The few government measures that pass into law to-day all bear the one characteristic—invasion of

provincial rights. And so this desolate session comes to in end. With all its noise and nonsense it was only a huge imposition to give con-stitutional form to the tyrannical commands of one man. It is a good thing, ne as strong as he might be, the mischief he could have done would be incalculable. We may therefore be thankful that we have not to deplore greater misfortunes than the squandering of a few millions and the degradation of parliament.

[Special to Daily Telegraph.] An Alleged New Pacific Scandal-How Election Funds are Provided, Etc.

OTTAWA, June 1 .- The Toronto Globe of to-day publishes a statement, apparently involving a fresh Pacific scandal, of a very grave character. It says:—"Section B of the Canadian Pacific Railway has been in the hands of a contracting firm, consisting of Alex. Manning, of Toronto, Peter McLaren, of Perth, John Shields, of Toronto, and J. J. Macdonald. For some reason, better known to the Government, the whole management of the business was, at the instance of the Government, placed by power of attorney in the hands of Messrs. Shields and Macdonald, who had but small interests in the contract. Under the power of attorney Messrs. Shields and Macdonald controlled the purse strings, although Messrs. Manning and McLaren financed for the concern. Here was an opportunity in this enormous contract, the largest let by contract since Sir Hugh Allan's, for election advances to be recouped in the final settlement. YARMOUTH, N. S., Oct. 15th, 1882. Drs. BENNET & HEBRON, 43 Horsefield Street, St. John. DEAR Str.-I desire to express my feelings profound gratitude to you who have helped me

Dran Sin,—I desire to express my feelings of profound gratitude to you who have helped me so much by the use and application of your wonderful Pad. I was sick about two years and spent a large sum of money, but received very little benefit until I tried your absorptive treatment. When I commenced using it this summer I could scarcely walk across the floor, I had such a weekness across me, and now I can walk a mile at a time and attend to household duties, and feel only too glad to recommend this truly great treatment to any person or persons who may be afflicted as I was. You are at liberty to make any disposition of this note you may deem proper.

MRS. R. HIBBARD.
